Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transportation, speed limit monitoring, and increased fines

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Bicycle paths, walking paths

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

The process is too slow and bureaucratic.

2a. Is there anything you would spend more on?

Water Quality

2b. Is there anything you would spend less on?

Garbage Disposal

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Politics and economics are two different things.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

6a. What do you think of these proposals?

#362

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

#362

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Environmental work of all kinds needs to be done and funded both in terms of biodiversity and climate change . road funding needs to be less , just toll the roads already

#1251

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

roading safety and infrastructure, do less of this , if you want use the roads these should be rolled not a council function

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Roading should be funded by tolls or at least people who drive. We need to stop funding more roads

2a. Is there anything you would spend more on?

Environmental services and water and sewerage

2b. Is there anything you would spend less on?

Roads for cars and trucks

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

#1251

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

#1251

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Very Important
Investigate improvements for playground areas island-wide.	Not Important

#1251

Support implementation of aspects of the new Destination Management Plan.

Not Important

Tell us why

Environmental works vital on the island , council have done a great job of improving the environment with regard to weeds and pests saving money in the long term

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

Good

8. Do you have any other comments?

Disagree with funding based on population

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Stop sending at a huge cost to the ratepayers the rubbish being shipped off Great Barrier Island and return to a landfill on the island.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2019

Council must live within the rate of inflation and its income, the same way as every other ratepayer in the city. We don't have any other option and are expected to do so. No one comes to our rescue.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Consultants and bureaucrats don't add any value, but very lengthy reports that don't tell you anything.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

If we sell down this asset, we will never afford to replace it which is short sight to say lest. We have a growing population and the demand will increase.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

#2019

We need to maximise safely the value of the funds the city currently has for the long term. We should follow the advice of what the financial experts say is the best long-term investment.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Once sold nothing long-term to show for it. Lost forever to the rates payers of Auckland.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#2019

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#2282

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

#2282

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Invest excess funds in money market

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual	Support

#2282

<p>programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	Support
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	Support
<p>Re-introduce recycling charges for schools.</p>	Support
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	I don't know
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	I don't know
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	I don't know

#2282

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Fairly Important
Investigate improvements for playground areas island-wide.	Not Important
Support implementation of aspects of the new Destination Management Plan.	I don't know

Tell us why

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1. Good, affordable and reliable public transport that can be paid for via bank card. Reaching all corners every 10-15min. Preferably train or ferries. Like developed countries. And most developing countries.

#5231

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Mucking around trying to fit more cars into the place.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Reduce reliance on cars. Make the city people centric and public transport focussed.

2a. Is there anything you would spend more on?

Conservation and helping the wider region. 'Auckland' is not just the central city. On GBI we feel like imagery from the island is used to promote the city without acknowledging where it came from and the bare minimum focus on support of people living out here.

2b. Is there anything you would spend less on?

Making roads longer and wider for cars.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#5231

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#5231

Tell us why:

6a. What do you think of these proposals?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Managing the response to caulerpa.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No.

#6681

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

More cycleways as part of an integrated traffic plan. A cycleway across the harbour.
Facilitating a move into mass transit and less reliance on cars.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

The stadium is severely under-utilised and this looks unlikely to change significantly.
Some redevelopment and change in operational management are sensible.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

#6681

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

I am concerned about the need for increased road or rail transport of goods from another port outside Auckland into Auckland - environmental effects, road maintenance costs etc.

#6681

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. No

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier, Upper Harbour

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Very Important

#6681

Investigate improvements for playground areas island-wide.	Fairly Important
Support implementation of aspects of the new Destination Management Plan.	Very Important

Tell us why

The continuation of the same approach to community and environmental groups is vital.

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

In support.

Upper Harbour Local Board Priorities

7b. What do you think of our proposed priorities for Upper Harbour in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Progress with the detailed business case for a new multi-purpose library facility in Albany.	Fairly Important
Continue to deliver stage 1b of Te Kori Scott Point which includes physical works for 3 sports fields and sport field lighting as well as a second baseball diamond.	Very Important
Implement actions from the Upper Harbour Ethnic Peoples Plan.	Very Important
Continue to invest in projects that improve the environment and address climate change including planting trees as outlined in the Upper Harbour Urban Ngahere	Very Important

#6681

Strategy and continuing to support and fund volunteer environmental work.	
Implement actions from the Upper Harbour Engagement Strategy.	
Implement actions from the Upper Harbour Greenways Plan.	Very Important
Implement actions from the Upper Harbour Wheeled Recreation Service Assessment.	Fairly Important

Tell us why

7c. What do you think of the Upper Harbour proposed priorities for the 10-year budget 2024-2034?

7d. We will prioritise investment in a Detailed Business Case for a new multi-purpose library facility in Albany, however given the financial constraints faced by Auckland Council we would like to explore alternate options to fund any budget shortfalls.

We want to hear your views regarding the local board investigating options to sell land or exploring the introduction of a targeted rate to enable investment in building a new multi-purpose library facility in Albany (noting that there will be a robust public consultation process on any sale of land or the introduction of a targeted rate following investigation of viable options).

Which of the following options do you support?

Investigate options to sell land and introduce a targeted rate

Do you have any other thoughts or ideas on potential options to fund budget shortfalls associated with building a new multi-purpose library facility in Albany?

8. Do you have any other comments?

Long-term Plan 2024-2034

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- NETR - increase targeted environmental rates
- Long term funding for Tu Mai Taonga in the 10 year budget

#7971

- An increase in the resourcing and funding of the Marine Biosecurity team, who will be critical in preventing the spread of Caulerpa in the region from Aotea. Current staffing and budgets are a drop in the ocean, given Auckland's long coastline and Marine Biosecurity risks.

- ongoing support for community conservation, restoration and pest management through regional budgets to ensure past investment is not wasted - we go back to zero quickly on some of these things

- specialist seabird capability being appropriately resourced and funded within Auckland Council to reflect the global significance of the region for ground nesting seabirds.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No. I think our infrastructure is boring but important. Recent extreme events make us aware that we can't put off issues like drainage and stormwater and power backup.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I'd encourage funding into public transport and cycleways rather than new roads. As providers to a huge proportion of Aotearoa's population you have a chance to tell a fossilised and short-sighted central govt what matters to us in our vibrant city. I would like more toll roads ie less funding for people who drive cars; especially if it can be targeted to fossil fuel cars, now that the EV/PHEV road tax advantage has been obliterated by central govt. I do not support reducing funding for cycleways but agree some of the raised pedestrian crossing costs (there are 4 on our 1 km road) could be reduced. I think some of our transport woes relate to our urban density issues (or lack of them), and further and further commutes and building on greenfields needs to reduce

2a. Is there anything you would spend more on?

Public transport and cycleways.. Expedite the CRL (or at least no FURTHER delays on that)

#7971

2b. Is there anything you would spend less on?

Raised pedestrian crossings and more roads

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I think it's a good idea to have a Future Fund for critical challenges (like extreme weather events) as long as it is not just used for basic infrastructure and to nibble at when the budget is hard to balance

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Given the same caveats re use of the Future Fund as in 4 (a)

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

#7971

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

The other port areas that have been redeveloped for other uses bring a significant return to the city in tourist and cultural ways and increase usability enormously

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

as above

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that	Support

#7971

<p>we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	I don't know
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	I don't know
<p>Re-introduce recycling charges for schools.</p>	Support
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	Support
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	Support
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	Support

#7971

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

It's critical to ensure Local Board and centrally held budgets for natural environment work and iwi and community led conservation continue - to avoid losing the value of past investments and meet Auckland Council's legislative obligations to maintain indigenous biodiversity.

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Very Important
Investigate improvements for playground areas island-wide.	Fairly Important
Support implementation of aspects of the new Destination Management Plan.	Fairly Important

Tell us why

When you fund community groups to deliver services and ecology works you have terrific value for your dollars as there is a great groundswell of volunteer effort and expertise you tap into. Also particularly with environmental projects like Predator Free

#7971

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

I like your priorities and am glad to see Ahu Moana there and supporting environmental groups. Such great value for money with volunteer time and of course if we stop or pause these we return to square one re areas like predator control and planting, without regular maintenance and weeding. Other areas for support include a return of a regular dental service (which is planned to become self funding) and increasing pedestrian safety in areas which are currently actually almost non-walkable beside the road.

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Reduce debt

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce development

#8164

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

No more mega-projects. Fix what needs to be done. Enhance public transport.

2a. Is there anything you would spend more on?

EV

2b. Is there anything you would spend less on?

Carbon-based transport

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Let the local board decide

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

POAL is a national security asset. Darwin City was truly short-sighted & stupid with its port lease. Stop searching for cash levers. Forget the Auckland Future Fund. Maintain the status quo.

#8164

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

See above

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Abandon the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Abandon the proposed Auckland Future Fund

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Because your 'public benefit' means spending rate payers' money

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#8164

Tell us why:

Don't emasculate the Port of Auckland operational area

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. SUBMISSION March 28

Auckland Council's Long-Term Plan 2024 - 2034

AUCKLAND IN THE ANTHROPOCENE

Submitted by [REDACTED], critical friend, landowner, ratepayer, stakeholder

Long-term Plan Team

1 PREFACE

FIRST, the world-system is facing increasing disorder. 'The central dilemma is this. As we move from a world where humanity can impose a direction on the planet, to one in which nature itself is imposing on us, the weakness of the structures we have in place to manage and resolve the conflicts that are inherent to a system of competing states and capitals will become more apparent' (Meadway, J. 2023).

To be blunt, we are moving from a world where capitalism can impose itself on the planet to a world where nature is imposing itself on capitalism.

SECOND, Shaping Tomorrow Together, Exploring the deliberative democracy journey, constitutes autocratic brainwashing, elite bullshit, municipal disinformation, & provider capture propaganda. Aristotle, the ancient Greek philosopher considered to be the father of politics, described Auckland City very well in Politics, Book III, Chapter 3 (1278b). From my public experience of Auckland City, I would describe Auckland City by Ausnahmezustand.

To be blunt, 'Auckland's next long-term plan (TTP), also known as the ten-year budget, is due to take effect 2024 June, with public consultation open from February 28 until March 28' illustrates the problem. There is the Auckland Ausnahmezustand, Aristotle's Politics, Book III, Chapter 3 (1278b). Proposals of Feedback & to Have Our Say demonstrates the overwhelming contempt & disregard the municipality has for its citizens. This is not doing things differently. This is more of the same top-down imposition.

THREE, Cooler Futures, Degrowth, & a Lighter Economy are completely absent from the Auckland Council's Long-Term Plan 2024 - 2034.

To be blunt, the big challenges faced by Council are rooted in unnecessary population growth. Auckland has to stop growing. Auckland has to stop being driven by immigration. And no more mega projects.

2 AUCKLAND ANTROPOCENE

The economic paradigm of attraction, growth, immigration, & mega-projects is the problem, not the answer. With a 1.7 million population spread over a wide area, the driver behind Auckland's problems is self-evident. In the climate economy, municipalities have to prepare for a more shock-prone paradigm by switching to the climate economy. Cooler Futures, Degrowth, & a Lighter Economy mandates (1) Less carbon; (2) Less cement; (3) Less consumption; (4) Less construction; (5) less kilometres driven; (6) no mega-projects; (7) shorter supply chains; and (8) a network of village-type communities.

3 The Long-term Plan 2024-2034 (10-year Budget)

The Mayoral Proposal & Vision

“Auckland Super City has reached its teenage years.’ This explains the immaturity of the Mayoral Proposal & Vision, it's nonsense, its superficiality, & its vagueness. The entire Mayoral Proposal & Vision is non-sequitur. For instance, ‘I want Aucklanders to experience daily the stunning natural environment & to move easily around the region’. This maximizes emissions.

The big challenges faced by the Council are the product of Councils past. Stop Attraction. Stop Development contributions. Stop Funding Growth Infrastructure. Stop funding economic development & events. Stop Immigration. Stop Investment. Stop Mega-Projects. Stop your Spending Habits. Of course there is under-recovery. The law of diminishing returns makes the economic paradigm unsustainable. Of course the public doesn't trust you. We see the entire system is rigged towards siphoning our funds towards constructors, developers, & profiteers.

Don't work with government to devise better ways to fund growth. Work with government to devise better ways to defund growth. Fund degrowth.

GETTING BACK TO BASICS in the LTP requires fixing the challenges baked-in by past mayoral plans beginning from Les MILLS & Christine FLETCHER. Fixing what is broken requires more than ‘Better, Faster, Cheaper, Finish, & Optimize. Empowerment at the local level is an excellent path forward. Local boards are best placed to respond to local priorities.

Fixing Auckland

A fact-led process would have been much better than a politically-led process. Either we are Aucklanders or we are not. End your Identity politics.

Reduce debt to revenue ratio. YES. Reduce net operating costs of Auckland Council group. YES. Slow growth in capital expenditure. YES. YES. YES.

Debt reduction & emission reduction can be two sides of the same coin.

Get debt down to zero by 2030.

TRANSPORT. Fix the roads. YES. Cut low value initiatives. YES. Make public transport cheaper, easier to use, faster, & more reliable. YES.

But where are our zero-emission buses? EV charging stations?

FINANCIAL RESILIENCE.

The Auckland Future Fund. This does not stack up. Delete in the trash can.

PHYSICAL RESILIENCE

Making Space for Water. Yes. Yes. Yes.

Auckland's prime waterfront land. Auckland Ports are a national security asset. DON'T BE STUPID like Darwin City Council. Enhanced status quo.

Renewable energy. Be bold. Reduce emissions across AC. Aim for 2030.

LOCAL BOARD EMPOWERMENT. Yes. Trash the Democratic Advisors.

COMMUNITY ASSETS, SERVICES, & OPEN SPACES

Cut capital expenditure by \$10 billion. Shift this \$10 billion to debt reduction.

REGIONAL FACILITIES AND DEVELOPMENT

Cut capital expenditure across the board.

MAORI OUTCOMES

Increase capital expenditure to \$250 million over ten years.

WATERCARE

Reduce Watercare's debt to revenue to zero by 2030.

4 REVIEW

The Mayoral Proposal & Vision for the LTB is half-baked. The mayor is looking at the LTP backwards. Wayne can see the trees, but he cannot see the forest, which is Auckland in the Anthropocene. Slow growth should have been the beating core of the entire LTP.

Plan for 200,000 less people by 2052. 1.5 million is perhaps sustainable.

Cooler Futures, Degrowth, & a Lighter Economy can be achieved through robust debt reduction. Debt reduction reduces emissions as a byproduct.

Investing in debt is investing in Auckland. The \$10 billion stored up under COMMUNITY ASSETS, SERVICES, & OPEN SPACES must be transferred to debt reduction. Abandon boosterism, development contributions, economic development, events, growth Infrastructure, & urban regeneration, which are all Zombie economic activities. Banish consultants (Ask local people). Dump middle managers. Get rid of lawyers. No more new assets. No new golf courses. No new parks except for Puhinui/Stonefields-Otuataua, which needs to be designated a World Heritage site. No new stadiums. No more seismic upgrades. Reduce the workforce. Reduce the work fleet. Stop doing. Stop spending. Unload the property portfolio.

Debt reduction now creates better value for Aucklanders in the future.

5 CONCLUSION

Auckland in the Anthropocene requires Cooler Futures, Degrowth, & a Lighter Economy. Investment in debt reduction is a first step towards adapting to the climate economy, which has ecological drivers, not economical.

C+ Go back to the drawing board. Put slow growth at the core of the LTP.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

A high priority should be improving public transport and active transport (ie cycling and walking) above new roading projects. This will be necessary to even come close to the councils Transport Emissions Reduction Pathway goals, as well as making the city a better place to live and travel within.

#8280

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Prioritising public transport and safe and accessible active transport pathways (for walking and cyclists) is vital to reach the Council's emission reduction goals as well as making the city a more livable place. Spending should be directed to public and active transport above projects that prioritise private vehicles.

2a. Is there anything you would spend more on?

Active transport (cycle and walking) safe and accessible pathways

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

The stadium precinct is a valuable community asset and was run much better in its early days. The option of redevelopment is contradictory - I cannot see the "deconstructing" the stadium and selling some of the land will actually provide better community facilities. The community will just lose permanently an important asset. Change the management of the stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#8280

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The idea of the Auckland Future Fund is good, but Auckland did have a similar fund till 2017, when the decision was made to spend it seemingly in the absence of any crises/ major storms or damage to the city. I do not believe selling assets to make another fund that could similarly disappear with another council is wise.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

With good management of the operational side of the port I believe the annual dividend to the council is more valuable than losing control of this asset. I would have deep concerns about some overseas interests essentially holding power over one of Aucklands main assets. I also have the above mentioned reservation of the Future Fund not being appropriately used in the future (see above).

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

#8280

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Other
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by	Support

#8280

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Restore the full funding of the Water Quality Targeted rate to pre 2023/2024 levels.

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Please note: my submission on my Local Board (Upper Harbour) went on a separate online form.

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase investment in protecting and restoring the natural environment, including marine protection, marine biosecurity, caulerpa response, specialist environmental services, and community and iwi led conservation projects.

#8631

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Unnecessary asset renewals in the roading network - footpaths and pavements - AT's budget should be rebuilt from scratch. Prioritise busways, public transport options, cycling and walking. Stop encouraging people to use cars. I don't care about paying less, I care about environmental outcomes and community wellbeing outcomes and the climate.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

it's common sense for a big city and well overdue. But I don't support this crazy obsession against cycleways and raised pedestrian crossings. Prioritising people getting out of cars means more people in buses, on trains, on scooters, cycles and on foot. We want this.

2a. Is there anything you would spend more on?

Busways to the west, east and south just like the northern one - it works.

And a workable train system to complement this. Time to grow up as a city.

A separated network of cycleways right around the city

2b. Is there anything you would spend less on?

Unnecessary maintenance especially of non-arterial urban areas. New roads that don't have busways and cycleways.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

#8631

There's a lot of debate about whether it is fit for purpose. If it is redeveloped it should be as part of the whole of Auckland Stadium situation - the capacity and types should not overlap. Consult widely on this - it will be opposed if not well done.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I think Auckland has bigger problems to deal with than the Airport. It is an international gateway to NZ and central government should have the lead role

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

More cash now and potentially more flexibility to decide if the port stays or goes and when, and how it operates.

4c. If the council continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

The Future Fund will need to have a big injection of capital to do its job

4d. Do you have any feedback on any other part of the proposal?

#8631

Tell us here:

No

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

They are of good potential use to the city

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

\$110m is a lot to transfer them - not sure this would be worth it. No interest in seeing a stadium here.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

NETR should be increased to compensate for inflation as per Option 4 of Appendix D

#8631

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier, Waitematā

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Fairly Important
Investigate improvements for playground areas island-wide.	Fairly Important
Support implementation of aspects of the new Destination Management Plan.	Very Important

Tell us why

Tourism and conservation are the two biggest employers and sectors on the island. The Aotea Local board are extremely supportive of environmental restoration trusts and projects and this is very greatly appreciated by many residents and ratepayers.

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

They are spot on.

#8631

Waitematā Local Board Priorities

7b. What do you think of our proposed priorities for Waitematā in 2024/2025?

I don't know

More specifically, what do you think of each priority we've listed above?

Deliver a new civic space at 254 Ponsonby Road.	Not Important
Complete detailed design of Leys Institute remediation and seismic strengthening, and progress physical works.	Fairly Important
Phased delivery of improvements for Heard Park.	Not Important
Deliver services and programmes that support youth activation, leadership, and wellbeing, particularly in Newmarket.	Fairly Important
Develop programmes that improve perceptions of safety within the City Centre, and our town-centres.	Very Important
Support local communities to develop Emergency Planning & Readiness Response Plans.	Fairly Important
Seek opportunities to promote and celebrate heritage places in Waitematā including making digital content and place-based stories more accessible.	Fairly Important

#8631

Tell us why

7c. What do you think of the Waitematā proposed priorities for the 10-year budget 2024-2034?

I would prefer they prioritised the CBD renewal, greenways, public places, walking access and community environmental programmes, and the water pollution in the Waitemata at multiple places - which is dreadful.

8. Do you have any other comments?

I support the submission of Forest and Bird and the Auckland Conservation Board (attached). I particularly support an increase in investment in the natural environment regardless of which proposal Aucklanders choose.

Te Rūnanga Papa Atawhai o Tāmaki Makaurau
Auckland Conservation Board

Feedback on
Auckland's Long Term
Plan proposals for
2024-2034

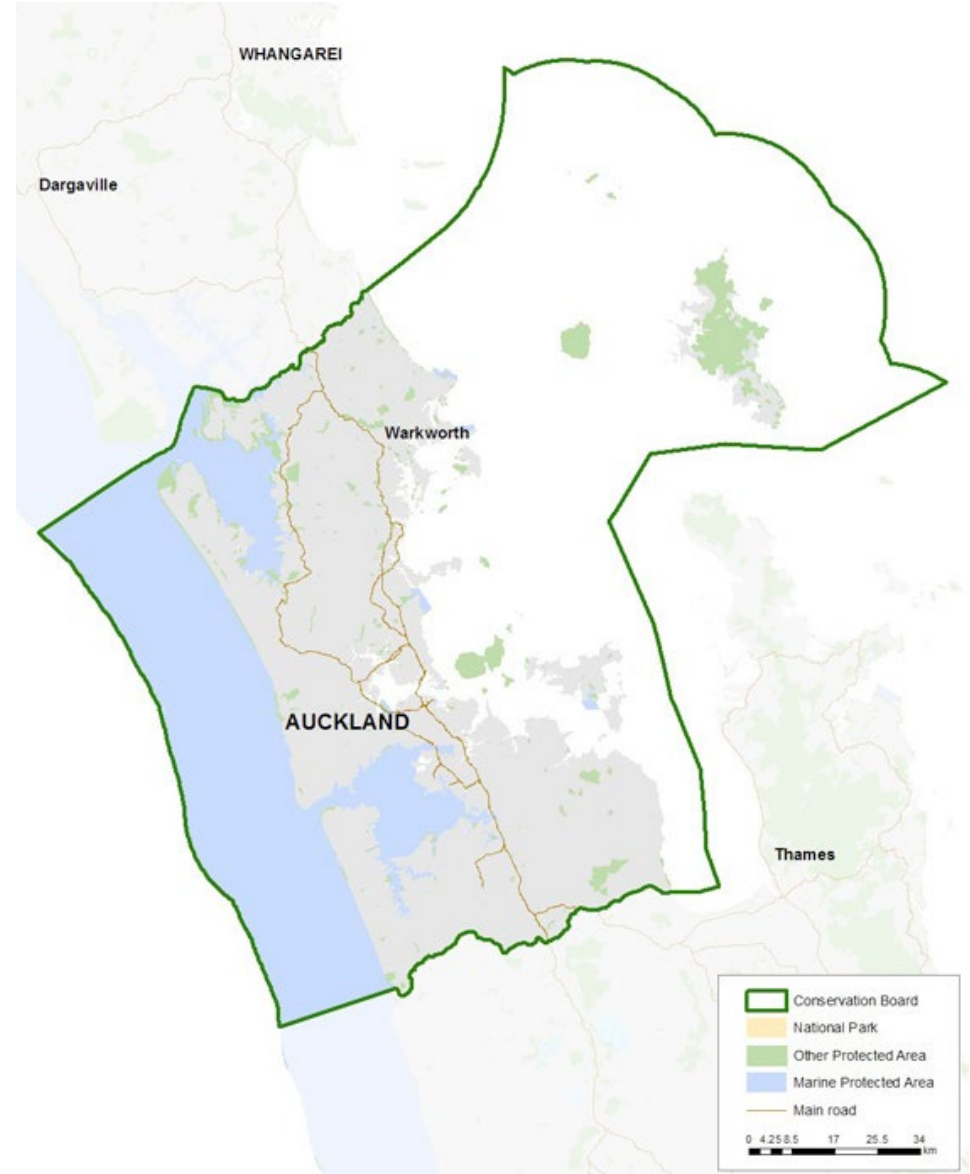

8631

Purpose of the Auckland Conservation Board

- Appointed by the Minister of Conservation
- An independent advisory body to DOC, established by statute, to represent the Auckland community and tangata whenua.
- Part of a network of 15 Conservation Boards across New Zealand.
- Empower local communities and iwi to contribute to the management of conservation, providing a voice for local concerns in DOC's work, and nationally where required.

Our rohe mirrors Auckland Council's rohe

- Kaipara to Mangawhai Heads to North bank of Waikato River and the Firth of Thames at Pūkoro Mirānda
- Extends out to the 12-nautical mile limit with respect to coastal and marine issues, and to the 200-nautical mile limit with respect to protected species.

Part of our role is to advocate for nature...

- Highlighting the Auckland region's declining indigenous biodiversity
- Protection and regeneration of marine habitats and ecosystems
- Freshwater ecosystem and species protection and restoration
- Championing community and iwi led conservation work
- Increase public support for conservation and restoration outcomes by advocating for improved access to nature

Auckland Council is the single biggest influencer of natural environment outcomes in the region

- The heavy lifting of conservation in the Auckland region is done by Auckland Council, tangata whenua and communities
- Auckland Council alone is responsible for maintaining indigenous biodiversity in the region and in our coastal waters
- The 2024-2034 LTP must resource Council teams, iwi and communities efficiently to continue work already started
- And ensure negative environmental impacts from growth, infrastructure and land use do not occur

Recognition of the environment is clear in the proposal and this is welcome

...but more investment and focus on outcomes is needed

- The vision and objectives are not achievable without more targeted action and investment
- The options discussed (Central, Pay More, & Pay Less) are not the only options
- Restoring NETR and WQTR should be a bottom line for the 2024-2034 LTP
- Even with this investment, more needs to be done to reverse biodiversity and ecosystem declines

“We want to create an Auckland that is beautiful, thriving, and safe, for all Aucklanders...

... a stunning natural environment – harbours, beaches, forests, maunga, islands, urban trees – that can be accessed and enjoyed by Aucklanders across the region”.

This LTP sets a **vision** for Auckland’s environment – but how will it be made a reality, given the scale of the **problems** we need to solve?

- ❖ Access to nature is limited for many Aucklanders
- ❖ Native species are under threat from pest plants and predators
- ❖ Wetland and freshwater systems lost or degraded
- ❖ Multiple threats to harbours
- ❖ Hauraki Gulf has been declining for more than two decades
- ❖ 25 species of seabirds breed in the region, all threatened
- ❖ Marine life in coastal waters is a shadow of what it was

Auckland's biodiversity will continue to decline under the 2024-2034 LTP proposal

- No significant environmental outcomes are specified
- No goals for water quality – freshwater bodies, harbours or estuaries
- No goals for invasive species control
- Silent on species abundance and species extinctions
- Marine biodiversity and ecosystems are under huge pressure but there is little investment in these areas
- Climate warming will increase threats

What does
Priority 5:
*“making the
most of our
harbours and
environment”*
mean in reality
in 2024-2034?

- NETR and WQTR were created because Auckland Council had not prioritised the natural environment or water quality
- Historic levels of investment had not been enough and the environment suffered
- On the other hand, community and iwi participation and support have increased markedly in the last 6 years
- And blue/green infrastructure is now known to be critical as out climate warms

**Now is not the time to
trade off Auckland’s
natural assets**

8631

Caulerpa: LTP can do more than allocate \$200k – and can change the outcomes...

- Advocate to government for a fit for purpose plan and budget
- Increase marine biosecurity capacity to match Auckland’s coastal risks
- Regional co-ordination and control/removal plan
- Truly enable local response from iwi and communities
- Streamline approvals
- Build long term marine capacity and knowledge systems at same time
- Include invasive marine species in RPMP

Local Boards are key

- But most of the significant natural taonga in the region are found in a few Local Board areas – and those communities and iwi need to be supported long term to protect them
- “Fairness of funding” is therefore also needed to achieve better natural environment outcomes
- Consider which Local Boards can enable the best outcomes and fund them accordingly eg Aotea, Rodney, Waitakere Ranges, Franklin

We support further **# 8631** investment in Māori outcomes in the LTP in relation to te Taiao

“Kaitiakitanga: the council actively provides for Māori participation in the management of taonga resources. The council works with mana whenua and Māori in the management, restoration and protection of our water resources, and works with mana whenua and Māori to design/co-design and deliver environmental management and community-led conservation initiatives”.

The LTP investment in Māori Outcomes should support this intent, as well as Auckland Council’s commitments to Te Tiriti o Waitangi and all existing and future treaty settlements

We request that Council honour the intent of the LTP’s vision and priorities and increase investment in the natural environment **regardless of which option Aucklanders choose....** including:

The “Pay more” environmental components (Option 4) as a minimum investment for the 2024-2034 LTP

An increase in investment in marine biosecurity and Caulerpa response

More targeted environmental investment in Local Board areas with high biodiversity values

Partnership with DOC, iwi and landowners, more investment in increasing public access to nature

Continued infrastructure investment to reduce sewerage and pollutants entering harbours and waterways

Continued investment in pest-free islands (Aotea, Kawau, Waiheke) and island biosecurity

Allocation of resources to define regional environmental bottom lines to guide future LTP investment and prioritisation

Continuing the climate change targeted rate partnering with iwi and communities to improve resilience and reduce emissions

Thank you for your attention

PATAI/QUESTIONS?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do less
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

nope

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

nope

#8995

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

nope

2a. Is there anything you would spend more on?

nope

2b. Is there anything you would spend less on?

nope

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

nope

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

nope

4b. Which option do you prefer for the future of Port of Auckland?

#8995

Tell us here:

nope

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

nope

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

nope

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

nope

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

nope

#8995

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Other</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#8995

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

nopeeeeeeeeeee

Local board priorities

7a. Which local board area does your feedback relate to?

Manurewa

Māngere-Ōtāhuhu Local Board Priorities

7b. What do you think of our proposed priorities for Māngere-Ōtāhuhu in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Strengthen partnerships with local mana whenua through project delivery, including Te Kete Rukuruku, completion of David Lange Park playground and improvements.	
Deliver community climate initiatives such as Low Carbon Lifestyles, and Māngere Bike Hub with our community partners.	

#9507

Deliver a community-driven safety action plan aimed at tackling anti-social behaviour and addressing local safety concerns enhancing the overall sense of safety within our local community.	
Improve employment and economic opportunities through our local economic broker programme.	
Support community-led activations at our parks and facilities through our community grants.	

Tell us why

7c. What do you think of the Māngere-Ōtāhuhu proposed priorities for the 10-year budget 2024-2034?

I do not support most priorities

Manurewa Local Board Priorities

7b. What do you think of our proposed priorities for Manurewa in 2024/2025?

Not Important

More specifically, what do you think of each priority we've listed above?

Continue to support, deliver and fund initiatives that contribute to positive youth development.	Not Important
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	Not Important

#9507

Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	Not Important
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	Not Important
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	Not Important
Identify options for recreational activities to support people of all ages and abilities being casually active.	Not Important
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	Not Important
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

HARPSICHORD

17

Musical notation for measures 17-21. The piece is in G major (one sharp) and 3/4 time. Measure 17 starts with a mezzo-forte (*mf*) dynamic. The right hand features a melodic line with grace notes, while the left hand provides a steady bass accompaniment.

16

Musical notation for measures 22-26. The dynamics range from forte (*f*) to mezzo-forte (*mf*). The right hand continues with a melodic line, and the left hand has a rhythmic accompaniment.

22

27

Musical notation for measures 27-33. The dynamics range from mezzo-piano (*mp*) to mezzo-forte (*mf*). The right hand has a more active melodic line with grace notes, and the left hand has a steady bass line.

32

34

Musical notation for measures 34-36. The dynamic is mezzo-piano (*mp*). The right hand has a melodic line with grace notes, and the left hand has a steady bass line.

37

Musical notation for measures 37-40. The dynamic is piano (*p*). The right hand has a melodic line with grace notes, and the left hand has a steady bass line. The piece ends with a fermata on the final chord.

37

Red.

III. Saltarello

Presto

Anonymous (16th Century)

Musical notation for the piece 'III. Saltarello'. It is in G major (one sharp) and 3/4 time. The tempo is marked 'Presto' and the dynamic is forte (*f*). The right hand has a melodic line with grace notes, and the left hand has a steady bass line.

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Environmental & Ecological protection.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#9966

Less big roading infrastructure.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We need to transition from fossil fuels and become more accepting of efficient public transport.

2a. Is there anything you would spend more on?

Public transport and cycleways.

2b. Is there anything you would spend less on?

Hugely expensive motorways.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Long term expenditure.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Airport ownership is not a core business for the Council.

#9966

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Sound financial stewardship.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Long term future of the city.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Financial benefit with no reduction in Port operations.

5b. What option do you prefer for Bledisloe Terminal?

#9966

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Some waterfront land needs to be available to the public.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in	Support

#9966

2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services	Very Important
--	----------------

#9966

and environmental groups to deliver ecology works.	
Continue our regular maintenance of parks and assets.	Fairly Important
Investigate improvements for playground areas island-wide.	Not Important
Support implementation of aspects of the new Destination Management Plan.	Not Important

Tell us why

Ecology and the environment are paramount.

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

Adequate.

8. Do you have any other comments?

AUCKLAND COUNCIL LONG-TERM PLAN 2024-2034

HAVE YOUR SAY

The hard cut off for submissions is 11.59pm, Tuesday 28 March

OVERVIEW

The well-being of te Taiao, communities, whanau and hapū on Aotea Great Barrier Island are supported by investment in iwi and community led conservation and specialist council Environmental Services. Councillors need to ensure Local Board and centrally held budgets for all-natural environment work on Aotea and iwi and community led conservation continue - to avoid losing the value of past investments. This will in turn help towards meeting Auckland Council's legislative obligations to maintain indigenous biodiversity across the region.

To achieve this, we support restoring the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) to their previous levels plus an adjustment for inflation.

Specifically for Aotea it means supporting the Local Board's priorities over the ten-year timeframe, as stated in the consultation document, which are in the Council's power to deliver. Aotea is regionally very significant for freshwater, terrestrial and marine biodiversity and warrants this long-term investment relative to other board areas. In particular we support:

- Long term funding for Tū Mai Taonga in the 10-year budget (see below).
- An increase in the resourcing and funding of the Marine Biosecurity team, who will be critical in preventing the spread of Caulerpa in the region from Aotea. Current staffing and budgets are a drop in the ocean, as is the proposed allocation of \$200,000 to Caulerpa noted in the Discussion Document given Auckland's long coastline and Marine Biosecurity risks.
- Ongoing support for community conservation, restoration and pest animal and plant management through regional budgets to ensure past investment is not wasted and gains can continue.
- Support for increased investment in Ahu Moana and related initiatives to protect the coastal waters and ecosystems of Aotea.
- Specialist seabird capability being appropriately resourced and funded within Auckland Council to reflect the global significance of the region for ground nesting seabirds.

<https://akhaveyoursay.aucklandcouncil.govt.nz/hub-page/long-term-plan-2024-2034>

FURTHER SUBMISSION DETAIL

Auckland Council is the single biggest influencer of natural environment outcomes in the region:

- The heavy lifting of conservation in the Auckland region is done by Auckland Council, tangata whenua and communities.
- Auckland Council alone is responsible for maintaining indigenous biodiversity in the region and in our coastal waters.
- The 2024-2034 LTP must resource Council teams, iwi, and communities efficiently to continue work already started.
- And ensure negative environmental impacts from growth, infrastructure and land use do not occur.

Recognition of the environment is clear in the proposal, and this is welcomed, but more investment and focus on outcomes is needed:

- The vision and objectives are not achievable without more targeted action and investment.
- The options discussed (Central, Pay More, & Pay Less) are not the only options.
- Restoring NETR and WQTR should be a bottom line for the 2024-2034 LTP.
- Even with this investment, more needs to be done to reverse biodiversity and ecosystem declines.

This LTP sets a vision for Auckland's environment:

"We want to create an Auckland that is beautiful, thriving, and safe, for all Aucklanders... a stunning natural environment – harbours, beaches, forests, maunga, islands, urban trees – that can be accessed and enjoyed by Aucklanders across the region".

But how will it be made a reality, given the scale of the problems we need to solve?

- Access to nature is limited for many Aucklanders.
- Native species are under threat from pest plants and predators.
- Wetland and freshwater systems lost or degraded.
- Multiple threats to harbours.
- Hauraki Gulf has been declining for more than two decades.
- Twenty-five species of seabirds breed in the region, all threatened.
- Marine life in coastal waters is a shadow of what it was.

Auckland's biodiversity will continue to decline under the 2024-2034 LTP proposal:

- No significant environmental outcomes are specified.
- No goals for water quality – freshwater bodies, harbours or estuaries No goals for invasive species control.
- Silent on species abundance and species extinctions.
- Marine biodiversity and ecosystems are under huge pressure but there is little investment in these areas.
- Climate warming will increase threats.

What does Priority 5: “making the most of our harbours and environment” mean in reality in 2024-2034?

- NETR and WQTR were created because Auckland Council had not prioritised the natural environment or water quality.
- Historic levels of investment had not been enough, and the environment suffered.
- On the other hand, community and iwi participation and support have increased markedly in the last 6 years.
- And blue/green infrastructure is now known to be critical as our climate warms.
- Now is not the time to trade off Auckland's natural assets.

Caulerpa: LTP can do more than allocate \$200k – and can change the outcomes...

- Advocate to government for a fit for purpose plan and budget.
- Increase marine biosecurity capacity to match Auckland's coastal risks.
- Regional co-ordination and control/removal plan.
- Truly enable local response from iwi and communities.
- Streamline approvals.
- Build long term marine capacity and knowledge systems at same time.
- Include invasive marine species in RPMP.

Local boards are key:

- But most of the significant natural taonga in the region are found in a few Local Board areas – and those communities and iwi need to be supported long term to protect them.
- “Fairness of funding” is therefore also needed to achieve better natural environment outcomes.
- Consider which Local Boards can enable the best outcomes and fund them accordingly e.g. Aotea Great Barrier, which has regionally significant wetlands, forests and freshwater as well as marine ecosystems and a number of endemic species.

We support further investment in Māori outcomes in the LTP in relation to te Taiao as the discussion document states:

*“Kaitiakitanga: the council actively provides for Māori participation in the management of taonga resources. The council works with mana whenua and Māori in the management, restoration, and protection of our water resources, and works with mana whenua and Māori to **design/co-design and deliver environmental management and community-led conservation initiatives**”.*

- The LTP investment in Māori Outcomes should support this intent.
- The Ngāti Rehua Ngātiwai ki Aotea led Tū Mai Taonga project is generating environmental, social and Māori outcomes and should be supported by Nga Matarae and Environmental Services with long term funding over the 10-year plan. This will anchor the project and attract other government and philanthropic investment as has been the case in the first two years of its operation.
- We note that this project is also a 10-year priority for the Aotea Great Barrier Local Board.

IN SUMMARY

We request that Council honour the intent of the LTP’s vision and priorities and increase investment in the natural environment regardless of which option Aucklanders choose.... including:

	The “Pay more” environmental components (Option 4) as a minimum investment for the 2024-2034 LTP		An increase in investment in marine biosecurity and Caulerpa response		More targeted environmental investment in Local Board areas with high biodiversity values
	Partnership with DOC, iwi and landowners, more investment in increasing public access to nature		Continued infrastructure investment to reduce sewerage and pollutants entering harbours and waterways		Continued investment in pest-free islands (Aotea, Kawau, Waiheke) and island biosecurity
	Allocation of resources to define regional environmental bottom lines to guide future LTP investment and prioritisation		Continuing the climate change targeted rate partnering with iwi and communities to improve resilience and reduce emissions

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I support option 4 for the NETR (Resume at previously planned level and increase at 3.5% per year)

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10019

no

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

congestion charges and tolls (and other possible revenue streams) will be needed to replace the fuel tax

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

This seems like a reasonable approach but the success will depend on how well it is designed and managed

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

#10019

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This

Support

#10019

<p>increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

#10019

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I support option 4 for the NETR in view of the small additional burden to ratepayers but a substantial potential benefit to the targeted beneficiaries of that fund

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Fairly Important
Investigate improvements for playground areas island-wide.	Fairly Important

#10019

Support implementation of aspects of the new Destination Management Plan.

Fairly Important

Tell us why

Environmental group activity is on a roll with significant outputs over the last 2 years in many parts of the island. This has been enabled and nurtured with excellent support from Council and must not be allowed to regress or the gains will be lost!

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

I fully support the listed priorities noting in particular the need for advocacy to manage the crisis of Caulerpa invasion, the vital need to ensure long term support for Tu Mai Taonga, the important of supporting Ahu moana, and the community groups, as listed in the priorities. My particular focus is the community environmental groups which have gained momentum recently - I wish to see them receiving support in a similar manner to currently. Huge thanks and appreciation to our hard working and pragmatic Local Board members who have to balance some complex issues and divergent points of view

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Plastic recycling. Investment in actual recycling facilities instead of shipping plastics offshore or to other regions.

More drop off centres for metal recycling.

More collaboration with industry regarding recycling programmes and public education.

#10038

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop commissioning designs for a waterfront stadium. Invest in better transport and park n ride to Mt Smart Stadium.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Optimise what exists before building more. Eg Puhinui Station is massively underutilised. How can this be? It is sad to see such a wonderful asset sitting largely empty.

Northern bus way is brilliant Dont mess with it!

2a. Is there anything you would spend more on?

Public education re Puhinui as Gateway to airport..

2b. Is there anything you would spend less on?

Stop investigating light rail.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

The stadium is an asset. It needs to be utilised more.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#10038

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Not convinced that Council would make good use of the wharves.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#10038

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I don't want.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

nothing

#10389

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Most of the proposals are reasonable.

2a. Is there anything you would spend more on?

nothing

2b. Is there anything you would spend less on?

nothing

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

The operating model and management situation are relatively good.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

Don't know anything about this.

4b. Which option do you prefer for the future of Port of Auckland?

#10389

I don't know

Tell us here:

Don't know anything about this.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

Don't know anything about this.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

nothing.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

The operating model and management situation are relatively good.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#10389

The operating model and management situation are relatively good.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Invest more in Caulerpa Response. More investment in public transport systems and cycleways

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10614

Reduce expansion of roads and motorways

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Do NOT support reduction of cycle ways and traffic speed reduction initiatives

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

No safeguards against the fund being used by future councils

4b. Which option do you prefer for the future of Port of Auckland?

#10614

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Nothing to stop us running the port better rather than losing that "profit" to 3rd party

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

The insatiable appetite to turn productive commercial waterfront into high rise apartments is only lining developers pockets and has limited value to the average citizen or ratepayer

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#10614

As above

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide	

#10614

increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Very Important

#10614

Investigate improvements for playground areas island-wide.	Fairly Important
Support implementation of aspects of the new Destination Management Plan.	Very Important

Tell us why

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

Greater investment if the fight against Caulerpa

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	Do more
Parks and Community	
Economic and cultural development	
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase the Natural Environment Targeted Rate (Option 4)

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#10933

2. What do you think of the transport proposal?

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Auckland Council needs to have more diversified revenue streams.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Council needs to get better return on its assets than it is currently getting.

#10933

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. #11151

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

The NETR targeted rate needs to be increased in line with Option 4 eg 3.5% increase pa.

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

#11151

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Very Important
Investigate improvements for playground areas island-wide.	Very Important
Support implementation of aspects of the new Destination Management Plan.	I don't know

Tell us why

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

Continue to support the Tu Mai Taonga Project.

Invest in the resortation of Whangapaora Eastuary,

8. Do you have any other comments?

Need to invest in the restoration of Whangapaoa Easturary, otherwise the demise of the eastuary significantly impact on Mana Whenua and the community in northern Aotea.

Long-term Plan 2024-2034

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Use option 4

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

8. Do you have any other comments?

Support Tu Mai Taonga and option 4 for NETR

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More marine biosecurity work. We have the threat of exotic caulerpa in the gulf. Unless it is controlled on Great Barrier Island then it will spread everywhere with devastating consequences for the marine environment

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#11686

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

transport infrastructure is really important but emphasis needs to be on public transport. Otherwise Auckland is just repeating the mistakes made in so many big cities overseas. You build more roads, let in even more immigrants and there will be demand for more roads. It's never ending.

2a. Is there anything you would spend more on?

Public transport

Parks for people

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Good idea to build a future fund

#11686

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

#11686

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#11686

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Fairly Important
Investigate improvements for playground areas island-wide.	Not Important

#11686

Support implementation of aspects of the new Destination Management Plan.

Fairly Important

Tell us why

Key priority has to be providing funds to support the environmental, social and community needs of the island. Playgrounds hardly seem like a relevant question for GBI as it's the beach, sea and forest parks that provide the recreation for everyone.

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

Aotea is a very isolated island with very special terrestrial and marine environments that need to be protected. With increasing costs it is not easy for many to live on this isolated island. Council services are very important. Support for community welfare and health are really important. The marine and terrestrial environment is very important to protect. Provision of funding for environmental restoration work is invaluable in restoring the ecosystems but importantly provides employment for people on the island. There are so many wonderful programmes underway on the island that need ongoing support. In particular the Tu Mai Taonga project as well as resources to help stop the spread of caulerpa. MPI abandoned GBI and have been negligent in allowing it to spread all along the western coast. Boats will continue to come here so it is absolutely vital some harbours are kept caulerpa free otherwise this horrible weed will spread all around the HG and destroy marine ecosystems. Just dive in Okupe bay and you will see a seabed like astroturf - just devastating. We would not wish that on any other community. There is still no national management plan from MPI so we need the AC biosecurity team to be well resourced to help support control efforts on the island and advocate for us in Wellington. The management of this incursion by MPI has been nothing short of woeful. What's worse is their reluctance to share reports on ecosystem studies, dredging etc with the community. They continue to block OIA requests - just appalling.

The grant system for community projects is just so valuable for the island in providing job opportunities.

Empower and resource communities.

Importantly many of these projects bring community and tangata whenua together on the island which is so important.

GBI is an important destination for many Aucklanders so appropriate support is needed for the island to manage these large numbers of visitors. So much still needs

#11686

to be done to improve the health of the marine environment. Ahu Moana is a project that needs further support as it is helping community to see the ocean as a dynamic living system rather than just a place where you go to catch snapper and remove all the crayfish.

8. Do you have any other comments?

I am very supportive of the Aotea Great Barrier Environmental Trust submission which I have attached below

Summerset Group Holdings Limited

By email

Submission on Auckland Council's Draft Long Term Plan 2024-2034 on behalf of Summerset Group Holdings Limited

1. Summerset is New Zealand's second largest developer and operator of retirement villages, which makes it one of New Zealand's largest home-builders. Summerset has 38 villages completed or in development across New Zealand and provides a range of living options for more than 8,000 residents.
2. New Zealand is facing a housing crisis, including a retirement living and aged care crisis. It is vital that the regulatory environment recognises and provides for the development that is required to meet this growing demand, and funding for associated infrastructure, but does so on a fair and proportionate basis that reflects, for comprehensive care retirement villages like Summerset's:
 - 2.1. the reduced occupancy per unit when compared to a typical household unit - Summerset's average occupancy for its independent units is 1.3 residents per unit and for its care units is 1 resident per unit; and
 - 2.2. the typically low pattern of demand on community infrastructure, amenities and facilities when compared against the demand assumptions for a typical household unit - residents entering Summerset's villages average 81 years, have specialist physical and social needs, and access Summerset's extensive range of on-site amenities.
3. Summerset is grateful for the opportunity to provide feedback to the Auckland Council on its Draft Long Term Plan 2024-2034. Summerset wishes to express its support for the submission of Property Council New Zealand Auckland Region (Property Council) in its entirety. Summerset requests the Auckland Council engages constructively with the Property Council in relation to the Draft Long Term Plan.

Yours faithfully,

National Development Manager
Summerset Group Holdings Limited

Long-term Plan 2024-2034

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Support local environmental initiatives to preserve and stop the loss of native species of flora and fauna, including pest control/elimination

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#12460

Squandering money on expensive plans for things that then get cancelled - millions and millions of dollars have been wasted like this for no gain.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Fix the stuff that is broken not with fancy things - a crossing was only white paint on a black road with a road sign on each side when I grew up and needs no more than that.

2a. Is there anything you would spend more on?

I don't understand why the existing rail line from Onehunga cannot be joined up across Mangere Bridge out to the airport, and then potentially round to Puhinui station to make a loop, or straight back to Onehunga and onto Britomart. Soooo simple and most of the track is already done!

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

You need the green space and will never get the opportunity again for suitable land

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

#12460

Future fund is fine but don't sell the silver, use the income

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#12460

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

#12460

Change the **Rodney Drainage Districts Targeted Rate** to reflect public feedback and updated analysis of the benefits to properties and boundaries.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Very Important
Investigate improvements for playground areas island-wide.	Not Important

#12460

Support implementation of aspects of the new Destination Management Plan.

Tell us why

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Aotea gets forgotten a lot - out of sight, out of mind. There is great need in our community and the Local Board does the best they can with very limited funds. There are many challenges to live here including freight, transport, very high fuel and food p

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13223

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

The current system cannot continue. A reliable efficient economical & integrated public transport system is critical to a modern sprawling city.

2a. Is there anything you would spend more on?

Public transport.

2b. Is there anything you would spend less on?

Yes, consultants.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

It's important that the North Shore community has a stadium adequate to it's needs. The current operational management definitely needs an overhaul - it can be structured better as was the case in the past.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The devil's in the detail and this proposal is lacking in detail. Compromising or selling assets is a band aid approach with no long term i.e future generational gains.

#13223

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

We can do better and make it work for us. Consideration should be given to relocating some of the wharf operation to Whangarei and opening up that land to the benefit of ALL Aucklanders and not crowd it with expensive apartment real estate.

It should be noted that the Marine Rescue Centre needs to stay where it is no matter what happens, lest we forget - we are a City of Sails.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Should the Future Fund go ahead, it is important that the ratepayers of Auckland know where the funds are invested, i.e preference must be given to not investing in armaments. Whatever the outcome, it's important that council is absolutely transparent on where funds are invested, as ratepayers we have a right to know.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#13223

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The well-being of te Taiao, communities, whanau and hapū on Aotea Great Barrier Island are supported by investment in iwi and community led conservation and specialist council Environmental Services. Councillors need to ensure Local Board and centrally held budgets for all-natural environment work on Aotea and iwi and community led conservation continue - to avoid losing the value of past investments.

#13276

This will in turn help towards meeting Auckland Council's legislative obligations to maintain indigenous biodiversity across the region.

To achieve this, we support restoring the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) to their previous levels plus an adjustment for inflation.

Specifically for Aotea it means supporting the Local Board's priorities over the ten-year timeframe, as stated in the consultation document, which are in the Council's power to deliver. Aotea is regionally very significant for freshwater, terrestrial and marine biodiversity and warrants this long-term investment relative to other board areas. In particular we support:

- Long term funding for Tū Mai Taonga in the 10-year budget (see below).
- An increase in the resourcing and funding of the Marine Biosecurity team, who will be critical in preventing the spread of Caulerpa in the region from Aotea. Current staffing and budgets are a drop in the ocean, as is the proposed allocation of \$200,000 to Caulerpa noted in the Discussion Document given Auckland's long coastline and Marine Biosecurity risks.
- Ongoing support for community conservation, restoration and pest animal and plant management through regional budgets to ensure past investment is not wasted and gains can continue.
- Support for increased investment in Ahu Moana and related initiatives to protect the coastal waters and ecosystems of Aotea.
- Specialist seabird capability being appropriately resourced and funded within Auckland Council to reflect the global significance of the region for ground nesting seabirds.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Specifically for Aotea it means supporting the Local Board's priorities over the ten-year timeframe, as stated in the consultation document, which are in the Council's power to deliver. Aotea is regionally very significant for freshwater, terrestrial and marine biodiversity and warrants this long-term investment relative to other board areas. In particular we support:

- Long term funding for Tū Mai Taonga in the 10-year budget (see below).
- An increase in the resourcing and funding of the Marine Biosecurity team, who will be critical in preventing the spread of Caulerpa in the region from Aotea. Current staffing and budgets are a drop in the ocean, as is the proposed allocation of \$200,000 to Caulerpa noted in the Discussion Document given Auckland's long coastline and Marine Biosecurity risks.
- Ongoing support for community conservation, restoration and pest animal and plant management through regional budgets to ensure past investment is not wasted and gains can continue.
- Support for increased investment in Ahu Moana and related initiatives to protect the coastal waters and ecosystems of Aotea.
- Specialist seabird capability being appropriately resourced and funded within Auckland Council to reflect the global significance of the region for ground nesting seabirds.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

#13282

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

#13282

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

#13282

<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	Support
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	Support
<p>Re-introduce recycling charges for schools.</p>	Do not support
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	I don't know
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	I don't know
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

#13282

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Not Important
Investigate improvements for playground areas island-wide.	Fairly Important
Support implementation of aspects of the new Destination Management Plan.	Fairly Important

Tell us why

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Take cycling seriously and look the the aspirational eg of cities like Paris and Seville who have achieved rapid modeshift to cycling.

Take the climate crisis seriously, Do more to realize the already aged climate plan and Transport emissions Reduction plan.

#13458

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Council should stop allowing housing at the edge of the city where there is no infrastructure.

We need a more compact city to grow a strong economy, lower carbon future and better services for residents.

Do not invest in more roading.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

I support

- Expanding the RTN
- electrifying 50% of buses by 2030
- Implementing a weekly cap on fares
- Completing the city rail link.
- Enhancing the reliability of bus, rail and ferry services.
- Developing new cycle ways.
- Upgrading footpaths
- introducing 'time of use' charging

2a. Is there anything you would spend more on?

- more cycle ways and walking connections
- promotion of active transport modes to offset commercially created car culture
- rolling out electric ferries and lower emission buses.
- street trees and rain gardens

#13458

2b. Is there anything you would spend less on?

I do not support the full expansion of the 'unsealed' roads' programme

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

AIAL shares are a valuable asset promising future returns and are an important tool for Aka's future resilience

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

I do not support privatisation, it takes away control and significant income

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

#13458

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

It would enhance public access

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Outcomes for Māori, our Tai Ao, protection of our culture sites and initiatives that align with our cultural values, priorities, and aspirations as Ngātiwai.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13668

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We support initiatives aimed at improving public transport infrastructure and services as this aligns with goals of reducing carbon emissions, easing traffic congestion, and providing more accessible transportation options for communities.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Selling the AIAL shares and diversifying investments through the Auckland Future Fund could provide financial flexibility and potentially enhance returns over the long term. Auckland Council states their would be clear rules and restrictions around what circumstances the funds can be accessed by the council in the future potentially as a CCO. However, it's essential that Iwi input into what the investment objectives and policies will be and that they consider the potential impact of investment decisions on

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier,Rodney

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Very Important
Investigate improvements for playground areas island-wide.	Very Important

#13668

Support implementation of aspects of the new Destination Management Plan.	Not Important
---	---------------

Tell us why

We support the continued funding of community groups to deliver services and ecology works in particular our hapū, marae and iwi. We also support improving the wellbeing of our hapū Ngāti Rehua ki Ngātiwai through the continued maintenance and improvement

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

It aligns with our Te Pae Tawhiti which is Kia korikori ngā totorore o Manaia Turanga Rau or to Strengthen the wellbeing and prosperity of Ngātiwai.

As the gateway to Aotearoa, Aotea/Great Barrier Island is often the frontline in confronting invasive species, with Caulerpa being a prime example. The local haukāinga possess deep knowledge of the island's environment and play a crucial role in its protection. It's imperative to sustain support for them.

Rodney Local Board Priorities

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response	Very Important

#13668

to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Fairly Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Very Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Fairly Important
Develop pathway connections in Green Road Park.	Fairly Important

Tell us why

7c. What do you think of the Rodney proposed priorities for the 10-year budget 2024-2034?

As our local board area is so large, please tell us where you live so we can better understand the views from different communities

Omaha

8. Do you have any other comments?

Submitter details:

Organisation (if applicable): Ngāti Rehua-Ngātiwai ki Aotea Trust Board

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Do the same, keep things constantly improving:

Transport: Roads, public transport and safety improvements across the transport network.

Water: Managing stormwater to minimise flooding and protect waterways.

#13711

City and local development: Deliver urban regeneration and lead development of the city centre.

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards.

Economic and cultural development: Major events funding and economic development.

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities.

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards.

Economic and cultural development: Major events funding and economic development.

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities.

Do more:

Environment and regulation: Protecting and restoring our natural environment.

More support for our environmental project Tū Mai Taonga.

Tū Mai Taonga is a once-in-a generation opportunity for mana whenua to lead conservation at scale on Aotea by removing the last two predators species over the next ten to twelve years.

In the proposed Long-Term Plan, Mayor Brown asks “What is the problem we are trying to fix?”

Tū Mai Taonga is fixing:

-

Environmental breakdown on Aotea by removing feral cats and rats.

-

Cultural identity and wellbeing breakdown by reindigenising the way we work, to help our workers develop a sense of pride, place and purpose.

-

A lack of meaningful participation in important matters in our rohe that has gone on for too long, by leading conservation at scale in our way.

#13711

•

Relationship difficulties between iwi and Council by facilitating meaningful engagement to pursue and achieve mutually beneficial outcomes.

The Mayor has further challenged us to find solutions that are “better, faster and cheaper.”

Tū Mai Taonga is:

•

Carrying out eradication of the last two predator species on Aotea. Eradication is the gold standard most cost-effective way to deal with pest animals.

•

Providing gainful employment, training and implementing wrap-around services for our workers. This makes our operation more efficient and supports workers’ wellbeing and aspirations. Breaking a cycle of state funded living and building a legacy of self-sufficiency.

•

Educating and facilitating Council to work with mana whenua. This is better, faster and cheaper than making a mistake early on in the peace and losing all gain, trust and having to start all over again at a deficit, which has happened on Aotea between iwi and Council.

Tū Mai Taonga needs a long-term funding commitment in order to achieve these outcomes and has requested Auckland Council co-fund 50% of the project’s costs over the next ten years, which is \$1.5M per year on average. With substantial co funding from Auckland Council, the project will have no problem securing the other 50% funding.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

#13711

We support more work on the roads of Aotea.

We request a place-based review for Aotea by Local Board on Aotea be included in this planning, around the ability of our lifelines infrastructure to cope, and putting the necessary resources in place to strengthen our vulnerable environmental infrastructure

2a. Is there anything you would spend more on?

As the recent cyclone and following storms proved, we need more stabilization and tar sealing of roads to ensure transportation is maintained in severe weather events.

2b. Is there anything you would spend less on?

No.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

We support the whanau in those areas to develop or not develop.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

We believe keeping the shares will ensure long term gains. Selling a solid investment like the AIAL shares for a fiscal fund supporting short term gains may seem the right thing to do now however if these things are worked on over a longer period of time it will preserve those investments for our moko of the future.

#13711

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

This way, management improves and the profit over the cost of maintaining the ports will go back to Auckland Council to support their operations long term.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Retain underlying council ownership of port land and wharves and continue council group operation of the port (through Port of Auckland Limited) and implement the plan to deliver improved profitability and more dividends to council.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Retain underlying council ownership of port land and wharves and continue council group operation of the port (through Port of Auckland Limited) and implement the plan to deliver improved profitability and more dividends to council.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

#13711

Again, this will ensure long-term thinking where the work put in will produce the benefits like any good business. Working for these things brings appreciation and ensures a solid income for Council.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Again, this will ensure long-term thinking where the work put in will produce the benefits like any good business. Working for these things brings appreciation and ensures a solid income for Council.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>

#13711

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

No.

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

#13711

Aotea/Great Barrier Local Board Priorities

7b. What do you think of our proposed priorities for Aotea/Great Barrier in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Continue the regular programme of funding for community groups to deliver services and environmental groups to deliver ecology works.	Very Important
Continue our regular maintenance of parks and assets.	Very Important
Investigate improvements for playground areas island-wide.	Very Important
Support implementation of aspects of the new Destination Management Plan.	Very Important

Tell us why

We support the AGBET submission as follows:

The well-being of te Taiao, communities, whanau and hapū on Aotea Great Barrier Island are supported by investment in iwi and community led conservation and specialist council Environmental Services. Councillor

7c. What do you think of the Aotea/Great Barrier proposed priorities for the 10-year budget 2024-2034?

We support all Local Board's priorities, in particular the focus on environmental funding to community groups.

As stated, Ngāti Rehua Ngātiwai ki Aotea relies on the consistency of the conservation and environmental projects on Aotea. As the kaitiaki for our land, forests, and seas, we have an obligation to care for our environment, not only to honour past generations but to provide for those yet to come.

Ngāti Rehua Ngātiwai ki Aotea relies on the environmental projects being funded by the Local Board to protect our natural environment on Aotea, and tackle the pests,

#13711

weeds and diseases that threaten our native species. Not prioritising these will risk the success of the Ngāti Rehua Ngātiwai ki Aotea led project - Tū Mai Taonga; undermining the inputs of local communities who have invested substantial time and resource into pest management; planting; weed control; and the control of myrtle rust and kauri dieback.

We implore Auckland Council to recognise that these projects require sustained resource investment to maintain current momentum and achieve future success.

The trust's Tū Mai Taonga project will also require consistent, long-term matched funding by Auckland Council to succeed. Failure of this project will have a devastating impact on the trust's capacity for self-determined treaty partnership at central and local government/crown levels.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Regardless of which option Auckland chooses council should restore and increase NETR and wqtr for inflation. As per Option 4 in Appendix D in the Supporting Information. Auckland Council is required to maintain indigenous biodiversity under the LGA - this funding is the minimum necessary investment to attempt that in the 10 year plan.

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The three options (central, more, & less) proposed in the consultation are not the only options, the same goes for the corresponding rates rises. For example, we could get much-needed investment in transport services and climate resilience, as stated under the ‘pay more get more’ option, with a rate rise of less than 14% in year one. There are

#15777

other areas where savings could be made which are not interdependent. The 'overall direction' oversimplifies very complex decisions.

We must prioritise looking after our people and planet by investing in the things that provide us with life's essentials, such as fresh air, clean drinking water, hazard resilient landscapes and basic needs, like accessible transport and a sustainable waste network.

Where I'd like Auckland Council to do/spend more

- Public Transport - Ensure public transport is affordable, accessible, and reliable, prioritising investment in public transport infrastructure over road spending.
- Active Transport - Urgently transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.
- Water Quality - Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.
- Environment and Regulation - Ensure appropriate funding is allocated to increase monitoring activity of current/active and future resource consents to enable better environmental outcomes.

As well as the options provided in the structured consultation, I would also like the Council to do more of the following:

- Protecting and working with communities by continuing to prioritise the funding and delivery of Making Space for Water in partnership with Central Government.
- Ensuring adequate support for community and social services, including contestable grants (such as the Climate Action Grant), the Live Lightly programme, the Communities in Need programme, and supporting work on Council land and marae. This can be achieved by re-establishing pre-2023/2024 budget funding for these areas.
- Supporting frontline, volunteer powered communities by ensuring local boards are adequately funded and grants are available. Grants and investment into community-led services provide great value to Aucklanders. For every dollar that Council invests we get back many more volunteer hours.
- Supporting moves to a circular economy and zero waste, ensuring waste materials are seen as resources to be reused, repaired, repurposed and recycled, and are diverted from landfill.

#15777

- Lowering emissions by becoming a leader in localised renewable energy generation by enabling local integrated energy solutions to support community owned energy groups.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Auckland Council's Transport Emissions Reduction Pathway sets out actions required to reduce the region's transport emissions by 64% by the year 2030. Transport is the biggest emitter contributing to over 40% of the region's total emissions. Within the transport emissions, 86% come from road transport. This sets a clear directive. We need to get people out of private cars, into buses, trains and ferries and onto cycleways. Failing to understand and action this will result in a continuation of over investment in roading projects and underinvestment in the public and active transport networks. The evidence is there and the evidence is clear.

Regarding the Mayoral proposal, I am encouraged to see initiatives to make public transport more accessible, such as the \$50 weekly cap and introduction of diverse payment options. Another positive is the work programmes which look to improve public transport services, such as network optimisation, expansion of the electric train fleet and completion of the City Rail Link. Unfortunately, alongside these positives, there are some concerns. A couple of examples are; the removal of 'low performing' bus services, and the several references to roading focused projects.

As well as continuing to invest and improve our public transport network, it is essential that the Council urgently supports the transition towards low emissions communities by prioritising and increasing, not reducing, investment in walking and cycling infrastructure.

Cutting "low-value initiatives, including raised pedestrian crossings and expensive gold-plated cycleways" is an ideological move that fails to align with the Council's own Transport Emissions Reduction Pathway. In monetary terms, this means cutting funding for cycleways by \$141.5 million. This makes no sense as we know increasing funding for active transport infrastructure is a smart investment that can benefit the

#15777

economy, the environment, and public health. Cycling is a low-cost, low-carbon and low-impact mode of transport that can reduce congestion, pollution, and greenhouse gas emissions. Cycling also promotes daily, incidental physical activity, mental wellbeing and social inclusion. By improving the safety, accessibility and attractiveness of walking and cycling, more people will be encouraged to choose it as a regular means of travel, creating a virtuous cycle of benefits. This approach also creates better use of existing roading assets by making space for those who cannot choose cycling, walking or public transport.

2a. Is there anything you would spend more on?

I want Auckland Council to spend more on safe, accessible, and attractive active transport infrastructure such as cycleways.

I want Auckland Council to spend more on ensuring public transport is affordable, accessible, and reliable.

2b. Is there anything you would spend less on?

I want Auckland Council to spend less on new roading projects that prioritise private vehicles as the primary transport mode.

3. Which options do you support for the North Harbour Stadium?

#15777

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Natural Environment Targeted Rate (NETR)

Support

Re-establish the full funding of the Natural Environment Targeted Rate (NETR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Revenue gained from NETR affects the delivery of essential projects to protect our biodiversity and taonga species. For example, the rate funds kauri dieback track upgrades, treatment support for landowners with kauri dieback, monitoring of the health of our forests and education for visitors to prevent further spread of the disease and predator control on our islands and the mainland. This work supports the health of our environment, which we need to be healthy to keep humans healthy, by filtering our water, catching and intercepting rainfall, holding our soils and slopes together and cleaning our air. Having spent years with large parts of the track network closed to protect kauri it is important to ensure this work continues as planned to enable safe access to our wild places, which are so important for our mental and physical health, and the health of our forests.

Water Quality Targeted Rate (WQTR)

Other

Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland

Council,

I am writing to provide

#23319

feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less,

#23319

get less" option.

I strongly urge
Councillors to explore
ways of preventing
rates increases over
and above inflation by
cutting back office and
wasteful spending,
reining in Council-
Controlled
Organisations, and
reprioritising money
spent on operations
and staffing to capital
and infrastructure
investment.

This should include:
- A hiring freeze on all
non-essential roles
until an independent
review has been taken
to address concerns of
overstaffing and the
salaries of council
managers increasing

#23319

much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport.

This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support

#23319

the Mayor's proposed
"Future Fund" and the
proposal to lease
Auckland Port's
operations to an expert
external operator while
keeping the Port's land
in ratepayers' hands
and ringfencing that
money to invest in
infrastructure so that
rates and debt are kept
down.

I endorse the
submission of the
Auckland Ratepayers'
Alliance and back their
vision of 'Reasonable
Rates, Sensible
Spending in our Super
City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland
Council,

#23319

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it

#23319

being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the

#23319

salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport.

This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter

#23319

about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to	

#23319

the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on
the Mayor's proposed Long-Term

#23341

Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years.

Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

#23341

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external

#23341

operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#26418

Tell us why:

Loss of Regional Fuel Tax is concern

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>	

#26418

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by</p>	

#26460

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#26502

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Tell us why:

future fund is a good idea in principle

4b. Which option do you prefer for the future of Port of Auckland?

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	

#26569

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

Getting on top of weeds early is a cost savings

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#26577

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	

#26577

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

2. What do you think of the transport proposal?

#26585

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#26585

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	

#26585

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#26593

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#26593

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	

#26593

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

waste: Lord Howe island has bins in parks - very visible clearly identified bins for recycle, refuse, etc. There is a central composting system on the island. You can take a tour to see how it works , eg, glass recycle.

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

8. Do you have any other comments?

Long-term Plan 2024-2034

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#26641

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	

#26641

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.

<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	

#26665

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

8. Do you have any other comments?

Long-term Plan 2024-2034

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>

This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	

#26672

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7a. Which local board area does your feedback relate to?

Aotea/Great Barrier

8. Do you have any other comments?

Long-term Plan 2024-2034

Note: this simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Aotea/Great Barrier

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#26677

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#26677

5a. What option do you prefer for Captain Cook and Marsden wharves?

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>
