Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support all

Tell us why

Honestly don't know much about it. But I love Auckland council anyways

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I don't know

Tell us why

Don't know much on this ay. Air bnb is better

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

Tell us why

I would fully support if I knew the current old mayor wouldnt be re-elected as he should retire amd mobe on. Forget about having a big ego and write a book about how he coped with the major floods of AK.

This concept is accepted in many countries and would help with generating more events and entertainment for the city. There might even be some funds to gift the old mayor Brown a fairwell gift a photo of the major floods in AK to jog his memory when he went missing in action.

Tell us why

It shows forward thinking of the fast growing area. The one negative would be if the current old Mayor of AK is re-elected. If the people of AK recall how bad he performed when we had those huge floods. We need a young vibrant Mayor for the largest city in NZ not an old chap with a huge ego.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Improving services for all communities by enhancing libraries art and youth programmes

Very important

Promote physical activity and recreation by increasing play opportunities in more locations

Fairly important

Support community groups, volunteers, and mana whenua to enhance environmental protection and restoration efforts, particularly for waterways and wetlands, while promoting waste reduction

Very important

Increase maintenance service levels, such as more frequent mowing of high-profile reserves, pest control, and repair of tracks and car parks.

Very important

Support Rodney Greenways Plans to facilitate walking, cycling and horse riding

Very important

Prepare and review plans for reserves to identify gaps to meet community needs

Fairly important

Improve the safety of our community and environment through increased education, monitoring and compliance.

Fairly important

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

Transport helps us all and more spending on communities will reduce crime through positive reinforcement.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Short stays (other than hotels) are a blight on the rental market, so making them less profitable is good, no matter where that money goes.

1) Auckland Council approvals for the building projects are way too much costs for ordinary people or building companies. And no feedback receiving. Ordinary people can't even complain on them, when they come without any preparation on the building sites - no documents or plans brought on the site with what they need to check, they just expecting the builders will have all the documents of what your consultants need to check - this practice is unacceptable for the money you charge.

Also your consultants often only following the Building Code, even if this code already outdated, they not considering circumstances and how the Building Code can be interpreted in every case, they just stop the building, not even thinking aloud or discussing.

And maybe it is time to have the meeting/online survey with the biggest building companies, engineers to update the Building Code and how to follow?!

2) Educational system. Why teachers need so many days of teachers only, strike days etc? Is there any test/ professional quality check for them?

I have very bad experience with my daughter was studying in Long Bay College. Why some teachers (I am not saying all, but a lot of them) only referring to Online Onenote and not actually teaching the students?

Why they basically became sitters from being the teachers?

Why there is no proper Home work for students, with teachers check afterwards?

Every topic stated necessary for NCEA has to be covered from different sources - kids should do additional selfstudying for each theme, should do practice exercises after each lesson at home and teachers should check it next day.

That is how they should get wages, not being sitters.

Why there are situations where kids have a good mark for the year, but fail for NCEA?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

increasing costs while trying to attract people to these events?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

try showing some due diligence. spend my rates in my ,area and fix up and widen the roads to accommodate for all the LegoLand density housing destroying our suburbs - what happened to at least the quarter acre dream?

Question 4:

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

Most proposals are good, keeping rate increases lower are good but with the government focus on roads, lack of projection on a second Harbour crossing etc leaves a lot of gaps and is just kicking the can down the road.

I support only, If funds are going to be used to get bigger and better events in Auckland as an investment. ASB Classic and Auckland Marathon as an example is good for locals (new zealanders) but not so much international unless improved on... Attempt to get Americas Cup over for example would be good way to use the levy with so we can attract internationals and get international money into NZ and into Auckland.

Busses and Public transport needs to be carefully planned, as public transport is important the last 10-15 Years Public transport for some area's have worsened whilst worsening general people on the road. Infrastructure spending is a joke as we seem to fix one short term problem making three additional future problems leaving Auckland in a vicious cycle of creating more spending.

Tupuna Maunga Authority Operational Plan - is good plan and I do like vegetation restoration, Cultural and Heritage Preservation and Public Engagement and Education. It is important to look after Ancestral Mountains and Local Historic Culture Significance. However, if we could look at ways to minimize any potential aggression towards internationals who don't know the importance of the Maunga in ways of clear signs and or even adverts towards locals (Pakeha and Moari) about interacting with people who don't know any better in a calm and respectful manner similar to the Japanese

I Suggest improving on whats already implemented and don't take on more as you're already showing to be ineffective in some areas. Also with the drop in OCR and inflation starting to come into some sort of control its wise to find that additional money from cutting funding to the inefficient management and staffing.

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

I don't know

Your spending is out of control!! While we have had to cut back our spending through these difficult times, you want to increase our rates far above inflation.

The compost pick-up is absolutely insane! You are leaving a MUCH MUCH larger CARBON footprint pulling up and stopping for each individual tiny bin!! And, WE are paying for that so someone doesn't have to admit that it was a dumb idea!

We should go back to the bin tags. We were quite dedicated to recycling, composting in our own compost bin and being mindful of our overall waste. We are a household of five adults and would put our medium sized rubbish bin out once every 4-5 weeks. The math is pretty easy to see: before we paid for usage and now we are charged multiples more through our rates.

-Working with communities is a great plan. Let it be run by the community with volunteers and very minimal funding.

-Māori history is important and already funded by the government, not sure why we would put extra funding for this?

-Youth volunteers, not youth voice. They are not experienced/mature enough to have authority to make decisions. Again, what is the funding cost?

-Catherine Plaza is a nice area that gets little foot traffic. I know you have some great drawings (probably already paid for by us) that look great and modern. This is wasteful spending at a time when we are all cutting back on our budgets and council is raising rates 5.8%!

I don't want to come across as a miser, but you have shown no restraint or wisdom in the way you spend OUR money!

Let us drive up the available Mounts in Auckland again!! The roads and parking are already there and they are not over used. It is a great part of our city and heritage and I would even be willing to pay a nominal fee to drive up. This would also help fund maintenance instead of pulling more money from rates.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

What is your opinion on our proposed annual plan?

Tell us why

Property re-evaluation for rates: why does the proposal expressly say increase, when a good portion of properties have decreased in value. Is there genuinely n scope for consideration if properties are below NZD 150K the current valuation?

It is a cause of significant resentment that the local board funding and proposed projects include the creation of community assets for many regions, or their extensive refurbishment, and yet for Henderson the budget constraints allow only the renaming of existing sites.

As Shane Henderson wrote, we are taking all the homes, and get none of the infrastructure.

Bad enough when the cretins at Auckland Transport provide us with a 'top of the line bus interchange' that isn't watertight, and didn't even have seats, making it unusable for pregnant people or the infirm, but when the local council also systematically remove any scope for our having amenities to support our fast growing communities, you question why certain borough's always get more than you.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

support - BUT NOT THE CURRENT WORDING.

The current drafting would very clearly impact those of a lower socio-economic class than those in the top 1%, and beyond that would miss various accommodation providers, and have admin costs to process that would offset much of the benefit.

There are countless examples of this concept failing. Where it has worked, such as Paris, the tax rate is contingent on the cost of the room so as to mitigate impact and incur more fees to those whom can afford it. This is entirely lost from your proposal. This genuinely seems drafted on the whim of someone keen to avoid any tax burden themselves, or for their associates.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

A genuine question: Noise Control are an abysmally poor service, and I am staggered that a council so geared towards cost efficiency hasn't reviewed the entire point of their existence. Can adding / reviewing them be considered in future Council service reviews? Paying for the call centre staffing an infrastucture of peopel incapable of using a basic call lodging systems, and then further paying individuals to stand 87 metres from the house and say 'nothing detected' is not a sensible way for a city to tackle anti-social behaviour. I would wager hiring/ temporary locating Neighbourhood Policing Teams (NPTs) for a ward for 4 months at a time would be better.

i would like a better approach to animal management and fees. As a responsible dog owner of two pets, I'm happy to pay a fee, but the context below is frustrating.

Cat owners should pay fees.

There should be significantly more in fines for bad dog owners, or owners caught being negligent. I mean prohibitively large fines and fees. Similarly, if your dog is collected by animal management, there should be an outcome from that. Where socio-economics are a factor, then a levy should be applied to their rates. A ***** tax, effectively.

Proper care and attention should be given to park signage; For Kervil Park as an example, but I have seen other instances, the default for new park signs is to say 'on leash only' regardless of how they are zoned. I do not believe the excuses given, that these are errors, but believe it to be the removal of council sites by stealth. Stop it.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Transport has been so poorly executed, with massive overspend and no tangible benefit for the majority of Aucklanders. Fairer community funding is long over due. Basic maintenance in the outer suburbs is lacking, and has been down right laughable of late. Inner city suburbs are, and have been for a long time, receiving disproportionate treatment in all areas.

Why are we gouging people for wanting to come and enjoy our city? They bring money to contribute to the economy, for those wanting to think in volume, this makes no sense. We are in a cost of living crisis, if small town people would like to come and see an event they would otherwise not have the opportunity, why would we take a stance that it will cost you more to visit our city?

Rates hike does not represent what 99% of kiwis are experiencing in the workplace right now. All utilities, basic requirements and living costs are up, far and above what people are receiving in annual wage increase. Spend smarter, give kiwis an opportunity to get out of the holes left by the cost of living crisis. Targeted increases would go a long way to gaining public trust.

Very difficult to give an accurate answer without specifics, but with that budget, I would expect far more than what is in that list. For opex to be inline with capex, something is, or more likely was, being neglected. Cathrine Plaza offers nothing unless the rest of the shopping precinct is brought up to an equal standard. The people who loiter here will not take care of the space, and is the reason that it is in such poor condition. I would rather see these funds put towards a new space, that would encourage new patrons, rather than tidying up a space that will continue to be a magnet for unsavoury activities. The type of people you are trying to attract with this project are not interested in mingling in this area.

Too much emphasis is being placed in a few suburbs with the wealthier demographic. If this spending is intended to unite, it is not, it is feeding into the ever growing division between locals.

The Peninsula holds far more wealth than other suburbs in the board. It is a one road in, one road out suburb, and while it is a nice place to visit, not enough is being done across the board.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

More money for Auckland backing said events

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

We have too much on our rates already with not much changes on our community spend. So no to rates increase

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Less important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Very important

Expanding youth voice initiatives to academic students in the local board area

Very important

Work on plans to upgrade Catherine Plaza

Fairly important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

It's really important to get Opanuku stream cleaned up and have pest trapping and baiting in the ahea

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support any

Tell us why

With the rising cost of living, my family and I don't really care about these developments as UT is costing ne more than we can already afford. Take a break or take more from high income groups as per their tax brackets

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

Events organized are always very crowded with limited facilities and you make revenue through these events anyways by renting out space to food stallers, product sale, etc. So no thank you, don't need us people spending more on things that help council make more revenue for themselves

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Absolute rubbish, halt these increase in fees and charges proposals.

Standard of living is high enough, let's not add frills to parks and charge everyday people for the same

transport is paramount .. one of the drivers for leaving auckland (and renting out our place) was commuting. in 10yrs of underdevelopment of public transport, the commute to cbd went from 25mins to 1-1.5hrs. our commute is now 7mins. after travelling internationally, and experiencing infrastructure, toll roads, etc in UK, Europe, even Australia, we are

sooo far behind in our biggest coolest city. *****, even visiting my moko's in hamilton from northland, the longest part of the trip is passing through auckland sadly (during the day even weekends)

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

Paying more could turn people already intending to stay away.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Increasing rates and spending when household are feeling the pressure of high mortgage rates and continued inflation doesn't feel right. Council may want to rethink the current expenses and and management.

There are diverse communities in the West and a wholesome approach would be needed for uplifting the community. There should be better sports facilities and cultural events here. West still needs gentrification to shed its past image.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

We disagree on increasing 5.8% rate. The rate is already very high!

Apart from plan for water, we dont see much benefits from your proposed plan for where we live in Te Atatū Peninsula. We suggest instead of funds spending for Te Reo Maori (which we can easily

learn from online for free), we should spend on public transport for the area. For example, working on re-opening a ferry to Auckland CBD or North shore to reduce traffic on road which is already terrible in Auckland. Also, don't just focus on education for youth, adults also need a lot of support on essential skills (definitely not Te Reo Maori) that help them to find a job.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Stop charging us extra fees or charges, stop increasing rates. Inflation and living cost are already very high while our salaries not going up, your proposals aren't helping but put more pressure on citizen. In specific, we don't believe charging universal rate for rubbish collection is fair and help in

reducing waste like you presented., but it's totally opposite. We don't have much waste at all and only need to the rubbish bin to be collected maybe every two-three weeks, but we are charged for every week and you even proposed to collect every fortnight? If you collect every fortnight, please reduce our rates and charge only fortnightly!

As previously mentioned, working on water quality, developing community and investing in youth are great, however we strongly do not believe Maori history is our priority given we can find some alternative options to learn about the culture. Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Would like to see a bigger focus on sustainable transport ie. bike lanes, frequent local reliable Bus services to and from Lincoln Interchange and security at Lincoln Interchange. If traveling with the WX1 in the evening you have to wait up to 15 minutes for the connecting Bus which takes you to Ranui. Lincoln interchange is a lonely isolated Bus stop and I as a woman don't feel safe waiting there in my own at night for the next bus to come. I'd like to see AT security placed at those major interchange bus stops.

Enough with the rates increases WELL above CPI. It is being used to fund vanity projects that provide nothing for the community. Things like changing queen street to a bus only lane has killed the city, it's embarrassing that our Main Street cannot be driven down. Bike lanes for a small

number of people who use them! At a huge cost financially, to parking and businesses and to logical traffic flow.

There have been so many expenses added to hotels that they are unaffordable now so people would rather go to places outside of Auckland. Our council has done a great job of killing a once thriving city. The central city is unsafe and a slum filled with homelessness and violence. If hotels are more expensive without a safe city does not align.

I feel investing in Maori initiatives is nothing new in my view since previous governments over the years have invested enough. I would appreciate dedicated budget rather than ambiguous amount of funding been done on Maori initiatives mainly. Surely investing in maintaining good drinking water quality for all across West Auckland be good initiative annually since this is a basic necessity along encouraging youth from diverse community for their personal growth and development with years to come by. Other suggestion is to work on maintaining good functioning roads out in Westgate area especially around local food shops to help support retail businesses

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

I think Public transport should be made more accessible than it is now. Encouraging people to use Public Transport can reduce pollution, traffic collisions and promote more eco-friendly ways of travel. There have to be increased vigilance (cameras, etc) on buses and trains to prevent / reduce criminal activity, assault on the bus drivers and protect the citizens. With the recent increase in

prices (feb 25), people have gone back to driving cars and increasing the number of vehicles on road. This has to change.

I think supporting Maori history in the area isn't as important as the other projects listed. There are many groups already engaged in activity of this nature in the area and they should be encouraged to continue without using ratepayer \$s.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Very important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Less important

Expanding youth voice initiatives to academic students in the local board area

Very important

Work on plans to upgrade Catherine Plaza

Very important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

Water quality - key to keeping our natural waterways and wetlands habitable for fauna.

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Keep doing what you are doing - make CCCs accountable to elected representatives, streamline services, reduce spending on events that should be paid for by commercial interests and most importantly, keep making AT focus on transport!

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

I don't know

Tell us why

once again all you ever do is spend,spend, spend If its not on interstructure please stop spending my money.I do support to a degree the zoo and museum but as is at the museum if not an ak resident you should pay more.Like Hamilton gardens.Remember a library is for borrowing books and reference work .

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

We the rate payer should not be subsidising any commercial events User pays.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

everyone should be receiving the same services and paying for these services equally. This is in supporting Refuse Targeted Rate

Question 4:

Henderson-Massey

The following are the key projects and activities we plan to deliver next year, and any key changes to services.

4B. What do you think of our proposals for your local board area in 2025/2026?**Do not support most****Tell us why**

when the youth of area pays rates they can have a say. I don't pay my rates for cultural or entertainment of any kind, this is not councils business. Water quality is councils business. Get back to basics only, tired of the waste. We need rate reductions NOT increases.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?**Working with the community on signature events with the intent for the community to take the lead**

Less important

Fairly important

Tell us why (please be clear which priority you are talking about)

If the students want particular initiatives then when they pay rates they can. Listen to them and maybe incorporate suggestions. There is nothing wrong with Catherine plaza that requires money spent on it from our rates. Offer communities fields/halls for community events the rest is up to them.

1. **Neglected Parks**

- Helena Park has not been maintained in 6 months. Grass is over 1m tall.
- Zita Maria Park is often 40cm+ tall. Mowed once in 6 months.

2. ****Unfair Rubbish & Recycling System****

- Used to pay ~\$8/month for rubbish (bin out every 4 weeks).
- Now rates are higher, and I'm forced to pay for a food scraps service I don't use.
- Recycling is every 2 weeks, but I only need it once a month. No reason to bother now since rubbish is taken weekly.

3. ****Unjustified 5.8% Rates Increase****

- My pay has not risen that much in 3 years, and I work for the Government.
- Where is this money actually going? Services are worse, not better.

Before increasing rates, basic services like ****park maintenance and fair waste collection**** need to be fixed.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

I do not support the visitor levy.

1. Auckland already has high rates, and funding should come from existing revenue.
2. Tourism is already expensive, and adding extra costs may discourage visitors.
3. The council should focus on essential services (parks, rubbish collection, etc.) before funding major events.
4. The government has not approved this levy, and there's no guarantee the funds will be well spent.

If the council needs more funding, it should prioritize existing budgets better instead of adding more charges.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I do not support the waste management changes.

1. I used to pay ~\$8/month for rubbish using bin tags. Now my rates have increased significantly, forcing me to pay for a service I use less.
2. The food scraps service is an unnecessary extra charge—I do not use it.
3. Recycling is collected every 2 weeks, but I only need it once a month.
4. Since rubbish is now included in rates, there's no financial incentive to recycle. This could lead to more waste going to landfill.

The system was fairer when users paid based on usage. A flat rate penalizes those who produce less waste.

I do not support funding for cultural initiatives

Council funds should be focused on ****core services**** such as ****maintaining parks, waste management, transport, and infrastructure****. My local parks (Helena Park & Zita Maria Park) are ****overgrown and neglected****, yet rates keep increasing while basic services decline.

Spending ratepayer money on ****cultural programs**** should be a ****secondary**** priority when essential services are already underfunded. I would rather see this money used to ****maintain public spaces, improve transport, and ensure waste services are efficient****.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Fairly important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Fairly important

Expanding youth voice initiatives to academic students in the local board area

Fairly important

Work on plans to upgrade Catherine Plaza

Fairly important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Appropriate planning and investment for infrastructure and quality open space in areas impacted by growth and intensification e.g. Whenuapai

Very important

Continue to prioritise support to our local community organisations and volunteers to deliver outcomes that provide a sense of belonging, wellbeing and resilience for residents

Very important

Continue to prioritise investment in outcomes that ensure our communities have access to high-quality amenities that provide for a range of opportunities including play, pathways and connections, active sports and recreation and connecting with nature

Fairly important

Funding to assist in the development, improvement, and renovation of non-council owned community facilities that serve the Upper Harbour area through a facilities grants process

Less important

Improve wayfinding in the Upper Harbour area to help our communities to easily discover and enjoy the assets we have

Fairly important

Contribute funding for the development of a vision and plan for the future North Harbour Stadium and Domain Precinct.

Fairly important

Tell us why (please be clear which priority you are talking about)

To help the local board understand priorities and areas of importance for the community, we want feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Community climate action and sustainability activities, Libraries facilities - opening hours and services , Local waste minimisation activities

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Do you think we should contribute funding to the development of a vision and plan for the future of North Harbour Stadium and the Domain Precinct?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

A lot goes to transport every year but it is only getting harder and harder to get around Auckland. The city and the suburbs.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

It will make hotels more expensive for locals which is hard as it is already expensive in Auckland, but overall, those events are amazing and they bring so much

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Henderson-Massey

Henderson-Massey Local Board Priorities

The following are the key projects and activities we plan to deliver next year, and any key changes to services.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Very important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Fairly important

Expanding youth voice initiatives to academic students in the local board area

Less important

Work on plans to upgrade Catherine Plaza

Fairly important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Less important

Tell us why (please be clear which priority you are talking about)

Catherine plaza would be great if it was good, outdoor dining and attracts, overall a different market with things happening, like north west. If just made to look better, it will stay on the same cycle

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

Generally I am not happy that you are allowed to raise rates at these high rates and drive inflation the way you are. You should be able to run services with the considerable amounts of money Auckland rate payers already give you. It sounds like you aren't running things as efficiently as you could.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. Several of these measures sounds like elected board members trying to pass off duties and responsibilities to local tribe members and young students. Sounds a little out of touch in some ways, I am not impressed.

Tell us why (please be clear which priority you are talking about)

I live in Henderson and personally think it could be a very beautiful, vibrant area if it was revitalised. Currently there are a lot of empty buildings, and the place looks like it has been abandoned over the years - it's a tired ghost town on Friday and Saturday nights and the weekend in general with little sense of community. The area has so much history and potential to be so much better!

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support any

Tell us why

Apart from increasing rates, being the default funding mechanism, there is no mention of the council finding other sources of revenue. As a ratepayer I am fed up with being the councils bank for what ever scheme is dreamed up. We hear of the lipservice paid to reducing costs but not much

effort is apparent. I know this is disagrees with councils opinion but I at least have to try to make this point.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Tell us why

User pays, people use hotels to stay here, only reasonable they should bear the cost of holding the event.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Other

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

This year we have been inflicted with the short sighted bagless rubbish collection with a charge made against our rates. AS a result, and despite a submission to the scheme before it was implemented, we now pay 5 to 6 times more for rubbish collection than we did when we used rubbish tags on the bins. I strongly advocate User Pays such that the old system funded itself, the

current system is significantly unfair to people who produce small amounts of rubbish and are following the councils request to reduce waste.

Henderson-Massey Local Board Priorities

The following are the key projects and activities we plan to deliver next year, and any key changes to services.

4B. What do you think of our proposals for your local board area in 2025/2026?

Do not support most

Tell us why

I cannot support any race based items, the idea of items for one specific racial group is abhorrent and counter to the democracy we live in

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Less important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Less important

Expanding youth voice initiatives to academic students in the local board area

Fairly important

Work on plans to upgrade Catherine Plaza

Less important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Fairly important

Tell us why (please be clear which priority you are talking about)

Youth and water support is important to everyone, Maori specific racial based activities are not unless accompanied by equivalent activities for non-Maori

Please stop funding fluffy stuff like movies and music in parks and Round The Bays. Focus on core services and infrastructure.

Please stop wasting money on anti-carbon schemes. There is no science behind this, only idealism driven by overseas greed...follow the money! Huge waste of money.

Thanks for building the Te Whau pathway, that will be useful and enjoyable for the community

Restore funding to service levels in some areas that were cut in recent years, e.g additional library hours, programmes and community grants

Very important

Increased service levels in our parks and town centres including progression of Te Hono project

Very important

Plan for the future Whau aquatic and recreation facility and facilitate public access to school pools in the interim

Very important

Work with local Business Improvement Districts (BIDs) to find new ways of delivering vibrant and welcoming town centres through art activation and beautification projects.

Fairly important

Continue to support volunteering, community and business participation, through environmental and ecological initiatives around the Manukau Harbour foreshore, the Whau River and its tributaries, and our urban ngahere

Very important

Increase community participation and capability in community hubs, houses and with established community partners, and progress the development of a new community hub in Fruitvale

Very important

Foster climate/emergency preparedness and resilience in our community

Fairly important

Investigate a future space for youth and engage a youth coordinator to support and promote for youth by youth activations

Rates keep increasing. Auckland councils plans keep changing but in reality no improvement on services. Lesser rubbish bins in public places. Dirty berms and footpath. Faded crossings and road markings. It feels like rate increases coincide with pay increments.

Not everyone attends your events. I fact if you see the attendance over the years you will see it does not cater for all Auckland. It caters for specific age groups or values and purely devoid of others why should everyone foot the bill then. Have an entry fee to your events to pay for your events. Stop charging everyone else. Common sense.

You have failed to improve in the past what will convince me of your competency now. Waste management is a joke. You charge for waste removal and your truck does not have a 100% guaranteed turn up rate. After every rain sewerage is found on beaches. Unhygienic. Unsanitary. Unsafe. No preservation of little creeks. Dog waste everywhere. Dirty diapers. No consequences whatsoever for dog owners or the repeat polluters. No civic pride instilled by council - lead by example. No just increase rates. But level of service and delivery on a downhill. No accountability.

Poorly staffed animal control dept. Rubbish bins removed. Shockingly us stop shelters had their bins removed. Come to west Auckland. It's third world standard.

If the justice system delivered penalties befitting the crime we will half the mess we are already seeing. Throwing of rubbish,/rubbish disposal, damage to public and private properties, lack of respect for civic properties and privileges, family friendly parks, irresponsible dog owners....

To help the local board understand priorities and areas of importance for the community, we are seeking feedback on areas that are most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Be realistic. NZ is a third world country. People are poor. You want to increase further homelessness and child Starvation and crime by increasing rates??? On the one hand you say reducing homelessness could potentially be a goal but on the other hand you are creating the problem. Get out of your office go talk to the actual struggling tax payer. Sipping wine or nibbling cheese with someone whose pants costs more than a households weekly grocery doesn't tell you the real story. Go sit with the actual struggling peoe. I the current economic climate I stead of standing by your people you creating a divide and rule policy. Shame. How do other countries do it. Before the formation of supercity there was less problems. Now you tax all Auckland but favor a select few suburbs and communities. People are not blind. They see. There's a world of difference between a park in northaucklandvssouthaucklandvs zita Maria drive.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

It is rates increase nonsense to deliver... food scrap bins again? How will you increase water quality and intensify population - more rates increase for waste water plants? Isn't population increase supposed to increase revenue... for Councils too not only for developers? We are still, spending money on these silly traffic cones everywhere - I know it might appear not related but I've

seen how contracts are made. Shouldn't be called Council but Wastefull. Now go ahead increase rates, you have my blessing!

Now again, you try to charge extra for a holiday batch - those properties are already taxed. I see behind this idiotic Labour mentality: make the rich pay and the paid money go to waste anyway by the flat-head tax and spend politicians, how many consultation commissions did Labour gov. inflicted on us??

I don't throw out the landfill rubbish bin weekly, since I compost I barely put the bin out once a month or less, Blanket rates do not reflect reality, as usually happens with blanket regulations. If I buy a bin collection I pay less often - unless you make sure it is expensive enough anyway.

What I cannot defeat is the mountain of recycleable rubbish that I absolutely need to throw out fortnightly - charge me extra for that too since there is no way I can reduce the amount of packaging I am forced to accept on everything - charge a target rate increase for recycleables - wouldn't that be a good deal?

Franklin,Henderson-Massey

Franklin Local Board Priorities

The local board has additional funding in 2025/2026, however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Delivery of Auckland Council Community Hub Services (library, arts, and customer services) in Beachlands and Clevedon

Fairly important

Extending and improving service outreach to isolated communities like Āwhitu, Ōrere, Glenbrook Beach, Paparimu and Kawakawa Bay

Less important

Accelerated delivery on the Sports and Recreational Plan, and additional grant funding for Karaka Sports Park and the Te Puru Sports Centre

Fairly important

Initiatives that improve the quality of the water in our streams and rivers and our environment through pest eradication programmes

Very important

Accelerated planting of trees in public places i.e. delivery of the Franklin Ngahere Plan

Very important

Continued delivery of the targeted rate funded Franklin Paths Programme.

Less important

Tell us why (please be clear which priority you are talking about)

Yes, plant trees, improve the catchments, develop sport/recreational venues and also Community Hubs (maybe join a free gym with a Hub) but bike lanes in Franklyn... (frankly just build wider roads, don't waste money on bike paths in far away places where you simply need cars and roads to move - OK, maybe bus service if possible) last not least, improve and widen roads to outreach communities so they can drive safely and don't waste money with services they need to drive to anyway. A good investment would be to paint these roads at least once a year so you can see the lanes even if it is sunny right after rain.

Less important

Tell us why (please be clear which priority you are talking about)

Catherine Plaza upgrade or at least light refresh could make sense for small businesses around, I hope you just don't start building bike lanes nonsense just make wide roads so bikes fit in safely, have good car-park solutions and of course bus stops (and why not... subway-train station if you really have money like Germany). Water Quality should be covered by infrastructure development, keep TAP catchments clean (great you fixes a waste water leak into the lagoon) and birds will spawn (no need for Maori boards to be paid to watch over Nature). Youth voice... IMO that rather increase activism, I'd rather involve youth into political parties instead. (Sorry joke: How come you don't have measures to help the LGBT?). Last not least, on community to take lead and everything Maori - is the Community Hubs that are supposed to support cultural communities - it is culture, right? - But the wording is community to take lead instead - sounds to me like Maori racial activism and it is obvious that all of it only seeks unethical business advantage, just read between the lines. E.g. I'm happy to volunteer on like Surfing for mental health for whoever needs it but never on Surfing for Maori - besides Maori might like way more fishing, hunting, etc.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Fairly important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Less important

Expanding youth voice initiatives to academic students in the local board area

Fairly important

Work on plans to upgrade Catherine Plaza

Less important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

the 5.8% increase will be borne by normal people already struggling as property rents and other related costs skyrocket

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

4 out of the 5 I support. I think with the economic hardships the need to refurbish infrastructure is not a priority. Focusing on developing social and people skills is important as the four activities will improve these.

To justify the increase of 5.8%, it would be good to know that this is derived from evidence-based data, trends projection. These costs will transfer from landowners to already affected part of West population.

Putting it simple: rates going up and council gravy train expending a lot on unnecessary areas.

Let's get an example: at the same speed that you guys removed public bins, you guys, somehow have enough funds to cut street lanes and place stupid plant boxes. I mean, obviously make the city beautiful is a positive thing, but we do that, when we have extra money, when the problems are sorted.

So we got stupid plant boxes, stupid different colours for pedestrians crossing that goes against the road code, stupid raised crossings damaging houses, for that we, as a city, got money.

But no trains, no quality asphalt, huge increase of all sort of crimes, Auckland CBD is a mess with all sort of criminals crackheads, drunken and bad behaviour people.

So go sort this first, before use all the tax payers money on stupid stuff.

Another project that have in mind tourists, people just passing, and nothing for the average Joe and Jane that give sweet and ***** for this city every single day.

Is like the CRL, let's improve connections with the airport, for who? But at the same time Northshore cry blood tears for a new solution to get into CBD, Auckland south and east. Same with

the mess about West bus lanes, west lack of trains and also congestion that sometimes back up from Westgate till city.

But hey, who's cares? Let's do another project focusing in tourism and let the average Joe be screwed.

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Less important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Less important

Talking with young people and children to better understand what is important to them in their area.

Less important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Less important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Fairly important

Increasing the number of local events arts and activations especially in local parks and town centres.

Fairly important

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Support the youth networks in our area to help our young people thrive, and to have a voice in local board decision-making

Less important

Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting

Fairly important

Support the development and increased use of our local parks, reserves, and sports fields by being available for people of all abilities, ages, and socio-economic backgrounds to enjoy in a range of leisure and recreation activities

Fairly important

Encourage local business associations to continue to support business development, to contribute to safer, more vibrant, and attractive town centres, that continue to meet the changing needs of our residents

Less important

Support and fund efforts to mitigate and adapt reserves, parks and public assets from the effects of climate change through initiatives such as the Urban Ngahere (Forest) Strategy

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Do you think we should contribute funding to the development of a vision and plan for the future of North Harbour Stadium and the Domain Precinct?

Māngere East Village Business Improvement District (BID) programme

A BID is a local economic development initiative run by a business association under the Auckland Council BID Policy (2022). It involves businesses in a defined area paying a targeted rate to fund specific services or projects in their BID boundary. The Māngere East Village Business Association Society Inc. (MEVBA) has failed to meet key BID Policy requirements, including accountability reporting, AGM minutes, strategic plan, and appointing a BID Manager. MEVBA also breached its constitution and did not notify the council of non-compliance. The Māngere-Ōtāhuhu Local Board is now considering terminating the BID programme and targeted rate, with the possibility of re-establishing a compliant BID programme in the future if conditions are met.

Fairly important

Identifying ways to support the council's response to roaming dogs

Very important

Boosting the amount of funding available for community grants so more projects and initiatives can be delivered by community, arts and sports groups

Less important

Expanding the number of funded initiatives that respond to the needs and aspirations of children and young people

Less important

Developing tailored community partnerships with key groups, organisations and networks where their interests and priorities are aligned to outcomes in the Manurewa Local Board Plan 2027

Less important

Providing the Pacific community with capacity support, and a grant to undertake feasibility and concept plans to deliver the Pacific hub on Clendon Reserve

Less important

Scaling up the work being delivered to achieve environmental outcomes

Seawall Repair from Tāmaki Yacht Club to Archilles Point, St Heliers

We would like to maintain and repair seawalls, replenish sand, and extend stormwater outflows further offshore on our beaches from Tāmaki Yacht Club to Archilles Point, St Heliers, as well as re-sand Tāmaki Beach and construct groynes to help keep the sand in place. To fund this, we would need to investigate a targeted rate of around \$10 per year, for each household in the Orakei local board area, for 10 years. If progressed, the Governing Body would need to make a decision on whether to introduce this rate as part of the annual budget 2026/2027, after consultation on a more detailed proposal. The rate could then apply from 2026/2027.

Do you think we should investigate this proposal?

Yes

Tell us why

\$10 bucks per year, for a overall (and necessary) improvement sounds a catch. I mean, affordable, and everyone's will enjoy the results. I would suggest a parallel study to, instead of \$10 we maybe charge &15 annual, but keeping the same 10 years. So with the extra \$ we can create a reserve that would be able to give back a kick-start for future maintenance and/or improvements.

Hunters Corner Business Improvement District

For the 2024/2025 financial year, the Governing Body did not set a targeted rate for the Hunters Corner Business Improvement District. This was due to the Hunters Corner Town Centre Society Inc (HTCTS) not complying with the BID Policy. If the HTCTS remains non-compliant with the BID Policy by April 2025, council will not set the rate for 2025/2026.

To help the local board understand priorities and areas of importance for the community, we want feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Do you think we should contribute funding to the development of a vision and plan for the future of North Harbour Stadium and the Domain Precinct?

Yes

Tell us why

Waiheke Local Board Priorities

The local board has additional funding in 2025/2026, however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library

Very important

Programmes which protect, restore, and enhance the island's natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience

Less important

Progressing recommended actions within the Rangihoua Reserve Onetangi Sports Park Reserve Management Plan

Less important

Capital projects including the Tawaipareira Reserve playground and loop track, and replacement of the Rakino Hall

Less important

Continuing to support local organisations with the development of a community swimming pool and investigate consulting on a local targeted rate

Less important

Revitalising Ostend and Oneroa village centres

Less important

Commissioning the research of data and surveying residents to understand the state of the motu.

Less important

Tell us why (please be clear which priority you are talking about)

Community Pool Development

You have told us a community pool is a priority however building and running a community pool will involve significant funding. A targeted rate for Waiheke residents is one way to fund this development. The board will also explore partnerships and sponsorship opportunities.

Do you think we should investigate a targeted rate to progress development of a community pool?

No

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support any

Tell us why

You never prioritize

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I don't know

However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I support it but think 1.5% is a better rate to start with.

Question 3: Changes to other rates, fees and charges

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

5.8% average increase is a lot for my family and for many families I know. 2.5% to 3% is still a stretch but I understand why they need to increase.

I think most families would do well with the bin costs being included in rates but I am concerned about people who live alone as well as those who compost, reuse and recycle most of their waste already and the elderly who may not have their bins emptied as frequently as large families. Going from once a month or less of bin tags or bags being purchased to paying for a weekly service is a lot for someone who is already struggling. Perhaps an electronically monitored pay as you go type service could work better for these households.

I'm not sure of the exact proposed cost of the refurbishments at west wave but I feel that another swimming facility in west Auckland would be a better option. waiting in line is very hard for families

with young children and it feels like weekends and school holidays have long lines to wait to get in pretty much every day.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

I do support transport as most Aucklanders use public transport to go to work for it is convenient and efficient and capping \$50/week saves money compared to travelling on your own car (petrol/diesel cost is expensive). Using contactless payment makes it easy for the online app takes forever to process or do top up.

I do support Fairer for funding to local communities improve small businesses in families and showcase of cultural identity and boost the city economy.

Need more ideas on Water, there is more money paid to wastewater then water consumption and how can we find a way to reduce this.

It might be good in one way for it raise around \$27 million each year to fund marketing and major events activities in Auckland as a LTP. More projects, more jobs or improve settlements such housing for Aucklanders settlers, etc

However, one potential impact without the levy, there could be cuts to spending on economic growth areas, events, and infrastructure project. The downside of these events and infrastructure project may face a number of challenges such as improvement of infrastructure to meet the increased of urbanization population, impact on natural resources.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I liked the pay as you go system for rubbish as it rewarded those who consciously worked on reducing waste. Now there is no incentive and we're all charged the same. Also the food scraps charge is unfair as we compost and have never used it and are being charged for it.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Henderson-Massey, Waitākere Ranges

Henderson-Massey Local Board Priorities

The following are the key projects and activities we plan to deliver next year, and any key changes to services.

4B. What do you think of our proposals for your local board area in 2025/2026?

Doing up Catherine Arcade will be like put a diamond in a bucket of pig swill. Spend the money on a general tidy up of Henderson.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Less important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Fairly important

Expanding youth voice initiatives to academic students in the local board area

Fairly important

Work on plans to upgrade Catherine Plaza

Less important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

I think Catherine Plaza upgrade is a waste of money! We need road safety on Edmonton Rd, Alderman Dr, Takapu St pedestrian crossings or are we waiting for somebody to be killed? After an upgrade Catherine Plaza might be one nice spot in a dump of a town centre. Do a general clean, tidy of the whole area. Don't just focus on one spot.

The Waitākere Ranges: please reopen the walking tracks. Where is the evidence that people cause Kauri trees to die? We have Kauri on our property in Henderson, walked around, mowed around and perfectly healthy.

Waitākere Ranges Local Board Priorities

The local board has additional funding in 2025/2026, however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding. The proposed increase in funding ('fairer funding' for local boards) may be taken up by budget pressures outside of the local board's control. Support most

Tell us why

Doing up Catherine Arcade will be like putting a jewel in a pig sty. Spend the money on a general tidy up of Henderson

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

The Event Partnership Fund to support more community-led events

Less important

Arts and culture programmes delivered through our community arts partners

Less important

Tailoring programmes to serve diverse communities (youth, older adults, Pacific and ethnic communities)

Fairly important

Community development, placemaking and activation in our growing neighbourhoods and centres such as Glen Eden, Sunnyvale and Swanson

Fairly important

Supporting business associations to continue supporting local businesses and ongoing growth, develop and liven-up our town centres, including assisting Glen Eden Business Association and establishing of Titirangi Business Association

Fairly important

Environmental programmes to help protect and restore the Waitākere Ranges

Fairly important

Trialling phosphite treatment of kauri infected with kauri dieback on selected local parks

Less important

Improving neighbourhood parks: George Herring Common, Koroī/ Clayburn Reserve, Tautoru/Maywood Park, and Sandys Parade.

Fairly important

Tell us why (please be clear which priority you are talking about)

Parks are important, especially with all the infill housing and kids having no outdoor back yard for play. Great parks need to be in every neighbourhood so that roads aren't clogged with people driving to them.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

looks good, decently pleased

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

All these priorities are important to provide awesome facilities to these areas

To help the local board understand priorities and areas of importance for the community, we want feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Community centres – programming and activations , Youth activities

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Regarding the revaluation of rates, I commend the efforts to make it more equity based to try and make it more expensive for those in wealthier/less deprived areas. I do not however, that where people live is not always reflecting of their income e.g. Pacific home owners in Grey Lynn before gentrification.

1. I support community led signature events, and I would like to propose to council that they also consider supporting more Pacific led Pacific events. For example, in Easter 2026, the Tokelauan Easter Festival will be hosted in Auckland. This is the biggest Tokelauan gathering in the world, and last year when hosted in Hutt Valley, up to 10,000 people engaged with the festival over the weekend. I would love for them to support upcoming funding applications for this festival, which hosts NZ and Australian regions to compete in sports and cultural events.

Henderson-Massey Local Board Priorities

The following are the key projects and activities we plan to deliver next year, and any key changes to services.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Less important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Less important

Expanding youth voice initiatives to academic students in the local board area

Less important

Work on plans to upgrade Catherine Plaza

Fairly important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Less important

Tell us why (please be clear which priority you are talking about)

too much crime and violence going on in Henderson need to be stopped

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

Too much waste on activities that aren't roading, rubbish, parks. Way too much social engineering/money laundering. Must stop.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

Another tax. Another way to spend/waste money on administration and unnecessary services. Let the city stand on it's merits for attracting tourists.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Another change for change sake. The cost of administration and change management isn't sustainable for all these unnecessary changes. Current state user pays is fine as it is. No need to spend more money to change things that don't need changing.

Question 4:

Prioritising and investigating flood resilience actions for our parks such as Western Park and Grey Lynn Park

Less important

Delivering footpath improvements for Auckland Domain

Fairly important

Starting construction for Leys Institute

I don't know

Delivery of Heard Park Civic Space

Less important

Prioritising sport and recreation opportunities for groups that have less

Less important

Investigating transition of Grey Lynn Paddling Pool into a seasonal splashpad

Fairly important

Less important

Support for ending homelessness in Auckland.

Fairly important

Tell us why (please be clear which priority you are talking about)

The amount of money wasted/launched by the council is disgusting. Our rates should be spent on the basics. Rubbish, roads, parks. Too much of our money has already been spent on social engineering and this must stop. It is wasteful and divisive.

To help the local board understand priorities and areas of importance for the community, we are seeking feedback on areas that are most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Libraries and Pools and Leisure facilities - opening hours and services, Local parks strategy and planning, Sports and park activation activities

4B. What do you think of our proposals for your local board area in 2025/2026?

Support all**Tell us why**

I support all priorities however I am disappointed there is nothing that captures youth wellbeing / youth development / youth leadership. I am a member of the Massey Congregational Church at 310 Don Buck Road Massey. We have had high school students vandalising and damaging our church for over a year now during school hours. The extent of damage is appalling and although it makes me angry, I was first sad because the young people inflicting this damage cannot be in good home situations. I would like the Henderson-Massey local board to focus on the causes of the youth offending and aim to address those rather than the punishment.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Tell us why (please be clear which priority you are talking about)

I would like to see priorities around mental wellbeing/leadership development/youth development programmes. We have had horrible damage to our Church because of vulnerable youth from the

neighbouring high school and it's not good enough. These kids are falling through the cracks, in unsafe homes so while the easy solution is to be mad and ask for them to be disciplined; the better solution is to invest in them.

- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

There were many projects which seemed to be nice to have but not really urgent. This money should be saved until the economic situation is better and to reduce the debt to revenue ratio.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

Visitors should be encouraged to come and stay, not charging them for coming to contribute to the economy. Are all short-term stay hosts paying taxes from their revenue? The loophole should be plugged if not.

An estimation should be done to see by plugging this loophole, how much shortfall do we still have.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

Those are just nice to have projects; money should spend elsewhere or reduce debts.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Less important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Less important

Expanding youth voice initiatives to academic students in the local board area

Less important

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Appropriate planning and investment for infrastructure and quality open space in areas impacted by growth and intensification e.g. Whenuapai

Very important

Continue to prioritise support to our local community organisations and volunteers to deliver outcomes that provide a sense of belonging, wellbeing and resilience for residents

Very important

Continue to prioritise investment in outcomes that ensure our communities have access to high-quality amenities that provide for a range of opportunities including play, pathways and connections, active sports and recreation and connecting with nature

Very important

Funding to assist in the development, improvement, and renovation of non-council owned community facilities that serve the Upper Harbour area through a facilities grants process

Very important

Improve wayfinding in the Upper Harbour area to help our communities to easily discover and enjoy the assets we have

Fairly important

Contribute funding for the development of a vision and plan for the future North Harbour Stadium and Domain Precinct.

Less important

Tell us why (please be clear which priority you are talking about)

To help the local board understand priorities and areas of importance for the community, we want feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Community climate action and sustainability activities, Environmental restoration, volunteers and pest control activities, Local water quality improvement activities

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. Restore funding to service levels in some areas that were cut in recent years, e.g additional library hours, programmes and community grants

Fairly important

Increased service levels in our parks and town centres including progression of Te Hono project

Less important

Plan for the future Whau aquatic and recreation facility and facilitate public access to school pools in the interim

Fairly important

Work with local Business Improvement Districts (BIDs) to find new ways of delivering vibrant and welcoming town centres through art activation and beautification projects.

Fairly important

Continue to support volunteering, community and business participation, through environmental and ecological initiatives around the Manukau Harbour foreshore, the Whau River and its tributaries, and our urban ngahere

Fairly important

Increase community participation and capability in community hubs, houses and with established community partners, and progress the development of a new community hub in Fruitvale

Less important

Foster climate/emergency preparedness and resilience in our community

Fairly important

Investigate a future space for youth and engage a youth coordinator to support and promote for youth by youth activations

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Other

Tell us why

Do the events themselves not make money? Where is that money going if not to the city they are hosted in? In theory, I do not have a problem with the levy. However, these events should be generating income and since I do not understand enough about what happens with that revenue then I cannot comment on whether additional costs to those visiting Auckland is the right path to take (it's already expensive enough and potentially drives visitors away thus causing an overall decrease in revenue to the city in a broader sense).

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I support the refuse targeted rate being applied to Franklin and Rodney as standardising a service/process generally means a more efficient system overall. This should also result in cost savings for the city - are those saving itemised anywhere in the Consultation document though? I had trouble finding anything about it.

I want to know that proposals such as this can show actual benefits other than 'hey, we are standardising stuff'.

Henderson-Massey Local Board Priorities

The following are the key projects and activities we plan to deliver next year, and any key changes to services.

4B. What do you think of our proposals for your local board area in 2025/2026?

I don't know

Tell us why

How exactly is funding given for something like:

engaging mana whenua, Māori and in collaboration with
Te Kete Rukuruku, creating Te Ao Māori activations for
whānau that incorporate te reo, tikanga and supporting
the area's Pūrākau (Māori history)

Is it put into a Maori fund to be managed by i.e. local iwi? Is there regular auditing to show how it is spent? What percentage goes to salaries and who exactly receives a salary for this work (beyond elected officials)?

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Fairly important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrākau (Māori history)

I don't know

Expanding youth voice initiatives to academic students in the local board area

Very important

Work on plans to upgrade Catherine Plaza

Less important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

I believe that anything to do with youth engagement is vital for New Zealand in general and our council should be doing our part wherever we can. I don't care much for having upgraded shops but then having a clean and vibrant commercial zone can help lift the surrounding areas and possibly encourage more positive social behaviour overall.

Looking after our waterways is vital since water is obviously one of the most important natural resources in our lives. I think education around this should be tied in with any youth initiatives so that the council's priorities align with what is best for our young people.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

Whilst I support improving transport and water care, i think communities are currently well cared for and theres a greater need to bring business' back into the cbd and revive queen street. The heart of the city is just a shadow of what it used to be.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Appropriate planning and investment for infrastructure and quality open space in areas impacted by growth and intensification e.g. Whenuapai

Very important

Continue to prioritise support to our local community organisations and volunteers to deliver outcomes that provide a sense of belonging, wellbeing and resilience for residents

Fairly important

Continue to prioritise investment in outcomes that ensure our communities have access to high-quality amenities that provide for a range of opportunities including play, pathways and connections, active sports and recreation and connecting with nature

Very important

Funding to assist in the development, improvement, and renovation of non-council owned community facilities that serve the Upper Harbour area through a facilities grants process

Less important

Improve wayfinding in the Upper Harbour area to help our communities to easily discover and enjoy the assets we have

Fairly important

Contribute funding for the development of a vision and plan for the future North Harbour Stadium and Domain Precinct.

Less important

Priority 1 - Need to ensure there are opportunities to connect with the outdoors/walking paths & parks, within the new intensive housing estate that leaves minimal backyards for the people living there.

To help the local board understand priorities and areas of importance for the community, we want feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Community development and support activities, Environmental restoration, volunteers and pest control activities, Local parks strategy and planning

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Do you think we should contribute funding to the development of a vision and plan for the future of North Harbour Stadium and the Domain Precinct?

I don't know

Tell us why

Funding is needed to improve the area however this needs to be on community access areas and making an attractive environment that enables use, not just of benefit to businesses in the area.

Let's get back to the core functions of council and empower the community. As a ratepayer I value my contribution to serve the people. Council is a public service first and foremost.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

It's worked for other big cities of the world. You can't expect to continue to increase rates to cover this cost. I'm at capacity regarding cost of living expenses as a small family. It won't impact tourism numbers. The costs of paywave is comparable and we just blindly pay that. I enjoy Pacifica and Diwali festivals.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

An airplane flies by balancing four forces: lift (counteracting gravity), thrust (moving forward), drag (air resistance), and weight (the force of gravity pulling the plane down). The shape of the wings, called airfoils, generates lift by causing air to flow faster over the top than under, creating lower pressure above and higher pressure below, resulting in an upward force. If you have managed to read this far, then you're not doing an honest days work Councillors - please get back to your desks.

As air flows over the curved surface of the wing, it travels faster than the air flowing under the flat surface, creating lower pressure above the wing and higher pressure below, resulting in lift.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

The main problem is the crime. No mater what you do, people feel not save and leave our city. Be honest this is what makes me to rethink about place where I am now and why should I put in risk my family. We don't need any projects while we have youth crime, ram raids and so on.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Other

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I even don't support what is already implemented. I don't make more waist but now I pay more for the landfill rubbish. You are shitty council. I had to change the standard bit to the smallest to get at least closer to what I have paid

I had been living in many Auckland suburbs but now I permanently live in Te Atatu South. I would say this is one of the worst suburbs in Auckland in context of the social events, social infrastructure and so on. Likely you are building a pathway along side the creek. It's the proper way how to spend our taxes.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Less important

Expanding youth voice initiatives to academic students in the local board area

Less important

Work on plans to upgrade Catherine Plaza

Less important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Fairly important

Tell us why (please be clear which priority you are talking about)

We don't have the proper parks, sport facilities and playgrounds. The existing ones in terrible condition.

Moving away from rubbish tags in West Auckland was a mistake. Heard at a bbq: Q Where do I put the recycling? A Oh, just in the bin; there's no more rubbish tags now. Moving from a user pays system to a inclusive payment encourages more waste to landfill.

West Auckland has a relatively low level of ecological advocacy and environmental results for our area are poor. Henderson Creek or Te Wai o Pareira is heavily polluted and has 13 sewage overflow points that allow wastewater into the awa both in high rainfall events and dry weather pipe failures and blockages. Without advocacy investment to address these issues will go elsewhere and the community will live with high pollution levels for years.

To the local board please:

1. When you build apartments, you need to go back to the old rules. Ensure parking is supplied. Now we have streets full of cars. Sewer pipe infrastructure cannot continue to support all the residents being introduced to the area with this obsession to build upwards - that is where you should be investing local funds.
2. There are too many people in the council doing nothing. You need to look at yourselves before you start putting up rates etc. Review who is doing what etc.
3. Include Tokelau ethnicity as an options for ethnicity instead of being a consideration under Other

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

the limited money should be spend on the key place witch will enfect our living qulity.

like transport, water

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Very important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Fairly important

Expanding youth voice initiatives to academic students in the local board area

Very important

Work on plans to upgrade Catherine Plaza

Less important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

I think it's mostly sensible and responsible. It is also thinking outside of the box in terms of not just raising rates to pay for everything. I do have concerns about further construction in the city (wastewater upgrade) as the city has struggled with the CRL works for years and any construction

in the city has multiple flow on effects (including making the dreaded traffic even worse). I wonder if that is something that could reasonably be delayed?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

I think this is a great idea and takes some of the pressure off Aucklanders. However, the levy would need to be very reasonable, as for example visitors to New Zealand already pay a lot to come here and our accommodation is already quite expensive. I really like this idea though.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

4B. What do you think of our proposals for your local board area in 2025/2026?

I don't know

Tell us why

I struggled with this as it seems there aren't many proposals for our area, and the ones that are listed are quite vague and non specific. For example, work on upgrading... not sure what that means really.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

I don't know

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Fairly important

I don't know

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Fairly important

Tell us why (please be clear which priority you are talking about)

The ones that are more specific are easier to answer to but I really think there is a lot more that can be done in Henderson/Massey to improve the living/lifestyle here. There is significant traffic congestion issues which I believe are being compounded by multiple townhouse developments with no parking offered. For example, on Tudor Road in Henderson, developers took a single

house section and placed 13 townhouses on that section with no offstreet parking. If you drive down Tudor road outside of work hours you can see how difficult it is now - you can't see if any cars are coming the other way and it is a disaster. There is a way to fix this and it would be placing yellow lines on one side of the road. The way to fix it for the future would be requiring a parking space for each townhouse off the street. I live in Daytona Road and find it hard to get out of my street onto Lincoln Road in the mornings to take my child to daycare and myself to work due to all the traffic coming through Tudor Road. A lot of which is probably people using it as a shortcut to get onto Lincoln Road but honestly, it drives me mad. On days I work from home I walk my child to daycare and I looked into walking to daycare, then walking to get the bus to work, however the time it would take me was 2 hours+ which is not productive. There are surely some quick wins such as these that Auckland Council could find to help people be happier?

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

I'm happy with the bulk of it, but would really like Auckland Council to pick up any cheap, quick wins they get from this feedback. I love this city, and as a Cantabrian who chose to move here 20 years ago that says a lot. Those quick, cheap, easy projects can really make a difference to the living standards here and would help Aucklanders to feel listened to by their elected officials. Don't underestimate the value and impact of small local but visible projects!not everything has to cost an arm and a leg.

It is not the fault of this particular annual budget that so little is provided to ratepayers in proportion to what we pay. The plan seems reasonable, given the environment it exists within.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. Visitors to the city that get to enjoy our ratepayer funded amenities should contribute in some small way. I doubt many punters would cancel their trip over a 3% levy.

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

It seems OK overall, a few minor wins where possible but mostly lackluster.

In saying that, it is difficult to scrutinize an annual plan within the framework of a largely broken bigger-picture economic environment. With so much debt, operating costs, and infrastructural neglect accumulated over the last several decades, I am not surprised to see that I will be receiving a big old nothing-burger with a rates increase attached.

The real work towards meaningful change lies within the scope of longer term proposals. It is at least reassuring to see what is NOT included in the 2025/6 plan, which is the typical money-hose pressure blasting my ratepayer dollars down the proverbial sewer with meaningless vanity projects in times that call for austerity.

Not a fan of the rates increase. It's lower than last year, but that doesn't change the fact that minimum wage is only going up a couple of cents, while the rates are going up 4 dollars plus. It's hard enough to get by day to day. There seems a disconnect between how life actually is for the lower income ranks, as opposed to the general overview of the numbers.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Waitākere Ranges Local Board Priorities

The local board has additional funding in 2025/2026, however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding. The proposed increase in funding ('fairer funding' for local boards) may be taken up by budget pressures outside of the local board's control. Support most

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Rates are always increasing. Not all that pay rate benefit from these changes.

I support increasing funding for community, capped weekly travel pass etc., just not the rates increase.

I think your institution and staff can cut cost within, like lunches and company cars etc.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

These increases can make NZ a less competitive and appealing destination to tourists, especially those on a budget who are more likely to be negatively and disproportionately affected. Also, admin may be costly to put this into effect and manage it.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Standard rate doesn't work as some house holds produce less waste that other households. It will be an increase of cost, again, which seems to be the theme of Auckland council.

Tell us why

I support the priorities in the plan in principle, but I would like to see much more focus on climate change mitigation (lowering emissions) and adaptation (preparing our infrastructure for adverse climate events). Not doing so is reckless.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. Support

Tell us why

I do support a levy, but I would prefer if the proceeds were spread widely through the arts, culture and community sector, and not just to large international events. A thriving local arts scene would enrich the city incalculably more.

4B. What do you think of our proposals for your local board area in 2025/2026?

Support all

Tell us why

I support the priorities but feel more needs to be spent on environmental services. We need to urgently make progress on water quality in both Te Wai o Pareira and the Whau river - these should be swimmable quality. In terms of community events, I would like to see a focus on youth training and employment. I question why you mention academic students? Do you just mean students in secondary and tertiary education, or is this academic as opposed to trades and other pathways?

I also don't see any plans to address homelessness locally - we should aim to develop spaces such as a night shelter and activity spaces, where street folks can spend time safely and warmly, and access immediate support.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Tell us why (please be clear which priority you are talking about)

Catherine Plaza has had several upgrades, but if the social issues are not addressed by providing space for people to socialise and rest safely, and access support, then no physical changes to the plaza will make much difference. I fear this may be a waste of money

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

The annual plan does not include enough emphasis on climate mitigation and adaptation. We need to work much harder as a city to move away from the oppressive car-dependency that was imposed on us through the spatial planning of earlier generations. I would like to see the Council push central government assertively for more investment in public transport and active modes - we need active mode access to the North Shore, a North-Western bus priority lane on the motorway now, network improvements for cycleways and the bus network, we urgently need to reduce fare prices, and so much more. Yes, we are making progress, but it is MUCH TOO SLOW. Let's make our lives better in this city right now, and reduce emissions, and the cost sunk into petrol every year, in the process

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

Funding needs to be placed more on water waste, enviro issues and less high density residential building as we don't have the current sewage,roading,environmental consideration in place.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Māngere East Village Business Improvement District (BID) programme

A BID is a local economic development initiative run by a business association under the Auckland Council BID Policy (2022). It involves businesses in a defined area paying a targeted rate to fund specific services or projects in their BID boundary. The Māngere East Village Business Association Society Inc. (MEVBA) has failed to meet key BID Policy requirements, including accountability reporting, AGM minutes, strategic plan, and appointing a BID Manager. MEVBA also breached its constitution and did not notify the council of non-compliance. We would like to maintain and repair seawalls, replenish sand, and extend stormwater outflows further offshore on our beaches from Tāmaki Yacht Club to Archilles Point, St Heliers, as well as re-sand Tāmaki Beach and construct groynes to help keep the sand in place. To fund this, we would need to investigate a targeted rate of around \$10 per year, for each household in the Orakei local board area, for 10 years. If progressed, the Governing Body would need to make a decision on whether to introduce this rate as part of the annual budget 2026/2027, after consultation on a more detailed proposal. Environmental restoration, volunteers and pest control activities, Local waste minimisation activities, Local water quality activities

Takanini Business Improvement District (BID)

We continue to support the Papakura and Takanini Business Associations to grow and develop businesses, and to make the town centres more lively. Takanini Business Association is seeking to establish a Business Improvement District (BID) programme. If it is successful, business ratepayers and owners located within the BID establishment area will become members of the Takanini BID programme and pay the associated BID target rate.

Do you think we should establish a Takanini Business Improvement District (BID) programme and associated BID targeted rate?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Because the most challenging issue facing us that paying rent is high rental, and secondly we are paying for our water. People living in government houses pay less rent and they do not pay for their water. We are the unlucky people living here in Auckland as we do not qualify for government

It is ironic that plastic cones placed on the road in the name of safety are obstacles to road safety. Placed in way greater numbers than that are needed and paid for as individual cones by Auckland's ratepayers to (I gather) private cone-rental companies is scandalous, wasteful and disrespectful to the people of Auckland. Cones appear where no road works are being done, and

there is no evidence any project was scheduled, and when projects are scheduled, they appear way before the due commencement date. Additionally many surrounding roads have a profusion of cones even though they have no connection to the projects scheduled.

Our part of Auckland has for months been besieged by Auckland Transport appearing and disappearing with little or no residential involvement in whether they want roadworks or not. AT is 'fixing' roads that do not need attention and failing to maintain roads that do!

It is no wonder that I, and presumably others, have fast-declining trust either in AT or its supposed manager, AC. There has to be a major change in how AT spends Auckland ratepayers' hard-earned money for that trust returns.

Question 2: Destination management and major events

At looking at the list of apparent charges 'justifying' ongoing rate-hikes, many, from my point-of-view are non-applicable - 'climate-change' charges etc, seem to be unnecessary burdensome to already-struggling residents of Auckland. AC, as a modern council, should be working within the residents' ability to pay and not planning vanity projects that simply are not needed at this time.

Tell us why (please be clear which priority you are talking about)

New Zealand's economy is affected by the world's economy. While maintenance is required, I believe AC's function is to support, not create initiatives. People are struggling to make ends meet and the city needs to build its economy through trust and the confidence to spend based on encouragement, not paying unnecessary charges for unwanted projects (AT, for instance).

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 3: Changes to other rates, fees and charges

I am concerned about this planned activity by the Henderson-Massey Local Board board: engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whānau that incorporate te reo, tikanga and supporting

the area's Pūrākau (Māori history).

Key projects and activities should be about benefiting all members of the community, and not just focused on a single race.

Most of the other local boards appear to have more equitable views and plans to benefit everyone in their area e.g. improving safety, supporting local businesses etc.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Fairly important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Less important

Expanding youth voice initiatives to academic students in the local board area

Very important

Work on plans to upgrade Catherine Plaza

I don't know

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

I've heard that the council plans to cut funding for the Auckland Philharmonia Orchestra (APO), the city's only professional orchestra. Auckland already lags behind cities in Europe and Australia when it comes to high-quality cultural events. APO concerts are among the few opportunities residents have to experience world-class art through classical music. Reducing funding would jeopardize what little remains of this cultural asset. Musicians here are already underpaid, yet maintaining their skill level demands daily practice and ongoing learning. They deserve better compensation to stay motivated and committed to the orchestra. A well-supported ensemble attracts top talent, elevating the orchestra's quality and drawing audiences with a taste for sophisticated culture—benefits that would enrich the entire community.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

We don't need more cycle lanes here. I am a cyclist but the area is too hilly to use a bike for serious transport. Bus and car improvements are a much higher priority.

The proposed works on Hobsonville road especially with regard to the cycle lanes no one will use are retrograde and strongly opposed. No more bus stop build outs too, they block the flow of traffic for little to no advantage.

Bring back the bins to the parks where you removed them, that was a bad idea.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Appropriate planning and investment for infrastructure and quality open space in areas impacted by growth and intensification e.g. Whenuapai

Fairly important

Continue to prioritise support to our local community organisations and volunteers to deliver outcomes that provide a sense of belonging, wellbeing and resilience for residents

Fairly important

Continue to prioritise investment in outcomes that ensure our communities have access to high-quality amenities that provide for a range of opportunities including play, pathways and connections, active sports and recreation and connecting with nature

Fairly important

Funding to assist in the development, improvement, and renovation of non-council owned community facilities that serve the Upper Harbour area through a facilities grants process

Less important

Improve wayfinding in the Upper Harbour area to help our communities to easily discover and enjoy the assets we have

Fairly important

Contribute funding for the development of a vision and plan for the future North Harbour Stadium and Domain Precinct.

Less important

Tell us why (please be clear which priority you are talking about)

To help the local board understand priorities and areas of importance for the community, we want feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Local parks strategy and planning, Local waste minimisation activities, Local water quality improvement activities

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Stop with all the bike lanes and anti-car measures. Put the speed limits back as they were. More roundabouts and less traffic lights speed the flow of traffic and when done properly work safely and efficiently for all road users.

Concerned about the equity of the rates increase across the region. Some households in some areas have been majorly impacted by the cost of living crisis as well as a lack of services from the council and are not feeling good return on investment on rates that they are already currently paying. Having to tell them that they need to pay more rates hurts.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

If Auckland is to be a major tourist destination, the impact of these tourists should be offset by them paying a contribution towards the council's funds. I think a portion of the levy should also be used to fund infrastructure that makes life easier for tourists, eg public transport, accessible roads.

Question 3: Changes to other rates, fees and charges

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

I would like to see actions taken (or documentation of actions taken) to address the homelessness and mental health problems of those who occupy Queen Street and K' Road (in a humane, caring way). I know many people (including myself) who have negative experiences of the city (and city centre) and public transport due to unpleasant interactions with these individuals. So much so that I know people who know that Auckland Transport has reached a state where it is good enough for their needs (i.e. fast enough, buses are affordable enough, etc.) but will not use it due to the reputation of the city centre.

Perhaps I missed this somewhere in the document, but it seems to be to be a bit of an elephant in the room that should be addressed (if it has been, it should be more public at least, to give hope of change)

The traffic lights suck... I actually feel like there are less cars on the road than 10 years ago, and actually the motorway improvements have helped... but it's the traffic lights are the worst. Around West Auckland there have been numerous instances of installing traffic lights when a roundabout would be a much better solution. In fact, some roundabouts have been replaced with lights and the

traffic has increased due to that. Driving into the CBD and trying to get down Nelson Street is one of the worst experiences you can imagine. The lights phasing is whack.

I think there's enough money, it's just not spent well. We've had speed bumps and raised/rainbow crossings put in and they do nothing but slow everyone down. We have speed bumps on main roads where noone walks, so there's no argument that it's for pedestrian safety.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

we do not support further increase in rates, considering property valuation and economic recession where people are struggling financially.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

The policies all seem to align with wider plans. However one thing I'd like to add is around the funding cycles at CCOs like Tātaki. I know many people who work at these organisations who end up in endless funding cycles, who end up taking longer to get work done, because they don't know when or where the next round of funding will come from.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support all

Tell us why

It's good to review the plan and focus on strengthening financial to improve services. Also looking at the plan to consider rates payment that have gone extremely high, and homeowners are struggling and impacted on their wellbeing.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

The bed night visitor should pay the levy for short stay accommodations.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

The city rates are too much on us individual house owner. This has been extremely high with the cost of living. This made Auckland City the most expensive city to stay or invested in.

Secondly the water rates have tremendously gone high which is added to unbearable for those who own their homes.

if the Council could consider their city rates charges and have it more affordable to all his clients.

My main concern is around the fairer funding. Some areas are already well established and I would like deprivation to have a much higher grading than the 80% for population. I would prefer a 30% grading for deprivation and 65% grading for population. This will ensure our most deprived

areas receive adequate funding. I choose not to put higher than 30% for deprivation because we need to ensure adequate funding based on population too.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

Don't agree with rate increases to pay for these services, when our current rates should already be paying for them currently. Will the rates go down once these services funding is complete? I believe not, it will keep going up for more services.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Not enough is being done to improve public transport. My entire neighborhood (a new development) is on the edge of the city and does not have a single bus stop within walking distance, and I'll soon be charged for driving in to work. As if I would sit in congestion if there were any practical alternative. Please densify the inner suburbs and build public transport like crazy. I'll

be leaving this city soon because a) the transport is fucked and b) I don't want to be the last person in my friend circle to stay (true story) and c) there's a lack of affordable third places outside of the city center which may as well be in another city for those stranded on the outskirts. The stuff in the 30 year plan looks great - maybe in 30 years I'll come back from overseas, unless of course population growth negates the next 30 years of planned improvements by the end of the decade.

Cost isn't the issue. I'd pay double my rates if it led to these problems being solved. I want this city to be better for the future, even if it means a sacrifice now to correct decades of underinvestment. But I don't have much hope. That's why we're all leaving. It's not the problems, it's the theatre of managed decline and the lack of hope that things could get better.

There is a shortage of affordable housing and there are homeless people everywhere - more every year - even a few parked outside my home right now. Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Tell us why

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Good plans for making the area more accessible and open to new people especially with all the intensification in Whenuapai and Hobsonville.

The NH Stadium and Domain one is tricky - lots of community sport is on the domain sites and what happens to this if the domain is removed?

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Appropriate planning and investment for infrastructure and quality open space in areas impacted by growth and intensification e.g. Whenuapai

Fairly important

Continue to prioritise support to our local community organisations and volunteers to deliver outcomes that provide a sense of belonging, wellbeing and resilience for residents

Fairly important

Continue to prioritise investment in outcomes that ensure our communities have access to high-quality amenities that provide for a range of opportunities including play, pathways and connections, active sports and recreation and connecting with nature

Fairly important

Funding to assist in the development, improvement, and renovation of non-council owned community facilities that serve the Upper Harbour area through a facilities grants process

Fairly important

Improve wayfinding in the Upper Harbour area to help our communities to easily discover and enjoy the assets we have

Fairly important

Contribute funding for the development of a vision and plan for the future North Harbour Stadium and Domain Precinct.

Fairly important

Tell us why (please be clear which priority you are talking about)

To help the local board understand priorities and areas of importance for the community, we want feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Pools and Leisure facilities - opening hours and services ,Local parks strategy and planning,Sports and park activation activities

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Do you think we should contribute funding to the development of a vision and plan for the future of North Harbour Stadium and the Domain Precinct?

Yes

Tell us why

Keep the domain community space open for community sports as it is a great space for community sport. But the main stadium is an eyesore that's not used much...

Other options for this would be great but I'm, sure you have that in the pipelines.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

Worried about the constant rates increases.

Would like to see more reliable transport options for Don Buck Road. If you don't drive it's hard to get to Northwest on a busy morning.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

Auckland needs tourists. It's a shame that increased port fees have affected Cruise ships such as Cunard from berthing in Auckland.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I would love to see restrictions on fireworks. We are subjected to disturbances almost daily and nightly throughout the year. It's like a form of mental torture. I understood that there are supposed to be decibel limits but my house has been shaken by fireworks that sound like incendiary devices. No one will take responsibility even after my husband contacted police and council several times. He died on 30 October last year and I was relieved that he wouldn't go through this stress again. They have a negative affect on mental health and I can't believe the insensitive idiots who let them off in rural areas, often causing death to horses and cattle.

I agree that transport and water does require investing. Transport is a complete joke in Auckland with the addition of many Transit lanes that dont seem to provide much value. More focus is required on strengthening and maintaining current roading infrastructure. If there is a push for public transport then there needs to be wider consideration to extending and making it useable for all i.e. West Auckland to the Airport

As an Aucklander I am proud of the City I live in but, at the present point in time many of us are struggling to manage on our income, be it pension or work income.

All the time prices are escalating making it hard for us to manage.

Let alone considering the dramatic increase in our rates, which do not compare to the actual resale price of our property, so council valuations are somewhat ambiguous. For pensioners, the increase the government is promising will be

absorbed almost before we get it, with prices for everything on the up and up.

Might one suggest a freeze on many of the new projects in the pipeline, even if it is for say 6 months to 12 months, this will give you and us a breathing space to regroup as it were. As mentioned, we are lucky to live in such a clean and organized city, but it could be appropriate to put new projects on pause, until you have accumulated funds without giving us another double whammy.

Having sat on Local council for a number of years, I know how difficult things can be but people out there are hurting, and with all of this Trump business, it is not going to improve overnight.

All the Best. Robert (Bob) Jessopp Massey.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Cost of living is super high, plus 2021 CVs were wrong.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support increase in rates. Why do we've to? Work with Immigration and get people out of Auckland rather than building container-type homes more. Do you realise how much traffic has increased since building new container-type homes(6-8houses in place of 1 house). Each house has atleast 2 cars and it's all adding to the morning traffic in suburbs & motorways. Atleast, strictly,

ask all trucks/trailers to get on roads before 6am or after 11am. This will be a great relief to traffic for working people. Auckland is getting so crowded. I understand it's for NZ economy, but if you consider people's wellbeing, traffic is the major cause of stress here.

Rates already increased last year and we as Rate payers cannot sustain this as we have limited incomes and are driven into debt by an unreasonable council that earn from the rate payers and yet milk them to the max. The council should be wise in spending rates and not try and make their mark on Rate Payers income.

Why do rate payers have to pay for these? The people planning this should pay for it and not rely on rate payers to fund them. We struggle already and funding commercial projects that make money should not come from Rate Payers

The cost of replacing Rubbish Bags and Waste collection is a hidden cost as when we are in control of when we place our bags or bins, thereby also control our spending. When its included in the Rates it become a thumb suck and increase the total of the rates.

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Transport is a major issue in Auckland. West Auckland is in desperate need of better PT but I know the plans are not in the near future and this needs to change rather than threatening us with congestion charges.

Water is a basic essential and we do not want to end up like Wellington.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

A bed tax is common when travelling overseas and most tourists would not consider it unusual. New Zealanders would probably be put off but it is still a small extra charge in an overall holiday cost. Aucklanders should not be landed with the full cost of providing other's entertainment.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Dog registration should be covered by all ratepayers as opposed to just dog owners. All rate payers use the services of animal control. It is not just for the use of dog owners and relating only to dogs. It is logical to incorporate the cost into all ratepayers so you are not relying on honesty to recoup the payments. Spread across all ratepayers means the cost to individuals would be very

small compared to the cost to dog owners. It seems responsible dog owners are having to cover the cost of irresponsible dog, cat and all livestock owners.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Waitākere Ranges

Waitākere Ranges Local Board Priorities

The local board has additional funding in 2025/2026, however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding. The proposed increase in funding ('fairer funding' for local boards) may be taken up by budget pressures outside of the local board's control. Support most

Tell us why

I believe more emphasis should be on the maintenance of the Waitakere Ranges as this is our greatest asset and is a well used recreational area.

I think as we get more dense housing where people have less space to socialize and relax in their homes more emphasis should be on creating and maintaining outdoor spaces and social spaces for the community.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

The Event Partnership Fund to support more community-led events

Fairly important

Arts and culture programmes delivered through our community arts partners

Fairly important

Tailoring programmes to serve diverse communities (youth, older adults, Pacific and ethnic communities)

Less important

Community development, placemaking and activation in our growing neighbourhoods and centres such as Glen Eden, Sunnyvale and Swanson

Very important

Supporting business associations to continue supporting local businesses and ongoing growth, develop and liven-up our town centres, including assisting Glen Eden Business Association and establishing of Titirangi Business Association

Very important

Environmental programmes to help protect and restore the Waitākere Ranges

Very important

Trialling phosphite treatment of kauri infected with kauri dieback on selected local parks

Very important

Improving neighbourhood parks: George Herring Common, Koroī/ Clayburn Reserve, Tautoru/Maywood Park, and Sandys Parade.

Very important

Tell us why (please be clear which priority you are talking about)

I think a lot of small targeted spends on ethnic and Pacific groups does not reach enough people and the funds could be better spent. More should be invested in youth who need to have interests to keep them focused on positive aspects of life and away from crime and drugs.

Question 5: Other feedback**Do you have any other comments on the Annual Plan 2025/2026?**

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

I think the fairer funding for local boards still provides a shortfall for the likes of Waitakere Ranges board which has a huge asset in Auckland to manage on a very small slice of the pie.

I would hope to see with fairer funding the parks and public spaces in West Auckland are as inviting as those you find in the inner suburbs.

You might need to lower the cost of taking rubbish to the refuse station as a lot of dumping is occurring. Seems a false economy having to clean it up. The refuse station charges are prohibitive for a lot of people.

Congestion charges should not be considered particularly for the North Western motorway. There are no upcoming plans to significantly improve PT on this corridor. Earliest plan is

2038. There should not be a need to punish people trying to get to their place of work, Airport or medical appointments because there is no alternative. We do not have a dedicated bus lane the likes of North Shore and soon to be Eastern bus corridor.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

We pay for our out and in water so there should be more than enough in the coffers to fix without charging us the payees of proposed plans.

Public transport is a joke, Its either late cancelled or speeding down the bus only lanes empty. Trains are to far away to use and cannot rely on a bus to get you there for the hour ride into a job and be late 3 out of 5 days.

Local communities only work for specific groups, they can do their own funding, what happened to fair days and garage sales, bake sales and bring the community together instead of working within their own group

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Traffic and Road Safety Improvements

Street Parking Regulations: Heavy vehicles parked on residential streets create congestion and safety issues. We recommend restricting street parking for large trucks and commercial vehicles, particularly in high-density areas.

Traffic Light Installations: The intersection at Glen Road / Woodside Road / Don Buck Road requires urgent attention, with new traffic lights needed to improve road safety and traffic flow.

Stormwater and Flood Prevention Measures

Regular stormwater system maintenance and inspections should be prioritized, especially in residential areas.

The river flowing near housing areas, particularly behind Woodside Road, requires proactive flood risk assessments and management to prevent potential future flooding.

Our priorities for 2025/2026 are listed below.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

(1) Very significant spend on Transport, while needed need to In Tandem seek more central Government funding which is hugely disproportionate to population

(2) Spending nearly a billion dollars on Well-managed local government seems counter intuitive, Am I to understand we need to spend a billion \$ to make things more efficient? Take a look around,

if ACC was a corporate run entity - there is no way most of the inefficiencies patently obvious to all would be tolerated, let alone attract more investment!!!

User pays right? It should be carefully managed so we don't kill the golden goose! Accommodation costs have already increased faster than GDP / Cost of living / Inflation rates. Perhaps an Individual business Tax take synchronised holistic Levi would be more consistent also deflecting attention away from Travellers who may view a bed night visitor levy as a travel plan disincentive.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

Putting waste collection charges up - again...

Removing all User Pays waste management (bin tags) unfairly penalises small or single dweller households. My rate increase is 5 x what I paid for bin tags! Careful recycling and food scrap management incentive is gone - I can fit all my waste, food scraps and recycling into my general waste and still not fill my landfill destined general waste bin - why should I manage 3 bins when I can just put one out. I'm now paying for it anyway!

What is your opinion on our proposed annual plan?

I don't know

Tell us why

It hasn't been discussed in the mainstream or independent media.

Please note that not every rate payer/taxpayer had access to technology.

The only thing that has been promulgated is that ACT wants to get back to basics with essential services and to stop unnecessary waste, time wasting exercises and over spending. I have to be honest about this perception as I don't want to mislead anyone.

Do not support

Tell us why

No problems with these events and no problems with them being held in rate payer facilities. either without the cost of hall hire or electricity/lighting/seating arrangements.

However, these events should be self funded with food and banqueting costs and the rate payer should not be expected to fund nebulous accommodation costs. This includes decorating, flowers, accoutrements, garments etc. Surely friends and family can put them up free of charge. I don't intend to be stingy or mean spirited but perhaps users of council facilities should pay independently in these tough financial times. I have attended independent cultural events and have always brought along the suggested food and beverages and like to be seen to contribute towards the bonhomie and fellowship. When everyone pitches in and helps it's a good feeling. Ratepayer's are doing it tough financially and we need to cut our cloth according to our garment. Put everyone on a level playing field and it reduces complication.

Perhaps have ONE System for ALL and the cost reflected back into rates.

Hmm, depends on what sort of lifestyle block and what activity is being enacted on it.

Worm farms and composting on life style properties might help life stylists minimize waste.

4B. What do you think of our proposals for your local board area in 2025/2026?

I don't know

These proposals have not been widely advertised. Local boards seem to be an ivory tower of bureaucrats who do their own thing, but don't share what's going on. There seems some clandestine cronyism which can make the public cynical about their motives.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Very important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

I think democratic values are important and that the community need to have in put rather than bureaucrats and their club mates taking the lead. Please refer to the book, Henderson, Heart of the West by Vivien Burgess, Gai Bishop, Grant Cole and edited by Paul Moon that describes how the different communities pitched in for the collective good. Henderson westies are still pretty loyal to our community (and life long buddies) and we want Henderson's unique identity preserved. Water quality is important in river and stream outlets and the planting of trees help beautifies the aesthetics/oxygen contribution. Henderson's Great North Rd (up by Manna Christian Bookstore) needs sprucing up. More security cameras need to be installed and definitely in West City Mall which often evokes a creepy atmosphere. Nature is important, but so is the social environment. Clean up both in my view. Otherwise, local stalwarts and their families will leave the area for flasher suburbs and better, safe amenities elsewhere. Sorry, but youth voices don't pay rates and often lack maturity during their salad days while green in judgement. Dreams don't always come free and neither do youthful idealists. Sorry, but I would not trust an entitled 14 year old to make adult decisions on rate payer's behalf. Teenager's need to earn trust and earn their keep. Not have their hands and mouths always open for free stuff.

A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

Can you please consider transitioning bus lanes into HOV lanes across Auckland? The number of bus lanes often empty while Auckland is in a stand still is quite frustrating, there is no current incentive to carpool and the statistics coming out of California and Vancouver show a huge reduction by allowing car poolers to use these lanes, the latest addition is allowing EVs access to these lanes to again get people moving.

Speedway is being unfairly treated and devalued by the Auckland Council. Consolidation to Waikaraka Park, is not a feasible option for the sport and the process followed to come to this decision gives me little confidence that the Council are following what's in the best interests of the

city and its people. Western Springs Speedway is an iconic venue and should not be lost in order to create another stadium issue. We don't need more stadiums.

People will go to Australia for events if the costs continue to rise. Be more efficient with our existing spend and prioritise better opportunities. Stop spending on things that are unnecessary - like moving speedway to Waikaraka Park.

Maungakiekie-Tāmaki Local Board Priorities

The local board has additional funding in 2025/2026, but there are unavoidable increases in the cost of existing services which will need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Tell us why

Waikaraka Park is not a sufficient speedway venue. It is nowhere near comparable to Western Springs Speedway - and in order to get it anywhere near similar to ensure the sports survival - it will require significant investment. Moving Speedway to Waikaraka Park is not a decision that is the best interest of the city. Leave Speedway at Western Springs.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Continuing to support community groups and community-led activities through our local community grants

Fairly important

Continuing to build the capacity and capability of local community and sporting groups through our strategic partnerships programme

Fairly important

Activate our local open spaces and facilities, through council-led activities and assessing what amenities our spaces need, such as toilets and power outlets

Empowering community groups and organisations to deliver community events through sustainable funding models

Consider funding activities that increase our community's sense of safety, working with community groups and business associations already delivering safety initiatives

Continuing to support initiatives that deliver outcomes with and for youth, such as our Youth Empowerment programme, and Tiakina te taiao and Ope programmes (biodiversity and climate action education programme in schools)

Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways, particularly the Tāmaki Estuary and Manukau Harbour

Consider a review of Te Oro Music and Arts Centre, to ensure it remains welcoming and responsive to the community's changing needs.

Tell us why (please be clear which priority you are talking about)

The process for Speedways relocation was not adequate. Speedway was treated unfairly and not given an adequate opportunity to remain at Western Springs. The Council should be supporting sports like Speedway - as moving to Waikaraka Park will deteriorate its future.

Keep Speedway at Western Springs. We don't need another rectangle field stadium. We have too many already - spend money on those to update them. Don't take away something that will never be able to be replaced - for the short term interest of some overseas investors. Speedway is a staple in Auckland's history and should be cherished, valued and protected at Western Springs. At the very least, find a way to keep Speedway at Western Springs.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Prioritising and investigating flood resilience actions for our parks such as Western Park and Grey Lynn Park

Delivering footpath improvements for Auckland Domain

Starting construction for Leys Institute

Prioritising sport and recreation opportunities for groups that have less

Investigating transition of Grey Lynn Paddling Pool into a seasonal splashpad

I support everything proposed, however there is still a lot missing. There is a focus on central Auckland issues, and as local boards are underfunded, this results in important issues outside of central being unrecognised or underprioritised. For instance, despite upgrades to numerous streets in the city centre, a quick check of streetview shows that there has been absolutely no

change to Great North Road in Henderson since 2008, apart from the ill fated Streets For People project, which spectacularly failed due to lack of proper local engagement. The extraction of West Auckland rates money to pay for pet projects in central is seriously starting to get on peoples nerves.

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

In general I support the increases to rates and fees in line with inflation and necessary programmes, provided spending is independently scrutinised. I have personally seen what

appears to be clipping the ticket by consultants working for WSL, and would suggest the Mayor also apply more scrutiny to WSL's operations, not just AT, as everyone has an opinion of traffic, but nobody notices underground pipes until they fail. Lets apply more and deeper scrutiny to WSL, least we end up with a Wellington Water. WSL have made an absolute mess of the Capacity constraints issue, which they should have been well on top of since inception or at least when SHA's were introduced, but are generally unaware of the RMA or how development actually occurs.

On 3A - it is a disappointment that bin tags were removed from West, as this encouraged less waste to landfill and use of the food scraps and recycling bins. Losing paying for rubbish bags in Rodney & Franklin would appear to be similar.

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support any

Tell us why

I am talking about my area,

- 1)useless roads (did complaints in past for loose gravel, potholes and no actions taken)
- 2)aggressive drivers on road,

3) burnout happens almost every night (2-4am),

train crossing service so bad. I am getting stuck due to it every time both sides. Need to fix train timings or bridge or flyover to cross train.

3) So far from motorway and every day more and more f***ing new speed breaker built on road,

4) why bus lane 24/7? In Westgate

Which built more congestion in busy hours. And funny not every bus driver is using bus lane.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Why increase?

- 1) small families like us are not using rubbish services every week. I normally put rubbish bin 5-6 weeks and recycle bin every 4 weeks.
- 2) water care already increased prices which is too much already
- 3) parking very bad on side roads

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support any

Tell us why

Leave western springs speedway where it is

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Appropriate planning and investment for infrastructure and quality open space in areas impacted by growth and intensification e.g. Whenuapai

Very important

Continue to prioritise support to our local community organisations and volunteers to deliver outcomes that provide a sense of belonging, wellbeing and resilience for residents

Fairly important

Continue to prioritise investment in outcomes that ensure our communities have access to high-quality amenities that provide for a range of opportunities including play, pathways and connections, active sports and recreation and connecting with nature

Fairly important

Funding to assist in the development, improvement, and renovation of non-council owned community facilities that serve the Upper Harbour area through a facilities grants process

Fairly important

Improve wayfinding in the Upper Harbour area to help our communities to easily discover and enjoy the assets we have

Fairly important

Contribute funding for the development of a vision and plan for the future North Harbour Stadium and Domain Precinct.

Less important

Tell us why (please be clear which priority you are talking about)

To help the local board understand priorities and areas of importance for the community, we want feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Community development and support activities, Pools and Leisure facilities - opening hours and services, Local water quality improvement activities

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Restore funding to service levels in some areas that were cut in recent years, e.g additional library hours, programmes and community grants

Fairly important

Increased service levels in our parks and town centres including progression of Te Hono project

Less important

Plan for the future Whau aquatic and recreation facility and facilitate public access to school pools in the interim

Very important

Work with local Business Improvement Districts (BIDs) to find new ways of delivering vibrant and welcoming town centres through art activation and beautification projects.

Less important

Continue to support volunteering, community and business participation, through environmental and ecological initiatives around the Manukau Harbour foreshore, the Whau River and its tributaries, and our urban ngahere

Fairly important

Increase community participation and capability in community hubs, houses and with established community partners, and progress the development of a new community hub in Fruitvale

Fairly important

Foster climate/emergency preparedness and resilience in our community

Fairly important

Investigate a future space for youth and engage a youth coordinator to support and promote for youth by youth activations

Fairly important

Provide appropriate options for healthy, active lifestyles through recreation in parks and open spaces with particular focus on our ethnically diverse communities, women, and girls.

Less important

I don't know

Tell us why

I support the idea of a levy for visitors, but would hate to see accommodation costs increase for people visiting outside of 'tourism' reasons (for example if a loved one was in Starship and whānau needed to stay close by).

I want to see heaps more cultural and community events funded but I don't really understand why Aucklanders subsidise something like the marathon where entry fees make the event prohibitive for many rate payers (renters included - they're paying their landlords' rates). Although, if it's a huge money maker for Tamaki Makaurau then that's great.

Auckland housing is unaffordable for many and our central government seems to be actively making it harder for people to lay roots in their communities (e.g. reintroducing no cause evictions). Community events and programmes are more important than ever to give people belonging, purpose and community. Please continue to value these things. We've seen poor kids be told they're worth frozen or burnt slop for lunch by David Seymour, please show them they matter too, and deserve to be part of great communities. Government is not a for-profit business and it should work for the people it serves (not for lobbyists).

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

I support to improvement to water infrastructure as it's a necessity to all kiwi's.

I don't support to transportation part of plan. I'm happy with current arrangement and the available means to transport to public, however, the reliability I could be an issue, as at times we have train service terminated due to faults or technical issues.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

I think the rate payers are squeezed enough already. Especially at this hard times were we barely out of recession. The recovery has been very soft, hence asking for even bitter 0.5% would sound like a big ask. So no to this. Furthermore, the council could do fund raising events on their own budget to generate more revenue to cater for such events would be more appropriate.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I strongly suggest to freeze all proposed hike on rates, fees and charges as ordinary citizens and general public are really struggling to make a living. The number of people choosing to leave/migrate is an eye opener, there is a valid reason why people are choosing to ditch NZ for better lifestyle, BECAUSE THE COST OF LIVING IS GETTING UNBEARABLE AND THAT INCLUDES RATES, FEES & CHARGES THE PEOPLE IS PAYING FOR THE SERVICES. ITS TIME TO STOP ALL THESE HIKES AND SERIOUSLY THINK ABOUT PEOPLES LIVELIHOOD. THERES NEVER BEEN A YEAR WERE THE PRICE FOR GOODS AND SERVICES WAS ON HOLD. PLEASE THINK OF PLAN B.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Henderson-Massey

Henderson-Massey Local Board Priorities

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Fairly important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Fairly important

Expanding youth voice initiatives to academic students in the local board area

Fairly important

Work on plans to upgrade Catherine Plaza

Less important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

I would like to see the road humps brought down in number. If that was done to reduce road accidents or crimes, then , I guess it didn't improve drastically, however, the contractors were the winners in this case. Again I see this as a waste of taxpayers hard earned money.

Each area is important but the water infrastructure is the most important issue. With the unitary plan and all the infill housing the water infrastructure is not fit for purpose and will only worsen if left to chance.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Henderson-Massey, Waitākere Ranges

Henderson-Massey Local Board Priorities

The following are the key projects and activities we plan to deliver next year, and any key changes to services.

4B. What do you think of our proposals for your local board area in 2025/2026?

Support most

Tell us why

I support most but Henderson Town centre needs to be rejuvenated, remove the silly speed humps at the traffic lights, sort out homelessness.

Put more lights to make streets brighter and encourage Westcity Mall to be upgraded externally.

Also deal with graffiti. Help local churches with grants.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Very important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Fairly important

Expanding youth voice initiatives to academic students in the local board area

Fairly important

Work on plans to upgrade Catherine Plaza

Very important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

Clean up the local streams including Lake Panorama.

Get Kiwirail / AT to clean up the rail corridor frequently- graffiti, rubbish etc Mar it tidy and more presentable.

Also upgrade the rail stations and get trains to run on time and more frequently.

When is the busway from the city to Northwest starting?

Waitākere Ranges Local Board Priorities

The local board has additional funding in 2025/2026, however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding. The proposed increase in funding ('fairer funding' for local boards) may be taken up by budget pressures outside of the local board's control. Support most

Fairly important

Tailoring programmes to serve diverse communities (youth, older adults, Pacific and ethnic communities)

Very important

Community development, placemaking and activation in our growing neighbourhoods and centres such as Glen Eden, Sunnyvale and Swanson

Very important

Supporting business associations to continue supporting local businesses and ongoing growth, develop and liven-up our town centres, including assisting Glen Eden Business Association and establishing of Titirangi Business Association

Very important

Environmental programmes to help protect and restore the Waitākere Ranges

Very important

Trialling phosphite treatment of kauri infected with kauri dieback on selected local parks

Very important

Improving neighbourhood parks: George Herring Common, Koroī/ Clayburn Reserve, Tautoru/Maywood Park, and Sandys Parade.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

What is your opinion on our proposed annual plan?

Do not support any

Tell us why

Our rates are too expensive and need to go down. council has not done enough to cut costs. As our property market values have dropped significantly I expect rates for 2025 to 2026 to reflect the value reductions.

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

We need to attract major events in the first place. This may end up being a barrier. Auckland is already a fairly expensive city to travel to. Especially internationally.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Allow those on resident societies that pay for private rubbish collection to discount waste disposal from their rates.

Tell us why

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Very important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Fairly important

Expanding youth voice initiatives to academic students in the local board area

Very important

Work on plans to upgrade Catherine Plaza

Very important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

Looking at some parts of Henderson and Te Atatū it is very evident how rich this area was in flora and fauna not too long ago. It's important to rehabilitate the land and waterways whilst connecting the people to it, whether it be through culture, heritage, arts or events.

Question 5: Other feedback**Do you have any other comments on the Annual Plan 2025/2026?**

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

Many green spaces are being overmowed. They turn into arid microdeserts in the hotter months which then in turn become squelchy and muddy in cooler months. It is better to exercise low mow initiatives so that established grass roots persist through out the year and the green spaces can be enjoyed all year round. Not to mention it's great for fauna such as insects and insects turn native birds all while being more cost effective!

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

I think increasing rates is fair, however, what I do not agree with is the CV that council places on some properties. I have just purchased a new build townhouse for \$590,000, however, all of the 8 townhouses have a CV of \$840,000 which is ridiculous. Some have more bathrooms, some are

larger floor area or land area etc. I am happy to pay more rates if the CV is actually realistic. At the moment I feel as if I'm already being ripped off having to pay rates based on a CV of \$840,000

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

Major events and destination marketing are crucial to the vibrancy and economic wellbeing of our city. Already NZ misses out on a lot of the action and if we want to keep developing as a world class city this funding is needed. There are things Tāmaki has going for it but we will slip behind if we don't invest in our culture and economy.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Introducing blanket fees for rubbish collection vs user pays is shortsighted. Our council should be more environmentally minded.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

Tell us why

Mismanagement at best. Firstly, focus on everyday common man needs, not specific groups. Increasing rates pinches our pockets, prioritise keeping that over funding communities. Secondly, transport upgrades are utterly stupid. The road where I live has been dug and redone 4 times in 5

years. This is all taxpayer money. Cut down on all costs, focus on priority fixes only and aim to keep cost down. Don't take on more debt, NZ govt cannot service higher debt.

Supply and demand. NZ is already crazy expensive for visitors, a bed levy on short stays will see less visitors, domestically as well. Stop some events if you cannot afford, but for gods sake, stop increasing costs

I am ok to not visit Writer's festival, but not okay to pay more.

Mayor brown needs to listen to those that matter, the true aucklanders. No one wants springs speedway moved or shut down. It needs more events and to be allowed to host concerts as it use to do. From growing up I have been going for 25years and it's the best event nz has to offer aswell as the concerts held there. This is an iconic venue that has to stay where it is not move just because he wants the \$. If you actually cared about aucklanders you would have been to the race night and seen the crowd which is just another normal night's racing for springs. Stops restricting the amount of people that can go and watch and start backing the sport.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Refuse targeted rate makes less sense than pay-as-you-throw for encouraging waste minimisation

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Restore funding to service levels in some areas that were cut in recent years, e.g additional library hours, programmes and community grants

Very important

Increased service levels in our parks and town centres including progression of Te Hono project

Fairly important

Plan for the future Whau aquatic and recreation facility and facilitate public access to school pools in the interim

Very important

Work with local Business Improvement Districts (BIDs) to find new ways of delivering vibrant and welcoming town centres through art activation and beautification projects.

Fairly important

Continue to support volunteering, community and business participation, through environmental and ecological initiatives around the Manukau Harbour foreshore, the Whau River and its tributaries, and our urban ngahere

Very important

Increase community participation and capability in community hubs, houses and with established community partners, and progress the development of a new community hub in Fruitvale

Fairly important

Foster climate/emergency preparedness and resilience in our community

Very important

Investigate a future space for youth and engage a youth coordinator to support and promote for youth by youth activations

Very important

Provide appropriate options for healthy, active lifestyles through recreation in parks and open spaces with particular focus on our ethnically diverse communities, women, and girls.

Public transport and water are our biggest issues by far. I'm not an expert on either, but reading available council materials indicates at least a reasonable level of investment in trains, buses and upgrading water infrastructure. And the fairer funding measure seems, well, fair.

Reducing roads, especially, is an important measure for city livability. The paradoxes of city planning are that many no-nonsense solutions make things worse, while making driving more difficult is usually of significant benefit to us. Water is also a top priority. Community events, well, that's nice.

I do not care about community events; I want assets to be looked after, and services and proper planning related to infrastructure to insure to is maintained and repaired. Initiatives such as raised pedestrians need to be properly consulted with the community. For example, why do you need to raised pedestrians at controlled crossings with lights on a major arterial road (Great North Road) when other crossing along this road are not raised, this makes no sense for example the crossing outside Kelston high school on great north road and the crossing down from the Glendene shops, no raised crossing at the Glendene shops bot 750m down the road at a traffic light controlled crossing it has been raised creating noise and vibration, where is the planning and consultation for this.

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

Yes, stop putting the rates up in some instances higher the inflation rate, my salary is not keeping pace, and I will eventually have no choice but to leave my home and birthplace that I have lived at for more than 50 years, Auckland New Zealand is becoming too expensive and the value that I get from my rates for services that I do not need and have not been consulted on is poor, my rates should go to services that I need, if I don't need these then I should not need to pay for them, for example the users pays rubbish system was much more cost effective for me

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support most

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

It is not Auckland Council's responsibility to provide 'the love to have's - get back to your core basics because you aren't even doing that right

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

More rate rises - is this part of Agenda 2030 where we will all be rated off our properties and put into 15 minute cities to comply? Of course it is. Cost of living is horrific, wages have not increased. Stop borrowing money against our properties and sending money overseas. Get on top of Council corruption i.e. the Western Springs debacle - disgusting behaviour. You have not listened to your employers - us the ratepayers. Remember who pays your wages. I have absolutely no respect for this organisation.

The 5.8 per cent rate increase adds to financial pressure for homeowners, while no real value, even in the long term, could be created, especially in transportation. There is no meaningful infrastructure in place to create any significant difference in transportation for Auckland.

Do not support

I work in hotels and do not agree to the Visitor Levy being created and controlled by the Auckland Council. I support the Visitor Levy but only if a unified New Zealand approach and if it is controlled by Central Government – the Hotel Council Aotearoa view is aligned to my view on this matter. I am not against a national accommodation levy, but we don't agree with local Auckland-only taxes or different rates up and down the country. I consider Auckland Council has more than enough money to support events, it's just choosing not to for political purposes. I want Auckland Council to work in good faith with the hotel industry (principally TIA, HCA and HNZ) on the long-term solution, rather than all the media/political stuff to try and split industry

Your feedback**Question 1: Our overall plan**

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support all

Tell us why

we need more investment in stormwater flooding issues and water quality improvements. And also public transport.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival,

from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Tell us why

Visitors and tourists need to pay for their share.

Question 3: Changes to other rates, fees and charges

I think that people will be most likely to not use the accommodation and stay out of the city to get a cheaper rate. Everything is expensive as it is and adding onto the levy of a hotel that could be 400-600 a night will be massive

Tell us why

While some of the overall ideas are potentially good, the increase of the rates to fund them are far too high. There is a massive struggle with cost of living, crushing residents with such a sharp increase (due to previous councils complete lack of planning), does not meet the goal of funding local communities.

Question 2: Destination management and major events

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Appropriate planning and investment for infrastructure and quality open space in areas impacted by growth and intensification e.g. Whenuapai

Very important

Continue to prioritise support to our local community organisations and volunteers to deliver outcomes that provide a sense of belonging, wellbeing and resilience for residents

Fairly important

Continue to prioritise investment in outcomes that ensure our communities have access to high-quality amenities that provide for a range of opportunities including play, pathways and connections, active sports and recreation and connecting with nature

Very important

Funding to assist in the development, improvement, and renovation of non-council owned community facilities that serve the Upper Harbour area through a facilities grants process

Less important

Improve wayfinding in the Upper Harbour area to help our communities to easily discover and enjoy the assets we have

Less important

Contribute funding for the development of a vision and plan for the future North Harbour Stadium and Domain Precinct.

Less important

Tell us why (please be clear which priority you are talking about)

My primary concern is traffic and the current road infrastructure to support it. A lot of houses are being knocked down in Massey and two residences being replaced with up to 20 new residences - this will result in a very dramatic increase in car load. Often these places have very limited parking due to lack of building regulations and results in street parking as a necessity which blocks and slows traffic.

This combined with how hard it is to catch public transport if you are not going into the CBD is going to cause massive issues in the very near future.

To help the local board understand priorities and areas of importance for the community, we want feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Community climate action and sustainability activities,Community development and support activities,Local parks strategy and planning

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Do you think we should contribute funding to the development of a vision and plan for the future of North Harbour Stadium and the Domain Precinct?

No

Tell us why

There are organisations that could fulfill this if given funding and they are more connected to the community

I am glad to see mention of environmental projects - this is something I feel should be strongly invested in, West Auckland felt the floods and we have lots of streams/rivers that continue to be polluted by construction (and the public of course) which feed important ecosystems.

Community based things are also very important, more than ever it is important to be building 'villages' or connections with the people around us. One thing I think could help with this (I did not the community centre hub in Avondale under the major projects section) is having more community spaces (which provide shelter from the elements) where people can meet and spend time without having to spend money. Libraries are of course a great example of this, but there is still an expectation of behaviour (remaining fairly quiet) which means youth are not so drawn to it. Perhaps more youth (but also genera community) based activities could be run (with appropriate advertising/outreach) but also more structures in parks, basic ones - but places where people could sit and meet. A roof and seating is all that is necessary

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Waitākere Ranges Local Board Priorities

The local board has additional funding in 2025/2026, however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding. The proposed increase in funding ('fairer funding' for local boards) may be taken up by budget pressures outside of the local board's control. Support all

Again, much the same as response to 4B - I read all those pages together.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

The Event Partnership Fund to support more community-led events

Very important

Arts and culture programmes delivered through our community arts partners

Very important

Tailoring programmes to serve diverse communities (youth, older adults, Pacific and ethnic communities)

Very important

Community development, placemaking and activation in our growing neighbourhoods and centres such as Glen Eden, Sunnyvale and Swanson

Very important

Supporting business associations to continue supporting local businesses and ongoing growth, develop and liven-up our town centres, including assisting Glen Eden Business Association and establishing of Titirangi Business Association

Fairly important

Environmental programmes to help protect and restore the Waitākere Ranges

Very important

Trialling phosphite treatment of kauri infected with kauri dieback on selected local parks

Very important

Improving neighbourhood parks: George Herring Common, Koroī/ Clayburn Reserve, Tautoru/Maywood Park, and Sandys Parade.

Very important

Tell us why (please be clear which priority you are talking about)

The arts are critical to individual and community well being, serving as a way to process and communicate the world around us. I believe it can also be a good, healthy alternative to an increasingly technology 24-7 connected workplace/school environment/life.

Art is not a skill it is a human habit, I would very much like to see more arts programmes

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support all

Tell us why

All relevant infrastructure is important to our community.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I see this levy as a means of helping to manage and control the increase of tourists and traffic around Auckland during these events, making it a worthwhile levy to introduce.

Question 3: Changes to other rates, fees and charges

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Do not support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Shifting from the pay-by-tag to the targetted rate doesn't consider the number of occupants in a household and the amount of waste created in the household. By making it one standardised rate based on home value, it is unfairly charging more to the single or lower occupancy households who don't create as much waste and charging less to the households who do.

I think the focus needs to be on bringing the community together to support each other and our environment, our space, and our land. These priorities focus on the people and the culture of our local board, which I think is of high value. I would be interested in finding out more about the upgrade of Catherine Plaza - what will be done, how will that change the traffic/environment of Central Henderson, what will the space be able to do with the upgrade, etc. I would be more interested in an upgrade/refresh to the Boundary carpark where Night Markets are hosted every

Thursday night given the traffic and numbers that attracts, not to mention the proximity to intersections, roundabouts, and crossings which clogs the roads in the area.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Local Board fairer funding approach needs rethinking

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

I am okay with the rest of the Annual Plan 2025/2026. However, I have two issues that I should provide commentary on.

First, there is far too much emphasis on savings. There appears to be a savings-raising crusade that is accumulating to about \$175 million by the end of the next financial year. While this is happening, no single program addresses the problem of the low participation of the Pacific and Maori people in elections. The problem of low voter turnout by Maori and Pasifika is not a healthy democracy. The Council already knows about this problem, but it is irrelevant to know about it and not budget a program to address it. Only when we provide a budget for such a program can we hold the Council accountable.

The Auckland Future Fund's intention to distribute 5.24% to the council and the remaining proceeds from a performance of 7.24% to be reinvested to grow the Fund is not fully insulating the Fund from politically motivated decisions. I strongly suggest that by the end of the Fund's Financial Year, the Fund must statutorily require that its real value be maintained first before any consideration of distributing the proceeds. [That will guarantee the Fund to grow]. I agree that the target of 7.24% return is achievable based on a 60-year history of a balanced investment fund, i.e. (the capital of the Fund is sufficiently spread among different investment instruments, thus mitigating risk). In line with the Fund's intention to distribute 5.24%, I would suggest that the Council be statutorily required to reinvest up to 25% of the proceeds from the Fund's performance into the Fund's principal capital. This latter capital injection is discretionary but its ultimate aim is to accelerate growth in the Fund.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I don't know

\$7m short fall currently.. levy to bring in \$27m. where is the the additional \$20m going to? more events or could the levy fee be reduce?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Most of it seems cool, I'm just underwhelmed by the lack of vision for public transport options. The mayor has talked about getting above ground light rail like he saw in France - and considering we already paid a significant deposit on getting light rail with the regional fuel tax which was then infuriatingly scrapped - I'd like to see this option pushed more strongly again. We need more public

transport options that just better busses and the CBD rail loop which will (theoretically) open in 2026. And I think we need light rail in an easy way (above ground not tunnelled) because we need to really have workable options to get Aucklanders out of cars. I'm also glad that AT is coming under greater council control because it's been a shambles with all those last minute random announcements that seriously disrupt lives (overnight parking for CBD flats and apartments, the Krd closing of the parking) but I'd like to know what the changes are for AT and what they're planning for 2026 and beyond now they're under council control

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Support most

Tell us why

I do not support the Bed Levy because it just adds more admin, compliance and becomes extremely challenging to manage. Additionally in the AirBnb and Book a bach kind of setup, it starts to create avenues where loopholes start to be exploited and Kiwis (traveling from outside Auckland) end up paying more for this compared to overseas visitors. It also creates

inconsistencies between Auckland and the rest of the country. Further the events mentioned in the plan are very niche and expensive to organize with the ROI being a challenge. Something like including this part of event tickets is probably a better way of doing this and easy to manage.

On the local board funding, I look at my local board and their objectives (Henderson Massey) are vague and potential pots to sink a whole lot of money to no avail or progress or growth for the community. Aside of the Catherine Plaza initiative which I support, the rest are just wishful thinking with no clear rationale or support to spend \$35m

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

The food scrap services are such a nightmare. Whoever thought of the idea did a Novopay in this space (i.e. not consulting or getting any input from people who have to put the scrap and bins out). I have seen food scrap bins vanish from roads incrementally because people can't be bothered putting them out only to see those bins fly away and make it even more difficult to collect. Aside of that I do support rest of the proposals. You might want to just get rid of the food scrap service.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Henderson-Massey

Henderson-Massey Local Board Priorities

The following are the key projects and activities we plan to deliver next year, and any key changes to services.

4B. What do you think of our proposals for your local board area in 2025/2026?

Do not support most

Tell us why

Most initiatives are vague, abstract with no clear rationale for how they will benefit the community, increase the liveability of the area and help local businesses. Apart from the events one and the Catherine Plaza one, rest all seem ideology driven and it seems pointless to pour \$35m into these unclear, abstract and above all ill formed random ideas.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Fairly important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Less important

Expanding youth voice initiatives to academic students in the local board area

Less important

Work on plans to upgrade Catherine Plaza

Fairly important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Fairly important

Tell us why (please be clear which priority you are talking about)

Number 2 and 3 - These seem more ideology driven initiatives with no clear outcomes for a diverse community that resides in this area.

The city needs investment in its roads, public transport, and the facilities it offers. However as a resident of Te Atatu Peninsula I don't feel that a lot of this has any benefit to us. We've seen a reduction in our public transport offering in the last 12 months and we're about to lose another service in the 132 which is widely used by residents. This is all at a time while bus lanes have been

introduced at rate payers expense. The push is to get people off of roads but services are being reduced forcing people back in to cars as there is no other option as although we are coastal community we're also unable to have ferry service to the city.

As an example Beach Road has been swept multiple times in the last 12 months as the road is sealed with loose stone chips on top. To do this they put out an excess of cones the day before and then leave the day after which is an inconvenience to residents.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. This is another cost to overseas visitors who have already been slapped with an increase in visa and other visitor charges. This feels like another barrier to getting international visitors back

Tailoring programmes to serve diverse communities (youth, older adults, Pacific and ethnic communities)

Less important

Community development, placemaking and activation in our growing neighbourhoods and centres such as Glen Eden, Sunnyvale and Swanson

Less important

Supporting business associations to continue supporting local businesses and ongoing growth, develop and liven-up our town centres, including assisting Glen Eden Business Association and establishing of Titirangi Business Association

Very important

Environmental programmes to help protect and restore the Waitākere Ranges

Very important

Trialling phosphite treatment of kauri infected with kauri dieback on selected local parks

Fairly important

Improving neighbourhood parks: George Herring Common, Koroī/ Clayburn Reserve, Tautoru/Maywood Park, and Sandys Parade.

Less important

Tell us why (please be clear which priority you are talking about)

There has been intensive development on Te Atatu Peninsula which has seen the population grow but the services and facilities stay the same. The shopping precinct feels dated and could do with a refresh. There's a wealth of open spaces but very little are used for council supported community events unlike in other areas.

Water quality is vital to protect the special flora and fauna we have. Places like Orangihina are of ecological significance. More funding is needed to help monitor, protect and restore our waterways by the River Care group who are inspiring with their mahi. Over intensification of the area is having a huge negative effect on our local te taiao. It would also be wonderful for our community to have waterways which were safe to swim in.

However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Support

Tell us why

Yes, I support the introduction of a bed night visitor levy. Shifting the cost burden from general ratepayers to visitors and the hospitality sector is a fair, user-pays approach that aligns with practices seen in many world-class cities. The levy—if set at 2.5–3%—has the potential to raise significant revenue (around \$27 million annually) to not only bridge the funding shortfall for major events but also to enhance Auckland's destination management and marketing. Although successful implementation hinges on securing central government legislative support and ensuring a smooth transition, the overall concept is economically sound and supports a vibrant, dynamic city.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

This method could encourage waste reduction and improve service cost transparency. For success, it will be important that the implementation is communicated clearly to affected residents so that they understand the change and its benefits.

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Waitākere Ranges

Waitākere Ranges Local Board Priorities

The local board has additional funding in 2025/2026, however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding. The proposed increase in funding ('fairer funding' for local boards) may be taken up by budget pressures outside of the local board's control. Support most

Tell us why

I appreciate that the proposals for Waitākere Ranges Local Board include additional funding intended to support and enhance local services. The idea of 'fairer funding' recognises that local priorities deserve a more balanced share of resources. However, I'm concerned that unavoidable increases in the cost of existing services—such as community maintenance, waste management, and safety initiatives—might absorb much of this extra funding, leaving little for new investments. It's essential that the additional funds are accompanied by robust cost-control measures and efficiency improvements, so that budget pressures outside the local board's control don't erode the benefits intended for our area.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

The Event Partnership Fund to support more community-led events

Very important

Arts and culture programmes delivered through our community arts partners

Very important

Tailoring programmes to serve diverse communities (youth, older adults, Pacific and ethnic communities)

Very important

Community development, placemaking and activation in our growing neighbourhoods and centres such as Glen Eden, Sunnyvale and Swanson

Very important

Supporting business associations to continue supporting local businesses and ongoing growth, develop and liven-up our town centres, including assisting Glen Eden Business Association and establishing of Titirangi Business Association

Fairly important

Environmental programmes to help protect and restore the Waitākere Ranges

Very important

Trialling phosphite treatment of kauri infected with kauri dieback on selected local parks

Fairly important

Improving neighbourhood parks: George Herring Common, Koroī/ Clayburn Reserve, Tautoru/Maywood Park, and Sandys Parade.

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

Overall, the Annual Plan 2025/2026 shows a clear commitment to fiscal discipline, targeted investments, and structural reforms aimed at delivering better outcomes for Aucklanders. However, I'd stress the importance of robust implementation measures and transparent reporting, particularly regarding the integration of council functions and shared services. It's vital that any additional funds—whether for local boards or initiatives like the Tūpuna Maunga Authority Operational Plan—actually translate into tangible improvements, rather than simply offsetting rising operational costs. Also, a well-communicated, data-driven review process after the initial implementation phase would help maintain public confidence and adjust strategies as needed.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. I think the focus on equipping local board members with a bigger funding budget to support their communities is a good move to addressing the equity gap. The distribution of these should be analysed ie historically Pacific communities (minority groups) have not tapped into funding support due to lack of knowledge and connections. Finding equitable means to fund smaller groups over

organisations who have been granted funding could reduce this gap. It does require more engagement with communities & expanding the way local board review submissions some communities ie video submissions over written submissions providing options so people aren't restricted as articulating things on paper isn't always an equitable approach for communities especially those with language barriers and or are creatives.

How supportive with the current coalition government be of this approach, putting more pressure on businesses which in turns puts more pressure on the consumers. Should the government not support this, what is the plan B? Will this impact the funding to communities through local board or reduction in staff? Neither one of these options are good. Would be keen to understand where this fund will come from if the levy does not go ahead.

Auckland residents are constantly have our rates put up, yet the money this is spent on is wasted and not spent where it is needed. There is no accountability for contractors to tender accurately as they know Council has a big purse. So when there is a blow out, or when the job isnt done to a high enough standard our rates are used again, with no accountability yet again.

To maintain present infrastructure

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Restore funding to service levels in some areas that were cut in recent years, e.g additional library hours, programmes and community grants

Less important

Increased service levels in our parks and town centres including progression of Te Hono project

Fairly important

Plan for the future Whau aquatic and recreation facility and facilitate public access to school pools in the interim

Fairly important

Work with local Business Improvement Districts (BIDs) to find new ways of delivering vibrant and welcoming town centres through art activation and beautification projects.

Very important

Continue to support volunteering, community and business participation, through environmental and ecological initiatives around the Manukau Harbour foreshore, the Whau River and its tributaries, and our urban ngahere

Fairly important

Increase community participation and capability in community hubs, houses and with established community partners, and progress the development of a new community hub in Fruitvale

Fairly important

Foster climate/emergency preparedness and resilience in our community

Fairly important

Investigate a future space for youth and engage a youth coordinator to support and promote for youth by youth activations

Very important

Provide appropriate options for healthy, active lifestyles through recreation in parks and open spaces with particular focus on our ethnically diverse communities, women, and girls.

Fairly important

Tell us why (please be clear which priority you are talking about)

Increase community participation that will hopefully instil a sense of pride in their environment.
Youth and school participation vital so this begins with the youth

Question 5: Other feedback

Do you have any other comments on the Annual Plan 2025/2026?

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

While none of us like increase in rates are aware funding must be raised if we want a better future long term. However think in the current economic conditions the proposed rates on business properties is far too high as these increased costs along with spiralling insurance increases will make rents on business premises far too high

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Could be improved but at the moment it is ok...

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Other

Tell us why

Not really sure about Levy for Visitors. We have Local and International Visitors to Auckland.

I run B&B from home and also receive International Students. I am not really sure with this Levy.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

Support

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

I fully support the Services we are receiving at the moment and if there will be changes in the Future then as Home Owners as long as we are advised prior to any changes

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Henderson-Massey

Henderson-Massey Local Board Priorities

The following are the key projects and activities we plan to deliver next year, and any key changes to services.

4B. What do you think of our proposals for your local board area in 2025/2026?

Support most**Tell us why**

Henderson-Massey Local Board. I do not think our Local Board are very aware of what the Community are doing in our Area. As a Pasifika Person majority of our people live in the Henderson Massey Area where we do a lot of programmes for our young people but when they are approached for support we never hear back from them nor would they are willing to support with our Activities as we use Parks and Community Facilities. More Involvement and Awareness by the Local Board Members would make a lot of difference.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Very important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Very important

Expanding youth voice initiatives to academic students in the local board area

Very important

Work on plans to upgrade Catherine Plaza

Fairly important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

I have identified areas I feel it is important to re visit and may be make some drastic changes on.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund

cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract

visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract

visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

It also helps that some families from abroad come and stay in cheap hotels.

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Your consolidation of Speedway to Waikaraka Park is one of the most underhanded moves ever witnessed by the people of Auckland. A decision made by Councillors who excluded the voices of the very people who elected them. To say it is moving to an Industrial area is laughable when you witness the amount of residential construction currently going on in Onehunga. Let alone the fact

that the 2 different Speedway styles will have entirely different fan bases, and track requirements. I hope the back-handed gifts you have received from Auckland FC are enough to ease your conscience. Not that any of the councillors who voted to move Speedway from Western Springs would have had any difficulty voting against something they had never been to. Let us see if when Auckland FC is given the nod for Western Springs, they are limited to only 10 events during their season! I doubt it, the council has been hobbling the speedway for decades, then says it is a financial burden on ratepayers, never allowing them the means to turn a profit with limited meetings. I do hope the decision by the 11 of you, comes back to haunt you at the next election. Goodbye perks.

Henderson-Massey Local Board Priorities

4B. What do you think of our proposals for your local board area in 2025/2026?

Do not support any

Tell us why

I see one of the largest spends across all the local boards, but very few bullet points of action.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Less important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Less important

Expanding youth voice initiatives to academic students in the local board area

Fairly important

Work on plans to upgrade Catherine Plaza

Less important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Less important

Tell us why (please be clear which priority you are talking about)

I am curious to know how much engaging mana whenua, Maori and in collaboration with Te Kete Rukuruku, creating Te Ao Maori activations is taking from that \$35.0m planned spend, and how this is benefitting the whole of the area, many of which have zero interest in this, not just a very small portion of the population. Cultural box ticked I suppose. I would like to see action taken on anti-social behaviour, noise complaints taken seriously, building consents for apartments without parking spaces ENDED, and the mowing of berms brought back. I want money spent making a safer community, not cultural events that nobody goes to!

Would like to see slightly more spent on environmental action. Happy that rates are being scaled with property value, however, would like to see an increase in rates for properties not owner occupied. These properties contribute significantly more waste than your average owner occupied property due to the nature of them trying to make as much money as possible by getting in as

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Tell us why

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

I don't know

Tell us why

Do not support funding of events that come as a cost to others

ie. Closing speedway at Western Springs to accommodate soccer

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

I don't know

3B. Would you like to comment on this or the other rates, fees and charges proposals?

(Please be clear which proposal you are talking about)

Question 4:

Local board priorities

4A. Which local board(s) would you like to provide feedback on?

Albert-Eden, Henderson-Massey, Maungakiekie-Tāmaki, Upper Harbour, Waitematā, Whau

Albert-Eden Local Board Priorities

The local board has additional funding in 2025/2026 however there are unavoidable increases in the cost of existing services which may need to be considered alongside the additional funding.

4B. What do you think of our proposals for your local board area in 2025/2026?

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Increasing our community programmes that are delivered from our libraries and community centres in Pt Chevalier Mt Albert Sandringham and Epsom.

Fairly important

Supporting our community leasing groups to be able to share their space and be sustainable over time so they can continue to provide their great range of community services and activities.

Fairly important

Supporting our business associations and vibrant town centres so people can live work shop and play in our local villages.

Fairly important

Talking with young people and children to better understand what is important to them in their area.

Fairly important

Increasing neighbourhood safety and resilience community wellbeing and emergency preparedness.

Very important

Reducing waste and increasing the profile and impact of Waiōrea Community Recycling Centre.

Less important

Delivering on concept and restoration plans we have made for local parks and trialling a portable pump track to move around parks in our area.

Fairly important

Increasing the number of local events arts and activations especially in local parks and town centres.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Less important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Less important

Expanding youth voice initiatives to academic students in the local board area

Fairly important

Work on plans to upgrade Catherine Plaza

Less important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

Catherine Plaza has had more makeovers than Britney Spears why does it need more

Increase safety for everyone that wants to visit Henderson and surrounding areas should be top priority

Water systems should have been cleared regularly and the council has to do more to make up for lost time and damage to personal property. Council neglect almost cost too many people everything

Maungakiekie-Tāmaki Local Board Priorities

The local board has additional funding in 2025/2026, but there are unavoidable increases in the cost of existing services which will need to be considered alongside the additional funding.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Continuing to support community groups and community-led activities through our local community grants

Fairly important

Continuing to build the capacity and capability of local community and sporting groups through our strategic partnerships programme

Less important

Activate our local open spaces and facilities, through council-led activities and assessing what amenities our spaces need, such as toilets and power outlets

Less important

Empowering community groups and organisations to deliver community events through sustainable funding models

Less important

Consider funding activities that increase our community's sense of safety, working with community groups and business associations already delivering safety initiatives

Less important

Continuing to support initiatives that deliver outcomes with and for youth, such as our Youth Empowerment programme, and Tiakina te taiao and Ope programmes (biodiversity and climate action education programme in schools)

Less important

Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways, particularly the Tāmaki Estuary and Manukau Harbour

Less important

Consider a review of Te Oro Music and Arts Centre, to ensure it remains welcoming and responsive to the community's changing needs.

Less important

Tell us why (please be clear which priority you are talking about)

Do not support funding of events that come as a cost to others

ie. Closing speedway at Western Springs to accommodate soccer

There is a huge sense of community right at the heart of Western Springs Speedway that has no backing from the local board

This needs to change as it brings in so much to the local area

Less important

Continue to prioritise support to our local community organisations and volunteers to deliver outcomes that provide a sense of belonging, wellbeing and resilience for residents

Less important

Continue to prioritise investment in outcomes that ensure our communities have access to high-quality amenities that provide for a range of opportunities including play, pathways and connections, active sports and recreation and connecting with nature

Less important

Funding to assist in the development, improvement, and renovation of non-council owned community facilities that serve the Upper Harbour area through a facilities grants process

Less important

Improve wayfinding in the Upper Harbour area to help our communities to easily discover and enjoy the assets we have

Less important

Contribute funding for the development of a vision and plan for the future North Harbour Stadium and Domain Precinct.

Less important

Which three of our services are most important to you? (select up to three)

Pools and Leisure facilities - opening hours and services ,Sports and park activation activities,Youth activities

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Do you think we should contribute funding to the development of a vision and plan for the future of North Harbour Stadium and the Domain Precinct?

No

Tell us why

It should find a purpose that will fund its operations

ie soccer or concerts/events

Agree regarding prioritising public transport and water management. I think water infrastructure, waste management, need to be more of a priority in light of the climate crisis, as our city is vulnerable to floods and droughts due to poor pre existing infrastructure.

Transport should not be looking at roads. It should be looking at ferries. So many people out west drive to work as busses, even with the partial bus lanes, are slow and do not go to lots of places. A ferry from Te Atatu would ease so much congestion. Trains - lots of movement of trains but no a

single train out west along main route. Te Atatu/Massey/Westgate have one slow bus. Mono rail down centre of motor way, or branch lines out from Henderson.

There is not enough guest accommodation in Auckland, and certainly not enough variation. You can stay in a hotel, or guest house. Short term accommodation provides a cheaper but individual option. Crazy to drive that out

Question 3: Changes to other rates, fees and charges

3A. What do you think of the waste management proposal?

Apply the Refuse Targeted Rate to residential and lifestyle properties in Franklin and Rodney to pay for council's rubbish collection service, replacing the current system of purchasing rubbish bags.

BUT- one of the most important issues in the WEST, that prevent growth of cafes and restaurants is the really stupid and corrupt Trusts system. That was a good system back in 1900 - 1920 maybe but NOT in 2025. Get rid of it

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Fairly important

Engaging mana whenua, Māori and in collaboration with Te Kete Rukuruku, creating Te Ao Māori activations for whanau that incorporate te reo, tikanga and supporting the area's Pūrakau (Māori history)

Fairly important

Expanding youth voice initiatives to academic students in the local board area

Very important

Work on plans to upgrade Catherine Plaza

Less important

Continue to support water quality initiatives including the Rivercare group's work in Te Atatū Peninsula, Love Your Streams (EcoMatters) and Ngā Puna Manaaki Īnanga, a project to identify, protect and enhance Īnanga spawning habitats across the Henderson-Massey local board area

Very important

Tell us why (please be clear which priority you are talking about)

Water Quality - by allowing HUGE building of town houses in Te Atatu, and NOT developing the sewer and storm water facilities is crazy.

Do you have any other feedback, including the Tūpuna Maunga Authority Operational Plan 2025/2026 (page 33 of the Consultation document)?

Tell us here

Stop planners allowing developer to build town houses without parking. It is CRIMINAL. There should be one park space per dwelling. We will end up like other countries where only one car can go down the road. See photo

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Do not support any

Tell us why

No rates increase please. Too much for ordinary Aucklanders struggling with paying their mortgage and taxes

Question 2: Destination management and major events

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Do not support

Tell us why

This will discourage visitors

The plan is well considered and aims to strike a balance between rates increases and provision of services. I would love to see more investment in climate emissions reduction initiatives and community climate action initiatives.

I would also like to see emphasis put on community climate action initiatives outlined in the Henderson-Massey Local Board Plan 2023. This includes support initiatives that help remove barriers to cycling e.g. access to safe affordable bike and learn to ride programmes (page 27 Henderson-Massey Local Board Plan 2023) and Continue to fund the climate action activator role to support a programme of community-led climate and resilience actions (page 22 Henderson-Massey Local Board Plan 2023). Transport-related initiatives that promote and enable walking, cycling, public transport, and smarter car use, have the largest potential for reducing climate emissions. In addition, there is significant interest in the community to grow more food locally to ensure food security and increase resilience. I also support the water quality initiatives priority as in addition to direct water quality improvements these initiatives present an opportunity to upskill the community about climate action to improve resilience and reduce emissions.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Working with the community on signature events with the intent for the community to take the lead

Tell us why (please be clear which priority you are talking about)

Priorities 1,2,3 and 5 all have opportunities to incorporate aspects of community climate action for emissions reduction and resilience. I have some concerns about the Catherine Plaza initiative (Priority 4) - the Plaza definitely needs to be a safer place for the community, as at present it is frequented by some users that make the area feel unsafe. It's not clear how the upgrade to the plaza will solve this issue.

It's wonderful to see the increasing number of electric buses in the city. Initiatives that reduce emissions and enable community climate action should be a continued priority for investment.

everywhere I travel overseas there is a bed /visitor tax. It just gets added to the bill and is taken as a given that this is the case. I think the most important thing that can help is to make it beautifully written that this is helping keep nz beautiful, clean and green and then make sure that that's exactly what the money goes towards.. not into some other fund that helps with mining for example. If people understand the virtue of it they'll be happy. I have had guests from Europe/germany in particular who were annoyed about parking charges at Milford Sound for their van but when I explained the money went to environmental causes, keeping the area beautiful they were totally on board. So clever communication and make it reasonable.

Henderson Massey area has been ground breaking in its work with the TWIN STREAMS programme in the 2000s which planted thousands of trees along the Henderson Creek area, creating bike and walking. The widening of the path by Central Park Drive has been great. It would be very helpful if there was signage asking cyclists to slow down when passing , give way to slower

traffic. Whizzing past people who are walking is rude and dangerous. If someone gets knocked over, particularly a kid or an older person it can be a hospital experience with long lasting effect. The word from council has always been 'we don't want too many signs' We need signs so that people can understand how to be polite on a shared path.

The lowering of transport emissions. While I agree with all the sentiments and evidence expressed in the lowering emissions plans the reality is that this has not been supported by Auckland Transport over the last two years, since National got into government and Simeon Brown as Transport Minister, Infrastructure Minister and Local Government Minister demanded that we all , as a nation, stop building raised pedestrian crossings and bike paths. This seems to have been completely taken on board by AT and at every request for safer crossings they have said no , whereas under the previous government directives they said yes. AS an example let me cite Lincoln Rd Henderson. This is one of the busiest roads in NZ and also used by several schools, which are within 200 metres, Henderson Intermediate, Henderson North Primary, Middle School West, Pomaria Primary, Liston College, Waitakere College, St Dominics School. In addition it has a hospital which includes maternity , tennis courts and one of the biggest Netball courts complexes in NZ at Te Pai park. The pedestrian crossings at Te Pai and Lincoln Rd were upgraded pre Simeon Brown and they are marvellous. There are two raised crossings that every car now slows down and stops for if necessary. Crossing is now very safe which is great considering the hundreds of people who use this during netball tournaments and many others who use it every day. ON the next two crossings , heading up towards the Motorway interchange there are two slip crossings onto Universal Drive that have no lights or pedestrian crossing. Recently a huge retirement village was built next to this intersection which also has a Pak n save and Countdown and KFC on the other sides. Despite numerous requests and bicycle deaths previously the council refuse to make these crossings safer saying you have to wait for a break in the traffic and then cross. Hard luck if you have a walker or small children or walk with a cane. Further up at the intersection of Lincoln Rd and Central Park Drive/Triangle Rd it's even worse as the traffic islands are barely big enough for a bicycle even though the bike lanes lead to this intersection to continue to other links. My point is that I fully agree with the intention to make walking and cycling safer but there has to be a strong push within the council for Auckland Council to literally walk the talk. Instead of agreeing not to prioritise pedestrian safety as a response to the National Government's directive they need to follow their own expert advice and make walking and cycling safer. Slip lanes on busy roads have been stated by NZTA on its OWN website to be dangerous and should be either removed or have pedestrian crossings so why is AT saying we should find a gap and cross. and why is nothing being done about the Upgrade of Lincoln Rd which would annul this problem altogether as it would make walking and cycling immeasurably safer by not allowing right hand turns onto the median strip, which in the plans that were approved , to be replaced by a solid strip.

The priority should be infrastructure projects that benefit the many, rather funding the few. The promised development of Harbourview- Orangihina reserve needs to be more of a priority as this was promised over 25 years ago . This reserve should have public pathways, picnic areas and landscaping for everyone to enjoy . The grazing of some horses on this land is denying access to the public . Secondly, the Te Atatu Peninsula coastal walkway needs to be finished between Chapman Strand reserve and Taipari Strand reserve. It is disappointing that Councils began these projects and never completed them.

Attracting visitors and securing, promoting and delivering major events are vital to Auckland being a dynamic and exciting city. In our Long-term Plan 2024-2034, we said we would continue to fund cultural festivals and other significant community events. However, without a bed night visitor levy, there will be a \$7 million budget shortfall for funding of major events that are expected to attract visitor expenditure, such as the ASB Classic, Auckland Marathon and Auckland Writers Festival, from the 2025/2026 financial year. We continue to advocate to central government to introduce this levy. A bed night visitor levy of 2.5 per cent to 3 per cent paid by those in short-stay accommodation, would raise around \$27 million each year to fund even more destination management, marketing and major events activities in Auckland.

A bed night visitor levy requires central government legislative change and they have yet to agree to introduce this legislation. We continue to work with central government on this and your views will help inform this work.

Do you support a bed night visitor levy paid by those in short-stay commercial accommodation, to fund destination management, marketing and major events activities?

Question 1: Our overall plan

Our proposed Annual Plan 2025/2026 builds on our Long-term Plan 2024-2034 (LTP).

The annual plan focuses on getting on with strengthening the financial and physical resilience of Auckland, while investing where it is needed most to manage growth. In 2025/2026, that includes prioritising investment in:

- transport
- water
- and fairer funding for local communities

It sets out the proposed way to pay for services and investments, including the 5.8 per cent rates increase for the average value residential property which is in line with the LTP, and additional debt to fund \$4 billion of capital expenditure.

What is your opinion on our proposed annual plan?

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Appropriate planning and investment for infrastructure and quality open space in areas impacted by growth and intensification e.g. Whenuapai

Less important

Continue to prioritise support to our local community organisations and volunteers to deliver outcomes that provide a sense of belonging, wellbeing and resilience for residents

Fairly important

Continue to prioritise investment in outcomes that ensure our communities have access to high-quality amenities that provide for a range of opportunities including play, pathways and connections, active sports and recreation and connecting with nature

Very important

Funding to assist in the development, improvement, and renovation of non-council owned community facilities that serve the Upper Harbour area through a facilities grants process

Very important

Improve wayfinding in the Upper Harbour area to help our communities to easily discover and enjoy the assets we have

Very important

Contribute funding for the development of a vision and plan for the future North Harbour Stadium and Domain Precinct.

Less important

The shore has SO much and Massey /west Auckland has SO little. When do we get looked after?

To help the local board understand priorities and areas of importance for the community, we want feedback on areas that are the most important to you so we can prioritise investment in higher priority areas or address rising costs by potentially decreasing investment in lower priority areas.

Which three of our services are most important to you? (select up to three)

Pools and Leisure facilities - opening hours and services ,Local parks strategy and planning,Sports and park activation activities

North Harbour Stadium and Domain Precinct

Our community gave clear feedback in the long-term plan consultation that they would like to see the North Harbour Stadium and Domain Precinct used more effectively for the local community. The Upper Harbour and Hibiscus and Bays Local Boards are jointly leading a working group of local representatives to develop a vision and plan for the future. The work will need both regional and local funding and our local board will need to contribute.

Do you think we should contribute funding to the development of a vision and plan for the future of North Harbour Stadium and the Domain Precinct?

No

I am not in support of the Consolidation of Speedway at Waikaraka Park (WP). There was no consultation by this Local Board with the open wheel speedway community fans and stakeholders in accordance with Auckland Council's Significance and Engagement Policy, March 2022 and the Local Government Act 2002 (LGA). The Waikaraka Park Master Plan's intent has been changed significantly and these changes had no consultation.

The WP Speedway footprint is too small to meet the current and potential attendance at the current venue and would therefore diminish and hurt open wheel speedway to be forced into a smaller venue.

'Like for like' open wheel events have been run at WP that failed to draw the usual Auckland open wheel attendance and were not successful, proving open wheel speedway will not be successful at WP.

I have concerns that the Ombudsman has taken up this matter and that the Serious Fraud Office are looking into it. This decision should be overturned.

This is not-with-standing that I do agree that WP Speedway is in need of an upgrade and that a redevelopment for Auckland Stock & Saloon Car Club purposes is in order

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?**Continuing to support community groups and community-led activities through our local community grants**

Fairly important

Continuing to build the capacity and capability of local community and sporting groups through our strategic partnerships programme

Less important

Activate our local open spaces and facilities, through council-led activities and assessing what amenities our spaces need, such as toilets and power outlets

Fairly important

Empowering community groups and organisations to deliver community events through sustainable funding models**Consider funding activities that increase our community's sense of safety, working with community groups and business associations already delivering safety initiatives****Continuing to support initiatives that deliver outcomes with and for youth, such as our Youth Empowerment programme, and Tiakina te taiao and Ope programmes (biodiversity and climate action education programme in schools)****Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways, particularly the Tāmaki Estuary and Manukau Harbour**

Consider a review of Te Oro Music and Arts Centre, to ensure it remains welcoming and responsive to the community's changing needs.

Western Springs Speedway should remain as an open wheel speedway. It has been a speedway since 1929. The speedway activities are enjoyed and well patronised by the wider and local community, offering family-based entertainment within our community. A March 2025 Westmere Community Facebook Page poll showed overwhelming majority of 63% wish to 'keep the current facilities for Ponsonby club, concerts & Speedway', with all other option receiving less than 17%.

Drawing in over 100,000 spectators in a speedway season benefits the local community. Many local businesses are involved in speedway through advertising, employing participants and fans with some business owners also speedway car owners.

Speedway at Western Springs is a multi-generational past time enjoyed by a wide variety of Aucklanders and attending races is traditional for many families.

Flood resilience is important for this community. Keeping Western Springs as a Speedway is ideal as its situated on the flood plane where expensive infrastructure and buildings are vulnerable to flood damage.

This community, Ward and Local Board should support the continuation of Speedway at Western Springs under reasonable operating conditions.

Our priorities for 2025/2026 are listed below.

How important are these priorities to you?

Prioritising and investigating flood resilience actions for our parks such as Western Park and Grey Lynn Park

Fairly important

Delivering footpath improvements for Auckland Domain

Less important

I have serious concerns over the decision to consolidate Speedway from Western Springs to Waikaraka Park and am equally as concerned over open wheel speedways usage rights at Western Springs Stadium and Speedway. I have concerns that the Ombudsman has taken up this matter and that the Serious Fraud Office are looking into it.

Tataki Auckland Unlimited and the Auckland Council should negotiate a fair and reasonable contract with the car owners and drivers of the sport through the Western Springs Speedway Assn. to remain operational at the venue.

Speedway should not be forced out of Western Springs and into Waikaraka as it will not fit. Speedway and Stock & Saloon car racing are not ideally compatible to share a venue, though forced to in smaller towns. There are health & safety concerns.
