1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do less
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Community events, graffiti removal.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Any social service provision.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#19

Eliminate unnecessary planning when there are already plans in place. Stop dreaming up ways to spend money.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Optomise transport based on economic analysis.

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

Unnecessary use of traffic management.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

We have already made a substantial and it's a management problem. Stop spending money on new stadium proposals. We are sick to death of hearing about a waterfront stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Continue to use dividends to reduce rates. They are obviously a good investment. That's why everyone wants to buy them.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

We don't want to lose control of the waterfront.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Port investment can be funded through debt like any other business.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Don't spend anymore money on the waterfront.

#19

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Keep as is to minimize costs.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Auckland council has become massively overloaded in social, cultural, and environmental concerns that to be honest are far from their core job. They have focused on these to the detriment of core services and completely lost focus on their

actual job, of providing and maintaining basic city operation. Their internal management does not service the needs of ratepayers, instead working to 'effect change'. This has to stop.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Because this plan is based on a want to effect change in transport, not provide service. People just want roads without holes in them, and traffic flows to be enhanced, not 'calmed' after years of active work to make driving worse on Auckland we have seen the outcome of worse traffic - congratulations. Get rid of T3 lanes. Stop tabletops designed to make people slow to 15 in a 50 zone. Put light phasing back to maximise throughput. None of this costs. Stop building hugely overpriced ', solutions' for tiny minority of fashionable users, le: cyclists, which never actually delivers.

2a. Is there anything you would spend more on?

Council transport designers redundancy payments

2b. Is there anything you would spend less on?

Cycleways, traffic calming, busways, monitoring cameras, exceeding crossings and lights.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Chance will inevitably have high cost blowouts as the council have proven incompetent at such management. This will simply result in a firesale to developers benefit, as we have seen so often lately.

The council have been, and continue to, act like a 21 year old with their first credit card and rich doting parents.. Splurging on lifestyle and fashionable causes. There are no rich parents, and debt becomes crippling.

Get responsible. Stop eating other people's money. The people who's money and future you are spending now are hurting!

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Not Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Not Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Not Important
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Not Important

8. Do you have any other comments?

Get back to core council operations and new Zealand values. Stop acting like a teenager on a mall spending spree!

You are harming your residents. You are severely harming the low and working classes. You are out of touch with your residents. You have become controlled by pressure groups of upper middle class activists. This has to stop.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public safety wardens.

More camera surveillance of public spaces.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Remove Eke Panuku and start investments that support the community rather than acquire public property.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Keeps the status quo at least.

2a. Is there anything you would spend more on?

Gulf harbour ferry services and bus connections.

Anything else that reduces peak hour road use.

Fixed and mobile Speed cameras.

2b. Is there anything you would spend less on?

Road speed bumps.

3. Which options do you support for the North Harbour Stadium?

Cut the movie nights in the park. As a rate payer I don't care or want a movie in the park especially when the rubbish bins have been removed. Keep the bins ditch the movie nights. And instead of wasting money putting unnecessary speed hump pedestrian crossings everywhere just fix the roads that have damage. Prioritize the roads not the speed bump pedestrian crossing.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The public security problem needs to be solved urgently, and more activities to boost the economy should be organized

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Don't invest too much in building bicycle paths and renovating prisons. Let prisoners' labor reform generate economic value.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Private cars are still the mainstream mode of transportation, and there is no need to invest too much in public transportation. I support stopping the renovation of bicycle lanes and sidewalks.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

COUNCIL AND ITS umbrella organisations should focus on core responsibilities and less big ticket items such as pulling down stadiums and building others. Focus on using what we have . Auckland Central is not the only area in this city.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less big ideas , especially pet projects that council want to be remembered by. More local input and implemetation responsibilities given to our local boards. They do a better job than Auckland Council central

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

make it all user pays, we dont have ferries in the northern part of the city nor rail. Our only option is a disjointed bus service that does not meet up with feeder buses and there alone you can loose 40 minutes a day . Lets face it this city has been stuffed up transport wise by big ideas and lack of forward planning over the years.

2a. Is there anything you would spend more on?

better bus service on the shore

2b. Is there anything you would spend less on?

less on speed humps, less on Auckland transport full of broken promises. Less on work contracted out with no council check and quality controls

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

the council has already bailed out the north shore stadium . We have enough stadiums around under utilised as it is without one been built on reclaimed land in Auckland central. there is nothing wrong with the stadium in Albany been there used as part of the Albany complex,probably biggest problem is the public transport options to events at it

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Just sell the shares and be done with it , not a lot of voting power holding 11% and all other silver ware in the kitchen

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

its a stand alone business and just more silver in the kitchen that council want to get rid off to push their big ideologies. It provides an income as it is and supports many families in Auckland as it is. Proposals to move it elsewhere is ludicrous who has ever heard of a city in the world with a harbour that does not have a port

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

council income should be used for here and now for the benefit of those here now, shortfall made by council cutbacks and rates and charges

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Future Fund- if council cannot currently balance books without loans etc how do we know a future fund will not be just gobbled up and not used for what its supposed to be. Future funding is something to have when the council is on top of its current obligations instead of chopping back on core responsibilities

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

council wants to take this away from POAL simply as the area to build a new stadium that will be another white elephant. Why would you spend 410 million dollars to take land away from POAL therefore reducing your income from POAL

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

council has enough other areas besides auckland central it needs to be dealing with. Auckland central is not an area i like to visit at best of times as nothing there that would entice me there besides cold windswept streets

all these things should be user pay,

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Re-introducing recycling charges for school is not acceptable.

Schools educate the next generation on how to and why to recycle. Without this service provided, schools won't commit to recycling and learners will not be involved in this process. This loss of connection to the understanding and responsibility to recycle will be seen in the next 10 years as learners leave school and have less of a proactive and educated understanding of recycling. Paying for it now is a much lower cost than paying for poor recycling habits and understanding in the future.

Building more roads

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Fewer cycleways, fewer events and other waste

2. What do you think of the transport proposal?

Tell us why:

Don't support capped public transport passes.

2a. Is there anything you would spend more on?

Need more roads built and widened

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

The cost of demolition is likely to be high. Needs to be managed better to get more events and put the seats back the way that it was before the council ruined it and removed half the stands.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Are we should sell the shareholding and not sell the portable can operations. We don't need a fund like this because the return suggested 7.5% is unlikely to happen.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Because then we have complete control. I think the porch should be moved over time and it's going to be impossible to move it if we give a lease away.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Because it provides an income to the city.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I think that the suggestion that you get 7 1/2% is extremely unlikely. We've had a a long period of growth, won't always continue that way.

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

Fairly Important

#326

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	Fairly Important
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	Not Important
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	Not Important
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	Very Important
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.	Most of the things involve no actual actions, except for the Greenway network. The rest is just wishy-washy.

Upper Harbour Local Board Priorities

7b. What do you think of our proposed priorities for Upper Harbour in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Progress with the detailed business case for a new multi-purpose library facility in Albany.	Very Important
Continue to deliver stage 1b of Te Kori Scott Point which includes physical works for 3 sports fields and sport field lighting as well as a second baseball diamond.	Very Important
Implement actions from the Upper Harbour Ethnic Peoples Plan.	Not Important
Continue to invest in projects that improve the environment and address climate change including planting trees as outlined in the Upper Harbour Urban Ngahere Strategy and continuing to support and fund volunteer environmental work.	Not Important
Implement actions from the Upper Harbour Engagement Strategy.	Not Important
Implement actions from the Upper Harbour Greenways Plan.	Very Important
Implement actions from the Upper Harbour Wheeled Recreation Service Assessment.	Not Important

Tell us why

Some of this is just unnecessary like an Ethnic People's plan. Nor is it the council's job to do anything around climate change. A better, larger library with MUCH more parking would be useful.

7c. What do you think of the Upper Harbour proposed priorities for the 10-year budget 2024-2034?

seems ok.

7d. We will prioritise investment in a Detailed Business Case for a new multi-purpose library facility in Albany, however given the financial constraints faced by Auckland Council we would like to explore alternate options to fund any budget shortfalls.

We want to hear your views regarding the local board investigating options to sell land or exploring the introduction of a targeted rate to enable investment in building a new multi-purpose library facility in Albany (noting that there will be a robust public consultation process on any sale of land or the introduction of a targeted rate following investigation of viable options).

Which of the following options do you support?

None of the above

Do you have any other thoughts or ideas on potential options to fund budget shortfalls associated with building a new multi-purpose library facility in Albany?

Feels like we don't get nearly enough investment on the shore so more needs to come out of the council to pay for these things.

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More smart rubbish collection,seperate metals into seperate bin,seperate glass,paper from plastic,make recycling easier and more cost effective.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No more speed bumps, what was wrong with painted zebra crossings.

No more cycle lanes on roads too dangerous for cyclists.

No more badly designed town centres with no parking, I like my bike but I love my car in the rain.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I hate raised pedestrian crossings, they are annoying, if you have to put something like red light cameras instead, only a few idiots drive through a zebra crossing, fine them.

The trouble with cycleways is the lack of understanding by Auckland Transport on how and where to build them.

Public transport in Auckland is a bad joke, not enough big buses during rush hours and no smaller mini buses during the day, when have you seen a full bus at midday, one size fits all does not work.

2a. Is there anything you would spend more on?

Drains, waterways, power and supply.

Dangerous roads.

2b. Is there anything you would spend less on?

Town centres, plants, cycleways, judder bars.

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Invest more money,make it bigger better,otherwise sell the land,sell the stadium,theres no middle ground.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Return on ownership like that needs to be used to ensure such assets continue to operate in good condition.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Self insurance does not sound like a good concept. Retaining ownership of council land is important.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Reducing current council assets gradually places it at greater risk of exploitation by those who buy those assets.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

It is a matter of predicting if shipping will increase or diminish over long term.

More buses more often

2b. Is there anything you would spend less on?

Dynamic lanes. I live in Whangaparaoa and they're only in use for a small amount of time and the congestion is still quite high around those times.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

I like the idea of redeveloping North Harbour Stadium into something that will actually be used. I'd love to see what options are proposed for the area.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

When you apply targeted rates, this is trying to hide the true increase in Rates.

I don't agree with it. And forcing ratepayers to pay Rubbish collection as part of rates rather than allowing people to pay as you throw with rubbish is appalling - Some of us don't put much rubbish out, but are expected to pay a set fee. I DON'T want that - like the food scraps was forced on us. It's totally absurd and another underhand way for council to take more money by stealth

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1 - The bus and rail public transport system is in desperate need of drastic improvement, and fast, I feel. We are so far behind other developed cities around the world in this regard, and its been an issue that's been kicked down the road for far too many years now. Better public transport networks which can also reach further out of

the central area will also enable people to have more choice in where they live, being able to live further out in more affordable areas while still being able to reliably commute. This would of course dramatically ease congestion on our roads as well. I'm sure you guys have already crunched those numbers and know better than the rest of us that we urgently need this.

2 - We were recently informed that tetra packs aren't going to be recycled anymore, and nor are smaller plastic items like bottle caps.

Those items are recyclable in other countries, were recyclable here, and if anything we should be doing much, much more to recycle and minimise waste. This reduction in recycling effort feels like the exact wrong direction we should be heading in, at a time when the world is facing a waste crisis. I hope our council reconsiders and prioritises our responsibility to the local and global environment. We were once called "Clean Green New Zealand". Please help us Kiwis reclaim and keep that title.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Anything that takes the pressure off working Kiwis and gets the ultra wealthy ones to pick up more of the slack. The growth of inequality is getting out of hand here. I've got mates who are highly skilled and experienced in their fields and are still having to work two jobs just to support their families. This should not be happening anywhere in the world and definitely not in NZ. Meanwhile the wealthy here aren't sure which Ferarri to buy next with all the money they have which should've been paid in taxes to help support Auckland, NZ and all our fellow Kiwis.

Those wharves which are used for cruise ships disrupt public transport (ferries). I hope the Council can turn those areas that better serve the people who live here rather than those temporarily visiting, who could land somewhere else. People who commute

8. Do you have any other comments?

I can't emphasise how much so many Kiwis are suffering because of our failure of a public transport system. We need more buses and trains. More bus lanes and railway lines. The ability to commute to more places and further from the center, and to do so quickly and reliably. This would be a win for everyone, including car-drivers who will spend less time stuck in jammed up roads. Less cars and less idling in traffic also means less emissions. Less people spending time doing nothing while stuck in traffic or waiting for buses that don't arrive means more time spent being productive (better for economy) and more time for selves (eg time that could be spent on fitness, time with family, etc), and better overall quality of life for Aucklanders (also better for economy). We've fallen so far behind the rest of the developed world on this and this issue's been kicked down the road for far too long. I really, really hope the council will prioritise this.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The assets are necessary for the long term.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

To agree to lease it out is incorrect. We do. To know if the council could lease it to the Chinese or any foreign entity and that too for 35 years is ridiculous.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The AFF seems a wishy washy entity maybe proposed by our current leadership, who seems to change their mind on subjects everyday.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

And than spend 110million to move operations, that's comical.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

The roads cannot support the traffic now, so in 15 years things being to be transported by heavy vehicles would be a disaster.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Reduce number of wasteful middle managing clueless council staff members and the salary’s of the rest.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Focus less of our budget on the city centre and allocate spending to areas in relation to the amounts of rates received from.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I like the idea of getting pedestrians off of the roads in the city as that massively slows traffic flow.

But in reality Auckland needs to invest in trains, trains and more trunks like any other large city that has great public transport, get out of the past of just throwing money at roads and road works and actually get people out of their cars.

2a. Is there anything you would spend more on?

Trains.

2b. Is there anything you would spend less on?

Woke pandering.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

North Harbour stadium was always well managed and looked after but the original trust until the super city council got their hands on it and quite frankly completely ruined it.

So many good events both sporting and entertainment were held there and regularly and since council got involved it has been embarrassingly handled.

Restore it back to its glory and invest in a openable roof and just watch what happens.

Most importantly tho remove council control as unfortunately they haven't got a clue on how to run it.

Selling any part of it off or downsizing etc is criminal.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Auckland future fund seems common sense however selling interest in our only international airport is not smart. This has been shown time and time again that selling integral infrastructure is bad in the long run and is very selfish short term thinking by those elected to make decisions for all on our behalf.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

1 year of lower rates.. come on.

If you can't think outside the box to create revenue from such a large entity as Auckland council without just selling stuff then honestly you need to retire.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Some money to the future fund and the rest just as usual

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

In reality of the ports of Auckland doesn't 100% need to actually be here in Auckland city then perhaps the option to move it elsewhere where it might have better more efficient access etc is the right move.

Then all that land can be used for all manner of other options. While still retaining overall ownership of course.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Sort out the CCOs - they seem to be hindering rather than helping the councils work!!!

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

An integrated transport system is important. It must include both better roading AND public transportation

2a. Is there anything you would spend more on?

Parking!!! Our public transport system falls over because there is insufficient parking to support users of the public transportation system.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

The North Harbour Stadium used to be a good facility that seemed to be well used. Under current management it has gone backwards. We need to review management of the stadium and do a feasibility as to what the best option is moving forward.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

My concern is that is that Auckland airport must serve the needs of the city, both to support domestic and international travel and also freight services. The interests of

Auckland - and the country - are key. If AIAL can do this, then that is great - but we dont need another ineffective CCO

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

I don't see how having a large port in the centre of Auckland city is a good use of valuable resources - surely there are better locations for a port that can serve the city - and the country - that don't create the problems that the port does

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

I find it disappointing that the status quo long term plan is as expensive as it is. Proposed rates increase are above projected CPI. Why are ratepayers expected to fund these increases. It appears to be poor planning and lack of accountability.

Make the best use of existing facilities.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Just a clever device by the mayor to privatise and sell off public assets after the sale of all the AKL airport shares fell through.

Selling the family silver is not a sustainable solution.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The old neo-liberal myth that public is bad and private is good. There is absolutely no reason why a private operator would necessary be better. What is however certain is the fact that a private operator would be creaming it filling their own coffers with no benefit to the public owner of the land.

Just get proper high quality management into the port operation.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

The future fund is just the Trojan horse for privatisation. Why on earth have another layer between any council asset and the council/public ?

Move the port eventually north to Whangarei with a first class rail connection to the inland port in Auckland.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Eventually the port should move north anyway.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

In the meantime keep the port fully functional.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Support

#596

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. improve transports networks by adding rail to north shore. Add cycleways.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

traffic is a friction on life in Auckland, improving it will be a multiplier for everything I do. I am curious as to what 'time-of-use' practically means, I do support demand based pricing for access to roads.

rail infrastructure, cycleways.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

We have a well placed facility that is underused. Rather than writing off the investment we should at least attempt to get a reasonable return. When I tried renting part of the facilities last year I got no response from the team...

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

The council shouldn't be in the business of running airports or ports, it should support services and growth. Having the fund lets us divest in these non-core assets and focus

on what we need. I do question the rate of return asserted in the consultation doc, it seems high.

4b. Which option do you prefer for the future of Port of Auckland?

If we keep it as an active income stream it should be used to provide the services we actively need, not try and build a war chest.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do more
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Don't continue to expand the greater Auckland area with new suburban developments, especially north.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Continue to maintain and expand on rail network resilience with a long-term goal of reducing outages and maintenance by building it right, now.

2b. Is there anything you would spend less on?

CBD bus access and intra-CBD bus projects

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

I do not have enough information on actual plans of what this could look like to provide certain feedback.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I think Option 3 provides the best balance

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

The benefits are not worth the cost of moving with respect to other financial implications of the LTP

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Efficient operations of POAL should be prioritised and maintain the status quo.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase capital investment and maintenance budgets for parks

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Do less of activities that should be funded by central Government. (ie Transport, Housing, Flooding, Roothing, Cycleways etc).

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Should be funded by central Government

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Cycleways, Road Humps and Judder Bars.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

Long term population growth requires facilities such as this stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

AIAL should produce a better dividend than some vague investment fund of dubious management and cost potential.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Improving profitability should be a council priority, while retaining control over Port Development to enhance ratepayer use.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

In the transport section you've grouped roads along with public and active transport. I believe you should separate these for clarity. Too often public and active transports are the poor cousin to roads. Often their budgets seem massive but when split out without stormwater or services upgrades the true budget becomes much clearer.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less roads please. Wildly expensive, and don't do a thing to deal with congestion. Unless it's space reallocation (eg liberate the lane)

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Removing the cheapest and best value for safety proposals (ie raised tables and protected cycleways) while leaving in the expensive parts is crazy.

2a. Is there anything you would spend more on?

Protected cycleways, using reallocated road space.

2b. Is there anything you would spend less on?

Roads.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

There might be some community or club level uses for this stadium area but there isn't as far as an actual stadium. Frankly we have too many stadia in Auckland without a good plan for utilizing them.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Short term gain doesn't seem that smart to me

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

That area is prime for redevelopment. Don't lock in 35 years of private ownership where you won't be able to do any of that

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Consider redeveloping the stadium precinct

Tell us why:

We don't have a dedicated Cricket Stadium - lets get something fit for purpose for that. The rugby, well, we're not just a rugby nation, and they can go to other stadiums around the city.

NHR doesn't exactly get much of a following and Eden Park can be multi-rugby Union orientated, if that's where we're keeping Rugby (although something more central would be beneficial for all - Eden Park is a pain to get to, even with the rail improvements, especially from the north).

NH stadium needs redevelopment for cricket, and perhaps other minor sports, but don't get rid of it and redevelop it for housing or just local grass roots community sports - what a waste of an area, and transport links. Why are we a city that doesn't have a dedicated cricket facility - Wellington, Hamilton, Queenstown, Christchurch, the Mount - all have purpose stadiums and yet the largest city in NZ - Nah, terrible drop in pitch with small boundaries and terrible spectator interaction; no wonder no-one turns up to watch.....

Two things we must all pay more for;

Resilience for management of storm water, waste water and potable water.

Improvement for all forms of public transport at the deliberate expense of pressurising those who continue to insist on using private transport.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Councils around the country have allowed themselves to become overblown behemoths that try to be all things to all people. Much less focus on the nice to haves which were never conceived in the early days of Council service as a public service duty.

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

It is under-utilised. It's like building a school and having it open only for eight hours per day and not weekends. How us that good use of public money?

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Diversification

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Generate investment capital. In its existing format PoAL will never generate a level of profit to rival that possibility, Good and bad management comes and goes, most of the port's value is tied up in the underlying land reclamation. Let an international port manager make an attempt to do better but rest assured such an organisation will be ruthless about divesting those bits which do not contribute sufficiently for their purpose.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

To force decision making which has a robust financially astute reason and meaning.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Every individual that decides not to purchase insurance is accepting de-facto self insurance. We've seen where that leads for some people, twelve months ago. The proposed Future Fund must be viewed in part as that self-insurance facility for Council.

Waterfront land supporting a commercial port makes import resources cheaper in NZ's biggest city. Conversely, port land would make more income for Council if it was covered in commercial buildings and apartments. There may be room for both. There will never be a reason to sell the landholding.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

Marsden wharf has lain partially deconstructed for several years. Complete the demolition. Develop an extended deep water berth on the west side of Bledisloe. Return Captain Cook to Council.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

With the removal of Marsden wharf, which has not been commercially viable for a number of years, the inner end of Bledisloe west could be deepened (yes I know, it's papa rock) to add enormously to the commercial viability of that wharf.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

My perception about targeted rates is that businesses have more capability to pay than individual residents. Also they generally make more significant use of the resources which we all pay for.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Concentrate on core services and ensuring tenders for contracted services are competitive. Maintaining essential municipal infrastructure only.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

No further bus or bike lane development at council level. Concentrate on the basics. There needs to be a government plan on public transport, including a funding model based around road user charging to help facilitate public transport development.

2a. Is there anything you would spend more on?

I would look at optimizing traffic flow around our city. Less traffic light phasing, by more one-way systems where possible, Examine local intersection design, simply wherever possible, including limiting turning where viable.

2b. Is there anything you would spend less on?

Yes - council should NOT be involved in cultural, arts, festivals, and events, apart from assisting with providing spaces where suitable infrastructure already exists.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

The North Shore has ***** such facilities already. The Hibiscus Coast is expanding - we need more not less.

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

POAL need to be considering inland port operations, and development of ports away from the city, whatever solution it may require. The CBD should be limited only to cruise terminal and public transport operations for the most part.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Investing in renewable energy, environmental conservation, and sustainable infrastructure (for example recycling facilities for diapers and soft plastics). Improving access to healthcare services, including mental and dental health resources. Investing in technology infrastructure and innovation hubs to attract talent, foster innovation, and

drive economic development. Ferry & train infrastructure is very important to remove cars from the roads. There is not enough of it, especially in places like Whangaparoa and late at night or over the weekend.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

(1) be cautious about approving excessive development projects that could strain infrastructure, exacerbate traffic congestion, or lead to environmental degradation. For example, in Gulf Harbour we have over 6k in population we have only one road access to it, we don't have a supermarket (not a 4 square), a doctor, the closest urgent care is in Red Beach and the hospital is in Takapuna. (2) Streamlining bureaucratic processes and reducing administrative overhead to improve efficiency and responsiveness in delivering public services. For example, the process of Building and resource consent can be done more efficiently with fewer employees from the council being involved.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We can not stop any infrastructure work, it is essential to build better transport in Auckland. The average Aucklanders spends 154 hours per year on rush hour traffic. If I don't have the ferry, it takes me 2 hours and two buses each way to get to work every day. In contrast with the ferry, it takes me 50 mins each way. This does not take into account the fact that I might have to wait for the second bus for 30 minutes.

2a. Is there anything you would spend more on?

- Accelerated programme for electric ferries (decarbonise ferries)
- Adding more electric trains which will reduce transport emissions
- Removing rail crossings that hold up traffic therefore reducing the level of congestion
- Increasing levels of public transport services that support greater access to public transport
- More investment in residential speed management and road safety programmes to reduce deaths and serious injuries

- Developing urban cycleways and walking connections to support greater mode shift and reduce reliance on cars

2b. Is there anything you would spend less on?

Streamlining bureaucratic processes and reducing administrative overhead (from AT) to improve efficiency and responsiveness.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Ultimately, the decision to keep or sell shares in the airport should be based on a thorough analysis of the council's financial objectives, risk tolerance, and market conditions. It may also involve consulting with financial advisors or experts to make an informed decision that aligns with the council's long-term interests. However, currently, my view is a no. Keeping the shares provides the potential for Dividends, providing a steady income stream and the council maintains some level of control and influence over the airport's operations and strategic decisions.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

A catastrophe bond (cat bond) could be considered as a tool in Auckland's toolkit for managing the financial risks associated with climate change.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

We should reconsider our focus on developing the central city and acknowledge that many people are reluctant to commute there for work due to inadequate transportation and infrastructure. Continuing to invest in central city development under these circu

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less waste of money on unnecessary road works (raised crossings, speed tables, road realignments, etc.) and a demand for accountability from the roading contractors

of the money being spent reasonably and prudently (too many road cones, too many people, too much time and not enough progress).

around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025,	

2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

Very Important

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	Very Important
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	Fairly Important
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	Very Important
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	Very Important

I don't understand the WQTR proposal? It talks about resuming a targeted rate but says the effect of which will reduce the rates paid? I'm never in favour of tax cuts/rate cuts if the result of which is reducing spending on infrastructure.

Please continue to invest more in our water management, the Waitemata Harbour needs all the help it can get. Very concerning data on microplastics in our harbour.

Public transport routes

2b. Is there anything you would spend less on?

More lanes on motorway - 2nd harbour crossing

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

It's a great place for a stadium - close to Albany and motorway. Sports parks/ green space are important especially in Albany with all the instenvie housing. Use it for concerts - entice the blues/warriors/phoenix to play there once a season. Keep it! Rather than build another new stadium on the waterfront - fix what we already have

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	
<p>Re-introduce recycling charges for schools.</p>	
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

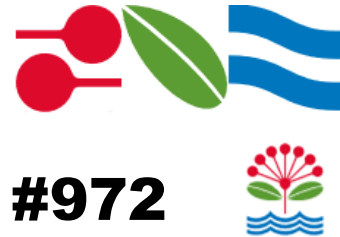

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Fewer speed humps and cycle lanes. Events should fund themselves.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Make public transport cheaper

2b. Is there anything you would spend less on?

raised pedestrian crossings and cycleways

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

The stadium could be used much more, so I'd be in favour of keeping it and changing the management as bulldozing it seems counter-productive for the community. However, the cost of this should not be unreasonable.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

I'd be inclined to keep some council ownership of the airport to keep them honest. As a major asset the public should have a say in how the airport operates.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#1011

Tell us here:

Either way there will have to be an investment into infrastructure to support the port. As long as the leasing as promised, delivers a higher return than the POAL then yes.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	Not Important
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	Fairly Important
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	Not Important
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	Not Important

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce or stop spending on cultural events and Maorification.

#1079

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Some people rely on their vehicles for work purposes. I am in an itinerant job. public transport often requires more time, as getting to some places requires catching several buses.

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

Carbon emissions.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

This might make the use more efficient.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

This will enhance cash returns to the council to help pay for services.

4b. Which option do you prefer for the future of Port of Auckland?

#1079

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

The upfront payment can help to reduce rates increases.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Future fund does not interest me so much, as I am old. The young progressives can solve their own future problems.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

No impact on the operations at the port.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

#1079

It will help to reduce road transport of goods.

6a. What do you think of these proposals?

Upper Harbour Local Board Priorities

7b. What do you think of our proposed priorities for Upper Harbour in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Progress with the detailed business case for a new multi-purpose library facility in Albany.	Not Important
Continue to deliver stage 1b of Te Kori Scott Point which includes physical works for 3 sports fields and sport field lighting as well as a second baseball diamond.	Not Important

#1079

Implement actions from the Upper Harbour Ethnic Peoples Plan.	Not Important
Continue to invest in projects that improve the environment and address climate change including planting trees as outlined in the Upper Harbour Urban Ngahere Strategy and continuing to support and fund volunteer environmental work.	Fairly Important
Implement actions from the Upper Harbour Engagement Strategy.	I don't know
Implement actions from the Upper Harbour Greenways Plan.	Very Important
Implement actions from the Upper Harbour Wheeled Recreation Service Assessment.	Not Important

Albany has a functional library. Ethnic people's plan suggests we are not all equal - all just New Zealanders. This country was founded on Western world culture.

7c. What do you think of the Upper Harbour proposed priorities for the 10-year budget 2024-2034?

I can't find page 128, so no opinion.

7d. We will prioritise investment in a Detailed Business Case for a new multi-purpose library facility in Albany, however given the financial constraints faced by Auckland Council we would like to explore alternate options to fund any budget shortfalls.

We want to hear your views regarding the local board investigating options to sell land or exploring the introduction of a targeted rate to enable investment in building a new multi-purpose library facility in Albany (noting that there will be a robust public consultation process on any sale of land or the introduction of a targeted rate following investigation of viable options).

Which of the following options do you support?

None of the above

#1079

Do you have any other thoughts or ideas on potential options to fund budget shortfalls associated with building a new multi-purpose library facility in Albany?

No

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Water delivery & waste water. Taking back Watercare & transport, these companies are making a profit, it is not in council pockets so lost income & higher costs for users.

Rail to wider Auckland with proper parking at each site, multilevel.

#1129

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Where are all the cuts to wasteful spending that Wayne Brown was going to do.

I think just like the above breakdown each sub item should have a Do less, As proposed, Do more vote. Do what the people want.

I think also an option of a blanket 4% increase over 4-5yrs would be more accepted & the ability to do more.

2. What do you think of the transport proposal?

I don't know

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Until there is a rail option the roading around the stadium does not support big events.

Demolishing it & rebuilding should not be undertaken. Do not rebuild. It would be better to have an indoor community/events/sports facility built in it place.

Currently not a priority of spending.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#1129

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Support establishment of a future fund but not by selling off airport shares.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Sell off a 10% share of the ports.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Spend less on sports venues and the like

#1143

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I used to use the public buses to get to the City and Takapuna. There were to many transfers for Takapuna. The old system (1990s?) where some Auckland buses went through Takapuna without the need to transfer were far superior!

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Sports venues and cycle ways.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

I do not favour spending vast amounts of our hard earned cash on sports especially the North Harbour Stadium and cycleways

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

Depends on what the redevelopment options are. I don't think we need more apartments with shops underneath which we are struggling to fill. More housing (apartments), but they need to be affordable, not \$1m+ or little studios.

I don't know

Tell us why:

I dont know enough of the detail, however If the fund is established there would need to be clear agreement as to what the fund would be used for and the decision making process would need to be publicicly available (transparent) since the fund belongs to the people and a proper mechanisim for ensuring a sound rational decision making process and accountability of decision makers to the public at large.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Retain underlying council ownership, BUT- re-organise group operation team to include entrepreneurial thinkers and not just bean counters. Possibly profit share with the group operational team as incentive to really make the asset return on capital. Put in place accountability measures to ensure sound rational based decisions and make this accessible to the public to a point. Lets not forget if council decides to lease out operational management, whoever takes that on is going into it on the basis of profit and the fastest way to recoup profit is to reduce access or services and then put some window dressing up to make it look good and spin a yarn!

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Local development. Auckland council should to charge rates not only according to property CV but also individual income

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Capped transport cost only good for people who can use public transport. Dynamic lanes are not useful until the current laws are better defined to ensure better traffic control - driving slow on the outer lanes; min speed on motorway etc., Cycleways seems to be a huge waste of money

2a. Is there anything you would spend more on?

connecting public transport from every suburb to all major work areas - Hibrook business park, airport oaks etc

2b. Is there anything you would spend less on?

Not to engage in new plans that would cost more to the taxpayers while our economy is in a major turmoil with rising interest rates, cost of living and now brain drain

Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Build a downtown stadium fit for purpose and ideally with a roof closing option enabling us to re purpose eden park and its land for other purposes, and complete a second harbour crossing via tunnel. Also a focus on improving and expanding major highways, routes and motorways around Auckland should be another focus.

#1233

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Spend money on consultants and stop thinking short term but plan major long term projects.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I agree with stopping raised pedestrian crossings and cycleways, but we need to focus on building more dedicated bus ways and improving our motorway and highway networks as well as building a second underground harbour crossing.

2a. Is there anything you would spend more on?

Motorways and road networks, also parking at bus stations

2b. Is there anything you would spend less on?

public transport for things like walking and cycling.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

North Harbour stadium is no longer fit for purpose so re purpose and build a smaller stadium and focus on building a proper downtown stadium that can be a major draw for sporting, musical and other events.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Right now I am paying a lot and our services are decreasing. The current proposal involves a 20.16% increase in rates over the next 3 years, and the 'do more' proposal is a 37.94% increase. I think a 20.16% increase should be more than enough to 'do more' rather than continuing to cut services. I'd prefer more spent on the day-to-day life of actual residents of our city, particularly public transport.

#1241

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I would prefer less spent on major events funding. I'd prefer to not pay for the compost bin as I can make my own at home.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Previously-planned initiatives shouldn't be stopped if they are going to benefit our citizens in the long term. Park and rides should not be charged as the feeder buses are not at all optimised, it's impossible for most residents in an area to get to a park and ride using public transport.

2a. Is there anything you would spend more on?

Subsidising or reducing public transport costs for users. Public transport will never be the preferred mode of transport unless it is faster and more cost-effective than driving (which it currently isn't).

2b. Is there anything you would spend less on?

Anything that would mean the cost for users would increase.

This option benefits our citizens more by lessening the blow of increased rates in a Cost of Living crisis, and would mean that long-term improvements can be made quicker.

#1241

8. Do you have any other comments?

As most people will think, I don't mind paying more in rates as long as I see some sort of benefit for myself. Currently I haven't experienced any benefits after moving into a first home and starting to pay rates - in fact all I've experienced is reduced bus/ferry routes, reserves and green spaces being bought up for development, amenities being taken away from parks, a lack of parking at our local park-n-ride, endless traffic cones and potholes, and more. If the council shows they are using our money for actual improvements, I'm sure people will be happier with the rates increase proposals. Small things make a big difference, and if only the budget cuts are being discussed on the local Facebook community page, it creates a really negative vibe in the community. No one is receptive to change if we are already resistant. It would be worth working with local councillors to boost morale and provide visible and obvious improvements, and listen to what each area is complaining about. The local boards are huge and the proposals don't consider ever local grievance.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would be prepared to pay more only if Auckland Council can show they don't waste Rate Payers' money.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1358

Auckland Council should think outside square and incorporate with stakeholders worldwide to develop Auckland, not only relaying on rates.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Auckland Council has failed for the past decades. The more Auckland Council implemented improvements, the worse the traffic got. We have lost confidence in the Auckland Council for managing Auckland Transportation.

2a. Is there anything you would spend more on?

You don't need to spend more money. Go to see examples in major cities worldwide and learn what to do to manage city transportation. You can simply regulate the heavy vehicles not to use the road in rush hours to improve traffic by far.

2b. Is there anything you would spend less on?

You should spend less on everything. Use your common sense.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Higher development fees for developers and people doing subdivisions, higher rates for AirBnB

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1397

Less staff overall, esp. Less communication staff and cut down management at Auckland Transport

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Need more value for money, AT should always use most cost effective solutions, too much money for luxury things

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Need a stadium in the Nortshore, but use it better

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

things like raised pedestrian crossings, bus lanes, cycle ways seem like a luxury we cant afford. We are spending too much on these types of things for a minority. The Rothesay Bay shops are still really dangerous. The buses only support a small number of commuters.

8. Do you have any other comments?

It is really important that Central Government assist AC with capex and infrastructure by way of a share of GST raised in the area. Stresses due to increasing immigration requiring transport, housing, water etc should be funded out of a GST fund.

Less spend on roads.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Better, faster public transport has the added advantage of reduced traffic congestion with reduced need for road expenditure.

2a. Is there anything you would spend more on?

More on cycleways. Gets cars off the roads when people feel safe to cycle.

2b. Is there anything you would spend less on?

Less on road cones. :-)

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

It should be possible for the stadium to make money rather than cost money.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

1. Stop building speed bumps, expensive pedestrian crossings & forget cycle lanes. You need to at least recognise that Auckland has a hilly geography that most people

#1587

can't traverse on a bike and families with small children will never use. Buses don't service all parts of Auckland so cars will always be necessary.

2. The Long Term Plan is too focused on Maori and does not take into account that the majority of ratepayers are of different ethnicities.

3. STOP referring to Auckland as Tamaki Makaurau. Council has never canvassed its citizens and ratepayers on changing the name of our city. If you conducted a referendum on this it would overwhelmingly reject a change in the name.

4. Close down those CCOs that have become fiefdoms with their own bureaucracies and cost structures. Most of them do their own thing and have become unaccountable for their decisions.

5. STOP spending \$3million on Maori issues - they have no preferential rights than Aucklanders of other ethnicities. Everything race-based must be stopped. It attacks the basic tenets of democracy.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

The money wasted by AT on speed bumps, pedestrian crossings, bus lanes, cycle ways and reducing the road lanes to single vehicle ignores the needs of most Aucklanders. The example that stands out is the Forest Hill Rd crossings and traffic lights that are an absolute overkill that has adversely impacted traffic flow on that part of North Shore.

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

Reduce the staff numbers, reduce the salaries and terminate the building leases that are costing ratepayers a fortune. Parkinson's Law obviously has applied when AT occupies a whole building (the old Vodafone building that I used to work in) because it obviously has more staff than the work justifies.

#1587

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

The current stadium and stadium footprint should remain, because it was largely fundraised, developed and managed by North Shore people and that legacy should be cherished.

The mayor's proposal would be "the kiss of death" for North Harbour Stadium, which would no longer attract international events due to inept management over recent years.

We need a fit for purpose stadium and precinct that suits a variety of sports, community use and concerts.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

It makes more sense than having councillors who have no or very little commercial nous make investment decisions.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

#1587

POA squandered millions of dollars on the container carrier automation project because they were allowed to make the investment without doing their homework and were incompetent at project management. Auckland Council didn't exercise true governance. They were:

1. responsible for setting strategy & overseeing management
2. legally required to act in the best interests of the council
3. legally liable for its actions
4. ultimately responsible for the success of the company,
5. expected to supervise the business, not run it
6. pass company resolutions that generate benefits to the shareholder, Auckland Council.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

and I have no confidence in many of the councillors due to their lack of business experience and governance capability. The way they get elected is so ridiculous that we end up with a mayor who has the ability and the where withall to change the way things are done but he is hampered by left-leaning councillors who can't or won't see the big picture. The booklet with bios that is circulated to voters is a joke - it's what they say about themselves and not about their proven capabilities and achievements. Another system is needed that voters can get a realistic picture of what each person brings to the role. All contenders should have references from third parties and be effectively vetted before they are put up for election.

As a Pensioner, I cannot afford to pay more than I am already paying, I am almost 80 years old. The Water Rates are starting to cause hard times for many Pensioners .And charging more for other plans that you people want yo set up with higher % will bankrupt many people on low incomes, sickness and Invalids Benefits along with the Pensioners. Pensioners these days are not rich. With your idea of Higher Rates I

Support most of the proposal

Tell us why:

You should be doing one thing at a time and finishing it, before you go on to do the next plan, instead of all at once and stop attacking the people of the Public for higher rates in water and all other ideas.

2a. Is there anything you would spend more on?

A new Harbor Bridge to carry the extra load of traffic.

2b. Is there anything you would spend less on?

Water Rates. Everyone deserves to have water on a low rate, one cannot survive without water.

3. Which options do you support for the North Harbour Stadium?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Use your brains, stop making life difficult for all New Zealanders. Help is needed here not putting costs up or taking away wharfs, Ports of Auckland.. Only the rich people would be the ones to side with the Council and the National Party, as they have loads of money up their sleeves.

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

NO.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less regulation and CONTROL in all areas.

#1734

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Pouring public money into public transport is a waste of time. Most of the day busses are empty, even the much vaunted northern busway is only used for a small period of the day and has made no difference to delays at all. Complete failure, let alone the enormous cost.

2a. Is there anything you would spend more on?

No.

2b. Is there anything you would spend less on?

All council wages and staff numbers. A major cull is required to get costs back under control.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

The current position is a failure, how much worse can it be.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Future proofing: install solar panels on all large roof spaces (schools, hospitals, factories etc) and smaller spaces (on all bus stops as in the Netherlands; train stations and subsidies for people in poorer communities to fix solar panels on their roofs.

#1794

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Smaller more efficiently run council with fewer staff and less talk about climate change and more action to combat climate change. Stop propping up the petrol and diesel industry, and more incentives to make it easier for people to switch to electric cars, trucks and delivery vehicles. Spend less on roading and more on public infrastructure. Electric cars are now paying a large share of road usage due to new laws making this country possibly the only one in the world where petrol and diesel car owners are rewarded for keep polluting the atmosphere.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

The Fuel Tax was meant to be a disincentive to keep driving petrol and diesel cars. With its removal we are rewarding such polluting vehicles and with no subsidies or incentives to make it easier to switch to electric this country will lag behind the new technologies available overseas (Europe, China and Australia are far ahead). Electric cars are now paying a large share of road usage due to new laws making this country possibly the only one in the world where petrol and diesel car owners are rewarded for keep polluting the atmosphere.

2a. Is there anything you would spend more on?

More electric charge points and huge stops along motorways as seen in the UK and Europe for electric cars ONLY for recharging (no petrol pumps) but other services are available to anyone there. We should invest in public transport: build train lines for REGULAR passenger trains to all the major and medium sized towns as is the norm in Europe, to get cars off the road; invest in rail freight to get trucks off the road so roads don't deteriorate so fast. We need a rail link to the airport; we need trams back in the city and close-by suburbs. We need ferries from seaside suburbs to the city and across to other suburbs as in Sydney.

2b. Is there anything you would spend less on?

#1794

No more new petrol stations; no new roads; spend less on costly consultation and just get on with building public transport.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Consolidating large sporting events to the existing stadiums then put public transport in place for people to easier get to events, again, as in Europe!!

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

We need to invest in structures sooner than later: Auckland's population will continue to grow, so we're bottle necking at providing public transport while some roads are at a

#1794

standstill 4x a day now. Better to build structures now than invest and have these build later at greater cost.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

While it's always best to build more intensive housing, we cannot afford to loose the port then solve the problem by adding more trucks on the road. We all know from overseas experience: long traffic jams = economic suicide.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

We need a port for such a big city for imports and exports.

More funds set aside to green the city: we should be planting many, many more trees in suburban shopping areas (like Browns Bay - trees have died, chopped off etc, and not replaced) to combat 'heated islands' within cities and suburbs.

We can save money by electrifying whole fleets of cars and not penalise electric car ownership (and by the same token rewarding the petrol and diesel industry); incentives for people (especially in poorer areas) to install solar panels on their roofs; making better use of water transportation by having more ferries. We need a train line to the airport.

Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

SAVE more. I do not TRUST the council to control its spending. Control Auckland Transport. They WASTE money. You should not rely on rates to cover your waste. The plan does not show any specific commitment to SAVE and respect the rate payers money. You need to gain TRUST. This feed back process is DIFFICULT. All council areas should be clean, attractive to visitors and well cared for.

#1810

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less advertising. This document is difficult to follow and comment on. It appears expensive. Less waste. Control the building and maintenance processes so they cost LESS. Make Health and Safety efficient! Do NOT charge those using the bus for parking at Park and Ride. We will stop using the bus --- as seen in the UK!

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Transport is unreliable. NX1 NX2 is superb. Local buses are often empty. Reduce them. AT lack credibility. Why change HOP cards? Where will AT save money? Are they wasteful? Developers damage roads. Who pays for the repairs?

2a. Is there anything you would spend more on?

Controlling the waste of AT! Show us the Council is efficient.

2b. Is there anything you would spend less on?

Empty buses. Probably the bureaucracy of AT. My opinion is that Auckland Council as an organisation wastes money. Spend less on the peripheral stuff and DO MORE.

All the road cones and traffic control appears unnecessary.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

Ask the community. If the facility is not financially sensible then CHANGE. The swimming pool is probably well used and could be enhanced.

#1810

Look at a detailed calendar of how the stadium is used. Remember the expansion of Millwater and Milldale may increase demand?

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

As presented it makes financial sense. What will be the cost of actually managing the fund. The amount of money involved would make a very small percentage represent a lot of money. Do you have anyone you can TRUST? Find someone who actually CARES about Auckland! will it be a CCO? Do you manage CCOs appropriately?

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I, we, have to TRUST you know what you are doing. As presented the Auckland Future Fund looks to be a good idea as does leasing the port. Can you trust your own figures? Will there be any accountability or will you just pass the buck and come back to the rate payers. We deserve a financial system we can trust.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

The figures you present are persuasive. You will need to CONTROL the intense social desires of some members of the council. If there is the view " we have the money we

#1810

should spend it --" the Auckland Future Fund will not work. You must maintain structures and services that work well BEFORE spending on new ventures which will also need to be maintained.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Can we TRUST your analysis? Have you scrutinised what your financial people have suggested to you. These people will have new jobs in 3, 5, 7 years and will walk away from any mal-decisions. Can you TRUST them? Can you control Auckland Transport and Watercare. Will you find an operator to lease the POA?

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

It appears financially sensible. Have you scrutinised the figures? Do you have a list of potential undesirable consequences? Will the salaries be sensible?

You must have a welcoming and up-market facility for cruise ships. The present dock looks awful

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

The increase in road traffic should be avoided. The trains are probably a joke!

Port activity should increase so leave room for expansion and a vision for the future.

We need to encourage businesses. Do they get tax relief and GST relief? If so then some increase is acceptable. Why do you need so many "targeted" fees? Are you losing sight of the detail of the CORE council business? The loss of SAIL GP to Auckland was appalling! You knew it was coming and we have lost a lot of revenue. There is also the loss of other major events which attract visitors and thereby revenue for the city. You have made some serious errors.

The North Harbour region is expanding its population like most other parts of Auckland. We need more parks & green areas. The stadium has been badly and possibly deliberately mismanaged over the last few years to the gain of Eden park and Mt Smart stadium. I cannot believe the management has been so devoid of any ideas of how to run the stadium properly. South of the bridge has never like North Harbour having its own stadium since the day the idea was floated.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to

the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Do not support most of the proposal

Tell us why:

Auckland has great transportation options, we just need more of it. More clean busses, more green options. Invest instead of capping! Paying is so easy compared to other metro transport systems. Dynamic lanes won't fix traffic problems.

Clean busses, light rail, cycleways -- clean alternatives to more driving that can be used by the public.

Incredibly short-sighted and will be instantly regretted. PLEASE PLEASE PLEASE keep some public interest in this public utility. Even at 11%, the public, via the Council, retains some say in what happens to the airport.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I would prefer to use private contractors for the collection of household refuse, they offer options that are far better than the council, to remove those contractors such as the yellow bags penalises those of use who have made a real effort to reduce

#1871

household rubbish, older people, and those on steep driveways where using wheelie bins are dangerous and difficult to use,

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

The North Shore has to pay for all the services like the transit system, yet reap none of the benefit. We are not getting a cycleway on the Auckland Harbour Bridge or anything to reduce congestion and delays.

2a. Is there anything you would spend more on?

Getting the scheduled buses to run, especially those used by school children. It's dangerous to leave children at the bus stops as buses are cancelled, and the ones that do stop are so full to take many more passengers, children are balking off school, or refusing to go. Commuters are now using their private vehicles because the buses are so so unreliable.

2b. Is there anything you would spend less on?

The Waterfront Concert venue/stadium. It's the most ill thought out plan, a pure vanity project and Auckland ratepayers can not afford it.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

The Stadium has been completely mismanaged since it fell under the auspices of Auckland Council. It hosted major sporting events, plus local events, attracted world class and NZ concerts. The council's mismanagement has ruined it removing half of the stadium's seating for a baseball franchise that everyone knew was teetering on the edge, then acting as if you were surprised when it went belly up is an example how the council failed to do a thorough due diligence, The stadium should be extended, not

#1871

removed. It's perfectly located for concerts as it has the Albany bus station, although only about 1 in 3 scheduled buses actually runs. It is also well positioned ed box the motorways for access fri western, northern and southern suburbs, .It needs to have the sports facilities to be returned to how it was it was before the baseball franchise fiasco. Despite the council intentionally let it run down, it is the only decent sports facility on n the north shore and also serves West Auckland and North Auckland. It's terribly unfair fair for all the people who could use it if it wasn't so mismanaged,.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Selling it is a short term solution but a long term loss. By selling it, you are robbing the Auckland of income stretching decades ahead. We have to think about the next generations of Aucklanders.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

The council is mismanaging it. Also forget a stadium/concert venue on the waterfront. It's a vanity project for the council. Access will always be an issue, as congestion is terrible in that area. Only people from a small slice of Auckland has access to the train network. The Britonart bus terminus has gone, and the bus serie is so poor you can't rely in it. There will be fewer public parking spaces lln the vicinity. Building it will cause more problems than it solves. Put money into the currently poorly run North Harbour stadium if you have money to burn in the waterfront project, and outsource the management to a company with experience and a team capable of. running , promoting and building the business, back to or acceding where it was before the council took it over.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

The council always spends more than the projected cost, and when it eventually is finished it becomes a white elephant. I also don't think the council should manage any more than they currently have as they are unable do what they have efficiently or on

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I will be very unhappy, as will many local residents in the household rubbish collection to be incorporated into the rates. It penalises the elderly, people living alone and those who have made a concerted effort to reduce waste. We currently ink out a yellow bag of household rubbish I once a month. We compost our food and green waste and we buy products with minimal packaging so only out the recycling bin every 4-6 weeks. It's totally unfair to incorporate into the rates. It should be based on usage, not a money grab from the council. We also find in windy times, the food waste, rubbish and recycling bins end up all over the road. The bags were perfect, they stayed out until collected and then nothing left on the kerb afterwards.

Less free events (music in parks, movies, festivals, etc.)

Less gardening - less flowers in pavement borders, you need to plant bushes and plants that are low maintenance.

Less changes in urban environment - no need to change shape and form of public spaces so frequently, leave as is.

Less grants - do not spend our money to fund initiatives of individuals or arts, the only justified spend is for the youth, the sick, the homeless and the elderly.

Less speed bumps and traffic lights.

It is beautiful, easily accessible via the Albany bus station and a great asset for the community.

The North Shore people need the Council to promote and organise more athletic and musical events in the North Shore, as the population has increased and would like to have access to a variety of organised events without having to travel 30-50km.

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

The council should belong and serve the people of Auckland, and should not operate as a business. This would have the risk of people need to pay for services in the future which they have already funded via the rates. 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Restore North Harbour stadium to be a key asset for sporting and cultural events. It's access to the transport network of the city is second to none. Some of the best stadiums in the world are not in downtown areas. Wembley and Yankees stadiums spring to mind.

2a. Is there anything you would spend more on?

Trams and or light rail.

2b. Is there anything you would spend less on?

Motorways in the city

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

This is the best football venue in NZ. We should actually be looking to spend more on further developments. Why waste money on a stadium downtown when we already have NH stadium? That is an idea promoted by people who live south of the bridge and don't realise that 500k people call the NS home. We are ratepayers and taxpayers as well.

Auckland airport ownership without a local community voice would weaken community say in airport development.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would be prepared to pay more if the spending was more equitable - I am annoyed at having to pay for the stupid rail link while North Shore gets no transport benefits at all. And the CBD needs sorting out. It has been a building site forever, and it's embarrassing when we have visitors.

#2024

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less consultation, meetings, arguments over pointless stuff. More delivery. Don't bother with paying for major events until you've sorted out the day-to-day living issues.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Do not make people pay for park and ride. It defeats the entire point. Here on North Shore, we have no benefit from the CRL, yet we've paid billions for it. Don't make us pay for parking too. Instead, improve the existing facilities, build multi-storey parking, and continue to encourage use of public transport and reduced car usage.

2a. Is there anything you would spend more on?

Reinstate a direct bus route from North Shore to the airport. Currently, there is little option except to drive.

2b. Is there anything you would spend less on?

CRL.

3. Which options do you support for the North Harbour Stadium?

Change the operational management, Other

Tell us why:

Rebuild the half of the stadium that was removed in a previous ill-thought-out decision. Make it a real stadium again. Then get management that actually has an interest in hosting events there. Why on earth is anyone thinking of building a new stadium on the waterfront (not needed) when we already have facilities that are underutilized? This could be a fabulous small/mid-sized stadium that can be used for many types of events (sport, music, etc) and actually benefit an area that has no current venue. Don't

#2024

waste yet more billions on a waterfront dinosaur that is not needed - use what we have and provide a revitalized hub for North Shore.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

You obviously want to see the shares. This way, there appears to be more transparency about where the money ends up, rather than just disappearing into a general council coffer. A future fund also makes sense, since all we seem to hear at the moment is that we're still paying for old decisions. Let's try to get ahead for once and have money available when it is needed, rather than have to increase rates 5 years after the fact.

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

In principle I support the option to lease the operation. But I worry that this will result in reduced flexibility if circumstances change.

8. Do you have any other comments?

Despite a lot of bluster by the mayor, I don't see a lot of movement on 'controlling' CCOs or cutting waste. As I recall, that was central to the election promises, and yet we still see daily stupidity by the likes of AT, Eke Panuku, and Watercare. And if we are to pay higher rates, then I want to see the benefits locally. My rates went up by 20% between 2022 and 2023 and a further 10% between 2023 and 2024. And so far, I have seen only cuts, not services.

Keep the stadium precinct as it is, Change the operational management

Tell us why:

As a North Harbour resident I enjoy using the stadium and go as often as I can to Been to the majority of stadium live sporting events (ABs, North Harbour Rugby NPC/FPC and school rugby regional finals etc, Blues, Phoenix) over the decades. Was a disaster watching the stands being demolished for some hair brained baseball franchise that was already struggling. Poor management has led us to where we are at. If North Auckland is a fast growing part of Auckland. Removing the Stadium makes no sense and if it happens unlikely to get a replacement to hold any future events meaning one of the fastest growing region would need to commute to other Stadiums. All Auckland stadiums suffer from the same problems, transport, parking and maintenance. A change in operational management with a financial incentive in ensuring the Stadium is successful like previous management and a local flavour would be best.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

We are living in difficult times. Many of us can't afford any more rate increases. The council needs to restructure and half less management roles. This will significantly cut payroll costs..

#2077

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Tens of thousands of rate payers don't use public transport. Those who use it should be meeting any increases. I do agree with stopping cycle ways developments. Only do what must be done.

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

It is difficult to give a definitive response without all information. If the council is benefitting from a profitable business it would seem yo make sense to continue for now as leasing the land is always an option of things change. However, I would like to see what plans are ion place to maximise profits from the operation. A full restructure might be necessary to significantly reduce operating costs.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Invest some and use some for operating costs, however, it should be used for essential services only and not for pet projects that are not core to council business.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I would again restate the need to restructure the entire council framework. As rate payers we see an almighty ivory tower with people earning more than they would in the private sector (according to reports I have read). The payroll needs to be slashed as it will be one of the biggest costs. We want essential services not pet projects that we see consuming money everywhere.

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Allocate more funding to local community parks. All new subdivisions should be REQUIRED to include not only a "reserve" (ie bare land block) but should be required to held to account to build basic park facilities (such as paths, BBQ area, gardens, landscaping etc)for community use

Also, express lane for buses from Orewa to Albany

Train services from North Shore into CBD

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less spending on dedicated pedestrian and cycleways in demographic areas where they won't be used much

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

From Orewa/Silverdale into CBD there is a massive need for better public transport. There are no dedicated bus lanes from Orewa to Albany, no trains. Massive new subdivisions north of Silverdale makes traffic backlogged in cars, or on buses

I support all priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	
Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	

#2230

Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	
Develop pathway connections in Green Road Park.

Deliver a new civic space at 254 Ponsonby Road.	
Complete detailed design of Leys Institute remediation and seismic strengthening, and progress physical works.	
Phased delivery of improvements for Heard Park.	
Deliver services and programmes that support youth activation, leadership, and wellbeing, particularly in Newmarket.	
Develop programmes that improve perceptions of safety within the City Centre, and our town-centres.	
Support local communities to develop Emergency Planning & Readiness Response Plans.	
Seek opportunities to promote and celebrate heritage places in Waitematā including making digital content and place-based stories more accessible.

7b. What do you think of our proposed priorities for Whau in 2024/2025?

I do not support any priorities

More specifically, what do you think of each priority we've listed above?

<p>We will work with our partners to build community capacity, from climate/emergency preparedness and community resilience to increased participation and community capability.</p>	
<p>We will encourage and support volunteerism and community participation, especially through environmental and ecological initiatives around the Manukau Harbour and foreshore, the Whau River and its tributaries, and our urban ngahere.</p>	
<p>We will continue to undertake governance-level engagement and collaboration with mana whenua and the other west Auckland local boards.</p>	
<p>We will work with the local BIDs where possible, to support local economy and to realise shared goals around climate action, community connection and belonging.</p>	
<p>We will consider accessibility and inclusion across our services, engagement, and other initiatives.</p>

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I believe our current Leisure Centres and spaces are not of a standard expected, and therefore, underutilised. Prime examples are: Activzone Glenfield. Glenfield Leisure Centre. Stanmore Bay Leisure Centre. All regularly closed due to requiring maintenance works. They are old properties, and don't offer something for everyone across all generations. They are too small, too limited and the staff in each don't seem

#2322

to have foresight / or be given direction to make the venues "fun" and "inspiring" or places to "connect" with others.

Rubbish bins in all public places is a real issue. Why are we not separating recycling - yet we do this at home? Why are the bins being taken away... why are there not dedicated doggy poo bins like in other cities/destinations around NZ?

I'd like to see the motorway edges/berms planted with a low maintenance grass/flax that doesn't require mowing/weed eating and looks good year round. Same for roundabouts that now looks super scruffy as they haven't been planted out/re-planted in many areas (in the long run, this should provide massive cost savings!!)

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Purchasing of vehicles for Council use.

Can Council staff all access their workplaces via public transport? This should be a MUST! Some might, but I believe many don't use the public transport. If they did, then there'd be more problems solved I truly believe. How can you expect people to catch the bus when there's no bus shelters. Just look at Whangaparaoa Road as a prime example... very few actual shelters... and it rains in Auckland - A LOT!! No bus-lane down the motorway from the Hibiscus Coast (or North) until Albany - peak hour to the city used to take 45 minutes on the bus, now is regularly 2hrs 15mins and three buses later! It's ridiculous!! Plus, with Penlink eventually being completed, that will flow (if it flows at all) on to an already congested 2-lane motorway. Stop allowing houses to be built/roads to be built where there is already congestion and not enough infrastructure - ie. bus stops/routes/bus stations WITH enough car parking for more than one double decker bus load!! Stop acting like the residents of an area have a choice, and make the decision to drive and sit in traffic!!

Less secret-squirrel discussions - let the locals decide what they want and not in silly forums in local halls that run through work hours so only the retirees can attend...

Waste is also an issue - I have now seen on several occasions, all the bins (recycling, rubbish and greenwaste/foodscraps) being emptied into ONE truck - together!! What on earth....!?!?!?

A magic wand across Auckland would be blink'n brilliant!

2. What do you think of the transport proposal?

Support most of the proposal

#2322

Tell us why:

How are you going to make public transport faster without dedicated bus lanes (SH1 north of Albany being prime example)? Motorbikes and service vehicles/tour buses and passenger vehicles with 8 or more people should be able to use the bus lanes too perhaps? (unsure of the safety issue around the bus stops or these bus lanes though, or how that would be managed)!

We need to get Auckland flowing! It's the constant merging into the main highway north to south that slows the traffic from flowing. From Whangaparaoa to the City, it goes from 2 lanes to 3 lanes near Albany, to 2 lanes again not long after, to 5 lanes (to of which are merging in before cutting back off to Constellation), to 2 again, then 3, 4, 5, then 4 over the bridge... then chaos as people try to find their lane on the other side and often move across several lanes to find the right one... it's a nightmare... we need north to south lanes. There are a lot of people that travel a really long way to get to work - if they could sit in one lane, the majority of the way, I honestly believe we'd have a better flowing network.

Also, toll sections of the motorways (like fare stages on a bus). That should help pay for some of the infrastructure required!!

2a. Is there anything you would spend more on?

Bus stops!! Carparking at bus stations!! Public bathrooms, lights, rubbish/recycling bins and outdoor taps at ALL public playgrounds!! If they can't have this, they shouldn't be there!! Expand and renew the current Leisure Centre facilities!!

Look at having household rubbish combined for some areas/streets into bigger skip bins rather than everyone having multiple bins blocking driveways, footpaths and tumbling onto roads (and ending up often in waterways).

Boat ramps and car parking (and facilities such as toilets) at beaches/bays etc... prime example, Gulf Harbour has the only concrete ramp on the Hibiscus Coast so it can take around 2hours to launch/exit on beautiful days (we don't own a boat - but see the chaos)!

Perhaps Council can invest in boat washing facilities nearby too (user pays)!

Dog parks (again, we don't own a dog, but see a need)!!

2b. Is there anything you would spend less on?

#2322

Auckland Council have a lot of "Consultants" for every project and although they tender the work out - it's not often the 'cheapest' they go for. I understand cheapest isn't always best, but some of those tenders are intentionally massively over-inflated, and yet the contract is still awarded.

Consultants should become staff of Auckland Council, paid at a set rate to get the work done!

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

A multi use facility would be amazing. Could multiple clubs use this - ie. gymnastics/rollerskating (3 clubs in Auckland without their own facilities and scrambling to find places for their International Competitors to train)/trampolining (for indoor spaces/carparking areas of present), ball sports etc all combined... I feel there's a lot of value in creating "club" atmospheres - and in NZ, Rugby clubs still do this - but there isn't a lot around where these clubs run as corporate businesses and can have a bar/cafe onsite that you could go to day or night ... there could even be some accommodation for those travelling for training at the stadium or when hosting matches with out of Auckland teams etc...

Maybe an ice skating rink too?? There's a lot of space - it would be awesome to have lots of minority sports able to have a base to call home!!

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

There's obviously a disconnect between Council and the Airport right now anyhow, so, time for change!

4b. Which option do you prefer for the future of Port of Auckland?

#2322

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Step back and allow for private management to come in.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

I believe the funds should be used to attract major and business events to Auckland. These often require a lot of subvention support and city led investment and bids are presented years in advance - some 10+ so need commitment now!

We need to liven the city up, showcase our new developments (City Rail Link, NZICC, Hotels etc) and attract these international guests that bring with them, foreign investment, new job opportunities, new skills, exchange of knowledge etc...

4d. Do you have any feedback on any other part of the proposal?

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better, productive, infrastructure especially in the Silverdale area which is bursting out of it's seams with all the new developments popping up like mushrooms.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2368

Wasting taxpayer's money. For instance: We live in a street with approximately 20 houses bordering protective bushland. We were informed by the Council that an inspection was to take place to ensure compliance with the covenants. Instead of visiting the site in one day, and inspecting all the properties in one day, the Council inspector(s) made numerous trips on different days to this site to do the individual inspections. Why was so much time and money spent on Council Inspectors driving to the same site numerous times in one week to do an inspection that could have been done in one day? Unreal how much money is floating around at Council if they can approve these unnecessary trips that could have been economically planned as one trip.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Just get on with the important stuff and stop wasting time/money on 'nice to haves'.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

It does seem there is a lot of resurfacing happening on roads that still looks pretty good and can wait at least another year or two for a resurface. Please ensure money is not wasted on resurfacing a road just BECAUSE 'that's always been the plan'

Use common sense and be pro-active to not waste money on something which is not essential.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

The stadium is one of the best-kept secrets for big events.... not only is there a huge bus stop station close by, there is also AMPLE parking in the vicinity of the stadium.

#2368

Surely this is an ideal location to host huge music events. It is mind moggling that huge music events are still being held at Mt Smart Stadium/Eden Park/Western Springs - which does not offer nearly as much benefits as North Harbour sadium in terms of: parking/accessability/close proximity to motorway/easy access in and around the stadium. NH stadium is also not built right in the centre of residential houses making it much easier and faster to leave after the event and not blocking all surrounding residential roads which is currently the case with all the forementioned stadiums.

Think out of the box and elevate NH Stadium into the number one destination for all big music concerts in future. Afterall, it can be argued that a big majority of the ticket holders are usually from the North Shore... (?)

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Be sensible and do what is good for the economic growth of Auckland.

Be future-focused. Think prosperity for the city and the people who live here.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Do what will create the most profit for the city and it's people.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Motorway congestion. On the North Shore it can take an hour (sometimes more) waiting to get on an ‘on ramp’ to the motorway. Then sit in congested traffic.

Mow the council owned berms/parks/road edging. The North Shore looks scruffy and unkempt to our visitors.

#2414

Put rubbish bins back at our beaches, we are trying to prevent rubbish blowing into the sea but the council then takes out the one thing people used to dispose their rubbish in. Visitors to the city are a great example of not being able to take it home.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop interfering with our home rubbish payment/collection. It should be a user pay system, not included in your rates as proposed. We only put rubbish out every 3 weeks so why should we pay for weekly collections.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Absolutely ridiculous waste of money putting in raised concrete near pedestrian crossing & roundabouts, harder for buses to get around too.

2a. Is there anything you would spend more on?

Keeping the environment up to date for our city, currently an embarrassment when bringing visitors to our area on the North Shore from the airport

Cap the number of new residences until these issues are sorted. Rampant population growth without the infrastructure has led to the current issues

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Better public transport options will encourage more use. It is a mess right now and very inconvenient to use.

Raised pedestrian crossings are an unnecessary cost to rate payers.

Cycle-ways are an indulgence we can do without. Cycling is not an option for most commuters.

It is a lot of rate payer's money to keep the stadium as it is. Make it useful to a wide variety of sports and cultural events seems a better option.

But please, not more high rise housing on the area.

Devonport-Takapuna, Hibiscus and Bays

Devonport-Takapuna Local Board Priorities

7b. What do you think of our proposed priorities for Devonport-Takapuna in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Progress the detailed business case and delivery of a new library and community hub in Takapuna.	Fairly Important
Complete the Devonport-Takapuna Local Parks Management Plan that will guide decisions on the use and management of our parks and open spaces.	Fairly Important
Implement priority actions from the Devonport Takapuna Ethnic Plan.	Not Important
Continue to build relationships with Iwi and Mataawaka to promote projects of interest to Māori including the restoration and improvement of Te Uru Tapu.	Not Important
Invest in the delivery of key events in our town centres to support local businesses	Fairly Important

7c. What do you think of the Devonport-Takapuna proposed priorities for the 10-year budget 2024-2034?

Henderson-Massey Local Board Priorities

7b. What do you think of our proposed priorities for Henderson-Massey in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Our People – create opportunities that support connectedness, diversity and inclusion in our community.	
Our Environment – focus on initiatives that increase tree canopy cover, improve water health and provide for resilient and low carbon communities across Henderson-Massey.	
Our Community – ensure the maintenance and development of ‘fit for purpose’ local services and spaces meet the needs of our diverse communities.	
Our Places – support initiatives that improve walking and cycling opportunities.	

#2511

Our Economy – continue to support the Western Initiative to deliver the Youth Connections programme.

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	Fairly Important
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	Fairly Important
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	Fairly Important

#2511

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	Fairly Important
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support

In this economic climate asking Auckland rate payers to pay SIGNIFICANTLY more (19% over 3 years) without significant raises to salaries is preposterous at best. Especially when you still expect us to pay exorbitant amounts for public transport and provided little to no assistance when the floods happened or since. Shame on you. Council needs to slow down or rein in spending, especially on the way over budget

and over time CRL and other major capital expenditure projects until the economic climate stabilises and then appropriately reconsider these options. Reallocate funds set aside for these projects to improving infrastructure in the wake of the floods/cyclone. I would think the safety and security of your ratepayers is more important than these other strategic projects.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2683

We do not want the compost bins that we have to pay for and do not use. I know people involved in the trial and that didn't work so why were they implemented. May council employees less - cut council jobs -streamline your processes

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

How are you going to attract more bus drivers? The bus services are so unreliable most people are scared to rely on them.

2b. Is there anything you would spend less on?

Trains, road cones - way too many!!!

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Don't have the money to spend on this and would rather my rates didn't go up as cant afford them as it is.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Fully fund the maintenance and renewal of the existing infrastructure (including the backlog of road sealing and gravel application), prior to building any new infrastructure (such as the millions wasted on vanity projects).

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2715

Stop funding raised ped crossings that do virtually nothing for safety, but increase GHG emissions. It is incredible that with both Council and AT having declared climate emergencies, that any project that actively increases vehicle emissions is allowed to go ahead unless the safety (or other) benefits are phenomenal.

2. What do you think of the transport proposal?

Tell us why:

Fund 100% of the maintenance and renewal need, then with the left over funds worry about building new assets. This is after all a legal requirement under the LGA.

2a. Is there anything you would spend more on?

Maintenance including resurfacing and regravelling of roads. There is a massive backlog while funds have been wasted on vanity and road safety projects.

2b. Is there anything you would spend less on?

Safety improvements that offer no benefit to safety, but are someone in AT's flavour of the month

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

With the ongoing growth of the North Shore and Rodney areas, formal recreation areas will become under greater pressure. While the form of the physical stadium and grounds may change over time, the retention of the grounds is essential.

Fully funding the maintenance and renewal of existing assets is a likely requirement under the LGA. It is obvious that for a number of years now that Council has been renegeing on this legal requirement in favour of investing in capital growth projects or many a vanity project that serve little benefit.

There is a need to stop thinking that the CBD will ever be a key attraction for the vast majority of Aucklanders. Focus on creating vibrant local communities rather than trying to convince yourselves that Queen St is somehow relevant in today's world.

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We live rurally and so most of what we get back from paying our rates is reflected in waste management, police (I’m guessing) and roads. Our road like so many other rural roads, is not sealed and so regularly develops significant potholes which then damage our cars. Each time potholes occur, our community has to submit enough reports before a team of road works is sent to bodge up some ridiculous excuse for a fix which

#2777

leaves the road surface less steady or gets washed away a few days later when it rains.

These repeated patch-ups must cost more than just sealing the road in the first place.

I would like to see Auckland Council apply better logic to spending and resources and treat all communities like they matter. Higher rates?! Are you high?? How about you give us a bit of a break and just do your job properly in the first place for the existing rates- or drop our rates if you have no intention of ever truly fixing our roads.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop focusing on growth and re-invention. You are council of a Super City but living in it doesn't feel super- it's suffocatingly expensive and over populated. Auckland residents don't need more 'status', they need less pressures and a better life balance.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

"Dynamic lanes?" Whoever came up with that term is getting paid too much for spouting garbage. How about you save money on salaries of employing people who sit and think up this nonsense and redirect the budget into supporting existing projects and communities?

Are you so out of touch with your people that you actually inserted this question in here?

2b. Is there anything you would spend less on?

This is just beyond ridiculous, um, sure, I'd like to contribute less money towards people who collect high salaries for asking stupid questions.

Transport	Do less

City and local development	As proposed
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

1. Council should not be doing items which are primarily in the central govt area.

#2911

2. Council is not operating at an optimum level staff wise - excessive management to worker ratio which must be reduced, excessive number of communications, PR, legal and other support staff which needs rationalizing. If serious about doing same than front line services will not be affected but costs substantially reduced, I have personally been involved in doing same in a large netity,

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Mostly OK but users have to pay a higher percentage of costs. This should be done by increasing base fares and reducing low patronage services frequency

2a. Is there anything you would spend more on?

I think electric buses may have a lower long term cost (i.e running costs covering capital costs) - not entirely sure about that - requires review.

On very high frequency routes maybe more double decker buses maybe more efficient

There is also a reasonable amount of fare dodging - higher fines and more enforcement should improve income in the long run

2b. Is there anything you would spend less on?

In some areas there appears to be too many new pedestrian crossings (e.g. East Coast Bays Rd) where center islands may be sufficient

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

There appears to be a level of incompetence in the people running the stadium. It is hard to see how the large population on the North Shore cannot support financially a medium sized stadium - I don't know enough to how to resolve this

#2911

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Port and Airport are long term investments welcomed by any fund.

Selling & diversifying in the long term only ends up transferring some of the income to parasitical management professionals and thus financially is worse for the council.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

As a monopoly fully privatising will just result in parasitical retn rises on all Auckland businesses.

However in the past POA has been abysmally managed and politically interfered with - only need a stronger focus on proper directors and management, and remove political constraints interfering with same.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

It is an asset which profits should pay current bills

#2911

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Disagree with self insurance for larger amounts - negates the premise & benefits of insurance.

disagree with Future Fund as it just hands portion of profits to parasitical professionals

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

It is a small amount of land and will cost Auckland businesses a lot if POA is constrained, also council should not be spending funds to develop - costs should be left to private industry

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Auckland is going to double in size over the medium term - cannot reduce or constrain efficiency of the Port

6a. What do you think of these proposals?

More events and fun for everyone (of all ages) to recover the economy (help businesses) and increase visitors back to Auckland

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2959

Stop increasing the costs of living in Auckland. Its no wonder people are leaving, and you need to look at what is not working and either make it redundant or fix it.....like better public transport. Public transports costs so much for no reason. Look at other countries transport system and how its working and implement it in Auckland. The Transport Plan is BS and its the same ***** we have heard before and its not going to work.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

your proposal is about: "making public transport faster, more reliable and easier to use by investing in rapid transit network actions, such as making it easier to pay and introducing capped weekly public transport passes"

What it should be is how can I get commuters there cheaper, quicker, on time and commuters should have access to transport to get anywhere in Auckland without worrying about catching four buses to get to work - and potentially missing a bus and being late

2a. Is there anything you would spend more on?

Making Auckland accessible in the instance of you can get anywhere in Auckland using Public transport

Also fix the infrastructure for the flooding, so the past with flood issues do not repeat

Also create more free parking everywhere. Why are we building homes that are six bedrooms and only 2 car spaces in the driveway - in whos right mind is that proper. If your making tight roads have yellow lines that AT needs to enforce.

Manage space efficiently for new roads for extra onsite parking instead of plants and trees.

Make new roads wider for one car to have enough space to go at the same time as another.

2b. Is there anything you would spend less on?

#2959

Stop increasing the costs for transport (including the petrol) when public transport is not reliable to begin with.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

if its having maintenance issues fix those issues due to H&S but if its functioning then that's not money well spent.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Look at what's not working in the city and look at how to improve the quality of life - not make it worse. Have you noticed the amount of tight roads Auckland has and there's nowhere to park -which is another problem in itself

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

I am up for making the city accessible, but do not increase transport costs -including transport fares. You are increasing costs but not wages.... you tell me how that is fair

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Water quality is important

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less bus service. No one uses it except school kids

#3025

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Less investment in bus services. More focus on traffic flow

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Busses

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Useless structure. Even when there are events there is it empty

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Investment fund makes more sense than assets in a single entity like the airport

4b. Which option do you prefer for the future of Port of Auckland?

#3025

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Lease the property and rather get council involvement reduced. Let private industry get on with the running and council collects a fee

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Environmental concerns are highest on my list. I would like more resilience built into our services, while improving transportation options to help with climate change.

Promoting public transport options, less reliance on roads/cars.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3061

I am less interested in council funding of events to promote visitors. This should be more of a private sector concern.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Living on the Northshore, I can't say I feel like we are in any way helped by the proposal. All investment (other than roads) seems aimed at other areas. Some investment that isn't more roads would be welcome.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

In the last 5 years, I have been to the precinct once, while I go to Albany most weeks. Something that would make the area more usable for more people would be great.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

I am unsure as to why having a giant port in downtown Auckland is a good choice. Some of the best cities I have visited over the world have a wonderful waterfront for living, not congestion from moving freight through the main city centre.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. I do not want to pay more for anything. It has become overwhelming and out of reach for many families to feed themselves let alone care about building millions of dollars of roads/ update a stadium.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3068

Cut back food taxes/ petrol tax and reduce our rates. Cut/ remove from our bills the dump green organic food scrap bin. I don't want it- it's called compost!!! Not a green bin

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

What a complete waste of money. Our transport system sucks because we don't have trains. We do not need 'updated buses services' there is too much traffic on the road. We have no infrastructure- no rail! So this is a waste of money widening a road- updating what? The amount of people is disproportionately high to just update a road. We have no way of getting into the city for work other than car! You don't have enough bus drivers, you don't pay them enough and we need a cycle lane over the bridge to commute. And a rail for Northshore/ west/ east and south! Move with the times Auckland!!!!!!!

2a. Is there anything you would spend more on?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

I think a more efficient public transport system benefits the most people and is essential for a modern city and to attempt to meet our obligations under the Paris Agreement. Investment in public transport systems in NZ is always severely insufficient.

2a. Is there anything you would spend more on?

Not sure about spending more council money but I think JVs with private reputable companies (eg HEB and the like) need to be utilised more with tolls for more efficient transport infrastructure, systems and routes. Need to consider whether the tolls are forever appurtenant to the structure to allow for continued maintenance funding and reinvestment or if tolls end upon repayment of the debt owed to the JV.

Work out a better system with bus companies - focus on more and better training, very attractive remuneration and staff benefits, focus on creating better working environments with a goal to increase staff retention (especially newly trained staff).

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It always looks empty.

Alternatively, move all the big events that are held anywhere else on the North Shore to the stadium to make it worth keeping.

#3113

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Diversification of investments is often the best option to spread risk.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Leasehold land is a cash cow. Privately operated ports might be more efficient but specific lease terms that prevent a private port operator from increasing costs to the general logistics operators and therefore to end consumers are absolutely essential. Regular review and penalty terms must be imposed and enforced to ensure a private operator is not price gouging. Caution must be taken if this option is implemented.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Only if the returns on the investment will be more than the investments themselves and those returns are then spent on the services.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Diversify the use of the wharves. Hopefully income generating if they are used for something else.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

The alternative of having to increase rail and road is counterproductive and terrible for Auckland traffic.

6a. What do you think of these proposals?

Update the guidance on rural areas that would clearly no longer be deemed as "rural" as far as new suburban developments go that. An example is Stillwater, whereby rubbish, mail and other free services that are given to suburban areas have to be paid for privately even though it's 5min down the road from Silverdale with over 2000 residents.

Change the operational management

Tell us why:

When TAU took over they purposely ran down the stadium and started to over charge for its use then they destroyed half the bank.

That stadium was fought hard for by local residents it is an asset that belongs to the shore and it must be stolen by the city to fund things that don't benefit the North Shore.

Under the former trust that ran it it held a lot of successful events, tournaments etc.

The port is on valuable land. most modern cities do not have ports on their prime water frontage anymore. Apart from cruise ship operations which bring in tourist the port must relocate to north port which is a logical location for this sort of activity. The water front can then be developed for public use and the remaining land will be prime real estate which can be sold off for a good profit.

Regulatory spend - rely on the private sector more. It shouldn't take 30 people at Council to review designs of subdivisions, etc. lean on the private sector and make them more responsible instead of investing so heavily in checking everyone's work.

Environmental spend - leave it to the private sector. Focus on getting infrastructure up to standard.

Cultural spend - it's not the Councils job to provide investment in this area.

I think user pays for refuse. 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3272

Stop Food scraps collections. People have many ways to dispose the food scraps, e.g. compost at home, food waste disposer etc.. that have been around for ages. The food scraps bin is a bio hazard to handle.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Auckland is still a relative small city in international standards, do not need to over-spend on public transport. More people are working from home or flexible work is more prevalent than nowadays.

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It's a waste of money to maintain a stadium that is not being used. Consider a low budget redevelopment, and sell out some of the land to the private sector

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Good to diversify investments and save money for the future

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Always better to leave it to the private sector for better utilisation

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

7c. What do you think of the Upper Harbour proposed priorities for the 10-year budget 2024-2034?

7d. We will prioritise investment in a Detailed Business Case for a new multi-purpose library facility in Albany, however given the financial constraints faced by Auckland Council we would like to explore alternate options to fund any budget shortfalls.

We want to hear your views regarding the local board investigating options to sell land or exploring the introduction of a targeted rate to enable investment in building a new multi-purpose library facility in Albany (noting that there will be a robust public consultation process on any sale of land or the introduction of a targeted rate following investigation of viable options).

Which of the following options do you support?

Investigate options to sell land

Do you have any other thoughts or ideas on potential options to fund budget shortfalls associated with building a new multi-purpose library facility in Albany?

8. Do you have any other comments?

Increased rates will see people put into hard ship particularly now the building economy is not stable and with current interest rates it will break people. It's a circle cause businesses owners will be asked to pay workers more but many people are not able.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know

cut the Speed Bumps and raised crossings . less investment in Cycle lanes as I seldom see cyclist using them . and I travel around Auckland a lot

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Traffic management is the most expensive item for all those who use it . even when the water dept are digging on the front of a property there is no requirement as all personel are away from the roads , but there is always a large team standing around all day . , Raised speed bumps are destroying vehicles suspension

2a. Is there anything you would spend more on?

making travel around Auckland easier . undoing all the restrictions put in place to reduce the flow of traffic , as most Aucklanders do not work on Public Transport routes ,

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

I Cannot remember the last time there was an event there that drew crowds over the last 15yrs , the sale of the Stadium funds could go towards a great Auckland Stadium that is always being talked about

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

There has to be smaller rates increases for Aucklanders and this option appears to give the best return and should reduce council operating costs .

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Rates increases are out of control and all available revenue needs to be channeled into running the greater Auckland today not in the future .

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Rubbish is a core service and should remain two weekly for the sake of public health.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3489

Do less of everything that is not core business. We need to prioritise rubbish, infrastructure, transport etc and do less of needs to have like supporting events etc.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We do not need cycle ways and elevated pedestrian crossings. We also need to be car friendly because our public transport is totally inadequate, unreliable and frankly broken. It cannot be relied on to get to important appointments.

2a. Is there anything you would spend more on?

Quality of roads, removal of parking along congested roads such as Constellation Drive

2b. Is there anything you would spend less on?

Cycle ways and elevated gold plated pedestrian crossings.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Great stadium, the only one on the shore

Surf lifesaving clubs play a vital role in our community, providing essential services to

keep our beaches safe. However, many of these facilities are reaching end-of-life and are

in need of replacement. Without adequate funding, our clubs will struggle to continue

their lifesaving work effectively.

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the

Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf

lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

With regard to Question 1C, Council has a central proposal that recommends spending

more where it is needed most. Surf Life Saving facilities are a critical component of our

community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is

essential to ensure the continued operation of our clubs and the safety of beachgoers.

The amount requested is minimal when compared to the benefit it will have for the region.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It is under utilised.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

#3514

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

We do not need another stadium.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

As above

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>

#3514

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

7b. What do you think of our proposed priorities for Rodney in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Deliver new and/or improved playground and play spaces in Goodall Reserve, Te Hana Reserve, Rautawhiri Park and Riverhead War Memorial Park.	Fairly Important
Support communities to develop local community emergency leadership groups and emergency action planning in response to the findings of the Emergency Response Assessment study being undertaken in 2023/2024.	Fairly Important
Provide additional activities and programmes for children and young people maximising the use of our libraries, halls and open spaces, where possible.	Fairly Important

#3514

Continue to support our local arts centres in Helensville and Kumeu and look to extend arts experiences to other parts of Rodney.	Not Important
Continue to support community groups and mana whenua to keep our waterways clean and healthy and restore biodiversity.	Not Important
Support the community to minimise waste, turn it into resources, and promote education on waste reduction.	Fairly Important
Develop and refurbish toilet facilities in Glasgow Park, Dinning Road Esplanade Reserve and Port Albert Recreation Reserve.	Fairly Important
Develop pathway connections in Green Road Park.	Not Important

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

#3517

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the

Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf

lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

With regard to Question 1C, Council has a central proposal that recommends spending

more where it is needed most. Surf Life Saving facilities are a critical component of our

community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is

essential to ensure the continued operation of our clubs and the safety of beachgoers.

The amount requested is minimal when compared to the benefit it will have for the region.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. Discontinue the **Long Term Differential Strategy** which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

Re-introduce **recycling charges for schools.**

Continue the planned roll out of **rates funded refuse collection** to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Introduce the **Franklin Local Board Paths Targeted Rate** of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

Change the **Rodney Drainage Districts Targeted Rate** to reflect public feedback and updated analysis of the benefits to properties and boundaries.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We need the litter bins that have recently been removed to be replaced

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

reduce bus services where they run empty or almost empty

#3541

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Bus fares should be user pay basis - more subsidies will just increase rates. Also as mentioned in the previous section there are many buses running empty outside of rush hour in and around the Hibiscus Coast - an amazing waste of money. I imagine its the same across suburban Auckland

2a. Is there anything you would spend more on?

Roads, Water, Sewers, Parks - these are the core services that rates should be spent on

2b. Is there anything you would spend less on?

Anything which is not a core service

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

It is hard to imagine any council anywhere in the world who would propose to demolish a funtional stadium - we just need people with business acumen to market it

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#3541

Tell us why:

It is hard to see how jiggling with the investments will do much other than free up the capital gains on holding the shares allowing those capital gains to become as a source of revenue

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Shake up the Port Management and board to get the best dividend returns from the business

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Its an investment which should provide a stream of income to add to the budget and if we live withing our means it will reduce rates

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The big issue is staring us in the face - the wasted money paying wages, fuel, depreciation, maintenance etc on fleets of buses trundling around the city outside of rush hours with no one other than the drivers on them. As well as the massive cost in funding this, we also are adding to greenhouse gasses with this.

5a. What option do you prefer for Captain Cook and Marsden wharves?

#3541

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

We could have one of the worlds best waterfronts but it is marred by the port facilities. Any small step towards enhancing the waterfront and reducing buildings there will be a good move

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Same reason as 5a above

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

#3541

Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Over the years we have increased our debt so that there is no wiggle room in the budget and so we need to concentrate on core services and forget expensive showy projects.

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	
<p>Re-introduce recycling charges for schools.</p>	
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	

#3662

<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>

I support most priorities

More specifically, what do you think of each priority we've listed above?

Progress with the detailed business case for a new multi-purpose library facility in Albany.	Fairly Important
Continue to deliver stage 1b of Te Kori Scott Point which includes physical works for 3 sports fields and sport field lighting as well as a second baseball diamond.	Not Important
Implement actions from the Upper Harbour Ethnic Peoples Plan.	Not Important
Continue to invest in projects that improve the environment and address climate change including planting trees as outlined in the Upper Harbour Urban Ngahere Strategy and continuing to support and fund volunteer environmental work.	Not Important
Implement actions from the Upper Harbour Engagement Strategy.	Fairly Important
Implement actions from the Upper Harbour Greenways Plan.	Fairly Important
Implement actions from the Upper Harbour Wheeled Recreation Service Assessment.	Not Important

7c. What do you think of the Upper Harbour proposed priorities for the 10-year budget 2024-2034?

7d. We will prioritise investment in a Detailed Business Case for a new multi-purpose library facility in Albany, however given the financial constraints faced by Auckland Council we would like to explore alternate options to fund any budget shortfalls.

We want to hear your views regarding the local board investigating options to sell

land or exploring the introduction of a targeted rate to enable investment in building a new multi-purpose library facility in Albany (noting that there will be a robust public consultation process on any sale of land or the introduction of a targeted rate following investigation of viable options).

Which of the following options do you support?

Investigate options to sell land and introduce a targeted rate

Do you have any other thoughts or ideas on potential options to fund budget shortfalls associated with building a new multi-purpose library facility in Albany?

8. Do you have any other comments?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to	

#3701

the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Bureaucratic jobs. Get some proper commercially-minded business people into management. Run the council more like a business with rewards for achieving goals and consequences for under-achievement (including firing).

Rely less on expensive "consultants" and do some thinking of your own. It's really not that difficult.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate</p>	<p>Support</p>

from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.
