Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Anything that will help the environment. Cycle ways please

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#9979

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

The cycleways in particular are very important to me

2a. Is there anything you would spend more on?

Cycle ways

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#9979

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Expensive and more important things to focus on now

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Support

#9979

around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025,	Support

#9979

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#9979

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase funding for cycleways and for public transport infrastructure.

There must be alternatives to car use especially as the city grows.

#9989

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No new roads

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Reducing expenditure on cycleways is counterproductive.

The same applies to cuts in funding for public transport infrastructure.

The new north-western NX1 bus route is under pressure at peak times and more capacity is needed at the Te Atatu interchange

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#9989

Auckland City should not divest from its shares in the Airport. The asset is for future generations and should not be sold.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

It is a valuable asset and should be retained in public ownership.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I do not support the Future Fund concept. I believe that Auckland City should consider making greater use of its ability to use debt.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

#9989

Tell us why:

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I want more reallocation of road space for public transit and cycle lanes.

I want a greater focus on climate change and biodiversity crises in our city. Methods to prevent sedimentation into our harbours. Within waste management, there should be a strong focus on refrigerants which cause extremely high CO2 emissions

#9996

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I want fewer road expansion projects. Instead road projects should only proceed if they are for safety improvements or reprioritisation of general vehicle lanes into public transport lanes.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I support a do more approach on transport.

2a. Is there anything you would spend more on?

Spend more on public transport according to their emissions reduction potential.

Therefore spend much more on electrifying ferries which have a very high emissions. Further, public transport 'mega' projects that reduce emissions should be prioritised.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#9996

Tell us why:

I don't want public assets to be privatised.

I prefer the revenues from the assets to be returned directly to council.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

35 year lease seems too long.

I don't support short term gains at long term expense and there is no way that a company taking the lease of the port will take on that lease if they didn't stand to make more than 2.1 billion

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I don't hate the proposal for self insurance but I don't want it established off the back of asset sales. Instead, council should set aside around 100 million dollars per year for 10 years to establish this fund.

5a. What option do you prefer for Captain Cook and Marsden wharves?

#9996

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

That area is close to downtown and could be developed to increase Auckland's amenities.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

This area is further away from downtown and is less important to develop in my opinion.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

A functional bus service from central suburbs to the airport, the traffic on 20A everyday is horrendous and no bus option. Stop focussing on only the south connection, tourists and workers need more options. you cant pretend to be serious about the environment or transport if this doesnt get put in place. Busses would be full for about 2 hours each peak and the tourists would partially fill in during the day.

#9997

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Ferry decarbonisation etc, we are too small to make an impact, with the cost of living this seems insane to prioritise.

Reduce service hours rather than cut them or reduce OPEX. The example of buy less books & shut the slowest day rather than threaten to shut the library as the only option

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I think cycling is over represented, it isnt convenient if you want to go other places than work to home & the exercise aspect means another set of clothes and end of trip facilities a lot of workplaces do not have. The lift in numbers compared to last year that AT advertise is a joke - return to office policies have been implemented so people are back by default not choice. Id rather better bus connections and reliability so you can plan to do things after work without resorting to going home for the car.

2a. Is there anything you would spend more on?

Busses to reduce peak traffic on motorways.

2b. Is there anything you would spend less on?

Cycling lanes and installing paid parking in areas people live and work from home. There is limited off street parking in fringe and inner city Auckland residential areas due to the older pre garage house ages, and newer builds no longer require off street parking. It is not realistic to assume everyone can park off street or have to take their car to work to avoid paying outside their house

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

#9997

Tell us why:

It is not easily accessible, funds should be better spent on central entertainment stadiums that are connected by public transport and host bigger events.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

It feels we are limiting the future income stream by removing future dividends. This will move pressure to the future, it seems odd to not have a % allocated to remain as a diversified investment with the future of global connection ahead of us largely by air.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I don't think the council is the right entity to own and operate a port, a lease could be set up with a set profit share about a certain amount with the incoming tenant, i.e. a baseline income achieved, once they reach 20% higher than this, the above profit is split 50:50 with Council. See hotel ownership and management structures such as Chch Novotel - CIAL - Council entity. Numbers to suit the industry of course.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

#9997

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

no idea what it does now. keep operational if serves a key purpose to sell the lease.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. Working with the community on activations in the Mt Albert Civic Square.	Fairly Important

#9997

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

Fairly Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Would like to focus on harmonious living - community feedback for bars and noise should be able to occur throughout liquor licencing more regularly when there have been so many complaints over a period of months or if police have visited the bar due to complaints. Rubbish collection should not be allowed earlier than 6am in mixed use areas, I have skip bins including glass being emptied 5 days a week with only one nice rubbish man coming after 6am. the rest are between 2-5am.

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport development, making public transport free. More cycle paths.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#9998

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I think we should keep focusing on building cycle lanes and pedestrian crossings.

2a. Is there anything you would spend more on?

Cycle lanes, secure parking for bikes

2b. Is there anything you would spend less on?

Road developments

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

As I understand it, keeping the airport shares means more revenue for Auckland in the long term.

4b. Which option do you prefer for the future of Port of Auckland?

#9998

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I think with any money-making measure we need to keep in mind the long term and not just focus on immediate cash flow.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

As I understand it, keeping things as they are would reduce the need for transport of goods into Auckland from a port outside of Auckland, and we need to reduce emissions wherever we can.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#9998

same reason

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide	

#9998

increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting	Very Important

#9998

volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

Tell us why

Is there evidence to support the idea that no bins in park would reduce waste and improve environmental outcomes? If not, I am against the measure.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Climate resilience and environmental protections are critical.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#9999

I love the rubbish options. Pay less to dispose of less.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I support prioritising public transport and cycling/pedestrian options and safety.

2a. Is there anything you would spend more on?

Prioritising public transport and cycling/pedestrian options and safety

2b. Is there anything you would spend less on?

Bigger Wider Faster roads.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Good use of public money considering the service need/provision in the area.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

I haven't understood enough about this to know why it's a better idea than the AIAL and Port shares etc.

#9999

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

I haven't read enough to persuade/inform me either way.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

I haven't read enough to persuade/inform me either way.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No thank you.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

I like the idea of more public access to the waterfront near the centre of the city, but \$110m plus upgrade/redevelopment costs seems high. Eke Panuku have a great track record for transforming the waterfront so I'm confident they would do a good job.

5b. What option do you prefer for Bledisloe Terminal?

#9999

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

The cost benefit doesn't seem to stack up for changing it, unless there was a more wholistic proposal for transforming the port operations.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

The outcomes achieved under the NETR is critical as is WTQR. I can't see how charging schools to recycle is a great idea. I'm on the fence re rubbish collections - I support a consistent approach over Tāmaki Makaurau, but I also support pay as you throw. The proposed changes to rubbish collections (fortnightly landfill collections) may help with this. I like TCDC's way which is pay as you throw for landfill, but recycling and foodscraps being a weekly (or fortnightly) collection as part of your rates. Really I would support anything aimed at reducing packaging/businesses waste, encouraging circular economy and conscious consumerism.

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

#9999

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important

Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

Environment is your bullet points 1 and 2 respectively in the LTP consultation doc, but by far the least funded. Unless environmental services are something different? And I

#9999

support the bin-free idea, but it will need a lot of targeted and active comms around it. I think it's a better idea than just reducing the numbers, which is confusing and just leads to people leaving things on and around the remaining bins.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Love them. Have we thought about also supporting wilding areas of local parks/reserves and potentially supporting rongoā planting in them? BTW SPiCE do an awesome job in Sandringham.

8. Do you have any other comments?

Fairer funding is critical. I'm mortified we've been perpetuating inequality for so long. Thanks for looking to fix this - if slowly.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Please continue the support of environmental and pest control programmes

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10022

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Cycleways and network optimisation work for keeping cars off the road. Love the idea for capped public transport

2a. Is there anything you would spend more on?

cycleways

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

#10022

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Managing and replacing infrastructure

Watch budgets more carefully and avoid cost overruns as there seem to be a lot of these

#10030

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Public transport to some of the blank spots; advertising of public transport

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Consider redeveloping the stadium precinct but keep the cost low, not high. Encourage more use of the stadium precinct by not charging too much for use

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I think it's a good idea to sell the airport shares. I think the airport management is starting to overreach itself and I won't be surprised if I see it go bust in the coming years.

#10030

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

I think a lease of 35 years to an unknown, unnamed enterprise is far too long.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#10030

Tell us why:

6a. What do you think of these proposals?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Infrastructure and paying down debt.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less 'green' hand waving and cultural wokeness.

#10043

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Myopic focus on public transport is not practical for anything outside peak rush hour support. Build infrastructure in new developments BEFORE the development is done and that will spread and draw people towards public transport.

Example: A 20 min car journey in the morning would take about 90 mins by 2x trains and a bus.... And services are every hour after 6:30pm.....

2a. Is there anything you would spend more on?

Mainline public transport routes between Hamilton and Warkworth and West to City.

2b. Is there anything you would spend less on?

Bike lanes and parking removal

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Would prefer to have a premier sports stadium available with solid public transport, rather than trying to support multiple locations partially.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#10043

Tell us why:

Airport shares are a longterm strategic asset that should be held by the council / dividend to support ratepayers.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Move the port out of the center of Auckland and develop / lease the space as a long term strategic source of community hub and revenue.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

#10043

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing	Support

#10043

the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers	Fairly Important
---	------------------

#10043

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Transport and parking solutions for residents.

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Every time I fill out a questionnaire, I feel like it's just a formality and I don't really put a lot of thought into it.

#10062

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

I feel the cost will be high

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10063

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Cycle lanes and raised pedestrian paths seem like a sensible and appropriate response to 1) congestion on roads and more significantly 2) the major issue of our lifetime; climate change. The initial investment is well worth it, in my opinion.

2a. Is there anything you would spend more on?

See above

2b. Is there anything you would spend less on?

See above

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

the AFF seems like a good idea, however the privatisation of currently owned assets such as the share of the airport seems like a poor choice. Why not instead privatise golf courses, if such measures are necessary in order to achieve the aims of the AFF

#10063

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

It seems to me that there are other way which the council could source the required capital. Road tolls? Higher rates of lease for those already making use of the port?

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#10063

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More protected cycle ways and a bettering public transport over roading or car oriented transport

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10082

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

1. I do not support reducing funding for Kiwirail upgrades and maintenance,
2. I do not support reducing public transport funding for growth areas.

2a. Is there anything you would spend more on?

Public transport

2b. Is there anything you would spend less on?

Transportation that prioritises cars at the expense of public transport networks

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Keeping public assets wholly publicly owned is in my opinion the best long term investment

#10082

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#10082

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

I live in Mt Albert and don't know what the Mt Albert Civic Square is, nor could I find any information about it in a quick Google search.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#10091

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

#10091

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Other</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate</p>	<p>Support</p>

#10091

from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Other
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Other
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Other
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Other

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

#10091

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important

#10091

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

Fairly Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland Council declared a climate emergency. Much faster action and climate adaptation needs to occur. Delays come at a cost.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10128

We need less pollution and emissions. Good design helps with this.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

We need to cut emissions in the transport sector. Cheaper public transport is a must.

2a. Is there anything you would spend more on?

Public transport and cycleways.

2b. Is there anything you would spend less on?

Motorways.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

I don't have a strong opinion on this issue.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Better advice from the climate commission and Auckland Council climate advisors is needed. The proposal lacks detail.

#10128

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Also consult with Ngāti Whātua. Climate adaptation should be a consideration alongside other factors.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

A climate fund is needed. Future fund proposal is lacking in detail.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Consult with Maritime Union and Ngāti Whātua. Long term plan is needed for Port and Waterfront. No need for a rushed decision.

5b. What option do you prefer for Bledisloe Terminal?

#10128

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Deeper consultation and planning is needed.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Henderson-Massey, Māngere-Ōtāhuhu, Whau

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers	Very Important
---	----------------

#10128

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

Pt Chev library decision needs to be made soon. As Well as plan for Pt Chev town centre.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

More tree planting needs to happen. Generally I support the priorities.

Henderson-Massey Local Board Priorities

7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?

#10128

Very Important

More specifically, what do you think of each priority we've listed above?

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	Very Important
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	Very Important
Our Community – ensure the maintenance and development of 'fit for purpose' local services and spaces meet the needs of our diverse communities.	Very Important
Our Places – support initiatives that improve walking and cycling opportunities.	Very Important
Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.	

Tell us why

They are good.

7c. What do you think of the Henderson-Massey proposed priorities for the 10-year budget 2024-2034?

Kaipātiki Local Board Priorities

7b. What do you think of our proposed priorities for Kaipātiki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

#10128

Investing in the maintenance and renewal of our parks, playgrounds, recreation facilities, and other public spaces so they continue to meet our communities needs.	
Supporting a community-led approach for the delivery of relevant and diverse services that connect the community	
Supporting environmental groups, community volunteers, and our diverse communities to carry out environmental restoration projects, including stream clean-ups, habitat improvement, native riparian planting, and pest control.	
Begin implementing the Mini Shoreline Adaptation Plan for the Little Shoal Bay / Te Wai Manawa alongside our community to address the issues caused by flooding and seawater inundation.	
Supporting a community climate activation programme to support and amplify community initiatives identified in the Kaipātiki Climate Action Plan.	
Building relationships with local iwi and mataawaka groups so that Kaipātiki is rich with Māori identity and culture.	

Tell us why

7c. What do you think of the Kaipātiki proposed priorities for the 10-year budget 2024-2034?

I support all priorities

#10128

Māngere-Ōtāhuhu Local Board Priorities

7b. What do you think of our proposed priorities for Māngere-Ōtāhuhu in 2024/2025?

Very Important

More specifically, what do you think of each priority we've listed above?

Strengthen partnerships with local mana whenua through project delivery, including Te Kete Rukuruku, completion of David Lange Park playground and improvements.	Very Important
Deliver community climate initiatives such as Low Carbon Lifestyles, and Māngere Bike Hub with our community partners.	Very Important
Deliver a community-driven safety action plan aimed at tackling anti-social behaviour and addressing local safety concerns enhancing the overall sense of safety within our local community.	Very Important
Improve employment and economic opportunities through our local economic broker programme.	Very Important
Support community-led activations at our parks and facilities through our community grants.	Climate adaptation and leadership is needed in Māngere Ōtāhuhu. Kia kaha.

Tell us why

I support them.

7c. What do you think of the Māngere-Ōtāhuhu proposed priorities for the 10-year budget 2024-2034?

#10128

Whau Local Board Priorities

7b. What do you think of our proposed priorities for Whau in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

We will work with our partners to build community capacity, from climate/emergency preparedness and community resilience to increased participation and community capability.	Very Important
We will encourage and support volunteerism and community participation, especially through environmental and ecological initiatives around the Manukau Harbour and foreshore, the Whau River and its tributaries, and our urban ngahere.	Very Important
We will continue to undertake governance-level engagement and collaboration with mana whenua and the other west Auckland local boards.	Very Important
We will work with the local BIDs where possible, to support local economy and to realise shared goals around climate action, community connection and belonging.	Very Important
We will consider accessibility and inclusion across our services, engagement, and other initiatives.	Very Important

Tell us why

This is well thought out.

#10128

7c. What do you think of the Whau proposed priorities for the 10-year budget 2024-2034?

I support them.

8. Do you have any other comments?

I'd like to see more climate resilience. Our waterways need a lot more attention. Auckland Council needs a climate fund.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Separated bike and walking paths to connect around the city.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10161

New roads.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Stopping building bike paths is bone-headed when we are trying to reduce congestion. Every person on a bike is one less person in a car.

2a. Is there anything you would spend more on?

Separated bike paths.

2b. Is there anything you would spend less on?

New roads.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

Keep community fields .

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Move the port. Sell some of the port land for private development, with strict controls.

#10161

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Move the port. Sell some of the port land for private development, with strict controls.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

#10161

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. <p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#10161

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Retain its major assets so that future generations of Aucklanders have a legacy of ownership of critical assets. Whilst this has a cost, once these assets are sold they are lost forever.

#10171

Long term resilience. We can't keep paying for house's damaged by flooding. It is critical we address drainage and increasing porous surfaces across the city. Climate change is going to significantly impact this city we need to be prepared, not reactive but proactive.

Maintenance of and an increase in investment in Auckland's green and blue spaces. Urban forests and coastal restoration.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Restrictions on mown areas in and around parks.

Re-wild green spaces this approach costs less and is good for the environment and biodiversity.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Public transport is critical infrastructural development for this city.

People need to be able to walk and cycle safely around the city. Prioritise accessibility for people not people in cars. It's still relatively cheap, when compared to public transport, to drive your car into the city each Monday to Friday..

2a. Is there anything you would spend more on?

Walking and cycle lanes. Prioritise getting cyclists off the roads, particularly heading into the city centre.

Increasing safety for people who walk or use mobility devices. Footpaths are in a critical state in many areas of the city. Encourage people out of their car's.

2b. Is there anything you would spend less on?

#10171

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

This region of Auckland is growing rapidly future use and greater diversity in the uses and events able to be held in and around the stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Auckland doesn't require a slush fund that can sell off all its major assets without consultation. Keep the assets, think more proactively about the future. Living in cities is expensive.

Lack of infrastructural investment over many years coupled with poor management of rapid growth, as well as a failure to plan for climate change are not excuses for assets stripping Auckland.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The ports make money for Auckland. Focus on good long term port management not short term monetary gain .

#10171

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Keeping the ports open enables flexible city growth and less dependency on trucks to move goods, which increases road congestion and road maintenance costs.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Support

#10171

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Waitematā, Whau

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#10171

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Minimising rubbish bins has been shown to increase dumping of rubbish. A minimum bin policy is preferable.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Overall good

Waitematā Local Board Priorities

7b. What do you think of our proposed priorities for Waitematā in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Deliver a new civic space at 254 Ponsonby Road.	Fairly Important
Complete detailed design of Leys Institute remediation and seismic strengthening, and progress physical works.	Very Important

#10171

Phased delivery of improvements for Heard Park.	Very Important
Deliver services and programmes that support youth activation, leadership, and wellbeing, particularly in Newmarket.	Very Important
Develop programmes that improve perceptions of safety within the City Centre, and our town-centres.	Very Important
Support local communities to develop Emergency Planning & Readiness Response Plans.	Very Important
Seek opportunities to promote and celebrate heritage places in Waitemata including making digital content and place-based stories more accessible.	Very Important

Tell us why

7c. What do you think of the Waitemata proposed priorities for the 10-year budget 2024-2034?

Overall good

Whau Local Board Priorities

7b. What do you think of our proposed priorities for Whau in 2024/2025?

I support all priorities

#10171

More specifically, what do you think of each priority we've listed above?

We will work with our partners to build community capacity, from climate/emergency preparedness and community resilience to increased participation and community capability.	Very Important
We will encourage and support volunteerism and community participation, especially through environmental and ecological initiatives around the Manukau Harbour and foreshore, the Whau River and its tributaries, and our urban ngahere.	Very Important
We will continue to undertake governance-level engagement and collaboration with mana whenua and the other west Auckland local boards.	Very Important
We will work with the local BIDs where possible, to support local economy and to realise shared goals around climate action, community connection and belonging.	Very Important
We will consider accessibility and inclusion across our services, engagement, and other initiatives.	Very Important

Tell us why

The Whau is a growing, diverse area of significant environmental and cultural value to Auckland as a whole.

7c. What do you think of the Whau proposed priorities for the 10-year budget 2024-2034?

Good

#10171

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop building raised pedestrian crossings and cycleways.

#10188

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Owning an airport is not a Council function.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Council should not be involved in running a business.

#10188

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual	I don't know

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Clear drains regularly to reduce floodings

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the bureaucracy. Direct AT to reduce spending on speed humps.

#10207

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

WE need to encourage more people to use public transport and that can only be achieved if we have an integrated inter-connected network that is convenient for people to use.

2a. Is there anything you would spend more on?

Introduce more dynamic traffic light controls for busses. Get rid of level crossings for our CRL.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Use PPP to redevelop the whole precinct.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Use our current investments more effectively. Our AIAL shares generate very little income and is not a strategic asset. Sell these shares and out the funds into better long term use.

#10207

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Get rid of the port! Use the land for redevelopment into public and commercial spaces. Open up the whole waterfront. Turn the area into a "Darling Harbour". Do not lock that up for another 35 years.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Returns from infrastructures should go back to building more.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Once approved, stick to the strategies.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Just get rid of the Port and redevelop the whole area under a comprehensive plan. Don't do thinks bits here and there,.

#10207

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Local boards represent the local community voices and should be funded accordingly. Each community is different from each other and local boards' funding should reflect the needs of that particular community.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Continue to support local businesses through economic development initiatives.

#10207

8. Do you have any other comments?

Long-term Plan 2024-2034

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>	<p>Do not support</p>

#10210

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

#10210

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase public transport and greener alternatives transport to cars

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

stop adding dead-end transport improvements like expanding road capacity for cars

#10211

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

It's still too focused on trying to improve and build a network for cars, this is a deadend. By doing so it encourages more cars and as such fills the expanded capacity, and you are back in the same situation, it should be focused on greener longer term solutions - efficient and cheap public transport, enabling more people to use bikes, walking and small electric transport (bikes, scooters etc)

2a. Is there anything you would spend more on?

Building up the harbor for more tourism and leisure activities. Add more facilities for boats/sailing, watersports and fishing, Auckland is the city of sails, use that to attract more tourism, (and not just cruise ships)

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Lease it off to someone who will run and invest in it long term as a viable commercial concern. then use the lease money to invest in Auckland city. Auckland council is not an expert in managing and running commercial sports and recreation facilities and should get out of that, and go back to being a landlord of the land it is not using for council business and get an income from it from the commercial sector that is experts in that area. - if no-one wants to pick up the lease for this because there is not enough demand - this tells you its not needed and the land should be put to other use.

#10211

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Share have outperformed other investments over the long term, and this is an asset that provides cash over the long term, selling those assets now give a short term benifit to suit whichever politician is in power now, but at the detriment of Auckland future.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Council interference in the operation of the port drags the ports efficiency down as it is based on political whims, by moving out some of that operational control and moving to a more lease based operation it allows the port to develop as a comercial entity and gives the council a long term lease income stream

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

shouldnt be operating a port, what do people in council know about running an efficient and commercially viable port. get out of that buisness and back to running the city

4d. Do you have any feedback on any other part of the proposal?

#10211

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

unless there is a specific use planned for those wharves, why does the council want them? Leave it as it is unless the council put a up a specific proposal for them which benefits Auckland city and its people - (just a not here - it is pretty bad that in

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

you havent put forward any actual alternative here

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support

#10211

Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Other
Re-introduce recycling charges for schools .	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

#10226

Tell us why:

A reliable public transport service would get cars off the road. Stress on reliable. Its better for a number of reasons - including easier traffic flow with cars and cleaning up the environment.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

Sports stadiums seem less important in the face of some other more urgent issues e.g. better functioning public services e.g. council services which are difficult to access e.g. wait time and unreachability of public servants meant to have answers and know how to assist with the range of problems people need them for.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#10226

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

generally favor them.

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Prioritisation of public transport network and cycle network. Would be willing to pay more to prioritise this. Auckland is lagging behind other major cities globally in its public transport and cycling network and it's one of the biggest factors affecting my

#10230

quality of life living here. I hate being so car-reliant and don't like the direction this city is heading in in terms of transport.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

I support prioritisation of public transport investment but I don't support stopping previously-planned raised pedestrian crossings and cycleways. Encouraging active transport should be prioritised over and above investment in the road network.

2a. Is there anything you would spend more on?

Public transport, cycleways, pedestrian infrastructure

2b. Is there anything you would spend less on?

Roads

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#10230

Tell us why:

I strongly disagree with the sale of council assets, airport shares included. Auckland's residents have no choice but to use this airport to travel domestically and abroad and as a result airports should not just be about profit. Public ownership is important - we are at a critical juncture environmentally and without council shares, the likelihood of achieving climate goals at one of Auckland's major transport hubs is slim.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

#10230

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

#10231

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
---	-----------------------

#10231

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	<p>Support</p>

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important

#10231

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Indoor Sports venues in central Auckland

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Road works

#10263

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

#10263

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Definitely spend more on safe convenient active transport infrastructure. The cost is minimal compared with roading infrastructure but the benefits for all are multiple.

Reinstate cheap public transport fares and safe regular convenient public transport is also a win win for all and has cost benefits associated with reduced private car use

#10290

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Safe cycling and walking reduces injuries, saves lives, encourages more people to use active transport, reduces traffic congestion, improves health. Also reduced or no vehicle areas attract people friendly spaces Therefore any initiatives to support safe active transport such as the relatively cheap raised pedestrian crossings should be maintained

2a. Is there anything you would spend more on?

Walking and cycling as per previous comments

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

This is an asset that should be kept for now and for all future generations

#10290

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important

#10292

Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

In an ideal world I'd support all of these initiatives. But I recognise that in order to vote for lower rates, I have to sacrifice support of those that are less important. We are in a recession, I am the sole income earner, sole parent supporting a family and retired parent, and I happen to live in a valuable house - of no value to me as I can't sell it, we need to live in it. My rates are already close to 10% of my part-time income and everything else keeps going up. I just can't pay more.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#10299

Support most of the proposal

Tell us why:

I think cycleways should proceed.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

#10299

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Support

#10299

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	<p>Support</p>

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important

#10338

Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10343

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I would like for the city to be less reliant on cars

2a. Is there anything you would spend more on?

More frequent and reliable busses and trains

2b. Is there anything you would spend less on?

Roads and making the city more car reliant

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

The stadium does not serve enough of the community to warrant more being spent on it

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

I don't think shares should be sold

4b. Which option do you prefer for the future of Port of Auckland?

#10343

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#10343

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

I don't see the sense in removing rubbish bins in order to reduce waste. People will just throw their rubbish on the ground

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

The proposals are vague enough that I don't know what actionable steps are involved in any of them but in principle most look good

8. Do you have any other comments?

Public transport will make our city more liveable and desirable and should be invested in more heavily

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Road maintenance, graffiti removal and upkeep of streetscapes such as plantings at motorway intersections and on roadside retaining walls. When these spaces fall into disrepair it gives an appearance of lawlessness and I believe gangs and opportunistic thieves think no one of authority is present.

#10396

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Contribute less to festivals such as Arts and Pacifica. These communities and interested parties should obtain business sponsorship and pay higher ticket prices to cover costs.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Traffic is a real problem. Also publish transportation needs to be faster, more reliable and more frequent to encourage more use

2a. Is there anything you would spend more on?

Recycling facilities

Technology and potentially ai to streamline process for various applications, resource consents etc -using technology will reduce labour costs long term and make things faster

2b. Is there anything you would spend less on?

Printed brochures and paper marketing items in general.

Less or nil on any rebranding of department names.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

#10396

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

These investments are generating returns. No guarantee future fund will be well managed

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#10396

Tell us why:

The land is so central and could be better used for public benefit and to improve the cityscape and tourism experience.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#10408

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

#10408

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount</p>	<p>Support</p>

#10408

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

#10408

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important

#10408

Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The maintenance of sports grounds (turf, astro-turf)and facilities (buildings, changing rooms).

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10417

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

It makes sense.

2a. Is there anything you would spend more on?

No.

2b. Is there anything you would spend less on?

No.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

North Harbour Stadium is dilapidated and out of date. The destruction of stadium bowl to accommodate a minor sport proved a waste of money and removed the venue from consideration for hosting FIFA or World Rugby Events to the standard of the 2011 Rugby World Cup or 2023 FIFA Women's World Cup. If Council is to spend money on this venue, then do it right the first time. If Council cuts corners it is kicking the can down the road for a future local government to fix anyway.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

#10417

It makes logical sense.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

If the financial condition of local government is urgent then a short term cash injection is useful. The Port of Auckland track record financially and operationally is not good so how is that going to change in the short term?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

#10417

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	I don't know

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improve public transport, more services, more bus lanes, more reliability. I think the price of public transport should also be cut, even if we pay more for this it will encourage people to take advantage of it so it won't work out as much more overall in theory.

#10488

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No, I think that we have pushed off improvements to the Auckland region, particularly in terms of infrastructure, for far too long and now we have to bite the bullet and pay for it. Pushing it down the road will make it worse in future.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I don't think we should remove the level crossings honestly, from what i understand looking at the Morgan street one it's because people will not listen and just cross anyways which is more dangerous with more trains, but I don't see why we all have to go round the long way because some people don't follow the rules? I also think paying for park and ride is a bad idea, because people will just drive instead if the reason they were catching PT was to avoid paying for parking in central Auckland. I also think bike lanes should go ahead

2a. Is there anything you would spend more on?

Anything to improve the bus services, and improving reliability of the train network

2b. Is there anything you would spend less on?

No

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

If it's not getting used, it should be redeveloped to get more use. If this required management change then that too.

#10488

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I don't agree with selling assets like the airport, I think we do need a fund but I think in the long term it would be bad to not have a stake in our regions only airport.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

I have seen numbers suggesting we will get more in dividends over time vs the upfront payment. For this reason I think it makes more sense long term to take the dividends, and use those for a fund or for other projects.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

If we aren't selling the airport shares, the funds need to come from somewhere and I think setting aside the majority of these dividends if profitability is improved would be a lot.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#10488

no

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

No significant operational impact on the port, so we could use these a better way that benefits the community

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

In 15 years our demand will probably be bigger due to increasing population, so I think reducing the operational capacity of the port would be a mistake

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. 6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Franklin

Franklin Local Board Priorities

7b. What do you think of our proposed priorities for Franklin in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

<p>Develop fit for purpose facilities and respond to growth challenges through projects like the Clevedon Village Heart programme, 'Belmont' Sports Park development and the Unlock Pukekohe programme.</p>	
<p>Fund three-year Strategic Community Partnerships with local organisations that are willing to and capable of delivering social, environmental, cultural and economic outcomes in line with the local board plan and support to these organisations to deliver.</p>	
<p>Support environmental and cultural restoration programmes in partnership with Iwi including Te Kete Rukuruku (place naming) and Te Korowai Papatuuuanuku (environmental restoration).</p>	

#10508

Develop “Franklin Community Occupancy Guidelines” to inform decisions on council-owned facility leases, including leasing charges.	
Find ways to reduce Franklin’s maintenance costs e.g. by replacing lawn with eco-sourced native trees and reducing or relocating public rubbish bins.	
Progress the development and delivery of the Franklin Paths Programme.	
Deliver a refreshed approach to enabling young people in Franklin to access services and participate in their communities.	
Progress a Pukekohe Cemetery memorial project that acknowledges the unmarked graves at the site.	

Tell us why

7c. What do you think of the Franklin proposed priorities for the 10-year budget 2024-2034?

Do you have any additional thoughts on the proposed Franklin Paths Targeted Rate?

As our local board area is so large, please tell us where you live so we can better understand the views from different communities

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#10510

Support most of the proposal

Tell us why:

We need passenger cars to be smaller to fit on our current road network and more on bikes. The planning of roads and cycleways needs better consideration.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

#10510

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in	Support

#10510

<p>harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>I don't know</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>I don't know</p>
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	<p>I don't know</p>

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to	Not Important

#10510

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

cycle paths, library services

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10516

festivals, sports events, stadia

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I oppose raised pedestrian crossings as they are not value for money and in some cases so unsafe they need to be removed.

2a. Is there anything you would spend more on?

cycleways / walkways these do create safer transport options

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

low utilisation and attendance, and the high cost to run the stadium

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

#10516

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

really we have a lot of waterfront at viaduct basin which could be developed. it isn't clear to me what would be beneficial with I transferring.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#10516

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase rail investment to get trucks off the roads.

Do more to realise its Climate Plan and Transport Emissions Reduction Plan.

#10570

Incentivise more development in the existing urban area close to transport links, perhaps by making it cheaper to get consents, and to connect to water infrastructure in existing suburbs. T

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop enabling building homes further away from the urban centres where there is no infrastructure.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I want to see public transport increased and integrated and the number of cars and trucks off the roads, I support the raised crosswalks. It slows down cars and makes the roads safer for pedestrians.

2a. Is there anything you would spend more on?

Improving sidewalks to make them safer and more accessible for pedestrians. Especially for people with mobility issues.

Prioritise the CRL completion

Trees in streets and green spaces.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

#10570

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Strongly disapprove of selling assets

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Leasing the port removes it from the residents control. I am opposed to a strictly bottom line approach that does not take the social contract and wellbeing of Auckland into consideration.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The population is increasing and challenges for Auckland growing. We need the income from the port to continue funding council services.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#10570

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Cruise ships are currently disrupting ferry services. Transferring the space will increase waterfront space for public use.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Too expensive to move it.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

#10570

Improving our environment with green spaces and places for people improves community capital.

Having places for people to gravitate towards, such as libraries, enables spaces for learning and sharing which improves understanding and appreciation of diverse cultures.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I think the emphasis on green space to address climate change and environmental improvements is crucial to develop a resilient city.

It is also crucial to maintain and improve our public buildings, e.g, libraries, community centres and support community organisations such as CAB.

8. Do you have any other comments?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10583

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Making roads safe for non-vehicles such as pedestrians and cyclists. We shouldn't cut down on infrastructure that supports other modes of transport.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The council should not sell its shareholding of Auckland International Airport Limited.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#10583

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Support

#10583

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce recycling charges for schools.</p>	<p>I don't know</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p>I don't know</p>
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>I don't know</p>
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	<p>I don't know</p>

#10583

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I don't know

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important

#10583

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#10595

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

Auckland struggles for Green sporting spaces, the stadium itself is hardly used, remove the stadium, return it to alternate green spaces, frees other fields for development.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

#10595

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Puketāpapa

Puketāpapa Local Board Priorities

7b. What do you think of our proposed priorities for Puketāpapa in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Invest in opportunities to support local community leadership.	Very Important
Invest in climate change response initiatives and support volunteer groups working on local environmental restoration / protection and climate action programmes.	Fairly Important
Consider our investment in facilities and services to see if there are opportunities to do better.	Very Important
Support initiatives that improve and encourage walking and cycling opportunities.	Not Important
Help coordinate and support local business groups.	Not Important

Tell us why

#10595

7c. What do you think of the Puketāpapa proposed priorities for the 10-year budget 2024-2034?

More spaces to support activity in a growing population of social housing.

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like Auckland Council to build more separated bicycle infrastructure and bus lanes on arterial roads.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10635

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I am concerned that the central proposal does not go far enough in addressing Auckland's transport needs. I support the do more proposal for transport.

2a. Is there anything you would spend more on?

I would like to see more money allocated to expanding infrastructure for public transport and walking and cycling. Pop up cycle lanes and bus lanes can be implemented cheaply and easily. They provide non-car transport options and the more we have the more they will contribute to a "network effect" making the overall network more useful.

2b. Is there anything you would spend less on?

I do not support the bike ferry proposal. I think this is a half measure which does not properly answer the problem faced by cyclists.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

I believe that improved use of North Harbour Stadium can be achieved without redevelopment.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

#10635

Tell us why:

I think it is appropriate to diversify the council's assets.

However, I think it is important that there are strict guidelines in place to ensure that Auckland Council is investing appropriately, and not investing in those things contributing to climate change, wars, poverty, and the destruction of the environment.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

I think the proposal to lease the port operations is counter to the aims of taking back the waterfront as public space. It amounts to forfeiting control of the port for several decades during which time no progress can be made on transforming that space.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#10635

Tell us why:

Their proximity to Te Komititanga/Waitematā station makes them a great opportunity to create new public space.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

#10635

I support the proposed priorities

Howick Local Board Priorities

7b. What do you think of our proposed priorities for Howick in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	
Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	

Tell us why

#10635

7c. What do you think of the Howick proposed priorities for the 10-year budget 2024-2034?

I support all priorities

Kaipātiki Local Board Priorities

7b. What do you think of our proposed priorities for Kaipātiki in 2024/2025?

Very Important

More specifically, what do you think of each priority we've listed above?

Investing in the maintenance and renewal of our parks, playgrounds, recreation facilities, and other public spaces so they continue to meet our communities needs.	Very Important
Supporting a community-led approach for the delivery of relevant and diverse services that connect the community	Very Important
Supporting environmental groups, community volunteers, and our diverse communities to carry out environmental restoration projects, including stream clean-ups, habitat improvement, native riparian planting, and pest control.	Very Important
Begin implementing the Mini Shoreline Adaptation Plan for the Little Shoal Bay / Te Wai Manawa alongside our community to address the issues caused by flooding and seawater inundation.	Very Important

#10635

Supporting a community climate activation programme to support and amplify community initiatives identified in the Kaipātiki Climate Action Plan.	Very Important
Building relationships with local iwi and mataawaka groups so that Kaipātiki is rich with Māori identity and culture.	I support these proposals as they will contribute to preserving the natural environment and increase Kaipātiki's resilience against climate change.

Tell us why

I support the proposed priorities.

7c. What do you think of the Kaipātiki proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

I support the policy of a funding uplift for local boards to create equity included in the "pay more, get more" proposal to ensure that no reallocation between local boards is necessary.

Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

#10687

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

This is not at all clear - why these sites? what public benefit? why reduce the amount of operable port? It's not clear what is the benefit of these suggestions

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

This is not at all clear - why these sites? what public benefit? why reduce the amount of operable port? It's not clear what is the benefit of these suggestions

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
---	--

#10687

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	

#10687

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Do not re-introduce library overdue charges - studies show how positively a no-overdues model impacts library use, while even very small fines can turn off users for extended periods

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of	Very Important

#10687

what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

The removal of rubbish bins is the point I have an issue with - in other areas where bins have been removed rubbish instead gets dumped and not cleared away. I think reduce the number of bins would be a reasonable compromise while keeping them in the highest use areas.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Generally support, particularly of the planned library for Pt Chev and on-going support for other libraries.

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Libraries, cycleways and protecting nature

Pumptracks, learn to ride tracks, bike skills courses, trails, and other recreational cycling facilities where people can safely grow their confidence on a bike

#10698

Eke Panuku's redevelopment of town centres, which often includes making safe walking and cycling connections, as well as improving access for disabled people.

Improvements aligned with the Central Rail Link like the Karanga-a-hape station improvements project, which includes a protected cycleway along part of Pitt street, a pedestrian mall in Mercury Lane, and could include improvements for Canada Street

The Making Space for Water programme's inclusion of "blue-green corridors". These are walking and cycling paths through greenspaces and alongside streams, adding to our walking, cycling network while also creating a natural drainage area.

Auckland Climate Grants and the Live Lightly Programme which can fund community-led programmes to empower people to ride bikes for transport

More investment for local boards: enabling them to better deliver on local climate action plans and local transport priorities

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Wanting increased investment in cycling infrastructure and maintenance. Investing in cycling has benefit-cost ratios of anywhere from 10:1 up to 25:1

Support for more raised pedestrian crossings and increased maintenance of our footpaths

Support for "Dig Once": aligning delivery of transport projects with delivery of other infrastructure such as water improvements, to reduce costs and disruption overall.

That Auckland Transport could leverage road renewals and maintenance for quick fixes that make streets safer for walking and cycling every time a road is repaired, repaired or repainted.

Support for multi-modal trips: such as the proposed \$50 weekly cap for public transport, bikes on buses, more investment in train services, and whether or not you support light rail

#10698

Let Auckland Council know you want them to advocate to Central Government and Waka Kotahi for a lane on the existing Harbour Bridge to be reallocated for walking, cycling, and wheeling.

The UN for Environment recommends 20% of our transport budgets are towards walking and cycling but Auckland Transport typically allocates under 1% of our transport budget on cycling – note how we are massively underinvesting!

Auckland Council's commitment to the Transport Emissions Reduction Pathway, and Te Tāruke-ā-Tāwhiri, Auckland's Climate Plan.

2a. Is there anything you would spend more on?

Cycleways! Safe cycle infrastructure, accessible for all kinds of bikes, that get people where they want to go. More end-of-ride facilities for all kinds of bikes, more repair stations along key routes, and better, more regular maintenance of pathways throughout the city. The sooner this stuff is in the ground, the better off our city will be.

A safe, connected cycle network can be delivered fast and affordably by reallocating road space and using pop up protection like concrete or rubber separators

More safer speeds (30km/hr) for residential areas, around schools, and through town centres, with traffic calming and raised pedestrian crossings so that everyone can get to where they are going safely

Low traffic neighbourhoods or using modal filters (stuff like planter boxes and bollards which prevent cars coming through into a neighbourhood from a main road, but allow for bikes and pedestrians) as a fast and affordable way to make safer streets and empower people to walk, cycle and wheel for their trips

Note your support for any particular projects you would like to see delivered, such as (but not limited to): Lake road improvements, Manurewa and Māngere Transport Choices, the Henderson Cycleway, Lincoln Road Corridor Upgrade, Great North Road Improvements or the Upper Symonds & New North Road Upgrade Project.

2b. Is there anything you would spend less on?

#10698

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Just think about climate with every decision you make, scrimp now, pay later... dont let history judge us for having let the future citizens down

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like Auckland Council to continue to support community groups and initiatives that foster the wellbeing and connectedness of Aucklanders. Continued support for public libraries and the wonderful community activities they host.

#10773

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less spending on roads and elite sporting events that cater to a small section of the community.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Better public transport is essential in Auckland because traffic congestion is becoming worse all the time.

Reinstate the regional fuel tax and use this income to fund public transport improvements.

2a. Is there anything you would spend more on?

I support affordable fares and more frequent services to encourage people to use public transport. Make sure bus drivers are paid better and have better working conditions. Standardise the lower speed limits in urban areas.

Improve conditions for pedestrians so that more people are encouraged to walk.

2b. Is there anything you would spend less on?

Building new roads. Maintaining existing roads requires a lot of money.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

I'd like to see the stadium available for more use by the local community.

#10773

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Auckland Airport is a valuable asset. It makes no sense to sell it to acquire other assets.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The future of Auckland's port is a huge issue and needs more research before final decisions are made.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The port is another valuable council asset. Make sure it's well managed and the income is used to benefit the Auckland community.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#10773

I would like to see more development of waterfront land for use by the community. The developments at the Viaduct Basin, Wynyard Quarter and around the ferry building have brought the waterfront to life for so many Aucklanders. It's a pleasure to spend time there even if you're not patronising the bars and cafes. It's wonderful to see so many people out and about enjoying themselves.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

I'd like to see more scope for people to enjoy Auckland's beautiful waterfront. I don't feel I know enough about the proposed changes.

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

This is a very big issue involving the entire future of the Auckland port.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

I agree with the idea of rubbish-bin-free parks but I think it will need to be introduced slowly so that people become accustomed to this practice (similar to phasing out plastic bags in supermarkets)

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Albert-Eden Board's key priorities for the 10-year budget are excellent. I support them all and applaud board members for their dedication to the community and its wellbeing.

8. Do you have any other comments?

I particularly favour council support for community groups that operate in council premises and provide activities that contribute to community and personal wellbeing, social connectedness, and diversity. I participate in groups and activities organised by the Handweavers & Spinners Guild Auckland in Nicholson Park, Mt Eden, and at the Gribblehirst Hub in Sandringham. These organisations do invaluable work in the community and greatly enhance the lives of Aucklanders. Council support is essential for these groups to survive and the community as a whole benefits.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Protection of heritage trees

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10777

Do less tree removal. I do not support tree removal unless there is a demonstrable safety concern.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

There should be greater focus on public transport. Auckland transport should prioritise introduction of barriers at stations so that affordable fares are not easily evadable. Auckland transport should offer a level of service that it can afford including annual renewals cost (for example of rail infrastructure). The council is right to prioritise renewals and that principle should extend to those assets owned by the crown. Otherwise the council is intentionally sweating assets that aren't theirs. Let's break that cycle and prioritise maintaining and renewing assets for a more sustainable public transport system.

2a. Is there anything you would spend more on?

Initiatives that make greater use of assets we have and lift the productivity of the council. I would also like to see more active mode investment which is not gold plated

2b. Is there anything you would spend less on?

The TMAs tree removal plans.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#10777

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The asset has had a strong cash return over its life, Covid was an anomaly.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The long term strategy for ports in the North Island must be clear on how any growth will be serviced. There must be clarity on whether any growth will come from Auckland, northland or Tauranga. Without clarity on that how do you know you are buying or selling at the right value and/or have a sustainable solution for demand.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

I don't want waste strewn over our parks

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

#10777

I support most priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Very Important
Investigate improvements for playground areas island-wide.	Fairly Important
Support implementation of aspects of the new Destination Management Plan.	Fairly Important

Tell us why

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	Fairly Important
Programmes which protect, restore, and enhance the island's natural environment,	Very Important

#10777

and initiatives that provide opportunities for community connectedness, capability and resilience.	
Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	Fairly Important
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	Fairly Important
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	Fairly Important
Capital projects including the Tawaipareira Reserve playground.	I don't know

Tell us why

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

not really

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

i dont know

#10783

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Because i think making bus prices go up is stupid

2a. Is there anything you would spend more on?

i think YOU should spend more on paths and roads

2b. Is there anything you would spend less on?

i dont know

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

cause ive never heard of it

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

cause i guess its for a good thing??

4b. Which option do you prefer for the future of Port of Auckland?

#10783

I don't know

Tell us here:

cause i just dont

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

CAUSE I DONT KNOW

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

i don t know

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

cause

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

it sounds like the better option

#10783

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#10783

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

dont know

Local board priorities

Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#10801

Do not support most of the proposal

Tell us why:

Cycle ways are waste of time, as it is not a main transport option and will not be in future due to safety on traffic congested main roads within suburbs and city.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

assets generate income and value that will grow in future.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#10801

Tell us here:

may lose control over MAF, Biosecurity and importation of narcotics, under foreign lease holder they may use their own workforce from overseas and local workforce will be out of jobs.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Do not support

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Water not to be privatised. Fix our water waste flowing into beaches

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Selling off the port to overseas investors

#10806

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Because transport around Auckland is generally hideous for many. I think the raised jumps on roads slow traffic down and should be used for this purpose

2a. Is there anything you would spend more on?

Extending seniors travel hours

2b. Is there anything you would spend less on?

N/A.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

I don't use this facility

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I think we should keep our shares in the airport. You councillors come and go and it sounds like we could regret this decision in the future when another visionary Mayor

#10806

wants to scrap the Auckland Fund and we end up regretful about rising costs to airport facilities etc by overseas investors

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Keeps the rates down

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

It would get higher interest rate

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

I think we would just be in for extreme expense with another project that each mayor of Auckland wants to leave as their legacy

#10806

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

15 years seems reasonable

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	Do more
City and local development	
Environment and regulation	
Parks and Community	Do more
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More swimming pools especially in the Central City area (Chamberlain Park or at the Unitec site would be ideal). There needs to be more sports facilities generally. I would support the Northern Ice proposal for a curling rink on the North Shore. I would also support more skate parks and basketball courts to provide for people with apartments who need recreational space. Libraries are also an essential part of urban living and

#10832

community development. I support the rebuilding of the Pt Chevalier library in order to support that fragile community space which is at risk of being abandoned by its elderly and young families.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Transport infrastructure is important and public transport improvements have to be given priority. To change the habits of Aucklanders the changes to what is offered in the public transport space has to be radical: no charge during peak hours would be a game changer.

2a. Is there anything you would spend more on?

More bus lanes

2b. Is there anything you would spend less on?

Raised pedestrian crossings

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

The Stadium precinct has huge potential as a sporting hub on the North Shore servicing the growing intensified communities living there. More public amenities are needed on all fronts to provide for healthy connected communities especially where people become apartment dwellers and need to use public spaces for their recreation and connection. I support the development of the stadium precinct for a wide range of sporting and community uses and other recreational developments on the North Shore

#10832

including the Northern Ice project on the water care site which would provide for Curling which is a growing sport which has a diverse following of all ages and ethnicities.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I agree that a long term strategy and the dedication of legacy assets to it is both sensible in financial terms and is a principled moral use of those assets which are owned inter-generationally.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Long term common sense

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Shared between the Auckland Future Fund and where feasible to fund council services

4d. Do you have any feedback on any other part of the proposal?

#10832

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Maximise the number of beneficiaries from the Port land

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important

#10832

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

Not Important

Tell us why

Removing rubbish bins from parks in the Albert Eden Board area is a very poor idea. Most of the parks in Pt Chevalier are used by people from outside the area and there is little commitment to removing rubbish now when there are bins. There will be even less commitment when the bins have gone. Local people will suffer as a result of the literal trashing of the beach and Coyle Park. I for one am resigned to picking up litter every day and putting it in the bin while I walk my dog. It is more than I can carry home. Do not remove the bins, please!

The Pt Chev library and other community facilities are crucial to the successful intensification of Albert Eden - in particular the incoming 10000 people predicted coming to live on the Unitec site need facilities - a public pool, gymnasium, parks, skate parks, basketball courts and a functioning library and community centre are vital to the success of that intensification project.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I am in general agreement

8. Do you have any other comments?

Long-term Plan 2024-2034

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Disability services/promoting accessibility in practical ways. More promotion and funding for the arts, more public art that is Māori and Pasifika (always made by NZ artists) and relevant to local areas/communities e.g bowl of noodles at Dominion Rd (bring them back!)

#10847

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Public transport makes the community accessible and bolsters the economy! Get people out more!!

2a. Is there anything you would spend more on?

CRL, Great N Rd upgrades, upgrade New N Rd corridor especially east of Blockhouse Bay, complete bus improvements e.g down town and midtown, more cycle ways and walking connections, electric ferries, more low emission buses, more money to promote and expand public transport, better investment in rail, more street trees for shading peds.

2b. Is there anything you would spend less on?

Eastern busway - could be rescoped to inc footpath and cycle way. Reduce scope of unsealed roads program.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#10847

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I do not support this in the absence of minimum ethical requirements for investment e.g climate change.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Effectively privatising could prejudice workers and lead to higher costs for NZers.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Oppose reduction in services given pop growth.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#10847

Tell us why:

More space for public use!

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

For max return to council.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Support

#10847

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#10847

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Rubbish bins are important for urban parks for people to dispose of rubbish or litter will increase. Also good for dog poos!

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

#10847

Fairer funding for local boards is important. New parks for new intensified development especially close to Kāinga Ora. New library and community centre in Pt Chev. Repair flood damage in parks and support of the arts/volunteers working for environment. Better town centre environments, better public transport, walking and cycling. Support \$50 cap per week for public transport!!

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Pump tracks, learn to ride tracks, bike skills courses, trails, and other recreational cycling facilities where people can safely grow their confidence on a bike.

Eke Panuku’s redevelopment of town centres, which often includes making safe walking and cycling connections, as well as improving access for disabled people.

#10894

Improvements aligned with the Central Rail Link like the Karanga-a-hape station improvements project, which includes a protected cycleway along part of Pitt street, a pedestrian mall in Mercury Lane, and could include improvements for Canada Street

The Making Space for Water programme's inclusion of "blue-green corridors". These are walking and cycling paths through greenspaces and alongside streams, adding to our walking, cycling network while also creating a natural drainage area.

Auckland Climate Grants and the Live Lightly Programme which can fund community-led programmes to empower people to ride bikes for transport

More investment for local boards: enabling them to better deliver on local climate action plans and local transport priorities

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Increased investment in cycling infrastructure and maintenance. Investing in cycling has benefit-cost ratios of anywhere from 10:1 up to 25:1

Auckland Transport could leverage road renewals and maintenance for quick fixes that make streets safer for walking and cycling every time a road is repaved, repaired or repainted.

Multi-modal trips: such as the proposed \$50 weekly cap for public transport, bikes on buses, more investment in train services

The UN for Environment recommends 20% of our transport budgets are towards walking and cycling but Auckland Transport typically allocates under 1% of our transport budget on cycling – we are massively underinvesting!

2a. Is there anything you would spend more on?

Cycleways! Safe cycle infrastructure, accessible for all kinds of bikes, that get people where they want to go. More end-of-ride facilities for all kinds of bikes, more repair stations along key routes, and better, more regular maintenance of pathways throughout the city. The sooner this stuff is in the ground, the better off our city will be.

#10894

2b. Is there anything you would spend less on?

Spend less on road widening for projects, and instead reallocate road space for delivery of walking, cycling, and public transport networks, creating an overall more efficient, affordable, and climate conscious transport network

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

#10894

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Stop spending our taxpayer money

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop spending our taxpayer money

#10898

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

#10898

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like to see an equity lens on Auckland Council spending so that parts of our city that have been underinvested in, and/or parts of the city that are experiencing increased public and private housing development are prioritised for infrastructure improvements.

#10911

I would like Auckland Council to invest in digital and print platforms that engage with young people so that rangatahi can better participate in shaping the future of our city

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Our rangatahi rely on public transport and all public transport improvements and unfinished projects should be completed asap

Capped weekly transport passes are overdue and should be implemented asap

If there were any surplus funds, cycle ways should be prioritised for parts of Auckland where cycle commute routes are desired and practicable

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Locally-led operational management should focus on increased community engagement, community participation and low-barrier to access for rangatahi

#10911

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

#10911

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. #10911

2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I encourage all economists, policy experts and elected members to give particular consideration to those who are rangatahi now - many of whom might not be submitting to this process. These young people today will be in their stride in 2034 - contributing to our city economically, socially and culturally. Please, make your decisions with them in mind, as they are our future.

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10918

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I believe stopping raised pedestrian crossing and cycleways is short sighted. Even though they will incur costs they will make Auckland a more pedestrian/family friendly city which is important as our population grows

2a. Is there anything you would spend more on?

Public transport

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I believe this is short sighted and gives the entranceway to Auckland so to speak the chance to be owned by foreign ownership/privatisation which will not have the same checks and balances as being owned by council

4b. Which option do you prefer for the future of Port of Auckland?

#10918

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Absolutely fantastic idea to transfer so can be used for public use - let's make the Auckland waterfront world class/similar to Sydney. If there are new wonderful spaces families/people will come and utilise them. The waterfront should be a space for all.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

#10918

Making the waterfront a space for all :)

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide	

#10918

increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I think with climate change , investment in public transport and active transport is paramount.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10965

no

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Public transport is the only way out of congestion. I also think cycleways and pedestrian safety remain important for safety as shown by extensive studies despite current government opinions flying in the face of evidence.

2a. Is there anything you would spend more on?

Cycleways and railways to make them more efficient.

2b. Is there anything you would spend less on?

RONs, the numbers really do not stack up on cost effectiveness

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#10965

I hate the thought of the port being locked in for 35 years. Wasn't Wayne Brown chair of a committee that recommended moving the port.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

as above

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

#10965

Keep Bledisloe Terminal as a Port of Auckland operational area

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Make it easier and safer to cycle. More bike lanes and get pedestrians off existing ones so they can be used to commute on

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11000

building roads

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Cycling in Auckland is easy and a great option when it's safe to do so. Getting people out of cars and onto bikes is a no-brainer, but this requires decent safe cycle lanes. The NW I cycle on every day is increasingly crowded and dangerous in places

2a. Is there anything you would spend more on?

Cycle lanes

2b. Is there anything you would spend less on?

Roads

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#11000

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Use the waterfront for people, not storing used cars

#11000

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#11000

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#11000

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11015

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

#11015

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

clean the footpaths and roads

fix the roads before potholes show up

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11061

building irrelevant cycleways
changing libraries to homeless shelters

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

make public transport open to competition

2a. Is there anything you would spend more on?

fix the roads

2b. Is there anything you would spend less on?

cycleways that no one uses

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

stop wasting money on non-core activities

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

run an operation, not an endowment

#11061

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

generate cash flow and then sell the port

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

reduce rates

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

focus on the basics - roads, water, rubbish & leave the rest to public preferences

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

do less, do it better

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#11061

Tell us why:

do less, do it better

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Park and Community, Economic and Cultural Development, Council Support

#11076

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Work should be limited to such projects as facilitate greater numbers of passengers on local railways and buses such as will increase revenue and reduce private vehicle traffic.

The proposal for integrated transport plan seems more like window dressing and should have a lower priority.

2a. Is there anything you would spend more on?

In the present recession and with current debt levels of Council, there should be less spending as a whole and debt reduced to extent possible in this sector

2b. Is there anything you would spend less on?

See above.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

The North Shore Stadium is a valuable asset to the people of the North Shore and should not be maintained in a manner which will enable its greater use by the ratepayers on the Shore

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#11076

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

A difficulty with transferring the POAL shares to the Auckland Future Fund is that unless sufficient protections and restrictions are incorporated into the rules under which the Fund is managed and spent, there is a possibility that the asset could be dissipated on short term spending and repayment of council debt when expenditure exceeds the revenue of the Council. The recent sale of a sizeable share of the AIAL shares has not resulted in any lasting benefit for Auckland's ratepayers.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The granting of a 35 year lease to an overseas party or other third party would prevent the Council being able to develop an urban frontage on the port land as a whole and it would be expected that the lessee would want to develop the leased land to its fullest extent that might not allow the Council to develop the surrounding area. Also the industrialisation of the leased land would mean the increase in the road and rail use would create traffic congestion and would incur maintenance costs for the transport network in the area. It also prevents any long term plans for the waterfront to be implemented until the lease expires.

4c. If the council continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

#11076

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

It would seem from an economic perspective that before deciding on the future occupation and use of the Bledisloe Wharf and the Captain Cook and Marsden wharves, that the sustainability of the Auckland Wharf and its continued location at its present site should be reviewed and finally determined

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. Council needs to keep rates within the rate of inflation. We cant afford to have high rates . People cant afford it

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11078

2. What do you think of the transport proposal?

I don't know

Tell us why:

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

You dont sell the crown Jewels to buy groceries

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#11078

Tell us here:

This is a precious asset of the city.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

I don't know

#11078

around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11091

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Absolutely do not limit support of more cycleways. This is the 21st century and our young adults are already horrified at the issues of climate change. Give us safe cycleways so all ages can view them as a viable transport option, more and more with the advent of e-bikes.

2a. Is there anything you would spend more on?

Cycleways, walkways and public transport must be the focus.

2b. Is there anything you would spend less on?

Roads should only be built when there is no other option to consider. Think of the future looming towards us!

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

#11091

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Keep ownership so there are options in the future to develop that land for the greater good of the city's citizens.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

#11091

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#11091

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I approve

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Crime in the Point Chevalier area where we live has escalated over the last 3 years!

We need police presence to stop the crime! There are many halfway houses in the area and this is the result!!

#11118

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Transport in Auckland is a mess! It needs to be sorted properly.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

Never used Northshore Stadium

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

#11118

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

#11118

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

An alternative tunnel or bridge to the north shore and improved flow to main roads there including Shore road and vicinity.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11120

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

\$50 cap is too high but a good idea. \$10 a day for the working week is too high and not enough of an incentive to get people out of cars.

2a. Is there anything you would spend more on?

As mentioned above. Auckland's poor transport service contributes negatively to every aspect of life in the city. Cheap, frequent and reliable public transport increases a sense of community, is better for the environment and makes our city more safe and easy to navigate for everyone especially children, the elderly, people with disabilities and tourists. Trains are far superior to buses. Decrease fares and proactively increase services as demand increases.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#11120

We have already voted to retain existing shares. Selling assets is a short term and short-sighted endeavour.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#11120

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More buses, reliable trains - NO MORE SPEED HUMPS, RESTORE OLD SPEED LIMITS.

Drop the idealism and unrealism of the zero deaths goal.

#11121

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

NO MORE SPEED HUMPS, RESTORE OLD SPEED LIMITS. No more new, costly and unnecessary traffic lights.

Drop the idealism and completely unrealistic zero deaths goal. It's just wasting money on ineffective measures.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

I love cycling, and promote it for health. But hardly anyone uses the new cycle-only lanes. Example: Tamaki Bay Drive: every time I drive from Ak Central to St Heliers and back I count the number of cyclists I see - NEVER more than 10, no matter the weather, time of day, etc. Worse: more than 50% are on the road or footpath, NOT in the multi-million dollar cycle-only lanes!

2a. Is there anything you would spend more on?

Buses

2b. Is there anything you would spend less on?

Speed bumps, raised crossings. Unnecessary traffic lights - some are only effective at rush hour. Make many more traffic lights traffic-activated, especially at night for example.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

North Shore needs a decent-sized stadium.

#11121

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

The notion that the Council controls POAL is ludicrous. POAL consistently snubs its nose at the council. Fix that!

Why is there no option listed for selling the port operations to Northport or Tauranga - that's what I favour.

4c. If the council continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Sell the port operations.

Make the waterfront something worth visiting, like Sydney. Akld is an embarrassment in comparison.

#11121

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	

#11121

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

#11121

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

#11121

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Venues and companies such as Q Theatre, Waterfront Theatre, Ak Theatre Company, Silo Theatre, Basement, Ak Philharmonia, Libraries, plus the myriad of small arts groups creating performances, the Festivals such as Writers, Doc Edge, Akld Arts Fest, ethnic festivals (e.g. Diwali) and such are an utter necessity for the city's mental & social health. As the world famous critic Jonathon Elsom said, "If we don't have enough performing arts, we're going to need a helluva lot more doctors" - and we know the latter are in short supply as it is!

The impact to our social infrastructure, including our arts, culture, and creative sector – is needed more than ever as our communities try to return to post-pandemic levels of activity.

This is a time to invest in our arts, culture, and creative communities, not to cut them short.

Our arts events, cultural festivals, theatre, dance, music, comedy, and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists. **AND CREATE JOBS!**

A vibrant arts, culture, and creative community has a positive knock-on effect on our restaurants, hotels, transport, and other sectors - **CREATING JOBS.**

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

being a future focused city where people thrive and can live well.

not having human poo in our oceans so we can't swim

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11138

wage increases for council employees - these should be within the medium pay across all over NZ. Hiring international people when NZers can do the jobs. Support higher density housing development, not urban sprawl where tax payers get stuck with legacy costs of new suburbs. We are spending too much on infrastructure costs for these pop up developments when we should be encouraging density living.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

We need to be future focused. Stopping initiatives such as some raised pedestrian crossings and cycleways is not future focused. We need to look at cities internationally that are amazing to live in and model our planning on these. Active transport is absolutely critical to this!!!

2a. Is there anything you would spend more on?

Cleaning up our waterways. The condition is disgusting in some areas - shameful.

Don't sell off council owned assets - this is short term gain, long term loss. Do not support this.

2b. Is there anything you would spend less on?

Any council time even considering selling council owned assets.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

Not keen on selling the asset off at all. There should be other mixed use models to try and manage the stadium better.

#11138

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

its outrageous to sell off this asset. I do not agree with this at all. This is not beneficial for the long term plan for AUCKLAND.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

I do not want to give private companies more agency of our assets like this. I wanted the ports to turn into a public park area with museum and the port is moved elsewhere.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

I do not agree with the Auckland Future Fund it its founded with Auckland Airport shares. These need to be retained by the council with profits invested back in.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

#11138

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Retain ownership but transform this area to the amazing waterfront community amenity it could be.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

See above answer

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

#11138

reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Other
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Overall, I want the environment and waterways to be prioritised and support initiatives that do this.

#11138

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important

#11138

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

Very Important

Tell us why

Environment is an absolute priority - I support all initiatives that prioritise this.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Making the area a great place for all and celebrating communities is important.

8. Do you have any other comments?

- Pest Free Maunga should also be a priority, and working closely with mana whenua.
- Eden Park should have more concerts every year - this generates lots of revenue.
- Make Cox's Bay waterways better - this is currently black with sewerage and disgusting.
- More dog friendly amenities and Richmond Rovers shouldn't rule Grey Lynn Park.
- Free the Line - make Auckland Harbour Bridge available for Active Transport.
- Re-name suburbs with their Māori names.
- Train to Auckland Airport and light rail across the city
- Do not sell off Council Assets
- Support free arts / community events that bring people of all ages and cultures together

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#11145

Support most of the proposal

Tell us why:

Don't want all inner-city carparking on streets removed.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

The current stadium precinct is not fit for purpose - promoters don't want to take big events there because its too far with one road in traffic which is a nightmare and smaller events can't afford to hire the total stadium. Currently it's not serving anyone's needs and I'm against pouring \$33m of ratepayers money into something that is not economically viable. We need to change it up so that we have a great midsize stadium with great facilities that promoters want to use and the community wants to use. Lets get this right.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

In order to future proof us from the unexpected - along with maintenance and repairs - we need to be realistic and spread the risk of council's investments over a range of different assets in different locations. Let's be smart and forward-looking.

#11145

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

We need to get more financially savvy to manage costs while still ensuring Auckland is a good place for ratepayers and visitors alike.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#11145

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We must prioritise looking after our people and planet by investing in the things that provide us with life’s essentials, such as fresh air, clean drinking water, hazard resilient landscapes and basic needs, like accessible transport and a sustainable waste network.

#11163

The LTP for our city is technocratic. There is one mention of 'making the most of our harbour' but no steps provided for how we might do that and the mention of Storm Recovery and Resilience doesn't mention people at all, or schools, or tamariki/mokopuna. There is lots of hope expressed as far as economic development for Tāmaki without confronting the additional issues that economic development will bring – more issues with water, housing, climate change, employment and transport as our population grows and the demands on infrastructure follow.

Water, housing, climate, biodiversity, transport and parks and rec are very much under Council care and Council can heavily influence the outcomes we hope for in relation to these. Furthermore, they come as a package, yet they are 'siloe'd' out in all 3 'narrative frames' we have been asked to comment on in the plan. For example, our city can't develop economically without a requisite development in housing AND transport. ie, you can't have more housing and less transport.

There is obvious obfuscation (or at least a lack of clarity) in all 3 of the options about what happens with many of the things I care a lot about: employment, inequality, good neighbourhoods, tamariki/mokopuna.

The report doesn't spell out clearly enough what we are set to lose as a city if we take the central option, or the 'pay more, get more' for that matter.

The impacts on different communities in our city by choosing any one of these options are not spelled out. Auckland has one of the highest youth unemployment rates in the country. What do any of the options offer as far as that goes?

The plan lays out problems in need of fixing but they are too narrow. What are the plans for population growth/changes? What are the plans for those who are made unemployed by climate change measures or what about jobs with a dying work force but one that needs replacing?

We could get much-needed investment in transport services and climate resilience, as stated under the 'pay more get more' option, with a rate rise of less than 14% in year one. There are other areas where savings could be made which are not interdependent.

There are more things: Support for arts, culture and creativity via local boards, investment into Council programmes, engagement and public art.

Investment into arts and culture facilities, both Council-owned and private.

Investment into Auckland's diverse cultural communities. Investment into local festivals and independent artists and companies, regional grants.

#11163

Give students multiple ways of getting to school. Council initiatives such as the entire Live Lightly Programme and the Travelwise programme should get continued support so our tamariki/mokopuna are empowered to get around their city.

More investment into our local boards to enable them to better deliver on local climate action plans and local transport priorities, carry out the plan for the weekly PT cap but lower it to a more realistic spend (\$50 is too high) and most importantly create safer speed areas around schools, town centres, and residential streets. Do more raised crossings, not fewer. Install more protected cycleways which will give our tamariki/mokopuna and rangatahi more choice about how they get to school. I'm a fan of the network of cycleways in the North West of our city, and I can see there are others in the South too. More of these please. Safe, connected cycle networks can be delivered fast and affordably by reallocating road space and using pop up protection like concrete or rubber separators.

Auckland Council needs to improve community resilience, which is partly planning and infrastructure, and partly building community networks. The Making Space for Water programme's inclusion of "blue-green corridors".

Let's keep all those hardworking, astute, reliable and trustworthy Council staff (hundreds and hundreds of them) and the projects they are connected to – liaising with community groups to find synergies, bidding for major global events to be held in this city, identifying where business and tourism interests intersect, sweating their butts off to make sure that Aucklanders get to experience music, art and fireworks in their city, dotting the 'i's and crossing the 't's on all those fiddly diddy documents that the Council is legally and fiscally obliged to produce - are 'simplified and rationalised'. We should incentivise more development in the existing urban area close to transport links, perhaps by making it cheaper to get consents, and to connect to water infrastructure in existing suburbs. This would significantly reduce costs on the council over time.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

#11163

The UN for Environment recommends 20% of our transport budgets are towards walking and cycling but Auckland Transport typically allocates under 1% of our transport budget on cycling – enable AT to allocate more towards transport in our city.

Our Council has committed to the Transport Emissions Reduction Pathway, and Te Tāruke-ā-Tāwhiri, Auckland's Climate Plan, yet this LTP doesn't go far enough in supporting either so we need to do more. I like the idea of multi-modal trips: and the proposed \$50 weekly cap for public transport (it should be less), let's allow bikes on buses, put more investment in train services, and please keep investigating and planning for light rail! We need it.

2a. Is there anything you would spend more on?

More safer speeds (30km/hr) for residential areas, around schools, and through town centres, with traffic calming and raised pedestrian crossings so that everyone can get to where they are going safely.

Work even faster to enable traffic and trains to flow at level crossing points - all across the city. This will mean that PT has more of a chance to be reliable, frequent and more likely to be patronised.

Low traffic neighbourhoods please and using modal filters (stuff like planter boxes and bollards which prevent cars coming through into a neighbourhood from a main road, but allow for bikes and pedestrians). This is a fast and affordable way to make safer streets and empower people to walk, cycle and wheel for their trips.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#11163

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The Airport shares were purchased to see through the generations of Aucklanders to come. They were a strategic purchase (some of them were 'gifted' according to Cr Mike Lee) and while I can see a future where airports will become less relevant to the globe (as our addiction to fossil fuels grounds us to the spot and to the bone) right now I believe it's important (as ex-Mayor of Manukau Barry Curtis recently put it) to continue to hold...an interest in 'Entry ports to our city, both air and sea'.

Moreover I agree with his perspective that "Entry ports are vital infrastructure to the Auckland and national economies and indeed, our security interests. They must not be forsaken. Only local public ownership, in part or whole, can safely secure the long-term interests of our city."

Commentators also point out that this is not a particularly astute time to sell these shares - at a low point in the market – and others have pointed out, including Councillors, that much more rigorous research needs to be carried out in order to ascertain whether the airport shares /asset is a sturdy, ongoing financial benefit for the city.

Furthermore, once the shares are gone, they are gone, and this asset can no longer be leveraged or support future revenue raising for Council.

I agree also with the need for the Auckland Council to focus more firmly on managing their 'say' in this shareholding.

The airport shares are a strategic asset that has paid good dividends in the past and will again in the future. The profit from the Airport shares doubled last year since Covid. The AFF relies on the rapid sale down of any shares at all from the airport because it needs to be liquid to go into the AFF and then the Council will have no stake and therefore will expose itself to share market risk and right now AIAL is making a killing. Our population is growing at 2.8% per annum and a majority of the migrants come through Auckland Airport. 38% settle in Auckland. We are also concerned that the fund would be whittled down in time in a reactive way rather than being used strategically to transition to a low-carbon and resilient economy, and city.

There are currently no ethical parameters for the Future Fund, so it might invest in companies that exacerbate the climate issues that the fund is designed to address. Investing in a non-ethical fund may jeopardise council's access to low-cost infrastructure loans via Green Bonds.

#11163

The AFF is a megaplan which could turn out to be a big waste of money (and assets). If we sell the AIAL and port ops are we not better to divvy up the proceeds among the different Local Boards and see what solutions can be found locally to some of the major problems? I don't think that the Council is very good at making plans for how to spend so much money and they are also not good at analysis. Perhaps with less money distributed more widely and in manageable amounts, more good might come for the city? What problems are we trying to solve here? With the AFF. Again, wouldn't the money that is going into self-insurance be better spent if distributed?

There's no discussion on the lost costs of selling the AIAL and the ports – what are the costs of getting rid of the two assets? We need to be crystal clear on the fact that what is being 'bought' in the Super Fund is going to benefit Aucklanders....we paid for the assets that are going to be sold. It's not clear how Aucklanders are going to benefit from the creation of the AFF. There may be benefits to Aucklanders from the AFF but it's not clear in the document.

Furthermore, we've just had Covid, supply chain issues, inflationary issues and cost of living issues – so these have impacted the performance of the shares.

Put a halt on the AFF and more fully explore the options – also think about selling the AIAL shares and the port lease when they are at maximum profitability and not now when they are only reaching the levels of what they once were.

With all this in mind, I submit that the Council push pause on the sale of these shares, and instead, retain them.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Leasing the port would privatise it for a generation or longer. We would lose control over a key part of our waterfront and the income from its profits (\$52M last year). The proposal may also lead to worse outcomes for workers, and higher costs for New Zealand businesses and consumers. We are concerned also that there will not be sufficient maintenance and modernisation in the latter years of the lease, meaning Aucklanders would have to bear these costs.

#11163

Furthermore, I do not trust that we have the know-how and firepower required to manage a contract with a major overseas player. They will undoubtedly have better lawyers than us. The contract will require a great deal of resource to run. We will have to contract in the expertise, ie, buy it. Especially as we have been getting rid of 'backroom' Council staff.

As with sale of the airport shares there are real questions around what value we Aucklanders are going to get from the sale. What is the money that is made going towards? More paying down debt? The value of maintaining the asset is far more than just the cash. If you contract out the port operations you open our city up to a whole lot of risk that isn't there with operating and owning it. We have been doing this for many years now and its going ok, we have money and not a stinky contract that might not even work.

With the port (and it's the same for any port in NZ) there's a very clear income stream. We know the capacity of the ships coming through, we know the cargo, therefore the cash value is X. That's as easy to monetize as selling the lease.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Put a halt on the AFF and more fully explore the options – also think about selling the AIAL shares and the port lease when they are at maximum profitability and not now when they are only reaching the levels of what they once were.

The reinsurance plan for the AFF is also difficult. If you have a reinsurance fund it needs to be liquid (it needs to be available) because if there's a disaster, you don't have time to think about how you are going to liquidate the asset. We should be building a 'near cash' instrument. However, the more liquid the instrument is, the less return you get. And, if you are trying to get a 7.5% return on the assets but you need a

#11163

guaranteed 5% then the remainder of the assets have to work harder to hit the 7.5% mark.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Without a firm costed proposal it is hard to comment. Let's have more conversation regarding opening up more waterfront and the future of the port. To do this it needs to be kept in public control.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount	Support

#11163

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

#11163

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important

#11163

Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

The accountability policy is going to be watered down so it can be achieved. Strange.

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

In particular, more cycle ways and more storm water management

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11186

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Reinstate all planned cycle ways. More safe cycle ways are urgently needed.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

This looks like asset sales by stealth to me.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#11186

Tell us here:

Retain public control

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The three options (central, more, & less) proposed in the consultation are not the only options, the same goes for the corresponding rates rises. For example, we could get much-needed investment in transport services and climate resilience, as stated under the ‘pay more get more’ option, with a rate rise of less than 14% in year one. There are

#11190

other areas where savings could be made which are not interdependent. The 'overall direction' oversimplifies very complex decisions.

We must prioritise looking after our people and planet by investing in the things that provide us with life's essentials, such as fresh air, clean drinking water, hazard resilient landscapes and basic needs, like accessible transport and a sustainable waste network.

I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways. This includes:

- more e-bike trials and e-bike loan schemes
- supporting Auckland Transport to deliver learn to ride schemes for adults
- supporting the

I want Auckland Council to spend more on ensuring public transport is affordable, accessible, and reliable.

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

Focus on making all day bus lanes instead of dynamic lane changing, as we need to move more people onto alternative ways of getting around (public transport and cycling) instead of the private car. Having a private car built environment locks people into poverty (fuel, time, health) and will not make our cities more efficient.

Improvements aligned with the Central Rail Link like the Karanga-a-hape station improvements project, which includes a protected cycleway along part of Pitt street, a pedestrian mall in Mercury Lane, and could include improvements for Canada Street.

I agree with:

- making public transport faster, more reliable and easier to use by investing in rapid transit network actions, such as making it easier to pay and introducing capped weekly public transport passes
- network optimisation, reducing temporary traffic management requirements and introducing dynamic lanes
- please spend money on previously-planned initiatives, such as some raised pedestrian crossings and cycleways. There is such strong existing support from community and local businesses for these initiatives, with so much work having gone into already. If you're thinking about why we should, why should we let go of the time investment that has already gone into making these projects happen.

#11190

Put in cycleways and pedestrian improvements as a part of road maintenance projects, such as road resurfacing.

Where I'd like Auckland Council to do/spend more

Public Transport - Ensure public transport is affordable, accessible, and reliable, prioritising investment in public transport infrastructure over road spending.

Active Transport - Urgently transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Water Quality - Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Environment and Regulation - Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

As well as the options provided in the structured consultation, I would also like the Council to do more of the following:

Protecting and working with communities by continuing to prioritise the funding and delivery of Making Space for Water in partnership with Central Government.

Ensuring adequate support for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly programme, the Communities in Need programme, and supporting work on Council land and marae. This can be achieved by re-establishing pre-2023/2024 budget funding for these areas.

Supporting frontline, volunteer powered communities by ensuring local boards are adequately funded and grants are available. Grants and investment into community-led services provide great value to Aucklanders. For every dollar that Council invests we get back many more volunteer hours.

Supporting moves to a circular economy and zero waste, ensuring waste materials are seen as resources to be reused, repaired, repurposed and recycled, and are diverted from landfill.

Lowering emissions by becoming a leader in localised renewable energy generation by enabling local integrated energy solutions to support community owned energy groups.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11190

Reduce or do little spending on roading projects that only target private vehicles, such as building motorways.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I agree with:

- making public transport faster, more reliable and easier to use by investing in rapid transit network actions, such as making it easier to pay and introducing capped weekly public transport passes
- network optimisation, reducing temporary traffic management requirements and introducing dynamic lanes

the proposal will mean our ability to reduce our emissions under the Transport Emissions Reduction Pathway will not be met. Again, the investment that we have already spent in terms of people's times on making the proposal, and asking for people's say on what they think will be lost. Wayne Brown talks about 'listening to communities', tell him 'what about all the people who have been asking for urgent action on the climate emergency that we have been facing for generations?' . I am so sick of having to say the exact same thing about

Wanting increased investment in cycling infrastructure and maintenance. Investing in cycling has benefit-cost ratios of anywhere from 10:1 up to 25:1. Wayne Brown promised us "better, cheaper and faster" - has he looked at building more cycleways for people to get around? E-bikes HAVE ALREADY revolutionised getting through Auckland's steep areas, but there are also lots of flat places to get around.

Support for more raised pedestrian crossings and increased maintenance of our footpaths. Auckland's pedestrian environment is so poor. There are places that are only roads and houses, there is nobody walking around on the street, how can this contribute to safer streets?

Support for "Dig Once": aligning delivery of transport projects with delivery of other infrastructure such as water improvements, to reduce costs and disruption overall. We know that construction can take a lot longer than planned, so the more we can bundle in improvements into one, this will also reduce the pollution from construction waste.

#11190

Utilising the existing roadspace for cycleways, bus lanes and pedestrian crossings and improvements through, removing on street parking, reducing speeds are all things that we can do now, that are low cost and quick.

2a. Is there anything you would spend more on?

- please spend money on previously-planned initiatives, such as some raised pedestrian crossings and cycleways. There is such strong existing support from community and local businesses for these initiatives, with so much work having gone into already. If you're thinking about why we should, why should we let go of the time investment that has already gone into making these projects happen.

Put in cycleways and pedestrian improvements as a part of road maintenance projects, such as road resurfacing.

The Making Space for Water programme's inclusion of "blue-green corridors". utilise some of the existing spaces to create paths which contribute to our cycling and walking network, and make more natural drainage pathways to address the oncoming onslaught of more extreme weather events.

Auckland Climate Grants and the Live Lightly Programme which can fund community-led programmes to empower people to ride bikes for transport

Support for multi-modal trips: such as the proposed \$50 weekly cap for public transport, bikes on buses, more investment in train services, and whether or not you support light rail

We are massively underspending on cycling - the UN recommends 20%, but in Auckland this is consistently only 1%.

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. We need to get people out of private cars, into buses, trains and ferries and onto cycleways. Failing to understand and action this will result in a continuation of over investment in roading projects and underinvestment in the public and active transport networks. The evidence is there and the evidence is clear.

Cutting "low-value initiatives, including raised pedestrian crossings and expensive gold-plated cycleways" is an ideological move that fails to align with the Council's own Transport Emissions Reduction Pathway. In monetary terms, this means cutting funding for cycleways by \$141.5 million.

#11190

Additionally, I support Auckland controlling its own transport priorities. An “Auckland Deal” provides the means for central government to support Auckland Council’s priorities, rather than the other way around. A surface light rail network would provide opportunities for growth, development, and productivity in the city. I believe this should be included in the “Auckland Deal” with central government. I urge Auckland Council and the Mayor to make the development of a surface light rail network, starting with the City Centre to Mt Roskill line, a priority in such a deal.

I cycle to get around, and there is SO MUCH pollution from cars, trucks, non-electric buses. There are countless studies showing how this pollution affects our health, and especially children's health. It makes me sad every day to smell this, and to think that the politicians have the power to take away all of the initiatives that are saving our future generations. I have said so many times before in submissions, that the climate emergency has impacted me personally and emotionally so deeply, that I am choosing not to have kids. My grandparents are bewildered. Why would I bring them up in such a chaotic world, where there are people in power who cannot think beyond their electoral term, and cannot think about the benefits of protecting environment that it can bring?

2b. Is there anything you would spend less on?

Reduce or do little spending on roading projects that only target private vehicles, such as building motorways. Stop widening roads for more car only lanes. The research has shown, for so long, that more lanes does nothing for reducing congestion.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

The land around the stadium looks underutilised, if there was more activity such as high density residential

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#11190

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Dont sell public resources as when they become private, they are less likely to pay tax, probably dont contribute to our city's economic development and employee people who arent protected by the right unions. We need to keep as many public assets as possible.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#11190

Tell us why:

auckland's waterfront could be an amazing connected public space from the Ferry to Silo Park, with the ongoing development of the waterfront. Which in turn can generate more tourism, business development and improve safety in the city.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

See above.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Other</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>

#11190

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

#11190

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

#11190

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Funding and support for community driven environmental work (e.g., habitat restoration, plant and animal pest control).

Funding and support for community groups that focus on climate action (e.g., waste, active transport, education, etc).

Growth of active transport networks such as cycleways and walkways.

Establishment and development of green corridors.

Development and implementation of Climate Action Plans.

Circular economy strategies and actions.

Grants and investment into community services provide great value to Aucklanders. For every dollar that the council invests we get back many more volunteer hours. Many boards invest a significant amount into support for local community conservation to protect taonga species or landscapes. Efforts like these are important for both nature and communities, enabling and empowering residents to take action for themselves, increasing ownership of our environmental challenges across the community, resulting in more long-term sustainability for conservation activity.

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Looking after marginalised groups, elderly, disadvantaged, special needs etc

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11192

No, we need to increase services, not reduce them.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I 'support most' of the transport proposal.

I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

I want Auckland Council to spend more on ensuring public transport is affordable, accessible, and reliable.

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. We need to get people out of private cars, into buses, trains and ferries and onto cycleways. Failing to understand and action this will result in a continuation of over investment in roading projects and underinvestment in the public and active transport networks. The evidence is there and the evidence is clear.

Regarding the Mayoral proposal, I am encouraged to see initiatives to make public transport more accessible, such as the \$50 weekly cap and introduction of diverse payment options. Another positive is the work programmes which look to improve public transport services, such as network optimisation, expansion of the electric train fleet and completion of the City Rail Link. Unfortunately, alongside these positives, there are some concerns. A couple of examples are; the removal of 'low performing' bus services, and the several references to roading focused projects.

As well as continuing to invest and improve our public transport network, it is essential that the Council urgently supports the transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Cutting "low-value initiatives, including raised pedestrian crossings and expensive gold-plated cycleways" is an ideological move that fails to align with the Council's own

#11192

Transport Emissions Reduction Pathway. In monetary terms, this means cutting funding for cycleways by \$141.5 million. This makes no sense as we know increasing funding for active transport infrastructure is a smart investment that can benefit the economy, the environment, and public health. Cycling is a low-cost, low-carbon and low-impact mode of transport that can reduce congestion, pollution, and greenhouse gas emissions. Cycling also promotes daily, incidental physical activity, mental wellbeing and social inclusion. By improving the safety, accessibility and attractiveness of walking and cycling, more people will be encouraged to choose it as a regular means of travel, creating a virtuous cycle of benefits. This approach also creates better use of existing roading assets by making space for those who cannot choose cycling, walking or public transport.

2a. Is there anything you would spend more on?

I 'support most' of the transport proposal.

I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

I want Auckland Council to spend more on ensuring public transport is affordable, accessible, and reliable.

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. By improving the safety, accessibility and attractiveness of walking and cycling, more people will be encouraged to choose it as a regular means of travel, creating a virtuous cycle of benefits. This approach also creates better use of existing roading assets by making space for those who cannot choose cycling, walking or public transport.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Stabiity is essential in the current times, allowing people to make plans, know where they are and what is near them and allow time for future developments when times are better

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#11192

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

If others wish to purchase these shares and assets, then chances are they will be a good long term investment, Keeping investments is the only way forward for the future.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Keep the status quo, and expand other port options elsewhere, if needed. Focus in improvement transport options in and out of the city for the port and freight

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Invest some in a fund such as the AFF, but also use some to fund council services.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#11192

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

enable safe walking and cycling

fund community activities and support successful community groups

further reduce speed limits

#11219

further improve public transport

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less investment in cars

less contracting out council work, more in-house accountability

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

no stop to raised pedestrian crossings or cycleways

further reduce speed

2a. Is there anything you would spend more on?

free public transport for children

enable bikes on buses

2b. Is there anything you would spend less on?

no spraying and mowing of berms in front of residential property

less road repairs 'just because it is on a regular roster'

more accountability for contractor's deliverables

3. Which options do you support for the North Harbour Stadium?

Change the operational management

#11219

Tell us why:

I don't think selling assets is a great way to resolve issues.

I also think it would be beneficial to improve access for more community activities.

I could imagine that there would not be a great deal of redevelopment needed to ensure improved access for community.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Keep control over council assets with council and not a Trust or CCO.

Don't sell AIAL shares as the airport is not only an investment but also an important asset the council should have a say in. Without public interest there can't be a benefit for the public, only for shareholders.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

NZ rail has shown that it is a major mistake to give public assets to private companies. They will draw out all benefits and leave us with a run down asset at the end. Again, like AIAL, the Port is a lifeline for Auckland and a strategic asset we must not lose control of.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

#11219

Continue to use it to fund council services

Tell us here:

Not in favour of the Auckland Future Fund anyway, so won't vote to put money there.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Make sure Council participates in the benefit it provides to businesses through its investments.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

This is prime real estate and could be used for much better public benefit.

Can only be done with a suitable solution for the commercial operation of the port

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Support

#11219

around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

improvements aligned with the central rail link

blue-green corridors - walking & cycling paths through green areas, along streams

#11227

Places where people can develop their cycling skills & confidence (parks, riding tracks, cycle paths away from the road)

programmes to empower folk to ride bikes to get around

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less money in supporting car parking at locations where there's good public transport and cycling options.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

"Dig once" is an efficient approach - align different infrastructure improvements

support a cap on weekly public transport (\$50). Important to be able to put bikes on buses and have reliable train services. We also need light rail. We need a lane for cyclists on the Akl Harbour Bridge, to be allocated for walking/cycling, active transport modes. Please talk to central govt & Waka Kotahi about this.

Note UN recommendations on cycling & walking budgets at 20% of transport budget. So we have a lot of room to improve, currently only spending 1% of transport budget on cycling. This is not only unjust, it also encourages people NOT to get out of their cars.

Investing in cycling has benefit-cost ratios of anywhere from 10:1 up to 25:1

2a. Is there anything you would spend more on?

Safe cycling infrastructure that gets people where we need to go.

A connected network for cycling. Use affordable modes such as pop up protections, e.g concrete /rubber separators like on Ian McKinnon Drive.

Traffic calming saves lives. 30kph in residential & school areas.

Agree with Bike Akl that all these projects need to go ahead:

#11227

Lake road improvements, Manurewa and Māngere Transport Choices, the Henderson Cycleway, Lincoln Road Corridor Upgrade, Great North Road Improvements or the Upper Symonds & New North Road Upgrade Project.

2b. Is there anything you would spend less on?

A dedicated bike ferry is not a good solution - it doesn't work, it's not efficient, it is likely to be unreliable. Better to create that 24/7 dedicated lane for active transport on the Harbour Bridge.

Don't waste money widening roads, instead allocate road space for safer walking, cycling, public transport. Let's be climate conscious.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

I don't go to North Shore at all often (because one needs a car to get there. I can't cycle over the harbour bridge!)

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Franklin Local Board Priorities

7b. What do you think of our proposed priorities for Franklin in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Develop fit for purpose facilities and respond to growth challenges through projects like the Clevedon Village Heart programme, 'Belmont' Sports Park development and the Unlock Pukekohe programme.	Very Important
Fund three-year Strategic Community Partnerships with local organisations that are willing to and capable of delivering social, environmental, cultural and economic outcomes in line with the local board plan and support to these organisations to deliver.	Fairly Important
Support environmental and cultural restoration programmes in partnership with Iwi including Te Kete Rukuruku (place	Very Important

#11227

naming) and Te Korowai Papatuuaanuku (environmental restoration).	
Develop “Franklin Community Occupancy Guidelines” to inform decisions on council-owned facility leases, including leasing charges.	Fairly Important
Find ways to reduce Franklin’s maintenance costs e.g. by replacing lawn with eco-sourced native trees and reducing or relocating public rubbish bins.	Fairly Important
Progress the development and delivery of the Franklin Paths Programme.	Fairly Important
Deliver a refreshed approach to enabling young people in Franklin to access services and participate in their communities.	Very Important
Progress a Pukekohe Cemetery memorial project that acknowledges the unmarked graves at the site.	Fairly Important

Tell us why

7c. What do you think of the Franklin proposed priorities for the 10-year budget 2024-2034?

Do you have any additional thoughts on the proposed Franklin Paths Targeted Rate?

As our local board area is so large, please tell us where you live so we can better understand the views from different communities

8. Do you have any other comments?

Main area of concern for me is supporting people to choose climate-friendly transport modes, instead of being effectively forced to drive cars/trucks etc bec of lack of effective alternatives.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Re-establish the full funding for NETR to pre-2023-2024 budget levels to support delivery and growth of this important work programme and maintain funding to engage young people through schools in environmental/sustainability education programmes.

Invest more and in a quicker timeframe in programmes and projects that support Aucklanders to engage in climate change and urgently reduce emissions including

#11229

support for community programmes, public transport and active transport to respond to the climate emergency and commitments to Te Taaruke-aa-Taawhai Auckland's Climate Plan.

Provide adequate support for community and social services initiatives including contestable grants e.g. RENH, Auckland Climate Grant, initiatives on council land and on marae.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Need to spend less on roading projects that prioritise private vehicles as primary transport mode.

Spend more on public transport to make it more affordable, accessible and reliable for Aucklanders.

Do not reduce walking and cycling infrastructure that delivers emissions reduction, wellbeing and health benefits for Aucklanders.

2a. Is there anything you would spend more on?

Prioritise climate outcomes in planning decisions by making the most of existing infrastructure. We can deliver priority lanes (for buses, freight, cycling) using existing street space.

Prioritise public transport and active modes e.g. cycleways over roading projects to support greater mode shift and reduce reliance on cars.

2b. Is there anything you would spend less on?

Less investment in roading projects as a priority.

#11229

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

#11229

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

More focus needed on also supporting community climate action. Its mentioned in the 2024-2025 priority list but not specifically in the 10 year priorities.

I'd suggest that Albert-Eden focus in these priorities

Funding and support for community driven environmental work (e.g., habitat restoration, plant and animal pest control).

Funding and support for community groups that focus on climate action (e.g., waste, active transport, education, etc).

Circular economy strategies and actions.

8. Do you have any other comments?

I do not support reduction in funding to environmental/sustainability education programmes such as school (youth) engagement in environmental issues proposed through the central proposal to support 50M in operating savings.

I do not support a focus on waterfront activation and development at a time where we need to be investing in climate action, environmental protection and restoration and maintaining support for council services that improve the wellbeing of Aucklanders.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We would like to see the inclusion of more Play. We need to better consider the needs of tamariki in our city. The word 'children' is barely mentioned in the LTP (despite some of the local boards wanting to see more provisions for Play in their area) and despite the liberal use of children in playgrounds as marketing images for the LTP. 20% of

#11240

Auckland's community was aged 0-14 years as at the 2018 census (just under 314,000 people), whereas only 12% of Aucklanders were over 65 - but which demographic gets the most attention in the LTP, do you suppose?!

We also specifically want to see the Leys Institute saved from decay, and a resolution over the Pt Chev Library. The Library is central to the wellbeing of the community (many people use it for more than just books!), and its absence is causing hurt and bigger issues for the community.

We would also like to see more funded walking and cycling school buses; more footpath upgrades; more raised pedestrian crossings across our city; slower pedestrian crossing light phases; more protected cycling infrastructure; speed reductions on roads; community safety initiatives; better pedestrian lighting across our city; lighting our parks and playgrounds (better quality lighting + lighting at all times of the day); surface light rail for Auckland; more public art.

Much of this could be addressed with more feminist / gender inclusive planning policies and solutions.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Do not build more roads. Do not rip out raised pedestrian crossings. Do not un-do road safety measures across the city.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We support:

completing the City Rail Link

improving bus, rail and ferry networks for more reliable service

funding new cycleways and shared paths so that more people have access to the network

delivering new and improved footpaths across Auckland, particularly in the city centre.

#11240

“Time of use” charging

a “room to move” programme to review parking in critical areas and increase revenue from parking and Park & Rides.

50% electrified buses by 2030

expanding the rapid transport network (RTN)

a weekly \$50 cap on public transport fares

However, the proposal cuts some bus routes, reduces funding for safe walking and cycling, and does not do enough to reduce emissions. Less uptake of walking, cycling and public transport will mean a transport system that functions worse for everyone.

2a. Is there anything you would spend more on?

We support:

completing the City Rail Link

improving bus, rail and ferry networks for more reliable service

funding new cycleways and shared paths so that more people have access to the network

delivering new and improved footpaths across Auckland, particularly in the city centre.

“Time of use” charging

expanding the rapid transport network (RTN)

a weekly \$50 cap on public transport fares

However, the proposal cuts some bus routes, reduces funding for safe walking and cycling, and does not do enough to reduce emissions. Less uptake of walking, cycling and public transport will mean a transport system that functions worse for everyone.

2b. Is there anything you would spend less on?

#11240

We think there are areas where the council could spend less. For example, instead of expensive and unnecessary widening of already wide roads like Te Irirangi Drive, we could use existing space for bus lanes and active modes. The Eastern Busway could be re-scoped to use the existing road corridor and still have room for a cycleway and footpath. The excess land could then be used for housing.

We also do not support the full expansion of the 'unsealed roads' programme.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The airport shares are a strategic asset that has paid good dividends in the past and will again in the future. We are also concerned that the fund would be whittled down in time in a reactive way rather than being used strategically to transition to a low-carbon and resilient economy, and city.

There are currently no ethical parameters for the Future Fund, so it might invest in companies that exacerbate the climate issues that the fund is designed to address. Investing in a non-ethical fund may jeopardise council's access to low-cost infrastructure loans via Green Bonds.

4b. Which option do you prefer for the future of Port of Auckland?

#11240

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Leasing the port would privatise it for a generation or longer. We would lose control over a key part of our waterfront and the income from its profits (\$52M last year). The proposal may also lead to worse outcomes for workers, and higher costs for New Zealand businesses and consumers. We are concerned also that there will not be sufficient maintenance and modernisation in the latter years of the lease, meaning Aucklanders would have to bear these costs

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Port dividends have always been used to fund council services and we do not support a reduction in services when the population is getting larger and the challenges are getting greater.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

#11240

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

It will open up more of the waterfront space for public enjoyment and events. Cruise ships could be relocated from Queen’s Wharf, meaning less impact on ferries and a more enjoyable space.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

It would be hugely expensive and environmentally damaging to move port operations from Bledisloe Wharf, and the port would be less able to return a dividend to council.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value</p>	<p>Support</p>

#11240

residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

#11240

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better public transport, more cycle ways, increased education on waste minimisation, more climate mitigation, improved water quality, increased community programmes

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11242

Selling off public assets

2. What do you think of the transport proposal?

I don't know

Tell us why:

2a. Is there anything you would spend more on?

Cycle ways and public transportation

2b. Is there anything you would spend less on?

More roads

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

We need to keep our assets for our future. Does not make economic sense

4b. Which option do you prefer for the future of Port of Auckland?

#11242

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

#11242

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Do not sell our assets.

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important

#11242

Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Awesome

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More of fixing potholes and re-surfacing roads.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11246

Speed bumps, cycle ways, public transport, re-doing central city roads to be pedestrian right of ways

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Want to reduce temporary traffic management and stop-go men/women.

2a. Is there anything you would spend more on?

Removing speed bumps

2b. Is there anything you would spend less on?

Cycle ways, bus ways, bus transport

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Would like it returned to the original trust that run it till around 2017 or 2018.

Alternately, use that to replace Eden Park for major cricket events (could double up for having an Aussie Rules event each year as part of their pre-season to get wider use)

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

#11246

Should sell AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Want to keep the port, largely as is, but more efficient. Do not want to see expansion of the land area used by the port

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Keen to sell AIAL shareholding. Largely keep POAL as is, but run it more efficiently (as POAL has been known as terribly inefficient for both their IT and their port operations for around 20 years)

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Happy with POAL size as is

#11246

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Comfortable that need that within POAL to have best chance of POAL improving efficiencies to try to catch-up with Port of Tauranga

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Other
Re-introduce recycling charges for schools.	Do not support

#11246

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Keen to reduce the extra funding for buses. Very keen for environmental support - both of native ecosystems, and also with wider green waste collection and better and more frequent with rubbish collection.

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#11246

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Totally disagree with removing rubbish-bins from our parks. Think that is terrible for the environment and climate.

Strongly support getting a new location for Point Chev Library and getting that underway.

#11246

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Not very impressed. Need greater focus on cleaning up the environment, providing more rubbish bins in parks, and greater quantities of green waste collection.

Really important for library to be resetup and additional funding for it. Want library immediately in the short term, rather than waiting for the medium term.

Want less advocacy to Auckland Transport, except if it is to remove speed-bumps, and reduce cycleways.

Nice to have events in Coyle Park, but just a nice-to-have, not a high priority

8. Do you have any other comments?

Don't believe in re-distribution of assets from one local board to another, and think the method proposed for this is arbitrary, and not equitable.

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Climate action - support the reduction of emissions and build resilience in Tāmaki Makaurau Auckland.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11258

No

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I do not support Auckland Council stopping additional cycleways.

2a. Is there anything you would spend more on?

Cycleways/initiatives that support active modes of transport, road improvements, public transport.

2b. Is there anything you would spend less on?

New roads as this does not solve congestion.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

I agree with the concept of a future fund, but I'm not confident with the current approach.

#11258

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Look at alternate solutions that lead to the relocation of the port within 15 years while still maintaining the supply chain for key industries in Auckland.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

#11258

The waterfront needs to be better utilised as a public space, however, not at the detriment of Auckland's supply chain security.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know

#11258

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More focus on active and public transport and incentives to reduce car use

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11266

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I do not agree with stopping any cycle way development, is essential to reduce car use and to achieve a more liveable city

2a. Is there anything you would spend more on?

Better cycle infra-structure- promote use public transport and of smaller/more efficient cars/car sharing

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

#11266

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

Essential to prioritise environmental concerns but need communities to connect also; these can be interrelated.

We need to pro-actively get the community on board for environmental priorities and climate resilience.

Mt Albert doesn't feel it has a civic center but think it is important for sense of community

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Environment and regulation	Do more
Parks and Community	
Economic and cultural development	Do more
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More focus on the natural environment as essential infrastructure for resilience for people and built infrastructure

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11268

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Cycle ways and walk ways are essential for all, including drivers as it reduces people on the road

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

It's a sensible idea to be future proofing as much as possible from a financial perspective

4b. Which option do you prefer for the future of Port of Auckland?

#11268

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Active and alternative transport modes. Anything that supports walking, cycling, wheelchair users, prams, scooters, etc. Allowing people the freedom of choice and the access to freedom of movement

#11274

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I'm not concerned with paying less. The Council could do less and pay less towards supporting any and all car infrastructure. The majority of the time, there is no other safe or economic alternative to driving. Not allowing the citizenship any reasonable alternatives to needing a privately owned vehicle.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Could potentially wait on items such as investigating a bike ferry if it's clear there either isn't enough money or political will to follow through with such an idea - if there is not enough capacity on the current ferries for everyone and the necessary items they wish to bring over then that doesn't feel like it needs a specific 'bike' ferry solution, it is a capacity issue that should be addressed by the providers of the service to increase the service they provide.

2a. Is there anything you would spend more on?

Anything supporting alternative (prams, wheelchairs) and active transport modes (walking, cycling, scooters) - going to both public and private events where I can ride safely and have somewhere to lock up to is significantly more enjoyable than having to leave earlier to allow for traffic, struggle to find parking, then pay for parking. I would rather the choice to drive due to 'convenience' was much more balanced with that of taking a bus, train, walking or cycling.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

#11274

Changing the operational management to develop the community engagement will provide greater direction to the future direction of the Stadium by building relationships with the local community - they will be the best positioned to advise, including them is the best way forward

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Selling assets for short term benefit is short sighted. An "Auckland Future Fund" is also surely just investing money with extra steps, but with ambiguous spending priority that will undoubtedly lead to it being spent on a project of the moment at some point.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Leasing PoAL to an external entity sounds like a recipe for disaster. It will either become untenable to recover operational control once it has been in the hands of foreign operation

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

#11274

The suggestion to use an investment to fund an investment seems strange. Funding council services or activities that directly contribute to future resilience makes more sense, see the benefits that will hopefully allow communities to need less support during future disasters

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

I would be keen to see a detailed idea about what public benefits are currently missing from the Cloud, North Wharf, Wynyard Quarter, the development around the ferry building and Te Komititanga, and how they can be provided by access to Marsden and Capta

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

I would be keen to see a detailed idea about what public benefits are currently missing from the Cloud, North Wharf, Wynyard Quarter, the development around the ferry building and Te Komititanga, and how they can be provided by access to the land at Bledisloe Terminal

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#11274

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Encouraging people into parks and engaging in the community is great, but removing rubbish bins in the areas you're planning to increase patronage needs to be handled with care to ensure it doesn't result in increased littering. Behaviour needs to be easy for people (especially groups) or it won't be adhered to.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Seems to be ticking all the boxes - obviously community improvement is multifaceted and all the different aspects are intertwined.

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- Eke Panuku’s redevelopment of town centres, which often includes making safe walking and cycling connections, as well as improving access for disabled people.

#11276

- Improvements aligned with the Central Rail Link like the Karanga-a-hape station improvements project, which includes a protected cycleway along part of Pitt street, a pedestrian mall in Mercury Lane, and could include improvements for Canada Street.
 - The Making Space for Water programme's inclusion of "blue-green corridors". These are walking and cycling paths through greenspaces and alongside streams, adding to our walking, cycling network while also creating a natural drainage area.
 - Auckland Climate Grants and the Live Lightly Programme which can fund community-led programmes to empower people to ride bikes for transport
- More investment for local boards: enabling them to better deliver on local climate action plans and local transport priorities.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I want increased investment in cycling infrastructure; separate cycle lanes for all road in Auckland.

I want increased investment into raised pedestrian crossings, lower speed limits in urban and suburban areas.

2a. Is there anything you would spend more on?

- Cycleways! Safe cycle infrastructure, accessible for all kinds of bikes, that get people where they want to go. More end-of-ride facilities for all kinds of bikes, more repair stations along key routes, and better, more regular maintenance of pathways throughout the city. The sooner this stuff is in the ground, the better off our city will be.
- A safe, connected cycle network can be delivered fast and affordably by reallocating road space and using pop up protection like concrete or rubber separators.

#11276

- More safer speeds (30km/hr) for residential areas, around schools, and through town centres, with traffic calming and raised pedestrian crossings so that everyone can get to where they are going safely.
- Low traffic neighbourhoods or using modal filters (stuff like planter boxes and bollards which prevent cars coming through into a neighbourhood from a main road, but allow for bikes and pedestrians) as a fast and affordable way to make safer streets and empower people to walk, cycle and wheel for their trips.

2b. Is there anything you would spend less on?

- A dedicated bike ferry across Te Waitematā between CBD and the North Shore.
- Spend less on road widening for projects, and instead reallocate road space for delivery of walking, cycling, and public transport networks, creating an overall more efficient, affordable, and climate conscious transport network.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

<p>we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	Support
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	I don't know
<p>Re-introduce recycling charges for schools.</p>	
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	

#11276

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	I don't know

#11276

Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Please just provide safe, separate cycle lanes throughout Auckland. Lower speed limits further, not just around schools but in all residential areas; we don't need more children dying.

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- Blue-green corridors - providing safe, accessible, and environmentally friendly alternatives to roads for commuters and recreation
- A more efficient, connected, and accessible public transport network that is prioritised over roading and private transport

#11284

- Incentives for choosing environmentally friendly options over unsustainable modes and ways of living

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

- Roading improvements
- Petrol and private vehicle subsidies
- Private meetings and procedures that don't have a direct benefit for the public

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

- Increased investment in public and active transport should be a priority far ahead of roads and car use. Roads and cars are not sustainable and will not lead to positive long-term outcomes for Auckland.
- Optimisation of routes and services should be the main focus for Auckland's public transport network.

2a. Is there anything you would spend more on?

- LIBERATE THE LANE - introducing a cycle priority shared path on the Auckland Harbour Bridge. The proposed alternatives are either not as cost-effective, not as environmentally friendly, ignorant of cyclists' needs, or both.
- Maintaining and improving (where possible) the public transport network. Subsidising travel for people who need more of a boost in order for them to start using it. Discounts for new public transport users, young people, and people with additional mobility needs!

2b. Is there anything you would spend less on?

- Road widening and road maintenance. Roads and private transportation need to be de incentivised, pushing uptake of and spending on public transport and active transport modes which will in turn bring more money in for reinvesting into improving access and quality of those modes and helping to future proof the city.

#11284

- Exploring further alternatives to the Harbour Bridge cycle lane, such as bike ferries or a second harbour crossing

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Honestly, this isn't something I have looked into a lot given that I don't live on the North Shore and am not aware of who actually uses the stadium. I do think that if the \$33 million annual maintenance costs could potentially be used in a more effective way that had greater community benefit, it would be worth exploring options for that.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

#11284

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less funded events. Less cultural spending. Don't do electric ferries. Don't do anything that is not absolutely necessary. Stop expanding the scope of what the council does.

#11289

Just simply provide essential services to rate payers nothing else. No influencing culture.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Causing more problems on the road. Roads are being blocked by bus lanes at not consideration for the over all flow of the traffic. Like newton road leading to Ponsonby road. Make these changes in 10 years time when we are all ready and want it

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Less on bus lanes and don't remove car parks

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

#11289

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Will be run more efficiently by a private company

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Return to rate payers

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

Sell property to private

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11290

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Getting people out of cars and into public transport and walking/cycling is critical for meeting our climate obligations and for making Auckland a truly liveable city. I disagree with proposal to gather revenue from public transport. Public transport needs to be cheaper than taking a car. It is a public service. Most journeys are less than 3km which many could cycle if it were safer. Active transport will have financial benefits in the long term and create healthier, more connected communities. Investment in cycle ways is really important. I am very concerned about central governments proposal to raise speed limits. I would encourage Auckland council to retain slower speed limits to keep people in our city safe.

2a. Is there anything you would spend more on?

Cycleways

2b. Is there anything you would spend less on?

Roads

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
--	------------------

#11297

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

pt chev librqry great. Community is really suffering with it's absence. Taking too long to find a better solution. Do not remove bins from parks. dumb!! People who are environmentally conscious already take their rubbish home to recycle soft plastics etc,. People from outside the suburb don't care and need an easy solution to do the right thing or they will just dump.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

pt chev library faster, don't remove the rubbish bins, continue to have public cultural event in parks

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Council park contractors to be aware of pest plants and eradicate where possible

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11305

Reduce the mowing of parks, reserves and public areas and plant more shrubs and trees

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We must reduce emissions. Speed bumps are working and reducing accidents.

Cycleways are the future and have a very high benefit to cost ratio. Many cities such as New York, Barcelona, Amsterdam, Christchurch London, LA, Melbourne, have up to several 100s of km of popular bikeways

2a. Is there anything you would spend more on?

Monitoring of our rivers and air.

Too many people are dying and having health problems such as asthma

2b. Is there anything you would spend less on?

Stop supporting very high cost urban sprawl

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

#11305

Tell us why:

If there are future shocks then a fund is required. This should be managed by professionals and not in house. It could be split amongst a few managers

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Council shouldn't be managing ports.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Council receives income from other services that is not invested in such a fund such as bus fares, swimming pool charges.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

#11305

Downtown Auckland is very important to Auckland and NZs economy. There are many businesses located there. Also the university, museum and hospital and many galleries and sport facilities. We must do all we can to entertain visitors, localsbusiness peopl

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Again this is prime real estate and we want to encourage the area to be more people friendly

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support

#11305

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools .	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

no

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

#11305

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

im new to the area

#11305

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

dont know

8. Do you have any other comments?

Auckland city is competing with other ncities such nas Melbourne, Sydney.

It has some competitive advantages such as temperate climate and Hauraki Gulf, its parks and culture. We must support our many businesses that are located her and support them.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Environment and transportation are the key elements for a survivable future city

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11307

Zero funding for infrastructure in greenfield developments. Developers must pay 100% of the cost to build sprawl. There's plenty that can be done with managed intensification.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Cycleways and other active modes are a critical part of "getting moving". This has to be re-conceptualized as a long term investment not a short term cost. AT the same time there needs to be investigation of how to achieve the goals in a smarter way. Doing it at scale instead of in bits, is probably a way to get more for a lower unit cost.

2a. Is there anything you would spend more on?

Cycleways.

Lobbying the Government to restore appropriate funding for transport in Auckland - this needs the council to work out the PR angle that will sell this. Make clear that 1960s style arterial road development is not wanted

2b. Is there anything you would spend less on?

Not one penny for east-west highway!

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Too many stadia in Auckland, this is valuable land, let's do something worthwhile with it.

#11307

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

It's important to try to get the city out from under the financial control of Government.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The lease proposal just introduces another layer of deferred responsibility and profit stripping. Not a good way to get the best return for citizens/ratepayers.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Running expenses have to come from somewhere!

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#11307

Tell us why:

Other options for the port aren't realistic at this point. Don't release land that's needed. Really need to move cruise ship operations away from Viaduct too, in order to have reliable ferry operations, so don't lose the other possible wharves

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Waitākere Ranges

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

#11307

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Don't really see how urban parks without bins can work.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

#11307

Waitākere Ranges Local Board Priorities

7b. What do you think of our proposed priorities for Waitākere Ranges in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Initiatives to support community resilience and safety.	I support most priorities
Progress priority actions from the Waitākere Ranges Local Climate Plan (currently under development).	Very Important
Restoration and enhancement of significant ecological areas on local parks and in buffer zones around the regional park.	Very Important
Operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru.	Very Important
Continue to activate library spaces with programmes, services and events.	Very Important
Operating grants to support Glen Eden and Titirangi Community Houses.	Fairly Important
Invest in our relationship with mana whenua, Te Kawerau ā Maki.	Fairly Important
Initiatives to support youth/rangatahi.	Fairly Important
Progress an application for Waitakere Ranges Heritage Area to become a dark sky place.	Fairly Important

Tell us why

Fairly Important

7c. What do you think of the Waitākere Ranges proposed priorities for the 10-year budget 2024-2034?

#11307

8. Do you have any other comments?

CCOs are pretty broken, but "taking back" usually means losing lots of prior knowledge and a big period of confusion. Maybe not now?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Developing community capability and resilience in the face of climate change.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11310

Less investment in roads, except when the benefit is for public transport.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

We are in a climate emergency and Aucklanders have to get out of their cars.

2a. Is there anything you would spend more on?

Light rail to the airport. Cycleways. Electric public transport vehicles.

2b. Is there anything you would spend less on?

Less investment in roads, except when the benefit is for public transport.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

I don't think we should sell public assets.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

This is just a veiled strategy for asset stripping public property. The airport shares are a future fund. They make good returns and are a legacy for the future.

#11310

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

A 35 year lease is effectively a sale of the asset. This is a good money earner, keep it, enjoy the profits and increase rates to pay the cost of climate change.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

I want the profits from running the PoA to come to my city, not a private crowd. If the private sector are willing to pay \$2b for the right to run it, what does that tell us?

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

They are stunning areas that Aucklanders should be able to enjoy in the way Wellingtonians can enjoy their port.

#11310

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

we can't afford a new port. we need to prepare for climate change.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

#11310

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

Supporting community groups with new skills is critical with respect to climate change. People will need to be equipped to help themselves and support their communities directly.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

More focus on climate change is needed.

#11310

8. Do you have any other comments?

Climate change is the critical issue Local Boards need to address. Urban biodiversity, better tree protection and reduction of lawns which are wasted opportunity for carbon sequestration are areas that should be considered.

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Provide a large recreational facility for Central-West Auckland, multiple courts, gym, track and field etc

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11314

Funding for economic development and cultural events

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#11314

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

I don't know

#11314

around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025,	Support

#11314

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#11314

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Where is the priority to provide recreational facilities to the area? We have thousands of new residents and homes being built and we've just the Unitec facility removed. We need a large recreational facility for the community.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Needs to be advocacy for a recreation facility in this area. This should be a significant priority for our local board.

8. Do you have any other comments?

- I support retaining the Sport and Recreation Facilities Investment Fund and the strongly support the proposal for \$35 million of additional funding being added to the Fund.
- I propose that Council refines the criteria of the Sport and Recreation Facilities Investment Fund to make the additional funding non-contestable.
- I propose that the additional \$35 million funding is used to fund a range of community sport and recreation facilities including, but not limited to, indoor sports facilities.
- I advocate for the retention of the Sport and Recreation Facilities Operating Grant and ask consideration for an increase to the Grant.

#11314

- I support Council seeking changes to the law relating to development contributions to enable Council to adequately recover the costs of growth and to use development contributions to fund community sport and recreation facilities.
- I support a review of costs and contractual structure for maintenance on parks and open spaces, specifically for sports fields.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland Council should do more to realise its Climate Plan and Transport Emissions Reduction Plan.

#11323

Theatre and the arts, cultural, and creative community are important for Midtown regeneration. Bringing people into Midtown not only helps the economy, but also safety, social cohesion, making our city more inclusive and welcoming.

Continue to support arts events, cultural festivals, theatre, dance, music, comedy, and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Council should stop enabling housing at the edge of the city where there is no infrastructure. We need a compact city to grow a strong economy, a lower carbon future and better services for residents.

Would be happy for household rubbish collection to move to 2 weekly.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

For effective climate actions, it's critical we maintain high investment and support for public transport. This will also have benefits for our economy (reducing congestion on roads and time spent in traffic queues) and the health of Aucklanders (better air quality).

Therefore we must complete the City Rail Link and improve bus, rail and ferry networks for more reliable service fund new cycleways and shared paths so that more people have access to the network delivering new and improved footpaths across Auckland, particularly in the city centre.

We should aim to have 50% electrified buses by 2030 and to expand the rapid transport network (RTN).

2a. Is there anything you would spend more on?

Support completing CRL and Great North Road upgrades and more dynamic bus lanes in the central option and also want the following:

- completing the Downtown and Midtown Bus improvements

#11323

- more cycleway and walking connections
- safety projects around schools and town centres.
- better funding for maintaining, expanding and promoting the public transport network, including to more remote areas
- rolling out electric ferries and more low-emission buses, plus supporting infrastructure
- the Lincoln Road and New North Road corridor upgrades
- greater investment in rail: rolling stock, and more support for ongoing Kiwi Rail track maintenance
- Street trees and rain gardens

2b. Is there anything you would spend less on?

Felling trees unnecessarily Mt Albert and other maunga across Auckland.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

A Future Fund could be a good vehicle, but it must be have an ethical investing strategy and consider investment in positive and climate impact solutions which will generate financial returns and also support climate resilience.

4b. Which option do you prefer for the future of Port of Auckland?

#11323

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The port is strategic for Auckland and it is critical it stays under public control.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Supports ongoing delivery of key services for the community

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I did not support proposals to change The Auckland Regional Amenities Funding Board as it enables long term stability in funding for very important Auckland organisations.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

It will open up more of the waterfront space for public enjoyment and events. Cruise ships could be relocated from Queen's Wharf, meaning less impact on ferries and a more enjoyable space.

#11323

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

It would be hugely expensive and environmentally damaging to move port operations from Bledisloe Wharf, and the port would be less able to return a dividend to council.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

#11323

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I support them. Keeping affordable, community access for the Mt Albert Pool is very important as a well used public amenity for all ages. In general want to see more encouragement of active transport and caring for our environment.

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to	Very Important

#11324

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Don't understand the proposal to remove rubbish bins from parks - this seems counter intuitive.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#11330

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It is a terrible stadium to get to in terms of public transport and parking. Auckland should consolidate its stadiums (as Melbourne did)

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Existing assets will deliver a higher return over time if well managed.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#11330

Tell us here:

Existing assets will deliver a higher return over time.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Support for arts, culture and creativity via local boards

Investment into Council programmes, engagement and public art.

Investment into arts and culture facilities, both Council-owned and private.

#11342

Investment into Auckland's diverse cultural communities.

Investment in Auckland Art Gallery

Public transport infrastructure i.e. for trains/buses to encourage more people out of cars!

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce Council expenditure on facilities and activities that deliver largely personal benefits to few people, e.g. some of the golf courses, elite wealthy people events such as sailing events

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

concern re stopping cycleway work. Concern re priorities of cars over public transport.

2a. Is there anything you would spend more on?

Airport bus - this is no longer wheelchair accessible [SkyBus was wheelchair accessible]. Please give the contract to a bus company that provides wheelchair access - this company's service discriminates against wheelchair users.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

It is a large venue and site that needs development and changing the operational management providing greater use for the community would be good.

#11342

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I want all the residual AIAL shares kept and none sold.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

I believe the Auckland Future Fund and its operation as outlined could be detrimental to Auckland in the long term.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

I don't agree with the Futures Fund

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

#11342

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

we should have rubbish bins in parks.

#11342

Uncertain why Mt. Albert square is prioritised.

What is the medium term location for Pt. Chevalier library?!!! Last I heard it had been cancelled!

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Concern re ambiguity in some statements and also potentially conflicting issues in areas e.g. 'environmental management and regulation - improve the consenting process ... through simplification, automation and analytics' inevitably means environment concerns are bypassed to the benefit of the developer etc!

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Non-car transport infrastructure, subsidies for essential goods and services such as electricity and select groceries to lower cost of living for large households

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11352

Car infrastructure

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Do not support cancelling any planned initiatives. Propose imposing a congestion charge to make up for no regional fuel tax.

2a. Is there anything you would spend more on?

Reliable bus services, expanding train routes. Developing cycleways and pedestrian routes. Lowering price for public transport.

2b. Is there anything you would spend less on?

Impose further taxes on cars and road use to discourage road use and encourage public transport instead.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#11352

Do not support selling assets

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Gives Auckland Council more flexibility in the future

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

I have no trust that Auckland Future Fund will be used effectively in future

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Do not sell port land

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

#11369

Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Auckland Cricket greatly appreciates the support that Auckland Council provides to sport across Auckland and wishes to partner with the Council in developing cricket facilities at Colin Maiden Park as outlined in the attached paper.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#11385

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

#11385

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual</p>	

#11385

<p>programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	Do not support
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	Do not support
<p>Re-introduce recycling charges for schools.</p>	Support
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	Do not support
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to	Fairly Important

#11385

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Auckland transport waste money almost everytime they do anything. It has been shown that road works and crossing cost far more in Auckland than anywhere else in

#11512

the country. Restructure AT so that they become practical, efficient and stop wasting money and they become accountable for their decision making.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Because it makes sense. You can just ignore cars in a city that is rapidly growing. Driving, busing and cycling around Auckland is currently a nightmare and only getting worse. It needs to be sorted out. Public transport needs to be cheap and reliable to get people to use it. At the moment its expensive and unreliable and so people use private vehicles instead.

2a. Is there anything you would spend more on?

Intelligent light phasing software. Large parts of Aucklands traffic lights have very impractical light phasing, analyse this for optimisation. Public transport, fix it. Auckland transport need to stop wasting money on bike lanes and crossings and focus on fixing public transport.

2b. Is there anything you would spend less on?

Less cones everywhere, the amount of cones and traffic disruption for minor road works is ridiculous. Perhaps perform minor road works at night (as they do in some Australian States) to minimise disruption to traffic. After we are the customers of Auckland Transport not the other way around

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Because "to better deliver for the needs of the North Shore community" is just waffling, what does that actually mean? How do you expect an answer when you havent said what needs changing it will fill?

#11512

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I agree that holding assets that dont make a good return on investment isnt a great idea. However selling them also isnt great so this proposal seems a good one, Auckland keeps the assets long term and should be able to get a better return on them.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Running a port is not the main business of the council and so spending time and resources trying to make that entity profitable and increase returns doesnt make sense, especially when this entity has constantly failed to do so.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Because this could possibly increase returns. But as mentioned above i strongly think that the council should be removed from operation of the port.

4d. Do you have any feedback on any other part of the proposal?

#11512

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Those wharves are currently a bit of an eye sore when it comes to tourism (especially cruise ships). It would be great to look at redeveloping them and making that part of the city attractive to tourists (and Aucklanders)

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Because its obviously important to the function of the port and adds value to the port

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value</p>	<p>Support</p>

#11512

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden,Rodney

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	I don't know
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	I don't know
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important

#11512

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

Not Important

Tell us why

They are very high level goals and so hard to comment on

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

i cant comment, as i couldnt find page 112 of the consultation document, the one linked to this survey only goes to page 77?

Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.

Very Important

Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.

I don't know

Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.

I don't know

#11512

Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	I don't know
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	I don't know
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Very Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Very Important
Develop pathway connections in Green Road Park.	Very Important

Tell us why

7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?

As our local board area is so large, please tell us where you live so we can better understand the views from different communities

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I strongly support the 'do more pay more' approach to Transport, Water and Environment.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11514

No, underinvestment is how we've ended up in the situation we are with so many things, so I don't see any option where 'doing less' will have good long term outcomes.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

I think the transport proposal balances the need for roading as well as public transport. I support the congestion charging as well.

2a. Is there anything you would spend more on?

I would spend more on making public transport faster, more efficient, and more accessible (both spatially and financially) and continuing with the strong investment in cycling and walking as alternative means of transportation

2b. Is there anything you would spend less on?

No.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

In its current form, it is not being used as much as it could be and with redevelopment, it could be better use of ratepayer money to provide a better service for the local and wider community.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

#11514

Tell us why:

I support the diversification of investment and recognise the risks associated with those existing investments.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I support the investment strategy of the Auckland Future Fund

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Provides resilience of funding to Auckland Council through a diversified investment portfolio, which is beneficial to the long term stability of rates increases/ability to invest in infrastructure/services.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#11514

Tell us why:

I support better access to the water front for public use/benefit. We are a city surrounded by water but we have quite limited access to it and in my view, to make us a world-leading city, we need to have better engagement with our biggest asset - the har

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

I support better access to the water front for public use/benefit. We are a city surrounded by water but we have quite limited access to it and in my view, to make us a world-leading city, we need to have better engagement with our biggest asset - the harbour. This contributes to residents benefiting but also will contribute to increased tourist dollars.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1. Greater funding to provide improved visitor infrastructure for some regional parks (Te Muri, Pakiri, Puketutu Island, Te Arai, Te Rau Puriri)
2. Greater funding to support expansion of the regional park network in Southern Auckland especially, including the purchase of Crater Hill

#11520

3. From the Mayor's proposal on the LTP, supportive of the regional park proposals, with priority on reviewing track upgrade engineering methodologies to focus on better value for money spent

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Continue to review / reduce internal cost structures and administration to better use the money available

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Provide public transport options to the most frequently used regional parks

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

#11520

Determine whether the costs of establishing this fund and ongoing operation of the fund or more or less than current costs of administering the Council's assets. Changing anything costs money for hard to estimate adviser fees, administration, council time, ongoing (CCO) costs - have these costs been taken into consideration ?

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Transferring out of the port implies Council will need one way or another to spend money on developing the facilities, and this money could be better spent elsewhere

5b. What option do you prefer for Bledisloe Terminal?

#11520

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
--	----------------

#11520

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	I don't know
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

1. Continuing Citizens Advice Bureau (CAB) funding across all local boards is critical - they provide a very valuable support service for Aucklanders at a very minimal cost per each person contact responded to.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Continue as above, including CAB funding here are in other local boards

8. Do you have any other comments?

1. It is critical that the NETR is spent as effectively as possible, including the continuation of track re openings in our regional parks, locked in 5 year refreshes of

#11520

the Waitakere and Hunua kauri surveys, and ongoing knowledge acquisition on how to manage kauri forests that people can visit

2. After all the effort that many people and Council expended on the RPMP 2022, nothing much has happened to implement it. Critical commitments in that Plan are establishing new recreation and track plans for the Waitakere and Hunua regional parks - these are overdue, and both should commence immediately

3. Protecting and managing our local environment is a critical Council function for for current and future generations. Ongoing, and potentially increased, NETR funding is important, especially where that ensures better access provision for Aucklanders of access to their regional parks.

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Sell the ports of Auckland !!!!

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11522

Selling the ports of Auckland and us that money tip top up the deficit we are currently in!

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Stop waisting money on red tap things! Just get the work done already!!!!

2a. Is there anything you would spend more on?

Figure out another way you can get over to the Northshore' without taking a car! So people can travel by bike or electric scooter. If not a cycle lane then what about a council funded barge.

2b. Is there anything you would spend less on?

Yes!!! Less on consulting and engineers that eat up all your funds, just work in-house and get the projects underway already!!!!

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Host more music events there to build revenue so you can use these funds for maintenance.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

#11522

Tell us why:

Cut your losses, if they are not making profits then they are costing Auckland rate payers more Money. Sell them to private shareholders.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Sell!!!! It's not helping us having it there I, sell it.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Invest back into what you plan to grow

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Yes let's use the space to hold more events that can create an income for the council, therefore benefiting the community.

#11522

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Yes let's use the space to hold more events that can create an income for the council, therefore benefiting the community.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support

#11522

Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Congestion management

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

strange road safety 'improvements'

#11531

Bike lanes

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Pedestrian crossings and cycle lanes are out of hand. The cost of some traffic management is also crazy. Fix the basics, leave the fringes

2a. Is there anything you would spend more on?

Stormwater, wastewater, street cleaning, city parking

2b. Is there anything you would spend less on?

Bike lanes, sport events

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Under utilised. Was built in a competitive environment during 3 cities. Not needed now. Bowl it and put in housing or make it a multi use facility.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

#11531

Council owns the asset and should be able to liquidate at will and put its resources where it wants.

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

Not enough knowledge on this. Both are OK

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Debt recovery is important to a resilient government

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Don't let the port expand into the harbour

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

If it made for a more vibrant city and was cost neutral

5b. What option do you prefer for Bledisloe Terminal?

#11531

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Big city needs a balance

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in	Support

#11531

2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and	Not Important
--	---------------

#11531

engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

There is enough celebrating of diversity going on already.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Upgrading water infrastructure and improving public transport. Community funding (focus on local arts/sports/events rather than importing major events)

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11533

Major events. If the city is struggling to fund basic services we shouldn't be spending money bringing in big events, no matter how fun they are. Upgrades to roads that aren't related to improving public transport or non-motor vehicle transport methods. Mowing in parks - let the grass grow

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Raised crossings and cycleways should be funded.

2a. Is there anything you would spend more on?

Making the government reinstate the RFT. Effective public transport

2b. Is there anything you would spend less on?

Road upgrades unrelated to improving public transport, cycling and pedestrians

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Other

Tell us why:

Sell as much land as possible

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

#11533

Fund is a great idea but selling assets is not. Keep the airport shares and find another way to finance the fund

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#11533

Tell us why:

6a. What do you think of these proposals?

Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Mt Albert civic square seems a low priority to me when the council is short of money. It isn't the best space but I don't think it matters at the moment. I support REDUCING the number of rubbish bins but I am already noticing an increase in the amount of rubbish dumped in the Roy Clements Treeway since half the bins have been removed so I think removing all of them is a bad idea. I also feel there should have been a waste minimisation awareness campaign BEFORE bins were removed, particularly aimed at school students because the rubbish in the treeway is mainly due to MAGS and Marist students

Summary

Current funding from the New Zealand Government and Auckland Council enables construction of the section of Te Whau Pathway from the Northwestern Cycleway to Roberts Field in Te Atatū (Henderson-Massey Local Board area). This section is expected to be completed by mid-2026.

Any savings achieved during construction of this section can be applied for the construction of a bridge between Rizal Reserve in Avondale and Ken Maunder Park in Kelston, all in the Whau Local Board area.

The Whau Coastal Walkway and Environmental Trust (WCWET) requests that funding to continue these sections of \$7.5 million is included in the LTP for 2026/27 and \$13.5 million for 2027/28, to fund:

- Priority 1. Whau Local Board Wingate Street - Rizal Reserve - Ken Maunder Park
- Priority 2. Henderson-Massey Local Board Roberts Field to McLeod Park

The costs for these sections are lower than for the current build, as savings can be achieved through sunk contractor establishment costs, and the use of procured materials.

As funding is not required until 2026/27, and could be financed from loans, there is practically no impact on the rates.

WCWET is also requesting an annual contribution of \$7,500 each from the Henderson-Massey Local Board and the Whau Local Board to cover the Trust's operating costs and assist with the delivery of the wider project benefits.

WCWET thanks Auckland Council, Auckland Transport, Henderson-Massey and Whau Local Boards, Te Kawerau a Maki, Ngāti Whātua Ōrākei, The Trusts, The Trusts Community Foundation (TTCF), and Transpower for their contribution to date.

1. Introduction

Te Whau Pathway is a transformational community/council partnership project that will create a 12-kilometre shared path linking Green Bay, New Lynn, Kelston, Glendene and Te Atatū in various stages, see Figure 1. Project partners include Auckland Council, Auckland Transport, Henderson-Massey and Whau Local Boards, Te Kawerau a Maki, Ngāti Whātua Ōrākei, and the Whau Coastal Walkway Environmental Trust.

Te Whau Pathway transverses a range of different environments, such as open fields, bridge structures and the coastal marine environment (which constitutes more than 50% of the pathway) to provide a unique, iconic and pleasant coastal experience.

The benefits of the pathway include improved access to the coast, better connectivity for the community to the existing community assets (parks etc.) and the addition of an alternative mode of transport for commuters in the form of a largely off-road path that connects with other cycleways and transport interchanges. Provision of greater public access to the Whau River will result in greater environmental awareness and generate

environmental, social, cultural and health benefits. There is also the potential for economic benefits from the pathway as a tourist attraction due to its unique location and cycling services.

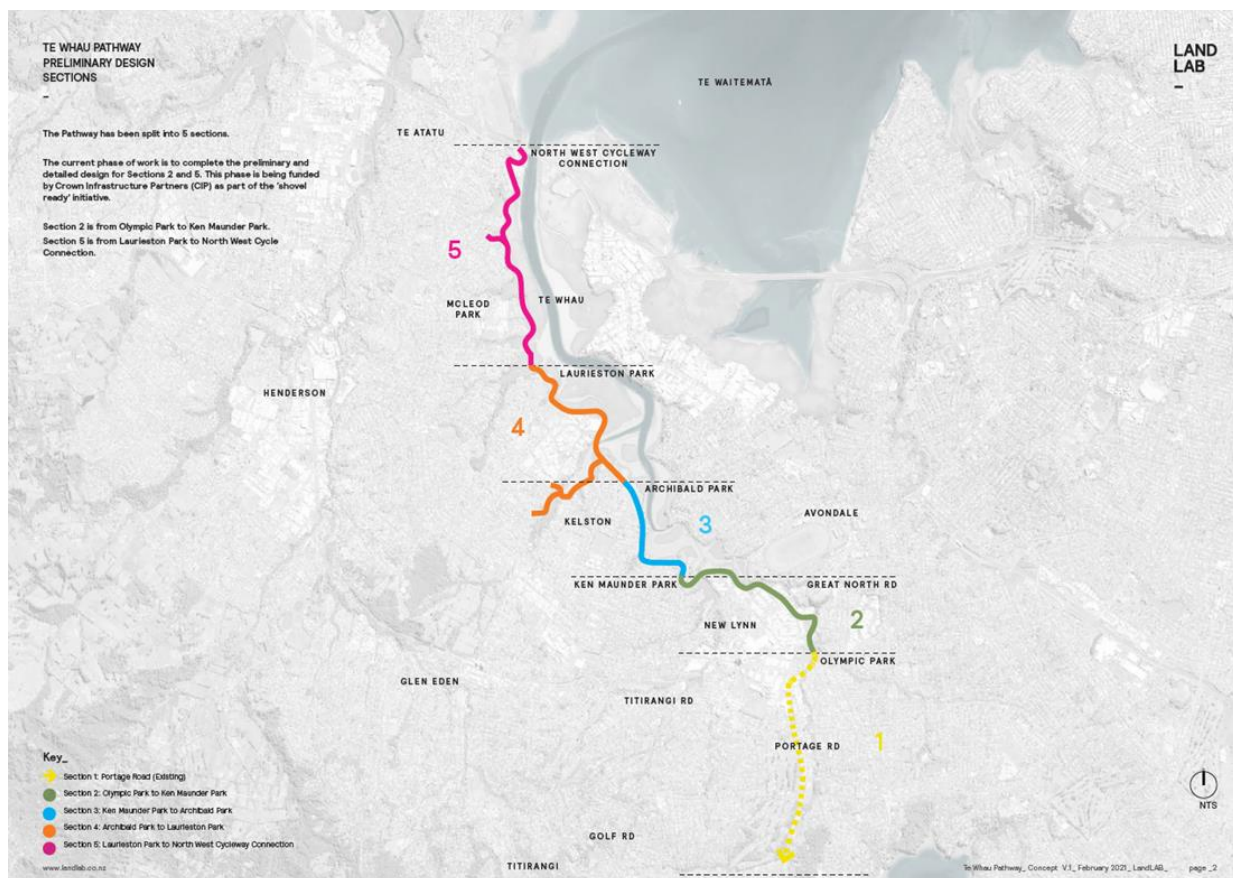

The Whau Coastal Walkway Environmental Trust raised nearly \$2.02 million since March 2015, which together with the contribution from the Whau and Henderson-Massey Local Boards, Auckland Council and Auckland Transport has enabled the construction of the first stages comprising 3.2 kilometres at Tiroroa Esplanade, Roberts Field, Archibald Park, Ken Maunder Park, McLeod Park and Olympic Park, connector paths and a pontoon at Archibald Park.

The current funding from the New Zealand Government and Auckland Council enables construction of the section from the Northwestern Cycleway to Roberts Field in Te Atatū in the Henderson-Massey Local Board area. This section is expected to be completed by mid-2026.

Previously, nearly \$9 million has been invested to date on the project, as follows:

- Whau Coastal Walkway Environmental Trust, \$2.02 million
- Auckland Transport, \$1.35 million
- Auckland Council, Henderson-Massey and Whau Local Boards, \$5.63 million

Figure 1. Te Whau Pathway

2. About the Whau Coastal Walkway Environmental Trust

The Whau Coastal Walkway Environmental Trust was established in 2014. Our Vision is: To construct a shared pathway for walking and cycling linking the Manukau and Waitematā Harbours along the Whau Estuary; while achieving social, cultural, economic, environmental and health benefits.

Our Mission is:

- a) To promote design and construct a multifunctional active transport walkway around the Whau River with the purpose of improving the conditions of life for the members of the public.
- b) To assist in the environmental restoration of water quality and the coastal environment in the Whau catchment area.
- c) To facilitate the construction and viewing of Public and functional art along the proposed Whau walkway.
- d) To enhance appreciation of the cultures including Mana Whenua, communities and histories associated with the Whau River.

Since our inception we have raised funds to create stages of the pathway, resulting in \$2.05 million of assets which were gifted to Council. Additionally, we have carried promotional activities designed to progress our Mission in partnership with the project partners and community organisations.

3. Project scope

Te Whau Pathway is a 12 km long shared walking and cycling path, on and off road that links the Waitematā Harbour with the Manukau Harbour, from Te Atatū Peninsula to Green Bay. The route has been split into the following five distinct sections based on environmental and design options:

- Section 1: Portage Road to Green Bay beach;
- Section 2: Olympic Park to Ken Maunder Park;
- Section 3: Ken Maunder Park to Archibald Park;
- Section 4: Archibald Park to Laurieston Park; and
- Section 5: Laurieston Park to North-Western Cycleway Connection.

Te Whau Pathway is primarily an off-road path with the exception of Queen Mary Avenue and Portage Road and has been designed to cycle metro standards and to cater for pedestrians including disabled users. 90% of the proposed route is fully segregated from traffic with only five vehicle crossings and two road crossings.

The sections of pathway in parks and reserves have been designed to be 3.0 m wide shared paths with additional 0.5 m buffer zones to vegetation (or fencing) either side. Within the parks and reserves there is ample space available, such that the full path width can be used with lighting, and signage also able to be placed alongside the buffer zone.

The sections of pathway designated to be boardwalk have been designed to be 4.0 m wide. This allows for a buffer zone of 0.5 m from the hand rails which is more generous than the normal 0.3 m requirement. This means that the boardwalk actually provides an effective pathway width of 3.4 m which provides excellent consistency along the route.

The work programme will be delivered as a community partnership model and includes environmental restoration of the Whau River catchment and environmental education.

Te Whau Pathway has been granted a resource consent for the whole project. As all the pathway is within Reserves there will not be any barriers to implementation.

4. Alignment with Local Board Priorities

Our funding request is aligned with the Local Board Priorities, as follows.

4.1. Henderson-Massey Local Board

The Henderson-Massey Local Board Plan 2023 includes advocating for continuing the funding partnership with government to complete Te Whau Pathway.

4.2. Whau Local Board

The Whau Local Board Plan 2023 states that the Board will continue support of partnerships and external funding for Te Whau Pathway.

5. Demand

Analysis of compliance with the Land Transport Management Act 2003, the Government Policy Statement, the Auckland Plan, the Auckland Regional Land Transport Strategy and other applicable transport planning documents shows that the shared path will contribute to the objectives of those documents and fits well with the overall and specific policy framework, particularly in regard to environmental suitability, integrated transport network and public health promotion objectives.

Te Whau Pathway will connect with the Avondale to New Lynn Shared Pathway that is currently under construction and the North-Western cycleway. Therefore, it can be expected that the users of Te Whau Pathway will be predominately commuters. However, it is very likely that a large number of recreational users such as walking and jogging, sport cyclists, tourists and recreational river users will also utilise the path. Way finding signs will be provided to address the needs of the different users. To maximise the potential user base, the design caters for users with disabilities and their requirements.

Modelling shows that Te Whau Pathway is expected to attract on average 113,150 cyclists and 226,300 pedestrians annually in Te Atatū South; and an average of 105,850 cyclists and 211,700 pedestrians yearly for other sections.

The following Table 1 summarises pedestrian and cyclist daily average demand estimates of 900 trips per day for Te Whau Pathway. Forecast cycle trips are influenced by the impact of e-bikes and the Te Atatū bus interchange.

Table 1: Estimated 2026/2028 annual daily average trips on Te Whau Pathway

Section	Approx. cycle trips	Approx. pedestrian trips	Total trips
1 Portage Road	350	450	800
2 Olympic Park to Ken Maunder Park	360	450	810
3 Ken Maunder Park to Archibald Park	640	450	1,090
4 Archibald Park to Laurieston Park	340	450	790
5 Laurieston Park to SH16	580	450	1,030
Te Whau Pathway Average	450	450	900

Source: Flow Transportation Specialists, 2021

The pathway connects about 98,000 residents in Green Bay, Blockhouse Bay, Avondale, New Lynn, Kelston, Glendene and Te Atatū South; 35 schools with 17,487 students and 33 parks and reserves, providing safe off-road facilities for going to work, school and shopping and for recreation. Thus, the students and park users are all potentially likely to use the pathway. This has already been demonstrated in the sections constructed to date, such as Archibald Park. According to public opinion surveys carried out in 2017, 86% of respondents indicated that they would use the pathway.

6. Direct Economic Benefits

Construction of Te Whau Pathway has generated to date 52.8 FTE's, with 77.7% being local residents. As well, it is expected that 20 full time jobs will be generated due to activities such as bike repairs, ebike hire, tourism and cafes (for example, we are aware of an existing entity near the pathway that will be developing its facilities to cater for the passing trade).

An economic evaluation has been undertaken using the 40-year analysis and 6% discount rate in accordance with Waka Kotahi NZTA Economic Evaluation Manual procedures. The project achieves a minimum Benefit Cost Ratio of 3.32 indicating that the project is financially viable and could qualify for Waka Kotahi NZTA subsidy at a rate of at least 51%, see Table 2.

Table 2: Te Whau Pathway components of benefits analysis

Benefit Stream		Discounted benefits
Cycling benefits	Health benefits for cyclists	\$60.9 million
	Safety benefits for cyclists	\$1.3 million
	Travel time savings for cyclists	\$1.5 million
Pedestrian benefits	Health & environment benefits for pedestrians	\$81.2 million
General traffic benefits	Decongestion	\$27.2 million
Total Discounted Project Benefits		\$172.1 million
Total Discounted Project Costs		\$51.8 million

Source: Adapted from Flow Transportation Specialists 2019, 2021.

The economic assessment is considered to be conservative as there are numerous factors that have not been included, such as:

- The pathway is likely to be an iconic structure that will attract tourist and recreational users, these users will likely experience health benefits which are not taken into account in the assessment;
- Benefits to the existing network associated with mode shift such as congestion, emission and driver confusion have not been account for;
- Potential environmental improvement associated with the pathway such as granting better access to clean up efforts and providing education to public on sustainability of the Whau River is unlikely to be measurable in relation to its benefits.

The benefits of the pathway are expected to be associated with the improved access to the coast, better connectivity for the community to the existing community assets (parks etc.) and the addition of an alternative mode of transport for commuters in the form of a largely off-road path that connects with:

- The North-Western Cycleway and on to the Project Twin Streams shared paths. Te Whau Pathway is only 11.7 kilometres from the CBD, a 45-minute bike ride.
- Cyclists and walkers will be able to complete a loop along Te Whau Pathway, the New Lynn to Avondale, Waterview/Oakley Creek and Northwestern cycleways, a total of 19.4 kilometres.
- The New Lynn to Avondale cycleway and on to the New Lynn Transport interchange.
- Auckland Transport’s Te Atatū bus interchange, part of the staged construction of a rapid transit corridor along the Northwestern Motorway. This interchange is predicted to be used by 1,670 boarding/alighting passengers in the 2046 morning peak period, a portion of which will be expected to walk or cycle to/from the station via Te Whau Pathway

- Auckland Transport and Panuku both propose improvements to the cycle network within the wider Henderson area. These proposed changes are anticipated to be cycleways and cycle lanes physically separated from general traffic. Notably, the route from McLeod Road to Henderson will connect directly to Te Whau Pathway.

Provision of greater public access to the Whau River will result in greater environmental awareness and appreciation of the Whau environment and generate environmental, social, cultural and health benefits. There is also the potential for economic benefits from the pathway as a tourist attraction due to its unique location, as has been the case for the New Plymouth Coastal Walkway.

7. Environmental benefits

Te Whau Pathway will link a series of reserves and esplanade strips along the western edge of the Whau River. This project has the potential to open up the River, and Coastal Environment to promote community engagement and education and to protect and restore the coastline. Information points outlining the key vegetation and bird species likely to be seen will be key to engaging the public. Te Whau Pathway will support the creation of neighbourhood based environmental programmes to restore water quality and the terrestrial environment, for example predator control networks to buffer the River corridor.

Ecological health in the Whau River catchment in West Auckland is in urgent need of restoration. Jobs for conservation work and enhancement of biodiversity in this culturally and ecologically significant area are both critically needed, and we will be seeking investment to accelerate this mahi in collaboration with the community. We are currently developing a comprehensive plan for implementation of improvements to the Whau River terrestrial and aquatic environment, based on a mana whenua-community-Council partnership model.

We have been working with a number of partners to improve the quality of the aquatic and terrestrial environment in the Whau River catchment since 2015. During that time, we have cooperated with the Whau River Catchment Trust to build on their experience in community-based restoration projects and its ability to collaborate with a diverse range of community stakeholders. As well, we have been active partners in the Whau Wildlink project.

8. LTP 2024-2034 Funding Request

The current funding from the New Zealand Government and Auckland Council enables construction of the section from the Northwestern Cycleway to Roberts Field in Te Atatū in the Henderson-Massey Local Board area. This section is expected to be completed by mid-2026.

Any savings achieved during construction of this section can be applied for the construction of a bridge between Rizal Reserve in Avondale and Ken Maunder Park in Kelston, all in the Whau Local Board area. Our request is that the continuation of these sections of Te Whau Pathway be included in the LTP 2024-2034,

as set out in Table 3.

Table 3: LTP Funding request

Section	Scope	Funding		
		2026/27	2027/28	Total
Whau Local Board Wingate Street - Rizal Reserve - Ken Maunder Park (Figure 2)	155m boardwalk (2x sections) and 300m of at grade path.	\$2.5 million	\$4 million	\$6.5 million
Henderson-Massey Local Board Roberts Field to McLeod Park (Figure 3)	435m of boardwalk	\$5 million	\$9.5 million	\$14.5 million
Total		\$7.5 million	\$13.5 million	\$21 million

Cost estimates depend on ground conditions informing the final design and based on best information available at present.

The costs for the LTP sections are lower than for the current build, which includes all the cost of establishing the precast yard and all those upfront and sunk costs etc. Savings can be achieved by using the established yard. Taking into consideration that we are making use of the procured materials, then it is more economical to build these sections.

As funding is not required until 2026/27 and could be financed from loans there is practically no impact on the rates.

The Whau Coastal Walkway Environmental Trust is also requesting an annual contribution of \$7,500 each from the Henderson-Massey Local Board and the Whau Local Board to cover the Trust's operating costs and assist with the delivery of the wider project benefits.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11572

2. What do you think of the transport proposal?

Tell us why:

2a. Is there anything you would spend more on?

Public transport, pedestrian safety, cycleways etc

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Tell us here:

4c. If the council continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

#11572

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>

#11572

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

It would be good to get a clear and simple understanding of what ratepayers actually get for their money. There should be a focus on services all the community needs, rubbish, libraries, parks and water needs and Auckland Council should get less

#11603

involved in social services which are governmental priorities. I would like to see more focus on public transport as opposed to cycling as Auckland is spread out, hilly and rainy, it will always be limited how many people will take up cycling.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We need more reliable and consistent public transport. More money should be prioritised for this than cycling which will always be limited in people willing to take it up, due to size and spread of Auckland, the topography and tendency to rain.

2a. Is there anything you would spend more on?

Public transport

2b. Is there anything you would spend less on?

Cycle lanes

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

If it's costing money and not being fully utilised sell it.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

#11603

Tell us why:

It's a great idea.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

I think a mixture of both depending on economic factors and needs.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

I don't really care.

5b. What option do you prefer for Bledisloe Terminal?

I don't know

#11603

Tell us why:

I'm never in that area it doesn't affect me.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support

#11603

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
--	------------------

#11603

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Getting rid of rubbish bins is a terrible idea.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I don't think Mt Albert Civic square is a priority. It's be nice to see some investment in Greenlane.

8. Do you have any other comments?

I support fairer funding across local boards. To reflect population, deprivation and area.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Ensure roads and shared paths are safer for cyclists. Reconsider a cycling lane on the harbour bridge.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11605

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Cycling reduces traffic - look at the success of the Northwestern and Tamaki Drive cycleways. We should not be reducing these initiatives.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Sell the shares! Narrow minded people stopped the council from doing this last year.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#11605

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

\$110 million is a huge cost to make the changes. We already have public access to the harbour from Queens Wharf around to the Harbour bridge. Wynyard Quarter is a beautiful public space so happy to leave it as it is.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

At this stage money could be better spent elsewhere like fixing our stormwater and keeping our beaches clean.

6a. What do you think of these proposals?

#11605

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. <p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#11605

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#11605

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Try and look for a Mass Rapid transport for Auckland and get the mayor to stop mouthing off without understanding the consequences of his actions and bursts

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11609

Nothing

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

At least there is a plan!!!!

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Good area to look into for funds

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#11609

Tell us here:

With lease options there will be more indirect costs that will come across through hidden costs on the Aucklanders. Besides the Council will not use the funds appropriately. the Port has started to show marked improvement, so let it run for three years and revisit. You will get a better return in three years time and you still have better control of the asset.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Reduces the tax payers burden

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No point in the land grab as Panuku have still not optimised the viaduct and the tank farm. Also nothing has really happened at Onehunga.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Leave the port to manage its business and ask for the dividend you want, do not go for a land grab now. Wait for three years.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#11609

Tell us why:

Leave the port to manage its business and ask for the dividend you want, do not go for a land grab now. Wait for three years. If you want the return then there has to be a viable footprint available for the operation

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. #11628

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

#11628

I like the lease option financially, although I am concerned that this would tie the port to Auckland and prevent potential opportunities to move the port north. Moving the port north seems more sensible, as found in a recommendation the current mayor was involved in.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

community support support for libraris and community groups

focus on punctual and accessable public transport better system than the hop system
should be able to pay cash or card on public transport

#11679

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

pedestrian and cycling

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

selling off council land is short sighted and unnessisary

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The council need to retain shares in Airport

4b. Which option do you prefer for the future of Port of Auckland?

#11679

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

#11679

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#11679

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Waiheke

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#11679

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

having no rubbish bins in parks will mean more litter in parks

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Waiheke Local Board Priorities

7b. What do you think of our proposed priorities for Waiheke in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Delivering core council operational services, such as mowing, track and facility maintenance, and the library.	Very Important
--	----------------

#11679

Programmes which protect, restore, and enhance the island’s natural environment, and initiatives that provide opportunities for community connectedness, capability and resilience.	Very Important
Working with our community and businesses to progress actions within the Waiheke Island Climate Action Plan.	Very Important
Progressing recommended actions within the Waiheke Local Parks Management Plan and the Rangihoua Reserve and Onetangi Sports Park Reserve Management Plan.	Very Important
Working with mana whenua and mataawaka to identify and respond to their needs and aspirations.	Very Important
Capital projects including the Tawaipareira Reserve playground.	Very Important

Tell us why

7c. What do you think of the Waiheke proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Cycleways and walkways, trains. Provide cycle lanes as much as possible on new road building. Relook at light rail. Encourage people to move away from cars. Provide safe means of travel especially for school students cycling.

#11706

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Parking for cars. Building more roads which will just encourage more cars.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Removing protective crossing and cycleways is completely wrong. We need to encourage these forms of travel, especially for the next generation. We do not want to live in a city overrun with gas guzzling urban trucks. We need more crossings, calming areas for walking.

2a. Is there anything you would spend more on?

Cycleways and walkways. Ways to encourage children out of their parents cars and in to walking and cycling to school. Bring back light rail proposal. Buses can only achieve so much , we need a system that moves masses at speed. As in Sydney and most small European cities.

2b. Is there anything you would spend less on?

Roads and car parking. These will simply attract more cars.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Stadium has proved useful. Simply need s more promotion.

#11706

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

If money used where needed seems sensible. Ports issue needs action.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Move the Port out of Auckland. It's using up land which should be recreation, residential.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#11706

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport is a vital part of our city and I believe we need further investment so that our people can leave the car at home and take the bus, train, or ferry. I would be happy to pay more taxes for future public transport projects.

#11727

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Cycleways. We spend so much on roads and no one blinks an eye but you spend a fraction on a cycleway which could ease congestion and reduce greenhouse gas emissions and everyone makes a fuss. We can't just stop all projects building cycleways because we need to make steady progress to help build a more sustainable city.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

#11727

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

#11727

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#11727

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#11727

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

I think we should keep rubbish bins in parks. I honestly don't think that the people who currently litter would be any less likely to litter if there were no bins.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improved cycling network

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11762

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We shouldn't reduce our cycleway program. It's important to protect our cyclists and continue to grow this mode of transport. We also should continue to fund public transport improvements because our roads can't cope with more traffic. I do like the idea of a weekly public transport cap.

2a. Is there anything you would spend more on?

Cycleways and public transport

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#11762

Tell us here:

We should maintain flexibility of choice over the Port so that we can adapt this as our city grows.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More support of cycling including paths, greenways, and supporting services.

More funding to local boards to deliver what communities want.

#11772

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less mowing parks - especially areas that are not sports fields or used for some amenity.

Less rubbish collection.

Less car parking.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Reduction in cycle path spending doesn't make climate or economic sense.

Raised crossings where they improve safety and accessibility should continue.

Liberate the lane for cycling access between the North Shore and City.

Dig Once for transport projects including maintenance.

Deliver safer speeds in urban areas to support different modes of transport.

2a. Is there anything you would spend more on?

Cycle paths and mode shift.

Safer speeds program.

Liberate the Lane.

2b. Is there anything you would spend less on?

Liberate the Lane instead of ferry investment. Minimal operating costs, no need for a terminal.

No property purchases for road widening projects.

Sell down current property portfolio for these proposals.

#11772

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

Don't visit. Not in my local area.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The port should be moved out of the Auckland waterfront. This will prevent that from happening. Having trucks in the centre of our city is a nightmare, and this will only get worse as the city grows.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Dont support the port remaining in Auckland city centre.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

#11772

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Want to see the waterfront available for the public.

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Council Support - Do Agree with more spending on emergency services

North Shore stadium - Needs to be used better so services need to change - keep as sport event location -

#11794

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less on Maori out comes, as lots spent with little return for small %
and NO stadium on the waterfront!!!!

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Cost

Stop increasing infringement we pay enough TAX and Rates already!!!!

2a. Is there anything you would spend more on?

cheaper transport

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Yes Keep it - make it available for more events - sporting events - could be purpose cricket ground like Tauranga and other regions have . Do not need another stadium on the waterfront - that would be a total waste of rates!

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#11794

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Not needed

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Do not want to pay for higher priced food and goods.

Do not want to lease as all funds then going off shore.

If leased - this could lead to strikes like in Australia.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

#11794

Make into a cruise / Ferry area that can be changed up on for public use, could include permanent location for the Auckland Philharmonia orchestra in design.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

do not want the Multi Cargo area lost to other ports in NZ and increase the cost food and Goods.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More investment for local boards, enabling them to better deliver on local climate action plans and local transport priorities.

#11800

Improvements around the Central Rail Link like the Karanga-a-hape station improvements project, which includes a protected cycleway along part of Pitt street, a pedestrian mall in Mercury Lane, and could include improvements for Canada Street.

The Making Space for Water programme's inclusion of "blue-green corridors", adding to our walking, cycling network while also creating a natural drainage area.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We need increased investment in cycling infrastructure and maintenance. Investing in cycling has benefit-cost ratios of between 10:1 and 25:1.

I support more raised pedestrian crossings.

I support for "Dig Once": aligning delivery of transport projects with delivery of other infrastructure such as water improvements, to reduce costs and disruption overall.

Auckland Transport could leverage road renewals and maintenance for quick fixes that make streets safer for walking and cycling every time a road is repaved, repaired or repainted.

I support multi-modal trips: such as the proposed \$50 weekly cap for public transport, bikes on buses, more investment in train services, and provision of light rail.

I want Auckland Council to advocate to Central Government and Waka Kotahi for a lane on the existing Harbour Bridge to be reallocated for walking and cycling.

The UN recommends that 20% of our transport budgets should go towards walking and cycling but Auckland Transport typically allocates under 1% of our transport budget on cycling – we are massively underinvesting!

I support Auckland Council's commitment to the Transport Emissions Reduction Pathway, and Te Tāruke-ā-Tāwhiri, Auckland's Climate Plan.

#11800

2a. Is there anything you would spend more on?

More separated cycleways. A safe, connected cycle network can be delivered fast and affordably by reallocating road space and using pop up protection like concrete or rubber separators.

More safer speeds (30km/hr) for residential areas, around schools, and through town centres, with traffic calming and raised pedestrian crossings so that everyone can get to where they are going safely.

Low traffic neighbourhoods and filters, like planter boxes and bollards, which prevent cars coming through into a neighbourhood from a main road, but allow bikes and pedestrians. This would be a fast and affordable way to make safer streets and empower people to walk, cycle and scoot for their trips.

Support projects such as Lake Road improvements, Manurewa and Māngere Transport Choices, the Henderson Cycleway, Lincoln Road Corridor Upgrade, Great North Road Improvements and the Upper Symonds & New North Road Upgrade Project.

2b. Is there anything you would spend less on?

Maintaining parking on arterial roads. These create congestion and are a waste of valuable space that could be used for separated cycleways.

I oppose a bike ferry between the CBD and the North Shore because a dedicated lane on the harbour bridge would be a far better solution.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Tell us why:

#11800

4b. Which option do you prefer for the future of Port of Auckland?

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in

Support

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Providing free facilities for people exercise

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Road works less unless for safety reasons

#11808

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We don't have much population and do not have much jobs available. We should focus on creating more jobs like creating more facilities for flea markets, night markets or farms. Encourage more population growth to help economic growth.

2a. Is there anything you would spend more on?

Providing more Training facilities for people to get skills for farm and building development.

2b. Is there anything you would spend less on?

Less traffic management for events and unnecessary road repairs

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

We should focus on how to create more jobs instead of spending as we don't have much population and high inflation living cost.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#11808

AIAL would create more jobs and opportunities for people if you transfer the fund we would face less opportunities.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

We should encourage more imports and exports to help economic growth

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Use the fund to build more infrastructure and attract more tourists to boost economic growth

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

We should use those as our tourism attractions and encourage more tourists to visit those places

#11808

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More opening hours for libraries - these are Council centres which are the only places open after 5 and on the weekends - provide more money to libraries

Our ward, Albert-Eden, is underfunded on a per population basis compared to other wards/local boards. This is unfair - and undemocratic. This needs to be remedied.

#11830

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

More money on rail, ferries and subsidising fares across the public transport system.

2b. Is there anything you would spend less on?

No.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

This is a white elephant for a white middle class ghetto - rich people of North Shore do not support it. It is a waste of money.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#11830

The figures do not add up.

Wayne Brown keeps telling us that he is good with figures, but he also keeps telling everyone that he got the most votes of any person ever in NZ with 181,810. This is factually incorrect: Phil Goff got 187,622 votes in 2016. We cannot trust what Mayor Brown says.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The lease proposal makes no sense, given that PoA has just had a couple of low dividend years. Because of this, the value of the lease will be well under valued. We need to hold on this proposal for a couple of years to see what recovery looks like.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The Auckland Future Fund figures do not add up - just creating another expensive layer of bureaucracy.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#11830

Tell us why:

Open up our waterfront please.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. #11830

Albert-Eden is one of the lowest funded boards on a per population basis. this is clearly unfair, and need to be rectified. All of these initiatives should be funded and supported.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

The Board has done a great job and our household supports them all.

8. Do you have any other comments?

Albert-Eden is under funded on a population basis relative to other Boards, this should be corrected as soon as possible. This is not fair to our area.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

N/A

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11837

N/A

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We need to do more to invest in public transport outside of buses. There will be significantly better public buy in with an efficient train/light rail as it's not subject to the same traffic woes as buses. The council can then charge higher fares on trains to recover the higher capital investment

2a. Is there anything you would spend more on?

Light rail/trains network

2b. Is there anything you would spend less on?

Buses, roads

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Enough information isn't provided on option 3 so option 1 is the default. It shouldn't be deconstructed

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

#11837

Tell us why:

The fund in principle sounds like a good idea but I believe we should retain at least partial ownership of Auckland Airport

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

We should retain the asset but a commercial operator should be able to make it more financially sustainable

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I don't support self insurance. I don't believe it works in high risks areas like Auckland

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Only if there is good public use benefit of the wharves

#11837

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

Transferring the Bledisloe terminal is a good idea in principle but in NZ we don't typically use trains for freight because it costs too much to truck it to a train and then again to the final destination and I don't support having more trucks on the road

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support

#11837

Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Waitematā

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

#11837

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Bins are important in public spaces

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Not a lot to be said. Investment in community assets such as parks, libraries and pools should be the priority

#11837

Waitematā Local Board Priorities

7b. What do you think of our proposed priorities for Waitematā in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver a new civic space at 254 Ponsonby Road.	Very Important
Complete detailed design of Leys Institute remediation and seismic strengthening, and progress physical works.	Very Important
Phased delivery of improvements for Heard Park.	Very Important
Deliver services and programmes that support youth activation, leadership, and wellbeing, particularly in Newmarket.	Fairly Important
Develop programmes that improve perceptions of safety within the City Centre, and our town-centres.	Very Important
Support local communities to develop Emergency Planning & Readiness Response Plans.	Not Important
Seek opportunities to promote and celebrate heritage places in Waitematā including making digital content and place-based stories more accessible.	Fairly Important

#11837

Tell us why

7c. What do you think of the Waitemātā proposed priorities for the 10-year budget 2024-2034?

By and large good proposals

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport, bike tracks, water quality improvement of waterways

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11872

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

YOu must continue to provide for cycleways to future proof our transport with climate change changes.

2a. Is there anything you would spend more on?

Cycle ways and crossing - do they need to be raised?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

Community use will ensure it is well used.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

#11872

Tell us here:

35 years is too long. We need to be moving the ports out and making the waterfront part of our city.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

Not sure

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Waterfront is one of the best assets of this city and we cont have access to it.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

as above . But find something that will genreate income as well for city.

#11872

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#11872

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#11872

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

Not sure if removing rubbish bins is the right answer ? Recycling bins . Is there research to back this?

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

The local board needs to do its part in supporting water quality and biodiversity in its area.

8. Do you have any other comments?

Maek sure there is enough funding for local boards to support local solutions

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11877

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I think we need to retain all of the proposed walk and cycle paths to enable alternative modes of transport

2a. Is there anything you would spend more on?

Cycleways

2b. Is there anything you would spend less on?

Temporary traffic management

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#11877

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why

Point Chevalier is an area with high growth due to housing intensification. The current square and lack of permanent library facilities needs to be prioritized.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

A new Library for Pt Chev, redevelopment of the civic area immediately surrounding it.

8. Do you have any other comments?

The distribution of council funding should be based on a population density ward by ward, to ensure the benefit goes to where the highest number of Aucklanders are located. The areas with the most households will be paying a greater proportion of rates, its only fair that this get directed back into their communities.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Supporting education, particularly universities to provide world class education. Aim to make Auckland one of the best university city's on earth. With better lodging, better student discount programs, better access, better transport for students (free public transport).

#11907

Auckland light rail, get it back on track!

Better planing of developments. Restrict future development of flood plains (i.e.; Kumeu), allowing large developments on terrain that is known and expected to flood is obviously un-wise. Often the consequences of such developments when they inevitably are damaged falls on the residents and city council.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Paying invoices for thousands of road cones to be placed on our roads. The level of road cones is ridiculous, the council should support a review of roading infrastructure projects, with an eye to increase efficiency and reduce cost.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I think there council should not be stepping away from cycle ways, Auckland in general is very poor in this regard compared with other large cities. Also cycle ways are important factor to help meet climate goals.

2a. Is there anything you would spend more on?

Cycle ways, warning signs for speed cameras, or other cameras (i.e., mobile use detection)

2b. Is there anything you would spend less on?

Road cones.

3. Which options do you support for the North Harbour Stadium?

I don't know

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Reduce emissions asap and support intensification. Fight caulerpa as hard as possible.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11926

Greenfield development and building new stadiums.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Don't cut any bus routes and cycling must be supported to reduce emissions asap.

2a. Is there anything you would spend more on?

Public transport, electrification of busses and ferries and support Kiwirail.

2b. Is there anything you would spend less on?

Whatever Simeon wants. Make the government pay for it.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The shares pay good dividends and transferring them to the fund would make selling them off too easy and wasting the money too easy.

#11926

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Who would do the maintenance? Whoever leased it wouldn't want to pay for maintenance especially later on in the 35 year term when they won't benefit much from it. So we'd probably get back a run down money pit which would need so much money spent on it that the lease isn't worth it.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Cruise ships could be moved here.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#11926

Tell us why:

Hugely expensive to move away from Bledisloe and we need a decent working port to pay dividends.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing	I don't know

#11926

the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers	Fairly Important
---	------------------

#11926

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1. We need to balance the need for urban regeneration and development with the need to restore the natural environment. For example, using the natural environment to deal with weather events and water retention rather than building more pipes and

#11949

culverts to cope with run off. We need clever design and to use natural methods rather than heavy engineering.

2. The arts restore the soul. We must keep our commitment to the arts and providing easier access to cultural outlets for all ratepayers.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Apart from electric ferries and buses, I didn't see any commitment in the LTP to try to move towards and support private electric vehicles. There is no doubt that huge gas guzzling SUVs and pick ups have a huge effect on the environment and on the infrastructure. Yet they continue to increase in numbers and popularity as the family vehicle of choice in Auckland where surely a more urban friendly vehicle should be encouraged. Other cities around the world (Paris, London) are looking at means of discouraging the use of huge vehicles in urban environments and encouraging the use of more pragmatic vehicle choices. You could for instance introduce charges for larger vehicles in urban areas or introduce priority lanes for electric vehicles.

2a. Is there anything you would spend more on?

Yes, as above, encourage the use of electric vehicles within city confines.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

#11949

Auckland has too many stadiums that are used too little. Instead of having multiple venues which are individually operated we should have coordinated management of fewer venues

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

#11949

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

#11949

Removing bins will lead to more rubbish not less. Do not see the sense in this proposal. I am not sure why this is being consulted upon as you have already started the removal of bins from our parks.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Environmental work, maximising open spaces and increased access to open space by all citizens should be prioritised.

8. Do you have any other comments?

I fully support the fairer funding proposal

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improve and expand the footpaths. there are many footpaths that are blocked by rubbish bins, and illegal car parking. Also many footpaths are too narrow, and not safe for less abled folks.

#11983

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the building of roads for cars. increase fees on drivers ie: tolls to come into the central and downtown city areas

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

dont stop the safety initiatives for cycling and walking! It must be safe and accessible for more folks to use. Free or very cheap public transport for people is also a must!

2a. Is there anything you would spend more on?

More community spaces- ie. Library, community hubs, parks.

ALSO not sure where else I can add this- BUT if council reduces rubbish collection from homes, you will start having to collect rubbish from streets, parks, roads ect from all the illegal dumping! Save your selves money - dont reduce rubbish collecting

2b. Is there anything you would spend less on?

Things that go backward. We need to move thoughtfully towards a greener way of life.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#11983

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Do NOT sell any more of the common goods! Do not sell rights to the Port!

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

keep port in council hands for the people of Auckland!

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

increase the rates in order to fund any Auckland future funds. dont just sell off assets

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#11983

Tell us why:

yes more access to the port by the public, run by council

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Transfer some part to coucil

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>

Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

Tell us why

i am deeply concerned that we will become like parts of the world where rubbish is just thrown all over the place since there are no bins. Kiwi culture has changed in the time i

#11983

have lived here. WAY more rubbish on the streets, in the public spaces than ever before. So i worry there will simply be trash all over the place if council removes bins and reduces rubbish collections

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I am overall pleased to see this plan

8. Do you have any other comments?

keep up the good work. I know it is tough times, but we need our council to support us. Thanks for all the music in parks, and other awesome events council has supported over this summer

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Hiring consultants and contractors

#11984

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Coordination between transport and land-use actions are VERY IMPORTANT.

2a. Is there anything you would spend more on?

Public transport

2b. Is there anything you would spend less on?

Salaries to external consultants and contractors

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

No need to change the level of funding during this term of the Council. This should be the consolidation period after slow down during the Covid-19.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

It is unnecessary on spending rate payers' money on fund managers. Council pays more than what is necessary on financial management.

#11984

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Managing the proposed Auckland Future Fund is a risk that Auckland Council cannot manage. The expenditure on fund managers who will be in charge of the fund is an added burden to the ratepayers.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Currently, Council gradually reduces its services both in quality and magnitude. Council need to correct this by using income from profits and dividends. Also, Council can repay its debt using this income.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Council should drop the proposal for Future Fund altogether. This find management will open a new area of mismanagement and waste.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

As it is, Port of Auckland are in the best position to manage Captain Cook and Marsden Wharves more effectively than the Council itself.

#11984

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Auckland Council has too many activities within the Council's purview at the moment. Inefficient management indicates that they should not undertake further activities before putting its own house in order.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- Increased resources for Māori-led projects
- Climate action, such as low emission public transport, walking and cycling infrastructure, urban ngahere, food gardens etc.

#12044

-We are living in a critical window of time that could hugely influence the future. Let's do all we can to support Auckland being liveable for our children, their children, and their children after them.

-More public exercise facilities and outdoor space

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

N/A

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I support investment in public transport. We are in a climate emergency, and urgent action is required to reduce emissions. Transport contributes over 40% of Tāmaki Makaurau's emissions, this is a key area to invest in emission reduction for the city. Council needs to disincentivize private vehicle usage, and provide better public transport options. Once public transport is improved, Auckland council needs to implement a congestion charge.

I disagree with stopping funding for raised pedestrian walkways and cycleways. I think walking and cycling should be made safer to encourage mode shift.

2a. Is there anything you would spend more on?

Walkways & cycleways

2b. Is there anything you would spend less on?

N/A

3. Which options do you support for the North Harbour Stadium?

I don't know

#12044

Tell us why:

N/A

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Selling airport shares makes no financial sense – the interest saved on reduced overall debt is lower, and it's just a step down the road to privatisation, and it will be very difficult to return the land and future value of the shares to the public once these shares are sold. This has implications for Māori land interests: the Waitangi Tribunal cannot recommend return of private land, so airport land will be permanently alienated from Māori. This also would impact climate action: I need coordinated transport hubs, which is harder when airports are privatised.

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

N/A

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

N/A

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

N/A

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

N/A

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value</p>	<p>Other</p>

#12044

residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

#12044

Water Quality Targeted Rate (WQTR): Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to	Very Important

#12044

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Removing rubbish-bins does not minimise waste, it only means waste goes somewhere else. I would strongly prefer to have rubbish bins in place for people to dispose of waste properly, then it ending up in the environment or street.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I support the following local board priorities:

Funding and support for community driven environmental work (e.g., habitat restoration, plant and animal pest control).

Funding and support for community groups that focus on climate action (e.g., waste, active transport, education, etc).

Growth of active transport networks such as cycleways and walkways.

Development and implementation of Climate Action Plans.

Circular economy strategies and actions.

8. Do you have any other comments?

Grants and investment into community services provide great value to Aucklanders. For every dollar that the council invests we get back many more volunteer hours. Many boards invest a significant amount into support for local community conservation to protect taonga species or landscapes. Efforts like these are important for both nature and communities, enabling and empowering residents to take action for themselves, increasing ownership of our environmental challenges across the community, resulting in more long-term sustainability for conservation activity.

#12044

Also, I would would rather pay a little now than pay a lot later for the consequences of climate inaction. I want a strong partnership between Auckland Transport, Auckland Council and central government so that funding can be used most effectively.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More storm water and sewerage treatment. Increased underground wiring to get rid of power lines.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12105

Reduce focus on cycle ways until water waste and sewerage systems are upgraded.

No more raised pedestrian crossings and speed bumps.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Still low demand for cycleways and raised crossings are a waste of money - money could be better spent elsewhere. I note that myself and my kids are cyclists and cycle everyday.

2a. Is there anything you would spend more on?

Under grounding power lines, better stormwater and waste water treatment.

2b. Is there anything you would spend less on?

Cycle eats and raised crossings/speed bumps.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It appears to be an inefficient use of resources.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

#12105

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Sell majority of the ports land, redevelop the land, including hotels, new all purpose roofed stadium (selling Eden Park), retain some land ownership for future sale, enter into a public private partnership for the development in order to retain some financial interest/future return via dividends/royalty payments.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#12105

Tell us why:

Repurpose the land for a new stadium, hotel complex.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Retaining and increasing public transport spending to better manage congestion in the city. Retaining/increasing cycleway network

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12123

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I would prefer initiatives for traffic calming and cycleways to continue as planned

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

While the Future Fund appears to be a good idea, I think that what is essentially privatisation of AIAL to achieve it is a backward step. Selling significant assets like AIAL shares will provide a 'one off' benefit. This will also mean that the major transport link to the rest of NZ and the world will be out of the control of Auckland City. The future fund may not provide the level of income that the current shareholding provides - It is not clear for instance who will manage this Future Fund - would this be an overseas entity and what fees would be part of the deal.

#12123

It appears that the Council has set a somewhat artificial limit on their borrowing and could likely use further borrowing to fund some of the apparent shortfall in income, thereby reducing the reliance on today's income to fund projects that will benefit Auckland citizens for several generations.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Leasing the port land for 35 years will limit any plans to repurpose the port land or move the port to another location. In addition, this proposal appears to be another privatisation of public assets by stealth, which I have objected to my comments above.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

#12123

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. You need to do absolutely less of everything including reducing AT staff. The only exception is sorting out waste water but you have taken millions from the people of Auckland and very little progress has been made here

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12155

I've already answered this - do less of everything!

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

Everything - cut the budget like you promised!

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

#12155

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

My rates have gone up 10% per year for the last 2 years and I've had a guts full.

I really loathe AT and the way they operate in such an arrogant way with no consultation

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Please improve the public transport system

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12193

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

No

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

#12193

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Support

#12193

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I want to make sure library services continue (and are not reduced.).

Do not sell off any green spaces (parks etc.). They are important for good mental and physical health.

#12210

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	

#12322

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#12333

Support most of the proposal

Tell us why:

We need better and free public transport!!!

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

#12333

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important

#12333

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Plan better road works and closer. Recently many places created huge traffic jams where it could have been avoided e.g. total closure of Meroa Road made the huge traffic jam in the morning when it could be done smarter. Close only one half of the road and then the other and make it one way to the centre in the morning and from the centre starting from the afternoon.

#12342

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

Most people don't need weekly passes. Pedestrians crossing is good enough in most places and don't need enhancements and spending money on that

2a. Is there anything you would spend more on?

Dynamic lanes is the only interesting proposal

2b. Is there anything you would spend less on?

Bicycle lanes, we got enough for how

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

#12342

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in	Do not support

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less road development in the mount roskill area. More organized routes for areas with state housing

#12354

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

doesn't match the needs of Auckland in regards to public transport. Changing previous initiatives seems like a rookie move and not in the best interest of the public.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

cancelling previous initiatives

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

keep as is so that the whole of Auckland can continue to enjoy events. No need for redeveloping seems fair cause all that money goes into the north shore community only and they don't need it, So keep as is.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#12354

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do more
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do more
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The taxes paid by individuals are completely worthy of the city hall. It is the city hall that needs to improve its own efficiency.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12384

Reduce bureaucracy

2. What do you think of the transport proposal?

I don't know

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Transportation Bureau

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Government ownership not only reduces efficiency and revenue, but also increases bureaucracy. If you don't have the ability, just sell it.

4b. Which option do you prefer for the future of Port of Auckland?

#12384

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

environment road

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

no

#12387

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

roads

2b. Is there anything you would spend less on?

fuel tax

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#12387

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	

#12414

Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	

Tell us why

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like to see “Community-led flood resilience” initiatives including support to Marae, Community hubs, houses and centres, sports clubs, and schools on top of advice to property owners, public events, and awareness campaigns. It is these groups and organisations who are best placed to build community resilience.

#12443

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I recommend considering shift workers in the design of services and routes, traditionally our public transport services are designed for 9-5 workers going in and out of the central city.

That Auckland Council continue to provide support for Te Whau Pathway as part of the wider transport network.

That the time-of-use charge is implemented on motorway entrances where there are good public transport options to and from the central city e.g. From suburbs such as Northcote (Onewa entrance), Albany (Greville entrance), St Lukes (Western Springs entrance) and Remuera (Greenlane Road entrance) into the city centre. As these are areas where more higher income families live, they will be able to afford such charges and these charges should not impact the outer industrial areas where there are higher numbers of low income workers (West and South Auckland).

2a. Is there anything you would spend more on?

My recommendation is to invest in low-cost infrastructure that slows down cars and provides other benefits at the same time. Planting trees, artwork, sculptures, seating and planter boxes make places feel more inviting, create a sense of belonging (which means more people will be walking around) and makes roads feel narrow which slow cars down. Insights from Henderson Intermediate and Waitākere College show that the raised tables put in as part of the Home and School Zone funding, have not slowed cars down and students wish to be part of placemaking to encourage more walking and cycling.

#12443

Another recommendation is to consider where AC have approved the most building consents and increase infrastructure in these areas due to the significant increase in families living in the area, particularly town houses e.g. HMLB, see bar graph in this article <https://www.greaterauckland.org.nz/2020/11/10/building-consent-surge/>

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

#12443

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value	Do not support

#12501

residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

#12501

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- 1) Addressing homelessness.
- 2) Pest control specially mice and rats to minimize their health and environmental risks.

#12525

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Unnecessary civil and construction works that stops or slow down traffic flow.

Project that go over their planned budgets and time-line.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Public transport is the necessity to reduce the number of cars to help with the flow of traffic. The more investment in public transport the better for the city and the environment.

2a. Is there anything you would spend more on?

Electric bus and train services.

2b. Is there anything you would spend less on?

Though cycling is an environmental friendly transport option but prioritizing bus and train lanes to cycleways will serve a much wider part of the community.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

#12525

Tell us why:

A KiwiSaver type fund where a certain percentage of the collected rates are invested keeping the ownership of the existing assets as they currently are i.e. outside the future fund.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

To increase the fund quicker.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

#12525

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers	Very Important
---	----------------

#12525

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	I don't know
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

I don't want to see our parks littered due to the absence of proper bins.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I support most of the priorities

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#12553

Support most of the proposal

Tell us why:

I use public transport and am great supporter of it. I do support cycle lanes but I think more people benefit from public transport than cycle lanes. I don't support more raised pedestrian crossings

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

I am not at all familiar with the North Harbour Stadium, so do not know how the sale of precinct land or a change of operational management will impact the local community.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

With only an 11% shareholding I think this makes sense.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#12553

Tell us here:

Leasing port operations has not worked successfully overseas and I don't think it will work here. The port is currently making a profit for Aucklanders.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Redevelopment of town centres, safe walking/cycling. More investment local boards.
The Making Space for Water programme inclusion of blue-green corridors.
Improvements aligned with Central Rail Link.

#12555

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

support more cycling infrastructure. Support for more raised pedestrian crossings, increased maintenance of footpaths. Support "Dig Once" strategy. Need a lane on the existing Harbour bridge to be reallocated for walking, cycling, and wheeling. 20% of transport budget should go towards walking and cycling as UN for Environment recommends. Support multi-modal trips, more train services. Support light rail.

2a. Is there anything you would spend more on?

cycleways; making walking safer; safer speeds (30km/hr) residential areas, raised pedestrian crossings; low traffic neighbourhoods; Great North Road Improvements; Upper Symonds and New North Road Upgrade Project.

2b. Is there anything you would spend less on?

Road widening - reallocate road space for walking, cycling and public transport. Don't investigate bike ferry idea.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#12555

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Speed up the Water Quality initiatives on the Auckland Isthmus. INclude "urban sediment reduction and Safe Septics ".

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12577

No new roads. Focus on public transport - trains, buses etc, and maintenance of existing roads.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Safety improvements, cycleways, public transport.

2b. Is there anything you would spend less on?

reducing temporary traffic management requirements and introducing dynamic lanes.

No new roads. Maintain the old ones.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

#12577

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

Support

#12577

<p>increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Other</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>I don't know</p>

#12577

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

SUpport Water QUality Targeted Rate OPtion 2 (not OPtion 4).

Money needs to be ringfenced.

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important

#12577

Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Need to include completion of CHamberlain Park - plan deferred for more than a decade. Defer growth parks until 33 Hz of existing land has some small portion for the public.

8. Do you have any other comments?

Need to fund climate mitigation projects and give them priority.

I support Fairer Funding for Local Boards.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More intensification. Less greenfield development which is more expensive anyway.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12581

Lessen the mayor's capture by expensive consultants (as with the future fund and all that it entails).

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Oppose planned cuts to bus routes and reductions in active transport measures. Does not do enough to reduce emissions (refer council's own declaration of a climate emergency).

2a. Is there anything you would spend more on?

Finishing downtown and midtown bus improvements. More cycle and walking connections. Safety projects around schools and town centre's. Quiet neighbourhoods. More on improving bus network, including more remote areas. Fixing or replacing Wynyard bridge. Faster implementation of electric buses and ferries. Upgrading the Lincoln Rd and New North Rd corridor.

2b. Is there anything you would spend less on?

Don't widen roads such as Te Irirangi Drive. Rescope Eastern busway to use existing roadway still have room for active transport. Forget full expansion of unsealed roads project.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It is important to find out what North Shore residents want and how any redevelopment fits with the city-wide stadium plan that is still being developed.

#12581

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Madness. The mayor has been captured by his financial consultants. I doubt the returns will be better over time than the existing dividends and at greater cost of fund management. Too much temptation for future councils to nibble away at.

Port: better to focus on making port operations more efficient and improving rail access and ensuring relocation of the port, rather than locking things down for yet another generation.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

See above - lobby central government to improve rail access and ensure relocation of port, rather than lock things down for yet another generation.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Dividends are a crucial additional funding source.

4d. Do you have any feedback on any other part of the proposal?

#12581

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Will improve public uses of waterfront, including probable move of cruise ship operations away from ferries.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Impact on port operations.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value</p>	<p>Support</p>

#12581

residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Generally-lobby central government to: (a) replace loss of regional petrol tax (including introducing congestion charges and Council control over parking charges etc ASAP),

#12581

(b) allow alternative funding (such as GST), and (c) increase awareness of and central government contribution to the rates rebate scheme.

One of the reasons I support the more option is that the impact of the increase in rates will put more political pressure on central government to better support local government.

I am also tempted to advocate for a targeted rate on rental properties - landlords, at least, have the money now.

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#12581

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

Why not? I understand that Albert-Eden is underfunded according to the current funding levels and underprovided for sport and passive recreation. I am astounded, e.g., that the proposals to upgrade the Mt Albert Town Centre has languished for so long for lack of funding.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I see somemembers of the current board as having an unfortunate tunnel-vision bias towards cars. Being retired and dependent on my bike and public transport, I must emphasize that cycleways, speed reduction measures and creation of quiet neighborhoods are essential to keeping me active.

Such measures also make it safer for kids to bike and walk to school, which, of course, in turn reduces congestion for those who must use their cars (as illustrated by reduced traffic levels during school holidays).

8. Do you have any other comments?

Yes, absolutely support fairer funding, and the sooner the better.

CCOs: one of reasons for the introduction of CCOs was to reduce political interference. I see the pressure is on to swing the pendulum back. I believe this to be short-sighted. It will lead to short-term, populist, rather than rational evidence-based, decision-making.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More public transport, cycling and walking infrastructure. (disappointing that this is clustered above with roading).

More urban development around public transport nodes, including better walking and cycling infrastructure fanning out from PT nodes.

#12606

Staying with intention of more intense development around PT nodes.

More work around integrating greener surface water / storm water with urban intensity, such as sacrificial parks reserves as spill basins.

More urban development along existing rail lines, including the Helensville line c/w new stations along that line to accommodate more development.

More safe streets in residential areas - i.e. lower speeds, street modifications to slow drivers, etc.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less urban sprawl which drives up infrastructure costs.

Less housing development away from PT routes.

Stopping the 3 houses on any site anywhere rule from central government.

Less heritage/villa protection along isthmus arterials and close to PT nodes. Mid-block protection is excellent, e.g. 5 stories at the arterial, progressively lowering to existing heritage protection as you get further away from the arterial. Perhaps ~100m to 200m transition.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I support better PT, cycling and walking initiatives.

I do NOT support roading projects that make it easier for people to drive into the CBD, nor roading projects that support urban development away from PT routes.

2a. Is there anything you would spend more on?

The 2015 (ish) plan for trams/light rail along the main isthmus arterials should be brought back to life. i.e. Dominion, Sandringham, Mt Eden, Manukau Roads, along with more intensive development long those routes. This should not be compromised by extended it across the Manukau. The airport, Mangere, et al, should be connected by light rail (or similar) into nodes at Otahuhu and Wiri/Manukau, &/or to Onehunga rail.

#12606

Extend commuter rail out to Helensville. Existing trains should be capable of converting to hybrid electric trains (over head wire + small onboard battery to get through Waitakere tunnel) to facilitate this. This will take pressure off SH16 & lead to reduced pressure to spend money upgrading SH16.

Work with Waikato authorities to reopen train stations for commuters south of Puhoi & facilitate urban development around those stations.

Free up one lane on the harbour bridge for walking and cycling. The pre-cursor steps to enable this include 1) increasing bus reliability & frequency, 2) extending the current NZTA Puhoi tolling system to be active on all CBD motorway off-ramps during morning rush hours. Waiting for a smart traffic demand pricing system will take far too long & be riddled with complexity and push-back. Extending the current NZTA system as already in use should be a very quick roll out that can always be replaced by a smarter system next decade.

More multi-story car parking at urban PT nodes.

Lobby central government for the right for Councils to operate speed and safety enforcement, e.g. speed cameras and red light cameras. Then flood 30km/h areas with speed and red light cameras. This will then enable a reduction in cycle safety initiatives in those areas as slower cars dramatically reduces risk to cyclists.

2b. Is there anything you would spend less on?

Car focused roading projects that compete with public transport.

Less lane separated cycling in 30km/h areas, providing the 30km/h areas are rigorously policed. Coupled with more lane separated cycling in areas faster than 30km/h.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management, Other

Tell us why:

North Harbour Stadium used to be much better used and utilised as a regional asset, which is in an area of population growth.

#12606

Auckland should have a long-term 'what if we were to hold the Commonwealth Games' strategy and have that as the central planning tool for an integrated stadium and venue plan across the Auckland region.

A combined tight rectangular covered stadium for international rugby, league, soccer, concerts, etc. should be within 10 minutes walk of one of the CBD train stations. It is bad that Auckland can't hold test cricket without applying to world authorities for dispensation for our small field size. Test cricket could be at North Harbour or Western Springs. North Harbour stadium was originally designed to have rugby on one side and a large cricket pitch on the other using both sides of the one stand for spectators. Yes, I was part of the original design team :).

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Maintain ownership of AIAL and POAL by decanting the current levels of ownership into a Council operated fund, similar to what Auckland Regional Council once had. We don't need professional parasitic ticket-clippers in the middle.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Land ownership is critical and a 35 year lease is far too long on critical CBD land. Split POAL into a land holding company controlled by the Council, leaving the POAL operations in a separate Council owned entity. Progressively increase the ground rent on the areas of the port that are better used in a wider societal manner to 'encourage' the operational port company to be more efficient in their use of space.

#12606

4c. If the council continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Ring fence profits for use for increasing freight trains and progressively moving parts of the port operation away from the CBD. Perhaps progressively buying shares in North Port and Ports of Tauranga so as to be able to later have better planning between the ports as part of a North Island optimisation.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Land ownership is critical and a 35 year lease is far too long on critical CBD land. Split POAL into a land holding company controlled by the Council, leaving the POAL operations in a separate Council owned entity. Progressively increase the ground rent
o

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

At no stage should Fergusson be allowed to encroach any further into the now narrow channel between the ports and the north shore. And nor should Bledisloe. In fact

#12606

Fergusson should be progressively reduced back to at least in line with Bledisloe (parallel to Quay St).

Land ownership is critical and a 35 year lease is far too long on critical CBD land. Split POAL into a land holding company controlled by the Council, leaving the POAL operations in a separate Council owned entity. Progressively increase the ground rent on the areas of the port that are better used in a wider societal manner to 'encourage' the operational port company to be more efficient in their use of space.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools.	Do not support

#12606

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Move from current property plus added value basis for ascertaining rates to a land value only for the basis of rates. This will discourage land banking pushing developers into a use it or sell it framework. We need to unlock land that is currently 'banked' by developers.

I support the move to remove GST from rates.

Rural infrastructure development should be fully funded by the developers and built into the cost of the land/section for sale.

Generally I support lower uniform charges as higher uniform charges are harder on the poor and easier on the wealthy.

#12606

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I don't know

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important

#12606

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

Not Important

Tell us why

Parks without rubbish bins = more rubbish on the ground. Too many people just don't care enough to take their rubbish home.

Libraries are extremely important to communities and their weekend hours should be protected.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

More rubbish bins in parks, not fewer.

Speed limits - change View Rd / Esplanade Rd bus route and Valley Rd bus route back to 50km/h whilst maintaining 30km/h on the surrounding side streets.

Strategically designed traffic islands to stop Countdown delivery trucks using Kenyon Ave and Ewington Ave as short cuts to and from their loading dock access. Any resource consent in place over the use of this loading dock is both ignored and not policed / enforced.

I support library improvement works and funding for libraries to be open Saturday and Sunday.

8. Do you have any other comments?

Urban intensity along major PT routes is more important than heritage protection of low building densities on the main roads. Mid-block heritage protection is an important tool in this philosophy.

Pushing back against the Kainga Ora (& Tamaki Regeneration, et al) urban intensity on their land holdings that are not on major public transport routes is important. The number of cars parked on berms, footpaths and packed on streets is already evident at a number of their recent developments.

Public transport and safer cycling is critical. eBikes and rainwear easily overcomes hills and weather.

#12606

Auckland's Watercare model is the best 2-Waters model in the country. But it needs to be the 2-waters of water supply and waste water collection as storm water belongs with urban design.

Supporting inter-city passenger rail should be given high priority as well, particularly in hand with townships being developed around reopened train stations along the lines.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12623

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I like that there's some stuff in there for public transport. I can't fully support the proposal because you want to spend less on walking and cycling. These are proven to be the most effective modes for cities to put money into, so why spend less? That does not follow.

2a. Is there anything you would spend more on?

- Walking and Cycling infrastructure in general. It should occupy something like 20% of the transport budget.
- As part of that, repair all the footpaths. You can barely walk five metres without tripping on rooted asphalt in a lot of places.
- Raised pedestrian crossings are great, get more of these in.
- Get a walking/cycling lane over the Harbour Bridge.
- Roll out a blanket city-wide 30km/h speed limit. If you're not on a motorway, you should be going around this speed. There's lots of evidence that this speed is ideal for reducing road deaths and serious injuries on city streets, has no meaningful negative impact on traffic travel times (especially at peak times, but in general as well), and it also makes the streets quieter, which is great. It also makes the streets feel safe enough to walk and cycle in, which reduces motor traffic and helps prevent gridlock.

2b. Is there anything you would spend less on?

- Probably don't widen roadspace.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

#12623

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

#12623

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know

#12623

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
--	------------------

#12623

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Fairly Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

I don't think removing bins is a priority. If the vehicles used are big carbon emitters, maybe consider using a special e-bike for the job or something. You don't necessarily have to get rid of the bins.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	
Environment and regulation	Do more
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#12632

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

#12632

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less ideological missions. Reduce focus to core amenities.

#12633

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Stop all raised pedestrian crossing. Stop adding speed bumps everywhere. Focus on fixing pot holes and damaged areas on roads.

2a. Is there anything you would spend more on?

Fixing potholes.

2b. Is there anything you would spend less on?

Stop all raised pedestrian crossing. Stop adding speed bumps everywhere. Don't spending money on painting intersections etc. Back to basics.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12658

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Public transport needs to be less city-centre focused and more suburb-to-suburbs networks need to be made. More bus-only lanes would be great BUT only if the public is properly educated on which lanes are GV! The stretch of queen street that is GV is confusing and an easy cash grab for AT.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#12658

Tell us here:

I am supportive of the transfer of Captain Cook and Marsden wharves to the council, but only if the Bledisloe North Berth can be finished. I don't support the transfer of Bledisloe Terminal. This would have considerable impact on the port's ability to serve the city like it does now.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The port is generating more revenue than ever, which is flowing back to the council and our communities. We would be losing a major financier for Auckland if we privatize it.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Without Bledisloe and the construction of Bledisloe North, roll on roll off operations and cruise operations would become impossible.

#12658

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. <p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#12658

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#12658

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Making parks rubbish-bin free will make our parks littered with rubbish.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12660

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We are not in favour of stopping previously-planned initiatives, such as some raised pedestrian crossings and cycleways.

We think enhanced use of public transport, walking and cycling is critical to emissions reduction and healthier cities. We regret Auckland Councils changed direction regarding climate change.

2a. Is there anything you would spend more on?

Subsidised public transport for students, youth and children.

2b. Is there anything you would spend less on?

New road projects.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#12660

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

#12660

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#12660

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#12660

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Sandringham is a town centre with large numbers of food outlets which produces a lot of rubbish/takeaway packaging. We feel removing bins would add to the already significant litter problem in the area. We would like to see some action to reduce the amount of waste generated by these businesses but we feel it needs to be tackled at the source. A waste reducing scheme for Sandringham would be applauded by the local community.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

We support the proposed priorities.

8. Do you have any other comments?

We support the following view expressed in the submission from the Sandringham Business Association.

#12660

"Over the past decade Sandringham has experienced significant growth through residential intensification. Hundreds of new homes continue to be built as in-fill housing continues while multi-story apartments and terraced housing developments are further urbanising Sandringham Road.

Our retail areas show strong demand with very few vacancies and most new businesses continuing to contribute to the 'spice capital of Auckland' association people have with Sandringham.

However, our infrastructure has not kept up with either our local population growth or the popularity of our retail offering. It has now got to the point where some people are avoiding Sandringham in the early evenings because it is too busy.

We understand that both public and private investment over previous years in the Sandringham shopping area may have been held back by uncertainty over Auckland Light Rail's proposals but now that they are cancelled, we strongly believe it is time for Sandringham to upgrade its infrastructure.

Specifically:

Improved Pedestrian and Road Safety - we propose the following improvements in Sandringham village:

1. Change in road surface texture to slow traffic.
2. Raised pedestrian crossings.
3. Cycle lanes.
4. Footpath Upgrades
5. Removal of Spark phone booths.
6. Urgent improvement to parking safety outside liquor store, 588 Sandringham Road.
7. Increased attention to traffic infringements/dangerous driving.

Upgraded Street Furniture and Design:

1. Improved benches
2. Bus shelters.
3. Planting and Trees

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Please more public and active transport investment, and road safety improvement. Not more investment in road for private motor vehicles.

Climate change is an urgent reality. Please stop kicking the can down the road and budget for both reduced emissions and resilience in the face of adverse events.

#12673

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop allowing developers to build expensive to service urban sprawl on the outskirts of the city.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Approve of completing the City Rail Link, improving bus, rail and ferry networks for more reliable service, funding new cycleways and shared paths so that more people have access to the network, delivering new and improved footpaths across Auckland, particularly in the city centre, approve of increased parking charges, 50% electrified buses by 2030 (please put proper HEPA air filters in them so your staff and passengers are healthier), expanding the rapid transport network (RTN) and a weekly \$50 cap on public transport fares

Disapprove of cutting bus routes, reducing funding for safe walking and cycling, and failing to do enough to reduce emissions. This is deeply inequitable.

2a. Is there anything you would spend more on?

Completing the Downtown and Midtown Bus improvements, more cycleway and walking connections, safety projects around schools and town centres, better funding for maintaining, expanding and promoting the public transport network, including to more remote areas, rolling out electric ferries and more low-emission buses, greater investment in rail, and street trees and rain gardens to help control runoff and make the pedestrian environment better.

2b. Is there anything you would spend less on?

No spending on improving the roading environment for private motor vehicles. No more roads please.

#12673

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Please keep a functional stadium for people on the Shore.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

This is a part of Auckland and a generator of income. We should have a say in how it is run. Thoroughly disapprove of selling it off to create a slush fund for Mayoral pet projects. It makes no sense for the Council to own a diverse portfolio of assets which have nothing to do with our city.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Leasing the Port means we lose control of how it is run, and therefore have no ability to require outcomes that benefit Auckland as a whole. Leasing the port is bound to result in a poor outcome for Aucklanders.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

#12673

Continue to use it to fund council services

Tell us here:

The proposed Auckland Future Fund is bad for Auckland. Ethically unsound and vulnerable to exploitation.

Funding council services is a core use of council income.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Shifting the cruise ships looks like a good benefit. Please ensure that they use local electricity while in port to improve Downtown air quality and reduce climate change emissions.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by

Support

#12673

around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support

Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Your budget shortfall is largely caused by a new national coalition government which is hostile to local government. Please let people know that their rates increase is being directly caused by national government posturing - their "tax cuts" are being directly funded by cutting local services.

Get the government/Kiwirail to stump up for replacing all of the level crossings please - it needs doing and has huge benefits for safety and people movement.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#12680

Support all of the proposal

Tell us why:

It seems to cover many issues within the monetary constraints

2a. Is there anything you would spend more on?

Train services, many people can be transported at one time - more efficient

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It needs to be utilised more to make it pay

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

By having shares in Auckland Airport we get regular income on dividends. Once they are sold, that is gone.

4b. Which option do you prefer for the future of Port of Auckland?

#12680

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Would leasing the operation mean lessening of maintenance and development. Would anyone want to put money into something they do not own. So much would depend on the right people leasing the port.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

This is a regular form of income taking the burden off rate payers

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

If the Future Fund goes ahead, it must be safe guarded so that central government cannot use it, and it is only used for Auckland, by Auckland.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

It seems transfer is dependent on transfer of Bledisloe terminal. It is not made clear what the land could be used for. What does commercial use mean? What public benefit?

#12680

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Transferring to the council seems to affect the leasing of the port option. Would this make the leasing option less attractive.

If it was transferred I hope one of the options would not be to build a ridiculous big stadium right on the waterfront as seems to pop up from time to time, That would be a waste of space, limiting the harbour front access and view lines.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Greenhouse gas emissions reduction. Fund as per climate plan.

We support WQTR Option 2 as this ringfences the money for Eastern and Western Isthmus.

#12693

WQTR options need to be reworked such that

1. WQTR remains ringfenced for the sole purpose of Water Infrastructure,
2. Both Eastern and Western Isthmus work complete
3. Programmes like urban sediment reduction and Safe Septics are funded to an acceptable level.

SPeed up reduction of Combined Sewer Overflows on Auckland Isthmus

Wetlands and creek restoration,, daylighting , tree protection all have a role to play in climate mitigation, water quality improvements and biodiversity. ALso human health. Water conservation measures also deserve focus.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No new roads.

2. What do you think of the transport proposal?

I don't know

Tell us why:

2a. Is there anything you would spend more on?

Support capped weekly passes.

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce recycling charges for schools.</p>	<p>I don't know</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>

#12693

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

We support the resumption of the Water Quality Targeted Rate (WQTR) and its extension to 2033/2034. This ensures that AC can continue to provide increased funding to water quality improvements in harbours and streams across the region. We support WQTR option 2 only because this option ringfences the entire funds for completion of both Western and Eastern Isthmus project. We oppose option 4. as we do not want TR treated like general rates.

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Waitemata

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

#12693

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	I don't know
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

We question whether making all parks rubbish-bin free will minimise waste or achieve a climate outcome for the community. Rather, it is likely to make such highly used places as Roy Clements Treeway, and Point Chevalier Beach into dumping grounds. (RCT and Kerr Taylor Park probably have 1000 treks a day). People will not stop buying disposable items for lack of bins. We want consultation with local residents is needed on park bins in high usage parks. At very least, more bins should be provided kerbside at entrances..

#12693

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

We value climate mitigation actions, ALso priorities which improve water quality and biodiversity. We want to see Chamberlain Park enhanced, with public park area, access to Meola Creek, and ecological plantings shading the creek. Concrete creek base to be removed and creek shaded for aquatic life.

Please honour your long standing plan and commitment to the AELB community.

This should precede any other growth park investments.

Waitematā Local Board Priorities

7b. What do you think of our proposed priorities for Waitematā in 2024/2025?

Other

More specifically, what do you think of each priority we've listed above?

Deliver a new civic space at 254 Ponsonby Road.	I don't know
Complete detailed design of Leys Institute remediation and seismic strengthening, and progress physical works.	I don't know
Phased delivery of improvements for Heard Park.	I don't know
Deliver services and programmes that support youth activation, leadership, and wellbeing, particularly in Newmarket.	Fairly Important
Develop programmes that improve perceptions of safety within the City Centre, and our town-centres.	I don't know

#12693

Support local communities to develop Emergency Planning & Readiness Response Plans.	Fairly Important
Seek opportunities to promote and celebrate heritage places in Waitematā including making digital content and place-based stories more accessible.	I don't know

Tell us why

We value climate mitigation actions, Also priorities which improve water quality and biodiversity.

We want to see the Te Tokaroa Meola Reef Development plan progress. This is a Heritage Area. This is a protected area. It is not mentioned in the plan.

7c. What do you think of the Waitematā proposed priorities for the 10-year budget 2024-2034?

We support :

continued measures to ensure water quality

improvements to mitigate impacts on our waterways,

catchments, beaches, and harbours.

We support - some items that could be recognised in WLB plan. Outcomes for Māori. Iwi have a multi-generational future view well beyond the legally prescribed Council planning time horizons. Iwi support is particularly critical for AC to achieve goals in climate change and water challenges, along with biodiversity.

8. Do you have any other comments?

We support fairer funding for Local Boards, Pay More, Get More

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Nothing

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Nothing

#12709

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Fuel is very expensive

2a. Is there anything you would spend more on?

Nothing

2b. Is there anything you would spend less on?

Petrol

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#12709

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Having moved here from Europe, there are two areas that are quite obviously funded to a substandard level here in Auckland. The city’s transport system is an absolute disaster and the greatest obstacle to the urban life of this city. More emphasis MUST be given to an affordable and convenient mass transit system, to get people out of their cars. My husband and I use public transport daily and find it overpriced, badly

#12714

operated (AT bus drivers frankly have no business with a driver's license, let alone to be careening through the streets with a busload of passengers), and unreliable. It's actually shocking how bad it is.

The city centre also needs better cultural infrastructure and core funding to support local (not Wellington-based) arts organisations. It is painfully unfair that our city's residents provide a disproportionate share of funding for national, Wellington-based organisations (who benefit from national government support) at the expense of our own local arts community. The arts are an essential part of the fabric of any great city and we feel the investment being made in culture is simply not enough.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Yes, we would love to know why there are helicopters circling our neighbourhood (Mount Albert) practically 24 hours a day. This seems like a huge waste of money - what purpose does it serve? It disturbs our peace and quality of life in addition to being wasteful. Surely there is a more cost-effective, less environmentally damaging solution to the area's crime problems? Police drones instead of copters?

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

I just don't trust Auckland Council when it comes to transport. It's shocking how bad it is.

2a. Is there anything you would spend more on?

Yes, I'd bring in someone from a city that knows what they're doing and have them fix this shambles of a public transport system.

2b. Is there anything you would spend less on?

Whatever you've been doing, stop - it isn't working.

3. Which options do you support for the North Harbour Stadium?

#12714

Keep the stadium precinct as it is

Tell us why:

Don't invest any more money in stadiums until you have achieved parity of funding (compared to Wellington) for Auckland's badly underfunded cultural sector.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Sounds like a reasonable plan.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#12714

Auckland needs better funding for the Auckland Regional Amenities Board to support cultural infrastructure. We have fantastic groups here that are struggling to compete against Wellington organisations due to inadequate financial support.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

We need to make better use of our waterfront spaces. We really enjoy spending time near the water and more restaurants, cafes, and walking/cycling paths on the water will offer improved quality of life to the city.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Why would you remove rubbish bins? Do you want people throwing their rubbish on the ground?

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Crime is a major issue in Mt Albert and will probably get worse as all this high-density housing goes in. There need to be more police on the ground, visible in the community, and not flying over our heads 24-7.

8. Do you have any other comments?

Please ensure that Auckland taxpayers are getting their fair share of national funding - we shouldn't have to pay for national arts organisations in Wellington at the expense of our own cultural amenities!

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	
City and local development	
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Provision of housing for vulnerable Aucklanders.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12722

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Do not stop pedestrian crossings and cycleways. Auckland needs to be more a city for people, and less for cars. Look overseas for some visionary cities that prioritise people.

2a. Is there anything you would spend more on?

Introducing cheaper public transport. Keeping and increasing our parks, libraries, schools and other public amenities. Making Avondale racecourse into a public park. - not a private development. Avondale needs more green spaces.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The Future Fund is a sneaky way to privatize many of Auckland's publicly owned assets. The Auckland Council is itself a Future Fund. decisions about the future of our city should be made by our elected representatives, not Fund Managers. Auckland should be run for people, not for profit.

#12722

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Again - DO NOT SELL OFF OUR PUBLICLY-OWNED ASSETS!!!!

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Publicly owned assets ARE a Future Fund!!

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Transferring takes the land out of public ownership and control. A BAD THING!!

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#12722

Tell us why:

The Port needs to operate efficiently for the benefit of Auckland It needs to control the wharves.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Support most of the proposal

Tell us why:

I think an effective, efficient public transport network is paramount as our city grows. There needs to be an incentive to get people out of cars!

2a. Is there anything you would spend more on?

Making public transport more affordable, appealing. Incentivising people to use it.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It does not appear to be well used as a stadium, and could be put to much better use.
? Apartments, housing.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#12724

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of	Very Important

#12724

what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

Tell us why

I'm not sure how making Parks rubbish bin free achieves this goal. What about dog parks? I would support less bins though.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I support any initiatives that encourage community engagement. Our libraries are a wonderful community resource. Parks and greenspaces in the city are also essential.

8. Do you have any other comments?

I appreciate being able to comment and commend the Council for the depth of information available. I would like to see more density in the city, better and more integrated public transport. I worry about developments encroaching on prime growing areas such as Pukekohe. I also hope that the current governments fast tracking of consents that has been proposed, is not a greenlight for poorly considered development. There is enough of that! We need well designed, thoughtfully considered communities. Not huge houses that are affordable for most.

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Where I’d like Auckland Council to do/spend more.

I would like Auckland Council to do/spend more on significant and meaningful climate action. I want to see Auckland Council do more of all they do with climate mitigation and impacts in mind.

#12840

I would like to see council spend and do more on better climate outcomes built into all Auckland Councils decisions, planning, implementation and operations. This long term plan needs to have the long term thinking to lay the climate foundation for all the future long term plans.

Specifically:

Public Transport - Ensure public transport is affordable, accessible, and reliable, prioritising investment in public transport infrastructure over road spending.

Active Transport - Urgently transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Water Quality - Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Environment and Regulation - Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

As well as the options provided in the structured consultation, I would also like the Council to do more of the following:

Protecting and working with communities by continuing to prioritise the funding and delivery of Making Space for Water in partnership with Central Government.

Ensuring adequate support for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly programme, the Communities in Need programme, and supporting work on Council land and marae. This can be achieved by re-establishing pre-2023/2024 budget funding for these areas.

Supporting frontline, volunteer powered communities by ensuring local boards are adequately funded and grants are available. Grants and investment into community-led services provide great value to Aucklanders. For every dollar that Council invests we get back many more volunteer hours.

Supporting moves to a circular economy and zero waste, ensuring waste materials are seen as resources to be reused, repaired, repurposed and recycled, and are diverted from landfill.

Lowering emissions by becoming a leader in localised renewable energy generation by enabling local integrated energy solutions to support community owned energy groups.

#12840

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Regarding the Mayoral proposal, I am encouraged to see initiatives to make public transport more accessible, such as the \$50 weekly cap and introduction of diverse payment options. Another positive is the work programmes which look to improve public transport services, such as network optimisation, expansion of the electric train fleet and completion of the City Rail Link. Unfortunately, alongside these positives, there are some concerns. A couple of examples are; the removal of 'low performing' bus services, and the several references to roading focused projects.

As well as continuing to invest and improve our public transport network, it is essential that the Council urgently supports the transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Cutting "low-value initiatives, including raised pedestrian crossings and expensive gold-plated cycleways" is an ideological move that fails to align with the Council's own Transport Emissions Reduction Pathway. In monetary terms, this means cutting funding for cycleways by \$141.5 million. This makes no sense as we know increasing funding for active transport infrastructure is a smart investment that can benefit the economy, the environment, and public health. Cycling is a low-cost, low-carbon and low-impact mode of transport that can reduce congestion, pollution, and greenhouse gas emissions. Cycling also promotes daily, incidental physical activity, mental wellbeing and social inclusion. By improving the safety, accessibility and attractiveness of walking and cycling, more people will be encouraged to choose it as a regular means of travel, creating a virtuous cycle of benefits. This approach also creates better use of existing roading assets by making space for those who cannot choose cycling, walking or public transport.

2a. Is there anything you would spend more on?

I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

#12840

I want Auckland Council to spend more on ensuring public transport is affordable, accessible, and reliable.

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. We need to get people out of private cars, into buses, trains and ferries and onto cycleways. Failing to understand and action this will result in a continuation of over investment in roading projects and underinvestment in the public and active transport networks. The evidence is there and the evidence is clear.

2b. Is there anything you would spend less on?

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

I think the stadium should be reconfigured to suit the needs of the community both structurally and operationally

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I think selling this asset and diversifying Auckland Council's investment is wise. However I want the future fund should be focussed on future fit, low carbon, ethical investments.

#12840

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Because if we do more and spend more Auckland Council will need that available revenue

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

I want a vibrant waterfront and this could be part of that.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#12840

Tell us why:

It is a fair compromise to keep bledisloe operations as it is.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>

#12840

<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Revenue gained from NETR affects the delivery of essential projects to protect our biodiversity and taonga species. For example, the rate funds kauri dieback track upgrades, treatment support for landowners with kauri dieback, monitoring of the health of our forests and education for visitors to prevent further spread of the disease and predator control on our islands and the mainland. This work supports the health of our environment, which we need to be healthy to keep humans healthy, by filtering our water, catching and intercepting rainfall, holding our soils and slopes together and cleaning our air. Having spent years with large parts of the track network closed to protect kauri it is important to ensure this work continues as planned to enable safe access to our wild places, which are so important for our mental and physical health, and the health of our forests.

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

#12840

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

#12840

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

I support the following local board priorities :

Funding and support for community driven environmental work (e.g., habitat restoration, plant and animal pest control).

Funding and support for community groups that focus on climate action (e.g., waste, active transport, education, etc).

Growth of active transport networks such as cycleways and walkways.

Establishment and development of green corridors.

Development and implementation of Climate Action Plans.

Circular economy strategies and actions.

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Reducing emissions and inequality in communities

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12876

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Most investment should be put into public transport and more walkable, cyclable communities rather than roads.

2a. Is there anything you would spend more on?

Walking and cycling projects. Anything to reduce emissions

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

The idea of a fund to invest in future infrastructure is good but it shouldn't be funded by the selling of council assets. This should come from rates or debt as a core part of what the council should be funding anyway.

4b. Which option do you prefer for the future of Port of Auckland?

#12876

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Council services and future fund activities shouldn't be separate pots. Both are needed and specific projects will need to be weighed up as they arise.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

#12876

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#12876

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#12876

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

The council should consider increasing its debt cap which is much lower than other cities and countries globally, and avoid selling off council assets at all costs. Local govt is much better placed to borrow money to deliver services that don't necessarily make a profit but deliver a public good. Selling off assets reduces its ability to do that and makes the council less resilient in the long term.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Pay more? What on earth has been going on at the council till now? You seem to have completely mismanaged and nearly bankrupted New Zealand's most important City. No I dont want to pay more, you should be able to deliver, with the funds you already have. And stop selling assets.

#12904

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less bureaucracy.

Less Wayne Brown.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

If Simeon Brown was involved in it, then I don't support it. He is a category 1 tool!

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

All of it. Manage your portfolio better.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Because its a great asset. You need to better utilize it and get the community behind it.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#12904

Tell us why:

Stop selling your assets. Its a short term band aid.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

What is the "future fund" for otherwise, an investement fund, that will grow at the detriment of Aucklanders? You dont need to make a profit, you need to invest in services and your city, which has been neglected for decades.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

#12904

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Transport has to be the focus. We have a city where tourists come in and are lost on how to travel as not many shops sell At Hop cards or perform topups. Now travelling on bus don't even accept cash or card payments. If that is not possible, at the very least we should enable people to pay with their visa / MasterCard enabled card rather than buy the Hop card in our transport system.

#12916

The train track infrastructure is horrible. What do Kiwirail even do? Why do we have an intermediary in Kiwirail and NZ Bus and not own the services ourselves?

I am also hesitant to do more and pay more because the councils have shown no ability to manage finances and complete tasks according to budget. The government and councils need to be kept in account of how much budget they have and the value they deliver or else, heads should roll - which is the case with all private companies.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Do we have the data to support the need for so many cycleways? If 2% of the population are using Cycleways then is it worth spending 20% of our budget on it? Or rather focus on improving transportation network instead.

Auckland is not at the level of major European cities to warrant so many cycleways, many of our population don't cycle enough for this to be worth the investment

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Unnecessary cycle ways

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

#12916

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Who is the trust who will manage Auckland Future Fund? I don't have enough belief in the council to manage such a fund properly

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

#12916

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase support for arts and culture, find ways were artist can survive in this city.
Artists Studios, incentivize landlords to rent unused space to artists.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12924

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It is an asset which is not fully utilized, make it functional for concerts and events.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The Airport is an asset, Auckland credit rating is high, we need to keep a monopoly on assets. Borrow more as an investment as the city is growing.

4b. Which option do you prefer for the future of Port of Auckland?

#12924

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Answer as above.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Invest in a growing city...

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

More public space available and access

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#12924

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to	Very Important

#12955

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Very Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Please consider lots of this:

Pumptracks, learn to ride tracks, bike skills courses, trails, and other recreational cycling facilities where people can safely grow their confidence on a bike

#12957

Eke Panuku's redevelopment of town centres, which often includes making safe walking and cycling connections, as well as improving access for disabled people.

Improvements aligned with the Central Rail Link like the Karanga-a-hape station improvements project, which includes a protected cycleway along part of Pitt street, a pedestrian mall in Mercury Lane, and could include improvements for Canada Street

The Making Space for Water programme's inclusion of "blue-green corridors". These are walking and cycling paths through greenspaces and alongside streams, adding to our walking, cycling network while also creating a natural drainage area.

Auckland Climate Grants and the Live Lightly Programme which can fund community-led programmes to empower people to ride bikes for transport

More investment for local boards: enabling them to better deliver on local climate action plans and local transport priorities

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Get less relaxed about the terrible parking across the Isthmus, particularly in residential areas - Partially covering driveways, on grass berms and on both sides of the street so two way traffic cannot proceed.

Find a way to charge people for this and use the money towards the much needed improvements in transport infrastructure.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Wanting increased investment in cycling infrastructure and maintenance. Investing in cycling has benefit-cost ratios of anywhere from 10:1 up to 25:1

Support for more raised pedestrian crossings and increased maintenance of our footpaths

Support for "Dig Once": aligning delivery of transport projects with delivery of other infrastructure such as water improvements, to reduce costs and disruption overall.

#12957

That Auckland Transport could leverage road renewals and maintenance for quick fixes that make streets safer for walking and cycling every time a road is repaved, repaired or repainted.

Support for multi-modal trips: such as the proposed \$50 weekly cap for public transport, bikes on buses, more investment in train services, and whether or not you support light rail

Let Auckland Council know you want them to advocate to Central Government and Waka Kotahi for a lane on the existing Harbour Bridge to be reallocated for walking, cycling, and wheeling.

The UN for Environment recommends 20% of our transport budgets are towards walking and cycling but Auckland Transport typically allocates under 1% of our transport budget on cycling – note how we are massively underinvesting!

Auckland Council's commitment to the Transport Emissions Reduction Pathway, and Te Tāruke-ā-Tāwhiri, Auckland's Climate Plan.

2a. Is there anything you would spend more on?

Cycleways! Safe cycle infrastructure, accessible for all kinds of bikes, that get people where they want to go. More end-of-ride facilities for all kinds of bikes, more repair stations along key routes, and better, more regular maintenance of pathways throughout the city. The sooner this stuff is in the ground, the better off our city will be.

A safe, connected cycle network can be delivered fast and affordably by reallocating road space and using pop up protection like concrete or rubber separators

More safer speeds (30km/hr) for residential areas, around schools, and through town centres, with traffic calming and raised pedestrian crossings so that everyone can get to where they are going safely

Low traffic neighbourhoods or using modal filters (stuff like planter boxes and bollards which prevent cars coming through into a neighbourhood from a main road, but allow for bikes and pedestrians) as a fast and affordable way to make safer streets and empower people to walk, cycle and wheel for their trips

2b. Is there anything you would spend less on?

#12957

Ditch the bike ferry across Te Waitematā between CBD and the North Shore.

Providing a dedicated lane for walking, cycling, and wheeling across the existing Harbour Bridge is way cheaper to do and always open. A bike ferry would be as vulnerable to staffing shortages and capacity issues as any other public transport, likewise limited to fixed hours, and charge passengers for their travel. A 24/7 lane on the bridge gives people the freedom to make their own reliable journeys, free of traffic, and independent of public transport constraints.

Spend less on road widening for projects, and instead reallocate road space for delivery of walking, cycling, and public transport networks, creating an overall more efficient, affordable, and climate conscious transport network

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

#12997

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#12997

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Not Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Transport, Water, Environment, Parks & Community

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cultural events - keep at current level

#13019

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Subsidising bus and train fares

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

I am tentatively in support of creating an Auckland Future Fund, so long as it does not become a mechanism to sell off Council shares in Auckland International Airport or Ports of Auckland.

4b. Which option do you prefer for the future of Port of Auckland?

#13019

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

There are potential strategic risks involved in leasing port facilities, especially if the lessee is a foreign one. The leasing of the port of Darwin is an obvious example that comes to mind, I realise that concerns about that lease have since been dispelled, but the implications expressed in those initial concerns are still worth bearing in mind.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Use of these wharves should remain as it is for the time being. If a disaster or some other large-scale civil defence emergency were to strike Auckland (our largest city), it is essential that we have as many options available to us as possible, and re-s

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#13019

Tell us why:

See response in the "Tell us why" panel immediately above.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce recycling charges for schools.</p>	<p>I don't know</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>

#13019

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden, Ōrākei

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

Other

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	I don't know
--	--------------

#13019

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	I don't know
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

Do NOT remove rubbish bins from parks! This might well prove counterproductive, i.e. result in more littering, the cleaning up of which will only have to be paid for, thus reducing or even negating any short-term savings.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Overall, they generally seem fine and reasonable.

Maungakiekie-Tāmaki Local Board Priorities

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

#13019

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.	

Tell us why

#13019

7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

Tell us why

I support most priorities

Ōrākei Local Board Priorities

7b. What do you think of our proposed priorities for Ōrākei in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Complete the seismic strengthening of the Remuera Library	I don't know
Progress the Meadowbank Community Centre development.	I don't know
Assess the reactivation of facilities at Tagalad Reserve and work towards providing access for the community.	Very Important
Continue to work with our many community volunteers to eradicate plant and animal pests in our natural environment, including at Pourewa Valley and in our many beautiful parks and urban forests, and support other environmental activities, for example, the Environmental Forum.	Fairly Important

#13019

Continue local initiatives to enhance neighbourhood connections and increase safety.	Fairly Important
Fund and support local events to showcase our spaces and benefit local residents and businesses.	Fairly Important
Continue to engage and better support our diverse communities and organisations, such as Auckland East Community Network and Youth of Ōrākei.	Very Important
Maintain efforts to monitor and improve water quality in our local waterways.	Fairly Important
Develop options and projects for a community facilities targeted rate for the financial year 2025/2026.	I don't know
Investigate ways to enhance council facilities in Ellerslie to better meet the needs of the local community.	

Tell us why

Overall, they generally seem fine and reasonable.

7c. What do you think of the Ōrākei proposed priorities for the 10-year budget 2024-2034?

101

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13024

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

This question is framed quite confusingly, but I mostly support the "do more" option.

2a. Is there anything you would spend more on?

As above, I support the proposals in the Do More option. I would also support Auckland Council spending more to develop a surface light rail network.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I am strongly opposed to further privatisation of the airport by transferring the remaining shareholding into a fund for future sale. Retaining this share in the airport will both enable some income into the future, and also enable some say in the running of the airport for public good rather than private profit. This may be essential to things like mitigating environmental harms, and coordinating nationally in response to disasters. Retention of assets including these shares will strengthen the council's

#13024

future borrowing position by retaining a stronger asset base - this is what will make the city more resilient in the future, not difficult to reverse asset sales.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Running the ports for profit for 35 years removes this key part of Auckland's assets from serving a public good to benefiting private profit, which also raises concerns such as worker safety when profit motives are prioritised. Retaining public control of the port, and using the current returns is a much better option than investing in the Future Fund for the sake of short-term lower rates.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

#13024

I don't know

#13033

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Need to continue investing in walking, cycling and safe speeds

2a. Is there anything you would spend more on?

Walking, cycling and safe speeds

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Explore alternatives for use by a wider variety of groups

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Maintain existing shareholding in AIAL

4b. Which option do you prefer for the future of Port of Auckland?

#13033

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Council need to retain ownership for future generations

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

#13033

Tell us why

Need to invest in assisiting communities with flood prevention/protection

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Need to focus more on assisiting communities with flood prevention/protection as the highest priority

8. Do you have any other comments?

I was disappointed to see little emphasis on climate prevention and flood protection/prevention, given the very recent and serious impact it has had on our community

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13049

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Auckland needs a much better public transport system to be a serious grown up city. Much more investment is needed in rail and light rail, and cycleways

2a. Is there anything you would spend more on?

Public and active transport

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

It is not in Auckland's best long term interest to sell assets. The council is in a sound financial position and we should be increasing rates to pay for operational deficits, not selling assets

4b. Which option do you prefer for the future of Port of Auckland?

#13049

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Selling off the port lease will end up costing Aucklanders more through increased shipping costs.

Worker and environmental protections are also likely to be undermined by the private company's profit focus

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The fund is pointless. Use the profits from assets to fund services - that is council's job.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#13049

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide</p>

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

New roads that aren't public transport or active mode improvements.

#13077

Subsidized city center parking (raise cost to park in paid parking please)

I do not support any of the proposed cuts as they would be crippling to the local culture and economy.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Do not support stopping previously-planned public transport and active mode initiatives

2a. Is there anything you would spend more on?

public transport and active mode initiatives especially pressuring the government to fund the replacement of all level crossings in Auckland

2b. Is there anything you would spend less on?

Private motorised vehicle improvements

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#13077

I do not support enabling raiding of the silver

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Leasing out the port is the opposite of ensuring public ownership of the waterfront and would directly impede any plans to move the port.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

If we have so little money why is this a proposal to spend it on something that will get flooded in coming years?

5b. What option do you prefer for Bledisloe Terminal?

#13077

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

If we have so little money why is this a proposal to spend it on something that will get flooded in coming years?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

What is missing is do more and resourced by Auckland Council.

Leading and influencing better outcomes

for Māori - Include whaanau hauaa Maaori to influence better outcomes

for Maaori hauaa.

#13117

“When thinking about culture and cultural context in evaluation two main parameters emerge: (1) the ‘how to’ of engagement and (2) the ‘sense-making’ process” (Wehipeihana, Davidson, McKegg & Shankar, 2010).

As such the evaluation needs to be responsive to whānau hauā and will therefore draw from two fields of theory and practice - Kaupapa Māori (Cram, 2009 ; Smith, 1999 , 2005) and Culturally Responsive Methodologies (Berryman, SooHoo, & Nevin, 2013 ; Hood, Frierson, & Hopson, 2005).

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

NA

2. What do you think of the transport proposal?

I don't know

Tell us why:

LTP doesn't address accessible public transport.

Accessible transport describes a transport network which allows all users equal opportunity to travel when they want, where they want, how they want, at a price they can afford. Accessible transport is a key part of having equity.

Accessible transport will have a direct benefit for:

(From the LTP)

Māori communities, as well as enabling effective Māori participation in council decision-making and ensuring that council staff are empowered to deliver on outcomes for and with Māori.

2a. Is there anything you would spend more on?

Again its not about the spending more or less.

Its working collectively to accessibility for whaanau hauaa Maori and whole of society.

#13117

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Accessibility, barrier free audit is undertaken, and resourced for whaanau haua to access, utilise the space to build accessible homes.

Utilise resources to support Marae in Auckland to become accessible.

Wānanga provide culturally responsive processes for engagement to support open dialogue. They enable detailed, in-depth information to be shared, explored and gathered in a safe way for whānau hauā. Pātai or questions were developed to guide the conversations within the hui or wānanga.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

The question is how will whaanau hauaa Maaori get access to shares when their income is limited. How is information disseminated and formatted in ways that whaanau hauaa Māori understand i.e easy read options and accessible formats.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Invest in Accessible Marae and housing.

While most New Zealand homes do not incorporate Universal Design principles or

#13117

provide good accessibility for disabled people right now, the demand for accessible housing is projected to increase for several reasons such as population aging, insufficient supply of accessible housing, and lack of comprehensive policy and planning. In this sense, New Zealand seems to lack appropriate legal and social frameworks that are being used to address accessibility issues for disabled people in countries such as Australia, UK, the United States, Canada, and Sweden.

The best time to incorporate accessibility and universal design is during new builds or renovations. The extra costs of adopting Universal Design principles at the design stage for new builds and major renovations is minimal, compared to retrofitting that can be difficult and is always more expensive. Indeed, the cost of implementing 100 per cent of accessibility standards at the design stage is less than one twentieth of the cost of retrofitting the features in an existing home.

To improve the accessibility of housing for disabled people, New Zealand Disability Support Network recommends a comprehensive policy package that includes legislation and policies, financial incentives and assistance, as well as engagement with and support for the disability community. Some of our recommendations are:

- An entrenched, comprehensive, and enforceable accessibility legislation
- Providing incentives for all relevant stakeholders (such as builders, developers, and Councils) to build accessible housing
- Engaging with the disability community and utilise its various capacities

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Refer to the answer in question 4B

#13117

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

How are whaanau hauaa Maori included to give their aspirations in this space?

LTP Leading and influencing better outcomes for Māori states

We will do this through:

Effective māori participation: empowering mana
whenua iwi and Māori communities are active
partners and participants at all levels of the council
group's decision-making, by progressing relationship
agreements and enhanced capacity contracts, and
enabling co-governance and co-management of sites of
significance.

However, I don't see this reflected in Part five!

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

LTP states

Kaitiakitanga: the council actively provides for Māori
participation in the management of taonga resources.

The council works with mana whenua and Māori in
the management, restoration and protection of our
water resources, and works with ma

5b. What option do you prefer for Bledisloe Terminal?

#13117

Other

Tell us why:

A plan that benefits whanau haua Maori, taitamariki, tamariki within 5 years. Provide internships and employment opportunities.

Employment can provide people with disability with increased income, and with this, higher living standards and financial independence. Employment can contribute to a sense of identity and self-worth and have positive health impacts for some people with disability.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Other</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Other</p>

- Part 11

#13117

support Māori Kaupapa and priorities

There is no mention of supporting local Marae community initiatives as a priority and not lumped together with community initiatives this needs to be given separate attention and allocation.

In the same vein carving out funding for initiatives for local kaupapa Maori kura - Nga Puna o Waiorea and resourcing to build accessible marae.

Making priority for tangata whenua, mana whenua whanau haua and accessible housing

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Population in Mount Albert North, 2006–18 Censuses

Quick stats about ethnicity for Mount Albert North (2018 Census)

European ethnic group

62.1%

Māori ethnic group

8.9%

Māori descent

11.1%

funding to be considered to capture the data of how many Maori and whanau haua maori live in Mount Albert.

The 2018 data shows that Maori are less than 30% who live in Mount Albert, it is asserted that given Mount Albert is a high decile area aligned to kura stats in this area, to buy a home and an accessible home is too expensive.

Again accessible affordable homes are required and gives equity for whanau haua Maori tamariki to access good education.

8. Do you have any other comments?

Include grass root whanau haua maori and key Maori in the community to be included to monitor:

- Fiscal Rules – to ensure we prudently manage

#13117

spending.

- Group Budget Responsibility and Transparency –

to clearly communicate to Aucklanders the value of

our activities. ACCESSIBLE TRANSPARENT COMMUNICATION IS KEY FOR WHANAU HAUA MAORI COMMUNITY, HOW WILL YOU DO THIS?

- Operating Cost Discipline – to be driven by efficiency

and value for money. ACCESS TE AO MAORI PRACTICES TO SUPPORT KAUPAPA IN THE LTP

- Capital Expenditure Discipline – to ensure we finish

programmes that we have started, fix what is broken,

and get the best out of what we have. WHO MONITORS THIS AND HOW DOES THIS GET COMMUNICATED

- Housing Growth and Infrastructure Alignment

– to better coordinate funding tools and support

from central government and align spending to

communities with growth. ACCESSIBLE AFFORDABLE QUALITY BUILDS

- Capital Efficiency – drive cost-benefit improvements.

- Making Better Use of our Balance Sheet – use the

council's significant assets more effectively.

- CCO Accountability Policy

We are proposing to make some amendments to

our CCO Accountability Policy to reflect changes in

legislation, or new or updated council policies or plans.

Any changes to CCO activities made through decision?making on the Long-term Plan 2024-2034 will also 2024-2034 will also

need to be reflected in the final CCO Accountability

Policy. CONSULT WITH MAORI HAUA NOT TO JUST TICK A BOX

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Prioritise and provide resources to evaluate trees already nominated for addition to the Schedule of Notable Trees and to find trees that should be newly added to the Schedule.

Provide resources to implement the Urban Ngāhere Strategy.

#13123

Fully pedestrianise the CBD.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I'm alarmed by the statement in the Mayoral Proposal about cutting out "expensive goldplated cycleways". Auckland needs a future-proofed safe and well-connected cycling network, fit for the growing number of cyclists, scooters and e-bikes. Cheaper options that make do with what's already in place could prove dangerous and more costly in the long run.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Focus on public transport and integration with CRL.

2a. Is there anything you would spend more on?

Introduce a refundable tourist pass, which would operate like an AT Hop card, but is valid for only 2-3 weeks. When the card is returned to the provider, the balance on the card would be refunded to the purchaser. This would enable visitors (domestic and international) to use public transport instead of having to hire a car.

2b. Is there anything you would spend less on?

Spend less on roads.

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#13123

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Council has no mandate to lease out the POAL or sell any more AIAL shares. Prolonging the port tenure would ostensibly excuse the Council from difficult but necessary decisions about the port's future, yet all those good arguments for relocating the port will continue to boil away in the public perception without any hope of change for 35 years!

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The proposal ignores expert advice on the port's unsustainable location. The city transport network is already congested; road and rail traffic to and from the port will continue to cost Aucklanders dearly. When will we ever have a transformative plan for the waterfront under this proposal?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

More specifically, what do you think of each priority we've listed above?

#13123

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I would like the AELB to advocate to Council that the Oakley Creek walkway be repaired and the broken bridges rebuilt so that the entire walkway can be reopened to the public in the near future.

#13123

8. Do you have any other comments?

I support additional funding to achieve full equity in local board funding without any redistribution of funds (Pay more & Get more scenario).

I support increased funding of the arts sector. The Auckland Arts Festival has just finished, with a superb range of high quality shows and performances. The arts are the glue that bind people and cultures together and create an atmosphere of togetherness and mutual understanding. I strongly support the Pay more & Get more scenario for cultural development.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13124

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I don't agree with stopping cycleways and raised pathways - these are also important parts of a modern city that helps people move around in the most accessible ways possible

2a. Is there anything you would spend more on?

Public transport is the big one - and better road infrastructure so that we can have buses, bikes, and pedestrians all able to use it safely

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

I like the idea of establishing a fund, but do not think we should sell our shares in Auckland Airport to fund it! Can you find the funds from somewhere else.

4b. Which option do you prefer for the future of Port of Auckland?

#13124

I don't know

Tell us here:

I would want to know who we are leasing the port to - if local Iwi or similar local NZ group, that would be great, if a big international corp that is not as good.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

It depends on what use the Bledisloe space would be put to, how much it would cost, and how much income it would generate and/or how much community benefit there would be

#13124

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>I don't know</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#13124

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#13124

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	I don't know

Tell us why

Not sure about removing bins from parks - would this just mean people would leave litter on the ground?

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

I support these - especially support advocating for more public transport and walking and cycling options

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13127

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Walking cycling and safe speeds

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Valuable land for use of community groups

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#13127

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Climate initiatives and public infrastructure.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13141

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Public transport infrastructure and climate resilience.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Developing other existing stadiums and ensuring communities still have access to smaller sports fields for events would be the best move in my view.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Retaining important assets is the wisest move for the council in my view. Increasing rates and introducing some form of land tax for empty homes and wealthy landowners would be the best move.

#13141

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable): Neo Dental Studio Limited

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Please remove the speed bump.

Please upgrade the traffic lights to relieve the continuous traffic congestion.

Just like collecting fines through bus lane CCTV, please install more CCTV to collect fines from vehicles that are speeding or do not follow traffic laws. Also, please make

#13149

this CCTV public so that victims of public safety/security/robbery can use it so that the general public can access and use it if they become a victim. This will reduce crime rates and traffic hazards, and help citizens feel safe.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

See if one green light per vehicle on motorways causes more traffic congestion, and remove those that are not needed.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

I don't think the city needs to pay more for public transportation. Having empty buses running is a waste of tax money.

In order to optimize the network, it is necessary to create a Task Force and have engineers, citizens, and prominent intellectuals who use the road every day come together to discuss and decide on optimization, rather than just discussing it at the table. It is impossible for public officials to optimize it.

The bike path is dangerous because it has not been repaired, and it is becoming a place where teenagers threaten users. For safety reasons, CCTV must be installed throughout the area so that the police and community patrol (volunteers) can respond.

Please do not make citizens suffer inconvenience while building new facilities.

2a. Is there anything you would spend more on?

There is only one main phone number for the City council.

It would be nice to create an app to make council work easier.

2b. Is there anything you would spend less on?

It would be nice to reduce funding for the bus lane-only area in CBD central so that construction can be completed without further construction.

#13149

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

I don't think operations management is going well.

Please create a new operation management committee to resolve inconveniences/complaints with fresh ideas.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Auckland City should never sell its stake in Auckland Airport.

Rather, we should own more shares in Auckland Airport so that Auckland citizens can use the airport more comfortably and safely.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Instead of selling ownership, you should replenish your finances by leasing the advance payment using CPI and use it when necessary.

#13149

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Reduce the citizens' rates or return them to rate payers as dividends.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Must own city council shares and own ownership of port land.

Future Fund plans are difficult to implement and succeed.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

Leave it as is. Please don't ruin our beautiful city with more construction sites. There is already plenty of space available for other things that serve the public interest.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Leave it as is. Please don't ruin our beautiful city with more construction sites. There is already plenty of space available for other things that serve the public interest.

6a. What do you think of these proposals?

#13149

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#13149

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Do not increase taxes further unless there is a special reason.

If you absolutely need to expand, invest in infra structure.

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
--	--

#13149

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	

Tell us why

Most people support it, especially those for small businesses.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Please do not do more construction, but finish the construction you are currently doing.

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#13161

Support most of the proposal

Tell us why:

very practical

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Uncertain outcome of using funds from sold airport shares. Keep for future generations

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

depends on terms of the lease

#13161

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

A more diverse city/wharf interface.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025,	Support

#13184

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#13184

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Installing so many speed bumps, traffic lights etc in suburban streets.

#13188

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Need to retain slower speeds outside schools.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

I think decisions about this need to include more consultation with people who live in the vicinity.

It is good to hear that a change to the operational management may be promoting better use.

I think the stadium needs to be looked in conjunction with the other sports facilities in Auckland, which could include Avondale Racecourse being converted to a cricket oval.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#13188

It is important that the council should retain its stake in Auckland Airport.

I opposed the selling off of some of our shareholding that occurred recently.

The sale of shares like this ensures a one-off return only and all future revenue from dividends would be lost.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

We should retain council ownership of the port.

It provides an essential service to exporters and importers as well as delivering a profit to the people of Auckland who own it.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#13188

Tell us why:

We need a comprehensive plan - ie not piecemeal - for the waterfront before any more decisions are made (not including a swimming pool or stadium), and perhaps there could be a competition for plans for development taking into account various proposals.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>

#13188

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

#13188

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

Tell us why

We need rubbish bins in parks and communal areas.

#13188

Increased planting of native trees should be supported. However I am not in favour of the wholesale removal of introduced trees that has been occurring - I believe (as I would wish for NZ citizens) they can live in harmony.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

Funding for the arts, community events, libraries, environmental initiatives etc is vital for the well-being of the citizens of Auckland.

8. Do you have any other comments?

The council has a high credit rating and is able to take on more debt.

It should stop selling assets - the sale of the Downtown Carpark was a disaster and earned a paltry amount.

Any idea for more intensification in the inner suburbs needs to be shelved as we desperately need more open spaces to cope with adverse weather events.

Developments along major transport routes are more desirable.

There needs to be better oversight of residential construction for any development - see the documentary series Apartment Disasters.

Perhaps the Remuera Golf Course could be sold to its members who pay very little for their lease.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Provide warm healthy accommodation for the elderly who rely solely on their superannuation for living, Work with agencies and the government to provide services and support to help integrate the homeless back into society. More focus on cycling, walking, public transport, infrastructure, and doing what is necessary to minimise CO2

#13203

emissions. Don't upgrade roading corridors, use the money to make public transport a preferable alternative, If it is good people will use it. If cycling is safe people and children will cycle. If walking is safe people will walk. A lot of congestion in the morning or afternoon would be reduced if it was safe for children to walk, cycle or bus to school.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Reduction of CO2 emissions is critical for leaving a world that is safe and healthy for future generations. Therefore increase the percentage of the transport budget allocated to walking and cycling from 1% to 20% as recommended by the UN for Environment.

Only upgrade the roading corridors by putting the emphasis on and prioritising safe separated cycling and walking, and fast frequent efficient public transport with priority lanes, priority at lights and weather protected bus stops, so they are preferable alternatives. We need more, better connected/joined up cycle paths and infrastructure to make cycling a safe alternative for all age groups, If cycling and walking or busing are viable and safe alternatives people and children will cycle/scooter, walk or bus, congestion in the morning and afternoon will be reduced, productivity, public health outcomes will improve, CO2 emissions will reduce. Cycling investment has good cost benefit ratios of 10:1 or above.

Create efficiencies and improved outcomes using "Dig Once", coordination of different infrastructure authorities so a road/area is only dug once to reduce costs and disruption and improve the overall planning and outcomes.

Every time road or related repairs and maintenance are required, use the opportunity to upgrade the cycling, walking, and bus prioritisation to improve safety, and reduce congestion, emissions and productivity by moving people from cars to other modalities, so only essential traffic is left on the road.

Do what is necessary to get Waka Kotahi to allocate a bike (and other wheeled modalities) and walking lane on the Harbour Bridge.

I support the \$50.00 per week cap on public transport, the ability to put bikes on buses, and investment in electrifying and upgrading the train and bus fleets.

#13203

2a. Is there anything you would spend more on?

See above

2b. Is there anything you would spend less on?

Widening or improving roads without prioritising cycling, walking and public transport over motor vehicles. Any new road capacity is filled to congestion within months of becoming available.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Auckland Airport is a key strategic annual income earning asset with intergenerational value and once the Auckland Future Fund is spent, as the Diversified Asset Fund was spent, that annual income will no longer be available and reliance on debt will be greater. Neither is it prudent to completely relinquish a say in a strategic asset and leave it in the ownership of investors, majority from overseas, who are far more interested their returns than they are in Auckland's or New Zealand's best interests.

4b. Which option do you prefer for the future of Port of Auckland?

#13203

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The profitability of the Port is increasing and the dividends are improving. There is still a lot of potential for improved returns and dividends from a well managed POA owned by Auckland Council

We would be putting control of a key strategic asset into predominantly overseas hands. The anticipated 2.1b may be overstated when compared with the valuation of the Port of Tauranga which at this point operates more efficiently with a better return than the Ports of Auckland reducing any financial advantage in selling the lease. Whoever buys the lease will have to cover a huge debt and will put prices up to cover it, disadvantaging New Zealanders and New Zealand businesses, and increasing inflation. This has happened in Melbourne with the cost of a container increasing from Au\$35. to Au \$191. It is likely that whoever buys the lease will structure their accounts to minimise apparent profit and their NZ tax obligations with the profits going off shore. Additionally previous reports on The Ports of Auckland have indicated that in the next 20 to 30 years there will be capacity restraints at the Ports of Auckland and the road and rail networks that service it, which will require major upgrading at a 2016 indicative cost of 1 billion dollars, by then significantly more, which will have to be paid for by the Auckland ratepayer. There is already significant congestion around the port and this will only increase. Again this reduces the financial advantage of the sale of the lease. The 7.5 % return on the Auckland Future Fund is optimistic and how much of that will be reduced by professional fees? The sale of the lease prevents any possibility of shifting the POA to another location and opening up the existing site to the citizens of New Zealand and Auckland.

Once the Future Fund is spent there is no more income, it is never wise to sell the "family cow"

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

#13203

Tell us here:

It would be great to invest it in an Auckland Future fund but it may be needed to fund council services.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

See above

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

There is a risk that alternate use of these wharfs could end up being for private benefit with only the wealthy being able to live there and use the amenities, and insufficient space given to freely available public use. For example, there are waterfronts

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to	Very Important

#13203

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	I don't know
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

no

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Do not fund the TMA to fell trees on Aucklands Maunga.

#13212

The TMA must be transparent on exactly how much budget it intends to spend on felling trees.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Stop the giant raised crossings. The one on Sandringham Rd is a hazard to pedestrians and vehicles.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

raised crossings and traffic obstructions

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

Auckland has better stadiums, North Harbour has poor access and nothing around it might as well make it usable by more in the community because major events don't go there.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

#13212

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Make downtown & waterfront great

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#13212

Huge area, difficult to see what public would use it for.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#13227

I don't know

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

I believe it's important to keep such an asset on the shore, especially as it was community funded. It's a great hub for all sports whether its football, rugby or anything else

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The sell off of our assets is only ever a quick fix, giving an instant cash injection, which inevitably is spent and we are left with no future investment opportunities

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Pay their staff more to support, retain and recruit better talent.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13241

During the austerity years, and until the infrastructure deficit is addressed with a focus on a fully funded infrastructure plan for Auckland, I consider that funding for the "nice to have" community sponsor events and community buildings should be lessened or done away with completely, in favour of transport and water upgrades and improvements.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Need to catch up on decades of previous underinvestment on transport project and asset investment. We're not even touching the sides as it is.

2a. Is there anything you would spend more on?

north western busway interface improvements in support of NZTA/WK.

2b. Is there anything you would spend less on?

cycle lanes. They're not being utilised even 10% (not even 2%) and at th expense and productivity of cars, buses and people

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

sell it to a private investor

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#13241

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

diverting resources away from the core issues required in council's statutory obligations

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

direct return to working capital

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

#13241

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Tell us why

These are not the priorities for the ward. The priorities are transport and preserving the villa architecture and taking a strong position on not over populating the suburbs when we do not have the infrastructure to support. There is no priority about heritage conservation for example.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

#13241

Urgent attention is required to support villa and bungalow preservation (Grey Lynn, Westmere, Sandringham, Mt Eden, Epsom and Mt Albert) before it is too late, in 10 years (or earlier) it will be too late.

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

I don’t know

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

water, public transport, environment, community

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13245

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

We need to continue cycleways and pedestrian safety we need to pay attention to bus driver and passenger safety.

2a. Is there anything you would spend more on?

see above comment

2b. Is there anything you would spend less on?

more traffic management schemes

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Make it more beneficial for everyone, especially for citizens in need.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

One more climate disaster could easily clean out the fund. Airport ownership will continue paying out. The future fund is vague -- what will it really be used for?

#13245

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Move the port out of Auckland. Keep the land and invest in public good on the waterfront, the mayor's original idea. What kind of private management would control the port and employees? We don't know.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Do not trust the future fund idea.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Ditch the future fund idea. It's uncertain, unreliable and untrustworthy

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

#13245

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#13245

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups	Very Important

#13245

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

Tell us why

Fix the original Pt Chev library in its original location, which attracts families, students and children. Without it, the square is becoming derelict and attracts more crime. The new medium term library is tiny and out-of the way.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?
