Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

## Hibiscus and Bays Local Board Priorities

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective

**Howick Local Board Priorities**

**7b. What do you think of our proposed priorities for Howick in 2024/2025?**

Not Important

**More specifically, what do you think of each priority we've listed above?**

Review and refresh the Howick Heritage Plan.	Not Important
Review and refresh the Howick Tourism Plan.	Fairly Important

#8591

Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Not Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Fairly Important
Develop a community-led climate action plan.	Very Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	It is my experiences that make me say this.

### 2. What do you think of the transport proposal?

**#8730**

Support most of the proposal

**Tell us why:**

Auckland Transport needs to be accountable for the money it spends. Bus services need to be frequent and reliable to foster public use and confidence, however continuing to run large busses during the day on some routes with only one or two passengers is ridiculous. Cities in other countries manage this by running small busses on these routes. I understand this comes at an increased cost for vehicle purchase, to be passed on by the operator, but I suspect overall this would be cheaper.

Auckland council has for several decades funded the Auckland Citizens Advice Bureaux (CAB). This has resulted in a network of bureaux that support a wide variety of the population. Being a volunteer with CAB I see first hand the important roll this organisation provides. Quite simply many of our clients have no way to deal with the issues they bring to us, and there is certainly no other organisation that can provide

**#8730**

the support that is provided by CAB. I strongly urge Auckland Council to continue funding the CAB.

**Tell us here:**

A diverse investment portfolio would don't included putting all assets in to a trust. It is better to have the asset generating a reliable and stable amount of money on an ongoing basis. Also, locking up the land for 35 years is a bad idea as it removes flexibility. We may need to apply environmental protections against rising sea level etc that we would still have to pay for, while the leaser gets the benefits.

### **AUCKLAND COUNCIL**

### **LONG TERM PLAN (LTP) for 2024-2034**

#### **1. Recommendation**

Auckland Marina Users Association Inc recommends that Auckland Council include an initiative in the LTP to retain haul out and hardstand facilities at Orakei (The Landing) and recommence year round operation.

By including this initiative in the LTP Auckland Council can “GET MORE” as a result of a reduction in the region’s marine bio security risk at no additional cost to the financial proposal. We recommend Auckland Council make amendments to the LTP and action accordingly.

#### **2. Reasoning for this Recommendation**

The recommendation under Item 1 arises from reference to two pages in Auckland Council’s “Long Term Plan 2024-2034 Supporting Information” document and information available to Council and the public.

#### **Reference - Page 299, Key projects: Environmental services**

##### **Bullet Pt 6**

- Marine biosecurity education and engagement programme, including inter-regional marine pest pathway management planning, carrying out increased surveillance and monitoring in relation to marine pests, and responding to new incursions.

##### **Bullet Pt 8**

- Specialist technical expertise, data and information to guide decision making and support the council’s regulatory and policy functions to maintain indigenous biodiversity and manage biosecurity pressures.

And

#### **Reference Page 362, Option 3. Proposal: Resume rate at previously planned level**

**Para 2 – which states** - There would be no funding allow for the management of any emerging threats such as new marine and pest animal incursions. However, the proposal commits \$200,000 of the revenue from this rate in 2024/2025 to be used to support the response to exotic Caulerpa species in 2024/2025.

The references from page 299 and page 362 highlight the focus and importance of cost effective initiatives that will help to address marine biosecurity risks.

The “Clean Hulls” project which is being run in the Auckland region encourages vessel owners to maintain clean hulls to minimise the spread of marine pests. It is clear from MPI guidance and the RPMP that the availability of sufficient suitably located facilities for vessel owners to clean their vessels is part of the system that supports and promotes positive behaviours to reduce the spread of marine pests.

Such facilities form an intrinsic part of “marine pest pathway management planning” and support Council’s “policy functions” and help “manage biosecurity pressures”.

Conversely the removal of such facilities will increase the risk of a marine pest incursion and undermine the ability to meet the outcomes that Council and the government have invested in the Clean Hulls project to date.

Notably, Council has made a substantial investment in the infrastructure required for environmental management of haul out and hardstand facilities at Orakei. There appear to be no significant obstacles to re-establishing a commercially based haul out and hardstand operation at Orakei that does not require additional funding.

### 3. Hull Cleaning and Antifouling Capacity

Auckland Council has received the report “2022 Capacity and Accessibility of Haul Out and Antifouling Services in the Top of the North Marine Pest Management Area” prepared by Ecometric Consulting; which was commissioned by Auckland, Northland, Waikato and Bay of Plenty Regional Councils. The conclusions of the report with respect to a significant shortage of haul out and hardstand capacity to meet Clean Hull requirements in the region are well known to Auckland Council.

In a public deputation to the Planning Environment and Parks Committee in March 2023 AYBA and AMUA expressed hull cleaning and antifouling capacity concerns and asked Council to retain the Council owned haul out and hardstand facility at Orakei (The Landing). However; operations at the facility have since ceased and Council (Orakei Local Board and the Governing Body) appears to have relied on a supposition that “spare capacity” elsewhere in the Auckland region will address capacity concerns. Auckland Council has not provided any substantive analysis or data that demonstrates the suitability or sufficiency of “spare capacity” to address the issues raised by the Ecometric Report.

In January 2024 NZ Boating published an article (copy attached – **Attachment B**) based on capacity concerns raised to Auckland Council by AYBA and AMUA. The table of regional facilities referenced in the article is also attached separately (**Attachment C**) for ease of reference.

## 4. The Marine Bio Security Risk and Importance of Haul Out and Hardstand Facilities at Orakei (The Landing)

The recent TVNZ “Sunday” documentary on Invasive Caulerpa drew attention to the potentially devastating economic, environmental, cultural and social impacts of a marine pest incursion.

Invasive Caulerpa is presumed to have arrived in NZ waters via international shipping movement, commercial or recreational.

The Port of Auckland serves international and domestic shipping and is located in the heart of the central Waitemata harbour area. The port’s neighbours include more than 3500 recreational vessels moored in marinas and on piles.

This situation gives rise to the very real risk that a new marine pest arriving via the Port of Auckland would be rapidly spread by recreational vessels, regionally and inter-regionally.

The closure of haul out and hardstand facilities operated by private sector interests at Westhaven and the foreclosure of any opportunity to develop facilities at Bayswater Marina, means that majority of these 3500 recreational boats must now travel to other facilities in the wider Auckland Harbour and Hauraki Gulf area including Gulf Harbour; or inter-regionally to Northland, Waikato and Bay of Plenty.

This situation is in direct conflict with the objective of national marine biosecurity policy and the RPMP; which is to reduce the risks of an incursion by limiting the movement of bio-fouled vessels. For recreational vessels, that objective can most easily be met through the availability of suitable haul out and hardstand facilities as close as possible to moored boats.

The aspirations of the Orakei Local Board to repurpose the area occupied by the haul out and hardstand facilities at Orakei are well known to the Governing Body.

However; the haul out and hardstand facility at Orakei is the only such facility that is Council owned; and it is located in the central Waitemata area.

Therefore the opportunity exists for Auckland Council to reduce the marine bio security risk and “GET MORE” at no additional cost to any of the LTP financial proposals, by retaining haul out and hardstand facilities at Orakei (The Landing) and recommencing year round operation.

# CLEAN BOTTOMS

**O**n 28 August representatives of several concerned organisations discussed the recent feature article in *Boating New Zealand* – ‘Clean Bottoms’ [August 2023].

Those organisations, including, AYBA, NZMIA, AMUA, YNZ, Multi Hull Association, were unanimous in their concern that the article presented an overly optimistic picture of the facilities needed to maintain ‘clean bottoms’.

The article quoted NZMOA who provided a number of reassuring comments, but it did not answer the key question being posed by owners of Auckland’s more than 9,000 moored boats – is there sufficient capacity in suitable locations to enable boat owners to comply with the objectives of biosecurity policy and Council rules and regulations?

It appears NZMOA did not address the findings of the report prepared by Ecometric Consulting that was commissioned by Northland, Auckland, Waikato and Bay of Plenty regional councils and which had the specific purpose of gathering data on the availability and accessibility of antifouling facilities. That report will be known to NZMOA and was based on data provided by NZMOA members, public facilities and private member clubs to the report’s authors.

In the case of the Auckland region, the report concluded that the region only had 33% of the capacity needed to antifoul the Auckland fleet on an annual basis. The practical inference of that assessment is that the expansion of facilities, off-season application of antifouling and new technology identified in the article needs to be able to deliver three times the current level of antifouling activity – now – not sometime in the future.

The Ecometric report also exposes underlying concerns that the full impact of biosecurity rules and regulations has yet to become apparent to boat owners or the marine industry. Those concerns arise from two factors expected to drive a step change in demand.

Firstly, Auckland Council conducts annual hull inspection surveys. Recent data shows that 47% of moored boats are non-compliant with the level of fouling requirement, LOF2. Auckland Council has openly stated it has not yet issued any enforcement notices. What will happen when it does, and why is Council not enforcing regulations designed to protect and preserve the economic, environmental and social value of the region’s beaches and harbours and the Hauraki Gulf?

Secondly, the four regional councils that commissioned the Ecometric report anticipate that the current average frequency of antifouling is about once every two years and will need to be annual in the future to meet the anticipated level of fouling standards. The consequence of these two factors is an indicative doubling of hull cleaning and antifouling activity.

Of particular concern is the situation in the central Waitematā area, where more than 3,500

*In mid-September 2023 Richard Steel, acting on behalf of Auckland Marina Users Association Inc and Auckland Yacht and Boating Association Inc., sent Boating New Zealand the following Letter to the Editor. While too long for our Letters section, in the interests of balance we agree that these organisations’ concerns deserve publication.*

boats are moored at Westhaven, Bayswater, Orakei and Outboard Boating Club marinas and the nearby bays. Previously served by Pier 21, the floating dock, Orams, and The Landing, only Orams and the floating dock remain.

As a consequence, it seems likely that a large number of boats in the central Waitematā must now travel outside that area to access haul-out and hardstand facilities for antifouling; a situation which is in direct contradiction with the key objective of New Zealand’s marine biosecurity policy and strategy to minimise the movement of bio-fouled vessels. This key objective clearly points to the need for haul-out and hardstand facilities and antifouling services to be located in close proximity to moored boats.

Additional hardstand and increased lifting capacity referenced in the article is great to see and AMUA and other interested organisations are well aware of these changes. However, these new facilities have some limitations. For example, the superb facilities at Tamaki Marine Centre are focussed on stored boats and launches – which is understandable given that access is constrained by the Panmure Bridge with a maximum height clearance of eight metres.

In addition, Orams recent expansion was primarily targeted at serving the large luxury yacht market and the main business of the floating dock is lift, hold and wash with antifouling generally only possible overnight or at weekends.

NZMOA’s comments also seem to contradict its submission to the Orakei Local Board, which together with the NZMIA opposed the planned closure of The Landing on the basis of concerns regarding the need to retain existing and develop new facilities in the Auckland region.

It is also notable that Council officers twice recommended that the Orakei Local Board should retain short stay haul-out and hardstand facilities at the Landing in support of biosecurity requirements.

In the case of Bayswater, it appears the originally planned and consented haul-out and

hardstand facilities at Bayswater Marina were not developed because of the neighbouring facilities that existed at that time. However, Bayswater would be ideally situated to serve the boats moored in the central Waitematā and facilities can still be developed as a permitted activity. An opportunity which seems to be lost on NZMOA and Auckland Council.

It is for these reasons that owners of moored boats continue to question whether the available facilities are sufficient to achieve the throughput required, or suitably located to minimise the movement of bio-fouled boats.

Considerable care has been taken to compile the factual information and data that underpins AMUA’s concerns to raise awareness of these issues. [Richard’s letter included an attached presentation to Council summarising the facts].

AMUA believes that many boat owners are not yet aware of the biosecurity factors expected to significantly increase (more than double) demand for haul out and hardstand facilities for hull cleaning and antifouling; and, given the example of Pier 21, the lack of protection under the Auckland Unitary Plan for existing facilities and suitable locations for any new facilities.

In this regard – and at the heart of the concerns expressed at the meeting on 28 August – were not only the recent haul-out and hardstand closures, but also the increasing land pressures around the coastline and the lack of protection for the remaining haul-out and hardstand facilities under the Auckland Unitary Plan.

Examples cited included the zoning for Orams Marina in the Wynyard Precinct. Orams land area is not included in the marina zone area for Westhaven and is in fact zoned as part of the much higher value Business–City Centre Zone. The closure of Pier 21 exemplifies the desire of landowners, including Eke Panuku, to maximise value from waterfront land when zoning allows. Similar situations exist at Pine Harbour and Hobsonville, which provide some 25% of the now remaining capacity, and where the precinct plans enable higher value residential and commercial use on the land currently occupied by haul-out and hardstand facilities.

In New Zealand’s largest city and where intensified use of the land zoned for residential and commercial activities is resulting in increasing demand on all open space and recreational facilities, it seems a nonsense that Council is not seeking to protect and encourage the development of marine recreational assets for all marine recreational activities and supporting facilities and services.

The following tables detail the basis for capacity concerns, noting that these commercial scale facilities provide more than 80% of existing antifouling activity.

Even if capacity exists in the wider region, boats in the central Waitemata area will be required to travel significantly further as a result of the lack of facilities at Bayswater, the closure of Pier 21 and The Landing and potential future loss of Pine Harbour and Hobsonville to residential development – undermining the key objective of limiting the movement of bio-fouled vessels.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	Do more
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

increase ease of public transport use and its reach. reduce reliance on cars to get around.

More public charging spaces for EVs.

**#8854**

Convert more downtown street parking to Permit parking, to encourage those that can use other methods to use them.

More outdoor events and festivals. especially family friendly ones.

Development of more walkways/ path around waterways. especially accessible walkways.

urban development, but not limited to the central city. develop a few outer suburbs to become destinations.

more extensive cycling paths, especially towards public transportation. with bike parking at the train station to encourage "ride and ride".

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

less park and ride infrastructure. A well-designed public transport system shouldn't require people to drive to the public transport. They should be able to leave their cars at home. Or even better, not require owning a car.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

removing buses from infrequently used routes would make those affected dependent on driving with no options otherwise.

**2a. Is there anything you would spend more on?**

cycleways. there is massive latent demand.

Converting more downtown street parks to permit parking.

converting the more seriously bad roads (Lunn ave, ellerslie highway) into separate through roads and side roads. (with an emphasis on pedestrian friendliness) That way cars that are visiting the locations won't be impeding through traffic.

More EV chargers in council parking buildings. Discounted parking rates for EVs

Bring your own cable type EV chargers in strategic locations.

#8854

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

If its not serving the community. They should get a say as to what the land should be used for,

However I think there is reluctance for people to select this. As there will be fear that it will just be sold to housing developers.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

establish the fund. but the shares cant be sold. Dividends would feed into the fund instead. or if they are sold, The fund would be required to outperform the shares performance. including dividend payouts.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

if leasing the port delivers more cash return over the long run, then something is seriously wrong. There are overheads and profits and massive executive pays when leasing that don't exist when it is operated directly.

I suggest you investigate the pain the chicago is going through after leasing their parking meters. the penalty payments and restrictions on harbour operations havent been made public, so I can't trust that leasing is a good option.

**#8854**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I am concerned that the fund will be used to bail out those who have houses on places that should never have had houses on them. flood plains etc.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

I am concerned that the fund will be used to bail out those who have houses on places that should never have had houses on them. flood plains etc.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

the land is very valuable and should be simple to develop it to deliver more return to the council than a port.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

the land is very valuable and should be simple to develop it to deliver more return to the council than a port.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland is more than just roads, rubbish and drains. We need greater support for the arts and cultural activities, as they assist community wellbeing. East Auckland is poorly served by public transport, much more so than most other areas. Greater effort needs to be made in this area and more services provided.

**#8862**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Employ fewer media consultants and public relations staff. Advertise less.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Cycleways are still important as a means of getting more people out of cars.

**2a. Is there anything you would spend more on?**

Improved ferry services between Auckland and Half Moon Bay. Having express buses that take passengers directly to the city from Howick/Pakuranga rather than, as at present, making people change buses at Panmure. It is a disincentive. Sao Paulo, Brazil, bans people from using their cars in the city on certain days (the days that affect you are related to the last number of your number plate). Cameras pick up offenders using their cars during peak hours on the banned days and there is a hefty fine, which acts as a disincentive to continuing to drive on banned days. This practice significantly increases public transport use and significantly decreases the number of cars on the road during peak times.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

Since 2014, when management of the stadium was transferred to the Super City, it has been very badly managed, much to the detriment of the facility. It is a \$450m sporting asset and the city needs it, especially in that fast-growing area of Auckland. Take the management of it away from Tataki Auckland Unlimited and give it to people who can make it pay its way again and be the gem that it used to be. Also, reinstate the western

**#8862**

half of the ground that those TAU turkeys had removed at a cost of \$2.5m. This is an important community asset that must be kept and properly managed and run.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

It's essential for the council to have a stake in the airport. And it provides a return on investment to help fund other parts of the council's operations.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

It makes good sense to get around \$21.1 billion towards the Auckland Future Fund by taking this step

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Cuts in services hurt the community, so this income should help to reduce the need for cuts.

**4d. Do you have any feedback on any other part of the proposal?**

#8862

**Tell us here:**

The port land should be owned by the people of Auckland. Not sold.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

I favour their use as public spaces, not new waterfront residential or commercial developments. Something to benefit the people of Auckland.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

We don't want more trucks and/or rail freight having to be used because of the reduced wharf capacity.

**6a. What do you think of these proposals?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Water infrastructure

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#8865

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

As a university student, I've always felt the tertiary discount is not enough in the long term. I also feel that, in an ideal world, the government would encourage generally healthy lives, and that means not working at odd hours on top of keeping up with university in order to afford the public transport fee.

### 2a. Is there anything you would spend more on?

Electric buses

### 2b. Is there anything you would spend less on?

Public transport doesn't necessarily have to be fast: reliable and on time is enough.

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

Don't really frequent North Shore enough to have an opinion.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

### Tell us why:

Perhaps it's cynicism talking, but with the current example of what a change in power does to long-term plans set up by the previous government, I feel that there's not much point in creating an 'only touch this in emergency and in situations of legitimate

**#8865**

importance' fund if there is no guarantee that the next power shift won't edit that description to 'feel free to touch this if you can sufficiently justify it to the public'.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

I think leasing the port is not a bad idea, but 35 years is too long. Shorten the time period to something less uneasy to think about. Give the leasees incentive to make the most of a short period of time, as opposed to giving them the idea to entrench themselves.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Again, a 'future fund' only holds weight when it's guaranteed that the money won't be touched for just any ol' reason.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Nope

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

**Tell us why:**

I don't have enough information to give an opinion on whether turning the Captain Cook Wharf and Marsden Wharf over to the council would be good or bad.

#8865

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

I think that generally speaking, an increase in land-based transport is not a good idea in the long term. I would sincerely prefer more effort to be directed at ensuring the maintenance and safety of current ferry services.

**6a. What do you think of these proposals?**

### Hibiscus and Bays Local Board Priorities

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#8877

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

**7b. What do you think of our proposed priorities for Howick in 2024/2025?**

Not Important

**More specifically, what do you think of each priority we've listed above?**

Review and refresh the Howick Heritage Plan.	Fairly Important
Review and refresh the Howick Tourism Plan.	Not Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Not Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have	Not Important

on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	Very Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

**7b. What do you think of our proposed priorities for Howick in 2024/2025?**

Not Important

**More specifically, what do you think of each priority we've listed above?**

Review and refresh the Howick Heritage Plan.	Not Important
Review and refresh the Howick Tourism Plan.	Not Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Fairly Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Fairly Important

#9200

Develop a community-led climate action plan.	Not Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. The council is spending far too much money, and must cut back spending, reduce debt.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9287**

Cut money to Auckland Transport. They are nazis in disguise and are on a fascist course of destroying Auckland. Cut all spending on promotions and iwi. You are required by law to balance the books.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

Cut funding of Auckland Transport. Stop funding cycle lanes where no one cycles. Better phasing of lights will improve traffic flow.

### **2a. Is there anything you would spend more on?**

No. The council must cut spending.

### **2b. Is there anything you would spend less on?**

Auckland transport, cycle lanes and raised pedestrian crossings.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

### **Tell us why:**

Auckland is more than the cbd area the council is focusing on. Give more to the suburbs and regions, and people will not need to go to the city. Who wants to go to the dump that the cbd area is? Not me.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#9287**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The Airport shares are not the council's to sell. They belong to the people of Auckland now. Previous useless councillors and staff have spent too much money, and are now selling shares to fund rubbish. They are an income producing asset.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

If the council cannot make a profit from the port as it is, then how is an outside company able to make a profit, and not the council. Corruption is how.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#9287

**Tell us why:**

The council has shown it cannot manage assets, so leave them as they are.

**5b. What option do you prefer for Bledisloe Terminal?**

## Hibiscus and Bays Local Board Priorities

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

#9287

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

## Howick Local Board Priorities

7b. What do you think of our proposed priorities for Howick in 2024/2025?

Very Important

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	Very Important
Review and refresh the Howick Tourism Plan.	Fairly Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Not Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Not Important
Develop a community-led climate action plan.	Fairly Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

### Hibiscus and Bays Local Board Priorities

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#9439

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

**Howick Local Board Priorities**

**7b. What do you think of our proposed priorities for Howick in 2024/2025?**

Fairly Important

**More specifically, what do you think of each priority we've listed above?**

Review and refresh the Howick Heritage Plan.	Fairly Important
Review and refresh the Howick Tourism Plan.	Fairly Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Not Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have	Fairly Important

on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	Not Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

## **Our submission**

We wish to make the following submission to the Auckland Council Long-term Plan 2024-2034 consultation. We are part of the sport and recreation sector in Auckland.

Our sector is critical in making Auckland a great place to be. We rely on hard working volunteers and build strong communities – Council's support is critical to enable our sector to achieve what it does.

Netball has a strong history in Auckland and remains the largest participation sport for Secondary School aged rangitahi. We provide sporting opportunities for girls and women that is unmatched by any other sport. We are also now catering for an ever increasing group of boys and men.

Our size means we need a large number of facilities spread throughout the city. The support we have received from Council has been outstanding. But as facilities age and demands increase we need further investment to ensure that we can provide the best possible experience for our participants.

Sport has a way of connecting people and our communities together. It is the glue for many communities, we must not lose sight of its importance to the average Aucklander.

We submit that the proposed option to pay less and do less will detrimentally impact the play, active recreation and sport sector.

We submit that the Central proposal for the overall direction of Council's Long-term Plan appropriately balance rates rises with service delivery.

We submit that the Central proposal for Parks and Community will continue to provide a better outcome for the sport and recreation sector.

We **support** the following aspects of the consultation:

- We support retaining the Sport and Recreation Facilities Investment Fund and the strongly support the proposal for \$35 million of additional funding being added to the Fund.
- We propose that the additional \$35 million funding is used to fund a range of community sport and recreation facilities including, but not limited to, indoor sports facilities.
- We advocate for the retention of the Sport and Recreation Facilities Operating Grant and ask consideration for an increase to the Grant. This is particularly important for our largest Netball Centres in Auckland.
- We support Council seeking changes to the law relating to development contributions to enable Council to adequately recover the costs of growth and to use development contributions to fund community sport and recreation facilities.
- We support a review of costs and contractual structure for maintenance on parks and open spaces, specifically for sports fields.
- We advocate for community use of schools and that consideration given to the co-development of schools with Auckland Council to include publicly accessible sport and recreation facilities.

The above factors will all contribute to a better city and make Auckland a beautiful, thriving, and safe place to live.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

The council needs to stick to the basics of what councils were originally set up for. Not funding arts and sports or festivals. these should be fund raised for other than by the rate payer.

#9682

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Don't support raising any of the pedestrian crossings total waste of money.From what I have seen cycleways are never used.Only good around waterfronts.

### 2a. Is there anything you would spend more on?

The rail lines urgently need to be upgraded to a safe standard.Trains are the future as they are not adding to road congestion

### 2b. Is there anything you would spend less on?

Bus shelters.they are just targets for vandals.build the shelters more robustly.the glass is more expensive too.Also planting trees that require less maintenance on grass berms and trees that don't have big root systems that keep damaging the footpaths.

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

Think the stadium for now covers the needs of North Shore.Revisit in ten years to look at selling a piece of the precinct land which will have appreciated ten fold in value to upgrade the stadium

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

**#9682**

**Tell us why:**

Good idea, the council needs to plan ahead financially otherwise we are going to continue to see massive rate increases

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

by retaining ownership and collecting money from the lease will boost the probably much needed money for the Auckland Future Fund

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Auckland needs a savings account to provide for unseen events or good much needed upgrades

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

As Auckland and the country grows, these wharves will most likely be needed.

#9682

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Would be stupid to reduce the scale of port operations

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. 7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

#9682

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

**7b. What do you think of our proposed priorities for Howick in 2024/2025?**

#9682

Fairly Important

**More specifically, what do you think of each priority we've listed above?**

Review and refresh the Howick Heritage Plan.	Not Important
Review and refresh the Howick Tourism Plan.	Not Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Fairly Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Not Important
Develop a community-led climate action plan.	Not Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	Reserves parks and waterways should be the councils responsibility. We don't need a community climate action plan the government has already covered this. Small businesses are better to develop a relationship with their bank.

Transport	Do more
Water	Do less
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would believe that the main one is public transport as it's a mode of transport for so many individuals in NZ and essential

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9701**

Flooding is probable and can happen but possibly other commodities are more of concern

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

I'm all for making buse fares faster and reducing congestion of traffic, however reducing the frequency of buses in outlying regions is something to think about that I'm not entirely with

**2a. Is there anything you would spend more on?**

I would spend more on the availability of buses around our country

**2b. Is there anything you would spend less on?**

Spend less on cycleways

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

This land is currently greatly used but could be available to other uses and for other purposes

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#9701**

**Tell us why:**

All for the money being managed professionally and taken out when needed

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Continue to deliver more profits and dividends and feasibly these investments can be towards future funds at the port of Auckland

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Continue with the proposal of investing in Auckland Future Fund as it's more for the future of NZ and the benefit of our country

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Feasibly more parks and physical attractions and (illegible) to improve our wellbeing like public workout benches

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

#9701

This place is of importance even though there is not significant impact in the value of ports

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

A key place for individuals to use and it's of great use currently.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improved water quality in the Waitemata and Hauraki Gulf. Get rid of road level railway crossings. Restore ferry service during the day and night out of rush hours at Half Moon Bay. Have fenced dog parks with separate small and large dog areas.

**#9733**

Pressure Central Government to front up to sharing more of the cost of maintaining Auckland as it copes with the untoward population growth significantly fueled by their immigration policies and the movement of people from the regions.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Co governance with local iwi. When I read that the Council was at a low level on the continuum in its understanding of the actual meaning of Maori Infrastructure systems, I thought that said it all.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Daily commute times are increasing significantly and traffic outside of these times is much heavier too, making travel for other purposes very problematic. All the green field development e.g. Flat Bush which is poorly served by public transport puts more cars on the road. Then in brown field developments with limited or no parking for residents, eg. Union Road in Howick existing roads are dangerously narrowed by residents cars, parked out on the road.

**2a. Is there anything you would spend more on?**

Mass transport, preferably rail and ferries.

**2b. Is there anything you would spend less on?**

Raised pedestrian crossings. Can't imagine what it's like for the fire brigades and the ambulances responding to emergencies, quite apart from surface drainage control, during heavy rain.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**#9733**

**Tell us why:**

Previously the stadium was used for many events, which generated income to maintain it. When it came under Council control event booking and hiring declined and with it revenue for maintenance. The prioritizing of an area of the complex for a softball league that was dissolved, is evidence of the quality of decision making under council control.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I am in agreement with a diversified fund being established with the proviso that laws are put in place to ensure funds generated are only accessed in a measured and responsible way and not treated as a slush fund. Rigorous legal safeguards must be put in place first.

Also wonder how the council would manage congestion generated by the port operation when they have no say in the day to day operation by the leasee company.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

On the surface, it seems to make sense as it frees up money to invest more broadly. However what would happen if the wharves needed remedial work? Would it then be placed back on the council to pay for that work or the leasee who is using it for their business operation?

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

#9733

Invest in the proposed Auckland Future Fund

**Tell us here:**

The city's needs are like a bottomless pit and you can only spend your money once. If none of it is put aside, to generate more income across a broad range of investments, the city will have spent it on services and when another black swan event occurs, as it surely will, the city will be in no better position than it is at present.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

At the moment the use of this prime waterfront land as a landing stage for car imports and their storage seems a very poor use of such a valuable asset.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

I'm not confident that local politicians have the skills to make an effective decision and actually deliver a viable alternative use that offers amenity and a financial return..

**6a. What do you think of these proposals?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do less
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Taking steps towards sustainable development. More youth funding/support

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Housing/low income financial aid

**#9769**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I do not support additional roads. However, I support trains/light rail

**2a. Is there anything you would spend more on?**

Train/light rail

**2b. Is there anything you would spend less on?**

Roads and buses

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Thinks that is not essential for community

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Diversifying is good prevents risk and may gain profit.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9769**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

We retain property while getting dividends. I believe a lease is not good as the port is an essential part of Auckland and must be kept under council control

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I believe investing it but into Auckland is best as it means we have more liquid money to spend (not locked up) We need the money

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

We need the money coming from ports

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#9769

Tell us why:

Again need financial income from ports

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. ## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
---	--

#9769

Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

#9769

Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	Generally ones on the better transport and environment are good but I do not support the ones on low socioeconomical advancement

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Metropolitan standard of public transport

Fixing congestion issue through limiting car-ownership (levy or fee-controlled gantry, as example)

Higher charges for household who have more than 2 cars (using Rego as a control)

**#9832**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Reduce leisure based activities at this time until we restore the economy

Keep everything as basic as possible (no fancy public toilet)

Minimal cultural events - this should be sponsored by local communities

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Reliable transport infrastructure is an artery for a healthy economic growth. It will have positive environmental impact also. Less personal vehicle means less carbon footprint. Lastly, it is a booster for urban development allowing mobility for all (incl. overseas visitors).

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Port is the frontline of our supply-chain. It is not only an asset, it is a critical gateway allowing the in-out flow of products. Once this is commercialized, we will lose critical control to manage and direct the operations and future of our gateway. This will impact cost of importation, which will translate to higher landed cost of products used and consumed locally. It will also disfavor the exportation with a higher fee, which will negatively impact our manufacturing industry.

Current Port Management has established strong working relationship with the community and the workers. The new management will be a disruption to this harmony.

As an employee of POAL, it is concerning that the Council is even considering to let go the Port. The consideration seems to be short-sighted, without considering other consequences.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

If the dividend can regenerate more fund, we should strongly consider this option. Basic law of multiplication.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#9832

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Bledisloe is a critical part of Port operations serving multi-cargoes and ro-ro shipment. Without Bledisloe, our efficiency and revenue will be severely impacted. This will translate negatively to our dividend to the council.

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off

Not Important

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	Not Important
Review and refresh the Howick Tourism Plan.	Fairly Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Very Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Very Important
Develop a community-led climate action plan.	Fairly Important

**#9832**

Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

Please don't go overboard with environmental related initiatives. While it is important, with the current economy situation, we want to be practical also.

Please control the number of car ownership per household. The number of cars park on the road is horrendous and causing risk in general.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I think Auckland needs to keep growing but spend wiser. We do not need hundreds of cones & 10 people supervising 2 people digging a hole!

### 2a. Is there anything you would spend more on?

Bus & Train services

### 2b. Is there anything you would spend less on?

Cycleways - let them use the unused footpaths. Cones & supervisors of roadworks. look to use smaller buses on routes that aren't well supported.

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

### Tell us why:

This is a great building that should be being used more. Hold more events here.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

## Local board priorities

**7a. Which local board area does your feedback relate to?**

**8. Do you have any other comments?**

I strongly advocate another harbour crossing in the form of a causeway using Meola Reef from southside to approx Kauri Point on north side. See supporting information below. I am writing to promote the idea of a cross-harbour causeway (and short bridge on the northern side). The script below is substantially that of a submission I made on behalf of our local Grey Power committee to Auckland Council last year.

This letter contains arguments against a tunnel and against another bridge from downtown.

**#9880**

The sections which deal specifically with a proposed Meola Reef causeway are in heavy type at the lower end of this letter.

1. Another harbour crossing is desirable (within limits) but not critical. Decentralising Auckland and its functions into New Towns, north and south, would offset many of Auckland's problems.
2. However, granted that another harbour crossing would facilitate motor traffic moving north and south, to and from the city and suburbs, and beyond (to/from Waikato, to/from North Auckland).
3. It will carry some freight but the existing rail line should be upgraded to carry the bulk of freight especially as heavy transport causes road congestion and road damage. The rail line already exists.
4. A tunnel has been suggested. We do not think it a desirable option on account of the huge expense and excessive time to drill through so much volcanic rock (eg basalt). Tunnelling has a dubious history in Auckland on account of gross cost and time overruns. Also, the possibility of further volcanic action and/or earthquakes makes the idea risky.
- 5) We favour an above-ground crossing, relatively inexpensive and relatively direct.

Thus, our proposed route would run from the Waterview Tunnel and across Meola Reef (as causeway) then as a shortish bridge), connecting with North Shore at around Kauri Point. Thence to Glenfield Road. Obviously, at the deepest northern side of that part of the harbour, a short bridge would be necessary, to facilitate navigation.

- 6) It has been estimated that 80% of Aucklanders who live to the north and south of the city do not want to enter the CBD. A Walkable Town Centre is not favoured by business and is not appealing on account of weather for at least six months of the year. Auckland is not called the City of Sails for nothing.

Current plans for another harbour bridge close to the CBD will add to overbearing traffic congestion, air and visual pollution. The same goes for a tunnel. Fanshawe Street and downtown CBD, and the North Shore approaches to the existing bridge are already bottlenecks and it seems unwise to add to them.

**#9880**

We suggest that a new causeway/bridge should aim at channelling people away from existing congested areas, rather than adding to them. In particular, both northbound and southbound traffic from outside Auckland would be grateful for bypassing as much of Auckland as possible. That is particularly true of those residents from north of Auckland who seek a trip to the airport and those from south who want to access the Bay of Islands.

Please consider the Meola Reef option. Meola Reef - Te Tokaroa - is a lava flow which extends two kilometres across the harbour to within 500 metres of Kauri Point on the northern shore. This idea was first mooted in the 1970s and, I believe, was canned as a result of Ngati Whatua objections. Apparently, their ancestors used to fish there. Ngati Whatua are currently very interested in gaining title to Auckland CBD (or part thereof). I think a trade-off would be possible.

**Waitemataa Harbour crossing via causeway and short bridge.**

The Hon Minister of Transport  
NZ Parliament  
Wellington

26 March, 2024

Dear Mr Brown

I am writing to promote the idea of a cross-harbour causeway (and short bridge on the northern side). The script below is substantially that of a submission I made on behalf of our local Grey Power committee to Auckland Council last year.

This letter contains arguments against a tunnel and against another bridge from downtown.

**The sections which deal specifically with a proposed Meola Reef causeway are in heavy type at the lower end of this letter.**

1. Another harbour crossing is desirable (within limits) but not critical. Decentralising Auckland and its functions into New Towns, north and south, would offset many of Auckland's problems.
2. However, granted that another harbour crossing would facilitate motor traffic moving north and south, to and from the city and suburbs, and beyond (to/from Waikato, to/from North Auckland).
3. It will carry some freight but the existing rail line should be upgraded to carry the bulk of freight especially as heavy transport causes road congestion and road damage. The rail line already exists.
4. A tunnel has been suggested. We do not think it a desirable option on account of the huge expense and excessive time to drill through so much volcanic rock (eg basalt). Tunnelling has a dubious history in Auckland on account of gross cost and time overruns. Also, the possibility of further volcanic action and/or earthquakes makes the idea risky.

**5) We favour an above-ground crossing, relatively inexpensive and relatively direct.**

**Thus, our proposed route would run from the Waterview Tunnel and across Meola Reef (as causeway) then as a shortish bridge), connecting with North Shore at around Kauri Point. Thence to Glenfield Road. Obviously, at the deepest northern side of that part of the harbour, a short bridge would be necessary, to facilitate navigation.**

- 6) It has been estimated that 80% of Aucklanders who live to the north and south of the city do not want to enter the CBD. A Walkable Town Centre is not favoured by business and is not appealing on account of weather for at least six months of the year. Auckland is not called the City of Sails for nothing.

Current plans for another harbour bridge close to the CBD will add to overbearing traffic congestion, air and visual pollution. The same goes for a tunnel. I commend this idea to you as Minister of Transport and as a citizen of Auckland.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

maintain parks and reserves

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

fund large sporting events etc.

**#9885**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

public transport that works well is an imperative

**2a. Is there anything you would spend more on?**

ferries and connection with buses

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

having a stadium is important but it does not appear to be managed well

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

the fund sounds OK but selling the airport shares does not make sense to me

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9885**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

profits stay in NZ

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

a bit of both would be good

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Improving public transport is urgently needed and this is a good incentive, however cancelling safety improvement projects such as raised crossing and safe cycleways put the safety of people at risk and should not be cancelled.

### 2a. Is there anything you would spend more on?

Improving public transport and making it more affordable, to increase the usage of public transport

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

The stadium is currently underused, and events at the stadium can be held at other stadiums (eg Eden Park/Mt Smart Stadium) anyways - the location of the stadium is perfect for a medium density mixed used development as it is currently in close proximity to Westfield Albany and the Albany Village, as well as a frequent public transport link in the nearby Albany Bus Station. The opening of Rosedale Busway Station would further improve public transport connections to the North Harbour Stadium area.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Using the Captain Cook and Marsden wharves for public benefit will create a better space around the Downtown/Britomart areas, incentivising more people to visit this area and benefiting commercial areas nearby.

**5b. What option do you prefer for Bledisloe Terminal?**

#9904

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9912**

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

The UN for environment recommends that for transport budgets, 20% of it at least is invested in walking and cycling however right now, Auckland transport has less than 1% of their budget invested in these facilities.

### 2a. Is there anything you would spend more on?

Building an safe and integrated cycling network which can use existing road space and improve both congestion, pollution and boost productivity.

### 2b. Is there anything you would spend less on?

Take out funding for widening roads as this approach doesn't work and give the funding to walking, cycling and public transport as these methods are both more affordable and create a more efficient transport network than road widening. In addition to being more space efficient.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

North Harbour stadium has been under used for a long time and is inaccessible to most of Auckland so the operation costs of the stadium is unsustainable. A new boutique stadium that 8-10k would be much better use for the stadium and there could also be the creation of new facilities around the stadium due to the space that has been removed.

### Hibiscus and Bays Local Board Priorities

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#10041

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#10051**

We believe Council should focus entirely on core services, and reduce the "nice to have" social services and economic development proposals such as entertainment. For these things there should be more user pays

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

It contains too many platitudes, and seems unlikely to deliver the benefits claimed. Traffic management should be reduced.

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Yes - raised pedestrian crossings; unnecessary roundabouts; reduced speed limits; excessive growth reducing visibility on some roundabouts; Cut some of the charade of consultation if AT does not really listen.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

But no additional stadia to be constructed. More scope for full cost recovery at all stadia through user pays

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#10051**

**Tell us why:**

If the cost of debt servicing exceeds the revenue generated by AIAL shareholding and ports profit distribution then it makes no sense to retain these investments

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

We believe it is essential for Council to retain the land asset. A Landlord Port model is preferable to a lease since it does not require Council to purchase and own assets used in operations. We believe the long term future of the port should reflect any strategies that are developed through an Integrated National Ports Development Plan, to be funded by Central Government. Introduce benchmarking of comparative port operations to determine efficiency

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#10051

**Tell us why:**

But not a new stadium, which would then most likely require subsidies!

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

AT - stop all the raised pedestrian crossings and reverse speed restrictions. We have to keep Auckland moving. The cost of slowing traffic effects GDP and business in general. Reduce road cones.

Music in the parks and a lot of the community events should be reduced - we cannot afford these.

Rubbish bins need to be collected on a weekly basis

Too much money has been spent on the Maori strategy and governance including Maori language signs - the Government and Council has not taken people along with them in the Maorification of NZ - we are one people and should all be treated the same. There needs to be a reversal of this - too much money is being spent that we cannot afford. The involvement of Iwi is slowing down progress and adding considerable cost to the Council.

## **2. What do you think of the transport proposal?**

Support all of the proposal

### **Tell us why:**

We have to improve transport around the city. We need the pay more / get more option.

One point that needs consideration is we need compulsory third part insurance on all vehicles - this change would reduce the number of vehicles on the roads and encourage greater use of public transport.

### **2a. Is there anything you would spend more on?**

Parking wardens need to be increased after you get a lift in parking fines from Central Government. Parking fines are far too low - a fraction of the cost of parking buildings in the city.

We need the east west connection from Onehunga (SH20) to Penrose & Mill Road upgrades.

Improve traffic congestion on Pakuranga Highway

### **2b. Is there anything you would spend less on?**

**#10120**

Road cones - there use needs to be substantially reduced - we never used to have them. This slows traffic too much and increases the cost of everything.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

Currently not being utilised

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Ok for the tranfer of AIAL shareholding

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

The idea is conceptually good but it depends on the terms of the lease for the port. Don't want this to be owned 100% by foreigners - maybe restricted to 50%

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Infill housing is progressing in our local area without the infrastructure to support it. We don't have good useable public transport. Resource consent is being obtained for sites when there are so many breaches of council rules. We need good urban planning and not so many houses crammed into sites.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We need more cycle lanes. The city is growing at a massive rate and filling it with cars is no longer a sensible option.

**2a. Is there anything you would spend more on?**

Public Transport

**2b. Is there anything you would spend less on?**

Roads

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

The city is growing exponentially.

That stadium will be very important in the future

.Reducing the space around it is short term thinking

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#10131**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

This is an Auckland Asset. Moving public assets into the private sector is not and never will be acceptable. Again short term thinking for long term pain, There is no long term benefit in this proposal. I hate it

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Again this is an extremely valuable Auckland Asset which will continue to grow in value. Flogging the port operation to private companies will increase costs to Auckland and NZ consumers and quite frankly is insane,

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

That's what its for. Investing back into the city.

**4d. Do you have any feedback on any other part of the proposal?**

#10131

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

I see no reason to weaken the port operation. I see it as an integral part of the city and imo opinion shifting it is absurd.

5b. What option do you prefer for Bledisloe Terminal?

Tell us why:

It provides public benefit now.Its important to the port operation and the value of the port. It stays

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Not prepared to pay more for anything. Why should we pay for the mismanagement of this council. The area I live in lacks pavements and walk ways. School kids run a gauntlet everyday trying to get home. The council still has not provided us with safe pavements while our leader plays golf!

**#10144**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Yes less golf and more focus on the residents who already pay eye watering amounts of rates. Our pay has not caught up with inflation yet we pay crazy mortgage rates, insane insurance rates and now we are being asked to pay more rates! Has the mayor taken a pay cut? We should pay the councilors LESS that's what we need to do less of! Why do we need a mayor when we have an MP for Auckland? Is the mayor doing such a bad job? I think this question has already been answered with an Auckland MP's existence. The mayor should go and we'll save some money right there.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Public transport is way too expensive and extremely unreliable! Trains just suddenly stop with lame excuses. The mayor needs to communicate with AT and find cheaper more reliable modes of transport instead of expanding an already unreliable expensive network. In my suburb kids walk home from school on roads with no pavements. Council does not seem to care for their safety. I have seen council cars go past the road in question and they turn a blind eye.

**2a. Is there anything you would spend more on?**

Pavements and pedestrian crossings where they are needed like in new suburbs. Some streets have 9 traffic lights in one small stretch but some new areas have none.

**2b. Is there anything you would spend less on?**

Traffic lights in areas that already have plenty. This is part of the mismanagement we need to get rid off. Focus on safety around schools and pavements where there are none

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**#10144**

**Tell us why:**

It can be better used for the community if it is sold. Redevelopment could lead to more income for the area and better use of the area.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I would rather this proposal than to pay crazy high rates

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The wharf needs new management. The council has not done any great things to generate more income at POA for some time now. Plus we do not want to pay more rates so leasing POA would help lessen the rates rise then please go ahead.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

We would not like to pay crazy increases in rates. Hope you got the theme here. Anything to lessen the blow of struggling households would be great. It is difficult

#10144

enough to put food on our tables whole mayor is on the golf course and mismanaging our city then asking us to pay for it.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Yes the heart of our city is becoming a dead zone which is not safe at night any longer. New suburbs have come up generating lots of rates for the councilors yet these new areas lack the safety of pavements and pedestrian crossings. Someone is failing at the job.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

We don't want to have to pay for this. You are asking us to pay more rates so you can spend it on projects like this when people in Auckland are feeling less safe.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Looks like the council wants to run the port out of business instead of stimulating the port to work better at being a port. Closing this down means trucking more goods in the city, putting more stress on an already struggling transport system. The councilors should see this and not be proposing such ridiculous changes. What are they doing?

Not so much reduce, but get more credible consultants, be efficient on each consulting would result in less overall consulting thus saving money. Too many projects cost too much on just consulting alone.

**Tell us why:**

A lot of our youth rely on public transport, however struggle to go from place to place due to having to catch so many buses. However increasing prices is not the solution. Kiwis are already struggling.

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

#10214

Support most of the proposal

**Tell us why:**

I feel that cycleways should still be added as cyclists affect the way that traffic runs and this will decrease the amount of incidents.

**2a. Is there anything you would spend more on?**

I would spend more money on public transport for students as this does become quite expensive

**2b. Is there anything you would spend less on?**

I would spend less money on road workers as most just stand around taking away resources from other services

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

I feel that this is a community sport that should be kept as is as changing this will change the dynamic of the community.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

I don’t know

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#10239**

Support most of the proposal

**Tell us why:**

Decreasing traffic across the country (supporting faster traffic)

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

The \$33 mil is not worth a single stadium and could easily go to more significant causes (healthcare, infrastructure, transport etc.)

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

#10239

Lease results in large risk of losing money, private sector may not be reliable

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

Depends how much income/profit ports are providing

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

**6a. What do you think of these proposals?**

### Hibiscus and Bays Local Board Priorities

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#10239

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#10328**

Less bike lanes taking up space that could be better used. Stop putting bumps at every pedestrian crossing

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We need to introduce a congestion charge for the inner city.

**2a. Is there anything you would spend more on?**

Finding out why our roading development is so expensive compared with other OECD countries. Get rid of all the unnecessary cones and people when minor maintenance, mowing, building etc. takes place.

For too much disruption due to absurd OSH rules.

**2b. Is there anything you would spend less on?**

Cycle ways and other notions that hold up the free flow of traffic.

Closing off/restricting roads for minor roadworks.

Other

**Tell us why:**

#10328

I oppose the future fund or selling the port operation or airport

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Move the container port from downtown Auckland.

A new container port in the Firth of Thames north of Kaiaua makes sense. The flat land access to the south for rail/road would not only free up Auckland roads, but would allow provincial development at Thames/Ngatea and the Hauraki plains.

It would reduce the need for roading development in Auckland. Water transport using barges carrying up to 6 containers could serve many areas round Auckland using existing boat launch ramps. Auckland has a network of waterways unused now, but used in the past. Road usage by container trucks would be kept to a minimum and reduce the associated carbon emissions.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Move the container port. Develop the areas for multiuse and tourism keeping cruise ships in downtown. Develop ferry services with many more stops rather than bus services. Look to Sydney and see what they have achieved in the past 50 years.

### Hibiscus and Bays Local Board Priorities

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective

options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.	

**Tell us why**

**7c. What do you think of the Hibiscus and Bays proposed priorities for the 10-year budget 2024-2034?**

I support most priorities

**8. Do you have any other comments?**

## Howick Local Board Priorities

7b. What do you think of our proposed priorities for Howick in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	
Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association	I don't fully understand all the effects and consequences of supporting or not supporting these proposals therefore I've remained unbiased and haven't given an opinion for most sections.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Train in east auckland (howich, flat bush , pakuranga)

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cut the unnecessary staffs in council.

**#10554**

Cut watercare offices

More effective and efficient project, so many staffs on the road just sleeping (10 people hire but it's only 1-3 people working) that's why the project take too long and spend a lot of money

## **2. What do you think of the transport proposal?**

Support all of the proposal

### **Tell us why:**

The better public transport, the less congressional the road and save petrol, save money, better for environment.. can you see 89% only single person in the car? Why? Because public transport is horrible ridiculous bad, the timing , the frequency, the service, often canceled

### **2a. Is there anything you would spend more on?**

Public transport. Widening the road is not the solution. The solution is take the car from the road. Auckland just 1.4 Million but traffic is like 10 million people city

### **2b. Is there anything you would spend less on?**

Unnecessary project like cycling line

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

Because operation at the moment is not well manage. The management should plan before to raise the fund to upgrade the stadium

**#10554**

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Increasing rates should be depend on the area. For example, if the project to build west area, the west area rate only should be increased, if north shore project should be north shore residents to pay. It's unfair to increased all areas but only to develop certain area.

## Howick Local Board Priorities

7b. What do you think of our proposed priorities for Howick in 2024/2025?

Not Important

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	Fairly Important
Review and refresh the Howick Tourism Plan.	Fairly Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Not Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Not Important
Develop a community-led climate action plan.	Fairly Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	The most important now for howich residents is road congestion. The priority should be how to ease the congestion. Public transport is the worst compared with other area like north shore or west. They keep developing west, when the east will be upgrade?????

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More sports and recreation focus

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#10555**

City CBD focus should be shifted now to developing more wider areas across Auckland so less burden at one place.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Public transport needs to be more agile. The current setup has lot of chances for break down so need some evaluations on how things can be done so decisions are made quickly.

**2a. Is there anything you would spend more on?**

Making public transport more available on weekends. People should be able to enjoy with family on public transport on the weekends. Currently its a fail.

**2b. Is there anything you would spend less on?**

Cycleways. Its not safe to be on the road but we dont have enough cyclists to make it a prudent investment.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Spend money wisely at the front line services, like drain unblocking and cleaning,

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#11006**

Stop wasting money on consulting, we need people to do works not just talk about works.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Stop wasting money on unnecessary road resurfacing and plan work wisely together to minimize labor and repetitive road works. Compare price of contractors for better work and value for money.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

All supposed tax increase or new charges for congestion is not going to help with the traffic condition. The current public transport is so unreliable and expensive!!

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#11006**

In the long run, all of the assets or investment would increase in value, Sale them for money is so short sighted.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

The CBD is not going to get better regardless what plan to choose if the crime rate stay high like this.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#11006

Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.

Do not implement the Burswood Deviation of the Eastern Busway. Reasons -

**#11113**

- it is a costly solution, that is also not effective, because it prioritises keeping the main road of Ti Rakau Dr available for cars.
- Putting a bus lane each direction on Ti Rakau Dr using the existing road would be much cheaper and would be more effective because the buses would be able to travel more efficiently than the cars along that section of the road network.

## **2. What do you think of the transport proposal?**

I support increased cycling opportunities. Also reducing vehicle speeds, as a blanket proposal with permanent signs. I note your own research demonstrates that slower speeds saves lives. I moved to Auckland from overseas last year. In my home city in the UK many road speeds for residential roads were reduced from 50-30kmph ((30-20mph) and it has been successful and positive.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Prioritise fixing the water issues, specifically the issues that cause our beaches to be unusable following rain.

Improve ferry services, make them more frequent and more accessible - water is a fantastic asset for Auckland yet we don't take advantage of its benefits for public transport.

**#11182**

Keep our public spaces clean and tidy. Do a proper review of rubbish bin placement.

Champion environmentally friendly activities and highlight the benefits of being green as a city.

Consider a congestion charge at peak travel times BUT implement policies that ensure workers who are required to travel are paid for by their company.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop wasteful spending on contractors who are openly flouting their lack of respect for public money. Crack down on contractors who are charging outrageous amounts for very little work

I personally know contracting companies who contract to AC who allowing wasteful spending to occur, not providing quality service and then charging the council for this poor service.

Support most of the proposal

**Tell us why:**

We need to stop putting in lower speed areas and raised pedestrian crossing when there is no relevant risk assessment to support these activities (and they sit on the bottom of the hierarchy of controls anyway). We need more dynamic public transport options.

**2a. Is there anything you would spend more on?**

More ferry services to and from half moon bay!

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**#11182**

**Tell us why:**

We need to reduce spending on limited use spaces for the moment.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

I think this is a complex proposal and I don't feel comfortable commenting without further information.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Leasing the port operation is probably a suitable solution currently. We need to do some significant capital investment into Auckland now.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

#11182

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

We need more nice public spaces in downtown Auckland. If these areas provide little benefit to the port they should be utilised for public spaces, restaurants, bars etc to help make Auckland a more attractive place to visit.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

I think maintaining options for our existing port operations is important. Its the one thing we can do to ensure we don't clog the roads with more trucks than necessary to transport goods into Auckland.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off

7b. What do you think of our proposed priorities for Howick in 2024/2025?

Not Important

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	Not Important
Review and refresh the Howick Tourism Plan.	Fairly Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Fairly Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Very Important
Develop a community-led climate action plan.	Fairly Important

#11182

Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

These priorities seem out of touch with what the general east Auckland public is interested in. Also I would rather see tangible efforts going into some of these issues (i.e. pollution clean up) rather than "education". Equally why is tourism and heritage a priority when we have transport, climate and environment concerns which are far more pressing and urgent. We want a nice community environment to enjoy together, bringing in more tourism and highlighting our heritage isn't going to help.

**Tell us why**

I support the increase in public space tree coverage, advocacy around ensuring suitable infrastructure is in place before approving intensification and the climate related priorities.

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#11237

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Council needs to focus on core services - roads, drainage, rubbish, parks.

Cut back overheads and cultural and social programmes

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Council should not be building expensive busways like the Eastern Bus Way.

Initial just have a bus lane in the left hand side for the am and pm peak.

Then as demand grows widen the road and again have a am and pm peak bus lane.

Make the most the road corridor instead of building expensive separated corridors.

Also widen footpaths to have shared cycle paths and footpaths - not expensive separated cycle paths

Stop putting in speed humps everywhere - just have 50 km/hr speed limits.

**2a. Is there anything you would spend more on?**

Stop painting the buses and pedestrian crosses with rainbow colours - why is AT promoting a sexual lifestyle.

**2b. Is there anything you would spend less on?**

More efficient procurement - ensure that ratepayers get the best price.

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

**#11396**

Look at selling it for development - mixed housing / sports centre etc.

If Council does the development it will cost ratepayers money.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

In the long term climate change policies are going to stop flying.

Best to sell off now while we can get a good price.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Council should not be involved in running a business - they cannot take commercial decisions.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Council needs to look at cutting back costs and living within a budget that ratepayers can afford.

**4d. Do you have any feedback on any other part of the proposal?**

#11396

**Tell us here:**

Council should not be involved in development - they do not make good commercial decisions.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Council cannot run a business properly.

Best to lease the Port Operation to a company to make money

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Keep the asset but lease the busienss.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Howick

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.</p>	<p>The Local Board should not be involved in propping up businesses.</p> <p>Heritage protection is already covered by the Unitary Plan</p> <p>Local business should promote tourism</p> <p>Industrial pollution is already covered by Council enforcement and the RMA</p> <p>Climate change should be a regional programme lead by Council- planning rules etc.</p> <p>Local businesses should sort out their own collective</p> <p>Instead the Local board should focus on maintaining our parks and stop removing rubbish bins.</p>

**Tell us why**

Looking after our parks

Maybe a town centre upgrade when required - 2030 time frame

Auckland Transport looks after the roads

Watercare looks after water and Wastewater

Council looks after stormwater and rubbish

Council planning rules look after the shape

**7c. What do you think of the Howick proposed priorities for the 10-year budget 2024-2034?**

**#11396**

### **8. Do you have any other comments?**

Council needs to look at cutting back costs and living within a budget that ratepayers can afford.

Council should be getting out of all risky development work - such as Panuku

Also look at selling off all carparking buildings to be run privately.

The buildings are getting old and need refurbishment to get the best use of the site- Civic, Fanshaw St, Victoria carpark, Upper Queen St, all open carparks around shopping centres

Free these areas up for mixed use development - sell them with development conditions.- parking, business and residential etc.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Find alternative ways to develop infrastructure e.g. use private-partnership-driven infrastructure development and pay only the usage fee over a long period say 50 years.

**#11551**

Cut unnecessary overheads, reduce administrative costs, reduce the level of bureaucratic hierarchy, improve operational efficiency, be a realistic service provider rather an idealistic one.

## **2. What do you think of the transport proposal?**

Don't support any of the proposal

### **Tell us why:**

Auckland Transport is incapable of improving any network and services, wasting rate payers' money, costing everything too much, irresponsible and bureaucratic behaviour. Abolish AT. A small unit in the council should manage the transport sector using the private developers. The Users must pay the operation costs. In other words, the service providers must realise the expenses from the users. Why the rate payers bear the operational costs?

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

Auckland Council must be operational cost neutral from user pays. Rate payers must not bear operational costs.

New Infrastructure development must be done via development levi from developers, long-term debt and private investment.

Rate payers shall only support the infrastructure maintenance costs.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

### **Tell us why:**

The Council must retain its properties for future generations. Do not sell everything as you do not have idea how to use it efficiently.

**#11551**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

All council-owned including AIAL, port, etc. income generating assets must be managed by experienced private portfolio manager(s), contracted via tendering.

The Council must not sell any assets but use all the earnings for infrastructure development. These incomes must not be used for operational services.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The Council is an inefficient organisation. It's plan will never deliver an improved profit as it lacks business acumen. Leasing out is the better option as it still keeps the ownership for future generations to decide.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

The Council must use any proceeds from its assets for infrastructure development or invest in income-generating portfolios. The council must not use any investment income to meeting its operational costs.

**4d. Do you have any feedback on any other part of the proposal?**

#11551

**Tell us here:**

Future fund CCO will establish another self-serving bureaucracy. The Council is already struggling to manage the current CCOs and must refrain from creating more and more bureacracies and overheads.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

The Port should maintain the existing facility to enable expansion rather than reduction to meet future needs.

The Council should avoid developing residential facilities and must focus on building commercial facilities in the inner city centre.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

The Port should maintain the existing facility to enable expansion rather than reduction to meet future needs. Auckland Port should have capability and capacity to meet the needs of the country.

The Council should avoid developing residential facilities and must focus on building commercial facilities in the inner city centre.

Council support	As proposed

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#11708**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

We have a good public transport system, despite the sometimes negative publicity, but I would like to see even more investment in the region's public transport network and any improvements or new initiatives that need to get underway. The region is continually growing and we need to enhance anything we can to make it easier for Aucklanders to get around.

**2a. Is there anything you would spend more on?**

I would like to see better public transport links to the Auckland airport/s. This not only will make it easier for Aucklanders to commute to the airport but also for the increasing number of tourists that are visiting our amazing region.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

If it is not viable to keep the stadium in council ownership, I think, given the financial challenges it should change ownership and possibly be developed.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**#11708**

I support the idea of having an investment fund that is set aside for a major event or perhaps, if we can, keep it for future generations, not sure if this would be viable, but I definitely support this idea, it makes good business sense.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The perception I have is that the Port has not done as well as has been expected under the current model. So, this should be reason to try something different, as long as there are some measures put in place to protect the environment and even enhance public access to the waterfront.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#11708

I know there is trade-offs here, but I am leaning towards making some of the space available for public use. We have seen a real increase in tourism, post-covid, so I think it is important to recognise that this is also a revenue stream for the city. Ma

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

It is a balance, of keeping the Port financially attractive versus, public space.

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The port produces a poor return on capital and improved profitability is a fantasy. If it could be done it would have been done already.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No, living in Auckland is already expensive and the services we are getting isn't upto the expectation why we should pay more? shouldnt the Council looking at saving?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#12133**

Yes, in terms of culture spending, the time is tough for most ppl, so this should be cut back so the fund can redirect to other needed area.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Cycle lane was waste of money and cause of congestion, since it was rarely use during the Monday to Friday... but it took out extra lane from exisiting road... its not really ideal....

**2a. Is there anything you would spend more on?**

reduce bus faire. it cost almost the same as driving in to work now, a round trip to city cost almost \$15, with \$3 more a day I can get a parking in CITY, hence by reduce the bus faire would stop people to drive into city.

**2b. Is there anything you would spend less on?**

Cycle lane

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**#12133**

I don't understand, why are you keep trying to sell off your assets? you do understand that once its sold it will no longer get it back... also airport is long term investment should hold it for as Long as possible. by the way its the only airport that international traveller come to NZ, shouldn't we tax or create revenue from it?

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Optimize the allocation of social services and improve efficiency. The main problem of the city council and municipal government is not the lack of resources or funds, but the bloated allocation and low efficiency, which leads to a lot of resources being wasted. Although it is good to use funds for specific purposes, when the purse strings are tight, let's consolidate them! ! The city council should also think about whether it can use the

#12258

cruise economy and event economy to attract external income, and stop always trying to collect funds from citizens.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

What I like about the current mayor is that he has done more. The mayor and the council are not like the past two mayors who would build empty white elephants. They should do fewer empty projects and plans, because there is no money now, so they should repair instead of replace as much as possible.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Transportation does need investment. Auckland's transportation is too old and its design has long been unable to keep up with the city's development. I understand that the city council wants to develop public transportation, but please ask everyone in the city council why you use public transportation? Is the bus cheap? Is it on time? Is it convenient? The answer is no. Therefore, no matter how well the bus is built, it is actually a waste if the cost is high due to low utilization. Think about how to subsidize public transportation so that its fares can be more competitive than driving. If you only focus on how to make driving more difficult in order to promote public transportation, it will basically be counterproductive. Look at Queen Street, the commercial center of New Zealand, which is a microcosm of the economy.

**2a. Is there anything you would spend more on?**

It is suggested that a government-led public transport system advertising company could be established to subsidize bus fares with advertising revenue. As the population increases, some of the original suburban roads need to be upgraded. If there is surplus funding, it might be worth considering building new roads. Auckland's traffic is transitioning to rely on highways. If some high-speed electronic boards can be used to provide information to drivers, the cars on the highway can be diverted to branch roads.

**2b. Is there anything you would spend less on?**

**#12258**

There is actually not much that can be reduced in terms of traffic, because there is still a lot that cannot be done.

### **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

#### **Tell us why:**

Attracting different concerts, sports events, renting it out to the public, etc. to maintain operations. In fact, geographically, North Harbour Stadium is more suitable for large-scale events than Eden Park and Mt. Smart, with more parking spaces and more advanced surrounding facilities. Selling and developing real estate is actually short-sighted. It may be better to use it to develop more surrounding economies.

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

#### **Tell us why:**

Although selling shares can accumulate a certain amount of funds in a short period of time, it is not wise to sell a "goose that lays golden eggs". You can try the leasing business, and optimize the airport facilities to make it more efficient. As the first airport in New Zealand, it can bring good economic benefits to Auckland's economy. Setting up a fund is a good thing in the long run, but how to use it well and make it profitable requires the wisdom of the fund manager.

### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#### **Tell us here:**

**#12258**

In fact, leasing the port operation rights is beneficial to the city council, and it also makes the port more efficient. At the same time, the city council can also participate in the port operation as a shareholder. Because it is separated from the main role of the city council, it can also participate in the development of port business in other regions, thereby increasing revenue. For New Zealand, more ports that can operate efficiently are more important. Secondly, the freight terminal in the city center is actually a big commercial waste. When the Port of Auckland has the resources to leave the freight business, the development of the cruise economy may be more suitable for the current role of the Port of Auckland.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Money making money is what you should do.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The operation of the port itself should be left to private individuals. I have no objection to this.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Developing the cruise economy may be more practical. Since houses cannot be built on this land and the supporting facilities for holding exhibitions are not good, developing the cruise economy may be more practical.

#12258

**5b. What option do you prefer for Bledisloe Terminal?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

Review and refresh the Howick Heritage Plan.	Fairly Important
Review and refresh the Howick Tourism Plan.	Very Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Very Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Very Important
Develop a community-led climate action plan.	Very Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No, we cannot afford anymore rates increase, all rates general rates and dog registrations everything is costing us our lives. Stop everything do the bare minimum stop robbing us and destroying our lives.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#12463**

Everything, stop paying ELT and EM high wages they should all be capped at \$200,000. Do the absolute minimum so rates can stay down. No more fancy projects just get the statutory requirements done and leave us alone.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

It's costing us our lives

**2a. Is there anything you would spend more on?**

Nothing bring the costs down. Show us what you are going to cut so we spend less on rates.

**2b. Is there anything you would spend less on?**

Everything. More so ELT and Elected member salary.

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

Sell it so we can have money and stop increasing general rates

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#12463**

**Tell us why:**

Stop it wasting time. Look at initiatives to save rate payers from dying trying to keep up with these \*\*\*\*\* payments

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

#12463

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

## Howick Local Board Priorities

7b. What do you think of our proposed priorities for Howick in 2024/2025?

Not Important

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	Not Important
Review and refresh the Howick Tourism Plan.	Not Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Not Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Not Important
Develop a community-led climate action plan.	Fairly Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase frontline services such as healthcare and biosecurity. Biosecurity in the airport is severely underpaid in this sector and they do a lot protecting our country from unwanted pests and weeds.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#12639**

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

We should be doing more than increasing the amount of lanes on our highways and roads. We need to prioritise on public transport and active modes as this will make Auckland a safe place to live and more eco-friendly ways will further attract people to the city.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

I would like to spend less on public transport and less on petrol. Better to increase the rates applied to electric cars as they are the ones damaging our network more.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#12639**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

My feedback would be to increase frontline biosecurity services and healthcare services for Auckland. Also increase public transport would be a great idea to implement. Biosecurity services are the most important at the moment and staff working in this field is underpaid based on the work they do. I would want central government and council to increase pay for people working in all frontline services and make sure that public transport is well funded for our communities.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Develop a community-led climate action plan.	Fairly Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. Frontline services are the most important and it would be great if funding is allocated to frontline services so people employed within this area get paid more based on the work that they do to help communities around. Public transport and active modes would be better prioritised over building new roads.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I don't support further investment in changes to public transport as it seems impossible to make it efficient or effective in Auckland. Bus lanes should be able to be used by cars during off peak hours. In particular, the Panmure bridge. Millions of dollars were spent to build a two lane bridge which is only used by buses - why wasn't eliminating the dangerous old 3 lane car bridge included in the proposal? One large 6 lane bridge should have been built, with 4 lanes for cars. Stupidity in the extreme.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Having well-functioning, climate-resilient public transport infrastructure is absolutely vital to Auckland becoming a world-class city. I am all for improving trains, buses and ferries.

We should also be thinking about cycling initiatives and bike lanes!

I absolutely oppose creating more roads. This will only worsen the congestion we already face. Make more space for trains, buses, pedestrians and cyclists.

**Tell us why:**

**#12737**

I have some doubts about the value of the Future Fund. In theory, I think it's a good idea for us to diversify our funds and get better returns on our assets. I am not convinced that selling all our airport shares is the best way to do this.

I also do not support the long-term leasing of the POAL.

**4b. Which option do you prefer for the future of Port of Auckland?**

Review and refresh the Howick Tourism Plan.	Very Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Very Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Very Important
Develop a community-led climate action plan.	Not Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	These aren't the priorities I thought were listed in our local board plan? Where is the continued advocacy for Flat Bush community centre and library? Where is the focus on Botany/Flat Bush/Ormiston? Where is the focus on improving tree canopy cover, focusing on coastal erosion and inundation, and all those other priorities?

**Tell us why**

I support the priorities that are on pg 118 of the consultation document (the left column) - I have no idea where the right column came from, and I've never seen them in any Howick local board consultation document recently.

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I support further investment into a surface light rail rapid transit network starting with a route from the City Centre to Mt Roskill, and then further expansion to Onehunga, Māngere and other transport corridors such as the North-Western and Northern corridor. Any busway development along the North-Western corridor should be future-

**#12857**

proofed for surface light rail upgrades. Consistent work over the last decade, reflected in Auckland Transport's Auckland Rapid Transit Pathway 2023 report, has shown that to effectively address Auckland's congestion issues we cannot rely solely on a bus network. The busiest bus corridors in our city are already reaching capacity, and the long-term plan should reflect that reality.

I believe surface light rail should only be funded from Britomart to Eden Terrace first due to cost and as a preliminary route.

Additionally, I support Auckland controlling its own transport priorities. An "Auckland Deal" provides the means for central government to support Auckland Council's priorities, rather than the other way around. A surface light rail network would provide opportunities for growth, development, and productivity in the city. I believe this should be included in the "Auckland Deal" with central government. I urge Auckland Council and the Mayor to make the development of a surface light rail network, starting with the City Centre to Mt Roskill line, a priority in such a deal.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I do not fully support this plan as it does not include investment and commitment to a surface light rail rapid transit network. Any work on a busway in the North-Western corridor should be future proofed for surface light rail and there should be commitment to surface light rail along the City Centre to Mangere corridor, starting with a City Centre to Mt Roskill line. I worry without this we will not be able to address Auckland's congestion issues as projected growth in these corridors would require higher capacity transport modes such as surface light rail.

**2a. Is there anything you would spend more on?**

I want to see Auckland Council spending more to develop a surface light rail network, with a City Centre to Mt Roskill line constructed as a priority. There has been significant design work done by Auckland Transport and Waka Kotahi on surface light rail pre-2019. Adopting these plans will allow any work to be fast tracked with only minor updates and improvements needed. From this stage I would support expansion

**#12857**

of surface light rail, such as what is proposed in Auckland Transport's Auckland Rapid Transit Pathway 2023 report. The line should be expanded to Onehunga and Mangere, and eventually to other transport corridors such as the North-Western or Northern corridors, upgrading any busway infrastructure. Staging the development of the network in this way ensures it remains affordable for Aucklanders and is practical to build.

Congestion is a major issue in our city that costs Aucklanders time and money. It restricts our growth and potential. Consistent work done over the last decade has shown that we cannot only rely on our bus network in our busiest corridors in order to address our cities transport issues. Surface light rail provides a higher capacity solution that is affordable, deliverable, environmentally friendly, and will connect communities in Auckland. It provides a plethora of economic benefits that will create jobs and help businesses while improving our streetscapes to make our city a better place to live.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#12857**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

If surface light were to come into fruition, these wharves could be integrated and used as a transport terminal/end terminal for a light rail line.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Review and refresh the Howick Tourism Plan.	Very Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Very Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Very Important
Develop a community-led climate action plan.	Very Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. it is better integrated with a future Eastern Busway and rezone the area so there are mixed use apartments. Look at the success of Burwood Chinatown in Sydney, and/or the proposals of a new chinatown in Boxhill, Melbourne.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the level of bureaucracy, management manpower wasteful spending and unnecessary staff (as was promised by the Mayor). By doing so, there would be more

resources available to spend on essential and desirable improvements without hitting the ratepayer with unjustifiable rate increases.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

This is to a large extent nonsense-speak, with such meaningless phrases as "network optimisation". We need a public transport system that WORKS, ferries that RUN, trains that are RELIABLE. Let's get what we have working efficiently enough that people will WANT to use it - that is going to be a real challenge.

### **2a. Is there anything you would spend more on?**

Making the public transport more attractive and more reliable. Changing speed limits back to what they were before they went "woke" with no real justification.

### **2b. Is there anything you would spend less on?**

Anything that is superfluous to "real" needs: no more cycleways, raised crossings light rail etc etc.

## **3. Which options do you support for the North Harbour Stadium?**

### **Tell us why:**

This is a peripheral project; we need to concentrate on the essential.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#12886**

**Tell us why:**

The Council doesn't NEED to have investments in these areas which can attract private investment. Ratepayers' money can be put to better use.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund.

**Tell us here:**

It seems the most rational and sensible way forward; the land will remain a great asset for the city's population.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services.

**Tell us here:**

We must try to mitigate some of the absurd rate rises proposed. The profits could of course split in both directions.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations.

**Tell us why:**

#12886

At this point in time, this is a luxury expenditure that should surely be saved until Auckland is in a more favourable financial position.

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

I don't know because I have no idea what the "something else" might be - can't answer this question in a vacuum.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Do not support

#12886

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Do not support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

The proposed rates hikes are totally unacceptable, especially given Mr Brown's plan to move rubbish collections to once a week; a real catastrophe tha people will never really understand.

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

Wayne Brown was elected at least in part to "reduce waste". Yet here he is proposing to reduce kerb-side rubbish collections while hiking rates by over 20%. In all senses this is a real 3rd-world move; I'm sure the rats will be delighted.

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#13288

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. Keep the rates low for current level of public transport service (no city rail links or roading improvements) and storm water management. I'm happy with cuts on all other areas.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#13446**

Yes. Keep the rates low for current level of public transport service (no city rail links or roading improvements) and storm water management. I'm happy with cuts on all other areas.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I support the pay less proposal to focus the capex expenditure on maintenance and renewals instead of new projects. The unreliable rail network rebuild has not given me much confidence that new projects can be delivered in budget with a great outcome.

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Spend less on new projects. Maintain existing roadings and public transport services.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

The stadium land could be redeveloped into residential areas and the sale proceeds could be used to fund the transportation costs for Auckland and also provide affordable housing for the north shore community. Having a giant community playing fields means nothing if you can't even afford to buy your own home.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#13446**

Proceed with the proposal

**Tell us why:**

Lower risk through diversification. 7.5% is not high for investment funds given the current high interest rate environment, however, diversification does provide hedging against natural disasters.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Changing the operation of the port land wharves to an external party would ensure a steady lease income for 35 years and incur less risks.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Invest in the Auckland Future Fund to generate a higher return for future spendings. Council should focus on keeping its cost within budgets without resorting to more sale of its assets or returns from Port of Auckland to build up buffer for the future.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#13446

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Keep Captain Cook and Marsden wharves to be managed as part of the port operations. This would ensure that the lease income can be maximised while avoiding unnecessary spendings.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

This would ensure that the lease income can be maximised while avoiding unnecessary spendings. There are plenty of public space near the water front for public use already.

I support improving on public amenities such as pool and library facilities and provide facilities and services for the diverse demographics of Howick. These have an immediate impact on Howick residents' daily lives and are far more practicable than what's been proposed.

Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Expedite undergrounding of suburban power network.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#13491

Less middle management.

Less wasteful spending on contractors through better management of contracts & accountabilities.

Less operational spend by investing in better infrastructure up front (e.g better quality planting, roads & amenities run lower operating & maintenance costs.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

There are MASSIVE inefficiencies in our transport networks. This is low-hanging fruit. Put money into sorting out dead-time in intersections using vision systems for goodness sake - the tech is out there & the gains will be huge.

I absolutely disagree with cutting back on cycling infrastructure. Traffic is a problem & getting people on bikes is a no-brainer, but it has to be done right. Doesn't have to be expensive - just a network of segregated arterial routes along existing low-volume roads, avoiding hills & with 'smart lights' at intersections to indicate to drivers when cyclists approaching (like railway crossings).

### 2a. Is there anything you would spend more on?

Network optimisation - vision-system traffic light phasing.

Low-cost segregated cycle ways along low-volume roads with automatic warning lights at intersections

### 2b. Is there anything you would spend less on?

Cookie-cutter upgrades which don't achieve desired outcome e.g level crossings adjacent roundabouts, extra traffic lights where give-ways, slip roads, or roundabouts would be better.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

**#13491**

**Tell us why:**

Big asset which currently has a limited benefit scope where it could cater to the wider community were it redeveloped & multi-functional.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Council should retain a stake in all key infrastructure so there's vested interest & incentive to ensure its ongoing success in the interest of the citizens of the city. The airport & its operation are closely tied to our unitary plan.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

35 years is a long commitment to retaining the use of the land, where in the future it might better serve different were the port to be relocated.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

We need to correct our history of underinvestment & be more future focussed.

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Prime land in the centre of the city wasted on a port operation- the return from the alternatives could fund the RAIL links required to relocate parts of the port's operation. I say RAIL, not trucks.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

## Ōtara-Papatoetoe Local Board Priorities

7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	Very Important
Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	Very Important
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	Very Important

#13587

Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	Very Important
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	Very Important
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	Very Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like to see current projects underway like the rail link and the Eastern busway completed.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#13644**

I would like to see less of the ridiculous traffic management costs for every minor piece of activity on or near the roads. It is a massively expensive rort.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

The cost of the raised pedestrian crossings has been widely shown to be an unnecessary ripoff,

I don't see how introducing capped weekly transport passes will make public transport faster, more reliable or easy to use. It sounds like a cobbling together of unrelated ideas.

### **2a. Is there anything you would spend more on?**

Improvement of intersection design.

### **2b. Is there anything you would spend less on?**

Traffic management and the stunning overkill with every minor project.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

### **Tell us why:**

The North Shore will continue to grow and it is hard to know how the low level of support is due to the design and location of the venue, as opposed to poor marketing and management from the Auckland Council.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#13644**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The Future Fund will end up being a slush fund for someone's pet projects. It is better to maintain control of the assets and utilise the dividends directly.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Any lease operator will milk the port for every dollar they can and we will end up with a poorly maintained operation at the end of the 35 year period.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The idea of the Future fund is a pipe dream. The Council needs to focus on running an efficient operation in all its activities.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

The port land should stay in the hands of the public, and managed by the Auckland Council.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#13644

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

There is no point in reducing the operating viability of the Port, and spending money to move some wharf operations. There is plenty of coastline around the Auckland area for apartment blocks etc.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Same as above: keep the Port functioning as efficiently as possible. There is plenty of other area to develop.

**6a. What do you think of these proposals?**

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Franklin definitely needs a change to the "Pay as you throw" current scheme as a lot of bagged rubbish gets thrown on quiet rural roads to avoid the charge.

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off

### Howick Local Board Priorities

7b. What do you think of our proposed priorities for Howick in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	Fairly Important
Review and refresh the Howick Tourism Plan.	Fairly Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	I don't know
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Not Important
Develop a community-led climate action plan.	Not Important

#13644

Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

All the priorities are fairly low key issues. Any community group that thinks it will get effective support from the Council to adopt a reserve will find it spends more time dealing with the bureaucracy than achieving good outcomes in the reserve, park or waterway.

**Tell us why**

All very limited in scope.

**7c. What do you think of the Howick proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

My understanding is the most of the Local Board funding goes to providing essential maintenance services, like mowing reserves, additional funding for libraries etc, so they have very little discretionary spending. No one can comment on the changes to the Funding policy until we see a few numbers.

Public ownership of AIAL and POAL is critical in the long-term as private (likely foreign) control have much less guarantees of no financial conflicts of interest.

Regarding the Future Fund implementation options: I prefer in order 2 > 4 > 1 > 3, since if private control were to be ultimately chosen, then pooling more money would be likelier to succeed.

### Howick Local Board Priorities

7b. What do you think of our proposed priorities for Howick in 2024/2025?

I don't know

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	I don't know
Review and refresh the Howick Tourism Plan.	I don't know
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Fairly Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Very Important

#13759

Develop a community-led climate action plan.	I don't know
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>	

#14320

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport infrastructure improvement

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#14405**

Spend money on the upkeep of golf facilities

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Improving public transport over improving motoways and highways for passenger cars

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

It's prime land that isn't getting used. Should be used for concentrated housing. As it has general public connections

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#14405**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

### Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through	

#14405

methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland council needs to do more for handling global warming

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#14430

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Yes, better public transport. C Example: Train connection to Flat Bush

**2b. Is there anything you would spend less on?**

Yes, build no motorways as it will increase car usage which will affect global warming and spending money on petrol

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Build more social housing because we don't have enough social houses and intensive high density housing will be better use of the land.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Airport is important for future generations and it gives Auckland a lot of money from the tourist that come through so please retain the airport as it can be a source of money

**#14430**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Unless it can be used to make a sports facility with an ability to play a variety of sports.  
Retire Eden park

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>	

#14475

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .

### Hibiscus and Bays Local Board Priorities

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective

options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.	

**Tell us why**

**7c. What do you think of the Hibiscus and Bays proposed priorities for the 10-year budget 2024-2034?**

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1. Finish all roadworks in timely manner.
2. Land back to Maori or at least iwi input for land & environmental conservation.
3. Invest in better healthcare, things that matter to indigenous peoples.

#14758

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

1. Irrelevant developments on buildings that are not accessible (north harbour stadium)
2. Pull back, ask us what we care about in budget & actually listen & implement. We shouldn't be paying for things we (1) disagree with (2) not beneficial to us.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Raised pedestrian crossings for dynamic lanes that don't even work.

**2a. Is there anything you would spend more on?**

Why all rich areas get their roads fixed when not even needed but never south Auckland?

**2b. Is there anything you would spend less on?**

Anything that doesn't support Te Tiriti O Waitangi

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Terrible stadium! Terrible parking! Seats horrible. Completely unaccessible - all sports (rugby/league) fans based east, south, west Auckland why would you even name it in Albany. Waste money stop using my money for it.

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

#14758

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

## Howick Local Board Priorities

7b. What do you think of our proposed priorities for Howick in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	
Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	<p>Where did the priorities of funding originate?</p> <p>Where is the evidence of positive impact council has done for Pasifika + Maori?</p>

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. <p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

I submit that the proposed option to pay less and do less will detrimentally impact the play, active recreation and sport sector.

I submit that the Central proposal for the overall direction of Council's Long-term Plan appropriately balance rates rises with service delivery.

**#15488**

I submit that the Central proposal for Parks and Community will continue to provide a better outcome for the sport and recreation sector.

I support the following aspects of the consultation:

- I support retaining the Sport and Recreation Facilities Investment Fund and the strongly support the proposal for \$35 million of additional funding being added to the Fund.
- I propose that Council refines the criteria of the Sport and Recreation Facilities Investment Fund to make the additional funding non-contestable.
- I propose that the additional \$35 million funding is used to fund a range of community sport and recreation facilities including indoor sports facilities.
- I advocate for the retention of the Sport and Recreation Facilities Operating Grant and ask consideration for an increase to the Grant.
- I support Council seeking changes to the law relating to development contributions to enable Council to adequately recover the costs of growth and to use development contributions to fund community sport and recreation facilities.
- I support a review of costs and contractual structure for maintenance on parks and open spaces, specifically for sports fields.
- I advocate for community use of schools and that consideration given to the co-development of schools with Auckland Council to include publicly accessible sport and recreation facilities.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

I strongly urge Councillors to explore ways of avoiding rates increases above the inflation rate by cutting back office and wasteful spending, reining in

council-controlled organisations, and re-prioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and increasing salaries of

council managers higher than those the private sector.

**#15536**

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (eg unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so

that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

It's vital to keep essential services in our own hands not to be lulled by short term gain. Without a shadow of a doubt it would be very unwise to lease the port out saying gooby to future profit and tax paid into the New Zealand economy, moreover, losing control of such an essential service for so many years, run by overseas interests doesn't sound like a wise choice to me

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	

#16135

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We already pay a lot in rates. The Council should look at other income generation investments, opportunities and partnerships to support paying for current and new things that are needed long-term.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#16525**

Council wastes a lot of money re-tarring roads that don't need to be re-tarred. This is very frustrating to see. Focus on roads that really need to be fixed and not ones that may need a little facelift or touch-up. This happens a lot out East and not so much out South. There should be a visible road-works schedule for the year and what is being done, why and what the cost it. You could save some money here by delaying less urgent work and focusing on the roads that have real damage to be fixed.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

What will be the alternative for those that rely on the buses you will cut?? There is no incentive for people to take the bus. You need park and bus zones (with good security), near malls close to the motorway so that people can drive to these zones and catch the bus from here to work, especially if going into the city or further. People will more likely drive some of the way, and bus the rest.

### **2a. Is there anything you would spend more on?**

Why do the South Auckland Malls look so rundown and ugly?? They are the worst looking malls in NZ (Otara, Mangere, Manurewa). These malls need to be upgraded to support the local communities, attract them to engage/connect with services, and even attract tourists. What are you going to do about our growing homeless problem? Is there a way of helping them into work or into a community volunteer programme that offers them free meals, shower, clothes, medical checks in return? How many safe shelters do you have in areas where alcohol and substance abuse is a concern? Are these on the plan?

### **2b. Is there anything you would spend less on?**

Why are you allowing the opening of multiple vape shops in the same area? There are far too many in South Auckland. There are more vape shops than there are fruit and veg shops, health stores, and probably gyms! Alcohol and drug outlets should pay a levy or higher rate to sell substances that can be harmful to the public, this includes super-markets. Vape or bottle shops should not be near dairies. Substance outlets must also display helpline info/leaflets at the entrance/exit and on the counter.

**#16525**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

The stadium should largely be funded by its activities and sponsors, with a little extra (limited) support from council. This is the responsibility of the operational management. I can't comment on where to change the management because I don't know how good they are at selling the stadium (in and outside of NZ) and using funds to improve the precinct.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

There is good sense in having an Auckland Future Fund BUT not for the purpose of gradually selling of shares and assets.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

#16525

**Tell us here:**

Why can't it be used to support both? Why just one or the other?

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Just make sure there are regular contract reviews and non-compliance and low performance penalties in place.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

### Ōtara-Papatoetoe Local Board Priorities

7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	Very Important
Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	Very Important
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	Very Important

#16525

Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	Fairly Important
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	Fairly Important
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	Very Important

**Tell us why**

These are the types of activities needed for these communities. Billboards depicting community aspirations should be plastered all over South Auckland. You are more likely to get hit in the face with a vape shop than you are of visible images and billboard

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

You need to be clear about the kinds of outcomes that will be achieved by these priorities... what are the main concerns/issues you are trying to address so that people can understand why you have chosen these priorities? How do these link back to the needs and aspirations of the communities in these areas? Highlight what the main challenges are these communities face (i.e. truancy, finance, health stats/barriers, systemic discrimination, homelessness, mental health, crime, etc) and how will these priorities help to address some of these issues, or alleviate concerns, and encourage collaborative solutions? These questions should help you decide what the right priorities are.

You need more community awareness of the Board, what they do so they can create partnership opportunities with the community to support their priorities. Every shopping mall should have a photo-board of the local-board members to familiarise faces and names with the community. Night markets are another great place for the local-board to have a talanoa or saunoa table with free coffee-tea, in addition to radio and TV. All the best.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More Enforcements, too many illegal parking and building activities

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce wastage expenditure e.g replacing perfectly good road seal

**#16533**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Develop public transport such as rail and express buses. Is a important investment to unclog roads and revitalise the CBD

**2a. Is there anything you would spend more on?**

Rail investment, higher frequencies and potentially extending rail networks

**2b. Is there anything you would spend less on?**

Motorway upgrades and road upgrades

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Lease out the operation of it, long term interest to retain ownership of assets but council is often not the best placed to operate these assets efficiently

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Good idea to not have all our funds invested within Auckland. We should have regular top up initiatives through savings and surpluses

**#16533**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

We should retain ownership of assets but let private companies run them as they are often more efficient than a council owned company

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Some percentage of all council owned businesses payouts should be invested

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Invest in revitalising the Auckland CBD through rapid transport and other initiatives. A strong city needs a strong CBD

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Use these to develop Council assets as part of CBD revitalisation

#16533

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

We need to have a good balance or reusing assets for other development and not reducing the future potential of the Port

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Support

#16533

Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

7a. Which local board area does your feedback relate to?

Howick

## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

#16533

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.	

**Tell us why**

**7c. What do you think of the Hibiscus and Bays proposed priorities for the 10-year budget 2024-2034?**

I support most priorities

**Howick Local Board Priorities**

**7b. What do you think of our proposed priorities for Howick in 2024/2025?**

#16533

Not Important

**More specifically, what do you think of each priority we've listed above?**

Review and refresh the Howick Heritage Plan.	Fairly Important
Review and refresh the Howick Tourism Plan.	Very Important
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	Fairly Important
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Very Important
Develop a community-led climate action plan.	Fairly Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	Community led initiatives are likely to be more sustainable and enduring so fully encourage those

**Tell us why**

Initiatives to empower communities to be engaged in the upkeep of their local assets are good ideas. Likely will result in cost savings too. Need to cut down on bureaucracy to enable that though.

**#16533**

**7c. What do you think of the Howick proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

More and better communication of local priorities/events etc would be good

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.
