1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

I'm not qualified to give a useful opinion on this

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Eventually some of the port land needs to be for public use, not sure of how to economically to this or timing

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Loss of Bledisloe Terminal would be a considerable impact to port operations. Unsure of whether to transfer yet.

**6a. What do you think of these proposals?**

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better public transport, more popular mainstream public events (look at what Sydney, Melbourne and Brisbane are doing), more vibrant urban centres

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#13723**

Duplication of services better provided by central government, corporate welfare with minimal benefits for Aucklanders or Auckland as a whole

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Support spending more on public transport

**2a. Is there anything you would spend more on?**

Public transport, including more frequent bus services and rapid transit. Better infrastructure including bus lanes, upgraded stations and neighbourhood interchanges

**2b. Is there anything you would spend less on?**

Motorways or other unnecessary roading projects that will simply lead to induced demand

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

The misguided decision to demolish part of the stands to create a baseball stadium needs to be investigated and the reasons behind this poor decision-making should be analysed and made public. There needs to be accountability and transparency around past decisions.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#13723**

**Tell us why:**

Yes, fully support this proposal. Ideally, full or at least 51% public ownership of the airport should've been retained in the past, so it could be developed in a way that generates the best results for Auckland. It's clear that the current direction of the airport is not aligned with Auckland's interests, such as spending money building a shopping mall instead of prioritising upgrading the ancient terminal facilities. However, it would cost billions and billions of dollars to regain ownership of the airport, so this option is not realistic. Given this, there's no point holding on to a minority shareholding for sentimental reasons; this money should be invested where it can generate the greatest returns for Auckland. Separately, Auckland Council should use planning and resource management powers to better ensure the privately owned airport does not make decisions which are so egregiously misaligned with Auckland's policies and strategies, especially when it has such generously permissive planning controls in general.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Potentially support this, although I'm not an economist so don't know the best option. Suggest commissioning genuinely independent advice and making it public, possibly from multiple expert sources, as well as Council's internal sources. Given this is a medium-term lease, not a permanent sale, this should primarily be an economic decision, but much of this debate gets too emotional, sentimental and irrational. Maybe some public debates with economists should be arranged to help convince people. But I would not support selling the port land itself or selling a longer-term lease (eg: 50 or 99 years)

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**#13723**

**Tell us here:**

I'm genuinely not sure and think independent economist advice should be relied upon. But I support the need for making decisions based on what's best for Auckland in the long-term.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Independent economist advice should be relied upon. But I support the need for making decisions based on what's best for Auckland in the long-term.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Fully support returning these two wharves for public benefit, as long as an appropriate use is proposed for them.

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

Mixed views on this - depends what's actually proposed for the land. If Captain Cook and Marsden Wharves are returned to the public, perhaps Bledisloe Wharf is not such an urgent priority - especially with ongoing development of waterfront land in the Wynard Quarter as well, for example.

**6a. What do you think of these proposals?**

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

The third point

stopping some previously-planned initiatives, such as some raised pedestrian crossings and cycleways

Is at odds with the stated goals of the first two points of increasing reliability and speed of public transport, as well as network optimisation.

Increasing the number of people using multi modal transport, is a huge factor in achieving these goals, so to take those away will undermine those intentions and continue pushing people into single modal (aka. Using cars) transport that has proven time and again to be extremely inefficient and a major contributor to climate change.

### 2a. Is there anything you would spend more on?

Personally I would spend more on art, and community activities and events, as well as creating long term investment into creating spaces accessible primarily for pedestrians. Keeping human activities at human scale, and transport between them at scalable levels (buses, trams, and trains)

The Mayor identifies that Auckland needs to "grow up" through strengthening the financial and physical resilience of the region. His expectation is for a greater focus than at present on 'problem identification', optimising the value delivered by existing infrastructure and adopting 'pragmatic' solutions. Having been directly impacted by the "tragic" Auckland Anniversary weekend floods we endorse the mayor's message.

The following submissions are made in support of:

**#13837**

- (i) ensuring the Mayor's goal of strengthened resilience through focused delivery of Councils core functions including water and waste management, and;
- (ii) promoting the outcomes identified by the Chief Executive of organisation - wide rigour in budgeting and greater accountability.

Relief sought:

Finalise Auckland's 2024-2025 Plan so as to make the Council services of improved water and specifically stormwater management a clear priority, thereby ensuring 'accountability' for the successful delivery of such core functions by all Council employees and departments.

Recast the delivery of all Council services and outcomes in the Plan such that each is afforded a priority from 'most' to 'least' important. Clear delineation of Council priorities will assist with (or at least not detract from) pragmatic delivery of Council's core responsibilities including water and stormwater management.

Stormwater Management A Priority:

Page 15 of the Consultation Document references the 'devastating events' of the 2023 Anniversary Weekend Floods (AWF) as evidence that the effects of climate change are getting more frequent and severe. Council estimate operating budget impact of recent floods is \$55 million, a cost that is presumably likely to be repeatedly incurred in the absence of near term improvements to storm-water management.

Council's AWF response and the associated cost is described in the context of needing "...to improve our storm .....resilience" including "...arranging for geotechnical work so we can make decisions on future needs." Other, possibly more pragmatic short term solutions to the risk of future flood events are not discussed but are recommended for consideration including the matters raised below.

Prioritise Urgent Stormwater Infrastructure Maintenance

The CD identifies as a 'central proposal' (in relation to flood risk) the "prioritising urgent renewals and maintenance works to support resilience of water and wastewater networks." To the extent that the proposal applies to public stormwater infrastructure it is supported, subject to clarification of the 'existing' and 'improved' situation. Our understanding is that for planning purposes, maintenance of existing stormwater infrastructure in the Isthmus is assumed to operate at 100% capacity. Accountability and effectiveness of Council's proposed urgent maintenance works (pg 38) would be facilitated by publication of existing maintenance schedules and changes to those schedules as and when they are decided upon.

"Sustainability Assessment For Stormwater Soakage In Auckland"

**#13837**

Implement in full the findings of existing geotechnical information such as the "Sustainability Assessment For Stormwater Soakage In Auckland", commissioned by Auckland Council from Pattle Delamore Partners (PDP). While additional geotechnical information could be useful it is not unreasonable to assume that the fundamental geo-hydrological conditions of the Auckland Isthmus won't have changed significantly in the last decade. A pragmatic approach to improving Auckland's flood resilience and one that might assist with Council's accountability goals would be to apply the findings and recommendations contained in the PDP report including:

- Factors preventing the disposal of large volumes of water through soakage "include inadequately sized soakage infrastructure, inadequate pipes and .....leaves or litter blocking cesspit entrances." (pg5)
- Stormwater "soakholes and tunnels should be cleaned regularly to remove ...sediment." (pg 10)
- "...Areas affected by groundwater breakout will (emphasis added) have to be addressed in conjunction with ....development further up in the aquifer catchments. Drainage systems could be engineered to .....pipe the stormwater to the two harbours." (pg 11)
- The disposal of groundwater to soakage is sustainable .....subject to the continued maintenance of the soakage systems..." (page 12)

Without claiming geo-technical expertise, our impression of PDP's report is that sufficient geo-technical understanding exists to support changes to Auckland's proposed 2024-2034 plan to improve delivery of stormwater infrastructure services in the Isthmus.

#### Climate Change

Appropriate refocusing of Auckland Council's 'climate related' programmes on stormwater and other measurable increases in flood risk resilience . This may require reduced focus on regional 'Greenhouse Gas' (GHG) emissions which while desirable, could be more efficiently delivered by way of Central Government policy and or fulfillment of New Zealand's related international commitments. Improved stormwater resilience is consistent with Council "focussing on the areas where we can make the most difference and have the most benefit" (pg 18). While unquestionably an extrapolation, better management of Auckland's central isthmus flooding will contribute to achieving the GHG emission reductions accruing from a population density commensurate with efficient and affordable operation of Council's investments in public transport.

Climate change is a global problem. Direct efforts by Council in reducing regional emissions risks displacing emitting activities to other parts of the country and the globe

**#13837**

without a net benefit to the climate. Pragmatism and accountability are both facilitated where there is a measured connection between climate policy and the outcomes achieved.

#### Commercial and Construction & Demolition Waste (C&D)

Amend Council's Waste Management and Minimisation Plan to focus on household waste and litter. The direct and increased interest of Council in construction & demolition waste proposed in the CD is difficult to justify ahead of expenditure on adequate and resilient stormwater management for a number of reasons including:

Litter, along with organic and inorganic materials contribute to the clogging of soakage-dependent stormwater systems and therefore the ongoing cost of maintenance.

The Waste Management Act already imposes a tax charge on solid waste, ostensibly intended to discourage its generation. The merit of Council duplicating or complicating Central Government efforts aimed at reducing solid waste nationally (including C&D waste) is not explained and not obvious, at least in terms of Council priorities.

The waste discarded via dedicated kerbside collections following the AWF suggests a direct correlation between flooding events and increases in C&D waste. At the time of writing final decisions on household flood risk classifications have yet to be finalised. That said, commentary from Council officials strongly suggests that in the absence of an intolerable risk to life (pg 91) , houses flooded to the extent that repairs were required could be rebuilt 'as is'. The logical extrapolation of that approach and in the absence of improved stormwater management is for an increase in C&D waste as and when the next flood occurs.

#### Housing Intensification In Soakage-constrained Catchments

The CD discusses responding to housing and growth at pages 90 and 91. The issues confronting the city in accommodating expected growth in Auckland's population is discussed including problems arising from infrastructure deemed inadequate due to climatic and natural hazard events. The specific problem arising from intensification in those parts of the Auckland Isthmus reliant on soakage for stormwater disposal are not specifically addressed in the CD though mention is made of the proposed Making Space for Water programme.

PDP reporting on Auckland's isthmus geo-hydrology describes soakage capacity as finite and diminished where inadequate maintenance of public and private infrastructure and or increases in impermeable surface occur. Diversions of stormwater within catchments dependent on soakage in order to facilitate intensification risks shifting rather than solving problems. It is therefore unlikely to represent a sustainable solution to flooding. Questions of liability in the event of greater than anticipated flood

**#13837**

height due to 'redistribution' could provide useful encouragement of alternative, more sustainable solutions.

A risk from intensification occurs where it represents a decrease in impervious surface and a corresponding increase in the frequency and intensity of local flood events. To allow further intensification in soakage-dependent catchments without an alternative stormwater disposal option should be discouraged. Notwithstanding questions of cost and liability, the goal of increasing Auckland's housing stock will not be achieved where intensification results in the existing housing stock becoming uninhabitable.

Auckland's long term plan 2024-2034 needs to specifically address the problems of housing intensification within catchments dependent on soakage for stormwater management by precluding all such development ahead of the installation of adequate stormwater infrastructure. As identified by PDP, "...Areas affected by groundwater breakout will (emphasis added) have to be addressed in conjunction with ....development further up in the aquifer catchments. Drainage systems could be engineered to .....pipe the stormwater to the two harbours." (pg 11)

#### Urban Trees

An increase in the amenity value of urban and private treescapes should not be contemplated ahead of specific planning for and maintenance arising from the unavoidable increase in leaf litter and associated organic materials.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

I rarely use the stadium at all

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

The investments will help council generate more for the future.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

#13903

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to

The smell alone would be horrendous Rubbish collections- they should stay at weekly collections for example period pads, incontinence and baby nappies need to be collected weekly from a hygiene and sanitation point of view. Also I have indoor cats. With 12 cats worth of kitty my bin is full every week and can't be put in the garden. If we change to fortnightly collections we need bigger bins

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I/We support the central proposal overall: but are opposed to discontinuing the Long Term Differential Strategy. In addition, we support that aspect of the Pay More, Get More Scenario to attract more visitors, bid for and host major events as well as supporting economic development activities. We wish to be assured Council is properly funding core infrastructure services.

**#14032**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

**Tell us why:**

Transport: I/We agree that a key priority for transport should be to make the most of council's existing assets and planned spend, including the council's significant investment in the City Rail Link (CRL) and other large rapid transit network projects. But we ask that all transport projects are planned and implemented in close collaboration with BIDS. A key concern we have is the disruption caused to business from transport developments, including often excessive temporary traffic management. We ask this to be addressed.

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Fairly Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important

#14130

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Fairly Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	

**Tell us why**

Maybe because I am still young these proposals don't seem that great to me. but for future purposes I do see great potential in their adjustments for years to come.

### 2. What do you think of the transport proposal?

**#15406**

Support all of the proposal

**Tell us why:**

It will really help reduce congestion and the road traffic. It's a well-thought process and plan

**2a. Is there anything you would spend more on?**

Spend more on reducing road traffic and congestions and fixing potholes

**2b. Is there anything you would spend less on?**

no

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

I don't think the North Harbour stadium is utilised enough (the stadium in Mt Eden is a lot more utilised), might as well redeveloping to suit the public need than let it collect dust

There are many council services that are not well done or utilised. Funding council services will be the best option

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

no

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

At the moment, its just taking space and not being used - might as well turn it into an attraction or space for the public to enjoy

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

It aims to provide support and services so that they are affordable, fit for purpose, well used and respond to the communities needs.

**8. Do you have any other comments?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Provide more funding to improve health system.

For example; The last time i called my clinic to make an appointment so that i can see GP, I was booked from 7 Days. Reason DRS weren't available

**#15425**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Please limit those new development houses in every suburb

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

It is important to have quality transportation and all proposals are good because they make people life easier and safe

**2a. Is there anything you would spend more on?**

Maintain quality bus stops and ensure passengers are safe while waiting.

**2b. Is there anything you would spend less on?**

Electric scooters. They are not really safe on the roads

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#15425**

Because the idea of changes is important that is why I support to proceed with the proposal

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

I think it is good to make a decision on what is beneficial to improve our health condition

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Council plays a really important role in regards of climate changes and people wellbeing

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

no

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Because they will be used for providing benefit to public which I am voting for

#15425

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

I personally prefer option 2 transfer because this will make downtown looks good and clear for the use of public services.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

it sounds like a good plan makes transport more easy to access.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

i agree with it

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

They should go ahead with the proposal. It would be good for Auckland.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**#15514**

**Tell us here:**

Continue Council Group operations at the port, it would be good.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Its good to keep it to fund council services.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

no, it is all very good plans.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

it is good and helps the public.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

it should be a part of the terminal as port of Auckland operational area.

## 8. Do you have any other comments?

I am part of the sport and recreation sector in Auckland. Our sector is critical in making Auckland a great place to be. We rely on hard working volunteers and build strong communities – Council's support is critical to enable our sector to achieve what it does.

I submit that the proposed option to pay less and do less will detrimentally impact the play, active recreation and sport sector.

I submit that the Central proposal for the overall direction of Council's Long-term Plan appropriately balance rates rises with service delivery.

I submit that the Central proposal for Parks and Community will continue to provide a better outcome for the sport and recreation sector.

I support the following aspects of the consultation:

- I support retaining the Sport and Recreation Facilities Investment Fund and the strongly support the proposal for \$35 million of additional funding being added to the Fund.
- I propose that Council refines the criteria of the Sport and Recreation Facilities Investment Fund to make the additional funding non-contestable.
- I propose that the additional \$35 million funding is used to fund a range of community sport and recreation facilities including indoor sports facilities.
- I advocate for the retention of the Sport and Recreation Facilities Operating Grant and ask consideration for an increase to the Grant.
- I support Council seeking changes to the law relating to development contributions to enable Council to adequately recover the costs of growth and to use development contributions to fund community sport and recreation facilities.
- I support a review of costs and contractual structure for maintenance on parks and open spaces, specifically for sports fields.
- I advocate for community use of schools and that consideration given to the co-development of schools with Auckland Council to include publicly accessible sport and recreation facilities.

I specifically support the proposed multi-code indoor facility at the Albany Tennis Park in Oteha Valley Road. The reasons for this support are as follows: To grow the game of basketball but also other indoor sporting activities that can utilize the premises

Encourage growing sports in our community and the resources required to thrive

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Auckland Council's future plan is to make Auckland the best place and liveable city.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

no

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

because change may increase cost and decrease revenue/income for Auckland Council.

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

Hello

This is club submission from one of the oldest tennis clubs in New Zealand (incorporated in 1887) in support of funding for sport and recreation facilities in Auckland as part of Council's Long-Term Plan.

**#15627**

I write as President and an Officer of the club who over many years has been a player and club administrator and seen first hand how important Council's support to recreation and sports generally and tennis in particular across Auckland has been.

On behalf of our club's 640 members I urge that you maintain our Auckland's sport and recreation facilities and where funding allows, Council provide what additional financial assistance and investment it can to clubs.

Please retain the existing sport and recreation facilities grant at it's current level and approve the proposed (non-contestable) additional \$35m investment to address the current deficit and and upgrade existing infrastructure.

The club hopes that the changes to the LTP in the sports and recreation sector are adopted, and that Council continues to assist in enhancing sport and recreation infrastructure, to ensure the economic, societal, and health & well-being benefits of sport and recreation are maximised.

Thank you.

Yours sincerely,

Paul Greaney

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The three options (central, more, & less) proposed in the consultation are not the only options, the same goes for the corresponding rates rises. For example, we could get much-needed investment in transport services and climate resilience, as stated under the ‘pay more get more’ option, with a rate rise of less than 14% in year one. There are

**#15674**

other areas where savings could be made which are not interdependent. The 'overall direction' oversimplifies very complex decisions.

We must prioritise looking after our people and planet by investing in the things that provide us with life's essentials, such as fresh air, clean drinking water, hazard resilient landscapes and basic needs, like accessible transport and a sustainable waste network.

Where I'd like Auckland Council to do/spend more:

- Public Transport - Ensure public transport is affordable, accessible, and reliable, prioritising investment in public transport infrastructure over road spending.
- Active Transport - Urgently transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.
- Water Quality - Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.
- Environment and Regulation - Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

As well as the options provided in the structured consultation, I would also like the Council to do more of the following:

- Protecting and working with communities by continuing to prioritise the funding and delivery of Making Space for Water in partnership with Central Government.
- Ensuring adequate support for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly programme, the Communities in Need programme, and supporting work on Council land and marae. This can be achieved by re-establishing pre-2023/2024 budget funding for these areas.
- Supporting frontline, volunteer powered communities by ensuring local boards are adequately funded and grants are available. Grants and investment into community-led services provide great value to Aucklanders. For every dollar that Council invests we get back many more volunteer hours.
- Supporting moves to a circular economy and zero waste, ensuring waste materials are seen as resources to be reused, repaired, repurposed and recycled, and are diverted from landfill.

#15674

- Lowering emissions by becoming a leader in localised renewable energy generation by enabling local integrated energy solutions to support community owned energy groups.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. We need to get people out of private cars, into buses, trains and ferries and onto cycleways. Failing to understand and action this will result in a continuation of over investment in roading projects and underinvestment in the public and active transport networks. The evidence is there and the evidence is clear.

Regarding the Mayoral proposal, I am encouraged to see initiatives to make public transport more accessible, such as the \$50 weekly cap and introduction of diverse payment options. Another positive is the work programmes which look to improve public transport services, such as network optimisation, expansion of the electric train fleet and completion of the City Rail Link. Unfortunately, alongside these positives, there are some concerns. A couple of examples are; the removal of 'low performing' bus services, and the several references to roading focused projects.

As well as continuing to invest and improve our public transport network, it is essential that the Council urgently supports the transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Cutting "low-value initiatives, including raised pedestrian crossings and expensive gold-plated cycleways" is an ideological move that fails to align with the Council's own Transport Emissions Reduction Pathway. In monetary terms, this means cutting funding for cycleways by \$141.5 million. This makes no sense as we know increasing funding for active transport infrastructure is a smart investment that can benefit the

**#15674**

economy, the environment, and public health. Cycling is a low-cost, low-carbon and low-impact mode of transport that can reduce congestion, pollution, and greenhouse gas emissions. Cycling also promotes daily, incidental physical activity, mental wellbeing and social inclusion. By improving the safety, accessibility and attractiveness of walking and cycling, more people will be encouraged to choose it as a regular means of travel, creating a virtuous cycle of benefits. This approach also creates better use of existing roading assets by making space for those who cannot choose cycling, walking or public transport.

**2a. Is there anything you would spend more on?**

I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

I want Auckland Council to spend more on ensuring public transport is affordable, accessible, and reliable.

**2b. Is there anything you would spend less on?**

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

Natural Environment Targeted Rate (NETR)

Re-establish the full funding of the Natural Environment Targeted Rate (NETR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Revenue gained from NETR affects the delivery of essential projects to protect our biodiversity and taonga species. For example, the rate funds kauri dieback track upgrades, treatment support for landowners with kauri dieback, monitoring of the health of our forests and education for visitors to prevent further spread of the disease and predator control on our islands and the mainland. This work supports the health of our environment, which we need to be healthy to keep humans healthy, by filtering our water, catching and intercepting rainfall, holding our soils and slopes together and cleaning our air. Having spent years with large parts of the track network closed to protect kauri it is important to ensure this work continues as planned to enable safe access to our wild places, which are so important for our mental and physical health, and the health of our forests.

Water Quality Targeted Rate (WQTR)

Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to

the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We must prioritise looking after our people and planetb first by investing in the things that provide us with life’s essentials, such as fresh air, clean drinking water, hazard resilient landscapes and basic needs, like accessible transport and a sustainable waste network.

Where I’d like Auckland Council to do/spend more

**#15786**

- Public Transport - make public transport affordable, accessible, and reliable, prioritising investment in public transport infrastructure over road spending.
- Active Transport - Prioritising and increasing, investment in safe walking and cycling infrastructure.
- Water Quality - Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.
- Environment and Regulation - Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

As well as the options provided in the structured consultation, I would also like the Council to do more of the following:

- Ensuring adequate support for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly programme, the Communities in Need programme, and supporting work on Council land and marae. This can be achieved by re-establishing pre-2023/2024 budget funding for these areas. There are many organisations who support marginalised communities and people in need which will struggle and fail without this local board support.
- Supporting frontline, volunteer powered communities by ensuring local boards are adequately funded and grants are available. Grants and investment into community-led services provide great value to Aucklanders. For every dollar that Council invests we get back many more volunteer hours.
- Supporting moves to a circular economy and zero waste, ensuring waste materials are seen as resources to be reused, repaired, repurposed and recycled, and are diverted from landfill.
- Lowering emissions by becoming a leader in localised renewable energy generation by enabling local integrated energy solutions to support community owned energy groups.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

**2b. Is there anything you would spend less on?**

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to

Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Our ticks indicate approval generally. They are given on an understanding that doing more does not involve the sale and/or destruction of council assets including small parks and libraries.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#15811**

Less destruction and/or sale of legacy buildings such as the leys institute library grey lynn library and point chevllier library. Small corner parks. We are indifferent to the pay less aspect of the question

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We support more train and bus services, and in continuing with provision of cycleways and more secure pedestrian crossings in general

**2a. Is there anything you would spend more on?**

Rail - immediately establish heavy rail to airport via a link constructed from Onehunga

**2b. Is there anything you would spend less on?**

Facilitating the movement and parking of private light vehicles (cars)

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

We oppose the incessant demolition of perfectly usable public buildings and their replacement by another supposedly better public building. Such demolition / rebuilds are wasteful and a major contributed to Urban greenhouse gas emissions

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#15811**

**Tell us why:**

It is better to retain the income stream from our Airport shares than to establish a "pie in the sky" future fund. It is also better to retain significant public control of public assets

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

It is a strategic error to try and gain income by leasing out and losing control of the source of the income. Also, significant issues are created by leasing the port to a multinational owner who has no commitment to the environmental Integrity of the Harbor, Port precincts, and the Hauraki Gulf

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Retain the income stream and the ability to allocate it for immediate uses

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Ownership of the port land must remain in public (council) hands

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#15811

**Tell us why:**

We are open to the eventual use of these wharves for public amenity, providing it is real public amenity and not a case of them being locked away for private commercial development, in effect the wharves become public parks

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

The port must be retained in Auckland and in public hands. We are against its transfer to Northland. The transportational and infrastructural generation of greenhouse gas emissions if this happened are immense and ongoing

**6a. What do you think of these proposals?**

Long Term Plan Submission

from Graeme Easte 27 March 2024

**#15850**

This submission is in support of Level Crossing Removals, but does include a section on the ATAP 2021

because the significant funding it included for level crossing removal is apparently no longer available!

For 20 years I have argued in support of removal of the numerous level crossings on the Auckland suburban rail network, but the sheer cost has led to repeated buck-passing or deferral. While it is true that a few crossings have been removed in that time, it has usually been as part of a station re development such as at Newmarket and New Lynn in 2010 and Maungawhau in 2022. Now as we near the opening of the CRL in a bit under two years, which will allow a gradual doubling of train frequencies on the entire network, resolving the crossings has now become urgent if we are to realize the full benefit of the \$7 billion that has been invested in our rail system over the last quarter century. To be clear, any increase in the number of trains will cause a corresponding increase in down-time for the half-arm barriers, potentially blocking busy roads for up to three-quarters of the time during peak hours and causing unacceptable traffic mayhem.

Even though the \$190 million allocated in the draft LTP will only deal with a handful of our level crossings, I fully support this amount as realistic given the tight finances of Council and the restrictive approach to funding signalled by Government in their recently announced draft GPS. However, this allocation is identified as "CRL Day One - Level Crossing Removals" in other words as part of necessary work prior to the opening of the CRL in early 2026, so actually only for the initial two years of what is supposed to be a ten-year plan.

Therefore, I believe that Council should commit now to a "long-term level crossing removal programme" extending out for multiple iterations of its LTP - well into the future (as long as it takes to resolve all of the crossings on the suburban network). However because each term of Council cannot financially commit future Councils for major capital expenditure such as level crossing grade-separation beyond its term in office, projects beyond the end of 2026 should be described as "unfunded" and subject to confirmation in stages as each future iteration of the LTP is adopted by Council (in 2027, 2030, 2033, etc.). To do otherwise means having to start with a blank piece of paper every three years, rather than having the continuity which a committed programme would deliver. This will not unbalance the budget as unfunded items will remain subject to confirmation in future LTPs. I know that this approach was used by the old Auckland City Council in some of its LTPs.

Problems with the ATAP

Although not strictly part of the Long Term Plan process, I raise the issue of the Auckland Transport Alignment Project which has signally failed to deliver for level

**#15850**

crossing removals. The ATAP was first agreed to in August 2015 as a partnership between Council and Government, including a collection of government agencies. While the first iteration of ATAP referred to level crossing removals it did not include any committed funding for this work. So I was very pleased after 17 years of campaigning on the issue to see that the third iteration announced in March 2021 did actually have specific committed funding of \$220 million for "CRL Day One - Level Crossing Removal" and a further \$100 million for additional "Level Crossing Grade Separation". This was the very first time that there was committed funding for significant level crossing work. I have attached the relevant pages to my submission as the apparently committed funding seems not to be there when required.

Because the purpose of the funding category "CRL Day One - Level Crossing Removal" was not immediately obvious I asked Christine Perrins (Group Manager Strategic Transport Planning at AT) for an explanation. I had known her since her days as a policy advisor with the ARC and we had been regularly in touch. on the subject of level crossings Knowing my interest, Christine was kind enough to invite me in to her office for a briefing, at which she explained that this term refers to the remaining level crossings on the Southern Line north of Papakura. While the Eastern and Western Lines have just as many suburban passenger services as the Southern Line, it has priority because it also has 380 freight movements each week. While the Church Street East level crossing can be closed and replaced with upgraded driveway access off Hugo Johnston Drive for the handful of affected businesses, the four level crossings in Takanini will require replacement with over-bridges. Since that time there has been extensive consultation with the affected community and businesses leading to a grade-separation plan that comprises three road over bridges and two pedestrian-only bridges; the plan is going to an NOR hearing in May. The final business case (SSBC) is still being completed (due in July) but the suggested cost is very likely to exceed \$400 million. Although this exceeds the \$220 million in the ATAP, investment from Waka Kotahi via their Funding Assistance Rate (FAR) scheme should hopefully be sufficient to close the funding gap.

But there is a problem. AT officials are now claiming that the Day-One Funding was never intended for the Takanini crossings. Not only is this completely contrary to what Christine told me, it begs the question: if not for that purpose, then what on earth was it for. There are no other crossings on the Southern Line north of Papakura and south of Papakura has yet to become part of the suburban network. Nobody from AT has come up with an answer so I prefer to believe my original source, though she retired several years ago.

My point in telling this tale of the ATAP is to point out that Council needs to seek clarification from the Government and/or its partner agencies as to what the CRL Day-One Level Crossing Removal funding was actually about, and what has become of the \$220 million supposedly allocated for this purpose. Let alone the other \$100 million. In

terms of balancing Council's books, this is hardly chump change. The ATAP is due for a refresh about now and steps should be taken to ensure that it aligns properly with Council's budget.

Handing control to private interests only guarantees that earnings are redirected from the public purse to private holdings. Once public control is relinquished the private companies are free to do as they please with no accountability to the community/clients. NZ has already experienced "asset stripping" of public good by private interests for quick profit. Knowing that alone should be sufficient to prevent it happening again.

To Auckland Council,

Re.: Submission on Parks & Community Component of Council's Long-Term Plan

This is an organisational submission in support of the funding for sport and recreation facilities as part of the Auckland Council's Long-Term Plan. I am the President of Mt Eden Tennis Club.

**#15892**

As an officer of a Tennis Auckland affiliated club, and someone who is an active sports and recreation participant, I appreciate the commitment and support that Auckland Council has made and continues to make to the sport and recreation landscape of the city, especially to the network of tennis clubs. I also am very aware of pressures and challenges the Council is facing.

As an active tennis player and club member, I have personally experienced a wide disparity in the quality of club and public tennis facilities across Auckland. At our club in particular, funding is required to address the building renovation project we have planned. A greater level of investment to maintain, improve, and protect facilities from the ever-increasing ravages of weather extremes, would be hugely beneficial to the sport and its participants.

To address these issues, I fully support the retention of the existing Sport & Recreation Facilities Investment Fund at its current level, plus adding the proposed (non-contestable) additional \$35m investment. This will be vital in addressing the sport and recreation infrastructure deficit and upgrading the existing infrastructure.

I hope that the changes to the LTP in the sports and recreation sector are adopted, and the Council can continue to assist in enhancing the infrastructure, to ensure the massive economic, societal, and health & well-being benefits of sport and recreation are maximised.

Yours sincerely,

Phil Barker

Mt Eden Tennis Club President

**Tell us why:**

Transport: We agree that a key priority for transport should be to make the most of council's existing assets and planned spend, including the council's significant investment in the City Rail Link (CRL) and other large rapid transit network projects. But we ask that all transport projects are planned and implemented in close collaboration with BIDS. A key concern we have is the disruption caused to business from transport developments, including often excessive temporary traffic management. We ask this to be addressed.

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The ports are a natural monopoly. It controls the cost of supply for many items in Auckland. Even leasing it put too much control into a private company to strangle and control city cost of living while depriving Auckland of the dividend of the port activity. The combination guarantees a negative outcome if we sell them off.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The port should remain as it is and not be leased out to a foreign company who will take the profits off shore

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to	

#16015

reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	

#16047

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Privatisation of major assets such as ports, railways and other significant infrastructure has not worked in the interests of New Zealanders and has created major ongoing problems. Look at the constant interruption of rail travel in our city under corporate ownership

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	

#16251

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to	

#16302

the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Regenerate our town centres and create master plans for those that need it. For example Pt Chev has deteriorated since the library was closed. This area desperately needs a master plan and investment if there are to be another 4000 homes on Carrington road.

**#16534**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Why do we need to decarbonise all of the ferry fleet? Maybe the short haul regular Devonport ferry but I don't see why we need to spend money on electrifying the other ferry services. Focus on decarbonising the bus fleet and improve traffic flow.

**2a. Is there anything you would spend more on?**

Improving public transport

**2b. Is there anything you would spend less on?**

Electrifying ferries and speed humps.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#16534**

I don't see the benefit in this proposal, the council should retain ownership in the port and airport strategic assets, not pay fund managers to manage what we already own. These assets should be managed in a way that benefits Aucklanders.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
--	--

#16534

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

Where is the vision for Pt Chevalier with an additional 4000 homes on Carrington Rd? The current town centre cannot provide services for this many new residents in the area. We need to planning for building for this now.

Introduce more scientific and technological advancements, enhance artificial intelligence technology, and improve the quality of work and services.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#16993

Reduce late-night bus services in certain areas to avoid wasting resources.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

This plan meets the current development needs

**2a. Is there anything you would spend more on?**

Increase the number of free parking spots and parking lots

**2b. Is there anything you would spend less on?**

Simplify AT management and reduce the number of buses idling

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Strengthen the operational management of sports stadiums. In addition to large events, consider adding other activities to increase revenue. Otherwise, there may be an excess of staff.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#16993**

It's indeed a feasible plan. The airport has vast development prospects and significant appreciation potential.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

The port, land, and wharf are valuable assets. If we lease out the port operating rights, it would ensure a fixed income. However, as the business of the port and wharf grows, the profits will increase.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

With the increase in business at the port and terminals, both profits and dividends will rise. This can continue to fund council services and also contribute to the Auckland Future Fund.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The city council should maintain its ownership stake.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#16993

Tell us why:

Auckland is a major consumer city, and increased business at the Auckland port may indeed raise shipping costs, thereby increasing the cost of goods.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Not increasing shipping costs would not raise the cost of goods.

6a. What do you think of these proposals?

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Introduce more scientific and technological advancements, enhance artificial intelligence technology, and improve the quality of work and services.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#16997

Reduce late-night bus services in certain areas to avoid wasting resources.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

This plan meets the current development needs

**2a. Is there anything you would spend more on?**

Increase the number of free parking spots and parking lots

**2b. Is there anything you would spend less on?**

Simplify AT management and reduce the number of buses idling

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

With a large local population, there is a need to maintain more large-scale sports and event venues.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

The shares of Auckland Airport serve as a long-term financial support for the city and are not suitable for short-term financing needs

#16997

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Professional company management can yield double results with half the effort.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Improving the port poses difficulties and may present environmental challenges, while controlling renovation costs is also challenging.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#16997

**Tell us why:**

The area is suitable for hosting exhibitions and large-scale events.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	

#17006

Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	

#17010

Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Building a shelter at Melville Park would allow us to engage in activities there regardless of wind or rain. I support fair allocation of funds to local councils.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Introduce more scientific and technological advancements, enhance artificial intelligence technology, and improve the quality of work and services.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#17015**

Reduce late-night bus services in certain areas to avoid wasting resources.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

With a large local population, there is a need to maintain more large-scale sports and event venues.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The shares of Auckland Airport serve as a long-term financial support for the city and are not suitable for short-term financing needs

**4b. Which option do you prefer for the future of Port of Auckland?**

**#17015**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Professional company management can yield double results with half the effort.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

## Local board priorities

7a. Which local board area does your feedback relate to?

Albert-Eden

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	

**#17033**

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

**Tell us why**

**7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Building a shelter at Melville Park would allow us to engage in activities there regardless of wind or rain. I support fair allocation of funds to local councils.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Introduce more scientific and technological advancements, enhance artificial intelligence technology, and improve the quality of work and services.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#17034**

Reduce late-night bus services in certain areas to avoid wasting resources.

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

With a large local population, there is a need to maintain more large-scale sports and event venues.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#17034**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Professional company management can yield double results with half the effort.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

These funds can be strategically utilized in municipal operations to generate significant returns and benefits with minimal investment.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Expanding benefits through mode conversion.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#17034

**7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	

#17037

Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	

#17058

Working with the community on activations in the Mt Albert Civic Square.

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	

#17063

Working with the community on activations in the Mt Albert Civic Square.

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	

#17070

Working with the community on activations in the Mt Albert Civic Square.

Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

### 2. What do you think of the transport proposal?

**#17081**

Don't support any of the proposal

**Tell us why:**

This plan aligns with the present developmental requirements.

**2a. Is there anything you would spend more on?**

Increase the number of free parking spots and parking lots

**2b. Is there anything you would spend less on?**

Simplify AT management and reduce the number of buses idling

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

With a large local population, there is a need to maintain more large-scale sports and event venues.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The shares of Auckland Airport serve as a long-term financial support for the city and are not suitable for short-term financing needs

**4b. Which option do you prefer for the future of Port of Auckland?**

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

I hope that the City Council can improve its efficiency and reduce unnecessary waste. Personally, I believe that this feedback form is to a large extent a form of waste. Printing large quantities of forms consumes a lot of funds, and sending a large number of personnel to communities to assist with form filling, but in the end, how much impact does it really have?

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

**#17264**

Support all of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

By changing the operational management approach, we can meet the needs of certain groups' welfare while also creating cash flow, making it self-sufficient and self-sustaining without the need for taxpayer funding or selling off assets. This can be achieved through efficient operations.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

**#17264**

I suggest that the city council establish a new commercial management company to oversee the docks, rather than simply leasing them out. However, this commercial management company would need to operate under a completely different management structure than the city council

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

The quality of service provided by the city council is not determined by the amount of funds invested, but rather by the current underground work processes. There is a need to change the management system of council members' work processes.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Every inch of land is valuable. I hope the port can create the value it deserves.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#17264

I hope it can be done in a shorter time frame, not 15 years.

and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.

Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.

Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.

#19211

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>	

#19339

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by</p>

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

## Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	

**#21254**

Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- 1. Increase surveillance by installing more cameras in urban areas and intensify monitoring efforts to enhance security measures.
- 2. Improve internet speed to address slow network connections and ensure smooth internet browsing experiences

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#21310**

Reduce investments in unnecessary large-scale events and activities to minimize expenditures and avoid extravagance. Addressing difficulties in accessing medical care, long wait times for treatment, and improving post-treatment quality of life for patients.

## **2. What do you think of the transport proposal?**

### **Tell us why:**

Safety

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

Selling the sports stadium is a viable option, but it must prioritize the protection and well-being of the citizens of North Bank City, ensuring they continue to receive normal discounts and access to activities

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### **Tell us why:**

**#21310**

New Zealand businesses' equity cannot be sold indiscriminately. New Zealand should prioritize domestic ownership of equity to prevent other countries from exploiting it. Protecting New Zealand's enterprises, including those in transportation, finance, and other strategic sectors, is crucial for safeguarding the nation's interests.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Fair bidding should be conducted among internationally influential companies when issuing tenders.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

1.The city council possesses the capability and certain individuals for specific management roles. 2.Consider leasing rather than outright selling. 3.Avoid engaging in short-term actions solely for financial gain. Protect New Zealand's vital enterprises and resources.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

**Tell us why:**

#21310

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Implement diverse management strategies, including global tendering processes, to foster fair collaboration. Seek cooperative partners through transparent and equitable means.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>

#21310

**More specifically, what do you think of each priority we've listed above?**

<p>Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.</p>	
<p>Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.</p>	
<p>Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.</p>	
<p>Supporting our community groups with funding, information, learning new skills and building their capability and networks.</p>	
<p>Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.</p>	
<p>Working with the community on activations in the Mt Albert Civic Square.</p>	
<p>Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.</p>

### Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to

investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	Do not support
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	Do not support
<p>Re-introduce <b>recycling charges for schools.</b></p>	I don't know
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	I don't know
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	I don't know
<p>Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	I don't know
