Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

It will help fund investment in securing events that are important for the regional economy and contribute to a richer cultural fabric for Auckland.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Less important

Talking with young people and children to better understand what is important to them in their area.

Very important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Less important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Very important

Increasing the number of local events arts and activations especially in local parks and town centres.

Less important

To be honest, with the rates increases being 5.8 % projected for FY26.. it is reasonable amouunt and when comparing to other urban cities it is a lot lower. Depending what comes out of the AP26 - I think if there has to be a 1 or 2% increase in rates that should be ok. (maybe 1%) -

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support all

Tell us why

In the current financial climate, we have to priorities where our rate payers' funds are being spent. This plan appears to have the beginnings of planning long term as to how and where this money is spent .

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

I think this is an excellent idea; we are having to spend on upgrading our infrastructure that's controlled by the council, water, sewerage and roading etc due to the city expanding and these people targeted by this rate would otherwise be free loading.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

No not really, I think it makes sense. This way all rate payers are treated the same.

Question 4:

As this is a statuary Authority set up with no rate payer input there is no point in commenting, I think its good that a body is looking after these but was that not a council job. give it back to publicly elected officials.

Any AT funding for cycle lanes can go. Usage is next to zero. AT destroys everything it touches. Currently the biggest stuff up is the new roading controls at the Bombay intersections. An idiot could see that was NEVER going to work. All project managers involved in that should be fired.

Any funding to Maori just because they are Maori can go. We do not need Maori partnerships. They are racist and a nonsense. I do not pay rates to provide handouts to unelected or race based groups.

Maungakiekie-Tāmaki Local Board Priorities

The local board has additional funding in 2025/2026, but there are unavoidable increases in the cost of existing services which will need to be considered alongside the additional funding.

Do not support any financial arrangements with partners based on race. Those days are gone. If Maori wish to 'partner' with Council they can do so at zero cost to ratepayers.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Continuing to support community groups and community-led activities through our local community grants

Less important

Continuing to build the capacity and capability of local community and sporting groups through our strategic partnerships programme

Fairly important

Activate our local open spaces and facilities, through council-led activities and assessing what amenities our spaces need, such as toilets and power outlets

Fairly important

Empowering community groups and organisations to deliver community events through sustainable funding models

Less important

Consider funding activities that increase our community’s sense of safety, working with community groups and business associations already delivering safety initiatives

Less important

Continuing to support initiatives that deliver outcomes with and for youth, such as our Youth Empowerment programme, and Tiakina te taiao and Ope programmes (biodiversity and climate action education programme in schools)

Less important

Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways, particularly the Tāmaki Estuary and Manukau Harbour

Less important

Consider a review of Te Oro Music and Arts Centre, to ensure it remains welcoming and responsive to the community's changing needs.

Less important

Council keeps raising rates, yet doesn't actively curb waste and unnecessary expenditure. The time now is to stick to core infrastructure. Scrap EVERY nice to have. My rates are over $5000 and there is only 2 of us. Its gotten ridiculous.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support all

Tell us why

I support in particular the Climate change action plan - I support resources going to carry out the actions as set out in the plan. Auckland's weather is clearly changing - I applaud Auckland Council for the thoroughness of the CC Action Plan.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I don't know

Tell us why

I support the continuation of the cultural festivals and significant events. However, i don't have the knowledge to know whether the visitor tax would work. On the surface i think it is a good idea. Other global cities have these taxes and I think that many visitors understand the need for them. The perception of tourism is changing - People need to be prepared to pay for the privilege of visiting other people's home cities. Assisting with costs is fair enough.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I support this if it makes the system fairer for all. I don't know the detail of this. I live in Mt Eden with my husband. We only need to put out our red lidded rubbish bin and our blue recycling bin once a month. We are doing our bit - but there is no incentive for others to do so.

Do not support

Tell us why

I would prefer to see major events activity that is profitable without additional support through a levy - which ultimately will make the city less attractive to visitors. Our hotels are already much more expensive than equivalents in Australia and the rest of Oceania.

Would much rather see investment in infrastructure so that Aucklanders can be proud of their city - and therefore promote to friends and family overseas - than ********** marketing campaigns about how great Auckland is. We need to under-promise and over deliver!!

Would much rather investment in making communities safer, rather than enhancing the perception of safety. How about reducing the number of liquor licenses granted in residential suburbs such as Ponsonby to help reduce anti-social behaviour. Or reviewing who owns those licenses to help reduce gang presence (money-laundering through bars and clubs) in communities. A waterfront that attracts international investors (think Monaco) instead of a waterfront dominated by industry.

Stop trying to centralise services. Every organistion ever that thinks this is going to make them more efficient and cost-effective, is wrong. It always costs more for a job less well done. Much

better to support specialist expertise in the different business areas - more efficient and cost effective that way.

I think the Councils need to get back to basics. Pasifika, Diwali, Gay Pride Parade, Lantern Festivals, Sailing events, writers festivals and World Dance Crew Championships etc. should not be funded by our Rates. These communities should self fund their events if they want to have them. We should not be paying for events. The event providers should be self funded with the

support of Council to use the Cities facilities. Why am I, as a Rate payer, paying for Marae Infrastructure when one of the wealthiest Iwi in New Zealand, Tamaki Makaurau are here, shouldn't they be doing that? I agree with the Zoo, Art Gallery and Maritime Museum continuing to be supported as they are Education institutions.

The local board has additional funding in 2025/2026, however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Do not support most

Tell us why

Nothing really relevant to me.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Delivery of Auckland Council Community Hub Services (library, arts, and customer services) in Beachlands and Clevedon

Less important

Extending and improving service outreach to isolated communities like Āwhitu, Ōrere, Glenbrook Beach, Paparimu and Kawakawa Bay

Fairly important

Accelerated delivery on the Sports and Recreational Plan, and additional grant funding for Karaka Sports Park and the Te Puru Sports Centre

Fairly important

Initiatives that improve the quality of the water in our streams and rivers and our environment through pest eradication programmes

Very important

Accelerated planting of trees in public places i.e. delivery of the Franklin Ngahere Plan

Very important

Continued delivery of the targeted rate funded Franklin Paths Programme.

Fairly important

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I don't know

Tell us why

Do we know what effect a levy would have on our unhoused communities? Short-stay accommodation is often the only accommodation available and we don't want to make a warm & safe space even less achievable.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

I don’t know

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Very important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Fairly important

Increasing the number of local events arts and activations especially in local parks and town centres.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Community development, including events, community safety, and a greater activation of our community houses, community centres, and libraries

Fairly important

Increased funding in the Kaipātiki Community Grants Programme, so we can support and help a wider reach of our community through their activities

Less important

Māori outcomes, through investment in engagement, events, and fostering authentic relationships with Māori.

Very important

Youth outcomes, through conversations with young people to identify local activities and services that interest them

Less important

Increased sport and recreation opportunities, through grants to organisations to maintain or improve their assets, or to secure community use of non-council owned facilities

Less important

Environmental protection and restoration, including working with our local environmental groups to increase their impact

Fairly important

Maintenance, including environmentally friendly open space management, building maintenance, refuse collection, bush track maintenance, and removal of aging pine trees

Very important

Compliance, in the areas of building, illegal dumping, noise, animal control, and overnight stays on reserves

Very important

Pools and leisure service enhancements and affordability

Fairly important

Sport and recreation facility planning to understand the sport and recreation facility needs of Kaipātiki, to guide future investment

Fairly important

Business support and engagement across Kaipātiki.

We really need to make the most of our CRL investment and an important way to do that is allowing it to run at capacity. I understand the Western line is not going to run at capacity, in order to prevent level crossings being closed for significant percentages of every hour at peak times. This has been mentioned briefly in the plan but I feel it should be higher priority at locations such at Morningside Drive meeting New North Road.

To build a more resilient and sustainable Auckland, it is crucial to provide continuous opportunities for community engagement across key areas such as climate action, food systems, waste management, citizen participation, and education. These challenges are deeply interconnected, and a holistic, cross-sector approach is essential to ensure lasting positive impacts.

1. Climate Adaptation and Mitigation

With increasing climate risks such as extreme weather events and rising sea levels, Auckland must strengthen city-wide adaptation measures. Localized climate action plans, nature-based solutions, and urban greening initiatives will help build resilience. Creating accessible platforms for public engagement and co-creation will empower citizens to actively contribute to shaping Auckland's climate response.

2. Strengthening Local Food Systems

A more sustainable and resilient food system benefits the environment, economy, and public health. Expanding urban agriculture, community gardens, and sustainable school meal programs will empower residents to actively participate in shaping a circular food culture. Providing ongoing support for local food initiatives will reduce dependence on external supply chains while fostering stronger community connections.

3. Advancing Zero-Waste and Resource Recovery

Auckland's vision for a zero-waste society requires greater integration of waste reduction, composting, and circular economy initiatives at the community level. Strengthening public education on waste minimization, expanding composting programs, and increasing accessibility to resource recovery centers will ensure that waste is viewed as a resource rather than a burden. Hosting regular workshops and interactive programs can help instill these practices as part of everyday life.

4. Fostering Community Participation and Collaborative Governance

Ensuring diverse community voices are reflected in Auckland's development plans is key to fostering inclusive and effective solutions. Establishing regular forums for local engagement, citizen-led initiatives, and participatory governance platforms will allow residents to co-design projects that address environmental, economic, and social challenges. Supporting grassroots movements and initiatives will unlock collective action for a regenerative Auckland.

5. Education and Awareness for Future Generations

Investing in education is fundamental to long-term sustainability. Schools, community centers, and institutions should be equipped with environmental education programs that focus on waste reduction, sustainable food production, and regenerative practices. Hands-on workshops, curriculum integration, and leadership training will inspire the next generation to take proactive steps in creating a thriving future.

By integrating these initiatives into Auckland’s broader vision, we can accelerate the transition toward a circular, regenerative society where all residents can contribute to shaping a more livable, inclusive, and resilient city. To achieve this, it is essential to increase community participation, facilitate ongoing public dialogue, and provide sustained support for citizen-driven solutions.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Rates increase in too high after the extended over inflation of CVs

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

It's just another grubby tax to burrow your fingers into my pocket like a pet rat. Tax, tax tax. Please call it what it is. I also object as I used to be a commercial partner of Tourism Auckland. I used to contribute an annual amount to support and fund Tourism Auckland activities. But then they went Woke. Last time I read the annual plan Tourism Auckland mentioned supporting Maori about 60 times in one report. I found virtually no other reference in the same report to supporting any of the rest of identity groups in Auckland. Nope, just the very loud and bully Maori who have taken over local government. So no, more tax to re-direct based on race and identity is a terrible idea.

Yes I do have other feedback. I find it infuriating that Auckland Council has been hi-jacked to the point they are trying to rename the City, with no mandate from us ratepayers. We live in Auckland. Not tamaki makarau. I see perfect signs being removed and then replaced with the same information but in Maori and English. All this when rates are escalating at an untenable rate. I see my residential road get re-sealed when not obviosuly required (to the untrained eye) but no follow up with the contractor to remove the loose gravel which by now will all be taking up space in the stormwater sumps. (Mind you this is your child Auckland Transport) I see an explosion of activity to supply tiny fringe groups like Drag Queens in libraries, but then see Auckland Council entering politics by banning legitimate events at Council facilities because the (someone) don't like the organiser. The banning of lawful organisations from community spaces while supporting queers and gays is annoying.

Auckland Council is way out of its lane. Get back in your lane or be prepared to continue to raise the ire of many of your ratepayers. Remember you are first and foremost Public SERVANTS

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I think bringing life to Auckland's local neighbourhoods has a multiplier effect - it creates community, stimulates local businesses and bring life to Auckland's streets. All initiatives should be tried and tested to figure out what works and what gets traction. Also, spreading events across as wide a range of neighbourhoods is great.

Very concerned at the change to CCO's. They were created to minimise political interference and act for the better of Auckland. Cannot see how giving the political group ability to push their own barrows will improve management of Auckland problems. I consider AT, Eke Panuku are doing excellent jobs at improving Auckland.

Council should strip out non-essential and non-effective spending. For example, spending to reduce carbon emissions - if this doesn't have a clear positive financial cost/benefit then we shouldn't be spending money on it. Equally, community event spending - while often small in total value per event all adds up. I'd be interested to see how rigorous the ROI assessments are. Lastly, costs should be clawed back from significant on-going protests event traffic management expenditure.

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

I want to see public money used to increase the quality of life for everyone. Better PT increases the quality of life in the city and reduces the amount of cars I have to sit behind in traffic.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

I agree with the direction of the annual plan and key priorities. I think it is important that local boards have adequate funding to deliver on their initiatives in the community and that Council continue to maintain and maximise the value of existing facilities and community-based events,

arts, culture and wellbeing initiatives. A thriving liveable city isn't just about having good infrastructure, it needs to be a place where all families feel a sense of inclusion and belonging.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

I support advocating for this levy with central government, but would also like to see a clearer plan for funding the $7M shortfall in funding (or alternatively, understanding what events may be reduced/defunded). Major events are vital for our city's economic development and creating a sense of vibrancy and excitement which will attract not just short term visitors, but potentially long term residents as well.

Question 3: Changes to other rates, fees and charges

Albert-Eden

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

I would like to understand what funding is going towards maintenance of parks and recreational facilities. There are many underutilized playgrounds and parks in the area that have not been maintained, or areas where vandalism / damage has not been repaired. Taking care of what we already have is an efficient and sustainable way to maximise value and opportunity for our community.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Very important

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Very important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Very important

Increasing the number of local events arts and activations especially in local parks and town centres.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

Better financial management and accountability is good, not spending beyond our means.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Other

Tell us why

I support a national visitor levy, but Auckland Council do not need t wait for this to fund destination management, marketing and major events activities. Auckland Council needs to reallocate its resources to fund this from its current budget ASAP! Then when more visitors come and stay in Auckland, there will be more income from the proposed visitor levy!

It takes time to restore Auckland to a booming, lively, and thriving city, so the urgency is there to start the process of attracting major events now!

Most proposals are good but some more specificity on what transport money is going where, eg; driver pay/ buying new busses/ shelter and platform upgrades. Also not enough proposals for walking and cycling network expansion to link up key routes

Māngere East Village Business Improvement District (BID) programme

A BID is a local economic development initiative run by a business association under the Auckland Council BID Policy (2022). It involves businesses in a defined area paying a targeted rate to fund specific services or projects in their BID boundary. The Māngere East Village Business Association Society Inc. (MEVBA) has failed to meet key BID Policy requirements, including accountability reporting, AGM minutes, strategic plan, and appointing a BID Manager. MEVBA also breached its constitution and did not notify the council of non-compliance. The Māngere-Ōtāhuhu Local Board is now considering terminating the BID programme and targeted rate, with the possibility of re-establishing a compliant BID programme in the future if conditions are met.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

Don't believe water is a priority but investing into tidying up town centres and footpath and road improvements

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

4A. Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Very important

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Very important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Fairly important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Very important

Increasing the number of local events arts and activations especially in local parks and town centres.

Very important

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

The things that I most want for Mt Albert are more bike lanes, more places for sport/outdoor activity, more housing and no golf. Golf excludes the great majority of people from either living in housing or outdoor sport. It is massive waste of space should go completely. Conversely, I try to travel by bike. this is difficult at present because there are few protected bike lanes

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

They are irrelevant to me. What I want is for golf to be moved out of Auckland, and for there to be more protected bike lanes.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Less important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

I don’t know

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Fairly important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Less important

Increasing the number of local events arts and activations especially in local parks and town centres.

Such a tax is relatively common overseas and the suggested size is reasonable. It would be essential that all funds raised through this tax are demonstrably invested back into the proposed activities used to justify the tax.

We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

A focus on responsible spending with a view to minimising increase costs is what ratepayers economically would expect. The key focus would be maintaining public environments and addressing the issue of public dumping where this has increased in areas that require payment for refuse removal. If the maintenance and cleanliness of public environments were maintained, it is likely that most rate payers would value this most coupled with central government addressing crime and public safety. The every day Aucklander is not in a position to pay more rates.

Large events that attract visitors have a lot of economic benefits, but the tax revenue on these benefits is collected by central government. It is fair that Auckland can receive some of this tax revenue to enable investment in the services and infrastructure needed to put on those events.

I think that the Council should continue to invest in large centres outside of the CBD so they can accommodate attractive events and visitors, and work in partnership with iwi and Māori organisations such as urban marae so they benefit from these events and the Māori identity of Auckland is celebrated at those events.

I note the fees at the Waiōrea Community Recycling Centre. If you are serious about reducing waste and fly-tipping, this service needs to be funded through the general rate. It also needs to provide a comprehensive approach to items for recycling/re-use. I have seen very comprehensive recycling centres in the UK. Council gets funding for items that can be onsold, charities participate (e.g. used spectacles for developing countries) and the streets are cleaner as a result.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Very important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Sounds pretty good. I think urban sprawl needs to be mentioned and addressed. I feel this is the biggest problem Auckland faces. Solutions involve. 1: more direct council planning to make sure infrastructure is built/planned for capacity before area is developed. 2: Tighten regulations about types of development and help manged/push for urban density.

We need to stop just paving over everything and allowing developers poorly plan out Auckland while 20 years in the future, the people living here has to bear the costs.

Feels so bare boned and missing a lot of the problems... There is no mention about transportation solutions and dealing with the densification of Mt Eden and Albert. The irony that the councils office sits at probably the worst stretch of road in Mt Eden (the top of dominion) is a bit of a give away of the lack of through about transportation and the urban fabric....

Some serious changes are needed to help people get around mt Eden and Albert in different modes of transportation safely and efficiently.

Though is also need for how densication is going to work in the area, and how to best manage it!

So, for the council members sitting in the mt Eden office, go outside and try cross the top of dominion road. Is it unpleasant? Yes. Is it dangerous? Yes. Are there many place in Mt Eden and albert like this? Yes. Should you maybe do something about it? Yes! (we need someone to represent the people to go talk to AT)

Extended: How can we create good strong vibrant communities when we are so addicted to the car? When half the town center is a carpark? Or have a very very busy road cutting right through them?

Another fun one: Try get to St Lukes mall not in a car.

I want to see more investment in cycleways , especially to join up stretches together so we have a more joined up network. This will encourage a lot more people to.move to active travel modes once there are safe options for the whole journey. The benefits for climate, safety and public health are significant. The cycleways don't have to be gold plated but they do need to be connected! An

example is the View road end of Dominion Rd where after coming off the Cycleway city end one is suddenly forced to navigate heavy traffic and parked cars. Too scary for my liking and I don't want my uni student kids cycling there either.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

We should fund activities that make financial sense. Regarding the levy, it's a small amount so the extra cost won't dissuade people.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Fairly important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Fairly important

Increasing the number of local events arts and activations especially in local parks and town centres.

Less important

Tell us why (please be clear which priority you are talking about)

The local Facebook group in the Pt Chev and neighbouring area is full of people posting about crime, and not feeling safe. People don't feel safe going to the local Pt Chev shops. Theft in the local supermarkets is rampant. Homeless people hanging around the shops, asking for money, appearing either drunk, stoned, or mentally impaired means I'm less likely to go to those shops, and I don't feel safe letting my kids visit the shops without me.

It would be good to educate/promote the removal of invasive weeds. A lot of people have no idea that they have invasive weeds growing in their back yard.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

5.8 per cent is a lot, man

Wages aren't rising by that much

Will just mean people will be forced to leave our beautiful city and go and libe in te Awamutu

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Very important

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Less important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Less important

Increasing the number of local events arts and activations especially in local parks and town centres.

we have moved to Auckland to be closer to our children and grandchildren after spending 50 years in Hamilton. We have found it hard to settle in Auckland due to heavier traffic, distance of time getting from one place to another. But I have found the Epsom and Mt Albert libraries an amazing place to visit and participate in their community activities such as the Tai Chi classes held there on Monday and Friday mornings. We are both in our 80s and there is not a lot of activities that cater for our age group. Free Tai Chi classes have allowed us to become more sociable, fitter and most important learning to keep our balance to future proof not falling and fracturing our bones. I wish there were more classes such as book clubs, knitters, craft group that are more suitable for our age and that were free as well. Please keep the funding going. We love what this group is providing for us.

Why can't all school age children and young adult under the age of 20 get free bus service. This will alleviate all this morning and afternoon madness by anxious parents who deliver their kiddies to school. And for the under 20's this will give them a boost to attend university, trade or any other place of work without worrying about transportation. This will reduce the congestions on the road and surely that will save money in the longer term.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Waste management has been a shambles. The cost of compost bins is a complete waste of money.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

I don't know

Tell us why

I just want Western Springs Speedway to stay in its current location

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Fairly important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Fairly important

Increasing the number of local events arts and activations especially in local parks and town centres.

Fairly important

We have quite a dire situation in around Balmoral School area in particular the zones that flooded extensively and where the Kainga Ora sites are.

I am writing to you to propose/discuss an idea for the Kainga Ora sites 39/40/41 Parrish Road and 54 Gribblehirst Road. While I am acutely aware of the need for housing we cannot deny that these flood prone sites raising huge concern. I would like to propose that these sites are purchased by council and turned into a flood water catchment / recreational area.

The following reasons support this:

•These sites could be turned into recreational areas that are also flood water catchment areas for the local area. This would help satisfy the major flood concerns for this area.

•Balmoral school no longer has open gates outside of school hours. This has severely reduced safe play areas for our tamariki. Especially where they do not have to cross major roads - Dominion road and Sandringham road. With a roll of over 700 and a small school zone there are many tamariki who would benefit from this.

•Linking Gribblehirst road and Parrish road would provide a safe passage and shorter route for school children walking to school.

•Albert Eden area has a low m2 space for recreational use and it must be increased if intensification is to be increased.

• Have we looked into a council/govt flood buy back for these sites?

I really am hoping there is thought given to this idea.

Our priorities for 2025/2026 are listed below.

Overall, it is a good plan, however it is missing more investment in Auckland's own arts scene. Funding major events is fine, but should remain as a portion of those events (as they often have vast means from international funders). Auckland's arts and culture providers, such as the Auckland Philharmonia and the various art centres and galleries, provide year-round high calibre

musical and artistic experiences that create a huge amount of good for the people of this city. These are keystone organisations and this should be recognised with increased funding, both in the short and long term.

Tell us why

It’s great to see more support for ending homelessness, this is so important. The other planned projects to deliver are alright, however for a large budget of $36 million, there are not enough projects planned for delivery. There should certainly not be any cuts to funding of arts and culture centres and activities, nor any community-focused developments. The current proposed projects to deliver are very thought-focused, i.e. too much planning and investigating, with very little actual doing. Arts and culture events are what keeps societies together and working in harmony and should not be underestimated nor reduced.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Prioritising and investigating flood resilience actions for our parks such as Western Park and Grey Lynn Park

Fairly important

Delivering footpath improvements for Auckland Domain

Less important

Starting construction for Leys Institute

Less important

Delivery of Heard Park Civic Space

Less important

Prioritising sport and recreation opportunities for groups that have less

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here
I hope Auckland Council will continue to provide operating funding to our city's anchor arts and culture organisations. I hope the Council can also plan for long term sustainable funding increases. This includes the Auckland Philharmonia, which is enjoyed by tens of thousands of people across our city every year, in addition to being the largest full-time employer of artists and creative workers in Auckland. It is an internationally recognised contributor to Auckland’s reputation, a beacon of civic engagement and pride and a strong driver of economic development activity. The orchestra has a long history of nurturing Aotearoa’s cultural identity.

By the numbers, the orchestra is reaching an incredible amount of people: 19,000 students and 203,000 people reached through live performances both in civic centres around the city and in schools and other community settings. The social Return On Investment is also stellar: $12.30 for every $1 spent on community programmes, and $2.20 for every dollar spend on performance programmes. In terms of direct financial benefits, the orchestra also brings over 40,000 people to the CBD every year, returns approx. $1M back to the Council through rent, venue hires, parking, and rates, and directly employs over 300 local consumers and ratepayers each year.

In addition, the orchestra invests in partnerships that increase resilience and capacity in the sector and return benefit to Aucklanders. Along with 50+ schools and 40+ local businesses, the orchestra has partnerships with NZ Opera, RNZ Ballet, Auckland Arts Festival, NZ Film Festival, Synthony, RNZ, Lockwood Aria Competition, Tātaki Auckland Unlimited, Auckland Live, TAU Creative Industries, and Q Theatre.

Ultimately, I would like the Council to:

- maintain integrity and stability of funding that major arts and water safety institutions receive through Amenities Fund legislation,

- support (and recommend an increase to) the investment in infrastructure, amenities and services that sustain Auckland’s status as a UNESCO City of Music, and

- support an increase to rates that ensures Auckland’s maintenance and sustainability as New Zealand’s global city and largest national economic driver.

Thank you for reading, best wishes.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Very important

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Fairly important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Less important

Increasing the number of local events arts and activations especially in local parks and town centres.

I want to see more focus on improving public transport and cycleways and reducing the amount of cars on the road, especially in the central suburbs. Less cars means a safer, more efficient and more friendly city for everyone. Seeing so many cars with single people in traffic jams in frustrating. Our public transport is subpar, with long wait times and missing routes and expensive, having a

much more robust system that encourages people to use it would be much better for the city and help reduce the number of cars on the road.

Public transport needs to be cheaper, not more expensive. 5 years ago a majority of the people I know would catch public transport relatively frequently. Now it is very rare for any of my friends to because it is somehow better value to just drive.

The rates increases are far too harsh on lower valued properties, and will negatively affect families with less money far more, while ultra wealthy families will end up with a total increase of 0.2% higher than the lowest valued properties. Rather than putting the majority of this burden on poor families (because $417 extra for someone who owns a $3m+ will barely be noticed) the increases should be significantly heavier at the higher end of the property value scale. They should also increase significantly beyond the $3-$5m mark.

Local board priorities

Albert-Eden,Puketāpapa

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Do not support most

Tell us why

I like some of the proposals such as reducing waste and increasing community awareness, but to be honest, many of these are not what is needed. Looking at other local boards proposals, these seem like minimal effort in areas which will not provide much value.

Where is the action in areas which actually matter? Why are you spending so little on environmental services. 200k is next to nothing.

There needs to be more investment on cycling and cycle safety. Not sure how much the board can do around this, but we have very limited safe cycleways in the area, and the shared bus and cycle lanes are dangerous. I was knocked of my bike a few months ago in the dominion rd bus lane.

What about reducing alcohol harm? For example I live close to the puketāpapa local board area as well and have seen all the work that has been put into opposing off-licences and getting better conditions, whereas I have seen next to no support of this in Albert Eden. I have noticed that public drinking etc has reduced significantly in the Puketāpapa area, whereas it seems to be increasing in Albert Eden, particularly the numbers of beggars drinking outside or near alcohol shops.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Less important

Fairly important

Tell us why (please be clear which priority you are talking about)

The local parks upgrades are good, but a portable pump track? Really? Surely this money can be spent on something more useful that will actually get used by the majority of the community.

Where is the climate action???

Puketāpapa Local Board Priorities

The local board has additional funding in 2025/2026, but there are unavoidable increases in the cost of existing services which will need to be considered alongside the additional funding.

Support most

Tell us why

I am in Albert Eden, but near the Puketāpapa area, and it is surprising how much you can notice the improvements Puketāpapa is doing compared with the poor effort from Albert Eden.

I particularly like the current effort that is put into reducing alcohol harm.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Considering the community programmes that are delivered from Wesley Community Centre and Roskill Youth Zone to get better utilisation of the facility

Fairly important

Investigating the use of the Fickling Centre and Library, to ensure that it is able to respond to the needs of the growing Three Kings community

Fairly important

Supporting community groups that lease council space, so they can find ways to share their spaces and continue to provide great community activities

Fairly important

Implementing recommendations from the Sport and Recreation Facilities Plan so that the recreational needs of our growing communities are met

Fairly important

Planning for the development of Monte Cecilia Park so that this becomes a destination park and an icon for Puketāpapa

Very important

Investigating projects from the Wairaki Awa Catchment Plan that can be implemented, such as naturalising the awa at Lynfield Cove

Very important

Investing in more climate action and environmental projects

Very important

Increasing the number of local events, arts and activations, especially in local parks

Fairly important

Supporting arts and events by working with existing community groups to help coordinate their work and make the most of opportunities

Fairly important

Supporting community-led placemaking initiatives that engage diverse groups, promote safety and community identity, and increase greater connectivity and participation among businesses and community members.

I resent paying extra rates (more tax) for a whole lot of fluffy pet projects that no one cares about except a few selfish councillors and their mates,

All I want the council to do is collect my rubbish and stick to the basics. The rates we pay are exorbitant. Re cultural stuff - let me keep my own money so I can attend the cultural events I am interested in... stop interfering in our lives and telling us what we should be interested in. I don't use any council facilities - let people who use them pay for them. KEEP OUR RATES DOWN.

Once upon a time the Auckland Council decided to do away with trams because a few business people thought diesel buses were a good idea. These business people made a lot of money... and we have no trams. This is the same as Western Springs - a few business people are going to do very well out of the Western Springs deal.... while the 1000s of families and people that support the springs are going to go with out. It looks like another case of greed and power... ! I will not be voting for any councillors that agreed to give the Western Springs land to a wealthy few. Funny thing is the Western Springs was one of the things I didn't mind my rates supporting - because I saw how many people benefitted. People in positions of powers are so disappointing....

I agree with the plan in principle without knowing the specifics of many projects. One specific area of concern is the lack of funding for level crossing removals on the Western Line in the LTP. Given that CRL network plans to join Eastern and Western Lines on Day 1, this seems to make efficiency gains from level crossing removals on the Eastern Line redundant.

Support local boards have greater decision making in local decisions, but need equitable top-up funding for historically underfunded areas like South Auckland. It is not a local board issue alone and low socioeconomic areas deserve the same quality built and natural environment as rich areas.

However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

This is being introduced elsewhere in the world. It would be great for Auckland to host more major events, particularly aimed at young adults, and activate our city.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Very important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Less important

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Less important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Very important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Very important

Increasing the number of local events arts and activations especially in local parks and town centres.

Very important

Tell us why (please be clear which priority you are talking about)

Support investing in emergency preparedness but not perceived neighbourhood safety, unless this is via empowering communities to succeed - which is covered by community programming.

Free events activate the community and are important as they activate the community. Suggest events that are suitable for adults (a lot of focus on children/families throughout Tāmaki).

BIDs are funded via targeted rates and whilst work does benefit the community it primarily benefits business owners. Funding should only be given to BIDs where there is not a clear benefit to BID members but benefits wider community.

Council are not the marketing organisation for the city. ACC need to make the city work efficiently so that businesses operate and it becomes cool via wealth. All taxes that go towards marketing should be abolished so that the accommodation becomes cheaper and more people enter the market (like Air B&B operators).

All of them are optional and non-core. Eg: If Council just focused on the infrastructure then businesses would pick up the effort to attract foot traffic to their area. it is in their interest. Council (AT) decreases foot traffic by removing car parking and space for cars on the road, and then the local wards do talk shops to make it look like something could be done about that damage. People (and especially the young) should not be trained to look to govt for the answers. Leave them alone and they will organise something themselves. Events will be organised by community groups and businesses if the council does not do it. Stop doing it and focus on infrastructure or giving rates back to the citizens.

Tell us why

I appreciate the opportunity to provide feedback on the proposed annual plan I would like to express concern regarding the impact of the fair increases on regular commuters, students, low-income earners, and others who rely on public transport as an essential service.

Increasing fares risks reducing the affordability and accessibility of public transport, which runs counter to broader goals around sustainability, equity, and reducing congestion. Instead of raising fares, AT should explore ways to lower costs and promote increased use of public transport. More people using buses, trains, and ferries means fewer cars on the road, lower emissions, and a more vibrant, connected city.

As I do acknowledge that AT already offers some important fare protections:

AT HOP card users benefit from a $50 7-day fare cap, which encourages regular use and makes transport more predictable and budget-friendly.

Contactless payment users qualify for a $20 daily fare cap, which supports occasional riders or those without access to an AT HOP card.

These caps are a great start, but instead of increasing baseline fares, the focus should be on enhancing and promoting these capped systems—potentially lowering them further to boost ridership, especially in light of the rising cost of living.

The current fare increase likely discourages public transport use, pushing more people back to cars (like myself as it is cheaper), which adds to congestion, emissions, and parking demand. Instead, investing in more affordable, frequent, and reliable public transport is the best path forward for a growing and climate-conscious Auckland.

Additional Feedback – 24/7 Paid Parking

The move to 24/7 paid parking in the CBD is honestly horrible. It feels like another way to squeeze money out of people, especially those who work late hours or need to be in the city on weekends. It discourages people from coming into town, hurts small businesses (especially with an already dying city) and makes Auckland feel less accessible overall. Not everything should be a revenue stream—especially not basic access to our city.

Please reconsider this.

Is there a way to bring the city back to life—or is it a lost cause?

Many Aucklanders are asking themselves this very question as they watch the city centre become increasingly unaffordable, empty on weekends, and difficult to access. Decisions like 24/7 paid parking and fare increases only accelerate this decline. They push people away from the heart of the city instead of inviting them in.

But it's not a lost cause. Auckland still has the potential to be a vibrant, connected, and people-focused city. To get there, we need policies that encourage people to come into the city—not avoid it. That means:

Affordable and accessible public transport that rewards frequent use

Free or low-cost weekend or evening parking to support hospitality and events

Urban spaces that feel welcoming, safe, and easy to navigate espically with the rise of crime, homelessness, violence from young men and a lack luster of security.

The council plays a huge role in shaping how people interact with the city. Instead of raising barriers, we should be lowering them—especially during a time when businesses are struggling and people are under financial pressure.

Reviving Auckland starts with rethinking how we move through it. Make it easier, cheaper, and more enjoyable to get into the city, and the people will return. I as a recently graduated student have thought of moving because the city is dead or dying, it is unsafe, unsanitary, not what I moved here for... four years ago it wasnt like this... something needs to change

Tell us here
Kia ora Auckland Council,

Thank you for inviting feedback on the Annual Plan 2025/2026. As a resident deeply invested in the wellbeing and future of Tāmaki Makaurau, I appreciate the challenges facing Council, particularly in navigating rising costs, infrastructure needs, and social pressures.

This plan arrives at a critical time: Aucklanders are feeling stretched, city centres are struggling for life, and public trust in local institutions is fragile. Now more than ever, we need bold but balanced leadership—leadership that prioritises affordability, livability, and long-term thinking.

1. Rates Increases & Equity in Revaluation

While rates are essential for maintaining services, any increase must come with visible, local improvements. This is especially important when paired with property revaluations, which can leave many unfairly carrying the burden.

Better Idea:

Introduce tiered hardship support or automatic rebates for low- and fixed-income households impacted by large rate increases.

Publish a value tracker online showing how local rates are being reinvested by suburb or board area to improve transparency.

2. Events, Tourism & the Missing Visitor Levy

Auckland's reputation and economy depend on vibrant, well-attended events. Losing these due to a lack of funding would be a huge step backward.

Better Idea:

Explore public-private partnerships with large Auckland-based businesses to co-sponsor major events.

Trial a voluntary visitor donation system (digital or hotel-based) until a formal bed tax is passed. Other global cities have adopted this successfully as a short-term solution.

Activate underused public spaces (e.g., squares, parks) for community-led pop-up festivals and markets, with Council providing logistical support rather than full funding.

3. 24/7 Paid Parking – A Misstep in Urban Planning

The rollout of 24/7 paid parking has been met with strong public opposition—and for good reason. It disincentivises people from visiting the city, especially after-hours or on weekends.

Better Idea:

Scrap blanket 24/7 parking. Replace it with a Smart Parking Strategy:

Free or discounted parking on weekends and public holidays

Variable pricing based on demand/time of day

Parking validation schemes for businesses and event-goers

This approach would support both local commerce and the push for public transport, without penalising low-income workers or families.

4. Public Transport: Fare Increases vs Ridership Growth

Auckland cannot afford to lose momentum on public transport. We should be making it more attractive, not more expensive.

Better Idea:

Lower the 7-day HOP cap from $50 to $30 to encourage frequent use

Introduce off-peak pricing to spread demand and reward flexible travel

Pilot free fare weekends, community weeks or Family Fares across the year to incentivise new users and revive central city activity

Partner with schools and employers to provide subsidised fare bundles as part of transport demand management

5. Fairer Funding for Local Boards

Support this fully. It’s long overdue.

Better Idea:

Require local boards to publish annual Community Impact Reports showing how new funding is spent, with input from residents

Ensure boards have flexibility to trial hyper-local solutions like night markets, cycleways, or youth spaces depending on community needs

6. Refuse Targeted Rate Expansion

Standardising waste funding across Auckland makes sense—but only if service quality is guaranteed.

Better Idea:

Phase in the rate gradually with opt-in pilot programs in affected areas first

Provide free green waste pickups twice a year to offset the cost and improve community satisfaction

Offer rebates to households reducing waste significantly (i.e. incentive-based waste pricing)

7. Savings Targets & Debt Strategy

Cost-cutting can be smart, but not at the expense of public trust or service delivery.

Better Idea:

Identify and report on low-impact savings areas (e.g., digital systems, admin redundancies) separately from high-impact ones (e.g., libraries, parks)

Be transparent about what won’t be cut—people need certainty around core services

Consider issuing City Investment Bonds for specific projects—allowing Aucklanders to invest in their own infrastructure with a small return

8. Capital Investment & Vision

The $4B capital investment plan is welcome. But investment must match the city's growth and climate goals—not just fix old pipes and roads.

Better Idea:

Commit to a minimum percentage (e.g., 25%) of capital spend toward green infrastructure, walking/cycling networks, and climate adaptation inclusive of flood management

Establish a Community Ideas Fund where residents vote on smaller capital projects (park upgrades, murals, shade structures) to increase local ownership and pride

Final Word – Bringing the City Back to Life

Auckland isn't a lost cause—but it needs a spark. People want to love this city again. They want to feel like it's a place for them, not just for cars, council decisions, or developers. That means:

Making it easier and cheaper to get into the city

Investing in things that bring joy—events, art, green spaces, third spaces!

Designing policy that feels human, not bureaucratic

Trusting communities to know what works locally

Reviving Auckland doesn't come from cutting corners. It comes from rebuilding connection—between Council and communities, between people and their places. Especially in a time with so much discontent.

Let's make that the legacy of this Annual Plan.

Ngā mihi nui,

Joshua Ward

Not too many changes, seems pretty good

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Very important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Very important

Talking with young people and children to better understand what is important to them in their area.

Very important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Very important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Very important

Increasing the number of local events arts and activations especially in local parks and town centres.

Fairly important

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Tell us why

This is by far one of the easiest taxes to impose on visitors. I'm not sure I've ever stayed in short term lodging and even batted an eye at the tax line, compared to the other costs it's minimal. Further so much travel is covered by companies taxing them is the way to go.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Rubbish collection is a core government responsibility, Pay as you go is burdensome on the collectors, administrators, and citizens.

I'm happy with the community in Mt Eden. However, the listed plan of spending is pretty vague. I'm not sure what costs so much in Eden/Albert. It's almost completely Community Services but I don't see specific spends in the bulleted points.

The IDK answers are because it's not clear at all what for example #3 means. It's not an actionable statement so how are we spending any money on it. #7 on the other hand is much more actionable, I don't know what the spend is but presumably there is a list of planed park changes.

I'd like the Auckland council to get back to its basic function of running the basic city infrastructure and extract itself from all political agendas and community festivities. I don't want movies in parks and council sponsored events. Just get back to the basics.

*****Transforming Auckland – Smart, Inclusive, and Economically Resilient****

Dear Mayor Brown,

I appreciate your initiative in engaging Aucklanders in discussions on how taxpayer money should be spent. As a resident of Auckland for 15 years, having lived and worked in the CBD, I have witnessed the city’s evolution—its opportunities as well as its challenges.

With economic pressures, rising living costs, and businesses struggling due to roadworks and shifting consumer habits, I’d like to propose strategic initiatives that could revitalize Auckland while ensuring taxpayers’ money is invested wisely. These ideas balance economic growth, sustainability, and community well-being.

1. Weekend Free Transport: Revitalizing the CBD

Auckland’s CBD has suffered from ongoing roadworks, changing work habits, and high transport costs. A simple way to encourage people back into the city is by introducing free or heavily discounted public transport on weekends.

✅ Encourages locals and tourists to visit the city without cost concerns.

✅ Supports hospitality, retail, and entertainment businesses that depend on weekend foot traffic.

✅ Aligns with Auckland's sustainability goals—reducing emissions while boosting the economy.

🚀 Implementation:

Free or $1 weekend bus and train fares for travel into the CBD.

Partnerships with local businesses to offer discounts for public transport users.

Data-driven pilot to measure economic and visitor impact.

2. Smart Parking Incentives: Two-Hour Free Parking

The high cost and inconvenience of parking deter many from coming into the city. While public transport is great for daily commuters, many weekend visitors—shoppers, families, and diners—still prefer the flexibility of driving.

💡 Solution: Introduce two-hour free parking in council-owned car parks as an incentive.

✅ Attracts short-term visitors while maintaining revenue from longer stays.

✅ Encourages higher visitor turnover without clogging parking spaces.

✅ Supports local businesses by making Auckland more accessible.

3. Small Business Support Fund: Helping Businesses Adapt

Many small businesses in the CBD are struggling with lower foot traffic and higher operating costs. A business transformation grant could help businesses adapt and innovate.

📌 Proposed Initiatives:

Grants to help businesses digitize, upgrade infrastructure, or modernize operations.

Support for pop-up retail spaces to activate vacant storefronts.

Marketing subsidies for businesses that contribute to CBD revitalization.

4. Cultural & Night Markets: Making Auckland a Year-Round Destination

Auckland is incredibly diverse, yet we underutilize this to attract tourism and local spending. While we invest in major events, there's an opportunity to make Auckland's CBD a lively, year-round attraction.

🎭 Ideas to Boost Local Economy & Tourism:

CBD Night Markets (similar to Singapore's famous hawker centers).

Monthly Cultural Festivals spotlighting Auckland's diverse communities.

Live Performance Zones featuring local musicians, street performers, and artists.

✅ Attracts locals and tourists, keeping them engaged in the CBD longer.

✅ Encourages increased spending at local businesses.

✅ Provides opportunities for small vendors and creatives to thrive.

5. Investing in Future Jobs: AI & Digital Economy Skills

Auckland's economy must prepare for the future of work. While infrastructure development is key, we must also equip Aucklanders with skills for emerging industries.

🔷 Proposed Initiatives:

AI & Digital Banking Training Programs—leveraging Auckland's role as a financial hub.

Sustainable Infrastructure Training—preparing workers for green construction jobs.

Entrepreneurship & Innovation Hubs—giving small businesses access to AI, automation, and digital tools.

🚀 Why This Matters:

✅ Ensures taxpayer investments future-proof Auckland's workforce.

✅ Positions Auckland as a global leader in tech-driven finance and business.

✅ Supports economic growth beyond traditional industries.

6. Smart City Upgrades: AI-Driven Public Services

Auckland can leverage AI and smart infrastructure to improve public services:

🏙️ Ideas for AI Implementation:

Traffic Flow Optimization—real-time AI-controlled signals to reduce congestion.

Dynamic Public Transport Scheduling—adjusting bus and train services based on real-time demand.

AI-Powered Public Safety Measures—such as smart street lighting for high-risk areas.

✅ Reduces traffic inefficiencies and congestion costs.

✅ Enhances Auckland's reputation as a smart, future-ready city.

✅ Improves public safety and urban experience.

My Final Thoughts: Spending Smart, Investing Right

Auckland needs innovative, high-impact solutions that don't just spend taxpayer money but generate long-term economic benefits. Instead of focusing solely on major infrastructure projects that disrupt businesses, we need a balanced approach that:

✓ Brings people back to the city through transport and parking incentives.

✓ Supports small businesses and entrepreneurs to keep the economy thriving.

✓ Future-proofs Auckland by investing in AI, skills, and smart city initiatives.

I truly believe that these ideas can transform Auckland into a more vibrant, accessible, and future-ready city. I would love to hear your thoughts and explore how some of these strategies could be implemented.

Thank you for your time and leadership in shaping Auckland's future.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Need transport and water improvements

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

A moveable pump track? Sounds expensive. Will red and yellow stickered houses now owned by the councils be turned into green spaces? Once demo'd community help out days could be organised to build playgrounds, plant gardens etc. also local fundraising could be sought for any playgrounds developed - I.e surrounding neighbours chip in to make their new park extra awesome

We also need more public saltwater pools - like they have in Aussie - maybe two on the north shore and two in orakei.

Overall good job Wayne

A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

Auckland would be so much better if there were less traffic jams. More people being happy and using the public transport network would help heaps.

It's an absolutely miserable time when cities flood, and it can happen just because there's not enough drainage. The money spent here will be well worth any disruption and damage to property if a flash flood happens or freak rain causes a flood.

Sports, libraries, parks, make Auckland an actually nice place to live in. I wouldn't want to go to any of these if they weren't well managed, if there was litter all around and the premises vandalised and left in a poor condition, or outright dangerous.

Seawall Repair from Tāmaki Yacht Club to Archilles Point, St Heliers

We would like to maintain and repair seawalls, replenish sand, and extend stormwater outflows further offshore on our beaches from Tāmaki Yacht Club to Archilles Point, St Heliers, as well as re-sand Tāmaki Beach and construct groynes to help keep the sand in place. To fund this, we would need to investigate a targeted rate of around $10 per year, for each household in the Orakei local board area, for 10 years. If progressed, the Governing Body would need to make a decision on whether to introduce this rate as part of the annual budget 2026/2027, after consultation on a more detailed proposal. The rate could then apply from 2026/2027.

Community Pool Development

You have told us a community pool is a priority however building and running a community pool will involve significant funding. A targeted rate for Waiheke residents is one way to fund this development. The board will also explore partnerships and sponsorship opportunities.

Do you think we should investigate a targeted rate to progress development of a community pool?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

I don't know

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

Seems a low price to pay for the benifits

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

I don't know

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Less important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Fairly important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Very important

Increasing the number of local events arts and activations especially in local parks and town centres.

Fairly important

Again, Point Chevalier needs a new library. The little nook at the community centre is okay as a stopgap measure but it’s not the same as a proper full-scale facility. I am also concerned about how grimy and crime-ridden the Pt Chevalier shops are becoming.

Expanding the maker's space in Auckland Library to match the offering at Palmerston North Library, would be a great way to to promote trade skill development and to encourage people to develop the skills to help them to keep their homes in good repair cheeply, thus instilling a sense of pride in the community, and this as was proven time + again helps to improve the safety of the wider community. After all, if everything is well looked after, people try to keep it that way generally.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

Such a tax approach is unfair.

If a BED TAX was a fair way to collect a portion of the short stay accommodation income to fund extra spending by the council, then a RATES REBATE should equally apply to nights with no guests staying to be fair. In fact, RATES are already stuck and due on an improved property regardless of whether it's occupied by 0 people or by 20 people and proposing an additional levy for BED TAX breaks that principle.

No also because AUCKLAND stretches far north and south. If I had a property I offered for shrt stay accommodation in Port Waikato or Port Albert (at the south and north ends of AUCKLAND) these would be subject to the bed tax yet would never benefit from major events because they are too far away from central Auckland.

If the benefit of major events is widespread then the $7.1M should be funded by a targetted RATE for everyone like other targeted RATES. If the benefit is just to businesses in certain local boards then a targeted rate for businesses in these areas is a faired way to raise the extra $7.1M.

Adopting a rule like in LONDON which limits casual short stay accommodation to 90 days per year and treating a property that is operated for short stay accomodation for more than 90 days a year as an accomodation buisness (subject to business rates) would be fairer.

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

The Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document) gives no information and looking at the Supporting Information section pages 183 to 189 there is also no specific information on the PROJECTS to per Maunga to be delivered for the $13M total spend. This is quite outrageous given the budget is 2/3 of the $21M spend per local

board, and local board members are elected and publish project plans for each board. Based on the lack of explanation on Tupuna Maunga Authority projects it logical to conclude their budget should be cut by 50% to fund major events. From experience enjoying the parks around our maunga I don't think its really so simple. The work done does seem overly expensive in many cases and the maunga authority could be seen to actually serve the people of Auckland by publishing its projects and budget break down, instead of keeping how 2/3 of a local board budget is to be spend a secret.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

I don't know

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I'd like to see significant investment going into the Point Chevalier town square area. The whole square was poorly designed and invites anti-social behaviour. With the library being removed and a temp library is going in this is the perfect opportunity to revisit the design. Some suggestions of what I'd like to see:

1) Area licensed to support local markets to happen there once a week. Either on Friday and Saturday nights, and/or Saturday and Sunday mornings.

2) Local restaurants be able to extend their seating areas out into the square.

3) Build facilities for community activity; such as a stage for musical performances, playground, etc.

Bottom line is, the more actively used the area is, the less likely it is to have anti-social idiots hanging out there causing trouble, getting drunk, and stealing or assaulting people.

Our priorities for 2025/2026 are listed below.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

It is accepted that the council has a range of basic commitments to fulfil. These are the normal commitments expected of any council in providing the services required to run a city and its infrastructure. When the plans and expenditures stray into subsidizing ethnic festivals and arts the

expenditure becomes questionable. Excursions into cultural activism are not the council's responsibility and ratepayers money should not be spent on these.

It is a common way worldwide to fund infrastructure required to support visitors and tourists. The ratepayers should not have to fund tourism infrastructure which provides no significant benefit for them.

The Wairau plan appears to be an ideological plan to eliminate Takapuna Golf Course. This amenity is one of only 2 public golf courses in the Auckland region and provides an irreplaceable service for people of all groups and income levels to experience the sport of golf which has significant public health benefits. The golf course, as all courses do, provides a green haven for

variety of birds and wildlife. In its present from it provides a natural flood mitigation area of open ground so there is no justification for closing it.

To help the local board understand priorities and areas of importance for the community, we are seeking feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

I think Auckland needs more ambition when it comes to it's future transport investments and infrastructure. I agree that we aren't able to affordable large scale mega projects such as the second harbour crossing and previous governments attempt at tunnelled Light Rail, however, we need to investigate alternatives.

For example Mt Eden, Dominion, Remuera and Sandringham Road have significant numbers of passengers travelling by bus, and are our cities busiest bus routes. This will simply not scale, long term planning is required to ensure these routes are upgraded to a higher capacity service whether this is busway's or surface light rail.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support all

Tell us why

We want a greener way - by supporting our bus and train networks

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Tell us why

I lived in cities in the Northern Hemisphere where they added a bed tax for special events- It would be great to see that happen

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Maungakiekie-Tāmaki,Waiheke

Maungakiekie-Tāmaki Local Board Priorities

The local board has additional funding in 2025/2026, but there are unavoidable increases in the cost of existing services which will need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Continuing to support community groups and community-led activities through our local community grants

Very important

Continuing to build the capacity and capability of local community and sporting groups through our strategic partnerships programme

Very important

Activate our local open spaces and facilities, through council-led activities and assessing what amenities our spaces need, such as toilets and power outlets

Very important

Empowering community groups and organisations to deliver community events through sustainable funding models

Consider funding activities that increase our community's sense of safety, working with community groups and business associations already delivering safety initiatives

Less important

Continuing to support initiatives that deliver outcomes with and for youth, such as our Youth Empowerment programme, and Tiakina te taiao and Ope programmes (biodiversity and climate action education programme in schools)

Less important

Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways, particularly the Tāmaki Estuary and Manukau Harbour

Very important

Consider a review of Te Oro Music and Arts Centre, to ensure it remains welcoming and responsive to the community's changing needs.

Less important

How important are these priorities to you?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library

Very important

Programmes which protect, restore, and enhance the island’s natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience

Very important

Progressing recommended actions within the Rangihoua Reserve Onetangi Sports Park Reserve Management Plan

Very important

Capital projects including the Tawaipareira Reserve playground and loop track, and replacement of the Rakino Hall

Very important

Continuing to support local organisations with the development of a community swimming pool and investigate consulting on a local targeted rate

Very important

Revitalising Ostend and Oneroa village centres

Fairly important

Commissioning the research of data and surveying residents to understand the state of the motu.

Fairly important

I would love to see the golf course extended to 18 holes. It is a well-supported club by everyone and promotes the sport for young people

Community Pool Development

You have told us a community pool is a priority however building and running a community pool will involve significant funding. A targeted rate for Waiheke residents is one way to fund this development. The board will also explore partnerships and sponsorship opportunities.

Do you think we should investigate a targeted rate to progress development of a community pool?

I want very much better public transport. AT have been reducing our bus routes since 2018, when they also cut out a very large number of bus stops as well. Those reductions have continued more recently - especially removing the Outer Link Bus from my area (Epsom). The Hospital bus 321 is great but only operates Mon-Fri around working hours. Other than Newmarket & Downtown, I now

have to make connections to go almost anywhere. - often changing buses in unfamiliar areas. In the 66 years I have lived in Auckland, I have never lived near a train station so rail is not an option. Speaking of the 321 Hospital bus, I would like the bus shelter in Commerce Street to have a normal seat for passengers while we wait. A lot of us are too short to use the high narrow bench. For old folk like me with spinal arthritis, having our legs dangle in the air is very painful. And please bear in mind that people from all over Auckland, including Waiheke Island, are hospital patients travelling to appointments. That seat bench is diabolical.

Regarding Water - I have no idea what the effect/impact of the proposals might achieve.but I fully support the Economic & Cultural Development plan.

As long as it is only charged on tourists or people from out of town on business (which is presumably the target since it is charged via commercial accommodation) and not on family etc visiting residents, it seems a reasonable way of charging for major events.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

these people already pay rates, why is that not in there , asking them to pay extra is weird if they pay rates. if you pick and choose what the rates cover people will start wanting to pick and choose what they pay for in services.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Fairly important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

I work in hotels and do not agree to the Visitor Levy being created and controlled by the Auckland Council. I support the Visitor Levy but only if a unified New Zealand approach and if it is controlled by Central Government – the Hotel Council Aotearoa view is aligned to my view on this matter. I am not against a national accommodation levy, but we don't agree with local Auckland-only taxes or different rates up and down the country. I consider Auckland Council has more than enough money to support events, it's just choosing not to for political purposes. I want Auckland Council to work in good faith with the hotel industry (principally TIA, HCA and HNZ) on the long-term solution, rather than all the media/political stuff to try and split industry

Simply charging anyone staying in Auckland a fee is not at all equitable. Many people visit Auckland for many reasons, not just major public events. In my opinion, if there is a shortfall that the council can’t recover, the only equitable way to recover costs is to pass the cost on to the event itself.

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

I don't know

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Less important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Less important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Less important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Less important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Less important

Increasing the number of local events arts and activations especially in local parks and town centres.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Like with any progress, it is hard to accurately judge and correctly identify any unintended consequences of our actions, so I'm pretty close to 95% support but there are just a few bits and pieces that will be interesting to see if they play out as desired.

I think the numbers in the draft were 2.5 - 3%? Even at 5% a $100 accommodation is only $105, seems unlikely to have a drastic impact on visitor decisions to travel to Auckland.

There is almost no information in the linked document - it's mostly how the TMA came into existence in 2014. It would be nice for this to link to the actual TMP Operational Plan for 25/26 instead.

I would have liked to have seen the detail on the network programme for removal and revegetation on the maunga, it was not clear finding the Operational Plan, then the OP refers to something else that isn't linked. Not sure if this is an attempt to avoid conflict with the anti-TMA crowd but I'm interested in the restoration of the maunga and the TMAOP 25/26 hasn't really shed light on that progress or process.

I don't really object to anything in the plan, it all seems quite sensible really and it appears to be moving us in the right direction. It's more what's not there.

I am disappointed at the glacial pace of improving our urban landscape - a key function of a council. Stop pandering to obstructionists and work to aggressively reclaim the CBD for people by improving PT and active links, and making it less attractive to drive. Master plans are great, but focus on small pedestrianisation projects that are easy to deliver.

The patchwork cycleway in the west and south isn't good enough. I am frustrated by the lack of investment there, as it can never get anywhere near its potential unless it's connected. Our roads are a scary place to cycle on, and that's not going to get better for the foreseeable with the current government's war on anything with less than 4 wheels, and its must-be-bad-because-labour-did-it approach to speed limits.

I'd love to see some work to fix St Lukes as well. There is large demand for pedestrian access as evidenced by the number of people walking between the mall car park and mega centre, but the urban design encourages you hop in to a car and drive the 50m between them which is utterly ridiculous. And forget about bringing a bike. The whole area needs a rethink and is ripe for densification thanks to proximity to the railway. Bring on CRL!

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

I appreciate the trade off, I want the city to invest to grow but 5.8% rates increase is hard to swallow when salary increases are non-existent.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Of those proposed that I know / understand they make sense.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Very important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Very important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Very important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Fairly important

Increasing the number of local events arts and activations especially in local parks and town centres.

Less important

Tell us why (please be clear which priority you are talking about)

Reducing waste is very important and it's great you want to increase the visibility of the community recycling centre. But you need to make it more accessible. Why are there not more cardboard, can and soft plastic recycle points? They should be in walking distance for people.

4B. What do you think of our proposals for your local board area in 2025/2026?

The biggest issue I have is around the Keep Auckland Moving. I agree with the intent but not the way Auckland Transport are going about it which is anti-car every step of the way without having any alternative suitable for the majority of people. Auckland doesn't suit light or heavy rail as people travel in every direction all of the time. The current philosophy of buses and trains are not the answer in my opinion. I have a realistic solution - reach out if you want to hear it.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support any

Tell us why

An additional 4 billion of Capital expenditure? Really?

Compared to other councils 5.8% rates increase is reasonable. However, how do you think rate payers can sustain CONSTANT rates increases? You need a reality check. 5.8% is above the level

of inflation and it is far above general wage and salary increases which have either been frozen in many industries for the last few years or are tracking at 2%. You need to not be adding an additional 4 billion dollars of debt. It's irresponsible and unsustainable. You need to get back to absolute basics of collecting the rubbish and not a lot else until you can get the books in order.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. You need to support local business and increase neighbourhood safety. You need a clear and specific plan for how you are going to achieve these two things. I support nothing else on this list - they are not priorities and in the current economic climate put funds towards these fringe activities is wasteful

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

I like the flood management of at risk land teaching residents what to do to protect their streets

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Very important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

I don’t know

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Less important

Increasing the number of local events arts and activations especially in local parks and town centres.

I don’t know

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support some but not all of the proposals because I want the money to be prioritised differently. My number 1 priority and highest money put towards would be environmental considerations. We need more trees and adapting to the climate crisis.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

The household rates increase is too high.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

Local boards are ineffective, I don't even know who mine are. You can achieve best for the community without them and they don't need to be paid. Also stop restructing CCOs, there's always a cost to change that WE have to keep funding.

another 6% rates rise is a lot. most small businesses don't increase prices 6% every year and 6% pay rises aren't common.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

Support most but disagree on retaining North Harbour Stadium. This is a white elephant that needs to be demolished and land returned for housing, community sports and parklands.

Also disagree with alignment of Eastern Busway, can be expedited if it goes straight along Ti Rakau instead of Burswood deviation. Project should run along the road with signal priority to Botany Town Centre, forget about building through the park.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

Bed levy/tourist tax should also be charged on all Airbnbs (and similar holiday rentals like bookabach etc) as well as hotels/motels throughout Auckland so there is a level playing field for all providers.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

No

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Albert-Eden,Whau

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Support all

Tell us why

Seems reasonable

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Very important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Very important

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Less important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Fairly important

Increasing the number of local events arts and activations especially in local parks and town centres.

Fairly important

Tell us why (please be clear which priority you are talking about)

I tend to go to the Waitakere Refuse and Recycling station which accepts more stuff, the Western Springs one isn't as great.

Whau Local Board Priorities

The new community centre has missed an opportunity to boost retail and employment opportunities by demolishing a row of shops and not replacing them as part of the construction. Hopefully retail opportunities can still be retrofitted in.

Otherwise looks good.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Restore funding to service levels in some areas that were cut in recent years, e.g additional library hours, programmes and community grants

Fairly important

Increased service levels in our parks and town centres including progression of Te Hono project

Very important

Plan for the future Whau aquatic and recreation facility and facilitate public access to school pools in the interim

Very important

Work with local Business Improvement Districts (BIDs) to find new ways of delivering vibrant and welcoming town centres through art activation and beautification projects.

Very important

Continue to support volunteering, community and business participation, through environmental and ecological initiatives around the Manukau Harbour foreshore, the Whau River and its tributaries, and our urban ngahere

Fairly important

Increase community participation and capability in community hubs, houses and with established community partners, and progress the development of a new community hub in Fruitvale

I don’t know

Foster climate/emergency preparedness and resilience in our community

Less important

Investigate a future space for youth and engage a youth coordinator to support and promote for youth by youth activations

Fairly important

Provide appropriate options for healthy, active lifestyles through recreation in parks and open spaces with particular focus on our ethnically diverse communities, women, and girls.

Fairly important

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

we need to have more of a user tax rather than an overall Rate tax as this will impact homeowners more than anyone else

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

need more user tax, proposals on urban housing rates should be higher due to coverage of the house over the land.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Fairly important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Less important

Increasing the number of local events arts and activations especially in local parks and town centres.

Fairly important

Tell us why (please be clear which priority you are talking about)

I'm all about infrastructure keeping it updated and less disruptive roading being fixed

I do not support the removal of Western Springs Speedway or Ponsonby Rugby. This stadium should continue as is and the unused North Harbour stadium could be Aucklands new cricket or football ground. It doesn't make any sense to move it. It is part of Aucklands culture. Leave it alone. North Harbour stadium already has infrastructure in place eg. Parking and bus transport in place and wouldn't require much tax payers money at all. Leave Western Springs as is.

Fairly important

Encourage local business associations to continue to support business development, to contribute to safer, more vibrant, and attractive town centres, that continue to meet the changing needs of our residents

Fairly important

Support and fund efforts to mitigate and adapt reserves, parks and public assets from the effects of climate change through initiatives such as the Urban Ngahere (Forest) Strategy

Fairly important

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

I don't agree with the merging of Western springs Speedway with Waikeraka. It is a criminal and ignorant decision. The speedway stadium was intended to be exactly that. The Speedway stadium. Its part of Aucklands Heritage, Auckland culture. The sport itself will not survive if moved. Waikeraka park is a dump in a flood zone. The money council propose to provide for the merge is no where near enough to support this. There is not enough parking nor seating, nor pitt area to

combine both. By removing Western Springs Speedway, you remove another place families can afford to go in the city. It's not the right thing to do.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

Most of this seems to be reasonable and well thought out. I'd prefer not to have anoter rates rise in the midst of a cost of living crisis, but we need to pay for things for our city, so we'll suck that one up.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

Yes, but it needs to be applicable across AirBnB / Peer based room rentals, not just borne by the hotel / motel industry. There is an argument for a levy on hospitality venues within a radius of events that would benefit too - but that area is under huge strain currently so may not be able to take that right now, one for the future

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

They are doing a pretty good job. Happy to support all of these. We are seeing an increase in crime or suspicion of crime / potential crime (people coming onto properties, raiding mailboxes etc) that needs to be addressed, but overall a decent job here.

A thriving community is good for everyone. Bringing more quality venues for entertainment into Mt Albert Village will see us raise standards of living and bring more prosperity to all. Support businesses vs putting barriers in front of them (removing parking for bus / cycle lanes that don't get used enough) to help them survive and stay in our community.

Auckland Transport. Wayne, we elected you to sort this department out and it's still sorely lacking. Aside from their obsession with removing nearly every parking spot in Auckland in an effort to get people on to buses (which just isn't realistic) or onto the train system - which could be good but is so slow it's just not practical - 30 minutes to get to Britomart from Mt Albert? Nope, their management of the AT Out of Home RFP has been abysmal and a complete waste of ratepayers money.

I am not a player in this game, but am part of the associated industry (Marketing and Advertising) so have a front row seat.

If these guys were running a process for my organisation, I would have fired them months ago. This process has been running in excess of a year and they've just torn up all progress to date to go back to the start.

They've spent over $1M on consultants, even. more on ratepayer funded staff and caused incredible upheaval at the pitching businesses - all to say, after a year of work, hey, we're going to start again.

Not only is this insanely poor management by AT, but it places all the pitching businesses back at the start - but millions already spent on wages of the teams working on those RFP's - and now it is directly causing good workers to lose their livelihodds through redundancies caused by this process.

It is complete ineptitude by AT and the people running this pitch and heads should roll.

I want to support you for re-election Wayne, but this has to be sorted. It's the most poorly run, disfunctional council department I've ever seen in my life, both here and in the UK, so that's really saying something.

Please fix it.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

I still think there is too much waste and inefficiency in what the council or the council owned organizations are doing. Some is due to ideology, some is due to incompetence or mismanagement, and some is due to lack of focus and priorities. Increasing the rates above CPI is just adding to inflation, but also hiding the fact that costs are not being managed properly. I also

believe that the council should be focusing on what MUST be done such as infrastructure, and not what is NICE to have such as many social, cultural and community events which should be self funding. Anyone with a household budget would be spending their income on what is absolutely needed and not what they dream about (eg buy food but not spend holidays).

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

I think visitors to Auckland should be contributing to the costs of running the city. The local ratepayers should not be paying for it all. However, I think all major events should also be self funding, either through sponsorships, donations or payments by those who attend, and those who benefit from the event, etc. The council should only be assisting with organizing, liaising, expediating, etc the events. The council (ie the ratepayers) should not be paying for the events. Most Aucklanders do not benefit from these events, but are expected to pay for them.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I support standardizing on Waste management proposal as this should be more efficient and cost effective. However, I disagree with some of the details on how recycling, food waste, etc is collected and the rules around them. This type of thing needs to be simple and what we have is NOT simple. All organic waste should be collected together, not a separate system for grass waste and food waste. (eg CHCH council). All recycling needs to be simpler. The rules are too complicated, and I doubt that anyone complies. Also, it is usually too difficult to read the plastic type on the packaging. I things are not simple, easy, and convenient, people will not comply. I don't agree with some of the climate action targeted rates, or some of the Natural environmental targeted rates. Too many are just idealistic. These things should all be improved as they come to the end of their economic life, or if it is cost effective to change. Changing things for the sake of doing it is a waste of money.

I also question how rates are collected on just properties. There are now many elderly people now being forced out their family home because rates are such a high percentage of their superannuation income. I think this is socially unjust and unfair. They have spent a lifetime paying taxes and rates to NZ and Auckland, and are not using many of the things required for the growth of the city. New developments should be paying more for future infrastructure. The elderly should be exempt from many of the rates charges components.

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Fairly important

Less important

Tell us why (please be clear which priority you are talking about)

I support libraries because education for chidren is important. However I do not support council payment for many of the programmes. They should be paid for those who benefit or by sponsorship.

I support community leasing groups as this helps the local community, although many people also come from other communities.

I don't support council payment for local business associations. These should be self funding as the businesses benefit. However, I do think the council have a role in setting the standards of how business centers should look (eg no graffiti, etc) as many areas are looking less appealing and damage how the business centers develop and are used.

I support talking to ALL people in the community, not just young people about what is wanted in the local community. Young people are not paying the rates, so actions need to be balanced.

I support reducing waste and increasing the profile of local recycling centers. However, I don't agree with the detail on how they are run. In my opinion, recycling should be free and payment should be increased on dumping or landfill items. At present it is not convenient and it costs money to return (eg) electronic or whiteware to these centers. It is easier (and cheaper) to throw items in the weekly rubbish collection.

I support restoring and upgrading local parks so they can be used more often by the local community. However, I don't support all the removal of existing trees and replacing with natives. This should be a gradual process as required. I don't support the portable pump track. It isn't cost effective.

I support organizing or facilitating local events, but the council should not be paying for this. It should be funded by sponsorship, donations, or fees, etc

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

I don't agree with the removal of existing trees to be replaced by natives. Natives should be added and and natives used as replacement when existing trees die. I also think that viewing areas are needed at the top of each Mountain, or the height of trees at the top needs to be restricted. When I have visited some mountains with overseas visitors, I am very disappointed by the view available, because the trees near the top are getting too high.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

What is your opinion on our proposed annual plan?

Support most

Tell us why

I support the rates increase as long as it's devoted to making our city more equitable and more liveable for everyone who lives here and visits here.

In the transport arena in particular, this means an urgent focus on rapidly completing a viable safe cycling network, in order to enable all-ages access to one of the most affordable and healthy options for getting around and between neighbourhoods.

I also strongly support investment in improvements to public transport, as those are essential to giving more people more transport choice, and meeting our collective climate commitments.

Moreover, I encourage greater and faster attention to solving access issues around our train stations, in advance of the CRL opening. In particular, when closing level crossings, please aim high to bridge the gap for people walking, cycling and using other kinds of mobility/ small wheels to get around.

Additionally, I support past and current work to make our streets safer for everyone who uses them, and hope AT and Council have the courage to stand firm on the benefits of safer speeds, which not only reduce the alarming degree of harm on our roads, but also reduce disruption caused by crashes.

I also support the work to improve our water and our natural environment, which together form the basis of our ongoing ability to live a good and healthy life in Tāmaki Makaurau.

I support the investment in regenerating our town centres (including the city centre, with projects like Te Hā Noa nearing completion) and creating great spaces for people to gather and enjoy. It's good to see a commitment to working together with Kāinga Ora and other partners to maximise the opportunities.

I also support the ongoing investment in events and cultural activities, and local community facilities and activities. These are not nice to haves that can be carved away with no impact on the quality of life – they're absolutely key to a healthy and thriving city, and give us reasons to stay here rather than jump on a plane and move to other, more exciting places that are better at supporting and nurturing their population with everyday amenities and frequent opportunities for fun and festivity. Without those, Auckland has no edge, and will struggle to attract and retain people with vision and tenacity.

Fantastic to see a commitment to progressing the City Centre Master Plan, restoring our central library, and cracking on with Te Whau Pathway – along with all the other promised work to improve pools, parks and community centres.

Looks like a great list of plans. One notable absence is making progress on the outcomes of the LAMP consultation (Local Active Modes Plan), which revealed multiple quick-win opportunities to enhance and advance links for walking, cycling, and moving accessibly around the rohe. In particular, leveraging upcoming road renewals to bridge the glaring safety gap between the Pt Chevalier to Westmere project and the Great North Road project. Seizing this opportunity is essential for the safety of our tamariki in particular, and will also add enormous value to existing improvements by activating the network effect. The more people who can bike safely to and through shops, schools, and other destinations in the area, the better off we all will be.

Our priorities for 2025/2026 are listed below.

Tell us why (please be clear which priority you are talking about)

Probably more valuable to actually enhance safety than just perceptions thereof? Which brings me back to the wide-open opportunity for the Local Board to lead projects that will improve safety on

the streets as we move around the area. Especially if the plan is to put more transport budget and planning control in the hands of Local Boards.

To help the local board understand priorities and areas of importance for the community, we are seeking feedback on areas that are most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Tell us why

A great slate of interconnected priorities. Would also love to see some prioritising of transport links, with the current proposal to put more budget and control in the hands of Local Boards - with Te Whau Pathway under way, a growing network of bike improvements, and town centres and train stations set to boom with the CRL opening (while level crossings are being closed), there are tons of low-cost quick-win opportunities to both advocate and deliver a more accessible and connected network for people walking and cycling and getting around with mobility enhancement.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Restore funding to service levels in some areas that were cut in recent years, e.g additional library hours, programmes and community grants

Very important

Increased service levels in our parks and town centres including progression of Te Hono project

Very important

Plan for the future Whau aquatic and recreation facility and facilitate public access to school pools in the interim

Very important

Work with local Business Improvement Districts (BIDs) to find new ways of delivering vibrant and welcoming town centres through art activation and beautification projects.

Very important

Continue to support volunteering, community and business participation, through environmental and ecological initiatives around the Manukau Harbour foreshore, the Whau River and its tributaries, and our urban ngahere

Very important

Increase community participation and capability in community hubs, houses and with established community partners, and progress the development of a new community hub in Fruitvale

Very important

Foster climate/emergency preparedness and resilience in our community

Very important

Investigate a future space for youth and engage a youth coordinator to support and promote for youth by youth activations

Very important

Provide appropriate options for healthy, active lifestyles through recreation in parks and open spaces with particular focus on our ethnically diverse communities, women, and girls.

Very important

Love all of the above and the way it's expressed - this shows real vision and coherence. Just add some transport thinking and it's a holistic picture of a great place to live and visit! Especially welcome your focus on youth and on climate / resilience planning, as those two things are inextricably connected and it's never too soon to start empowering both. Onwards, mighty Whau!

I support and appreciate the Tūpuna Maunga Authority, its vision, and its work. On the maunga I'm most familiar with, the improvements are making a positive and visible difference and are bedding in nicely. These iconic places underpin and oversee all of our human activities, and are rich with historical and geographical stories – each a precious oasis for native biodiversity and a vantage point from which to consider our city as it grows. Having a coherent restoration plan in the hands of those who know and care for the beloved status of these tūpuna maunga is a real gift to the city, and to the nation.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

What is your opinion on our proposed annual plan?

Support most

Tell us why

I think Transport is a huge issue in Auckland. There are no end in complaints regarding endless traffic during peak hours, and poor public transport. Spending money to address either/or of these issues, would be something I support.

I am hesitant to support the transport part more, because it seems like the addressed issues don't really target making traffic better. Fixing potholes and creating the CRL sounds like it would affect a small part of things, while in the big picture, everyone would still need to travel along the same old roads, clog the same old areas, and traffic will only get worse.

Water is a necessity, whoever (or whatever) you are. Any money spent to improve or maintain the infrastructure behind such a core part of basic human needs is necessary to be supported.

Funding for local communities, I am neither for nor against as I do not take part in these events. It's good to hear they are fairer, however that is the extent of which I support due to my lack of involvement.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

If visitors/external parties are coming into Auckland and will require use of our infrastructure, I do not see why they should be exempt from paying their small portion of usage (even if it is one night).

Extra funding from this side of things would also allow for more funding for improvement of said infrastructure which would be put under extra strain from the extra influx of usage.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I think having all waste management under one type of management makes things easier for those managing how things work at the top - it makes for a more streamlined system overall.

What I do not enjoy seeing is ratepayers (myself being one of them) seeing their rates increasing however the services seeming to be getting less.

There was talk of recycling collection being decreased (from weekly to fortnightly), purely just because. From my perspective, it feels like I'm paying more for a service that's getting worse - enshittification of council services, if I'm being crass.

Our local community's need as much support as they can get and water is a must. But I haven't seen much improvement regarding Auckland Transport. There seems to be so much time, labour and money going into rebuilding a lot of our train and bus systems but to no actual positive

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Fairly important

Looks overall a fair compromise in a time of reduced spending. I wonder if the projected rates 'reduction' of 1% next year (5.8%), offset by an increase of 2% (7.8%) for 26/27 isn't a bit cynical? And that borrowing looks enormous still- but what else can you do?

Rubbish bags are- rubbish! Dogs and the weather cause havoc with rubbish bags and the wheelie bins are much better environmentally I'd think. But DONT reduce the size or frequency thanks. When one runs out of recycling space it goes in the rubbish bin or you have to take it to the tip yourself which is a waste of time and fuel (or electricity).

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

We need to get back to basics - sort out water, rubbish, roads and better control of AT functions. No more vanity projects such as new Stadiums. Reduce number of local Boards and insist on relevant skills for any person standing for Council or local Boards.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

NZ is already a very expensive destination at the bottom of the world, and some tourists have to pay hefty Visitor Visa levies. Our city hotels are not cheap and the cost of food in NZ is high. Do we really need ratepayer funding for destination management, marketing etc?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

We seem to be reducing services relating to rubbish collection to ratepayers and spending more on internal office costs at Council constantly reducing the services available than actually spending the rubbish rates in removing the actual rubbish. The city - in particular is dirty with litter which is getting worse since someone decided to remove public rubbish bins.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Albert-Eden,Puketāpapa

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Do not support most

Tell us why

Too many local board members and too many vanity projects. Again, let's stick to the basics and ensure that local board members are not pushing their own agendas.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Very important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Less important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Very important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Less important

Increasing the number of local events arts and activations especially in local parks and town centres.

Less important

Tell us why (please be clear which priority you are talking about)

Provide basic support for the local community but do not try to manage the way they live, work and play. There are many local arts, activities etc. who manage very well without having their hands held.

Puketāpapa Local Board Priorities

The local board has additional funding in 2025/2026, but there are unavoidable increases in the cost of existing services which will need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Do not support most

Tell us why

You appear to be trying to take over managing the way we live. We need to enable people

to work together in their community to help themselves - let them come to you if they need your help - do not attempt to control how the community functions. That is not the role of Council.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Considering the community programmes that are delivered from Wesley Community Centre and Roskill Youth Zone to get better utilisation of the facility

Fairly important

Investigating the use of the Fickling Centre and Library, to ensure that it is able to respond to the needs of the growing Three Kings community

Fairly important

Supporting community groups that lease council space, so they can find ways to share their spaces and continue to provide great community activities

Fairly important

Implementing recommendations from the Sport and Recreation Facilities Plan so that the recreational needs of our growing communities are met

Less important

Planning for the development of Monte Cecilia Park so that this becomes a destination park and an icon for Puketāpapa

Less important

Investigating projects from the Wairaki Awa Catchment Plan that can be implemented, such as naturalising the awa at Lynfield Cove

Less important

Investing in more climate action and environmental projects

Less important

Increasing the number of local events, arts and activations, especially in local parks

Less important

Supporting arts and events by working with existing community groups to help coordinate their work and make the most of opportunities

Less important

Supporting community-led placemaking initiatives that engage diverse groups, promote safety and community identity, and increase greater connectivity and participation among businesses and community members.

Less important

Tell us why (please be clear which priority you are talking about)

Basic community support - not hand holding and pushing your own agendas. You cannot control how people live, only enable them to live their lives as best they can.

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

I oppose the rates increase of 5.8%. Council needs to contain increases within the rate of inflation. In 2014-15 the rates on our Mt Eden property were $3,650.90. The Reserve Bank's inflation calculator suggests that an inflation adjusted equivalent for 24-25 rates would be

$4,778.39 but our actual rates this year for the same property are $7,589.83. This means that you have increased our rates by 7.6% year on year FOR THE LAST 10 YEARS.

Today I read that Council has spent $560,000 funding and maintaining a machine to make rainbows! On 13 Feb 2025 economist Cameron Bagrie wrote a piece on Business Desk captioned The turbo-charging of rates must stop. I agree.

Okay.

The bed night levy is okay.

The Auckland transport system is a tricky one. It's a work in progress I hope the planner knows what they are doing.

It would be nice to get more bins back in the city. I'd like to see changes to bus lane laws. Maybe a five way to busses/bus has priority. Because I'm tired of being stuck in traffic and backed up for a kilometre and there is an empty lane right next to me.

The double decker bus more people so in theory there's less buses on the road now so we could do something…

A BID is a local economic development initiative run by a business association under the Auckland Council BID Policy (2022). It involves businesses in a defined area paying a targeted rate to fund specific services or projects in their BID boundary. The Māngere East Village Business Association Society Inc. Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

I don't know

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

Funding through rates is acceptable for what has been stated, consideration of these items and the affect they have on an already at capacity infrastructure system, means that many of these targeted areas in the op plan will have a bigger impact upon the ailing infrastructure. Relying upon the impending DC changes as the main form is hardly fair considering the low rates increase - as a rate payer for several properties id would rather see another 1% added to offset the infrastructure repairs and renewals Auckland so desperately needs.

Tell us here
Main concerns/feedback are

Rates increases - these need to be kept as low as possible.

Speed bumps being installed everywhere - impact of vehicles, noise, and driving experience.

Desperate need for leadership and building a central recreation/gym centre for sports, especially basketball, futsal (growing sports). The loss of the land/gym by Unitec has been a disaster and clear lack of vision and leadership. This should have been a new pool/rec centre space, with a gym, 6 courts etc. It was right by the motorway with lots of room for parking.

Less mass density apartment/housing buildings without schools/infrastructure support

The zealous zero waste targets and attempts to remove weekly rubbish collection. Not necessary and I do not support this.

Community development, including events, community safety, and a greater activation of our community houses, community centres, and libraries

Fairly important

Increased funding in the Kaipātiki Community Grants Programme, so we can support and help a wider reach of our community through their activities

Fairly important

Māori outcomes, through investment in engagement, events, and fostering authentic relationships with Māori.

Less important

Youth outcomes, through conversations with young people to identify local activities and services that interest them

Fairly important

Increased sport and recreation opportunities, through grants to organisations to maintain or improve their assets, or to secure community use of non-council owned facilities

Very important

Environmental protection and restoration, including working with our local environmental groups to increase their impact

Fairly important

Maintenance, including environmentally friendly open space management, building maintenance, refuse collection, bush track maintenance, and removal of aging pine trees

Fairly important

Compliance, in the areas of building, illegal dumping, noise, animal control, and overnight stays on reserves

Fairly important

Needs to be more infrastructure focussed i.e. rail/tram/light rail to the airport and getting the next tunnelling project underway i.e. second harbour crossing or extending CRL as otherwise the international expertise we have from CRL/CI will go back overseas and the next project will be

more costly and inefficient. Also need to spend more money to make money i.e. bringing in more major events

Question 2: Destination management and major events

Other

Tell us why

I support a bed night visitor levy at a national level but not regionally as it will take away from visitation to Auckland which will be counter-productive to the plan. Queenstown & Christchurch are already penetrating Auckland's share of international arrivals

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Dog fees - this will dissuade people from adopting which shouldn't be the case when they are doing a service. We need to find a better way of recovering dog nuisance costs i.e. not allowing those who don't pay dog nuisance costs to own dogs in the future.

We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

This seems like a sensible way to cover costs that can facilitate greater tourism to Auckland.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I find buying rubbish bags a frankly rubbish system, so am pro this.

Tell us why

I think they reflect the needs and wants of the Albert-Eden community.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Very important

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Very important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Fairly important

Increasing the number of local events arts and activations especially in local parks and town centres.

Fairly important

Tell us why (please be clear which priority you are talking about)

I think the flooding of 2023 emphasised the need to improve emergency preparedness and engagement in the community (I volunteered with SVA, so saw how great the need is). Waste is a huge priority for me: without improvement we will bury ourselves in junk.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract

visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Tell us why

A very smart income stream to support a great course

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

The council has slowly over the years reduced its involvement in its key responsibilities such as waste water, storm water and waste control - they need to stop funding the many many cultural events and hand outs around Akld and stop being a cultural charity funder with the cities tax payer funds (rates) .

Whau

Whau Local Board Priorities

The local board has additional funding in 2025/2026, but there are unavoidable increases in the cost of existing services which will need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Do not support most

Tell us why

The local Whau board is very well known to be dominated by Green and Labour supporters who do believe in democracy and have pushed through changes that were never decided on by the majority of the public - i will not support this council until we have a fair representation of the community included on the board.

The board desperatle needs some of its members to resign or step aside.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Restore funding to service levels in some areas that were cut in recent years, e.g additional library hours, programmes and community grants

Fairly important

Increased service levels in our parks and town centres including progression of Te Hono project

I don’t know

Plan for the future Whau aquatic and recreation facility and facilitate public access to school pools in the interim

Fairly important

Work with local Business Improvement Districts (BIDs) to find new ways of delivering vibrant and welcoming town centres through art activation and beautification projects.

Less important

Continue to support volunteering, community and business participation, through environmental and ecological initiatives around the Manukau Harbour foreshore, the Whau River and its tributaries, and our urban ngahere

Less important

Increase community participation and capability in community hubs, houses and with established community partners, and progress the development of a new community hub in Fruitvale

Less important

Foster climate/emergency preparedness and resilience in our community

Less important

Investigate a future space for youth and engage a youth coordinator to support and promote for youth by youth activations

Very important

Provide appropriate options for healthy, active lifestyles through recreation in parks and open spaces with particular focus on our ethnically diverse communities, women, and girls.

Fairly important

Tell us why (please be clear which priority you are talking about)

The local board needs to get away from political pet projects which is a waste of rate payers funds.

We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I don't know

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Very important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Very important

Talking with young people and children to better understand what is important to them in their area.

Very important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Very important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Very important

Increasing the number of local events arts and activations especially in local parks and town centres.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

Support all

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Less important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

I don’t know

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Very important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Very important

Increasing the number of local events arts and activations especially in local parks and town centres.

Fairly important

Tell us why (please be clear which priority you are talking about)

#3: I support vibrant town centres but not business associations because the latter are often reactionary in terms of people-friendly transport infrastructure. For people to safely live, work shop and play in local villages, there need to be better active mode options so that people can walk and bike locally.

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

I think there should be more investment in walking and cycling. I love the existing cycle network but there are still far too many gaps in it which deter people from choosing bikes for their local journeys. I'm particularly excited about the nearly complete Te Whau pathway and the Pt Chev to Westmere cycle route but schools need more resources/encouragement to create safe cycling zones for children.

The City Centre Master Plan is great but in my opinion there should be more focus on eliminating car traffic on roads like Queen St, High St and Lorne St, where most drivers are circulating looking for a parking space. I love all the upgrades to midtown that have appeared recently, especially the Victoria St linear park, and look forward to cycling along Victoria St if it connects to other cycleways. The Queen St cycleway needs to connect properly to Upper Queen St.

There are plenty of opportunities to create more separated cycleways by reallocating road space, and I would like to see cycle tunnels under level crossings and busy road crossings such as Carrington Rd and St Lukes Rd (on the NW shared path). Pop up bike lanes (as in Paris) can be installed quickly and cheaply.

I would like the Council to reduce driving speeds where feasible to make streets safer by retaining safe speed limits, installing more raised ped crossings and other traffic calming designs. I would also like to see a greater focus on climate action, including encouragement of cycling, walking and use of public transport.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support all

Tell us why

Seems to be balanced for the issues considered

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

A good alternative to increasing rates for events which not all will attend

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

There are considerable infrastructure improvements needed in Auckland and it sounds like the general plan is to address these. I would however like to see central government contributing more to Auckland. Aucklanders pay the vast majority of taxes in this country and yet we have to fight for

every scrap of federal funding. It's not right that Aucklanders carry a higher financial burden to support other cities when our own city is in such dire need.

Tell us why

Good idea to add a bed tax for visitors. I pay this when I visit other cities; it is absolutely expected and normal practice.

I would, however, prefer that these funds are used to support non-commercial, non-profit cultural events and local organizations rather than big, for-profit sports or stadium acts.

(Please be clear which proposal you are talking about)

The current rates we pay are a substantial burden and do lessen our household spending power. We might be contributing much more to local businesses if we didn't have to keep such a tight watch on our budget.

The bullet list is so vague, really hard to know what you mean. I can say that I am very worried about the development happening in Pt Chev / Mt Albert area. The library in Pt Chev was torn down (is it coming back? this isn't clear). A massive prison-like multi-story Kainga Ora complex was put up - it is truly, truly hideous and an eyesore. I wonder if the area will continue to deteriorate. As I write this, there is a relentless rumble of rock-splitting shaking my house because of the new Carrington Road development. We have no idea what this will look like, what the timeframe for completion is, what kinds of local amenities will be part of the complex. It terrifies me that you are building a future slum in this area. We receive zero communication from the developers and feel totally in the dark. If you destroy our neighbourhood and home values, what compensation can we expect?

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Tell us why (please be clear which priority you are talking about)

Investment in parks and village centres is needed. Also, we need more visible community policing in the area. Crime is rising and is a significant worry. Please can someone start communicating with the neighbours about the massive redevelopment of our area that is happening? We are being kept in the dark. It is very unsettling.

Please continue to fund our local arts community, in particular the Auckland Philharmonia, our city's fully professional orchestra. In fact increased support is desperately needed in order to achieve closer parity to the funding that Wellington-based organizations receive (from Aucklanders' tax dollars, no less). If the central government is not stepping up and properly funding our largest city's most significant performing arts organisation, it is essential that the city plays a major role.

More focus needed on climate action - especially mitigation actions that support a reduction in emissions in line with our Auckland Council Climate Action goals. The recent focus on Auckland Council walking the talk on their corporate emissions seems a fairly narrow focus. More effort is needed to support Aucklanders take effective action, support diverse communities to lead action

and/or provide their voice on action needed needs to be a priority. Climate adaptation/resilience needs to walk hand in hand with climate mitigation.

4B. What do you think of our proposals for your local board area in 2025/2026?

Do not support most

Tell us why

The priorities seem to be missing two key areas; community climate action and sustainability activities and environmental restoration, volunteer and pest control activities. These have traditionally being strong priorities for the board and deliver outcomes including community-led initiatives, greater community participation and social cohesion and well as environmental/climate outcomes. Previously these outcomes were key priorities for the board and in the past you have modelled great leadership across the Local Board family in these areas. They are also identified in specific section of your Local Board Plan 2023 under the headings Climate Action and Our Environment with a number of key actions that don't seem to have been included in the priorities for the year ahead.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Increasing the number of local events arts and activations especially in local parks and town centres.

Less important

Tell us why (please be clear which priority you are talking about)

This seems to be a narrow range of priorities taken from the Local Board 2023 plan mainly in the Economic section, focusing on localised economic development opportunities by investing in town centres and business associations and bringing traffic to them through mechanisms such as providing events and activations. There is already funding for town centres/business associations provided through council so unsure what the need is there and how the board sees their role in this space.

While waste is an important area - it is only one aspect of sustainability action- I would ask that the board considers a broader scope of sustainability activity under this area. I'm supportive of restoration plans in local parks - especially if they deliver social and environmental outcomes. I understand a key part of this from reading your Local Board Plan may involve upgrading the 18 hole golf course at Chamberlain Park, to unlock other opportunities, I don't consider this upgrade a priority at this current time.

There are a number of regional programmes focussed on community wellbeing and emergency preparedness. I wonder how this work programme will fit in with what is already happening and how will a focus on this priority add distinctive value to this work?

Thank you for your hard mahi and work to increase densification and make Auckland City a wonderful place to live.

I would like to see a cycle path across the bridge!

I would like to see more investment in connecting the cycle infrastructure up with the train network, and integrating our public transport into the national ticketing system, and connecting up the Airport with a FAST public transport network. It's crazy that it takes THREE HOURS to get from the airport to town on public transport.

If you want to make Auckland a nice place for tourists to come, give them a direct bus to and from the city! Don't subsidise events which pays for polluting helicopters flying over our city.

I support the investment into transport - and support increasing it a lot.

I support increasing rates for climate action

I support the bed night levy.

I don't support us paying for events which could have a corporate sponsor. Funding travel for travel's sake doesn't make sense. Taylor Swift is also not a great role model on climate action.

Events increase our city's carbon footprint hugely and encourage travel for short trips, which in New Zealand, requires more flights. Have we accounted for the induced carbon emissions from us supporting these events?

Great to see the work that's been happening on maunga in relation to increased planting, walkways etc. (Referring particularly to Te Tātua and Maungawhau).

In general, little in the plans - unless I've missed it - re support for increasing use of public transport. I'd like to see Council pushing hard with central government to reduce reliance on cars/ease congestion and pollution. Although as a senior, public transport is free for me, I know that the removal of cheap bus fares has meant that our grandkids are using a car to get to uni when they would have used the bus - parking apparently is cheaper than the current bus fares. More safe cycleways, cheap public transport, consideration of congestion charges in Auckland City etc. And I am very dismayed at the blanket reversals of speed limit restrictions, 'calming' measures etc that have been imposed by central govenment.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Overall support the priorities but I do not know enough about all aspects across the wide range of priorities.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Community development, including events, community safety, and a greater activation of our community houses, community centres, and libraries

Very important

Increased funding in the Kaipātiki Community Grants Programme, so we can support and help a wider reach of our community through their activities

Very important

Māori outcomes, through investment in engagement, events, and fostering authentic relationships with Māori.

Very important

Youth outcomes, through conversations with young people to identify local activities and services that interest them

Very important

Increased sport and recreation opportunities, through grants to organisations to maintain or improve their assets, or to secure community use of non-council owned facilities

I don’t know

Environmental protection and restoration, including working with our local environmental groups to increase their impact

Very important

Maintenance, including environmentally friendly open space management, building maintenance, refuse collection, bush track maintenance, and removal of aging pine trees

I don’t know

Compliance, in the areas of building, illegal dumping, noise, animal control, and overnight stays on reserves

I don’t know

Pools and leisure service enhancements and affordability

I don’t know

Community Development - empowering communities to come together to take collective action and generate solutions to common problems is a great way to support people to be connected, happy and well but also to develop shared responsibility, innovative solutions that deliver positive change. It is vital that local boards support and collaborate with their community organisations who are able to add so much more value to each $ spent by the amazing efforts and contribution of local community.

Maōri outcomes - in order to continue with authentic relationships, it is important to continue to develop the whanaungatunga that groups have been developing over years to build trust and reciprocal relationships. E.g. Kaipātiki Project has been genuinely building connections and shared experiences of working together which is important to continue.

Environmental protection and restoration - whilst Kaipātiki Local Board has been an investor in this area, it is critical that the support continues to ensure the sustainability of the amazing community groups and work that is in place in Kaipātiki. It is vital to continue working on a shared understanding of Te Taiao and the interconnection of people and nature - when nature thrives, so do people, communities and businesses. We are part of the environment so investing in our environment, is investing in our people and our future.

Youth outcomes are vital because they are the future - so investing in listening and understanding their needs and feelings is important to ensure we provide activities and connections that support their wellbeing, outlook and sense of place. Enabling young people to connect with the outdoors, their space and community as well as inspiring the new leaders is so important.

Supporting community groups to be responsive and innovative will enable localized solutions led by communities that are inspired and empowered to connect with nature and live sustainably.

The additional funding available to Kaipātiki Local Board in 25/26 enables the opportunity to provide environmental groups with greater security of longer-term funding. Kaipātiki Local Board has demonstrated commitment to Kaipātiki Project by investing in the wonderful EcoHub building and it is also important to continue to support this community driven organisation to continue to be able to do the amazing work it has been doing for over 26 years. The impact delivered in Kaipātiki but also the beacon it shines out across the North Shore and wider Tamkai region exemplifies Kapātiki as an environmental leader. With no significant increase to their annual funding contract since financial year 21/22, operational costs continue to increase financial pressures for the organisation. Kaipātiki Project provides for 18 part time employees and thousands of volunteers. The organisation's prioritisation to collaborate and take a whole system approach to the complexity of needs across the community results in significant impact not just for the environment - caring for the environment simply cannot be separated from everything else!

Kaipātiki Project's Board has submitted a response to emphasize the importance of sustainable funding models as well as the ongoing pressures of increased operational costs and we hope that the work of Kaipātiki Project is continued to be well supported to continue and flourish.

Kaipātiki Project's roots trace back to 1998, with a merry band of volunteers that embarked on a journey and we hope to continue that journey, with the legacy of community-driven environmental action and visionary leadership spreading throughout the community and being passed on to each generation. The environment isn't just our green spaces, it is the place we live in and are truly a part of.

Since the changes to Point Chevalier Road traffic in the parallel inner street Tui, Whakatipu, Huia, Riro, Kiwi, Walmer and especially Moa Roads have become dangerous; with daily congestion, noise, pollution and a lack of speed humps to slow down speeding vehicles; particular on Moa Road. There is a scout hall, a kura and day care, Pasenda School, Western Springs College close by. It is an accident waiting to happen. The tightened roads for vehicles make cornoering difficult and drivers are noticeably more aggressive.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Very important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Very important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Very important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Less important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Less important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Less important

Increasing the number of local events arts and activations especially in local parks and town centres.

Point Chev is an active community. It is disappointing Auckland Council is taking so long to replace the Library. The shopping center is extremely shabby and Council has down little upgrade or apply civic design to the precinct. Traffic should flow around the town center. This should be articulated in a long term plan.

Very important

Progressing recommended actions within the Rangihoua Reserve Onetangi Sports Park Reserve Management Plan

Less important

Capital projects including the Tawaipareira Reserve playground and loop track, and replacement of the Rakino Hall

Less important

Continuing to support local organisations with the development of a community swimming pool and investigate consulting on a local targeted rate

Fairly important

Revitalising Ostend and Oneroa village centres

Less important

Commissioning the research of data and surveying residents to understand the state of the motu.

Fairly important

Tell us why (please be clear which priority you are talking about)

Public transport to Waiheke is not accessibly ticket at a public transport price. Tāmaki Makaurau residents should be able to access the suburb at a more reasonable rate. Visitor and tourist should pay higher price. Auckland Council should own and operate the ferry service.

Council facilities such as the Art Gallery, the Theatre and other community organizations should be supported at a better and more comparable rate to urban facilities.

Community Pool Development

You have told us a community pool is a priority however building and running a community pool will involve significant funding. A targeted rate for Waiheke residents is one way to fund this development. The board will also explore partnerships and sponsorship opportunities.

Do you think we should investigate a targeted rate to progress development of a community pool?

No

Too expensive, the city already has a variety of pool facilities. Use the beaches.

Sustainable and clear moana and waterways - PLEASE! Better support of the arts and culture, not just the venues, but the people and art and dance companies who actually create the work. Less money spent on Eden Park! More spent on creating sustainable arts careers; it will create a better world and a happier city.

I strongly disagree with the proposed bed tax on hotels to fund major events in the city.

While these events bring economic benefits, they do not solely benefit hotels.

Nearly all business benefit from events in our city, including, but not limited to taxis, bars,

restaurants, retail and tourist attractions - these cover majority of local business and

they all see increased revenue.

Placing the financial burden solely on hotels is unfair and short-sighted.

I feel even after covid, the council still has not understood that Auckland is the key city that drives NZ and the major events play a vital roll. If local council start taxing only one area like you are planning to tax hotels, its very unfair and if this goes ahead, it will be a real shame for a democracy that only one person's view point have won over the voice of millions.

4A. Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Fairly important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Fairly important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Fairly important

Increasing the number of local events arts and activations especially in local parks and town centres.

Less important

Tell us why (please be clear which priority you are talking about)

There are so many events on already, that I would rather see the current event better promoted, rather than expanded on.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Tell us why

Seems equitable in terms of sharing costs of the amenities that visitors have access to

Question 3: Changes to other rates, fees and charges

We also support all moves to reduce car usage and encourage regular, frequent and accessible public transport as well as safe cycle ways. We want Auckland Council to lobby central government to this end. We are also strongly against government's blanket reversal of speed limit/safety measures (including wasting money on removing of speed bumps etc).

Make sure the new Speedway is able to cater to the fans as well as the drivers. Western Springs has been great for fans but not drivers for many years. Waikaraka Park will be great for drivers, but the fans need facilities too. It's great that the council has made sure the sport can continue, but the new track is only one part of the solution. The spectator areas need to be good too.

I am not in support of the Consolidation of Speedway at Waikaraka Park (WP). There was no consultation by this Local Board with the open wheel speedway community fans and stakeholders in accordance with Auckland Council's Significance and Engagement Policy, March 2022 and the Local Government Act 2002 (LGA). The Waikaraka Park Master Plan's intent has been changed significantly and these changes had no consultation.

The WP Speedway footprint is too small to meet the current and potential attendance at the current venue and would therefore diminish and hurt open wheel speedway to be forced into a smaller venue.

'Like for like' open wheel events have been run at WP that failed to draw the usual Auckland open wheel attendance and were not successful, proving open wheel speedway will not be successful at WP.

I have concerns that the Ombudsman has taken up this matter and that the Serious Fraud Office are looking into it. This decision should be overturned.

This is not-with-standing that I do agree that WP Speedway is in need of an upgrade and that a redevelopment for Auckland Stock & Saloon Car Club purposes is in order.

Western Springs Speedway should remain as an open wheel speedway. It has been a speedway since 1929. The speedway activities are enjoyed and well patronised by the wider and local community, offering family-based entertainment within our community. A March 2025 Westmere Community Facebook Page poll showed overwhelming majority of 63% wish to 'keep the current facilities for Ponsonby club, concerts & Speedway', with all other option receiving less than 17%.

Drawing in over 100,000 spectators in a speedway season benefits the local community. Many local businesses are involved in speedway through advertising, employing participants and fans with some business owners also speedway car owners.

Speedway at Western Springs is a multi-generational past time enjoyed by a wide variety of Aucklanders and attending races is traditional for many families.

Flood resilience is important for this community. Keeping Western Springs as a Speedway is ideal as its situated on the flood plane where expensive infrastructure and buildings are vulnerable to flood damage.

This community, Ward and Local Board should support the continuation of Speedway at Western Springs under reasonable operating conditions.

Our priorities for 2025/2026 are listed below.

I have serious concerns over the decision to consolidate Speedway from Western Springs to Waikaraka Park and am equally as concerned over open wheel speedways usage rights at Western Springs Stadium and Speedway. I have concerns that the Ombudsman has taken up this matter and that the Serious Fraud Office are looking into it.

Tataki Auckland Unlimited and the Auckland Council should negotiate a fair and reasonable contract with the car owners and drivers of the sport through the Western Springs Speedway Assn. to remain operational at the venue.

Speedway should not be forced out of Western Springs and into Waikaraka as it will not fit. Speedway and Stock & Saloon car racing are not ideally compatible to share a venue, though forced to in smaller towns. There are health & safety concerns.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support all

Tell us why

Think the plan is doing well with continuing the long term plan goals.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Tell us why

I think the blanket rule is a bit tough considering a lot of people come from overseas to visit family and not to go to events. Maybe there could be a way to charge an event tax on tickets instead?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

The new bus system is very flawed. The constant outerlink buses were the only good part. Now you have cancelled the outerlink so it does not cross through Mt Eden where a lot of people like me rely on this bus to get to study spaces like Central City Library due to Epsom Library closing too early and not being a quiet and nice study space. A series of unfortunate circumstances that has ultimately lead to a much worse transport system rather than the benefits promised when cutting the Outerlink buses

Seawall Repair from Tāmaki Yacht Club to Archilles Point, St Heliers

We would like to maintain and repair seawalls, replenish sand, and extend stormwater outflows further offshore on our beaches from Tāmaki Yacht Club to Archilles Point, St Heliers, as well as re-sand Tāmaki Beach and construct groynes to help keep the sand in place. To fund this, we would need to investigate a targeted rate of around $10 per year, for each household in the Orakei local board area, for 10 years. If progressed, the Governing Body would need to make a decision on whether to introduce this rate as part of the annual budget 2026/2027, after consultation on a more detailed proposal. The rate could then apply from 2026/2027.

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

Anyone who is new to the operations of the Tupuna Maunga Authority and who wishes to provide feedback is currently (as of 28/3/2025) hindered by doing so due to a fault in the TMA website. In particular, the link purporting to take readers to the Integrated Management Plan Amended 2022

goes nowhere. Not only does this leave readers uninformed, it makes a mockery of the advice on p.188 of the Supporting Information booklet to see certain specified pages of the IMP.

As in past years, however, the TMA's annual operational plan leaves much to be desired in providing clarity around expenditure - i.e. expenditure items are still listed in very generic terms and fail to include sufficiently specific information on the activity being funded, e.g. precisely what species does Vegetation Management cover - endemics? exotics? both?

This brings me to a familiar complaint. The TMA continues to consult inadequately on the removal of mature exotic species. I refer specifically to the unnotified removal of around ten prominent olive trees on Mt Hobson over late January/early February this year. Please remember that the olive tree has a deep cultural and spiritual significance for many Aucklanders of non-Maori background through its use as a universal symbol of peace and a great many other things in Judeo-Christian belief and in daily Middle Eastern life. If the TMA really must remove olive trees from other maunga, could it please have the courtesy to signal its intentions to do so explicitly and well beforehand, so that rate-payers who have a cultural, spiritual and emotional attachment to these trees will, at the very least, have adequate opportunity to farewell them as they see fit?

A city like Auckland is expensive to run with all the services required to ensure the city functions efficiently and well so that comes at a cost hence a rates rise is inevitable. Important though that businesses aren't crippled by excessively rising rates

It's crucial that the council in conjunction with the police ensure that local security is paramount to protect the safety of residents particularly against drug related criminal operations. On Woodhall Rd.. Epsom last month (February) a drug house had been set up at no 7 which resulted in police shutting down the operation as a result of vigilance by street residents who observed rival gang behaviour in broad daylight on the street.

It's also crucial that our parks and green spaces are well maintained such as rubbish tins made available and regularly emptied to keep such spaces neat and tidy. Dogs should be discouraged from being off lead in our community parks to ensure that the safety of people who use those parks let alone avoid an attack on other dogs also using the parks/green spaces.

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

I would hope that the Tupuna Maunga authority is going to make decisions that benefit all Aucklanders not just Maori aspirations for the city in the spirit of partnership. Any proposals this authority suggests for implementation should be transparent and consultative.

I also do not support any more cycle ways being installed in the city which can impede the flow of traffic and result in serious and time wasting traffic congestion which is a problem for example now

at the Nelson St off-ramp into Auckland CBD. The problem is particularly noticeable in the morning rush hour, with the traffic congestion backing up as far as Gillies Ave in Epsom near Epsom Girls' Grammar. It's a nightmare for those having to go into the central city by that route. I have never seen cyclists using the cycle lane in that part of the city to justify such major inconvenience to traffic.

Furthermore, I am also extremely concerned about the environmental health of the Hauraki Gulf and regard it as essential that Auckland Council works collaboratively with those involved in trying to protect it and prevent any further degradation of this important marine ecosystem which Auckland is so fortunate to have.

It is also essential that funds are made available to strengthen dog control enforcement to stop vicious and aggressive roaming dogs from attacking people, livestock and pets, often brutally killing or severely injuring them, such as in South Auckland. The dogs in question should be removed from those owners who cannot control or contain them from causing serious harm.

Finally, I have been shocked to learn that the refurbished downtown plaza area near Britomart train station is no longer called Queen Elizabeth Square, in honour of her late Majesty and her close ties to the people of New Zealand, and has instead been renamed Te Komititanga by Ngati Whatua Orakei and the CLR mana whenua forum. As a long time resident of Auckland, I don't recall any public consultation about this name change and the people of Auckland being asked to vote on it.

I am concerned about the sequential large rate increases to offset the current debt and fund these tourism events, when everyone is struggling with the rising cost of living. Given the current economic climate, we are not seeing support received to offset the impact. The $50 travel cap is a good initiative, and I would like to see more such initiatives and investments directed towards these types of solutions. Attracting big events certainly benefits local businesses and generates

excitement in the city, but this plan to offset current debt must be carefully reassessed, considering the scale of its potential impact. The 5.8% will be greater once the new RV's are assessed in July, and create greater pressure on Aucklanders.

Generally, well presented broader vision that was easy to follow. I can appreciate there has been consideration on how to address both immediate challenges and the broader economic environment moving forward. From what I understand, there are things in here that I agree with to do with infrastructure and investment in community. When it comes to the finer details and where that money gets invested will be interesting and should bring scrutiny to ensure we get the most benefit for Aucklanders.

Rates increase should NEVER be more than inflation. It's not only unacceptable to continuously gouge rate payers, it's also unaffordable for many.

I absolutely DO NOT agree on a bed tax. It's another tax on top of all the other numerous taxes we're already paying. Travelling within our own country is already unaffordable, adding a bed tax

will add insult to injury. If you chose to fund events then charge those who attend the events or those who benefit from the event.

A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

I absolutely DO NOT agree on a bed tax. It's another tax on top of all the other numerous taxes we're already paying. Travelling within our own country is already unaffordable, adding a bed tax will add insult to injury. If you chose to fund events then charge those who attend the events or those who benefit from the event.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

I am not in support of the Consolidation of Speedway at Waikaraka Park (WP). There was no consultation by this Local Board with the open wheel speedway community fans and stakeholders in accordance with Auckland Council's Significance and Engagement Policy, March 2022 and the Local Government Act 2002 (LGA). The Waikaraka Park Master Plan's intent has been changed significantly and these changes had no consultation.

The WP Speedway footprint is too small to meet the current and potential attendance at the current venue and would therefore diminish and hurt open wheel speedway to be forced into a smaller venue.

'Like for like' open wheel events have been run at WP that failed to draw the usual Auckland open wheel attendance and were not successful, proving open wheel speedway will not be successful at WP.

I have concerns that the Ombudsman has taken up this matter and that the Serious Fraud Office are looking into it. This decision should be overturned.

This is not-with-standing that I do agree that WP Speedway is in need of an upgrade and that a redevelopment for Auckland Stock & Saloon Car Club purposes is in order.

Our priorities for 2025/2026 are listed below.

Western Springs Speedway should remain as an open wheel speedway. It has been a speedway since 1929. The speedway activities are enjoyed and well patronised by the wider and local community, offering family-based entertainment within our community. A March 2025 Westmere Community Facebook Page poll showed overwhelming majority of 63% wish to 'keep the current facilities for Ponsonby club, concerts & Speedway', with all other option receiving less than 17%.

Drawing in over 100,000 spectators in a speedway season benefits the local community. Many local businesses are involved in speedway through advertising, employing participants and fans with some business owners also speedway car owners.

Speedway at Western Springs is a multi-generational past time enjoyed by a wide variety of Aucklanders and attending races is traditional for many families.

Flood resilience is important for this community. Keeping Western Springs as a Speedway is ideal as its situated on the flood plane where expensive infrastructure and buildings are vulnerable to flood damage.

This community, Ward and Local Board should support the continuation of Speedway at Western Springs under reasonable operating conditions.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Prioritising and investigating flood resilience actions for our parks such as Western Park and Grey Lynn Park

Delivering footpath improvements for Auckland Domain

Starting construction for Leys Institute

Delivery of Heard Park Civic Space

Prioritising sport and recreation opportunities for groups that have less

Investigating transition of Grey Lynn Paddling Pool into a seasonal splashpad

Community services programming to enhance perceptions of safety

Support for ending homelessness in Auckland.

I have serious concerns over the decision to consolidate Speedway from Western Springs to Waikaraka Park and am equally as concerned over open wheel speedways usage rights at Western Springs Stadium and Speedway. I have concerns that the Ombudsman has taken up this matter and that the Serious Fraud Office are looking into it.

Tataki Auckland Unlimited and the Auckland Council should negotiate a fair and reasonable contract with the car owners and drivers of the sport through the Western Springs Speedway Assn. to remain operational at the venue.

Speedway should not be forced out of Western Springs and into Waikaraka as it will not fit. Speedway and Stock & Saloon car racing are not ideally compatible to share a venue, though forced to in smaller towns. There are health & safety concerns.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

A priority for transport should be improving public transport connection to the airport and central city. This would be profitable for AT given the number of workers at the airport and seeing the traffic every morning. Obviously also good for visitors to use. Should start with buses running up Mt Eden

and Sandringham to get to the airport and connect to a train station (Kingsland or future Mt Eden) or into the city. Ridiculous how little this route is given thought

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Would be great to give the council some teeth to enforce bylaw breaches for noise, living densely should be encouraged to help infrastructure costs but the council needs to assist in making it liveable by fining rubbish truck companies coming early and allowing communities to protest bar licences prior to renewal dates as it is a long time between renewals. There needs to be more care towards managing noise actively and a way for council to get companies to actually listen. would be great to see initiatives like this proposed in the annual plan for improving communities

Do not support any

Tell us why

I understand the proposed rates increase amounts to about 3.5% on average per year. This is significantly more than the increase in the rate of inflation which is 2.2%. Rates are already a struggle for homeowners and should not be above the rate of inflation. This should be managed via the proposed levy, more efficiency, salaries, etc.

I was also shocked by the debt to revenue ratio of 250%. Clearly, this indicates over-spending which has to be paid back with interest. It stores up trouble for the future. This level of debt to revenue ratio is totally unacceptable and must be reined in.

In conclusion, the combination of pushing rate payers beyond the level of inflation which is already very high and the proposed plans that lead to a total debt to revenue of 250% is absolutely unacceptable. These costs need to be cut right back.

Please rein in expenditure so that the proposed average rates increase per year of 3.5% is reduced to no more than inflation rate of 2.2%, and so that the debt to revenue ratio is closer to 100%. Please also provide options in public transport, parking and facilities to pay cash.

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

I completely agree with introducing a bed night visitor levy. Other cities around the world already do this—and often at higher rates. It’s a fair way to fund major events and destination marketing without putting the cost on ratepayers. Visitors who benefit from these events should help cover the costs.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council’s rubbish collection service, replacing the current system of purchasing rubbish bags.

Improving safety should be a higher priority, especially in and around town centres. Pt Chev, in particular, is becoming increasingly unsafe and needs more active intervention. Business support and public safety go hand-in-hand — both are essential to maintaining strong, connected communities.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

I support the majority of the plan. I think there is good headway being made in areas of transport, natural environment, and funding decisions.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

I absolutely support a bed night visitor levy. It is customary all throughout Europe to have a tourist tax or bed levy as an additional cost to those visiting a country. I do not think a levy would be a deterrent, but instead a worthy cost to front for the privilege of visiting Aotearoa New Zealand. However, it must not be a levy used to target those staying in short-stay accommodation due to personal housing precarity.

I support the reduction of corporate emissions, the incentivisation of more sustainable micro transport and the funding of Māori Outcomes.

I do not support the introduction of compliance wardens 'to fill the gaps in safety across the city.' I think the priority needs to be in working with grassroots community wellbeing providers (city mission, orange sky, māori wardens) to better support our homeless whānau and those who may dwell in the centre city because they have nowhere to go. A punitive approach to compliance is not a long-term fix.

I think that the $50 per week AT cap was not very effective. It was just high enough that someone who would take the bus twice a day for the week would not qualify for any discount. The discount should be greater.

You cannot keep raising rates above the rate of inflation. Developers through their development levy should be paying for the increased pressure on services. The council does not need to own or run a golf course or childcare centres. You need to think about how you acheive the necessary goals with your existing assets. I do not want to a rate increase above the CPI of 2.2% while I am subsidising someone in East Auckland to play golf. Furthermore you should not be taking on

further transportation iniatives that aren't dmanded by the people and therefore are not used and do not make any money. CRL will drag on operationl costs over the long-term and drive unnecessary rate increases. Focus on routes / initiatives that are used and do make money, like the route between Albany and the city (I do not live on the North Shore). You need to care more about how you spend other peoples money, be more thoughtful about it, and stop driving the city into a cashflow hole that cannot be fixed with more debt (only more rate increases).

I say NO to a 5.8% rate increase while the council throws money down the drain!

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

Because I don't think the levy will be used to fund more cultural festivals and events, I think there will always be pressure on these budgets as demonstrated by how uncomfortable the council is about it's fixed contribution to MOTAT. If the money was directly allcoated to an event fund that could not be touched by the council, then it would be a more attractive proposition

Question 3: Changes to other rates, fees and charges

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I think 5.8% increase in rates is way too high compared to the latest CPI of 2.2%, it's over 2.5 times the rate of inflation!! The council needs to focus more of controlling it's cost base, and less on pushing it's ineffeiciency onto rate payers through rate increases that are too high. The Auckland super city council was created to be a more efficient organisation by merging all the more local councils, but instead it's become less efficient because of the lack of proper management, ie. offices were not consolidated, employment by the council has not been substantially reduced. Look for reducing wasteful spending, not increasing rates or cutting services.

As New Zealand’s national stadium, Eden Park plays a pivotal role in attracting large-scale international and domestic events, which drive significant visitor expenditure and economic benefits for the city. Since the 2011 Rugby World Cup redevelopment, the stadium has generated $1bn in economic benefit for Auckland and New Zealand. However, major events require funding to attract them to our shores. By investing in world-class events, this initiative will enhance Auckland’s reputation, drive tourism, and deliver broader economic benefits, making it a logical and equitable funding solution.

Eden Park welcomes the opportunity to provide feedback on Auckland Council's Annual Plan 2025/26 and appreciates the Council's ongoing support for major events, community engagement, and strategic investment in Auckland's infrastructure.

As New Zealand's national stadium and a strategic asset for Auckland, Eden Park is committed to working closely with Council to ensure its long-term sustainability and contribution to the city's economic, social, and cultural landscape. We strongly advocate for a structured, long-term funding

approach across the Auckland stadium network that secures the future of our venues while alleviating financial pressures on ratepayers.

Global entertainment trends highlight the increasing competition for premium events. In Australia, Melbourne—a city of 7 million—hosted Taylor Swift at a single stadium. Similarly, when global artists and sporting teams come to New Zealand, they seek to perform at Eden Park, the country's largest live entertainment venue and the only stadium capable of generating the highest yield. To secure these major events, Auckland requires dedicated seed funding to compete on the global stage.

Large-scale events bring significant benefits to Auckland's economy. The FIFA Women's World Cup 2023, for example, injected $87 million into Auckland's GDP and generated 130,000 visitor nights in the region. Every $1 spent during the tournament returned $1.34 to the New Zealand economy, demonstrating the strong return on investment that major events provide.

Major events such as international sports games and concerts also generate significant employment opportunities. Each event creates up to 3,000 jobs across cleaning, catering, security, traffic management, medics, facilities, turf management, maintenance and operational staff.

To maintain its role as a world-class venue, Eden Park must continually invest in the ongoing maintenance and refurbishment of the stadium. In order to continue the ongoing public enjoyment of its amenities, Eden Park supports the allocation of a dedicated funding pool within the Long-Term Plan (LTP), accessible on a case-by-case basis by all Auckland stadiums.

Beyond ongoing maintenance, Eden Park 2.1 is a strategic vision designed to enhance the stadium's role as a multi-purpose, community-focused venue. A key element of this plan is the Lower North Stand redevelopment, which will provide greater flexibility, an improved spectator experience, and the infrastructure needed to secure major international events, including the:

- 2026 India Cricket Tour
- 2027 Women's Lions Tour
- 2027 State of Origin
- 2028 ICC T20 World Cup
- 2029 Men's Lions Tour
- Future high-profile rugby and concert events

Eden Park 2.1 aligns with Auckland Council's infrastructure priorities by optimising an existing asset rather than pursuing costly new developments. The project is fully consented, designed, and delivery-ready, making it a low-risk, high-impact investment that will drive economic growth, enhance tourism, and reinforce Auckland's reputation as a premier global events destination.

Since its 2011 redevelopment, Eden Park has generated over $1 billion in economic impact, and with strategic upgrades, it is projected to contribute an additional $320 million to Auckland's GDP by 2035. The stadium attracts over 1 million visitors annually, supporting local businesses, hospitality, and tourism.

Eden Park remains committed to strengthening its partnership with Auckland Council to explore sustainable funding solutions that protect and enhance this vital community asset. We look forward

to continued collaboration to ensure Auckland and New Zealand benefit from a thriving, internationally recognised stadium.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

The Council should NOT fluoridate our drinking water.

The Council has been sloppy on its computer modeling of flood prone Auckland areas and changing LIM reports without Resident's knowledge. This is life changing in a negative way for so many households and thoroughly unfair. Very sloppy work from Auckland Council and highlights how you have too many overpaid employees who respond to concerns with ChatGPT answers, which begs the question, are these employees really necessary when AI can do the job?

Auckland Transport has crippled Auckland economic infrastructure. Major steps have to be taken to improve the movement of freight in and out of the port. Instead of increasing the rates - transport sector:1. introduce a levy for specific heavy vehicle transport export/import (container carrying vehicles) that use/bypass the Auckland main route, that Auckland does not gain from. (major transporting companies)2. Introduce a higher levy for Day time usage then a night time usage for these particular vehicles. Especially around peak hour traffic

Water: Increasing this rates as it will gain from high user companies like Hotels, foreign and construction companies. New commercial rates differ from the residential rates

fairer funding for local communities: local community investing into their own communities to be equally funded and managed to their population and future development in their community ...

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

Instead of Rates increase an Introduction into funding for events that do bring in income into the communities, not only major ones but future long term events (continued investment will make them bigger). Investment into events and claiming from their profit margins and equally supporting those who do invest into the bed time levy.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Rates and fees introduction into commercial waste management through the bigger waste bins hire eg Green bins, Waste management bins etc, or even look into supplying this into the Auckland future waste management plans.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Disappointed about reduced support for local community recreation (the change from the Y to CLM management is a huge loss for the community with reduced services and increase cost, actively excluding low income and marginalised people)

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

The council treats Aucklanders like we're a bottomless pit of cash. You increase rates even though property values have fallen (based on sales)and our economy is not exactly booming, while the cost of living is soaring for most. You fund at your discretion with minimum or no consultation. You need to tighten your belts like everyone else has had to.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Overall good, I'd like to see more focus on active modes of transport and safer streets for all users. I'm disappointed some of the suburban streets I travel on are increasing their speed limits. We're a young family and it would be nice for the council to continue investing in safer streets so we have

more choices other than the car. The kids love mixing it up by going for a walk or cycle but the infrastructure just isn't there to support safe alternative modes of transport.

We live near the North Western cycle way and a fun outing is to go on a little family cycle ride up and have brunch at Pt Chev or head over to the Zoo, we'd love to see more great infrastructure like this rolled out.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

I actually think the council is doing a great job overall and I'm excited to see some of the additional alternative transport options such as the upgrades on Great North Road and Te Whau pathway are under construction.

I'd like to see more projects like this which make the city safer and more pleasant to get around in. That's things like cycleways, keeping as many 30km/h limits on suburban roads as possible making them safer for people to share, raised crossing, traffic calming measures etc. Especially around schools or parks.

I think it is important to fund Auckland as a destination and also major Auckland events. The bed night levy is a more targeted funding mechanism and, therefore, much closer to user pays than funding from general rates. Such visitor levies are seen in overseas cities.

I didn't see anything on the plan that says I don't have to subsidize car transport. I do not want to bail out car drivers that create all the traffic and cause all the road damage when I do not even drive. Increase the road user charges such that I am not paying for their road use.

I don't support a 5.8 percent rates increase. It may be in line with LTP, but its not in line with inflation, are certainly make no reference and/or adjustment to there DECREASED value of house prices in Auckland. E.g. the property I purchased in 2021 is now valued by every other property

valuation service in NZ ar $200,000 less than what I paid for it and $200,000+ less than what you/Auckland Council have refused to adjust and charge my rates against.

You make NO allowances for seriously struggling unemployed homeowners in your excessive rates hike. (Made redundant over a year ago!)

You proposed rates hhike is higher that inflation and the CPI. (Fun fact; in April MSD/WINZ will increase my financial support inline with CPI, 2.22%. DO YOU THINK THIS WILL COVER RATES PRICE INCREASE? No.

Auckland Council charge me approximately $450 p.a. for Rubbish Services that you DO NOT supply to my residence (Mt Eden, semi-commercial/residential building). I do not have, nor have I ever had; A Red-lid general waste bin, A Blue-lid recycling bin, A Green-lin food waste bin. Auckland Council charge me ********** if I have these and they charge for collection, which they DO NOT do. (I pay for private company bins collections). I have tried on many many occasions to have these (6) fees removed from my Rate,s to no avail. ...and you have the gall to plan to increase my rates a further 5.8%!!!

Auckland Council needs to get a grip on spending. 5.8% increase in Rates is unacceptable.

Less contractor price gauging on their perceived Auckland Council meal-ticket, at the expense of

For God's sake. Stop pissing about on the excessive road cone use, and cost to us, (the rate payers) and get a handle on out of control excessive health & safety (Work Safe?) beaucracy. E.g. A road in Newmarket was already painted with yellow lines the entire length of the street, As soon as building development work on the OPPOSITE side of the street. Some moron contractor put road cones 1 meter apart, for 150 meters, ON TOP OF THE PAINTED YELLOW LINES. ...the contractor laughed all the way to the bank, rate payers footed the unnecessary bill, and AKL council demand more money from rate payers.

I dare say, there are backhanders happening between contractor companies and council contracts teams. I welcome/urge a thorough investigation. As something stinks.

Having travelled throughout Europe a couple of years ago, city-specific levies were almost always added to the advertised room rate of accommodation. No one battered an eye at this reasonable cost. No one complained. It was, as it should be, a tax that contributes to the city.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Many places in transportation are repetitive projects, and they have to be demolished after only a few months of repair. Especially AT, the waste is very serious, and AT must strictly review the project and the direction of project funds.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

I want to talk about the reserved tree planted in our house, its name is Pōhutukawa, we don’t know how many years old it is but it is very big. Now think about it, it is really unfair, the tree is planted on our land, in addition to the large number of leaves that fall every day, we have to clean up, hire people to dump them, and pay land tax for the tree. It cannot be cut down and if we want to prune it, we need to apply to the city government and have professionals do it, and we have to pay the cost ourselves. At that time, the living standards and consumption were not so high, so we didn’t think much about it and we bought it. But look at the current living expenses, how many times has it increased compared to more than ten years ago? In addition to natural disasters, because it is too close to our house, we are very scared when it is windy and rainy, so we urge the local government or relevant departments to consider the difficulties of us ordinary people and maintain this reserved tree to avoid affecting my life and the pressure it brings. I look forward to your reply.

Māngere East Village Business Improvement District (BID) programme

A BID is a local economic development initiative run by a business association under the Auckland Council BID Policy (2022). It involves businesses in a defined area paying a targeted rate to fund specific services or projects in their BID boundary. The Māngere East Village Business Association Society Inc. (MEVBA) has failed to meet key BID Policy requirements, including accountability reporting, AGM minutes, strategic plan, and appointing a BID Manager. MEVBA also breached its constitution and did not notify the council of non-compliance. The Māngere-Ōtāhuhu Local Board is now considering terminating the BID programme and targeted rate, with the possibility of re-establishing a compliant BID programme in the future if conditions are met.

Our ordinary life is already very difficult, with mortgages, education, and business difficulties... I hope the government will provide support during difficult times, otherwise more and more young people will run to Australia and New Zealand's population will experience negative growth.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Speed up road construction and stop converting roads or parking spaces into bike lanes. Bike lanes are mainly used for leisure, and road use rights should be allocated more to cars rather than bicycles. Because: 1. Even if there are good bike lanes, it still cannot change road congestion,

such as Highway 16; 2. Many bicycles still ride on motor vehicle lanes, even if there are bike lanes next to them.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

The budget should be used for large-scale events in the local community rather than to attract out-of-town tourists.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Garbage bags are too environmentally unfriendly and should be abolished

Tell us why

The focus should be on combating crime and supporting local business development.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Tell us why (please be clear which priority you are talking about)

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

Totally opposed to the Tūpuna Maunga Authority Operational Plan, existing vegetation should be protected, whether it is Maori or not. This plan is a complete waste of taxpayers money and a crime against the local ecology!

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

What else can you do besides raising the property tax? You raise the property tax every year, and I support you without any resistance. But, tell me, what do you do with the increased property tax? It is absurd. Public transportation has not developed, but the bus fare has increased! Water prices

continue to increase, and property taxes continue to increase. Please, can you tell me which public service has been reduced in price, and is getting lower every year?

The economic environment and income are not good, so the land tax should not be increased so much. If it is low-income people and retirees, they can't afford the land tax at all. And this move will directly push up house prices, making it more difficult for New Zealanders to own a house.

I strongly disagree with the idea of adding a bed tax on hotels to pay for major city events.

These events help the economy, but hotels aren’t the only ones that benefit.

Many businesses—like taxis, bars, restaurants, shops, and tourist attractions—also make more money when events happen.

It’s unfair and short-sighted to make hotels pay for it alone.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

This is to ask Auckland Council to budget for active participation over the next 6-12 months in the Inter-Council Working Party on local impacts of GE regulation.

Please include in the annual budget $30k-$50k funding to collaborate with other councils on the risk of GE/GMOs locally.

Existing protections in the Unitary Plan were developed by an Inter-Council Working Party. This should be reconvened.

Auckland Unitary Plan's Chapter B10 5.1 and Chapter E 37 (see below) were established after the research and recommendations of an Inter Council Working Party on managing the risks of GMOs to local communities.

The concerns at the time of the plan related to exposure of risk to ratepayers and the environment under the current HSNO Act.

These concerns are expanded by the ‘socialised risks’ imposed on the community by The Gene Technology Bill that removes the right to apply precaution and protection at the local level (clauses 248-253).

Why the need for this budget in the annual plan?

The community needs Council to defend democratic process, the rights of tangata whenua and ratepayer protections against costs from commercial biotechnology users.

Auckland Council has so far not invested in assessing risk or defending the Unitary Plan's precaution.

The regional protections in the Unitary need to be evaluated for costs arising from their removal by the Gene Technology Bill.

The community interest in the precautions in the Unitary Plan need to be evaluated by Council and not removed without compensation or other protections by the Gene Technology Bill.

Summary

Council should allocate funds be included in the Auckland Plan 2025 or from the Mayoral Fund to immediately restart the Inter-Council Working Party - to collaborate again cost-effectively with other councils on evaluating the local risks from the Gene Technology Bill.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support any

Tell us why

The plan involves increased public spending, possibly through higher taxes or increased fees to fill budget gaps, leading to higher costs of living for residents.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Tell us why

An increase in the tourist tax could make Auckland less attractive to tourists and make it less competitive in the international market.

Question 3: Changes to other rates, fees and charges

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

Many public projects are over budget, and the government should first optimize the use of existing funds rather than solve fiscal problems by increasing the burden on residents.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

i support public spending. but i already pay tons of tax

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support all

Tell us why

It's good for our city.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

It's support for our city.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I have no idea.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Support all

Tell us why

It's helpful for the area.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Tell us why (please be clear which priority you are talking about)

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

To maintain public security, we must increase management efforts on juvenile delinquency and strengthen classification of food recycling.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Agree with the investment plan proposed by the council. Hope that more activities in our council area will benefit more people. Add more rain shelters to bus stops.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Activities require funding.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Although, I do not attend the events outlined in the Annual Plan, those events are vital to keep AK feeling alive, as a place to live in as well as a destination. The financial spinoff of those events reaches well into the community both financially + culturally

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Central AK is blessed with playgrounds. When planning a playground, it is vital to keep in mind the diversity of ages that will use the space. Planners need to gain feedback from the parent/caregivers that are in the space with their children. Place the children's need first above interesting adult 'concept' plans

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

I think one of the two main financial struggles that NZ/Kiwis deal with is rather the cost of living (groceries, gas, rent) as well as our current job opportunities. When you ask people why they left NZ, it isn't because of the transport or water bills, it is because of the cost of living and/or they found a better job opportunity, and these are the factors that affect every kiwis quality of life

Personally, I know a few foreigners who have come to NZ and they have a huge interest in the cultural events held within AKL city. Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Transport is important

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Rate increase for wealthy suburbs / not everyone. base rates paid on income or house value.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

bad levy fee, but make it less than 3% it turns tourists off of visiting NZ. need to appeal to tourist, not make visiting more expensive.

i suppose an increase of 2.5-3% in accormodation wouldnt be significant to the point of stopping tourists coming to auckland. especially for sporting tournaments. I believe 2.5 is a fair amount

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

I don't know

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

transport needs to be prioritised especially in a city as big and busy as ours. it has not gotten better after ages.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I don't know

Tell us why

having the bed night visitor levy would make them want to not come but it would also raise money for us

I support bettering the financial position of Auckland Council, however I believe these funding grassroots/community assets and activations i.e. local board grants - should bear the brunt of the costs.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

Absolutely - holding such 'destination' events supports the outcome of a better Tamaki Makaurau for all, while ensuring permanent Auckland residents don't bear majority of the costs. Also may help ease 'hollow house' syndrome, with housing increasingly legt empty in favour of temporary short term stayers.

While funding major events is important, introducing a bed night visitor levy may discourage tourists from visiting Auckland. We want to welcome more visitors, not add extra costs that could deter them. Additionally, I recommend greater flexibility in the opening hours of public toilets, especially between 12am-4am to accommodate travelers driving late at night or early in the morning.

We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I don't know

Tell us why

I dont know if i agree that is the best use of $7million but i think it may be a good idea. I think its good that the extra money would go back into events that promote tourism.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

All good! I think the design and restoration plans can be extended further and some residential areas are unkept(graffiitt, litter etc)

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

I agree with the visitor levy however it is not making significant to better the community.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Tell us why

I support this because it will be a good source of revenue and will give Auckland more funds to invest to benefit locals. Its reasonable and should be implemented more so for overseas visitors then domestic ones.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

I support the refuse targeted rate because it will make the process more standardized. I support the other rate hikes only if they are not disproportionately high.

A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

Other opinions: Buses are a great tool for the convenience of the general public. You can refer to which roads and when to arrange buses. For example, from 11:00am to 15:00pm every day, it is very difficult to get on the 751 bus during certain time periods. You may even have to wait for more than an hour (for those who don’t have a private car) and still not be able to get a bus home? ! ! ! It is extremely inconvenient.

A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

It is not conducive to the development of tourism and it is difficult to retain tourists.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Changes in taxes and fees have increased the burden on residents and affected their quality of life.

Question 4:

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

We hope to restore the original yellow bus service to facilitate travel.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Talking with young people and children to better understand what is important to them in their area.

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Increasing the number of local events arts and activations especially in local parks and town centres.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Usually the tourists who come to participate in activities (short-term accommodation) are relatively wealthy and can afford it. Of course, this part of the fee should be within a reasonable range. It should not be increased too much at once, which will affect their enthusiasm for participating in activities and be counterproductive.

How important are these priorities to you?

Continuing to support community groups and community-led activities through our local community grants

Continuing to build the capacity and capability of local community and sporting groups through our strategic partnerships programme

Activate our local open spaces and facilities, through council-led activities and assessing what amenities our spaces need, such as toilets and power outlets

Empowering community groups and organisations to deliver community events through sustainable funding models

Consider funding activities that increase our community's sense of safety, working with community groups and business associations already delivering safety initiatives

Continuing to support initiatives that deliver outcomes with and for youth, such as our Youth Empowerment programme, and Tiakina te taiao and Ope programmes (biodiversity and climate action education programme in schools)

Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways, particularly the Tāmaki Estuary and Manukau Harbour

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Puketāpapa

Puketāpapa Local Board Priorities

The local board has additional funding in 2025/2026, but there are unavoidable increases in the cost of existing services which will need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Considering the community programmes that are delivered from Wesley Community Centre and Roskill Youth Zone to get better utilisation of the facility

Very important

Investigating the use of the Fickling Centre and Library, to ensure that it is able to respond to the needs of the growing Three Kings community

Less important

Supporting community groups that lease council space, so they can find ways to share their spaces and continue to provide great community activities

Less important

Implementing recommendations from the Sport and Recreation Facilities Plan so that the recreational needs of our growing communities are met

Very important

Planning for the development of Monte Cecilia Park so that this becomes a destination park and an icon for Puketāpapa

Fairly important

Investigating projects from the Wairaki Awa Catchment Plan that can be implemented, such as naturalising the awa at Lynfield Cove

Less important

Investing in more climate action and environmental projects

Less important

Increasing the number of local events, arts and activations, especially in local parks

Less important

Supporting arts and events by working with existing community groups to help coordinate their work and make the most of opportunities

Fairly important

Supporting community-led placemaking initiatives that engage diverse groups, promote safety and community identity, and increase greater connectivity and participation among businesses and community members.

Less important

Tell us why (please be clear which priority you are talking about)

My observation is that many council sponsored events/activities are not well attended

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund $4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a $7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around $27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

What costs will fall to Aucklanders?

Auckland Unitary Plan's Chapter B10 5.1 and Chapter E 37 were established after the research and recommendations of an Inter Council Working Party on managing the risks of GMOs to local communities.

There are regional protections in the Unitary that are to be removed.

Council must defend, not sit by and have them removed without alternatives provided to protect ratepayers.

Financial instruments must be considered by Council. This can be done most cost effeiiently by working with other councils (as before).

Protections could include Strict Liability, Bonds, mandatory insurance for gene technology users

Actions like restoring the awa to its natural state at Lynfield Cove, or anywhere across the rohe are valued and important for future generations.

REQUEST OF COUNCIL FOR ANNUAL PLAN BUDGET 2025

That Auckland Council include in the annual budget a $30k fund for collaboration with other councils on the risk of GE/GMOs locally.

WHY?

The community needs Council to defend democratic process, the rights of tangata whenua and ratepayer protections against costs from commercial biotechnology users.

The regional protections in the Unitary Plan need to be evaluated for costs arising from their removal by the Bill.The democratic process is vital to give voice to community concerns. Funding in the Auckland annual plan for the InterCouncil Working Group to restart is necessary at this time.

Aucklanders, including farmers across the region are likely to be in line with national polls showing community concern about protections removed by the Gene Technology Bill.

Primary Purpose Research shows whilst 14% of NZ'ers want GE regulations eased (as the Bill does), the majority do not want increased risk.
