Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	Do not support
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support

programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	Do not support

7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	
Our Community – ensure the maintenance and development of 'fit for purpose' local services and spaces meet the needs of our diverse communities.	
Our Places – support initiatives that improve walking and cycling opportunities.	
Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.

harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	Do not support
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Henderson-Massey Local Board Priorities

7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	
Our Community – ensure the maintenance and development of 'fit for purpose' local services and spaces meet the needs of our diverse communities.	
Our Places – support initiatives that improve walking and cycling opportunities.	
Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value

residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#18455

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value	I don't know

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by	

#19492

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#19923

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#19940

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#19948

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#19956

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#19965

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#19974

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#19983

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#19992

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#20004

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#20017

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#20077

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by

Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	

#20233

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).

This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by	

#20566

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by	

#20845

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by	

#20875

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.
