Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The Making Space for Water programme’s inclusion of “blue-green corridors” (walking and cycling paths through greenspaces and alongside streams, adding to our walking, cycling network while also creating a natural drainage area)

**#6286**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less inefficient processes - i.e. can Council make savings by being more efficient with decision making. I witnessed the indecision, excessive consulting with fringe stakeholders and to-and-fro between local board, AT and Council for the Point Chevalier cycle path improvements. If you had just built the thing 6 years ago it would have been cheaper and we'd have 6 years of benefits by now.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I would like to see more investment in cycling infrastructure, which has very high BCRs. The UN for Environment recommends 20% of transport spend to walking and cycling, but AT allocates less than 1%.

I support raised pedestrian crossings and increased footpath maintenance.

I support "dig once" to reduce costs and disruption

I would like low cost quick fixes for safe walking and cycling included every time a road is repaved, repaired or repainted.

I support the lower cost surface light rail to Mangere proposal (not the expensive underground option)

**2a. Is there anything you would spend more on?**

I would like to see more investment in cycling infrastructure, which has very high BCRs. They should be safe and functional, cost effective and fast to construct e.g. "pop up" protection using precast concrete separators on existing road shoulders, planter boxes or bollards to create low traffic neighbourhoods.

I would like to see the Great North Road improvement linked up through to Point Chevalier

**2b. Is there anything you would spend less on?**

**#6286**

Spend less on road widening. Put more effort into reducing traffic by getting people out of cars and onto public transport and active modes

### **3. Which options do you support for the North Harbour Stadium?**

**Tell us why:**

#### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

AIAL is a future fund investment! reap the dividends

#### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

#### **4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

#### **4d. Do you have any feedback on any other part of the proposal?**

#6286

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by</p>	<p>I don't know</p>

#6286

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

#6286

I don't know

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	I don't know
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	I don't know
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	I don't know
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Significant public transport investment

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Road creation/maintenance in areas primarily used by private vehicles

**#6296**

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Focus should definitely be on public transport but ideally even more so - network optimisation can't do much when the real issue is the sheer number of cars on the road. The only reliable way to fix this is to provide non-car alternatives.

### **2a. Is there anything you would spend more on?**

Public transport

### **2b. Is there anything you would spend less on?**

Roads

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### **Tell us why:**

The more of Auckland's key public spaces being at least partially publicly owned the better. Selling them off would be good for the council in the short term but only increase costs for Aucklanders in the long run.

**#6296**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

Depends on what the wharves would be used for instead

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

Same as above

#6296

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>I don't know</p>
<p>Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#6296

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	I don't know
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#6296

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

-What exactly does 'celebrating different people and cultures' look like in practical terms?

-I don't think the Pt Chev 'medium-term' library location is a good one and it seems strange for any public service to be moved like that without any permanent solution sorted out.

-I don't agree with removing rubbish bins to minimise waste, it seems this would do the opposite.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

I prefer debt as the number 1 solution to most monetary issues with the council. You're not a business, you provide a public service. There is inherently no significant profit to be gained here. Just fund the city according to public need and not the balance sheet.

# Long-term Plan 2024-2034

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I absolutely support making public transport more reliable and affordable. The weekly fare cap is a great idea

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6353**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Do not support taking away raised pedestrian crossings. We must continue with building safe cycling options

**2a. Is there anything you would spend more on?**

Cycling

**2b. Is there anything you would spend less on?**

Increased roading for cars

**3. Which options do you support for the North Harbour Stadium?**

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**Tell us here:**

#6353

8. Do you have any other comments?

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increased funding for recreational cycling facilities & "learn to ride" courses to allow children and others to grow more confident riding a bike

Develop local centres to ensure they include safe walking, cycling & scooting connections, which will also improve access for disabled people

**#6370**

Ensure there are safe cycling and walking links to connect with Central Rail Link

Add to the walking & cycling network via "blue-green" corridors, which will also create natural drainage areas

More community-led programmes to encourage people to ride bikes or use scooters for transport

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less "Free Parking" especially along arterial roads; increase parking charges and limit durations, make arterials bus & bike lane only

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Cycling for transport will help achieve the stated goals of the budget to do things better, faster, cheaper, and this improves as the network grows

**2a. Is there anything you would spend more on?**

Increase funding for cycling infrastructure and maintenance so more people are encouraged to use

Delivering a safe, connected cycling network, which can be done fast and affordably by reallocating road space and using pop up protection

More raised pedestrian crossings to ensure safer speeds

Support proposed \$50 weekly cap for public transport, bikes on buses, light rail

"Liberate a Lane" on the Harbour Bridge - reallocate one lane for walking, cycling, scooting, and wheeling

**2b. Is there anything you would spend less on?**

I think the investigation into a bike ferry across the harbour is unnecessary and wasteful. A bike ferry is unlikely to be used by most people on bikes due to the lack of autonomy/freedom, efficiency and affordability, especially in comparison to liberating a

**#6370**

lane for walking, cycling, and wheeling. Any bike ferry is likely to have the same staffing shortages and capacity issues as other public transport.

Spend less on roads and more on walking, cycling, and public transport; creating a more efficient, affordable, and climate conscious transport network.

### **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

#### **Tell us why:**

The needs of the North Shore community should be the primary focus; look to retain the existing community playing fields and develop other facilities to ensure greater use by the community.

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

#### **Tell us why:**

The trust structure and its rules and restrictions, together with a professional fund manager working under a clear set of investment objectives and policies set by the council should ensure Council's shareholding risk is diversified.

### **4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

#### **Tell us here:**

### **4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

#6370

I don't know

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

The port area is prime land which should be accessible to the community and general public rather than private interests.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

The port area is prime land which should be accessible to the community and general public rather than private interests.

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Support

#6370

around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025,	I don't know

#6370

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#6370

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

**Tell us why**

I am unsure how making parks rubbish-bin free will have the desired outcomes? Mt Albert maunga is a very well used dog walking park and I doubt many dog-walkers will want to carry their dog poop back home with them! It will need a major re-education programme to get people on board with this.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Support arts, events and night-time economies in our town centres

Support advocating to Auckland transport for reliable and frequent bus and train services and upgrades/space allocation in our Town Centres to support more walking and cycling, options, especially on arterials eg. New North Road, Sandringham Road, Dominion Road

**8. Do you have any other comments?**

Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#6388**

Support most of the proposal

**Tell us why:**

AT has slowed down the city with bus and cycle lanes, I am for this to be done in areas that it does not have a flow on effect in the negative.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

How does selling more shares benefit the city at this stage?

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

Not sure what would be best in the option

#6388

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

My option would be a combination of both use half to fund council severices and half to invest why does it just need to be one?

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

In a cost of living crisis does the council want to take on more costs at this time, option one could be done when in a better fiscal place.

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

Support

#6388

increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support

#6388

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Arts and cultural events that are accessible to a range of Aucklanders from different suburbs. To make Auckland a vibrant thriving city the way other cities around the world are alive and destination spots.

**#6400**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Cycleways should be supported. We should be encouraging a new generation of young people to feel safe and confident cycling and using alternative transport modes.

**2a. Is there anything you would spend more on?**

Anything that encourages public transport, cycling, walking and fewer cars on the road.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#6400**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

**6a. What do you think of these proposals?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do less
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6401**

Make Auckland Transport answerable to rate payers especially those living in areas they appear to think are just throw-a-way suburbs that can be deprived by Transport's invalid assumptions. Stop allowing them to waste money and get back to actually fixing roads.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

While the object is to have nearly all public transport set as to and from the city they will never solve traffic problems.

Stop saying no more public carparks as that just transfers the problems.

Make them consider the elderly and the disabled before making hard and fast decisions. Different suburbs may require different solutions.

Understand that most Aucklanders do NOT work in the city and do not want to go there.

### **2a. Is there anything you would spend more on?**

Park and ride solutions across Auckland. Catching Public transport when you don't live near a bus stop or train station means cars will continue to be the preferred method of travel especially in bad weather and there will be more of really bad weather to come in the future.

### **2b. Is there anything you would spend less on?**

Auckland Transport planners. They don't seem to live in our world or able to keep abreast of future weather warnings.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

**#6401**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Councilors change frequently and in general don't have great financial planning ability. How finance is spent needs to be upgraded.

Too much "sounds like a good idea."

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

But any extra funds need better management than there has been in the past.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

I don't want the monies to be used for council services that the rate payers don't want.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#6401

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The three options (central, more, & less) proposed in the consultation are not the only options, the same goes for the corresponding rates rises. For example, we could get much-needed investment in transport services and climate resilience, as stated under the ‘pay more get more’ option, with a rate rise of less than 14% in year one. There are

**#6417**

other areas where savings could be made which are not interdependent. The 'overall direction' oversimplifies very complex decisions.

Public Transport - Ensure public transport is affordable, accessible, and reliable, prioritising investment in public transport infrastructure over road spending.

I also support further investment into a surface light rail rapid transit network.

Active Transport - Urgently transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Water Quality - Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Environment and Regulation - Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

As well as the options provided in the structured consultation, I would also like the Council to do more of the following:

Protecting and working with communities by continuing to prioritise the funding and delivery of Making Space for Water in partnership with Central Government.

Ensuring adequate support for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly programme, the Communities in Need programme, and supporting work on Council land and marae. This can be achieved by re-establishing pre-2023/2024 budget funding for these areas.

Supporting frontline, volunteer powered communities by ensuring local boards are adequately funded and grants are available. Grants and investment into community-led services provide great value to Aucklanders. For every dollar that Council invests we get back many more volunteer hours.

Supporting moves to a circular economy and zero waste, ensuring waste materials are seen as resources to be reused, repaired, repurposed and recycled, and are diverted from landfill.

Lowering emissions by becoming a leader in localised renewable energy generation by enabling local integrated energy solutions to support community owned energy groups.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

#6417

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Invest more of the transport budget in walking and cycling infrastructure. If safe corridors and connectors are build, more people will use them (as can be witnessed by the Northwestern and Tamaki Drive bike paths).

Dig once! Any transport projects should align with other infrastructure deliveries. Do it once and do it right.

Free up one lane on the Harbour Bridge for walking and cycling.

Fully commit to the Transport Emissions Reduction Pathway and Auckland's Climate Plan.

Support of more and better cycling & walking infrastructure should be part of the central proposal and not an afterthought in the do more!

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. We need to get people out of private cars, into buses, trains and ferries and onto cycleways. Failing to understand and action this will result in a continuation of over investment in roading projects and underinvestment in the public and active transport networks. The evidence is there and the evidence is clear.

As well as continuing to invest and improve our public transport network, it is essential that the Council urgently supports the transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

### 2a. Is there anything you would spend more on?

I want Auckland Council to:

spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

spend more on ensuring public transport is affordable, accessible, and reliable.

**#6417**

## **2b. Is there anything you would spend less on?**

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

Spend less on road widening for projects, and instead reallocate road space for delivery of walking, cycling, and public transport networks, creating an overall more efficient, affordable, and climate conscious transport network.

I'm not in full support of a dedicated bike ferry because it would be nowhere near as efficient, available, or affordable as providing a dedicated lane for walking, cycling, and wheeling across the existing Harbour Bridge. A bike ferry would be just as vulnerable to staffing shortages and capacity issues as any other public transport, likewise limited to fixed hours, and charge passengers for their travel. A 24/7 lane on the bridge gives people the freedom to make their own reliable journeys, free of traffic, and independent of public transport constraints.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

Make the stadium precinct more usable and flexible to deliver better outcomes for everyone.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

### **Tell us why:**

It makes sense

**#6417**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

This is prime waterfront land in the central city and really should be used for public benefit. It would make the waterfront even more attractive for locals and visitors alike.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#6417

Again, this is a huge asset and should be open for everyone to use and enjoy.

I'm sure other options for the port can be investigated, and if we build and invest more in rail infrastructure now, freight in future can be transported via rail. Opening up more rail would also give more options for passenger transport and connections.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Other
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing	Support

#6417

the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

#6417

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

I support the following local board priorities:

Funding and support for community driven environmental work (e.g., habitat restoration, plant and animal pest control).

Funding and support for community groups that focus on climate action (e.g., waste, active transport, education, etc).

Growth of active transport networks such as cycleways and walkways.

Establishment and development of green corridors.

**#6417**

Development and implementation of Climate Action Plans.

Circular economy strategies and actions.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I would also like to see redevelopment and revitalisation of the Point Chevalier centre along Great North Rd. This area is badly neglected and could be improved so much by developing green spaces and plantings along the road.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Conservation and the environment is the most important asset, focus on this

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6434**

**2. What do you think of the transport proposal?**

I don't know

**Tell us why:**

I need more specifics and outcome focused communications to make a decision

**2a. Is there anything you would spend more on?**

Trains and trams. Melbourne is a great example!

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

#6434

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------

#6434

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>I don't know</p>
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	<p>Support</p>

**#6434**

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## **Local board priorities**

**7a. Which local board area does your feedback relate to?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Cleaning up urban streams. More ferries.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#6451

Golf courses.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

I think we need more mixed mode transport investment. Cycleways and pedestrian safety are important. Parts of the city are still critically under served and we continue to grow.

**2a. Is there anything you would spend more on?**

Cycleways, trains, ferries, anything but more roads.

**2b. Is there anything you would spend less on?**

No

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

If done right, it could be a better use of the land.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

I'm not an expert.

**#6451**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Seems like a good way to slowly phase it out and get this fund started.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

We are facing a climate emergency which will require massive investment. Central government may not play ball, so it makes sense for Auckland to start preparing itself.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

As long as it isn't used for some vanity project stadium, this could be great. More ferry capacity?

**5b. What option do you prefer for Bledisloe Terminal?**

#6451

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Better investment, give them 35 years to completely phase out the commercial port.

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing	Support

#6451

the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Ōtara-Papatoetoe

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers	Fairly Important
-----------------------------------------------------------------------------------------------------------------------------	------------------

#6451

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Rubbish bins are still essential. Contractors just shred hidden plastic and heaps ends up in streams. This is wishful thinking, do not do this.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**Ōtara-Papatoetoe Local Board Priorities**

**7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?**

I support all priorities

#6451

**More specifically, what do you think of each priority we've listed above?**

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	Very Important
Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	Very Important
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	Very Important
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	Fairly Important
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	Very Important
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	Fairly Important

**Tell us why**

**#6451**

These are great priorities, and continuing to care for te taiao is key when we are still cleaning up after floods. The streams need love, and community plantings should be expanded. More weeding groups and bush care groups would be great too.

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	Do more
Economic and cultural development	Do more
Council support	

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- support for arts, culture and creativity via local boards
- investment into arts and culture facilities, both council-owned and private
- investment into Auckland's diverse cultural communities

**#6452**

- investment into independent artists and companies (arts grants)
- logistical support of performing arts

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

council expenditure on facilities and activities that delivered largely personal benefits to few people eg. golf courses across the city

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#6452**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Support frontline, volunteer-powered communities by ensuring local boards are adequately funded.

Re-establish pre-2023/2024 budget funding for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly

#6482

Programme, Communities in Need programme, and supporting work on Council land and marae.

Re-establish the full funding of the Water Quality Targeted Rate (WQTR) and Natural Environment Targeted Rate (NETR) to pre-2023/2024 budget levels to ensure delivery of related work programmes

Protect and work with communities by continuing to prioritise the funding and delivery of Making Space for Water in partnership with Central Government.

Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I don't support cancelling the cycle roads

**2a. Is there anything you would spend more on?**

Urgently transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Ensure public transport is affordable, accessible and reliable, prioritising investment in public transport infrastructure over new road spending.

Reduce private transport emissions by investing in community organisations and tools to assist behavioural change.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

**#6482**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

the airport is a essential entry point for Auckland and council needs some influence on how this is developed.

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#6482

I don't know

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

Tell us why:

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

#6490

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Support

#6490

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	Support
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	Support
<p>Re-introduce <b>recycling charges for schools</b>.</p>	Do not support
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	Support
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	Support
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	Support

#6490

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#6490

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Leverage the assets instead of an outright sale. Lease for rent to introduce extra income streams from these assets. Community and Māori engagement. Lets lead the way in cogovernance and creating a blue print what a successful covernance partnership with Māori looks like for the rest of the country. Also, stop NIMBY attitudes to development and growth.

**#6513**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

stop pandering to the NIMBY's that oppose everything without coming up with agreeable alternatives.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I think we really need to get serious about public transport and making it fit for future. I understand the lack of vision from central government who still assume that the way people move in 2024 is still the same as 1970's but we need to invest in public transport. CRL, better travel options to and from the airport.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

anything that central government says eg the roads of Nationals importance.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

This along with the racecourse in Avondale should be opened to housing developments. Its not fit for purpose for a stadium and doesnt really provide any appeal to be utilised as a stadium.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#6513**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

#6513

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More on getting Public transport frequent and regular, less on roading developments unless they specifically prioritise public transport.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6552**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

a comprehensive cycleway plan for the city is important - not bits here and there tacked on to roads.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Long term thinking is vital - we've had too much short term thinking. A fund like this will help and hopefully ensure infrastructure does not deteriorate so badly, and we do not run the risk of losing regional facilities. .

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**#6552**

**Tell us here:**

Need to coordinate the needs of all of northern NZ re ports and shipping etc. Missed opportunity years ago to join with Tauranga because of short term thinking.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

#6552

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less in built housing. We need more land that is not concreted over. This won't mean paying less except it will mean less flooding and less emergency funding.

**#6553**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I think we all need to take responsibility for using our cars less.

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I have no idea on this as I've never been there

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport shares are an asset that should be kept

**4b. Which option do you prefer for the future of Port of Auckland?**

**#6553**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Again it's an asset that should be kept

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The Future Fund is an idea that I don't see how it will help - it could just whittle away.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

I don't want these to pass into private ownership with housing developments etc

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

#6553

**6a. What do you think of these proposals?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6585**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Regressive to stop investing in active transport ie walking and cycling.

Progressive cities do this.

We are left well behind. Spend more also on public transport including rail.

**2b. Is there anything you would spend less on?**

Highways for trucks/cars with poor cost/benefit outcomes.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

It is poorly used

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

#6585

**Tell us here:**

What happened to the plan to move the port?

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More funding towards youth initiatives

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6586**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Not many people use the cycleways, making more buses come and more reliable. also reducing costs for students.

**2a. Is there anything you would spend more on?**

Getting more electric buses.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

11% is still significant and allows for earning dividends, I don't see the AIP being very effective.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#6586**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Again, i dont see the effectiveness and efficiency of setting up the fund. I also think its important to fund more council services

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

It seems uncertain whether we are able to get significant gains from transferring the wharves. I think they should be kept as ports and there would be additional expenses.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#6586

I think there should be more public benefits provided. Particularly considering the increase of rates in other areas.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. <b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Resume active bidding for major events to attract more tourists and visitors to Auckland.

**#6591**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

A sports/events facility is needed on the North Shore. While access to it from motorways is great, both parking and public transportation are limited, which affects the use of North Harbour Stadium. Consultation with stakeholders and the community should take place before any long-term decisions are made.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#6591**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Need to have more clarity in the plan over plans for ferries and passenger liners before decisions are made re Brittomart and the Cook and Marsden wharves,

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

As per 5a.

#6591

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase the number of democratically elected officials. Local government has had its democracy eroded over time. This has placed burdens on those left doing the work.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6598**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I am in favour of the 'do more' proposal. The central proposal sees us falling short when it comes to electric trains and depots, and keeping up bus services to city fringes which are lifelines for some who cannot afford to live closer in to city centres.

**2a. Is there anything you would spend more on?**

As above - am in favour of 'Pay More, Get More' generally. Yes I am a ratepayer.

**2b. Is there anything you would spend less on?**

n/a

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

The stadium is woefully underused in its current format. Adapting the venue to community needs could yield excellent community results.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#6598**

I am fairly skeptical that this fund will remain ring-fenced. Also: why a future fund?  
Don't we have immediate pressing budget needs right now?

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

'Future fund' sounds aspirational but let's face it, you'd just be selling off the silver. Once the net proceeds of sale have been received all we have is some cash which successive councils will no doubt raid, sooner rather than later one suspects. Keep the asset.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Re-invest dividends in the port itself to maintain and increase its infrastructure and its integration within a national port network to be considered as a whole.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

'Future Fund' honestly just sounds like a marketing ploy to obtain buy-in from the public to liquidate our public non-cash capital assets. Rates rises incurred to present-day home-owners - of which I am one - are the answer here.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#6598

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

We already have plenty of public waterfront recreational land in this city. We don't have plenty of national ports. We need resilience and some diversity in our freight infrastructure, and the existing port contributes to this. It also provides employment for waterfront workers.

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

#6598

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools</b> .	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

no

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

#6598

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	I don't know
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

#### Tell us why

**#6598**

My understanding of the medium-term library solution is that it is not really viable to 'settle in' there, and is effectively not workable. So a long-term solution is really the priority, or a new medium-term solution.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

In favour

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

na

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

na

**#6599**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

-

**2a. Is there anything you would spend more on?**

Railway from Onehunga to the airport. an easy option... bridge and some ordinary surface line

Or

fast-track line from Newmarket via Puhinui to airport, return. Another easy option.

Let's sort that out and get it done

**2b. Is there anything you would spend less on?**

concerts in parks

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

#6599

-

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

to keep longer term income.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

-

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

#6599

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

keep some congestion from downtown.

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in	Do not support

#6599

2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

**#6601**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

I oppose the proposal to lease the operation of the port for 35 years for the following reasons:

**#6601**

**Disregards Expert Advice:** The proposal ignores expert advice on the port's unsustainable location, as evidenced by the conclusions of the last three port studies.

**Hidden costs:** Locking the port into its current location until at least 2060 will impose billions of dollars of road and rail costs on future generations as freight flows increasingly strain our already congested transport network.

**Long-term Impact:** Prolonging the status quo until at least 2060 will prevent Auckland from realising the significant social, economic, and environmental potential we could achieve by transforming the industrial port zone into a thriving urban environment, as we've done with Viaduct Harbour and Wynyard Quarter.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Investment in our poorer communities to achieve more equitable outcomes.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6605**

Less focus on roads for private transport and more investment in alternative modes and public transport.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

We should be building a city that supports cycling and walking. These enhance our environment and our health and get people off the road. Raised ped crossings also protect our most vulnerable. Similarly, TTM already fails to adequately manage risk to cyclists and pedestrians. This should be a priority in any reforms.

### **2a. Is there anything you would spend more on?**

Cycleways and enhancements to support walking and ped safety.

### **2b. Is there anything you would spend less on?**

Reading for cars. This is just burying our head in the sands of yesterday's solutions to moving people.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#6605**

**Tell us why:**

Without a wider agreement on how we fund the effects of climate change, this is premature, and feels like privatisation by stealth. For example, what mitigations are prioritised, who gets compensated, how do we ensure decisions are equitable, what areas need managed retreat? There is no strategic agreement on this so what are we funding?

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Privatisation is likely to lead to a degradation of the asset to maximise profit. And the idea of a future fund appears to be premature when many strategic decisions on how we deal with climate change have not been taken.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#6605

**Tell us why:**

This should prioritise public access and space rather than commercial or apartment development.

**5b. What option do you prefer for Bledisloe Terminal?**

Other

**Tell us why:**

Revisit in 15 years. It is likely there will be massive changes in shipping/climate that will make the best choice clear.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#6632

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Better public transport is a win for those using it and for those not using it (less congestion).

Id like to have enough faith in Auckland that as soon as public transport is better and cheaper than driving they will use it instead of driving, but theres still a lot of work.

I am uneasy about chopping funding for walking and cycling as it feels like a political move (less backlash) rather than a value move. Improving and maintaining walking and cycling in the more central bits of Auckland per capita cost cannot be anywhere near as expensive as planning work that never gets done.

### 2a. Is there anything you would spend more on?

Getting long term solutions off the ground. They dont need to be perfect, things can be left on the table, but buses and the current rail network are not going to be enough forever.

### 2b. Is there anything you would spend less on?

Green transport infrastructure. It would be enlightening to see the stats of per person carbon emissions for a bus, walking and cycling vs a car.

Getting the transport infrastructure 'green' when its probably so much better than personal vehicles should only be done if it doesnt slow down adoption.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

**#6632**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

The need to diversify is understandable, I feel like the push back on selling shares for this is if it is done in the context of kicking the can down the road.

Given the context of the recent fuel tax changes, climate change and covid, it seems sensible that Auckland tries to make the income / assets it does control directly more resilient.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#6632

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Community events and funding community programmes

**#6633**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Public transport

**2b. Is there anything you would spend less on?**

Cycle pathways unless already connected to pathways in the city. We lived on a street with a cycle pathway that was used less than 10 times in the year after it was built.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

The stadium needs redevelopment but we shouldn't spend any more money on it - selling to fund the redevelopment is a good compromise.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

It is more economically responsible to spread risk rather than having such a large amount of shares.

**4b. Which option do you prefer for the future of Port of Auckland?**

#6633

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in

Support

#6633

<p>the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	Support
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	Support
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	Support
<p>Re-introduce <b>recycling charges for schools.</b></p>	Support
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	Support
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	Do not support

#6633

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I do not support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of	Not Important

#6633

what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

We need to be smarter about our spending in this economy and these priorities are not aligned to our city’s most pressing concerns.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The items with long term, strategic impact rather than one off impacts - e.g. complete upgrades on legacy water/sewage/stormwater systems. add cycleways/bus lanes - even light rail?

#6644

I'd be happy to pay a small increase to the council for lobbying central government to contribute more. e.g. GST refunds to add to the overall council revenue.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less box ticking bureaucracy. I realise this is driven by a risk averse approach intended to protect the council against future litigation. But it can be a bit over the top. Consider other risk mitigation measures such as clients committing not to sue council, while council could still sue the clients(same philosophy as with ACC)

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Auckland's population and traffic will increase steadily over the LTP . Doing less than the Central proposal would mean a slow descent to Los Angeles and eventually Cairo/Mexico city. i.e. all main routes will be gridlocked for much of the day with huge negative economic and business impacts. As a city we need to get ahead of that by building the necessary infrastructure

**2a. Is there anything you would spend more on?**

Busways/ferries and cycle ways. Consider a light rail on the Northwest corridor rather than a busway.

I would definitely change many things about how we execute projects in Auckland (I have 30 years of mega project experience, mostly overseas) - I expect costs could easily be halved with a more competent management and governance.

**2b. Is there anything you would spend less on?**

No need for a bike ferry between Northcote and Auckland. Very few would use it. I suggest overriding Waka Kotahi/NZTA and trial allowing the eastern lane for walking/cycling. It is rather obvious that on normal commuting traffic this would not make a material difference to traffic flows.

#6644

### 3. Which options do you support for the North Harbour Stadium?

I don't know

#### Tell us why:

I'm not clear on whether North Shore residents need a dedicated stadium - if the connectivity across the bridge was enhanced the existing stadia might be enough for our city

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#### Tell us why:

The port profitability is tracking towards > \$50 million/year or more. This is approximately what the Auckland Future Fund would return, and the dividend is no more or less guaranteed than the Investment Fund dividend. (diversified assets with a range of risks versus stable utility). The current ownership arrangements ensure Aucklanders have some say in how it develops in the years ahead.

More importantly, selling the asset a) removes the strategic control on what happens within the port business and b) exposes Auckland/New Zealand to being overcharged to feed the port company dividend streams. This is exactly what has happened nationally with ex SOEs, most notably with the power company and oil refinery assets. The port would be no different.

Also - I have no faith that the council mayor/CFO of the day will not sell down some of the Auckland Future Fund shares to cover council budget shortfalls during down cycles. This is what has happened so far with every saleable asset since the Supercity was formed, most recently with the 7% airport share sale.

### 4b. Which option do you prefer for the future of Port of Auckland?

#6644

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The port profitability is tracking towards > \$50 million/year or more. This is approximately what the Auckland Future Fund would return, and the dividend is no more or less guaranteed than the Investment Fund dividend. (diversified assets with a range of risks versus stable utility). The current ownership arrangements ensure Aucklanders have some say in how it develops in the years ahead.

More importantly, selling the asset a) removes the strategic control on what happens within the port business and b) exposes Auckland/New Zealand to being overcharged to feed the port company dividend streams. This is exactly what has happened nationally with ex SOEs, most notably with the power company and oil refinery assets. The port would be no different.

Also - I have no faith that the council mayor/CFO of the day will not sell down some of the Auckland Future Fund shares to cover council budget shortfalls during down cycles. This is what has happened so far with every saleable asset since the Supercity was formed, most recently with the 7% airport share sale.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

I suggest the Council could decide between funding council services or investing in the future fund on a year by year basis - depending on the wider budget position.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

I like the idea of self insurance through a Future Fund. However it is now widely realised that the funding model for all New Zealand Councils is broken - rates and minor income streams can't cover the infrastructure and operational costs councils

#6644

now have to cover. The answer has to be a change of the model at national level - possibly Central Government sharing some GST, or council specific revenue streams so the budgets can balance without selling strategic assets. The mayor/council together with other like-minded councils should lobby the government to rectify this situation.

Also - Auckland/NZ should continue to pursue the idea, previously championed by Wayne Brown, to integrate Northport into the North Island logistics system. Done properly it would enhance Auckland port profits and step change economic benefits to the Auckland region.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Done properly (by Eke Panuku or similar) this land should return a lot more revenue to the council than it does now. And giving access for Aucklanders to our harbour can significantly enhance the liveability of the city center.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Done properly (by Eke Panuku or similar) this land should return a lot more revenue to the council than it does now. And giving access for Aucklanders to our harbour can significantly enhance the liveability of the city center.

**6a. What do you think of these proposals?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better and more frequent public transport

Climate resilience

Public events

**#6649**

Better responsiveness to complaints

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

No - I want the council to do more

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We need more raised pedestrian crossings and cycle ways

**2a. Is there anything you would spend more on?**

Public transport

**2b. Is there anything you would spend less on?**

No

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#6649**

Auckland Council should keep its shares in the airport as a critical asset to Aucklanders, to protect its long term interests

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#6649

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting	Very Important

#6649

volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

The reality is that removing bins just means people will dump their rubbish - it's better to have a mix of public rubbish and recycling bins in critical places

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I support further investment into a surface light rail rapid transit network starting with a route from the City Centre to Mt Roskill, and then further expansion to Onehunga, Māngere and other transport corridors such as the North-Western and Northern corridor. Any busway development along the North-Western corridor should be future-

**#6652**

proofed for surface light rail upgrades. Consistent work over the last decade, reflected in Auckland Transport's Auckland Rapid Transit Pathway 2023 report, has shown that to effectively address Auckland's congestion issues we cannot rely solely on a bus network. The busiest bus corridors in our city are already reaching capacity, and the long-term plan should reflect that reality.

Additionally, I support Auckland controlling its own transport priorities. An "Auckland Deal" provides the means for central government to support Auckland Council's priorities, rather than the other way around. A surface light rail network would provide opportunities for growth, development, and productivity in the city. I believe this should be included in the "Auckland Deal" with central government. I urge Auckland Council and the Mayor to make the development of a surface light rail network, starting with the City Centre to Mt Roskill line, a priority in such a deal.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I do not fully support this plan as it does not include investment and commitment to a surface light rail rapid transit network. Any work on a busway in the North-Western corridor should be future proofed for surface light rail and there should be commitment to surface light rail along the City Centre to Mangere corridor, starting with a City Centre to Mt Roskill line. I worry without this we will not be able to address Auckland's congestion issues as projected growth in these corridors would require higher capacity transport modes such as surface light rail.

**2a. Is there anything you would spend more on?**

I want to see Auckland Council spending more to develop a surface light rail network, with a City Centre to Mt Roskill line constructed as a priority. There has been significant design work done by Auckland Transport and Waka Kotahi on surface light rail pre-2019. Adopting these plans will allow any work to be fast tracked with only minor updates and improvements needed. From this stage I would support expansion of surface light rail, such as what is proposed in Auckland Transport's Auckland Rapid

**#6652**

Transit Pathway 2023 report. The line should be expanded to Onehunga and Mangere, and eventually to other transport corridors such as the North-Western or Northern corridors, upgrading any busway infrastructure. Staging the development of the network in this way ensures it remains affordable for Aucklanders and is practical to build.

Congestion is a major issue in our city that costs Aucklanders time and money. It restricts our growth and potential. Consistent work done over the last decade has shown that we cannot only rely on our bus network in our busiest corridors in order to address our cities transport issues. Surface light rail provides a higher capacity solution that is affordable, deliverable, environmentally friendly, and will connect communities in Auckland. It provides a plethora of economic benefits that will create jobs and help businesses while improving our streetscapes to make our city a better place to live.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#6652

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

I don't know

#6652

increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support

#6652

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Pay less

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6656**

Speed pumps and speed reductions, don't limit Street parking and don't start charging for it in urban areas. Don't reduce rubbish collection to once a fortnight. Don't add more bike lanes.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Too many bike lanes slowing down traffic and hardly anyone using them in this normally very wet city.

**2a. Is there anything you would spend more on?**

Improving roads

**2b. Is there anything you would spend less on?**

Bike lanes, speed pumps, reduced speed to 30km zones, limit urban parking

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

We have No money to spend on it

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**#6656**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Don't sell all the assets we can't get them back once sold

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Profit for the future, don't spend it today when it's needed in the future

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Rubbish ends up all over in the nature and someone having to pick it up surely will cost more than emptying bins in one location

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Stop wasting money on cycle lanes, speed pumps.

Collect rubbish weekly and don't get rid off all the public bins.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop funding AT to build raised roading as a traffic management tool

**#6660**

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

1. Speed limits need to be returned to normal - and major arterial roads need to be strengthened, improved and speed limits increased.
2. Cycles (and busses to some degree) do not have right of movement over other vehicle types. especially on major and city centre roads.
3. Pot holes need to be addressed urgently. The state of our roads is abysmal. This is because we are spending transport money on the wrong things - specifically raised crossings.
4. Nearly every raised crossing needs to be removed. They are increasing pollution, massively increasing travel time, and damaging everyone's vehicles. By not allowing emergency services getting to a situation fast they are directly causing loss of life, and urgent care

### 2a. Is there anything you would spend more on?

Road independent cycleways like the ones running down the motorways. Use elevated bridges or underground walkways through intersections. This approach works brilliantly in large cities around the world.

Save the cyclists! This is the only way to safely allow cyclists to move across our massively distributed city.

This does not mean stupid expenditure like a harbour crossing

### 2b. Is there anything you would spend less on?

Road cones

## 3. Which options do you support for the North Harbour Stadium?

I don't know

**#6660**

**Tell us why:**

I've been there thrice since it opened. To far from me to care

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Use the NZ Super Fund to manage the investments on the Council's behalf. Their track record is great

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Keep the asset and develop it - keep investing in the port

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#6660

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Make the long term money out of the port growth that will happen as a byproduct of the growth of Auckland and its population over time

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

As above

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

#6660

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

#### Tell us why

Going rubbish bin free is nuts. People throw stuff from their cars now - what do you think will happen if receptacles are not provided?

**#6660**

Just because some people are noisy about cultures and environmental work does not mean the other 90% should pay for it.

It is not the council's job to teach Māori or any language, nor apply environmental policies above sensible sanitation and hygiene functions.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Unfocused on council fundamentals and function. Volunteers are massively valuable, and are supported by providing council managed parks and properties for their use.

IT IS NOT THE COUNCILS JOB TO FUND THE WORK.

**8. Do you have any other comments?**

Stay centered on core council functions. Do not step outside these tasks. No, no, no to anything ideology based.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to	Not Important

#6674

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#6682**

Do not support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

#6682

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Albert-Eden

8. Do you have any other comments?

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do less
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- Cycling infrastructure and the reduction of night sky light pollution.
- More cycle ways. Safer cycle ways for commuters.
- Fewer street lights. Turn them down 25-75% &. Install fewer.

**#6704**

Install the short ones for pedestrians. Remove lighting from green belt areas or replace them with low lumin 2200K lamps.

Buy only 2700 Kelvin bulbs or lower for city council infrastructure.

Thanks.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Nope.

Maybe fewer perks for admin staff, & fewer people earning over \$150'000.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We have to promote cycling, walking and electric vehicles.

We are literally talking about saving the planet here.

Plus it makes happier and healthier people.

**2a. Is there anything you would spend more on?**

Biodegradable everything.

**2b. Is there anything you would spend less on?**

Plastic.

Lawn mowing.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

#6704

**Tell us why:**

- It can't be left to rot.
- Don't privatise.
- The present structure hasn't been working.
- It needs to become more multifunctional.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Don't sell the airport.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Privatisation leads to injuries and the erosion of worker rights and pay packets.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The government and rates need to assist with the future.

**#6704**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Plant more trees and natives, grasses and flaxes.

Let grass areas wild. Let people plant berms.

Pick up more rubbish.

Fine polluters heftily.

Evict environmental criminals from the city.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Wharves around the country need to be established to do their bit.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Aucklanders need access to their water. It could be for humble fishing and sailing boats, for people who can prove they live 9 months of the year in Auckland.

**6a. What do you think of these proposals?**

#6704

#6704

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Do not allow too much surveillance.

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

Albert-Eden, Māngere-Ōtāhuhu, Papakura, Whau

**Albert-Eden Local Board Priorities**

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#6704

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

It would take a lot of education to stop littering.

Also businesses who sell food that then gets its packaging dumped as rubbish, they should pay an extra rubbish collector levy.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**Kaipātiki Local Board Priorities**

**7b. What do you think of our proposed priorities for Kaipātiki in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

#6704

Investing in the maintenance and renewal of our parks, playgrounds, recreation facilities, and other public spaces so they continue to meet our communities needs.	
Supporting a community-led approach for the delivery of relevant and diverse services that connect the community	
Supporting environmental groups, community volunteers, and our diverse communities to carry out environmental restoration projects, including stream clean-ups, habitat improvement, native riparian planting, and pest control.	
Begin implementing the Mini Shoreline Adaptation Plan for the Little Shoal Bay / Te Wai Manawa alongside our community to address the issues caused by flooding and seawater inundation.	
Supporting a community climate activation programme to support and amplify community initiatives identified in the Kaipātiki Climate Action Plan.	
Building relationships with local iwi and mataawaka groups so that Kaipātiki is rich with Māori identity and culture.	

**Tell us why**

**7c. What do you think of the Kaipātiki proposed priorities for the 10-year budget 2024-2034?**

I support all priorities

#6704

## Māngere-Ōtāhuhu Local Board Priorities

7b. What do you think of our proposed priorities for Māngere-Ōtāhuhu in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Strengthen partnerships with local mana whenua through project delivery, including Te Kete Rukuruku, completion of David Lange Park playground and improvements.	Very Important
Deliver community climate initiatives such as Low Carbon Lifestyles, and Māngere Bike Hub with our community partners.	Fairly Important
Deliver a community-driven safety action plan aimed at tackling anti-social behaviour and addressing local safety concerns enhancing the overall sense of safety within our local community.	Fairly Important
Improve employment and economic opportunities through our local economic broker programme.	Fairly Important
Support community-led activations at our parks and facilities through our community grants.	It's fun to get the community together.

Tell us why

7c. What do you think of the Māngere-Ōtāhuhu proposed priorities for the 10-year budget 2024-2034?

## Papakura Local Board Priorities

7b. What do you think of our proposed priorities for Papakura in 2024/2025?

#6704

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

<p>We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.</p>	<p>Fairly Important</p>
<p>We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.</p>	<p>Fairly Important</p>
<p>We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.</p>	<p>Very Important</p>
<p>We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.</p>	<p>Fairly Important</p>
<p>Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.</p>	<p>Fairly Important</p>

**Tell us why**

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

#6704

## Whau Local Board Priorities

### 7b. What do you think of our proposed priorities for Whau in 2024/2025?

I support all priorities

#### More specifically, what do you think of each priority we've listed above?

We will work with our partners to build community capacity, from climate/emergency preparedness and community resilience to increased participation and community capability.	Fairly Important
We will encourage and support volunteerism and community participation, especially through environmental and ecological initiatives around the Manukau Harbour and foreshore, the Whau River and its tributaries, and our urban ngahere.	Fairly Important
We will continue to undertake governance-level engagement and collaboration with mana whenua and the other west Auckland local boards.	Fairly Important
We will work with the local BIDs where possible, to support local economy and to realise shared goals around climate action, community connection and belonging.	Very Important
We will consider accessibility and inclusion across our services, engagement, and other initiatives.	Very Important

#### Tell us why

**#6704**

**7c. What do you think of the Whau proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More stormwater infrastructure, more wet lands to mitigate flooding

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6705**

Less vanity projects, less hiring expensive contractors, less of unnecessary and expensive speed humps and road crossing.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

NA

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Less on road crossings, speed humps and expensive traffic management that does absolutely nothing.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#6705**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

#6705

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#6705

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#6705

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Nothing

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop spending money on modifying footcrossing and less road works.

**#6711**

## 2. What do you think of the transport proposal?

Don't support any of the proposal

### Tell us why:

Public transport is soo expensive at the moment so people prefer to drive and pay for fuel rather than use public transport. There is no point improving service when people can't afford to use this service. Make public transport fares cheaper than only this proposal will make sense.

### 2a. Is there anything you would spend more on?

Nothing, everything is so expensive already so can't afford to spend any more due to inflation.

### 2b. Is there anything you would spend less on?

Yes bus fares. Cheaper public transport.

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

**#6711**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

This way people will not have to pay higher rates to fund council projects. As it is people are struggling with daily life expenses so they don't need rates increase to add to the burden.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

#6711

**6a. What do you think of these proposals?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland transport and watercare are the core services of the council and people need to pay more to have these improve. Need to stop wastewater flowing into the harbour and more public transport to reduce congestion.

**#6714**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

All the local regeneration and economic development needs to stop. We don't have the money and we just need to wait until we have a surplus before these activities can continue. The current regional town centres are fine, just maintain them as they are but do not do any changes.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Need more public transport use. Stop traffic calming.

**2a. Is there anything you would spend more on?**

public transport and associated technology.

**2b. Is there anything you would spend less on?**

Traffic calming

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

We have no money for redevelopment. Its not important and people don't need it. Maintain the current asset in is current form.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#6714**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

This is a bad idea. It is unrealistic to think a professional fund manager will get a better return compared to direct ownership. If Auckland council can't get ports of Auckland to deliver a profit, can a fund manager?

The points about increasing the insurance excess and having lower premiums makes sense, but this only works once. Once one storm comes through, we have used up the fund and then what do we do?

Insurance is there to reduce our risk and if anything, we need to ensure we are fully insured at all times. If the policy costs keep going up, then rates need to go up to match the increase in costs. If people can't afford to live in a well insured city, they are free to leave.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Leasing the land is short term thinking. In the current model, we can ensure it is maintained well and the assets are looked after. As a lease, the company running it will be incentivised to extract as much value from the assets as they can during their lease. When it ends, we'll need to fund a huge repair bill which will cancel out the benefits of the lump sum payment now.

Again, we need to live within our means. If we need more income now to pay for our costs, raise the rates by 50% or whatever is required. If people can't pay it, they can move to Invercargill.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

**#6714**

Continue to use it to fund council services

**Tell us here:**

We don't need a fund. We just need to pay the insurance premiums to protect our assets from risks in the future.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Disagree. The council has no money to self-insure. If we had huge surpluses and had reserves to play with, then sure we can self insure. But right now, we have huge debt and no cash at all, we cannot afford to be even thinking about self-insuring right now.

Try this proposal in 20 years when we have run a surplus.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

The purpose of the city is to facilitate trade and commerce primarily. If these don't happen, people's incomes will fall, they will leave and the city will die (Detroit). Restricting our trade by reducing the size of the port will damage the long term via

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

The purpose of the city is to facilitate trade and commerce primarily. If these don't happen, people's incomes will fall, they will leave and the city will die (Detroit). Restricting our trade by reducing the size of the port will damage the long term viability of the city.

#6714

Also, silo park and Wynyard quarter are not fully developed yet. Lets not talk about taking port land until we have fully developed the barren dirt over there first.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland Council should do more to realise its Climate Plan and Transport Emissions Reduction Plan. I'd like to see the electric ferries and more electric buses rolled out asap. Pedestrian and cyclist friendly routes and spaces are lacking near my home so I lack the confidence to venture far at all on my bike. I would love to have the option of

#6738

converting more of my journeys away from the car. Local speed reductions are great but at 30 sign is insufficient to cue drivers into the appropriate behaviour. I'd like to see more investment in street architecture that slows drivers down.

Parts of my neighbourhood were hit hard by the storms of 2023, and I would like to see the Make Space for Water plans implemented as quickly as possible to provide peace of mind for residents and local businesses.

This kind of planning and infrastructure is vital to build the resilience of our communities and so is building community networks. We saw how important community networks are during Covid lockdowns and in the aftermath of the floods. Council doesn't necessarily have to do everything for people but it can provide much-needed co-ordination and support. It seems to me that Auckland has a raging mental health crisis on its hands after all this trauma and I believe council has a role in helping our people feel more connected and invested in the future of our city.

I am against reducing council backroom staff levels to the point that they are overwhelmed and unable to give good advice. As a rapidly growing city in a rapidly changing global environment we need to be able to attract and retain people with knowledge and creativity to help us address the very serious issues we face and help make opportunities for Aucklanders to thrive.

Please prioritise communication and IT systems to improve customer experience - especially when an issue involves more than one council organisation eg Watercare, Auckland Transport

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

I feel very, very strongly that Council should stop enabling housing at the edge of the city where there is no infrastructure. We need a compact city to grow a strong economy, a lower carbon future and better services for residents. We can't afford to continue giving an outsized voice to existing residents of well-served central suburbs to the exclusion of the (many more) future residents that densification would bring.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I am strongly in favour of capping weekly transport costs at \$50. I think it would mean a fairer sharing of the burden of running our transport network.

**#6738**

I want to see the City Rail Link completed as soon as possible, so it can supercharge Auckland's rail services. Yes, they are going to be expensive to operate but I think the impact is going to be huge - more reliable, frequent and rapid rail services will take lots of cars off the road. Not to mention the impact of the beautiful stations on our sense of identity as Aucklanders.

It is vital we continue improving bus, rail and ferry networks for more reliable service. Aucklanders have already shown how willing we are to use public transport when it is reliable and convenient. The dual benefits of emissions reduction and congestion reduction are hard to beat!

Please expand the creation of protected cycle ways and raised pedestrian crossings, not stop this. Pedestrians and cyclists, many of them children, are not safe on many of our roads. I believe we must prioritise making our city safer for people and stop prioritising the flow of private transport - particularly where there is a real alternative. Prioritising traffic over people in our communities makes it stressful just being out and about and using local amenities - particularly for older people who may have limited mobility. For business and trade vehicles, increased public and active transport use through council investment will reduce congestion, allowing them improved travel times even with the adjustments I have suggested.

## **2a. Is there anything you would spend more on?**

I would like to see the city rail link completed and the rapid transit network expanded. We must continue to improve bus, rail and ferry services. We know that fast, reliable public transport options attract Aucklanders and help us take cars off the roads.

I want to see more money spent on designing our streetscapes to make them safer for people of all ages - on foot, pushing prams or on bikes/scooters etc.

safety projects around schools and town centres.

I want to see us rolling out electric ferries and more low-emission buses along with the infrastructure that makes this possible.

I support the Lincoln Road and New North Road corridor upgrades.

I would like to see greater investment in rail: rolling stock, and more support for ongoing Kiwi Rail track maintenance.

More street trees and rain gardens, please! Shade is becoming more and more important and we clearly need to make more space for water.

#6738

## 2b. Is there anything you would spend less on?

I think there are areas where council could spend less. For example, instead of expensive and unnecessary widening of already wide roads like Te Irirangi Drive, we could use existing space for bus lanes and active modes. The Eastern Busway could be rescoped to use the existing road corridor and still have room for a cycleway and footpath. The excess land could then be used for housing.

I do not support the full expansion of the 'unsealed roads' programme.

Spend less by not allowing ever more new housing developments on the city fringe that require us as ratepayers to fund more and more infrastructure and services but rather encourage increased density in areas already well-served or where the necessary upgrades are less expensive.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

I do not supporting continuing to pump money into a facility that is both making a loss and doesn't work for the local community. If redevelopment costs more than the \$33m it would cost to maintain it as is, I would support the sale of sections of the precinct that are not needed for community use.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

The airport shares are a strategic asset that has paid good dividends in the past and will again in the future. Reduced earning performance during the period most affected by Covid should not be used as a reason to sell.

#6738

I am also concerned that there's nothing to prevent the fund from being whittled down in time in a reactive way rather than being used strategically to transition to a low-carbon and resilient economy, and city.

There are currently no ethical parameters for the Future Fund, so it might invest in companies that exacerbate the climate issues that the fund is designed to address. Investing in a non-ethical fund may jeopardise council's access to low-cost infrastructure loans via Green Bonds.

#### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#### **Tell us here:**

Leasing the port essentially privatises what is essentially monopoly infrastructure for a generation or longer. We would lose control over a key part of our waterfront and the income from its profits (\$52M last year). The proposal may also lead to worse outcomes for workers, and higher costs for New Zealand businesses and consumers. A ramp-up of port fees, as seen in Melbourne after a similar move, could have a significant negative effect on the Auckland economy. And private port companies tend to be based off-shore - so that is where the profits from operating our port will go too.

I'm also concerned that there will not be sufficient maintenance and modernisation in the latter years of the lease, meaning Aucklanders would have to bear these costs once the port operations are returned to the city. You only have to look as far as New Zealand's railways privatisation to see how that plays out.

The Future Fund may be invested in counter-productive assets in terms of climate change and there is nothing to stop future council's from raiding this kitty to fund things other than investing in a low-carbon transition.

#### **4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

#### **Tell us here:**

#6738

Port dividends have always been used to fund council services and I do not support a reduction in services when the population is getting larger and the challenges are getting greater. Investing dividends in a future fund is essentially cutting this amount from the Council's budget. This is not the time for that. This is the time for us to invest in our people and our infrastructure.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

It will open up more of the waterfront space for public enjoyment and events.

Cruise ships could be relocated from Queen's Wharf, meaning less impact on ferries and a more amenable space.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

It would be hugely expensive and environmentally damaging to move port operations from Bledisloe Wharf, and the port would be less able to return a dividend to council. We can't have our cake and eat it too!

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know

#6738

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

-

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important

#6738

Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I support all of these suggestions but it would also be nice to see some specific ideas for the Maungawhau subdivision. In particular I'd like more action in my neighbourhood to make it more pedestrian and cycle friendly.

**8. Do you have any other comments?**

I want Aucklanders to enjoy a resilient, healthy, safe and welcoming city. I do not want:

The sale of \$300 million of Council community centres, libraries, parks and pools over ten years

Big cuts in the transport that helps Aucklanders get around- buses, trains, safety projects and footpaths

Cuts in planned climate action, such as delaying the electrification of buses and ferries

Reduced funding to control pest plants and animals and combat kauri dieback

**#6738**

I do want:

Community centres, libraries, parks, events and programmes, arts and sports opportunities

Better transport options including more rapid and reliable electric buses and trains, road safety initiatives, improved footpaths and cycleways, and safe crossings in town centres. An example important to me is to make the area of Uptown around the new Maungawhau CRL station more walkable.

Community environmental initiatives, tree planting, pest control, biodiversity, stream cleaning and carbon emissions reduction. These are not only important for our environment but also for building community.

The completion of the central interceptor project so we can reduce sewage outflows in Meola creek and other parts of Auckland.

I strongly oppose the Mayor's proposals for privatising the Port operations, selling the last of the airport shares and establishing the proposed "Future Fund". Instead

I support reasonable rates rises and sensible borrowing and investing in our people and our infrastructure NOW.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Sustainable energy production and climate resilience.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6742**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Should continue previously-planned initiatives especially pedestrian crossings and bike paths.

**2a. Is there anything you would spend more on?**

Walkway and cycle path across the harbour bridge.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

There are other pressing issues in Auckland than a new stadium.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

#6742

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

A new AT organisation that prioritises getting Auckland moving first. Lose the light rail focus. Get rid of the CEO, and remove Darby from the board, change the governance model. Remove Panuku Chair and review board and governance.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6745**

Lell Cycleways, Less subsidising social initiatives best done by the central government

**2. What do you think of the transport proposal?**

I don't know

**Tell us why:**

I have no confidence in the mayor or the majority of the people he gets advice from on matters of transport. AT remains a joke, and I have no confidence in it.

**2a. Is there anything you would spend more on?**

Hiring a more capable management team at AT and getting the governance model right with its board and org focus.

**2b. Is there anything you would spend less on?**

Transport advisor to the mayor. Consultants/Staff/Councillors that believed removing cars from Queen St and 30kph speed limits all those people need to go. They do not act for Auckland.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Seems a pointless relic of when Auckland had more than one council and is hardly used.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**#6745**

**Tell us why:**

We need it, but can we afford it with debt so high? The central government needs to look at the funding model to help.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The port is profitable now. Why should we have the profits going offshore? Pushing up the lease cost to meet the mayor's vision will impact our economy and be inflationary.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

We are a growing country. We need to grow our port and provide export and import facilities close to the industry that uses it. Where is the vision to develop this? Our country relies on exports to fund what we do. The fixation with Northport is crazy. Ad

#6745

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Its a port and we need a growth plan around it.

6a. What do you think of these proposals?

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#6748

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

**Tell us why**

Parks should have better signage and public education, including recycling bins, as this will only encourage littering.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I have not looked at them.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#6753**

Do not support most of the proposal

**Tell us why:**

we need to cut spendings and investments

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

Council staff number

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Cut the expenditure

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

#6753

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Do not support

#6753

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce <b>recycling charges for schools</b>.</p>	<p>I don't know</p>

it already generates revenue.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

#6825

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Do not support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#6825

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Other
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

**#6828**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

#6828

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#6874

Invest in roads less.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Invest in public transport only and reduce private car use.

**2a. Is there anything you would spend more on?**

Free public transport for all.

**2b. Is there anything you would spend less on?**

Investing in transport projects for private cars.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

I have lives in Auckland for 6 years and never visited the stadium.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Keep it in the public pocket.

**#6874**

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Move the port and redevelop this prime city centre location. Use land value capture to fund the move and redevelopment.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Make Auckland great.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Invest in schemes that are carbon neutral.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

**Tell us why:**

Keep making money from the wharves until there is a master plan in place and funding to redevelop the piers.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like the council to be more transparent regarding what spend is going where, and to justify the amount they are asking rate payers to pay more for.

Specifically, I would like the rubbish collection service to stay the same as it is.

**#6903**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Pay upper management less. There should be a cap on that kind of salary, and salary should not be an incentive to work for the council.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

Spending seems to be extremely frivolous in regard to transport. We seem to be paying huge amounts for more traffic, and minimal increases to safety.

Spending more money on public transport over the last few years has only seem to make things worse, and less reliable.

**2a. Is there anything you would spend more on?**

None.

**2b. Is there anything you would spend less on?**

Safety humps and traffic lights.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

If has little effect on me however this changes.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#6903**

I don't know

**Tell us why:**

Is a council supposed to be run like a business, attempting to maximise profit? Having more funding sounds good, however I don't think this has ever paid it's people back in the form of reduced rates. If anything, it only funds projects and never opex.

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

Both options lead to ratepayers paying more, which I heavily dislike.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

I'd like to know how things would be impacted if there were no increases to ratepayers.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

#6903

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Other
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	I don't know

the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers	Fairly Important
-----------------------------------------------------------------------------------------------------------------------------	------------------

#6903

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Not Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

I think taking away bins is only increasing the amount of trash is appearing around. Not only is the council reducing public bins, but reducing the amount bin collection occurs. Can they justify why, and what their goal is by doing so?

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

They are not specific enough for me to say they are important enough to support.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More for the arts, especially performing arts

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6905**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Efficient roads are important for public transport as well as cars. Excessive speed bumps risk lives.

**2a. Is there anything you would spend more on?**

People who know what they're doing....

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Community facilities should be for the community

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#6905**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

The ports inhibit developing downtown for community use to make it more appealing to local and tourists

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#6905

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

**#6909**

Support all of the proposal

**Tell us why:**

Public transport is always a big part in getting people to places. Improving public transport will help lower traffic conditions especially in rush hour and be more convenient for those who rely on it.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

**#6915**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Focus should be on improving public transport

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

No

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Better use of assets

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Better use of assets

**4b. Which option do you prefer for the future of Port of Auckland?**

**#6915**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Better business decision

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Lesser rate increase than if investing in Auckland Future Fund.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Concerned that there needs to be some legal safeguards so future Councils can't fritter Auckland Future Fund away.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Good idea as long as it's not a stadium!

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#6915

Tell us why:

Better business decision

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

I don’t know

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#6926**

Support most of the proposal

**Tell us why:**

Raised calm crossing make people angry - think of better solutions

City needs better management

**2a. Is there anything you would spend more on?**

Cycleways, public transport, the parnell sink hole where workers do not seem to be answerable and have no sense of urgency - like old fashioned public servants at their worst

**2b. Is there anything you would spend less on?**

Council ceo and management

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I live in the city and do not spend time on Nth Shore nor at sports matches

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Airport should stand on own two feet

**4b. Which option do you prefer for the future of Port of Auckland?**

**#6926**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Auckland needs waterfront that locals and visitors can be proud of

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#6926

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Other</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#6926

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#6926

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6952**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Infrastructure for electric transportation: bikes, buses, and cars.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Community space for sports is important, but I worry that commercial entities are taking advantage of council resources without fair payment.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#6952

**Tell us here:**

Time and time again it has proven disastrous to allow private ownership of essential infrastructure. It is a common good that should NOT be run for profit.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I support further investment into a surface light rail rapid transit network starting with a route from the City Centre to Mt Roskill, and then further expansion to Onehunga, Māngere and other transport corridors such as the North-Western and Northern corridor. Any busway development along the North-Western corridor should be future-

**#7006**

proofed for surface light rail upgrades. Consistent work over the last decade, reflected in Auckland Transport's Auckland Rapid Transit Pathway 2023 report, has shown that to effectively address Auckland's congestion issues we cannot rely solely on a bus network. The busiest bus corridors in our city are already reaching capacity, and the long-term plan should reflect that reality.

Additionally, I support Auckland controlling its own transport priorities. An "Auckland Deal" provides the means for central government to support Auckland Council's priorities, rather than the other way around. A surface light rail network would provide opportunities for growth, development, and productivity in the city. I believe this should be included in the "Auckland Deal" with central government. I urge Auckland Council and the Mayor to make the development of a surface light rail network, starting with the City Centre to Mt Roskill line, a priority in such a deal.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Auckland City Council should defund all diversity and cultural awareness staff training programs and events.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I do not fully support this plan as it does not include investment and commitment to a surface light rail rapid transit network.

Any work on a busway in the North-Western corridor should be future proofed for surface light rail and there should be commitment to surface light rail along the City Centre to Mangere corridor, starting with a City Centre to Mt Roskill line. I worry without this we will not be able to address Auckland's congestion issues as projected growth in these corridors would require higher capacity transport modes such as surface light rail.

**2a. Is there anything you would spend more on?**

I want to see Auckland Council spending more to develop a surface light rail network, with a City Centre to Mt Roskill line constructed as a priority. There has been significant design work done by Auckland Transport and Waka Kotahi on surface light

**#7006**

rail pre-2019. Adopting these plans will allow any work to be fast tracked with only minor updates and improvements needed.

From this stage I would support expansion of surface light rail, such as what is proposed in Auckland Transport's Auckland Rapid Transit Pathway 2023 report. The line should be expanded to Onehunga and Mangere, and eventually to other transport corridors such as the North-Western or Northern corridors, upgrading any busway infrastructure.

Staging the development of the network in this way ensures it remains affordable for Aucklanders and is practical to build.

Congestion is a major issue in our city that costs Aucklanders time and money. It restricts our growth and potential. Consistent work done over the last decade has shown that we cannot only rely on our bus network in our busiest corridors in order to address our cities transport issues. Surface light rail provides a higher capacity solution that is affordable, deliverable, environmentally friendly, and will connect communities in Auckland. It provides a plethora of economic benefits that will create jobs and help businesses while improving our streetscapes to make our city a better place to live.

Additionally, we need to invest money in services, infrastructure and, if necessary, facilities that will promote the safety of passengers on our public transport network. I have, from time to time, felt unsafe as a passenger while travelling on public transport. More training and support should be given to clippies and drivers to promote safety and a zero tolerance attitude taken to people who make others feel concerned for their personal safety.

**2b. Is there anything you would spend less on?**

I would spend less on road improvements and allocate the funding to mass-transit.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I can't easily access North Harbour Stadium from where I live (Kingsland). I am unlikely ever to use it as a result. I have no view about its future one way or another.

**#7006**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The driver for this proposed sale is short-term impecuniosity. This will have to be managed in other ways as, long term, it is vital that ACC maintains some direct influence over this critical piece of infrastructure.

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Profits from existing infrastructure should be applied to fund future infrastructure. The reason such infrastructure exists is primarily to improve Auckland's economy. It is not to subsidise council services. By focusing on improving Auckland's economy, the rate base will naturally improve. This in turn will allow for a greater provision of other services.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#7006

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

These old wharves are not very valuable as public spaces. They are hard to access for most Aucklanders and, being wharves, require significant expenditure to maintain. They should be used for what they were designed for and greater thought given to the pr

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

These old wharves are not very valuable as public spaces. They are hard to access for most Aucklanders and, being wharves, require significant expenditure to maintain. They should be used for what they were designed for and greater thought given to the provision of public spaces in the areas where Aucklanders actually live.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

#7006

<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce <b>recycling charges for schools</b>.</p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>I don't know</p>
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	<p>Support</p>

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

#7006

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important

#7006

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

Not Important

**Tell us why**

Minimising waste by eliminating rubbish bins in parks seems dogmatic and unreflective of reality.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	
Parks and Community	As proposed
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More available subsidised housing for seniors. Investment in water infrastructure so we don't end up like Wellington and other cities.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7007**

Paying the huge salaries of council members.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I feel that the city receives enough money to maintain the roads etc, however, spends it on other less important things then comes back and asks for more money? Do we not pay enough taxes to fund the infrastructure here in AKL? Where is all our tax money going/

**2a. Is there anything you would spend more on?**

Affordable Housing for those who cannot afford the ridiculous price of houses nowadays?

**2b. Is there anything you would spend less on?**

Council salaries.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#7007**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Makes sense to me?

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

#7007

**6a. What do you think of these proposals?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better public transport infrastructure and choices. This is supposed to be an international city? Also better CBD - it’s an embarrassment.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7023**

Less wasted time on roading projects.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I support more public transport but I don't support Auckland Transport not regulating all the millions of traffic plans we have around the city. I believe government should pay more for Auckland - we will continue to house a quarter of the country, if not more.

**2a. Is there anything you would spend more on?**

Public transport - fast, reliable, clean buses with friendly drivers!

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

We have to be forward thinking - Auckland houses quarter of the country and is the only international city. We cannot keep going as we are and the ratepayer base is only going to get smaller as housing becomes unaffordable.

**#7023**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

I don't honestly know what the best option is - I want this land redeveloped so that Auckland has a harbour it is proud of.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

I'd like the port precinct redeveloped

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

This is a jewel of Auckland - it's ugly and unused currently.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#7023

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>

#7023

Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------

#7023

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

Pt Chev and Mt Albert centres desperately need development - they are growing areas and not fit for purpose. Focus on getting facilities right first.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I'd like to see a lot more focus on town centre redevelopment, reducing crime and improving bus and train travel.

**8. Do you have any other comments?**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#7059

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Auckland has more large outdoor regional stadiums than it needs. North Harbour Stadium is not used often enough by commercial events so is costing the city too much to maintain. It isn't financially responsible to keep spending ratepayer money on an asset that is underutilised. Any major events attracted to the venue will simply shift revenue from other Council owned stadiums, not generate new revenue for the city. The North Shore community will be better served by a stadium which is fit for purpose, affordable and is used more often by more people.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#7059

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland Council should provide more support for under-served communities (such as women, ethnic communities, rainbow communities, people with disabilities, neurodiverse people) through grants and funding that is accessible and sufficient.

I also want Aotearoa and Auckland to do more in terms of public infrastructure investment. Everything is about cars and roads. This is very unsustainable, costly for

**#7079**

families and the Government, inefficient especially with traffic congestion, and very backwards not making the most of technology that is available. I want to see investment in public transport routes and infrastructure.

I also want to see better water infrastructure in Aotearoa and Auckland. Our water infrastructure has not kept up with the population. Over time there will be more emergencies related to this including unswimmable beaches and undrinkable water. This needs to be prioritised.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Please convince Wayne Brown to resign. He is not the right person to lead Tāmaki Makaurau and he should not be so arrogant holding onto this position when others can do a much more transformative job.

I think it is also important to consider what working with this current Government means. National, Act, and NZ First have demonstrated that they do not know how to collaborate, are not aligned in terms of values and policies, and perhaps due to this, they do not have the best interests of New Zealanders at heart. Be careful deciding how Auckland Council would like to collaborate with them, especially if they are only around for one term (hopefully).

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**#7079**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

#7079

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know

#7079

Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------

#7079

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improving public transport, cycling and walking tracks

Flood protection

**#7083**

Protection of natural environment and expansion of restoration e.g. wetlands, and clearing rubbish and enhancing waste areas

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less focus on car drivers and roads.

Perhaps introduce a congestion charge for CBD. Increase parking fees

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I think proposal is basically good. Love the idea of capped prices. However, please continue with cycleways and encouragement for people to use public transport, cycle or walk.

**2a. Is there anything you would spend more on?**

Cycleways.

Could you make bus and train travel free???

**2b. Is there anything you would spend less on?**

No

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

Sounds like a white elephant... perhaps could be developed for other uses. This area has an expanding population and so I expect there will be more use over time and a pity to give up on it now.

**#7083**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

This would mean keeping the asset and possibly making money from it, though I'm not sure what you make from the port now.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

There are going to be a lot of climate change related costs in future, You need a fund to pay for this.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

no

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#7083

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

It would be nice to have a useful waterfront - like Wellington, always an enjoyable walk...

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Don't really have anything to do with Bledisloe, but as above-- nice to have a waterfront for the public

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. #7083

Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

I'm committed to improving our local environment. Important for biodiversity and the health of the community.

The POint Chev library was a great resource for the community. I didn't borrow books but used the services offered e.g. JPs

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Pretty good, especially environmental work.

I work with a restoration group and have found councillors helpful

**8. Do you have any other comments?**

I think you should speed up the process of making Auckland flood-proof. Otherwise it is going to cost a lot more in damage reparations.

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important

#7093

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce Auckland transport funding for speed reduction

**#7100**

Streamline and reduce traffic management plans that cost so much money and disrupt the city

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

To many speed restrictions and speed reducing measures in city at moment.

There should be some cycleways but it seems over the last few years cycleways have been put in too many places taking over too many roads

### 2a. Is there anything you would spend more on?

Look at using technology to have viable speed zones in areas - for example 30km down Symonds St during University hours makes sense but it does not make sense outside University hours and during holidays.

### 2b. Is there anything you would spend less on?

Cycleways and speed reduction signs and raised crossings

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

Stadium is under-utilised and a significant cost to the ratepayers. Need changes to make the land more productive and the costs to the ratepayer more efficient.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

**#7100**

**Tell us why:**

Invest the dividends paid by the Airport into an investment fund while maintaining ownership of the asset.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Lease of Port is unlikely to provide significantly more to Auckland than investing the dividends over the 35year period. If the Port is leased to a large overseas company such as ports in Australia it is likely there will be significant job losses and quite possibly continuous employment disputes leading to strikes as seen often at the Australian ports.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Council needs to cut their cloth as all businesses and households have over the last number of years. There appears to be very little efficiency gained since the establishment of the Super City and there appears far too much wastage at the council and at the various CCO's.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#7100

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by	Support

#7100

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Support ANY alternatives to driving. Building more roads will make car traffic worse. To improve traffic there needs to be viable, safe, enjoyable alternatives, whatever they are. Cycling, walking, busses, trains all need significant investment over expanding the road network.

**#7112**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Build less highways, overpasses, parking garages, and other infrastructure that promotes car-dependent infrastructure.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Raised pedestrian crossings and cycleways are very important to the network. They will seem to have low usage in the short term, but in the long term, pedestrian and cycle infrastructure leads to a more financially AND environmentally sustainable city. Once a critical level of safe, pleasant-to-use cycle and walking infrastructure is in place, many people will switch to these modes as seen in many European cities.

**2a. Is there anything you would spend more on?**

Pedestrian infrastructure, Cycling infrastructure, Public transport.

**2b. Is there anything you would spend less on?**

Motorway expansion, and other large car-centric infrastructure projects.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#7112**

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

#7112

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. 7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#7112

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	I don't know
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do less
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No - Auckland Council should only be focusing on its core activities and cease and desist all other activities e.g. roading is important but Auckland Transport needs to immediately cease with their traffic calming costs. They are excessively costly and unnecessary.

**#7133**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less traffic calming, less culture activities, less sponsorship, and a 25% reduction in people costs. This is a cost issue that needs to be addressed and not a revenue issue.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

AT strategy is flawed as mass transport systems need high density of users (people) to be commercially viable. Auckland has a low density population and the public transport will never be economically viable. As a rate payer I am ashamed of the wasteful spending that has been happening over recent years.

**2a. Is there anything you would spend more on?**

Another harbour crossing that incorporates vehicles, bikes and pedestrians.

**2b. Is there anything you would spend less on?**

Traffic calming - a complete waste of rate payers money.

Restricted traffic zones - another failed initiative.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

North Auckland needs a sporting precinct.

**#7133**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

This is a source of revenue to Council that will offset future increases in rates.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Auckland Council is not in the business of either owning or operating a Port company. The strategy here is to optimise the use of the underlying land where the Port company is moved and the land is sold for residential development (similar to the Wynyard Quarter). Preferential treatment should be given to the purchaser of the Port Company to allow a new port to be developed without the current bureaucracy.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

N/A Auckland Council has proven itself incompetent is operating the Port of Auckland. It needs to divest and allow another entity to operate it in a profitable manner.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Divest the Ports of Auckland.

#7133

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

This land should be privatised. Auckland Council and/or Ports of Auckland are not good managers of these assets.

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

Divest to private interests and allow a new sports stadium to be built.

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do less
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More resilient Public transport, Light Rail.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7149**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Do less on roads and more on public transit network.

**2a. Is there anything you would spend more on?**

Public transport

**2b. Is there anything you would spend less on?**

Roading

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Not great location, no great access to public transport.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

No clear benefit for doing so.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7149**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

#7149

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- Noise control: Have regulations for less noise everyday between 5\_6pm - 12 midnight (Mon-Fri)

-Weekends - strictly - 12:30 midnight max,

**#7153**

- Noise control includes Neighbours barking dogs; dogs need to be trained not to bark all hours.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less rubbish collection weekly changed to every fortnight for both red/blue.

Less park maintenance - gates to lock park spaces overnight.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Less cones on the road if we had an efficient/ environmentally friendly transport system.

**2a. Is there anything you would spend more on?**

Better transport system

**2b. Is there anything you would spend less on?**

Running my car

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Greater use by the community is a more beneficial way of optimising whats already there. There an addition bonus to that as it serves the community more effcienly by at having more events there.

**#7153**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I like the idea of spreading the risk of council's investment over a range of assets.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

- Generating funds is vital to pay for council services, this mean keeping rates down.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Climate change will continue, the future in uncertain, we don't want flooding to occur or any other climate effects/changes.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The council should maintain a small percentage of shareholding at all times.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#7153

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

I've got a feeling some investment companies will build more skyscrapers on the waterfront!!

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	

#### Tell us why

Caring for the environment and the community is a plus.

**#7153**

Also keeping CAB funded is a must!

Advocating for more green spaces. walk/better transport connection.

- Less construction of mega building infrastructure in the neighborhood is a priority to have green space that the council is offering

Better drainage for storm water.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Housing/ infrastructure should be top priority as AKL grew quickly and infrastructure took time to catch up.

Less catching up time required. development of base services needs to go hand in hand with housing development/less construction in dense areas is required as well please.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Fix trains, make them reliable all year round

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7183**

Pay less to smaller communities, for example pay less of ethnicities to have their new years, or celebrations,....

## 2. What do you think of the transport proposal?

Support all of the proposal

**Tell us why:**

### 2a. Is there anything you would spend more on?

Multiple story car parks for shopping malls should become mandatory

### 2b. Is there anything you would spend less on?

Pay less to smaller communities, for example pay less of ethnicities to have their new years, or celebrations,....

## 3. Which options do you support for the North Harbour Stadium?

Other

**Tell us why:**

Close it down, why all Auckland has to pay more rates to keep that stadium for a particular area "North Shore"??? close it down and save the money to make Eden park stadium for robust and add more seats to Eden park. Invest on one good stadium for Auckland, not on multiple of them. We cant afford to keep all stadiums.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

**Tell us why:**

**#7183**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#7183

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#7183

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Do not support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Fairly Important

#7183

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More safe shared spaces, as I know city parks can be fairly dangerous at night

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#7198

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

I think having a solid transport network makes it easier for those doing less well of to thrive

### 2a. Is there anything you would spend more on?

Having more public transport is a priority for me

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

I think it can support everything it needs to currently, with bigger games and events being able to go to Eden Stadium or similar

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

I do think that's an irreversible thing that can often be used to undermine government/council power, which I don't think is a good thing here. I would prefer higher rates to cover that

**#7198**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

I'm unsure at how strategically beneficial this is long term

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Council services seem to be core to a lot of things, and money there is important

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Having council-owned ports seems to be a good thing, and a long-term resource

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#7198

Tell us why:

It's nice to have more things that can benefit the public directly instead of indirectly

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More cycling infrastructure

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Road development

**#7200**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Cycling is the way forward for the health of people and the environment - please do not sacrifice these sustainable gains for short-sighted road developments

**2a. Is there anything you would spend more on?**

Getting cars off roads

**2b. Is there anything you would spend less on?**

Things that enable more cars

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7200**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I'm absolutely prepared to pay more for fast tracking the infrastructure deficit that has been built up over many years - particularly in regard to public transport and the storm/wastewater network. We have no more time to address the climate crisis and we have to be brave and bold NOW, even if it costs more.

**#7206**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

No - you're doing a good job and I don't want to see services that people rely on cut.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I support all efforts to make public transport faster, more reliable and easier to use, but I would like to go further - ideally making public transport free. I also support more cycleways and supporting active transport and would be willing to pay more in rates to facilitate it.

**2a. Is there anything you would spend more on?**

As above - public transport/mass rapid-transit and cycleways.

**2b. Is there anything you would spend less on?**

Anything that incentivises the use of fossil fuel powered private motor vehicle or trucks.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

NHS as it is, is a white elephant that is expensive and underutilised. Absolutely maintain or expand the community use functions, but not the stadium itself as Auckland is too small for so many stadia and this one is simply in the wrong place.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#7206**

I don't know

**Tell us why:**

I don't know enough about the relative pros and cons of this proposal, although I am supportive of a long term investment fund which can contribute to Auckland's needs over time.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I am keen to see the Port continue to be fully controlled by Council. Given the pivotal location of the Port and its potential to be an environmental force for good or bad depending upon how it's run, I was to see it maintained in public ownership so that the operators are answerable to Aucklanders.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

Ideally I would like to see it invested in the Fund, but if that would mean cuts to services in the here and now, I would prefer to see it used to fund council services.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#7206

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

Ideally the port would not be occupying such prime, waterfront land, but I also don't want to see climate emissions increase from more road freight being required. I would prefer waiting to transfer Bledisloe wharf until such time as the rail network has been upgraded or alternative fossil-fuel-free methods of transporting goods have been implemented.

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Other

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

#### Tell us why

**#7206**

I am supportive of any plan to reduce rubbish, but I'm not convinced that getting rid of bins gets rid of rubbish. I would prefer to see some limited rubbish bins, with companion recycling bins, to prevent littering.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

They look good to me - love this Local Board area!

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Cycle ways, pedestrian precincts, to reduce dependence on cars, increase public transport use.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7221**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I would prefer cycle ways are not stopped.

**2a. Is there anything you would spend more on?**

Cycle ways, pedestrian precincts.

**2b. Is there anything you would spend less on?**

Car parks.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7221**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

#7221

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#7221

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I support further investment into a surface light rail rapid transit network starting with a route from the City Centre to Mt Roskill, and then further expansion to Onehunga, Māngere and other transport corridors such as the North-Western and Northern corridor. Any busway development along the North-Western corridor should be future-

#7244

proofed for surface light rail upgrades. Consistent work over the last decade, reflected in Auckland Transport's Auckland Rapid Transit Pathway 2023 report, has shown that to effectively address Auckland's congestion issues we cannot rely solely on a bus network. The busiest bus corridors in our city are already reaching capacity, and the long-term plan should reflect that reality. Additionally, I support Auckland controlling its own transport priorities. An "Auckland Deal" provides the means for central government to support Auckland Council's priorities, rather than the other way around. A surface light rail network would provide opportunities for growth, development, and productivity in the city. I believe this should be included in the "Auckland Deal" with central government. I urge Auckland Council and the Mayor to make the development of a surface light rail network, starting with the City Centre to Mt Roskill line, a priority in such a deal.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I do not fully support this plan as it does not include investment and commitment to a surface light rail rapid transit network. Any work on a busway in the North-Western corridor should be future proofed for surface light rail and there should be commitment to surface light rail along the City Centre to Mangere corridor, starting with a City Centre to Mt Roskill line. I worry without this we will not be able to address Auckland's congestion issues as projected growth in these corridors would require higher capacity transport modes such as surface light rail.

**2a. Is there anything you would spend more on?**

I want to see Auckland Council spending more to develop a surface light rail network, with a City Centre to Mt Roskill line constructed as a priority. There has been significant design work done by Auckland Transport and Waka Kotahi on surface light rail pre-2019. Adopting these plans will allow any work to be fast tracked with only minor updates and improvements needed. From this stage I would support expansion of surface light rail, such as what is proposed in Auckland Transport's Auckland Rapid

**#7244**

Transit Pathway 2023 report. The line should be expanded to Onehunga and Mangere, and eventually to other transport corridors such as the North-Western or Northern corridors, upgrading any busway infrastructure. Staging the development of the network in this way ensures it remains affordable for Aucklanders and is practical to build.

Congestion is a major issue in our city that costs Aucklanders time and money. It restricts our growth and potential. Consistent work done over the last decade has shown that we cannot only rely on our bus network in our busiest corridors in order to address our cities transport issues. Surface light rail provides a higher capacity solution that is affordable, deliverable, environmentally friendly, and will connect communities in Auckland. It provides a plethora of economic benefits that will create jobs and help businesses while improving our streetscapes to make our city a better place to live.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

**Tell us why:**

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I am an ex Mangere resident and still affiliate with whanau but seeing main roads by wasting space for cycle lane which hardly use by the locals is a total failure which that pool of money could have use to build a facility where family could get more therapy 😊 and to help with parenting is the step forward in tackling all the social issues in our lower economic communities.

**#7246**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

We have parks everywhere which is great but people still trash and vandalized it which cost more.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Better systems will reduce people that do not need vehicle for work during the day helps reduce carbon dioxide and less traffic. Many parents drop children off to school but only live 5 minutes from school.

**2a. Is there anything you would spend more on?**

More public transport survey to help reduce cars on roads

**2b. Is there anything you would spend less on?**

To take away the 2 ans 3 lanes it's a total nightmare

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Seeing less people going to main events

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#7246**

**Tell us why:**

I like change but people around the table in making decisions should consider all.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

For further developments for bright future

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

To enhance the future of the ports.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Status quo

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#7246

For future references

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

For the next generation of baby boomers

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Tell us why:

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to	Support

#7248

reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Finishing CRL

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Paying the Mayor

**#7259**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Want to see public transport and safer roads

**2a. Is there anything you would spend more on?**

Finishing CRL

**2b. Is there anything you would spend less on?**

Wages for the Mayor

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I never use the stadium p

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Too much money management costs

**#7259**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

I think shipping will decline

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

We need to find services

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

I do not support Future Fund

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Don't see benefit if change

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#7259

Tell us why:

Don't see another better use

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------

#7259

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Ok

**8. Do you have any other comments?**

No

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Sustainable transport initiatives, such as cycleways and public transport projects.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#7291

Car centric infrastructure changes and urban sprawl that will lead to more costs into the future.

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

The cycleways and raised pedestrian crossings are important projects that should not be stopped.

### 2a. Is there anything you would spend more on?

We need to spend more on electric buses and infrastructure that supports zero emissions, such as cycleways.

### 2b. Is there anything you would spend less on?

Dynamic lane changes that tries to bandaid traffic for single occupant vehicles.

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

**#7291**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#7291

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Cycle ways

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7324**

New roads

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Cycle lanes give people a safe, cost effective alternative to driving - reducing pollution, congestion and improving health outcomes

**2a. Is there anything you would spend more on?**

Cycle lanes and public transport. Reinvestigate light rail

**2b. Is there anything you would spend less on?**

Roading projects

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

My suburb suffered immensely during the January floods. We are woefully unprepared for the next one

**#7324**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

This city needs a lot of money spent on it

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#7324

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#7324

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#7324

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Upgrade storm water infrastructure

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Transport initiatives including safe pedestrian and cycleways.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7325**

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Support public transport being more reliable and the introduction of capped weekly fares.

### 2a. Is there anything you would spend more on?

Raised pedestrian crossings, cycleways, safe cycle networks, new PT networks, road safety improvements for all road users (including pedestrians and cyclists), and road reallocation projects which reallocate space to PT and / or cycleways.

### 2b. Is there anything you would spend less on?

Road widening projects

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

**#7325**

I would rather the money is spent on infrastructure at this time. I also don't agree with further airport share sales so do would want a minimum threshold for and shareholdings to be placed on any strategic assets in the fund.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I don't agree with the establishment of the Auckland future fund.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I think I best use of money is to use it to invest in our services as that is where the money is needed now.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Agree that some land should transferred so it can be used for public benefit

#7325

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Until a decision is made on the future of the Auckland port its better to keep it within the port operational area. Transporting additional volume of goods by road or rail will be costly maintenance wise along with the decrease in revenue.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden,Puketāpapa,Waitākere Ranges

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#7325

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

The priorities are a bit vague and not very specific. It would be good to have more specific priorities that the local board will be focussing on and using the funding for.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

#7325

The priorities are a bit vague and not very specific. It would be good to have more specific priorities that the local board will be focussing on and using the funding for.

## Puketāpapa Local Board Priorities

### 7b. What do you think of our proposed priorities for Puketāpapa in 2024/2025?

I support all priorities

#### More specifically, what do you think of each priority we've listed above?

Invest in opportunities to support local community leadership.	Fairly Important
Invest in climate change response initiatives and support volunteer groups working on local environmental restoration / protection and climate action programmes.	Very Important
Consider our investment in facilities and services to see if there are opportunities to do better.	Very Important
Support initiatives that improve and encourage walking and cycling opportunities.	Very Important
Help coordinate and support local business groups.	Very Important

#### Tell us why

It's important to support alternative transport modes and support local businesses to ensure the local community is well connected, people can move around and there are opportunities for local employment.

### 7c. What do you think of the Puketāpapa proposed priorities for the 10-year budget 2024-2034?

I support the local opportunities and they work well together.

#7325

## Waitākere Ranges Local Board Priorities

### 7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

Would be great for Waitākere range to be a recognised dark sky sanctuary. Community resilience is very important, especially due to the remote locations of so many communities and how badly they have been affected by flooding / storm events.

Resilience of

### More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support all priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Very Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Very Important
Continue to activate library spaces with programmes, services and events.	Fairly Important
Operating grants to support Glen Eden and Titirangi Community Houses.	Fairly Important
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	Fairly Important
Initiatives to support youth/rangatahi.	Very Important
Progress an application for Waitakere Ranges Heritage Area to become a dark sky place.	Fairly Important

### Tell us why

Fairly Important

**#7325**

**7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?**

Some of the priorities are a bit vague and could be more specific.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Maintain playgrounds.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No need to have libraries open 7 days a week ,

**#7332**

Cycle way projects need to stop by AT.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

Stop the raised crossings. And cycle ways. Reduce bus services on routes with little or no customers. We all see some buses with no passengers.

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

### **Tell us why:**

Get rid of it and save money. We don't need x3 major stadiums at present. North Harbour is not used for NRL or Super rugby or International events.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

### **Tell us why:**

**#7332**

Sell more shares in AKInd airport to reduce debt. The ratepayers want change and the rates at present are becoming too steep.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Need to reduce costs and rates for local rate payers.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

We have an amazing waterfront. Let developers and new investments use this space.

**5b. What option do you prefer for Bledisloe Terminal?**

#7332

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improved roading and roading services. Downtown parking.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Arts and libraires services need to be reduced.

**#7345**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

All good - however rapid transport needs to be removed.

**2a. Is there anything you would spend more on?**

Roading for private cars and parking services

**2b. Is there anything you would spend less on?**

Rapid transport

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

If removed we would never get a facility like this back.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7345**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7373**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

continue spending on cycleway infrastructure

**2a. Is there anything you would spend more on?**

cycleways and safe pedestrian areas, fixing roads

**2b. Is there anything you would spend less on?**

carparks, building new roads

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#7373

Tell us here:

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Support

#7373

around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025,	Support

#7373

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#7373

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Children with work permits are charged as international students

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7385**

Reduce government departments and personnel, reduce wages and the number of immigrants

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Only supports tax cuts and spending cuts

**2a. Is there anything you would spend more on?**

Any increase in spending in any area would be unacceptable.

**2b. Is there anything you would spend less on?**

All options for reducing spending are supported, especially shutdowns and layoffs of government programs and departments.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

The money saved can be used to reduce interest rates.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#7385**

So far, no government-run projects have had any positive effects, and people's lives have become worse.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

It is just that the new interest groups are dividing up the profits. It is not obvious what benefits it will bring to the people, and it will cause chaos in the excessive construction.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Inject funds into schools that are struggling, especially good traditional schools

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Immediately stop the further introduction of new workers. Due to the significant increase in the number of work visas, the unemployment rate of local residents and citizens is high and wages have fallen.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

#7385

The original is good

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

The original is good

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Do not support any tax increase plan

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

**8. Do you have any other comments?**

We strongly oppose the mayor's plan to increase congestion charges on Highway 1

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland Council should be doing more of delivering core services well. Better road maintenance, is an example.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7407**

Use ratepayers' money less wastefully. For example, stop wasting money on excessive "safety" measures such as traffic calming humps on quiet streets that get little traffic. Reducing overkill on road works traffic management and having 75% fewer road cones would be good .

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

While it is good to be investing in improved public transport, don't punish car drivers (e.g. congestion charging) when the public transport is currently in such a poor state. Don't cap public transport fees. Convenience rather than cost is a key motivating factor for many people.

### **2a. Is there anything you would spend more on?**

Maintain roads and footpaths to a good standard. I find it highly ironic that money is being wasted on traffic slowing measures on quiet roads while some roads and footpaths are in poor condition.

### **2b. Is there anything you would spend less on?**

Don't get rid of level crossings unless you put in place means for pedestrians and cyclists to cross the tracks. Put a halt to needless safety measures (i.e. on roads that have had few incidents). Stop getting rid of car parking and parking buildings. In other words, invest in things that make this city a pleasant and convenient place to live in.

## **3. Which options do you support for the North Harbour Stadium?**

I don't know

### **Tell us why:**

**#7407**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

I do NOT support selling / divesting any public assets. Auckland Council absolutely needs to maintain control of all public assets and invest in improving them even if that means taking on more debt / putting rates up.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#7407

**Tell us why:**

I can't see how the public would benefit from the wharf land becoming housing, for example. And we don't need more commercial development on the waterfront given there is plenty already. Best to leave the land with POAL so they can utilise the space for m

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. #7407

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce <b>recycling charges for schools</b> .	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Spend MORE not less on water quality improvement.

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

Albert-Eden

#7407

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

#### Tell us why

Getting rid of rubbish bins in parks won't improve environmental and climate outcomes; it will simply lead to more litter.

**#7407**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

- \* I do NOT support Council voting Tupuna Maunga Authority any budget for felling healthy mature trees on Auckland's maunga. The Authority should be required to be transparent around how much it intends to spend on tree felling vs vegetation planting, and this should be made clear in the Authority's budget.
- \* Many of Auckland Council's problems lie in poor legislation pertaining to the super city's establishment. The Mayor and council needs to work with the Local Government minister to identify and improve issues around financing, governance, etc. Amended or new legislation is required.
- \* I don't believe local boards are working for the benefit of their communities and represent a poor return on ratepayers' investment in them. But don't tinker with superficial fixes because that won't solve the problems; work with the Minister to review from the ground up. Engage with local communities to find out what they want from their local boards.
- \* Council needs to invest in adequate infrastructure development and maintenance across the city, particularly in areas being intensified.
- \* Rates rises are necessary every year. You can't cost cut your way out of the problems Auckland City is facing.
- \* I do NOT support the sale of any strategic publicly owned assets.

Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7422**

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I don't support stopping previously-planned initiatives, such as some raised pedestrian crossings and cycleways. In order for the city to move we need effective integrated transport options.

### 2a. Is there anything you would spend more on?

making public transport faster, more reliable and easier to use by investing in rapid transit network actions, such as making it easier to pay and introducing capped weekly public transport passes

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

A facility is only as good as the usage it gets. Open it up and make it a truly community facility for all engaging local teams, cultural and community groups.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

Don't sell the family silverware, simple.

**#7422**

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Sell off the port operations to another city and develop a world class space for city residents and visitors.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Invest in those aspects that bring community benefit.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#7422

Tell us why:

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide</p>

increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting	Very Important

#7422

volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Agree

**8. Do you have any other comments?**

CCO's need to be accountable to Council, with more transparency.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

infrastructure relating to stormwater and waste water management

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

subsidies associated with flood recovery- this should be an insurance matter

**#7475**

events- this is not a core council service

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

traffic escalation continues to diminish economic activity

**2a. Is there anything you would spend more on?**

cross city bus services

walking from my home to office takes 43 minutes, car 8 minutes,

bus 31 minutes and two separate buses this is anecdotal I appreciate but for many people public transport is not viable given the actual bus routes.

I would also spend more on ensuring competition for ferry services

**2b. Is there anything you would spend less on?**

subsidising ferry tickets

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

this is poorly served by public transport and not viable for large games

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#7475**

**Tell us why:**

I believe it's better to have council focused on core services like infrastructure rather than be an investor in private assets

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

to enable future development of the waterfront. I don't support utilising the most valuable land in New Zealand for freight that could be located elsewhere

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

to reduce the burden on rate payers

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#7475

I don't support utilising the most valuable land in New Zealand for freight that could be located elsewhere

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

I don't support utilising the most valuable land in New Zealand for freight that could be located elsewhere

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. <p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	<p>I don't know</p>

#7477

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Waitematā

## Waitematā Local Board Priorities

7b. What do you think of our proposed priorities for Waitematā in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver a new civic space at 254 Ponsonby Road.	Not Important
Complete detailed design of Leys Institute remediation and seismic strengthening, and progress physical works.	Very Important
Phased delivery of improvements for Heard Park.	I don't know
Deliver services and programmes that support youth activation, leadership, and wellbeing, particularly in Newmarket.	Very Important
Develop programmes that improve perceptions of safety within the City Centre, and our town-centres.	I don't know

#7477

Support local communities to develop Emergency Planning & Readiness Response Plans.	Very Important
Seek opportunities to promote and celebrate heritage places in Waitematā including making digital content and place-based stories more accessible.	Very Important

**Tell us why**

**7c. What do you think of the Waitematā proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More trees

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cultural events

#7478

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

Need to increase cycleways/walkways, not decrease. Simply insane not to encourage less car use

### 2a. Is there anything you would spend more on?

Proper safe dedicated cycleways along the main arterial routes (e.g. Great Sth Rd, Mt Eden Rd, Dominion Rd, Sandringham Rd, New North Rd, Great Nth Rd) feeding into the CBD. Having the smallest vehicles (bikes) sharing a lane with the largest vehicles (buses) is patently unsafe. Simply remove all parking along those routes

### 2b. Is there anything you would spend less on?

More roading for cars

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

Auckland's main stadium is Eden Park. Any additional investment to the other existing stadia is a waste for such a small population city.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#7478**

**Tell us why:**

Need to spend money right now on issues that will have an immediate impact

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Transferring govt assets to private firms has not gone well for NZ. Critical services such as port need to be retained in public ownership and management

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Humans are short sighted because we are short lived. Spend now for immediate results. Also, the rate of inflation outpaces interest savings that would erode capital put aside for future use

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

N/A

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

#7478

It's not visually attractive waterfront so better to retain the income generated by keeping the wharves as is. Other council initiatives with the waterfront have only served to benefit the well-heeled in our society (expensive apartments, elitist bars ser

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Same rationale as previous answer

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Support

#7478

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

\*If we want our children to value recycling, best to make it as cheap as possible for the schools

\*Many Waitakere residents live in perpetual flood zone so it's only fair they pay their share of wastewater disposal

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

Albert-Eden

#7478

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

#### Tell us why

Community organizations should do for themselves; council should concentrate on the physical aspects of the city which private residents can't do

**#7478**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Not in a position to respond coherently on this one

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Frankly, no. You do so much that I don't want, and waste so much more on people you don't need. Get lean and mean, like real businesses have to, then we can have a conversation.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7519**

Less bike lanes, speed humps, traffic management. less 'festivals' - what waste of money. Less on DEI, since when was that core to a council?

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

STOP trying to do everything at once. Do a few things well and fast. The debacle that is Meole Road is a case in point, consisting of lies, evasions and endless upset to the whole suburb. For a bunch of mamils who won't use the bike lanes anyway.

**2a. Is there anything you would spend more on?**

Potholes.

**2b. Is there anything you would spend less on?**

Everything else.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Useless as is. Turn it into a good LOCAL facility, eg for schools and small clubs to use.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#7519**

**Tell us why:**

Not convinced ACC should divest itself of its holding.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

A council surely doesn't have the expertise to run a port?

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Seems reasonable.

**5b. What option do you prefer for Bledisloe Terminal?**

#7519

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#7520

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Agree that making public transport better must be a top priority. Yes to rapid transit improvements. Capping weekly fares is good. There has been a lot of publicity about the cost of speed bumps...there are too many of them!

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

Speed bumps

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

### Tell us why:

The idea of demolishing a stadium appalls me. With the housing boom in that area, surely such a stadium must meet future need.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

Fervently against selling assets.

**#7520**

**4b. Which option do you prefer for the future of Port of Auckland?**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

At \$70b in Opex, this is a huge amount of money and needs to be seriously reviewed.

**#7521**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

The NZTA is funded to provide roading solutions. Why are we being taxed to do more on the roads?

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Look to provide services that meet with the people in the area, including more concerts and more use of the facility

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I think this is a prudent way to future-proof the city for unforeseen events.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7521**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

I think the operational expenses of the port need to be seriously reviewed.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The return on capital can deliver less rate rises for the citizens

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Moving costs money and it doesn't appear there will be any additional revenue generation or cost reduction.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

#7521

6a. What do you think of these proposals?

#7521

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Fairly Important

#7521

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

The proposals are based on what appears to be a "limitless" pool of money. No thoughts around delivering priorities or in getting returns on owned assets.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

**Tell us here:**

#7535

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	

#7535

Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Make trains run on time

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Nah

**#7536**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I want trains to run on time

**2a. Is there anything you would spend more on?**

Making trains run on time

**2b. Is there anything you would spend less on?**

Cultural

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Good

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7536**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Good to have money for the future

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Both would be good

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

#7536

**6a. What do you think of these proposals?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Priority has to be a safe livable city. High quality sustainable infrastructure and well planned transportation matter most.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7551**

I would like to see more use of sponsorship, user pays for festivals, social activities etc. I understand the need to engage people and build connections but there could be other ways to fund this. Let's build a city first. The sewage pipe under our property was built in 1914 to serve a small number of properties. Hundreds of dwellings are now attached with no additional capacity. First thing first!

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

When we were able to use public transport it was great for many purposes particularly getting into the city.

Disabilities mean that we are no longer able to use it but it remains a treasure.

**2a. Is there anything you would spend more on?**

Disabled parking and access. It's a huge help in enabling us to live in the community and be self sufficient.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#7551**

**Tell us why:**

Makes sense providing the Trust is well protected.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

It is not clear to me why Auckland ratepayers don't understand the importance of Auckland as a working port. There is any amount of space available for their precious cafes and bars, but high quality water with sufficient depth and shelter from prevailing winds is a true treasure and should be safeguarded. Leasing operation and so losing control doesn't seem sensible.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

See above. We need a working port.

#7551

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do more
Council support	

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Making the city centre and major shopping centres functional for optimum human traffic through the areas for business and functional city.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7561**

Superficial green plan actions which are costly and people don't follow so have limited positive green affect. Like the food scrap bin-maybe just for restaurants.

## **2. What do you think of the transport proposal?**

Support all of the proposal

### **Tell us why:**

Following the infrequent use of the pink bike lane in the city, less investment in the bike and pedestrian area is a good idea while improving main traffic firsts. many of the roads are not fit for scale in function.

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

### **Tell us why:**

By changing the operation, you can save for a future development and still have it be useful for community, when the budget is also available.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

### **Tell us why:**

More money to invest in Auckland, the airport to get out of debt.

**#7561**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Try something else with a personal interest from the organisation running the port to improve profits for themselves and run the port and not have the Auckland council having to worry over another sector to run and divide funds and attention to.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Truck a traffic in the city does not make sense-ineffective and blocks up traffic. In larger cities, they even only allow trucks to drive on roads in the quiet hours of the day-not peak time. We definitely don't need to go the other way with increasing t

**5b. What option do you prefer for Bledisloe Terminal?**

#7561

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport improvements - electric buses, more bus lanes, more busways, better bus/rail connections.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7569**

Reduce wasteful spending at AT on anything except public transport.

Reduce spending on community initiatives

Stop the roll-out of food bins - most people have stopped using them.

## **2. What do you think of the transport proposal?**

Support all of the proposal

### **Tell us why:**

Safe, secure, fast public transport is the only way to unlock the potential of this city.

### **2a. Is there anything you would spend more on?**

More electric buses. Extend the heavy rail network - link from avondale to onehunga.

### **2b. Is there anything you would spend less on?**

less raised crossings, cycle ways, speed restrictions, advertising campaigns etc

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

### **Tell us why:**

Its a white elephant and clearly not needed in its current form.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#7569**

**Tell us why:**

Ludicrous idea - need to invest in new infrastructure now rather than forego it to create an investment fund which only gives value to the money-market men.

Auckland is big enough to be able to absorb future shocks - it just needs to be more efficient and more nimble.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The Port is a strategic asset which needs to continue to lift its performance - if it does it is capable of delivering the same outcomes as a lease. Failing that, privatise a minority position in the hope it will improve governance - or sell 25% to Ports of Tauranga.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Don't need or want a future fund.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#7569

**Tell us why:**

Better things to spend the on - invest in critical 3-waters infrastructure, public transport initiatives and congestion charging technology instead. Stop the wasteful spending on nice-to-haves.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Better things to spend the on - invest in critical 3-waters infrastructure, public transport initiatives and congestion charging technology instead. Stop the wasteful spending on nice-to-haves.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>

#7569

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools</b> .	Support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

No

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

#7569

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

#### Tell us why

Local boards is mainly nice-to-have stuff - we cant afford it when basic infrastructure is not being maintained.

**#7569**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Nice-to-have and largely waffle. Very few concrete outcomes. Seems to be about paying lip-service to local governance.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

- Stop construction of cycle2ways.

**#7574**

- Stop supporting maori kaupapa.
- Stop/ reduce initiatives promotions inclusion, diversity & expression of culture.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

I support most of the option. Pay less - get less because public transport is only one of ways to commute.

### **2a. Is there anything you would spend more on?**

No.

### **2b. Is there anything you would spend less on?**

Removal of speed reduction.

Removal of public transport lanes.

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

Before decision on spending additional money review and analysis of more efficient cps management should be explored.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#7574**

**Tell us why:**

Auckland council doesn't really have influence on AIAL management so why to share the commercial risk without opportunity to influence the performance?

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Auckland Council should sell the port & wharves to private investors. This move will encourage efficient management & bring money from sales.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

There is no justification to councils operation of port. It should be privatized as soon as possible.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The proposed Auckland Future fund is not designed to bring any fiscal improvement to council cashflow as it will still be in council's possession. Future council member might decide to use fund money to cover their debts. Much better to sell the assets.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#7574

**Tell us why:**

The wharves have huge commercial potential for retail & hospitality.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

It should be included in privatization package offered for sale.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Do not support

#7574

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	Support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support

Do not support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Franklin Local Board Paths Targeted Rate - Do not support

Council owned organizations (AT in particular) should undergo restructure with reduction.

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

Albert-Eden

#7574

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	

#### Tell us why

Albert-Eden area enjoys the parks in Auckland, why council proposes to acquire parks in areas of growth? Maori kaupapa support is racist & should stop.

**#7574**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Let the community organisations organise their own events. The council does nit need to be involved or sponsor.

**#7578**

Council needs to lobby central govt to allow incineration and energy/resource recovery of waste - allowing residential waste collection costs for council to significantly decrease. Low oxygen incineration is very efficient and avoids landfill which is expensive and unsustainable.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Charging for congestion ok.

### **2a. Is there anything you would spend more on?**

Public transport lanes need to be fully charged to buses - which will lead to agreement for use by premium payers (annual bus lane pass for cars).

Toll roads need to be encouraged. Charge through NZTA toll collection system.

### **2b. Is there anything you would spend less on?**

Bus lanes, speed humps, bike lanes.

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

Sell the rights to redevelop it.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#7578**

**Tell us why:**

Council needs to divest itself from investments that can be held or progressed by private sector partners that can complement the investment better.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Get investment from someone who can operate ports well. Hint: not the council.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Operational budgets of councils should not be dependant on investments as it introduces bias and skewed priorities.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Council needs to focus on enabling the economic activity of the city. It needs to be efficient and not meddling in trying to get people to live different lives than they choose for themselves.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#7578

**Tell us why:**

Let the port operate as efficiently as possible for the city. Council is not in a position to spend money on grand projects for some undefined “for public benefit”.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

As above. Council cannot afford grand projects. Let the port operate efficiently if they want to lease it.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. 7a. Which local board area does your feedback relate to?

Albert-Eden

#7578

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support any priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Not Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

#### Tell us why

These are all nebulous vanity projects of little value. They do not represent pressing problems given the financial constraints.

**#7578**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Poor value.

**8. Do you have any other comments?**

Focus on the basics that make the city efficient. Leave the community groups to provide the icing on the cake.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Arts and culture..... but get the communities involved, maybe local iwi could pay for Matariki events, Indian community pay for the Diwali festival, and Pacific communities pay for Pasifica and Polyfest.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7680**

Seems our current programme with cycleways and speed humps are costly and slowing traffic down. Not having bus-stops along major routes like Meola Road is stupid.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Rail although good is always costly, light rail was the most stupid idea out, we all take taxis to the airport people.

**2a. Is there anything you would spend more on?**

Ripping out speed humps.

**2b. Is there anything you would spend less on?**

Bike paths - they are like water and will find the easiest route... wait till Meola road is finished, guarantee there will be pallatones riding 3 aside on the road in the mornings and weekends.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Seems the right thing to do.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#7680**

**Tell us why:**

Better to take the income forever from the dividends.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Leave the running of the port to the port authority and consider this lease like the dividends on the AIAL. But get hard with these negotiations, same price but reduce the term to 20 years.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

funds go into the Central fund so it pays for services.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#7680

Maybe look for an external operator to take control and set up a management company for incoming tour ships, they could invest in the upgrade of the wharves, charge the cruise lines etc

They could develop retail, restaurants etc under strict guideline

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

See above,

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

**#7731**

· Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

· We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per Surf Lifesaving Northern Region's Surf 10:20 Capital Development proposal.

· Mairangi Bay Surf Lifesaving Club has existed in its current location for 70 years. The current membership comprises ~150 active lifeguards, over 500 Junior Surf children aged 6-14yrs and a further ~600 associate members. The building is well past its useful life and can no longer adequately cater for its membership and activities. A new building is therefore imperative to continue being able to serve the membership and community.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

#7731

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).

Discontinue the **Long Term Differential Strategy** which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Introduce the **Franklin Local Board Paths Targeted Rate** of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

Change the **Rodney Drainage Districts Targeted Rate** to reflect public feedback and updated analysis of the benefits to properties and boundaries.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of

#7731

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

With regard to Question 1c, Auckland Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle. Mairangi Bay Surf Lifesaving Club volunteers rescued over 70 people in the Auckland Anniversary floods and did so operating out of storage shipping containers.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

Hibiscus and Bays

**Henderson-Massey Local Board Priorities**

**7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Our People – create opportunities that support connectedness, diversity and inclusion in our community.

Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low

#7731

carbon communities across Henderson-Massey.	
Our Community – ensure the maintenance and development of ‘fit for purpose’ local services and spaces meet the needs of our diverse communities.	
Our Places – support initiatives that improve walking and cycling opportunities.	
Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.	

**Tell us why**

**7c. What do you think of the Henderson-Massey proposed priorities for the 10-year budget 2024-2034?**

Other

## Hibiscus and Bays Local Board Priorities

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

Very Important

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through	

#7731

methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.	Finalising the review of the 2015 Mairangi Bay Reserve Management plan and supporting the Mairangi Bay Surf Lifesaving Club to progress its redevelopment project is imperative for the upcoming year.”

**Tell us why**

“It should be a priority to deliver the Mairangi Bay Reserve Management Plan outcomes within the 10 year period, including a new surf lifesaving club building and associated storage, road closure and seawall maintenance.”

**7c. What do you think of the Hibiscus and Bays proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Safe cycling infrastructure and bus priority/frequency improvements.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7732**

Protecting “character areas” and keeping inner-city Auckland low-density (and thus reducing councils income).

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

I don't support cutting back crossings and cycleways. Do cycleways cheaper by doing pop-up infrastructure, then gradually formalising it as budgets allow.

### **2a. Is there anything you would spend more on?**

Low-emissions buses, cycleways and safety improvements.

### **2b. Is there anything you would spend less on?**

Maintaining car parking and roads - mode shift will mean we spend less on upkeep and can free up space for more productive uses e.g. bus priority lanes and on-street dining.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

### **Tell us why:**

**#7732**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#7732

**6a. What do you think of these proposals?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	

#7732

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I do not understand the benefit reshaping the Pukututu island back to pre-mining shape (in the budget for water services) has. Can the funds earmarked for this be more effectively utilised elsewhere? If there is some cultural significance to restoring this mountain(?), is it more important than safeguarding our waterways for current and future generations (for example).

**#7743**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Add tolls for road users and reinvest those funds directly into the infrastructure and don't allow a single cent to flow back to central government. Have a tiered system to charge heavy goods vehicles more as they cause more damage (while the transport and logistics companies who own them continue to make robust profits).

**2a. Is there anything you would spend more on?**

if there was an option to spend more (which there isn't) I would spend it on infrastructure and environmental concerns.

**2b. Is there anything you would spend less on?**

Consider partial reduction of debt (and management of interest expenses through dynamic interest rate hedging to provide more certainty around that cost) depending on whether returns from the Auckland Future Fund are higher than the costs of the debt being carried. Understand the need to carry debt to spread out the burden of cost across generations but also think debt is a good idea because maxing out the allowable debt and investing it / spending it wisely prevents potential for officials elected in the future to borrow and spend irresponsibly.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Waste of money better spent elsewhere. We can't have everything and I believe there are other more deserving causes than another stadium that isn't large enough to attract international talent that generate revenue for these stadiums anyway.

#7743

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Diversification of investment is a basic yet fundamental concept for responsible investment. Having one huge position in a single asset (Auckland Airport) is irresponsible and cannot possibly be in line with the any reasonable investment objectives of a responsible council.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Ports of Auckland are useless, they have had their chance to operate efficiently and in the interests of Auckland's and have failed. Entering into a commercial arrangement that actually has a chance of providing a financially sustainable future for Auckland through investment in the AFF while rationalizing the overpaid executives at POAL amalgamating management of the lease under Panuku is a good idea.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Investing proceeds of the lease for future return it is the only intelligent option, as spending the capital raised is idiotic in fact if the lease will be granted only to spend rather than invest the proceeds, I would rather not have the status quo.

#7743

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Allowing partial self insurance by relying on the AFF is agreed as necessary for now provided cost savings from insurance premiums really are redirected to infrastructure improvement. However if mitigation of environmental risks is not addressed, full insurance will become necessary once again even with the AFF.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

ACC can't afford to maintain more public spaces nor can it afford to spend the money on redeveloping Bledisloe terminal if these 2 terminals are transferred at this time. The nature of a commercial development on them (and the value ACC can therefore der

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Same reason as above.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. #7743

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Provision of waste management by private firms is more efficient than ACC providing it. It should be a user pays system with people who generate more waste paying more to dispose of it couple with a comprehensive recycling system set up to allow people who recycle to benefit from lower refuse costs. I do not even support the existing refuse collection funded by rates in Auckland and Manukau so definitely do not support it being rolled out in other districts with the cost borne by all ratepayers. I do support encouraging ratepayers to compost their biodegradable waste but the use of thousands of compost buckets in the intensively populated central Auckland apartment market needs more thought. I also support the recent removal of some public bins to encourage people to think more about buying something that produces waste that need to be dispose of.

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

Albert-Eden

**Albert-Eden Local Board Priorities**

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting	Very Important

#7743

volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

Do a smaller number of things properly and complete them rather than trying to achieve more and failing at everything. Supporting community groups encourages people of all cultures to work together for a common good and volunteering is a net positive gain for the ACC so it is worth investing money in that so I would do that rather than celebrating cultures. We have a number of libraries across the city and should focus funding and improvements on a smaller number of larger facilities instead of small community libraries. Community center ok because that's a multipurpose building with a broader use for more of the community and it is cheaper to maintain. Planning for parks and open spaces yes but not as important as environmental work and supporting infrastructure. Encourage local community groups to be more involved in maintaining the local parks maybe sponsor competitions between communities

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Do not support spending money on the acquisition of more parks - if areas are being more intensified then either developers should provide public amenity spaces or

**#7743**

central government should in the case of community housing projects.

#### **8. Do you have any other comments?**

Encourage animal shelters to seek private funding from like minded members of the community or euthanize animals instead of building and funding more animal shelters when that funding is better used to fund services that are beneficial to the wider community (eg environment, infrastructure).

Does that divestment of \$300 Million in council assets include the blocks of "retirement village" flats owned and maintained by Panuku? Why are Auckland ratepayers funding the provision of there when central government already has funding arrangements in place for the provision of subsidised residential aged care services in partnership with the private aged care sector. Are there other properties owned by ACC or ACC CCOs that fall into this same category ie assets the council fulfills no required duty by owning and that ratepayers should not be paying to fund ongoing maintenance of.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I support further investment into a surface light rail rapid transit network starting with a route from the City Centre to Mt Roskill, and then further expansion to Onehunga, Māngere and other transport corridors such as the North-Western and Northern corridor. Any busway development along the North-Western corridor should be future-

**#7750**

proofed for surface light rail upgrades. Consistent work over the last decade, reflected in Auckland Transport's Auckland Rapid Transit Pathway 2023 report, has shown that to effectively address Auckland's congestion issues we cannot rely solely on a bus network. The busiest bus corridors in our city are already reaching capacity, and the long-term plan should reflect that reality.

Additionally, I support Auckland controlling its own transport priorities. An "Auckland Deal" provides the means for central government to support Auckland Council's priorities, rather than the other way around. A surface light rail network would provide opportunities for growth, development, and productivity in the city. I believe this should be included in the "Auckland Deal" with central government. I urge Auckland Council and the Mayor to make the development of a surface light rail network, starting with the City Centre to Mt Roskill line, a priority in such a deal.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Building, upgrading and maintaining roads for private vehicles. Greenfield development.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

I do not support this plan as it does not include investment and commitment to a surface light rail rapid transit network. Any work on a busway in the North-Western corridor should be future proofed for surface light rail and there should be commitment to surface light rail along the City Centre to Mangere corridor, starting with a City Centre to Mt Roskill line. I worry without this we will not be able to address Auckland's congestion issues as projected growth in these corridors would require higher capacity transport modes such as surface light rail.

**2a. Is there anything you would spend more on?**

I want to see Auckland Council spending more to develop a surface light rail network, with a City Centre to Mt Roskill line constructed as a priority. There has been significant design work done by Auckland Transport and Waka Kotahi on surface light rail pre-2019. Adopting these plans will allow any work to be fast tracked with only minor updates and improvements needed. From this stage I would support expansion

#7750

of surface light rail, such as what is proposed in Auckland Transport's Auckland Rapid Transit Pathway 2023 report. The line should be expanded to Onehunga and Mangere, and eventually to other transport corridors such as the North-Western or Northern corridors, upgrading any busway infrastructure. Staging the development of the network in this way ensures it remains affordable for Aucklanders and is practical to build.

Congestion is a major issue in our city that costs Aucklanders time and money. It restricts our growth and potential. Consistent work done over the last decade has shown that we cannot only rely on our bus network in our busiest corridors in order to address our cities transport issues. Surface light rail provides a higher capacity solution that is affordable, deliverable, environmentally friendly, and will connect communities in Auckland. It provides a plethora of economic benefits that will create jobs and help businesses while improving our streetscapes to make our city a better place to live.

**2b. Is there anything you would spend less on?**

Building, upgrading and maintaining roads for private vehicles

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

Support

#7750

increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	I don't know
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support

#7750

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

**8. Do you have any other comments?**

I support a surface light rail network as it provides the opportunity to regenerate urban centres and enables development through a higher capacity transport system.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

help AT more in managing roads and improving the bus and train services.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

protecting the environment

**#7761**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

improvements to the transport system are very good and help people get around without cars. Moreover the cancellation of someone of these policies like the cycle ways which are barely used anyways will leave more capital to be spent on improving roads as well.

**2a. Is there anything you would spend more on?**

network optimisation and improving the roads.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7761**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

lower rates

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I do not support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Not Important

#7761

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Not Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

why would u remove bins from parks? Where will people throw the rubbish? on the ground. There is already a lack of bins so there will be more litter.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

We need to focus more on improving our transport system, roads, and libraries and public spaces. We need to have better libraries, more books and more libraries.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better public spaces, tree lined streets and comfortable public gathering places.  
Vibrant streets.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7789**

Less building of roads, and reallocate space to other users.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Cycleways need to be included in our transport plan. As well as safer pedestrian crossings.

### **2a. Is there anything you would spend more on?**

Cycle lanes are the highest cost benefit transport investment!

### **2b. Is there anything you would spend less on?**

Car parks. These should be 100% user pay.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

### **Tell us why:**

The stadium needs to support itself, with minimal council funds. Developing around it seems very reasonable.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

### **Tell us why:**

Diversifying makes sense.

**#7789**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I'd be hesitant about such a long term lease. There may be terms and conditions which constrain a future council.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

A lump sum payment should be invested, but ongoing payments can be used for operational costs.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

#7789

Tell us why:

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support

Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

**Tell us why**

It would be a big change to have no rubbish bins in parks. It's possible but would require cultural change to take out what you bring in. I hope park clean ups don't stop. Once litter accumulates, others with leave rubbish.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Think big. Invest for the future. People forget how much value they get from the services Auckland Council provides.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better public transport like light rail.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7811**

Don't add extra lanes to motorways and don't focus entirely on road infrastructure.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

The planned cycleways should go ahead.

**2a. Is there anything you would spend more on?**

Better bike infrastructure like dedicated cycleways.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7811**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

#7811

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Do not support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#7811

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#7811

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#7821**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

Don't live in Albany and have never attended any events at that stadium.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Against selling all of AIAL shares (even if over time).

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**#7821**

Quite frankly it is currently poorly managed. By leasing, hopefully it will be better managed.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Money used to upkeep of public spaces and development could be used elsewhere such as the main CBD where it is becoming less attractive compared to the Viaduct area.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Need to keep operations of port as is and not have to rely on truck and rails, which are already struggling.

**6a. What do you think of these proposals?**

#7821

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do more
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Roading - start the harbour crossing don't just fund multiple studies on it

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Spending millions on cycle lanes / speed bumps

**#7841**

Aucklanders don't ride bikes in enough numbers to justify this

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Auckland is NZ powerhouse, Wellington has a function public transport system - we need services that a major city needs - good arterial roads. Reduce infill housing which is causing issues

**2a. Is there anything you would spend more on?**

Harbour crossing - making it easy to get to train stations

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Other

**Tell us why:**

If you redevelop you need to support other areas for stadiums - like eden park / mt smart

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

We need the money

**#7841**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

#7841

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

**#7853**

- Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.
- We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per Surf Lifesaving Northern Region's Surf 10:20 Capital Development proposal.
- Mairangi Bay Surf Lifesaving Club has existed in its current location for 70 years. The current membership comprises ~150 active lifeguards, over 500 Junior Surf children aged 6-14yrs and a further ~600 associate members. The building is well past its useful life and can no longer adequately cater for its membership and activities. A new building is therefore imperative to continue being able to serve the membership and community.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**#7853**

Development more apartments in the precinct to better use the facilities and transport connections.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The port really needs to move to be honest. Build the national stadium in the area with a proper transport hub and bring AKL city into the 21st Century. Having all those containers and cars piled up is a \*\*\*\*\* eyesore. Move the port to an area where transport is more easily accessible to remove trucks off the road and utilise the rail system better.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#7853

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to</p>	

#7853

the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

With regard to Question 1c, Auckland Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle. Mairangi Bay Surf Lifesaving Club volunteers rescued over 70 people in the Auckland Anniversary floods and did so operating out of storage shipping containers.

#7853

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

## Local board priorities

7a. Which local board area does your feedback relate to?

Hibiscus and Bays

## Henderson-Massey Local Board Priorities

7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	
Our Community – ensure the maintenance and development of 'fit for purpose' local services and spaces meet the needs of our diverse communities.	
Our Places – support initiatives that improve walking and cycling opportunities.	
Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.	

Tell us why

#7853

7c. What do you think of the Henderson-Massey proposed priorities for the 10-year budget 2024-2034?

I support most priorities

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	Very Important
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	Very Important
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	Very Important
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off	Finalising the review of the 2015 Mairangi Bay Reserve Management plan and

**#7853**

road, well-connected networks for active modes of transport.

supporting the Mairangi Bay Surf Lifesaving Club to progress its redevelopment project is imperative for the upcoming year.

**Tell us why**

It should be a priority to deliver the Mairangi Bay Reserve Management Plan outcomes within the 10 year period, including a new surf lifesaving club building and associated storage, road closure and seawall maintenance

**7c. What do you think of the Hibiscus and Bays proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

I am submitting a response on behalf of Mairangi Bay Surf Lifesaving Club.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable): Tumeke Cycle Space

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Cycle lanes and support for cycling from AT is really important to us.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7855**

We'd like less funding for roads and parking, so that driving becomes more expensive -  
- making parking for expensive could make it better for cycling and community engagement.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We support making public transport faster and more efficient, however we want continued support for the most extensive cycleways plan, as well as multi modality, making it easier to take bikes on buses , and supporting more secure bike parking at train stations and bus hubs. Raised pedestrian crossings are also very useful for cyclist safety, and slower wpeeds around schools and residential areas makes everyone safer.

**2a. Is there anything you would spend more on?**

Cycleways

**2b. Is there anything you would spend less on?**

Road maintenance

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**#7855**

**Tell us why:**

Our preference is for a mix, transferring half of the holding into the future fund and maintaining 5.5% ownership of the airport to ensure the council can still have an influence in the future direction of this critical part of Auckland

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

A revitalised waterfront can be really great for public engagement with the city, and provide more urban space for walking and running.

#7855

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers	Fairly Important
-----------------------------------------------------------------------------------------------------------------------------	------------------

#7855

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Community activation and making good use of parks as the area densifies is really important - these public spaces can also enable good cycling

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Supportive of increasing pool access by petitioning to the governing body, the community centre in Sandringham, the Pt Chev library and night time events in the area. All the priorities look good but should be considered in the context of climate change and making sure low-carbon transport is possible and easy and safe in this area

**#7855**

8. Do you have any other comments?

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improve the safety of roads and cycleways on main arterials. Invest more in public transport, buses, ferries and trains, to make them more reliable. Also, more should be invested in grade-separated rail crossings.

**#7857**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Benefits all Aucklanders by (a) making public transport more affordable and reliable, (b) reducing congestion on roads by encouraging the use of public transport, and (c) ultimately increasing potential profit from public transport (?). I can't entirely agree with withholding payment and funds for rail maintenance, as Kiwirail may reduce maintenance and quality of work, causing more issues with the rail; with CRL being completed, any delays or issues will be scrutinised.

**2a. Is there anything you would spend more on?**

Grade separation for rail lines, increasing no. of bus lanes on main arterials, relocation of parking zones along main arterials (i.e., Dominion Road) and implementation of more AC or AT-owned carparks, i.e., kick out wilsons carparks.

**2b. Is there anything you would spend less on?**

I would not spend money investigating the feasibility of a low-cost bike ferry connecting Northcote and the city centre. It isn't a worthwhile project at this current stage. Further thought or considerations can be included in the second harbour bridge crossing project.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

Operations should change, and different events should be held there. Look to Mount Eden Stadium for example of different uses i.e., art exhibitions, sporting events, golf

**#7857**

event, concerts, glamping huts, and special rock room. I do not agree with selling too much land to support the development, or if it is sold, it should be to a commercial developer/iwi, to create shopping districts, restaurants, etc., not housing. This will encourage more people to go to Albany in general.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Diversification and resilience is good.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Long-term resilience and diversification of funds. Alternatively, partially invest alongside all the AIAL dividends. The rest should go towards funding for capital, maintenance, rail and NZTA projects related to the port, i.e., taking the funds and reinvesting back into the port infrastructure.

**4d. Do you have any feedback on any other part of the proposal?**

#7857

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#7897**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

This sounds like a sensible option for diversifying and future-proofing Council's investments.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

#7897

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual	Support

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do less
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Focus on core responsibilities in residential areas like mowing berms, cleaning gutters and stormwater drains, replacing and repairing footpaths

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7902**

Less social and non core spending and nice to have

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

support stopping raised crossings and speed bumps particularly on main roads.

Also replace 30 kph with 50KPH in most streets, 30 is far too slow and unnecessary

### **2a. Is there anything you would spend more on?**

Traffic lights are needed at the Omahu Road Great south road intersection where there is significant congestion and delay at most times. this is a busy through road, the Remuera road end has traffic lights but the great south road end doesn't. many who want to turn right out of Omahu find it impossible at times so turn left and then do a dangerous U Turn

### **2b. Is there anything you would spend less on?**

speed bumps, raised pedestrian crossings and reduced speed limits

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

### **Tell us why:**

Its important to have a stadium on the North Shore

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#7902**

**Tell us why:**

makes sense

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

seems good

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

#7902

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know

#7902

Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I do not support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------

#7902

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Do not support making parks rubbish bin free. this will create mor untidiness. we need more rubbish bins. What about traffic congestion issues and speed bumps and raised crossings. Traffic lights at Omahu Road Great south road intersection needed

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

don't seem to be concentrating on important and core issues

**8. Do you have any other comments?**

do not support fortnightly rubbish collections

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to	Very Important

#7924

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7926**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

#7926

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------

#7926

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools</b>.</p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland Council needs to do more to meet the goals of its Climate Plan and Transport Emissions Reduction Plan. The climate crisis is upon us and we need to focus on building our climate resilience across infrastructure and services.

#7935

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

I think Council needs to show leadership around keeping our city as compact as possible and thus avoiding housing to be enabled at the edges of the city. Council needs to support a lower carbon future, a stronger economy and excellent services for Aucklanders. We need density done well in our urban areas and central suburbs, rather than significant housing developments on the very edges of the city.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

On the whole, I support the proposal, however think that it's not necessary to cut some bus routes and reduce funding for safe walking and cycling. We need to continue the focus on reducing emissions while improving our transport networks. If we have less uptake of walking, cycling and public transport across Tāmaki, our transport system will be worse overall. What I do support is completing the City Rail Link, improving reliability of bus, rail and ferry networks, funding new cycleways and shared paths, 50% of electrified buses by 2030, and a weekly \$50 cap on public transport fares.

**2a. Is there anything you would spend more on?**

We need to complete the CRL and Great North Road upgrades, as well as more dynamic bus lanes. I'm also really passionate around safety projects around schools and town centres - we need our people, young and old, to have safe pathways to travel around our community. We also need to step up our investment in rail, with rolling stock and more support for ongoing Kiwi Rail track maintenance.

**2b. Is there anything you would spend less on?**

Stop spending money on expensive and unnecessary widening of already wide roads like Te Irirangi Drive. It's short term thinking that belongs in the past. Make decisions that support greater use of public and active transport. There's so many helpful infographics that show just how ridiculous it is to continue designing cities which hold the car as king - we can get so many more people around our city easily by prioritising public and active modes of transport.

**#7935**

### **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

#### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport shares have paid good dividends in the past. They're a strategic asset. I have major concerns that the Auckland Future Fund would just be chipped away at over time for reactionary funding rather than being used strategically to move towards a low carbon and resilient economy and city. Additionally, with no ethical parameters set for this fund, we run the risk of investing in companies that will make the climate crisis worse.

#### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I'm not in favour of leasing the port as we'll be privatising it for the foreseeable future. We'd lose control over an important and strategic part of our waterfront and the income from its profits - which were \$52 million in 2023. There's also likely to be worse outcomes for port workers and higher costs for NZ businesses and consumers.

**#7935**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Our population is growing and our challenges are only getting greater in number and complexity. Now is now the time to reduce services and the port dividends have been a reliable funder of council services to date.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

My family regularly enjoys events in the city and downtown areas, as do many Aucklanders. If we have access to these wharves we can have more waterfront space opened up for public enjoyment and events. I'd suggest the cruise ships can be relocated from Qu

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Moving port operations from Bledisloe Wharf would be ridiculously expensive and damaging to our environment, plus the port would be far less able to return a dividend to council.

#7935

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#7935

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like to see the Auckland Council support community groups to ensure they have what they need to help build climate resilience. I would like Auckland Council to support groups who already do social good in their community. Things around diversity and inclusion.

**#7937**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

I would like more spent on public transport and more creative ways to move people around. More cycleways and some of them not on the main roads. I want more less spent on roads.

**2a. Is there anything you would spend more on?**

Expand on-demand small electric buses .

**2b. Is there anything you would spend less on?**

roads

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

I like greater use by the community . this empowers and connects people to each other and builds community.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#7937**

**Tell us why:**

The airport is a strategic asset don't sell it.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The people of Auckland should collectively shape the plans for the port. Not private entities. Keep the money in the city.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The council needs money and to spend it wisely for the people. Spending money wisely now is an efficient way to invest in and build resilience across all sectors of the city.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Any future fund should be paid for by increased rates. The property owners in Auckland have benefited from no capital gains tax and huge profits from housing . I would suggest they can give back by paying for the future fund. Especially since any terrible weather event could hurt them and their property I would suggest that this is an issuance that they pay for.

#7937

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Increasing access to the harbour is a good thing for the people of Auckland. Do it overtime .

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Don't change what's already working in these difficult times.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support

reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

I would like to see corporate businesses to pay more than local businesses. Overseas franchises like KFC should pay more than local eateries. Helicopter pads should pay more. Tax on unoccupied houses which there are 35,000 in Auckland. ie reduce landbanking and encourage more renting options.

#7937

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop making raised pedestrian crossings and limiting speed in urban side streets.

**#7947**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Make it more attractive for people to leave their cars at home. AT's current track record is terrible.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

#7947

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

There is plenty of room at the Viaduct basin for public activities

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

There is plenty of room at the Viaduct basin for public activities

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Support

#7947

around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025,	Support

#7947

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#7947

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increased railway routes development

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#7980

Less council funded lawn mowing

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

All sounds good, but I think investment is needed in cycleways and joining the existing networks so that cycle travel is feasible

**2a. Is there anything you would spend more on?**

Cycleways and joining the existing networks so that cycle travel is feasible

**2b. Is there anything you would spend less on?**

Pedestrian crossings for rail networks

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

I think it's worthwhile to invest in the stadium precinct, but it should not be a priority for spending

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#7980**

A future fund of managed shares would be beneficial but maintaining control of aial through shares is crucial for the region

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

To pay for costs upfront cash assets are needed while investment jn the larger auckland region is undertaken.

And if the lease is for 35 years auckland ports can still be retained as an asset

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

As currently worded the future fund is to be started with aial shares which should be retained by the council

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

As currently worded the future fund is to be started with aial shares which should be retained by the council

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#7980

**Tell us why:**

The port income can be used by the council to pay for infrastructure investments across auckland

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

The port income can be used by the council to pay for infrastructure investments across auckland

**6a. What do you think of these proposals?**

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I agree in support of CAB

#7980

Growth and ensuring community thrives with growth

## Rodney Local Board Priorities

### 7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Very Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Not Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	I don't know

#7980

Develop pathway connections in Green Road Park.

I don't know

**Tell us why**

I don't believe that heat education will minimise community waste

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

I would like more investment into ensuring that the towns can support growth over the next 10 years.

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Warkworth

**8. Do you have any other comments?**

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in</p>	<p>Do not support</p>

#8028

harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do less
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

no

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

no

**#8033**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

#8033

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8042**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Greatly support CRL; train should extend to the airport from Onehunga/Puhinui

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The Investments are working well as they are; don't sell the family silver!

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**#8042**

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I don't support establishment of the Auckland Future Fund

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Prefer POA to be moved to Whangarei with a rail link

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like to see prioritisation of environmental, parks, climate change mitigation, public transport, active transport and library investment by the council. I want to see investment prioritised towards benefiting the most vulnerable in our society. I would like

**#8050**

to see investment in monitoring of resource consents (current and future) to ensure that negative environmental impacts are prevented.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less focus on transport initiatives that only benefit private vehicles.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I do not want to see a reduction in projects that promote pedestrian and cyclist safety and believe that active transport projects should be prioritised over roading projects. I do support the investment into public transport. I do not support the reduction in bus services that are 'low performing' as these may be the only options for some people to be able to move about the city and removing bus services is at odds with the general proposal of the council to invest in public transport and reduce emissions.

**2a. Is there anything you would spend more on?**

Public transport and active transport options (walking/cycling). Trains!

**2b. Is there anything you would spend less on?**

Roading projects that only benefit private vehicles

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

A loss in council owned assets is very hard to recover and with a growing population the need for them is only going to increase.

**#8050**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

It is important to retain the council's shareholding in AIAL. It is disappointing that some sales of shares have already proceeded and it is a short-term solution that will only result in long-term problems for the council. This seems to be based on returns from the shares over the covid period, which we all know was an unavoidable and temporary disruption to AIAL's operations. Clearly they will be operating with greater profit in the future. The council needs to have a say in the direction of the airport and retaining shares is the right thing to do. There are other ways to ensure financial stability for the council (increasing debt would be one) and the options presented in this document are limited and conservative. I do not agree with asset sales.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#8050

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

The plan to shift these wharves seems poorly thought through. There is no evidence that their operations can be consolidated within the remaining ports area and the resulting shift in shipping to other ports would cause an unnecessary increase in transpor

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

I support increasing parking charges, but I am concerned that introducing parking fees for park and ride services will decrease public transport uptake and cause more people to drive a private vehicle rather than take public transport. I support developers being

#8050

charged to fund the development of utilities to their sites and contribute to the local community.

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important

#8050

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

**Tell us why**

I want to see a good investment into the Pt Chev library to return it to being the full community support hub that it was in the old building. The current library in its temporary space is ok (and very important to have) but it is a tiny space with limited ability to really provide the services the local community needs. There are huge developments going into Pt Chev with projected increases in residents - we need a full library.

I am concerned about the proposal to remove rubbish bins from local parks as I do not think that the public will respond to this by taking their waste with them. I worry that this will instead cause an increase in dumping and littering. I would like to see Auckland achieve zero waste to landfill, but currently packaging and the public's assumptions about waste processing do not support a cold-turkey removal of bins. Particularly for parks near the sea such as Coyle park, or Pt Chev beach where huge crowds gather and picnic and any loose rubbish will blow immediately into the sea.

I have strong support for investments in environmental work - particularly community environmental initiatives, pest-free initiatives.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I support these priorities, especially the return of the full Pt Chev library, support for diverse communities and accessibility and environmental investment

**8. Do you have any other comments?**

I do not want to see any reduction in funding for environmental services, or community groups in order to rebalance other funding. I am very pleased to see a proposed funding to address the issue of caulerpa seaweed. I support Māori engagement and actions to improve Māori outcomes. I am pleased to see the reinstatement of targeted rates for the environment and water quality. I also support investment into potential

**#8050**

future impacts from climate change and would urge the council to use 'sponge cities' approach, which is not just the cheapest option, it is also has the best outcomes for communities and the environment.

Overall I support the general approach thae the council is proposing, with the invest more lens.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Addressing climate change! It is an obvious thing to do to ensure a future liveable city and planet. Every dollar spent now will save in the long run.

**#8060**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Public transport focus is excellent but neglecting connection and growth of the cycleway network is a huge negative. Safe, low carbon, efficient options are vital and cycling has health benefits too - it's terrible to not support this in trying to create a modern, liveable city

**2a. Is there anything you would spend more on?**

Cycleways and public transport

**2b. Is there anything you would spend less on?**

Roading projects which enhance dependency on cars

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

We have too many stadiums - several of a similar size so some sensible decisions to need to be made

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#8060**

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Bledisloe wharf should however stay with the port to ensure a functional future operation

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#8060

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>

#8060

Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------

#8060

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do less
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

**#8061**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

#8061

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Pedestrian safety improvements please, as anyone living in the city (especially with a child) would agree Auckland has fallen far behind the global standard for pedestrian safe streets (safer crossings, developing a system of one-way streets instead of two-ways everywhere, introducing quieter streets between apartments, slow down traffic at intersections, crossing islands, better night-lit crossing, wider sidewalks, etc). Cycling

#8130

infrastructure improvements to allow quicker and safer connectivity between die scattered cycle lanes that already exist. Also improve existing cycleways that really aren't safe and barely exist as these result in even more unsafe car-bicycle confrontations, life-threatening to the cyclist in most cases. And finally more urban development end densification around the CBD instead of allowing more and more consent to further sprawl out suburbs. Urban development holds so much more benefits compared to unsustainable suburban expansion.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop creating mixed walk-cycle paths as this holds no benefit for either pedestrians or cyclist. Rather you can create a very successful cycleway by designating a very small width of the overall street to cyclist. Instead of spending millions on highway expansion to feed further suburban sprawl up north and south of Auckland, distribute more of that money towards cycling & walking infrastructure and urban densification within the CBD.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Anyone living in the city and it's surroundings would agree raised crossing for pedestrians and cyclists are a good idea. The main reason government/Auckland feels to remove funding for these I guess would be emergency vehicle response times, but real-life measurements and findings need to be shared with the public before removing life-saving infrastructure from them and their kids. On main roads I would agree we should priorities emergency vehicles, but across the hundreds of quieter streets we should priorities the residents who would much rather prefer safer walkable streets. Raised crossings saves lives and allowing fast-flowing emergency vehicles also allow fast-flowing traffic which puts lives in danger. Everyone not using a car in Auckland knows how many crossings feel unsafe and would not feel comfortable having their kids walk without supervision due to traffic safety concerns. Please don't remove funding for raised crossing, rather place them where they are needed: schools, parks, outside street shops, bus stops, entrances to dead-end streets, and especially left-hand turns at large traffic intersections. Flowable lift-hand turns are the worst crossings for pedestrians and raising them improves the every unsafe aspect of this corner, while also allowing emergency vehicles to make their left hand turns effortlessly through the flat area the larger intersection.

#8130

**2a. Is there anything you would spend more on?**

Spend more on cycleways and pedestrian safety. ANY decision-maker in government/Auckland council/AT should cycle through Auckland with their child on the front/back and they'll immediately notice the enormous opportunity there is in moving people by cycle/scooter through the dense CBD and how dangerous this mode of transport currently is for everyone.

**2b. Is there anything you would spend less on?**

Spend less on car-focused road/highway infrastructure which ends up being multiples less efficient than public transport and only increases our future spending towards road maintenance.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

#8130

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Support

#8130

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. #8130

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important

#8130

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

Being centrally located, this area experiences high traffic throughput and the board should place a lot more focus on the ease, safety, efficiency of transporting it residents to and from the city (and other centers) through busses, cycleways and safe pedestrians crossings while also respecting the Albert-Eden residents through developing quiet and safe streets and parks. Also, the board needs to focus more on solving crime and homelessness in our area please because left untreated this will eventually negatively effect all aspects of life and the boards priorities listed above.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Please have more public feedback sessions to understand the real-life priorities of residents living in each area of Auckland. Also, please don't invest in more than what's needed in old-thinking car-centric infrastructure, but rather allocate more funds towards a connected cycle-grid and safe pedestrian orientated city.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	Do more
Economic and cultural development	
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

**#8144**

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

I don't know

**Tell us why:**

**2a. Is there anything you would spend more on?**

Just core transport things, not all the fluffy projects and pet projects that one or two who know how to work the system get funding - do real public consultation

**2b. Is there anything you would spend less on?**

to stop wasting money on so many raised pedestrian crossing and speed humps.

to stop wasting money on so many cycle lanes for the sake of cycle lanes ( I am a cyclist who rides to work every day) eg big one along western motorway great, other collection of little bits here and there are waste of money. K'Rd cycle lanes waste of money and space. Get real cyclists to contribute to a plan - not e-bikers

stop trying to make the Ak CBD pedestrian only, it's becoming a difficult place to move around - i work in cbd.

Anything that is not core Transport.

sort traffic management so it doesn't cost everyone exorbitant amounts of money

#8144

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

need for a stadium on shore, don't need to revamp, just look after and make use of without charging too much

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

#8144

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to	Do not support

#8144

reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The only area is in pest control. This should be easy to focus on and track.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8153**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Seems reasonable.

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Find ways to implement all aspects of new transport in a more efficient manner. Have a cap on any cross walk etc. Stop the zero death lobby from taking over rational trade offs.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Seems like the best way forward.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#8153**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Ensures a return while retaining ownership.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#8153

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

I don’t know

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Big time Support of local sports for the ageing population to keep active eg tennis and swimming pools

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8192**

Remove Judder bars and don't build more especially at traffic lights

Less pot plants in middle of roads

Totally ridiculous!!!!

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

System at moment is broken!!!

Horrific and not addressing problems practically

Consider ambulances and people with no other options for travel

### **2a. Is there anything you would spend more on?**

Setting up road tolls eg on bridge as before and all high maintenance areas

Decentralise council

### **2b. Is there anything you would spend less on?**

Reducing taxes on things already in place and accepted by majority

The centrality of council

## **3. Which options do you support for the North Harbour Stadium?**

Other

### **Tell us why:**

Have no idea about the issues

**#8192**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

Very few people have any idea of the ins and outs of this!

Not a decision for general public individual s

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

I know nothing about this

Would need to be part of a huge investigation into it to understand what should happen

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Build another hospital

Population has increased hugely

We need another one now

Do more to prepare for facilities for our ageing population. We are all going to need it

**4d. Do you have any feedback on any other part of the proposal?**

#8192

**Tell us here:**

Don't know enough about it

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

Don't know anything about this

Too much at stake for average person to have any meaningful opinion

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

No idea

Unlikely any one person can give a meaningful opinion

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Don't reduce any costs already there

#8192

Just use the surplus to fund something else

Cost of living too much to take increases

## Local board priorities

### 7a. Which local board area does your feedback relate to?

Albert-Eden, Henderson-Massey

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to	Very Important

#8192

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

Support needed to help fund activities for older population eg tennis clubs swimming pools table tennis halls etc

More help needed in each Local area to reduce travel

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**Henderson-Massey Local Board Priorities**

**7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?**

Very Important

**More specifically, what do you think of each priority we've listed above?**

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	Fairly Important
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	Very Important
Our Community – ensure the maintenance and development of 'fit for purpose' local services and spaces meet the needs of our diverse communities.	Not Important

#8192

Our Places – support initiatives that improve walking and cycling opportunities.	
Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.	Must have support for community groups in theatea

**Tell us why**

**7c. What do you think of the Henderson-Massey proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Too hard for most people to give sensible feedback

Decentralisation would be best solution at moment for better outcome

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools</b>.</p>	<p>Support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	<p>Support</p>

#8197

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	I don't know
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	I don't know
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	I don't know

#8197

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	I don't know
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	I don't know
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#8211

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Expansion of public transport and infrastructure for active modes transportation is imperative if we are to reduce congestion together with pollution.

### 2a. Is there anything you would spend more on?

Spending should preferably be put into increasing cycleways because without an integrated cycling network, we won't increase cycling uptake as much as we need. The introduction of e-scooters shows how popular such forms of transport are and they should be accommodated in cycleways, not on pavements where possible. Council should negotiate with the e-scooter companies to apply better measures to achieve better driver behaviour both in driving amongst pedestrians and leaving the equipment in a selfish manner, blocking the pavement. They are intimidating for a variety of pedestrians. Without improving safety in this regard, many people will avoid the city centre. Having docking stations would ensure they are used otherwise the rider's credit card would continue to be debited. The e-scooter companies would pay for this infrastructure.

Improvements to the surfaces of many pavements is essential as many are hazardous to older people and those with mobility impairments. Same applies to road crossings. Don't be influenced by the negative statements around raised platform crossings, most are from motorists and many pedestrians really welcome the safety that they provide.

Also, considering how traffic volumes are reduced during the school holidays, then if more emphasis was placed on creating safer routes for walking school buses, less cars would be on the roads. Safer routes for children mean safer route for everyone of any age and particularly if they have an impairment.

### 2b. Is there anything you would spend less on?

No

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

**#8211**

**Tell us why:**

If what was written by a North Shore councillor is correct, the stadium thrived when operated by a North Harbour Stadium Trust. Remove it from Tataki Auckland Unlimited.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

POA is doing well under its current management and best to leave things as they are for now.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#8211

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>

#8211

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools</b> .	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Regarding rates rises, ensure that the Council's rates rebate scheme assists low-income households, is well publicised and easy to apply for.

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

**#8211**

**8. Do you have any other comments?**

Fully support proposed change in funding local boards and not having it based on the number of assets they manage.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Proactive response to Environmental concerns including supporting our young people to take action. (Enviroschools)

Libraries

Transport

**#8228**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Building stadiums and event centres

Bike lanes

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#8228**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

#8228

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. #8238

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

We reject Kianga Ora social housing as large complexes. This have proven to deliver poor social outcomes and the agency has also shown they can't manage tenants to embrace, respect and thrive within many of the communities..

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**Manurewa Local Board Priorities**

**7b. What do you think of our proposed priorities for Manurewa in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community	

#8238

participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.	

**Tell us why**

**7c. What do you think of the Manurewa proposed priorities for the 10-year budget 2024-2034?**

I support most priorities

**Maungakiekie-Tāmaki Local Board Priorities**

**7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?**

Fairly Important

More specifically, what do you think of each priority we've listed above?

#8238

Support community groups and community-led activities by continuing to provide local community grants.	Very Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Fairly Important
Empowering community groups and organisations to deliver community events through sustainable funding models.	Very Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Not Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	Very Important
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.	The waterways and the development of the area for community and economic improvement is available if investment is present. The Wharf, walking paths and parks can bring communities together and make business thrive.

**Tell us why**

**7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?**

**#8238**

Support

**7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.**

**Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?**

**Tell us why**

**8. Do you have any other comments?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8299**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Investing in public transport has huge benefits environmentally and in reducing traffic. I am concerned with central government's approach to ignore public transport solutions and focus on roads - this makes it more important that this becomes a focus of council.

**2a. Is there anything you would spend more on?**

All buses transferred to electric

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

#8299

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

I generally would rather the Bledisloe Terminal is transferred to council, but I'm not confident in the availability of alternative port operations ie is it realistic to move operations elsewhere and rely on trucks and rail.

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Support

#8299

around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025,	Support

#8299

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#8299

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

It's not realistic to remove bins and say the parks are waste free - many items come with waste and there's nothing people can do about it. I am concerned that having no bins would lead to more littering and more waste.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Now is a good time to raise rates as the government provides tax breaks to landlords. It's important that council has the most amount of funding possible to put into public transport especially.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8303**

Everything. Just empty the bins, repair pot holes on non-highway roads, clean the streets and clean drains. Don't need them to do anything else.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Far too much chaos has been caused with all the new cycle lanes such as the hardly used one at the bottom of college hill. For all the cyclists who live in Herne Bay!

### **2a. Is there anything you would spend more on?**

Getting rid of lightly used cycle lanes

### **2b. Is there anything you would spend less on?**

Slowing traffic down

## **3. Which options do you support for the North Harbour Stadium?**

Other

### **Tell us why:**

Close it or sell it off if it cannot pay for itself

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### **Tell us why:**

**#8303**

Because the council will squander the money and then there will be nothing and the council will be back with its hands in tax payers pockets after blowing all the money.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Because I don't trust your big round numbers which involve spending money to make money. Councils generally can't run a sweet shop and I don't want the council 'investing' in anything!

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#8303

**Tell us why:**

Because you want to spend a fortune of taxpayers money so you can sell the prime land and then waste that money.

**6a. What do you think of these proposals?**

Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

People will then throw the rubbish on the floor! Thats why the council spent a fortune putting bins everywhere in the 80's. It will then cost even more to clean it up. If you don't want to clean the bins. Close the parks and sell them off for development returning the money as a dividend to rate payers

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Don't support

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Long-term infrastructure, including another way to get to the North Shore (tunnel or bridge).

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8321**

Don't sell assets especially dividend paying ones (e.g Auckland and Auckland ports). This harms the council's financial viability and reduces its control over key municipalities.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Ownership of Auckland ports and Auckland airport must be a key priority as they generate revenue for the council outside of rate payers.

### **2a. Is there anything you would spend more on?**

Enabling Auckland ports to move up north while retaining equity ownership.

### **2b. Is there anything you would spend less on?**

Safety. Cut down on safety signs, road cones, and road safety trucks.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

It's fine "as is"

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#8321**

**Tell us why:**

Auckland airport is a valuable long-term asset for the city. It's also vital to the public. Sell it would be shortsighted.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Retaining full ownership means the council can explore and eventually move the ports up North. This would free up exceptionally valuable land for the city and benefit the council.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Enabling Auckland council time to explore moving the ports up north while retaining equity ownership.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Don't sell valuable long-term assets.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#8321

**Tell us why:**

Moving the ports up north is a great idea.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

The city is moving on. There are better places for a port in NZ.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Water infrastructure. Public transport.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8350**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Rail. Finishing the busways. Cycling infrastructure. Auckland's cycling infrastructure is awful outside of the CBD and a few roads.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

Keep it and encourage more use of it.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#8350**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Do not lease the port out. You will create a monopoly for one company you leased operations too.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

If you sell this off you forever lose those dividends on the promise of neoliberal privatisation nothingness.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#8350

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#8350

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Removing rubbish bins will backfire horribly. We are not Japan, people will not take their rubbish home with them. They will just chuck it somewhere.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#8376**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Is the money going towards developing grassroots fields and/or other playing areas?

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

#8376

I don't know

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in	Support

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Local engagement in community groups and funding of local environmental, social, cultural organizations. Investment in parks, building cycle ways etc.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8393**

Building roads

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I would like to focus much more on public transport and active modes such as cycling

**2a. Is there anything you would spend more on?**

Cyclelanes

**2b. Is there anything you would spend less on?**

Road upgrades and adding new roads

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

#8393

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I'd happily pay more in rates to deliver functioning public transport to take more private vehicles off the road as well as starting Stage 1 of light rail

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8420**

Letting NIMBYs dictate the conversation which ends up in significant sunk costs in projects that get derailed.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Everything is great EXCEPT for reducing raised pedestrian crossings and cycleways. Outrageous that you'd prioritise vehicles over humans. Give people alternatives to driving and they WILL use it.

### **2a. Is there anything you would spend more on?**

Cycle paths / cycling network

### **2b. Is there anything you would spend less on?**

Roads

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### **Tell us why:**

**#8420**

Why sell shares that will continue to increase in value returned to Auckland? Idiotic.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Don't lease it. Everything will suffer.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Services are underfunded enough as is

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Greater access to our harbour front is a net positive for all Aucklanders.

**5b. What option do you prefer for Bledisloe Terminal?**

#8420

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Money maker.

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing	Support

#8420

the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers	Very Important
-----------------------------------------------------------------------------------------------------------------------------	----------------

#8420

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Making our parks rubbish bin free will just result in more people littering. Keep the bins.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Invest in public transport, please. Make Auckland a properly liveable city.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Would support the delivery of more rail(heavy or light) public transport. Support more mixed use zoning changes to encourage compact medium density increases. Would support targeted rates and increased DCs where infrastructure upgrade benefit is

**#8471**

directly correlated with property - especially where resilience is being delivered in central suburbs by separating SW and WW, or new PT projects are proposed.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Work with developers and business owner operators to have public assets delivered and maintained - Vancouver model. Disincentivise driving - introduce a congestion charge or motorway use charge like in Victoria (Aus) as an agreement with Waka Kotahi as asset owners.

**2. What do you think of the transport proposal?**

Tell us why:

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Tell us why:

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Tell us why:

**4b. Which option do you prefer for the future of Port of Auckland?**

#8471

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate</p>	

#8471

<p>from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	
<p>Re-introduce <b>recycling charges for schools</b>.</p>	
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

#8471

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important

#8471

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

Fairly Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Support having a more diverse use of parks spaces rather than a single programme, and increasing ngahere coverage. Improved safety of walkways and cycle ways is incredibly important.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Infrastructure

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8495**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

#8495

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do less
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do less
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

no

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less climate change policy work, where it occurs

**#8500**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

the elements presented seem sensible and adequate for now

**2a. Is there anything you would spend more on?**

no

**2b. Is there anything you would spend less on?**

campaigns for electric cars and other environmental initiatives

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Greater use by the community is a more appealing option to me for what I perceive to be a greater overall benefit through the potential for building community itself

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

seems to be a positive initiative worth undertaking. More pro-active on a core issue (finance) than other solutions like simply cost-cutting or tightening belts

**#8500**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

seems like more potential for funds to help Auckland

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Change is needed

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No. It will be good to see the future fund be established.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

the idea of future potential earnings from transferring the wharves is too nebulous to bank in imo

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#8500

**Tell us why:**

as above, I think it serves its best purpose as it is for now. Being used "for something else" is too vague to bank on imo

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Other

Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

these are all initiatives that I believe will improve our local community.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I support them all - would like to see a Night Market in St Lukes too.

**#8500**

**8. Do you have any other comments?**

I would like to see the continued focus on \*local\* environment and less to no focus on the broad and indefinable global climate change. I value the approach taken in this year's plan - seems thrifty, sensible, focused, actionable.

# Long-term Plan 2024-2034

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Do more to support sustainable transport such as public transport and cycleways (the latter are crucial).

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8504**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

The work on cycleways is too important to stop. In fact, we should be doing MORE on cycleways not less.

**2a. Is there anything you would spend more on?**

Cycleways

Public transport

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#8504**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

#8504

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Preparation for flooding and other climate events in regards to a more robust transport network. If you expect us to work in bad weather we cant have one road linking major transport corridors.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#8517

Parking wardens in low income areas, reduce patrol cars for the CBD and get cops walking again.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

A robust transport network is key but if a pedestrian cant easily commute from a bus or train to a walkable or cyclable area the result is lessened. accessibility for foot traffic over any driving based advantage is key.

### 2a. Is there anything you would spend more on?

Speeding the completion of the proposed rail line improvements and better accessibility for east, south and north auckland communities

### 2b. Is there anything you would spend less on?

Honestly most of your managements bonuses.

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

I have no knowledge of this or its value to the northshore community.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

**#8517**

**Tell us why:**

We are a key port for the country, any investment in controlling the development of these assets to benefit the city over CEO pocketbooks is vital.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I don't trust outside sources that would value the profit generated by the port over how it would affect the workers or the city.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I would appreciate both but we must value the current services provided lest they fall further into a dysfunctional state

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#8517

I would prefer Ports focus on commercial and industrial gain and the council uses areas more suited to the public good like those wharves

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

I dont see much use out of bledisloe, if the ports could genuinely use it then id like them to keep it and frankly I dont see the council doing much with it with any haste but would be happy to change my mind.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Support

#8517

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#8517

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

I dont see how losing park bins will create a more economically aware population. The opposite really, for every person taking trash home will be someone deciding you made it to hard and blaming you when they leave trash. You may as well get rid of public bathrooms to curtail public urination

**#8517**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Broad but seem community minded for the most part

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#8524

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

This needs to be put on a strategic footing - strongly support integration and making PT more accessible, affordable and reliable is required. However one of the primary issues is poor driving, driver education/testing and minimal enforcement by Police.

**2a. Is there anything you would spend more on?**

Maintain speed reduction and traffic calming.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#8524

Tell us here:

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

Tell us here:

Further work is required on the Auckland Future Fund governance and management to demonstrate independence for financial management etc.

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

infrastructure upgrades to support this infill housing you want it seems there is very little in regards to roading, schools and storm and wastewater. Nothing is happening in this regard to support the extra housing so it is not sustainable as we have issues now. Stop removing rubbish bins, I am sick of rubbish littered through our parks. We need more bins.

**#8546**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop giving money to the TMA to cut down our beautiful trees on the maunga. We are in a climate crisis and need these trees, it is a waste of rate payers money to fund such wasteful spending

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

we don't need any more speed bumps, they are bad for the planet and emergency services

**2a. Is there anything you would spend more on?**

improve traffic light phasing

**2b. Is there anything you would spend less on?**

speed bumps

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#8546**

**Tell us why:**

don't sell the shares we cannot sell everything off

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#8546

**6a. What do you think of these proposals?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- continue to build safe cycle ways
- continue to support communities and projects, keep community centres open and don't decrease projects

#8574

- increase small electric buses/public transport on demand

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

less road building

make contractors more responsible for what they charge and what the quality of their work is

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

- don't stop any cycleways
- reducing general speed limits might help to lower overall speeding thus reducing the need for raised ped crossings - ensure appropriate enforcement (cameras) and ticketing for speeding over ped crossings and people will start to slow down - which is the same effect as raised crossings. Make people aware that they are only needed because of their driving behaviour.

**2a. Is there anything you would spend more on?**

- more and safer cycleways,
- public transport (in particular free for children and students and adults with children)
- general \$2 fares across the city regardless how many stops)

**2b. Is there anything you would spend less on?**

ongoing kerb repairs where there's no obvious problems, save on mowing and spraying berms and give the power to maintain them back to the people with not only duties but also rights (to sow wild flowers etc)

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**#8574**

**Tell us why:**

I am not well informed about this project but I disagree with keeping an expensive stadium and not having community use it.

I don't agree with selling land but I wouldn't mind leasing it in 10 year increments with the leasee having obligations in the upkeep. NAd as a give they need to allow community use.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Absolutely no selling off airport shares (or leasing out for many decades at a time substantial council assets for that matter) - this is short sighted and puts the council into the hands of companies who only serve their shareholders and not the public interest - they are profit making companies that benefit a few rich people and not philanthropic entities!

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Absolutely no leasing out of such a lifeline - the port is where our life comes through - if this is in the hands of profit making companies they will drain as much money out of the ports without reinvesting and when any length of lease will come back to council (if at all) then the assets will be run down and the public has to pay to get them up to scratch. All money will have vanished in a few well lined pockets.

**#8574**

The NZ rail is a good example for this type of mismanagement - and it wouldn't matter whether it is sold or leased out, the negative outcome would be identical.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

spend money across the city as it comes in - there's no guarantee that a future fund will stay a fund but might be spent by a subsequent council/mayor.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Introduce capital gains tax and more business targeted taxes where they profit from council investment.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

yes, public benefit is what the city /council is charged with!!

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#8574

yes, public benefit is what the city /council is charged with!!

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide	

#8574

increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

- I think we should introduce a general pay as you throw /user pays service on the basis of occupants per house or on rooms per house. It's pretty devastating that we make huge efforts to spend money to reduce waste and still pay for empty wheelie bins.

- properties that are vacant for longer than one months should incur an extra cost to prevent developers and property owners from land banking. (I observe a number of properties had their houses removed, property flattened and remained empty for years before development finally started. Demolition and throwing people out of houses should only be allowed to start once a resource, building and demolition/removal consent is granted and specified that works now have to begin and put a cap on the time lapsing between demolition and start of building.

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

Albert-Eden

**Albert-Eden Local Board Priorities**

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support all priorities

#8574

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

People are the most important assets for the city/Local areas. So we need to keep working on making the city/local board area fair, safe, useable, friendly, clean, etc.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**#8574**

**8. Do you have any other comments?**

focus on ALL people getting the most from living in this Local Board

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland Council could do more to ensure compliance with existing bylaws, including proactive measurement and management of noise, pollution and anti-social behaviour.

Auckland Council should do more to realise its Climate Plan and Transport Emissions Reduction Plan.

**#8586**

Auckland Council needs to improve community resilience, which is partly planning and infrastructure, and partly building community networks.

We would advise against reducing staff levels to the point that they are overwhelmed and unable to give good advice.

We recommend that there is sufficient prioritisation of communication and IT systems to improve customer experience.

We should incentivise more development in the existing urban area close to transport links, perhaps by making it cheaper to get consents, and to connect to water infrastructure in existing suburbs. This would significantly reduce costs on the council over time.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Council should stop enabling housing at the edge of the city where there is no infrastructure. We need a compact city to grow a strong economy, a lower carbon future and better services for residents.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

completing the City Rail Link

improving bus, rail and ferry networks for more reliable service

funding new cycleways and shared paths so that more people have access to the network

delivering new and improved footpaths across Auckland, particularly in the city centre.

“Time of use” charging

a “room to move” programme to review parking in critical areas and increase revenue from parking and Park & Rides.

50% electrified buses by 2030

expanding the rapid transport network (RTN)

a weekly \$50 cap on public transport fares

#8586

However, the proposal cuts some bus routes, reduces funding for safe walking and cycling, and does not do enough to reduce emissions. Less uptake of walking, cycling and public transport will mean a transport system that functions worse for everyone.

### 2a. Is there anything you would spend more on?

completing the Downtown and Midtown Bus improvements

more cycleway and walking connections

safety projects around schools and town centres.

better funding for maintaining, expanding and promoting the public transport network, including to more remote areas

rolling out electric ferries and more low-emission buses, plus supporting infrastructure

the Lincoln Road and New North Road corridor upgrades

greater investment in rail: rolling stock, and more support for ongoing Kiwi Rail track maintenance

Street trees and rain gardens

### 2b. Is there anything you would spend less on?

there are areas where council could spend less. For example, instead of expensive and unnecessary widening of already wide roads like Te Irirangi Drive, we could use existing space for bus lanes and active modes. The Eastern Busway could be rescoped to use the existing road corridor and still have room for a cycleway and footpath. The excess land could then be used for housing.

We also do not support the full expansion of the 'unsealed roads' programme.

### 3. Which options do you support for the North Harbour Stadium?

I don't know

**Tell us why:**

**#8586**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport shares are a strategic asset that has paid good dividends in the past and will again in the future. We are also concerned that the fund would be whittled down in time in a reactive way rather than being used strategically to transition to a low-carbon and resilient economy, and city.

There are currently no ethical parameters for the Future Fund, so it might invest in companies that exacerbate the climate issues that the fund is designed to address. Investing in a non-ethical fund may jeopardise council's access to low-cost infrastructure loans via Green Bonds.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Leasing the port would privatise it for a generation or longer. We would lose control over a key part of our waterfront and the income from its profits (\$52M last year). The proposal may also lead to worse outcomes for workers, and higher costs for New Zealand businesses and consumers. We are concerned also that there will not be sufficient maintenance and modernisation in the latter years of the lease, meaning Aucklanders would have to bear these costs.

Our concerns over the Future Fund (as in 4a).

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

#8586

**Tell us here:**

Port dividends have always been used to fund council services and we do not support a reduction in services when the population is getting larger and the challenges are getting greater.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

It will open up more of the waterfront space for public enjoyment and events. Cruise ships could be relocated from Queen’s Wharf, meaning less impact on ferries and a more enjoyable space.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

It would be hugely expensive and environmentally damaging to move port operations from Bledisloe Wharf, and the port would be less able to return a dividend to council.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This	Support

Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

There's a real need to bring Mt Eden/Albert together - through public and local council engagement. While the Mt Eden Village centre has a town hall and church space, it doesn't provide much collaborative activity, there's not much going on, should be more local council activities/engagement to bring people in to support the local shops and restaurants.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

There is a need for more cultural celebration and activities in Albert/Eden. There also needs to be a public swimming pool and fitness/centre. The local town hall while providing a space for some arts activities doesn't meet with the demand and a dedicated Performing Arts and Cultural centre would also bring more activity/people into the neighbourhood. A regular farmers market would also be beneficial so that residents aren't beholden to the local Australian owned countdown supermarket.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Remove all speed humps and islands. They are an environmental disaster.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8588**

Stop deliberately making traffic worse. Remove all speed humps and islands. They are an environmental disaster.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Remove all speed humps and islands. They are an environmental disaster.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

Administration and PR staff

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

You have already lost billions hedging. You are not capable of managing funds. Focus on core objectives. Improve Auckland by getting rid of useless admin and PR staff

**#8588**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

You are not capable of spending \$ prudently. The \$2.1 billion will be wasted on administration, junkets, consultants and Iwi.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

You pay to many consultants and administrators that waste unbelievable amounts of \$. Focus on running AKL properly - that is your function.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

What idiot thought of moving the Port when the goods are destined for AKL. 1,000 trucks per day going to and from Whangarei over the Brynderwyn. Do you people have a brain?

**5b. What option do you prefer for Bledisloe Terminal?**

#8588

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

You will waste billions on consultants mostly from overseas and produce something that no one will use for fear of getting stabbed in AKL

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Retain quality Council staff by paying wages commensurate with the private sector.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Public events and city marketing. Residential development.

**#8597**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Transport has huge costs in inefficiency.

**2a. Is there anything you would spend more on?**

Buses, public footpaths, street trees.

**2b. Is there anything you would spend less on?**

Cycleways that remove on street parking in local shopping areas.

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

Auckland needs a dedicated regional sports centre. Retain the fields and sports venue. It will be needed as the area grows.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Retaining ownership of key national infrastructure is vital.

**#8597**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Retaining ownership of key national infrastructure is vital. Particularly the Port. It's location is unfortunate in relation to the CBD, but a city as large as Auckland needs effective and proximal freight systems.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

It's easy to ring fence the money for the AFF, but the money should be used to fund Council services with planned surplus being set aside to the AFF.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

A high quality and efficient port is the hub of a City. It's not glamorous but it is an essential asset for a growing city of our size. We are too vulnerable without it. In my view there is huge opportunity to expand ferry services across the city if w

#8597

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

A high quality and efficient port is the hub of a City. It's not glamorous but it is an essential asset for a growing city of our size. We are too vulnerable without it. We should not reduce the size of the port until we further increase efficiency and it is demonstrated that the area is not needed after future projected population growth.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>

#8597

Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#8597

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Removing rubbish bins will lead to litter in parks.

Celebrating and supporting community groups can be done when there is a surplus of funds, but these are not essential activities in the current economy.

Planning for open space areas, including purchasing land for new spaces is increasingly important as intensification continues.

**#8597**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I support park acquisition in areas of growth. This should be prioritised above funding for community groups and events in an economy with a growing population and a lack of private investment.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Making it easier to get around without a car e.g. buses biking walking

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8618**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Would prefer to keep pedestrian crossings

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Rather not have people buy into the Auckland councils fund

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

#8618

Tell us here:

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Council emergency only more on the outside and less inside and less government involvement too much drama and talks no action.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8625**

Less program's and activities it should be merged into one facility so won't need to spend here and there instead of so many. Keep the sports and concerts other events main liquid attractions.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Whatever works without errors. If it's fast transport he'll yeah.

**2a. Is there anything you would spend more on?**

If it's old and not fit for purposes than upgrade if it's not worth saving.

**2b. Is there anything you would spend less on?**

Less attractive

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

If needs renovation than consider redevelopment only if it's been useful, meaning it needs to continue to be operational and changed the management if it's not working out.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#8625**

**Tell us why:**

Don't sell just linked up with other investors, but if have no other options that's the alternative backup option plan. Ya'll don't realize the council meant to recieved the taxes to keep everything operational.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Under council upfront payment to keep council going whatever is easy to maintain sustainable for council.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Council is way better than the government. Council needs to recieved more than the government obviously.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Whatever is easy and the council agrees. I can't say much because I'm not the council president hehe.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

#8625

**Tell us why:**

Sounds pretty as long it's useful and attractive. When developing a project please add emergency hazard safety plan in and out.

**5b. What option do you prefer for Bledisloe Terminal?**

Other

**Tell us why:**

Whatever is easy as long it's under central council. Be creative to attract more and useful.

**6a. What do you think of these proposals?**

Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Council needs to get to work.

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

#8625

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

#### Tell us why

Happy humans and clean environments

**#8625**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Reasonable outcome agreement

**8. Do you have any other comments?**

Stick to the plan

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Albert-Eden

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#8628**

Support all of the proposal

**Tell us why:**

Faster trains

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

#8628

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual	I don't know

#8628

<p>programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	Support
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	I don't know
<p>Re-introduce <b>recycling charges for schools</b>.</p>	Do not support
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	I don't know
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	I don't know
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	I don't know

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Allow more long term volunteering at the operational level especially in parks. Train and ensure there are experienced rangers

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8636**

Less high level management staff and keep frontline staff such as rangers

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

North Ak needs a local low level type stadium

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Maintain our assets - Once sold or given away it reduces the direction of the City

**4b. Which option do you prefer for the future of Port of Auckland?**

**#8636**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

The water front must be returned to the public

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

AS above

#8636

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. #8636

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Do not support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Staff Report on the Mayors Proposals

E.g. see P97

I disagree with the option of reducing volunteers support. Staff have not considered the financial savings with long term volunteer action in helping maintain Council assets. Too much is put into NETR and assets like the over engineered tracks. Other better used services are neglected. If small support can be given more could be done by community volunteers rather than expensive contractors. Most important, better integration and roles needed between volunteer, rangers and contractors responsibilities.

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

Albert-Eden, Waitākere Ranges

**Albert-Eden Local Board Priorities**

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

#8636

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

Need to have a part of the funding for parks and community put aside for the acquisition of land for parks. Urgent considering the infill housing and need for green space.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Ok except for need to have a part of the funding for parks and community put aside for the acquisition of land for parks. Urgent considering the infill housing and need for

#8636

green space.

## Waitākere Ranges Local Board Priorities

### 7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

Fully support the dark sky proposal.

Greater support for long term volunteers and have professional rangers

#### More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support most priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Fairly Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Very Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Very Important
Continue to activate library spaces with programmes, services and events.	Fairly Important
Operating grants to support Glen Eden and Titirangi Community Houses.	Fairly Important
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	Very Important
Initiatives to support youth/rangatahi.	Not Important
Progress an application for Waitakere Ranges Heritage Area to become a dark sky place.	Fairly Important

#### Tell us why

**#8636**

Very Important

**7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?**

1/ Need to integrate local parks with the regional parks in terms of rangers activity and operations to save duplication.

2/ Need have funding to complete a practical recreation plan [with regional parks]so that operations on in focused on where there is most activity / use.

3/ Concern not enough funding is placed on maintenance of assets especially popular tracks to beaches and water etc. The gross overengineered recent tracks are going to require more funding to maintain these assets.

**8. Do you have any other comments?**

Greater powers needed for local boards

Greater Council control over CCOs

# Long-term Plan 2024-2034

### Manurewa Local Board Priorities

**7b. What do you think of our proposed priorities for Manurewa in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection	

#8648

and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.	

**Tell us why**

**7c. What do you think of the Manurewa proposed priorities for the 10-year budget 2024-2034?**

I support all priorities

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I am unsure whether that AKL Council and keep it's promises. Year on year services get more expensive and also not being utilise by those really needing it.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8653**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

For clarity and transparency it would be good to focus on the cities priorities.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

#8653

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual	Support

25.3.2024

Dear Auckland City Council,

I am writing to you on behalf of Auckland Rugby League to express our strong support for the proposed increase in funding through the Sport and Recreation facilities Investment Fund (SRFIF) as outlined in Auckland Council's Long-term Plan 2024-2034. As a Regional Sport Organisation deeply invested in the growth and development of Rugby League in Auckland, we believe that the Long-term Plan (LTP) presents a crucial opportunity to shape the future of our sport and our communities.

As a key pillar in our strategy to 2030, Auckland Rugby League has been steadfast in our commitment to growing participation at all levels of the game. One of our proudest achievements has been the phenomenal growth we have witnessed in the girls and women's spaces within our sport. The number of female participants has surged, reflecting a growing demand for opportunities for girls and women to engage in Rugby League at both grassroots and elite levels.

However, as participation numbers continue to rise, so too does the need for fit-for-purpose facilities to accommodate this growth. This entails community Clubrooms, female changing rooms, sand carpeted fields, floodlit lighting. Adequate and accessible facilities are essential in providing safe and enjoyable playing experiences for our participants. Without suitable facilities, we risk hindering the development of Rugby League in Auckland and depriving our communities of the benefits that sport brings.

The proposed increase in capital funding for sport and recreation through the Sport and Recreation Facilities Investment Fund (SRFIF), is a welcome step towards addressing the infrastructure deficit that our sport faces. By investing in facilities that meet the needs of our growing participant base, we can ensure that rugby league remains a vibrant and inclusive sport for all Aucklanders.

**#8694**

As we look towards the future, Auckland Rugby League is committed to working collaboratively with Auckland Council to identify and prioritize the needs of our sport and our communities. We believe that by investing in fit-for-purpose facilities and supporting initiatives that promote participation, we can create a healthier, more active, and more connected Auckland.

In closing, I would like to extend our gratitude to Auckland Council for its ongoing support of rugby league in Auckland. Together, we can continue to make a positive impact on the lives of our participants and contribute to the thriving sporting landscape of our city.

Thank you for your attention to this matter, and we look forward to the opportunity to further discuss how we can work together to achieve our shared goals.

Sincerely,

Wendy Brown

HR | Governance

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Waitākere Ranges

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#8699

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

We need to keep rubbish bins in parks. Whomever came up with the idea doesn't spend enough time actually using them to know.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

OK, the Pt Chev library should have been sorted out by now, rubbish bin removal from parks I do not support.

**Waitākere Ranges Local Board Priorities**

**7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Initiatives to support community resilience and safety.	I support all priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important

#8699

Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Very Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Fairly Important
Continue to activate library spaces with programmes, services and events.	Very Important
Operating grants to support Glen Eden and Titirangi Community Houses.	Very Important
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	Very Important
Initiatives to support youth/rangatahi.	Very Important
Progress an application for Waitakere Ranges Heritage Area to become a dark sky place.	Very Important

**Tell us why**

Not Important

**7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	
City and local development	Do more
Environment and regulation	
Parks and Community	Do more
Economic and cultural development	
Council support	

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Consider showing support for

Pumptracks, learn to ride tracks, bike skills courses, trails, and other recreational cycling facilities where people can safely grow their confidence on a bike

#8703

Eke Panuku's redevelopment of town centres, which often includes making safe walking and cycling connections, as well as improving access for disabled people.

Improvements aligned with the Central Rail Link like the Karanga-a-hape station improvements project, which includes a protected cycleway along part of Pitt street, a pedestrian mall in Mercury Lane, and could include improvements for Canada Street

The Making Space for Water programme's inclusion of "blue-green corridors". These are walking and cycling paths through greenspaces and alongside streams, adding to our walking, cycling network while also creating a natural drainage area.

Auckland Climate Grants and the Live Lightly Programme which can fund community-led programmes to empower people to ride bikes for transport

More investment for local boards: enabling them to better deliver on local climate action plans and local transport priorities

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

no

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Include your own thoughts. You could mention:

Wanting increased investment in cycling infrastructure and maintenance. Investing in cycling has benefit-cost ratios of anywhere from 10:1 up to 25:1

Support for more raised pedestrian crossings and increased maintenance of our footpaths

Support for "Dig Once": aligning delivery of transport projects with delivery of other infrastructure such as water improvements, to reduce costs and disruption overall.

That Auckland Transport could leverage road renewals and maintenance for quick fixes that make streets safer for walking and cycling every time a road is repaved, repaired or repainted.

**#8703**

Support for multi-modal trips: such as the proposed \$50 weekly cap for public transport, bikes on buses, more investment in train services, and whether or not you support light rail

Let Auckland Council know you want them to advocate to Central Government and Waka Kotahi for a lane on the existing Harbour Bridge to be reallocated for walking, cycling, and wheeling.

The UN for Environment recommends 20% of our transport budgets are towards walking and cycling but Auckland Transport typically allocates under 1% of our transport budget on cycling – note how we are massively underinvesting!

Auckland Council's commitment to the Transport Emissions Reduction Pathway, and Te Tāruke-ā-Tāwhiri, Auckland's Climate Plan.

**2a. Is there anything you would spend more on?**

cycleways, Low traffic neighbourhoods or using modal filters

**2b. Is there anything you would spend less on?**

a harbour bike ferry

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#8703**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#8703

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. More cycleways and fully protected cycle lanes.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8718**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Road safety is of paramount importance. Raised crossings, improved pedestrian facilities and more protected cycleways are at the top of the list for getting this done.

**2a. Is there anything you would spend more on?**

Cycleways, public transport, speed reduction plans.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

North Harbour Stadium is currently under-utilised.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

There are better ways to raise money than selling the family silver.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#8718**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

We fought hard to regain control of our waterfront, we do not want it going back into private control. We want to develop our waterfront and the port to move.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

If there's currently a shortfall it makes sense to use what funding is available to fill the gaps.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Should have been done years ago. They are currently used as giant car parks and would be much better being developed into shared public spaces and apartments.

**5b. What option do you prefer for Bledisloe Terminal?**

#8718

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Same as above, it's right in the city centre and could be the jewel in the crown.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in	I don't know

#8718

2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and	Fairly Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do less
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would definitely like Auckland Council to do more on upgrading stormwater and protecting waterways.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8721**

Maori outcomes. Environment and Regulation.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

Raised pedestrian crossings and cycleways.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#8721

Tell us here:

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport infrastructure

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8776**

No more new roads , get people out of their cars and charge congestion fees too pay for more public transport

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Reduction in cycling infrastructure

**2a. Is there anything you would spend more on?**

Public transport , more mass transit infrastructure and more cycling initiatives

**2b. Is there anything you would spend less on?**

No more new roads , we just keep pushing the bottle neck somewhere else , an unending problem that needs to stop

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

#8776

It's moronic to sell infrastructure that generates income , plus it not the councils to sell .  
The council is not getting the message out about the Mayor's proposals , there is little understanding among the public about what its being offered up and the significance of the changes , some of which cannot to taken back, that isn't good enough

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

It's moronic to sell infrastructure that generates income.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Because it makes the council money , like any long term investment it will compound.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#8776

**5b. What option do you prefer for Bledisloe Terminal?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Fix transport. It is utterly ridiculous at this point. Stop all the green \*\*\*\*\*. Turn all the cycle ways into “dynamic lanes” and get the cyclists on the footpaths again. Or come down hard on cyclists not following road rules. Utterly ridiculous watching the behaviour of cyclists on the roads these days.

#8822

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less environmental \*\*\*\*\* and fire all your parking wardens. I'm sick of paying for residential parking when no one comes to ticket anyone. Everyday in greenlane I'm getting tickets for parking but I've never seen one of your wardens on my street even after multiple complaints. Be fair to all or \*\*\*\*\* off all together. Stop targeting the places you can make the most money. It is infuriating and I will cause damage to council property to get my revenge.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I didn't read it but I support Wayne Brown. However I do not want to pay anymore for fuel tax if that is in there.

**2a. Is there anything you would spend more on?**

Transport and water infrastructure. I would also appreciate less fluoride. I don't care about the benefits for our teeth. I can brush them just fine.

**2b. Is there anything you would spend less on?**

Spend less on cycleways no one uses and spend less on your parking wardens or enforce them to spread out across the city instead of targeting places they can issue the most tickets.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

It's a \*\*\*\*\* stadium. Let it go

**#8822**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Wayne Brown is the bomb. Whatever he says goes. Everyone else in council whining can F off to be frank.

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

I don't know enough but I trust Wayne brown

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

Whatever Wayne Brown wants is my choice.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

#8822

**Tell us why:**

Didn't read it. Wayne browns choice is mine

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

I trust Wayne Brown to make the right decision but I don't know enough to have an answer

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>	<p>I don't know</p>

#8822

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	I don't know
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

I trust Wayne Brown to make the right decision but I don't know enough to have an answer

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

**8. Do you have any other comments?**

These parking wardens need to get a grip and stop targeting certain areas. They need to spread out fairly and cover all the streets where people pay for residential parking.

**#8822**

Ridiculous that I have to pay but can't get a car park until 7pm because of all these  
\*\*\*\*\* tradies in Parnell.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#8826**

Support all of the proposal

**Tell us why:**

I would like to see Aucklands public transport updated to a well deserved manner

**2a. Is there anything you would spend more on?**

Work towards public transport

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

#8826

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to	Very Important

#8826

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Suck out storm water drain system grates in urban streets to avoid blockages in of the system in extreme weather events!

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8844**

Listening to National governments raising of speed limits in our city streets.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I believe we should continue increasing the number of cycle & e'scooter lanes!

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Auckland including North Shore needs a purpose built back up stadium for the future growth of the city.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Selling more shares in AIAL is short sighted sugar hit to reduce debt. The last 3 three years of poor performing returns from the Airport is not the reason to sell an important income for the future. Selling to overseas investors is only sending more money out of the country.

**#8844**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Leasing the land to overseas Port Operators is only sending more money out of the country to multinational corporates that will ramp up berthage charges which will then be passed onto consumers. The last 3 three years of poor performing returns from the Port of Auckland is not the reason to sell an important income for the future. The previous Board & Management made poor discissions eg. automation, investment in future IT, Hydrogen fuel & did not stick to core business. On top of that the port normally return 8% per annum. At the end of day, the city will still need to pay to maintain all the wharves for the successful contractor at a cost to rate payers, at present the wharves are in very poor condition.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

As above

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Keep the strategic asset in council control!!!

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#8844

**Tell us why:**

Selling the land to the public has been in the pipeline for many years & now is the time to let it happen.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

I think the area will only get developed by dreamers with a get rich mentality & little gain for the citizens of the city. Don't let an overpriced stadium that sits idle for most of the year at a cost to rate payers!

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>

#8844

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support

Albert-Eden,Aotea/Great Barrier

#8844

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

#### Tell us why

#8844

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

## Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Very Important
Investigate improvements for playground areas island-wide.	Very Important
Support implementation of aspects of the new Destination Management Plan.	Very Important

Tell us why

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More cycle lanes and infrastructure for people and public transit with less on roads.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8856**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

I do not support cutting cycle ways and raised crossings. Getting people out of their cars onto bikes or scooters or on foot saves the city money and the health system money!

**2a. Is there anything you would spend more on?**

Cycle ways, pedestrian infrastructure, bus lanes

**2b. Is there anything you would spend less on?**

Big roaring projects.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#8856**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

A mixture of both

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

#8856

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#8881**

Support most of the proposal

**Tell us why:**

Auckland Transport should be prioritising modes of transport that reduce emissions, such as walking and cycling/public transport network improvements. They should also be maintaining current road networks and not building new roads. Referring to the Rodney Local Board idea that they should have increased funding for unsealed roads, this should not be how we use our rates funding and tis project should only be funded for roads with safety issues.

**2a. Is there anything you would spend more on?**

Climate related initiatives such as increased walking/cycling and public transport.

**2b. Is there anything you would spend less on?**

New roads, especially sealing unsealed roads in Rodney Local Board area.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

North Harbour Stadium has not been used since it was built, even with population growth north of the bridge, so any argument that this will suddenly become efficient is flawed. The stadium area needs to be redeveloped as \$33 million just to keep as is isn't an efficient use of rates.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#8881**

Seems like a no brainer. Having "investments" in only two assets carries a high level of risk as we saw during COVID. The proposal to both grow the fund through reinvestment of profit as well as allocating some profit to fill budget gaps sounds sensible.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

To get the full value in the Future Fund, this seems like the best option to achieve the goals in this proposal.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

To get the full value in the Future Fund, this seems like the best option to achieve the goals in this proposal.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#8881

Seems like the most efficient option to get the most benefit for Aucklanders.

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden,Rodney

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

#8881

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

I think that local boards should concentrate more of their effort and budget on the doing and not so much on planning. Rate payers want to see delivery of things in our areas and have heard that money is wasted to have a bunch of local plans that just sit on the shelf as there is no budget to deliver on them.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

#8881

These sound sensible and I'm sure the local board will concentrate on getting delivery for their community.

## Rodney Local Board Priorities

### 7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support all priorities

#### More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Very Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Very Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Very Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade	Fairly Important

#8881

Reserve and Port Albert Recreation Reserve.	
Develop pathway connections in Green Road Park.	Fairly Important

**Tell us why**

I think supporting arts centres should be a lower priority. Integrate these services into libraries or other facilities.

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

Agree with these mostly, although not the idea of using rates funding to seal roads. Unless there are safety issues, these should be a lower priority.

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Big Omaha

**8. Do you have any other comments?**

The proposal to change local funding to be fairer seems good in principle, but what happens to the boards who go down? Happy for there either to be the 50%/50% option or even the complete reallocation option, if I had to choose I would support reallocation over any extra budgets. Definitely shouldn't be the option which looks like a huge rates increase for extra local budgets, waste of ratepayer money!

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Expand the cycling network separated and safe paths to more areas in Auckland leading to town centres and hubs, plant more trees to reduce urban heat island effect and soak up water during heavy rain, create more wetlands and vegetated treatment swales to treat SW runoff and build resilience during extreme weather events e.g. flooding

**#8884**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Expand any more roads to greenfield developments without also building shared use paths at the same time, build any more car park buildings especially in city centre and local town centres, keeping public on street car parks in premium land where it is not generating any profit (the parking fee does not generate any revenue) - turn these into cycling lane instead ! Much better ROI than on-street car parks including boosting local economy of shops and retail !

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Prioritising car drivers safety over pedestrians and cyclists' safety is not fair. Car takes up so much of our public space and costs us all so much (to build and maintain forever) even those who don't use cars often or at all - and completely rely on PT and bikes and walking. Why do car drivers get prioritised all the time? Build safe cycling paths and frequent PT service, and give CHOICE for people to commute and travel within their city - instead of feeling helpless with thinking only having car as the only convenient and safe way to commute.

**2a. Is there anything you would spend more on?**

Cycling paths and infrastructure !!

**2b. Is there anything you would spend less on?**

Build any more roads, build more impermeable surfaces to exacerbate flooding issues with more volume of water runoff from impermeable surfaces going into our water hard infrastructures

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**#8884**

**Tell us why:**

I had lived in North Shore for over 10 years and never been inside North Harbour Stadium. It needs to be better used by the community with more community events and sports clubs etc being held there.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Having shares in AKL International Airport seems to be a great asset and investment with good ROI to be used over time in the future for a longer term to build necessary infrastructure for Auckland - instead of selling this off and get short term profit for short to medium term projects.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

It is time for Council to take back port operation and a sense of ownership to better use and get better profit of such premium valuable land in Auckland's waterfront

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

#8884

Invest in building and improving our cities for the communities ie expand cycling network paths, save local libraries from closing, upgrade leisure centres, better maintain our parks and plant more trees.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Council should retain ownership of land and wharves, and carefully charge operation costs that would be used as a sustainable long-term revenue for Council's services and community infrastructure projects

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Give the land and water connection to the harbour back to the people - not ships. Deepen our connection to Te wai and moana as part of our identity as Aucklanders. Build community infrastructures for people to hang out and play in this space !

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Same comment as above. Give land back to people to enjoy and benefit from better connection to water

**6a. What do you think of these proposals?**

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of	Not Important

#8884

what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

Prioritise environmental protection before social aspects. The two can also go hand-in-hand eg planting trees at public parks and spaces

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

It needs to also prioritise expanding the cycling network from NorthWestern Cycle Route to wider network of local roads and streets within the Local Board area - and build safe cycling paths e.g. with separators and paint on one lane

**8. Do you have any other comments?**

Please fund AT to continue expanding their cycling network plan and improve reliability of PT services, and fund Eke Panuku to continue transforming our local centres and squares and plazas to activate them for people to connect and be involved in their neighbourhoods and foster social inclusivity which is important to build resilience in the community during tough times through mutual help from one another e.g. post natural hazards and economic recession

# Long-term Plan 2024-2034

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I’m prepared to pay more for the funding of environmental measures and all community funding inc. libraries and community services and spaces.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#8897**

I am opposed to the leasing of the ports and of the events centre. Focus on supporting community and environmental protection. We need to retain services to arts, community, libraries as these spaces make for a thriving Auckland.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Support incentives to use public transport and park and go to reduce single car usage. Introduce road tolls for new vehicles.

### **2a. Is there anything you would spend more on?**

Safe pedestrian crossings and pavements.

### **2b. Is there anything you would spend less on?**

Roads. People need to reduce their use of cars and petrol by presenting environmentally better alternatives.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

### **Tell us why:**

The community should be able to use it.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#8897**

**Tell us why:**

Keep all shares in the airport and land. Protect the land.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

If you are going to sell the ports, it should only be to Ngati Whatua. Once you sell or remove control over the ports you lose independence.

Do not lease the harbour.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Assets profits should be returned to fund services.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Happy to increase building, water rates and rates on businesses increases on infrastructure.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#8897

**Tell us why:**

Just keep the revenue

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Keep as is and reinvest the money. Do we need extra transport of goods by roads, no.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>	<p>Support</p>

#8897

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Actually need equitable model for charges. Private schools who can well afford to pay recycling costs, should pay and there should also be an option to pay forward for people.

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

Albert-Eden

#8897

## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

#### Tell us why

I support funding of our community activations and services. Environmental work should be prioritised with funding targeted for groups to enhance the environment.

**#8897**

Then services for the community and events thirdly with the support of the business associations. Local businesses including Westfield need to reinvest in their communities and the environment. Pt Chev shops is a dive, maybe a library space and community space will improve it. Sandringham area is also not well kept by local business. Parks in the area are nice.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I support them all.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9010**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Need to keep making cycleways and making roads safer

**2a. Is there anything you would spend more on?**

cycleways

**2b. Is there anything you would spend less on?**

Roads

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Too far away from most people. Limited public transport.

Get rid of it

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport shares need to be held. They make money for council

**#9010**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Keep the port as is. It makes a million dollars a week for council. Makes no sense to get rid of it.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Keep the council shareholding as is

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

The port is essential as a gateway for goods into Auckland, tourists via cruises ships. It also is one of the only things that actually earns money for council. Rather than shrinking it should be expanded.

Council will no doubt sell off any land given

**5b. What option do you prefer for Bledisloe Terminal?**

#9010

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------

#9010

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Removing rubbish bins seems like cost cutting but that is actually a good idea or helps to reduce rubbish.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

More cycleways

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	Do less
Environment and regulation	
Parks and Community	Do less
Economic and cultural development	Do less
Council support	

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Spend more efficiently....

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less bureaucracy

**#9014**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Stop cycleways (grossly underutilized and expensive per user), complete projects before starting new ones, optimize roads by removing cone obstacles

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

Make AT accountable for its spending...if heads roll, there will be better value for spending

**3. Which options do you support for the North Harbour Stadium?**

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Our money needs to return at least as much as personal bank rates

**4b. Which option do you prefer for the future of Port of Auckland?**

#9014

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Make money work for us

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important

#9020

Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Rapid Mass Transit aka. Surface Light rail or heavy rail

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9028**

Less unnecessary spending

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Needs to be a specific rapid mass transport plan/way forward

**2a. Is there anything you would spend more on?**

Rapid transit and new public transport connections

**2b. Is there anything you would spend less on?**

Less pedestrian crossing and walking spending for now

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

Sell and invest in the other stadiums, North Harbour is too far out of Auckland

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9028**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Lease and only shift port if operational constraints are severely impacted in the future

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#9028

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Support</p>
<p>Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Do not support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#9028

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Basic road and footpath maintenance. Do the basics right first please. Enough of the cultural and fringe group support and just do the basics right first please. Everything else is a nice to have.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9111**

Coloured footpaths, cycleways and arts support. This is all nice to have. Make this stuff an option but it has to be user pays. If you want to use it you pay for it.

## **2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

### **2a. Is there anything you would spend more on?**

Basic road maintenance.

### **2b. Is there anything you would spend less on?**

Speed humps.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

It is under utilised and in a location that is not well supported by public transportation. Stop spending money on it and divert funds to a decent new stadium that will be used.

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

### **4b. Which option do you prefer for the future of Port of Auckland?**

**#9111**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

#9111

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More exploration areas and transport to get there, as well as some recreational activities places.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#9158

N/A

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Keep the crossings, it would help lots of people

**2a. Is there anything you would spend more on?**

.

**2b. Is there anything you would spend less on?**

Fuel, the prices and very high

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

it would be open to the community which would be better, than an unused stadium

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9158**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

**Tell us why:**

keep Captain Cook, and change the Marsden wharf

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

#9158

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#9158

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#9180**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

#9180

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount</p>	<p>Support</p>

#9180

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools</b> .	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	Support
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

#9180

## Local board priorities

7a. Which local board area does your feedback relate to?

Franklin, Māngere-Ōtāhuhu

## Kaipātiki Local Board Priorities

7b. What do you think of our proposed priorities for Kaipātiki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Investing in the maintenance and renewal of our parks, playgrounds, recreation facilities, and other public spaces so they continue to meet our communities needs.	
Supporting a community-led approach for the delivery of relevant and diverse services that connect the community	
Supporting environmental groups, community volunteers, and our diverse communities to carry out environmental restoration projects, including stream clean-ups, habitat improvement, native riparian planting, and pest control.	
Begin implementing the Mini Shoreline Adaptation Plan for the Little Shoal Bay / Te Wai Manawa alongside our community to address the issues caused by flooding and seawater inundation.	

#9180

Supporting a community climate activation programme to support and amplify community initiatives identified in the Kaipātiki Climate Action Plan.	
Building relationships with local iwi and mataawaka groups so that Kaipātiki is rich with Māori identity and culture.	

**Tell us why**

**7c. What do you think of the Kaipātiki proposed priorities for the 10-year budget 2024-2034?**

I support all priorities

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

I don’t know

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Protect the environment, particularly native biodiversity. We want Auckland Council to:

- Ensure that Significant Ecological Areas (SEAs) and Biodiversity Focus Areas (BFAs) receive ongoing protection and management

#9182

- increase native planting and creation of wetlands to mitigate the effect of climate-related events such as flooding, and increase carbon sequestration.
- continue to fund groups who are trapping and baiting across Auckland's suburbs in support of Pest Free Auckland
- Reduce the impact of run-off (from roads, building works etc) on waterways
- Protect scheduled trees
- Reduce the removal of mature trees during re-development
- continue to fund environmental support groups such as Urban Ark – Manawa Taiao so that we can continue to extend and integrate the work of community volunteer groups.
- continue to work on the Central Interceptor project (and other water separation projects) to improve the quality of our waterways and beaches.
- seek opportunities to 'daylight' sections of streams to improve the connectedness of green spaces, the health of streams and provide more spaces where communities can connect with nature in the city.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

It is important to us that future transport developments do not negatively impact the remaining areas of native biodiversity in Auckland.

**2a. Is there anything you would spend more on?**

Cycleways and shared paths.

Ensure that any transport projects include provision for biodiversity corridors.

**2b. Is there anything you would spend less on?**

**#9182**

Any new roads that have a significant impact on tree cover and loss of native biodiversity

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#9182

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Waitematā

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

#9182

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	I don't know
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	I don't know
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

**Tell us why**

Urban Ark doesn't take a view on non-environmental issues but supports the local board's efforts in parks and reserves and supporting community groups.

#9182

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

broadly support

**Waitematā Local Board Priorities**

**7b. What do you think of our proposed priorities for Waitematā in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Deliver a new civic space at 254 Ponsonby Road.	I don't know
Complete detailed design of Leys Institute remediation and seismic strengthening, and progress physical works.	I don't know
Phased delivery of improvements for Heard Park.	I don't know
Deliver services and programmes that support youth activation, leadership, and wellbeing, particularly in Newmarket.	I don't know
Develop programmes that improve perceptions of safety within the City Centre, and our town-centres.	I don't know
Support local communities to develop Emergency Planning & Readiness Response Plans.	I don't know

#9182

Seek opportunities to promote and celebrate heritage places in Waitematā including making digital content and place-based stories more accessible.

I don't know

**Tell us why**

Urban Ark doesn't take a view on non-environmental issue but supports the local board's efforts in parks and reserves and supporting community groups.

**7c. What do you think of the Waitematā proposed priorities for the 10-year budget 2024-2034?**

broadly support

**8. Do you have any other comments?**

# Annual Plan 2023–24

## Background

The Urban Ark - Manawa Taiao Trust was formed in January 2020. Our mission is to support our local communities to protect and rehabilitate New Zealand’s native biodiversity in the inner-west of Tāmaki Makaurau.

The role of Urban Ark – Manawa Taiao (UAMT) is to strengthen member groups by increasing access to resources, skills and funding; to increase community engagement across the region; to lead region-wide initiatives; and to seed new groups where there are gaps in the network.

## Annual Plan 2023-24

This is the fourth annual plan for the Urban Ark – Manawa Taiao Trust. It covers the period from 1 April 2023 to 31 March 2024. It sets out our actions to implement our Strategic Plan 2020 – 2025.

## Strategic Goals

- To support the goals of our member groups to protect, restore and connect native biodiversity in our urban environment; and to reduce the number and spread of predators and pest plants
- To coordinate and lead region-wide actions that impact across inner-west Auckland
- To increase community involvement in protecting, growing and caring for native biodiversity
- To support the wider vision of Pest Free Auckland and the nationwide Predator Free 2050 programme.

## Strategic Priorities

Build an Integrated Network	Amplify Group Efforts	Build Community Involvement	Monitor our Impact
Build an integrated network of groups whose aim is to support and grow native biodiversity locally	Amplify the effectiveness of member groups across the landscape	Increase community involvement in, and awareness of, local efforts to support and grow native biodiversity	To know the impact we are making by monitoring changes
<p><b>How:</b></p> <ul style="list-style-type: none"> <li>• Strengthen and support existing groups</li> <li>• Help seed new groups in remaining gap areas</li> <li>• Maintain contact with landscape-scale groups outside Tāmaki Makaurau’s inner west with a view to share learnings and coordinate efforts across the rohe.</li> </ul>	<p><b>How:</b></p> <ul style="list-style-type: none"> <li>• Search for and apply the most effective and appropriate methods of pest control</li> <li>• Build cooperation between backyard groups, reserve groups and council initiatives</li> <li>• Provide support / know how / links to resources / best practice</li> <li>•</li> </ul>	<p><b>How:</b></p> <ul style="list-style-type: none"> <li>• Maintain an engaging and informative website</li> <li>• Maintain a lively social media presence</li> <li>• Run frequent public events such as walks and talks</li> <li>• Build relationships with large landowners in the community</li> </ul>	<p><b>How:</b></p> <ul style="list-style-type: none"> <li>• Establish a baseline of pest presence to measure against</li> <li>• Establish a baseline of native biodiversity to measure against</li> <li>• Establish monitoring methodology and align this between member groups to track landscape scale impacts</li> <li>• Measure community involvement and area covered</li> </ul>

# #9182

Objective	What we'll do in FY24	Our target and how we measure it	Trustee hours	Contractor Hours	Contractor budget	Tools budget
<b>Build an Integrated Network</b>	<b>Build an integrated network of groups whose aim is to support and grow native biodiversity locally</b>					
	<b>Seed new groups in the area to fill gaps</b>	Reduce focus on actively seeding new groups but continue to support proposals for cretion of new groups by enthusiastic community members		80	\$2,800	\$1,500
	<b>Increase pest control activities outside of backyards (parks, public land, large land owners)</b>	Support community pest control initiatives while ensuring that work undertaken complements that being undertaken by council contractors or fills gaps where there is no contactor activity e.g seed new 'biodiversity' group in Western Springs Lakeside Park.		80	\$2,800	\$1,500
	<b>Increase weed control</b>	Facilitate weeding activity in 3 groups not currently involved with weeding		80	\$2,800	
	<b>Increase native planting</b>	Assist planting groups with organisational support and equipment		40	\$1,400	
	<b>Activate community-oriented biodiversity work centred on Maungawhau Rock Forest</b>	Full details are recorded in the agreement with Auckland Council		657.15	\$23,000	\$12,000
<b>Amplify Group Efforts</b>	<b>Amplify the effectiveness of member groups across the landscape</b>					
	<b>Engage with groups</b>	Organise meeting for all groups at least 4 times a year		100	\$3,500	\$500
		Engage with each group individually twice a year to assess their needs and gather data for our reporting		100	\$3,500	
		Support the organisation of at least 4 events by groups (social event at group level)		80	\$2,800	
	<b>Maintain and expand a communication strategy</b>	Assess and implement suitable communication channels and formats to support groups. Prepare proposal for trustee and group agreement. Align with website and social media activity as outlined under 'Increase community involvement'.		80	\$2,800	
Review Urban Ark policy on encouraging group leaders to promote trapping during ANJA months			20	\$700		

# #9182

	<b>Increase number of active backyard traps (new and existing groups)</b>	Provide traps and boxes to groups and trappers		160	\$5,600	\$6,000
		Encouraging trapper engagement so that we know if traps are still active or inactive (i.e. set at least a certain number of times per year).		40	\$1,400	\$1,500
	<b>Maintain and expand a library of tools for use by member groups including cameras, spades etc</b>	Record who uses the library and how often		40	\$1,400	
	<b>Be available to assist groups with specific requests</b>	Record which groups ask for assistance and how often		160	\$5,600	
	<b>Create and maintain a possum trap library</b>	Review possum traps across area with a view to having a more organised loan system		70	\$2,450	\$5,000
<b>Increase Community Involvement</b>	<b>Increase community involvement in and awareness of local efforts to support and grow local native biodiversity</b>					
	<b>Maintain UAMT website and social media presence</b>	Social Media: 5-8 monthly updates via social media to target community engagement and involvement		60	\$2,100	
		Website: Develop website as a place group leaders can go for reference material; keep website content up to date. Measure success of this channel through visitor traffic monitoring .		40	\$1,400	\$500
	<b>Organise educational events</b>	Organise 12 events (such as bat walks, freshwater sampling, plant ID walk, presentations). These may have guest speaker and should reach at least 260 people (ca 0.2% of the population in our area)		240	\$8,400	\$2,000
	<b>Attend local events such as the Grey Lynn Festival</b>	Have a UAMT presence at 2 events. The aim is that >1300 people (i.e. 1% of population in our area) who attended the event and would have seen the UAMT presence Number of locals who attended the event and would have seen the UAMT presence (> 1300, i.e. 1% of population in our area)		60	\$2,100	\$1,000
	<b>Promote activities through local schools</b>	Connect with at least 2 more schools in the area to understand how their current activities align with UAMT goals.		80	\$2,800	\$500

# #9182

	<b>Run biodiversity education pilot at Waiorea</b>	Engage 3 Waitematā LB schools (and 1 AELB school if we get funding) to attend a one-day outdoor programme at Waiorea supported by in-school visits. Aiming for positive engagement with 90-120 tamariki and rangatahi.		240	\$10,200	\$4,800
	<b>Establish relationship with local iwi</b>	Develop meaningful reciprocal relationships with local iwi, particularly Ngati Whatua Ōrākei	40	20	\$700	
<b>Monitor our Impact</b>	<b>Know what impact we are making by monitoring changes</b>					
	<b>Monitor trap presence and activity</b>	Create a working map showing where traps exist		40	\$1,400	
		Make a private and public versions of the GIS map. Make public version widely available via UAMT website and encourage groups to use it as an engagement tool		40	\$1,400	\$500
	<b>Establish a pest presence monitoring system across UAMT area</b>	Develop pest monitoring plan designed to answer specific questions about locations of interest (e.g Significant Ecological Areas, habitats where pest presence has been raised as a concern etc). Monitor pest presence (rats, possums and possibly stoats) at 5 selected locations across the UAMT area, repeated at least twice per year.		160	\$5,600	\$1,000
	<b>Establish a 'baseline' for biodiversity monitoring</b>	Develop bird monitoring plan designed to answer specific questions about locations of interest (e.g Significant Ecological Areas, habitats where pest presence has been raised as a concern etc). Conduct 5min bird counts (or similar) at the same 5 selected locations across the UAMT area, repeated at least twice per year.		160	\$5,600	
		Establish a network of sites which will be regularly sampled by our recording bird and bat monitors.		60	\$2,100	
<b>Trust Governance</b>						
	<b>Maintain Trust operations</b>	Monthly meetings, financial management, contractor management, filing reports with Charities Services and funders	250	80	\$2,800	
	<b>Maintain UAMT Trust roles, processes and policies</b>	Maintain a suite of policies	20	10	\$350	
	<b>Manage and support UAMT contractors</b>	Conduct performance appraisal annually Support professional development through courses etc	10	40	\$1,400	\$400

# #9182

	<b>Seek 1–2 new trustees</b>	Recruit 1–2 new trustees. Ideally these would broaden our current demographic and skills base, specifically in areas of youth, iwi and representation of our diverse communities	20	20	\$700	
	<b>Secure office and workspace</b>	Work towards securing a UAMT workspace (or workspaces) that meet our needs (e.g. office space, meeting space, storage, public facing access) Note that this may include shared space(s) in multiple locations.	20	60	\$2,100	
	<b>Secure funding</b>	Establish funding strategy, engage with current and potential funders, report on funding received.	40	140	\$4,900	
	<b>Recruit, train and manage volunteers (to support presence at event, marketing and education et al)</b>	No target. Tracking volunteer time for reporting purposes		30	\$1,050	
<b>TOTALS</b>			<b>400</b>	<b>3367.15</b>	<b>\$119,650</b>	<b>\$38,700</b>

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland has a transport network decades behind where it needs to be. This is primarily due to past governments, local and central, deciding that short-term benefits of lower taxes and rates outweighed the long-term benefit of government infrastructure and services. For me, the primary thing for Auckland Council to focus on would be

#9198

radical expansion of our transport network particularly in the areas of light rail, level crossing removal, and buying up new rolling stock.

My only hope is that if these projects are led by the Council, rather than Central Government, they will be delivered in their most sensible and appropriate form - rather than bloated in cost and scope to such a point that they no longer serve the function they were intended to serve.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Cycleways and raised pedestrian crossings facing cancellation is a purely ideological step, clearly driven by those in central government who have a strange obsession with cars. I live in Owairaka and some of the greatest improvements to the area have been the raised pedestrian crossings and expansions of cycle infrastructure.

Many of the crossings in Auckland feel categorically unsafe for pedestrians. Without physical infrastructure forcing them to, cars will neglect to slow down even when pedestrians are already on the crossing. As for cycleways, given the number of deaths on the road they face it should go without saying that investment in safety improvements is critical.

All in all it worries me that we seem content to actively endanger Aucklanders' lives in order to save money. Cycleways and raised crossings aren't even a particularly significant cost when compared to some other projects which will do little to nothing to actually make Auckland safer (such as the Mill Rd project).

**2b. Is there anything you would spend less on?**

Auckland needs to spend less on roads. We've spent decades focusing on trying to solve congestion and reduce road fatalities through the addition of more and more lanes ad nauseum, we've seen billions funnelled into new motorways again and again.

**#9198**

It's time for Auckland to invest in other areas, such as public and active transport, which stand a chance to actually reduce the number of cars on the road and, thus, the congestion faced by those who really are best served by use of private transport.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

#9198

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Any steps that reduce the size and scope of the Ports of Auckland and increase the area of waterfront used for residential, commercial, and public spaces is desirable. Multiple reports over the past decade have found the port to be unsustainable. We know it needs to be moved, we know that the space can be better used, and from a common-sense perspective it would seem ridiculous that the vast majority of the waterfront in our city centre is used by an industrial zone that shouldn't really be there anymore.

An additional comment would be that the Council needs to begin talks with central government to begin developing port infrastructure either in another city or in a part of the Auckland Region that will actually be able to support the future expansion required by an international port.

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Support

#9198

around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025,	Support

#9198

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Waitematā, Whau

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#9198

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**Waitematā Local Board Priorities**

**7b. What do you think of our proposed priorities for Waitematā in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Deliver a new civic space at 254 Ponsonby Road.	Very Important
Complete detailed design of Leys Institute remediation and seismic strengthening, and progress physical works.	Fairly Important
Phased delivery of improvements for Heard Park.	Fairly Important

#9198

Deliver services and programmes that support youth activation, leadership, and wellbeing, particularly in Newmarket.	Very Important
Develop programmes that improve perceptions of safety within the City Centre, and our town-centres.	Fairly Important
Support local communities to develop Emergency Planning & Readiness Response Plans.	Very Important
Seek opportunities to promote and celebrate heritage places in Waitemata including making digital content and place-based stories more accessible.	Fairly Important

**Tell us why**

**7c. What do you think of the Waitemata proposed priorities for the 10-year budget 2024-2034?**

The Local Board should place particular focus on improvements to walking and cycling infrastructure, as well as the development of new parks and urban public spaces.

**Whau Local Board Priorities**

**7b. What do you think of our proposed priorities for Whau in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

We will work with our partners to build community capacity, from	Very Important
------------------------------------------------------------------	----------------

#9198

climate/emergency preparedness and community resilience to increased participation and community capability.	
We will encourage and support volunteerism and community participation, especially through environmental and ecological initiatives around the Manukau Harbour and foreshore, the Whau River and its tributaries, and our urban ngahere.	Very Important
We will continue to undertake governance-level engagement and collaboration with mana whenua and the other west Auckland local boards.	Very Important
We will work with the local BIDs where possible, to support local economy and to realise shared goals around climate action, community connection and belonging.	Fairly Important
We will consider accessibility and inclusion across our services, engagement, and other initiatives.	Very Important

**Tell us why**

**7c. What do you think of the Whau proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

The Council should investigate our current operational arrangements for public transport.

Our PT is currently operated on contracts with private operators. Under this arrangement we have seen fairly inconsistent management including constant cancellations and industrial action caused by unfair pay arrangements.

**#9198**

It would seem hard to believe that the Council could do a worse job if it operated these services directly. Many of the current issues with the transport system seem to stem from inherent problems with the private companies which operate the network, motivated primarily by profit as they are.

At the very least the Council should consider the possible advantages a fully public system could afford the city in terms of both reliability and cost.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#9209**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Better bus connections amongst neighbourhoods, building rapid transit options (light rail, trams etc)

**2b. Is there anything you would spend less on?**

Road crossings, some cycleways, decreasing speed limits (please stop this!), what seems like unnecessary road works

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

We need to be realistic and sell some sections of land that are not utilised to fund redevelopment projects. And I wholeheartedly agree with changing management that is stalling progress or have outdated views on how infrastructure is to be used.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9209**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The Auckland Port is NOT WORKING for the majority of the city. We need to diversify what we use the land for (i.e - get rid of some port operations on critical wharf's that can be used for community development) and bringing in a leased operation seems like the sensible option for immediate revenue generation.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

We desperately need to redevelop the port area into residential, commercial buildings ALONGSIDE brilliant community & public parks & spaces.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#9209

Tell us why:

6a. What do you think of these proposals?

#9214

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

## Rodney Local Board Priorities

**7b. What do you think of our proposed priorities for Rodney in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Very Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important

#9214

Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Fairly Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Fairly Important
Develop pathway connections in Green Road Park.	Fairly Important

**Tell us why**

**7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?**

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Not from the Rodney area

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Do ALL as above

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#9241

No

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Please also continue with previously-planned initiatives, such as some raised pedestrian crossings and cycleways.

**2a. Is there anything you would spend more on?**

Previously-planned initiatives, such as some raised pedestrian crossings and cycleways.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The Future Fund looks like it will privitise much of Auckland's public spaces and facilities. Privitisation always leads to the minority gaining more money and then power the average person losing out.

**#9241**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Selling or leasing ports of Auckland would eventually result in rate payers losing control. It would likely be purchased by an overseas company and would result in more expensive port costs; it would undermine the jobs and safety of the people who work there, and it would mean handing the port's profits to overseas investors. This proposal will also see an increase in private contractors and entities having a say in the management of Auckland Council's business.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The Future Fund would by-pass Auckland Council control and be in the hands of private investors who are more interested in profit than in providing services for Aucklanders.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Retain all of Port of Auckland ownership!

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#9241

**Tell us why:**

There are already waterfront areas for Aucklanders to enjoy that do not encroach upon the Port's operations.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

there are already waterfront areas for Aucklanders to enjoy that do not encroach upon the Port's operations.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support

City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

n/a

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

n/a

**#9258**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

n/a - refer additional comments

**2b. Is there anything you would spend less on?**

n/a

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

Await outcome of Main Stadium REOI process and SOSA discussions.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

#9258

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Support

#9258

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools</b>.</p>	<p>Support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	<p>Support</p>

**#9258**

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## **Local board priorities**

**7a. Which local board area does your feedback relate to?**

**8. Do you have any other comments?**

The Eden Park Trust (EPT) welcomes the opportunity to submit to the Auckland Council Long Term Plan 2024-2034. We would like to offer the following areas for investment through the LTP:

1. West Stand Redevelopment
2. Kingsland Station over-bridge to improve connectivity and public safety from the railway station, over Sandringham Road, to the Eden Park precinct
3. Ingress/Egress tunnel in the north-east corner of Eden Park to increase stadium capacity
4. Funding of integrated ticketing for all major events

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less transport

**#9261**

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

The proposal will cost a hefty amount for changes which will most likely not occur, posing the question of where the funds will actually go to.

### 2a. Is there anything you would spend more on?

No, decrease taxes.

### 2b. Is there anything you would spend less on?

Everything

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

The stadium already cost enough to develop, by destroying it only more resources will be wasted.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

This seems unreliable and untrustworthy.

**#9261**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

This sounds like the best option.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#9261

Tell us why:

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

As a resident of Auckland, I firmly believe that investing in key infrastructure projects, such as expanding cycling infrastructure, urban regeneration initiatives, and enhancing public transport, is essential for fostering a sustainable and vibrant city. Moreover,

**#9289**

prioritising the implementation of raised crossings across the entire city to promote road safety for all road users, not just car drivers, is imperative.

Firstly, expanding cycling infrastructure is crucial for promoting active lifestyles, reducing traffic congestion, and mitigating environmental impact. Investing in dedicated cycle lanes, secure bike parking facilities, and bike-sharing schemes encourages more people to choose cycling as a viable mode of transportation. By creating safer and more accessible cycling routes, the Auckland Council can encourage sustainable travel options and contribute to a healthier, more connected community.

Secondly, prioritising urban regeneration projects revitalises neighbourhoods, enhances community spaces, and promotes economic growth. By investing in the renewal of urban areas, the council can create vibrant public spaces, preserve cultural heritage, and attract investment opportunities. Urban regeneration initiatives not only improve the aesthetic appeal of the city but also foster a sense of pride and belonging among residents.

Furthermore, enhancing public transport infrastructure is essential for reducing reliance on private vehicles, alleviating congestion, and improving air quality. Investing in efficient and accessible public transport services, including buses, trains, and ferries, enhances mobility options for residents and reduces the carbon footprint of the city. By expanding public transport networks and improving connectivity, the Auckland Council can enhance accessibility, reduce travel times, and promote social inclusion.

Most importantly, prioritising the implementation of raised crossings across the entire city is crucial for promoting road safety for all road users, including pedestrians and cyclists. Raised crossings, also known as raised pedestrian crossings or speed tables, provide safer crossing points by slowing down vehicle speeds and increasing visibility. By investing in raised crossings, the council can create safer streets, reduce the risk of accidents, and promote active transportation methods.

In conclusion, I strongly advocate for the Auckland Council to allocate resources towards expanding cycling infrastructure, implementing urban regeneration projects, enhancing public transport services, and prioritising raised crossings across the entire city. While these initiatives may require additional investment, the long-term benefits in terms of improved health, safety, and sustainability make them worthy investments for the future of Auckland. As a resident, I am prepared to support these efforts through increased funding or targeted levies to ensure a safer, more liveable city for all.

In addition to investing in cycling infrastructure, urban regeneration, public transport, and raised crossings, it's crucial for the Auckland Council to prioritise the creation of more public spaces free of traffic and cars. Allocating resources towards developing pedestrian-friendly areas and car-free zones enhances the livability and vibrancy of the city while promoting community engagement and wellbeing.

**#9289**

By repurposing streets and thoroughfares into pedestrian-friendly zones, the Auckland Council can create inviting spaces for residents and visitors to socialise, exercise, and enjoy recreational activities. Implementing car-free areas in key locations such as parks, waterfronts, and city centres fosters a safer and more pleasant environment for pedestrians, cyclists, and families to navigate without the stress and hazards associated with vehicular traffic.

Moreover, investing in the creation of car-free zones promotes sustainable urban development and environmental conservation. By reducing reliance on cars and encouraging alternative modes of transportation such as walking, cycling, and public transport, the council can mitigate traffic congestion, improve air quality, and reduce greenhouse gas emissions. Car-free spaces also contribute to the preservation of green spaces, biodiversity, and natural habitats within the city, enhancing the overall quality of life for residents.

Furthermore, establishing car-free zones enhances the economic vitality and attractiveness of Auckland's urban areas. By creating inviting pedestrian precincts with outdoor seating, greenery, and cultural attractions, the council can attract tourists, support local businesses, and stimulate economic activity. Car-free zones provide opportunities for street vendors, artisans, performers, and entrepreneurs to showcase their talents and products, creating a dynamic and vibrant urban atmosphere.

Prioritising the creation of more public spaces free of traffic and cars is essential for fostering a healthier, more sustainable, and inclusive city. By investing in pedestrian-friendly areas and car-free zones, the Auckland Council can enhance community wellbeing, promote environmental stewardship, and drive economic growth. As a resident, I am prepared to support these efforts through increased funding and advocacy to create a city that prioritises people over cars and fosters a sense of community and belonging for all.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

As a resident of Auckland, I would appreciate it if the Auckland Council reconsidered its expenditure on polluting car roads and the unnecessary widening of road lanes primarily for car traffic. By reallocating funds away from these ventures, the council could utilise public resources more efficiently while addressing pressing environmental and urban development concerns.

Investing in polluting car roads perpetuates our dependence on private vehicles, exacerbating traffic congestion and contributing to air pollution and greenhouse gas emissions. Instead, prioritising investments in alternative modes of transportation such as public transit, cycling infrastructure, and pedestrian-friendly initiatives would support a shift towards cleaner and more sustainable mobility options. By reducing

**#9289**

investments in car-centric infrastructure, the council can better align its priorities with the city's long-term sustainability goals and enhance the overall quality of life for residents.

Similarly, the wasteful widening of road lanes solely to accommodate car traffic is not a prudent use of public funds. Such expansions often fail to alleviate congestion in the long term and can lead to adverse environmental and social impacts, including increased urban sprawl, loss of green spaces, and negative effects on local communities. Instead, the Auckland Council should focus on implementing smart urban planning strategies that prioritise multi-modal transportation solutions, promote compact and walkable neighbourhoods, and enhance connectivity between residential areas and key amenities.

By reassessing its investment priorities and diverting resources from polluting car roads and unnecessary road expansions, the Auckland Council can reallocate funds towards initiatives that better serve the needs of its residents and contribute to a more sustainable and resilient city. This approach not only promotes environmental stewardship and public health but also fosters a more equitable and inclusive urban environment for all Aucklanders.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

### **2a. Is there anything you would spend more on?**

1. making public transport faster, more reliable and easier to use by investing in rapid transit network actions, such as making it easier to pay and introducing capped weekly public transport passes- I fully support this and I have to make the point that public transport should be free for all users.

2. network optimisation, reducing temporary traffic management requirements and introducing dynamic lanes- agree with most, besides that we need more traffic management to make things safer. We do not need at all to reduce traffic management. Keep workers and everyone around safe by introducing MORE traffic management.

3. stopping some previously-planned initiatives, such as some raised pedestrian crossings and cycleways. - Absolutely do not support this!

**#9289**

Halting previously-planned initiatives, such as the implementation of raised pedestrian crossings and cycleways, is a decision that warrants careful consideration. As a resident deeply invested in the wellbeing and safety of our community, I staunchly oppose any measures that would impede progress towards creating safer and more accessible urban environments.

Raised pedestrian crossings and cycleways are integral components of a modern, sustainable transportation infrastructure. They not only enhance pedestrian safety by providing designated crossing points away from vehicular traffic but also promote active modes of transportation, such as cycling and walking, which are essential for combating congestion and reducing carbon emissions.

In light of pressing concerns regarding road safety and environmental sustainability, it is imperative that the Auckland Council prioritises the immediate implementation of raised pedestrian crossings and cycleways. These initiatives not only contribute to the overall health and wellbeing of our residents but also underscore our commitment to building a more inclusive and environmentally-conscious city.

Therefore, I strongly urge the Auckland Council to reconsider any plans to halt the development of raised pedestrian crossings and cycleways. Instead, let us redouble our efforts to expedite their implementation, ensuring that our city remains at the forefront of progressive urban planning and prioritises the safety and accessibility of all its inhabitants.

## **2b. Is there anything you would spend less on?**

When considering the allocation of resources, there are certainly areas where spending could be reduced, particularly in prioritising cars and investments aimed at accommodating more car traffic. As a resident concerned about sustainable urban development and the well-being of our community, I advocate for a shift in priorities away from car-centric initiatives towards more inclusive and environmentally-friendly alternatives.

Investing heavily in infrastructure tailored solely to cars perpetuates a cycle of dependence on private vehicles, contributing to issues such as traffic congestion, air pollution, and urban sprawl. Therefore, it is imperative that the Auckland Council re-evaluates its spending priorities to reflect the evolving needs and values of our city.

Instead of disproportionately allocating resources towards projects that cater to cars, the council should focus on initiatives that promote sustainable and multi-modal transportation options. This could include investing in public transit systems, expanding

**#9289**

cycling infrastructure, enhancing pedestrian facilities, and prioritising initiatives that promote active transportation and reduce reliance on cars.

By redirecting funds away from car-centric projects and towards more sustainable transportation alternatives, the Auckland Council can better address pressing issues such as traffic congestion, air quality, and urban livability. This approach not only aligns with the city's long-term sustainability goals but also fosters a more equitable and inclusive urban environment for all residents. Therefore, I urge the Auckland Council to carefully consider its spending priorities and make strategic investments that support the creation of a more sustainable and resilient city.

### **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

#### **Tell us why:**

The stadium is just waste of money. "The first option is to keep the existing stadium and spend \$35 million to maintain and operate it over the next decade while looking at improving its operating model." - the \$35 mil can go towards something much more sustainable and better economically speaking.

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#### **Tell us why:**

The establishment of the Future Fund presents a concerning trajectory towards the privatisation of Auckland, diverging from the fundamental responsibilities of a council. Such a shift could potentially yield adverse outcomes for Aucklanders. The anticipated returns from this initiative remain ambiguous, with the draft Long-Term Plan (LTP) failing to incorporate professional management fees, implying an uncertain feasibility of the purported returns. Consequently, the envisaged outcomes might entail not only asset privatisation but also a pronounced escalation in rates, given the minimal returns once associated costs are considered.

**#9289**

Moreover, the inclination of investment experts towards maximising profits raises ethical apprehensions regarding potential investments in businesses with questionable environmental, labour, and health practices. Additionally, the proposed further divestment of Auckland Airport shares lacks sound rationale, as these holdings incur no cost to the Council and are anticipated to appreciate over time, mirroring the trajectory of most large publicly traded companies. Foreseeably, the actual returns from such sales, akin to other assets within the Future Fund, are likely to fall short of the expectations outlined in the consultation document, particularly when accounting for management and sales fees. Consequently, the resultant yield for Aucklanders may prove markedly diminished.

Furthermore, the absence of provisions empowering the Auckland Council to engage in deliberations concerning specific asset procurement or sales is disconcerting, as such decisions will be exclusively entrusted to fund managers devoid of direct accountability to the populace of Auckland.

It is a common tactic among proponents of privatisation to tout redirected proceeds from asset sales towards community investment, likely to offset the inherent unpopularity of privatisation. However, the proposed Future Fund seems poised to divert revenue towards investment advisors and consultants, failing to realise the anticipated financial gains while facilitating the encroaching privatisation of Auckland. This trajectory threatens to erode public control, depress wages and employment conditions, and undermine the quality of essential services, all of which should ideally be prioritised for public benefit rather than private profit.

#### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#### **Tell us here:**

The inclusion of the port's operating lease in a broader plan to divest several of Auckland's public assets poses significant implications. Such actions are anticipated to precipitate elevated costs for everyday commodities in Auckland, diminish profits for the local economy, and entail relinquishing control over a pivotal strategic asset.

Drawing from experiences in Australia, where the sale of port leases from public ownership has ensued, there is a gradual upsurge in shipping charges. These

**#9289**

augmented costs inevitably trickle down to consumers, exacerbating the strain on household budgets amid an ongoing cost-of-living crisis. Research commissioned by the Maritime Union of New Zealand has highlighted instances where container charges escalated from single digits to surpassing AU\$100 in Australia, imposing financial burdens on businesses and consumers alike. Furthermore, the prospect of DP World, a potential buyer of the port, having evaded corporate tax in Australia despite substantial revenues from Australian clientele, raises pertinent concerns.

The proposed sale of the lease not only wrests control of Auckland's sole port from its residents but also jeopardizes the livelihoods and safety of the workforce, whilst redirecting the port's profits to foreign investors. As an integral component of Auckland's infrastructure, the port's operational management ought to remain vested in the hands of Aucklanders.

Moreover, the Mayor's Central Proposal fails to incorporate the associated costs of fund manager fees, presumably entailing engagement with foreign investment entities such as BlackRock or Vanguard. The absence of clarity regarding these fees within the consultation documents is conspicuous.

Additionally, safeguarding workers' rights and upholding environmental standards are commonly perceived as overheads for profit-driven enterprises. While the Ports of Auckland has established frameworks for such protections, a privately operated entity may be compelled to prioritise profit margins over these considerations, potentially resulting in neglect of workers' welfare and environmental preservation.

Consequently, a private operator may resort to cost-cutting measures to bolster profitability, potentially compromising on quality and adherence to standards. This proposal is poised to augment the influence of private contractors and entities in Auckland Council's affairs, accentuating the prevalence of affluent corporations at the expense of the citizenry of Auckland.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The establishment of the Future Fund for making investments offers negligible benefits to Aucklanders, particularly when the Auckland Council possesses the capability to make investment and funding decisions independently. Entrusting these decisions to

**#9289**

unelected fund managers presents a disservice to Aucklanders, as it relinquishes local control over the management and utilization of Auckland's assets.

The imperative to safeguard current investments in public services is paramount, as deviating from established investment practices poses a risk to the continuity and efficacy of essential public services upon which Aucklanders rely. It is imperative that the integrity of these services remains intact, as any departure from conventional investment protocols could compromise the provision of vital services to the community.

The adoption of the Future Fund model for investments does not offer discernible advantages for Aucklanders, as it undermines local authority and introduces unnecessary risks to the maintenance of crucial public services. Upholding the existing investment framework is essential to ensure the continued delivery of efficient and reliable public services that meet the needs of Auckland residents.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Only if it is used for public good, such as parks. Not realestate private ownership!

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Only if it is used for public good, such as parks. Not realestate private ownership!

#9289

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#9289

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#9289

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

The proposed priorities outlined by Albert-Eden for the 10-year budget 2024-2034 really resonate with me. It's heartening to see a commitment to fostering community cohesion, environmental sustainability, and inclusive governance.

Celebrating diversity and promoting social inclusion through engaging activities is something I wholeheartedly support. It's crucial for nurturing a sense of belonging and connectedness among residents, and reducing barriers to participation for everyone, especially those facing challenges in engaging with the council or community groups, is absolutely essential for creating an inclusive and accessible environment.

Continuing environmental initiatives, like tree planting and parks restoration, is also close to my heart. Addressing climate change and enhancing our local ecosystem are vital for the well-being of our community and future generations.

The emphasis on planning for the future of our parks and open spaces is another aspect that really speaks to me. Creating vibrant and accessible public spaces where

**#9289**

Residents can relax and enjoy nature is incredibly important, and I appreciate the efforts to balance different park uses and foster connectivity between green spaces.

Supporting community groups and grassroots initiatives is something I deeply value. It's inspiring to see a commitment to providing funding, capacity building, and networking opportunities to empower these groups to thrive and make a positive impact in our community.

Overall, these proposed priorities demonstrate a thoughtful and forward-thinking approach to addressing the diverse needs and aspirations of Albert-Eden residents. By prioritizing community engagement, environmental sustainability, and inclusive governance, Albert-Eden is striving to create a thriving and resilient community that I'm proud to be a part of.

#### **8. Do you have any other comments?**

In addition to the proposed priorities, I believe there is a pressing need to enhance pedestrian safety and promote active transportation options, particularly through the implementation of raised crossings and the creation of protected and connected cycling lanes. Strengthening pedestrian infrastructure with raised crossings not only improves safety but also encourages walking as a viable mode of transport.

Moreover, the establishment of protected and connected cycling lanes, especially along major thoroughfares like St Lukes Road and Morningside Drive, is paramount for promoting sustainable and healthy transportation alternatives. Providing safe and dedicated spaces for cyclists not only reduces traffic congestion but also contributes to improving air quality and public health.

Investing in pedestrian-friendly infrastructure and cycling lanes demonstrates a commitment to creating inclusive and sustainable urban environments. It is imperative that the Auckland Council prioritises these initiatives to ensure the safety and well-being of all residents while promoting environmentally-friendly modes of transport.

I urge the Auckland Council to consider the implementation of raised crossings and protected cycling lanes as crucial components of its urban planning strategy. By prioritising pedestrian safety and promoting cycling infrastructure, the council can create more liveable and sustainable communities for everyone.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Clean the gutters and make sure the drains are not blocked.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Keep to core activities. rates have become unaffordable.

#9293

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

totally agree with stopping spend on more road crossings - has anyone noticed that people ignore them and cross meters away maybe safety could look at prosecuting jaywalkers. most buses and trains are empty smaller mini buses to replace the big buses outside rush hours. the city rail link is going to be an expensive nice to have. Do people even care about going into the central city anymore? make sure money is not spent on solutions that are designed inflexibly for changing uses. trams on wheels that can be moved to different routes rather than fixed rail.

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

Council has to cut its cloth. rates are just becoming unaffordable particularly when added to water increases insurance premium increases and high interest rates.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

Auckland is not big enough for so many stadiums.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#9293**

**Tell us why:**

absolutely do not trust Council to do this effectively they waste money and ignore ratepayers opinions. if they have a fund they will spend it and want more.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Retain the underlying land but find a better professional operator.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

As above the future fund is just transferring wealth to the next generation at the expense of this one.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

#9293

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

where is the port going to go otherwise.

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 7a. Which local board area does your feedback relate to?

Albert-Eden, Franklin

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers	Not Important
-----------------------------------------------------------------------------------------------------------------------------	---------------

#9293

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

if there are no rubbish bins in the parks people will leave their rubbish and that'll attract rats and pigeons. Libraries are really community drop in places how many are needed. celebrating people and cultures is not a council job. there are already many organisations doing that. the same applies to environmental work.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Keep to council's core responsibilities and keep rates down. find other ways to fund nice to haves.

#9293

## Franklin Local Board Priorities

### 7b. What do you think of our proposed priorities for Franklin in 2024/2025?

I do not support most priorities

#### More specifically, what do you think of each priority we've listed above?

Develop fit for purpose facilities and respond to growth challenges through projects like the Clevedon Village Heart programme, 'Belmont' Sports Park development and the Unlock Pukekohe programme.	Not Important
Fund three-year Strategic Community Partnerships with local organisations that are willing to and capable of delivering social, environmental, cultural and economic outcomes in line with the local board plan and support to these organisations to deliver.	Not Important
Support environmental and cultural restoration programmes in partnership with Iwi including Te Kete Rukuruku (place naming) and Te Korowai Papatuuuanuku (environmental restoration).	Not Important
Develop "Franklin Community Occupancy Guidelines" to inform decisions on council-owned facility leases, including leasing charges.	Fairly Important
Find ways to reduce Franklin's maintenance costs e.g. by replacing lawn with eco-sourced native trees and reducing or relocating public rubbish bins.	Fairly Important
Progress the development and delivery of the Franklin Paths Programme.	Not Important

#9293

Deliver a refreshed approach to enabling young people in Franklin to access services and participate in their communities.	Not Important
Progress a Pukekohe Cemetery memorial project that acknowledges the unmarked graves at the site.	Not Important

**Tell us why**

**7c. What do you think of the Franklin proposed priorities for the 10-year budget 2024-2034?**

as for albert eden

**Do you have any additional thoughts on the proposed Franklin Paths Targeted Rate?**

it should not be imposed.

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

Glenbrook Beach

**8. Do you have any other comments?**

Rates need to be kept down. Council needs to cut costs and concentrate on its core functions. It needs to listen to its overwhelmed ratepayers.

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

NO

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Work less on bus roads and more

**#9307**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I think train services should be invested in while bus roads and facilities are kept as is.

**2a. Is there anything you would spend more on?**

no

**2b. Is there anything you would spend less on?**

no

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Because i think mount eden stadium is our national stadium that should be updated

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9307**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I think it marks the best future for the port

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Continuing with a clear path is what is best for the council group

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Nope

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

It keep the port with one stable owner

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

#9307

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#9307

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Nope

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#9307

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I think it is quiet well spread out to help the community

**8. Do you have any other comments?**

nope

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

reduce emissions by getting cars off the road

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9310**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We need cycle lanes, I don't agree with not moving forward with cycle lanes. We have a great city for cycling and I would do more cycling to and from if I felt more protected. I already cycle to and from work.

**2a. Is there anything you would spend more on?**

Cycle lanes

**2b. Is there anything you would spend less on?**

raised pedestrian crossings for now

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I don't use it so don't feel qualified to comment on it

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

I don't want to sell the shares, we should be using the income from it, not selling it

**#9310**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

35 years is a long time and we would lose control.

Also the option of moving the port and giving harbour front land back to Aucklanders to enjoy would then be totally off the table

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I'm not convinced that handing assets over to an asset manager where we can't vote or have any input into is the right way to go for Auckland

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

it's prime Auckland waterfront land that could be enjoyed by the public, currently it's a parking space for used cars

#9310

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Same reason as above, I believe the port should move from this prime spot

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

#9324

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Not Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important

#9324

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

Fairly Important

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better traffic, thanks

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9339**

Road cones

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Yur

**2a. Is there anything you would spend more on?**

Bus

**2b. Is there anything you would spend less on?**

Planes

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Seems cool

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I support

**#9339**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Nice idea!

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Smart people make smart choices

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Less cones

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

No change no problem

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#9339

Tell us why:

Not sure ask tomorrow

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do less
<b>Water</b>	As proposed
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

**#9350**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

No

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Making the stadium better could allow for bigger events to take place there

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I like that the proposal includes taking action to prevent climate change

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

#9350

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

Support

#9350

increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Other

#9350

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Do not support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

No

**Local board priorities**

**7a. Which local board area does your feedback relate to?**

Albert-Eden

**Albert-Eden Local Board Priorities**

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I do not support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.

Fairly Important

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.

Fairly Important

#9350

Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Fairly important

**8. Do you have any other comments?**

No

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

I don’t know

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Do more for the environment and making our society more sustainable.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Working on roads - it won't help long term.

**#9354**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

The proposals in place with the previous government were already underway and had viable solutions. Canceling them only lost money.

**2a. Is there anything you would spend more on?**

Public transport

**2b. Is there anything you would spend less on?**

Roads

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9354**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

This means that Auckland can control what happens with the port rather than a private company.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

This can help fund other projects in auckland.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I think the public transport needs more work, adding more bus stops is a very useful idea.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9359**

Bike lanes

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I like more bus stops and the central rail link but the bike lanes and roadworks are a very big nuisance

**2a. Is there anything you would spend more on?**

more bus stops

**2b. Is there anything you would spend less on?**

bike lanes

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

We have a lot of good stadiums in auckland, and north harbour is rather far away and not useful

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

public transport

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9362**

i'm not sure

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

i'm not sure

**2a. Is there anything you would spend more on?**

public transport

**2b. Is there anything you would spend less on?**

i don't know

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

so taylor swift can come

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

#9362

I don't know

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Other

#9362

around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce <b>recycling charges for schools.</b>	Other
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	Other
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025,	I don't know

#9362

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

no

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Franklin

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of	Very Important

#9362

what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**Franklin Local Board Priorities**

**7b. What do you think of our proposed priorities for Franklin in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Develop fit for purpose facilities and respond to growth challenges through projects like the Clevedon Village Heart programme, 'Belmont' Sports Park development and the Unlock Pukekohe programme.	Fairly Important
Fund three-year Strategic Community Partnerships with local organisations that	Fairly Important

#9362

are willing to and capable of delivering social, environmental, cultural and economic outcomes in line with the local board plan and support to these organisations to deliver.	
Support environmental and cultural restoration programmes in partnership with Iwi including Te Kete Rukuruku (place naming) and Te Korowai Papatuaanuku (environmental restoration).	Very Important
Develop “Franklin Community Occupancy Guidelines” to inform decisions on council-owned facility leases, including leasing charges.	Fairly Important
Find ways to reduce Franklin’s maintenance costs e.g. by replacing lawn with eco-sourced native trees and reducing or relocating public rubbish bins.	Not Important
Progress the development and delivery of the Franklin Paths Programme.	Fairly Important
Deliver a refreshed approach to enabling young people in Franklin to access services and participate in their communities.	Fairly Important
Progress a Pukekohe Cemetery memorial project that acknowledges the unmarked graves at the site.	Very Important

**Tell us why**

**7c. What do you think of the Franklin proposed priorities for the 10-year budget 2024-2034?**

**Do you have any additional thoughts on the proposed Franklin Paths Targeted Rate?**

**#9362**

**As our local board area is so large, please tell us where you live so we can better understand the views from different communities**

**8. Do you have any other comments?**

no

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do more
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

public health care. support hiring more staff to reduce waiting times

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

do less on roads when there are matters that need more attention

**#9364**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

continue with previously planned initiatives

**2a. Is there anything you would spend more on?**

make it better, bus conditions, more times, increase bus stop location

**2b. Is there anything you would spend less on?**

no

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

idk bro

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

u tell me focus better things

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9364**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

seems fine

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

nah

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

not really man

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

go bro

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

#9364

Tell us why:

who tf is that???

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

idk

**Manurewa Local Board Priorities**

**7b. What do you think of our proposed priorities for Manurewa in 2024/2025?**

Fairly Important

#9364

**More specifically, what do you think of each priority we've listed above?**

Continue to support, deliver and fund initiatives that contribute to positive youth development.	Fairly Important
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	Fairly Important
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	Fairly Important
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	Not Important
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	Fairly Important
Identify options for recreational activities to support people of all ages and abilities being casually active.	Not Important
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	Not Important
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.	g idk

**Tell us why**

**#9364**

**7c. What do you think of the Manurewa proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

no

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Definitely regarding the improvement for the transport system that we currently have.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9366**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

I am personally affected a lot by the Auckland Transport as I use it every day. Every time there was a big rain or after school times, the transport gets delayed very much and because I live far I rely heavily on the transport to come, if have to wait hours just to get on a bus.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

I feel that it is unnecessary for us to redevelop the stadium before trying an alternative method.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

It sounds good.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9366**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

If more shipments need to be made by trucks and rails, then this could perhaps affect the transport system which isn't very desirable.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

#9366

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More funding for mental health services especially services for adolescents.

More funding for public transport - reliability, frequency, efficiency etc.

Focus on community and culture.

More focus on green environment.

**#9369**

Prioritising city redevelopment.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Lesser focus on private vehicles etc - cars and roads.

Less focus on beneficiary fraud - why are we funding so much into the investigation of beneficiaries when tax fraud accounts for the majority of instances?

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Public transport is such an important service in Auckland. At the moment it's so unreliable and inefficient, it's painful.

**2a. Is there anything you would spend more on?**

N/A.

**2b. Is there anything you would spend less on?**

N/A.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

There are bigger priorities. Focus on changing operational management to improve services. Current management should not hoard revenue and instead use it to promote events for the community. It is barely used right now.

**#9369**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

I don’t know

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#9371**

Support most of the proposal

**Tell us why:**

Too much money spent on transport that could be better spent on more essential things

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

#9371

Other

**Tell us here:**

Both continue and invest in Auckland future fund

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount</p>	<p>Support</p>

#9371

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools</b> .	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

#9371

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important

#9371

Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do more
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#9378**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

#9378

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9383**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Want more cycleways to proceed

**2a. Is there anything you would spend more on?**

Cycleways and walking

**2b. Is there anything you would spend less on?**

Roads

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

It is not well utilised and too big now

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Keep airport shares but Leasing port ok

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9383**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

I want more access to waterfront and better use of some of that land

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#9383

<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Do not support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#9389

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Fairly Important

#9389

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Community projects and services

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9426**

Salaries of the mayor

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#9426

Tell us here:

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

#9426

<p>around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	
<p>Re-introduce <b>recycling charges for schools.</b></p>	
<p>Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025,</p>	

**#9426**

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## **Local board priorities**

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do less
<b>Water</b>	Do more
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Bus and ferry de-carbonisation.

Capped weekly passes

Healthy waters

Northern and Central Interceptors

#9442

Making space for waters

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Super Gold Card extensions

Mega projects

funded festivals

internal inefficiencies, council spending on itself

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I support public transport improvements inc. ferry and bus.

Enhancement of private transport options must suffer if there's to be a trade off.

**2a. Is there anything you would spend more on?**

Bus and Ferry low emission roll out. Central Govt needs to support this substantially

Improved reliability.

Capped weekly passes.

**2b. Is there anything you would spend less on?**

roading upgrades

super gold extensions

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**#9442**

**Tell us why:**

No budget for stadium redevelopment.

Change of management may be able to revitalise local input into extended and optimised use of stadium.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Shares in AIAL are a public asset to be managed for not just this generation of Aucklanders but for future generations. The Council are stewards and must protect and enhance this asset.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

We must retain full control of harbour development and management.

This includes water quality, ferry services, fishing limits, dredging, port extensions, port reorganisation or relocation, etc.

Aucklanders must retain full control of decision making regarding the port facility.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**#9442**

**Tell us here:**

We need the dividend to fund basic improvements to infrastructure and meet our Climate commitments.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Strongly object to asset sales.

Council's central duty is to protect and enhance our natural environment and hold it In Trust for future citizens.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Any changes to the POA needs to be integrated and part of a future NZ landscape in the strategic National interest, rationalising port infrastructure development.

Until this happens, we need the generated revenue.

The port activity makes downtown interest

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Operational port is useful and interesting.

We can't afford to shut it down until a sustainable National plan is developed

**6a. What do you think of these proposals?**

#9442

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#9462

## 2. What do you think of the transport proposal?

### Tell us why:

I support all of the 'do more' proposals. Transport is a key contributor to our emissions and we need to get cracking to reduce them.

### 2a. Is there anything you would spend more on?

I think that level crossings on the train lines should be removed asap. Once the CRL opens, they will create huge delays.

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

I don't live in the area and don't follow sport. However, I think that sport gets a huge and overbalanced emphasis in NZ.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

Don't lease out the port. Auckland Council needs to keep control of it. Borrow to the hilt and wait for a change of government.

## 4b. Which option do you prefer for the future of Port of Auckland?

#9462

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Support

#9462

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools</b>.</p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>I don't know</p>
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	<p>I don't know</p>

#9462

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important

#9462

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

**Tell us why**

I am not at all sure about the rubbish bin free parks. To agree, I'd need to know a lot more about the alternatives that are being proposed.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

They are so general that it's hard to respond.

**8. Do you have any other comments?**

I am very concerned about the proposed increased charges for community facilities. A group such as the Gribblehirst Community Hub Trust has very limited capacity to fundraise. The funds that it does raise through memberships and bookings are immediately consumed by the existing Council fees, insurance, and ordinary running costs. The contracts for coordinator and cleaner are currently covered by grants. The Hub is delivering valuable services to the community and would be crippled if Council charges were increased.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The environment protection around Auckland.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less taxes

**#9481**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I believe there's good reasonings for the decisions

**2a. Is there anything you would spend more on?**

Parks and beaches cleanliness

**2b. Is there anything you would spend less on?**

Food

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Because the reasoning seems good

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I believe this is valuable information

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9481**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Because it seems smart

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

This is vital to living

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

N/a

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Not know much but sounds reasonable

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#9481

Tell us why:

N/a

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

N/A

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

N/A

#9623

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Like the capped weekly transportation pass - this incentivises people to use public transport - also like the plan to reduce the spend on raised pedestrian crossings.

### 2a. Is there anything you would spend more on?

Perhaps increase the spend on some roads to provide for porous surfaces which excess water can flow through in case of major weather events - otherwise the proposals are fair and reasonably accounted for financially

### 2b. Is there anything you would spend less on?

N/A

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

There is a lot of unused potential of the land. Great recreational use for community, the stadium itself is a white elephant (and I used to work in the surrounds so saw how infrequently it was used) both in terms of its conference rooms and as a stadium.

It is not an easy to access destination. it is not appealing to watch sport there in inclement weather. Better use the funding to provide greenspace opportunity for community.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

**#9623**

Proceed with the proposal

**Tell us why:**

Proper Planning Prevents Poor Performance.

The Auckland Future Fund helps provide assurances for our most vulnerable communities in the case of an untoward circumstance.

We cannot do what has always been done, trying something modern and new is the only way to go.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The lease of the operation provides impetus for the Future Fund. Sensible option.

Why is the port there anyways? Dumb place to have it, with transportation associated with it adding to congestion. The port should be in another place - free the area up for other activity, business, etc.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Invest in the future (via the Akld Futures Fund). There will be more weather disasters. This fund will help alleviate the problems these events cause.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#9623

No further feedback.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Covered my point in an above comment - dumb place to have the wharves .... use the space for public good.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Covered in my earlier comments.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

No, thank you for the opportunity.

#9623

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important

#9623

Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Pretty good - a lot of time and effort has gone into the proposals - well done to those involved.

**8. Do you have any other comments?**

No further comments, thanks.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

PR and self promotion

**#9649**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Keep investing in cycleways.

**2a. Is there anything you would spend more on?**

Cycleways and public transport corridors

**2b. Is there anything you would spend less on?**

Pedestrian crossings and footpath beautification

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#9649

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

Support

#9649

increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Focus on local areas. Expand libraries. Place more value on CAB

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#9659

NO

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Public transport links communities , provides opportunities for cross- group interactions and enables all to participate in their city

**2a. Is there anything you would spend more on?**

Reduce focus on user pays. One price for a trip not calculated on distance,

Cities much larger than Auckland enable all communities to participate regardless of distance.

**2b. Is there anything you would spend less on?**

No

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

North Shore residents could benefit from a community venue.

I am not sure about the benefit of redevelopment there versus other city sites .

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#9659**

**Tell us why:**

Do not sell assets for short term gain. This is basic economics.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Again. do not sell assets, though the return could be improved.

The waterfront should be redeveloped from a car park to a public amenity we can be proud of.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#9659

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop funding wasteful projects

**#9668**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Bike lanes are making getting around the city difficult and many shops are now no go areas due to parking removal. Raised pedestrian crossing create more emissions.

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

raised pedestrian crossings and cycleways.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9668**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Too much money has been wasted on "improvements" that are useless. Many of which need to be reversed.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Totally wrong to use the land to build apartments on the waterfront , they will have a negative impact.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

#9668

Totally wrong to use the land to build apartments on the waterfront , they will have a negative impact.

**6a. What do you think of these proposals?**

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------

#9668

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Many community groups seem to have political agendas and a waste of time.

Library needs to stay where it is

The MtAlbert civic square idea is a crazy idea, leave it as it is for a car park. Only plants in pots could be put there, which mostly die .

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Stop wasting money on vanity projects.

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More green spaces and services in suburbs where there is increasing densification.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9677**

Let us not have a Mayor and all his assistants/officers. The Mayoral office has added no value in the last year so we might as well not have one. All the current Mayor does is cuss and abuse people - that is not ok.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

We need more money spent on encouraging active transportation - walking, biking and public transport. We need to make sure people can do these things safely.

### **2a. Is there anything you would spend more on?**

We need congestion charging. We need ways we can reduce car ownership in Auckland - more parking charges and encourage government to increase registration fees even more. Encourage government to introduce compulsory third party insurance. We know we need all this - let's get on with it!

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

It is a great stadium and in a good position for transport networks.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#9677**

**Tell us why:**

Auckland Council should never have sold the AIAL shares, I don't support establishing this Fund.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

No leasing of port operations!

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I don't agree with the Fund.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

**Tell us why:**

#9677

This seems like a back door way to increase building on Bledisloe Terminal. I would like to transfer Captain Cook and Marsden wharves so the public can benefit but NOT at the cost of more development on Bledisloe Terminal.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Current operations on Bledisloe Terminal are an eyesore.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#9677

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Bit boring sorry - and the Local Board has hardly any money to spend so it's not really going to make any difference to the lives of people who live there.

**#9677**

8. Do you have any other comments?

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9692**

Employ less highly paid, unnecessary and useless persons. Make all senior appointments (ie >100K pa) subject to mayoral approval.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Sensible to support the economy

**2a. Is there anything you would spend more on?**

Core roads

**2b. Is there anything you would spend less on?**

Cycleways, raised crossings

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Not required

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Sensible

**#9692**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Sensible economics

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Keep rates down

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Support the mayor

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Sensible

**5b. What option do you prefer for Bledisloe Terminal?**

#9692

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing	Support

#9692

the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

No

No

**#9710**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Public transport and safer cycleways

**2b. Is there anything you would spend less on?**

No

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I don't live on the North Shore so can't gauge its usefulness to locals. Seems a bit of a white elephant currently.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

I am not happy with the proposed leasing of the ports of Auckland. I agree with the group who have challenged this proposal. Wellington has a fantastic harbour side- why are we in Tamaki Makaurau so late to the party on seaside redevelopment?

**#9710**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

As above

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Port should be moved somewhere else

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Support

#9721

around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025,	I don't know

#9721

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important

#9721

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Pedestrian and cycle safety

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#9725

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

PT in Auckland is dire. Needs the investment so that ALL can benefit.

"stopping some previously-planned initiatives, such as some raised pedestrian crossings and cycleways." I still support this as part of the solution we need.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I just don't know the value of it. Not that it might have some.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

I want to keep this in our hands. Transfer is short term thinking.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9725**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I want to retain control - so that we can decide what happens with it.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

**6a. What do you think of these proposals?**

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

The Point Chev library is of the highest priority. There is so much new additional housing going on around the library, in Carrington precinct, opposite the library and throughout Pt Chev itself. The current temporary premises are not fit for purpose and does not act like the hub the previous library did.

**8. Do you have any other comments?**

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Definitely keep and expand essential community hubs and services - e.g. library, CAB, JP services etc. these are were used in the current challenging environment and provide a safe place to all members of the community to access.

**#9734**

Look for alternative inner city land to develop the city with good returns e.g. leasing or renting land of public golf courses rather than urban sprawl and new green fields developments.

Take all actions possible to prepare the city and communities to manage climate change..

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

DO NOT SELL OR LEASE ASSETS such as Auckland Airport Shares and the Ports of Auckland.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Cy

**2a. Is there anything you would spend more on?**

cycleways and raised pedestrian crossing are a no brainer for a more vibrant and liveable city that enables the population to safely get out of cars - spend more in this area.

Public transport must be improved as a way to efficiently move more people without creating the gridlock that occurs when major roads are built all feeding into the same smaller arterial roads.

**2b. Is there anything you would spend less on?**

ROADS

**3. Which options do you support for the North Harbour Stadium?**

**#9734**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

this asset does not need to be sold and will suit Auckland well into the future. Now is NOT a rainy day.

Part of NZs critical infrastructure.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

As per the airport shares this is NOT and asset to lease out. Part of NZs critical infrastructure.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

#9734

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Part of NZs critical infrastructure.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Part of NZs critical infrastructure.

**6a. What do you think of these proposals?**

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Not Important

#9739

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Pt Chevalier deserves a Library and is missed. Town Square has degraded since it was closed.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Improve Town center of Pt Chevalier

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9743**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Yes, more subsidised transport --cheaper fares--for younger people struggling to live in Auckland (under 30s).

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The shareholding should be retained.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

#9743

Relocate or reallocate Auckland port operations to other ports and return the land to public use.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Tell us here:

**4d. Do you have any feedback on any other part of the proposal?**

Tell us here:

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by	Support
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------

#9743

around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We should be a leader in reducing emissions and proactively taking action to prevent the effects of climate change. I would pay more for decarbonisation efforts, schemes to get people out of cars and onto bikes and public transport, better railways, resurfacing urban waterways and education campaigns. I also want Auckland Council to support

#9746

and fund local organisations that are doing the work to reduce waste to landfill. Finally, I'd love if we properly connected the protected cycleways we already have in Auckland so that the transport network is complete.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

I don't think we should be doing anything that helps enable people to continue driving private cars, creating traffic and causing danger to other road users. For example, new roads, road maintenance for cars, more car parking. I think the freight industry who has lobbied to keep us on roads and off rail should pay for the damage that trucks do to Auckland's road network.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

I support some of this proposal but I strongly disagree with other parts. I support all of the public transport actions especially ones that make it more affordable and easy to use. However, I don't think we should be doing anything that helps enable people to continue driving private cars, creating traffic and causing danger to other road users. For example, new roads, road maintenance for cars, more car parking, dynamic lanes, removing rail crossings for cars. I do not think we should stop spending money on tactical safety improvements for cyclists and walkers, like raised crossings and cycle lanes. These have been used as a political football in the past but I see it as the council's job to help cut through the disinformation and find ways to make affordable safety improvements for pedestrians and micromobility. We know for a fact that many more people would cycle if they felt safer on the road. We also know that walking and cycling is much healthier and leads to happier cities. Tactical safety improvements are a great way to create mode shift. I am both a landlord and a renter in Auckland, and I would happily spend more to get more in this area because it is so desperately needed that people have more options for how they want to travel around Auckland. I strongly support congestion charges to help us recoup funds lost from the regional fuel tax.

**2a. Is there anything you would spend more on?**

Spend more on cycleways, especially accelerating safe connections between our existing cycle routes. Remove parking on arterial routes in favour of implementing

#9746

cheap, fast cycleways. Continue planning for surface light rail, and take one of the clip-on lanes on the Auckland Harbor Bridge for walking and cycling. Where businesses or property owners object we should just buy them out rather than ultimately spending more on overly-complicated tunnelling or consultation processes.

## 2b. Is there anything you would spend less on?

Don't spend any money that benefits car drivers. This always creates induced congestion - no matter how much we put into reducing congestion, it will just incentivise more people to drive cars and then we'll be back to square one in a few years with the same amount of traffic. It is an absolute waste of money.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

I think community spaces are extremely important, but I think that it's better to focus on smaller, more hyper-local community hubs and playing fields rather than large stadiums and event centres. People are more likely to utilise local spaces where they don't have to travel far to attend.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

I am skeptical of selling the airport shares as once we don't own the airport, it will be subject to more private corporate decision making and will not as easily respect the rights of tangata whenua. Also, the AIAL shareholding dividend does not seem to have been factored into the question of whether to sell the shares. I would much prefer that Auckland Airport is a publicly owned asset kept as an investment for future generations rather than selling it now to address a short-term shortfall. We've made terrible short

**#9746**

term decisions for decades and are already suffering for it. We don't need to make another - we need to stop the cycle of local and central governments making short term decisions.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I strongly oppose leasing out port operations as it will lock in significant and unsustainable commercial activity in the Hauraki Gulf for the next 35 years. This is not conducive to our intentions to reduce emissions and revitalise the city centre.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#9746

I prefer the port land to be used for public benefit rather than car and freight storage - it is a significant opportunity for central Auckland. However, Auckland Council needs to make a plan for moving port operations that relies on rail NOT trucks. Truc

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

I prefer the port land to be used for public benefit rather than car and freight storage - it is a significant opportunity for central Auckland. However, Auckland Council needs to make a plan for moving port operations that relies on rail NOT trucks. Trucks are already a huge problem for safety and incurring lots of costs to repair the roads. A sensible and ambitious rail option is what we need if we move the port.

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

About recycling charges for schools: I do not support re-introducing recycling charges for schools because good habits around waste and the environment are best started young, and we want to encourage this at schools that may be limited on funds already.

#9746

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

In the text box we recommend covering all or some of this feedback

Auckland Council could do more to ensure compliance with existing bylaws, including proactive measurement and management of noise, pollution and anti-social behaviour.

**#9748**

Auckland Council should do more to realise its Climate Plan and Transport Emissions Reduction Plan.

Auckland Council needs to improve community resilience, which is partly planning and infrastructure, and partly building community networks.

We would advise against reducing staff levels to the point that they are overwhelmed and unable to give good advice.

We recommend that there is sufficient prioritisation of communication and IT systems to improve customer experience.

We should incentivise more development in the existing urban area close to transport links, perhaps by making it cheaper to get consents, and to connect to water infrastructure in existing suburbs. This would significantly reduce costs on the council over time.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less building on the outskirts of the city. Optimise housing on public transport routes.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We support:

completing the City Rail Link

improving bus, rail and ferry networks for more reliable service

funding new cycleways and shared paths so that more people have access to the network

delivering new and improved footpaths across Auckland, particularly in the city centre.

“Time of use” charging

a “room to move” programme to review parking in critical areas and increase revenue from parking and Park & Rides.

50% electrified buses by 2030

expanding the rapid transport network (RTN)

#9748

a weekly \$50 cap on public transport fares

**2a. Is there anything you would spend more on?**

Complete CRL and Great North Road upgrades, also:

completing the Downtown and Midtown Bus improvements

more cycleway and walking connections

safety projects around schools and town centres.

better funding for maintaining, expanding and promoting the public transport network, including to more remote areas

rolling out electric ferries and more low-emission buses, plus supporting infrastructure

the Lincoln Road and New North Road corridor upgrades

greater investment in rail: rolling stock, and more support for ongoing Kiwi Rail track maintenance

Street trees and rain gardens

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#9748**

We feel very strongly that this programme must not proceed. The COuncil must maintain existing assets.

The airport shares are a strategic asset that has paid good dividends in the past and will again in the future. We are also concerned that the fund would be whittled down in time in a reactive way rather than being used strategically to transition to a low-carbon and resilient economy, and city.

There are currently no ethical parameters for the Future Fund, so it might invest in companies that exacerbate the climate issues that the fund is designed to address. Investing in a non-ethical fund may jeopardise council's access to low-cost infrastructure loans via Green Bonds.

#### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#### **Tell us here:**

Leasing the port would privatise it for a generation or longer. We would lose control over a key part of our waterfront and the income from its profits (\$52M last year). The proposal may also lead to worse outcomes for workers, and higher costs for New Zealand businesses and consumers. We are concerned also that there will not be sufficient maintenance and modernisation in the latter years of the lease, meaning Aucklanders would have to bear these costs.

Our concerns over the Future Fund (as in 4a).

#### **4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

#### **Tell us here:**

Port dividends have always been used to fund council services and we do not support a reduction in services when the population is getting larger and the challenges are getting greater.

#9748

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

We think it is important to have a conversation regarding opening up more waterfront and the future of the port but that is only possible with the port remaining in public control. Transferring land to the Council will open up more of the waterfront spac

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

It would be hugely expensive and environmentally damaging to move port operations from Bledisloe Wharf, and the port would be less able to return a dividend to council.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

General climate change focus, now is the time to act and invest more and yes it maybe hard but it must be done.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9790**

Less road building and instead focus on greater options on ways to get around the city  
i.e more focus on cycleway, public transport improvements and walkability

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Cycleway projects are integral to a more sustainable future where driving cars is not the only option to get around. Use cost effective means to reallocate road space away from cars such as removing parking and provide more cycle lanes.

Dynamic lanes should be used not for more cars but for improving public transport  
Dynamic bus lanes or T3 lanes make far more sense.

Raised crossing improve the safety of walking for everyone but more importantly those that are the most venerable such as children, older people and those with disabilities.

### **2a. Is there anything you would spend more on?**

More cycleways, more safety improvements, more reductions in residential road speeds and more raised zebra crossings

### **2b. Is there anything you would spend less on?**

Less spending on trying to improve car travel times and instead focus on improving the alternatives so that people don't have to drive.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

**#9790**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

I think we should retain a stake in Aucklands key infrastructure like the Airport and Port so can't support the proposal if it risks selling all AIAL shares

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Retaining a stake in Aucklands key infrastructure is important. Rates increases are more acceptable

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Why invest in an investment fund when there are projects that need funding now.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#9790

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by	Support

#9790

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

# Submission to Auckland Council Long-Term Plan: Dominion Road Business Association

## March 2024

### Introduction

This submission is made on behalf of the Dominion Road Business Association (DRBA), representing over 300 businesses in the Dominion Road area. Our diverse membership includes retail, commercial, professional services, and hospitality establishments.

Auckland's 52 Business Improvement Districts (BIDs), including the DRBA, play a crucial role. We strive to enhance the business environment, foster innovation and prosperity, and attract new businesses, customers, and visitors, contributing significantly to Auckland's economic well-being.

### Dominion Road: A History of Unfulfilled Potential

Dominion Road's development has been hampered by years of planning uncertainty. Here's a timeline highlighting the missed opportunities:

- **2004:** Designation for a 24-hour public transport route (including potential light rail) with the possibility of acquiring store frontage for a wider corridor. This plan was shelved.
- **June 2010:** A proposal for upgrades, including high-quality bus routes, cycle lanes, and removal of on-street parking, sparked controversy among shop owners and was ultimately abandoned.
- **Around 2011:** Plans for Dominion Road improvements were put on hold due to Rugby World Cup preparations.
- **July 2011:** Auckland Transport proposed a scaled-down plan with peak-hour bus lanes and retained on-street parking.
- **October 2012:** A further scaled-down version with minimal upgrades was approved. The DRBA participated in discussions and secured mitigation measures like additional parking and streetscape improvements.
- **Late 2014:** Just before a contractor was chosen, the entire project was cancelled due to the re-emergence of light rail plans.
- **2017-2023:** Light Rail planning dominated, with millions spent without any tangible improvements for Dominion Road.
- **2023:** The National led collation government shelved the project in its first 100 days.

### A Call for Action: A Master Plan for Dominion Road

Decades of unfulfilled plans and constant change have discouraged investment in Dominion Road. We urge Auckland Council and Auckland Transport to collaborate and develop a definitive master plan that considers:

- **Footpath upgrades:** Especially around Balmoral shops, which were flooded during last year's heavy rain. Improved stormwater management is essential.
- **Lighting improvements:** Consistent lighting and light pole styles throughout the entire street.
- **Off-street parking development:** Explore options like the previously proposed car park on Ewington Ave. Include EV charger installations.
- **Electronic parking signage:** Real-time information on available parking in side streets and off-street facilities.
- **Adaptive construction timelines:** Future mass transit projects should minimize disruption to businesses during construction.
- **Business compensation package:** Consideration for potential business losses during construction of any future mass transit developments.
- **Upgraded street furniture:** Improved benches, bus shelters, etc.
- **Traffic flow improvements:** Restrict southbound right turns from Dominion Road onto Wiremu Street.
- **Security measures:** Implement a network of Automatic Number Plate Recognition (ANPR) cameras to combat crime.
- **Pedestrian safety:** Install dynamic pedestrian crossings (barn dances) at key intersections.

## Other Matters of Concern

- **Long-Term Differential Strategy (LTDS):** We strongly oppose the discontinuation of the LTDS, which has benefited businesses by gradually lowering their share of general rates. The arguments presented for this change are not convincing, especially for small businesses, the backbone of Auckland's economy. We urge you to maintain the LTDS.
- **Draft Waste Management and Minimisation Plan 2024:** We support the plan's focus on waste reduction and resource recovery. We agree with the proposed approach of a fortnightly rubbish collection for households with an option for larger bins, but urge you to ensure this system caters to the needs of businesses as well.
- **Transport Plan:** We agree that a key priority for transport should be to make the most of council's existing assets and planned spend, including the council's significant investment in the City Rail Link (CRL) and other large rapid transit network projects. But we ask that all transport projects are planned and implemented in close collaboration with BIDS. A key concern we have is the disruption caused to business from transport developments, including often excessive temporary traffic management. We ask for this to be addressed.

- **CRL Opening:** With the CRL opening and the proximity of the Maungawehau Station to Dominion Road, this is an ideal opportunity to encourage people who work and shop on Dominion Road to consider using the rail network and vice versa to highlight Dominion Rd as a destination. The DRBA is open to working with Auckland Transport / Auckland Council; to promote this.
- **Local Board Funding Policy:** We agree with the *central proposal*, which sets out a 50/50 combination approach (that is, reallocating some existing funding between local boards and providing some new funding (\$20 million opex and \$30 million capex) over the first three years of the LTP 2024-2034.

We, the DRBA, are committed to working collaboratively with Auckland Council and Auckland Transport to revitalize Dominion Road and unlock its full potential.

We believe that by implementing the recommendations in this submission, we can create a thriving commercial hub that benefits businesses, residents, and visitors alike.

# Long-term Plan 2024-2034

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Council has declared a climate emergency. Why is Council not moving quickly to decrease emissions and mitigate against the more frequent severe weather events that are coming?

**#9834**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Please stop choosing expensive options when others more affordable ones are available.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Private transport is the major polluter of the city. We are close to gridlock each peak hour. Public transport, safer streets for all and a city wide cycle network are no brainers

**2a. Is there anything you would spend more on?**

Safety for all: Cycles, micro transport, pedestrians

**2b. Is there anything you would spend less on?**

Roads!! Apart from repairing existing roading.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#9834**

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

#9834

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Support</p>
<p>Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>

#9834

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#9834

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

I am surprised that there is so little emphasis on preparing the area for the coming extremem weather events. We were adversely affected by the summer floods last year. Whay are we not actively naming and creating wetlands, opening steams for flood management, tree planting for flood management and shade in the heat. etc etc.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

The climate disasters will be increasing over the next ten years. We shoudlbe actively reducing our emissions. Where is the plan for this? Where is the overt plan to mitigate for floods, heats droughts and sea level rise?

# Long-term Plan 2024-2034

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More walkways and cycle ways and more public transport

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9843**

Roads , anything that involves cars and trucks rather than trains buses and bikes and walking

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Cars are the ruination of the planet and the human race.

**2a. Is there anything you would spend more on?**

Public Transport of course

**2b. Is there anything you would spend less on?**

parking, roads, anything that encourages cars and trucks rather than trains and buses and bikes and walking

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

Future population is unknown

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

Im not a money man

**#9843**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Future is unknown, etc.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Never a borrower or lender be

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

In a sensible world there would be far more coastal shipping going on, so the port landscape would change a lot.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

coastal shipping ! bring it on.

**5b. What option do you prefer for Bledisloe Terminal?**

#9843

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

see above.

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. **Tell us why**

Rubbish bins can be useful , but they can be a mess. I don't know.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Bring back the trams! Im not joking. Cars are terrible.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	
Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

So many people don't use the organic bin so why do they need to pay for them, those who want them so pay for them. Extra plastic bins given to those who don't use them are also not environmentally friendly

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9868**

Stop wasting money on unnecessary road projects like speed bumps, breaking and redoing footpaths and pedestrian crossings, unnecessary cycle ways that no one uses or not used by many, stop wasting money on things that don't need to be done then redo them

## **2. What do you think of the transport proposal?**

Don't support any of the proposal

### **Tell us why:**

Public transport is terrible - first work on making the rail network etc workable in all types of weather - basics first then plan for more

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

Already there are white elephants with unused cycle ways etc don't spend on things vocal minority wants

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### **Tell us why:**

#9868

You are not fund managers and have no expertise in fund management. You have asked fund managers for their opinion - of course they will tell you it's good as they will make money from this not Aucklanders. Those fund managers will buy airport, port etc shares anyway so it's very foolish to liquidate all the assets the city owns - and it is also for future Aucklanders too not just up to this council to decide

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

There is no benefit as goods will cost more as prices for shipments will increase. Profits will go overseas and thus can be seen in Melbourne and Sydney where container costs have risen substantially. Essentially liquidating this important asset is a very foolish idea and short sighted - there will be no benefit long term due to increased costs and no contribution to council funds from port operations

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Funding council services is needed and working

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The Future Fund will not work and will just benefit fund managers and their companies  
Port and lane should remain part of council for all Aucklanders  
Creating apartments on port land is not opening up land for all Aucklanders only for select few

#9868

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Goods will cost more as we won't have space for all imports and exports in Auckland

Already cost of living is so high so increased transport costs will be passed on to consumers

Limited use of who can use proposed apartments so does not benefit all Auck

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Goods will cost more as we won't have space for all imports and exports in Auckland

Already cost of living is so high so increased transport costs will be passed on to consumers

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount</p>	<p>Support</p>

#9868

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools</b> .	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Do not support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

#9868

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Puketāpapa

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important

#9868

Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

Rubbish bin free parks are not a good idea as people will just throw rubbish in the park and nearby streets so who will clean that mess??

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**Puketāpapa Local Board Priorities**

**7b. What do you think of our proposed priorities for Puketāpapa in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Invest in opportunities to support local community leadership.	Fairly Important
Invest in climate change response initiatives and support volunteer groups working on local environmental restoration / protection and climate action programmes.	Fairly Important
Consider our investment in facilities and services to see if there are opportunities to do better.	Fairly Important
Support initiatives that improve and encourage walking and cycling opportunities.	Not Important
Help coordinate and support local business groups.	Fairly Important

**Tell us why**

**#9868**

People are not using cycle ways so don't spend more money when you can spend on more needed things

**7c. What do you think of the Puketāpapa proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Do not sell or lease Port or Port land there is no justification and the idea is poorly thought through

Do not sell more council assets

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9870**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Cities don't work with everyone in their cars. We have to reduce car useage for the climate and humanity's sake

**2a. Is there anything you would spend more on?**

Public transport that enables people to move freely around the city

**2b. Is there anything you would spend less on?**

Building roads, discouraging car usage

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

Keep all our shares and further increase rates/debt

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9870**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

We have to plan for the long term not short term profits

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#9870

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. #9870

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#9870

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

Connecting and growing communities face to face is vital for people's lives. For instance I attend a pre school music group locally where we can sing and interact together. This lets parents enjoy their children and make friends/get support. Really important in this age with the growth of technology. It's funded by the local board which mean there's no barriers to attend. We love it!

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

I agree with it. I support anything that reduces plastic use - recycling is not the answer. Keeping local groups operating reduces car use and encourages public transport and bikes and walking.

**8. Do you have any other comments?**

I think that Auckland Council has to look beyond the short term and at the long term for future people. We have a climate emergency and are not taking enough action

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

climate resilience is critical and must be funded

remove key rail crossings that will significantly hold up traffic after CRL is commissioned.

**#9871**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

definitely don't build the East West link

don't asset strip our community

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Don't support the time of use pricing scheme. Commuters are already paying significantly more in time and fuel at peak times. If they could switch they would - a TOU scheme wont work.

**2a. Is there anything you would spend more on?**

support alternative modes of transport other than cars

**2b. Is there anything you would spend less on?**

extend maintenance periods for urban road renewals.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#9871**

**Tell us why:**

don't sell, or long term lease, our community assets or lock out Aucklanders' ability to access them particularly parts of POA.

"selling tomorrow to fund today" says it all.

"professionally managed trust" don't make me laugh. Why do we think that combining them in one organization will generate greater returns than if they are operated separately as currently?

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

see above

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

financial return from POAL helps to diversify Council income and helps reduce rate increases

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#9871

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Concern for microplastics in environment

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9886**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Want free buses and cycleways to make cycling safer

**2a. Is there anything you would spend more on?**

Cycleways

Free buses to make more available and more regular

**2b. Is there anything you would spend less on?**

Roads

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Keep the resource but rejig to make more useful to local community

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Don't relinquish the city assets. Bad move

**#9886**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The port has increased dividends to the council .

Against selling our assets even if it is retaining the land.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Would like to see coastal shipping and freight movement on rail.

Had high hopes for the development of rail to the north port.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Open up to more public use

**5b. What option do you prefer for Bledisloe Terminal?**

#9886

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

If port stays where it is needs area for port operations

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers	Very Important
-----------------------------------------------------------------------------------------------------------------------------	----------------

#9886

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

No bins sees an increase in dumping. Doesn't improve behaviour generally.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Do not agree with removing bins

**8. Do you have any other comments?**

Why does point Chevalier beach / Coyle park have no drinking taps. All parks and walkways should have water taps not just for pets.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improve universal accessibility for disabled people.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9895**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

We need reliable free and frequent public transport to make it easier to get around and to protect our environment.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

I think we should keep assets in council hands.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9895**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Keep council's assets as part of a long term plan and in the short term increase rates and debt.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Council services should be the main focus.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

So that the council would provide benefits for everyone through the use of its land

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#9895

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	
<p>Re-introduce <b>recycling charges for schools.</b></p>	
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide</p>	

#9895

increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting	Very Important

volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

**Tell us why**

Community groups and the environment are very important priorities.

I'm not sure what the impact of removing rubbish bins from parks will be.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

A good mixture of priorities. I support putting people and the natural environment ahead of profit.

**8. Do you have any other comments?**

I support investment in services not selling off assets.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Eke Panuku’s redevelopment of town centres, which often includes making safe walking and cycling connections, as well as improving access for disabled people.

Improvements aligned with the Central Rail Link like the Karanga-a-hape station improvements project, which includes a protected cycleway along part of Pitt street, a pedestrian mall in Mercury Lane, and could include improvements for Canada Street

**#9900**

The Making Space for Water programme's inclusion of "blue-green corridors". These are walking and cycling paths through greenspaces and alongside streams, adding to our walking, cycling network while also creating a natural drainage area.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Auckland Council's commitment to the Transport Emissions Reduction Pathway, and Te Tāruke-ā-Tāwhiri, Auckland's Climate Plan. Including allocating a lane of the harbour bridge for walking and cycling.

More on public transport making it more frequent and reliable, if possible cheaper.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**#9900**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

#9900

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Concentrate on core services / rubbish/ parks / library and forget expensive”nice to have like lights and sculptures in federal lane and countless speed bumps . Fix road service College hill .. embarrassing.. better roads in Vanu Levu

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9902**

Speed bumps

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Potholes/ sewerage

**2b. Is there anything you would spend less on?**

Bike lanes and speed bumps .. Expensive council vehicles and exorbitant salons for over bloated beaucracy

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

No good .. get trains or buses there

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Keep assetts

**#9902**

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

More rail less trucks

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The council is mismanaged

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

City needs facilities

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#9902

No public use atm

Local Board: Albert-Eden

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I do not support either of the predetermined options ('other').

The three options (central, more, & less) proposed in the consultation are not the only options, the same goes for the corresponding rates rises. For example, we could get much-needed investment in transport services and climate resilience, as stated under the 'pay more get more' option, with a rate rise of less than 14% in year one. There are

**#9924**

other areas where savings could be made which are not interdependent. The 'overall direction' oversimplifies very complex decisions.

We must prioritise looking after our people and planet by investing in the things that provide us with life's essentials, such as fresh air, clean drinking water, hazard resilient landscapes and basic needs, like accessible transport and a sustainable waste network.

Where I'd like Auckland Council to do/spend more

Public Transport - Ensure public transport is affordable, accessible, and reliable, prioritising investment in public transport infrastructure over road spending.

Active Transport - Urgently transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Water Quality - Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Environment and Regulation - Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

As well as the options provided in the structured consultation, I would also like the Council to do more of the following:

Protecting and working with communities by continuing to prioritise the funding and delivery of Making Space for Water in partnership with Central Government.

Ensuring adequate support for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly programme, the Communities in Need programme, and supporting work on Council land and marae. This can be achieved by re-establishing pre-2023/2024 budget funding for these areas.

Supporting frontline, volunteer powered communities by ensuring local boards are adequately funded and grants are available. Grants and investment into community-led services provide great value to Aucklanders. For every dollar that Council invests we get back many more volunteer hours.

Supporting moves to a circular economy and zero waste, ensuring waste materials are seen as resources to be reused, repaired, repurposed and recycled, and are diverted from landfill.

#9924

Lowering emissions by becoming a leader in localised renewable energy generation by enabling local integrated energy solutions to support community owned energy groups.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Expanding lanes

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

I want Auckland Council to spend more on ensuring public transport is affordable, accessible, and reliable.

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. We need to get people out of private cars, into buses, trains and ferries and onto cycleways. Failing to understand and action this will result in a continuation of over investment in roading projects and underinvestment in the public and active transport networks. The evidence is there and the evidence is clear.

Regarding the Mayoral proposal, I am encouraged to see initiatives to make public transport more accessible, such as the \$50 weekly cap and introduction of diverse payment options. Another positive is the work programmes which look to improve public transport services, such as network optimisation, expansion of the electric train fleet and completion of the City Rail Link. Unfortunately, alongside these positives, there are some concerns. A couple of examples are; the removal of 'low performing' bus services, and the several references to roading focused projects.

As well as continuing to invest and improve our public transport network, it is essential that the Council urgently supports the transition towards low emissions communities by

**#9924**

prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Cutting “low-value initiatives, including raised pedestrian crossings and expensive gold-plated cycleways” is an ideological move that fails to align with the Council's own Transport Emissions Reduction Pathway. In monetary terms, this means cutting funding for cycleways by \$141.5 million. This makes no sense as we know increasing funding for active transport infrastructure is a smart investment that can benefit the economy, the environment, and public health. Cycling is a low-cost, low-carbon and low-impact mode of transport that can reduce congestion, pollution, and greenhouse gas emissions. Cycling also promotes daily, incidental physical activity, mental wellbeing and social inclusion. By improving the safety, accessibility and attractiveness of walking and cycling, more people will be encouraged to choose it as a regular means of travel, creating a virtuous cycle of benefits. This approach also creates better use of existing roading assets by making space for those who cannot choose cycling, walking or public transport.

## **2a. Is there anything you would spend more on?**

completing the Downtown and Midtown Bus improvements

more cycleway and walking connections

safety projects around schools and town centres.

better funding for maintaining, expanding and promoting the public transport network, including to more remote areas

rolling out electric ferries and more low-emission buses, plus supporting infrastructure

the Lincoln Road and New North Road corridor upgrades

greater investment in rail: rolling stock, and more support for ongoing Kiwi Rail track maintenance

Street trees and rain gardens

## **2b. Is there anything you would spend less on?**

We think there are areas where council could spend less. For example, instead of expensive and unnecessary widening of already wide roads like Te Irirangi Drive, we could use existing space for bus lanes and active modes. The Eastern Busway could be rescoped to use the existing road corridor and still have room for a cycleway and footpath. The excess land could then be used for housing.

**#9924**

We also do not support the full expansion of the 'unsealed roads' programme.

### **3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

#### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport shares are a strategic asset that has paid good dividends in the past and will again in the future. We are also concerned that the fund would be whittled down in time in a reactive way rather than being used strategically to transition to a low-carbon and resilient economy, and city.

There are currently no ethical parameters for the Future Fund, so it might invest in companies that exacerbate the climate issues that the fund is designed to address. Investing in a non-ethical fund may jeopardise council's access to low-cost infrastructure loans via Green Bonds.

#### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Leasing the port would privatise it for a generation or longer. We would lose control over a key part of our waterfront and the income from its profits (\$52M last year). The proposal may also lead to worse outcomes for workers, and higher costs for New

**#9924**

Zealand businesses and consumers. We are concerned also that there will not be sufficient maintenance and modernisation in the latter years of the lease, meaning Aucklanders would have to bear these costs.

Our concerns over the Future Fund (as in 4a).

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Port dividends have always been used to fund council services and we do not support a reduction in services when the population is getting larger and the challenges are getting greater.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

It will open up more of the waterfront space for public enjoyment and events. Cruise ships could be relocated from Queen's Wharf, meaning less impact on ferries and a more enjoyable space.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#9924

**Tell us why:**

It would be hugely expensive and environmentally damaging to move port operations from Bledisloe Wharf, and the port would be less able to return a dividend to council.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	I don't know
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support

#9924

Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Section 7: Local board priorities

In this section tell your local board what you think of their proposed priorities for the 10-year budget 2024-2034. City Vision elected representatives share here what they want to achieve for their local areas.

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

#9924

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	I don't know
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I’d like Auckland Council to spend more on:

Public Transport - it should be affordable, accessible, and reliable, and council should be prioritising investment in public transport infrastructure over road spending as part of future-proofing.

**#9925**

Active Transport - Urgently transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Water Quality - Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Environment and Regulation - Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

As well as the options provided in the structured consultation, I would also like the Council to do more of the following:

Protecting and working with communities by continuing to prioritise the funding and delivery of Making Space for Water in partnership with Central Government.

Ensuring adequate support for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly programme, the Communities in Need programme, and supporting work on Council land and marae. This can be achieved by re-establishing pre-2023/2024 budget funding for these areas.

Supporting frontline, volunteer powered communities by ensuring local boards are adequately funded and grants are available. Grants and investment into community-led services provide great value to Aucklanders. For every dollar that Council invests we get back many more volunteer hours.

Supporting moves to a circular economy and zero waste, ensuring waste materials are seen as resources to be reused, repaired, repurposed and recycled, and are diverted from landfill.

Lowering emissions by becoming a leader in localised renewable energy generation by enabling local integrated energy solutions to support community owned energy groups.

Increased resources for Māori-led projects

-Climate action, such as low emission public transport, walking and cycling infrastructure, urban ngahere, food gardens etc.

-We are living in a critical window of time that could hugely influence the future. Let's do all we can to support Auckland being liveable for our children, their children, and their children after them.

-More public exercise facilities and outdoor space

#9925

- More support and funding for Arts, libraries, cultural spaces and activities, and recreation sites: the arts, cultural, and creative community are important for Auckland, as bringing people to the city not only helps the economy, but also safety, social cohesion, making our city more inclusive and welcoming, helping us to attract and retain new residents and industry, boost the local economy, create jobs, and make the city more prosperous.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Spend less on enabling housing at the edge of the city where there is no infrastructure to support that development - We need a compact city to grow a strong economy with better services for residents that won't be non-resilient in the face of climate change.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I do not fully support this plan as it does not include investment and commitment to a surface light rail rapid transit network. Any work on a busway in the North-Western corridor should be future-proofed for SLR and there should be commitment to surface light rail along the City Centre to Mangere corridor, starting with a City Centre to Mt Roskill line. I worry without this we will not be able to address Auckland's congestion issues as projected growth in these corridors would require higher capacity transport modes, like SLR.

I also support:

completing the City Rail Link

improving bus, rail and ferry networks for more reliable service

funding new cycleways and shared paths so that more people have access to the network

delivering new and improved footpaths across Auckland, particularly in the city centre.

"Time of use" charging

a "room to move" programme to review parking in critical areas and increase revenue from parking and Park & Rides.

**#9925**

50% electrified buses by 2030

expanding the rapid transport network (RTN)

a weekly \$50 cap on public transport fares

However, the proposal cuts some bus routes, reduces funding for safe walking and cycling, and does not do enough to reduce emissions. Less uptake of walking, cycling and public transport will mean a transport system that functions worse for everyone. I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

I want Auckland Council to spend more on ensuring public transport is affordable, accessible, and reliable. I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. We need to get people out of private cars, into buses, trains and ferries and onto cycleways. Failing to understand and action this will result in a continuation of over investment in roading projects and underinvestment in the public and active transport networks. The evidence is there and the evidence is clear.

## **2a. Is there anything you would spend more on?**

completing the Downtown and Midtown Bus improvements

more cycleway and walking connections

safety projects around schools and town centres.

rolling out electric ferries and more low-emission buses, plus supporting infrastructure

greater investment in rail: rolling stock, and more support for ongoing Kiwi Rail track maintenance

Street trees and rain gardens

## **2b. Is there anything you would spend less on?**

We think there are areas where council could spend less. For example, instead of expensive and unnecessary widening of already wide roads like Te Irirangi Drive, we could use existing space for bus lanes and active modes. The Eastern Busway could

**#9925**

be rescoped to use the existing road corridor and still have room for a cycleway and footpath. The excess land could then be used for housing.

We also do not support the full expansion of the 'unsealed roads' programme.

### **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

#### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The airport shares are a strategic asset that has paid good dividends in the past and will again in the future. We are also concerned that the fund would be whittled down in time in a reactive way rather than being used strategically to transition to a low-carbon and resilient economy, and city.

There are currently no ethical parameters for the Future Fund, so it might invest in companies that exacerbate the climate issues that the fund is designed to address. Investing in a non-ethical fund may jeopardise council's access to low-cost infrastructure loans via Green Bonds.

#### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**#9925**

Leasing the port would privatise it for a generation or longer. We would lose control over a key part of our waterfront and the income from its profits (\$52M last year). The proposal may also lead to worse outcomes for workers, and higher costs for New Zealand businesses and consumers. We are concerned also that there will not be sufficient maintenance and modernisation in the latter years of the lease, meaning Aucklanders would have to bear these costs.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Port dividends have always been used to fund council services and we do not support a reduction in services when the population is getting larger and the challenges are getting greater.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Include the proposal for self-insurance and implementation options for the Future Fund and possible changes to the council's shareholding in Port of Auckland Limited and to the ownership of the port land.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

It will open up the waterfront space for public enjoyment and events which will bring money to council long-term. Cruise ships could be relocated from Queen's Wharf, meaning less impact on ferries and a more enjoyable space.

#9925

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

It would be expensive and environmentally harmful to move port operations from Bledisloe Wharf and the port would be less able to return money to council.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support

#9925

Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Albert-Eden

## Albert-Eden Local Board Priorities

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

#9925

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

**Tell us why**

Fairer funding for local boards, as proposed in the LTP, will give the board the first opportunity in a decade to deliver more of what is needed for the local community and environment - Over the next 10 years we must cater for our growing population. the board should deliver new parks (for instance, in the Carrington development, which will have over 6,000 new homes), build a new library/community centre in Pt Chevalier (noting the current library is leaking and so is closed), repair our buildings and repair our flood-damaged parks, support volunteers, those working in our environment, Māori priorities, the CAB, the arts, events and to push for better public transport, town centre environments and walking and cycling.

**#9925**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

I would rather the council pay a little now than pay a lot later for the consequences of climate inaction. I want a strong partnership between Auckland Transport, Auckland Council and central government so that funding can be used most effectively to serve Aucklanders in a future-proofed, thoughtful way.

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Our city needs the Council and Government to get on with Surface Light Rail. The route from City, through Mt Roskill, to the airport, will serve a range of communities with commuting and other travel needs, and reducing reliance on private motor vehicles.

**#9928**

Additionally, I support Auckland controlling its own transport priorities. An “Auckland Deal” provides the means for central government to support Auckland Council’s priorities, rather than the other way around. A surface light rail network would provide opportunities for growth, development, and productivity in the city. I believe this should be included in the “Auckland Deal” with central government. I urge Auckland Council and the Mayor to make the development of a surface light rail network, starting with the City Centre to Mt Roskill line, a priority in such a deal.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I wish this proposal included surface light rail as a necessary part of Auckland's transport mix.

**2a. Is there anything you would spend more on?**

Seriously, light rail, trams, any mass transit that gets people out of their private motor vehicles and dependence on fossil fuels.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

We have a new soccer franchise in Auckland, and growing appetite for various sports and cultural activities. With the right management and community engagement this stadium could be a great feature for the northern communities in auckland.

#9928

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

In its current form this does not prioritise the fundamental importance of the environment and societal work that needs doing.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

The port of auckland needs to be moved to a space that a) will allow for the recovery of the local environment of the waitemata, b) get the traffic off the roads of auckland and onto an efficient and green RAIL network.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

The port of auckland needs to be moved to a space that a) will allow for the recovery of the local environment of the waitemata, b) get the traffic off the roads of auckland and onto an efficient and green RAIL network.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The Future Fund feels like a cop out, a way to absolve responsibility for doing the right thing regarding the climate and community. Fund managers will be fiscally

#9928

conservative and not do what is actually required to take the right action on climate change and developing auckland to the benefit of the people of auckland.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#9940**

I don't know

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

#9940

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount</p>	<p>Support</p>

#9940

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I want Auckland to have surface light rail. Auckland is probably one of the only cities in the world of that size without a mass public transit system. As such I support further investment into Surface Light Rail.

This is the order that I'd like Auckland Council to support Surface Light Rail:

#9943

1- A first segment from the City Centre to Mt Roskill

2- Expansion to Onehunga, Mangere and other transport corridors such as the Northwestern and Northern Corridor.

Any busway development along the NW corridor should take into account surface light rail so that busways stay relevant.

We need more than just busways to address our growing congestion issues and Surface Light Rail is one of the solutions.

I want the so-called "Auckland deal" to include finance options for Surface Light Rail. As the biggest city in New Zealand, Auckland is doing the heavy lifting by taking the lion's share of immigration pressure. It's only fair that Central Government contributes so that Auckland is able to cope with infrastructure constraints.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

I want Auckland Council to build less roads for cars. Congestion is one of the main problems in Auckland and building more roads for cars makes it worse. Induced demand is a phenomenon whereby building more roads incentivises more traffic on these new roads, thereby cancelling the gains obtained by increasing road capacity. We have been increasing road capacity for decades. It is time to reverse that by investing in public transport and active transport.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I support the first two proposals. We need more efficient public transport to tackle congestion and future-proof Auckland. However, we also need PERMANENT bus lanes as seen in all first-world cities to induce people to actually use public transport.

Our transport is way too expensive compared to the service it provides. Auckland needs to massively invest in its public transport to give its people real choice. Right now, driving is more convenient and cheaper than taking public transport. Why use it?

Also, I don't support stopping raised pedestrian crossings and additional cycleways. Raised pedestrian crossings save lives. They enable parents to trust that their kids won't get run over by cars when crossing the street, and this enables kids to be more independent rather than being driven everywhere by their parents. Consequently this

#9943

saves time and money for the parents who do not have to be a personal taxi for their kids as much and reduces congestion. Pedestrian crossings are a win-win for everyone involved.

As for cycleways, they're a very cheap way to reduce congestion when they're done efficiently by being connected to other cycling routes. I support more cycleways installed in Auckland.

**2a. Is there anything you would spend more on?**

I would spend more on getting permanent bus lanes, pedestrian crossings and cycleways.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Auckland should keep its shares in Auckland Airport. This is a major piece of infrastructure that is vital for the city.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9943**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Ports of Auckland is a crucial asset for Auckland Council. I do not support leasing POAL because a private actor would have a bad effect on the city - by increasing port rates and reducing employment opportunities for port workers.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I don't support creating the Auckland Future Fund. I think Auckland needs to invest now to catch up to the decades of lack of investment. A fund does not solve this problem.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#9943

Tell us why:

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. # Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Significantly reduce the number of staff who are paid more that \$150,000 per annum.

**#9948**

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Because the trains in Auckland have never consistently run on time and that needs to be fixed before vast amounts of money are spent on even more grandiose schemes. I support more dedicated bus lanes and flexing school hours so that schools start at different times.

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Speed bumps, fancy road marking, cycle lanes.

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

Choose the option that results in the lowest ongoing cost for ratepayers.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#9948**

Because any investment should be diversified to spread the risk. If Council has investment assets they should be diversified and held in two or three ETFs as long as the long term returns from those investments exceed the long term savings from paying back Council debt.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Council should not be in the business of operating a port and since moving the port seems to be a dead duck, leasing it is the next best option.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Investing in the Auckland Future Fund adds an extra layer of risk that rates may have to be increased to meet shortfalls in the investment returns from the Auckland Future Fund.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

#9948

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Not Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

**Tell us why**

The work of my Local Board makes absolutely no difference to me or my family and I would happily see it abolished.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Irrelevant waste of money.

**#9948**

8. Do you have any other comments?

# Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

## Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9952**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Cycle ways

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

I don't agree with selling down City assets

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#9952

Tell us here:

Australian experience off-putting and most PPPs

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Support

#9952

around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025,	Support

#9952

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

### Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#9952

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public Transport! Cycle-ways! Climate action! More raised pedestrian crossings!

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9971**

I don't think we need as many ward councillors and local board members as we have.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

I support initiatives to improve public transport. I don't agree with the proposal stopping cycleways and raised pedestrian crossing projects. We need more facilities for pedestrians and cyclists, not less! I'm not sure about network optimisation. I do agree with time of use charging!

### **2a. Is there anything you would spend more on?**

Cycleways. Time of Use Charging. Public transport. Pedestrian infrastructure.

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

I don't know

### **Tell us why:**

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

### **Tell us why:**

## **4b. Which option do you prefer for the future of Port of Auckland?**

**#9971**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Leasing the port seems like privatisation to me!

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

I agree with the Mayor's vision for a beautiful waterfront that is optimised for the benefit of the public.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#9971

I agree with the Mayor's vision for a beautiful waterfront that is optimised for the benefit of the public.
