1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	As proposed
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Raise work efficiency, reduce crowded.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce council expenditure

#16815

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Planning about roadworks.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

More management, reduce fees

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Dividends sold can decrease revenue, benefit the young generation

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#16815

Tell us here:

Increase revenue, reduce all fees, let citizens benefited.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Council research, decision

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Auckland port rented to outside, will benefit the public

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Other</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

#16815

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to

Buckland Beach is in a relatively remote location, requiring a detour to reach most places. However, along the coast, you can see Mt Wellington and St Heliers. If a ferry service were to be established to the opposite coast, it could alleviate many traffic congestion issues.

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.

Review and refresh the Howick Heritage Plan.	
Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	The key is action. Doing something is always better than doing nothing. With effort comes reward. The eyes of the citizens are sharp, and they hope that when they hear thunder, there will be rain.

Many situations are unknown, but I would like to provide some suggestions. Elderly dental fees should be waived. Ambulances and hospitals should promptly rescue patients. Many bus stations have shelters and benches, but rainwater drains should be cleared in a timely manner. Inspection of nursing homes should be strengthened to ensure balanced facilities and food safety. Enhanced police vigilance is necessary to combat crime. Buses should adhere to schedules and minimize gaps.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The construction of cultural, sports, and library facilities in the East Flat Bush area has not kept pace with the rapid population growth, failing to meet the increasing demands of the local residents. Therefore, I urge the city council to expedite the development of entertainment, sports, library, and other facilities in this area to better serve the growing population.

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Do not support</p>

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#17282

Support all of the proposal

Tell us why:

All transportation infrastructure projects suffer from long construction periods, high costs, and inefficiencies. The actual costs of most construction projects often exceed the planned budget.

2a. Is there anything you would spend more on?

The waiting period for disease treatment is long, and the increase in pension is much lower than the rise in prices, leading to higher living expenses.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Developing large multi-functional sports stadiums, enhancing management personnel, and upgrading outdated facilities.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#17282

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

The key point is whether the Auckland Port Limited operates at a loss. If it can effectively manage the port, then operating it would certainly yield better benefits compared to long-term leasing. Conversely, if there is no capability to manage the port, then leasing it out would be the better option. It ensures a steady income regardless of market conditions, saving on resources and manpower.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

The operation of the port generates considerable profits. If these profits can support the City Council, it would not only benefit the public but also help alleviate the tax burden on taxpayers.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools.	Do not support

#17736

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. More specifically, what do you think of each priority we've listed above?

#17736

Review and refresh the Howick Heritage Plan.	
Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	Care need be taken to allow affordability, continued usage, community benefit

Review and refresh the Howick Heritage Plan.	
Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners	ACC standards and prescription recall limits

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Ultimately this results in the promotion of airport privatization, resulting in a lack of publicness of increased costs

community life., Burms should be cut by council frequently and if left to home owners this should be reimbursed.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the frequency of public events that have low attendance to save on costs., Cut back on expensive consultancy services and rely more on in-house expertise., Streamline council operations to reduce administrative costs without affecting service quality., Limit investment in large infrastructure projects that may not be critical or can be postponed., Decrease funding for public art projects that do not have broad community support to focus spending on widely beneficial services.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Better and more frequent public transport., Roads that are in good shape., Safe paths for walking and cycling., Green, eco-friendly travel options, As Auckland is fairly small congestion on the road should be avoided . Better public transport is needed at a eco friendly level.

2b. Is there anything you would spend less on?

Some new road projects, Public transport routes that aren't busy., Planning studies that take a long time., Pedestrian paths where there's not much foot traffic.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

This comes down to how the space is being occupied! Is it justified to keep it going with very low usage ? Or does this come down to the management team that is running the stadium? Are they being effective in managing this space ? Are they being audited? if not then we should consider a new management team on a time line to turn it over ? Only then the financial input is justified. In the last 30 years I have not seen any advertising of this stadium or have had any discussions amount groups not to the same effect that Media Stadium (Mt Smart) gets !

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	
Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association	Although it is quite difficult to answer all of the above questions, there are many I wish for progress. thank you

7b. What do you think of our proposed priorities for Howick in 2024/2025?

#18710

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	
Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.	Not enough information provided

4b. Which option do you prefer for the future of Port of Auckland?

#19141

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Oppose calls for higher local tax increases to enable investment in future funds

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

to move port operations elsewhere;
must be allowed and a huge amount of \$110 million
Because it costs money

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#19141

Tell us why:

- Give the city council some future financial
- Port of Auckland for profit
- The scale of operation must be significantly reduced.
- reduce the value of port leases;
- future benefits from the port and
- Because dividends need to be reduced

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Do not support

#19141

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Severe inflation, low income, no economic activity

Without considering the elderly, compared to wage increases

Excessive tax increases put pressure on the national economy.

As the quality of life decreases due to rising rents,

I actively oppose increasing the local tax increase rate. especially

Tax payers must be paid equally.

However, it is unreasonable to drastically increase property taxes.

It is considered a policy.

7b. What do you think of our proposed priorities for Howick in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Review and refresh the Howick Heritage Plan.	
Review and refresh the Howick Tourism Plan.	
Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	
Develop a community-led climate action plan.	
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead	<p>First of all, compared to wage increases</p> <p>Go to the payer for ranking business</p> <p>The heavy tax increase rate is too high</p>

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I don't think the airport should ever be sold for immediate profit.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

In our country, which is highly dependent on imports, trade is carried out through ports. If we reduce the size of ports, the transportation period will be longer and logistics costs will increase, which will be a burden to us as consumers, so we hope to maintain the current status quo.

from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by</p>

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.
