Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Remove bureucracy and regulation

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

These initiatives are poorly executed for instance when the Panmure to Pakuranga Bus lane was done and all the houses for a stretch of 1km were demolished the space was poorly utilised. Instead of using it all for commuter lanes one big central lane was planted with plants.

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

No

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Anything which reduces rate is useful for struggling families

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

Reducing the interference of Maori and Maori in daily life and work is a waste of resources and not many people will read or want to learn. Maori is just a culture of New Zealand and should not be elevated to a social language. This is a great development for New Zealand. Such a drag!

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

New Zealand is a developed country, Auckland has more than 1,600,000 population, as a new migrant from China, I found Auckland vehicles traffic road system is pretty good and convenient. But it's too busy to congest, because the railway transport system is too much poor as well as unreliable, we no need to build too many bus pathways especially in eastern Auckland, we really need a railway to connect Botany town and Permure station through the Auckland central and the other place, I know the bus expressway is cheaper but for a city whose population would be more than 2million, bus system is not enough, we must develop our railway system to support it, look around Brisbane, and Perth in Australia, they did it very well we need to learn from that.

2a. Is there anything you would spend more on?

Education especially foundation education

2b. Is there anything you would spend less on?

Less housing fee please it is unaffordable

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Not really known about it

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Traffic is really needed because Roads mean fortunes.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

don't threaten citizens that do more means we need to pay more. We pay GST on everything, extra tax like regional fuel tax, NZ has really high income tax rates, high annual rates. Don't rob us more for doing little things

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

one thing you absolutely do less is stop wasting time on BS and go use the money we already paid in the past years to do something

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

how can we not support to improve public transport as we are paying lots of tax, rates for third world standard services now. Stop all the hypocritical proposals and ideas etc, nothing NZ can do within 10 years while it taking you guys yearssssss do just build a bus lane in Eastern area, please be humble and learn from Asia countries

2a. Is there anything you would spend more on?

train to Botany, Pakuranga, Dannemora, Flatbush, Howick

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

Review and refresh the Howick Heritage Plan.	Fairly Important
Review and refresh the Howick Tourism Plan.	Very Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Fairly Important

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase the viability of public transport and emphasise car use reduction. Construct actual bus lanes that operate for more than the morning. Buses fail to be Viable if they get stuck in the same traffic as everyone else.

If Buses are quick and viable and regular then that will reduce the amount of car traffic and because more people will be able to use it as an option.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Spend less money prioritizing Cars (eg. General highway expansion, hyperfocus on EVs)

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I don't support de-funding pedestrian and cycling options. This city is incredibly fraught and dangerous for cyclists and pedestrians and it is impossible to walk anywhere safely and normally. If the goal is traffic reduction then you need to make other options more viable

2a. Is there anything you would spend more on?

Network optimization and translation of already existing lane expansions into dedicated Bus lanes.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

The north shore as a whole is already pretty well developed and well funded with a wide array of options around there. Reducing the size of the area under governance would be a good start, keeping things simpler and higher quality rather than such a wide area.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

We have one airport. If we would like to make the most of it then we need to be able to have some amount of say in its governance. Otherwise it becomes an adversarial relationship where outside investors get a say in an amenity that affects so much of the population.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

If your interest is

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

If that fund is used to prioritize Climate resilience then yes. If it is just going to be another insurance fund for land lords to claim into, then no

4d. Do you have any feedback on any other part of the proposal?

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Port and shipping priorities and levies are a good source of income. The viaduct and the rest of the wharf area have other amenities.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More for schools, kids and families specifically.

More on emergency management specifically. Recommend allowing government to centralise and nationalise emergency management. This would save Council 10s of Millions per year from the AEM operating budget.

#80

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Bailing out and buying out uninsured property owners after storms and floods. Council has turned rates into back-up insurance at the cost of those who choose to buy insurance. This undermines the entire insurance system.

Less community outreach projects, less bureaucracy, less wastage, less backroom staff and duplicate admin, less excess council staff.

Less debt now means less interest and payoff now and in the future.

Local Boards funding 'Business Collectives' and 'Tourism Collectives' etc. Council is subsidizing favoured industries at the cost of public services.

Less gifting Council assets, land and resources to private/community groups.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Less road spending. Ease of payment is NOT a barrier to public transport use. Quality and availability of service is the primary factor.

2a. Is there anything you would spend more on?

Electric busses.

East Auckland, specifically Howick transport links. Eastern busway.

Linking Botany and Howick to the Airport

2b. Is there anything you would spend less on?

Auckland Harbor Bridge upgrades and maintenance

3. Which options do you support for the North Harbour Stadium?

Change the operational management, Other

Tell us why:

Sell the North Harbour Stadium Precinct. It is an unwanted, underutilised facility and should not remain in Council control or management. Council funds should not be used to continue to support this ongoing wastage.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

THIS is creating a Council slush fund that will be spent and wasted too quickly. Use sale of Auckland International Airport Limited (AIAL) to pay off existing debt and complete projects that have already been invested in.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Lessen the rate burden in the short term. Do not spend the additional cash generated on unnecessary services.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Lessen the rate burden in the short term. Do not spend the additional cash generated on unnecessary services.

4d. Do you have any feedback on any other part of the proposal?

Support the Future Fund as Council Self-Insurance, not as a slush/emergency fund for the inevitable funding challenges that are ALWAYS present in every fiscal environment.

5a. What option do you prefer for Captain Cook and Marsden wharves?

This is entirely dependent on the alternative use. This should not be proposed until the specifics of the alternative use can be considered against the loss in revenue etc.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Question on the Long term differential strategy is unclear. Double-negatives make it difficult to know what you are/ are not supporting.

Businesses should pay significantly more rates than they currently do. They create a significantly higher burden on public services and infrastructure than households.

""Provide services and facilities that cater to the changing demographics of the Howick Local Board" is ominous, unsettling and potentially discriminatory. This is not a specific 10 year budget target - it is an ongoing consideration at all times for the Board.

Flat Bush community centre and library NOT required.

Private landowners should at least share (if not provide majority of) funds to manage the coastal land they are protected by.

Assets and facilities should be developed under a number of considerations "environmental sustainability" is a minor one and not a priority.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

they should do more of what they are suppose to do instead of passing the buck and saying that its a process every time you ask them something????

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

would be good if council could offer the facilities of maintaining and cleaning of changing sheds to the clubs that have more passion and interest in keeping them at a standard of well being.

The fact that all the rubbish bins were removed from sports fields and local Reserves shows that now they spend more time picking up rubbish than they did actually emptying the bins.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

the fact that we have to deal with road works everyday its no wonder we are called red cone city!!! the public transport system should be priced at rates that people can afford which will get utilised more instead of having buses with just 1 or 2 people in them, people just can't afford the prices of the public transport!!!!

with cost of living, petrol rises and rentals at their highest

2a. Is there anything you would spend more on?

I would spend more money on subsidising public transport

Review and refresh the Howick Tourism Plan.	Very Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Very Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Very Important
Develop a community-led climate action plan.	Very Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.

City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Hold Phil Goff accountable for what he was supposed to do during his term as mayor AND for what he did that he was not supposed to do. AND Wayne Brown to explain why the money was not spent on what it should’ve been explaining why Auckland is in this mess.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop agreeing to making roads smaller, housing squashed in up against each other. All leading to people living on top of each other, overcrowding, creating angry people and over running resources and creating traffic congestion

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

But u need to guarantee public transport to be reliable, efficient & cost effective, available 24hours, in ALL suburbs, for buses, trains and ferries.

2a. Is there anything you would spend more on?

Move port of Auckland to Whangarei

2b. Is there anything you would spend less on?

Consultation fees, upper management salaries, internal expenses

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Not a priority just a nice to have considering all the other more important things to address

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Remain a stakeholder in Airport

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Don't allow external parties to take over our assets e.g. like China owns all of USA ports. Keep NZ owned and operated by NZ

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Keep NZ owned by NZ and operated by and for NZers. Stop thinking short term - stop selling NZ assets

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Unless u create another port somewhere else Auckland I'd too choked by council design to expand and have flexibility

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

#205

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

Transport	Do more

Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Our population continues to increase which puts pressure on our current infrastructures.

Our public transport needs improvement ensuring our trains and bus services are available and sufficient to meet demand especially at peak times.

If services were more reliable it may mean more people using these services and less people driving cars.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less spending on improving our public parks and events.

Its nice to have clean areas and parks as well as events. However if this is not beneficial to everyone then we need to reduce this. We can always pick and choose where the money is really needed.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

As mentioned above our population is ever increasing. Although I feel like reducing migration into the country would reduce this.

Traffic is a problem in our city. You only need to look at the peak times from say about 7-10am in High Brook East Tamaki, or the City bound motorways.

No one wants to be stuck in traffic. If we had quick reliable, cheap and efficient public transport this may encourage people to use this and reduce congestion on our roads.

2a. Is there anything you would spend more on?

I would spend a bit more for our environment and waste management. Ensuring we have the regular service for efficient rubbish and waste disposal and recycling.

2b. Is there anything you would spend less on?

Public events and celebrations.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

This should change to ensure better use of the stadium and perhaps regular revenue to help manage costs and maintenance.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

More information should be available to the public and more discussion regarding this matter.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Keep ownership of the Port. If shares and dividends are paid to the Council why would you need to lease this out for 35 years.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

5a. What option do you prefer for Captain Cook and Marsden wharves?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport. You want people to use it but it's unreliable. Auckland Transport is not fit for purpose and requires a root and branch overhaul instead of moving the deckchairs around.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Parks and recreation investment is not as critical as other services. In this day and age and with plenty of alternatives, do we really need so many pools, libraries and community centres or are we still living in the 1950's?

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

The money proposed to be invested will be squandered by Auckland Transport with its current Board and Executive leadership. A radical overhaul is required to deliver any meaningful improvement that is what Aucklanders want or need.

2a. Is there anything you would spend more on?

CBD safety and revitalisation. It should be the crowning jewel for visitors and Aucklanders alike

2b. Is there anything you would spend less on?

Parks and recreation, green space maintenance. We have much more pressing issues to fix

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

We have stadia, albeit in other locations. Do we really need more shiny facilities to maintain and subsidise?

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

The funds need focus and this is the best place

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Sell the lot and use the money for Council's CORE business - looking after the city

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

As above, I don't believe it should be retained full stop

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

The land should be sold and redeveloped to make Auckland CBD a vibrant area

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

As above

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

NO

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop all funding to Auckland Transport. Total waste of money to pedestrian crossings etc Absolutely ridiculous.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Cuts out raised pedestrian crossings and cycleways. It proposes some, it should be all.

2a. Is there anything you would spend more on?

Anything that helps traffic to flow, not hinder. Traffic lights that are synchronised to get a flow of traffic as in Singapore.

2b. Is there anything you would spend less on?

Libraries, cycleways, public entertainment, arts, pedestrian crossings, Public transport must break even.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Never been, never intend to.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

An income generating asset should not be sold. But it needs to be managed much better than present.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

It was paid for by ratepayers, it should provide a return to ratepayers.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Absolutely self insure. Do insurance companies not make a profit?

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

The city is dead and full of low life. Who is this all going to benefit?

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

It's an income maker, unlike any public benefit. If people wish to go to the waterfront, go to the existing beaches. It's only for inner city dwellers, not the majority of ratepayers.

Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Think about what you can do for the nation, not what the nation for you. Tax payers have been paying for every cent of what the Council asks for decades, yet they face high increases the whole time. Contractors can raise their prices, but you as the country's prominent buyer, certainly has the right to review your choices of contractors! None of the councillors were elected by tax payers for the purpose of raising rates, but

you all did that to let us down, that is, you keep raising the rates when every cent of rates has been paid! Raise the rates during NZ's biggest inflation? Are you humans?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cut you so called projects because that's where corruption lies. We've seen too much money wasted. You need to review your spending and choice of contractors before asking for more rates.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

Work for people of Auckland, work for humans, not evil aliens hiding in the UFOs! This may sound lunatic but you appear to be inhuman when inflation hits NZ so hard.

2a. Is there anything you would spend more on?

Nothing at all.

2b. Is there anything you would spend less on?

Everywhere. Review last decades of contract price increases, find the culprits of price hikes, recall for bids because a lot of those who stay in current contracts violated rules multiple times.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Tens of Millions, is not a word any humans of right mind will use. When getting your quotes, is the minimum. number of bids one or more? How many as a rule? Thibk this way, serving that stdiium made 30 millionaire bankrupt.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Not at all supported by me because it's purpose is to empty Auckland Council's pocket. To sell airport shares, you don't need to set up another organisation to waste more of tax payers money. Auckland Council is a legal entity, it has the right of buying and selling anyway. Stop your brain storming in spending, think cutting it back.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Emergency and disaster management

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Arts and events

Some Panuku development projects are eyesores.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Repairing and maintaining what we already have. Footpaths in East Auckland are awful. I can't walk to the bus or train so I don't.

Making our roads more cycle friendly by replalcing

2b. Is there anything you would spend less on?

Catchpits that are unfriendly to bicycles. They are unfriendly to motorcycles, handcycles and wheelchairs.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The rationale is weak and gives too much power to the port. I would prefer a shorter time frame lease that stipulates milestones and timelines for plans to move the port; plans to reduce the size of the port and plans to deliver a better port- noting that ships

in 30 years will have different requirements to 2030 and this needs to be clearly presented by a body independent of the port and Council.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

The proposal gives too much power to the Port. Council owns the land. Both Port and Council need to be more forward thinking and future focused based on what our needs will be 50 years from now. This requires better plans for decisions made in 5 years.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

All funding raised by the port needs to be set aside to develop the port area. Not convinced the Auckland Future Fund does this.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Better consultation would lead to be better plans. Sadly I don't have confidence in the proposals put forward which appear to have been rushed.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

A cursory reading of the future of ports is that they will need to be resilient to climate change, efficient, automated and close to a resilient power supply or store of power with land to expand and deep enough for efficient fleets. They don't need to b

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

A cursory reading of the future of ports is that they will need to be resilient to climate change, efficient, automated and close to a resilient power supply or store of power with land to expand and deep enough for efficient fleets. They don't need to be in the middle of a beautiful harbour. They still need to have access to a skilled workforce especially in transport links and forwarding with connected infrastructure. Helping the ports to accept that there is a future opportunity for a bigger port elsewhere is the job of our politicians. We will still need land ports aka Hamilton, but they don't need to be in the city centre.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. <p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	<p>Support</p>

#350

Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

There are fewer people engaged with our local Board. Restoring and maintaining current infrastructure by council should be prioritised over working with a small number of people who have time to do it, at least they are passionate! If we have to reduce costs I would rather they were in the Heritage and Tourism plans.

Tell us why

I can't see any decisive action, particularly for paths, parks and local infrastructure. Exploring, reviewing and encouraging are hardly dynamic activities supporting a vision. Empowering a small number of local residents in Howick is not delivering what we need. Great that they have the time and care about their local area, but its not addressing the greatest needs in the south of Howick Ward. What I would like to see as a resident is a clear plan for improvements to our existing infrastructure, making make it more resilient and accessible, especially paths and parks which are atrocious, a new pool and a new library which are down the track. Please give us some realistic timeframes. I feel that the heritage precinct needs to raise more funds independently of Council/the Howick Ward.

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Investment into active mode transport facilities to shift transport modes away from private vehicle and public transport usage (e.g. protected cycle lanes on major transport corridors, bike cages for secure + monitored parking, etc.)

Investment into reliable alternatives to automotive transport (i.e. investment on reliable train services for post-CRL handoff, investment on a Auckland-focused Light Rail network to compete with developments to other cities across the Tasman)

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less investments on new road projects that doesn't allow for active modes of transportation, or allow space for dedicated infrastructure for active or public transport (e.g. busways, light rail lines, separated cycleways, etc),

Less spending/investments on repaving roads in financially unproductive transport corridors and districts.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Planned initiatives that aim to shift the mode of transport from cars to active mode transportation must be kept in the long term plan. Going ahead with automotive traffic management systems like dynamic lanes, or a considered congestion charge, which aims to reduce demand on our busiest roads, would require viable and accessible alternatives to private transport. Cycling / E-scooter usage is proven to be a sustainable and viable alternative to private vehicle transport, but only if safe facilities and convenient routes are built.

2a. Is there anything you would spend more on?

Invest more on a high-capacity rapid transit that is future proof for the next 10 years (bus-only connections like the Eastern Busway and Northern Busway, will be easily susceptible to capacity constraints, whereas Sydney's Light Rail routes have proven to accommodate induced demand)

Invest more on the cycling facilities given to city's residents. Make cycling / e-scooters / active mode transport an appealing and viable alternative to automotive transport by investing in infrastructure that makes it safe, efficient, and comfortable to do so.

2b. Is there anything you would spend less on?

Less investments on road/automotive based projects. New/renewal road projects, especially at the outskirts of the city, need to be reconsidered and/or cut down, as it's proven, in Auckland and overseas, that further investments on road projects has a worse return on investment compared to developing alternative transport routes.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

As not being a North Shore resident, I don't have the full picture of the North Harbour Stadium's value, productivity and responses from its community. Regardless, the North Harbour Stadium should cater to the demands and needs of its community, and therefore would need to be redevelopment and have operational control handed over to the local communities who need it.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Allow the establishment of the Auckland Future Fund, with transfer of AIAL shareholding, but don't hand off investment/shares decision making away from council.

The risk of handing off decision-making to an Auckland Future Fund management in which they will sell shares where it seems appropriate is that it might not reflect long-term investment goals made by the council (e.g. Auckland Airport facility upgrades could increase value of shares in the later future).

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

With expected increases in demand to the port's usage, which would result in increased freight and cruise traffic to the harbour, port operations and services would need to be expanded or be delegated to other locations outside of the Auckland CBD. Alongs

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

As per previous response.

6a. What do you think of these proposals?

In addition, new businesses are having difficulties getting established without council or community support initiatives. The introduction of a business collective for Howick, similar to BID, is much needed in addressing these issues.</p>

Tell us why

The Howick ward proposed priorities focuses on the environmental sustainability of our community and council services. But, with the local ward's restrictions in decision making, some of Howick's priorities, some of which are shared with other wards, require approval or decision making by higher governance bodies, either internal or external to Auckland council. Most of the ward's priorities I support, with most unable to be proceeded solely on local ward decision making.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No! Just ensure that the actual ‘spend figures’ for that option ‘is what is actually spent’!

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I worry that cost estimates will escalate and extra funding would be needed

2a. Is there anything you would spend more on?

Network optimisation

2b. Is there anything you would spend less on?

Walkways and cycleways

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Get ready for climate change.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Sponsoring big events like boating, money going into rugby etc. Events that interest a few but get paid for by the rest of us.

Cycling pathways are also exorbitant and most of us are unable to cycle! Raised pedestrian crossings are a disaster. We don't need the last stage of the Eastern busway.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I live out east but the proposal to put in a road behind Ti Rakau is madness unless other traffic can use it as well. The raised crossings have increased the time to get anywhere. There are hardly any buses on the Pakuranga busway but the rest of us queue alongside it for increased times. It is almost impossible to get anywhere from Howick during extended rush hours which are now almost all day but empty busses which never go where you need to go ride around empty. It now takes twice as long to go in by bus to the central city with two bus changes. I am at an age when I can't do that. Why are you using minibuses like they do overseas?

2a. Is there anything you would spend more on?

Subsidising ferries. Allowing cars to use bus lanes during peak hours. Using small ferries in places like the East Tamaki waterways. This seems like a no-brainer.

2b. Is there anything you would spend less on?

Inflated pay for people working for the council! Endless reports and consultation. The MOW used to just do the obvious jobs without all the enormous paperwork and reports that seem to cost so much. Get your own council builders. Big profits are made by private companies instead of the council having its own workforce.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Great stadium run badly.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

As soon as this money goes out of council hands it can be used however those with power over it want, No!

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

As soon as it is leased we will get more of the harbour built on and big profits will go to private companies.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I have watched money flow out of the hands of the public and the public then never again gets a say ie sale of ASB (huge profits now go overseas). We should not make the same mistakes.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Again this is madness. The port is important to get things into Auckland. We do not want all the port traffic to be added to our roads by coming in from elsewhere. We already have access to these two wharves.

5b. What option do you prefer for Bledisloe Terminal?

Local boards are not getting the funds to do what they should. Promises made when the city took over from local councils have not been kept. Boards are virtually powerless now. Too much emphasis goes on the central city development while most of us can hardly get there and when we do there are no car parks. The elderly are increasingly being trapped in their own suburbs.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Speed up the process for resource consent, building consents. Move forward with the proposed zone changes.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop wasting money on buses and bus lanes that no one uses. Get rid of Auckland transport

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

You waste money on buses that drive around empty and cause traffic issues. You waste money on bus lanes for empty buses.

2a. Is there anything you would spend more on?

Fix the roads so people in cars get priority. Speed up the process for consenting and move forward with proposed zone changes.

2b. Is there anything you would spend less on?

Public transport. Bicycle lanes. speed bumps. reducing speed limits on open roads. Most of the staff in council should be replaced with AI or outsourced to private companies. Get rid of Auckland transport

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Attract investment and attract more people to invest in Auckland to achieve economic growth.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the income of senior managers (these people's abilities, the value created by their labor and their high income do not match each other).

Improve work efficiency and reduce redundant staff in the city council.

2. What do you think of the transport proposal?

Support most of the proposal

Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Cycle ways made on the cheap as per Amsterdam.

Paint and low barriers!

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the use of all Contractors.

Give people certainty by being employed on a salary.

Employees will work more travel less unlike contractors and 'give'

They will have investment [skin in the game]

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

I back Walking and Cycling for reduced traffic congestion, reduced pollutants and increased health benefits.

A mind set is required for all Kiwis to become active participants in our environment / life.

2a. Is there anything you would spend more on?

The environment and maintenance of our natural resources, i.e. our Native bush

Cheap cycle lanes and good footpaths but not the ridiculously expensive gold plated ones currently in the pipeline or underway by AT.

We need lateral thinking. Look to overseas cities that have already initiated their cycling / walking plans -- Stop re-inventing the wheel.

2b. Is there anything you would spend less on?

International Events!

Auckland and New Zealand are unique, our natural beauty, that is why tourists come here,

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

It exists, just change the way it is used and managed.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Reduce debt across the board.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Retain the ownership of the Port land and wharves but reduce the lease to 25 years.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Funding is required, where other than Ratepayers does it come from?

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The Council is funded by the Ratepayers, we need to get the best 'Bang for our Buck!

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Let the Ratepayers and Public decide how and what the benefits should and will be.
More heads involved = better buy -in and better decisions!

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

Transfer Bledisloe Terminal to the Council and for it to provide public benefit within 8 years.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value	Support

residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. 7c. What do you think of the Howick proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

The Old Howick Borough Council was a very capable organization, that had 'employees' since we now have 'Contractors' we do not get value for our dollar.

AC needs to return to a modified 'old borough' operation. We pay too much to 'staff, contractors and elected member' The future will dictate hard changes and show that the current model is failing.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like to see better train and ferry services to Auckland. I would like to see a Hospital built for East Auckland, Middlemore is overstretched.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Too many road works hold up the traffic do it but do it when public does not need the roadway

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Well, you can never fully predict the traffic

2a. Is there anything you would spend more on?

Yes, many people love using the trains and it is awful when they are not operating

2b. Is there anything you would spend less on?

Yes, there is , too much money goes into the sports stadiums.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

If people use it keep it

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Auckland Airport is an essential service and with the rising population you may need another airport in the future

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The council needs funds

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop getting involved with things that are council is not responsible for

Get back to basics

Stop all council's funding to private events

The council is here to make private events richer

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

Public transport. Is a fucking disaster and it's not working with their new ideas. It needs to be re-addressed and thought about properly.

2a. Is there anything you would spend more on?

Disbanding Auckland transport

2b. Is there anything you would spend less on?

Anything that cannot support itself should be gone

3. Which options do you support for the North Harbour Stadium?

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.

You have a huge budget to work with each year. I would be keen yo see less wasteful spending and a council that works within the funds they received from rates. I would like to see the council look for cost effective options for everything they do. No more wasteful spending. If Auckland cannot afford it, then don't do it,

Have more respect for rate payers dollars

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less spending.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

Only do what needs to be done in the most cost effective way, Stop spending rate payers funds so unwisely. Currently paying \$100.00 per week in rates and you want more. Work within the rate payers budget, In a economy where the basic living costs are out of control, no rate payer wants to hear you can only fund a project by increasing rates. we are all struggling. Please start being responsible with our funds. Decrease expenditure

2a. Is there anything you would spend more on?

NO

2b. Is there anything you would spend less on?

Auckland council administration, taxis and all other wasteful spending. All other government departments have had to decrease spending. It is clear that Auckland council has no respect for this and only gives us plans for more spending and higher rates. wants to keep spending and increase our rates again.

Please look at your spending and start to control it

I don't know

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	I don't know
Review and refresh the Howick Tourism Plan.	I don't know
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	I don't know
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	I don't know
Develop a community-led climate action plan.	I don't know
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	

Tell us why

I would imagine you are increasing rates which I am opposed to

7c. What do you think of the Howick proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Budget and stop wasteful spending

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
---	-----------------------

#680

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	<p>Do not support</p>

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#680

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.	

Tell us why

7c. What do you think of the Hibiscus and Bays proposed priorities for the 10-year budget 2024-2034?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Just focus on core services

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Look in to cost savings for rubbish, have wheelie bins at beaches and park that can be emptied like household rubbish, not silly little bins with black sack bin liners

Review contacts for services to make sure we are getting value for money

Spend less on unnecessary consultants

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

If the government is unable to fund the shortfall of the regional fuel tax to Auckland Council it should come from the proposed RUC tax they want to put on petrol vehicles

The regional fuel tax should have stayed and the money actually given to auckland council for roading or the eastern busway

2a. Is there anything you would spend more on?

No because we can't afford it, we need to focus on finding funding to complete current projects and stop borrowing money we can't afford to pay and putting such a financial pressure on rates payers by increasing rates every year

2b. Is there anything you would spend less on?

Any unnecessary funding, if we need to save money stop funding music and movies in the park, all the festivals the council funds, the daycare centers

Review the possible sale of council owned land, especially if the council is not getting any return on it

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

If this would work it sounds like it could be the best option along with selling some of the land

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I don't understand why auckland council is a share holder in Auckland airport anyway, auckland council is not a investment company, the shares should be sold

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

If there is a good option for auckland council and get extra revenue for the council and they still own the assets, then they should do it

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

If that is where the money is already going then it should be used to fund council services, otherwise where will the money to fund services in it goes into the fund

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

If the land is transferred to council the most sensible thing is to use the opportunity as a revenue stream for council to fund services

5b. What option do you prefer for Bledisloe Terminal?

I don't know

Tell us why:

Reduce council member pay rates

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Council member pay increases and perks

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

I am a tradesman.

I use the motorways etc everyday.

From Papakura to Avondale, and Whitford to Silverdale the ongoing "infrastructure upgrades" across Auckland have only just caused more congestion.

It doesn't work, it's a waste of money and time.

Not to mention the continued delays due to engineering mistakes useless contractors.

2a. Is there anything you would spend more on?

Putting the bins back on public spaces

2b. Is there anything you would spend less on?

Roads.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

If it's not broken, don't spend money to fix it

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Road maintenance and clean water/water management initiatives need more work.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop fund activist and political groups, stick to what a council is supposed to do and keep the city functional and clean.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Don't introduce dynamic lanes, these will only increase congestion at critical times.

2a. Is there anything you would spend more on?

Maintenance.

2b. Is there anything you would spend less on?

Idealistic ego projects.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

It's grossly under utilized.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

AIAL is an integral part of Auckland transport infrastructure and emergency management options. It's vital it stays in control in some form.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Maybe a dedicated cruise ship terminal?

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Auckland needs an dedicated Cruise Ship terminal.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>

Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.

#706

Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

Review and refresh the Howick Heritage Plan.	Not Important
Review and refresh the Howick Tourism Plan.	Fairly Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Very Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Not Important
Develop a community-led climate action plan.	Not Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	Most of these seem to be ego driven personal projects and do nothing to actually improve living in the area.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Instead of 7.5%, 3.5% and 8% rate increases, I think it would be better to even them out at 6% each year.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

To make public transport work better, I think there needs to be more park and ride facilities near transport hubs. In my area it is a very cumbersome process getting to a transport hub on public transport, which results in me using the car instead of public transport.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Get rid of the white elephant North Shore stadium (together with Eden Park and Mt Smart) and facilitate the proposed top class waterfront stadium near Spark Arena. It would be close to public transport and would also revitalise the city centre hospitality and entertainment activities.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

It makes good economic sense to lease the Port and sell the Airport shares and invest the proceeds in an income earning Future Fund. A managed fund would spread the risk, instead of focusing on just 2 assets. The Council should not be in the business of large shareholdings in these assets.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

See above

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

As stated before, I don't think the Council should be in the business of owning and running commercial operations.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

It would give the opportunity to start improving the look of the Port area, which currently is an eyesore.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I think in general terms the proposals are well thought out and progressive.

I hope they are not hampered by petty party politics by uninformed, inexperienced and idealistic Councillors (but suspect they will be)

Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Very Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Not Important
Develop a community-led climate action plan.	Very Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

Transport	Do less

Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Infrastructure really needs to be improved trip protect Auckland against natural disaster esp flooding. It’s already not taking much rain to see floods everywhere. This will get worse and rate payers land and Hobbes should be protected above all else.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

The extent of the cost of the cultural fund esp Maori outcomes is a disgrace.

The size of my rates bill and the increase in the last 10 year is a disgrace. I'm almost paying in rates what I did in rent before I purchased a house.

To many very expensive non essentials.

Growth is far too expensive and doesn't benefit Aucklanders here now. Get the developers to pay it if they want growth

Council needs to focus on core services. Rubbish, water, infrastructure, planning.

Land should be zoned and allow private enterprise to build so this expensive stuff like sports facilities.

Also get what you can from the government.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

Most of what I'm seeing the council do is just making things worse. Like the Panmure busway. Traffic is much worse now and nothing on the bus lanes.

Id like to see train to Howick and a ring road along point view, Murphy's road. Same with out West, or plans for it so you don't have to buy out people's houses

2a. Is there anything you would spend more on?

More motorways

2b. Is there anything you would spend less on?

Bus ways and public transport.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is,Other

Tell us why:

Get rid of it and sell the land for private development of a stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Find cost savings elsewhere. Like the Maori fund for starters.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

If it's leased, then it's likely to just increase shipping costs for Aucklanders, then we pay more anyway

It's making a profit and works, leave it alone.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Leave it alone, don't meddle with something that's working

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Too much expensive unnecessary spending here. Focus on core.

Also most rate payers are mortgage holders, take a break from rate increases.
Mortgage payments are already at record highs.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

Sell it with zoning for private development for public good rather than spending more money on it.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Need a plan before going ahead with this. What public benefit?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop wasting funds on non-essential things like cultural events, excessively architectural infrastructure etc.

Focus on Function over Form, not the other way around.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

The reason why PT is a joke in Auckland and not enough people use it is simply because of how unreliable it is. People need to go about their daily lives with a reasonable amount of certainty and therefore avoid PT unless they can't help it. Better reliability and easier access will reduce the entry barrier to using PT,

Not keen on dynamic lanes. It would be much more effective in my opinion to review the traffic lights management and synchronize their timings, especially during peak times. Focus on getting the most traffic through in the least amount of time, for the key routes the timing should be synced so that once you make it onto a main route, you're likely to have a consistent flow without having to stop too many times. The amount of times I'm on a main arterial route and having to stop at EVERY SINGLE TRAFFIC LIGHT is just ridiculous.

And for goodness sake, please stop putting bus stops on the street, put some bus bays so that the buses can pull over without blocking up the lane.

2a. Is there anything you would spend more on?

Put bus stops in bus bays, don't let buses stop in the middle of a lane to drop-off/pick-up passengers.

2b. Is there anything you would spend less on?

Stop putting so many traffic abatement features on our roads. Most people speed in these areas are because of the frustration from heavy traffic on their main routes. Free these up and you'll find better driving behaviour.

Please stop using excessive amounts of temporary traffic management around road works. Keep the road works short and sharp, I'd rather less road works happening at any one time but finishing off faster, than road works everywhere and taking longer.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

Upgrade and future-proof the venue, in a way that will cater to the needs of the wider Auckland community.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

If the AIAL shareholding is a risky venture, then it would be wise to pull out and invest elsewhere.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Maximise the return so that the funding can be used improvements and expenses without too much impact on the ratepayers.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Investing in the infrastructure and services new will give better benefits, albeit less tangible compared to a cash fund.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Given they do not impact on Port operations, it effectively means the space is being wasted. Better to take possession of it and use it for other beneficial purposes.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

PoA is a key lifeline for NZ's economic viability, anything that negatively impacts on this should be avoided.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less funding of arts and cultural events, less or no more speed bumps and wastage on cycle lanes used by a tiny minority.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Rapid transit is a pipe dream and a never ending pit of money that will cost ratepayers hundreds of millions of dollars to subsidise the few who would use it. We do not have the population or demand to support it.

2a. Is there anything you would spend more on?

No.

2b. Is there anything you would spend less on?

Less on rapid transit plans, less in public transport, no more bus lanes, less on worthless speed bumps, less on slowing Aucklanders down.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

To reduce ratepayer costs.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Keeping shares in AIAL guarantees a return and some control over OUR airport.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Because again, this is for the people of Auckland and not an ideological football for the mayor.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Because I don't buy in to your Auckland future fund at all. Reduce your headcount at council and associated organisations who clip the ticket for little value to ratepayers.

4d. Do you have any feedback on any other part of the proposal?

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

8. Do you have any other comments?

Surf Lifesaving Funding could be considered as service provided, ie promotion of the Paid Lifeguard Service (Monday-Friday) Guards for the purposes of Auckland Ratepayers and Citizens to use the 'flags' as 'the safest place for Aucklanders to swim' Alongside this Capital Funding for buildings and equipment can be looked at for the surf lifesaving purposes of Civil Defense, Surf Rescue, Search and Rescue, Community Facilities and in General an Asset that Council should look to fund jointly with Central Government

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

While improving the speed, reliability, and accessibility of Auckland's Public Transport network is highly important, removing elements such as raised pedestrian crossings and grade-separation for rail lines for the sake of budget is short-sighted and will only ensure that a) public transport will not be able to run as efficiently, and b) future budgets will end up allocating funds for these projects at additional cost

2a. Is there anything you would spend more on?

removing level crossings of rail lines, improving walking infrastructure

2b. Is there anything you would spend less on?

expansion based on private transportation

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

While redeveloping the area isn't necessarily a desire of mine, reconsidering the usage of the area, especially due to it's close proximity to the Albany Megacentre, is in my opinion worthwhile

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

while the establishing of a trust for the city to rely on is certainly a beneficial idea, transferring all of the remaining shares the Council hold in AIAL is a risky move and could backfire in future

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

while I dislike removing direct council control from POAL operation, the long-term benefits of a trust starting with the proposed \$2.1bn is, I believe, a good idea

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

the increased land area immediately accessible from the cbd could allow for more commercial and residential space within the cbd, providing both a new urban space for the public, but a source of revenue for the council

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Free transfer and recycling centres, encourages recycling and reduces costly fly tipping

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We need public transport at a reasonable rate

2a. Is there anything you would spend more on?

We have good public transport in and out of the CBD, but poor suburb to suburb, this needs to be addressed to get people using public transport

2b. Is there anything you would spend less on?

Light rail, time has passed for light rail, you can use articulated buses on roads that can carry other traffic off peak

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No, can't think of anything.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

to many festivals and councillors get too much free food

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

seems moderate

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

seems like they redo the roads more often then needed

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

If its not getting much use currently funds can be better allocated.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

I like the idea of a fund, but think it's important Auckland Council keeps at least 5% share in Auckland airport, given it's importance

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

the council still has ownership, so it would revert back after the period, but there would have to be rules as to who it would be leased to.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Use it where' it's the most good

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

no

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Auckland needs the port operational

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

keep it as it is

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>

Transport	As proposed

Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Speeding up roads by removing 30km/h speed limits, which half the people ignore anyway including council vehicles. Add slipways to roundabouts so that traffic that needs to take the first exit does not have to stop.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less speed bumps, it just slows down traffic to give boy racers a chance to do their skids. It has been proven decades ago that speed bumps wear out cars of people that have to drive over them every day, and speeders just move on to another road to speed.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Pedestrians need to be safe by looking where they walk and using pedestrian crossings, please speed up the roads. Most cyclists do it for sport, they should either pay for cycle ways or a road tax.

2a. Is there anything you would spend more on?

Dynamic lanes, slipways, and traffic cameras especially red light cameras.

2b. Is there anything you would spend less on?

Cycle ways are empty most of the time. Busses also run on a schedule, so you do not need 2 lanes for a bus way, you can manage busses passing each other at bus stops along the bus way, or make it just wide enough for 2 busses to pass each other, and slow down when approaching one another. Why have 2 lanes with shoulders for 1 bus every 10 minutes?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

North Shore get far too much fancy developments compared to the rest of the region. Stadiums benefit a fraction of the population. Or if it is a money generating business, then it should not be paid for by residents.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Council should not be running a business, or in control of a business, unless it is self sustaining generating income without a loss to the community. Freight containers in the city center does not benefit the community, so should be land leased to a private entity to manage.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

I'm afraid that AFF will end up just funding climate change ideologies, some of which are good but often taken to the extreme and people making money from consultations and meetings. A significant reduction in flooding is achieved by simply doing maintenance on storm water pipes, but often maintenance slips in favor of making budgets look good.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Those wharves would improve the feel of the city, increase the public use enough so that it does not feel like an industrial area.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

If Cook and Marsden wharves are transferred, then don't need Bledisloe Terminal also, its current use is fine.

6a. What do you think of these proposals?

City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Close or merge community libraries. In the age of electronic information, paper information is rarely needed. This can reduce the number of employees. Regional swimming pools, which waste water resources, must be merged or closed immediately. Minimize public spending.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Close or merge community libraries. In the age of electronic information, paper information is rarely needed. We can reduce the number of employees. Local swimming pools, which waste water resources, must be merged or closed immediately. Reduce public spending!

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

Public transportation must first increase the density of buses and shorten bus routes. The current bus routes are too long, the departure density is too low, and taking the bus is too inconvenient. Only by strengthening the bus network connection can we attract more people to take the bus!

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Financial difficulties, should try to maintain the current situation and reduce expenditure as much as possible

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

It is best not to increase any expenditure. Setting up a fund requires hiring staff, which is a waste of money.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

The city council lacks enforcement power, so it is better to rent it out directly and collect rent

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No money as principle

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Change means spending money

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

The city council has poor execution and employs a bunch of inefficient staff.

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

#869

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	
Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	Waste of money and increase the burden on people

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p>Support</p>

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce recycling charges for schools .	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Howick

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Auckland Transport consistently wastes too much money as their budget is too big. Examples are;

#1364

1. Retarring roads that are not required
2. Building pedestrian crossings that are not required
3. Guard rails that are improperly installed (too close to roads thereby prevent full use of the width of the road as it will cause vehicle damage)
4. Not painting kerbs that require repainting
5. Installing small median islands which are a hazard to vehicles
6. Poorly designed and installed median strips between roads
7. There appears to be no proper supervision of workers to ensure correct delivery of the work
8. Stop installing speed cameras

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Start using bus lines for cars. I see empty buses on bus lines at peak hour traffic. These lines are not being utilised properly. Converting ferries to electric will hardly have an impact on climate change - therefore why change it. Instead plant a few more

#1402

trees. The council spent millions of dollars building a community park in Manukau - this could have been done cheaper.

When deciding to spend rate payers' money - consider if you would spend your own money if it was so expensive. I am happy with the Toyota Corolla version of Auckland rather than BMW. It is less expensive to maintain.

High rates increase would lead to worsening of the cost-of-living crisis for ratepayers.

Consider the user pay system to raise funds - e.g toll bars on the motorway or when people enter the Auckland region.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

The busses are always empty. Why invest in this if it is not being used. The trains are being used as intended - however, poor managed.

Why do you need raised pedestrian crossing? This will lead to higher maintenance costs. Get rid of bus lines - this will solve a lot of traffic issues.

The roads that are being built in Auckland cannot cater for busses as they are too narrow or cars parked on both sides. People have to drive to the nearest bus depot or train station - therefore, why bother when a person can instead drive to work.

2a. Is there anything you would spend more on?

Better roads for cars.

2b. Is there anything you would spend less on?

Bus transportation as it is too costly service to provide.

The current train service is good.

7c. What do you think of the Howick proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

With the cost of living crisis, the ratepayers might not be able to afford an increase. There are a lot of people living in Auckland who do not contribute - e.g renters, boarders, visitors etc. The council needs to get creative and sharing the burden with everyone else. Bring in the user pay system for most things - tolls for entering Auckland region, fees for using facilities at parks etc.

Don't support any of the proposal

Tell us why:

Stop installing road speed bumps, these cause congestion which effects, slow the flow of traffic, and are too costly at \$500,00.00.

Better planning around bus stops, busses should not stop in vehicle lanes, remove bus stops which are too close to busy intersection, these two-cases vehicle congestion and potential accidents.

2a. Is there anything you would spend more on?

Synchronize traffic light for the busiest routes which would save fuel, reduce pollution, increase traffic flow. The synchronization could be set so that if the speed limit is maintained on the busiest route green light should be able to be achieved, preference given to the busiest main rout not the smaller feeder lanes, i.e. golf courses.

Quality asphalt and process, so the roads last longer and vehicle's are not damaged by loose aggregate.

I would like to see the whole Management of AT sacked and planing/allocation of projects associated with travel within auckland brought under close council control. The amount of excess that is witnessed by citizens around such topics as 'safety', with speed bumps slowing down traffic flow when far cheaper options would achieve the same results, and hugely expensive infrastructure designed for walking/biking/ buses exclusively, to the detriment of the needs of the majority of residents, needs to be immediately curtailed. Anyone who has lived and worked in the Auckland area for over 70 years, as I have, knows that to get to some destinations, even in close proximity, when needing to pick-up items etc, it is impossible to use any form of public transport. Auckland's layout is just not such that even with an unaffordable expenditure, a convient and reliable public transport service reaching many parts of the city in the next 50 years is just a pipe dream.

I think that this question should be answered by the people who will be affected/the people & organisations that use/will use, the stadium and the amount of revenue that the council will generate - either by partially selling land or leases to entities.

Continue to use it to fund council services

Tell us here:

It would appear to me that putting income into, virtually savings, while borrowing to run core services, is contrary to good practice and prudent money management. Coming from a generation where the norm was "if you can't afford to buy it, you don't have it", much of the financial 'wisdom' these days seems designed to just put things off in the hope that it will all come right, sometime in the future!

Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Apply greater levels of accountability financial prudence, budget restraint to Council CCOs. They all appear to be spendthrift by nature and the return to the

#1474

ratepayer/resident/business is often very questionable. Council need also apply similar consideration to internal costs - salaries etc

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I support items two and three but I'm sceptical about the first item. I simply don't think it's achievable particularly given the inherent unreliability of some components of our public transport system e.g. rail. The money would be better spent improving our roading network

2a. Is there anything you would spend more on?

Apportion some Capex to Introduce a user pays toll system for our main arterial roads with a sliding scale of charges to max out during peak hours. This could alleviate one of the major road congestion issues - the long distance school runs- and encourage people to use local service providers e.g. tradespeople

2b. Is there anything you would spend less on?

De emphasise the Health & Safety aspect of our transport expenditure. It has more to do with ideology than actual H&S. Speed humps etc are, it seems, excessively expensive and counter productive effectively slowing down the local economy. Also return to the previous higher speed limits on all of our roads, incl the CBD, but increase penalties for infringing.

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Invite private enterprise to partner Council in the capital cost of redevelopment of the precinct, and Private enterprise to control the subsequent operational management.

#1474

The focus should be on User Pays not Auckland wide ratepayers . This is a Nth Harbour facility and local residents should be expected to pay more.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

In theory it sounds good but what checks and balances will be put in place to ensure that this fund will deliver what its supposed to and the funds wont be syphoned off into various pet projects. What will be the set up costs and management costs?? It could end up being another greedy loosely managed CCO. The so called Climate Change element is largely 'snake oil' In my opinion

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Council should not be involved in managing this asset. It needs to be in the hands of professional port operations company.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

#1474

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

The phrase - something else that provides public benefit - is a red flag in itself. Who/what determines what would provide public benefit? Would it be for The general public or niche interest groups??

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

Ditto above. However any change of land use could be considered only if private enterprise/equity funding, in partnership with council, and facility management was a significant part of the proposal.

contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

7b. What do you think of our proposed priorities for Howick in 2024/2025?

Very Important

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	Very Important
--	----------------

#1475

Review and refresh the Howick Tourism Plan.	Very Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Fairly Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Fairly Important
Develop a community-led climate action plan.	Very Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	Howick has a unique "settler's history and a village feel that needs to be sustained by initiatives that showcase the history, encourages visitors and supports the local businesses.

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Review dangerous intersections, bins in local areas, take care of parks

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce speed limits, fewer raised crossings,

#1519

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

More public transport options, especially faster and cheaper would be great for everyone.

2a. Is there anything you would spend more on?

Better communications for roadworks. So residents know what is happening and when.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Don't give up all shareholding in the airport and ports...we should have some control in those assets

4b. Which option do you prefer for the future of Port of Auckland?

#1519

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Have better roading designs, less traffic lights, more express roads travelling at 80kph. Look at smart traffic light systems. Actually work on getting traffic moving, and stop talking about it.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1528

Less cycle lanes, less traffic lights. Less red tape when building.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

I have a service staff, I don't want them sitting in traffic.

2a. Is there anything you would spend more on?

Widen roads to two lanes on main arterial roads like Chapel road. Have merge lanes in roads so that it makes it easy for people to right in busy roads safely. Smart traffic management systems that don't hinder traffic flow.

2b. Is there anything you would spend less on?

Traffic lights, getting rid of free turns like in East Tāmaki. Raised pedestrian crossings. Anything that slows down traffic like all of ATs stupid ideas!

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

We don't need it.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Many schools are already paying for most of their recycling and waste removal. It is cheaper to throw everything into the landfill bin. If schools are charged even more for recycling, they won't use it and they'll just throw everything in landfill. Secondly I believe in a user pays system for ALL Aucklands for landfill waste. Surely, this is why we have been given the food caddies? To reduce our landfill waste? A user pays system encourages people to think before they bin and try to recycle or compost.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would pay more for anything that would increase productivity of the community, but only after the present colossal wastage has been cut right to the bone and council reverts to it's core or basic activities. There would then be unlikely to be any requirement to pay more.

#1729

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Far less of the "green" and "feel good" stuff. Get back to core activities and let private enterprise get on with it's role with minimal bureaucratic interference and regulation. Deal with the huge problem of waste and bureaucratic nonsense. This is the real area council simply MUST get to grips with. For example Auckland Transport is continuing unchecked with it's programme of traffic impediment by every possible means. The roads need to be returned to a condition which will assist the freer and more efficient flow of vehicles of all types.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Because the City is so heavily burdened with debt, and roading projects are so vital, the proposed methods of funding make good sense: but only if coupled with vastly reducing waste and therefore the cost of undertaking the projects. Aerial roads above existing roads may be an efficient way to avoid continually demolishing houses for roading projects within the city. Dense infill housing with little or no off-street parking is proving to be the disaster it obviously was from day one.

2a. Is there anything you would spend more on?

Infrastructure of all essential kinds. The waste savings would fund this and more.

2b. Is there anything you would spend less on?

Traffic impediments, cycle lanes, absurd well over-the-top traffic management systems and absurd speed limits. The roads must be designed for the efficient and expeditious movement of people and goods.

3. Which options do you support for the North Harbour Stadium?

Other

#1729

Tell us why:

If a change in operational management would be likely to result in heavily reducing losses then try it. Otherwise get rid of the stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I can see the fund, if run by the council or yet another bureaucracy, being a disaster. Get rid of the Airport shares now, deal with the wastage and massive bureaucracy problems, reduce debt drastically and get on with attending to core activities.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

5a. What option do you prefer for Captain Cook and Marsden wharves?

But only do this once council spending on bureaucracy and waste has been brought under reasonable control.

5b. What option do you prefer for Bledisloe Terminal?

The port is a vital part of the city infrastructure.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Enhance the council’s own profit-making ability instead of solely relying on taxpayers’ money to operate. Open up public resource development, including opening up the Auckland port, to increase port annually throughput.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1769

Cut off public transportation investment. It's good in long term but you currently do not have the economic capacity to do this.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Auckland is too crowded. Instead of spending a large amount of money to improve the road conditions, it would be more effective in the short term to divert new immigrants to other cities to relieve traffic pressure in Auckland. For example, allocating the budget to invest in major projects in surrounding cities or regions to promote local employment, especially meeting the employment demand for new immigrants.

2a. Is there anything you would spend more on?

Anything that can make more profit for the council

2b. Is there anything you would spend less on?

Everything

consider more cycle lanes in the transport plans. even in newly developed suburbs there is not a heap of sidewalk, and the roads are so narrow. there is not a sense of community where people cant walk out to the dairy or children can't really safely ride bikes/scooters to school. It's growing the mentality that everyone just drives everywhere cos it is so uncomfortable and unsafe.

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

While I agree that investing is the way out of spiralling rate increases, to convert one form of investment into another investment probably doesn't do all that much. There is an argument for supporting local business, particularly one that is pivotal to the functioning of NZ.

I have heard that the council wants to introduce a fortnightly rubbish collection.

I DISAGREE WITH THIS.

The council should fund a green garden bin through rates for green waste to minimise this in rubbish. Christchurch and Dunedin did this over `13 years ago.

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

The ports of auckland are a disgrace and have cost nz businesses billions of dollars and instead of improving they have just added more fees without actually improving anything. No clue what they are doing. Still costing and breaking NZs everyday. Still lying about automation failure and how much space the straddles are wasting just sitting around. Cant staff it, cant do it. With the rising popularity of the game of pickleball it would be great to see the council fund some public outdoor courts or convert and upgrade existing outdoor tennis courts into lined pickleball courts. Currently there are no netted public courts anywhere in Auckland. The plan to move the Pakuranga tennis club to Lloyd Elsmore should also include a plan to build in pickle ball courts when this project begins. There is so much

#1939

usable space for this at Lloyd Elsmore. Even just resurfacing the 2 public courts in Howick and off Glenmore Dr. to include pickleball court line markings would be a simple cost effective option. Similar to what was done at Arthur Faulkner Reserve in Mt. Roskill.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No, I think this summary is okay. One thing to consider is the overlap of Water, Environment, and Parks. There may be options the can address all three items which will cost less than targeting individually.

#1947

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Unfortunately, work from home days are the new normal. I question how much we should spend to revitalize the CBD and instead focus on other areas of growth of local development

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Cycle ways and pedestrian pathways are important and we should be critical about which ones to slash. The best way to reduce congestion is to get people onto public transit, but many people struggle with the "last mile," the drop off point to their door. Cycleways/pedestrian walkways etc are important here.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Based on my experience North Harbour Stadium is under utilized. It went though some major works to host Auckland Tuatara games (which we were excited about) but they the folded. It's questionable if Auckland needs another Stadium and how to use it.

#1947

Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

Review and refresh the Howick Heritage Plan.	I don't know
Review and refresh the Howick Tourism Plan.	Very Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Very Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Fairly Important
Develop a community-led climate action plan.	Very Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Not at this time. the cost of living is having a big impact. When the budget is tight we need to spend less not more.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2013

We need to maintain our roading network rather than investing right now. Wait for a year once interest rates drop and the public can afford infrastructure changes

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Public transport I agree with, the easier we can make it to use public transport the better, most importantly it needs to be reliable above everything else.

I am not in Favour of the congestion tax unless viable alternatives can be provided. Otherwise traffic ends up diverting to suburban streets causing increased damage and congestion there. People have to get to work and if reliable public transport is not available then it is just adding another tax to a captured population. Alternatively I would suggest the Mayor ask bigger companies to encourage staff to work from home, this will have a much greater impact on congestion and the environment.

I think all initiatives have to be evaluated and only projects with a proven benefit should resume. If they are going to be done, do them well or wait for next year.

2a. Is there anything you would spend more on?

Improve public transport options and ease of access to public transport.

Encourage companies to ask staff to work from home via reduced tax or other incentive. the savings will be less than the cost of building new roads.

2b. Is there anything you would spend less on?

raised pedestrian crossings, widening of roads, changes in speed limits.

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

#2013

If the stadium can't generate enough income to cover its own improvements then it will continue to be an expense we can't afford and we should sell it or change the model. If the income reduction is a result of Covid then the stadium can request a loan and pay it back with the earnings it will generate. No need for rate payer funds to go to the stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Diversified portfolio of investment is always preferred to having all your eggs in one basket.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

If council was good at running the ports we wouldn't be asking this question now. Lease it out and let someone who knows what they are doing run it. However there have to be some conditions within the agreement to maintain and develop the Port to ensure it is kept to reasonable standard comparable with similar ports internationally.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

#2013

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

If we lease it out with a good agreement in place this will be more sustainable long term than council taking over operations.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

Ratepayers are still in pain of high inflation and high interest rates also high cost of living. So until the economy rebounds, it is better to do less and get less but do right on traffic and roads to give convenience to people.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Pick up actions that bring direct positive outcomes.

2a. Is there anything you would spend more on?

Not at this stage until the economy rebounds back.

2b. Is there anything you would spend less on?

Council staff appear to be less productive in their work delivery but are large in number. Remove 1000 staff doing manual and other routine work and use that money to make systems automatic, and productive and keep only active and responsive staff.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Keeping the stadium would be good for the future. But if money is a problem to maintain this, change the management.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

The Trust is low now. Rate payer do not feel that our money is use wisely by Auckland Council to better our place. We can do better ourselves without additional council management. So we would not support any higher rate or any risky sell of our assets.

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

#2070

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

7b. What do you think of our proposed priorities for Howick in 2024/2025?

Very Important

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	Not Important
Review and refresh the Howick Tourism Plan.	Fairly Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	I don't know
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Not Important
Develop a community-led climate action plan.	I don't know
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	so far, Howick is still do not have a community resource recovery centre.

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	Not Important
Review and refresh the Howick Tourism Plan.	Fairly Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Fairly Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Not Important
Develop a community-led climate action plan.	Fairly Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I support further investment into a surface light rail rapid transit network starting with a route from the City Centre to Mt Roskill, and then further expansion to Onehunga, Māngere and other transport corridors such as the North-Western and Northern corridor. Any busway development along the North-Western corridor should be future-

#2183

proofed for surface light rail upgrades. Consistent work over the last decade, reflected in Auckland Transport's Auckland Rapid Transit Pathway 2023 report, has shown that to effectively address Auckland's congestion issues we cannot rely solely on a bus network. The busiest bus corridors in our city are already reaching capacity, and the long-term plan should reflect that reality.

Additionally, I support Auckland controlling its own transport priorities. An "Auckland Deal" provides the means for central government to support Auckland Council's priorities, rather than the other way around. A surface light rail network would provide opportunities for growth, development, and productivity in the city. I believe this should be included in the "Auckland Deal" with central government. I urge Auckland Council and the Mayor to make the development of a surface light rail network, starting with the City Centre to Mt Roskill line, a priority in such a deal.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I do not fully support this plan as it does not include investment and commitment to a surface light rail rapid transit network. Any work on a busway in the North-Western corridor should be future proofed for surface light rail and there should be commitment to surface light rail along the City Centre to Mangere corridor, starting with a City Centre to Mt Roskill line. I worry without this we will not be able to address Auckland's congestion issues as projected growth in these corridors would require higher capacity transport modes such as surface light rail.

2a. Is there anything you would spend more on?

I want to see Auckland Council spending more to develop a surface light rail network, with a City Centre to Mt Roskill line constructed as a priority. There has been significant design work done by Auckland Transport and Waka Kotahi on surface light rail pre-2019. Adopting these plans will allow any work to be fast tracked with only minor updates and improvements needed. From this stage I would support expansion of surface light rail, such as what is proposed in Auckland Transport's Auckland Rapid Transit Pathway 2023 report. The line should be expanded to Onehunga and Mangere,

#2183

and eventually to other transport corridors such as the North-Western or Northern corridors, upgrading any busway infrastructure. Staging the development of the network in this way ensures it remains affordable for Aucklanders and is practical to build.

Congestion is a major issue in our city that costs Aucklanders time and money. It restricts our growth and potential. Consistent work done over the last decade has shown that we cannot only rely on our bus network in our busiest corridors in order to address our cities transport issues. Surface light rail provides a higher capacity solution that is affordable, deliverable, environmentally friendly, and will connect communities in Auckland. It provides a plethora of economic benefits that will create jobs and help businesses while improving our streetscapes to make our city a better place to live.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

51% Kiwi's live in the suburbs, the rest of us are rural so more focus on those out of town issues would be welcome

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2198

No more cycleways. Do not focus everything on the CBD with parking issues, crime and poor transport no one goes there for entertainment anymore

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

a public transport service is essential and needs to be as good as it can be with limited funding. Capping fees is a good idea. Leave the focus on this and drop the rest. .
Raised pedestrian crossings, cycleways etc do not help the majority of people, just the noisy minority

2a. Is there anything you would spend more on?

No, we can't afford to

2b. Is there anything you would spend less on?

cut out anything that is not centered around keeping public transport going on capped fees.

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Put this on the back burner till we can afford it

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

Howick

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#2288

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

There has been news recently of only doing the rubbish collection every fortnight.

This is ridiculous, if you are going to increase the fees, I would like my rubbish collected daily.

#2321

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop wasting funds on green-washing and trying to be "climate" friendly. We are in a cost of living crisis and every cent is tight.

And wasting money on unnecessary events like the movie night is pointless.

Money should be going to transport issues. Improve the Bus and train network so it actually turns up on time. If the public transport is so unreliable people are just going to jump back to cars and this will increase road congestion.

And scrap the stupid weekly Food waste collection. You guys need to review this ***** as not many people are using this service.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

We definitely don't need more cycle ways.

If you consider the amount of area you clear for a few cyclists to get through vs how much area is used to get a car/bus through, the bus/car lane definitely gets more people through.

Also bus dedicated lanes should be TIMED during peak periods only. Why on earth is there a bus only lane AND bridge all throughout the eastern side (via Panmure)

There is a good majority of the time when the normal lanes are full and there is no bus in sight on the bus lane. What a waste of resources.

If your buses aren't running on time then don't make dedicated bus only lanes and bridges.

2a. Is there anything you would spend more on?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No, manage within the budget you have got

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2396

Less bureaucratic process and wasteful spending, more evidence-based analysis to support investment, new projects and proposals. Be realistic about what you can and cant deliver, we don't need fake promises that sound good.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Focus on delivering the essential transport objectives such as providing reliable and fast public transport services is key

2a. Is there anything you would spend more on?

Better management of congestion and improvement of efficiency of public transportation

2b. Is there anything you would spend less on?

Less on emission reduction, pretty sounding environmentally friend projects and initiatives

3. Which options do you support for the North Harbour Stadium?

I don't know

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

It's getting out of hand for tax payers to keep paying more all the time. Find other ways to fund your initiatives or just don't do. Over the last few years council is just cutting down on the services they provide but keep increasing the rates. Cut down on the salaries of your top management and get rid of some who make no addition but take major chunk of the salaries.

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No, currently can't afford to live as it is, with interest rate increases piling on rates increase as well is unfair and unjust.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2537

Put the rubbish bins back and scrap the cycle lanes and bus lanes and stop building cycle lanes and bus lanes, repair the roads instead of try and create unattainable roading plans. Stop spraying all the footpaths and roadsides and parks, it looks horrendous and is terrible for the environment instead go back to standard lawn mowing and weed eating.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

I agree with stopping the cycle lanes and raised pedestrians, however public transport is not a thing here, create more opportunity for parking instead and freeing up bus lanes for cars, for example the panmure bridge - the bus lane is barely used and the buses not in service can't even use it, and the light controlled bridge is always a traffic problem.

2a. Is there anything you would spend more on?

No, please stop spending money unless already accounted for.

2b. Is there anything you would spend less on?

Yes, bus lanes and cycle lanes

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Don't think in 2024 in a recession money should be spent on trivial things, allow it to be open to other events so it's more utilised make money that way

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

Fairly Important

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	Fairly Important
Review and refresh the Howick Tourism Plan.	Fairly Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Fairly Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Not Important

#2569

Develop a community-led climate action plan.	Fairly Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#2594

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

#2630

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Get rid of double decker buses. Use mini bus instead, more frequently at peak time.
Saving at off peak.

The kitchen waste collection is such a stupid service. It waste money from tax payer, the small bins blew away when it's windy. The council should take these bins back and refund the money. At least giving an option to cancel the service, as we use the kitchen waste for compost anyway.

2. What do you think of the transport proposal?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better public transport and smarter transport initiatives like Eastern bus way. Southern bus way is needed. We need to focus more on busses.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2677

Less stupid ideas that nobody uses and has little effect like, cycle lanes, widening of footpaths, motorway phase lights, reduction of parking spaces and carparks. Get a grip, Auckland is a city of drivers and it rains a lot. You won't get Aucklanders out of their cars on rainy days. Our transport solutions need to be complimentary to cars.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Stopping work on the raised pedestrian and cycle ways is a good idea. That work is a waste of money and is only used by a small fraction of the population when it's not raining or doesn't look like it's raining.

Whilst I do agree with raised pedestrian crossings. I think resources are better spent installing them on new and future routes. Waste of money replacing existing crossing. Unless there's a specific problem where fatalities at pedestrian crossing are high for Auckland per capita in the world.

2a. Is there anything you would spend more on?

- More busses and public transport subsidies.
- Pothole and road repair projects.
- Red light cameras on every intersection.
- More enforcement on bus lanes and transit lanes.

2b. Is there anything you would spend less on?

Cyclelanes, pedestrian widening projects, carpark removal projects, motorway phase lights, raised pedestrian crossings.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

#2677

Tell us why:

Use it or lose it. If the local community aren't using the facility and it's losing money get rid of it and turn it into something that does make money.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

We need more ideas that help the council with budget deficits. If AIAL isn't giving us the returns we need then selling the shares and managing a fund that gives us the required returns is a good idea.

Personally I think transport should all be publicly owned and operated. The losses are then subsidised by people that choose to drive by the way of registration and fuel tax. National getting rid of the fuel tax is plain stupid. There's no such thing as a free lunch.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Same reasoning as selling AIAL shares. We need our assets to be working harder to provide the best returns. If they aren't doing that then we need to change direction.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

#2677

The council needs reliable and sustainable funding to provide services. By investing it, we make sure the the future is taken care of too. We don't want instant short sighted solutions.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Self insurance is risky. Personally I would never do it. Not sure it's a good idea for council to do it. If nothing goes wrong early on you stand to save a lot of money but if something does go wrong early on then a lot of people stand to suffer.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

It really depends on what the ideas are for public benefit. If they are ideas that generate as much or more income than leasing it to the port then yes take it back. If not and it's going to be another money pit then no.

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

Same as previous answer.

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No rates increases at all. It is not right and grossly irresponsible for an organisation/council to just continually hike rates if they can't live within their means. No other organisation is able to do this. The continual increasing of rates demonstrates a lack of accountability for lowering costs. There are entire departments within the

#2693

council that could be shut down and no one would bat an eyelid - every team must be able to justify why its existence is absolutely necessary for Auckland.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Auckland Council and its CCOs have all become procurement agencies. All you do is manage contracts, and pay millions to contractors, from building infrastructure to planting trees. This has become pathetic.

You need to immediately review your spending, including the number of staff.

Auckland Council and Auckland Transport waste a lot of money. When I was an employee, we were told there was one year when the environmental targeted rate had not been used and that staff were spending it on anything and everything to use up those accumulated funds before the end of the financial year. It was a strongly backed rumour so obviously had some truth to it.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

Bulk of the money will be spent on consultants and contractors. The CRL has become a costly white elephant. Having worked at the council, I know that the touted benefits will no longer be reached, especially for the Western Line. Use what we already have in better, smarter ways. The infighting within AT also needs to be addressed.

2a. Is there anything you would spend more on?

Nope. Lower costs across the board. NO rate rises. Auckland Council should now be in a position to start reducing rates. Continual rates increases makes a strong case for de-amalgamation.

2b. Is there anything you would spend less on?

Yes, everything across the board.

3. Which options do you support for the North Harbour Stadium?

#2693

Other

Tell us why:

Sell it off. The council doesn't need to keep owning it. The private sector will do a better job.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Another CCO with its own board and staff equals more money spent, and lower net returns. Just sell them off directly if that is the intention. No need to get all creative and dubious.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Remove the port operations and use that land for commercial and residential development, which would result in much greater returns than what the ports are managing.

Current location is creating an immense amount of traffic - ask AT or the council's inhouse Transport Team.

Sell off port operations. What is the justification for Auckland Council needing to continue owning port operations? None.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

#2693

Tell us here:

Not my preference. Sell off port operations. Use the land for commercial and residential development.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The Future Fund looks like a dumb idea that will have an effect on net returns. The continual divestment of decisionmaking has left Auckland Council's elected members and staff being paper-pushers. The actual 'doing' has been contracted out.

Auckland Council needs to start bringing the 'doing' back in-house, and move away from only managing contracts like a procurement company. Just have a look at how much your procurement departments have grown in the past decade - you will get a fair idea.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

Yep, remove port operations altogether from the CBD. Use that land for better outcomes, residential, commercial development and other infrastructure for the public benefit.

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

Transfer it to the council as soon as possible, with the council immediately selling chunks of the land, or entering into leasing arrangements for residential and commercial development.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Yes, there were lots of strong anecdotes of how the targeted rates were misused - planning to write to the minister to share these. The council needs to operate within its means.

Increasing the costs associated with waste disposal has directly resulted in significant increases in illegal rubbish dumping. Very poor decision-making on this front which still has not been rectified.

- Absolute garbage.
- Not at all ambitious.
- Not worth the airtime on this webpage.
- No one gives a ***** about these lousy plans - I've written and reviewed various plans. No one cares at a local board level - that is the fact. Local boards need to align themselves with council initiatives and just prepare implementation plans instead.
- This is absolute nonsense and speaks volumes about the capability of the local board members and staff.
- Very underwhelmed.
- Not at all future-focussed.
- Not at all responsive to the level of development that has taken place, particularly in Flat Bush.

7c. What do you think of the Howick proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

- No rates increase must be a starting point.

#2693

- Further rates rises is likely to result in a request to the Minister to undertake an investigation into the affairs of the council pursuant to the LGA. It is also likely to result in a proposal (to the minister) to de-amalgamate Auckland Council due to its failure to realise the touted benefits of amalgamation. Rates should have started to fall by now.

My concern is the waste of money spent on Pigeon Mountain over the last few years removing healthy trees - by helicopter sometimes. Four years ago there was a sign saying 23,000 trees and shrubs were going to be planted over the next few years. There has been a rush of plants over the last 6 months but nothing much over 30cm in height. The weeds are higher than these grasses and shrubs now. The money which is set aside to pay for pest plant removal. yet the workers for company sub contracted to do that work - refuse to remove the moth plants and tobacco plants saying they are out of control. They weren't out of control when they were being removed.. Since 1969 we have tried to care for the trees in this area, we see you have earmarked \$1,000,000 over the next few years for this maunga alone.

STOP SPRAYING GRASS, REMOVE THE PEST PLANTS, plant trees of a decent height. The ones we have planted on the Half Moon Rise reserve are now 3 metres or more high.

emergency mgmt and lead development of the local city

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2795

I am very sad to say that I do not feel that I benefit from where my taxes are spent by the government. Are they all going to support other countries in fighting? Are they all going to support the needs of other countries? Are they all just for the glory of the politicians? I haven't seen a city take several years to fix a road. I don't even know what those companies were fixing over there, but it looks like they were working hard to fix it, but in reality, they didn't do much. I haven't noticed any improvements in our healthcare system either. When I require medical attention from the public system, the wait times are often several months. This forces me to opt for private healthcare, despite the taxes I pay supposedly entitling me to access public services. Additionally, the fees associated with my vehicle don't seem to provide adequate value. The steep rise in fuel costs, frequent road repairs, and increasing road tax all contribute to significant expenses. Nowadays, it feels like parking fees are required everywhere you go, yet there's also the constant risk of car theft. I haven't noticed any improvements in our healthcare system either. The steep rise in fuel costs, frequent road repairs, and increasing road tax all contribute to significant expenses. Nowadays, it feels like parking fees are required everywhere you go, yet there's also the constant risk of car theft. The money we hardworking people earn is so hard to come by, yet there are so many expenses to pay. Every day, we face various pressures just to try to live a good life. But there are still many able-bodied people who are idle and enjoy a happy life on various welfare benefits. Isn't this a problem with the system? How much expense is wasted on these lazy and shameless people? There's no place where the council needs to do less, the council hasn't managed the money well to provide a good budget. My work also often requires dealing with the council, but I haven't received good service. I must say that you have employed many employees who do nothing. There's a lot you need to do. Looking back, what aspects do you think you've done well? Our water bills are expensive, and the water quality is poor. Only Auckland's water needs to be paid for, why is that? It could be shared by all of New Zealand instead of just Auckland. This would reduce the cost of living for Aucklanders and bring profits to the water company. You can use such profits to develop what you call managing stormwater...

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

#2795

In the past decade, how much money has been invested in public transport, and how much improvement has been made? In other countries, you can travel around the entire city for just a dollar, which Auckland cannot match in terms of price. Furthermore, in those cities, buses run every 10-15 minutes, while in Auckland, they can run only once every 1-2 hours. If you really investigate, apart from the overcrowding during rush hours, buses are sometimes very wasteful at other times. For example, there may only be the driver on an empty bus, which incurs costs. These issues have not been resolved in the past decade, and the Council often proposes a solution, invests time and money, and then cancels it halfway through. Is it reasonable to treat such important matters so frivolously? Are taxpayers bearing these losses?

2a. Is there anything you would spend more on?

Resisting the council's reckless spending is a commendable act.

2b. Is there anything you would spend less on?

Resisting the council's reckless spending is a commendable act.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

When it was built, consideration should have been given to the maintenance costs and its potential to serve residents and drive economic profits. Instead of constantly relying on taxpayers to support such a facility, there should be a shift in management to make the building commercially viable. Many people have not benefited from it, so it needs to be operated in a way that brings economic benefits, like a commodity.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

#2795

Tell us why:

Please do not blindly sell or invest. Instead, seek professional teams to assess the risks and potential profits. Because you need every investment to have a return, not a loss! The return may be more or less, but please do not engage in transactions that result in losses.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Only when you take the initiative can you voice your opinions or play a role in decision-making.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

I don't feel that the previous funds allocated to council services have resulted in significant progress, or that the council's revenue is too simplistic. There is a need to reevaluate and improve the use of this money.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

In my opinion, the reintroduction and changes mentioned here would result in increased costs for taxpayers. Shouldn't we be finding ways to reduce the burden on residents instead?

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#2803

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce recycling charges for schools.</p>	<p>I don't know</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p>I don't know</p>

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

You need right people to manage the expenses. When AT pays 400k for a pedestrian crossing it seems incompetent people on top management.

Road quality has significantly reduced in last 10 years why?

#2838

Expenses on railway tracks and many other investments show clear signs of incompetence at all levels.

We have to pay higher rates for these incompetence's.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Create efficiency in management levels and have right people at right places who can negotiate and manage well.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Looks some sensible decisions are being taken. Still not sure whether another manager may not approve expenses that we do not need to spend on like ped crossings. How can we be sure?

2a. Is there anything you would spend more on?

Non stop Point to point buses during peak hours with registered users.

Say Botany to CBD and return in the evening to cater to office goers.

Botany to Henderson

Botany to Albany

Depending on success of one you can add more point to point services.

2b. Is there anything you would spend less on?

Our topography / weather is really not for cycleway in all areas so we need to think carefully if we need to invest there.

If I had to take a decision I would do a tunnel across harbour to connect North to CBD with funding from overseas contracting company who get paid through toll.

Most of American roads were built via toll system and when it is paid up the toll stops.

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Make it world class facility, Again get an investor based on portion of revenue going to them along with interest till it is paid up.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Proceed only if fund operations are controlled by right people and selling only after boards approval.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

The company that takes the lease may pave the way for better operating model than what we do.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

#2838

Tell us here:

Operating costs should be covered by the income from sources like rates etc if done efficiently.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>

Traffic congestion, build more lanes, reduce bicycle sidewalks, and make room for cars and people on the overpass

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2914

Reduce consultants

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

The buses are always late, and the buses in the southeast area have not been developed to every new area, which is very inconvenient. The bus lanes should be reduced and the lanes should be expanded to reduce congestion. More CCTV within t2 should be built to encourage people to carpool. I don't understand why there are always traffic controls. Even at night when I don't work, I am really speechless. It is right not to increase the height of the sidewalks and bicycle lanes, because most people in Auckland use bicycles and two legs to walk.

2a. Is there anything you would spend more on?

Install CCTV to reduce robbery and driving with mobile phone

2b. Is there anything you would spend less on?

Unnecessary initial project costs

3. Which options do you support for the North Harbour Stadium?

Change the operational management

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.

8. Do you have any other comments?

We do not support the continued increase in property taxes, insurance and other expenses related to people's livelihood. We urgently need to improve public transportation and ensure that the road construction projects that have already started can be completed on time instead of increasing traffic congestion.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Perhaps pay Wayne Brown and private contracted consultants less, and invest it into adequate public transport: buses on motorways, a functioning eastern rail system that extends to Dannemora, rail between the airport and the CBD like every other functioning city centre in the OECD. I'd personally pay to see councillors sit through the 1.5 hours of traffic on SH1 extending from Howick to Khyber Pass every morning,

#3040

or even bear through the 2 hour bus ride the Journey Planner proposes I take twice a day simply to work in the city that I live in.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Quit paying consultants exorbitant amounts of money for scrapped plans.

2. What do you think of the transport proposal?

Do not support most of the proposal

You're removing cycle-way plans? In a city that desperately needs cars off it's roads? Do you not see the gridlock along Greenlane on SH1 at literally any given hour of the working day?

2a. Is there anything you would spend more on?

Rail, cycle-ways (have a look at Wellington - they were made quickly, effectively, and cheaply), frequent express busses that run along major arterial routes and motorways.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I am not prepared to pay more. The current council rates are shocking and still Auckland Council have the gut to increase further? I believe that whatever council is earning now is sufficient for delivering excellent services to Aucklanders if there's no mismanagement or unnecessary spendings! Fu er I tax taken away and now want to punish us another way! Shame on Auckland Council!

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Have a public transport network that works! I couldn't get into town the other day without taking 2 buses and a train. It's a joke when there is a ferry down the Rd that isn't running

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3097

Less of the nice to have stuff. Less free things in parks, Less arts and music. Less free festivals. Less doing up parks to exactly the same thing

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

There should be money for the roads from govt. And use the ferries more. They are underutilized

2a. Is there anything you would spend more on?

Roads! And ferries!

2b. Is there anything you would spend less on?

All the arts and culture

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Make it more of a centre for all sport. Indoor as well

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

The airport is stupid to have money in. Get out while it's still viable

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Makes sense

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Great waterfront area to developed

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No I’m not a bank with an unlimited funds, I’m still waiting to see the reduction in spending from becoming a super city and no rates increases. The amount of promises broken by the council boogies the mind.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3141

stop increasing rates by huge amounts. In these trying times the average person is not getting a pay rise but you keep increasing all our charges, extra for recycling costs but you take less. And the money you have wasted on zebra crossings is absolutely disgusting and you should be held accountable for the waste.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

You have created this problem with all the cost cuts for electric cars, you have completely ruined the process and Aucklands roads are a mess, again the zebra crossings. Not to mention the money wasted on a bus lane between Botany and Panmure for bus companies run by offshore owned companies.

2a. Is there anything you would spend more on?

You've wasted enough you need to held accountable

2b. Is there anything you would spend less on?

Council wages, no public servant should be making in excess of the average paid worker, you do a job like everyone else why should you command over the top wages

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

You have made a direct comment to support the north shore community, just the north shore

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.

Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.

Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective

options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>I don't know</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

Don't support any of the proposal

Tell us why:

The existing transportation system is still available. Facts have proven that the city council's measures to improve transportation are unlikely to have significant results within ten years, and delays in construction progress are common, making it impossible to complete the planned projects. It is recommended to save this part of the expenditure, reduce the economic burden on the people, and keep the wealth in the hands of the people. Only in this way can we guide the people to revitalize consumption, revive the city's economy and create more wealth in the future. Don't worry that the existing transportation system will restrict urban development. The people of Auckland are very resilient. Facts have proven that the people can adapt to the current traffic conditions. Traffic jams are not a problem at all compared to reduced income and insufficient food.

Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Widening of roads and reviews of traffic light phasing. Narrow roads cause drivers to brake a lot, which causes a domino effect and leads to congestion. Our traffic light phases haven’t changed since reducing speed limits and don’t allow free flowing traffic, I suggest looking using AI to predict traffic flow to influence phase flow in the same way that Google maps determines traffic

#3402

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

It seems that a lot of money is wasted during project planning phases on infrastructure, for things which often don't eventuate.

I would suggest a fail fast technique to reduce the cost of these initiatives

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Dynamic lanes are a terrible and short sighted idea, for new drivers and tourists they are confusing.

Keep building cycle ways and bus lanes, yet do so in a way that doesn't cause car and truck traffic to be impacted

2a. Is there anything you would spend more on?

We have a tonne of tax on fuel, levies, gst, import taxes etc, this causes everything we purchase to be hyper inflated. I would think spending money looking for alternative options to fuel related taxes would be a worthwhile investment in order to bring down the cost of living. In the UK, they have toll zones for entering the CBD, perhaps we could do the same for Auckland central traffic to reduce overall fuel taxes

2b. Is there anything you would spend less on?

Harbour crossing plans which go nowhere. Pick an option and do it, so much time and money is wasted mucking around do doing nothing useful

3. Which options do you support for the North Harbour Stadium?

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Selling our assets is a short term cash flow, yet long term expense

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Selling would likely mean that the purchase would be sold to an offshore investor and any taxes paid by them would be minimal to our economy

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I would like the Council to be able to control Auck transport to a greater extent. It is totally out of control and the new Chief executive is not applying sufficient cost control.

#3481

I would like to see greater efficiency applied to the administration within Council. It is totally out of control with staff numbers and remuneration levels. The chief executive should be charged with managing within a budget that does not increase rate levels.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

The wasteful spending by AT is almost criminal. There are so many examples of utter waste and those responsible should be ashamed and held to account. I want to see greater accountability to ensure waste is eliminated. -no one seems to care and if they did why does it still happen.

2a. Is there anything you would spend more on?

There are so many examples where a minor change at an intersection could be altered to improve traffic flow. A person should be allocated to drive around Auckland at various rush hours and see how minor changes would improve traffic flow.

2b. Is there anything you would spend less on?

All raised road crossing should be halted for the next 5 years. The budget for bike lanes should be halved.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

more accessible roads and paths in city centre (e.g. blocked off paths and roads due to construction)

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3559

no

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

driving in the city is extremely difficult and inaccessible, better traffic management would be ideal to reduce traffic while keeping the city easily accessible

2a. Is there anything you would spend more on?

free and more parking in the city

2b. Is there anything you would spend less on?

no

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

8. Do you have any other comments?

The council doing a very good job. However, need to be careful about spending money and some services people if they need it must pay for it. Possibly the rate payer is not happy to pay for it. I noted the council rate increasing every year and council services decrease.

This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>

Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Very Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Very Important
Develop a community-led climate action plan.	Very Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.
