Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Arts, zoo and museum are essential services which enhance the city and provide knowledge, research etc which if funding is decreased will have adverse effects on those organisations and then affect the public. Ongoing programmes some of which are long standing will possibly be curtailed to the detriment of the organisations.

cutting funding to citizens advice will adversely affect the community and particularly minority groupings who do not know other way of seeking help.

Parks and recreation facilities are part of a healthy city, both ecologically and its people, reducing activities due to funding costs will be detrimental to the future of the livability of the city.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Ecology is vitally important, little shoal bay is an wet land which helps prevent pollution entering the sea, green areas via tree planting are carbon sinks all assisting the reuction in global warming

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Funding arts and culture groups, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: my grandchildren need a healthy environment, with culture etc so they have a good life. they also deserve support in parks and open spaces, climate action and sustainability

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?):Community programme delivery, Community leasing charges, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It is important to keep some skin in the game regards AIAL.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Already pay very high rates. Do not see the value I get for the money presently paid.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library hours and services, Parks and open space low / no mow areas

Tell us why these are most important to you: I believe money is wasted on programs that are not patronized well.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Funding arts and culture groups, Community climate action and sustainability

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Anything that ensures rates are kept to a minimum yet delivers maximum benefit to the actual ratepayers has my support. There are many council activities that just do not warrant the money spent on them. Please review all of them.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Some community operations are worthwhile and would be destroyed by reducing funding. Restarting them again in better times is inefficient and it would be better to keep them going.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Council should stay out of commercial activity in my opinion

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: Debt shouldn't be used to fund normal expenditure only capital investment

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Future storms are very likely to be more frequent and worse

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I use the parks, tracks and value the environment

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Parks programme volunteers, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: Pest control is serious problem with large areas of native bush where rodents and possums are rampant without control

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Parks programme volunteers, Community climate action and sustainability, Environmental restoration and pest control

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Do not proceed with any reductions and instead unfreeze the

Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package.

An increase in general rates, a request for central government support, new targeted rates, and a lift in parking charges as alternative funding mechanisms.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: An extra rate increase to cover what should be already calculated intuitive normal upkeep. We cannot add retrospectively to the bill with every weather event, it should be BAU to plan for these.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Youth programmes, Environmental restoration and pest control

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Local community events, Parks and open space low / no mow areas, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Communities are already struggling

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Mix of options is a better outcome

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: If we have to then we have to, max of 10% though

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Community is important but environment can be supported regionally or through central government

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Community leasing charges, Youth programmes

Tell us why these are most important to you: Community is important

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Parks programme volunteers, Environmental restoration and pest control, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tātaki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: 'I would not proceed with the following:

- Keeping the reduced number of public transport services. This is very shortsighted and will further discourage people from using public transport as it will feed in to the idea that it's not convenient or widely available, so they will just stick with their personal vehicles - adding to congestion and pollution.

- Reducing funding to Tātaki Auckland Unlimited and regional services will further destroy our city's sense of culture and greatly affect people in our community that are in the most dire need of additional funding.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This is not a good time to sell the shares, as the market is at a low point. Additionally, it is vital that ownership of our airport stays (if only somewhat) in the hands of the public.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set higher general rates and make use of greater debt. Improving our infrastructure to make the city more robust against future extreme weather events (which are predicted to happen more and more frequently), is vital and reducing our spending in those areas

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The recent flooding events have proven how ill-equipped Auckland is to handle severe weather events. I had a friend pass away during these events. We need to act now and improve our stormwater infrastructure.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community climate action and sustainability, Protection and restoration of local waterways, Local waste minimisation initiatives

Tell us why these are most important to you: Reducing funding to critically needed environmental and water quality initiatives would be devastating! The mayor and the council need to find other ways, like increasing general rates to cover our shortfall.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Community leasing charges, Local community grants, Library hours and services

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I support more investment in buses, walking and cycleways. We should be focusing on improving and increasing bus services.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It is so vitally important to not turn the other way when it comes to taking action against climate change and its consequences. Many of the proposed cuts are so incredibly shortsighted and will do so much long term damage to our city. Increase general ra

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do NOT proceed with reduced public transport

Do NOT proceed with reduced funding to TAU - important for the future economic growth

Do NOT proceed with reduced funding for homeless services or community empowerment. These are important for equity across Auckland

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Very short-sighted, and probably not the best time to sell

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: With the expectation that this would be a one-off and that the proportion of NETR and WQTR would be back to initial split after.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Devonport-Takapuna Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: There is enough business support in the region, and it is desirable enough as suburbs that reducing public funding for "nice to haves" short-term is the best option.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?) Arts / community programmes and services, Funding support for youth activities, Charges relating to community leases and licences

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library hours and services, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: Libraries provide a safe, free, equal place for everybody to have access to information. That should be a basic human right.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Funding arts and culture groups, Local community events, Youth programmes

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Funding arts and culture groups, Library hours and services, Protection and restoration of local waterways

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport needs more funding.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Reduce funding of these initiatives

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local waste minimisation initiatives, Local business support

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Funding arts and culture groups, Parks programme volunteers, Parks and open space low / no mow areas

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not remove funding for local Early Childhood Centres, which provide an essential service to our communities, which many families who work rely on. I would not reduce funding to education services and social services activities, which should not be grouped with arts and culture activities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Auckland Council needs a say in how Auckland Airport operates and develops in years to come, including how public transport links the city to this essential transport hub.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: We all need to pay to support the city.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Require developers to contribute to improvements to infrastructure in the areas they are adding additional properties, which would overwhelm the current systems. The Northcote development is a great example, where the new Greenslade Reserve prevented flood

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: The only change I don't support is increasing annual building maintenance charges for groups with a community lease of a council-owned building and introduce an

administration fee for all community lease applications

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community leasing charges, Local community grants, Environmental restoration and pest control

Tell us why these are most important to you: The grants will help local groups provide activities / support to the community still. The Kauri die back efforts are essential, and the community organisations that would be impacted by the lease changes are essential

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Funding arts and culture groups, Parks and open space low / no mow areas, Community climate action and sustainability

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I don't think we need the food scraps bins now - it's not important to spend money on

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The ECE funding is essential to those of us with children who are not entitled to any benefits and have to work to survive. The service they provide at a reduced rate to other private operators is incredible.

Important privacy information

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not reduce regional services that support community cohesiveness. Auckland has a lot of social issues and these will get worse if basic services aren't available.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Aucklanders should have a stake in a primary piece of infrastructure in their city. Selling the few shares left in Auckland Airport is asking for problems further down the line where council will have no say.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Come up with a better option. Auckland is a noisy polluted and stressful environment to live in, the Hauraki is Auckland's toilet bowl, and those creating a poor environment are freeloading by not paying for the noise, pollution and stress they create and

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Patch jobs are a waste of money and time on defunct infrastructure if council haven't been maintaining what is already in place to mitigate disaster. Get the basics right - stop building over green spaces and wetlands, clear out drains regularly, rehabili

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: More needs to be done in targeting residents of their responsibilities - maintaining bushland/trees on their properties, removing pest plants, restrict the clearing of native trees for gardens and non-native flora, more accessible community compost hubs a

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Local waste minimisation initiatives

Tell us why these are most important to you: Te Ao Maori. Get the foundation right in the environment and the rest will unfold accordingly.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Community leasing charges, Youth programmes, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? Waste generation costs aren't high enough and current curbside practices need a rethink. Residents should be encouraged with lower costs if reducing their waste (smaller bin size shouldn't have a one-off fee once surrender old bin to be recirculated). Com

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Car reliance driving toxic pollution, congestion, road rage and poor driver behaviours gets more ridiculous as the years pass. Work with schools to get their kids walking to school, work with the police to put up red light cameras and fine drivers blockin

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Parks and open space low / no mow areas, Local business support

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Parks programme volunteers, Parks and open space low / no mow areas, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Shared and co-working workspaces, e.g, GridAKL and Laysight building.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not support the proposed reduction in funding for Tātaki Auckland Unlimited, regional services, local board funded activities, and regional contestable grants. Such a significant reduction would have a detrimental impact on Auckland's culture, art, and community sectors, as well as the local economy.

These services play a crucial role in fostering social cohesion, improving the quality of life, and making Auckland more inclusive and attractive to new residents and businesses. Moreover, they contribute significantly to the local economy by creating jobs and generating revenue for businesses such as restaurants, hotels, and retail stores.

A reduction in funding would not only have an adverse impact on the quality and diversity of education in schools and communities but would also result in job losses and the closure of some organizations responsible for delivering these services.

In addition, the reduction in funding would mean less economic flow in and around the events that are affected, resulting in fewer opportunities for businesses to generate revenue and contribute to the local economy. Therefore, it is not the time to cut back on such vital services that are critical to the city's growth and prosperity.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: In order for our communities to grow, we must invest in them. We are still recovering from the impacts of COVID, floods, and cyclones, and losing these initiatives will only exacerbate the challenges that our communities are facing. It is crucial that we

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Funding arts and culture groups, Community climate action and sustainability, Protection and restoration of local waterways

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Community leasing charges, Library hours and services, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport reduction - my local buses are consistently cancelled and end up being packed so need more services if anything

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: What is the return on the shareholding? If it isn't financially beneficial to hold them then sell

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Given current levels of CPI, 4.66% is reasonable

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Local waste minimisation initiatives

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Community leasing charges, Library hours and services, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Auckland Transport . Bus Services need to increase to achieve other objectives of the city. Road maintenance needs to increase, but capitol expenditure on roads, footpaths and cycle ways has to stop.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Auckland needs a say in our most important communication hub. The airport and the city need to be in sinc - not profit driven.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: It is a good balance.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Flood mitigation is essential. A managed retreat from known high risk areas is a must.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Work on the enviroment include pest control is important. The work in Little Shoal Bay is fighting nature and it will win irrespective of how much money is spent.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Parks and open space low / no mow areas, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: Pest control and waterways restoration are a continual battle. Any reduction will destroy the progress already made costing more in the future. If mowing is stopped over a short period of time it will become the norm with an overall loss of amenities. We

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Community leasing charges, Local community grants, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? Bin change size fee. If bin size is to increase impose the higher charge. If bin size is a reduction - no fee.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not reduce the public transport services. We're already running less than optimal, you can't encourage users to use services if services do not exist or if they are unreliable, it moves us away from our climate change goals, and have you seen the traffic this year so far?! It'll be worse if we cut PT.

I would not reduce funding to Tataki Auckland Unlimited. Without those services in Auckland, we have nothing in this city. All council would do is lay tar seal and collect rubbish. We need these services and venues to breathe life into the city. What's the point without them?

I do not want to see regional services, local board funded activities, contestable grants, or ECE services reduced. These will hurt those that need support the most and hurt our resilience. What a bully this mayor is, thinking that he can cut these services!

All these reductions cost a minimal share of the annual budget.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It feels short sighted, airline travel is booming again and with light rail auckland will be a more popular destination, and the airport will generate more revenue (and pass that to the council in dividend payments).

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Rates increase should be at inflation + 1%. Inflation is higher than 4.66%. It makes no sense given what our city has gone through this year to not match inflation.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Storms are going to get more common and they're going to get worse. We need to invest now in preventing the worst of the storms.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I do not support addressing seawater inundation at little shoal bay. The environment is better off returning this to how it originally was - mangroves. That provides us more resilience for dealing with tides and climate change.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Funding arts and culture groups, Library hours and services, Youth programmes

Tell us why these are most important to you: Because they are.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Local community events, Local waste minimisation initiatives, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

This Mayor has manufactured this crisis. He's blind to what problems we're solving with these services, because he's too arrogant to empathise with those who need them. The services he's planning to cut are a fraction of the annual budget, it's penny pinc

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not support the reduction of any of the above. These services are all essential for our city and I'm disappointed they aren't being recognized as such.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Library hours and services, Community climate action and sustainability

Tell us why these are most important to you: I have young children and we use the library frequently, attend a range of community events, and are concerned about the effect of climate change on their futures

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Local community grants, Parks and open space low / no mow areas, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I'm really concerned that you are proposing cuts to libraries, arts programmes and a host of other things that give Auckland its community feels and vibrancy.

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: If you where to make any of those changes it would take decades for the funding for Tātaki Auckland Unlimited and early childhood education services for example to get back to a place where they need it.

Put up rates, then its fair for everyone in Auckland. We would paying our fair share and it would be an even playfield.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Operating spending reductions is NOT an option at all.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Putting up rates is fair for everyone in Auckland. We would be paying our fair share and it would be an even playfield.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library hours and services, Youth programmes, Local business support

Tell us why these are most important to you: You cannot afford to reduce any of these things. This is what helps to make our communities better. You would be crazy to reduce or cut any of it.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?):

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? bring back Accommodation Provider Targeted Rate (APTR)

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Just borrow from the GOVT, but up rates and no NOT reduce Operating spending!

If you reduce Operating spending you will have a massive upraise from the public and you can't afford to do that. At this moment in time the Aucklander, ratepayers and the rest

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The following areas of Auckland services and support are far more important than rates rises : The planned cuts are short term thinking ...not long term wisdom . The costs saved from removing any funding from these programs will lead to much greater costs down the road in 5 to 10 to 20 years. Find another way eg increase rates and levies for Auckland Industry . They can afford it .

Arts/culture infrastructure

Climate action

Community empowerment programmes

Cycling/pedestrian improvements

Early childhood education centres

Education programmes (particularly about sustainability)

Homelessness prevention programmes

Local board community grants

Public transport funding
 Stormwater infrastructure
 The Citizens Advice Bureau
 Youth centres

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: What we earn from dividends in the present market is not what we will earn in the future market . Earnings from dividends will increase as the world recovers from the pandemic and current inflation levels .

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Many Aucklanders can afford higher rates .For those that can't provide means tested rates forgiveness programmes.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Climate change extreme weather events such as atmospheric rivers will continue to increase in frequency, duration and intensity ...We need infrastructure to adapt to that fact ...and we needed it yesterday.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: It's my community and all the proposals are important to maintaining and strengthening our position in a changing environment.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Funding arts and culture groups, Youth programmes, Community climate action and sustainability

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?):

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I am particularly concerned about cuts to ECE, libraries and other council services which will hit poorer families hardest and lead to further inequality long term - and a less pleasant city to live in.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Invest in Transport, this has to be supported to reduce climate change. Invest in better public transport with buses from peripheries such as helensville directly to Britomart. Rapid rail to peripheries such as helensville and albaney ideally.

Keep services such as citizens advice and support services such a community welfare hubs and youth services including early childcare. They reduce pressure on people and stops some of the ambulance at the bottom of the cliff costs otherwise.

Increase rates that invest in infrastructure, water, transport.

I do support the stopping of local community board spending, they seem to be less value for the majority.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Privatization increases benefits for a privileged minority. As an island nation we cannot 'afford' to lose access to an essential asset and service. The statements here are incredibly biased in their phrasing. One could equally say as occurred with priva

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: We cannot afford to erode public transport, the city seriously suffers from congestion and climate change has to be addressed.

Infrastructure around transport and waste water and water supply has to be addressed. We have population growth without suffici

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:Has to be done.

We suffer from long term lack of planning for this.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Everything prioritized is essential, and the events cancelled such as movies in parks were just serving a minute group.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Local waste minimisation initiatives

Tell us why these are most important to you: They impact on everyone and given current water infrastructure problems these are all necessary local initiatives adding to what should be the Auckland regions priorities also.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Local community events, Parks programme volunteers, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Extend public transport infrastructure

Extend wastewater and clean water management

Sustain community childcare and youth services.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Parks programme volunteers, Local waste minimisation initiatives

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Community leasing charges, Parks and open space low / no mow areas, Community climate action and sustainability

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Auckland is so great with the facilities it provides to its citizens and tourists. Let's not change.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Don't sell assets.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: I agree with rates increases and debt to fund facilities.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We need to fund climate change contingencies.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Natural environment and community activities are our absolute priority.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library hours and services, Parks and open space low / no mow areas, Protection and restoration of local waterways

Tell us why these are most important to you: Libraries are essential to provide a community space for vulnerable and robust members of our community. Waterways restoration are climate change mitigation. Parks are community spaces.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Parks programme volunteers, Local waste minimisation initiatives, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? Please do not reduce funding to the library and Auckland art gallery

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

I don't know

Tell us why, and which reductions you would not proceed with if any: I trust local government when they say cuts have to be made, I just want to have people's preferences and concerns to be heard (including mine) and considered. I think that community projects and service for low income person's (youth, elderly, impaired, unemployed) should be treated gently (i.e community houses etc.).

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: I do not believe in borrowing money in order to make investments, lenders are in the business to make money, if they could make more money out of AIA then they would buy shares there and not lend to you.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Do not increase rates, at least not simply on property value, we are all part of this community, property owner or not.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Do what you have to do, but if this is a one off event, why does the spending increase have to per year?

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We need our community centres thriving, providing manaaki and a place for connection, support and recreation for our hāpori. People are lonely, stressed, and struggling - community houses, organisations and the programs they offer directly support individuals and whānau in the community and have a positive influence over mental health and wellbeing. This is needed at this particular time now more than ever due to an unprecedented and stressful few years. I would not proceed the following: Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

Reducing local board funded activities across all boards to save \$16 million

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Rates in Auckland are so high and the cost of living is crushing kiwi families.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Funding arts and culture groups, Community programme delivery, Local community events

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Library hours and services, Local waste minimisation initiatives, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Many of the budget cut proposals will cause a sharp decline in the quality of life of the city if implemented. From libraries to cultural programmes to social services, these services are not luxuries, they are essentials - integral to the life of a vibrant city. They must be protected.

It is clear that the rates increase necessary to maintain these programmes and services (\$6.50 per week - not much more than a cup of coffee) are not beyond the average ratepayer. What might actually help households is changing the billing to monthly payments, like power and water. If they can do it, I am sure the council can manage it.

No-one wants to live in an efficient city if it's a cultural desert. What is more, no-one wants to visit a city that is a cultural desert.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It is essential for the council to have a say in a piece of infrastructure that has such an enormous impact on the daily life of the city, from employment to transport to tourism. If the 10% shareholding is sufficient for a strong voice with AIAL then it

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: The response should also include the option to make greater use of debt *and* set a higher general rates increase. It seems odd not to include that option to be able to maintain current services and protect the life of the city.

My understanding, based on

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I have seen the impacts of the flooding first hand. Flood preparation and response is going to be vital in coming years. But it should not come at the cost of other services - we need both to protect the life of our city.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Maintaining the life of the city happens at the local level and local boards are well placed to fund local events and activities. I oppose cuts to local board funding as that would inevitably lead to a decline in the quality of life of our city.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: As I said above, maintaining the life of the city happens at the local level and local boards are well placed to fund local events and activities. I oppose cuts to local board funding as that would inevitably lead to a decline in the quality of life of ou

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?):

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

My particular concern is the threat to library services. I have used libraries all my life and I am proud of Auckland having the biggest library system in the southern hemisphere. When my family was young and I had little spare income, the North Shore lib

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Leadership is required to put the truth before Aucklanders: that our rates are not excessive.

I do think that the early childhood education provision is a good example of a legacy arrangement that should be phased out. Community grants should be rationalised and reduced.

Cultural institutions should not be defunded without a serious understanding of the long term impacts and a realistic assessment of costs - e.g. a library that has short opening hours is very expensive. Fixed costs remain and there's only a marginal saving on operational costs, with a big loss of benefit.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Owning airport shares is not a necessary council activity.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Take a serious look at the rates in NZ and the value for money Aucklanders receive. Adjust accordingly.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why: It sounds plausible except that there is no detail as to where (only) \$20 million will be spent. Cannot existing budgets be realigned to cover whatever the \$20 m is for? The lack of specifics is so strange - sounds like a political gesture.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Priorities feel fit for the purpose.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library hours and services, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Community programme delivery, Local community grants, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Public transport should not be reduced. There is chaos as people return to cars because public transport is unreliable.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Public transport should not be reduced. There is chaos as people return to cars because public transport is unreliable.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Communities are important, and we need to support our community to thrive. Reducing their funding will affect our community for the worse, which is not ok.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: We need to think long term. We need to keep it as an asset, so sell some but not all. Losing our own asset

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Devonport-Takapuna Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: There is a need to call out people to be active and healthy within this area. This includes, cycle ways, quality fields, play spaces. This in turn helps well being of our community.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Contestable and non-contestable grants, Arts / community programmes and services, Funding support for youth activities

Tell us why these are most important to you: We need to support activities for our local communities and our youth to be active and engaged in our community at a local level. With the cost of living going up, it is important to still give our youth free or low cost activities to keep them out of tr

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?) Library opening hours and services, Environmental restoration and pest control, Environmental volunteers in local parks

Hibiscus and Bays Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:It is important to Provide assistance to those local groups that assist youth by encouraging connections, collaborations, and resilience amongst these organisations; a luxury that many of these groups individually cannot afford but results in an integrate

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Local community events, Local community grants

Tell us why these are most important to you: We need to support activities for our local communities and our youth to be active and engaged in our community at a local level. With the cost of living going up, it is important to still give our youth free or low cost activities to keep them out of tr

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: It is important to Support our local community organisations, within available budgets, to deliver services that meet the needs of our community.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Local community grants, Youth programmes

Tell us why these are most important to you: We need to support activities for our local communities and our youth to be active and engaged in our community at a local level. With the cost of living going up, it is important to still give our youth free or low cost activities to keep them out of tr

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?):Library hours and services, Parks programme volunteers, Community climate action and sustainability

Rodney Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: We need to support activities for our local communities and our youth to be active and engaged in our community at a local level. With the cost of living going up, it is important to still give our youth free or low cost activities to keep them out of tr

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Grants for community groups / organisations, Community centres programmes and subsidies for hall users

Tell us why these are most important to you: Keep money coming through to keep people in the loop.

Upper Harbour Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education e.g. our local streams programme (Sustainable Schools), Local grants e.g. community grants programme and rate remission grants, Community programme delivery, e.g. connected community programmes

Tell us why these are most important to you: We need to prioritize our community and provide programmes they can engage with.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

You should familiarise yourself with this policy before submitting this form.

Re: Auckland Council Annual Budget Consultation

I am committed to ensuring that Auckland Council, through their Annual Budget, continue to focus on and invest in communities being physically active and the development of hauora through being active.

The value of sport and active recreation is demonstrated through the many contributions that it makes to individuals, whānau, communities, and Tāmaki Makaurau as a whole:

- Underpins good health and supports good mental health
- Teaches basic and more advanced physical skills, and essential life skills
- Promotes connection, social cohesion and a sense of belonging
- Delivers personal financial and wider economic benefits
- Provides a platform for achievement, which helps build confidence

A reduction in funding has the potential to affect the income generated by local business that support community sport and recreation. The suggested cuts will also adversely affect participants by:

- Looking at the way the community is moving with our growing family, if prices start heading upwards and our children have less opportunity to be active in the community we will have to look at moving out of the Auckland region. Increase of costs for Aucklanders on top of already rising costs will cause mental health issues within the Auckland region.
- The cost to play sport for my children will rise and therefore they may not be able to play as we won't be able to afford it, for other families this may cause obesity to rise within Auckland.
- If we are not looking after our land this does not align to Maori values or respecting the essence of Te Tiriti o Waitangi

Given these potential affects, I strongly recommend that Auckland Council reconsider the following proposed cuts for the health and wellbeing of all of Tāmaki Makaurau

1. Regional Sport and Recreation Programme Grants
2. Regional Recreation Facilities Operating Grant
3. Pragmatic approach to increases in building maintenance and lease administration fees
4. Local Board Operational Funding in the areas of
 - Field maintenance and mowing
 - Local community grants e.g. Sport and Recreation Events
 - Parks planning
 - Sport and Recreation Facility Planning
 - Parks activations

Auckland Council needs to ensure they prioritise funding and opportunities that promote community development and community engagement. We need to support our communities to mitigate the potential risk of crime rates and mental health issues.

Your sincerely,

16124

Annual Budget 2023/2024

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Community centres such as Mairangi are super important and cannot do what they do with smaller budgets than they already have. They are key to offering places for people to learn, share, be creative, appreciate their community, and build connection.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

Hibiscus and Bays Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Community centres such as Mairangi Arts Centre are super important and cannot do what they do with smaller budgets than they already have. They are key to offering places for people to learn, share, be creative, appreciate their community, and build connections

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Funding for arts centres and partners, Community programme delivery, Local community events

Tell us why these are most important to you: Building community is so important to core happiness

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not reduce regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Funding arts and culture groups, Library hours and services, Protection and restoration of local waterways

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?):

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Any reductions now will have to be clawed back in the future, if we want to live in a decent city.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Please don't deal with short-term problems by selling the family silver.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Bite the bullet and get it done.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Human-induced global warming is here. Let's get on and deal with it.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: They are making Kaipatiki a decent place to live in.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Parks programme volunteers, Community climate action and sustainability, Environmental restoration and pest control

Tell us why these are most important to you: The quality of our natural environment is critical. Everything else hinges on it.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Funding arts and culture groups, Local community events, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Cutting services now hurt the most vulnerable later.

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Please do not reduce funding for community programmes, as it is through community activities that the Auckland city lives. Volunteers in parks, and environmental groups are helping to ameliorate climate change in their own back yard, and are helping Auckland achieve its part in a pest-free New Zealand. These groups need AC support. Water quality is also vital for a healthy population.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: After the current airport upgrade, the airport will turn a profit, year after year, as it formerly did. This in turn will hold rates.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: In a previous AC referendum, Aucklanders showed strong support for The Natural Environment Targeted Rate, and Water Quality Targeted Rate. It would be ignoring this support to reduce these, and be undemocratic. The work, and workers, are critical as clim

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The impact of future weather events could be mitigated by 'spongier' city planning, i.e. more wetlands, water gardens, and much improved storm water systems.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: The Kaipatiki Local Board has an excellent understanding of the needs of our community, its facilities and land use. All the priorities the Local Board has chosen are vital.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Library hours and services, Environmental restoration and pest control

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Funding arts and culture groups, Community leasing charges, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Kaipātiki

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: I want you to prioritise community services over things like international event funding, those things dont return the cash to Auckland that they are purported to, why arent they on the table to be cut. reduce funding for stadiums which should be cost neutral now given their ages. what kind of monsters are you that you want to cut child care? there are only 10 of them, its only \$1m, dont be ridiculous. Put yourselves back in LGNZ, it serves no purpose not to take advantage of what they collectively bring to the table.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Selling ALL the shares to mitigate the pandemic/cyclone effects which are blips in the councils history is shortsighted and unworthy of decent governors. they contribute significantly to Auckland's prosperity and have for many years, decent borrowing man

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: its a fine line between debt/shares and rates this year. Strike a balance between the 3 and demonstrate transparently and in an understandable way how this will contribute to the longevity (not just the now) of Aucklands finances

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: because its going to continue to rain and Auckland can't handle it, its negligent to keep making people vulnerable

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Community services support the vulnerable, i would rather you cancelled the contributions to the big events than reduce this funding

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Local community grants, Library hours and services

Tell us why these are most important to you: community grants an programme delivery support a broad range of community members and punch above their weight in terms of delivery for money received. Is this America? how do you people not understand the value of libraries? Do you ever use them? they a

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Parks and open space low / no mow areas, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? DONT disadvantage lower socio economic areas by increasing costs for food waste services introduction

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Any reductions now will have to be clawed back in the future, if we want to live in a decent city.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

Please don't deal with short-term problems by selling the family silver.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Bite the bullet and get it done.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Human-induced global warming is here. Let's get on and deal with it.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: They are making Kaipatiki a decent place to live in.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Parks programme volunteers, Community climate action and sustainability, Environmental restoration and pest control

Tell us why these are most important to you: The quality of our natural environment is critical. Everything else hinges on it.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Funding arts and culture groups, Local community events, Local business support

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Cutting services now hurt the most vulnerable later.
