Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not reduce regional services such as the arts, events, homelessness programmes etc. as these are vital to our city's culture, vibrancy, celebration, health and pride.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know

Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited

Reducing regional services

Reducing local board funded activities

Reducing regional contestable grants

Activities such as the arts and performing arts, homelessness funding, and education programmes are important parts of a healthy city.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I strongly support priorities related to climate and environmental action.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local arts programmes, Environmental restoration, volunteers and pest control, Community climate action and sustainability

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any: We need arts funding!!

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local arts programmes, Local community events, Temporarily or permanently close council venues

Tell us why these are most important to you: Arts and events

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: If we drop things now, we may not be able to pick them up (as well as the huge damage to the local economy) and then Auckland will lose what makes it special and we'll be just some other generic city

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: If you sell the cow you can't have the milk

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council should both set a higher general rates increase and make greater use of debt

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: I oppose the idea of cuts to these crucial public and community services

Puketāpapa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: I oppose the idea of cuts to these crucial public and community services

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: I oppose the idea of cuts to these crucial public and community services

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Support more investment towards vision zero; safer speeds and traffic calming. Since June 2020 the Auckland region has had an overall 9% increase in road deaths. However, in areas where speeds have been reduced there has been a 30% reduction in deaths. St

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: No cuts affecting the arts sector these will be the cuts to contestable grants, the Regional Services budget, local board funding, and to Tātaki Auckland Unlimited

No cuts to early Childhood education Services

No cuts to transport services

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The partial ownership brings revenue to council - do not sell.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Do not Reduce the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR)

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We are in crisis

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local grants e.g. community and accommodation grants

Tell us why these are most important to you: I support all of the above points - they should not have reduced funding

Do you think there are other areas where we could make savings to our local budgets? No

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals? All bus services should be supported.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

No Cuts To Arts, Community, events and wellbeing

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. - Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: All these services what makes this city great, unique and a wonderful place to live. Cutting funding from Tataki Auckland unlimited would especially be a huge blow to the cultural heart of the city.

I am in favour of increasing rates alongside that of inflation, Also with the sale of golf courses as this benefits only a small minority in Auckland.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Alongside increasing rates, I believe we should not longer be managing the various golf courses throughout the city. This land should be sold to generate revenue or repurposed to be of more use to the entire community

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Think this is hugely important and a key reason for living in Auckland. I'd prefer not to reduce regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: This is a good investment and likely to increase in value given NZ trade and tourism. Clearly not a core business for Council but a valuable asset and key to retain a stake in the growth.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Our rates are now over \$9,000 per annum and we will struggle with further rates increases.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: This should be funded by the government

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Key to the enjoyment and pride of living in our community

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you: Our family benefits from these initiatives

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Some reductions will have detrimental consequences for the environment, peoples jobs and community wellbeing. So, we should not proceed with reducing funding to Tataki Auckland, reducing regional services such as community and education programmes, arts and culture programmes etc and reducing local board funded activities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Auckland Airport is about to embark on an expensive expansion programme. This is likely to mean reduced dividends to shareholders for some time. Selling the shares and reducing annual interest costs by around \$87 million per year seems a sound measure.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: An active local board focusing on most priorities will enhance the local environment and community wellbeing. Leys Institute work will keep and so it can be put on hold. However, water quality and waterside restoration must continue along with environment

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: The local environment needs support to compensate for the degradation and environmental neglect of the past. Community engagement with the local environment is essential for well being. It is also important to ensure that volunteer groups are supported a

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Prevention is great however it should be spent accordingly.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

When Auckland's communities are thriving and our arts

Do you think there are other areas where we could make savings to our local budgets? You do not need funding in golfing!

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Don't cut funding to the arts sector. That is people's livelihoods. This sector needs to be supported after a hard few years with covid. Do not cut funding to homelessness funding. We don't leave people behind.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Cutting funding from the arts sector directly affects peoples earning capacity. Don't take away our livelihood

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events e.g. Parnell Festival of Roses

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: All of them require funding to have a fair and equitable community

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The govt selling of the electricity shares did not seem to benefit the right group of people

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It needs to be fixed urgently

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: They are all important, I use the library a lot. The community is an important asset

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The graffiti around the central city seems to be getting worse and needs to be cleaned up

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: No more Light Rail consultations /delay the programme until Auckland can afford a better way.

Do not put in Metering around zoo carparking i.e western springs.

Removal from LGNZ from council to go ahead.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Sell the shares if need for disaster flood/ road damage funding or to pay debt.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Reduce the rates increases due to the house values plundering nearly 10% since last 2022 valuation. Reduce targeted rate add on's. Remove the local petrol Tax.

No more built cycleways in Auckland city should take precedence over normal road maintenance.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Local waste minimisation activities e.g. Waitemātā waste away

Tell us why these are most important to you: I mow my berms and sometimes the neighbours, others should do theirs.

Reduce the funding for festivity events where they can self fund via fundraising= this will avoid non paid wastage on safety equipment i.e barriers/cones .

Do you think there are other areas where we could make savings to our local budgets? Reduction of CAB offices
=Trim the budget.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? Only bring in a Food scrap bin- Leave existing wheelie bins bins as they are.

Perhaps a better Educational program for Recycle

No more targeted rates-or remove some existing ones - its just a excuse to not have pricings in normal rates.

The targeted rate

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important to cut back on consultancy funding in all departments.

No more cycleways in inner city areas please, areas are congested already, cycleways just reduce the words capabilities. In particular stop the cycleway in Meola Rd , Westmere. This will cr

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: With the cost of living crisis, public transport is more important than ever. Auckland has some of the worst public transport services for a major, developed country city. Public transport services need to be enhanced to provide affordable, reliable and alternative transport solutions for Aucklanders. This will encourage more people to use PT, reducing car use, carbon emissions and save people money, making Auckland a better city to live.

We need to strengthen the social fabric of Auckland, not break it! Reducing funding to community services, education programmes, community empowerment, grants and local boards will not support a diverse and flourishing city. We are facing growing inequality, climate and environmental crises and increased social division / polarisation - now is not the time to cut services that will strengthen our communities and decrease social, economic and environmental inequalities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: These priorities support our society and strengthen our social fabric

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Local grants e.g. community and accommodation grants, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Climate crisis, cost of living crisis, increasing homelessness / inequalities

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? We should incentivise better waste management practices - not introduce a base rate increase. If people are capable of reducing their waste (and hence reduce the operational costs for AC) they shouldn't be charged for it.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Locals who've travelled a bit have always known that Auckland looks a bit sad on the world stage. In the past several years, this city finally started becoming livable, beautiful and to have the beginnings of a thriving public culture which we can be proud of. As a property owner in Auckland, I am happy to take a hit on rates in order to keep our city on a trajectory of strong culture, decarbonisation, etc.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I'll put my money where my mouth is, as a property owner I am prepared to pay higher rates to avoid cuts in public spending on arts, transport, infrastructure etc.

While you're at it, why not sell 1 or 2 of the golf courses and some of the underutilised

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please resume Te Whau Pathway project, this would be amazing to invigorate communities along Te Whau. West Auckland is relatively underserved vs. other districts with regards to this kind of infrastructure and the project is something myself and many othe

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Homelessness is incredibly important. I live in central Auckland and it is incredibly heartbreaking to see people sleeping and living on the street. These people deserve sufficient services from the council to help them back into society, a society who is likely the reason they are living on the street to begin with. This country is already failing homeless people by allowing it to happen in the first place.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Shares are so low right now, selling them now would be a short term fix.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: The Council should both set a higher general rates increase and make greater use of the debt.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Important to invest in stormwater infrastructure in light of recent events.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support

Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? The Climate Action Targeted Rate was established with overwhelming public support. We need investment in our transport and buses to improve them and make them easier, as it is key for the Auckland community.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

DO NOT budget cut on climate action, its the most important area

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not proceed with the proposed reductions to public transport or the reductions to regional services as these are essential to maintaining community bonds and well-being.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: I think it is necessary to keep at least a blocking share in the airport due to its public importance.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: The council should both set higher general rates increase and make greater use of debt. It is not acceptable to reduce the water quality and natural environment targeted rates.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: In light of recent times I think it is essential to invest in storm water infrastructure, particularly as these 'unprecedented' weather events are going to become more common with climate change.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and

Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: To not proceed with any reductions and instead unfreeze the Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling of Auckland Council's shares will not provide a long term benefit, rather it will simply be a one-off payment. In selling of all the council's shares, there is no foresight or plan if this happens again.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate, will generate much needed revenue that can help avoid the proposed cuts.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The recent storms that recently impacted Auckland, and the rest of the motu, are expected to become more frequent with worsening climate change. The response of the Auckland Anniversary storm showed that Auckland was woefully unprepared given how much damage

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: I support these priorities, however I also think that the council needs to invest in the arts sector. Funding community events is important if we want our communities to grow.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events e.g. Parnell Festival of Roses, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: I think the environment is always a top priority. If we do not look after the land then we have nothing to live on.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	I don't know

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: the reductions will negatively impact the local economy and devastate auckland's culture, art, and community sectors. The services directly improve social cohesion, wellbeing and quality of life. It helps to boost inclusivity within our multicultural society, which is important for Auckland as traditionally indigenous land to promote.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	

Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not agree with cutting funding to social services such as homelessness funding and community empowerment. Auckland has a huge problem with homelessness, often combined with complex mental health and addictions issues. Aucklanders and their council need to continue building community and supporting these groups. Further, I do not agree with Taataki Auckland Unlimited funding cuts, as the arts (our venues, stadiums, art galleries, and the productions they house) enrich Auckland immensely, making a better place to live, creating activities and boosting the economy through having a vibrant city to spend money in, and increase tourism. Regional arts and culture programmes similarly assist with this. Our city is so expansive that it is instrumental that we have the opportunity to make community connections - this has never been so evident than in the last few years where communities have supported each other through lockdowns, flooding, cyclones, and drought. These events won't end, so we need to support local problem solvers and support networks.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: I think it is in the council's interest to maintain diversified revenue options, such as dividends, however partial sale of the shares will allow this to continue while alleviating some of the council's debt.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why: I am not a homeowner, however I'm sure raising rates will be passed onto renters. I understand the need for rates to assist in roads and pipes etc - especially as someone who lives around the harbour and is devastated that the water is made unsafe every t

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: So many communities were impacted by the storm and I support them having full backing from the council to respond to this AND prevent it happening again in future. I hope this includes changes to the stormwater/wastewater systems which are clearly over ca

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I would prefer not to cut funding to arts and community groups, I think it is a key time for our communities to be able to form connections and build relationships that keeps us strong and resourceful in times of difficulty (such as dealing with COVID or

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream, Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you: Again, the climate crisis brings me great concern and I do not think we have time to even consider limiting our actions in this area. I love the arts and community activities, and would be saddened to see these fall away with limited access to funding, ho

Do you think there are other areas where we could make savings to our local budgets? I like the idea of curating some "meadow" spaces that require less mowing/maintenance and support bees and other ecosystems. I also think if the library had an after hours drop box for returns then people could deal with reduced hours better. Franklin r

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? Generally speaking, people who have swimming pools or spas can afford to pay higher fees so I am supportive of this, especially instead of increasing costs for people who are struggling financially and reliant on things such as public transport, or can on

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I oppose reduced funding for Tātaki Auckland Unlimited by \$44m as it will leave the Auckland Art Gallery Toi o Tamaki with a bare bones budget that won't cover salaries and programming. I do not agree to proceed with cuts to opening hours and do not agree with introduction of entry charges. I also do not agree to proceed with reducing access to the arts via cuts to regional services, local board funded activities, and regional contestable grants. Artists and our communities will suffer. If we seriously want Auckland to be attractive to tourists and to provide opportunities for artists in all spheres of the Arts to add interest and life and enjoyment to our city, then such cuts reduce us to paying lip service only to the concept of Auckland being a vibrant city and other cities that embrace and promote Art for all to enjoy will simply become even more attractive to visitors and residents alike.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: AIAL is the main gateway to Auckland so Council retaining an ownership interest seems important if Aucklanders are to have some representation and vote in the Company's decision making. Selling all of the shareholding now may mean missing out on the poten

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Although unpalatable, a small rates increase seems inevitable. Too big an increase in rates again just makes Auckland less appealing and affordable to residents. Additional debt is also not ideal but spreading the pain seems the fairest approach as long

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It is clear that the costs to respond, restore and improve the required infrastructure and mitigate effects on the scale of the recent weather events were not envisaged and the City must have ability to deal with repair, replacement and improvement and th

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Auckland is such a sprawling City that the local areas become very important to the residents and it follows that local board priorities should take into account what is important to each. We must retain that local focus to improve our daily grind in ways

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you: The local environment is important for the current and future generations. Low/No mow areas just look a mess and are a magnet for people to throw rubbish. If public areas, waterways and environmental restoration are not maintained they are unpleasant and

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Entry charges to the Auckland Art Gallery Toi o Tamaki are opposed. All evidence shows this results in damage to the gallery through reduced visitor numbers and reduced commercial revenue from other gallery-based services.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland Council draft budget 2023/2024
28 March 2023

Submission:

Do not proceed with reducing funding to Tātaki Auckland Unlimited, (TAU) as it affects the operating budget of the Auckland Art Gallery Toi o Tāmaki. Do not proceed with reduced opening hours or introduction of entry charges at the Auckland Art Gallery Toi o Tāmaki.

If we seriously want Auckland to be attractive to tourists and to provide opportunities for artists in all spheres of the Arts to add interest and life and enjoyment to our city, then such cuts reduce us to paying lip service only to the concept of Auckland being a vibrant city and other cities that embrace and promote Art for all to enjoy will simply become even more attractive to visitors and residents alike.

A public art gallery is an institution for human flourishing, guiding us all to new possibilities as we imagine and create more fulfilling lives and thriving communities. Art changes lives and the Auckland Art Gallery Toi o Tāmaki provides transformational experiences to a diverse audience.

Cuts already proposed to the Gallery's operating budget leaves it with a bare bones operating budget of \$9.5m pa, after shared TAU services fees are deducted.

Compare that to \$32.2m and \$18.6m that Auckland Museum and MOTAT received in full respectively in 2022-2023.

Close to 500,000 will visit the Art Gallery in 2023. (MOTAT, 2022: 100,554 visits, Museum, 2022: 488,553 visits).

There is a clear imbalance between the city's major cultural institutions and leads to a great loss for the city – of tangata/people, of access to and care of the art taonga/treasures and of the future creation of culture in Aotearoa.

It is devastating to think that TAU is expected to propose even more cuts.

The tangata/people at the Auckland Art Gallery Toi o Tāmaki believe deeply in the significance of art to impact our everyday lives. Their knowledge and experience cannot easily be replaced. Highly skilled in developing outstanding visual art exhibitions, public programmes and valuable archives, they provide stimulation, education and well-being for all who visit the gallery.

As kaitiaki/guardians, skilled visual art specialists care for the Gallery's irreplaceable collection. The 17,000 artworks are our National Treasure, owned by the citizens of Auckland, with National and International importance.

As a leader of the Arts in Auckland, the Gallery then attracts bequests, gifts and long term loans.

Entry charges do not work. There is plenty of data from independent researchers to demonstrate that the introduction of entry charges to the Gallery in 2018/19 caused significant harm for the gallery – around 30% less visitors, 60% less people joining guided tours and significant losses for the Gallery's other income revenue offerings, such as the shop and the café.

We strongly advocate for Council to recognise how vital it is to support the very core of the human creative spirit in the city through the work of the Auckland Art Gallery Toi o Tāmaki.

The Gallery provides opportunities for people to understand and celebrate who they are, were, and might be. A well-resourced public gallery is at the heart of a city's creative economy and can lead change for our future. We need to be able to re-imagine that new future, for our communities and cities as creativity is fast becoming one of the most influential forces driving today's global environment.

The Gallery plays a vital role in enabling Auckland Council to achieve its goals for the four well-beings, social, cultural, environmental and economic and importantly, to support a creative, flourishing city.

The Auckland Art Gallery Toi o Tāmaki is a world class public Art Gallery where creative talents can shine –let it grow and flourish through an equitable and sustainable funding partnership between Tātaki Auckland Unlimited and Auckland Council.

"We need to build a city where the creative talents of all people are used to foster personal, social and economic fulfilment. Culture delivers identity, provides inspiration and delivers creative opportunities for everyone. Isn't this a major aspiration for local and central government?" Robert Gardiner ONZM, CNZM, founder of the Chartwell Trust.

Yours sincerely

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Funding of Arts, Culture, Zoo, Art Galleries, Tourism promotion should not be reduced.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Retaining some shareholding is important but it is an effective way to reduce debt and reduce cuts in other important areas including those identified above.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Giving up an important stake in an important institution such as Auckland Airport is an incredibly short sighted move, and having a say as a collective material shareholder is important for ratepayers

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: While the current debt is an issue, rates increase is more futureproof and effective way to pay for future costs like capital expenditure

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: An increase in operating budget is the best way to solve this issue

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: All proposals seem fine to me

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: Providing for our community is critically important, and the art/community centres are at the heart of it

Do you think there are other areas where we could make savings to our local budgets? Remove/minimise some environmental restoration and pest control, not a current priority given current hardships

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I'm particularly concerned about the cuts to Tātaki Auckland.

As Auckland recovers from the impacts of COVID-19, our city needs to invest in those activities which bring us together and build our communities. Our arts and culture sector, with its arts festivals, cultural celebrations, and community and professional arts organisations and facilities, are key to that. The loss of Council funding will mean the loss of much that brings light and life to our streets.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Environmental restoration and pest control e.g. Waipapa Stream, Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you:**Do you think there are other areas where we could make savings to our local budgets?**

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing funding to Tātaki Auckland Unlimited.

Proceeding to cut arts funding will kill the culture of Auckland and it's surrounding 'Super City'.

It will be detrimental to national travel to Auckland which will negatively affect retail, hospo, hotel revenue

It will negatively affect minority groups.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Our environment is collapsing, we also must look to wetlands and waterways to solve the existing flooding issues.

Community programmes such as the Toi Tu programme are the fabrics of our community, and would negatively affect artists and marginalised comm

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: All of these programmes are vital to the social functioning of the city, not as a nice-to-have but offering core quality of life provision to diverse communities. I do not support these proposed cost reductions. As a ratepayer, I would happily pay an increased rates bill of between 5-13% to enable the spread of spending across social, cultural and well-being initiatives as listed above.

The net effect of such a sizeable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors. This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This proposed sale of shares is a short-term stop-gap measure, and this investment could never be regained.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: It is incredibly challenging to choose only three as all of these priorities are important.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The contribution to the city of arts and community infrastructures and events funded through regional contestable grants, local board funded activities and Tātaki Auckland Unlimited are vital. They broaden access to community facilities, they support comm

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Please: Reduce AT spending on cycle lanes,

Please: Stop AT creating expensive speed bumps

Please: Reduce staff at AT, Panaku, Maunga Authority, Council itself, and all allied entities.

Please: Stop external consultancy and use the existing council staff

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Organisation (if applicable): Tenants' Protection Association (Auckland)

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We wish to make a particular case for the region's Citizens' Advice Bureaux (CABs), as we work closely with them and find their service invaluable. They provide a unique conduit for people looking to access specific services and they have very good knowledge of what is available and who to refer to throughout the region. Tenants' Protection Association (TPA) works collaboratively with CABs in the Waitemata area and also throughout the region. We provide training for them on aspects of, and changes to, the Residential Tenancies Act (RTA) and they stock our pamphlets which are then available in all local areas not just in our specific area. So they disperse our information and contacts. They refer clients to us who need more in-depth support and advocacy, but they are capable of helping people with all their basic rights and obligations under the RTA. This enables us to focus on the complex cases and so their work is invaluable to us. We are able to refer to them for services outside our area such as: budgeting, legal issues, JP services and food assistance. The Justice of the Peace service works extremely well and allows JPs to meet with clients outside their own homes. Not having that option would make them vulnerable as their personal addresses would be made public. New migrants are frequent users of their services and of vital assistance in helping them adapt to the complex institutions and mores of NZ society. The CAB is often the first stop shop for new migrants, refugees and international students seeking tenancy support and advocacy. There is no alternative service in the region and the 32 offices of the CABs dealt with 163,000 enquiries in 2022. They employ 900 volunteers, thus providing a service where Council has savings on wages and giving many people satisfying work

outside the home, especially productive for retirees, who bring a wealth of knowledge to the service and the community. They are a necessary and vital service that must continue to be supported by Auckland Council.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It is not sensible to sell off assets which will generate income in the future.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Tell us why, and which reductions you would not proceed with if any: To not proceed with any reductions and instead unfreeze the Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package.

Our communities are more important than ever and some of the organisations and services that are facing cuts are what make our communities resilient and connected - exactly what we need in the face of the kinds of emergencies and events that have occurred in recent times.

Do not proceed with:

Reducing Local Board discretionary funding and regional contestable grants

Reducing funding to Auckland Zoo, Auckland Art Gallery, and other venues

Reducing youth centre and education programmes funding

Reducing bus services

Reducing community empowerment programmes

Cutting Citizens Advice Bureau

Cutting homelessness coordination and initiatives

Cutting ECE

Our concerns:

Te Tiriti o Waitangi: These proposed cuts will see a huge impact to the wellbeing of Māori in Tāmaki Makaurau who access these services/ support from these organisations. The increasing population of Māori in Tāmaki Makaurau will be further disadvantaged by these short-sighted proposed cuts.

Impact on wellbeing of marginalised peoples: The proposed cuts and reductions of funding are short sighted and will impact both directly and negatively on the wellbeing of women, Māori, Pacifica, rangatahi and elderly and their whānau, as well as the LGBTQIA+, disabled, and migrant/refugee communities across Tāmaki Makaurau. Key relationships and programmes will be stripped from these groups who are already vulnerable due to the impacts of the floods, Covid-19 and the cost of living.

Process and timing: The speed and transparency of the process for consultation places huge pressure on the community to ensure their voices are heard.

Real cost: The real cost of the proposed cuts has not been taken account of. In the long term the proposed cuts will cost Council significantly due to the failure to invest in the social fabric that supports Rangatahi and their whānau to thrive.

It also reduces grant funding and requires local boards to cut funding, which may result in less services being provided in community facilities, shorter opening hours and increased fees to use these facilities.

Closing Citizens Advice Bureaus will have major impacts on 163,000 people who the Citizens Advice Bureau helped access their legal rights in relation to immigration, MSD, and KiwiSaver and other rights, over the last year.

Reducing funding and services of our libraries will also have a major impact an important community service that supports citizen engagement and wellbeing.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The sale of shares like this ensures a one-off return only - with all future possible opportunities for income from this large shareholding or a stake in what is carried out at the airport lost to the Council and benefiting the multinational corporations

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle)

properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Rate changes, including unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate, will generate much needed revenue that can help avoid the proposed cuts. Unfreezing these rates for the coming year is estimated to raise over \$5

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: With the anticipated rise in the frequency of severe weather events, the effects of ongoing infrastructure underinvestment are enormous.

Severe weather events always impact the most vulnerable in our communities disproportionately. We urge you to priorit

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? We are concerned that the Council wants to reprioritise the Climate Action Targeted Rate which was established just last year with overwhelming public support. It is alarming that the Council is planning to redirect funding from the Climate Action Targete

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We do not support these cost reductions. The net effect of such a sizable reduction in funding will devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing funding to Tataki Auckland Unltd with effects of service delivery to the zoo, art gallery etc

Reducing regional services such as community and education programmes etc

Cutting funding in the areas mentioned will have a serious detrimental impact on the arts and cultural aspects of the city. An art gallery is not a luxury item but an essential part of an cultural well being of the city and its inhabitants. Arts and cultural activities in the city not only employ many people but art and culture enable wellbeing and connection in our communities. Cutting funding is such a short sighted view of the world.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. - Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: 'Do not proceed with:

- Reducing funding to Tātaki Auckland Unlimited,
- Reducing regional services,
- Reducing local board funded activities, and
- Reducing regional contestable grants.

The proposed reduction of funding will have wide ranging impacts and devastate Tāmaki Makaurau's arts and culture sector. The city will lose the social cohesion and quality of life that a diverse range of arts can provide. Not to mention the loss of jobs, and the loss of quality of education in our schools and communities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Increase the rates for businesses and residential properties in higher socio-economic areas and for multiple-property owners/landlords.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

Tell us why: Cutting funding to essential community services will greatly impact people's lives and wellbeing, we need to invest in our communities to make them stronger.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: Libraries provide so many services to communities, not only a place to read, but community noticeboards, access to computers, or just a quiet places to be. They are one of the only free spaces left in this city, and should stay that way.

Community and ac

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Storm water management needs to be improved in Auckland. Our house would not have flooded if the drains were better managed.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Do not support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I fully support cost reduction. Auckland Council wastes so much money but not with a rates increase. We just saw the last management increase rates for a tax grab and then waste it on mismanaged projects.

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with the stuff that makes a difference to our communities. This includes Citizen Advice Bureau - an essential service, libraries, Zoos and Galleries, festivals, museums etc. These services are absolutely vital to a community and for all walks of life. Leave these services alone and look for options that have less impact on Auckland as a vibrant city and a city for its residents. There is more to measure than just cost.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why: Surely this also reduces income?

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: 2023 has shown us that it is important to spend on infrastructure. We cannot continue to ignore the impacts of climate change on our services. Stop introducing new subdivisions that don't have the infrastructure to support them and do not build on places

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Community services and places for the community to visit are essential to be retained.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: We need a balance of what works for our community, what we need to do to make our environment stronger and to combat climate change - continue with climate action and sustainability and balance this with a city that people want to participate in.

Do you think there are other areas where we could make savings to our local budgets? Analyse each project - what returns the most? What do people want and get the most out of it, best impact. Focus on these areas and reduce or refine the rest.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? I don't think a general increase in waste rates is warranted.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please do not get rid of essential community services and programmes that support residents wellbeing and participation and access to good advice. Leave CAB, Zoo, Arts programmes and festivals and libraries alone. There is more cost to this long term than

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Taking money away from public transport, cultural activities and education sucks the life out of our city. You'll end up with more crime and homelessness by your proposed reductions. Auckland is not just occupied by business and property owners. Pause the Whangaparaoa Penlink construction and put that money toward our light rail. Put up rates as it's the closest thing to a capital gains tax that any NZ property owner will pay.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: OK, save some money, but selling off ALL the family silver is just not prudent.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Property owners have untaxed capital gains via the value of their properties going up year on year. If they are landlords, increased rates are passed on in increased rents.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Prevention is better than cure.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council should increase rates and make greater use of debt as appropriate in order to reject the proposed cuts to arts & culture funding and protect the cultural wellbeing of Tāmaki Makaurau Auckland

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The proposed Budget, which would reduce both investment and community participation in creative and cultural activities including music, does not achieve the fundamental purpose of Local Government. It poses an immense and imminent risk to our cultural we

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: This would cut valuable funding to already struggling systems like our invaluable cultural institutes such as the Art gallery and venues. Our public transport is already widely (and rightfully) criticised for it's inconstancy and lack of access to multiple suburbs and those who need it. CAB have helped me immensely in times of great stress. When I was a victim of Motor Vehicle fraud I did not have the money or resources to approach a lawyer and without the help and advice of the CAB (which I accessed using public transport) I am fairly certain I wouldn't have had the knowledge or confidence to get my money back from this fraud. I cannot express how valuable ALL these services are to the community and cutting funding to them shows a gross negligence to Auckland City and it's residence.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This is not a particularly astute time to sell these shares - at a low point in the market - once they are gone, this asset can no longer be leveraged or support future revenue raising for Council.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Our city, communities and neighbourhoods are built with collective, public investment that is funded by rates, taxes, and fees. Debt can also be used to spread the costs of investment that will have future benefits for our communities.

Cuts to services

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It is so important for us to be investing in our cities infrastructure at this time. We are literally in the middle of a global climate crisis without the resources to support the inevitable frequency of these types of events

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I support my local boards priorities and feel the budget cuts will make these impossible to achieve. I oppose the idea of cuts to these crucial public and community services

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: I feel it's cruel to make us pick only 3. ALL of these local board activities are DEEPLY important and I support funding for all of them.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? All areas should have food waste collection available. I support more investment in buses, walking and cycleways!!

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

All the proposed funding cuts will hurt the community and culture of Auckland. Many of the proposed budget cuts will effect the most vulnerable among us which just feels like another way to increase the already existing poverty divide within this city. C

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

- * Reducing funding to Tātaki Auckland Unlimited,
- * Reducing regional services,
- * Reducing local board funded activities, and
- * Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: It's a question of either increasing rates and/or debt or stripping the city of everything that makes it a vibrant place to grow up, raise a family, etc, then it's a small price to pay to maintain Auckland's standing as one of the world's most liveable

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: This question is misleading, asking whether the respondent supports a list of priorities doesn't allow them space to query the proposed cuts.

We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyc

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local community events e.g. Parnell Festival of Roses, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: These proposed cuts, which while small in terms of the Council's overall budget, will have an outsize impact on our arts, culture and creative sector, and youth and community programmes and services.

Our social infrastructure – including our arts, cultur

Do you think there are other areas where we could make savings to our local budgets? Rate increases, debt financing, and/or asset sales (in particular, the disproportionate percentage of Auckland's land devoted to golf courses) would be preferable to gutting arts and culture and essential social services. Without its cultural vibrancy an

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The leading and confusingly worded questions throughout this form amount to a form of voter suppression. A feedback form should be impartial, and I fear the way this has been worded will cause some people to not have their voices heard.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: If Auckland is to be an inclusive and vibrant place to live, work and play for people now and into the future, then we must invest in the things that contribute to that. We do not support any of the cuts listed. We need to increase investment in public transport to reduce our emissions and make it easier for people to get around without relying on private vehicles and we must continue to support the arts and community development. We do not support the cuts to early childhood education support or any of the proposed cuts to regional funding including events and libraries. We do not support the proposed cuts to local board funding as this stifles local democracy and autonomy.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Reducing our stake in Auckland Airport reduces our ability to control our own transport infrastructure. Prior to Covid the Airport shares provided additional income to Council. Opening the door for sales of this share now increases the likelihood of furt

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: We support increasing the general rate in line with inflation and increasing the use of debt to maintain and improve current levels of service.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We support increased spending on infrastructure and oppose the proposed cuts to the targeted rate for Water Quality and Natural Environment.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: We do not support the reduction in funding to local boards.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: We support all of them.

Do you think there are other areas where we could make savings to our local budgets? The council could be looking at additional revenue generating mechanisms - for example increase parking fees.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? The Climate Action Targeted Rate was only established last year. It should be used to increase public transport services. We support more investment in public transport, walking, cycleways and safer roads.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The proposed budget cuts are destructive to the quality of life for all Aucklanders. We are three years into a pandemic and now is the time to spend and invest rather than cut services.

The proposed budget does not in any way give any indication of the

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Transport and community education programmes or services. A lot of people rely or use these services. They serve a lot of people and bring people together.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Selling all AIAL shares is only beneficial for the short term. It would be of benefit to the council long term to not sell all shares.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Auckland needs better infrastructure to support future people. As seen in Summer, we also need better water infrastructure for future extreme weather events.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterway e.g. Te Wai Ōrea lake and

wetland, Environmental restoration and pest control e.g. Waipapa Stream, Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you: The environment is always important. To keep equilibrium, the ecosystem will do anything to restore it including extreme weather events. For the safety and health of communities (people or natural organisms), it is important that we have a sustainable and

Do you think there are other areas where we could make savings to our local budgets? Reduce opening hours or availability of public services, BUT do not get rid of them. Prioritise the health and safety of people e.g. infrastructure, crime, education, waterways etc. Public art is nice but that can wait or be reduced until budget hole is I

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Council should increase rates and make greater use of debt as appropriate in order to reject the proposed cuts to arts & culture funding and protect the cultural wellbeing of Tāmaki Makaurau Auckland.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: Council should increase rates and make greater use of debt as appropriate in order to reject the proposed cuts to arts & culture funding and protect the cultural wellbeing of Tāmaki Makaurau Auckland.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council should increase rates and make greater use of debt as appropriate in order to reject the proposed cuts to arts & culture funding and protect the cultural wellbeing of Tāmaki Makaurau Auckland.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The proposed Budget, which would reduce both investment and community participation in creative and cultural activities including music, does not achieve the fundamental purpose of Local Government. It poses an immense and imminent risk to our cultural we

About Us

Recorded Music NZ® represents recording artists and right holders in Aotearoa through licensing, advocacy and promotion.

Recorded Music collects broadcast and public performance income from music users and distributes it to right holders and recording artists, advocates to government and others on behalf of recording artists and right holders and promotes artists and recorded music through initiatives such as the Aotearoa Music Awards. Recorded Music NZ also operates The Official NZ Music Charts® and data analysis services and supports the wider music community through collaborations and its music grant programme. At the time of writing we represent over 3,150 individual “master rights holders” (copyright owners or exclusive licensees of sound recordings) and we have over 4,100 NZ artists registered in our direct-to-recording artist scheme.

We are writing, as part of the music sector, to voice our deep concern at Auckland Council’s recently proposed Budget.

Tāmaki Makaurau Auckland and its people are still recovering from the lasting impacts of COVID restrictions and recent severe flood and cyclone damage - including many people working in our music, arts & cultural sectors such as artists, performers, promoters, production crews and other industry professionals who have suffered through two years of job losses and cancelled events.

Now is not the time to undo the hard work of our sector and Auckland Council’s previous investment by taking away the things that give ‘colour’ and joy to the city, and which keep people wanting to work, learn and visit here, and thereby keep our economy pumping.

About the Music Sector

Music and the arts are highly valued by Tāmaki Makaurau Auckland’s communities and bring many cultural and economic benefits to the city (as we have summarised in the annex to this letter).

Tāmaki Makaurau Auckland is the engine room of our national music industry and is the arts & cultural hub of Aotearoa. In 2020, PWC estimated that the music industry alone contributed approximately \$300 million to Tāmaki Makaurau Auckland’s local economy, and it is estimated that for every dollar invested in live music, over three is returned to the economy.¹

Auckland is a member of the UNESCO Creative Cities Network as a designated City of Music and was awarded Best Global Music City in 2022. Our city has a rich and storied heritage that has produced world-class musicians, producers, organisations, and events but the ecosystem that supports this success is fragile. It requires concerted effort and ongoing investment from both the sector and Auckland Council to ensure that our music ecosystem is resilient, sustainable and future-proof.

¹ [The Economic & Cultural Value of Live Music In Australia 2014](#) - p. 52

Our Submission

The fundamental purpose of local government (as enshrined by statute) is *“to promote the social, economic, environmental, and cultural well-being of communities in the present and for the future”* and the Council’s Auckland Plan 2050 states the aim that *“Auckland is prosperous with many opportunities and delivers a better standard of living for everyone”*.

In our view this Budget, which would reduce both investment and community participation in creative and cultural activities including music, simply does not achieve this fundamental purpose or support this stated aim.

We submit that Auckland Council’s proposed Budget poses an immense and imminent risk to prosperity and opportunities for Aucklanders and their businesses, which will have a consequent economic effect nationally, and on the talent pipeline and international reputation of Aotearoa. The proposed cuts to arts & culture funding would stifle the music ecosystem and the benefits that music provides; and threaten the cultural well-being of our communities and the overall liveability, vibrancy, social cohesion and identity of Tāmaki Makaurau Auckland.

Of particular concern to us are:

- **the reduction in funding to Tātaki Auckland Unlimited (TAU)** which impact economic development, major event attraction, tourist and business event attraction, workforce pipeline development, and investment;
- **the reduction in funding to Regional Services** such as music programmes, community development groups, regional events, social services and local board funding and to Eke Panuku Development Auckland Limited. This affects planned urban regeneration investment in waterfront including events, activation planning, and design for future development activities as well as public realm projects and local events in town centres such as Matariki festivals, weekend workshops for kids, Christmas and cultural new year celebrations; and
- **the negative impacts this will have on under-represented groups** such as Māori, Pasifika, youth, refugee, new migrant and rainbow communities who benefit greatly from the Regional Services’ cultural initiatives which will suffer from the proposed cuts.

We submit that these proposed cuts will inevitably result in:

- **Fewer music events.** Without funding, many of Auckland’s music events and festivals will be cancelled or scaled back; and commercial events will be severely impacted by not being able to leverage the support of TAU (including Auckland Live and Auckland Stadiums). This will lead to reduced engagement between our communities and the many types of businesses that benefit from live events; a reduction in the diversity and vibrancy of the city’s music scene; and will take away vital opportunities for young people to immerse themselves in or connect with their cultures.
- **Job and income loss.** Many artists, performers, music industry professionals and entertainment adjacent businesses benefit from council funded initiatives and rely on income derived from event audiences and related rights licensing to support their work. We are particularly concerned that Council has not fully considered the downstream economic impact caused by reducing opportunities for artists to exploit their intellectual property.
- **Reduced Tourism.** Auckland’s music, arts and cultural scene is a major draw for tourists. There is still much work to be done to make Auckland a more vibrant place for tourists to visit/spend and these cuts will negatively affect one of our city’s greatest appeals to visitors, leading to a decline in tourism and its associated revenue.

- **Harm to our cultural heritage and community well-being.** Music events are a source of social connection, community engagement, and personal growth and serve a vital role in preserving and expressing our arts, history, heritage and traditions. Cutting funding will negatively impact community well-being, particularly for vulnerable or under-represented groups. There will also be a further negative impact specifically on the music community who are already over-represented amongst those suffering with mental health issues.

Our Response to Auckland Council's Request for proposed solutions

We understand and appreciate the enormity of the task Council faces. However, it is difficult to propose detailed solutions/options to overcome the Budget shortfall due to the lack of detailed financial information, and especially economic analysis of the impacts of the proposed cuts on Auckland's economy and employment prospects in the Consultation Documents.

When faced with making difficult decisions – either in expenditure or in policy – best practice is to start with an evidence base. We don't see an evidence base for the proposed budget. We are very concerned that the Budget has been prepared without due diligence, and the impact on current and future generations of Aucklanders has not been properly considered and understood.

Our Requests of Auckland Council

We urge Councillors to:

- **Reject this current Budget proposal** – specifically, the cuts proposed to Tātaki Auckland Unlimited, Regional Services, Eke Panuku, Local Board Initiatives and Contestable Grants.
- **Reconsider the proposed approach to addressing the current shortfall.** We request that Council considers a different mix of financial levers other than decimating community investment (such as targeted rates increases, borrowing and/or asset sales) when preparing a revised budget.
- **Undertake robust analysis** of the impact that any revised proposal will have on the long-term prosperity and prospects of all Aucklanders.

A city is more than its infrastructure – and now is the time to invest in the recovery, and future resilience and prosperity of Tāmaki Makaurau Auckland and its people.

As a representative music organisation, we welcome the opportunity to provide further feedback on the Budget and note that we are willing and able to discuss with Auckland Council how music can play a vital part in achieving Council's long-term aspirations.

Nāku, nā

Jo Oliver
Chief Executive Officer
Recorded Music NZ

Annexure

A Brief Summary of The Economic & Cultural Value of Music and the Arts for Tāmaki Makaurau Auckland

As is reflected in Council's own *Toi Whikiti - Auckland's Arts and Culture Strategic Action Plan* - 88% of Aucklanders believe that the arts are good for you, 86% agree the arts help to improve society and 90% agree that they learn about different cultures through the arts.

Music is the most accessible of all artforms - able to be enjoyed almost anywhere by anyone at any time - and it plays a vital part in nearly all arts & cultural events and initiatives. This is the reason that music features prominently in municipal health and wellbeing outcomes; and why so many cities around the world use music to define their city's image, attract investment and tourism, provide social cohesion for their citizens, and rely on it in times of crisis to help and heal.

Music helps makes a city live, and be liveable in many ways.

- **Music Boosts the local economy.** A thriving music sector engages communities and ratepayers, attracts tourists, creates jobs, and generates revenue for local businesses such as restaurants, hotels, and retail. This, in turn, contributes to the overall economic growth and prosperity of the city.
- **Music Supports education and creativity.** Music education can improve academic performance and cognitive skills, while also fostering a lifelong appreciation for the arts. This can contribute to a more educated and creative workforce, which can spill over into other areas of the city's economy, such as technology and business.
- **Music Enhances Auckland's identity.** Our vibrant music scene gives Auckland a unique identity and sense of place, allowing the city to attract and retain residents, businesses, and visitors. It also contributes to a sense of pride and belonging among Aucklanders.
- **Music Fosters community.** Music events provide opportunities for people to come together and connect, fostering a sense of community and social cohesion. This helps to build a more inclusive and welcoming city.
- **Music Improves wellbeing and quality of life.** Access to music activities improve our quality of life by providing opportunities for recreation, entertainment, and personal growth. This contributes to the overall well-being and happiness of Aucklanders.

Annual Budget 2023/2024

Note: *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: You are proposing cuts to many of the things we value about living in our city. These services help ALL Aucklanders, especially the more vulnerable. I have used many of these are cannot stress enough how harmful this would be.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Why would we even consider selling these shares when the market is at a low. This doesn't make any financial sense.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council should both set a higher general rates increase and make greater use of debt. These cuts are irresponsible in the midst of a climate and inequality crisis. Reducing the Water Quality and Natural Environment Targeted Rates by two-thirds is especial

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: In light of recent extreme weather events, as well as being in a global climate crisis, it is now time to act and make sure we do not experience so much devastation in the future with the inevitable increasing of these events

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and

Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: I SUPPORT ALL THE FINDING FOR MY LOCAL BOARD TO ACHIEVE THESE SERVICES

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I support more investment in buses, walking and cycleways, not cuts to these.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The idea of reducing or eliminating such things as Social Services as the Citizens Advice Bureau is grotesque, likewise any idea of reducing funding of items such as the Libraries, Art Gallery, Museum, Heritage Festival, Music in Parks and other Cultural events will result in a massive economic downturn. If the Council is spending millions of dollars on PR consultants for the Mayor's Office that is where to cut back - not at the Auckland Council's Social Services or Cultural Events which encourage tourism.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: There should always be a balance between support of cultural events and long term thinking (specifically environmental concerns). The Library is a long standing facility which forms a focus for Social Services and Cultural Events - in many ways it takes

Do you think there are other areas where we could make savings to our local budgets? Less money spent on the Mayor's PR. Fewer stupid expensive projects such as the House on Queen's Wharf or the Erebus Memorial which now disfigures Dove Myer Robinson Park and which proper consultation was undertaken.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: It is damaging to the culture and communities of Auckland to reduce funding regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres. Please do not proceed with these reductions. It will cost more in the long run to cut them.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: We have to invest in capex for infrastructure to make the city liveable and safer for residents.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please review the senior management and governance of Eke Panuku to ensure they are capable of partnering well with the private sector to deliver (with efficiency) quality affordable housing for central Auckland. It is not an issue of conflict at board level

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Do not proceed with any of the planned reductions. Get rid of the 6 figure salaried Council staff who provide no benefit to Auckland. There's many! Spend the money Council gets, more wisely. Sell some prime real estate currently locked up in golf courses. That impacts few, unlike the current proposals, which negatively impact most of the population of Auckland in some way.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: I cannot agree with selling assets. This land was stolen from Maori for "the people of NZ" and now you want to sell it offshore because of bad management and too much accrual of debt.

Cancel all bonuses for the airport management until the airport is tur

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Honour te Tiriti. Be a good "partner". Maori have proven experts in every field and some of the most successful entities in Aotearoa are kaupapa Maori. We know a lot and can bring much knowledge and expertise, to the table.

Auckland Council should be a

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Engage maatauranga Maori and restore wetlands and streams.

When you remove 90%+ of the waterways and streams of an area, while plastering it in concrete... it's only a matter of time before floods happen.

5. Local Boards

Waiheke Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I care about the community, environment and whenua of Waiheke. Ngati Paoa should be mentioned by name especially in regards to Matiatia and when "mana whenua" are mentioned.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Environmental programmes and volunteers, Protection and restoration of local waterways

Tell us why these are most important to you: I am tangata whenua. Local events help people connect. Waiheke has a huge number of environmental projects run by volunteers, that may cease if they have no support.

Restoration of waterways is a must! We need to restore habitat and prevent future flood

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: There's no mention of tangata whenua in your priorities .

I'm not bothered about Leys institute. Ponsonby can access other libraries. I'd rather Pt Chev library was saved. That was well used, by lower socio economic NZers.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental education e.g. Schools treasuring Waiōrea

Tell us why these are most important to you: I'm Ngati Paoa and Ngati Pukenga. I'm surrounded by the mess pakeha council management and board members have made over the years. Auckland is a mess!

Do you think there are other areas where we could make savings to our local budgets? Cut staff bonuses. Get rid of excess staff who bring no value to ratepayers

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We need a well functioning city that is forward looking, prospers and has a sense of ambition. We need more not less public transport, more options for people to engage in community and more support for adapting and mitigating the effects of climate change. I agree with cutting early childhood education, this is not a councils job.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: We are not an active shareholder, don't participate in capital raises etc, and are not a strategic shareholder. As such we do not need not fund our shareholding and should sell to repay the debt that is costing us millions to hold a non-strategic asset.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: We should increase the rates to the level of inflation at least.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We need to take a future view - something i am not sure our Mayor and councillors are capable of but is needed.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterway e.g. Te Wai Ōrea lake and

wetland, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We need better cycling, walking and public transport options. We need to have a FUTURE focus that is positive and sees Auckland grow and flourish.

Important privacy information

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: To not proceed with any reductions and instead unfreeze the Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package.

The cuts to community services and arts and culture funding will create irreversible damage to sectors and communities that cannot afford to be hit again, post-Covid, post-floods and at the beginning of an economic downturn. We are experiencing an inequity crisis, and many of the services that will be affected serve lower income, more vulnerable communities. Cuts will not only entrench further the economic issues these communities face, but the economic wellbeing of our entire city. When arts and culture venues are full, our inner city hospitality venues flourish. When everyone has access to regular bus services, we know our people can stay in jobs. When we invest in the potential of our underserved and structurally disadvantaged Pasifika and Māori young people, we will all benefit from their success.

And when disasters hit, we need community services in place to help our communities bounce back.

By cutting a cost on the balance sheet, we may be saving money in the short-term, but the long term costs for our city will be far greater. If we thought the pattern of ram raiding was worrisome now, I invite you to think about where that trend will head as a result of these cuts...

I would also note that it is essential these services stay in Council hands (or entities integrated with, or funded by), as these locally specific issues that they are tasked to solve - people who have worked in their communities for a long time, who have built up a huge amount of knowledge, networks etc.

Besides my concern for these cuts as a whole, I would also like to note:

I am an ECE teacher and parent, and am entirely opposed to the proposed cuts to the 10 Council owned ECE centres. These centres provide a desperately needed alternative to more expensive privately owned ECE care. They provide means for parents (particularly mothers) to afford to return to work.

The reductions that have been proposed are not serving the long-term wellbeing or prosperity of Tāmaki Makaurau. They are shortsighted and will result in the poor getting poorer, in an increase in crime and the loss of social cohesion and wellbeing of our people.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling off our stake in the airport is short-sighted. Airport traffic is fast returning to pre-Covid levels - the shares generated returns of 22.6% per year in the five years to 2019. We can expect to reap the benefit of this soon enough.

It is also a

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate will generate much needed revenue that can help avoid the proposed cuts.

Increasing general rates a little more than is currently proposed should also be considered. Rat

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I am hugely concerned about the impact the proposed budget will have on the liveability and wellbeing of our city, particularly on those parts of the community that cannot afford it.

There should be more time and community consultation taking place for s

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The impact on the lives and wellbeing of Aucklanders relies on it being a city with diversity and good services, be it in the quality of the sewerage systems or the money spent on the arts, the availability of a good library system for all to name just a few services.

Keeping rates down is a slogan for reelection, and as services cost, so should we ratepayers pay for the ongoing costs of a big city

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling shares when the economy is low is not going to be beneficial, as I understand one holds onto them and in the long term they pay off. They create wealth for the city and some influence in how things develop. Make it more user pays, so that those

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: As I understand those who have hardship paying rates can apply for rates relief. Those who own more than one property or own a house that is highly valued can afford to pay more. Many in this city are able to share in spreading the load of costs, living

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The work will already have been done to arrive at this proposal. Auckland very much needs good infrastructure and the work brought to light by the storms have done us a favour if in the long term more sensible decisions are put into the building of roads

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: These are all worthy causes. The ones that maintain or improve the greenspaces are going to be so very much needed in the future where development has encroached and needs to take more responsibility. They are areas where locals can get involved with ou

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Libraries are not to be underestimated. They change over time incrementally but as a hub for learning and being there for the community to make a world class city, they must not be diluted with shortened hours or replacing librarians with volunteers. Yes,

Do you think there are other areas where we could make savings to our local budgets? I am a cyclist, and use roads and bikeways. A recent project in Cox's Bay was sadly expensive and is now unusable for getting around by bike. This was removing the continuation of the bridge across the creek (long before the slip closed off access) to Wh

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? The Pools fencing is a user paying for their safety compliance- of course.

The electric busses are future proofing and the decisions will have been made intelligently. Going back on these decisions is counterproductive.

Re rubbish, the recycling where w

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

re the Tūpuna Maunga Authority Operational Plan, I am supportive of the no access for cars to the summits. I am against of removal of trees that are not indigenous that support our varied bird life. We need every tree that is already established and more

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I write opposing proposed cuts to Auckland Council services, particularly in the arts, culture and community sectors.

My Objection to Proposed Budget:

1 I understand that Auckland Council's budget for 2022/23 was \$2.8 billion capital investment and \$5.11 billion operating cost.

2 I also understand that given recent storm events affecting Auckland along with a budget deficit, Council has to find a way to close the budget gap.

3 However, it seems that one of Council's proposed way of doing this will be to reduce funding to the arts, culture and community sector. I oppose this for the following reasons.

4 Within this sector, I believe relatively small amounts of funding are spread across a wide range of groups and organisations with their programmes and projects. In many cases, this funding will be crucial to the sustainability of these projects.

5 Many of these projects support and engage people on lower incomes who are struggling to survive in an environment where:

- a. They have been adversely affected by over two years of a pandemic
- b. Some have suffered in the recent destructive weather events
- c. They are currently facing a cost of living crisis when they already have household budgets that are stretched to the brink.

6 Many lower income communities are facing financial pressures. I note that a number of Maori and Pacifica projects will be disproportionately affected by this proposed decrease in funding. Others whom I understand will be affected are refugee and youth programmes.

7 Auckland City is home to many diverse cultural groups. It is touted as the largest Polynesian city in the world. This is an asset that it is difficult to put a price on. Arts and cultural events demonstrate Auckland City's identity, unique culture and surprising talent. There are economic, social and cultural benefits to being a thriving city of diverse culture.

My Proposal:

1 I would propose that rather than cutting budgets to cultural, arts and community projects, Council looks to its big budget operations and investment areas, to find reductions. Reducing the number of times grass in some of our parks is mown for instance, can produce substantial savings. In such cases, communities and the public would be unlikely to experience any adverse effects, and would in any case, not be adversely affected.

2 Additionally, Council is in a position to take out loans to cover its shortfalls. A loan of \$360 million, is not that great in a corporation with budgets the size of Auckland City's.

3 Also, I am not averse to some rates increase although this would need to be tempered so it does not put additional financial stress on our already struggling communities.

Who am I?

I am Martin Sutcliffe, now retired and I live in Grey Lynn, having been able to afford to buy here over 46 years ago. Altogether I have spent 27 years in Council or a Council supported organisation: 13 years working within Auckland City Council as a manager in the arts, community, events and recreation sector, and 14 years as Director, Corban Estate Arts Centre, an organisation that relies on its Council funding support to exist and support West Auckland diverse and often disadvantaged communities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential

- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: 1. Please do not reduce library hours or services. This a lifeline for many who would otherwise have no access to quality reading material, research resources, use of computers etc. The biggest impact will be felt by the least able to afford private alternatives.

2. Please progress the redevelopment of the Leys Library as determined by the public consultation.

3. Keep funding CAB services. This is a vital recourse to legal advice and hence justice for the less well off.

4. Please don't reduce public transport. This must be the most ill advised thing to do with the threats of climate change. Auckland reducing its emissions is a big enough issue nationally in terms of NZ reaching its targets for CO2 emission reduction that the Mayor should approach the Government for assistance if our public transport is under threat. I suggest a congestion charge to pay to help cover public transport costs.

5. Why are the lowest value homes having the greatest percentage increase in rates? This disproportionately affects those least well off.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: When dividends resume it is a source of income.

It doesn't address the underlying cause of the councils' debt and the risk is that the debt re-emerges.

The airport needs to have regulatory oversight and act in wider public interest.

There is a threat of o

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets? Phase out and close the Zoo

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not proceed with any reductions because these are all incredibly important. These seem like incredibly short-sighted funding cuts.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling shares misses the point of why the city should have ownership stakes in the airport. The city is not a business.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Why not higher general rates and greater use of debt. I'm sure any kind of increase will work out to be far more economical than something so short-sighted as cutting bus routes and early-childhood funding.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This shouldn't need explanation after what we've seen this year. \$20 million is a good start.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Climate change and environmentally-aligned priorities are obviously most urgent here.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you: We shouldn't have to choose between environmental restoration and waterway restoration. What is this question?

Do you think there are other areas where we could make savings to our local budgets? Increase corporate taxes seems like the obvious choice. Work this out with national government and other local government. Stop building motorways and don't make public transport cuts. Make some sumptuary laws, introduce luxury taxes. Empower the worst o

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? More public transport. More sustainable transport options - ie not cars.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

DON'T cut citizens advice bureau funding! Don't cut public transport services! We are not a business, we are a city of communities struggling with poverty and climate change! Look around you.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any:

Please do not reduce Auckland's public transport. Auckland has an embarrassingly poor public transport system for a city of its size. It will ruin much of our beautiful local economy, and will be hardest on people who are already having a hard time.

Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Everything except bins and maybe funded childcare. Also keep public transport reduced, as long as buses/ferries train keep to scheduled times. Cultural activities bring people together and often into the city where money is spent. Families find the zoo expensive enough.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Short term gain perhaps, but we need the reduction in costs now.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: 7% is reasonable at this point in time when families are struggling with increased interest and rent

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It is just needed

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: There are too many reductions

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Local community events e.g. Parnell Festival of Roses, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: They are all imp't but only three requested. six days will probably work for central library but "reducing" hours for Central and Grey Lynn is not clear. Community events bring people together

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

PONSONBY BUSINESS ASSOCIATION

SUBMISSION TO AUCKLAND COUNCIL ANNUAL BUDGET 2023/2024

27 March 2023

Introduction

The Ponsonby Business Association represents the BID of approximately 500 businesses along Ponsonby Road in Auckland.

We are a vibrant successful district with several popular hospitality venues and designer fashion stores.

We return around \$300 million to the Auckland economy annually.

We would like to see an effective and efficient Council.

There are currently 50 BIDs in Auckland, with a combined capital value estimated at \$72.7 billion.

Our role in the Auckland economy is to improve the business environment of our areas, promote innovation, prosperity and employment as well as attract new businesses, customers, and visitors.

We share the common goal with the Auckland Council group of promoting Auckland's economic prosperity. The Council group play a pivotal role in providing efficient and effective core services for the city.

We support the need for Auckland to continually strive to attract more visitors, and bid competitively to host major events, as well as support economic development activities.

The marketing of "Auckland Inc" firmly sits within the scope of council's core services - no other entity has the resources, nor the single-minded focus, to position our brand internationally.

Council must continue investing in this important service to support economic development.

Turning to the key themes identified in your Consultation Document, we want to address:

- (1) Managing ongoing budget pressures
- (2) Managing rates and debt
- (3) The Storm response
- (4) Changes to other rates and fees and charges, and
- (5) Other matters important to us

(1) Managing ongoing budget pressures

We acknowledge that Auckland Council is facing significant budget challenges with a forecast budget shortfall of \$295 million and a cost blow-out of \$1 billion for the City Rail Link.

Firstly, we absolutely support Auckland Council holding "tough" talks with the Government to push it to pay more for the City Rail Link.

This is a fundamental piece of national infrastructure, a national asset and should have been fully or mainly funded by Government.

In terms of the need for efficiencies and savings, we ask that the detailed review of services across the Auckland Council group be progressed more quickly.

We believe there should be a sharp focus on finding savings from the management of contractors and consultants by the Auckland Council group, as we still experience evidence of wastage.

We support a budget package that sharply reduces Auckland Council's group operating costs.

We also support prudent borrowing even if it requires more than \$75 million of additional debt.

As we expressed earlier, we do not support the \$27.5 million funding reductions proposed for Tātaki Auckland Unlimited.

Instead, we ask that the budget for marketing Auckland internationally, attracting visitors, bidding for, and hosting major events as well as supporting economic development activities be maintained.

We also ask that the budget for local board funded events, local economic development and town centre re-generation be maintained. These activities are what makes Auckland a 'vibrant' place in which to live.

A harsh austerity budget will be detrimental to the city's recovery from three years of COVID-19 disruptions.

(2) Managing rates and debt

Turning to managing rates, we appreciate that this is important in terms of Council's budget challenge.

However, we do not support pausing the long-term differential strategy.

The intention of the long-term differential strategy is for the share of general rates paid by business properties to be made fairer. However, every time there is a budget challenge, Auckland Council pauses the long-term differential strategy. We are strongly of the view that this is unacceptable.

We do, however, support an increase in general rates no higher than inflation.

We also support reducing the Natural Environment Targeted Rate and the Water Quality Targeted Rate by around two thirds and using the money Council has already collected from these targeted rates to continue delivering these work programmes.

(3) The Storm response

We agree that the impacts of the recent storm events over Auckland Anniversary weekend and Cyclone Gabrielle have been substantial for Council.

They have also been very serious for many businesses.

We have been concerned about the lack of ownership regarding the risks from flooding and all the silos that operate within the Council group, which certainly came to the fore during and following the flooding events.

We find it frustrating that core functions, such as keeping the drains free from blockages or maintaining storm water pipes, fall between several agencies, and sometimes into a void between Auckland Council and Auckland Transport or Waka Kotahi.

We understand that the maintenance schedule was reduced to only once annually during 2020, and we all now know that this is hopelessly inadequate, and short-sighted.

This needs your urgent attention.

Keeping the drains free and regularly maintained is core business, and the schedule needs to at least double to twice annually.

We agree that the floods and slips mean that urgent repairs and replacements must be conducted ahead of less urgent work.

So, we absolutely agree with increasing operating budgets by around \$20 million to support the repairs and replacements as well as prepare for and respond to future storms and understand that this may raise rates by an additional 1%.

However, we think this funding should be 'ring fenced' for these purposes.

(4) Changes to other rates and fees and charges

We understand the staff challenges being experienced by Auckland Transport, but instead of maintaining the currently reduced number of public transport services, we ask that they be increased as more staff become available.

(5) What else is important to us

We are concerned about the proposal to reduce open space maintenance by reducing 30 per cent of litter bins across the region.

In our view, keeping our region, but especially our town centres tidy and free from litter, is core business.

We are also concerned that Eke Panuku Development plans to reduce or withdraw from public realm projects and local events in town centres, such as Matariki festivals, weekend workshops for kids as well as Christmas and cultural New Year celebrations. Again, we are concerned that these reductions will reduce the amenity and enjoyment of our town centres.

We do not support withholding funding for the Citizens Advice Bureau. This organisation serves a vital role in helping our community navigate a range of complex issues. They are a trusted integral & valued part of connecting communities and helping to find solutions.

We are especially concerned that if further cost reductions are required, Eke Panuku will exit from urban regeneration activities in up to 11 priority locations across the region. We fear this will impact heavily on the amenity of our town centres as private development will continue, but without regeneration of the public realm.

Conclusions

As we enter another year where the resilience of small and medium sized businesses will be tested, we ask the Council to carefully consider their needs as it makes decisions about the priorities and proposed savings in the Annual Budget 2023/2024.

We ask that there be a focus on providing those services that grow the economy and support local businesses, especially in our town centres.

We fundamentally believe greater savings can be made with a culture of efficiency being instilled across the council group.

Now is the time for the council, and its employees, to adopt a rate-payer mindset.

Council must not lose sight of Auckland's ongoing economic prosperity.

We ask that these services be retained:

- the marketing of "Auckland Inc" to position our city's brand internationally.
- keeping the drains well maintained.
- retaining the existing number of litter bins in town centres; and
- retaining Eke Panuku Development's plans for public realm projects and local events in town centres, such as Matariki festivals, weekend workshops for kids as well as Christmas and cultural New Year celebrations.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I write to oppose any proposed reductions to arts and cultural budgets, by Auckland Council.

It may be easy for some people for whom these contributions are seen as unimportant, to regard these Council operations as 'icing on the cake' or 'nice to haves' which we can cease funding in times of financial pressure. Creativity and the arts are essential to any city's standing as a place to visit. Artists and creative practitioners contribute a great deal to our city, not just economically but socially and culturally. Creativity adds richness to our lives, reflects our identity and creates connection between people. In a sophisticated multicultural city, we see different worlds reflected in the expressions of our many different cultures. This promotes understanding of our differences, and greater appreciation for the rich cultural tapestry that a city such as Auckland possesses. Arts and cultural activity promote imagination, can help to heal those who are suffering from mental distress, and give meaning to young lives who may otherwise feel lost and adrift.

To use the icing on the cake analogy, arts and cultural activity are a key ingredient in the cake itself. If we defund these activities now, we risk losing them altogether, as our creatives seek refuge in other cities, or simply cease contributing in the creative sector because it is unsustainable.

To borrow \$300,000 or increase rates by a miniscule amount, is a preferred option. Or why not reduce funding in Council budget areas where a few million is just a drop in the ocean? Surely an organisation with a budget of almost \$8 billion, can find savings where a comparatively small reduction goes unnoticed?

From:

Marilyn Sutcliffe (retired counsellor and psychotherapist)

A ratepayer residing at 50 Selbourne St, Grey Lynn, Auckland, 1021.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?**Tell us why:****5. Local Boards****6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?**7. What else is important to you?****Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: *I do not support reducing funding to research services - the four research centres in libraries are helping Aucklanders of all ages research their history, their family history, their understanding of Auckland and its art and culture, and now more than ever should be supporting schools in helping with resources to support the new history curriculum.

*I do not support the reduction of funding to Tātaki Auckland Unlimited which would reduce service delivery (including economic development and tourism promotion) and raise pricing at Auckland Zoo and Auckland Art Gallery. We want a vibrant city that attracts visitors - who bring in money.

*I do not support the reduction of regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres. This would gut the strengthening of a thriving Auckland community, at a time when people are suffering from disasters.

*i do not support the reduction of regional contestable grants as these grow the skills and capability of Aucklanders, who then go on to thrive socially and economically.

*I do not support 16% cuts across local board funding - they understand their local communities and are the key way Council delivers the four wellbeings that legislation instructs them to support - cultural, social, environmental, economic.

*I do not support retaining reduced levels of public transport. The planet is in an emergency phase – public transport will only have growing usage if it is reliable and cheap

*I support that no reductions to funding for the Museum and MOTAT are proposed - these should not be cut.

*I do not support the proposed reductions and instead support unfreezing the Water Quality and Natural Environment Targeted Rates, increasing borrowing, and increasing general rates at least to the rate of inflation (rather than the proposed 4.66% increase)

*I request council look at maximising alternative sources of funding such as increasing on street parking charges and the introduction of charges at Park & Rides.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Support keeping our current airport shareholding because once gone, this asset can no longer be leveraged or support future revenue raising for Council. Prior to covid the airport shares generated a \$60m dividend for Council which is why the shares are so

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Support council setting a higher general rates increase AND making greater use of debt.

Council should set rates at least at the rate of inflation (8 -9 % rather than the proposed 4.66%) Auckland rates are low compared with other metropolitan centres. (i

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Support the importance of investing in stormwater infrastructure, especially in light of recent extreme weather events.

In addition, Council's ability to prepare and respond to future storms and climate impacts will be greatly enhanced by ensuring all

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Local boards are here to listen to, understand and respond to local needs. These priorities do that and I support them. Cuts to funding will compromise the delivery of these priorities

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: *Library opening hours: Seven days allows people with different timetables and commitments to still access these services. Libraries are also safe spaces for people to be in, to access internet, to learn and find solutions to their problems. The Centra

Do you think there are other areas where we could make savings to our local budgets? Don't need a Santa parade

Mow less - meadows instead.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	

Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals? Do not support Council reprioritising the Climate Action Targeted Rate which was established only last year with overwhelming public support. It should be used to improve and increase services rather than diverted to reduce costs to Auckland Transport.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

*Auckland Council should rejoin Local Government NZ - collective research, korero and advocacy for local government helps Auckland and the entire country. Shame on those who voted to leave.

*I do not support the many cuts in different places around work

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

working in art & design education this message signals that concrete and cost savings are more important than culture and vibrancy in our city.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Councils role is to plan and prepare for this. you should already have been preparing.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The proposed reductions in regional services are some of the most regressive policies you could have selected, and it is truly infuriating to see them being considered so seriously. Especially galling is the fact that in your own consultation documents you concede that a 1% rates increase would effectively earn the council the same money as would be saved by these cuts. Removing this services disproportionately affects lower income citizens, who will continue to see their costs rise while also having to suffer the indignity of even more limited access to public utilities and social services. The mayor's comments on the value of art and culture have also been especially affronting, and it is saddening to see those thoughts being carried out in these proposals. Auckland is a city that already fails to provide adequate support for it's extremely vibrant arts sector, one which should not have to justify itself economically and yet manages to do so anyway. If the council is unable to maintain public services and facilities then what exactly is the point of the council? Raising rates is a burden that ultimately everyone will shoulder; landlords will pass those costs on to tenants anyway. Slashing services will primarily affect those with less money. It's unequitable, it's bad for the city as a place anyone would actually want to live in, and it's a disappointing failure of the council's duty of care.

Frankly the reduced services from Auckland Transport are also disappointing and short-sighted, given that the already dire traffic situation is not going to be improved if people feel that there are no viable public transport options. Keeping

services reduced is not a way to inspire that necessary confidence. People are not going to start taking buses to work when there are no buses for them to take.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: If it makes more sense to sell the shares now then do it.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: As mentioned above, it's far more equitable to gain revenue from a general rates increase than by slashing services. Furthermore, it seems ludicrous to me that the proposed change is for businesses to have lower rates than residential properties. Why should

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Climate change is real and it is happening now. That should be abundantly clear to anyone who experienced those storms. It will take a lot more than just shoring things up to deal with what's coming, but anything is better than nothing at this point.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Some of this seems vague, but in general these are good initiatives. The focus on water quality and ecological health are especially heartening to see.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Arts funding is a consistent target in these kinds of situations, and in a city which already underfunds the arts we cannot afford to make things any harder for practitioners. Any environmental action that we are taking needs to be a top priority if we are

Do you think there are other areas where we could make savings to our local budgets? A review of the cost of use for certain council facilities might yield results. Some of them are already too expensive in my opinion, but some others might be able to handle an increase in charges without hurting their reach overly.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland is a city with such a wealth of potential to be a vibrant, colourful culture capital of the world, and it consistently squanders that potential time and again on it's obsessive support of business interests. While it is somewhat heartening to see

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū)

Tell us why these are most important to you: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do not defund arts and culture. It's a stupid decision.

Organisation (if applicable): Campus Radio bFM Limited (95bFM)

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

95bFm does not support these cost reductions.

A reduction of this size will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

We need to be investing in Auckland's future. This is not the time to be cutting back.

These cost reductions means the music community of Auckland will suffer. Music boosts the local economy, supports education and creativity enhances Auckland's identity, fosters community, improves wellbeing and quality of life.

It will also mean 95bFM we will have less opportunity to create learning and work experience opportunities for students and young people.

The cost reduction also mean there will be fewer gigs, therefore fewer jobs for musicians resulting in income loss. This is a sector that has had a challenging few years with lockdowns so we need to bolster these communities rather than giving them less opportunities. This will also mean less advertising for us which will negatively affect our revenue and sustainability.

The flow through of this means there will be decreased tourism. People come to Auckland city to come to gigs and participate in the music and arts culture. When Auckland's communities are thriving and our music, arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Arts, culture and Auckland Unlimited services are part of what makes Auckland a thriving city. Arts and culture are critical to individual well being and mental health. Early childhood education is critical to the growth of our children - see Princess of Wales early childhood work as evidence of this.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Our debt levels are not unnecessarily high. The shares provide ongoing income, so selling shares provides short term gain only.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Debt levels are fine, rates should increase, but I believe business rates should be at a higher level

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Climate change is one of the critical issues facing Auckland, NZ and the world. We need to be prepared for further storms such as the one that hit Auckland in January.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local grants e.g. community and accommodation grants

Tell us why these are most important to you: Arts and culture are critical to our wellbeing and mental health

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The ones related to public transport

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Something reasonable to be efficient to reduce debts

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: The rate should be covering the expenses and expectations to live better not worse

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why: I'm not sure how the weather conditions affect to the community

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: It's fine

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education

Tell us why these are most important to you: Because climate change is important to be spread out

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? I don't know

Tell us why: Is this the only way?

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: It sounds good

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you: Parks should be protected

Do you think there are other areas where we could make savings to our local budgets? I don't know

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with any reductions especially transport.

All of my buses have been canceled daily . When the bus does arrive it is often standing room only. The reduction of transport services means more people go to cars this is not good.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The council has been under funding stormwater issues as well as almost ignoring maintenance that would sustain its performance rather it feels to be in a decline.

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Environmental restoration, volunteers and pest control, Activities provided by Sandringham and/or Pt Chevalier community centres

Tell us why these are most important to you:

Waiheke Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours, Community grants programme, Environmental contestable grants and pest control

Tell us why these are most important to you:

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

You must save all the hours in libraries

You also need to improve our buses to be consisiten, frequent, reliable, and this especially for the school run

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport, arts and culture, homelessness funding and events funding are all incredibly essential, absolutely do not cut any of these. Studies have shown over and over again that a thriving arts community is better for all. Cutting public transport even more, when this is a primary complaint of most Auckland residents seems incredibly short sighted. This whole budget seems incredibly short sighted.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I think with the climate crisis already looming on the horizon, if the city isn't going to take bigger steps to help prevent it then being prepared for more extreme weather is a good call as it's only going to get worse from here.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and

Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any: Regional services

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The budget as it stands at present is a short term, short sighted slash and cut services approach - without adequate consideration of increasing rates, maintaining current services whilst continuing to strive for economies through improved management, spend management and negotiation with suppliers and contractors to council.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: AIAL is an asset for all Auckland's and the council should not sell their shares. This is another asset grab, short term, short sighted response to the funding shortfall - without adequate consideration of rates increases.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: Increase rates in line with inflation. Increase business rates as well. Everyone uses council services and benefits from them. We should pay for those benefits through rates that rise in line with inflation.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Introduce a storm fund to cover recovery from this event and others that will surely follow in the future. Finance the fund through a one off land tax - and share the cost across all property owners in Auckland - both business and private individuals. Now

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: Hitting the low paid, homeless and most vulnerable in our society with the planned saving of \$367k through Community Delivery reduction is not who we are. This is obscene. Increase the rates to maintain these services. Cutting library opening hours is not

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? If you want to raise some money, let Auckland residents send in photos of illegally parked cars on footpaths, berms and cycle paths - and increase the fines to \$300 for the first offence then \$500 for the second offence within 3 months.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop mucking around with different speed limits. Make it 30kph across the city and suburbs and starts policing the roads - and fine offenders and make it pay for the city.

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Citizens Advice Bureau - very necessary support for many people who have limited means

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable): Objectspace

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: 'I am submitting this feedback on behalf of Objectspace, we are a public gallery in Tāmaki Makaurau that receives some funding support from the Auckland Regional Arts and Culture Programmes. We oppose all funding cuts to regional, community and social services proposed by Council.

Objectspace provides a year round programme of exhibitions and more than 70 free events that Aucklanders can engage with accessibly. It is vital that Auckland residents can access a rich breadth of cultural activities and experiences in the city that accessible and no or low cost. These cultural activities perform the following key outcomes:

- Create a sense of belonging and engagement in our region
- Enhance well-being through community building and the transmission of creative skills and practice
- Foster identity building through increased visibility of the many different cultures and the creative practices who call Tāmaki Makaurau home.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: This feedback is focused on the impact of proposed cuts to regional, community and social services and in this regard no comment is entered here.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Auckland Council has not presented substantial or appropriate information on the increased debt scenario. It is a viable option that avoids the catastrophic impact of proposed cuts to regional, community and social services.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: This feedback is focused on the impact of proposed cuts to regional, community and social services and in this regard no comment is entered here.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Priorities identified by the local board support a culturally rich and environmentally & community focused local board area. This activities foster strong and healthy communities and we support these endeavours.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local grants e.g. community and accommodation grants

Tell us why these are most important to you: The provision of arts and culture community services within the Waitematā Local Board area play a crucial role. They offer free and accessible services to breadth of people and the accommodation grants programme provides crucial support for community and

Do you think there are other areas where we could make savings to our local budgets? This feedback is focused on the impact of proposed cuts to regional, community and social services and in this regard no comment is entered here.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals? This feedback is focused on the impact of proposed cuts to regional, community and social services and in this regard no comment is entered here.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

If these cuts are to occur Objectspace will lose more than 6% of its annual operating budget. Facing these cuts in an already deeply precarious funding landscape will have serious and immediate impacts resulting in cuts to programming and staffing. We urg

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would proceed with reductions proposed but at a lesser rate, increasing rates and traffic / parking fines to make up the shortfall. I would maintain the reduced number of public transport services as proposed, particularly as there is a shortage of drivers anyway.

Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

at the levels proposed.

The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors. It will throw the jobs of musician, performer, filmmaker, dancer, artist and more onto the woodpile and the burden of supporting these people back onto the tax payer through work and income.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: AT ongoing funding to cycleways should not be slashed. Benefits of continuing will mean overall savings on infrastructure maintenance and Emission reductions in future.

Endorse decision to retain 7 days service to Pine Harbour Ferry for same reason.

Funding for minor local transport projects is now less than \$500,000. Locally informed tweaks to walking and cycling should not be so reduced..

TAU

Prefer no cuts to community arts project/events .Can accept some delay to delay in heritage building restoration.

Eke Panuku

Maybe Takapuna centre work can cope with some delay. Greenway at Northcote seems imminently worthwhile for immediate and future needs to encourage active and public transport modes.

Keen to see fostering of Avondale and Panmure enhancement to proceed as they are developing massive improvement that will amplify the use of existing public transport facilities and services.

I endorse partnerships with NZ Super fund to move projects along.

Waitemata and Whau L Bs

Of the areas I am most familiar with, and probably most others, I do not support cutting of arts, social and cultural programmes. These activities maintain and hopefully grow social and community wealth that give communities connection and resilience that will be more and more valuable in future challenges. A dissipated population are not going to 'buy in' to climate and other issue responses in a growing and diverse city.

In the same areas and probably most, I am also against reduction in funding with community environmental projects. These are a great community builder and the volunteer input is currently under estimated. Leverage on labour intensive projects is worth a input of support and help with comms.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Once these shares are gone it can no longer be leveraged or support future revenue raising for Council.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: The Council should both set a higher general rates increase and make greater use of debt.

Based on Auckland Council's assumptions and modelling, the highest possible rates increase that they investigated (>13%) would fall well within the boundaries of

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It is so important to invest in stormwater infrastructure, especially in light of recent extreme weather events. Lives were lost.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: However I do not support the reduction of funding across local boards.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets? Fire Wayne Brown

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? all areas should have food waste collection available

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Support Council adopting an alternative budget that invests in Auckland's recovery, community well-being and climate action; this is not the time for austerity

Support the Tūpuna Maunga Authority Operational Plan 2023/2024

Support renewals and all new inv

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The cuts proposed will adversely affect the poorest people and most needy of Auckland. It favours the interests of the richer citizens.

It predisposes people to think that the current level of debt is unsustainable, and that the council's finances are in a dire straight. This a valued judgement and not true.

I do not support any of the cuts proposed. Instead I think that many of the services and activities of the council are underfunded in particular those of Auckland Transport, public transport and the Arts.

The fiscal deficit is a result of decades of rates being at too low a level. Paying rates is a civic- minded duty that enhances the lives of all citizens. Rates deliver a high value return on investment. They are a much more efficient way of delivering services than private enterprise provision and "user pays". What we, the people of Auckland, receive for our rates is far more valuable than the amount we pay.

The debt level is well below that allowable to councils by the Government , and there is plenty of room to increase debt. Rather than burdening future generations, the debt will erode with inflation and, if spending is prioritised to substantially reduce carbon dioxide emissions, it will save future generations the distress of run away climate change. he youth of Auckland are under considerable stress from our inadequate activity in reducing our carbon footprint.

If the debt level was truly so concerning, then why were not golf courses in the Eastern and Northern suburbs not earmarked for disposal? They are a huge drain on the council's finances. People in these suburbs are easily able to access courses in poorer suburbs. In addition, the land could be developed for community housing and recreation.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The Auckland airport is a valuable asset. Having a voice as a shareholder in the major entry point for people and goods to the region is vital. If it was to go into 100% private ownership by selling our shares, then we no longer have any influence over it

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: This choice is skewed towards a particular outcome. I can only choose one of "increase rates" or "increase use of debt", both of which are my choice. But others can choose 2 outcomes in one bullet point. This is an unfair aspect of the submission design.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This is a short term response. The funding that will be required in the future to shore up assets and the environment against climate catastrophes will grow exponentially as carbon dioxide levels increase.

Where, in this proposed budget, is the funding for

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: All of these activities are vital for the future environment and for the maintenance of supportive social activities. They are modest and should not be reduced in scale, nor omitted.

The rates increases, and debt increases, should be sufficient to fund them

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: This is another skewed option choice that is designed to achieve a predetermined outcome.

By choosing 3 activities, I do not indicate that I support the demise or reduced funding of the others.

I support all of the above activities and services. And I support

Do you think there are other areas where we could make savings to our local budgets? Yes! Sell the golf courses in the Eastern and Northern suburbs! They are costly to run, they run at a considerable loss because fees are too low and they tie up expensive land. The land could be better used to build community owned housing and recreational

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I support a move to co-governance. This has worked well in my workplace for nearly 10 years. The outcomes are beneficial in myriad ways. Decisions are of a higher quality, have greater adherence and understanding of, and relationships between, Māori and P

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Auckland Council has long been playing catch-up in these areas. All want higher not lower investment so that the city can shore up gains made over the past few years, make new gains, and keep up with its growing population. Council needs to prioritise funding for transport; arts, culture, and leisure; social services, especially homelessness, community empowerment, and youth centres; and early childhood education. These are all vital elements of a flourishing and liveable city. It would be a terrible mistake to reduce funding. As a curator and gallery owner, I am acutely aware that the arts and culture space already receives limited funding and that it makes the most of what it does receive. I would like to stress that I am firmly opposed to increases in pricing at Auckland Art Gallery Toi o Tāmaki. This is a key service provider for all Aucklanders and visitors to the city. Council should be working to lower not raise the bar to access. Similar institutions the world over are free to access (with exceptions for more expensive, bought-in shows from other galleries).

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: Rates increases seem to me the most reasonable means of funding essential services. Borrowing is entirely normal and ought to be used too, but more sparingly.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: None of the above is unimportant. I am doing my best to pick services that traverse climate and environment, arts and culture, community and education. Really, none of the above should be scrapped.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the

Auckland Council draft budget 2023/2024

28 March 2023

Submission: Do not proceed with reducing funding to Tātaki Auckland Unlimited (TAU), as it affects the operating budget of the Auckland Art Gallery Toi o Tāmaki. Do not proceed with reduced opening hours or introduction of entry charges at the Auckland Art Gallery Toi o Tāmaki.

I am a firm supporter of funding for arts and culture projects, facilities, and services of all sorts in Auckland. These materially enhance the city in which we live. For years, the arts and culture space has made do with limited funding, delivering results that exceed Council support. It is essential that Council grow not diminish support. As the city grows, funding must also grow. The arts and culture space cannot be expected to keep pace if Council continues to undervalue the work it does.

I am especially passionate about the funding apportioned to Auckland Art Gallery Toi o Tāmaki, a key arts and culture facility in the city and in New Zealand more broadly. A public art gallery is an institution for human flourishing, guiding us all to new possibilities as we imagine and create more fulfilling lives and thriving communities. Art changes lives and the Auckland Art Gallery Toi o Tāmaki provides transformational experiences to a diverse audience.

Cuts already proposed to the Gallery's operating budget leaves it with a bare bones operating budget of \$9.5m pa, after shared TAU services fees are deducted. This is compared to \$32.2m and \$18.6m that Auckland Museum and MOTAT received in full respectively in 2022-2023. This imbalance between the city's major cultural institutions leads to a great loss for the city—of tangata/people, of access to and care of the art taonga/treasures and of the future creation of culture in Aotearoa. And, unbelievably, TAU is expected to propose even more cuts.

The tangata/people at the Auckland Art Gallery Toi o Tāmaki believe deeply in the significance of art to impact our everyday lives. Their knowledge and experience cannot easily be replaced. Highly skilled in developing outstanding visual art exhibitions, public programmes and valuable archives, they provide stimulation, education and well-being for all who visit the gallery. Close to 500,000 will visit in 2023 (MOTAT, 2022: 100,554 visits; Museum, 2022: 488,553 visits).

As kaitiaki/guardians, skilled visual art specialists care for the Gallery's irreplaceable collection. The 17,000 artworks are our national treasure, owned by the citizens of Auckland, with national and international importance. As a leader, the Gallery then attracts bequests, gifts and long term loans.

Entry charges do not work. There is plenty of data from independent researchers to demonstrate that the introduction of entry charges to the Gallery in 2018/19 caused significant harm for the gallery—around 30% less visitors, 60% less people joining guided tours and significant losses for the Gallery's other income revenue offerings, such as the shop and the café.

We strongly advocate for Council to recognise how vital it is to support the very core of the human creative spirit in the city through the work of the Auckland Art Gallery Toi o Tāmaki. The Gallery provides opportunities for people to understand and celebrate who they are, were, and might be. A well-resourced public gallery is at the heart of a city's creative economy and can lead change for our future. We need to be able to re-imagine that new future, for our communities and cities as creativity is fast becoming one of the most influential forces driving today's global environment.

The Gallery plays a vital role in enabling Auckland Council to achieve its goals for the four well-beings, social, cultural, environmental and economic, to support a creative, flourishing city.

The Auckland Art Gallery Toi o Tāmaki is a world class public art gallery where creative talents can shine. Let it grow and flourish through an equitable and sustainable funding partnership between Tātaki Auckland Unlimited and Auckland Council.

“We need to build a city where the creative talents of all people are used to foster personal, social and economic fulfilment. Culture delivers identity, provides inspiration and delivers creative opportunities for everyone. Isn’t this a major aspiration for local and central government?”

—Robert Gardiner ONZM, CNZM, founder of the Chartwell Trust

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Removing funding for public services for the city is going to kill the community

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Auckland city should maintain control and influence over biggest domestic and international airport

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Local community events e.g. Parnell Festival of Roses, Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Reducing funding for public spaces, libraries, access to free services like Justices

of the Peace, Auckland Citizens Advice Bureaux is going to make Auckland a worse city. We need to keep those things and continue making Auckland friendly, livable, communit

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not believe that reducing funding to public transport will solve the chronic cancellations and staffing issues. The problems with public transport on the ground are the costs, availability, and accessibility of buses, ferries, and trains. Increasing the fares and limiting options seems incredibly counterintuitive.

Where is this money going? If our rates are not going to early childhood education, CABs, the street community, arts and culture, then who IS it going to? What is worth \$125 million, if not our community and culture? I do not understand what in gods name we are paying for if you are wanting to cut funding for everything that makes life livable for so many people.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This is a good idea because we do not know whether there will be further extreme weather events, but we know that we need to keep on top of this as best we can (e.g., infrastructure repairs and, eventually, improvements).

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: As I said previously, the arts, our youth, our education, and our community are all things I (personally) find worthwhile. What else is there to spend my time and energy on? Ideally, I would have ticked all these boxes because the environment is critical t

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I object to the proposition of reduced funding to the Citizens' Advice Bureau. This provides a vital service to people who would be unable to afford to pay for alternative pathways for advice, including our elderly population.

I also object to reduced funding of services for the homeless and youth. These are vulnerable groups within our community and require the council's continued support, particularly in the current economic climate.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming, helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will create further divide between those who can afford to experience arts and culture, and those who cannot. But arts and culture should be accessible to everyone!

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: The proposed rates increase is on average \$154 a year which for many people is not a lot. I think the decline in services and quality of living in Auckland due to the current proposed budget would be worse than increasing rates levels.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: We need to invest in our communities if they're going to grow. I believe we should still invest in programming and activation at Council operated arts and community centres, community delivery, events and community grants.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local community events e.g. Parnell Festival of Roses, Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: They help make Auckland an enjoyable place to live and a place to be proud of. They also allow people / communities to put on events or do things that would cease without funding. Many of these events allow people access who might not otherwise be able to

Do you think there are other areas where we could make savings to our local budgets? Unsure

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? No

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

No

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Support reducing funding to TAU in relation to tourism promotion. Our country relies too much on tourism as it is , with detrimental effects to our communities and environment. Our focus needs to be on making our city better for our residents, not international visitors.

Against the other proposed reductions. PT services are critical to our climate change response and to avoiding the need for further investment in roads. Regional service, local board grants etc are critical to wellbeing and resolving local issues. The associated reduction in costs are not instrumental and are substantially outweighed by the disbenefits.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Agree with the sale of shares to free up funding for other purposes. However, do not agree with the focus on reducing debt and associated interest payments. Debt is necessary and appropriate for funding key infrastructure, where the benefits are experienced

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: This question should allow you to select multiple responses. It is not an either or question. It also does not ask for feedback on the targeted rates reductions.

Support setting a higher general rates increase. Many will be able to afford this and there a

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This is important to address existing problems, such as capacity of stormwater networks, condition of waterways, as well as respond to climate change, adaptation and resilience. Maintenance of existing stormwater assets (e.g. road drains, culverts), water

5. Local Boards

Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? I support most priorities

Tell us why: Do not know enough about the business case for renewing Parrs Park turf or refurbishing the Titirangi War Memorial Hall to know whether to support or not.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture facilities and events, Community facilities, services and activities, Environmental activities e.g. pest control and wildlife protection on west coast beaches

Tell us why these are most important to you: Important to the wellbeing of our community and environment, for both current and future generations, as are all of the other items but I could only pick three. Against reduced budgets for local boards as the associated reduction in costs are not instrume

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Do not know enough about the business case for restoration of the Leys Institute Library to know whether to support or not.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events e.g. Parnell Festival of Roses, Local grants e.g. community and accommodation grants, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: Important to the wellbeing of our community and environment, for both current and future generations, as are all of the other items but I could only pick three. Generally against reduced budgets for local boards as the associated reduction in costs are no

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

INCREASED RATES AND INCREASED DEBT ARE BOTH REQUIRED: Addressing the challenges we face (climate change adaptation and mitigation, long term underinvestment in infrastructure and housing) require a significant change for our communities (increased housing

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Do not proceed with any reductions! Instead unfreeze the Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package.

You can also ask for central government support for some of these services. A lift in parking charges could also be a useful addition.

The proposed reductions are small amounts of money, and not worth the savings - given what is being lost. After the pandemic, and range of crises unfolding, we need to focus on community and social cohesion, cultural events that bring people together. Auckland will not keep its citizens here if it does not focus on the benefits of community, culture and arts. Without this support you will lose artists, creatives, and other people who pay a lot of money to live in this city.

As a researcher studying public libraries, the benefits they bring to people everyday are hard to quantify. The supposed savings from massive cuts to those services have ongoing impacts, that have been disastrous in the UK. Instead, let us look to the success of the library system in Christchurch, something that makes a big difference to those that live in the city, and attracts visitors from around the world.

We need to think long term, short term gains will not help the future of this city. We need climate, infrastructure investment - and this is connected to community investment in cultural and social services!

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This is a short sighted idea - with a singular pay off. It then restricts all future opportunities to gain income from this source. We have learnt as a national over the last few decades, that changing ownership of public infrastructure is short sighted a

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Debt should be seriously considered - Auckland has a great credit rating - and this is exactly the time to invest in the future of our city. The rates suggestions above can severely help but debt should be a part of the discussion as well. Rates rises in

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We need to get ahead of the coming changes. Any investment into future proofing our city will be well spent, the sooner the better. This is something that everyone in the city can understand - though some have experienced our precarity more than others. T

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: I live in the central city and am a researcher studying the role of public libraries in the city.

The library in the centre of the city (let alone all the other libraries) are key support services for the entire community. Their services, and the service

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: As a recent resident that has moved into the central city, I see the libraries, and the community events - many operating out of Ellen Melville - as absolutely key to my enjoyment of the inner city. They are key to bringing people back into the city post

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? The food scraps bin plan should be extended to cover all of Auckland.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

These are small savings overall - yet the impact of their cuts will be felt hugely. The small savings that are proposed will change how the city is experienced, accessed and enjoyed by all Aucklanders. This is not worth the sacrifice - there are plenty o

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I need busses to get to work and university, these reduced services heavily impact my standard of living and frequently make it more difficult than it needs to be to get around.

All the proposed cuts directly impact people's quality of life and experience of a liveable city. These cuts will further impact the dwindling culture we have post-covid. If we want to live in a thriving city, we need to fund it.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This is a shortsighted approach. Selling off state owned shares like this, removes a potential revenue stream for years to come. This is a short term bandaid that shoots the council's budget in the foot later down the line.

The council should absolutely

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: I don't mind. Increasing debt is good, you are a governmental body, not a business. Debt funds good things and brings value back in future. Rates have to go up eventually, and are a good way to ensure we have the services we hope to enjoy. The government

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Need to think about long term infrastructure improvements. Can't keep kicking the bucket down the road.

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local arts programmes, Local community events, Protection and restoration of local waterways

Tell us why these are most important to you:

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: As a pregnant young mother (born and raised in Auckland) to 1 toddler and an unborn baby I'm so worried about these budget cuts and how they'll affect my children's experiences while living in this city. They're all poor, extremely short-sighted choices. It's enough to make us want to live elsewhere in the immediate future as a family. This city is currently heading in a very unattractive direction. As a well-travelled person, these proposed choices are seriously embarrassing and backwards on a global scale. The resulting damage will be very difficult to fix once it's done.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Poor timing

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council should both set a higher general rates increase and make greater use of debt.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It's important it is for us to invest in stormwater infrastructure, especially in light of recent extreme weather events.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: They're all valuable.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events e.g. Parnell Festival of Roses, Local waste minimisation activities e.g. Waitematā waste away, Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you: It's hard to choose, those stood out to me. I'm opposed to cuts in all of these areas. They're all important.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I passionately support more investment in buses, public transport, walking and cycleways. Safety, availability and accessibility is very important also. Simply look at the rest of world, we're going backwards!!!

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: No reductions to climate programs, No reductions to community programs, No reductions to Public Transport. These are some of the most important things Auckland Council does.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Further privatising public services will result in skyrocketing prices for the consumer and will remove Auckland Council say on initiatives that benefit the community and the climate.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Increase General Rates without reducing the NETR and WQTR. Happy to increase debt.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery, Library hours and services, Community climate action and sustainability

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?): Local business support

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Local grants e.g. community and accommodation grants, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do not cut funding to homelessness prevention and management programs, such as Sunday Blessings.

Important privacy information

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any:

I do not support the cutting of regional community services, local board funding, community grants, early childhood education, events, or public transportation. These initiatives provide quantifiable benefits to disabled, low income and marginalised communities who are in need of equitable support. Our rates are considered low as compared to other OECD countries, also Auckland also pays lower rates than all other NZ cities. Low rates come at a cost to the public services that we receive and rely on. Cutting these services at this time will negatively impact communities, adding extra financial burden to those who are already struggling. Supporting our communities is crucial, we rely on this funding, and it is especially important for underserved communities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: I suggest selling the shares to central government instead of private investors. The airport should remain as public asset.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: I recommend setting a higher general rate increase and making greater use of debt. The highest proposed rate increase for a household is roughly the price of a cup of coffee per week. I also believe that the benefits of rate increases to maintain critical

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I support investing in long-term climate resilience rather than reactionary solutions. I also emphasise that other climate and community resiliency initiatives funded through the Auckland Council budget cannot be cut. With cuts this would inhibit an Auckland

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I stress that community activities, initiatives and services funded through the Auckland Council budget cannot be cut to my local area. Cuts could mean a permanent end to the services and institutions that help to make my local area a community. Furthermo

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events e.g. Parnell Festival of Roses, Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? CATR should remain as established and not paused or stopped as proposed in Question 1. I strongly oppose the cutting of the planned increase in bus frequency funded by the Climate Action Targeted Rate.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I support investing in long-term climate resilience rather than reactionary solutions.

I stress the importance of a comprehensive cost-benefit analysis being undertaken before any budget or rate cuts are implemented.

I stress the importance of comprehens

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: To not proceed with any reductions and instead unfreeze the

Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Improve quality of life in CBD - making it more accessible and appealing to be in the city and for local hospitality to sever street side. Improve placing people without homes in support

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and

Studio One Toi Tū), Local grants e.g. community and accommodation grants, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Value of community and arts. Preparing cities to be more sustainable in the future

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I'm not going to copy paste here but instead remind you of what you already know.

You've heard our cries. This will DEVASTATE the amazing progress and reputation NZ has for being a beautiful, creative, innovative, LEADING country in our arts music and culture centre.

New Zealand is proudly on the map for our thriving arts sector. We as a community are able to bring in SO much economic growth through all of our culture programmes. Investing in these communities is honestly - a brilliant way to make MONEY. It makes literally no sense to make any cuts. If anything, we need to FUND FUND FUND and grow these sectors to a point where we are GLOBAL LEADERS.

The arts held us in the worst times of our lives. The arts gave you a wedding song to dance to. The arts help our children express and grow. These cultural sectors are what make life magic and more importantly, make New Zealand worthwhile to visit and to live. You have seen what happens with the health force when they are subject to cuts and poor pay and poor lifestyle ... we lose our valuable people to overseas. Then the system crumbles!!

I personally work in film and television. I have travelled and worked in Australia and the USA. The reputation we have in NZ is incredible, and has been built through investment and belief in the talents of our people. I have been able to work

internationally due to the investment in the arts in NZ. Without the opportunities, we wouldn't be seen as a worthwhile place to come and bring multi-million dollar productions to. Its the community theatre shows and art gallery grants and residencies which train us up to be able to bring the world back HERE!!

Cutting ANY funding will stunt and derail YEARS of hard work and take us backwards. We need to move forward, we need to be BRAVE and take the plunge to see more amazing progress for our communities.

Also - cutting funding to homelessness and youth services is:

a) disgusting misuse of power

b) a huge, terrifying misjudgement... go visit Skid Row in the US and you'll see why we need to tackle these issues HEAD on and protect our vulnerable populations before its too late.

Do the right thing. It's VERY clear the majority are opposed to this. I pay taxes, I pay rates and I demand you practice democracy and listen to the people.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Increasing rates while the home loan interest sits at 7%p/a and first home owners are filing for bankruptcy.... yeah smart move. Take responsibility on yourselves. Stop forcing the people to pay for this bureaucratic mess.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The mistakes governments and councils make is getting tedious and repetitive.

Learn from history. Stop the bureaucratic dribble and invest in our future.

Important privacy information

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Arts is an important part of the city's culture and supports the overall mental health of its citizens.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: The operational savings should exclude the arts funding, as it is a crucial part of regaining mental strength after such devastating events.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: The eco system of our whenua should be held as top priority in all regions across nz. I think mental health of locals should be on this list.

Do you think there are other areas where we could make savings to our local budgets? '-

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I think mental health and drug/alcohol support and rehabilitation should be more talked about.

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: None of these reductions will benefit our community of Auckland.

Reducing spending in areas outlined will have a detrimental effect on our population.

The Auckland City Council ratio of debt of debt to assets appears to heading towards the lowest it has been since 2012.

Reducing services will not serve our community.

Strongly against these proposals.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling off assets is not a good option based on the flawed premise that there is a budget problem. There is no budget evidence to support the long term benefits of selling off.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Preparedness for certain climate change events must be planned for.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: Reducing these budget areas has a negative long term social impact that will be detrimental to uplifting and supporting our community and its future.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Be brave and spend for the future of the largest city.

Cutting corners as proposed does not support the future of our city.

These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The proposed cuts will deplete things businesses need to maintain a positive and resilient business environment in our city. Using long-term cuts to fix a short-term shortfall risks being 'penny wise and pound foolish' by reducing our city's capacity at a time when we should be investing in our future. Cutting in areas where we get great returns for relatively small investment (like Local Board discretionary funding for community groups and regional events) doesn't make sense.

"Saving" money on Social Services and Homelessness Response, for example, will greatly increase the cost of Security down the track. Auckland gets better bang for buck at the top of the cliff than at the bottom in this respect.

Arts and community amenities like the library and art galleries help foster a positive business environment in the city centre and need continuity of funding from Council. For example, the temporary relocation of Studio One Toi Tū has had a hugely beneficial impact on a previously unsafe area at the corner of Mercury Lane and Karangahape Rd.

The proposal to reduce buses is also extremely dangerous for businesses in the city centre – businesses need Aucklanders to see public transport as a viable option to bring them into the city to work, shop and play.

KBA member businesses have been clear in stating that they'd rather see increased rates than depletion of arts & community organisations.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The proposal to sell Council's stake in the Airport is not supported by the KBA.

This is not our core area of expertise, but it does seem like a solution to short-term gap in revenue that will have long-term costs and consequences, because you can only s

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Set a higher general rates increase

&#

Make greater use of debt

Social Service cuts are a false economy when we're working to recover from the pandemic and repair the central city business environment. Just as any business would, Council needs to e

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Investing in high quality infrastructure, including storm water systems, roading and public transport is important in the wake of 2023's storms. Karangahape Rd suffered less damage than we'd normally expect during the floods – the rainfall was significant

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: As a BID we have spoken directly to our Waitemata Local Board about funding priorities. In summary – it feels like the Board is proceeding with making a bunch of difficult zero-sum game decisions about where to cut, and often choosing between poor options

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: The trade offs asked for here are choices the WLB should not be having to make. Karangahape Road Bus Assoc members have been clear in their feedback that instead of cuts to already barely-adequately-funded and essential community & art & enviro

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? We Oppose the Climate Action Targeted Rate changes – Council's plans on Climate Response were painstakingly developed and we need to get on with this work rather than revisiting it. We support more investment in developing a public transport system befit

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The reduction of any of these spendings would be catastrophic for communities and culture in Auckland.

Auckland Transport is already woefully underfunded. As someone who travels by bus and train regularly, we cannot afford to reduce services. The few services that don't get cancelled or fail to show up at bus stops out of nowhere are crammed full of people. Aucklanders NEED investment in our public transport systems. We NEED a public transport system that is efficient and cost effective. We NEED safe and affordable active transport options (separate bike lanes). And guess what, good public transport systems and safe cycle lanes will REDUCE congestion and emissions!

Two things are clear in the wake of the Auckland flooding and cyclone Gabrielle. That we are wildly under prepared for the climate crisis, and that we rely heavily on our community education and local board groups for support and community resilience. Are we seriously considering cutting funding for the very organizations that rallied together to provide vital support and services for our communities? Organizations like Sunday blessings, Tuesday kai and For the love of Bees provide vital services to our communities. They offer the resilience that our communities desperately need.

Please don't cut arts funding it's the only joy we have left. While arts and culture is clearly a vital part of a thriving and joyful 21st century city, in the current housing and cost of living crises people cannot afford to be funding the arts

privately. It is councils responsibility to allow for the development and provision of these services via funding for Tātaki Auckland, regional services and contestable regional grants. As an Aucklander who values arts and culture, it's insane to me that the council would ever consider cutting this funding.

I would also like to note here that my Local board has some amazing climate, arts and community initiatives that I would hate to see them have to cut because of imposed budgets cuts and reduced funding. Please support and empower local boards to provide events and services at a local level. It is people on the ground who make the biggest impact on our city.

There are so many alternatives to cutting all these incredible and highly valuable programs that make our city worth living in. Please consider raising rates to at least meet inflation. A 4% rates increase is effectively a rates cut if inflation is higher than this. Other options for revenue raising include unfreezing the Water Quality and Natural Environment Targeted Rates. If climate change, environmental restoration and community values are indeed serious concerns of the council as you repeatedly say, you will oppose these budget cuts for services that are vital for our future as a city.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Keeping shares in the AIAL will ensure the future proofing of our city. This is also a great source of revenue long term. Please don't be blinded by a short term pay check and ignore the future generations and long term effects of this decision.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: I support an increase in general rates and think this should be set even higher than 7%. NETR and WQTR should be unfrozen and increased to provide much needed revenue and prevent cutting of essential climate and community programs. I read that unfreezing

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: In light of recent extreme weather events and with these events predicted to become more frequent and more severe over time, it is clear investment in our stormwater and other infrastructure is needed to ensure our city is resilient in the face of climate

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: It is proposed that all environmental services across all local boards are cut. In the wake of a climate disaster where people lost their lives, it is insane to consider cutting the climate or environmental budget. Please don't cut our services, we need

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: It's so hard to pick priorities when all of these services are so vital to the strength of our communities and our resilience in the face of climate change.

I chose these priorities because they mean the most to me. As someone who volunteers at the Elle

Do you think there are other areas where we could make savings to our local budgets? No, please don't make any cuts and request more funding from the wider council.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	

Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I oppose any changes to the priorities of CATR. These rates should be spent as intended to improve and increase public transport services. I would love to see food waste collection available to all and promoted within our council.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: All of the proposed reductions will make Auckland a less livable city. Debt is very small comparatively.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling the shares would be killing the goose that lays the golden egg.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set a higher general rates increase and make greater use of debt.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Auckland needs to be more resilient with the issues that are going to happen from climate change.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Libraries are essential for an educated population. The environment is also very important.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I particularly don't agree with the budget cuts to Community education programmes, arts and cultures programmes... and homelessness funding. Budget cuts will have a detrimental effect on the city and it's people who work in these industries. Many of the festivals that keep Auckland a vibrant place to live will be impacted

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling shares in AIAL is a narrow minded short term way of reducing debt and long term will do damage the Auckland councils economic position.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Rent and interest rates for housing is already so close to being unmanageable for people.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: If money is not put into supporting infrastructure now the ongoing costs every time there is storm damage will probably amount to more than the cost of fixing the situation properly.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and

Studio One Toi Tū), Local grants e.g. community and accommodation grants, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Climate action and sustainability in central city is important as it's a dense area with a lot of traffic. Local grants that support our homeless community do an important job and having a large population of homeless people in the city makes Auckland and

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I think we need to proceed with the

Reducing regional contestable grants

Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million

For the other items it's important to keep the services which deliver significant value to the rate payers such as large festivals in the city, library services, funding to the zoo and museums, CAB.

Perhaps you can cut funding to virtue signalling programs and concentrate on what is actually important to the majority in the community.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Please do not put this on hold - Pausing our change to the split between business and residential rates, considering that we have a budget hold, it doesn't make sense. We are stopping funding to community services but not utilising this revenue stream is

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Local community events e.g. Parnell Festival of Roses, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Environmental programs which will protect Auckland from climate change effects

Water quality initiatives especially swimming water and beaches

Changes to wastewater network

Investment in rail and reliable bus services

Community events which are popular

Organisation (if applicable): Orange Sky Aotearoa

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We appreciate that Auckland Council must find ways to reduce the budget gap, but do not agree that saving funds by reducing vital community services or in areas like arts and culture is the best place for community wellbeing and advancement. It is these sorts of investments that put cities like Auckland at the forefront of social inclusion, equity and support a vibrancy of culture and community.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Auckland Council has one of the lowest rates in the country and the proposed total rates increase for the average value residential property of 4.66% falls well below rates increases proposed from other Councils in Aotearoa. Even an additional small incre

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Henderson-Massey Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Discretionary community grants, Programmes and activations in community facilities, Library hours

Tell us why these are most important to you: By reducing or stopping funds for community and social services we risk letting go of the significant gains that have been made to build community cohesion, equity and belonging in Auckland. In the short term, the losses from stopping services will be felt

Māngere-Ōtāhuhu Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

Please rank our proposed local board priorities from most to least important to you:

Rank	Proposed Priorities
4	Investing in initiatives to reduce the impact of climate change, including tree planting, education programmes and environmental volunteers
1	Continue to provide residents with better quality facilities, parks and open spaces
5	Promoting activities to showcase our local arts and culture talent into career pathways
3	Continue to identify procurement, quality employment and social enterprise opportunities for our residents
2	Improving the well-being of our locals by supporting our local economy to become more efficient, resilient, and sustainable through our reduced budget

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Grants e.g. Community Grants programme and contestable grants, Community programme delivery e.g. community activations and placemaking, Temporarily or permanently close council venues and facilities

Tell us why these are most important to you: By reducing or stopping funds for community and social services we risk letting go of the significant gains that have been made to build community cohesion, equity and belonging in Auckland. In the short term, the losses from stopping services will be felt

How do you think we could support our communities to be better prepared and resilient to extreme weather events like the recent Auckland storm?

Manurewa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Reduction in service levels for community centres and arts centres (Nathan Homestead), Local community grants, Community programme delivery

Tell us why these are most important to you: By reducing or stopping funds for community and social services we risk letting go of the significant gains that have been made to build community cohesion, equity and belonging in Auckland. In the short term, the losses from stopping services will be felt

Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Programming at Te Oro, Oranga and Onehunga Community and Arts

Centres, Local community grants fund, Support and capacity building for community-led activities (Strategic Partnerships Programme)

Tell us why these are most important to you: By reducing or stopping funds for community and social services we risk letting go of the significant gains that have been made to build community cohesion, equity and belonging in Auckland. In the short term, the losses from stopping services will be felt

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?) Mowing service levels on reserves, Local community events, Community leasing charges

Do you think there are other areas where we could make savings to our local budgets?

Ōtara-Papatoetoe Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

Please rank our proposed local board priorities from most to least important to you
1 = most important, 5 = least important)

Rank	Proposed Priorities
3	Explore initiatives and actions raised through the safety networks to improve safety in our town centres and neighbourhoods
2	Invest in closing the digital divide by supporting community groups to upskill all residents with technology to enable work, schooling, and connection
1	Fund programmes aimed at upskilling our residents, particularly youth, for emerging sectors
5	Continue to improve our sports fields and facilities to encourage active participation and access to sports and athletic activities for organised and informal use
4	Continue to support environmental activities and initiatives, including community-led activities, to respond to climate change, reducing waste and protecting our environment

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local grants e.g. Community Grants programme and contestable grants, Community programme delivery e.g. community activations and placemaking, Library opening hours and services

Tell us why these are most important to you: By reducing or stopping funds for community and social services we risk letting go of the significant gains that have been made to build community cohesion, equity and belonging in Auckland. In the short term, the losses from stopping services will be felt

Papakura Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Community programme delivery, Community facility closures

Tell us why these are most important to you: By reducing or stopping funds for community and social services we risk letting go of the significant gains that have been made to build community cohesion, equity and belonging in Auckland. In the short term, the losses from stopping services will be felt

Puketāpapa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community development and support, Mt Roskill Library hours, Local community centres

Tell us why these are most important to you:

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: By reducing or stopping funds for community and social services we risk letting go of the significant gains that have been made to build community cohesion, equity and belonging in Auckland. In the short term, the losses from stopping services will be felt

Do you think there are other areas where we could make savings to our local budgets?

Whau Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local parks, community facilities, and sports and recreation programmes, Community programme delivery, Local community grants

Tell us why these are most important to you: By reducing or stopping funds for community and social services we risk letting go of the significant gains that have been made to build community cohesion, equity and belonging in Auckland. In the short term, the losses from stopping services will be felt

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including:	
a) a 10.6 per cent base rate increase,	
b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	
c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Supporting document for submission in response to Auckland Council Annual Budget 2023/2024

Background to Orange Sky

Our kaupapa is to Positively Connect Communities. We do this by providing free mobile laundry facilities, warm showers and genuine conversation to people experiencing homelessness and hardship. It's simple but significant; we provide a safe space and service for New Zealanders doing it tough to connect with each other, with our volunteers and other service providers and supporters.

Orange Sky has been operating in Auckland since 2018 and since that time has provided over **10,000 loads of laundry, 7,500 showers and nearly 15,000 hours of non judgemental conversation** and connection to people experiencing homelessness and hardship. While our vans provide a basic human need – clean clothes and showers, the power of this service lies in offering genuine connection and conversation. This helps to reduce the social isolation felt by those who use our service that are often ignored and/or disconnected, in turn improving mental health and overall wellbeing.

At each of our locations we partner with other community service providers (eg. food banks, free barbers or housing support). One of the advantages to this is it gives us the ability to ensure our service users have access and knowledge about a wide range of additional services that can support their empowerment and dignity and help to transition from a period of hardship.

Homelessness and hardship in Tāmaki Makaurau

The 2018 Census data indicated that Auckland had the highest numbers of people experiencing homelessness in Aotearoa, with **18,417** Aucklanders meeting the definition of homeless at that time. This included:

- 498 people without shelter
- 2,337 people in temporary accommodation
- 15,582 sharing temporarily
- an additional unknown number of people living in uninhabitable dwellings.

With the ongoing impacts resulting from the COVID pandemic and the continued rise in inflation and cost of living since the publication of the 2018 census, there must be no doubt that the number of Aucklanders experiencing homelessness will have further increased. Recent data published by the Ministry of Social Development showing the number of applicants on the Housing Register as at 31 December 2022 (i.e. applicants not currently in public housing who have been assessed as eligible and who are ready to be matched to a suitable property) shows that of the 23,127 applicants on the register **32%** (7,494) are within Auckland City Territorial Authority.

Orange Sky shares the view of Auckland Council when it stated the following with regard to the increase in and strategies needed to address homelessness, in the long term spatial plan **Auckland Plan 2050**:

“Rents have also outstripped wage and salary growth, straining the budgets of many families and households. This has resulted in increasing incidences of housing stress, and the numbers of people who find themselves homeless and without shelter have increased considerably.”

And;

“The rate of homelessness in Auckland is likely to remain high – and possibly get worse – unless there is a systematic and coordinated effort from all partners and stakeholders to end it.”.

Proposed Budget 2023/2024

We have all been hit hard by the increases in cost of living and impacts of the recent devastating floods, but it is the most vulnerable in our community who are affected the most. It is more important than ever to ensure our community can adequately provide the support needed to people facing homelessness, deprivation and hardship.

We understand that Auckland Council faces difficult decisions to support the reduction of a projected operating budget gap of \$295 million for the 2023/2024 financial year and that these solutions need to be sustainable and affordable. However, stopping or reducing funding to regional social services activities such as homelessness funding or community empowerment, only serves to further the inequity and isolation faced by our most vulnerable communities.

The Auckland Plan 2050 includes belonging and participation as one of its six priority outcomes. This focuses on ensuring ‘all Aucklanders will be part of and contribute to society, access opportunities, and have the chance to develop to their full potential’. The plan includes a desire and commitment to **focus investment to address disparities and serve communities of greatest need** arising from the recognition that by supporting people to access social and economic resources and opportunities equitably and focusing efforts in communities of greatest need, we can support their ability to fully participate and contribute to society as a whole.

Orange Sky and our partners hold a similar belief. Reducing or stopping support for services we and our partners provide (while Orange Sky does not receive funding currently from Auckland Council, many of our partners who we collaborate and co-deliver services with do), we risk letting go of the significant gains that have been made to build community cohesion, equity and belonging in Auckland. In the short term, the losses from stopping services will be felt strongly by those who use them to get by. In the long term however, the consequences impact all of us. It will only serve to enhance the systemic factors that lead to and reinforce inequality, generational poverty and exclusion.

We appreciate that Auckland Council must find ways to reduce the budget gap, but do not agree that saving funds by reducing vital community services is the best place for community wellbeing and advancement. Auckland Council has one of the lowest rates in the country and the proposed total rates increase for the average value residential property of 4.66% falls well below rates increases proposed from other Councils in Aotearoa. Even an additional small increase of 1% on top of the proposed rate (or 0.64c per week) would provide enough increased funds to mitigate the proposed \$20m cuts to services.

We are committed to working closely with our partners and other community organisations to provide those doing it tough with wrap-around support services that can help people afford to stay in their homes, decrease hardship and help to end homelessness in Tāmaki Makaurau.

Thank you.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Leave the arts alone ffs - like they are the budget sink problem in this equation! The Mayor is a heathen

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling Auckland Airport shares is extremely short sighted. They are valuable asset and will only go up after the Domestic Airport integration is completed.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Just bite the bullet, deal with temporary anger and put rates up, you cowards!

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local grants e.g. community and accommodation grants, Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: -Reducing public transport will end up costing the city more with increased congestion, pollution & time.

-A vibrant Auckland needs to keep as much of arts/culture funding as possible. The city captures a vast range of people with different ethnic, gender & econosocial background, and we need opportunities to be exposed to those not exactly like us to build our community. Preparation, say, for te matatini involves and focuses so many across the population and encourages pride in your community.

-Funding cuts are easy. Building up the momentum and capacity later is a lot harder.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The city needs to back our asset and gateway to the country & the world, and be able to have a say in its development.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: Also increase debt.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024?

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community facilities, services and activities, Parks volunteers and restoration of local waterways, Local parks and facilities maintenance

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Golf courses take a lot of space for enjoyment of relatively few. While they provide green space, only members can enter. I'd consider higher rates on these, or putting some up for well-designed community housing.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I could write about all of them, but there are two that stand out to me:

1. Community programmes and social services – specifically grant funding to the Citizens Advice Bureau. The CAB is a valuable service for those who cannot afford advice when needed. Cutting this service will exclude students, those who cannot afford legal or relevant advice, and potentially disable citizens from knowing what their rights are.

Further,

2. Stopping council coordination and funding of homelessness initiatives is on the same note – stopping funding for those who do not have access to housing or a home base is highly exclusionary of people who are on the margins of society.

These are just two examples of the reductions I disagree with, but there are many (if not all) that I disagree with. The reductions specifically target disempowered groups and is completely unacceptable.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I am aware that the budget is stretched, but this proposal has to go ahead. The degrading environment, increase of infrastructure and intensifying climatic patterns will mean that severe flooding events will just continue to wreak havoc on Auckland.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local grants e.g. community and accommodation grants, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Really, really disappointed that the Operating spending reductions is cutting down on so many areas. I was livid reading all of this (and supporting documents). This targets communities and citizens who are already struggling, and removes the ability for

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: You should definitely not cut early childhood education. These children need education and it should not be dependent on if someone can afford it or not! Also all of these cuts are ridiculous and effect sports, arts, intellects, and everyone in Auckland

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	I don't know

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not proceed with maintaining a reduced number of buses for public transport services because Auckland is already car-centric. If you continue reducing these services, there will be no hope that people will change their habits. Instead, these services need to be improved.

I would not proceed with reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic events and other social service activities - These programmes and activities need to be funded as, firstly, arts and cultural activities are essential in bringing together people and allowing people to express their emotions and creativity and culture with others. In particular, cultural events are extremely important in unifying non-western cultures in a Westernised Aotearoa, and cutting this funding is another form of colonialism.

I would not reduce local board-funded activities across all boards

I would not reduce regional contestable grants

I would not cut directly providing early childhood education services as these are extremely important for families who may be unable to afford private services on top of trying to provide for their families. This may have unequal effects on people who are socioeconomically disadvantaged and lead to further poverty.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set a higher general rates increase and make greater use of debt

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Preparing for climate change is extremely important, alongside helping those that were directly affected by the storms.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: All of these priorities have importance for the community, without these priorities in the community there will be a major loss of cohesion and any advancement towards an alternative future where people can live safely.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental education e.g. Schools treasuring Waiōrea

Tell us why these are most important to you: I picked these three because I believe community programmes, environmental education and wetland restoration are essential. However, I think that three is not enough, the priorities here are all extremely important. If we reduce it to three activities, it

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? You should up the rates and go into debt if it will compromise community wellness and support.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I am extremely disappointed at the lack of empathy and consideration Wayne Brown has for communities and people in Tāmaki Makarau. I honestly did not expect much, but the extent of the letdown of this proposal is beyond what I could comprehend.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Reduce Council involvement aka interference in day to day management of cultural assets such as War Memorial Museum, Art Gallery, the Auckland Philharmonic Orchestra, public libraries, parks and gardens which enable both Auckland residents and visitors to broaden their interests and engage in pursuits which would otherwise not be available to them. They are important contributors to a city being something more than a collection of buildings. The benefits these deliver are unquantifiable by commercial measures but they are high among what attracts people and therefore businesses and visitors to a city.

Council should focus on establishing and nourishing a culture of excellence. not on random one-off initiatives which chew up administrative time and effort.

Council should reduce overlapping functions and responsibilities and discourage micro-management. It should streamline consent requirements and procedures thus reducing duplication of effort between management teams of semi-autonomous institutions and review the job descriptions of Council bureaucrats. That making some roles currently filled by Council personnel superfluous. Essential services such as rubbish removal and clearing drains should be prioritised over temporary "nice to haves" such as decorative street banners and lighting effects.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: blocking stake desirable in relation to NZ's largest "gateway" air terminal unless Govt takes over Council's share.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Fair for users of services to contribute to cost.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why: Reportedly, damage was greater than it should have been because Council had not performed core tasks such as clearing drains and waterways, keeping overhead power lines clear of tree branches and maintaining streets and footpaths but had consented to

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: all seem sensible

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you: Fundamental to health of both environment and individuals

Do you think there are other areas where we could make savings to our local budgets? Reducing costs to Council for waste management by improving facilities for individuals to help by taking large or non recyclable items to collection points open for long regular hours. Encourage managers of multi- resident or multi-office buildings to en

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? For all, publish clear information on compliance requirements, allow a period of grace and then prosecute or fine for non-compliance. This approach is already applied to traffic management, produces revenue and does not cause delay and generate costs in

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Poor experience with attempts to find individual Council desk- based employees lwith a solution-finding rather than obstructive mindset.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

Tell us why: I oppose the idea of cuts to these crucial public and community services

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events e.g. Parnell Festival of Roses, Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: Community events are the heart of Te Atatu Peninsula.

Do you think there are other areas where we could make savings to our local budgets? Increase rates

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do not cut funding to local events

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Rates should be targeted to climb for properties above a \$4 million residential value and all properties not occupied for more at least 6 months of a year or in any one period should be rated at a fifty percent higher tariff.

Reductions to not continue with are homelessness funding, community empowerment and funding for youth centres to reputedly save \$20 million.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The airport is a monopoly, unless a second airport is built this is a rock solid investment. Divestment of port shares is far more sensible and removal of port from downtown and utilisation of land for revenue is a better approach.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: As above introducing new tariffs

Also air b&B type rentals should be charged an higher levy to reflect cost of visitor services

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Sell/develop Leys site for housing and place library in little site permanently with use as is of churches for additional activity.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: These are essential to civic health and connection in a time of reduced civic harmony and increased division in social intercourse esp around political and values discourse.

Do you think there are other areas where we could make savings to our local budgets? Reduce council comms team

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? We have an obesity and immobility chronic health crisis the gyms n pools are crucial.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Waste should be charged at source of packaging. All business selling any packaging around products should be charged cost of recycling or disposal of that packaging.

Important privacy information

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Devonport-Takapuna Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Arts / community programmes and services, Environmental volunteers in local parks

Tell us why these are most important to you:

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?) Funding support for youth activities, Open space low mow / no mow areas, Charges relating to community leases and licences

Hibiscus and Bays Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Funding for arts centres and partners, Community climate action and sustainability, Local community events

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: At a time when the entire community is under duress, because of events resulting from climate change it is extremely undermining and short sighted to be making such reductions

as are proposed eg Environmental initiatives,

Cancelled buses with increased costs, funding cuts to community culture , libraries, pools,

Early childhood centres,

especially CABs, Parks.

The list is huge and damaging to people's every day lives

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It isn't a good time to be selling shares... just a basic fact

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: I don't believe there is a 'financial crisis' for Auckland Council.

Credit ratings are excellent. Debt ceiling is projected to track down to 220 per cent with ceiling currently at 290 per cent of revenue.

Time to both raise debt and taxes.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We learn by experience Recent events convince us we meeting to invest in storm water and infrastructure

5. Local Boards

Rodney Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I do not support these priorities at the cost of other local amenities eg libraries, community centres, pools gyms and parks, weed and predatir control, climate action

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Grants for community groups / organisations, Grants for art centres, Library opening hours and services

Tell us why these are most important to you: Three choices made at expense of other extremely important works eg Ecological restoration programmes

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I support charges for increased consumption of unsustainable waste services

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

This is a time when the community needs the support of well run services such as buses, community facilities in particular Citizens advice bureau, arts and communal events, climate programmes..... not the austerity proposals the Auckland Council recommend

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Many of these services offer free or subsidised events, activities and services for people within our communities who would otherwise not be able to afford them. Many of these community activities that may be reduced provide educational opportunities for our rangatahi, a sense of connection and community for our elders and avenues through which we can communicate with each other. These services in all CCOs offer the opportunity for community members to sympathise with one another and understand each other's perspectives and differences. Without these services we will be depriving so many people a sense of community and connection with their neighbours and the people they share this city with, which will lead to further isolation for those who otherwise find it difficult to in their everyday activities feel and experience community, care, and connection.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The proposed cuts will decimate Auckland's (already struggling) community, culture and sustainability initiatives. What concerns me most is that these cuts would severely impact our most vulnerable and marginalised community members. For instance, reducing funding for arts/culture infrastructure would mean less access to artistic and cultural events and opportunities, which are essential for the well-being and social cohesion of our city.

Similarly, cutting funding for climate action would hinder our ability to mitigate and adapt to the impacts of climate change, which is one of the most pressing global challenges we've faced in the history of mankind. We must invest in sustainable infrastructure and initiatives to reduce our carbon footprint and build resilience to climate-related hazards.

The proposed cuts to community empowerment programmes, early childhood education centres, and education programmes about sustainability would also have negative consequences for the education and empowerment of our citizens, particularly our youth. These programmes are essential for building a knowledgeable and engaged community that can actively participate in civic life and contribute to a sustainable future.

Moreover, reducing funding for homelessness prevention programmes, local board community grants, public transport funding, stormwater infrastructure, the Citizens Advice Bureau, and youth centres would deprive our most vulnerable and

marginalised communities of crucial services and support. These services are essential for addressing the root causes of poverty, inequality, and social exclusion and ensuring everyone has equal opportunities and access to basic needs and services.

In conclusion, I urge you to reconsider the proposed budget cuts and prioritize the well-being and sustainability of our community. We need to invest in a resilient and equitable future that leaves no one behind.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: While I understand the need to address the financial challenges facing our city, selling these assets is not the solution. There are two main reasons why I am against this proposal:

Firstly, these assets provide valuable income for Auckland Council for y

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: There are several reasons why this solution is the best for Aucklanders:

Firstly, a lower general rates increase would ease the financial burden on our citizens, particularly those who are already struggling to make ends meet. High rates increase can dis

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I agree that Auckland Council should proceed with the proposal to increase our operating budget by around \$20 million each year to improve our ability to prepare for and respond to future storms. There are several reasons why this proposal is necessary, p

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Protecting and restoring our local waterways is crucial for maintaining healthy ecosystems, preserving biodiversity, and ensuring a sustainable future for our community. These waterways provide essential habitats for native plants and animals, and they ar

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Arts, culture, education, especially community education programmes like Experiencing Marine Reserves that are grassroots as, and important to connect locals with the environment around them for the first time in places they may usually not get to experience via kayaking and snorkelling

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: An asset that MAKES money shouldn't be sold - that seems like a bad business decision in the long run.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Rates are important to keep the city rolling. if things get more expensive overall, rates also need to go up. It's not cool, but we're a community, so we all have to carry the costs of having nice things.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We'll keep having cyclones etc through climate change - not a subject to save money on - better to be prepared in future.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education e.g. Schools treasuring Waiōrea, Environmental

restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: It's important to focus and educate Aucklanders about the environment to keep them passionate about protecting and improving it. If we mess up nature, what else even matters.

Do you think there are other areas where we could make savings to our local budgets? I think the mayor needs to go - save some money there. Sorry, but seriously, I believe the golf course need to go.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: There is no need to reduce any areas, as the current debt level is OK. The council's credit rating is high and they can handle more borrowing, even allowing for the cost of storm damage.

Sell council owned golf courses if you like!

Maintain bus services, libraries, pools, leisure centres, CABs – they are vital to maintain a healthy community.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This is a valuable shareholding and will only increase in the future. Selling our shares would be very short-sighted, and I most definitely don't want further foreign investment or ownership of any parts of NZ.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: As explained above, we can handle more debt. You have to invest short term for long term gain.

It would be unfair to give a lower rate to businesses.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: it would be foolish not to future proof. Appropriate maintenance and planning ahead are essential.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Some board areas are more needy than others. Put the money where it would help poorer communities. Water quality overall is vital. Some projects such as new building or renovations like Leys Institute are important but could be delayed.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local grants e.g. community and accommodation grants, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Local waste minimisation activities e.g. Waitemata waste away

Tell us why these are most important to you: I object to this limited selection. All of these things are important. I have chosen things that will affect future Aucklanders' health and well-being but most of these things are important to a thriving community, and what about things that haven't been

Do you think there are other areas where we could make savings to our local budgets? Reduce council expenses. There are far too many highly paid council employees and consultants.

Take away the cars and use share cars or bikes.

Sell off some golf courses.

Allow people to plant their berms.

Scrap Santa parades.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We need a mayor who represents the people of Auckland.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Current debt level is well within the self imposed ceiling of 290% and S&P; P indicates Council has a good debt credit ratings.

Reducing crucial community services and reducing the power of community boards devalues the role Council plays in a democracy, eliminating the "local" in local Govt. Addressing the unexpected extra demand of recent storms is council responding in a way that makes sense in future proofing the city assets. Taking on more debt of \$1.5 b is sensible and maintains the debt ceiling of 290%.max.

I totally disagree with defunding CABs which have a value for the most disadvantaged as they will have no free advocacy in a democratic society.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The sale potentially to overseas unknown influence of risky shareholders will reduce dividend opportunities in light of recent announcement of \$4-5b investment by the airport. As a vital asset in pandemics and emergencies we would be unwise to lose si

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: It's unfair that business can claim back 15% when residential rate payers can't.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I prefer debt within council limits to address the obvious need to future proof our city assets.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Some projects can be delayed eg Leys and the Ponsonby reserve at O'Neill st. Other projects align with climate crisis management and I agree with these.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you: A limited number of choices is manipulation by this survey. The wider regional boards and their priorities are a consideration .

Do you think there are other areas where we could make savings to our local budgets? As the food scraps initiative is rolling out why not encourage smaller households to put out red bins fortnightly. It can be easy for contracts to be reduced to a lower level of services.

Researching the potential to review cost recovery on council owned

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I do not wish ratepayers to fund the beer fridge for the current Mayor.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Cutting arts, sports, community and other essential services is an effectively irreversible decision that WILL cost us in the end (socially, culturally and of course financially, probably economically more than the value of the cuts). These services and investments are a social safety net, incredibly important for so many people in finding meaning in life, connection and respite from difficult circumstance. Not to mention critical community networks and action about climate change, inequality and education services. To lose them will be to chip away at the very thing that keeps society functioning, the very things that make us human. This will be nothing short of devastating.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It is not a wise decision to sell off assets that cannot be bought back in a low point in the market. This is just bad economics.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council should both set a higher general rates increase and make greater use of debt. Based on Auckland Council’s assumptions and modelling, the highest possible rates increase that they investigated (>13%) would fall well within the boundaries of what

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: It is critical to invest in resilient, public infrastructure to avoid the horrible impacts of extreme weather. These events will only get more frequent and more severe. We need to be investing in creating spongy cities - with increased permeable surfaces,

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: ALL OF THESE ARE IMPORTANT PLEASE DO NOT CUT FUNDING TO THESE CRITICAL SERVICES.

Do you think there are other areas where we could make savings to our local budgets? The only place i could see savings being made is in bureaucratic inefficiencies within the council itself. The council should invest in hiring systems management consultants to support the teams at the council to be more efficient - NOT outsourcing key pu

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? For Auckland to be a livable city, and with its rapid growth we need MORE buses, as soon as possible. This should be accompanied by safer pedestrian and cycling infrastructure. The CATR was established with wide spread public support and should proceed as

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please, please think carefully when making these changes. The austerity of neoliberalism has proven time and time again to produce worse outcomes for people, for the planet, for the economy overall! We must invest in our shared future, not divest for the t

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Leys should be delayed. We have other libraries. Community activity such as grants and festivities needs to be curbed in the present difficult environment.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterway e.g. Te Wai Ōrea lake and

wetland, Environmental restoration and pest control e.g. Waipapa Stream, Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

If the public services are reduced, it is only fair that staff numbers are looked at especially middle managers earning good money.

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I don't think you should reduce regional services. I would rather see more debt taken on.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: I believe that future-proofing the city should be paid for by future generations as well as today's generations.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Do not support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: None of the proposed reductions should occur, we need a city that has good infrastructure and is worth living in, which requires secure ongoing funding. Please increase rates to cover these services, and provide rate relief rebates to low income property owners as already occurs.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This is a short-sighted proposal. Please do not sell this asset. It is a monopoly asset. Huge superannuation funds and similar international investors scour the world to find such assets for long term investment. With NZ's likely future growth, the smart

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: We should address this issue now, and not pass it on to a future generation by raising debt. If we do that, we force a later generation of ratepayers to pay for the work needed now, plus all the interest racked up on this debt as well. This is an historic

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Increase the budget if this spending is targeted to the problem. But it does not make sense to suggest at the same time reducing the environment and water quality targeted rates, surely those in part address the issue of storm water? We need to address th

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: All are important, please continue to attend to these priorities.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: Our environment particularly our waterways is critical. Separately, many people rely on libraries and they are a wonderful free service which enhances many lives.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: * The rate increases are below the rate of inflation. Why let rates fall behind inflation.

* The Council has the capacity to increase debt without getting anywhere near crisis levels.

* Cuts to the arts are unnecessary, mean-spirited and diversionary.

* Cutting transport timetables is wrong. The city should be encouraging public transport, not cutting it. The city needs more buses and more drivers.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: The airport is a vital strategic asset. The city should retain some control over its development. Money from a partial sale should be used for legacy projects.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Current proposals will impact badly on vital community services. This in turn will impact badly on those most in need.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Safe water and stream management are essential. If \$20 million cannot delivered these, the amount should be increased.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

Organisation (if applicable): Basement Theatre

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not process with reducing funding to Tātaki Auckland Unlimited

Do not process with reducing regional services

Do not proceed with reducing local board funded activities

Do not proceed with reducing regional contestable grants

IMPACTS TO BASEMENT THEATRE

This submission has been lodged on behalf of Basement Theatre's operations team. Basement Theatre is a cornerstone organisation within Auckland's arts and culture infrastructure. Currently, Basement is the recipient of a Strategic Relations Regional Grant of \$65k from the Council. This grant contributes to everything we do. It's a multi-year operational grant that isn't specifically tagged to one project but instead helps us deliver our portfolio of activities. Our receipt of this grant is in jeopardy and if cut, Basement Theatre's offering would have to downsize significantly.

Along with this downsizing would come an inevitable reduction in alternative funding sources. Why? Because much of our alternative funding is based on meeting a range of criteria that would be compromised if we did less. Such a

downsizing would also stifle the voices of the city's most alive, exciting and forward thinking communities - those who call our theatre home, including Tangata Whenua, POC, Rainbow Communities, and Disabled artists. But it's not only our artists that will be 'downsized'. It's our audiences too (the general public) that get to receive the artists' work, as well as the pool of approximately 50 arts workers that we contract and employ each year.

Basement is an important door to the creative industries for emerging artists, so when we are vulnerable, our whole sector is vulnerable too.

IMPACTS TO ARTS AND CULTURE

Unfortunately the deep value that arts and culture bring to society is not always understood by the public and people in positions of power. But arts and culture actually play a huge role in the social and economic prosperity of our city.

Social prosperity:

Arts and culture events bring us together. They enable us to congregate and experience something that might make us laugh, or cry, or be inspired. This is such a vital thing to provide our people with in such hard times. When we understand that our people are our city's most important asset, we understand how important it is that they recover mentally and spiritually after the hardship of a global pandemic and catastrophic weather events. Our arts and culture infrastructure enables that recovery; it provides a vital reprieve to our people and injects joy and vitality into their lives. Through creative experiences we get to build positive lifelong memories, and pass those memories on to our children

Economic prosperity:

People who are going to the theatre or a festival event are also spending money in restaurants, cafes, and bars, and if they are visiting they are also spending on accommodation and transport. So in essence arts and culture helps to strengthen local businesses and our overarching tourism industries.

We urge you to see how important it is to our sector to not reduce operational spending in any areas but instead to think again about budget scenario alternatives.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It is a time for investment. Increasing rates and debt is possible and well within the Auckland Council group's financial parameters.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards**6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Organisation (if applicable): Auckland War Memorial Museum

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: 'Auckland War Memorial Museum does not support operating spending reductions to:

- Tataki Auckland unlimited, targeted at reduced funding for arts, culture and heritage organisations and destination marketing
- regional services such as community and education programmes and community events
- funding to local boards, which will reduce funding to local community programmes and arts and culture organisations
- regional contestable grants, which will affect community and arts and culture organisations.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please find attached a brief letter as the Museum's submission.

Tēnā koe Auckland Council,

AUCKLAND WAR MEMORIAL MUSEUM SUBMISSION ON AUCKLAND COUNCIL'S PROPOSED 2023/24 BUDGET

Auckland Museum welcomes the opportunity to provide a submission on Council's proposed 2023/24 budget.

We are greatly concerned by Council's proposed operating spending reductions. We do not support the reductions to:

- Tataki Auckland Unlimited, targeted at reduced funding for arts, culture and heritage organisations and destination marketing;
- regional services such as community and education programmes and community events;
- funding to local boards, which will reduce funding to local community programmes and arts and culture organisations;
- regional contestable grants, which will affect community and arts and culture organisations.

The arts, culture and heritage sector in Auckland plays an important role in the lives of Aucklanders. These organisations deliver significant wellbeing benefits, jobs and contribute to a thriving city; this is the vital social infrastructure of Auckland. The sector is not a "nice to have", and it is critical that the sector is appropriately funded. We are aware that if these cuts proceed, many smaller organisations will close, and many popular annual events will be cancelled.

The sector makes an important contribution to Auckland's economy and reduced funding will have a greater economic impact than the rates reduction to Council. By way of example, Auckland Museum's 2022 touring exhibition *Ancient Greeks* was found to have a benefit-cost ratio of 1.38 by an independent evaluation, delivering over 9000 bed nights to the region and \$2.1m in visitor expenditure. 89% of resident event attendees agreed or strongly agreed that hosting events like *Ancient Greeks* makes Auckland a more enjoyable place to live and 77% thought that hosting events such as *Ancient Greeks* increased their pride in Auckland. 64% of visiting attendees agreed or strongly agreed that their experience attending *Ancient Greeks* had improved their perception of Auckland as a place to visit.

Auckland will be much poorer – socially and economically – if these austerity measures are implemented. It will take a generation for the city to recover. We ask that Council not proceed with its proposed wholesale budget reductions to arts, culture and heritage across the city.

Ngā mihi nui,

Dr David Gaimster
Tumu Whakarae Chief Executive
Auckland War Memorial Museum

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: It is short sighted to cut any of these programs as there is little point living in a city that does not support these social programs.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Reducing some of the debt tied up in the Auckland would be wise, but the Council has to have an interest in such an important asset to the city

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: We must keep our Debt and interest payments as a city under control, we should also look at much higher rates increase for land that is not developed are being misused such as the Sky World in the inner city, which has been mismanaged for years

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and

arts, Local grants e.g. community and accommodation grants, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Funding for the Citizens advice bureau can not be cut

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with any reductions and instead further increase rates and/or debt

First, the Budget's proposed reductions of services are widespread and will be seriously damaging for the city's most vulnerable people.

I believe that there is no justification for such cuts. It's time to increase costs to consumers (raising rates) or increase debt - not cut the delivery of the organisation's activities.

Raise rates, but also prepare a better budget. We need to cut high emission transport projects and charge more for polluting activities like driving - Charge more for parking, stop all work on corridor widening, and axe Penlink.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Don't sell assets during tough times. This will just load up future generations with more debt.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Set a higher general rates increase

Do not reduce the Natural Environment Targeted Rate (NETR) and the Water Quality Targeted Rate (WQTR).

Auckland has been impoverished through decades of sprawl and low rates. We need to increase rates to deal with the

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Make sure you properly fund and implement the Climate Action Plan and the Transport Emissions Reduction Plan, as consulted on.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

Communities require the arts. It is there to curate human connection and imagination. It brings color to bleak circumstances. Protecting and championing the arts is important to the mental well-being of all.

I am the theatre manager of small theatre, funding and grants give us the opportunity to keep the doors open. It is a space of learning and where people can feel they belong. Our members come from all walks of life.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why:

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community development and support, Local arts programmes, Local community events

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Public transport services are an efficient way of tackling climate change. They enable those without cars to get around safely and affordably. Reducing the frequency and increasing the cost of public transport makes it harder to tackle pollution and climate change, and places the burden on people who can least afford it.

We have seen the impact of reduced train and bus services recently, with massive cost to the public in terms of extra time getting around the city and increased congestion as people are forced to drive. This is an increase in cost to all rate payers. Further to this, the harder it is to get into the city centre, the less people will make the journey, which will impact on the vitality of our city and the businesses trying to operate there. Investing in alternative modes of transport such as walking, cycling and public transport will solve these issues.

Adopting a more sustainable approach to transport in Auckland would also bring economic benefits. The Sustainable Business Network commissioned a study by Sapere Research Group in 2018 which showed Auckland could be \$8.8 billion better off by 2030 if it installed the circular economy, with much lower carbon emissions. Transport was one of the sectors studied. The research showed that encouraging ride sharing, refurbishing commercial vehicles and reducing congestion could yield \$1.8 million for Auckland by 2030.

We recommend that Council picks up the pace of decarbonising transport and rethinks its assets to maximise their use. For example, looking at rental options for public assets like its own vehicle fleet to reduce the number and convert to electric. Council should work in partnership with suppliers to innovate and increase efficiency.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: We need to think about future profit and what generations to come will be requiring.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Aucklanders have made it clear they want to see investment in both a higher rates increase and make greater use of debt. Auckland Council should follow the lead of Wellington City Council, which has announced a 12.3-12.8% increase in rates. This ensures i

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Auckland Council needs to invest in the emergency preparedness of its people. The increase in extreme weather events should motivate us to make changes that allow our rural and urban communities to be prepared and adaptive to future environmental degradation.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities.

Tell us why: Because arts, recreational services, restoration projects, are at the heart of this community and are what build on the partnerships.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education e.g. Schools treasuring Waiōrea, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles.

Tell us why these are most important to you: These environmental initiatives assist our communities in building resilience to extreme shifts in climate. If the floods have taught us anything, it is that need to educate on ways to minimise impacts and build capacity to bounce back from these events.

Do you think there are other areas where we could make savings to our local budgets? Golf clubs.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? The Climate Action Targeted Rate was established last year with overwhelming public support. We do not agree with using this fund to reduce costs to Auckland Transport, rather than using it to improve and increase public transport services. We support more.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The Sustainable Business Network (SBN) has been calling for action on sustainability since its inception in 2002. We are now in a climate emergency, evidenced by the damage to land, waterways, property, infrastructure and people across Tāmaki Makaurau thi

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I am opposed to proposed reductions in regional services generally because they are what make life worth living in Auckland. Galleries, museums, etc. attract tourists as well, but the reductions in "community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres" help to increase overall wellbeing of the residents of the city. By increasing local participation, we in the city feel more connected, more likely to contribute to community life, and less likely to be involved in vandalism or other negative behaviour. It is inhumane to reduce (rather than increase) funding for homeless services.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: This doesn't seem like a prudent time to sell off the airport shares. I believe we should keep more than 10% of those shares. In addition, I am concerned about foreign ownership of the airport and would need government assurance that they could prevent

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: I am in favour of increases in both general rates and debt so long as those on the lowest incomes are exempt from a rate rise. The increase should be closer to the inflation rate. I agree with the Better Budget proposals and information, and strongly

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We need to prepare wisely for an increase in damaging weather events in order to reduce later repair expenses. I believe strongly that central government should contribute to this.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I think they are all important, but I care most particularly for those that bring people together, that increase safety and health, that enrich lives. Libraries, community centres, cultural resource centres, playgrounds and pools all contribute such bene

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Because they provide information and new ways of looking at the world; because they bring people together to work on improving all our lives. As an older central resident, I would not stay in the city without such places as the Ellen Melville Centre, the

Do you think there are other areas where we could make savings to our local budgets? By requiring local businesses to properly maintain the areas around their shops/offices.

By emphasising joint ownership of the city by involving people in volunteer projects.

By supporting attempts to lower alcohol abuse thereby reducing the cost of va

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? The climate action funding should be used only for its original intended purpose, We must continue to provide more and cleaner bus services with lower fares at least for those that need it I firmly believe that central government should fund more of thi

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

One way the City could increase revenue is to raise parking meter rates after the first 45 or 60 minutes - and then enforce fines.

Truck traffic in the city needs to be greatly reduced, in order to improve the air quality for those of us living and walkin

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: local board funding, this is vital for our communities

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support

Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres in order to save \$20 million, would negatively impact the already dire social situation for many of our youngest and most vulnerable Aucklanders, leading to an overall increase in costs and lives in the future. These measures aim to address some of the social determinants of societal wellbeing.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: 310% returns over a decade - no brainer.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: We should be trying to keep use of debt as low as possible so that the future generations can manage what is before them with as little legacy debt as possible.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: as long as the money is targeted to the issue and best available evidence is used to support the decision making

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: All of these are priorities- please lets not go backwards!

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any:

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local community events e.g. Parnell Festival of Roses, Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: - If you want to reduce cars on the roads, you NEED to have a viable alternative. If Public Transport funds are cut, this will never be an alternative.

- Investing in cultural and creative sectors is important, as these benefit (direct and indirect) the society and economy.

- Community and education programmes, art and culture, social activities (to name a few) enriches the people and community, hence the city we live in.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Higher increase in general rates and make greater use of debt.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: We live in the city because we enjoy interacting with others, connecting with the community, spend time in public spaces. For this to be possible we need a safe and well looked after public spaces.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and

Studio One Toi Tū), Local community events e.g. Parnell Festival of Roses, Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

(If you can think of any specific ways this will impact you or your organisation, please include those as well.)

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local community events e.g. Parnell Festival of Roses, Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reductions in services disproportionately hurt those who most rely on them, while disproportionately benefiting those with the most capacity to pay - ie those least in need of the financial help. The purpose of government is to provide necessary services, so cutting services is a dereliction of duty, in services of an upward transfer of wealth at a time when wealth inequality is already .

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: It makes no sense at all to reduce services and accessibility which benefit the most vulnerable members of our community. There will be a cost to all Aucklanders if this happens. • Replacing library professionals with volunteer staff. Not only does this undervalue qualified library professionals, lessons from overseas tell us that volunteer-run libraries often have trouble finding enough volunteers to maintain services, especially in less-affluent communities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Households are already stretched.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants, Environmental education e.g. Schools treasuring Waiōrea

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not agree to proceed with reducing funding to Tātaki Auckland Unlimited by \$44m, as it will leave Auckland Art Gallery Toi o Tamaki with a bare bones budget that won't cover salaries and programming. I do not agree to proceed with cuts to opening hours and don't agree with introduction of entry charges. I also do not agree to proceed with reducing access to the arts via cuts to regional services, local board funded activities, and regional contestable grants. Artists and our communities will suffer.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Prudent fiscal management.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Prudent fiscal management.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We have to responsibly prepare for future weather events.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: We need to invest in our communities if they are going to grow and worldwide research shows the arts bring diverse communities together for a hopeful future amidst a time of rapid change and challenges.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: We need to invest in our communities.

Do you think there are other areas where we could make savings to our local budgets? Less spending on cycle ways and disrupting traffic moveability.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities,

Reducing regional contestable grants

The funding reductions are an affront to the society that we live in.

Our community builds connection through events. Strong communities can survive, thrive and recover from anything the world throws at them. These are not "nice to have", they are a requirement for a thriving city. They create jobs, they create wellness, they create a connected and happy society.

I attend the lantern festival, Diwali, big gay out and the writers festival every year. I attend theatre shows and performances. With each of these events, I travel on public transit and I go out for a meal and drink nearby. I support the local businesses and we all prosper from having these events.

We need to be building out a sustainable, green city that can handle weather events. This requires investment. We need to have strong public transport for everyone, green spaces and wetlands to handle flooding, we need water infrastructure to keep clean drinking water clean and to make our beaches safe for swimming again. This requires substantial investment from the council.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling shares in a profitable organisation for a short term cash settlement is a foolish decision at the best of times - you would always make more money keeping the shares in the long term. Short term benefits are just that - short term. They do not pro

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: We should both increase rates and make greater use of debt.

Increasing these has minimal impact on each individual, and the benefits of a well funded council are many. We should be increasing both of these things and fixing our underfunded and under pre

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Stormwater infrastructure and restoration of wetlands and green spaces are critical to the future liveability of this city.

We struggled to walk our dog through the flooded CBD streets throughout the cyclone - and the CBD was barely impacted!

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Focusing on the environment seems like a key area for the board.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local community events e.g. Parnell Festival of Roses

Tell us why these are most important to you: Libraries are community hubs - it's how people connect with social services, internet, research, communities. They're critical infrastructure in supporting our communities, especially low income and unhoused people.

Arts, community centres and community

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? We should keep bins in public parks - we should even increase the number of bins. The number of times I have to walk around trying to find where to dispose of my bag of dog poop shows that we don't have enough. I also see more trash in any park that has b

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We should introduce more drinking fountains that have drainable attached dog water bowls on the base. This will ensure we dont have so many ice cream containers blowing around parks (these are often put in place by community members and they work for a fe

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not support the loss of these services, in particular cuts to funding for libraries

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Leave Auckland unlimited funding; great for families & businesses in the inner city. I also support regional community and education programme for the good they do in the wider community across the motu in these tuff times.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: We can raise money to settle debt with a partial sale but we should keep 10 percent for when the post-pandemic airport activity returns with the promise of bigger dividends.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: We've had rates increases year on year for how long now? It's never-ending. Add to that the higher cost of living and rising mortgage interest rates on our million dollar inner city homes; and the last we need is a giant rates rise.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This is no-brainer

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events e.g. Parnell Festival of Roses, Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: Focus on spending which helps people directly please, especially in these tuff times

Do you think there are other areas where we could make savings to our local budgets? No

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? No

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

NO

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I believe in supporting more public transport and it's necessary for a productive city. No cuts to CAB and arts and culture, as that keeps the spirit of the city alive. This budget proposal is not going to be positive for the city in any way.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It's a bad time to sell! Surely, once the airport has its extension completed and traffic is up...

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council should both set a higher general rates increase and make greater use of debt. I pay rates on two properties, happy to pay more.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Yes, absolutely needed. It's unfathomable how dirty our beaches are from poor storm systems and how it has not been able to cope with extreme weather events that are going to increase.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Water and safety feel the most important right now.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I want more public transport options. I want transport that results in real reductions in my car usage.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

CABS need to be protected, buses need to be increased, climate change is happening and we need to be resilient. We need leaders who are willing to think long term for the better good of the city. Not short term fixes..

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

Annual Plan Submission 2023/2024

Customer and Community Services

Ponsonby Park

This should be deleted as a project. The Ponsonby area is well served with a network of small reserves and walkways and there is no need for this proposal. The site should either be sold or developed and sold as a commercial and/or intensive housing.

Streetscape Maintenance

There needs to be better management of the streetscape maintenance contract. For example - we have contractors visit our street, Cockburn St Grey Lynn, fortnightly, to mow and trim the grass berms. I understand there are classes of streets (premier?/ Richmond Rd) that have the grass cut on a regular basis. We and the neighbours mow the grass on the berms outside our properties which is sufficient. Plus the contractors don't mow portions of the berm in Richmond Rd which is unsightly. I have raised these issues via the report a problem portal to no avail.

Golf Courses

Where possible golf courses should be sold. As part of this process an analysis should be made to ensure future green space needs are accommodated. Reserve designations on the land may restrict opportunities to achieve a sale, but the analysis should include the potential to revoke a reserve designation if the benefits of sale warrant revocation.

Infrastructure and Environmental Services

Development Programmes Office

Modify the scale or postpone the Victoria St Linear Park - it's nice to have rather than something necessary like stormwater improvements.

Council support and others

Auckland Council cost reductions to mitigate budget challenges

Continue with work underway as outlined.

Proposal A

Funding for CABs should continue in the short to medium term. At the same time central government should be engaged for additional funding, as some of the activities of CABs support government departments. The public are at times directed to CABs from government agencies that should be providing the support.

Proposal B

Some of this discretionary funding should be reduced. An analysis of the benefits of grants and the focus of the organisations seeking funding needs to be robust and provide maximum community benefit.

Proposal D

There are sufficient commercial early childhood providers in the community to support closure of this council service.

Tātaki Auckland Unlimited

I support further reduction to the funding of large scale events. The events are often proposed on the basis as good for the region but there is little or no flow on benefit for ratepayers. If events are of benefit then they should funded by the community sector deriving the event benefit.

Auckland Airport Shareholding Policy

I think airport shares should retained on a longer term view. While there is a currently a short term reduction of dividend income, the effects of Covid on travellers are now over and this revenue should increase. Yes there will be variations over time to the level of income, but likewise there will be fluctuations in interest rates. It seems short sighted to sell off the shares providing an income stream, for a short term reduction to interest.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not proceed with maintaining reduced public transport services and reducing funding for the arts and community programmes.

Our city already suffers from a lack of diversified cultural activities and an unreliable public transport network. Maintaining the reduced number of public transport services will only further hobble Auckland's progress as it remains a car dependent, congested city with nothing to attract people. A better city needs to have less losers. Less losers means easy access to jobs and community programmes for everyone but especially those on the lower end of the socioeconomic scale.

Walkable mixed use urban areas result in the highest generation of taxable activity and productivity per square meter of space. Reducing funding for the ARTS and COMMUNITY centres is a dystopian choice for a city already suffering from a lack of identity and attractiveness.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: DO NOT SELL THE SHARES. The long term capital benefit of holding the shares in such an important asset will greatly outweigh the short term cash benefit. AIAL owns \$3 billion in property around the airport. Having a significant choice in how this is devel

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council should set rates at least at the rate of inflation (8 -9 % rather than the proposed 4.66%). Our city rates are low compared to similar cities.

Do not make cuts to the Water Quality and Natural Environment Targeted Rates by two-thirds as this is

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Investment today is substantially cheaper than clean-up tomorrow.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: Restoring our wetland environment is crucial for mitigating flooding and biodiversity loss.

Community programmes are important for maintaining strong relationships between private citizens, organisations and government groups in our city.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We should support cost effective and better transport options by reprioritising existing road space for cycling and bus lanes.

Council should defer any major decisions on cuts for an extended 10 year budget (Long Term Plan) consultation process.

Alterna

You should familiarise yourself with this policy before submitting this form.

A Better Budget for Tāmaki Makaurau Auckland

The Council – led by Mayor Wayne Brown – has put forward a 2023-2024 draft budget for public consultation. The Council says a \$295m financial hole needs to be filled. It proposes: general spending cuts, selling the Council's shares in Auckland International Airport, an average 4.66% rates increase, up to \$75 million in borrowing.

How did we get here?

The Council proposal says the financial pressures come from an expansion in services and assets that has brought higher maintenance costs, worsened by high interest rates and inflation. Cyclone Gabrielle and recent flooding events have added further financial strain.

Recent years have seen increased inflation and interest rates. **But some of the pressures on Council are temporary and others have been overstated.** A major reason for revenue being lower than it otherwise would be is COVID-19, a pandemic experienced by thousands of councils and governments worldwide. Non-rates revenue has remained steady, as the table on the left shows. Revenue from Council venues, services, and public transport is likely to grow over time as Auckland recovers from COVID-19.

2018	\$2,836
2019	\$3,089
2020	\$3,291
2021	\$3,339
2022	\$3,554

Non-Rates Revenue (\$m)
Source: Auckland Council Financial statements
2021/2022, 2020/2021, 2018/2019

Interest rates are projected to fall over time,¹ and Council acknowledges that 80-100% of its borrowing is at fixed rates – which means only a small part of its borrowing is affected by short-term increases in interest rates.² The budget was prepared before floods and Cyclone Gabrielle; these events will require reconstruction, but central government has partnered for that.

“Signs that inflation will ease meaningfully over 2023 are becoming increasing clear.”³

Auckland Council is not facing a debt crisis: Auckland's debt is at 250% of its revenue, well below the 290% debt ceiling. Total debt as a ratio to revenue has been relatively stable (see graph on the right). The cost of servicing interest increased in 2022 as a proportion of total revenues, but the overall trend is declining.

Why can we do better?

The proposed cuts will have irreversible long-term impacts.

The axing of operational spending could mean a permanent end to the services and institutions that help to make Auckland a community.

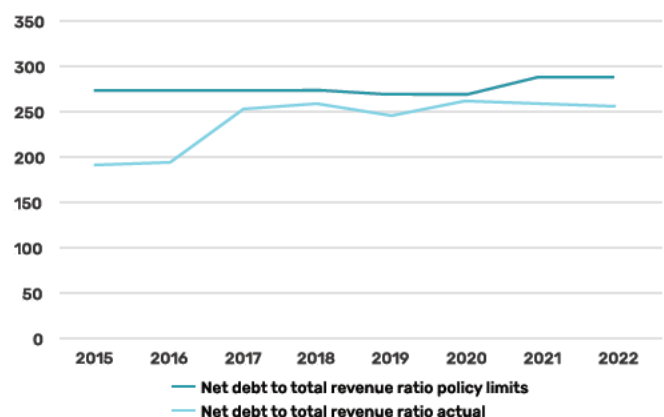

The cuts could affect – among other things – cultural events, library services (including services that support community safety), Māori and Pasifika employment (through reduced support of The Southern Initiative and The Western Initiative), Early Childhood Education services, and organisations like the Citizens Advice Bureau that allow people to access their minimum legal rights. Events and organisations may disappear due to the cuts.

Selling the airport shares does not add up. The loss of the 18% shareholding in Auckland International Airport would make the city permanently poorer and would remove people's level of control over a strategic asset. The Council proposal does not consider the loss of a stake in the airport's extensive landholding. It will be very difficult to return the land and future value of the shares to the public once these shares are sold. This has implications for:

1. Māori land interests: the Waitangi Tribunal cannot recommend return of private land, so airport land will be permanently alienated from Māori.
2. Future climate and other emergencies: we need coordinated transport hubs, which is harder when airports are privatised.

Our communities are more important than ever. Cyclone Gabrielle and the recent floods show that community organisations (such as Visionwest Community Trust, which will be affected by the cuts) are essential as a source of food, shelter, and social support in times of emergency. These organisations make a community resilient. Eliminating these organisations makes individuals and communities more vulnerable and precarious.

Net debt to total revenue

[1] See eg <https://www.opespartners.co.nz/mortgage/interest-rates/interest-rate-predictions>.

[2] Council Budget consultation document, online at <https://www.aucklandcouncil.govt.nz/externalcontentdelivery/consultations/budgets/annual-budget-2023-2024/annual-budget-2023-2024-consultation-document.pdf>, at page 47.

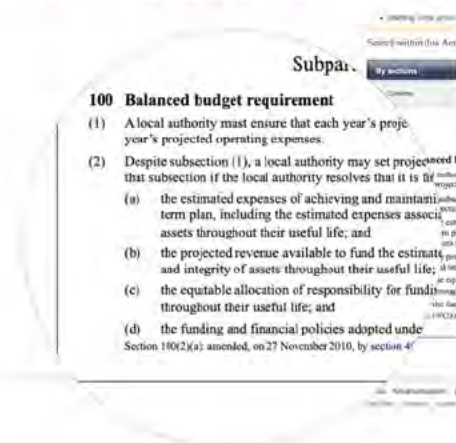

[3] ANZ research note, reported in January 2023: <https://www.stuff.co.nz/business/131057053/anz-trims-interestrates-forecast-after-inflation-comes-in-unchanged>.

Citizens Advice Bureaus face closure as a result of proposed cuts. Going by 2022 figures, this is estimated to impact 163,000 people seeking access to assistance concerning their legal rights, including in relation to immigration, MSD, and KiwiSaver.

There are many more options available than what the Budget Proposal suggests. The proposal suggests the public will have to accept the budget, or face a 13.5% increase in rates, or increased borrowing. But many other combinations of rates, borrowing, charges, and central government support are possible, such as:

How can we do better?

Local Government Act 2002

When considering alternative options, a starting point is that the Council does not have to run a 'balanced budget'. The law says councils have a Balanced budget requirement but that they only have to 'balance the books' if it would not be "financially prudent" to do so (for example, if cutting services creates its own financial costs), factoring in the need to maintain services set out in a long-term plan. But if the Council is intent on 'balancing the books', another budget is possible. The Council has not made it easy to construct another budget by imposing a very short (one month) timeframe on the consultation process, but a budget does not need to be finalised until June and it is still feasible to develop alternative proposals.

Council is opting to pause two important targeted rates and they don't have to do that. The Council says its reserves from the Water Quality Targeted Rate and the Natural Environment Targeted Rate are not spent, and that these rates can be suspended for a year. Now is not the time to freeze funding for water quality or the natural environment.

\$50.9m

Annual revenues from unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate

\$150.9m

Increasing borrowing avoids the need for community cuts and sale of airport shares

Council can borrow more. The Council is proposing to borrow \$75 million. Council says that it cannot borrow more than \$140m without breaching internal policy, but as the Council these policies can be adjusted (as the Council has recognised by acknowledging it would need to amend its airport shareholding policy to sell off its shares). Combining borrowing with a strong revenue plan, ensures Auckland's strong credit rating is not impacted.

The existing rates proposal will provide necessary revenue. This general rates increase, along with increased borrowing and unfreezing targeted rates, can provide \$295m in revenue.⁴ This alternative budget plan will address the shortfall and provide the foundation for a budget that is more flexible, fairer, and better for Tāmaki Makaurau Auckland over the long-term. Building on this foundation, Auckland Council should be investing now – in tourism, public transport, the arts, and other social services. Investing in the city will bring revenue back. That investment can be funded through the same mix of borrowing and rates set out here. This plan demonstrates that the budget shortfall can be addressed, if necessary. Cutting and selling are no way to bring Auckland back on its feet – and back to its best.

Unfreeze targeted rates *	\$50.9
Existing Council rates package *	\$93.2
Extend borrowing	\$150.9
Alternative Budget Revenues	\$295.0

[4] The figures used in the table are rounded to one decimal place. Unrounded calculations add up to \$295m.

[5] To reach this figure, we take the 2018–2028 10-year Budget's projections for the Water Quality Targeted Rate (\$452 million over 10 years) and Natural Environment Targeted Rate (\$311 million over 10 years), take an annual figure for each targeted rate from this ten year projection ($452/10=45.2$ for the WQTR and $311/10=31.1$ for the NETR), and then calculate what an annual two-thirds reduction would be in light of what is said in the Budget consultation document at page 52, rounding to one decimal place ($76.3 \times (2/3) = 50.87$).

[6] We adopt the Council's own assumption that "a 1 per cent change in general rates is equivalent to around \$20 million of revenue for the council" ($20 \times 4.66 = 93.2$); <https://www.aucklandcouncil.govt.nz/budget-reductions-operational-spending>

We have assumed that the proposed Council rates package can be directed to addressing the Budget shortfall. Nowhere in the Budget consultation document does it say that any of the rates package has already been accounted for. If some of the rates package has already been 'banked' (for example, 3.5% under the LTP) then some further revenues may have to be secured from additional increases in general rates, additional borrowing, or any other options listed on the previous page.

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: I see there is no comment about the Councils Operational Costs, but mentions only a reduction of services to tax and rate payers and yet reduce the amenities these provide a forward thinking metropolitan city.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: Reducing our Shareholding is not the answer and will leave the city and it's visitors vulnerable to the ultimate winners of the sale.

This is a quick fix, and not a real solution to the debt issue which illustrates misuse of funds.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: This is confusing - 4.66% v 7%. debt v budget shortfall and operating revenue.

I don't get the feeling there is much entrepreneurial thinking going on here - just creative accounting

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Stop allowing poor land development.

The strain on our infrastructure is a direct result of this. Require new developments to fund or contribute to the maintenance and replacement of the aged infrastructure the new development relies on. The previous co

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: You are wanting to save money, and yet many of these priorities require new development and/or are initiatives that are non-urgent. Many of these priorities can be redirected to infrastructure. I could be argued that the central city would have some of th

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Arts and Culture (Performing, applied, GLAM sector) access fundamental to well-being and feeling connected to communities. If you reduce these you create communities that are disenfranchised, feel isolated and you create marginalisation. There is no point

Do you think there are other areas where we could make savings to our local budgets? We need to be find alternative ways to generate income and revenue. The council is very clear on reducing private vehicles but has not yet provided suitable options for a carless existence. A user pays system, if strategic, nominal and based in the realit

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? The recycling programmes are inconsistent across the city with paper & plastics, food scraps and other.

Rubbish disposal needs to be standardised, easy to understand, and efficient.

Develop daily/weekly rubbish collection hubs in communities (at comm

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Where is the review of ALL individual services with the costs and resulting benefits??The way Auckland city rates are calculated is out of date.

you are wanting to charge more, but provide less amenities (which is part of what our rates are intended to de

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

Organisation (if applicable): Q Theatre

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tātaki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: As a medium-sized arts organization that receives funding from the local council (Q Theatre), we strongly oppose the proposed cost reductions. We firmly believe that reducing funding to Tātaki Auckland Unlimited, regional services, local board-funded activities, and regional contestable grants will have a disastrous impact on Auckland's culture, art, and community sectors and the local economy.

Our services contribute significantly to social cohesion, well-being, and quality of life, making our city more welcoming and inclusive. They also attract and retain residents and industry and help boost the local economy, create jobs and contribute to the city's prosperity.

If the council cuts this funding, it will have a ripple effect, impacting not only the organizations that directly receive it but also the broader ecosystem of organizations that rely on these services to thrive. These organisations' job losses and closure will have severe and long-lasting implications.

The impacts do not only rest on us. For example, the Comedy Festival, an annual event usually held in May each year, attracting over 60,000 ticket holders to the area. Keeping people safe is an important part of our responsibilities, and to do so we have developed a relationship with a security company over the twelve years since our opening. This company

understands our audiences, the dynamic of events, and the ebb and flow of visitation throughout the festival programme. This is a small business employer of many Māori and Pasifika security guards who lost significant hours of work throughout this otherwise busy time of year. When COVID hit, all those people who relied on the activity at Q lost their jobs. The impact of the last three years of disruption is felt not only by the arts community but also by a range of services and suppliers to the sector. Typically, these suppliers are truck and vehicle hire, transport operators, ticketing companies, cleaners, security guards and our food and beverage suppliers. The impacts of disruption and reduction of activity in our sector reach quite widely. Our arts and cultural activity have a wide variety of employment multipliers across all these industry suppliers.

We strongly urge the council to reconsider these cuts and invest in Auckland's future. Now is not the time to cut back on the very services that help our communities flourish, and our arts and cultural sector to thrive. We are concerned that a reduction of this size will send our city backwards, damaging our local economy and our quality of life. Let's work together to create a brighter future for all Aucklanders.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: The performing arts play a vital role in promoting community connection, safety, wellbeing, and empowerment. They provide a platform for self-expression, creativity, and social interaction, which are essential for building strong, cohesive communities.

T

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: Arts and community centre programs are incredibly important to maintain as both cultural and community hubs in our area. These centres provide access to arts and cultural programs that help to promote creativity, self-expression, and community engagement.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

AUCKLAND COUNCIL - ANNUAL BUDGET 2023/2024 FEEDBACK SUPPORTING INFORMATION FROM Q THEATRE LTD.

28/08/2023

Tēnā koe – I am writing on behalf of Q Theatre Ltd, in my capacity as Chief Executive | Tumu Whakarae of this organisation.

We are deeply concerned about the impact of the proposed cuts to contestable grants, the Regional Services budget, local board funding, and Tātaki Auckland Unlimited on Auckland's arts sector. As a vital part of our city, the arts, culture, and creative sector provides challenging, engaging and enjoyable experiences for residents and visitors alike. It includes arts events, cultural festivals, theatre, dance, music, comedy, and other creative activities that bring life to our city and unite Auckland communities.

Although the proposed cuts may appear small in terms of the Council's overall budget, they will have a significant impact on the arts, culture, and creative sector. This sector has already been severely affected by the COVID-19 pandemic, with many festivals, events, and performing arts activities cancelled or postponed due to lockdowns and audience hesitancy. For example, a group workshop aimed at empowering young women identifying students from tertiary schools has been delayed for the past three years due to COVID-19.

WE ARE CURRENTLY FACING THE CUTS TO FUNDING FROM CENTRAL GOVERNMENT

While central government funding has helped reduce the impact from 2020 to 2022, this funding is now ending, and the arts community is slowly recovering. However, the cuts to long-term investment organisations are already having a significant impact on the industry's ability to bounce back. Several organizations have taken breaks, reduced their output, or even cancelled their activities, leading to downstream impacts on venues, restaurants, jobs, and the vibrancy of our city. It's crucial to support the regrowth of a range of festivals, arts events, and performing arts to revive the city's cultural scene.

The arts, culture and community sector are already under enormous funding pressure. The recent Creative New Zealand funding round for Kahikatea arts organisations (three-year funded CNZ investment clients) has seen several casualties in Tāmaki Makaurau with immediate impact on Q Theatre. Tempo Dance Festival is unlikely to return in its previous format, Silo Theatre has announced a complete halt on performance for the entirety of 2023, and the Auckland Fringe Festival has a very uncertain future pathway. Each of these organisations has announced a significant or complete reduction in their activity at Q Theatre, with consequent financial impacts on us, and further funding cuts in the sector from Auckland Council will amplify this impact.

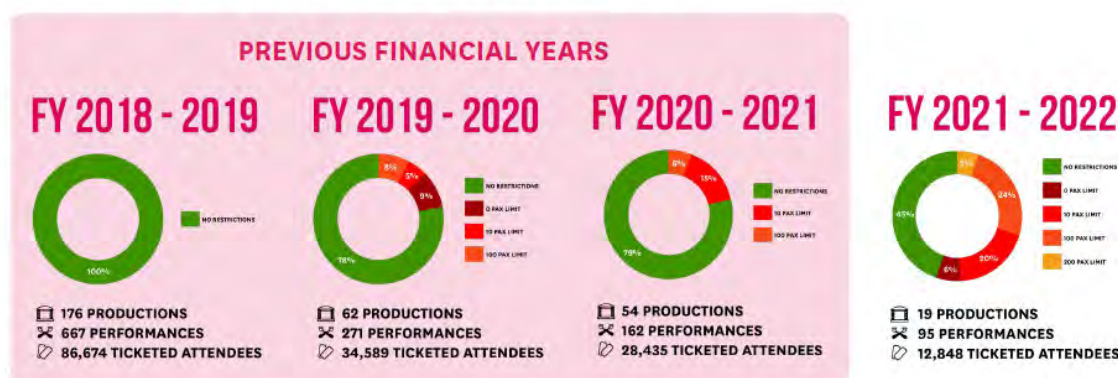

ARTS ORGANISATIONS ARE LONG TERM ASSET THAT NEED TO BE MAINTAINED

These and our other arts organisations are long term assets for the city and its communities. They are an important part of what makes Auckland so different from the remainder of the country. Auckland has a reputation within the performing arts and cultural sector as the dynamo of artistic and cultural expression and this attracts a large portion of the nation's creative talent to Auckland.

But the performing arts, culture and community sector provides much more than merely performance. As an activity that takes place primarily in the CBD, the sector attracts many, many visitors and residents into the CBD, with the resulting benefits that accompany that visitation: Safety - the streets are safer with lots of people in them at all hours of the day and night; Helping the CBD recovery – the CBD have been very gravely affected by the COVID-19 shutdown periods, particularly the last one, and recovery is mainly about a return to the CBD by visitors and residents.

As displayed here in a chart created for our Annual Report – Year Ending 30 June 2022, it's clear that as an organisation we were still heavily affected by the COVID-19 restrictions well into the most recent Financial Year. Unable to feasibly open for over 50% of this 12-month period contributed to the impact of the upper Queen St area remaining unpatroned for a lot longer than one might assume. Cafés, restaurants and the hospitality sector in general is very reliant on CBD visitation, and we need to continue supporting activity that encourages that visitation.

04 2021/22 - THE NUMBERS

Pie Charts: Government mandated capacity restrictions (Pax Limit) as a percentage of the corresponding financial year.

Source: [Q Theatre – Annual report Year Ending 30 June 2022](#)

IT IS NOT JUST THE ARTS ORGANISATIONS WHO WILL SUFFER

There are other downstream impacts of a further reduction in funding for the performing arts and cultural sector. Like everyone else, we are dealing with very considerable increases in costs. As an example, at Q Theatre our building insurance costs have increased in the last year from \$39k to \$128k, and we have been given notice there will be a further 20% increase in the next annual premium. To deal with these increased costs we need to support our hirer community so that our trading revenues are increased to enable us to deal with these increased costs rather than a further diminution of those hirers.

The impacts do not only rest on us. For example, the Comedy Festival, an annual event usually held in May each year, attracting over 60,000 ticket holders to the area. Keeping people safe is an important part of our responsibilities, and to do so we have developed a relationship with a security company over the twelve years since our opening. This company understands our audiences, the dynamic of events, and the ebb and flow of visitation throughout the festival programme. This is a small business employer of many Māori and Pasifika security guards who lost significant hours of work throughout this otherwise busy time

of year. When COVID hit all those people who relied on the activity at Q lost their jobs. The impact of the last three years of disruption is felt not only by the arts community, but also by a range of services and suppliers to the sector. Typically, these suppliers are truck and vehicle hire, transport operators, the ticketing companies, cleaners, security guards and our food and beverage suppliers. The impacts of disruption and reduction of activity in our sector reach quite widely. Our arts and cultural activity have a wide variety of employment multipliers across all these industry suppliers.

THE INDUSTRY IS ALREADY STRUGGLING TO REBUILD – WE NEED SUPPORT MORE THAN EVER

Finally, we acknowledge that Council faces some short-term funding pressures. Notwithstanding that, a response that focusses on actions that have long term damaging impacts is simply not appropriate. The sector is in a state of incipient collapse in Auckland – it is difficult to overstate the fragility that is apparent following COVID and the CNZ funding issues. Those organisations that are pushed over the edge by Auckland Council funding cuts will be gone for good; it is simply unrealistic to expect, in their current fragile state, that they will somehow weather the storm of eighteen months and then return.

So Auckland Council's short term funding decisions have the potential to cause long lasting damage to the sector in Auckland. It is wrong to deal with the short-term funding issues in this manner, and Council has other levers to manage short term financial stress. Council has plenty of borrowing headroom, with Council debt projected to reduce significantly in the foreseeable future.

Auckland Council funding plays a crucial role in the post-COVID-19 recovery of our creative sector. The Council's ongoing support for the creative community, commissioning of creative work, grants for arts organizations, and support for arts infrastructure, such as theatres, is vital for the sector's recovery.

This is not the time to cut funding; rather, it's a time to invest in the sector's future. Therefore, I urge the Auckland Council not to proceed with the proposed cuts to contestable grants, regional services, local board funding, and Tataki Auckland Unlimited.

Noho ora mai,

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not think any of the above reductions should proceed.

In particular, I am concerned about the reduction in public transport services. Public transport is essential in reducing carbon emissions and traffic, additionally, many people on lower incomes, such as students like myself, rely heavily on public transport due to the costs associated with owning and using private transport.

Another reduction which is especially concerning to me is the loss of funding for arts and culture. Lockdowns due to covid-19 have served as a reminder of how vital connection and community is to us as people. To thrive as a city we need ways to connect and enjoy the world together.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This would be a poor time to sell shares.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Both a higher general rates increase and make greater use of debt would be appropriate in preventing the suggested budget cuts. Although paying rates may be frustrating it is important to remember that rates are essential for investing in our community and

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: Proposing a reduction in community programmes including to homeless support programmes is utterly absurd and unethical.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? All areas should have food waste collection available.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I oppose all reductions.

The current state of our public transport system is shameful and is not functioning as a viable alternative to driving for many people in Auckland. If Auckland wants to see itself as a serious city of the future, public transport should be a priority. As it is, I sometimes have to turn down shifts at work, or pass on going in to university because of unreliable public transport, and I have many friends my age who experience the same.

Funding cuts to Tātaki Auckland Unlimited, regional services, and local board activities would gut the culture of Auckland in a time where culture is vital to maintaining wellbeing of citizens of this country. Not only are these services vital to a happy and healthy country, they are a key determinant in the decision many young people make about whether Auckland is a city worth living in.

It is particularly shameful to hear that funding to homelessness services is being considered for reduction. People experiencing homeless are some of Aotearoa's most vulnerable people, and are experiencing hardship that is unimaginable to many in NZ. Supporting them should be a key priority, not something we are reducing focus and resourcing for.

These reductions are all shameful and would do immeasurable damage to the fabric of this city. I am 23 years old and surrounded by other young people who are finishing their higher education and thinking about what they would like to do next. Given the current state of Auckland, and the direction this budget is looking to keep taking Auckland in - I doubt many of them will want to stick around.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Amongst other reasons - this is incredibly poor market timing to be selling shares, and appears to be a very short-sighted decision that doesn't consider long term impacts.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set a higher general rates increase AND make greater use of debt. Investment in our infrastructure and services is critical for the long term success of Auckland - especially considering the position that historical under-funding has left us in.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Investment in our stormwater infrastructure is critical - this is hard to ignore given recent weather events. Climate change means we can only expect these weather events to happen more often and get more severe, and we must be prepared.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I support investment into our community. These priorities seem in line with improving environmental outcomes and strengthening community infrastructure. I especially sort the low-mow/no-mow programming as it has both financial and environmental benefits.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: Environmental restoration is the key environmental priority to me as if that is not prioritised by the local board I'm not sure who else would be doing anything about it. However with most other environmental priorities on this list I feel that there may

Do you think there are other areas where we could make savings to our local budgets? Not that I am specifically aware of, but I am generally opposed to making budget cuts at the cost of value to our community and infrastructure.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I support all areas having food waste collection available as this is a valuable service.

The CATR was established last year with overwhelming public support, and the proposed changes seem inappropriate. I oppose this change, and support an increase in

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I would like to reiterate my support for funding towards public transport, as well as improved cycle infrastructure. I would like to reiterate my universal opposition to budget cuts, as I feel that these cuts are gutting our city.

I moved to Auckland fr

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reductions to the arts and culture services as well as homelessness services in Auckland is a death sentence for any of the revitalisation of Auckland central and Auckland tourism and foreign workers as a whole

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	I don't know

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland has spent a large amount of money on development of the central city (rail network, queen street) to cut funding to arts community's using these spaces will make the development of these areas a massive waste of money, a the central areas of Auck

- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I only support a few reductions: I support no mow and low mow areas, and a reduction in some events, in particular: Festival of Roses, Good Citizens Awards, Grey Lynn ANZAC Services, as these do not feel relevant to most of the Waitematā community. I also

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Priority to keep: community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres --these initiatives will be money saving in the long run

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Can we please have rate steps where folks who are wealthy can pay more and folks who are scraping by can pay less??

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The climate is changing, we need to accommodate it to keep folks safe and housed.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre

programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: The library is a safe space for many folks with tenuous housing, and it's a space for folks to gather and learn. Learning and community is essential! Community and art programs offer folks an opportunity to express themselves, join a community, learn, enh

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million

Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

Public transport services are integral to cutting emissions, particularly with an electric fleet in place.

Homelessness funding is integral to the wellbeing and welfare of all of our populations.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: No privatisation

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Decrease a little where planning to decrease (but keep everything included) and increase rates a little but this across everything in the budget (a couple of exceptions listed further below around yet more waste bins)

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: My original thoughts were to retain 12% of shares but 10% ok as we must retain some interest in such a strategic asset from a tourism point of view but also our own national travel needs.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Decrease a little where planning to decrease (but keep everything included) and increase rates a little but this across everything in the budget. So a little across the board not just one specific action.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: More cyclones are now the norm and we haven't kept our current infrastructure up to speed for the increased population that the council has approved to be built on small sites taking away rain absorbing natural ground/soil etc thus creating heavy rain is

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I support most priorities however I am concerned if some activity or service is discontinued that means it is gone for good. I believe it should be reduced but that each reduced 'activity or service' be returned to it's former financial support in the 202

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants, Environmental education e.g. Schools treasuring Waiōrea

Tell us why these are most important to you: • Do not discontinue or reduce community delivery programmes City Cultural Events, Social Housing Community Support, Homeless support and garden, food and sustainability programmes,. I do not know what the others in this section do but we must support t

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? Food scrap bins and increase in prices are not suitable for every site. I currently share 1x bin for recycle and 1x bin for rubbish between 2 units. Thus requiring only 1pick up per truck not 2. We have reduced costs already. As well we do not have room

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please ensure that Auckland gets the city that is for the majority of it's inhabitants and that we can trust the council to keep us safe and our roads, transport, water needs and waste are all fit for purpose for the ever growing number of people that liv

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: early childhood education, art, community and culture programs

cutting early childhood education could have potential relation towards raising criminal activities among teenager. The fact that New Zealand/Auckland is a multi-cultural place also means that community programs and culture programs are key factors of overall citizen happiness.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Increasing frequencies of extreme weather may suggest we need more preparation in the future

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Environmental restoration and pest control, Youth initiatives

Tell us why these are most important to you: art and culture programmes plays a significant role in this multi-cultural place, youth initiatives may bring positive educational benefits for the teenagers which may help with the increasing criminal activities among teens.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Support

Tell us why:

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: areas suitable for low-mow / no-mow seems to be a good spot for cutting budgets

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Environmental restoration and pest control e.g. Waipapa Stream, Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you: art and culture programmes plays a significant role in this multi-cultural place, and areas suitable for low-mow / no-mow seems to be a good spot for cutting budgets

Do you think there are other areas where we could make savings to our local budgets? unnecessary temporary road management like traffic cones

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Definitely need more public transport not cuts to it - climate crisis!

Do not cut community support and social service/ homeless support following the disastrous floods and cyclone!

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Set a greater general rates increase and make greater use of debt

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Climate change is going to see more storms and more natural disasters - we need to do better. We must prepare for the disasters ahead that we cannot avoid - and not have a repeat of this summer ever again.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Absolutely to all

Get everyone on board so they can know and understand why these things are absolutely vital

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterway e.g. Te Wai Ōrea lake and

wetland, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: Climate change is happening and we have to do our bit - I am choosing what's most important

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Please don't cut public transport. Driving around Auckland is a disaster as well as in and out of it. Horrible

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: * I OPPOSE reducing public transport services. We need to be increasing the provision of reliable public transport options. I suggest there could be a small price increases to deliver a reliable and effective public transport system.

* I SUPPORT some of the changes to Tataki Auckland Unlimited particularly where there is high private benefit, ie zoo and stadium use (the benefit is mostly to the private user). However, I OPPOSE price increases or reduction in services for Auckland Art Gallery or Museum as there is strong public benefit for the wider cultural outcomes for the city ie it is good for Auckland as an indicator of strong cultural investment. I OPPOSE reduction in community and regional events which make Auckland a vibrant city such as Pasfika. I SUPPORT reduction of some economic development programmes like sister cities, international education programmes and town-centre improvement (BID) programmes. I SUPPORT reducing marketing of Auckland internationally and domestically.

* I STRONGLY OPPOSE reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million. These are all activities which make Auckland a wonderful place to live. These proposed funding reductions will reduce community connections, impact community cohesion and make Auckland soul-less with no empathy or compassion. These programmes and funds all

support community entities - these are the very organisations who Aucklanders turn to in hard times, like the recent storms. I would encourage Auckland Council to find savings in other areas of its work which does not impact community development, arts, culture, recreation or sport.

* I OPPOSE reducing local board services to save \$16 million. While there are definitely opportunities for improved efficiency in the local board services area, these cuts will only impact on community, which I strongly oppose. I would welcome there being a review of fees and charges across all community facilities including those in the remit of Local Board as there is significant inequity between sport field charges, which are largely free, aquatic/indoor court charges which are charged, community centres and venues which are charged at higher prices compared to other community venues. There needs to be a significant review of ALL FEES AND CHARGES on the basis of equity between community activities. I know this is a difficult and not very politically palatable, but Auckland Council is now 12 years old and it is high time, the Council tackled this issue rather than just cutting services.

* I OPPOSE reducing regional contestable grants to save \$3 million. These are important funding avenues to support community outcomes. HOWEVER, as noted above there could be an overall review of fees and charges which may be able to deliver some of the savings desired indicated.

* I SUPPORT Auckland Council not providing early childhood education services to save \$1 million. This is primarily a private benefit to individuals. There could be a funding stream to support communities with greater inequities to ease the transition.

* I OPPOSE closing Citizens Advice Bureaus as these are important avenues for communities to get advice and support. There could be some efficiencies in the way and where the services are delivered but I DO NOT SUPPORT any reduction of CAB service.

* I OPPOSE reduction in funding for local and regional community development connection and coordinated work as this is crucial long-term investment in our community.

In short, I do not support REDUCTION of any programmes, grants, services which directly benefit the community. This is the one area where we need to maintain or increase investment. I SUPPORT reducing rates subsidies for areas where there is high private benefit from the activity.

I note with some sarcasm there is nothing in the proposed consultation which cuts services or increases costs for businesses in the city. It appears it is the community that has to bear the pain of this proposed budget. I would encourage the Council to consider all ratepayers and citizens equally and share the burden of the financial challenges equitably recognising some in our community do not have the capacity to take on additional costs while others have the ability to pay a higher contribution.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: I do not support selling of Auckland Airport shareholding as this is a source of revenue. I would prefer to see a combination of reduction in capital expenditure, increased debt and some increased rates.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential

- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: I OPPOSE Auckland Council proposed rate proposal and suggest considering higher rates around 7-9% inline with inflation.

I SUPPORT Auckland Council reducing some capital expenditure and reviewing priorities across all areas of its programme.

I SUPPORT hi

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Auckland needs to invest in making Auckland more resilient.

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I do not support redevelopment of Pt Chevalier Library - it is poorly placed and I do not see how you can deliver fit for purpose library from this location or building for the next 50 years. I would strongly encourage Albert-Eden Local Board to review I

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Sports and activities in parks, Library hours

Tell us why these are most important to you: Parks, libraries and events are all important areas for community cohesion, connections and vitality.

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: I support the work to improve water quality and stream restoration.

I do not support redevelopment of Leys Institute Library - it is poorly placed and while a historically beautiful building, I do not see how you can deliver fit for purpose library and co

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Local grants e.g. community and accommodation grants, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: Why is there not an option to prioritise sport, recreation and community facilities?

Do you think there are other areas where we could make savings to our local budgets? STOP undertaking planning projects which will never see the light of day because you don't have enough money to implement them. I personally read many reports to the Local Boards on concept plans, master plans, a plan for this or that which you know is n

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? I would like to see the Council tackle the daunting task of unpacking all fees and charges for the wide range of community facilities and services it is involved in which includes parks, sports fields, sport facilities like courts and hockey turfs, librar

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

CONSULTATION DOCUMENT - Producing a 108 page consultation document to summarise the proposed changes to the budget almost indicates you don't want anyone to actually read it. In this 108 pages, there are 21 full-page pictures, this represents 20% of the

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles, Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Tell us why, and which reductions you would not proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local grants e.g. community and accommodation grants, Local waste minimisation activities e.g. Waitematā waste away, Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: These is a vagueness to your document, despite your glossy brochure. I think all the services are important, especially to the less well-off communities. You don't explain local board funded activities are or regional contestable grants. The other categories - childcare which assists parents in the workforce; arts and culture, which often improve the mental well-being of the community and most likely, reducing crime; and definitely CAB which assist Auckland's large migrant communities, are all vital.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This would once again be selling the Golden goose, and I would imagine most would oppose it. Please look carefully at the figures Better Budget group, I think they are a young, vital and innovative group of smart young people who reject austerity and hav

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: My understand is that our debt ceiling is still acceptable.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Obviously climate change will continue to impact on the city and I'm sick of not being able to swim in the sea and the neglect of critical infrastructure.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: They all seem important to me - although they seem the kinds of things at the Council is intending to cut.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you: Library and community programmes ensure the mental wellbeing of our citizens and no.mow would assist in mitigating weather events.

Do you think there are other areas where we could make savings to our local budgets? Golf courses - turn these into parks and stop subsidising the wealthy.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I believe that Wayne Brown's salary is excessive and that he spends too much on consultancy and PR. I would also like to see the golf courses turned into public green spaces, subsidising only those that are available to low income. Overall I think this c

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

As a young adult living in Auckland (29), it is the arts that make the city an attractive place to be and live. Without cultural and arts events there is very little attraction left of the city for people in my age bracket.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local community events e.g. Parnell Festival of Roses

Tell us why these are most important to you: culture and arts are what make living in a city more attractive to other regions and an important place to foster a sense of community which Auckland distinctly lacks.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services improve social cohesion, make our city more inclusive and welcoming helping us to attract and retain new residents and indust

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: All these reductions would negatively impact Auckland City's vibrant and beautiful culture. Public transport and community support/engagement is essential for Aucklanders to continue thriving.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: You are proposing to cut funds to facilities that give our city its life! Where will people hang out and make meaningful connections? Where will people's minds be broadened. I am a product of council funded early childhood centres, without which my mother would not have been able to afford to keep studying and working and would not be the successful lawyer she is today. You are ruining people's prospects and lives with such proposals.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: For a council that seems so concerned with money, you seem to have wilfully ignored the fact that this is not a particularly astute time to sell these shares.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council should both set a higher general rates increase and make greater use of debt.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: How you could even suggest that not increasing our operating budget after the weather events we have just experienced is beyond me. What more needs to happen for you to open your eyes?

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre

programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: It's nearly impossible to pick three - but the arts, our libraries, and our environment and hugely important to our mental, cultural and physical wellbeing in the city.

Do you think there are other areas where we could make savings to our local budgets? You have manufactured panic around debt to stir up the wealthy voters who while vocal, are not the majority of our city. Make our city liveable or everyone will leave, and you'll be council of a wasteland.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? This is the most appalling council budget I have witnessed in my voting history. I hope you listen to those who oppose it before you gut the city of any soul.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

Both our children work in the arts sector in Auckland and these cuts would have a hugely detrimental effect on their lives and livelihoods.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future!!

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits.

They also boost the local economy, create jobs and make the city more prosperous.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? I don't know

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: This is a time for a steady course not a reactionary and narrowly focused response which assumes financial crisis. Reductions themselves have a cost and an effect on economic drivers and multipliers. In some cases it means walking away from sunk long-term investments which is likely to be economically and socially costly in the long term. I rely on the NZ Herald Simon Wilson article on 28 March 2023 which states the Council is well under its debt ceiling with projected tracking down with the ratio of debt to assets on track to be lower than at anytime since 2012. I add that I consider that the proposed reductions will disproportionately impact on lower income community members. That is not appropriate. I strongly oppose reductions to arts and culture programmes.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The AIAL shareholding is a major regional strategic asset that should be retained. I strongly support the 14 March 2023 comment by Sir Barry Curtis and the sound reasons he gives to retain the AIAL shares:
<https://www.times.co.nz/news/dont-sell-auckland->

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: The council debt level is manageable. Short-term reactionary oriented reductions will have a greater economic and social cost than increased debt and will prove to be a false economy that will bring into play a cost of re-establishment of services and lo

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Climate change response and preventative measures - adaptation.

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Investing in rapid transport networks that are going to be a solution and not a problem or take 20 years to build,

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing our funding to Tātaki Auckland Unlimited to save a further \$27.5 million, with effects on service delivery (including economic development and tourism promotion) and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland

Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

This will be severely detrimental to the health of Auckland community and will cost the city in so many other ways. It is short sighted, and more and more money will be needed to be spent elsewhere. Auckland is not a business, and Council's have a duty to support its people. Now is not the time to be cutting funding in an already precarious economic environment where alternative funding streams are already stretched and competitive.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture facilities and events, Environmental activities e.g. pest control and wildlife protection on west coast beaches, Climate action and sustainability initiatives

Tell us why these are most important to you:

Waitematā Local Board

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not support the cutting of regional community services, local board funding, community grants, early childhood education, events, environmental programmes, or public transportation. These initiatives provide quantifiable benefits to disabled, low-income, and marginalized communities who are in need of equitable support. Our rates are considered low as compared to other OECD countries, also Auckland also pays lower rates than all other NZ cities. Low rates come at a cost to the public services that we receive and rely on. Cutting these services at this time will negatively impact communities, adding extra financial burden to those who are already struggling. Supporting our communities is crucial, we rely on this funding, and it is especially important for underserved communities. Cutting funding to Community boards will be devastating to environmental initiatives which are already underfunded, with the result that pest plant and animal populations will rebound to the previous out-of-control numbers and waste the thousands of hours of effort put in by community volunteers, over many years. Cuts would also destroy the valuable community linkages created by the many groups involved in this work

Do not support the proposed spending reductions. The reduction in funding will have a long-term negative impact on community well-being, safety, and resilience and does not respond to the climate emergency.

Do not support the proposed reductions and instead support unfreezing the Water Quality and Natural Environment Targeted Rates, increasing borrowing, and increasing general rates at least to the rate of inflation (rather than the proposed 4.66% increase)

Request council maximise alternative sources of funding such as increasing on-street parking charges and the introduction of charges at Park & Rides.

Do not support proposals to permanently cancel many hundreds of buses a week nor the proposal to increase the costs of public transport fares.

Do not support cuts to Tātaki Auckland Unlimited's facilities and services: the Auckland Art Gallery, the ZOO, the Maritime Museum; Auckland Live; the Bruce Mason Centre, and the Stadiums

Do not support the proposed cuts to funding to community, culture, regional events, economic development and social services; the cuts to Citizens Advice Bureaus (CABs), or the proposal to halve Local Board discretionary spending which may result in cuts to library hours, grants, events, environmental projects, Movies in Parks, Anzac Day services, community gardens support, youth funding and much more.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The airport is a strategic asset and the Auckland Council shareholding should remain to help ensure that the interests of the citizens of Auckland and the traveling public are maintained.

I support keeping our current airport shareholding because onc

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I support setting a higher general rate increase and making greater use of debt. The highest proposed rate increase for a household is roughly the price of a cup of coffee per week. I also believe that the benefits of a rate increase to maintain critical

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I support investing in long-term climate resilience rather than reactionary solutions. I also strongly believe that other climate and community resiliency initiatives funded through the Auckland Council budget cannot be cut. Such cuts would be detrimental

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Community activities, initiatives and services funded through the Auckland Council budget must not be cut to my local area. Cuts could mean a permanent end to the services and institutions that help to make my local area a community. Furthermore, a loss o

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local grants e.g. community and accommodation grants, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: 'I support the proposed Storm Response - 'increase to the operating budget from 2023/2024 by around \$20 million per year to improve our ability to prepare for and respond to future storms'.

I oppose the proposed cuts to the budget, including:

- The Wate

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

As a major organisation that brings in communities into the city, we will directly be impacted by these cuts.

This includes potential cuts to the Auckland Regional Event Grant that we receive to deliver the overall festival, which Big Gay Out (produced by the Burnett Foundation) also receives, which is a major event as part of our festival.

The Entire Proud Centres (from Arts and Community Fund) programme is going to be cut. Which includes festival coordinator role, which supported festival marketing and social media this year. This delivered over 50+ community events in this year's programme.

Add something like; our relationship with Proud centres guarantees that we have access to accessible venues across Tāmaki Makarau, making pride accessible for our disabled queer communities. If we were to lose proud centres it could cost us accessible venues. Proud centres enables our young creatives to hold events without the cost normally related with event hire, it also sees pride be celebrated across auckland, not just in our centrally located, non-accessible, privately owned venues

Creative Community Scheme grants for individual event producers who take part in the festival, including events such as F.O.L.A., would not have been possible without it.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

Elsewhere, NZ Fringe (in Wellington) and Adelaide Fringe have had what they've called their most successful festivals in their entire histories. This is the result of funding and resources for the arts and culture being taken seriously, being made a priority. We could be leading in the cultural landscape, but instead this foreshadows and risks us backsliding as a city. We have managed to survive the last couple of years amidst cancellations during Covid-19. Artists should not be punished for their resilience.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming, helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run. The impact of trying to recover from this will take us years, all to just get back to this same point. This is our chance to progress, and not repeat the same mistakes.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling what is left of the Auckland Council's airport shares will have irreversible consequences. While selling the shares now brings in a chunk of revenue, all future revenue from dividends is lost along with a share in the extensive land airport holdin

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential

- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council is opting to pause two important targeted rates that they don't have to. The Council says its reserves from the Water Quality Targeted Rate and the Natural Environment Targeted Rate are not spent, and that these rates can be suspended for a year.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Investment in stormwater infrastructure and other infrastructure now is necessary to reduce future costs, not only financial costs, but ecological and human costs where extreme weather events are estimated to occur more often.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Supporting public spaces such as library development and community connection make sense for the heart of the city to thrive. This is the major issue for our city post covid-19.

As well as climate change mitigation being a serious ongoing issue that we

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local community events e.g. Parnell Festival of Roses, Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: Auckland Pride, and artists and audiences, rely on these programmes to create a sense of cohesion and community.

We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Arts funding - culture enriches lives and it needs to be accessible to all

Library hours should not be reduced -libraries are community hubs for all walks of life

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? Reduce the weekly "red bin" collection to fortnightly to align with recycling collection to encourage people to compost and recycle/reduce waste. I am a household of four people and my bin would typically have two small bags per week so I put it out for two

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The first priority should be cutting council head count and

wage bill, thus also saving money on unnecessary office space. The head count is not comparable with other similar sized cities worldwide and it is a disgrace how bloated and beauracratic the or

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Please do not reduce the quality of life for less privileged members of our community by reducing funding to public goods such as public transport and other community programmes

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Please do not sell the assets of future generations of Aucklanders.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Effects of storms hit our most vulnerable communities the hardest. Please ensure work is commenced to protect these members of our communities from the effects of climate change

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: supportive of priorities but not supportive of proposed cuts to key community initiatives such as arts, libraries that support positive living for less privileged members of the community. Also unsupportive of proposed cuts to initiatives combatting climate

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: These support our critical areas of addressing climate change and supporting our community, especially those that are less privileged

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: We get better value for rates that almost anything else we spend our money on e.g. my rates for the year cost about the same as a dentist charges for a root canal and a crown!

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: The airport may have lost money during COVID but it's crazy to sell after a low point. It will make money again - otherwise why would anyone buy them! This is temporary.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Debt is an investment in infrastructure for future generations. Delaying costs more in the long run.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Future storms will come. We must be prepared.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: They are all important.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: These are all important. I'd rather pay for them through rates.

Do you think there are other areas where we could make savings to our local budgets? I trust good managers to make these decisions.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not like to see any reduction of services. Many, such as public transport are already underfunded and if further cut will become even less viable as a service. In that case a small cut to funding will deliver a larger cut to utility leaving the remaining service representing _worse_ value for money.

Regional services, community series and social services are an absolute essential part of Auckland. Again cuts here are a false economy. The harm done due to cutting the services necessary to enable these savings represent a far larger cost than the money that will be saved.

In contrast I strongly support making provisions to have better parking and traffic enforcement in the city. This presents an opportunity to not only make the city safer, more, pleasant and easier to get about and to encourage active transport, but provides an opportunity to increase revenue from parking, fines and fees. Current fines for e.g. parking illegally are absurdly low and offer little disincentive. Many are even cheaper than commercial parking costs, let alone not discouraging behaviour that makes streets unsafe for other users and damages footpaths and berms and makes active transport less viable.

I strongly oppose cuts to local board funding. These boards currently deliver excellent services for their communities, often managing to leverage support from other organisations and volunteers in order to develop and maintain vibrant and liveable communities.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: I would much rather see the council sell down some of its assets in golf courses that are high value but which act like private clubs, preventing access to green spaces and delivering little value to the public or to the council.

Selling shares because th

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I support both a higher rates increase and greater use of debt in order to provide public services. The current services provided by the existing rates represent excellent value for money and help to make the city a vibrant liveable space. I'm very happy

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I do not support cutting funding to local boards. I am happy to pay increased rates to enable them to continue with the excellent work they do in developing and supporting liveable communities.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Sports and activities in parks, Parks maintenance (including mowing), Community leasing charges

Tell us why these are most important to you: The services and activities currently provided in local boards already represent great value for money, drawing on the work of countless volunteers and community groups. These resources are some of the things necessary for those groups in order to continue

Puketāpapa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community centres, Community lease charges, Parks maintenance, including mowing

Tell us why these are most important to you: The services and activities currently provided in local boards already represent great value for money, drawing on the work of countless volunteers and community groups. These resources are some of the things necessary for those groups in order to continue

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Local grants e.g. community and accommodation grants, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets? Delivery of active transport infrastructure is currently slower and more expensive than it needs to be due to perpetual rounds of delays, reinvestigation, and redesign due to a small number of ideological councillors and transport officials who seem to be

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I support more investment in safer streets and specifically the provision and maintenance of infrastructure for active transport. This provides a way for people to move about that is low impact in terms of both cost and carbon and makes our communities more

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: 1. Public transport already being limited has led to an increase in personal vehicles on the road and thus more congestion and fossil fuel emissions. Public transport is necessary for a city to thrive, and keeping the current reduced number of transport would simply disincentivise people from taking public transport.

2. Regional services, arts & cultures programmes, regional events and homeless funding are essential in order to keep our city alive. Arts and culture is intrinsically important to a society and to the wellbeing of individuals. Taking this away would take away people's livelihoods and would make the arts more inaccessible than it already is. Reducing funding for services for homeless people, a group who is already severely disadvantaged, would display a complete lack of respect for the humans in our society and it would only contribute to a larger divide between the poorest in our society and the richest.

3. Board funded activities contribute to the community building and thus these should not be cut

4. Contestable grants are necessary for people's livelihoods and thus should not be cut

5. ECE services are essential for those who cannot afford private childcare and allows them to work. If people have to choose between working or looking after their children, they wouldn't really have much choice as they would have to look after their children. Thus this should not be cut

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: Makes more sense to get rid of these than to reduce other areas in the spending reductions.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling. Arts initiatives support collective mental health and n

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please, please do not go ahead with the arts reductions. It will destroy and seriously compromise so many initiatives that significantly bolster the collective mental health of our communities and allow our already significantly underfunded and underpaid

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? Buses are important means of transport for people who are mid and low income families in addition to students. Supporting bus services support those people who are effected the most by raise of living costs.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I like council to be a supporter to the arts sector. Building Auckland identity by funding arts and culture is important.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The reductions being proposed here amount to austerity. These essential services being gutted are vital to our community's economic, cultural, and social development. All these cuts are an awful idea but the cuts to public transport and early childhood education seem especially bad.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: I see no reason why the council should not aim to both set a higher general rates increase and make greater use of the debt. I do not believe the binary proposed by this question is useful nor reflective of the options available to the council.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I am a 43 year old self-employed designer, business owner and performer living in the Waitematā area. I work primarily in the arts. Public transport is my main form of transport. I have lived in Tāmaki Makaurau for 12 years.

Do not proceed with:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024
- Reducing regional contestable grants.
- Reducing regional services,
- Reducing local board funded activities
- Reducing funding to Tātaki Auckland Unlimited

The reduced number of transport services since December 2022 has mean that I have missed or been late to important meetings, blown my weekly budget through having to book ride shares when the 105 is cancelled for hours at a time, and been left stranded in unsafe circumstances when evening busses were cancelled, resulting in my being sexually

harassed. Reliable public transport is a safety issue – a reliable and frequent public transport network is essential for all users, but especially women, non binary and trans people to be safe.

Kainga Ora housing is being built in my neighbourhood and currently the public transport servicing of this area is inadequate. These new residents will need to access areas around Auckland for work and leisure using reliable public transport.

I oppose maintaining the currently reduced number of public transport services. Public transport services must be increased to better serve community needs. We need to enable more people to use public transport in order to transition to a low-carbon transport system, reduce emissions and unclog our motorways. We need safe cycleways.

My primary source of income is design work for the arts community, so any cuts to the arts, particularly museums and galleries, greatly affects my ability to earn a living in this city.

My main reason for living in Tāmaki Makaurau is access to the arts. I participate in a lot of art events as both a performer and an attendee. A thriving arts community is essential for me to be able to continue to live and work in Auckland.

These proposed cuts, which while small in terms of the Council's overall budget, will have an outsize impact on our arts, culture and creative sector, and youth and community programmes and services.

Our social infrastructure – including our arts, culture and creative sector – is needed more than ever as our communities try to move on from three years of COVID-19 disruption.

This is a time to invest, not a time to cut.

Our arts events, cultural festivals, theatre, dance, music, comedy and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists. This has a positive knock-on effect to our restaurants, hotels, transport and other sectors.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services improve social cohesion, make our city more inclusive and welcoming, help us to attract and retain new residents and industry, boost the local economy, create jobs and make the city more prosperous.

Our arts, culture and creative sector jobs, organisations and facilities are not nice-to-haves that can be turned on or off at will. Jobs will be lost, some of the organisations responsible for delivering these services will shutter, and some facilities will struggle to survive.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024

- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I support an increase of the operating budgets, or 'storm response investment' by around \$20 million each year to improve our ability to prepare for and respond to future storms. This investment must prioritise nature-based solutions, such as the protecti

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

I am a library user and I passionately believe librar

Do you think there are other areas where we could make savings to our local budgets? Defund the golf clubs throughout Auckland

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: It is disgraceful to propose cutting services that primarily benefit those of us not fortunate enough to own property so as to save property owners who have made literally millions over the last decade a really modest sum in rates. And by the way, it is disgusting and unethical of you to bury your submission process under layers of material verging on misinformation fear mongering about rates increases when the actual increases are so extremely modest they wouldn't impact the budgets of most property owners at all.

I am a single mum, do not have close family in Auckland, have no assets or spare money at all and I do not own my own home, yet my only child is doing extremely well academically, socially and in all respects - he was the dux of Ponsonby Intermediate in 2021 and also won the cup for the most influential student, then at Western Springs College in year 9 last year he was awarded the house cup within weeks of starting college then received excellence in almost all subjects (the most prizes of any child) and was awarded the only pastoral prize in the entire junior school (years 9 and 10) for being so kind and caring - the last prize in the whole ceremony and the subject of a speech by the principal.

And do you want to know why that's relevant? - because children who grow up on the wrong side of Auckland's financial chasm (those whose parents don't own property) are the ones who can benefit most from properly funded civil services and who would be most let down if you were to skimp on or axe these services. In order to support my son and bring

him up to the very best of my capability i have fully utilised many of the services that you are trying to cut. We are dependent on the library for our ongoing education (and for my son to complete his English assignments - and he's repeatedly been top in English since starting Intermediate) and mental health - and on the valuable expertise of the knowledgeable and skilled librarians, not some casual volunteers. We use the public swimming pools regularly to help us with both our physical and mental health and because our tiny rental doesn't have much outdoor space. When my son and i have needed a rare treat together over the holidays we have caught the bus into town and visited the art gallery or shows or performances that all stand to suffer if your priority of protecting the rates' budgets of property owners were to win out. One of the reasons my son is doing so well is that he has benefitted immensely over the years from a life deeply immersed in the arts, dance and drama - and has participated fully in a thriving arts community. I have sought advice from citizens advice bureau on occasion - because us renters generally can't afford lawyers you know and sometimes we need support. Part of raising my son in this city also includes showing him how important it is to care for those less fortunate than ourselves - because we are all one community - so we have volunteered at various charities, rescue organisations and homeless shelters - and i hear that you propose cutting funding to places like that too - what kind of message does that send in a city where we so desperately need social cohesion? From when my son was little til he started school he attended early childhood and that support was crucial for me to work, and those relationships and friendships have stood us in good stead for the last 9 years too since he started school. My son and i are dependant on him being able to catch decent reliable and affordable bus services to get around and i understand that this is also something you plan on skimping on. I know the property owners whose rates you're intent on saving prefer to drive their range rovers, but have you not heard of climate change?

Please in choosing between the relatively modest rates increases required to cover this deficit and the impact on those who use the services you propose culling - consider the economic chasm between those fortunate enough to be in a position to pay rates and those of us who don't own property. Do you want the children of people like me to become ram raiders? or would you prefer that those children and their parents had access to the vital community and cultural services that enable them to engage fully in the life of this city and contribute to it? Your savings i believe are insanely shortsighted.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: The amounts you are talking about are absolutely laughable. Property values have increased exponentially over the last decade. People who cannot afford the rates increases necessary to fully fund the important civil services that primarily support the poo

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I support full expenditure on preparing for further climate change related weather events - and i think Wayne's position on things like planning permission to build on flood zones reflect his (old) age and (poor) intellect. His comments on the proposed de

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I do not support any reduction in local board funding

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: It is a disgrace to have to choose only three. Have you not heard of climate change?? All of these services are social or environmental and ALL are extremely important. In my discussion above about why my son has been able to thrive i referred to his invo

Do you think there are other areas where we could make savings to our local budgets? whoever is designing these forms and surveys should be fired bc its verging on misinformation its so boomer biased

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support

Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not support any reductions to services across Tamaki Makaurau specifically transport, Tataki Auckland Unlimited, regional services, local board funded activities, regional contestable grants and ECE services

I am most concerned about the impact on our rangatahi. I believe such cuts will have a detrimental impact on the wellbeing of young people. The proposed cuts and reductions of funding are short sighted and will impact both directly and negatively on the wellbeing of rangatahi and their whānau across Tāmaki Makaurau. Key relationships and programmes will be stripped from young people who are already vulnerable due to the impacts of the floods, Covid19 and the cost of living.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why: I do not have a comment to make on this question

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: I accept that rates and debt will need to increase to meet the budget challenge. I do not support any reduction in local board funding in particular that which will impact the vital community activities and services delivered by local boards

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: I am very supportive of any plans to prepare for and respond to future storms. I accept that such planning would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address ou

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

Tell us why: I do not support any priorities as I do not support the reduction in any local board funding/activities. My particular concern relates to the wellbeing of young people. The proposed cuts and reductions of funding are short sighted and will impact both dir

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: They are all important and I am opposed to the reduction of any of these services.

Do you think there are other areas where we could make savings to our local budgets? Absolutely not. I am completely opposed to any reduction in local board budgets

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: This budget will cause huge hardship to communities and the environment in the short term and the long term.

We need to lift people up and support them and cutting funding will create longer term problems.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Auckland Airport is a strategic asset for the people of Auckland. It is a valuable asset and has earned dividends in the past. I do not agree with selling an asset which will earn money well into the future.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Using more debt and a slightly higher than 4.6% rates increase needs to be used instead of cutting operational

services to Auckland.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The council needs to take a strong role in helping us all be prepared for future weather disasters. Sell some Tennis Courts & Golf Courses

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: We need to increase, not reduce, funding for local boards so communities can create solutions for themselves.

Councils need to empower local boards to do this.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Local waste minimisation activities e.g. Waitemata waste away

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets? sell golf courses and tennis courts

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? sell golf courses and tennis courts

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Keep Tupuna Maunga Authority growing with authority from Ngati Whatua ki Orakei.

Collaboration between governmental groups and communities needs to happen now. It is imperative that Auckland Council work with communities to find solutions. Councils cannot

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I would not proceed with: "Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million." These are all important initiatives, especially funding of CAB services as they assist the poorest of society. (It would be ok to not fund CAB if the government permanently funded the CAB services as it does in other regions.)

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: It is important that Auckland Council (and therefore Auckland), has a partial shareholding in a strategically important asset.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Storms and other weather events will continue and are likely to be more frequent and more severe, so we need to prepare and respond to future storms.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: It is extremely short sighted to cut really important services, such as library operating hours. Libraries are an important part of the community and also the libraries house important other services that may be affected, including Justices

of the Peace,

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: Libraries and the services they offer, particularly for school children and others who do not have safe quiet spaces at home/and or internet, are really, really important for communities.

Protecting and restoring the environment is really important, not

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

As we have seen recently, Auckland is particularly sensitive to the risks of flooding. There are many low lying places and a number of clearly known and identified flood plains in Auckland. We need to stop doing things that make Auckland more vulnerable t

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Would not proceed with cuts to funding of Citizens Advice Bureau in particular and community and education programmes in general. Would not cut arts programmes in general except for some things, eg, free open air cinema.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I support an increase to rates and debt but rates increase subject to rebates for those on low incomes.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: I might support an increase to the operating budget if some basic things were done first - eg, regular drain maintenance including clearance of leaves (ie, not just blowing them into a pile and not collecting them).

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: What is a city without culture, art, and quality spaces to spend time in for all people? Absolutely nothing. This is an essential expenditure not only for the liveliness and inhabitability of Auckland, but even for the appeal of the tourist industry.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Support keeping our current airport shareholding because once gone, this asset can no longer be leveraged or support future revenue raising for Council. Prior to covid the airport shares generated a \$60m dividend for Council which is why the shares are so

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Amidst inflation, rising rents, and rise in cost of living, a rise in rates makes living in Auckland more unaffordable. Debt can be repaid. It is the council's responsibility to find ways of managing finances, not at the expense of the city and its people

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

Tell us why: For reasons already stated, this will immensely reduce the quality of the city.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Support Council adopting an alternative budget that invests in Auckland's recovery, community well-being and climate action; this is not the time for austerity. Instead, the council should maximising alternative sources of revenue that are not at the expense

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Auckland Council should retain sufficient financial interest to AIAL so as to be able to exercise an appropriate level of influence over this key element of infrastructure and revenue source.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: The only super city in Aotearoa needs to continue to spend and grow to attract new residents/ratepayers.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: The city needs to be made more resilient against the impact of climate change and this will cost money. All current and future residents in Auckland will benefit from the expenditure needed to improve the city's resilience.

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Local boards should have their funding maintained at current levels so as to continue the delivery of social and environmental programmes so as to make the Orakei Ward more resilient and attractive to investors and residents.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental programme volunteers, Environmental restoration and pest control, Protection and restoration of local waterways

Tell us why these are most important to you: Without a continual improvement in the natural environment within and around the city the quality of life for the current and future residents and the natural ecology will be degraded.

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: The local board funding should be maintained at its current level by increased rates to permit social and environmental programmed to completed and new ones initiated and sustained.

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I support the prioritises but not the proposed funding reductions. Rates should be increased to be able to sustain the existing programmes and to achieve the priorities listed. Social and environmental enhancement initiatives must be sustained.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: These represent a mix of social and environmental activities that have a direct benefit of the residents and indirectly investors.

Do you think there are other areas where we could make savings to our local budgets? No.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: I agree with the case made by the A Better Budget for Auckland. The options we are asked to choose between are NOT the only options that should have been offered.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other

Tell us why: I agree with the case made by A Better Budget for Auckland. The airport shares should be retained to give the people of Auckland some say on the future of a strategic asset, at least as important as the Ports of Auckland

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Spread the costs of long term assets across a broader generational timeframe.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: Readiness for extreme weather events should be core council business, not an expensive add on.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: They are fundamental elements in urban life. Cutting back on these will create a sad desert for Aucklanders

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not reduce funding to: Tātaki Auckland Unlimited, regional services, local board funded activities, regional contestable grants.

These bodies help fund the cultural arts and community services sectors. Contribution to the arts and cultural sector ensures that the city is welcoming, interesting and attractive to residents and visitors. A vibrant city attracts jobs, services and is what makes living in the city enjoyable. All of which are a boost to the local economy.

Libraries are an essential. Their contribution to health and wellbeing of citizens is immense. They not only provide cultural nourishment but also quiet places for study that many students need. Lack of library services will curtail equal opportunities.

Citizens Advice Bureau have proven themselves useful and indeed essential services over many years. Their expertise is a HUGE benefit to the community. At a time when social cohesion is all important and difficult to achieve after travails of COVID, flooding and economic pressures, their contribution is all important.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt?

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms?

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: Investment in social cohesion is important - it underpins a functioning society that is enjoyable to live in. Social fabric is fundamental.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Reduction in cultural events will make for a poorer, boring city. Reduced vibrancy affects all sectors - jobs, retail, economic activity of all kinds especially visitors.

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The arts and culture are an integral part to not just our community but our nation. Reducing these services would be a great mistake.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Council should both set a higher general rates increase and make greater use of debt.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles, Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I'd rather pay a small amount more in rates than make drastic cuts to services that won't be easily reinstated later on.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

For example page 196 outlines the operational fundings to be cut to Crown Lynn Pottery/Te Toi Uku. Te Toi Uku currently needs to raise 40% of its operational costs already without these proposed cuts. AK council's budget proposal could close the doors of this valuable museum which is the only remaining physical reminder of a vital industry that informs our national heritage and unique New Zealand identity. Te Toi Uku have onsite the last remaining kiln from the brick-making era in Tāmaki Makaurau and a vast collection of NZ made ceramics, from technical ceramics to tableware.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost the both the city, heritage and community more in the long run.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture facilities and events, Environmental activities e.g. pest control and wildlife protection on west coast beaches, Climate action and sustainability initiatives

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please see my attached submission letter which outlines my priorities and areas of support.

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Tēnā koe,

I am writing as Director and Curator of Contemporary Art of Gus Fisher Gallery, The University of Auckland's flagship art gallery and centre for contemporary art. My submission to councillors opposes the proposed cuts to the arts and cultural sector which will cause irretrievable devastating damage to the city's economic infrastructure, tourism, audiences, local communities and artists.

As someone who grew up in a working-class household in the UK, my dad a factory worker who thrived through his passion for music, and my mum a shop worker whose weekend trips to art galleries enabled me to develop my own passion and educational journey about the arts, I know first-hand just how transformative and important the arts are. I went to a rough school, learning was difficult and the environment was challenging. The arts gave me a different way to look at the world, an escapism and an education that I would have missed if I had not had them to visit and engage with. I gained my strong knowledge of history, writing, spelling and social speaking from going to galleries and participating in activities. I was creative and they enabled me to further my skills in this area. Without them, I wouldn't be here and I certainly wouldn't be successfully in charge of a leading art space in Aotearoa. The arts were my turning point and I hope they can continue to be for all of the people out there who now need them as much as I did.

Aside from my professional capacity, I value the role that arts bring to the creative lifeblood and wellbeing of the city and its inhabitants. I take my family to visit galleries and gain some of the most memorable experiences from these visits. Born in the UK, I know the power of a thriving cultural sector and its ability to bring people together, help us understand the world in new ways and ultimately to foster new learning and key skills. The arts are integral to our wellbeing and their important value as free to visit venues that hold and celebrate our taonga cannot be overestimated.

While I understand cuts do need to be made to make the city more sustainable, I believe that a rates increase would not be opposed by residents and would be one solution in enabling Tāmaki to continue to thrive. I strongly oppose cuts to contestable grants, the Regional Services budget, local board funding, and to Tataki Auckland which will be destructive to the city and everyone that relies on these services. We want and need our arts and culture – our international tourism wants to see and enjoy culture that means something, that says something about Aotearoa and its place in the Pacific, to bring meaningful and transformative experiences to Aucklanders that cannot be experienced elsewhere. People don't visit Auckland to see car parks!!

Auckland's arts, culture and creative sector helps make Auckland an enjoyable place to live and to visit. Our arts events, cultural festivals, and our lively theatre, dance, music, comedy and other creative activities bring life to our city, and bring Auckland communities together. At Gus Fisher Gallery, we support the arts sector through vibrant and dynamic exhibitions and public programme events. We regularly collaborate with Auckland Pride festival, the Auckland Arts Festival and support our rainbow communities in any way we can. We have huge numbers turn up to our exhibitions and practical workshops for whānau and tamariki, and we are just one part of a network of arts organisations, festivals and community engagement initiatives that do this.

Slashing funding to the arts sector will set the city back years and its one of the things that makes this city great and a wonderful place to be. Ultimately, artists and practitioners will suffer, and some are only just recovering from the impact of Covid-19 on their lives. The arts should be seen as a valid and exciting profession, not one where funding is continually at threat.

The proposed cuts to contestable grants, regional services, local board funding and Tataki Auckland, while small in terms of the Council's overall budget, will have an outsize impact on our arts, culture and creative sector. The arts, culture and creative sector was hard hit by COVID-19. Lockdowns and audience hesitancy knocked out many of Auckland's festivals, events, and many performing arts events - theatre, dance, music and comedy. Central government COVID-19 funding reduced the impact from 2020 to 2022. That funding is now coming to an end, and our arts community is getting back on its feet. A range of festivals, arts events and performing arts are coming back to our city. Auckland Council funding is central to the post-COVID-19 recovery of our city's creative sector. The Council's continuing support for our creative community, commissioning of creative work, the grants available to support arts organisations, and the Council's support for arts infrastructure, such as our theatres, is essential to our recovery.

My submission also opposes the cuts proposed to Auckland Art Gallery Toi o Tāmaki's operating budget leaves it with a bare bones operating budget of \$9.5m pa, after shared TAU services fees are deducted. This is compared to \$32.2m and \$18.6m that Auckland Museum and MOTAT received in full respectively in 2022-2023. This imbalance between the city's major cultural institutions leads to a great loss for the city – of tangata/people, of access to and care of the art taonga/treasures and of the future creation of culture in Aotearoa. And, unbelievably, TAU is expected to propose even more cuts. Close to 500,000 will visit in 2023. (MOTAT, 2022: 100,554 visits, Museum, 2022: 488,553 visits).

Yours sincerely,

Lisa Beauchamp, Gus Fisher Gallery, l.beauchamp@auckland.ac.nz

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: These cuts are to ESSENTIAL services that make living in the city a pleasant experience. The council is not there just to provide roading and rubbish collection. These suggested cuts will affect us all and they are not good.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Auckland Airport is an important asset to the city. We should keep some stake in it but I am happy to sell some shares to reduce debt in this time

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: We need to live in a vibrant city that provides all of its inhabitants good quality services. If we need to pay more then for this then we will have to.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This is very important as we will face further storms in the future

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: they sound like good sensible priorities

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterway e.g. Te Wai Ōrea lake and

wetland, Environmental education e.g. Schools treasuring Waiōrea, Local waste minimisation activities e.g. Waitemata waste away

Tell us why these are most important to you: they are all important and I wanted to chose more than 3.

But to me the environment is really in need of help and if we do not treat it right we'll have more problems

Do you think there are other areas where we could make savings to our local budgets? Pay less the mayor less salary? I do not think he is worth what we are paying him.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We must look after our environment. We must look after the people that live here. We must make Auckland are thriving exciting place to live. Then we will attract good people. A lot of these suggestions are made from an accountants point of view and do no

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing regional services - these play a critical role in supporting many people from different backgrounds across the city.

Reducing local board funded activities - these are focused on local community needs and serve the function of supporting them.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: The Council needs to maintain some share in the airport from a longer term viewpoint.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: While I am typically not affected personally by weather events, it's important to provide assistance and improve opportunities to minimise the impact of weather events on the lives of people and property in the city.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Local waste minimisation activities e.g. Waitemata waste away

Tell us why these are most important to you: Gosh, they are all important. I have indicated two environmental and one 'peoples' programme to try to find some balance.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: Collect the proposed but on hold Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package. Definitely do not decrease funding to homelessness response, CAB funding etc

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling shares gets a one off return. I believe it is short sighted. Keep shares and focus on other transport options with revenue from increased rates such as maintaining or increasing bus services, looking at future cycle ways and walkways.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Take the Water Quality Targeted Rate and the Natural Environment Targeted Rate, off hold in order to generate revenue to avoid cuts. Increase the general rates a bit more and potentially borrow more due to unprecedented events in recent months.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Investment in infrastructure is crucial to avoid similar events due to a lack of stormwater drainage or clearing of blocked waterways. Flooding impacted local parks and houses and spongy planting would help as similar weather events are likely to increase

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I think funding increases for all boards rather than reduction is key. I think the value for the community and community assets is essential for healthier societies.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Local grants e.g. community and accommodation grants, Local waste minimisation activities e.g. Waitemata waste away

Tell us why these are most important to you: I think the three above meet the needs of the most marginalised in our city the most.

Do you think there are other areas where we could make savings to our local budgets? I would like to avoid any cuts by increasing revenue through rate rises, borrowing and unfreezing some revenue gathering initiatives.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I think we need to encourage a resolution on a tourist tax for visitors to Tamaki Makaurau as well as looking at other revenue gathering initiatives such as selling off some of the golf courses for housing schemes (Making some courses smaller). Subsidisin

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Its really important that public transport is maintained. With the cost of living crisis and climate change if anything we should be promoting the use of public transport (which limiting or reducing would go against). Given the cost of living crisis too I think its important there is still free/ affordable public facilitates for both families, students etc.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Auckland as a city needs to have some power over the airport, given its critical role in being the gateway to the city. Doesn't need to be at 18% though

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? Suggestion to reduce the number of rubbish bins in parks is actually ridiculous. Can't see how this would substantially reduce costs and runs the risk of making these spaces unsafe and unusable.

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Services were already slashed after the Covid-19 impact on the Council's finances. There should be no further reduction in services. Rates should be put up instead.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Auckland Airport is a strategic asset to the city. The Council should retain a shareholding in it so it can influence future airport developments to the benefit of Auckland.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why: Auckland rates are already low compared to other parts of New Zealand. Any 'rise' less than general inflation is effectively a cut. The Council should increase rates to a point that it can start to pay down its debt, so that future Councils are in a better

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you: Abandoning the progress made so far in the environment and community spaces will make it that much harder to get back to where we are once more budget does become available.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Council should be lobbying central government for additional sources of revenue such as congestion charging, increase the statutory limit on parking fines etc.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would not proceed with if any: Auckland's financial problems have a lot to do with Government interference in the theft of Auckland ratepayer assets and creation of the super city without the recommended referendum of Auckland residents, the ones who have paid for the assets and infrastructure of Auckland and are continuing to do so..

The financial problems are largely due to a lack of prudent financial management and proper financial controls in the creation of Auckland Council by Central Government, a toxic and highly political culture within Council towards prudent financial management poor financial management of projects and budgets and failure of accountability by successive CEOs, elected Councillors and Mayors. Problems are also apparent from the stand of the Labour/Green/City Vision councillors who claim they support prudent financial management but most if not all of them have very little idea or experience of what that involves. This means that decisions about financial expenditure are being made by Councillors who have no idea what financial controls need to be in place or what questions to ask to ensure financial accountability and to ensure delivery of promised outcomes. Are there any assessments of outcomes for grants given?

It has also become obvious that there is an attitude amongst Labour/Green/City Vision elected councillors that the ratepayers of Auckland can continue to pay for their nice to have favourite community projects etc (all for personal electioneering purposes) to the point that they do not care or perhaps directly intend for more financial difficulties for

Auckland ratepayers so that at the end of the day Central Government will be given the opportunity to appoint a commissioner for Auckland just like what happened to Tauranga when Stephen Town created the same financial problems there.

In these circumstances we have reached the situation we find ourselves in and the only solutions, from the Councillors who object to the proposed reductions in Council spending, are to increase rates and Council debt. This in the face of unplanned for events just having happened e.g the January floods and Cyclone Gabrielle which have incurred unplanned for extra expenditure for Council at a time when it cannot afford it. There appears to be no prudent planning from the Labour/Green/City Vision Councillors not to financially overburden ratepayers at a time of financial uncertainty and a slow down in the economy which is leading to business failures. This equals a reducing rates pool ladies and gentlemen! 2023 has demonstrated that we cannot continue to ignore future planning for emergency situations.

Concern from Labour/Green/City Vision for increased costs to residents and businesses if cuts do go ahead needs explanation from them. If the solution to not making cuts is putting up rates and increasing debt, hence increasing the costs of servicing that debt, then residents and ratepayers are the ones who WILL be paying the increased costs straight away. What they are saying is dissembling and it is hoped that someone will publicly raise this issue with them.

I do support cuts to some of Tataki Auckland Unlimited facilities and services, Auckland Live, the Stadiums. Also regional events, culture and Local Board discretionary spending. It would also be good if Democracy Services raised the level of Local Board fiscal responsibility and accountability to ensure that each Board stays within their budgets.

If Watercare can bring in infrastructure projects on time and on budget then so can Auckland Transport and every other CCO. It is time that this kind of fiscal control and accountability was applied across Auckland Council, its organisations and their financial management.

It is prudent and responsible financial management that is required of Council and elected representatives which has been lacking in the past under Mayor Goff's tenure.

I do ask that the residents of Auckland be given information on the future planning of Auckland Council, how debt is to be managed, the priorities for Auckland Council investment and expenditure and when AC will be in a position to look at these issues again.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: I would prefer that Auckland Council kept these shares for the reasons set out by some Councillors. However in the current unstable financial environment, with a serious economic crisis looming for Auckland and New Zealand, a Central Government that in

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential

- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: Could we please have a clear plan for use of debt? How is it to be managed in the long term and what are the levels of debt expected to be? This is particularly important for ratepayers who are facing calls from some Councillors to pay large rates increases

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This investment is well overdue. There are also cost effective green solutions that do not cost as much as grey infrastructure and I request that Council look at these ways of doing things rather than the traditional grey infrastructure route which is so

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Everyone has to do some belt tightening because of the profligate and spendthrift policies of previous Councils and Local Boards under former Mayor Goff. The complete failure of prudent financial management or financial accountability is well demonstrated

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Identify additional no / low mow areas in parks and reserves

Tell us why these are most important to you: Libraries are important to those who have low incomes and need support in their daily lives. They are important for children and young people as safe places to go to be quiet and enable the development of curiosity outside the technical always in our face

Do you think there are other areas where we could make savings to our local budgets? There are many savings that could be made in the practices and processes of the Local Boards by simplifying the strangle hold Democracy services has. The management of members by Democracy Services and the control exerted by them on the work of the Local

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? Regarding waste. Fly tipping is becoming a problem. You put up waste charges you get more fly tipping. That is just the way it is. People who are paying their rates should not be penalised by those who do not pay. There needs to be some serious thinking a

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We need to avoid the nice to haves unless there is going to be real measurable dividends from the expenditure. This I would have thought was obvious at this time but apparently not.

Low Carbon and Emission reduction goals are nice to have but carbon is n

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not cut funding to the arts and transport facilities as these are things that make a city liveable and enrich the fabric of a city

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any:

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: A city's airport is a public good it should not be privately owned

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I would be happy to pay more on rates for continued public services

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community development and support, Local arts programmes, Community climate action and sustainability

Tell us why these are most important to you:

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Or is there anything further you would like to give feedback on?

Auckland Council needs to implement flood prevention for the Mangere residents living next to the Tarata Stream (Te Ararata Creek). This has been in Council's planning for some years and needs to be prioritised urgently to prevent loss of life and property

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not support any of the reductions proposed.

You say that you would look into reversing the cuts later, but in practice this would not be possible for almost all the proposed cuts. Many community organisations, education programmes, sports and charity organisations, and even the activities of local boards rely on a huge amount of volunteer energy and need continuity. In most situations it would cost more (time and money) to reinstate the level of service back to 2022 levels after two years of cuts than it would to just fund the services throughout the 2 years.

Responding to some of the specific areas of reductions:

1. the current reduced level of public transport services is damaging the city. It has become even more of a problem since the rail line closures. The reduced services, and the lack of reliability (partly due to the increased congestion from mode shift back to cars, due to reduced buses), is meaning more mode shift to cars, which leads to even more congestion. This is causing huge economic costs for the city even just thinking in terms of lost time for workers/businesses. This is also increasing carbon emissions, which is obviously bad and a move in the wrong direction. The mode shift back to cars that the bus (and train) reductions are causing will be difficult and slow to reverse once you

bring back buses and trains. You cannot afford to lose the public transport users you have. You have to grow this number. You have to put more funding into providing more frequent, more reliable bus services. You needed to do this yesterday, but if not then, then today. This will help with congestion and carbon emissions in the short term, and will have massive positive long term impacts.

Related to this Auckland Transport reduction, you cite "lower parking and enforcement revenues" as a reason for needing to cut bus services. I suggest that instead you increase revenue collection. There seems to be a lot of money to be made in particular related to illegal (and dangerous) parking. But I think that comment needs to be made in another section.

2. we are in a 'cost of living crisis' and a time when our communities need more support, not less. Do not cut funding to social services activities. This is a time when we need it more than ever.

3. due to the past 3 years of covid lockdowns and uncertainty, many arts and cultural programmes, community events, etc. are right at their limit in terms of being able to survive. Do not cut funding to them. We need them as a city. Our city's soul needs them.

4. do not cut funding to Auckland Libraries. They provide an invaluable service. They need to be open for at least the hours they are open for. And they need to be well resourced and able to provide that safe space and so many free services for people in our community - especially during a 'cost of living crisis'.

5. the funding that local boards and contestable grants give out often provides the small amount of \$\$ that volunteer groups need to achieve outcomes that are worth far more than the small amount of \$\$ that the grants provide. They work to catalyse or enable much greater things to happen. They are such a good use of money. Without them you lose far more than the money saved.

6. do not reduce the ability of local boards to provide services to their communities. The most recent floods have demonstrated the importance of local communities for resilience as well as social support. Feeling connected to and involved in your local community is also key for wellbeing, and for reducing crime and other negative social impacts. Council facilities are often the only free or affordable places that non-high income families can go to a swimming pool, play sports, and that cultural/sports/social clubs can gather. Do not defund them. Do not make them 'user pays' with higher fees that make them out of reach of most organisations/people.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: I don't really know, but think that losing any stake in the Airport is short sighted. It is a key part of the city and its connection to the rest of NZ and the rest of the world.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024

- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: I am happy to pay higher rates and to have council provide more services. I am also comfortable with Auckland Council making greater use of debt. Finally I would like Auckland Council to look at ways to increase revenue rather than just reducing services

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: If you say you need it then you need it. Don't cut costs in the short term in a short sighted way that will increase costs and harm in the longer term (the way you seem to be trying to do in the rest of the budget).

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Community resilience and connection is so important. Libraries and community services, and community facilities are so important. We need places that have opening hours that mean that everyone can use them (e.g. in the evenings and weekends as well).

Sup

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental restoration, volunteers and pest control, Community climate action and sustainability, Library hours

Tell us why these are most important to you: What a terrible Sophie's Choice situation. This is a horrible question.

Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Community resilience and connection is so important - we saw this in the recent floods.

Supporting local organisations to be able to provide programmes and services through cheap leasing/use of community facilities and providing community grants is vital

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community leasing charges, Library hours and services, Environmental restoration and pest control

Tell us why these are most important to you: Supporting local pest control is an important role local boards play, and it is crucial that this continues. If you pause this you lose all the gains you have made so far by letting the pests come back, and you lose the community of volunteers that you have

If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?):

Puketāpapa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Community resilience and connection is so important - we saw this in the recent floods.

Supporting local organisations to be able to provide programmes and services through cheap leasing/use of community facilities and providing community grants is vital

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community lease charges, Environmental restoration and pest control, Community climate action and sustainability

Tell us why these are most important to you: It's so hard to choose. But I tried to pick the things that were the least reversible.

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

Tell us why these are most important to you: The libraries and the community centres and programmes are so important for community connection. They also provide vital social services and are open to all.

Do you think there are other areas where we could make savings to our local budgets? I don't think you should have to.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	

Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

In general, I do not support the cuts proposed or the general 'austerity' approach of this budget proposal. It is damaging, short-sighted, and completely inequitable.

It cuts services to those who have the least \$\$ in order to save a small rates rise whi

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Do not support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: All of these activities that ratepayers fund and that council executes makes Auckland a fantastic place to live. Other cities across New Zealand have higher rates and a lower quality of life than Auckland.

The Mayor and his overly-compensated team are nibbling at small but important elements instead of tackling the most obvious solution - SELL THE COUNCIL GOLF COURSES. Of course, he will not do that because that will irritate old, wealthy, white men who can afford to bankroll lawyers.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares? Don’t change the policy, keep all our shares and further increase rates and/or debt

Tell us why: This proposal is just plain stupid.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I love my local board! The Waitematā Local Board's vision and direction are some reasons why I continue to live in my local board.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: Honestly, these choices are very difficult because I support all of them quite strongly. The three that I selected provide spaces for communities and are often in high use. I want to secure that.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland is my home, and it is very important to me. I acknowledge that the cost of living is increasing, rates are increasing, and fees & charges are increasing. I accept that my financial contributions are increasing to ensure that Auckland contin

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: These cuts overwhelmingly impact our Tāmaki communities who are most vulnerable - our homeless, our at risk youth, and women in the workforce. Shame on you.

Public transport options, in line with increasing effects of climate crisis, should be expanded to make these more accessible to more of our community. Reducing services in the first place is negligible at best, disastrous in reality. Shame on you.

Cutting arts and cultural funding should be avoided at ALL cost. The arts bring people together, are a space to discuss challenging ideas and concepts, create community and belonging. The value of arts may not be measurable in dollar value, but the arts are invaluable.

Directly providing ECE supports women to work, it supports equal rights for women that have been fought for for decades. Withdrawing this is an enormous step backwards and an attack on women's rights. Shame on you.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? I don't know

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: anything to do with giving value to Auckland and its multicultural society, including its diverse (age, gender, ethnicity, interests) population

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It is a dangerous short-sighted idea. Once you lose these shares, they are gone.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: Why not. It's happening elsewhere around the world and is to be expected after a torrid few years.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: As it is only going to get worse because of climate change. As anyone can see looking around the world, the weather has become unpredictable.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why: Leys library is an excellent library and community space and we need it for our young, elderly, all, but you do not need to go the whole hog and could easily go with the cheaper option offered. If you don't look after our community spaces the area will die

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Local community events e.g. Parnell Festival of Roses, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: They are all important. Making us choose only three is impossible if you are thinking of the community and environment as a whole.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Other

Tell us why, and which reductions you would not proceed with if any: It is irresponsible for Council to proceed with any reductions. An austerity budget like the one proposed is not what Auckland needs to get back on its feet and back to being its best.

Instead I would like to see you unfreeze the Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package. I also believe the Council should request central government support, and lift parking charges as alternative funding mechanisms.

The proposed cuts are damaging. I have lived in Auckland all my life and benefited from the investment and debt taken on by previous generations to create the city my children and I enjoy now. That city is not currently at its best but with help it can find its feet again. The events of the past three years (Covid, flooding) and those we are just starting to face (climate change) have reinforced the importance of a resilient connected community - now is not the time for austerity; now is the time to take on debt and invest in building back a stronger even better Auckland for future generations.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Selling the Auckland Council's airport shares now means all future revenue from dividends is lost. Holding the shares means we will continue to receive revenue and benefit from the increasing value of the land.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: There is much more that can be done to leverage rate increases and borrowing at this time. Unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate will generate an estimated \$50 million in annual revenue.

I would also like to

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: We must invest now in infrastructure to help us prepare for ongoing extreme weather events. Without investment in stormwater and other infrastructure the future costs will be high, and not limited to financial costs, but also to ecological and human costs.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: Waitemata Board does a great job of looking after our neighbourhood and local area facilities and activities like libraries, community centres, public pools and gyms, and parks. As well as Leys Institute, I also want to see priority given to our other lib

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you: It is gutting to have to select three as all should have funding that is why I cannot support this budget. I have chosen the three I have because libraries are community hubs and offer a service that goes way beyond the traditional services offered to rea

Do you think there are other areas where we could make savings to our local budgets? No - we should avoid cost cutting and instead increase debt so we can invest more in these services not less.

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? I am strongly opposed to the cutting of planned increase in bus frequency funded by the Climate Action Targeted Rate - we need more bus services not less if we are to take petrol cars off the road and meet our climate action targets. I would also like to

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The budget proposed here is not the only option available to us. We must invest in our city, our people and our future now, not cut back. We can afford to borrow more and we should. I want to see the Council invest more in tourism, public transport, the a

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

ECE, citizens advice and community funding should not be cut. These are small amounts in the overall budget but vital to our lower economic community members. Cut consultant costs for a variety of services

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reduction of childcare funding

Reduction of funding to community services such as libraries

Reduction of funding to arts, zoo and art galleries

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why: That money can be used for debt reducing and to prevent the reduction in funding as mentioned above

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why: The money has to come from somewhere!

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: This future planning is essential

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why: I think this paring back needs far more investigation and discussion with community members

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: Without support for arts and literature this city will lose its soul

Do you think there are other areas where we could make savings to our local budgets? Councillors salaries

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reduced public transport services, reduced regional services

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Selling all is too much of a short term view.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase and make less use of debt

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local grants e.g. community and accommodation grants, Environmental education e.g. Schools treasuring Waiōrea, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

Reducing local board funded activities across all boards to save \$16 million

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It's a short-sighted plan

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Slashing what makes life worth living and screwing over poor people isn't the answer but of course that's the only idea Wayne Brown can come up with. Working with the Gov for higher taxation for individuals that earn over a certain amount of millions woul

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Again, short sighted. Focusing purely on this issue when there can be a multitude of issues that could hit next isn't smart. Quantify what needs to be done first (how has this not been quantified by now)

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Too many short term wins for the Mayor that will lead to a depressing place to live

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Many of the services which are proposed to be reduced are already running at barely minimal or viable levels. They are the social infrastructure of the city. They provide the vibrant and interesting this in our lives which make it worth choosing to live in Auckland and putting up with the inconvenience of a large city like traffic, rents, food prices, congestion

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: selling all the shares removes any future earnings and any future say in the shape of the airports development - a strategic asset for the functioning of the city

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a higher general rates increase

Tell us why: proportionally Auckland pays lower rates than many other cities in New Zealand. The obsession with reducing rates has got us into the financial position we are in. Equivalent valued properties in other places pay far higher rates than in Auckland and receive

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: education related programmes need to be funded more fully by central govt

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It is appropriate to manage through an economic downturn by stretching out the pain through debt-funding. The changes brought by climate events are here to stay and we need to budget for more of our overall costs in this area - we need to pay more rates

Important privacy information

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tātaki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: The costs of these 'savings' will be felt elsewhere. Austerity economics has failed time and again the world over and the cuts are based on a philosophical savagery of mind as embodied by the Mayor of Auckland who believes art galleries and public services such as libraries which create a civil society are not worth retaining. He has described himself as a philistine and I can only agree, do not proceed with any of the following:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million

Reducing our funding to Tātaki Auckland Unlimited to save a further \$27.5 million, with effects on service delivery (including economic development and tourism promotion) and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland

Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

Reducing local board funded activities across all boards to save \$16 million

Reducing regional contestable grants to save \$3 million

No longer directly providing early childhood education services to save \$1 million

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Rogernomics is a failed financial strategy - these assets belong to all Aucklanders

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Set a lower general rates increase and make greater use of debt

Tell us why: Fairer to business? I don't see business being impacted adversely by these cuts - I see arts and creative industries and hard working mothers and families being impacted by a toxic perspective that has proved time and again that it prefers profits over pe

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

Tell us why: The key priorities seem at odds with the information in the supporting document

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts

Tell us why these are most important to you: As a long time Grey Lynn and central suburbs resident community is key for the area - libraries provide an important function in maintaining and fostering community, they are a hub as are community centres.

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run. I'm

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: The council should set a higher general rates increase and make greater use of debt. Projected possible rates increase models are well within what is 'affordable' for median annual household income. Win win.

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: HELLO! GLOBAL WARMING IS HAPPENING RIGHT NOW! INVEST IN HOW WE CAN ADAPT TO IT. This is just the beginning of a new way of life. Adapt or die.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland

Tell us why these are most important to you: Not only does Auckland breed an unmatched pool of creative people and artists, Auckland is also an alleged UNESCO city of music. When you remove funding, opportunities and spaces for people to hone in on their creativity, create community, expand knowledge

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

This city is truly falling apart at the seams. The cost of living is at an all time, unliveable high. Wealth disparity is cooked. Near impossible to catch or rely on public transport to get you from one end of the city to the next. Not a single venue that

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: As a member of a community group/charity that relies on grants to operate, I am concerned about the suggestion of reducing funding for arts and culture programmes, local board funded activities and regional contestable grants. It will make it much more difficult or impossible for many community groups to keep going. Presumably a reduction in council grants would increase the competition to get gambling money to fund community activities.

As an Auckland resident, I am shocked at the idea of reducing 'regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres'. This is not consistent with making Auckland a great place to live. Coming out of covid, this is the time to be investing in the future of Auckland and making it a fun, exciting, safe, happy, place to live. And keep funding the CAB.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: Auckland Airport has a monopoly, it has no competition. I like Aucklanders having a stake in their local airport. Don't sell the shares when global travel is starting up again.

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: I especially support environmental education and restoration projects. I would also like to see the Leys Institute restoration completed.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community programme delivery e.g. community networks, youth and arts, Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental education e.g. Schools treasuring Waiōrea

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Auckland transport is already shocking and you want to reduce it more. You want to reduce community education? How are people meant to learn or participate in activities in the community. How does the community come together when you reduce stupid things you propose.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

Tell us why: Airport already is bad anyway! Stupid system with car parking miles away for drop offs, it's already short staffed, it doesn't contain any entertainment, proper or nice food places and just looks ugly! Can see why other airports international that work to

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why: Already living in high cost of living! What would you like me to do to survive in this country!

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Do not proceed with the proposal

Tell us why: It was a one off storm!

5. Local Boards

Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Environmental restoration, volunteers and pest control, Temporarily or permanently close council venues

Tell us why these are most important to you: This is the time when community comes together!

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Local waste minimisation activities e.g. Waitematā waste away

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets? Everything!

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I think you should start with reducing the insanely excessive wages you pay to council members

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: I think it is very important that the airport is not privately owned this would be a very stupid decision proposed by a very short sighted and stupid man (wayne)

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Other

Tell us why: Tax the rich you **** heads

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: Kill Wayne

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Don't increase our rates borrow some ****ing money and have Wayne executed in aotea square

Submitter details

Organisation (if applicable):

Your local board: Waitematā

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: Transport with the climate crisis. Not only that traffic is bad enough so more busses hopefully means less traffic so people can use them instead of cars.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: It's passive income for Aucklanders. This is a short-term solution that doesn't help in the long term

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? I don't know

Tell us why:

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why: Will help Aucklanders in the

long term if another event like this happens plus with global warming weather events like this will be more common so we should prepare.

5. Local Boards

Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterway e.g. Te Wai Ōrea lake and wetland, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

Tell us why these are most important to you:

Do you think there are other areas where we could make savings to our local budgets?

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

What is the current council debt would like to see these figures or find the information easier

Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at aucklandcouncil.govt.nz/privacy and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Your feedback

1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would not proceed with if any: I do not agree with "Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million", as it is becoming increasingly more difficult to successfully utilise those transport services. Myself and many of my peers, coworkers, family, and friends, have on many occasions faced the sudden cancelation of bus services that we rely on in order to get to work as well as facilitate the needs of weekly grocery shops, visiting of loved ones, and of course towards going out into the businesses of our city to spend money. On these occasions we are left waiting until one of the listed services isn't cancelled, thereby either arriving late, which is professionally unacceptable in the case of work or appointment management, and socially unacceptable in regards to friends and family, or taking even more time out of our days to accomplish what was previously a somewhat acceptably manned and on time service.

As an extension of this I have often found that on the occasion a bus is not cancelled, it is invariably and sometimes dangerously over packed, with far too many people forced to stand jammed against one another in the aisles, even on the second floor of some of the double decked services.

I believe the perceived over expenditure or overstaffing of the bus services is born from fluctuations in the quantities of buses needed over the pandemic period in order to facilitate social distancing, as well as the tentativeness of many people to return to use of the public transport system for fear of social distancing as well as lack of faith in the post

pandemic system which directly reflects cutting of services at the time. The half price fares of last year were a brilliant incentive towards more frequent use of these systems and I believe if they were accompanied by a more structured, rather than general increase to services around peak times, then we would see more consistent use of these systems and therefore their internal revenue to support themselves on top of council spending.

2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why: My primary objection to this proposal is the ambiguity around to whom these sales would be made, ie. as to whether they would be private entities, foreign entities, other systems or corporations within our country, I simply do not trust the council or our

3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

What is your preference on our proposal to manage rates and debt? Make greater use of debt

Tell us why: While the idea of plunging into further debt amongst the uncertainty and turmoil of global financial crises is of course frightening, I definitely do not think that reducing expenditure on climate and water related fields is the answer. In tandem with the

4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

What is your preference on our proposal to manage the impact of future storms? Other

Tell us why: I would support this proposal if it directly meant that the climate action and water control sectors of the council and government were supported by it. However given your previous proposal to suggest the exact opposite of this I cannot even fathom where

5. Local Boards

Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why: These are all very important priorities that will serve to invigorate and heal all of the damage the pandemic and storms have caused and it is my belief they should be upheld and guarded rather than put to the mercy of rate increases suggested by the mayo

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Arts and culture programmes, Protection and restoration of local waterways, Youth initiatives

Tell us why these are most important to you: I believe the arts and culture of a community fuel the drive to grow and even to exist as human being functioning within a society, it provides reason and purpose beyond the simple but ever present need to survive. Without them it would be all too easy to

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

.What do you think of the savings we've proposed across our activities and services? Do not support

Tell us why: Again I reiterate that these are not parts of a community that should be considered "unnecessary expenditure" they are literally the core of what makes up our community as well as the reason for their motivation to grow and flourish. It is these parts tha

6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support
