Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Early childhood education, I think some children benefit from this but it could be targeted to the most needy such as the children of parents with english as a second language.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Our debt levels are dangerously high and do not leave us any option to borrow in the event of further natural disaster or other unexpected event. Also Interest rates may continue to rise.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: We are continuously living beyond our means and must start to balance the budget, borrowing continuously is irresponsible.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Better to pay a little extra and be prepared than risk life and safety of people.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: The library is the heart of our community. I am strongly in favour of initiatives that connect urban dwellers with our native flora and fauna and support fauna in particular to survive in an urban environment.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: Our financial situation is desperate and we sadly must make some sacrifices. If we can get our budget back under control then we could start to gradually expand this spending once more.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I feel the incredibly expensive boardwalks in the Waitakeres are a waste of money and are damaged every storm and need to be rebuilt constantly. Please reopen all walks in the Waitakere ranges and cease construction on the paths immediately.

Please consu

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Holding shares is not AC core business.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: This is priority...focus on storm management and build sustainable infrastructure.

Force Govt to finance Auckland investments...after all Govt killed our economy by keeping on extended lockdown. Government must take responsibility for their actions.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Focus on crime and safety issues and upgrade water infrastructure. Maintain current roads

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Not acceptable to live in a degraded community

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop investing in climate change and focus on future storms preparation.

Important privacy information

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I notice the most the reduced bus timetables. I agree with the majority of the changes, but I would prefer to see slightly more frequent bus routes

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: As we were shown recently, storm preparation and response is very important.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Active communities programme, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: The environment of the Orakei area has some nice spots, that I would hope are taken care of.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: I support this, as long as the funding for these activities can be expected to increase over time, rather than decreasing when the budget needs to be changed in 2 years.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I have been really impressed by the way that the AT Mobile app has handled the rail network rebuild. I hope that the app's functions will not stop working if the budget for it decreases too much.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I would not reduce funding to Public libraries and Swimming pools, but other community and arts services can be reduced (not cancelled) where appropriate

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: As time has shown us, selling off important things like airports or infrastructure is almost always a spectacularly bad idea long term! I would support a reduction to 15% to help reduce debt, but no more than that :(

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: \$154 a year is manageable, especially when compared to the huge jump in cv's home owners have enjoyed over the last few years

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Our infrastructure clearly can't support the increase in housing we have built or planned to build, better that we upgrade is now than regret it later on

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Focus on improving infrastructure (such as water, drains etc), transport and local events before buying reserves and building community centres - unless it is appropriate due to an opportunity that will save money long term

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Environmental programme volunteers, Environmental restoration and pest control

Tell us why these are most important to you: Encouraging/training volunteers to reduce council costs sounds like an awesome idea!

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: See previous notes

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Do you have another way to raise this amount of money?

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: If rates are too high, it becomes unaffordable

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: this needs to be done

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Community programme delivery, Environmental education

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. - Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any: No further thoughts

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: No further thoughts

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: No further thoughts

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: No further thoughts

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: Too much is given to AT to try to reduce the use of cars. They are creating too many cycleways and narrowing roads. Auckland is too spreadout, too hilly and the weather is too changeable for the majority of people to ride bikes. The train system is not co

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and

Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: As above... more trees, less houses being built on sections that are too small, less money spent on road redeveloping.

Do you think there are other areas where we could make savings to our local budgets? '-

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We need vibrant t and lively safe city.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: It's not a lot but there's a lot to be done

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Community leasing charges, Local facility hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please keep growing a lively culturally mature city.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Why don't we look at parking permits to raise revenue like other world cities. Charge Aucklanders a fee for parking their vehicles on public roads. This would also reduce street congestion if implemented.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Tell us why, and which reductions you would not proceed with if any: Increase debt, not rates. Borrow up to the maximum \$140 million. Don't sell the golden goose ie airport shares. And don't reduce local board \$

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Increase debt not rates

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Increase debt, lower rates

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Increase debt not rates

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why: Council should increase debt and borrow more money and not reduce services

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? If reduction in bus services then stop the ridiculous \$spend on cycleways and sort the roads for car use out.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Get rid of Auckland Transport road planners and their maniacal denial of car users and obsession with cycleways to the detriment of car users. Our public transport is rubbish, we are reliant on cars so get with the programme and sort the roads out.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Phil Goff and Jacinda Ardern destroyed Auckland, so we need the money to fix it

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Rates need to be halved and council spending even further. Ratepayers can't keep paying for Labour's mistakes and destruction of the city

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Auckland is poorly built and maintained, it would make no difference. We need to think long term.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: The racist Maori nonsense needs to stop immediately

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local community events, Environmental education

Tell us why these are most important to you: Waste of money for years

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Need to save more money, lots of wasteful spending continues and rates need to go down.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Absolute rubbish. ratepayers have been blackmailed out of their hard earned money for too many years. This nonsense needs to be stopped. Rates need to go down. Council staff wages need to go down.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

reducing the number of council staff and reducing their wages. Rated need to be reduced by half.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I am sure there are plenty of wasted resources on services mentioned above that are to be reduced. Not only that, I also believe that plenty of money is wasted on red tape and inefficiencies by the council and its leaders. Stop meeting too much and just go ahead with the essential community projects and economic developments. More walk than talk please.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: It would help to mention how much the dividends actually are so that we can make a more informed choice here.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Stop increasing rates. Just use the current millions the council is getting already more efficiently. Stop wasting our taxes on projects that are too expensive and poorly managed (such as the transport rails in CBD - why is it taking ages - so much resour

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Find a way wherein businesses and developers have incentive to make these changes. Find solutions to manage impact of future storms by innovation and making use of the current resources. Stop increasing and burdening your people with increased rates when

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Why would the new meadowbank community centre be a priority? Seems like it is not urgent and necessary. There are already plenty of community halls unused for the most part of the week (including halls of churches).

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: They are the most essential that can directly impact safety and basic necessities for human life to be sustained

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: It is good to tighten the belt when we have less money to go around. Let's focus on the necessities - anything that would impact people's basic living needs such as food, clothing and shelter.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	1
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It would be great if the council thinks of ways to reduce spending instead of increasing rates. Based on my experience with services offered by libraries, toilets and green spaces in the orakei ward, the council could have done better maintaining the faci

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million - this is an undeniably stupid idea. These are some vulnerable groups of people needing the most support, and services, especially for homeless and youth centres should be INCREASED

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why: do not know enough

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Inflation, cost of living and the recent weather disasters are making surviving and living extremely difficult for many people. Increasing rates would only exacerbate this

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why: Yes, there definitely needs to be an investment into land etc. and supporting communities affected, but this should not come at some of the proposed costs in the first question (eg reducing support for the homeless)

5. Local Boards

Aotea/Great Barrier Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: all important

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Non-contestable local community group grants, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: environment and vulnerable people need the most support and urgent attention

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: environment and community/people are the most important things

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: as above

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: the large cuts in regard to environmental management, restoration and education in particular are rather disturbing, and will not pay off in the long run

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? stop trying to make large cuts on the most important things - communities needing more support and the environment

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: These are long term growth investments and with travel from China expected to pick up, we should maintain an interest.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: We need to pay our fairer share of rates as we are leaving a sorry state of affairs for the next generation. An old bridge, old infrastructure. Auckland is a well known city yet it has one of the most backward public transport systems compared to Sydney,

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We need to start planning now for future storms.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: What is missing is an upgrade to the Kohimarama toilet facilities which are old and small. The poor old toilets can a hammering from the walkers, runners, swimmers & sunbathers.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Why has Kohimarama toilet block not been renovated?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I'd like to see Local Board and Citizen's Advice allocations maintained

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: I see no need for the Council to own an airport or a port for that matter

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Keep the total increase the same but do it using the targeted rates as well as general rates

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Capital related items should be funded via borrowing as they will provide future benefits

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Don't worry about the community centre. Most of the rest leave as is.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: I'd rather a larger rates increase to maintain local board funding.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Cut back on pool inspections and remove the targeted rate in favour of a fee for service. Introduce options for cheaper inspections such as offline video inspection. Better still just stop wasting resources on a stupid rule and tell Parliament to sort i

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

None

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Far too much rates increases

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Reduce staff in Auckland council

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: 'I would not proceed with the following:

- Maintaining reduced public transport
- Reducing funding to Tataki Auckland unlimited
- Reducing regional services.
- No longer directly providing childhood education services

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: I believe being invested in Auckland airport is both a good investment and a signal of trust in our infrastructure.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: I agree with increasing rates and increasing debt because it is a difficult economic type and thus these measures are a good response.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I agree with the rate and debt increases as stated in the previous question and thus I would agree with some of the budget going towards this proposal because as evident by the weather events this summer, we need improvements for our storm response and in

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: The priorities seem sensible and without knowing what the alternative priorities would be I think it is reasonable to support the board's outlined ones.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: Library opening hours is important to me because libraries have a massively positive impact on the community and productivity. They are an important resource and thus keeping them open for as long as possible is good for our local board area.

Local water

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: In an ideal world you wouldn't need to do this but as interest reduction is greater than forecast dividend the sale makes sense

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Cost of living is increasing for everyone and people are having to adjust their spending accordingly - council should do the same, it can't just keep hammering rate payers. My rates have increased by over 25% in recent years but services have been worse.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: I support about half of the priorities - some are simply nice to have but not essential

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental restoration and pest control, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Funding of arts and community activities is imperative to a healthy society.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services?**Tell us why:****6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Please keep the early child care education. Other reduction fine to tighten the belt. But support for early childcare is to important to stop.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Auckland airport is a valuable asset but with an uncertain future. It's not strategic for the council so should sell and reduce debt while interest rates are high.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Using debt for long term assets is sensible. Inter generational

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Climate change is here. So let's not hesitate. Get repaired. Or move.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Keep things going but saving money is sensible.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you: Managing the environment and eliminating pest is important to achieve pest free Nz.

Youth initiatives help all society and keep the community strong.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: Cutting community grants is acceptable in a year we have to make tough decisions

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Charging for waste is a good way to send a reduce waste message.

Expanding food scrap collection is sensible as well.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The regional services offered by Auckland Council contribute to the quality of life of a large number of Aucklanders and make Auckland one of the most livable cities in the world. Please maintain them at their present level and if this means an extra 1% on my rates so be it.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Increase to cover the cost of regional services. Otherwise proceed with your proposal.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Not this year. This can be managed in the short term via increased borrowing if expenditure on storm management is needed in the next year. Review need for increase annually.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

Tell us why: I wish to see regional services maintained at their current level. Otherwise I support your priorities.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Active communities programme, Youth initiatives, Community and art centre service levels

Tell us why these are most important to you: Quality of life for old and young Aucklanders and maintaining Auckland as world renowned city for quality of life.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Regional services should be maintained and reductions made in other areas.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Do not reduce the maintenance on western spring reserve. Birds are struggling as water is in a severe condition right now. If that used to be a great place for citizens and birds to enjoy time there, now it looks like a dead pool. Please save the place to stop building a terrific image.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Not transparent about where exactly rate goes. The road in Michaels ave was rebuilt with a very cheap quality of materials. It's actually damaging the road and cars passing by, instead of making it better. Money is spent on this, but results are disappointing

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: It's about how response management team action and prepare, and how the government plan to upgrade city infrastructure, it's a bigger issue not just about the storm.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Local facility hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Reducing the rate doesn't mean to downgrade the quality of the services, hope the change is for better to Auckland.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental restoration and pest control, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We need more public transport not maintain a reduced schedule. I'd also keep the Tataki funding and regional services.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Makes sense to reduce the debt and or reinvest in other areas.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Keep library opening hours and funding for local events.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The Meadowbank train station closing at end of March for the rest of the year is a nightmare to not have a direct replacement bus service to Britomart and will put so much pressure on traffic. It should be rethought. Surely a direct bus back and forth fro

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Auckland Residents must have cultural Amenities,

Visiting Exhibitions - European, Asian or Maori

To satisfy our needs.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: After Cyclone Gabrielle we have unexpected debt

And demand for roading reconstruction but best to

Borrow and keep a nest egg for the future

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: We must future proof our services which will benefit

Future Rate Payers at the same time as making necessary repairs

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: As started above - to future proof our storm water

Capability

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I am not supportive of the purchase of Kohimarama

Forest.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Our streets are looking untidy with unmown berms

And will will introduce a rat problem which is already in

The Domain.

The Library is used by most citizens and provides

School holiday programmes .

Arts and Culture encourage participation

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I feel our reductions are too severe.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It is important to me to know that we borrow now for

The future of Auckland as with The Auckland Harbour

Bridge and I would like to see the Ports of Auckland

Suggestion for a Cruise Ship Terminal as suggested

By them as soon as possible .

Tourism is impor

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: The government is ru

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: No rate increase and no more use of debt. Get rid of some useless government employees. Like the person who answers the phone on night shift when I complain about noise in Selwyn Reserve; because nothing is ever done about the noise. Why do you have someo

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Use the money you have more wisely. The new bike path in Mission Bay is an example of how to waste money. So much consultation! And what happens at the critical spot of bus / bike / pedestrian conjunction at the Pattison - Tamaki intersection? Oh, the bi

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I don't support sinking more money into Ngati Whatua Orakei or their garden. The iwi has enough money to do this themselves.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: I support the government doing as little as possible. Small government! Private citizens and private businesses do everything much better and more efficiently.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: Less government is a good thing.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Bin sizes?! How is this important?!

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Keep official documents in English. Last time I checked, I promote my business overseas as being based in Auckland, New Zealand. Please don't make me have to promote Tamaki...Aotearoa. It is hard enough to sell NZ on the world stage without this. The Maori w

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with any reductions. Those are all first steps into making a city unoccupiable for the average citizen and seems regressive. Those reductions also target community spirit (by making cultural facilities like the zoo & art gallery less accessible) and those with lesser capital (who are dependent on the public transport and supported early childhood education. Anyone who does not own a vehicle in Auckland would know how abhorrent the recent change in public transport is. To propose making that the new norm is giving up on being a city. Do not privatize the city.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Do not sell the airport shares. It is essential that the city owns some control over it.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Why operate the budget challenge at all? If previously a large amount of money was being lost and the only way to remedy it is directly cutting the benefits that the citizens have hitherto enjoyed then that money was never lost at all but spent on where i

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Do this and scrap the other plans.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: They are the most urgent but honestly all other options are essential to keeping a good community

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Again, if the problem was money being lost to bureaucracy, target that and not the residential community.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Its our airport and we need to have a say in whats going on with it. Also we dont know what the future will bring as regarding the needs for an airport.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: sounds like a lot of money spent on consultants to decide on what is needed. pay the consultants less or dont do bloody surveys that cost money.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: local transport improvements have been a joke. The pedestrian crossings we had to say no too. More money spent on consultants wasted. Buses are empty. The Tamaki drive was poorly done. Do nothing at all for transport.

Only a few will benefit from the Mea

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: We need to protect the land and environment for now and the future.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: Some i approve of, others not. Reda previous comments.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: You need to maintain and improve public transport

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: surely things will pick up at the airport and you will gain from being a shareholder. Its not just about the money being a shareholder in major infrastructure and being able to make decisions on what happens at the airport is important.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: do not reduce the NETR this is very important to have set aside.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Lets call it what it is CLIMATE CHANGE ADAPTION. It is essential. You also have to look at development consents and what shouldn't be allowed.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Needs more focus on environment. Needs some outside the box thinking. You cant just keep increasing rates when people are struggling to buy houses and food. How about more community gardens? Rewilding some areas. We don't need so much lawn. Stop straying

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental education, Environmental restoration and pest control

Tell us why these are most important to you: These are essential. Everyone can live with less library hours etc.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I support most of the savings. Why would it take 6 months to implement going down to 6 days for a library, just do it! Cut back the hours or find a way to make it more self service, less browsing hours but ability to collect books you've requested.

do no

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Education and climate are the most important issues. Public transport should be increased to reduce climate impact of cars on the road not reduced. Early education funding should be increased in areas where it can provide greater equity

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Having a symtack in Auckland's key travel hub is too important

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Open space maintenance levels e.g. mowing, Community leasing charges, Community and art centre service levels

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The currently reduced public transport situation is untenable. Everyone accepts PT is in a terrible state at the moment and consciously continuing that is a bad decision. Lower rates of PT use leads to worse congestion and greater cost to the community in lost productivity and increased pollution from private car use.

Community activities and arts funding make the city a nicer place to live in. Making the city a less attractive, less enjoyable place to live in is not a laudable goal.

Charging more rates to fund a decent city is a reasonable reaction to the situation.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling the family silver has never been a good economic policy for governments. The short term gain is always outweighed by the long term pain of seeing the assets increase exponentially in value. The immediate sale value is always lower than the long

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set higher general rates and make greater use of debt to fund the city to a level that makes it liveable and enjoyable for its citizens.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I support all priorities but particularly those focused on improving water quality. I would like the local board budget not to be cut so that delivery of the priorities can be maintained.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: Controlling pests is important for local ecology. Waterways are making good progress back towards being assets to the community. Libraries are cornerstones of the community.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Having your budget halved is ridiculous. That level of saving from the discretionary budget is pie in the sky stuff, an austerity budget spreads misery and increases hardship for the neediest sections of the community. The people proposing these cuts wi

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The proposed cuts have a "small government" feel to them. Many of the cuts appear to be to "luxury" items, and services will be cut back so the council's "core functions" are delivered. I appreciate the bare minimum core function is that water is delive

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I think a lean and efficient council is more effective allow private business and others to pick up some of the extra things the council has been doing that aren't essential.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Be lean and mean. Less debt is best otherwise you will be controlled by that and not serving people

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Instead of increasing rates I think you should stop giving away the climate fund we all pay into and keep that yourself. We all know climate change is engineered to control us and make money - why don't you keep the money and put it to good use.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: I think you really need to look into what caused the storm and the hurricane. The injection of chemicals into our clouds - cloud seeding etc must have a cost in it self. Stop doing that - or find out who is doing that curb it and take that money to invest

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: There is too much climate and environmental stuff which I do not see and substantiated. The enviro schools program should be scrapped - let schools spearhead their own initiatives as some of them are a joke anyway. Put money elsewhere.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Stick to your knitting let other people and businesses pick up the other things.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why: I think a bit of both support and don't support. I think you need to work out what's essential and if the council didn't do it no one else would. Do those things and leave the fluffy stuff for other organisations and businesses to pick up. Scale right bac

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Take all climate stuff out of the budget.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours, Local facility hours, Community and art centre service levels

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Keep working on moving the port.

Keep pressure on govt to introduce toll roads

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: A one -off rate increase to cope with infrastructure demands would be acceptable together with some cost reductions deemed unnecessary. Empty buses?

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Financial demands indicate this is a preferred option .

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: see storm response below

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We must stop a "kick the can down the road" policy

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: life goes on

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community development and support, Parks planning, Protection and restoration of local waterways

Tell us why these are most important to you: life goes on

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: life goes on

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: life goes on

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: savings are essential and are part of the finance required to invest in needed infrastructure

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? infrastructure improvements, demand that we must accept the costs to do this

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

no

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Regional services. I would like to see homelessness, youth and CAB services maintained as they are a huge community benefit

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: I'd prefer higher rates over borrowing this year since interest rates are high

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It is essential to get our city better prepared for the next storm

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Absolutely deplorable, this is the kind of thing some hellhole city in America would do. What is the point in even living in a city without community support or something to even look forward to in terms of the arts? Genuinely disgusts me to think in a country like ours that something like the citizens advice bureau or homeless funding could be on the block. \$3 a week is a drop in the bucket for how much everything else costs anyway. You're setting up for insane amounts of inequality with this package. Do not make this your legacy, please.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: The rates increase isn't even in line with inflation, Wellington has been putting in over 10% rises because it needs to be done. What's with the fetish for low rate increases? it's barely a dent in anyone's budget at this point anyway

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Youth initiatives, Community and art centre service levels

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop the stupid, dangerous road humps. Stop reducing speed limits and get the govt to police the existing limits.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Most of these reductions will hit poorer, less able, parts of the Auckland community. It is totally naive to believe cutting bus services, and childhood education services will do anything in the long run to save Auckland council enough money. How about the council sells off some of its high value housing. The top 3 in its portfolio would gain them over 10 million easily. That money could be put to better use funding and improving both child care, and transport.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Auckland council should never have bought shares in the airport, it can't manage the city properly, let alone a busy airport.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: We are in the midst of a recession and you want to increase rates, because you could not balance your book sufficiently in the previous years.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Increasing rates, and therefore gaining the council more money, does not work, as evidenced by the woeful state of the infrastructure already in place. The council needs to start operating like a business, and balance its books and debts, more efficiently

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Priority should be given to the the water quality program, that should not be cut. The water quality in this area is disgraceful and really should have been cleaned up and fixed a long time ago. The next program is Pest Control; why would you cut this?

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: It is shameful to walk in and around the Orakei basin, to smell the effluent in the water ways, to see the local birds, fish, and water habitats slowly being choked after each rainfall. This is preventable and should be given priority. Local business need

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I support most of them.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Early childhood investment should be a priority

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Selling us short-term and the airport may make significant sums over the future. Auckland also needs a day in how it is run.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Sorting out inadequate drainage for recently completed developments which have benefitted the developer only should be paid with contributions from developers. Increasing built areas with inadequate infrastructure is unsustainable

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop greedy developers building on flood planes

Stop people building on cliff areas and below them.

Reduce number of houses per section as we do not have adequate drainage for them. Some very shonkey developments. Too many high rise apartments.

Important privacy information

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Reducing frivolous expenditure seems the obvious choice. Would the people of Auckland prefer prevention of future flooding of their house to a free concert?

It's a no brainer.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: You can only sell once. Once sold ACC will not be able to buy them back. Proceed with care.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I don't think this is the time to invest in a community centre, parks and sports fields; this is luxury and not essential. No need to work with Ngati Whatua to progress local initiatives. They are sitting on a lot of money and don't need rate payers money

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: I see those more as core business not 'nice to have'

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland Council has become a huge bureaucracy where too many civil servants work for very high salaries. Efficiency promised when Councils merged have not eventuated. The Council needs to restructure so it can achieve more effective service delivery.

Important privacy information

Annual Budget 2023/2024

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: If had to sacrifice one cut, it would be to increase the public transport.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: You are in the roads, water and drains business not the airport biz. Stick to your knotting and get those services functioning well

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Learn to live within your income. Prune the overpaid meeting attenders and get them working rather than meeting.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:Duh

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: If you neglect the open spaces the community starts to stop caring - downwards spiral

Libraries - apart from education they are a place of refuge from strained family resources

Waterways - apart from environmental argument same rationale as open spaces

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: What is Tataki Auckland? please explain in English - back to basics instead of spending millions on changing names of departments and services to something very few can understand.

Stop wasting money on this type of stupidity and trying to bring in your apartheid agenda

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Try to run the city - basics again - keep the weeds down, berms mown, gutters clean. These shares have been bought and sold I don't know how many times

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Make greater use of debt we already have, cut the "look pretty/woke" spending - basics again. Pick up the rubbish dumped around the streets, forget the light rail, cheap bus fares - fill the potholes, try to find some common sense. Tidy the city up get ri

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Clean up the streets - use common sense - let the drains do what they are intended for - if the are kept free of debris. Stop all this unnecessary infill housing.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? The more you charge for rubbish disposal, the more gets dumped on the side of roads around the city. Doesn't take a rocket scientist to work this out - maybe it is too simple for council boffins. Supply bus services, forget the climate BS, just supply w

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Once again speak English. If you mean cutting mature trees down forget it.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: At a time when we are concerned about global warming it seems inappropriate to reduce public transport services, rather they should be increased and better coordinated so that they become the transport of choice for most people.

Auckland Zoo, Art gallery and Museum help people to remember who and where they are. For many years they have all provided information and relaxation for generations of Aucklanders. Are we, who have benefitted from these, about to deny them to our younger people?

The city has acquired local halls by a continued process of amalgamation. These halls were built by local people and are used by local people for local activities thus helping to keep a sense of identity and well being. The hire charges are currently reducing the use of these buildings by local groups to the detriment of the community. Local activities are needed especially if transport cost are increased.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Ultimately these shares are a source of income. Selling them gives short term funds but increases our need to go into further debt later on.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: For me as a rate payer that would seem more manageable although I am concerned that by increasing debt we are merely passing the cost to future generations unless this will be counterbalanced by an increasing number of rate payers (more houses mean more r

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: The things that need to be done should be coming out of infrastructure expenditure. More money going to actual work and less to expensive consultants. People with qualifications and expertise should be council employees who would be cheaper than consultants

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Why are we buying Kohimarama forest? It is not suitable for building so would stay there anyway. Surely at the moment it is a source of rate income.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Arts and culture programmes, Protection and restoration of local waterways

Tell us why these are most important to you: Historically these things have been the basic core of holding a community together. They give the younger generation opportunities to develop life skills.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: The whole proposal is silly. To reduce local spending by such a high percentage makes a mockery of the board system. Many Aucklanders were unhappy at becoming a super city and the local boards were a peace offering to us, the local people. This is now bein

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Concerned that public libraries in majority of Auckland areas will be open for 6 days, only. And possibly cutting opening hours too. Also concern with cutting back on Tataki Auckland Unlimited funding, when tourism in Auckland is so important economically for us.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Proceeding with sale of all shares would help fill a big financial hole but once this asset is sold, what are future consequences?

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Local waste minimisation initiatives, Library opening hours

Tell us why these are most important to you: Local environment is important to protect, cutting funding could jeopardize this. Community libraries are a major source for people accessing information, eg computer/internet, information on local government, JP services, provide connection to the local

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Environmental restoration and pest control, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Cut AT budget further

1. Defer Pakuranga to Botany busway until financial position is much improved
2. Reduce spend on Urban cycleways by \$15 mill
3. Reduce safety programme by \$25 mill

Do not cut CAB, educational programmes or assistance to minorities financial support.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: ACC inherited these shares from Supr City mrger. Council does not hold sufficient shares to influence decisions by AIA. 2nd runway will require input from shareholders - council cannot contribute.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Delay projects and reprioritise others. Council must learn to work more efficiently.

Re-instate council employment for parks and strret maintenance. DO NOT USE CONTRACTORS. Finance 101 says contractors margins add 15 - 20% to cost. Council mamagers a

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

There are many pieces of fringe empty land adjoining council parks, golf courses, etc

I believe a comprehensive study would release 50 - 80 valuable sections for housing. this would have a 3-way-win.

1. generate \$40 - 60 mill from land sales

2. Increase

- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not reduce funding to Art Gallery APO Zoo these are essential to the well being of people as do Parks. The city needs to be liveable in this sense

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The Return is good, an investment.

Better to increase rates 3% not more with inflation and cost of living concerns

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Many households already under financial stress.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: When the inflation rates reduces and mortgage rates stabilise rates could be increased but not in to 2023/2024 budget

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: don't build the Meadowbank Community Centre at this time!

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Protection of the environment top, maintaining open space assists with this issue to include less dumping of rubbish. Libraries an essential service supporting education and community wellbeing.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: some reduction will be needed in 2023/2024 however not all programmes should be scrapped

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals? Sorry but I don't know enough about this aspect

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I don't know enough about this area

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: There is a lot of waste in council operations and I want a smaller focused city management that does the basics right.

Less cycle lanes and pedestrian access, and more focus on supporting commerce.

Arts and culture can secure philanthropic donations.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It is vital that council have shareholding in this significant asset, but not to the extent it currently has even the city has so much debt

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Review current funded and proposed projects and cancel all that are not focussed on improving transportation, core services and infrastructure maintenance. Stop all vanity projects and do not increase rates by more than 3%.

The rates bill currently is ve

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Reduce the size of the city management to focus on core services.

Yes we need to improve infrastructure but not by increasing rates.

I look at the disaster that is panuku and all this emphasis on co governance in council matters and I'm opposed to it

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: They are that I expect city council to do. The other items are for communities to organize themselves

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: Support reducing all activities except those related to post management and riparian plantings

Rodney Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Investigating plan / policy development to future-proof the development of local assets, Ecological restoration programmes, Construction and demolition waste minimisation programme

Tell us why these are most important to you:

Whau Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

Tell us why: As a home owner in the area I do not value these priorities. Please stick to the basics which are currently not being done to the minimum standard required

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local parks, community facilities, and sports and recreation programmes, Protection and restoration of local waterways, Local planning and development e.g. for parks, town centre and street environment

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

More transparency, and accurate information. I do not trust most of the information currently published. Please have the documents evaluated against the plain English language standards

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: As the Prime Minister said, we need to stick to the essentials and that means funding core services and cutting the fluff.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: AIA is not a core interest for Council.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: My rates are a struggle as it is, but I am prepared to shoulder my share of the burden.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: There is a lot of non-essential fluff here. For example:

- * The parks and sports fields are good enough.
- * Pourewa Valley enhancement and efforts to purchase Kohimarama

Forest should be delayed until we sort out the stormwater problems.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: Because most citizens benefit.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? The principle should be 'User Pays'

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Given the other contributions, 13% of savings from Local Board discretionary seems about right

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: With extent of debt rising cost of debt, AIAL is not an adequately meritorious investment. Ratepayers can buy AIAL if they disagree.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: If savings have truly been exhausted, a rate increase of 4.66% is the absolute maximum that should be countenanced. A sinking lid in subsequent years would be a useful discipline.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Absolutely no case made to provision for higher rates..

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Perhaps Meadowbank Community Centre could be deferred.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Volunteers provide leverage for the expenditure.

Local waterways have been damaged by council policies, including increased runoff. Expenditure on foolish environmental destruction of mangroves should be ceased.

Open space maintenance including mowing has

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: General impressiin - behaps attributable to AT - is that Council generally is a wilful spender & inept project manager.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Broad public perceptiin iis that Auckland city is a wasteful spender, & has frequently crowded out voluntary activities & shunned Corporate contributin.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any: raising rates even further

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: seems the sensible thing to do

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: The recent disasters in and around Auckland are going to cost us dearly. We need to free up some money to help pay for this.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This recent disaster is going to cost us dearly, and will not happen just over night.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: it seems sensible to prioritize for certain local boards to be able to deliver services

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Active communities programme, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: I would hate to loose these amenities and services

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: why should we not support our local board and the facilities they budget for.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals? no

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We can't cut public transport and expect people to move from using their cars, which adds to congestion and carbon emissions. We should spend more, not less, on public transport and cycling infrastructure.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

Tell us why: A 94% reduction to local events, including ANZAC day parades? A 100% reduction to community grants? This is a ludicrous cut in expenditure that the community relies on.

A 90% cut in environmental education after the recent storm events we've just had. T

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I understand the need to cut costs but the proposed reductions above are not something I would support. Instead, I think that money is being wasted on unnecessary road maintenance, bike lanes, and a systematically incompetent Auckland council. Instead of cutting costs of homelessness support, education, and public transport, how about you get rid of the bureaucrats at Auckland Council who spend money on the most pointless things - e.g. \$638k on advertising half-price public transport.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The storms are only going to get worse and we have outdated infrastructure that is not prepared for it. As long as the money is used appropriately for the most needed areas.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

My local public basketball court (Tahapa reserve) was renovated a year or two ago, and they did a great job creating a new halfcourt and playground. But unfortunately, the net of the basketball hoop wears out with heavy use and has been replaced by locals

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Retain the early childhood service until it can be sold. Public transport reductions should focus on little used services rather than peak hour and school bus services. for example service bus 783 in our neighbourhood is empty most of the time.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It's good to have some control over a strategic asset such as an airport. Would only support the part sale if shares didn't end up in foreign ownership.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Agree with proposed options BUT only support rates increases if the money is spent on essential infrastructure: water, drains etc. I think there is still lots of waste in Auckland Council the could be eliminated so would like to see a focus on that.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Some of this money should come from savings in other areas. For example are movies and concerts in parks really necessary?

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: These are all good ideas. I would like to see a focus on environment, water quality and drainage. Could some of the Meadowbank Community Centre work be deferred?

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Given the recent storms keeping waterways and open spaces maintained is pretty important.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

What do you think of the savings we've proposed across our activities and services? Support

Tell us why: Mostly support apart from the 3 selected in the previous question. One event I wouldn't want to cut is the Anzac Service. The others are 'nice to have's'.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? We don't need a food scraps bin as we compost so why should we have to pay for it?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental restoration and pest control, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I'm reluctant to stop advertising for international sporting competitions as this presumably provides tourist income and contributes to the attractiveness and brand of NZ to external markets (therefore impacts demand for NZ products on the international stage, impacting bottom lines in NZ).

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Smart to reduce debt when the dividends don't equate to the interest on debt that must be serviced. This is what fiscal responsibility looks like.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: It's a balanced approach. I would prefer to see less increase on rates but not at the expense of further debt. I believe there should be more pay to play services, that's how we'll know what Aucklanders really value.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: I think this needs further consideration.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I don't believe in supporting further transport options. AT has slowed us down by putting ridiculous speed bumps on pieces of major road like Kepa Rd. In the ten years I have lived in the board area I have had to stop for pedestrians crossing twice. Now I

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Maintaining space and environment for the community is imperative. This space allows for us to be a community. Communities are at risk and really need investment to revitalise and renew connections with our neighbourhoods.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

AT needs a serious overhaul. They are slowing us down with concrete planters, synthetically reducing vehicle access (both cars and parking) prior to having good alternative options. When they do create alternatives such as bike paths they don't manage the

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Get rid of Auckland Unlimited entirely. Stop the pointless 30kph speed reductions they have gone too far. We need another 1% reduction

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Conflict of interest owning shares. Sell and make Auckland Airport work for the ratepayers

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set a lower rates increase no increase in debt concentrate on core services

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Time to bring rates down

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local community events, Arts and culture programmes

Tell us why these are most important to you: Have the least benefit to ratepayers

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? You need to slash staff costs and reduce AT by 30% concentrating on supporting business and supporting the motorist

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

AT is destroying Auckland

Do really have to every stop blasted out on buses. If there is a blind person they could ask the driver to switch it on

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: With the current cost of living crisis, anything to reduce spending and have my rates increase at the lowest possible rate is good for me.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: To be able to reduce council debt is important- IF this goes ahead. Not to spend that money on other things.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: I want the lowest increase in my rates possible. Everything is going up in cost and my disposable income is being squeezed a lot.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This is prudent.

5. Local Boards

Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Everyone has to tighten their belts.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours, Local community events, Council-led community programming e.g. Out and About activations in parks

Tell us why these are most important to you: To be able to continue to help and support sports clubs for example in the local areas- Ellerslie domain for example is important I feel.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?) Local community grants fund, Community climate action and sustainability activities, Environmental education activities

Do you think there are other areas where we could make savings to our local budgets? Try and get local groups/communities to do more fundraising.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? You need to give households much more information about food scraps charges and what this is all about. I know nothing about this.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

To reflect in your budget what households are actually going through in their own personal budgets.

Important privacy information

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Do not proceed with any increase for any council business. There is no logic for council to have any cost increase. The council should learn to live within its current operating cost and begin to focus on efficient and effective core services.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set a zero general rates increase. The purpose of the numerous managers who are employed at council must be to focus on efficient management (not simply making budget cuts which any fool can do!).

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: The priority of local boards must be to ensure that core services are being delivered effectively and efficiently and as rate payers require. The local board should focus on developing and monitoring key metrics. The current focus on "photo-ops" for memb

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Mowing service levels on reserves, Library opening hours

Tell us why these are most important to you: The two services marked are core services. The other core services that should be re-started are: mowing of berms and proper and full inorganic collections. The current inorganic collection rules mean that most of the rubbish cannot be put out for collect

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?) Council-led community programming e.g. Out and About activations in parks, Support and capacity building for community-led activities (Strategic Partnerships Programme), Community climate action and sustainability activities

Do you think there are other areas where we could make savings to our local budgets? 1. Stop all council travel overseas for councillors and staff. Local travel should be on 'best cost' principles only.

2. Programming at Te Ora, Oranga and Onehunga Community and Art centres

3. Reduce the out of hours use of council vehicles by staff (pres

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Maungakiekie-Tāmaki Local Board

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: These are core council business.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: The so called savings are meaningless as it is a simply arithmetic budget cost cut. There has been no attempt to look at efficiencies within various services, better management and monitoring.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Bus services - must be delivered to where customers/ratepayers want to travel! There needs to be better alignment with other services.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The local board must focus on efficient and effective core services for ratepayers.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: All of these are unpalatable reductions but some cut seems necessary. Avoid public transport reductions where ever possible.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: The proposed sale to benefit from interest reductions greater than dividends seems to make sense!

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: This is our community and we have to bear the costs to maintain it.

However, it would be nice to see a greater increase in commercial rates than residential rates.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Our infrastructure has been neglected for too long.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Our environment is critical.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Please maintain all restoration, pest control, and water quality.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The environment. Please prioritise that.

- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: The work already done in this area needs to be continued in order to be effective

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Arts are important and you aren't doing anything about the sports areas, or training areas so why would you do that to the arts.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including:	
a) a 10.6 per cent base rate increase,	
b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	
c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: None of these reductions are acceptable. They will cause the improvements in our city to reverse.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: The city cannot lose a blocking stake of such critical infrastructure

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:**6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Keep Local Board and contestable funding at same levels

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Inflation is at 7%. It's a false economy to think council services costs are below inflation. Let's just be real about what things actually cost.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Climate change is real. We need to get on and start our transition to the future weather conditions.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Important to have local people setting and delivering on local priorities within a great Auckland. Don't drop local spending.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: That's ridiculous level of savings. Lift rates and be a leader for our great city, not some pathetic pandering politician.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? What's the pool fence problem you're trying to fix? Is it really a top priority right now given everything else. Drop that service back and keep the arts funding.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Critical to retain regional and local board services - these create and maintain so much of the positive community environments we have across Auckland. Communities have already felt the detrimental effects of the lockdowns and more than ever need to be brought back together.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Makes good business sense if interest benefit outweighs dividends; maintaining 10% stake if possible better fits potential council role in the airport.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: NZers contribute relatively little to local & some national services (eg TVNZ) vs developed global averages. Property owners are not subject to capital gains tax. There is clear upside for contributions to community wellbeing and council financial health

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The why is clear - tell us how the \$ will be effectively spent

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Pride in our community, bringing people together, and not taking away services from those who need it most eg libraries

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Understand the limited options, but community activity reductions has a large impact on wellbeing

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We have a marvellous city, built on generations of contributions, and historic generosity that is less common these days. We must be willing to pay our share now, maintaining investment and community wellbeing, to ensure future generations can enjoy what

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport should NEVER be reduced. Simplify management structures sure but do not minimise the output. The current disaster of public transport is driving users to their cars (we have had to buy one when the bus replacement services for the current closure of the Southern Line turned out to be completely inadequate and unreliable). We are now just another car clogging up the roads while public transport struggles to be consistent and reliable enough to attract new users. This will only get worse with higher density housing. Auckland council MUST prioritise a stronger public transport network and not let any spending reduction impact this fundamental part of the city.

Rates should be increased for high value/income households.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Didn't we learn selling off assets is not a good thing? How many times has this happened in the political history of NZ and it has resulted in disaster. Please just don't.

Rates increased for high value properties. Do not increase rates for affordable h

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Stagger the rates increase. High value homes get a large increase, low value homes to be untouched. First home buyers immune from rates increase, property developers with large portfolios hit them hard. The rich have to take more responsibility for our ci

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Fair enough, but let's mitigate the potential for future storms by actually proceeding with plans that keep cars off the road, favour walking and cycling. The mayor has made some horrible comments about this and his inability to articulate the connection

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Council must fully support Three Waters. I do not trust Auckland Council to deliver the required infrastructure improvements and long term needs for quality water.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I'm a first home buyer in Ellerslie. A small one bedroom. It took a long time to be in this position and I have worked very hard to save enough to be in this position working as a teacher. Meeting payments is hard. My next door neighbour pays similar rate

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? All climate beneficial work should be subsidised.

One a one off fee for a bigger bin and more waste? This should be regularly charged at higher levels.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please fix public transport. Regular reliable services is all we need. Keep the cost low and help our lower income communities.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: public Transport must go back to previous levels or possibly increase. WE must take action against global warming even if it costs.

Citizens Advice bureau must not be disbanded. This hits the poor and they are disadvantaged enough already .

LIBRARIES must not be shut-altogether possibly a few with reduced hours.

If you proceed with all the cuts, I really must ask what is the point of having you at all. You become simply a debt collecting agency.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: The city must continue to have a say in this facility. Putting it solely into private hands means there is no control whatever over costs which will increase markedly siphoning more of Aucklanders money into wealthy investors pockets

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Businesses must shoulder their fair share and no longer be subsidised by the rest of us. a modest increase for residential folk. We have got to get to grips with capital expenditure as well as debt reduction

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We must pick up our responsibilities to affected people. Lobby GOvt to change the awful intensification rules. allow only 50% coverage of sites, the rest being plantings or lawn. Allow for some more high rise on ridge tops and travel routes in conjunctio

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: all worthwhile and needed

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Active communities programme, Environmental restoration and pest control

Tell us why these are most important to you: Local community grants benefit many and address needs. Environment restoration vital in combating weather events. Active community events support general health and wellbeing

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: Library days might be cut. To indicate poorer and more polluted waterways is dreadful. Perhaps community groups could pay a little more in hreage fees but not to commercial rates or the groups will fold. Our communities are important as we see in the Gabr

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? We must continue services, otherwise the council exits to pay down debt. Be as efficient and effective as possible in council activities

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Inflation is running at 7.2%. I would strongly support increased rates rise in line with inflation.

If we don't increase rates in line with inflation, then we are just postponing the inevitable and pushing the problem forward to the future.

Most other councils are bold enough to make this call.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It makes sense for Aucklanders to have a stake in AIAL in order to influence future decision making.

With international travel returning, these shares will now start to increase in value.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Inflation is running at 7.2%. I would strongly support increased rates rise in line with inflation to fund increased operating expenses (OPEX).

If we don't increase rates in line with inflation, then we are just postponing the inevitable and pushing th

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Building resilience into our infrastructure will be critical for the survival of Auckland.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours, Community leasing charges, Community and art centre service levels

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I would prefer a higher rates increase in line with inflation 7.2% and then to maintain the level of services.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Stop wasting money building cycle ways. Leave speed limits unchanged. Get Auckland moving so people can go about there business

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Do not support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Disposing of waste is a basic function and should be provided at reasonable cost and made a lot more convenient to dispose of materials such as chemicals and batteries

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

STOP WASTING MONEY ON CYCLEWAYS. Auckland Transport should be charged with getting Auckland moving not slowing it down

Important privacy information

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: CABs and Childhood Centres are essential to help people have their kids looked after and give information.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Once gone, it is gone. We should not sell an income producing asset unless absolutely necessary.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: It feels a fairer option

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: To fund climate change

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: OLB advocates for the people of our area

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Youth initiatives, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: It is important that we look after our youth I like to see the environment cared for so it can be enjoyed.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why: Some community support areas could be reduced but not environmental or bio diversity issues

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We should retain funding for "social services activities such as homelessness funding, community empowerment and funding for youth centres."

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:**Waiheke Local Board**

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community climate action and sustainability programmes, Environmental contestable grants and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:**6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I think funding public transport, the Zoo, Art Gallery and Museum etc is important. I also think that funding for homelessness is important.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: At present I don't think Kohimarama Forrest is a usable green space. I would only support purchasing it if changes were made to make it a usable space. This does not necessarily mean losing the native bush, but making it inviting, safe and increasing sign

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I feel that Library hours and water quality should be maintained as priorities.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: There are so many highly paid (ie overpaid) employees that are funded by the usual ratepayer . If there was a ceiling on salaries and a dump of at least 50% of lawyers , HR people and consultants presently funded by ACC , we would all be far better off. Happy to sell the shares in Auckland Airport as it should be the private sector that holds shares in these types of corporates and with investments Council staff have little or no expertise

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: see above

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: With many people struggling with inflation and higher interest rates this is not the right time to increase rates. This can happen when the economy is in better shape

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Focus on fixing the existing problems and build up a fund over a longer term but not just after so many have been so badly affected by the weather issues

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Auckland Council's core business is to support the people and the natural environment of the Auckland region. Arts and community services (including art galleries and libraries), public and active transport infrastructure and services, early childhood care etc are essential to wellbeing. Homelessness is a massive problem and needs to be one of AC's major priorities. There is plenty of money to be saved by stopping Auckland Transport wasting money on roads, and plenty of funding available from initiatives like roadside parking charges.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Auckland Airport provides an essential service to Auckland. Selling the shares will be irresponsible.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: You could increase rates but I disagree with reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR).

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Big infrastructural changes are needed to transform Auckland into a "water sensitive" city with regard to stormwater. It is incredibly short sighted and irresponsible to delay new investments in this. It feels like a cynical response to try and use the re

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: I support all activities by local boards that promote wellbeing, not just the priorities stated above.

I DO NOT support reducing funding to local boards.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: I support all of the local board activities above. None should be reduced. These are "core business" for AC. I oppose the way AC has turned wellbeing services into a zero-sum game in this submission process - it is disingenuous. Auckland Council wastes he

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Don't give us an either or option. Rates increase proposed is reasonable but plenty high enough as we are forced every year to accept proportional increases.

Item 1 on the face of it is reduce public transport but how does this encourage less use of cars and greater use of public transport if you are reducing it.

Item 2 I don't know what Tāmaki Alk is so I can't comment on the proposed reduction. I speak English, not Māori.

Increasing costs at Art gallery and the zoo are unpalatable but may be something we need to accept.

Item 3 Reducing regional funding across the board is not helpful. Each has to be considered on its own merits. Homelessness is a blight on our society and we are duty bound to address it . Reducing its funding is accepting the problem. Wrong thinking. Arts and culture may need to be re evaluated.

Item 4 Reducing what local board funded activities

Item 5 Reducing what contestable funding?

Item 6 Early childhood education is one of the most important things we do as a society. What will be put in place to ensure our young people have access to education .

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: If our dividends don't deliver the benefits required Shelly some of our shares is acceptable but once the funds have been used what happens next year. We can only get the benefit once.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Seems the most balanced option.

I would also like to see some real effort to reduce waste within council

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This type of event will continue to happen with more frequency in the future.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I think the local board is doing an excellent job.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Arts and culture programmes, Protection and restoration of local waterways

Tell us why these are most important to you: This is an unreasonable question. Each item is important in a different way.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why: Na

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I don't support targeted rates. It is just an excuse to increase our rates beyond the 4.6% and assume that as rate payers we won't notice. It's a deceitful approach and not transparent.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I see no effort to address internal costs, overheads, consultancy, salaries etc. All I see is proposed increases across the board.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Council has some responsibility to fund social services

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Income from the Airport will increase as traffic volume will come back to normal and growth

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Active communities programme, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I would like to see tolls put back on the Harbour Bridge and the motorway corridor and the income spent on local roads (About 135 million)

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: keep early childcare, this is important to families in Auckland. The zoo costs are already prohibitive for many. If there is a way to be more efficient in CCO spending to make savings then do it, superfluous spending is a waste and is unacceptable but services are there for Aucklanders to use in the country's biggest city. Cutting back is severely going to impact Aucklanders' satisfaction, they go elsewhere, the least liveable city and a Council that does not serve its purpose to provide for its people, culture, enjoyment, taccess, and community. Prices keep going up and not having anything in the coffers given rates is a big issue. Why? Amalgamating to the supercity was proposed to make Council operations more cost-effective. This is not happening. The cost of inflation is one of many factors and can't be the sole reason, floods and weather events are happening and this trend will continue to happen. Why every time we have a WEATHER EVENT, THE RATES NEED TO GO UP? Why does this current Mayor need to blame CCOs? It's strange and it's not becoming, it's a very strange way for a leader to behave.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: I believe Auckland Airport services won't be any cheaper to anyone if shares are kept or sold. I would need to understand this better.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: I feel that by increasing debt only over time puts the issue into the hands of the young generations. I am concerned that next year Council will be back with new rate increases for new reasons, this is never ending and I feel many people, are out-priced

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles, Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support

Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I support tightening a belt for a year. The first thing which should be done, close all the libraries on Sunday.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: I am happy the city has shares in Auckland Airport. it should be profitable at some stage.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: For a year let's have a 1% rate increase.

Instead have more savings.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: We need to stop infilling buildings, and it will be not problem with storm water.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I only support the first two priorities.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Open space maintenance levels e.g. mowing

Tell us why these are most important to you: The grass has to be cut.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: In hard times, we need to save.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I do not support any changes to the waste management.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We need to stop the madness of destroying our roads with bumpers for pedestrian crossings. Are we all dumb, and we cannot see them? Do not treat all drivers as blind.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Do not support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Do not support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Stop throwing out perfectly good library books! I see books on the “free” table and there's nothing wrong with them!

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Make further reductions to Auckland Transport.

The is no point them having a contact centre, they don't do anything. They only enter 'cases' that then take ten plus days for anybody to thibk about.

Auckland Transport would be the biggest waste of money the Council has.

A group of pre-schoolers would be better. Sack the lot of them.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: I agree in principle but I don't trust the council with the money raised. Therefore sell some and see how badly you idiots waste the money.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: If you stop wasting money on stupid Auckland Transport projects that are not helping to get Auckland moving we'd all be better off. Stop wasting time and money on cycle ways and raised crossings. Just repair the roads.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Stop approving infill housing, especially in flood prone areas.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: Local Board are toothless wastes of money. They achieve didley for the normal average resident

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Without maintenance the place becomes an over grown mess that people won't use.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: I'm sick of the council and all the hanger-on contractors getting fat for doing zip. May as well be honest and cut them all together.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? We stuff all for what we pay now, way increase the cost if the service is reducing.

It's just a ripoff.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Improve, or at least fix the roads.

Auckland Transport puts new eBuses on the roads, great. However they are bigger and the roads are failing under their weight.

Stop wasting time and money on cycle paths. The Lycra wearing brigade don't use them anyway.

Important privacy information

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not proceed with the reductions to Tātaki Auckland Unlimited, or the reduction to regional services. This would take away from people who are already struggling to manage.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It would be very short sighted to sell such good shares that will increase in value and provide income for many years.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: The actual weekly increase in dollars is quite small. It's a fact of life that if you want good services you have to pay for them.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: There can be no other choice, these are things that have to be dealt with.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Our local board serves us well, they do lots of good work.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Environmental restoration and pest control, Library opening hours

Tell us why these are most important to you: We have a wonderful library service, which I use regularly.

It is important to me that we keep informed about our environment and take care of it.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: A manageable amount.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

More consideration of long term needed cutting and amending public transport now is of grave concern for environment in years to come, same for other environmental services and waste management. We need green spaces for health

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Please do not reduce funding to community service and the zoo

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Cycle lanes for all main routes to reduce risk to cyclists and reduce cars on the road.

Increase train lines routes to be more effective and reliable and reduce cars on road.

Make busses more reliable.

Increase funding for employees in hospitals and allie

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: As a home owner I am completely shocked at how low my rates are. I would gladly pay more in rates to fund services in Auckland. Things like the Zoo, art gallery, stadium, community programmes, art programmes - they all give the city a personality. Otherwise we are just living in a concrete jungle and that is just depressing. So please just increase the rates. Rates have not had sufficient increases for a long time and we need a nice boost to rates. 30% would be good. I'd happily pay that.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It is much more logical to just increase rates, which are FAR too low.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: That is much too low of an increase. Inflation is at 7-8%. Plus we have had years of inadequate increases in rates. Increase it by 30%. Anything less is just pussyfooting around.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Probably a bit short.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: Insufficient information. Need to know what you are planning on cutting exactly without having to read through a 270 page document. Why can't you list it here? Poorly worded question.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: Our waterways are a shocker.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Increase rates by 30%. don't cut spending.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I would like to see a fully fenced dog park in the Orakei local board area. There are a few off leash areas but none are fully fenced. Just one small fully fenced area would be great thanks. I think Merton Reserve would be perfect. Block off just a third

Important privacy information

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Public transport. This is one of the significant ways to reduce traffic problems across Auckland. If anything should not be reduced it is public transport.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: It is unclear to me why a council would own shares in an airport if its not making the money returns.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Proceed with the split of residential and business rates. Residential rates should not be increasing at a faster rate than business rates.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Water quality and parks are good priorities. Would like to see money spent on connecting our cycle paths to eachother. Its too dangerous to cycle when they pathway just spits the cyclists out on the road with all the cars.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: No reduction for libraries, the Auckland Art Gallery, and other venues.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It's a reliable income.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Citizens need to contribute to all overall improvements.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The issue needs urgent response.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Do not support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Levies for all libraries and the City Art Gallery must continue. Library and art gallery services must continue to be free to the public. Historically, they have always been a necessary part of the Council's cultural input.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would prefer to not see a reduction in Regional services or reductions to Local Boards particularly where they are environment related.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: They can only be sold once. We need solutions for the long term. The dividend is paid year on year. I am assuming that Auckland will not be in this financial crisis permanently and that a lot of it was caused by Covid.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Businesses should pay higher rates (ie the same as residential) permanently, not just for 1 year.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I do not support the cut of initiatives that improve/ educate about the environment. Namely The Environment Forum (I learned so much from that knowledge that helped my prepare for Cyclone Gabrielle, I don't support cutting the Environment volunteers, or

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Environmental programme volunteers, Environmental restoration and pest control

Tell us why these are most important to you: Essential for our environment and also for creating community via participation

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I do not support the cut of initiatives that improve/ educate about the environment. Namely The Environment Forum (I learned so much from that knowledge that helped my prepare for Cyclone Gabrielle, I don't support cutting the Environment volunteers, or

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I don't support signage and documents and just about everything else being in Maori , In Auckland there are probably more people who speak Mandarin and Cantonese than Maori. Unless something is specifically Maori then wording should be in English.

Important privacy information

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Because I value the arts, public transport, and the cultural spirit and events of Auckland. All are needed in order to maintain the quality of life of the residents and keep it as an attractive destination. Local boards should not be forced to make cuts.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I believe the priorities should include more sustainability and arts and culture.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental education, Environmental restoration and pest control

Tell us why these are most important to you: Because climate change is a very real threat and should be the priority of every council. And if there is no art and culture we run the risk of losing our identity, our empathy, and our soul.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: The cuts are to environmental and arts programmes

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It would be better to increase rates and debt than cut the services proposed here.

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Accessibility of zoos, art galleries, libraries and other community facilities are vital to the well being of residents. Events such as Diwali promote inclusiveness and help make Auckland a vibrant city and an attractive destination. I also disagree with the level of cuts expected of from local boards as they will cause a deterioration in the quality of every aspect of life for people and the environment.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I am very disappointed to read of the huge cuts you are planning (or are being planned for you) which are not indicated in your priorities listed above. This is totally misleading. It is clear you do not want ratepayers to understand just how much you pla

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Protection and restoration of local waterways, Community and art centre service levels

Tell us why these are most important to you: Both people and the environment need to be supported.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I do not support most of the cuts proposed as I have no faith that the services will be reinstated in the next year. However, if inflation and interest rates ease, it should be possible for you to increase rates by a lesser amount in the following year. T

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Regional services, Early Childhood Education, community events, council led community programmes and support for community led activities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: \$3 a week is manageable

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This makes sense - we need to future proof our city. However, world class experts should be utilised not over paid consultants who know nothing.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I do not support the proposed changes to community events, council led community programmes and support for community led activities.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local community events, Community programme delivery

Tell us why these are most important to you: These 3 are the core of any community - you take these away or reduce them significantly & there will be a lack of "community". Find other ways to cut spending - do certain staff at the council really need to earn over \$200k? Why isn't there a cap on

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I don't understand why the contracted activities cannot be altered - who are these contracts with & why should the community have to pay the ultimate price - I guess those who have contracts aren't too bothered by this.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? No

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please Mayor Wayne Brown - get Auckland CBD humming again and fix Albert Street - our city still looks like a bombshell and its embarrassing. I feel for those businesses who have been impacted due to ongoing roadworks. Make parking cheap on weekends and pu

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Point 3 - Reduction to regional services and point 6 no early childhood education are the 2 reductions I don't think the Council should proceed with. It's disappointing to see Transport and Tātaki Auckland also seeing cuts but I think the other 2 areas will have the most detrimental effect.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It doesn't seem smart to sell off such a huge asset in its entirety. At least keep a portion and see what the state of the financial situation looks like in a years time.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I think although it's tough for people but an extra dollar a week now would ensure that the NETR and WQTR are not fully depleted.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local community events, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I think the full cut to Arts and Culture is unfair and I think that the 90% cut to environmental education at a time when young people will have to come to terms with their future with climate change is scandalous.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

There should be an assessment and necessary changes to perks received by Auckland Council workers i.e. lunches, car parks, phone contracts etc. These employees should not be exempt from the effects of the proposed changes, just like everyone else living

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Organisation (if applicable): Inbox Solutions Limited

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: Do not under any circumstances sell the shares.

Ratepayers over multiple decades have funded the shares and they should not be sold to cover the lunatic wasteful spending Phil Goff and his cohort precided over. We know from past experience that selling p

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Do not increase rates at all for the next two years and go hard out on wasteful expenditure reduction.

Get back to the basics of providing roads and water infrastructure and maintaining our amenity (parks and reserves).

Beyond that stop the luxuries - lib

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: DO NOT ADD EXPENDITURE.

DONT SPEND MONEY IF YOU HAVENT GOT IT

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: As a citizen I strongly believe priority should be given to maintaining what we have got in terms of asset.

The decline in the quality of our reserves, berms and streets maintenance in the last decade has been appalling and quite frankly we are heading to

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I support some of the targetted savings but not all of them.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We have seen the creation of the Supercity coincide with a major expansion in the number of council employees when we were told that everything would be more efficient. The exact opposite has happened. More council employees with diminishing outcomes so w

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: It is prioritizing spending whilst at same time ensuring Rates don't rise to sharply

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: We still need some say in the main gateway to NZ

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: It's a reasonable rise in the current environment

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Infrastructure spending has been underfunded for a long period

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: The Kohi forest is not a worthy use of our funds

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental education, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Need the environment looked after

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Find further savings elsewhere. Does Council own the land for Kelmarna Gardens in Grey Lynn? this is the kind of property that benefits a small number of people but which could easily be sold to further reduce Auckland Council debt. This land must be worth

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Council should prioritise core service delivery rather than being involved in activities that should be provided by Central Govt or community organisations.

Important privacy information

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not think reducing funding for homelessness should go ahead. These people need help and there is not enough help as it is.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: If the return on the shares is greater than the interest rate on the debt, the shares should not be sold.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Repairs and replacements for the next few years should take precedence over the quantity of "nice to have" public entertainment spending.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Water quality - important, Meadowbank community centre - important, crime prevention - important, purchase Kohimarama

Forest - important

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: Environment and water are most important. Libraries are an important community service.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: I support reducing some of the "nice to have" activities for one year, and revisiting them, re-introducing them in the next budget round.

Library hours could perhaps be changed by closing on the Sunday and perhaps extending two weeknights by one hour.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Try to minimise the cuts to Local Boards budgets.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Important for the City to maintain a seat on the board of Auckland Airport. Split out the shares in Queenstown airport and sell those.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Let's sort out the current problems. It's too soon to determine what should be done to provide for future risk. An independent review and recommendation should be obtained.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I still feel larger cost cuts could be made to operating expenses. Greater control is needed over the activities of Auckland Transport and Ports of Auckland. Consider seeking small contributions to the various outdoor events, concert in the park, opera,

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: If you are going to reduce transport services - you absolutely need to focus on reliability. I have three bus stops (different services) within walking distance from my house to get me into town. However, as they are unreliable in whether they show on time, I have to drive my car 10 minutes to the place where all three routes come together, to ensure that one of them shows up on time for me to get to a connecting ferry.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? I don't know

Tell us why: I do not know enough about the negatives of selling the shares

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: Favourable to most support - would consider cutting back library hours an additional weekday. Am not in favour of cutting back on pest control/environmental improvements.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? There should be options regarding a persons ability to select reduced rubbish pick ups - with reduced fees on the rates. Everything should be done to encourage residents to be composting, reducing their production of waste. I am a single person who consci

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Get rid of the port. - this will shift the unwanted traffic from the city, shift people out of Auckland to other NZ centres off loading Auckland infrastructure.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the

Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I support some of the cost cutting measures, but rates should be increased at least in line with inflation. I also support taking advantage of some responsible borrowing. I believe rates increases haven't been high enough for decades, we haven't made the necessary investments in infrastructure. Increase rates, invest in the city.

I support spending on infrastructure services that we can all use, particularly transport related. I don't support the council paying for child care, community arts projects or subsidising the zoo.

That said I have concerns about cutting the homelessness support, i felt that during Covid the city looked and felt like a zombie movie. We will end up paying one way or another, extra police, property damage, loss of utility of the city spaces.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Not really a fan of selling our assets, I think that's a short term mindset.

Increase rates instead.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Rate increase is low, it needs to be higher than inflation to make up the short falls.

Don't pander to the ratepayer groups, spend the money, invest in Auckland.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I don't really see that we have a choice with this.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Do not proceed with

Proposal- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million

Reason - Traffic congestion is getting worse in the central city and other suburbs. We take the bus as often as possible but the reduced schedules make it difficult to travel during peak times. A carrot approach of frequent service and reasonable fares (ie current fares) is better than the AT stick of making car commuting difficult.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Selling the airport shares isn’t ideal but given the current situation it’s a good way to reduce debt.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Do not proceed with

Proposal - An average increase in general rates of 7.0 per cent across all existing properties, including non-residential

Reason - Rates have climbed regularly for the past several years, this coupled with high property prices is making

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Do not proceed with

Proposal - Deliver the new Meadowbank Community Centre

Reason - A desirable centre but not critical, the money can be better spent elsewhere.

Proposal - Continue to advocate for local transport improvement

Reason - AT has initiated a

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Arts and culture programmes, Library opening hours

Tell us why these are most important to you: Community focused events are important for the physical and mental wellbeing of residents.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I support a reduction in budget, but nearly halving the budget is too drastic.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Nice work on the feedback form. I like the way feedback has been structured for the proposed budget changes. The feedback allows some proposals to be supported and others rejected. Previous feedback forms only allowed an A or B option, in other words s

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	I don't know

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Reduce money wasted on arts and cultural centres. Those that are interested in these things can fund it themselves. It should not be part of rates. You don't pay my various club subscriptions so why pay for other people's interests?

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Prioritise the removal from Auckland Transport and their loony speed bump policy, anti-parking policy. This is both unnecessary and adds to pollution. Instead install sound strips before Pedestrian crossings, along with warning lights on the road.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local community events, Arts and culture programmes

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Money is now precious, costs are too high. All non essential spending should be seriously put on hold, and money concentrated on drain clearing and enlarging.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Ōrākei Local Board

Prioritise the removal from Auckland Transport and their loony speed bump policy, anti-parking policy. This is both unnecessary and adds to pollution. Instead install sound strips before Pedestrian crossings, along with warning lights o

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: I have no problem with the proposal to borrow \$75m for capital expenditure because the benefit accrues over a number of years so the cost should be spread over a longer period.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: It's all too vague to say it's a good idea. What is needed is more rigour in the council building regulations and monitoring their adherence and that shouldn't require additional borrowing.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: What is missing from the stated intent is a lot more focus on general maintenance in the city. Things like keeping streets clear of rubbish, especially gutters etc and lack of lawn mowing don't help in people taking a pride in their environment. The cost

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Maintenance of our environment sets the stage for our quality of living.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Eliminate waste by removing inefficiencies in the system. You know how inefficient auckland governance is. Don't have to reduce services.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: We are minority shareholders in AIAL. Our shareholding is not strategic. Sell all (or some) of our shares to reduce debt. The shares are trading at the highest they have been since 2019. The (higher) interest payments on the debt we could repay is gre

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: But by selling our AIAL shares we won't need to take on more debt. Quite the contrary.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

ACC should stick to the basics e.g rubbish collection etc. etc. No more vanity projects, expensive cycleway (I note the Richmond Road debacle as an example.

Also, lobby Central Govt. to change from the historic rating system to a Council Tax similar to w

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I agree in that the Council and its financial planners need to take a serious look at its budget and plan effective course of actions to prevent cost wastage. There are far too many things the Council seems to be funding which would be better spent elsewhere.

We are in a cost of living crisis at this time which will not be resolved anytime soon. So I would expect the Council to follow suit and to not waste money on Projects or start Projects that adds no value or more importantly savings to the rate payer.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? I don't know

Tell us why: Not sure about this one. I would agree in that it would certainly provide some much needed revenue however I don't think it would be wise to sell the Airport to foreign buyers. It seems that New Zealand likes to sell assets which only results in a short

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: I can't believe that AC's answer to its financial issues is to constantly increase rates. There is something glaringly obvious to me and has been over the years is simply AC is bad at book keeping and its financials. You can't keep increasing rates just

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: As per comment above.

Yes we have had a serious storm that has damaged a lot of homes in the Auckland region. Why should rate payers pick up the cost for this. The Council should already have steps in place for such an event as we could all see this com

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: What I feel is key for me at this time is:

1. Reducing crime
2. Improve water quality
3. Public Transport improvements

I therefore support some of the recommendations outline but some I do not as I feel they could be wasting money i.e. meadow bank communi

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Arts and culture programmes, Community and art centre service levels

Tell us why these are most important to you: I come back to the same points I have no use in these areas and why should I as a rate payer contribute to something that I never use. Certainly can pay for them when the books are in a better state.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? I feel that the rates system needs a overhaul. I have come from an environment in which you base your rates or tax on the number of people who live in the property. An example is you have a couple in a 3 bedroom home and you have a family of 6 in a 4 be

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: It sounds good on paper, but in reality is this actually going to deliver cost savings? Reduction in Operating Expenses usually leads to an increase in Capital Expenditure as work that was done internally is outsource at a higher cost. I suspect this would require yet another reorganisation of the CCOs involving external consultants and redundancies at cost.

I think reducing the funding in the areas above will actually cause deferred cost increases in other areas. For example, reduce public transport will lead to more congested roads, which will require more maintenance and traffic management. I'd like to see more radical approaches such as making public transport free. The cost of the AT HOP ticketing system infrastructure, licensing, operations teams, ticketing inspectors, and any new upgrade programmes (contactless payment for example) for it is probably close to the amount of money it makes!

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Based on the economics in the consultation document, the forecasted dividends are not going to be greater than the costs. It doesn't make sense for Auckland Council to retain a shareholding just for a blocking stake, that could be managed in other ways (s

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Aucklanders can't expect the same or better levels of services without collectively funding it. No one likes a tax increase but the burden should be shared. I'd like to see some level of means tested support for lower income families, but in principle I'm

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: It isn't clear in this budget what this \$20m will specifically be used for. 'Improve our ability to prepare for and respond to future storms' isn't very prescriptive. I'd rather you keep \$20m in for Regional Services. A good start for flood prevention wo

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

Tell us why: I don't think reducing funding for local boards is going to save money. In the recent floods, it was the community centres and sport facilities that provided emergency accommodation for those who had to be evacuated. I think you should be giving them more

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Youth initiatives, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: If someone is willing to put the effort it to do something positive for the community, to make it a better place, we should not be discouraging that. These are the people who year after year continue to work to improve our communities, not a transient may

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I don't think the feasibility of local board cost savings has really been thought through given that the local board states in the supporting information document, much of this cost is already tied up in contracted services and that it may not be possible

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I see works going on along Tamaki drive to resurface a footpath, which if I am honest didn't really need resurfacing. I suspect this is costing millions of dollars and it only addressing half the path (the area from the harbour master to the new foot bridge)

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Cancel the new Meadowbank Community Centre

Investigate the potential for targeted rates and other sources of funding

cancel to work with Ngāti Whātua Ōrākei to progress local initiatives and community development

Continue work to enhance Pourewa Valley a

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: ensure drains are kept clear

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Stop wasting money on speed bumps and additional bus stops.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop wasting money.

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: These reductions will make Auckland a palpably worse place to live. I can't believe that in a cost of living crisis this council are proposing cuts to public transport and early childhood services. Aren't we supposed to be encouraging people to use public transport? As a disabled citizen our existing system is insufficient and unreliable. I don't use it even though I want to, because I risk being constantly late to my job. Reducing publically funded programmes for the arts is also disgusting. Raise rates! Wealthy homeowners can afford transport, childcare, and the arts already, so it doesn't matter to them if these things become inaccessible for people who are not high earners. Cutting youth and homeless services? Do you realise how cartoonishly evil that sounds? Oh, we need to cut costs, we're going to make the bus and public art and entertainment more expensive and invest less in childcare and the homeless? What is wrong with you people? Do you realise what this sounds like?

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: I am not in favour of selling off the shares but would consider a blocking stake an acceptable compromise.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I am NOT in favour of removing any environmental protections. Also, the amount of council candidates who went on and on about rates made it clear that they're only interested in people who own homes, and I think those people need to shoulder more of the c

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental education, Protection and restoration of local waterways

Tell us why these are most important to you: Kids in schools are going to inherit our environmental stuff-ups because people were unwilling to be inconvenienced. The least we can do is teach them about the environment and hope they become better stewards than us. Also, our water quality is an embarr

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Far too much expenditure in AT that delivers so little benefit to so few people. Cycle ways cost per kilometer is outrageously expensive and benefits so few yet inconveniences so many.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: We need to have a long term plan to reduce debt and not just borrow more every year until it becomes unmanageable.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The board at AT needs to have more business acumen as they seem to think the money supply is endless and they have no focus on value for the rate payer.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Increase rates by 7.5%, the current CPI rate. Don't cut back on:

1. Regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres
2. Local board funded activities across all boards
3. Current rural environmental spend eg. landscape restoration, biodiversity, pest control, fencing and planting

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Need to reduce debt, especially with interest rates rising. AIAL paid no dividend during COVID, our airport is too susceptible to pandemics, global lockdowns etc and is therefore not a good investment long term.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Set the rate increase at current CPI, 7.5% (or whatever it is for the 12 months to 31 March 2023)

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This spend is critical and still won't be enough.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I agree with all of the above, not sure about :

Continue work to enhance Pourewa Valley and efforts to purchase Kohimarama Forest

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not reduce public transport services.

If early childhood service can be provided by other providers let them have it.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Shares in airport have the potential to increase in value. Auckland needs to be a partial owner of its airport

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Households are already struggling without further costs being imposed

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: No comment, the recent storms are explanation enough

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Please continue to fund local boards to carry out their essential work

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: Environment must be a priority.

Library is a essential service across all age groups and demographics

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: No comment

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? No

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please keep the libraries as they are

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Environmental programme volunteers, Environmental restoration and pest control

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed

where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: All of that affects negatively and directly the community. The way to solve budgeting problems is not by negatively impacting the people that support Auckland with all their hard work

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: That's the best way to help reducing the budget issue

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Arts and culture programmes, Youth initiatives

Tell us why these are most important to you: Those are really key for our community

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why: Not sure I support them

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: cutting public transport is not right, we need more people accessing public transport. do not cut Public transport.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling an increasing and money earning asset is NEVER the answer to over expenditure. Look at all ways to reduce costs, starting with the admin costs of council, AT and alike. Selling money earning assets is NEVER the answer.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: We need to live within our means., Stop ripping up pavements for cycle lanes, just fix the roads and get the buses and trains actually working and on time.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: The focus on pest reduction in the area should be maintained (not reduced as planned in the budget cuts) . The initiatives are working, reducing pests is vital for our bird and native life.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I do not support the cutting by such a large amount for the pest control, this is vital work which must continue to be funded.

The library can move to 6 days a week easily, many many places are not open 7 days. libraries don't need to be either.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport is already a disaster, should be improving it instead.

Regional services are for the people, reducing them will have a huge impact on the community, it is understandable that money is needed but maybe it's also important to think about the people.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The events that we have recently lived say enough about the need to think and invest in a better response to climate emergencies.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: An airport is a monopoly business in Auckland and one of the best businesses in country to own long term. Although the dividend might not currently cover debt payments, capital gains should also be included in the analysis of the value of Auckland council

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Governments of all kinds continually increase debt, and increase the size of government and total spending long term. Cant we reverse this trend, lower our commitments and become fiscally healthier and more responsible? This survey begins by pronouncing t

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: A storm like the one we just experienced is very improbable to occur again. Lets not overreact to the size and extremeness of the storm and invest to heavily into a very low probability event

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport is appalling as is, and moving towards a greener city requires investing in public transport. Cutting funding to cultural and tourist life is a huge reduction in income as well as a source of happiness, purpose, and livelihood for many people. How could you even propose taking away homeless and youth support? The most vulnerable communities. Increase tax on the highest income earners, limit the amount of wealth hoarding especially through excessive property purchasing and then renting.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: You already don't have the majority so there doesn't seem to be a large change if you were to sell from my understanding.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: This doesn't impact me from my understanding as I am not and probably will never be a home owner in Auckland. I would suggest that there might be higher rates on second, third, fourth, homes. People who own that many homes will almost definitely have an i

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Cut 100% of community grants AND arts and culture!? 90% of environmental education??? I actually don't understand where your priorities are lying this is EMBARRASSING while I understand the mayor and many others won't need to live through the effects of cu

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Arts and culture programmes, Environmental education

Tell us why these are most important to you: See above answer

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Why doesn't the mayor take a pay cut!

I feel like you are targeting the areas that need the most support, the most vulnerable communities and the activities that give Auckland life.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Do not support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing regional services such as community and education programmes - significant value add for patrons of the library across sectors in need.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL - makes good sense to get \$ and still maintain shareholding status.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Set a lower general rates increase and make greater use of debt - so many people are struggling financially over the past few years in particular - COVID and acts of god, etc.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Library opening hours, Community and art centre service levels

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services?

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reductions to transport services. It places further mistrust in a service that is already considered poor, and does not encourage use. Subsequently car is still the preferred mode of travel for many Aucklanders and traffic is abysmal.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Do not support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport and alternative transport options should be increased not decreased. This is short sighted thinking and neglects to provide a proper transport system for Auckland.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: These shares are an investment this is a short sighted sugar fix - start thinking long term not just about one term of mayoralty

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I don't mind paying more so that this city is a great place to live for me but also for my children and grandchildren in the future.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We are paying the price for a lack of forward thinking. This is necessary spending to future proof the city.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: This is what makes a great community.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: They are all important but you asked for 3 so there you go

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I believe their are efficiencies that could be look into Council, Water Care and Auckland Transport. I deal with people on almost daily basis and I strongly believe they take no responsibilities for their work, waste time and make things subjective rather than objective.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: I'd rather have some investment left in there for future, so selling all shares may not be the answer.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Better initiatives need to be applied, and reduce costs.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: We do need to look after our infrastructure. I hope this money do not get wasted in unnecessary consultants, meetings and processes though.

5. Local Boards

Manurewa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I'm aware of money being wasted on things like digital training. Everything needs to be scrutinized. There are some facilities that needs to carry on, but remove anything that does not have good proposals.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Reduction in service levels for community centres and arts centres (Nathan Homestead), Local community grants, Youth programmes

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I have two main concerns with this plan. First, the maintenance of a reduced number of public transport services. Second, the reduction in funding for arts and culture services, homelessness services, and community empowerment.

Public transport is absolutely essential to fight the current climate crisis. We need to be ACTIVELY INVESTING in more and better forms of public transport, not maintaining reduced numbers. It is good to see increasing numbers of electric buses on the roads, but they are few and far between. We need MORE clean energy bus and train services and MORE cycle paths.

Regarding regional services, including arts and culture services, I am shocked to hear that the council is proposing to cut the funding to these areas. Arts and culture services provide the backbone of Tāmaki Makaurau, and after a long stint of COVID-19, these are the very services that the council need to be ACTIVELY INVESTING in to help their regeneration. Moreover, social services like youth and homelessness centres are absolutely essential for vulnerable people who often have nowhere else to go. If the council goes ahead with their plan to cut funding to these crucial areas, I would be left feeling deeply shamed with this city and its values.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why: I'm not sure what this shareholding policy implies. All I know is that we need to be REDUCING air travel significantly to fight the current climate crisis. If this proposed plan would increase the number of domestic and international flights, for example,

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why: I don't own property in Tāmaki Makaurau, but I do rent. If I understand correctly, this proposed plan will likely exacerbate the already significant cost-of-living crisis in the city. If that's the case, I am against the current proposal.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I volunteered after the first wave of flooding, and the damage to some of the houses was shocking. As climate change will no doubt increase the number of severe weather events hitting Aotearoa, we need to be investing in cyclone and flood response NOW, be

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: These are good priorities, especially the investment in local public transport.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Arts and culture programmes, Environmental education

Tell us why these are most important to you: I believe that local engagement and arts and culture services are absolutely necessary to fight the current climate crisis. By engaging with our local communities, we can "think globally, act locally".

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I do not support the reduction in funding for arts and culture services, environmental education, and environmental volunteers.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The services that Council runs are part of what makes Auckland a great city. It is crazy to cut them! I also can't believe you want to cut the Southern and Western Initiatives which are doing innovative and important work that the whole country is learning from. Many community initiatives run on a shoestring and are supported by local board funding. Cutting that will reduce funding to the groups in Auckland who need it the most.

I say increase rates. Offer rebates for older people who might struggle to pay these but don't cut services!!

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Of course you need to increase your operating budget--how else is Auckland going to address the impacts of climate change?

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Active communities programme, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: They are all important to me. I don't support the reduction in local board funding.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Note: *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I would not want zoo, art gallery, stadium, etc admission prices increased. Already too expensive as it is. Haven't been to the zoo for ages as too expensive. Community and education programmes and regional events also should not be reduced. We need something in return for our rates!

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: It makes sense.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Still a big increase. I hope this has been well thought out and there is no other way to keep the increase any lower.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: I cannot afford for my rates to go up to 5.66%. I would expect you to make the necessary changes, etc using with the money you already have/will have coming in. Maybe if more thought and consideration is given before approving building consents willy ni

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I support all of the above but I hope that money that we don't have is not being handed out regardless left right and centre to Ngati Whatua Orakei. I hope there is some fairness in the process.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: I love walking and love nature. There are some great walks around where I live (Remuera) that I'd like to be maintained and looked after.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: Community grants and local events do cost the most - it would make sense to cut those back a bit. Water quality and restoration/pest control - budget should be left alone.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Ko te Puru o Tamaki ahau nga tohutohuv rangatira Apihai te Kawau, Te Uringatu, Nga Oho, te Taou Waiohau, Ngati Whaatua ko Dr Joseph Parata Hawke toku papa, ko Parata Hawke ahau. e mihi nei katoa i refer to Wai 1, Wai 9 etc, Maori land court records as to

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: The shares still pay a dividend. Best for the long term

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: You say 4.66% rates increase, then you say 7%. & % is too high with inflation as it is.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Better drainage is a top priority. But saying that, it has been neglected for years.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:**6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: All Services are already less than required. Improve PT and green areas.

Raise rates on rich owners of multiple properties who obviously can afford it from their portfolios bought while they voted in low rates and underinvestment councillors for decades rather than austerity for those suffering. We see them.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Don't sell public assets - we were warned about the stupidity of this on every level and it's come true.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Raise rates on rich owners of multiple properties who obviously can afford it from their portfolios bought while they voted in low rates and underinvestment councillors for decades.

They bought this political underinvestment. Time to pay.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Raise rates on rich owners of multiple properties who obviously can afford it from their portfolios bought while they voted in low rates and underinvestment councillors for decades.

These wealthy are also generally those who have stalled climate change

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Targeted rates to multiple property owners.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Auckland is a rich city but wealth is hoarded by a minority. We need to promote equity.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals? Promote Public Transport as a high priority and don't austerity budget around it.

Make food scrap service optional.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Austerity budgets will reduce the quality of Auckland life and the solution is to pry just a small amount of hoarded wealth from those Aucklanders who have gotten rich by votinh to be cheap for decades.

Let's be proud and invest in Auckland.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Arts and culture programmes, Protection and restoration of local waterways

Tell us why these are most important to you: THEY ARE ALL IMPORTANT. It is cruel to discount any of these initiatives/services.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed

where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local community events e.g. Parnell Festival of Roses, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: THEY ARE ALL IMPORTANT, not just the three.

Do you think there are other areas where we could make savings to our local budgets? The focus should be on service delivery, not performative austerity

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Solutions to crime should be undertaken by central government

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. Submitter details

Organisation (if applicable): East City Community Trust

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Continuing reduced public transport services - the increased traffic will have an outsize economic impact and will significantly reduce quality of life and livability of Auckland

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Reducing interest costs is a preferred option to hoping for decent dividends from AIAL in the upcoming years.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: Increasing debt simply leaves a bigger problem for later and incurs interest expense, and we are in a rising interest rate environment. A better option than increasing rates would be to reduce spending even further on ALL non-essential items.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Storm response should be one of the essential items covered by existing rates and other revenues. Cutting non-essential spending is a preferred option to increasing rates.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Delivering the Meadowbank Community Centre does not seem like a priority in these trying times.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local facility hours, Community and art centre service levels

Tell us why these are most important to you: These directly affect our facility.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: It is a terrible idea to cut spending on Water Quality and on Restoration and Pest Control. The other cuts are reasonable, and more could be cut from Community Delivery/Programmes as well as Environmental Education.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Scrapping Fencing Compliance to cut spending is a viable option. Spending relating to climate change should be cut completely until the existing essential and major issues are resolved.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It is disappointing that the Council finds itself in this situation - it suggests poor management that there can be such a colossal shortfall on the budget. Council should not be spending beyond its means, and should certainly not be resorting to debt in

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: leave the zoo alone, get funding from lotto

no more bike lanes rather tax bikers, they may become more considerate

cancel all cultural events and sport funding/

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:**6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I support the reduction in spending. Each and every family in Auckland has to balance their budgets, cutting out the nice to have and non-essential spending when income does not allow for it. It is ABOUT TIME that Auckland Council stopped spending beyond what the ratepayers can afford and inflicting the costs on the population. I support even more reductions in cost - and a focus on value for money and cost benefit analysis with solid numbers rather than fluffy estimates.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: We have incurred debt, we now have to attempt to reduce it. If the income from the shares is less than the cost of servicing debt to the value of the shares, then it is time to sell.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Cut back on the planned changes even more than currently planned. Thus reduce pressure on rates and increases.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Any large organisation needs to have in place a contingency plan and a funding arrangement for unforeseen events - whether it be storm, volcanoes, earthquakes, power disruption, water shortage, etc. I am shocked (but actually not surprised) that Auckland

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Past exposure to local boards gave me the impression that the members were looking for items to spend money on - and to 'get their fair share' of council (ratepayers) money. This is closer to a lolly scramble than a proper way of judging projects based on

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: The items I have indicated should be centrally managed by Auckland Council and not the responsibility of local boards.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: I recommend reducing the discretionary spend further while money is tight.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Having recently had my swimming pool fence checked - I suggest change the approach to checking pool fences. Why not check all the pools in a geographic area at the same time so that the inspector can quickly move from one pool to the next without a lot of

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It seems that the old approach of Auckland Council was to create a list of all the projects that they could think of for a year, add them all up and then work out what the rates would need to be to pay for them.

This is not an acceptable approach and th

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Active communities programme, Environmental restoration and pest control

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

I don't know

Tell us why, and which reductions you would not proceed with if any: Critical to avoid cuts to cultural, education and community programmes which are a relatively small amount of the budget and are crucial to the psychological wellbeing of people in our city, especially those from vulnerable groups.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: There is no choice - however the city is in this situation because of very poor management and maintenance up until now so council need to avoid repeating past mistakes.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Do not support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I would propose you reduce regional services even more so the other services aren't affected. Get rid of all funding for homeless, cultural programmes etc.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: paying less rates is great

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: i dont support the meadowbank community centre and in relation to parks i have noticed lots of dog poo bins dissappearing and its quite dissappointing. I have started littering my dog poo where the bins used to be to send a message to yall :)

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:**Waitematā Local Board**

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: none of these are important to me

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Note: *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: You should not be cutting anything related to arts or climate change. Including and especially libraries.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Getting rid of the shares means the council will no longer have a say in how the airport functions including climate related issues

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours, Community climate action and sustainability activities, Protection and restoration of local waterways

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?) Mowing service levels on reserves, Community leasing charges

Do you think there are other areas where we could make savings to our local budgets?

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Environmental restoration and pest control, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: A corresponding policy must occur whereby the level of debt is permanently reduced by \$1.9B otherwise future borrowings could be made thereby negating the benefit of the asset sale.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: It seems incongruous to be increasing debt when a sale of AIAL shares is required to reduce debt. Therefore overall debt reduction must be a key policy once this budget shortfall is addressed because there will not be any other assets to sell such as AIAL

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The infill housing developments in flood prone areas should cease now as well as general housing consents in such areas. Operating budgets should not be increased to address ongoing Council consent stupidity!

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: The Local Boards have a responsibility to improve the environment for their local residents

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Environmental programme volunteers, Environmental restoration and pest control

Tell us why these are most important to you: Environmental restoration including pest control is important

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: General support for the areas of proposed saving but further consideration should be given to limiting the reductions in high priority areas

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We need to increase spending on public transport to return services back to where they were and make them cheaper. Making cuts to education and arts culture is going to hollow out the spirit of our city and reducing helping the homeless seems wrong.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: I'm deeply skeptical of this move as the Mayor's comments about the sale of shares caused the share price to drop! How is that helping ratepayers by devaluing our own assets. I'm suspicious of the Mayor and don't trust his motives.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Increase debt and rates.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Money spent now on this will protect us in future events and in the end save money.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: They are all needed

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Active communities programme, Library opening hours

Tell us why these are most important to you: Libraries are important community assets and must be maintained.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Seems like a small amount of cash. This penny pinching does more harm than good.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Collecting food scraps should be a priority roll out for all of Auckland with no additional charge there's value in that waste for soil conditioning and energy generation.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Public Transport, walking and cycling need to be given top priority for council spending. There should be no new spending on roads beyond maintenance of the existing network.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any: proceed with all

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: reduce debt and focus on core services

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: don't increase rates and cut spending further

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: rates are high enough, reduce wasteful expenditure

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? further cost cutting is required, continued rates increases is not fair on ratepayers

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

the current approach to transport is not working. Public transport has never been worse, deliberately made congestions to force people from their cars is only creating more emissions

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres are key components of a healthy society. The functioning of such places and programmes ensures social health of the communities large and small.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Rodney Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: Keep the grants for the Art Centres.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Grants for art centres

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I especially find the library to be of importance to not cut hours or staff.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Would not proceed with any of the reductions - those proposed strip the heartbeat from the city. Changes proposed would increase the inequity that already exists within Auckland, limiting those reliant on public transport from being able to access the city + increasing reliance on personal vehicles.

Arts and culture sectors give people things to live for. Yes those things would not disappear (the main ones, Art Gallery, Zoo etc.) but there are so many community arts programmes and contestable grants funded work that make Auckland what it is to live in.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Just increase rates team. Cashing out of a major entity that is central to both our city and our country to reduce short term debt feels like a bandaid. Yes reducing interest being paid is a good thing but rates increases are the best way to do this.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Arts and culture programmes, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: 1. Shall not reduce public transport services. Council encourages people to use public transport to reduce their carbon footprint while at the same time cutting public transport service? It doesn't make much sense.

2. Shall keep the fund on tourism promotion. Tourism Industry is one of the key contributors to NZ's economy.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Business is business. It is a reasonable proposal for reducing the debt. the operation of AIAL will not improve even if Council keeps the shares. New shareholders might bring some good ideas for AIAL operations from a fresh perspective.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Stop increasing the rate. Council has been increasing the rate each year but cutting down the public service. Where are all those funds gone?

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Council may consider focusing on ensuring all existing projects are delivered on time. NO MORE DELAY for existing projects. Better storm response is to work efficient and notify people as early as possible, and this shall be within the current scope of w

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Library opening hours, Local facility hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Why do council support Paul Majurey with resources and budgets for Māori boards when he is from Thames, in the recent court action against Majurey his link to Ockham and his financial probity as Eke panuku chair shows that his bias will go against many p

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Library opening hours, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:**6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We wish that boat maintenance continues at the landing at Okahu Bay.

We wonder why the walkway currently being constructed (ngapipibridge) wasn't done when you did the other walkway a couple of years ago.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not reduce regional services. Do not reduce funding to Tātaki Auckland Unlimited. Do not maintain the reduced number of public transport services.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I'm not sure Meadowbank needs a new Community Centre.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would NOT proceed with reductions to arts and culture programmes. New Zealand's arts industry is filled with talented practitioners who deserve support from the NZ govt. The lack of support to Kiwi artists, particularly actors, musical theatre performers and creators, is already shameful. Further reducing funding to arts sectors, after they have been exponentially affected by COVID, unable to put on performances or operate, will mean this industry will be further set back in a way it won't be able to recover from.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Rates should not increase every year. A 2 percent increase is enough.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Looking after waterways and mowing berms are essential. Events are not.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Did not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Did not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: These are vital services and as Aucklanders we will be worse off in the future should such cuts be introduced. It will have a detrimental effect on people's wellbeing, including mental health. No help with services that people can't afford (e.g. Citizens' Advice Bureau in particular) might result in spikes of crime and poor health.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Remaining a shareholder will allow AKL Council to retain some control over this asset. International Airport is a vital business hub not just for Auckland, but the entire country.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Go for a higher general rate increase up to \$5 per week and increase debt up to \$75mil. It's not about just retaining the services that we have, but also making them more accessible and of better quality. I view it as a kind of long term investment that a

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We need to be better prepared for any adverse weather events, be it flooding or cyclones.

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library hours and services, Protection and restoration of local waterways, Local waste minimisation initiatives

Tell us why these are most important to you: I lived in the Kaipatiki area for a long time before moving to another suburb and deeply care about my old neighbourhood and community. While I support all initiatives, the selected activities are vital for Kaipatiki. The area has a decent amount of socia

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?):Community leasing charges, Local community events, Local business support

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I think the identified priorities are indeed important for the community. Absolutely agree with them! Water quality, parks, sports fields are all related to health and wellbeing. Community centre is hub for people to connect and get the support they need.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Library opening hours, Community and art centre service levels

Tell us why these are most important to you: Although I've moved to Orakei local board area recently, I strongly believe that library services, their hours and services that community and arts centres provide are vital for people's education, health and wellbeing. Considering the human impact on the

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I support cuts for local events but not the rest. The shortfall could be solved by rates increase.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I'm hoping that support for performing arts sector, such as local theatres, won't be withdrawn. Creatives and practitioners were hit hard by Covid and the value that they bring by producing, staging and performing their pieces is vital for the city's vibr

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million

Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Shift the rates burden to businesses - most of them choose to be here because of access to market/labour. Households are squeezed enough as it is.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We need more investment in infrastructure. The 'savings' of past years are catching up with us.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Not clear on the value of:

Continue to develop, maintain and enhance our parks and sports fields

Deliver the new Meadowbank Community Centre

Continue advocating for solutions to prevent crime and anti-social behaviour to support our local businesses and

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Environmental restoration and pest control, Library opening hours

Tell us why these are most important to you: Libraries provide a daily community focus and support an informed, educated population. Community events provide a bigger, less frequent sense of community. Pest control works best when it is a community effort, not random individuals doing what they ca

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I think that if most of the priorities listed above were cut, fewer people would notice than with the list of services that are proposed to be cut.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Annual Budget 2023/2024

Note: *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any: Keep funding for CAB

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Asset sales have consistently proven to be a short sighted and, in the long term, detrimental policy

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: Serviceable debt can enable improvements that bring long term economic benefits. Austerity, in almost all cases, bring further decline in services and economic prosperity

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport is a lifeline for many people and the current levels of service are not appropriate in light of this and climate change

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time

frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: no reduction to Citizens advice Bureau. Reduced reductions for local boards.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: this needs to better reflect the current rate of inflation - we need to be realistic.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: will be the minimum required to complete required maintenance

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: in general community investment is required to support citizens.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours, Youth initiatives, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: key to ensuring sustainable communities

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: About 60% of the current- excessive given total cost reduction target is about 15% of total budget

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: reduce spending on public transport, increase entry fees to venues

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: this is an appreciating asset so some value must be retained

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Early childhood supports young families so I would not cut it.

Get rid of all communications , PR & HR staff - competent managers should handle their own HR

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It's a key infrastructural asset so 10% is an important blocking holding .

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: I agree with pausing the shift from business to residential. Business rates are deductible so borne by central government to some extent.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It's a no brainer

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Crime advocacy isn't an official job. Ngati Whatua liaison as an official policy is a licence to waste money on wishy washy things. Stick to core business and get rid of the PR /comms staff.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Active communities programme, Library opening hours, Community and art centre service levels

Tell us why these are most important to you: These help a lot of people in the community

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: On he basis you have outlined

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We are bombarded with pamphlets and indecipherable guff from Auckland City most of which is deleted or binned. Comms departments should be reduced by 90% . HR staff should not exist. What in God's name does " Democracy Services do ? The " statement of int

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: The council can't afford all the nice to haves. Council needs to focus its funds on core business and future proofing infrastructure- not arts & culture - that's a central govt social funding issue.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: There can always be worse times. Don't sell up everything now & continue to earn some income from the remaining asset.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We have to be smarter about how and where we build

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Our open space needs to be valued - it does double duty for community mental and physical health but also it's often a soak hole in floods. We use these spaces a LOT!

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Development of a broader long term plan to change where and how we build to address the impacts of worsened & more frequent storms

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental restoration and pest control, Protection and restoration of local waterways

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: All of these services are essential to Auckland

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local community events, Active communities programme

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Regional services (particularly ones targeting youth and homelessness) and Early childhood education

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: \$20m is a lot to spend on operating cost - it would make more sense to spend that on capital expenditure

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Youth initiatives, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I agree mostly but believe we should reduce the restoration and pest control cut and increase the cut to reduce the library hours.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: DO NOT touch early childhood education services. We must invest in our tamariki with equity.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I'm not opposed to the debt. I'm opposed to the widespread cuts.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Progress Ngata Whatua Orakei initiatives plus supposing local businesses protect against crime. Invest and sort our appalling public transport. Scrap Meadowbank community centre and the forest and the park development.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Environmental restoration and pest control, Youth initiatives

Tell us why these are most important to you: Investing in our youth and basic functioning.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: We have to pay for this somehow

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: This is not core business for the Council. Return on investment is substantially below the cost of funds on borrowed money

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Live within your means. Do not add to debt at all. Cut wasteful spending. There is so much of it. Minimise rates

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Do not support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Traffic is so bad in this city. I have lived here for nearly 3 years and in that time it's just increasingly worsened. Right now it is taking an extra 40 minutes to get to work. I don't get paid for this. It is a grim thought that council is going to permanently cancel buses. Get these people off the road! Some of us have no choice but to drive.

CAB was there when I was younger. I did not have family support. It is not appropriate to cut their funding. They serve people who have nowhere else to turn.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Short-term thinking is going to create more problems down the road. Younger generations end up suffering because assets have been sold off. Don't do this.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: I know people will not be able to afford rate increases. Please borrow and don't sell assets. If Auckland council is not in debt then it's Aucklanders who will be. The council can handle debt, and Aucklanders do not need more financial pressure.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I hope you are able to communicate with Woods and central Govt to get more for this. Possibly matching the funds. 20 million is not enough.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

Tell us why: Council can handle more debt, we can't. We need a sustainable long-term plan. Do not cut funding. It is not responsible.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local community events, Library opening hours

Tell us why these are most important to you: None of these options are appealing. We do not need to go backwards.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: No funding cut. Borrow more.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Wondering if having bigger wheelie bins would reduce the need for weekly pick-ups. If it was the same size as the recycling bin then maybe the service could be fortnightly as opposed to weekly.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

CAB is the big one. I will join protests for them. I hope it does not get to this stage.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I am making this submission to request that the Council not eliminate or reduce its funding of the Citizens Advice Bureau.

I have been a Volunteer Interviewer for the Auckland Central Branch of the Citizens Advice Bureau for more than 12 years. In that time I have personally assisted thousands of people to navigate their way through a variety of life's challenges. On behalf of those people, I thank the Auckland Council and its predecessors for funding the Citizens Advice Bureau for the past 52 years. Without your support, my dedicated colleagues and I would not have received the ongoing training and support which enables us to provide this crucial free service to members of our community.

I fully appreciate the Council's budget challenges, and that you must ensure that ratepayer's (I am one) dollars must be well spent. A recent study showed that for every dollar of funding, the Citizens Advice Bureau delivers more than \$13 in social value to Aucklanders. This is excellent value for money, and is only achieved because the 900 front-line workers in the Auckland CAB are unpaid volunteers.

If the Citizens Advice Bureau were to be defunded, thousands of Aucklanders, many of whom are marginalised due to mental or physical illness, language barriers, financial issues or digital exclusion, would have nowhere to turn to for help.

Simply put, there is no other free, all-encompassing service like the Citizens Advice Bureau. The national resource base that we tap into is unmatched by any other organisation.

Defunding of the Citizens Advice Bureau would most certainly result in an increase in homelessness, food insecurity, impact on the legal system and a general decline in the quality of life for our Clients and their whānau. It would result in an increase in workload for the government agencies such as Work and Income, Immigration, Inland Revenue, Consumer Protection, Employment NZ, Ministry of Health, Ministry of Justice and Oranga Tamariki, just to name a few. Many of these agencies actually refer people to the Citizens Advice Bureau for additional help and advice in their web sites.

Any “savings” made by defunding the Citizens Advice Bureau would most certainly result in unintended additional costs to the Council and other Government agencies.

I urge you to not allow this to happen.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Auckland Council should not be a business shareholder.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Maintaining the currently reduced number of public transport services.

Reducing our funding to Tātaki Auckland Unlimited

These are big ticket items and unfortunately hard decisions need to be made.

Aucklanders need to adapt to available transport services, as long as they exist people adjust.

Tataki services are generally nice to have, it's the core services that should remain not these cherry on the cake type offerings

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Provided sensible decisions made where the money is spent.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Even though I cycle to work 3 days out of 5, if the council is spending money in this area, expansion needs to stop. It simply is not worth the expense versus the usage.

Funds towards noise and animal control services should not be reduced.

Important privacy information

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: All of the proposed cuts would have a negative affect on people in different ways. Things seem to be going backwards. An example for me is public transport, I am lucky to live close to the city and use the Tamaki Link bus to get to work, however it is already unreliable and often late. The loss in my time and the cost of catching the bus is equal to renting a carpark and driving into the cbd. Public transport should be better and cheaper than driving.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: Seems like an unwise time to sell, at least wait a few years. If it were a personal investor I don't think they would proceed at this point especially with the developments ongoing at AIAL and the future potential.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The only reason our property flooded was because the council have not upgraded the stormwater drains and maintained them. So much needs to be done. Start with basics like planting lots of native trees on berms in suburban areas to help absorb and slow rain

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Water quality needs focus, it smells bad along the waterfront on high tide, sewage must be getting into stormwater networks.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: The environment has been abused for too long and our grandchildren should not be paying the price for our lack of motivation to make changes for the better.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any

interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: > Reducing public transport: our public transport system is already under too much strain and not in an adequate state to provide for the large amount of people using buses, trains, and ferries in Auckland. This is an essential service that many everyday Aucklanders rely on to get to work, school, university and other events, so it should continue to be supported by Auckland Council.

> Reducing funding to Tātaki Auckland Unlimited: places like Auckland Museum, Auckland Zoo, and stadiums/venues are key features and drawcards of the city. Keeping the ticket prices accessible is the best way to encourage people to use them, rather than removing funding and increasing costs during a cost of living crisis.

> Reducing regional services: arts, culture, and community events are key to the vibrancy of Auckland city. By reducing funding of these vital services, the council would be reducing the liveability of Auckland city, i.e., reducing the incentive to live here. Especially after Covid-19 lockdowns, the least we need is LESS community engagement and support. Homelessness support and youth centres are also essential services which we should be investing more in, rather than less.

> No longer directly providing early childhood education: this is an essential service which is already expensive and difficult to access for parents.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I support some of these priorities, such as working with work with Ngāti Whātua Ōrākei, purchasing Kohimarama Forest, advocating for local transport improvements. However, I am unsure as to the relevance/necessity of certain priorities, such as the new Me

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental education, Community leasing charges

Tell us why these are most important to you: Creating a sustainable future and building community connections are important aspects of making Auckland a liveable city and Ōrākei a liveable area.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Community grants, local events, environmental volunteers, arts and culture, environmental education, restoration and pest control, and water quality are ALL important areas that need continued investment from the local board and council. I am not impressed

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It is important to me that Auckland Council continues to fund public transport services, climate change preventative action, Citizens Advice Bureau (CAB), community leases, arts and culture, and community services/events. Please continue to make Auckland

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Do not proceed with cuts to places like the Zoo, libraries, Swimming pools, Youth services. Facilities such as these are public services and should not be touched. Much bigger cuts need to occur for Auckland Transport and Panuku. Any projects they have should be completed and no new ones started. Stop building cycleways and the bumps on roads at huge expense. We cannot afford things like that now.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: Sell Auckland Shares If Auckland Council can reduce the beauracracy within it. This is in addition to current intention to reduce staffing.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Auckland Council needs to reduce a) its beauracracy and b) reduce the budget much more radically for Auckland Transport and other CCO's.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: No targeted rates. Spending on water quality is essential as is prevention of crime. Otherwise no new initiatives.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local community events, Environmental education

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Stick to basics. Ensure basic facilities are maintained like our Orakei basin, library opening hours etc. But pull back on all new initiatives, including walk ways.

Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? I don't know

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Radically reduce costs in CCO's first before hitting the local boards.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: '-Increase public transport back to pre covid levels and further increase it ASAP. Auckland roads/parking are currently unliveable and the transport system is not up to scratch- fix and spend more not less. Remember this is a Climate change emergency.

- Keep the buildings that the childcare services are run out of, ideally rent to AKA for cheap, or other private childcare services group for slightly more.

- do not cut Orakei boards funding so much. There will be no community left. Playgroups, Toylibraries and others will cease to exist.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: These are the top priorities from my point of view:

Continue to improve water quality

Crime prevention

Maintain sports fields

Purchase Kohimarama forest

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Community leasing charges

Tell us why these are most important to you: - playgroups can not afford further rent increases we will cease to exist. Consider rent increases to private for profit groups like baby sensory

-Please only cut community grounds do not get rid of completely. Things like toy library will cease to exist

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: It is my firm belief that council-funded public services should never be cut. The proposed cuts will have an immensely negative impact on people's lives in Auckland and make Auckland a far less liveable city.

The transport infrastructure in this city is currently in shambles and maintaining the current reductions to public transport will exacerbate these problems as the rail network goes offline. The bus services in my area, Orakei are already hopeless with many cancelled services and busses inexplicably never showing up. This has led me to commute to town exclusively via cycling. I consider myself lucky to have the ability to cycle to work each day, many others in this city do not, either due to safety risks, health or distance. Public transport needs to be increased, not cut.

In regards, to proposed cuts to Tātaki Auckland Unlimited. Let's face it Auckland is already a hard sell to tourists, we're a gateway city that tourists tend to leave pretty quickly. It is incredibly counterproductive to cut funding to the attractions and venues we have and increase ticket prices at a time when NZ is fighting to win back the tourist revenue lost to the covid years.

The most distressing and misguided proposed operational budget cuts are those proposed for regional services. Community services, education, arts and culture programs, homelessness funding, youth centers, CABs, etc are the

beating heart of our city and what makes Auckland a worthwhile place to be. These services make hugely positive differences in peoples daily lives. As a young person, I was fortunate enough to take part in the Auckland Council funded Make a Difference (M.A.D) environmental education programs in the early 2010s. For myself and many others, these programs had a huge impact on our lives and set us on fantastic leadership trajectories and saw many (myself included) become deeply engaged with community work, environmental work and develop excellent careers. The M.A.D programs were lost to budgets past, and I hate to think what else could be lost to an unnecessary slash-and-burn budget that is being proposed.

The proposed reductions should not go ahead.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: 2023/24 is not an appropriate time to be selling AIAL shares. The markets are down, and we are in a recession. The shares would be sold at a discount, and Auckland ratepayers would be far worse off in the long run. The shares should be retained by the Cou

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set a higher general rates increase and make greater use of debt.

The material benefit to Auckland of increasing rates and debt to avoid cuts to the Council's operating budget outweighs the negative financial burden on ratepayers of increasing rates.

I

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The devastating floods and cyclone that impacted Auckland in the first two months of 2023 have revealed the shortfalls in the council's investment in resilient stormwater and roading infrastructure.

The Council's response to the 2023 weather events so f

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: The outlined priorities of the Orakei Local Board are all those which I support. It would be detrimental to Orakei for any of these priorities to be dropped due to funding short fall.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: Orakei is lucky to have many great local parks and bush areas. But some of these areas are suffering from pests and weeds and need help from environmental protection programs and volunteers. If the funding for these programs was lost we may lose many of t

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I do not support the proposed budget reductions to the Orakei and other Local boards. Council should not be reducing the operational budget of Local Boards. The proposed savings of the Orakei Local Board should not be necessary.

Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? I support all priorities

Tell us why: Waitakere Local Board's priorities are in line with my values. I support the Waitakere Local board, especially in its priority to keep as many environmental services running as possible and advocating for increased funding to build more resilient roading

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental activities e.g. pest control and wildlife protection on west coast beaches, Climate action and sustainability initiatives, Parks volunteers and restoration of local waterways

Tell us why these are most important to you: In the Waitakere area the most important asset is the Waitakere Ranges Heritage Area and the surrounding natural environs. These places are ecologically sensitive and need ongoing environmental protection, pest control, and restoration activity. Additiona

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I am very concerned with the proposal to re-prioritize the CATR. Aucklanders overwhelmingly supported the proposal to introduce the CATR in the 2022/23 Budget. That support was shown so that Auckland would receive more and improved bus services, more cycl

7. What else is important to you?

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland is currently on a precipice, with underinvestment in resilient infrastructure and failing public transport bringing the city and the region closer to falling into unliveability. The proposed budget cuts to operational expenditure will bring this

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport should be increased not kept at the reduced level. I know drivers are short but there have been far more cars on the roads this year, the traffic has been appalling. Try to get more drivers and more public transport to ease congestion on the roads.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why: I'm not in favour of rates increasing, they are increased regularly already and many people are struggling. I'm not in favour of more debt either, I don't know what the answer is

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I'm happy to have a 1% rates rise for this. Please don't repair urgent things only for them to be ruined again, think long and hard about what to repair, where to allow building etc

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: The environment is very important to me and a lot of the Orakei board area is fairly well off so we could reduce services for a couple of years here

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? We should not be offering anyone bigger bins for rubbish. We should all be reducing rubbish .

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I'm very keen on climate change measures to ensure we have a planet to sustain our grandchildren and their children

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Arts and culture programmes

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed

where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I don't think we should maintain the current public transport as it is. Causing busy roads and lots of frustration. Also making it difficult to get around

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Don't see significant benefit for the people of Auckland keeping the shares

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Would save money in the long term if there was system in place to help reduce damage from future storms meaning less money would need to be spent in the rebuild of things

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Arts and culture programmes, Youth initiatives

Tell us why these are most important to you: I think they are important to keeping the youths voice heard and keeping diversity in the community

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not proceed with the reduced public transport as that impacts young students through to elderly people.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Youth initiatives, Community leasing charges

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: don't reduce public transport. so many people are reliant on these services and the low quality already creates issues

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: we need an input in the auckland airport

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: use debt

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: the sports fields seems insignificant

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not cut funding to Tāmaki Auckland Unlimited by too much and ensure they have enough funding still for major events and economic development. Places like the Auckland Art Gallery and Auckland Zoo are important tourist attractions and also help to sustain Auckland's vibrant culture - it is therefore essential to maintain them. Ensure there is enough money in the budget for homelessness funding (under regional services) as many suffer from homelessness in Auckland.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It is important to keep some shares in Auckland Airport as I strongly believe the council needs to be able to have a say in the future of the airport, given how key it is to the city.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: Protecting and restoring the environment is very important as is evident by the recent climate change induced weather events. Local community events are also important as they are opportunities to bond and connect the community, and are especially essential

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I understand most of the changes but I do not support reducing funding relating to local environment activities like environmental/waterways restoration and pest control and delivery on the local climate action plan. Having seen the impact of the floods a

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I disagree with the local board cuts, as well as reducing the regional services. While I agree with the other ones, these aspects would make a significant difference, and for that reason I would amend these changes.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: I believe that Auckland Council still having a say in Auckland International Airport could be very important for the future, but I also believe that partially selling the shares may help relieve pressure (budget pressure). By keeping some influence, and a

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I think the 4.66% rates increase is suitable, but if we are trying to counteract debt, making greater use of debt will put us in the same situation... Interest adds up.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: I agree with the increase, but it leading to a rates increase seems slightly unreasonable. I'd suggest a lesser increase...

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: These are all so important, especially continuing to work with Ngāti Whātua Ōrākei to progress local initiatives and community development!

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Community programme delivery, Youth initiatives

Tell us why these are most important to you: All three of these directly affect many, including myself. Initiatives like YOO directly rely on funding to drive their initiatives, and they are such good opportunities for young people.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Supports the overall wellbeing and environment for everyone - essentially would effect the most people if not prioritised.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: Continue advocating for solutions to prevent crime and anti-social behaviour to support our local businesses and community and continue supporting community patrols - this proposal seems strange to me and unneeded.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Youth initiatives, Community leasing charges

Tell us why these are most important to you: I am a part of the Youth of Orākei and i believe that the work we due is beneficial to our region. We connect with hundreds of youth each year to create a safe space for youth and without that funding we would not be able to support youth in Orākei.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Don't lower public transportation, it's my only way of getting to and from uni and this already takes over an hour, any further cuts will make this even more challenging, cut community grants and Auckland u limited

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Whau Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: FUNDING SHOULD NKF BE CUT AS MUCH IN LOWER SOCIAL ECONOMIC AREAS. The inequality within local boards around Auckland is crazy I understand that funds need to be cut but it should be considered that this is done fairly within areas of Auckland

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Protection and restoration of local waterways, Local arts and culture activities and programmes

Tell us why these are most important to you: For engagement reasons it's super important to keep community events to stay and to celebrate the diversity working there area

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Make sure youth voices are heard and taken into consideration and cut funds with equity considered

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: While selling some shares to cover debt is a good idea, Auckland International Airport

has a major role in Auckland and maintaining influence over the AIAL would likely prove beneficial despite the opportunity cost of reduced debt.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: Debt is the main economic issue Auckland faces right now. Despite even higher rates potentially having a negative effect on the Auckland populace, higher rates and less dependency on debt means higher reduction of current debt held over the Auckland council

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you: Environmental restoration and restoration of local waterways are both extremely important in the Orakei area where water pollution and pests are both large risks to the environmental health of the community. As well as this, youth initiatives are an impor

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Looking at \$1 million, it is a lot to save however cutting off an essential is not the best way to approach it. I'm sure there are alternative ways to save money then cause families to struggle with kids more.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: I do not consider such a large holding in one facility to be providing a return for the council and the ratepayers

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: There will be more storms and we must have well maintained drains to cope with what will be an ongoing issue. The current level of devastation and loss could have been greatly reduced if adequate regular work was being carried out

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: As a European I do not support working with Ngati Whatua Orakei as I am not convinced they work for ALL residents. Their focus is on their people. We need to promote inclusivity

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Active communities programme, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why: A lot of what the local board is doing is not obviously visible

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Top heavy and overly bureacratic - lets make it simple and treat them like any other public space

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing regional services such as community empowerment and funding for youth centres. Youth centres provide essential support to young people in Auckland.

Reducing local board funded activities because local board's have more specific knowledge of their region, allowing them to fund projects that work best for the particular area.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Youth initiatives, Community leasing charges

Tell us why these are most important to you: Youth Initiatives are especially important to me because they have a strong impact on the younger community in the Ōrākei region. The Youth of Ōrākei, for example, provide invaluable events that help support, connect, and empower the youth in the Ōrākei c

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Take the speed bump of kepa road

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: No reductions. We are NZ's biggest city and these regions would severely cripple the city. If you cut funding traffic will get worse, climate change will get worse! Absolutely despicable to even suggest it. Make it free, encourage more people to use it. Get more cars off the roads and build more train routes to the airport and over the shore.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Terrible to sell such an investment in the current economy.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Why is there no proposal to reduce internal salaries or contractor salaries for senior staff members?

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: At the very least that is what you could do. What do you expect these communities to do if you do not prioritise climate action like free public transport and underfund the support they need to a problem you are not committed to prevent?

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? Look at San Francisco waste management model. Reduce rates for those that recycle correctly and no longer need a red bin. I put out my red bin only once per month as all waste is diverted to soft plastics and compost. Reward not punish!

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I want creative thinking and action that makes this city better. These proposals are sedentary and sets Auckland backward. It is your duty to be forward thinking, what is the vision for the next 20 years. Climate action! People order profit.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We need to have some things to enjoy in Auckland. If not quality of living will continue to deteriorate

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The airport is a long term strategic asset. Eventually will resume paying dividends. The council is so poorly run that it will never afford to buy back in ever again

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why: The council wastes so much money. Not sure giving an extra \$20m to pour down the drain will help at this stage

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Active communities programme, Library opening hours, Community and art centre service levels

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:**6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop wasting money putting speed bumps and more stupid traffic lights. Auckland commutes are terrible enough and public transport is terrible.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Aside from some efficiency improvements, council budget cuts are not really necessary according to credit rating agencies and the Council's own projections.

The current financial outlook is not as bad as stated. Interest rates will stabilise.

The council itself sees its main debt to revenue forecast falling well below its self-imposed limit over the next five years; its borrowing requirements are scheduled to fall over the next five years; and it has ample resources to roll over its existing debt.

Council should consider the Living Standards Framework when evaluating costs/benefits of cuts.

The long-term investment case for keeping the council's 18% share in the Airport is compelling, given airport traffic is rising fast back towards pre-covid levels and the shares generated returns of 22.6% per year in the five years to 2019, which dwarfs the cost of debt at around 6-7%; and,

The alternative investment case for using the sale proceeds to invest in e.g. public transport would generate much better return on quality of life to Auckland's ratepayer than 4-5% per annum through reduced congestion and lower carbon credit costs in future.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: the long-term investment case for keeping the council's 18% share in the Airport is compelling, given airport traffic is rising fast back towards pre-covid levels and the shares generated returns of 22.6% per year in the five years to 2019, which dwarfs t

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set a higher general rates increase and make greater use of debt.

I strongly oppose the proposed changes to the water and climate action targeted rates as this just creates additional cost to society on future. AC have the debt management capacity to a

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Aside from some efficiency improvements, council budget cuts are not really necessary according to credit rating agencies and the Council's own projections.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Aside from some efficiency improvements, council budget cuts are not really necessary according to credit rating agencies and the Council's own projections.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Aside from some efficiency improvements, council budget cuts are not really necessary according to credit rating agencies and the Council's own projections.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: proceed with none of the above. Public transport services are CRITICAL in our journey to minimise the impacts of climate change. Reducing services is EXCEPTIONALLY short sighted. arguably, the service that AT provides actually needs more funding so that the system is more reliable and user friendly. All of the other services are a critical part of what AC provides for our communities - consideration should be given to the non-monetary impact of cutting those services (who in their right mind actually thinks that cutting funding to support homelessness is a good idea?).

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This again seems quite short sighted. In the long term, the shares will grow in value and the dividends will continue to support our business?

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: I strongly disagree with reducing the funding for the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR). for hundreds of years humans have put the environment at the bottom of the priority list - we need to be transformational

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: These are non-negotiable for me. It is critical that these continue, we cannot drop the ball on the environment

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Again, climate change is happening. The council cannot be so short sighted? The Climate Action Targeted Rate should not even be on the table in this conversation, it is shameful

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Annual Budget 2023/2024

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: The cost reductions in terms of trimming out layers of management do not go far enough.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Auckland Council does not have the expertise required to run Auckland Airport.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: The whole Auckland Council needs to cut its cloth to suit. Reduce overhead costs which on Employee benefits alone, are budgeted to increase by 10%, this is completely unacceptable.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: The local board has better knowledge of the area's requirements than I do.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours, Youth initiatives, Community and art centre service levels

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: There should be no cuts by Council in the Local Boards budgets. The Auckland Council has bloated itself beyond belief and could easily reduce operating costs by 10% overall, removing the need for this fiddling with tiny local budgets.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Need to deploy parking meters in both St Heliers, Kohimarama and Mission Bay. This is already in place on the North Shore so fail to see why it is not done in these areas. This would address the proposed reduction in local board funding with the additiona

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The Council needs to seriously address staffing issues like, taking 3 weeks to induct a new employee. Most commercial operations would achieve this in 2 to 3 days. Also, the layers involved in any expenditure by the Council need to be reduced....

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any

interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I believe that to grow into a world-class city, Auckland needs to care for its taonga such as the Zoo and Art Gallery. We want to attract tourists and locals alike to engage with these precious spaces and reducing funding will not serve that aim. I also disagree with continuing a reduced public transport service - Auckland requires a significant shift in how we 'do' transport to future-proof our transport systems and I think investing in public transport is essential to wean our city off of our dependence on private motor vehicles (electric or otherwise). We cannot make public transport an attractive option without the service volume and consistency to support both existing and new users.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Selling all shares seems like a drastic decision while the airport shares are still likely affected by COVID. I think it would be prudent to hold on to some of those shares as they may increase in value as the international travel market returns to pre-CO

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why: Whilst the required investment into future-proofing infrastructure is appreciable, the rates increase seems unsustainable given the context of a cost of living crisis.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: a 100% cut to arts and culture is intolerable - we do not want our communities to become soulless. The cuts to events are also too drastic in my opinion. This budget attempts to make the 'best of a bad situation' but the cuts across the board are a sad si

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I want Tāmaki Makaurau to be a city with a soul, with character. I want a city I'm proud of, that people want to come to and enjoy exploring. Transport, arts and culture, and events are all key parts of that.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

6201

Annual Budget 2023/2024

Note: *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I think it's a mistake to reduce Arts Funding as this is needed in times of stress and uncertainty to uplift and inspire people.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: I think private enterprise can manage Auckland International Airport .

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: We have to pay the debt somehow and so home owners are probably in the best position to pay a small increase in their rates

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The damage to properties needs to be funded somehow .

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Art Galleries and the Zoo and Motat must be supported if the visitor numbers support this .

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Highly opposed to reducing funding for cultural events, development, social services, community and education programmes. These are all important and give people a sense of well being and togetherness. I believe basic human needs! If we are hoping to reduce crime in NZ cutting funding on these is not a good place to start. e.g. I remember as a young person looking forward to what community events were on offer for free as that was all we could afford. And people who can afford still love what it provides. Take all that away

Also CAB funding should definitely not be cut! Where will people go for help and support? Another basic requirement that should be provided if you want communities to thrive.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Arts and culture programmes, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing regional services, social and youth activities are crucial to the community.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: I think it's important for the Auckland Council to have a say in the AIAL, hence keeping some of the shares that they own

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Increase the operating budget only by around 10 million. It is unlikely for another disastrous event to occur again in a short amount of time. But it is still important to put money towards prevention and repairs.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Development of the Meadowbank community centre is not super urgent

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours, Youth initiatives, Community and art centre service levels

Tell us why these are most important to you: These services are the most relevant to me.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: The cut for community groups, activities and events is too significant for me to support this action

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport should be the future of Auckland City, considering how large the city is. Reducing the number of public transport services prevents people from using public transport. Community and education programmes are needed more than ever in a city ravaged by COVID-19 over the past three years. These events breathe life into the city and have a positive impact on businesses.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Auckland International Airport will only increase in busyness over the next couple of years with countries re-opening their borders and more people heading overseas. It would be stupid for the Council to sell their shares in an asset which will net them

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This money needs to go into some future-thinking and planning, not just infrastructure on how Auckland should deal with the ever-increasing likelihood of being hit by storms.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Continue advocating for solutions to prevent crime and anti-social behaviour to support our local businesses and community and continue supporting community patrols - should this really be a priority, when there are other community events that could be fu

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Environmental restoration and pest control, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: I believe the purchase of the Kohimarama Forest to remain an important forest for the area is incredibly important over the next couple of years.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do NOT go ahead with reducing regional services like community and social services and early childhood education. Reduction of these services will disproportionately affect women, minority groups, and people who are already struggling financially. Places like the Auckland womens centre provide an essential service across the community, and defunding community centres like this will only deepen the inequalities seen across auckland. Instead, rates should be means tested and increased among the wealthy. Reducing funding to Tataki AKL will result in a huge hurdle to the development and growth of our small city, at a time where bringing back tourism is essential for the growth of the whole country. Regarding public transport, you should be encouraging use of public transport services by making it BETTER, and trying to move away from being such a car-based city in 2023. The only way to do this is to make using public transport viable and accessible for the majority of people.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: While I understand that this is good for an instant cash injection, the long term effects of this need to be considered. Privatisation of public assets, especially where there is a default monopoly- eg an airport- mean that private entities will just try t

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: rates are generally low compared to other countries. people in Auckland with excess wealth should be paying higher rates.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:the rich should be paying more rates!

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental restoration and pest control, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services?

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I support a rates increase and increased use of debt to continue with these key programs that make Auckland a vibrant and livable city. The benefits of these are worth far greater than \$433 a year

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set higher general rates and make increased use of debt - the NETR & WQTR are key to protecting this place that we call home - waterways and the natural environment are actually key pieces of infrastructure that help protect us from flooding and land

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Don't cut any funding to environmental initiatives and those to protect and restore waterways. These are key to improving our climate and flood resilience and protecting native biodiversity.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Do not cut the Climate Action Targeted Rate or gut bus routes. These are key to keeping this a livable city and we should be improving public transport

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I support the Tūpuna Maunga Authority.

Now is not the time to cut funding to climate action or environmental programs nor is it the time to reduce public transport or sell off key assets.

The higher rates increase is reasonable and the benefits far ou

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not support reduction in social services funding (excluding the childcare, that can be sourced through other existing programs) as the operation of such a wide range of social services and community activities depends on Council funding. Specifically do not reduce funding for Libraries, Pools, social housing programs, Citizens Advice Bureau, Youth services and education programs.

Auckland has endured much during the covid years, and our communities are rebuilding and reconnecting, and now recovering from flooding as well. We need those community services, grass roots social services and our public facilities to be operating.

Libraries, Citizens Advice Bureau and other information and education services support people to live better, work better, interact better and be more productive in their home and work lives. This supports more people to do better which has a flow on effect through the economy.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: While it is hard to predict the future, we have endured a particularly tough few years topped off with a natural disaster. Now is the time to use borrowing, perhaps not to the available ceiling, but I would rather see a greater use of debt than cutting s

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Make this a targeted rate across the whole city, we need to do this work to improve the resilience of our city.

5. Local Boards

Puketāpapa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Mt Roskill Library hours, Local community centres, Parks maintenance, including mowing

Tell us why these are most important to you: These are places where people go, recreationally and socially. They are places which support personal and community development. At a minimum we should keep them operating well.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Definitely increase the spa/pool fencing compliance cost to stop subsidising a small (and generally wealthier) sector of the community. We should generally pass on the costs of waste disposal to encourage residents and businesses to reduce waste.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Most of these initiatives for which reductions are proposed are critical to the wellbeing of Aucklanders, particularly the most vulnerable in our community. I would prefer a rates increase.

I particularly oppose:

Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

Reducing local board funded activities across all boards to save \$16 million

No longer directly providing early childhood education services to save \$1 million.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I completely oppose

Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as p

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We are in a climate emergency & need to be able to response quickly & adequately to natural disasters.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: These are the key priorities I support:

Continue to improve water quality, including in Newmarket/Middleton stream, Hobson Bay and Ōrākei Basin

Continue to develop, maintain and enhance our parks and sports fields

Deliver the new Meadowbank Community Cent

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you: By supporting environmental initiatives we are able to increase people's health and wellbeing. There is plenty of research to support this. Looking after our youth in a positive way will promote healthier, happier and more resilient communities, particula

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I think that rather than removing services - reducing St Heliers and Remuera libraries opening hours down to six days a week from seven would align with other libraries in the area.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please support the health and wellbeing of our most vulnerable communities, including mana whenua and their aspirations, and the environment - which feeds directly into people's health & wellbeing. Aucklanders strongly supported NETR - Council does no

Important privacy information

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: These reductions gut the future of Auckland for everyone, particularly those who need support most, and must not be allowed to happen

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Public owned assets benefit everyone, not just the over-privileged

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Rates are paid by everyone (including renters via their fees), and benefit everyone. Home owners only pay a fraction of what they charge their tenants so any cuts to rate increases is biased in favour of homeowners rather than all Aucklanders

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Most ratepayers don't know that sewage and stormwater regularly mix during heavy rainfall events. Engineering consents also need to be reassessed, we're polluting the ocean and most don't even realise it

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Arts and culture programmes, Environmental restoration and pest control

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Ratepayers are entitled to adequate care by the councillors we pay for

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Additional consultation, education and funding for forms of active transport are necessary now more than ever. Active transport boosts business when adequate infrastructure is in place, which also keeps our children and elderly safe from clumsy drivers

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Reassess council salary bands; mayor and councillors don't deserve to profit simply by gutting their ratepayers' city, their future and their children's wellbeing and safety.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not proceed with any of them - these services are so important for our community and its future. We need good investment in public transport, and local services to support the vulnerable and the young. Local community projects and events are so important for a strong community and society.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The airport generates income for its shareholder. Selling shares to fund Wayne browns promise not increase rates is short sighted and will not service auckland in the future. We should be investing in our future not selling it off for short term gains.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Increase rates and make higher use of debt.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It is important to invest in stormwater infrastructure. Events like the recent storm will happen more in the future and we need to be prepared.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Don't cut funding to local grants and community events and community programmes. We need to invest in local community activities. Maintain restoration and pest control funding and education about the environment. Do not cut funding to protect our local w

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: Our local environment is so important - especially in our coastal location. Libraries serve so many different people in our community including families with young children, school children, the elderly and those who need a safe warm space. We should try

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: half way house - don't sell off all potential revenue-generating assets right now when they are paying no dividend but are likely to increase in value in long term (capital gains) notwithstanding no dividends now

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: balanced response

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: only support the core responsibilities of maintaining local assets

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? make it easier and cheaper and more incentive for households to reduce waste and be more environmentally friendly, eg don't charge for lowering bin size to 80l, and don't charge for food scraps service

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The reduction of operating costs has unequally targeted services and communities, that are essential for a rapidly developing city; they do not reflect the citizens of Auckland.

Traffic is a large contributor to revenue loss, by not enhancing public transport we are limiting revenue gains, disrupting production, and limiting the ability of the workforce to operate. Additionally, we are increasing costs on maintenance of other systems, that per \$ usually have a lesser return on investment, and have an environmental cost, which is costing us now and will cost even more down the road.

Reduction in funding for Tātaki Auckland Unlimited will not only badly impact leisure for Auckland citizens (which is important for a functional society, improving social order), but it will badly impact tourism which is a large revenue source for this country and Auckland.

Reducing regional services (where do I begin); community and education programs help uplift individuals to help them become productive citizens, as well as reducing crime and other stresses on services such as the health system. Art and culture help preserve the heritage and are a medium for improving community strength and intercommunity relationships, as well as the economic and employment benefits, and the benefits of tourism. Social services help reduce crime, reduce

the impact on the health system, and uplift individuals out of poverty. Youth services improve youth outlook and opportunities, building a stronger generation, as well as providing long-term economic benefits, reduction in crime, and reduction of load on the health and mental health services.

Reduction in local board funding and regional grants will have a similar impact, as discussed above. In a time of events such as Covid and the Auckland flooding, which will only become more common with increases in global temperatures; these services become even more essential for keeping the Auckland spirit and rebuilding efforts strong.

Childhood education is important to building a strong, healthy, intelligent, and productive next generation.

Landholders have a large portion of untaxed assets, that in most cases are highly profitable.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling shares undermines Auckland Councils' future asset and bargaining power, for a very short term and small gain.

As a last resort, I would prefer this to operating spending reductions and would prefer partial sale vs full sale. However, I still believe

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Landholders hold a large portion of untaxed assets, as well in many cases highly profitable. This will have an impact on renters, and it would be good if this was mitigated, however the overall benefit from not gutting Auckland's operational cost will outweigh

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: With increases in global temperatures, these events will only become more common. Rapid changes are required to be more resilient to these events as well as reduce future costs these events will cause. In the long run, these investments will pay off

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: These are all essential to maintain Ōrākei development and maintain social order. These activities all indirectly impact community health, productivity, and profitability.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental education, Environmental restoration and pest control

Tell us why these are most important to you: Environmental issues will be one of the biggest disrupters to our economy and society - ignoring this could have dramatic consequences for our economy and society.

Art and culture are important for community health, economic development and strong community

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: The level of cuts are incredibly high in some areas and unevenly distributed. The cuts do not seem to reflect the diverse community and the opinions of Auckland citizens.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Annual Budget 2023/2024

Note: *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Please do something about the huge waste and incompetence from AT. Just in my local area they do and redo projects over and over. And they grind traffic to a halt with crazy changes on arterial routes.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Because it's a bridge too far for council. Get the basics right first.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: All my dealings with council have shown a bloated structure and with zero service culture and accountability. I don't want to pay more for that. You need a serious cull, not ask us for more money in tough times.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Current infrastructure cannot deal with normal weather. Look at beaches that are black after a normal rainfall. That proposal is a Band-Aid and won't make a difference. You need to seriously evaluate and improve the current infrastructure not tinker with

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Water quality should be an Auckland wide issue. The community initiatives seem a bit vague. What would not happen if you didn't do those? If there's no tangible benefit then stop it.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: These don't map to the priorities clearly. Where is the one on reducing anti social behaviour

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: Maybe ensure activities are less locked to contracts in so you don't lose the flexibility to cut them when savings are needed.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The Council is a huge machine and there is lots of inefficiency there. It's galling to have to pay more for poor service, as service does not have to get better because it has a monopoly stranglehold on users. You just need to get rid of people and have c

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Each of these reductions would have a negative impact on those living within New Zealand but would particularly affect those of lower socioeconomic status. The reduction of most concern to me is the cutting of public transport services. Auckland already has traffic woes and to ensure people WANT to take public transport the services need to be a consistent mode of transport. Cutting the already limited services will result in people being forced to use private modes of transport in the short term and may cause a distrust of public transport reliability in the long term. In order to reduce the reliability of the nation on fossil fuels, as many people as possible need to see public transport as a reliable and viable option for their personal transport.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: I believe that it is important for Aucklanders to have a say in what happens at Auckland International Airport in the future. Selling the councils shares will result in reduced accountability for the airport to listen to what aucklanders have to say.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Many well off people within Auckland could pay greater rates on their homes and see little to no difference in their lifestyle or operating capacity. If those well off people pay more then everyone in the city will benefit from the increased services avai

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: If these funds are used to prepare Auckland for the impending consequences of climate change then I support the increase in operating budget.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Each of these priorities will help my community to be a better and more livable location for all people living within it.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: The local environment is important to me and I believe it should be protected and restored as best as possible. We have one New Zealand and we shouldn't squander it. Secondly, libraries are one of the few indoor spaces left in society with no expectation

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I do not support the 100% cut to arts and culture funding or community grants. Each of these play an important role in educating and helping the public and to fully defund these from the local budget is a suggestion I find abhorrent.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Homelessness, CAB, libraries, community education

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Arts and culture programmes, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: The targeted rates were a rort from the outset and should be done away with permanently altogether.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: The targeted rates were a rort from the outset and should be done away with permanently altogether.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: The targeted rates were a rort from the outset and should be done away with permanently altogether.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The targeted rates were a rort from the outset and should be done away with permanently altogether.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: The targeted rates were a rort from the outset and should be done away with permanently altogether.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Active communities programme

Tell us why these are most important to you: The targeted rates were a rort from the outset and should be done away with permanently altogether.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The services that are proposed to be cut provide vital support to communities across the city and especially those that need the most support. The ongoing impact from cutting these services will be immense and will be felt most by those already struggling the most.

There is also significant incongruence between the rhetoric from council and the proposals presented here. The mayor supposedly wants to empower local boards but is proposing to take away significant amounts of their funding?

The council also has adopted policy like the Auckland plan, Te Tāruke-ā-Tāwhiri and Thriving Communities, all of which you will not be able to deliver if these proposals are adopted.

This council is not making long term, strategic decisions based on its own policies but is focusing on short term numbers based budgeting. This is incredibly short sighted and will only cause more harm long term.

Why is council not taking the bold step to increase rates to support these much needed community services like other councils across the country are doing?

Why are you ignoring your own policies?!

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: This proposal feels like a decision that is easier to make based on the numbers. Is the income currently received now (and projected to be received into the coming years) going to be higher than any interest we pay on current debt? If the income is higher

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Inequity in Auckland is rapidly increasing and homeowners are a group that are disproportionately benefiting compared with the rest of the population, especially in more well off areas.

A small rates increase (which is still less than many other parts of

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: One of the reasons the cost and impact of these extreme weather events is so high is because of underinvestment previously. By investing this money now to increase the resilience of not only hard but also soft infrastructure and community resilience, we w

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: There are a range of proposals which will benefit communities such as maintaining our parks, community centres etc but I also like the focus on the environmental elements which will support our climate resilience.

I also support increased empowerment for

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you: Local grants are an important way of empowering the community and often can deliver greater outcomes with a smaller amount of money than council can so this is a sensible investment as well as critical to supporting these organisations.

Water is a major f

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: I only support the savings proposed because we are such a wealthy area and the community can afford to step up. Many of these areas could be covered by private donations and fundraising.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I am extremely worried about the proposal to cut funding to the Southern and Western Initiative. This service has had an incredible impact on communities that need the most support and who are consistently affected disproportionately. As we continue with

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport is essential. The traffic in Auckland is terrible and costs the economy millions. The traffic impacts all of us. More public transport is necessary to mitigate the impact of traffic and to help meet our climate change goals. It is extremely short sighted to reduce public transport. Auckland council sponsored events and venues attract visitors to Auckland, who in turn spend millions on food, accommodation and entertainment. Cutting funding for these things puts an essential revenue stream for Auckland in jeopardy. Once again this is very short sighted. It is essential that Auckland remains a desirable place to work, live and travel to. A rates increase is a much better option.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: My preference would be to keep the shares intact but the middle ground of keeping at least a 10% shareholding is not a terrible option. However Ak airport shares are far from their 5 year high and waiting for a better price is also an attractive option. A

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Water and drainage must be a priority. Any money spent now will mean millions saved in disaster response in the future

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: None of the cuts are very pleasant but these three have the highest impact on the future and on quality of life

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: There are some very important programmes here - particularly the waterways and pest control.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? I would prefer a rates rise to most/all of the cuts proposed

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: You can't keep relying on property owners. You will price people out of their homes in retirement. Or make exceptions for retirees.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Forget Kohi forest.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Stick to basics

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Childhood education funding is vital for economic stability in many households

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Rates are extortionately high at present - these cannot be increased in the present economic climate

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: we must be innovative - look to northern Europe for preparing for the future

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: An inordinate amount seems to be spent on parks - feel this could be managed far better and with a much tighter rein.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you: .

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Keep ECE centres because this is a small saving but valuable service. Don't compromise public transport because an unreliable service will not be used by people. We need to support public transport to address the climate crisis. We also need to continue support for homeless and youth services. We can't abandon the most vulnerable. Increase rates to cover these expenses.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: If the costs are greater than the dividends than selling the shareholding makes sense.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: Other councils are increasing rates more.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Storms like this will happen more frequently under climate change.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: The listed priorities are good.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Community and art centre service levels

Tell us why these are most important to you: Water quality really needs to be improved so we can swim at our beaches whenever we want. Pest control is important for urban ecology.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I'd prefer increased rates over these reductions in services.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We can't go backwards on climate action.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Dont reduce funding to the zoo as this is not just for aucklanders to cherish adn enjoy but all the hardwork that has gone into producing a great zoo

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: The actual govt should have majority ownership of this key infrastructure it should not be left to councils to own the airports

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: If you sell the airport shares then this should enable you to not have to go into further debt and mean you don't have to increase rates

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Council is to blame for a lot of houses being built in the wrong areas to start with and hence being flooded. Also if council made sure infrastructure was correct in the first place then the city should have been able to cope better with the amount of rain

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: A lot of these policies I do not see as necessary and affect most ratepayers. Projects should be done on the greatest need for the community and which will give the biggest effects to people.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: They affect most people where as the others only affect a smaller minority

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

If the council plans to actually increase its costs on loads of things then the actual service better increase. Roothing is a major issue in this city and money is not exactly forthcoming in sorting this major infrastructure out.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Proposed changes will have a greater impact on vulnerable people in the community - this is inequitable and short sighted both socially and financially. Cutting funding to Citizen Advice Bureau for example will save very little in dollar terms but have a significant cost to those relying on this service.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including:	
a) a 10.6 per cent base rate increase,	
b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	
c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Why are there banners installed on light poles down St Stephens Avenue advertising Parnell to Parnell residents? Utter waste of money.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million - public transport is already busy and most days I am unable to get a seat. We should be encouraging more people to use public transport, which will help reduce impacts of climate change, congestion. Less people on our roads also means a reduction in the investment of road infrastructure.

Reducing our funding to Tātaki Auckland Unlimited to save a further \$27.5 million, with effects on service delivery (including economic development and tourism promotion) and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland. - Auckland art gallery is one of the free places that people can go to be inspired and educated. The gallery helps build connections between communities and has an important role looking after our precious taonga, it is already severely underfunded and we can not afford to reduce it more. As a public art gallery, the gallery is there for the public and should be allowed to be enjoyed for all, without cost barriers to those that may not be able to afford it. In a time when inflation is increasing, the Gallery provides a place to feel safe and escape.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: It depends on where these shares are being sold. If we are keeping our assets within our country, that is okay but if we sell shares to overseas entities, the airport will become out of our control.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Reduce debt asap, being a minority shareholder should not be a core Council strategy. Council needs to retreat into what Councils do and focus on CORE services.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: We simply cannot keep gouging ratepayers with rate increases. They need to be hinged to inflation, with the 0-2% range the RBNZ is mandated to achieve.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: It was a freak flood & cyclone. Let's not budget for this to occur every year please!

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Don't support targeted rates increases

Don't support working more with Ngāti Watua, instead would advocate less.

Be good to see all rates taken from Ōrākei, spent back in Ōrākei and not supporting pet projects

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Active communities programme, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you: Need to focus on these as they're most important IMHO, plus water quality to ensure our beaches are not used a sewage overflows!

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Note: *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Not reduce funding on regional services and early childhood.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It's impossible to rely on forecast dividends. Dividends may also exceed interest costs. Value of shares may increase or decrease. Less ownership in a strategic asset for the Auckland region is a certain negative.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Do not support reduced library hours - places where people can meet, learn and socialise.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Library opening hours, Youth initiatives

Tell us why these are most important to you: Art and culture are the community. Libraries are places of learning. Youth are the future.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Find reductions in planning and governance.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: I would also suggest that Council should look at some of its land and building assets to see if they should be sold to help reduce debt levels.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: We need to maintain a healthy environment in which to live and work, for both current and future generations.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I understand the need and how hard it is to find this level of savings. Our expectations will have to change and community activities and programmes will need to consider alternative funding.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? I agree in principle with the \$40 charge to change bins. However, I think that many people will not be aware of the option of changing bin size. There should be a period of perhaps 3 months during which houses can change their bin size. After that period,

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable): Glendowie Bowling Club

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Please do not increase the Community Lease charges as clubs such as ours, Glendowie Bowling Club, struggle to break even financially. The Council has a major focus on Community well being and you should do nothing that might force clubs to close.

Regards

Rod College

Club Secretary

Glendowie Bowling Club

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Completely removing canceled services on the AT metro network will only exacerbate the congestion problems in Auckland.

This solution is not long-term oriented. Our city is in desperate need to improve our transport needs. It has been constantly advertised that our city is growing fast. Buses that already run during peak hours are often full. In recent news, kids are struggling to get home because buses are canceled and/ or are full. Doesn't this force more people to go back into their cars? Congestion will then again increase in the city. This also contributes to the emissions that we produce. How does Auckland Council plan on reducing emissions if our transport options are still very limited?

If we want to reduce the number of cars on the road (and the emissions we produce) we want to increase the number of buses/services on our transport network. If these current services are removed. That includes investing in projects to help improve the quality of life in the city. Removing these services could possibly make the service even more unreliable.

Our transport network is already known for its unreliability. I think this will simply make it worse and make this city unliveable.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Evidently, our infrastructure requires upgrading given the recent environmental damage we have had.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I think cultural events, recreational spaces, and leisure services are important and give life to our city. As an Aucklander, it feels that the city is alive when there are events posted around the city. Knowing that a particular event is happening makes

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not reduce regional services, these support the community and a further decline in community is the least desirable of the options

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Auckland Airport will be an even more critical piece of infrastructure for Auckland in the future. Having some ownership by Aucklanders will mean the airport will align better with the communities needs

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Active communities programme, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:**6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not reduce regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding.

Reductions have long term negative impacts for all Auckland. Very short sighted thinking for a Mayor who says supports the arts.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Sell only if can get a high price, in this market maybe best to hold and sell later.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: Auckland rates are lower compared with counterparts in other cities. AC provides great service levels and we need to pay to maintain them

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why: We need to build our cities resilience to climate changes

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

Tell us why: Sell Meadowbank community centre. Our LB area has many venues/church spaces under utilised - we do not need the community centre. Including the church space across the road.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: The environment is very important - as the community is a well resourced and predominately affluent area and doesn't require large community grants/discounts.

Suggest review asset portfolio maybe increase peppercorn rents for community lease charges an

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: Seem a very fair allocation for the first year. I assume that you can plan future year reductions from non discretionary funding eg. My suggestion is not building and funding operations at Meadowbank community centre

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the

Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Continue with removing social services activities such as homelessness funding, community empowerment - this is not part of council's core service. For the same reason sell early childhood centres. There are plenty of private providers offering this service. Reduce local board services, including Grants - these are problematic and taken advantage of. Tighten up on the criteria for grant funding, do better due diligence before handing money out, follow through to make sure the funds have achieved objectives.

Condense the number of local boards and reduce the overheads associated running them.

CCOs - maintain services but drive efficiencies. Other organisations dont receive 50% of income through council funding. This would almost certainly lead to inefficiencies. There must be many opportunities to reduce their operating costs without reducing services.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: This is a no brainer. Sell the shares only if all proceeds go towards reducing debt.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Rates must go up. Inflation is at 7+%. Rates should align with this. Its that simple. Most other businesses have increased prices - suppliers to council have and in some cases double the rate of inflation. Council can't continue to absorb all the increase

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: What do we need to manage that is outside councils normal asset management plan. Unclear on what the \$20m is needed for.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: A large proportion of proposed cuts for local boards could come from their overheads and still deliver what they promised.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: The three areas - environmental, protection of waterways and outside maintenance are sustainable services.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: It isn't significant in the big scheme of things.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? I disagree with the increase in pool/fencing charges as the reason is to reflect current costs of the service - first we need to look at the service and reduce what it costs to deliver it.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reduce public transport

Reduce funding Tataki

Reduce regional services

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Shares in AIAL seem like a luxury item

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: The council should be borrowing right up to its limit to keep important investment moving rather than increasing rates for residential. Why is the business increase paused?

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Natural disasters need to be better handled than the floods and cyclones have been this year.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: There are enough community centres nearby to Meadowbank, is it urgent?

What exactly is advocating for anti social behaviour achieving?

What exactly has advocating for better local transport improvements achieved - we have no trains from March this year an

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Environmental education, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Cutting library hours to 6 or even 5 days seems like it could offset a lot of smaller cuts across many othe affected services.

Surely such things as events that need traffic management should be moved anyway to avoid these costs.

Why aren't Local Boards s

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? If food scrap collection is implemented, it should be a one off cost to opt in, not a targeted rate across all ratepayers who may wish to or cannot afford to use it. If you downsize your bin or keep a smaller size then no extra cost, but you should pay f

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Note: *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

Submitter details

Organisation (if applicable): Tohu Media

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Support businesses! Support training & apprenticeships for businesses

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Reduce debt

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Maintain same rates and restructure the labour expenses at Auckland Council. Less bureaucrats!

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Get rid of the expensive labour costs within council!

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: Get rid of expensive Auckland council labour

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Arts and culture programmes, Protection and restoration of local waterways

Tell us why these are most important to you: Prevent flooding, support local, arts & culture

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Support community grants, environment & arts/culture

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Keep funding for economic development & training

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: \$75m could easily be found from the current pool of operating & capital expenditure.

AT Transport's spending is a disgrace. Along with the Cost Plus roading contracts - Hence why it take 12 workers to fill a simple pot hole.

Auckland Council need

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Refer above - You are not spending what you receive wisely enough, we should be giving you more.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Do not proceed with Local Board Funded reductions by \$16m

Do not proceed with Regional Contestable Grants by \$3m

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Not core business. Ownership of airport makes no impact to operations of Council. Only defence is dividend income, but Council is not there to be an investor on behalf of ratepayers.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: I trust Wayne and Desley to set a reasonable compromise.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The impacts of climate change are inevitable, so we need to adapt early and fast.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: The OLB are doing a fantastic job. Their Local Board Discretionary Funding SHOULD NOT be cut. Any spending done that way is multiplied many times in its effect by the addition of VOLUNTEER hours, something you don't get by paying contractors to do work. T

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: Personal interest in local environmental matters. Cutting spending here would cut support to a multiple of volunteer activities in related areas, losing the multiplier effect.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: I'd rather the local Boards were not obliged to cut these amounts (total \$16m) at all, which are relatively small in the overall scheme of things yet are important for perceived delivery and quality of experience at a local level. Instead cut this amount,

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We need a moratorium on traffic management infrastructure and a serious defunding of Auckland Transport. Don't cut the rats and mice of local democracy delivery, or environmental targeted rates which has already been voted on and agreed. No-one called for

Important privacy information

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: I don't see holding AIAL shares to 18% as being strategically valuable. Better to reduce debt. However I support holding 10% in order to maintain a 'seat at the table'

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: The council can afford to service further debt

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Protection and restoration of local waterways

Tell us why these are most important to you: I was only allowed to chose 2...you have a bug here

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: That is an extreme cost saving as a % of an already low discretionary spend and will have a significant impact on our liveable environment...eg waterways; mowing of shared spaces

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please do not reduce funding to public spaces (that our kids and all community) get to enjoy. Fence them, mow them, maintain them.

And please do not cut funding to the arts or the Art Gallery. These are critical social goods that add value to the colour a

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Do not proceed with the reduction to Arts and Events. These are already underfunded and they are an important part of the well being, health and community cohesion of Auckland. The arts budget is an easy target and constantly suffers cuts as a result.

There are other areas where the Council could work harder to make cuts.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: The savings on debt reduction outweighs the return on investment.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Rates are already struck on valuations that are no longer accurate. The last rates increase was struck at the peak of the market and valuations have fallen 20% since then. So unless you are going to revalue our properties at the correct amount and then a

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Plucking a figure like \$20 million out of the air with no plan and therefore no costed plan and saying to rate payers will you pay for this is just more of the same slack approach. Give us a costed plan and then ask us.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Local Boards are in touch with their local communities and they help make the city a liveable place. Their spending is on things the community values.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Active communities programme, Library opening hours

Tell us why these are most important to you: This is a cynical question to ask. All these things are important. I have picked the ones that would impact me but some I have left off impact others so don't cut anything.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Most of these activities cost very little and yet can have a big impact. Pest control for instance if we abandon it they there is a bigger more expensive problem around the corner. Say no to the Mayor tell him to fix his over spending first.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? The bus service is appalling we want to use it but it is so unreliable that if there is a time constraint ie an appointment or other they we avoid it as often they are cancelled. Fix the service and we will use it.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Yes I think that the Council has lost sight of its role. Don't cut the arts and events and don't cut the local boards they are all about the people of Auckland and their health and well being.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Find further reductions from CCAs particularly AT.

Do not reduce funding for Environmental initiatives and volunteer activities

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: This is the major source of funds and Council has no control over the Airport management

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: Treat as one-off i.e. Do not use as a benchmark for next time.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Allow for the risk of all types of natural disasters including earthquakes, tsunamis and volcanic eruptions

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I trust OLB to be pragmatic with its management of priorities

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental restoration and pest control, Community leasing charges

Tell us why these are most important to you: Orakei is reknown for its effective use of volunteers particularly with environmental activities. Local initiatives are exceptional and should not suffer.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: I trust OLB to be pragmatic with its management of priorities

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? We need to put aside idealism and concentrate on practical solutions to the funding problem

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: The public transport in the city has been in a deep crisis for years. It's a snowball when bad service (network coverage, lack of options, poor schedule, etc.) leads to decreasing usage, which leads to less income, which leads to the inability to provide better service.

I suggest a radical increase in the budget allocated to public transport and cycling infrastructure with external management for Auckland Transport (with total replacement of the current board for this organisation).

Auckland Unlimited doesn't bring any measurable value, so I would vote for closing this agency. However, managed venues (like the Zoo) shouldn't suffer from the decreased budgets as they bring real value to the city.

I would suggest replacing Auckland Unlimited with a new smaller agency focused on the city's economic development. This agency should have measurable public goals and be supervised by a committee formed by local business representatives.

Auckland can afford this by selling city property, raising rates, and increasing depth, as such investment will eventually benefit the city.

The current proposal maintains the status quo when everything will be a bit worse than now but doesn't promise any vision for the future and leave little hope for improvement.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: I would sell all shares of the airport. Investment in one asset doesn't look reasonable for the city. As soon as the city has money to invest, it would make more sense to invest in funds focused on sustainability.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set a higher general rates increase and make greater use of debt. I would consider this an investment, not a way to survive the crisis.

The current proposal looks like a way to maintain the budget without introducing any improvements. Therefore, the root

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: \$20 million doesn't look like a significant investment for the 1.5 million city. And the referenced page doesn't support this increase.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Very little information is provided on improving transport and business development. Being almost in the city's centre, our district has poor public transport and cycling infrastructure, forcing people to use cars extensively. This burdens every family's

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: There are no business development or urban planning activities. These are the most important ones for me.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I provided feedback in the first field. In a nutshell, I would focus on city development and attracting investments. The current budget doesn't provide any answer for the city development and suggests cost-cutting only. I would like to see a plan to impro

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The need for need for aggressive cuts in every area of the budget appears necessary, but the blow can be somewhat softened by retaining a small amount of key, genuinely net benefit price/service provided services.

Youth centres are key to providing a safe and positive environment to occupy and young people and dissuade them from getting into trouble on their own accord. Keeping homeless people from further desperation via homelessness prevention funding pays for itself in terms of providing a better quality of inner city residents that would otherwise be further hassled by them. The Citizens Advice Bureau is an incredibly important way for less educated or well off people to get expert legal advice or advice navigating numerous local and national government bureaucracies. Heritage/culture/events/arts funding are easy cuts in comparison given the current budget crisis and economic realities the council currently faces.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: It makes the most financial sense. Why retain an asset that pays off less than maintaining our current debt substantially?

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: The financial situation is bleak and the council should leverage monies from higher rates across the board.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: The operating budget should be increased far further than the proposed \$20 million. Damage to under maintained infrastructure that is not reinforced against future weather events will easily cost the ratepayer more in the long run if they are not addressed

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Library opening hours, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: do not cut services, there is huge disparity within Auckland and cutting services will only make things worse. also need to keep on improving public transport

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: We need to keep ownership of the airport as it is a steady stream on income rather than a one hit wonder of sales

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: do not cut the water quality rates

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We have had huge impact in our communities twice this year and we need to prevent this from happening

5. Local Boards

Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Do not reduce funding

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants fund, Local community events, Community leasing charges

Tell us why these are most important to you: Need to support the community

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?)

Do you think there are other areas where we could make savings to our local budgets?

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do not cut services, increase rates

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not reduce transport funding to extent noted and continue to fund homelessness solutions that are sustainable

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Strategic asset. Selling assets is not a sustainable budget

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: A more sustainable budgeting position

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Franklin Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Not sure community partnership funding has clear payback.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Youth connection programme, Environmental restoration and pest control programmes

Tell us why these are most important to you: These are sustainable programs

Our communities have told us that providing a network of pathways (walkways and cycleways) between and within our local villages and town centres will help locals access services and facilities, and live healthy active lifestyles.

Our budgets cannot deliver a network of this scale without additional funding such as via a targeted rate. To implement a new rate, we would have to investigate further and consult with you again in a future Annual Budget process.

Do you think we should investigate a local targeted rate to fund a network of pathways across the Franklin Local Board area? I don't know

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: the shares will provide long term financial security for the council

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: We should all pitch in via rates to support the survival of arts and culture in Auckland.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: Our whanau has loved free community programming, my non-profit has received local accommodation grants and they are essential to our survival, and our water is our most precious asset.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

Submitter details

Organisation (if applicable): Art Yoga

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community development and support, Local arts programmes, Local community events

Tell us why these are most important to you:

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Funding arts and culture groups, Community programme delivery, Local community events

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?):

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Community programme delivery, Arts and culture programmes

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services?

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

ART & TEA - SENIORS

Support Art Yoga through Council Budget Changes

To whom it may concern.

Kia ora,

I am _____ and I am writing this letter to express my concern about the possible reduction of the budget for artistic activities funded by Auckland Council to support our whanau and community.

The University of London study found engagement with art and cultural practice has tangible benefits not only for mental health, but for general mood and quality of life. **Creative and wellbeing activities improve both mental and physical health**, to have a positive impact on people's well-being and lower levels of mental distress and anxiety.

Art Yoga is a holistic project that has the purpose to provide community integration and well-being.

In the past 3 years, we have been delivering these sessions and collaborating with different organizations such as **Changing Minds, Department of Corrections, Art Access Aotearoa, Link Alliance, Auckland Women's Centre, Age Concern, Grandparents Raising Grandchildren, Spectrum Care** to support mental health and vulnerable communities, from children to seniors.

Art & Tea is a workshop which allows Seniors to get involved in **Art projects and practices of Mindfulness**. The intention of our project is to offer a creative way to connect with others, reducing the feelings of isolation and loneliness. **We have supported over 100 seniors to explore and express themselves and offered insights, share memories, supporting emotional and mental-health challenges.**

Reducing funding to the community will have a direct impact on groups like ours. We are serving the vulnerable in our community, we ensure we hold our groups in community spaces that align with our vision and provide a safe, welcoming and easily accessible space. Through our group at Highbury Community House the attendees have become a great support for each other, they continue the conversations and connection by having lunch together afterwards.

ART YOGA PARTNERSHIP

51 Thatcher Street, Mission Bay, Auckland 1071

Email: contactus.artyoga@gmail.com | Website: www.artyoga.co

Our first approach with our sessions started in 2021 when we were running ongoing classes for Seniors at Highbury Community House with a small fee to participate. We had just 2 participants committed to their well-being who could afford the workshops.

In 2022, **Kaipatiki Local Board** successfully granted our application for a pilot programme. On this occasion, **our funding allowed us to offer our course free of charge for attendees.**

We had a high attendance rate even amongst the thick of this challenging period of time due to the restrictions in place. There was high appreciation for this creative and mindful course. Seniors were very supportive and enthusiastic to share their artwork as well as their vulnerability and to deeply connect with one another, not just in the space created together but even after this time, keep growing their relationship and friendship.

During the following Term, we noticed a drop in numbers due to the entry fee since we didn't have any funding in place.

One of the main objectives of Art Yoga is to deliver the service for free for attendees within the facilities we collaborate with. **In our experience, this kind of project is successful when the service is free of charge and it doesn't have any impact on people's budget.** This opportunity allows us and our Seniors to positively contribute with our holistic project to the growth of our whanau and community.

In 2022, we were funded by **Auckland Council Creative Communities** to offer this service for the duration of a whole year in collaboration with **Highbury Community House** and **Grandparents Raise Grandchildren (GRG).**

We are concerned that having a reduction on the budget to fund these creative projects, will have a dramatic result on the vulnerable communities.

TESTIMONIALS SHARED EXPERIENCES

"I want to express my gratitude to GRG, for making available to me this wonderful opportunity to attend Art & Tea. It has provided me with such great "me time" - much needed in my role as caregiver to a six year old child. The gift of an hour and a half a week to myself has proved so valuable to my mental health and general wellbeing." -

"They have created a beautiful balanced programme for seniors which gives a sense of peace and wellbeing for myself and fellow participants. Each session has variety and is targeted to different needs. They encompass many aspects that are, or have been experienced, in our daily interactions with ourselves and the community."

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: reductions in public transport, childcare, arts will have knock on effects that will ultimately cost the city more in the long run - ie mental wellbeing, increased pollution, crime

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Henderson-Massey Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library hours, Funding and grants for arts centres and partners, Protection and restoration of local waterways, and ecological volunteers in parts

Tell us why these are most important to you:

Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture facilities and events, Climate action and sustainability initiatives, Local parks and facilities maintenance

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Looking to recoup the shortfall by increased efficiency has my full support. Looking to increasing rates is less attractive, and should only be used based on evidence that it is a last resort, arrived at by independent analysis. Auckland public transport is already at levels that make it pathetic by equivalent international standards, and reducing an already dismal service further would be...less than ideal.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: 100% of the focus should be on improving efficiency and reducing costs, rather than reverting to the simple things like increasing rates. My view is that we already pay exorbitant rates and I'm not convinced that they're being allocated and used in the mo

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: This seems like a false dichotomy. The viable options shouldn't just be to either increase rates or increase debt. The "e" word - efficiency - needs to be a focus.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: This would be wise, however, funding should be considered by increasing efficiency and reducing waste, rather than immediately raising rates.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: Why should Ōrākei residents pay for council members inability to negotiate proper contracts with providers that would enable us to get in/out of them as necessary to service residents appropriately. For me, this is an example of incompetence at the admini

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: These are all things I use very often.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Build indoor sporting venues to enable community to train, play sports and help keep residents well being.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Environmental education, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: For too long the AKL ratepayers have been fleeced by successive left leaning Councils who have no problem spending ratepayers' taxes in any way which their woke agendas dictate. AT is out of control and in my suburb over the last five years I have personally witnessed many hundreds of buses transiting through my suburb with either zero passengers or at best perhaps 5. AT will be fully aware of this through analysis of the fares collected but have done nothing to correct this massive over servicing of Eastern Suburbs Districts where a simple reduction in service frequency would cut costs immensely but noone seems interested. Add to this the millions spent on Cycleways that are grossly under used and AT's stated intent to drive people out of their cars onto public transport bearing in mind none of the people managing AT have ANY MANDATE WHATSOEVER to carry this out. We need real change at the top to cut costs and start ignoring the social activists who always want more for their per causes and instead start to take note of the ratepayer who has been funding this nonsense for too long.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: The arguments discussed above make it clear we have to reduce debt by as much as possible hence sell the airport shares. The other options are not options at all.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Commentary above makes it quite clear why - I totally agree.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: \$20 million each year is a drop in the bucket and if AKL Council was a private business with the resources available to them a private entity would find that amount of saving to be a not too difficult task. AKL council has to get tougher and stop listenin

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Change which bus services are funded by the Climate Action Targeted Rate - this is a nonsense if NZ became net carbon zero tomorrow this would have ZERO effect on the climate here in NZ or anywhere else in the world. As Govt and Councils here declare clim

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Can someone tell me how many staff are employed within this organization, also how many Managers.?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Keep Community education - it is very widely used and valuable.

Omit local board funded activities. Encourage people to amuse themselves - as they used to last century!

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: You persuaded me that selling was the way to go when you say this will save more in interest than the dividends will pay. If this is truly true, it makes sense; but run it through financial experts one more time!

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Auckland public transport is shocking, made worse by being currently reduced. Yet it's proposed to keep it that way?? No way. Not a good idea if you want a thriving city.

Homelessness has been a growing problem in the CBD since COVID and the proposal is to reduce funding? what a braindead proposal. There is significant wealth disparity in New Zealand and community and social services are key to ensuring it doesn't become worse. In a time of a cost of living crisis, reducing this type of funding could literally kill people. Youth centres are so valuable to reducing youth crime. The solutions proposed here are a short term solution to saving money, yet in the long run, the cost will be MUCH GREATER as our justice system will deal with the subsequent problems, costing us more, just in a different way.

Invest money into vulnerable communities at an early stage, to save money down the line.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

Tell us why: I don't think funding should be reduced if you want to deliver on key priorities. I don't understand how you think you can do both?

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental restoration and pest control, Youth initiatives

Tell us why these are most important to you: Arts and Culture is key to an interesting, vibrant city which attracts tourists and therefore money.

Anything related to the environment is key in 2023 as we battle climate change.

Youth initiatives are extremely important to ensure we do not have youth c

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Now more than ever, the general public needs support, especially vulnerable communities like at-risk youth and homeless people.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The only two initiatives that I would support reducing are Tātaki Auckland Unlimited and early childhood education services.

The others are supporting the things that make a city liveable, which really should be the point of what council is trying to achieve.

In particular we shouldn't be cutting public transport. It's already so poor. We should be trying to get it to a standard that it's usable.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Makes sense if the foreseeable revenue earned is less than what we save from debt servicing.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Otherwise we just continue with short-term and optimistic planning, pushing the problems down the road.

Can we please have some foresight and long-term planning applied?

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Transport, arts, culture and social activities / support are the LIFEblood and FUNCTION of a city. Why live in a city if all it has is low rates while you sit at home? This is a truly appalling way to attempt to cut spending.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Save Kohimarama forest

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental restoration and pest control, Library opening hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Reduce Arts and Culture by 100%

Stop constructing cycleways

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Local facility hours

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: Reduce Arts and Culture 100%

Stop building cycleways

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? STOP BUILDING CYCLEWAYS

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop building cycleways it's wasting vast amounts of money and slowing travel around the city

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop wasting money. Wayne Brown was voted in to get back to basics, core council business and that's exactly what we want. AND please please give us back our swim able beaches. It's shocking that at times Mission Bay thru to St Heliers are closed for swi

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: There is a chance this may increase and I have no idea about the dividend payments that may have been made.

If we borrowed the \$\$ to the sum of the shares and the dividend payments were higher than interest then the free cashflow would be nice.

But given

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Less rates is better. But if this will help reduce debt and create a better future with surpluses and possible rate cuts in the future then I'm all for it.

Previous spending by councils has been ridiculous and wasted left right and centre. So drastic times

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Stop building cycle lanes, reducing road quality and wasting money on changing signs to have 2 languages on them. Also - raise the fees charged to organisations that use halls etc, which should help increase the revenues generated.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Dont understand why you need to work with Maori tribes?

Stop making the roads unsafe by making them skinnier and including bike lanes that noone uses.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Active communities programme, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: Active communities Stops people getting fat, library to help people learn, open space maintenance - keeps the area looking good and hence improves people moods.

The rest are puff projects that are just spending money for no reason.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: We're in a state of crisis. The wasteful spending from previous councils and inflationary spending has meant we cant have our cream and eat it too.

Things need to go back to a surplus before we can start spending on niceties

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Our public transit has become unusable with the amount of cancellations

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: cutting spending on infrastructure and environmental programs is completely unreasonable at the current time

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: If it prevents the people from dying then it is necessary, also should've invested more before this anyways

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Transport infrastructure and public social grounds improve social cohesion by granting a public space for people to spend time in and granting a method of transportation for those unable or unwilling to use private transport.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Library opening hours, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:**6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing services at a time of increased need is unhelpful. Do not proceed with any of the proposed reductions.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling assets is a bad idea

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set a higher general rates increase, a higher business rates increase, and also make greater use of debt.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Increased ability to deal with adverse weather events is important and urgent because these events are going to become more frequent due to the effects of climate change.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I support only these two priorities:

1. Investigate the potential for targeted rates and other sources of funding.
2. Continue to work with Ngāti Whātua Ōrākei to progress local initiatives and community development.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Library opening hours, Youth initiatives

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: VITAL SERVICES cost money. Spend the money on the VITAL SERVICES. They are all vital services.

Orakei is a wealthy area. Slash wealthy area community budgets before touching poor area budgets, as rich area people can afford to mitigate the losses incurred from your assault on our communities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: DO NOT SELL PUBLIC ASSETS.

Public assets are NOT YOURS to sell.

DO NOT SELL PUBLIC ASSETS.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Because it is the right thing to do.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Yes, we need infrastructure.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Use your conscience as well as your judgement. The plan is pretty good.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Protection and restoration of local waterways

Tell us why these are most important to you: Environment, infrastructure, and community services are the most important areas to me because they are the major determinants of human life quantity and quality.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: This is a wealthy area. Slash wealthy area community budgets before touching poor area budgets, as rich area people can afford to mitigate these losses temporarily.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I do not trust key elements of this council administration. You should not have been elected.

To those acting in good conscience and with competence, I thank you.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Maintaining public transport is vital to keeping traffic down and our commutes reasonable. Reducing services will cost the city more due to lost productivity.

Reducing funding for these services and arts and culture programmes are a surefire way to create a soulless city and increase the brain drain to better pay and better services overseas.

Early childhood services are vital for getting parents back into the workforce and producing economic value. Changes should be targeting efficiency or better outcomes. Reducing services and increasing rates is a brain-dead decision.

If you're council is truly intelligent and knows how to fix thing. they should know how to make things run better. Not do less and run poorly.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Environmental restoration and pest control, Arts and culture initiatives

Tell us why these are most important to you:

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: 1. Reducing public transport options at a time when the rail network is down is ludicrous. One of the main reasons why overall ridership is down is because of the unreliability and reduced access of the current system. While it is imperative that the train lines get sorted for the opening of the CRL, it would be to the benefit of all commuters for other forms of public transport to be increased to meet the demand of those who would have otherwise taken the train. The growth of Auckland requires a robust transport system that includes frequent, reliable and accessible public transport and personal transport options (like cycle lanes that are SAFE for cyclists and motorists) alongside good roading infrastructure.

2. Reducing funding of TAU that promotes economic development and tourism for Auckland is again short-sighted and likely to have far more harm for the city long term than any short term gains in budget savings. After the pandemic, Auckland desperately needs to be actively seeking exposure to the wider world with the benefit of tourism dollars and investment in the city that will have long term benefits for all citizens.

3. Wholesale cancellation of regional services especially the Arts will impact the enjoyment and vibrancy of the city. It is the local events which make a city a community and a valuable place to live. With events comes economic improvement for multiple businesses in retail and hospitality as well as encouraging people to get out and enjoy their neighbourhoods.

A more nuanced review of these services should be considered looking at the value that individual events bring to a community area rather than broad cancellation of all services.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It is short sighted of council to sell public assets in a valuable commodity. As we come out of the pandemic, tourism and business/economic travel will again increase making Auckland Airport a valuable long term investment. The short term economic benefit

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: This is a reasonable increase in rates in order to maintain essential services and forward important projects which are vital to the economic revitalisation of Auckland.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Underfunding in the city's infrastructure and poor decisions around building areas and intensification are directly responsible for much of the destruction. While weather events are difficult to predict, the city is woefully underprepared for dealing with

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Most of these are reasonable choices - with the increase in building costs, it may be prudent to reconsider the redevelopment of Meadowbank community centre for this year.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: I am strongly opposed to the cutting of funding for environmental restoration, pest control and waterways protection. These are vitally important to the health and growth of Auckland, especially when considering Climate change initiatives. Without adequat

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why: While there does appear to have been some reasonable thought into the choices to put forwards, I do not support all cost reductions for the reasons given above.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Additional general rates funding for expenditure on visitor attraction and major events is not a priority given the significant budget pressures that we are facing.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

While Auckland has definitely suffered under the weight of the pandemic and now flooding/slips, it is a rapidly growing and vibrant city. It is imperative that council do not become focused on short term budget goals at a time when a steady hand is required

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Keep the zoo as it brings joy and prestige to the city

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It's important the the council maintains an interest and influence at the airport

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Repairs should not be funded at the expense of other infrastructure improvement projects, better infrastructure will ultimately improve productivity and returns. Doing repairs only does nothing to prepare for the future of the city

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: We could afford to lose some of the land to housing, water quality programme is gilding the lily, Meadow Community centre could be funded from the affluent community it would serve. Parks and sports fields should also pursue a user pays model.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Library opening hours, Open space maintenance levels e.g. mowing

Tell us why these are most important to you: The only one I really support is local mowing. The rest are only good with proper investment. Better to not do them if you don't do it well.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why: There's a lot of unnecessary fluff. The money going on fluff is better spent on improving infrastructure and transport facilities including light rail to build a city that is future proof.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Press on with big ticket infrastructure programmes such as Light Rail, AWHC and bus lanes to provide genuine public transport alternatives that will allow the city to grow. Abolish the view shafts to allow greater planning freedom and fully exploit the po

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: -Electric busses - do not cut these services, these are the most positive asset and effect Auckland can have in this climate change era.

-Early childhood funding ?? - the ambulance at the bottom of the cliff, in a better world there would be responsible caring active on board parenting.

-Tourism - reduce spending.

-Arts, culture, Zoo, play parks, maintain spending for the right reasons - spend on making all effective, reduce spending on image - it does not have to be pretty or get an award, it has to be functional and serve a purpose

-Spend on justified board activities only.

- STOP approving cliff top houses and helipads and other extravagance, that cause disaster at the expense of the council and ratepayer.

-STOP spending money on image conscious upgrades like the failed Mission Bay road and cycle project - It is not fit for purpose, it is not safe. This is utterly unjustified spending by people who look at numbers and artist impressions but are completely out of touch with reality. JUST STOP.

- Take a damn good look at what you do and why you do it, if it is for humans to have more to play with then do not do it. People are far too obsessed with being entertained when they should go and entertain themselves. This does not mean the council has to provide.

If the council is going to spend money, so it for the right reasons, do it well and do it once.

stop spending money on fancy lamp posts to fly flags from - not necessary

stop spending money on art installations that are plonked here and there in the city - the Domain has a nature haven and it has expensive hideous art installations. Why????

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why: Who would buy the shares and at what effect would that have?????

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Because there is too much unnecessary spending, we live in the horror of an image driven consumer society that is spinning out of control. More on caring less on image and consuming.

The income from electric scooters, does it justify the medical costs of

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: BUT, change the council needs to change the way it approves any environmental change ie earthworks and building. ie NO more cliff top properties. The council needs to be strong and firm on wealth does not mean you get what you want. No one should be able

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop behaving flash and fancy, keep in simple and functional and fit for purpose - if winning an award is what matters we are doomed.

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Promoting Auckland as an international tourism destination is vital to businesses that have been hit hardest through Covid lockdowns. Local boards oversee facilities such as cycle parks and parks which make living in Auckland a joy. I would prefer a rate rise than not to have public toilet facilities cleaned.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This is short sighted, rates increase will see a bigger value then selling shares in one of Auckland's most valuable assets.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: The rates rises proposed are not extreme. Better those who get the benefit of Auckland facilities in return of increases in house prices, pay for the privilege.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It's only going to get worse with climate change. Seems reasonable to keep a slush fund for disaster response.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Let the police handle crime prevention. Instead of funding community patrols, focus on providing events in the local area that enhance social cohesion.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: Environmental protection and restoration is key to a healthy ecosystem.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: I would prefer to pay higher rates than see community facilities fall into disrepair.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Climate Action Targeted Rate is essential to future human health. Fully funding this will see a massive return on investment in reduction in costs for our future health system.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please increase rates, and don't cut services that make Auckland a liveable city.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Arts and culture programmes

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Other

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Submitter details

Organisation (if applicable):

Your local board: Ōrākei

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not agree in reducing funding for public transport as this is a necessary public service for all and the current reduction is impacting peoples daily journeys in a very negative way. The reduced service is having negative financial impact on Auckland businesses as people being delayed and disrupted.

Reduction in funds to arts and culture is not a necessary public service, these businesses can raise additional funds through increase in fees or fundraising activities.

The recent around the bays event went all out with free public transport and shuttles - I hope at the expense of stuff not AT or the council.

Social services should not be reduced as there are plenty of other opportunities the Council should be prioritising. Charge \$5 for music in the parks, increase charge for Breeze sailing events, charge a small fee for family events run by the council. Majority of people attending these cultural events have some disposable income to contribute to the costs of running these events.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: I read the consultation paper and agree with council conclusion on best option to progress.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Agree that the increase has benefits and is not too big an increase for majority of rate payers

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: There are other ways of raising this such as:

- Taxing those that use roads through fuel levies.
- Increase parking charges.
- Emissions tax for freight vehicles to reduce impact on climate.

- Residential parking zones, charging non residents a higher

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control, Protection and restoration of local waterways, Local waste minimisation initiatives

Tell us why these are most important to you: Investing in these 3 priorities will save costs in the long term, if investment is removed then these environments deteriorate and create larger investment to repair.

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Funding arts and culture groups, Local community events, Local business support

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: There have been 2 closures of Tamaki Drive in the past month for events. The cost of these closures is exorbitant and unnecessary. Events such as ANZAC Day can be just as successful by taking place in fields without road closures

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Active communities programme, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you:

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information
