Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of</p>	<p>Support</p>

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I do not support higher levels of support for ongoing KiwiRail track maintenance costs which is a problem generated by Kiwirails previous lack of maintenance.

I do not support more investment in residential speed management and road safety programmes. However I would support a programme that penalised red-light runners, this is a very common behaviour that happens daily.

2a. Is there anything you would spend more on?

Updating the live data signage at newmarket station so that it reflects the actual changes to timetables.

2b. Is there anything you would spend less on?

Airport to Botany busway

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Auckland airport is a very important regional and national infrastructure asset. I think the de-investment of these shares by AKL council is reckless.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Again, selling or leasing a key asset is very short sighted. It creates a short term cash injection, with the loss of all future potential returns.

I also take issue with the way this section has been written. The scenario outlining a sale highlights the "potential" benefits and none of the negatives which include an international organization will control the Port land for their own commercial benefit. Profits will be sent overseas.

In the above explanation of the second scenario - POAL continues to operate as is, fails to include any potential advantages. I think this section misleads the reader.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

The Bledisloe terminal currently generates a public benefit via dividends. The option to transfer the terminal to council provides no context of what this benefit will be.

7c. What do you think of the Manurewa proposed priorities for the 10-year budget 2024-2034?

I support most priorities

Maungakiekie-Tāmaki Local Board Priorities

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

Very Important

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	Very Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Fairly Important
Empowering community groups and organisations to deliver community events through sustainable funding models.	Very Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Very Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	Fairly Important
Support business associations to continue supporting local businesses and ongoing	

growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Tell us why

Realistic and reflective of the community.

7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?

I don't know

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Water delivery maintenance to ensure reliability of service.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cycleways, waste of money as create traffic chaos and are most not used.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Remove speed bumps and cycleways

2a. Is there anything you would spend more on?

Roading and car parking

2b. Is there anything you would spend less on?

Cycleways and speed humps

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Under-utilised. Make better use of vacant car parks.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Parking for imports is a waste of a great resource. Move vehicles by train to inland port and redevelop the land for public access.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Cruise ships will continue to visit. Give them a great place to berth.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Build more houses to increase our rates base.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop talking about moving the Port. Major cities around the world have ports.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We need more cycle lanes. Trains to run every weekend. Buses replacing trains do not carry bicycles.

2a. Is there anything you would spend more on?

Crossings for pedestrians on busy roads.

More dedicated bus lanes. Ferry crossings to return to what they used to be.

REINSTATE RFT.

2b. Is there anything you would spend less on?

Agree with getting rid of raised pedestrian crossings.

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Unless new management can make more than \$40 million worth of business from it, pull down the stadium (I know that will cost money but you might make money on the sale of parts). Retain the fields for community sports.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

If investments take a downturn we could lose Auckland Airport and we have no assets to buy it back.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

As long as leasing the port continues to provide work for people living in Auckland. The injection of money will help Auckland Council to manage the needs of the city.

However keep the port in Auckland, we cannot afford to move the port elsewhere.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Council has a mandate to keep its ratepayers and occupants safe in the here and now.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

We haven't been successful at developing the downtown area. Facilities for cruise ships are uninviting. We already have one underused stadium on the North Shore, why build another? (Although I did like the proposed design). Lets get our trains and ferries running reliably.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

We will end up with more apartments. Better that the area provides work for people.

6a. What do you think of these proposals?

Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More trees and stricter protection to protect trees and bush. Near where I live whole sections are being clear felled by developers and concreted. Tree protection is a necessity to help mitigate against severe weather events and climate change.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Cycleways and crossings must be maintained and not reduced. We need to encourage alternative forms and modes of transport. Not the one person in a car model.

2a. Is there anything you would spend more on?

Protection of the environment, wildlife and parks need more funding, protection and resources.

2b. Is there anything you would spend less on?

Promotions or support of any events that are not environmentally sustainable.

3. Which options do you support for the North Harbour Stadium?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

We need recreation venues.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>

I really don't understand why Rate Payers should be paying for this. All climate resilience issues have been mapped well by Council, yet someone in Council

approved construction in these mapped flood and erosion areas. Why aren't you chasing their professional indemnity insurance? Why aren't Council being more accountable for past failures? Without accountability, no lessons will be learnt.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Council needs to be aware of its bias when considering decisions on the Port. Council only focuses on populism and Council's bottom line. However, having the Port as efficient as possible is critical to Aucklanders. The more efficiently Auckland's freight can move around, the more more efficient Auckland's economy will be - which is critical in this cost of living crisis.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Make the Port as efficient as possible.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Make the Port as efficient as possible - the cost of living is way more important than this vanity project

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

What a populist question. Who doesn't want this space to be public? But what is the cost of this to Auckland's consumers? How can this project be justified in this cost of living crisis? You don't explain the consequences of this decision on Auckland's economy and the cost of living in Auckland, which is why this question is populist.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Manurewa Local Board Priorities

7b. What do you think of our proposed priorities for Manurewa in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

Onehunga needs this loud voice. Aucklanders don't understand the value Onehunga has to Auckland, being in the centre of Auckland. Therefore has had the under investment in road infrastructure and the removal of the direct railway line to Britomart.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No we don't want to pay any more for anything. Better management and cost controls for what we have.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop wasting money. Hold all council managers accountable for their positions, spend and performance.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

There are too many reasons to list why public transport is terrible now and potentially will never be fixed. The car problem needs to be sorted first. Too many big empty busses. Trains unreliable and don't cover enough routes

2a. Is there anything you would spend more on?

No at the moment

#424

Complete the seismic strengthening of the Remuera Library	Very Important
Progress the Meadowbank Community Centre development.	Very Important
Assess the reactivation of facilities at Tagalad Reserve and work towards providing access for the community.	Very Important
Continue to work with our many community volunteers to eradicate plant and animal pests in our natural environment, including at Pourewa Valley and in our many beautiful parks and urban forests, and support other environmental activities, for example, the Environmental Forum.	Very Important
Continue local initiatives to enhance neighbourhood connections and increase safety.	Very Important
Fund and support local events to showcase our spaces and benefit local residents and businesses.	Very Important
Continue to engage and better support our diverse communities and organisations, such as Auckland East Community Network and Youth of Ōrākei.	Very Important
Maintain efforts to monitor and improve water quality in our local waterways.	Very Important
Develop options and projects for a community facilities targeted rate for the financial year 2025/2026.	Very Important
Investigate ways to enhance council facilities in Ellerslie to better meet the needs of the local community.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

In the current economic climate I think there should be less money for cultural festivals
- Diwali, Chinese New year etc.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce rubbish collections to once every fortnight as the recycling is at present (preferably alternate weeks with the recycling so as to have less bins on the berm at once!)

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Stop the speed humps or make them cheaper. Make them less raised so that traffic slows down but does not stop.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Auckland needs a proper cricket ground so that it can host Test Matches as well as shorter format games. Eden Park is NOT a cricket stadium

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

The future Fund is a great idea.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

The city needs the funds to develop further ideas and make the city more resilient.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

I think a combination of funding council services and investment would be a good idea.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

We need more space for cruise ships - currently arriving at Princes Wharf interferes with ferry movements. Sometimes there can be 3 cruise ships in port at once and this will increase year on year and space needs to be made to accommodate them.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Cruise ships need more space

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in	Support

2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Offer people the opportunity to opt for smaller rubbish bins for a reduced charge.

It takes me over 4 weeks to fill our bin.

Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

A lot less for AT, they are useless and ineffective, they also waste a lot of rate payers money... there is no accountability within the COO. Go back to the basics or providing public transport in Auckland and actually do it effectively and more cost effective.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

AT as a COO needs a complete overhaul, they are a white elephant with no accountability and should not be provided with any more money. It is continually wasted and their current board and executive team cannot be trusted.

2a. Is there anything you would spend more on?

No, they need to be brought back in to line and informed to actually prioritise their spending by listening to the rate payers who are sick of there lack of accountability.

2b. Is there anything you would spend less on?

Yes, cancel all cycleways and raise pedestrian crossings.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

Ensure the 3.3M is raised each year through leasing the stadium out etc OR if it cannot be sell it.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

7c. What do you think of the Manurewa proposed priorities for the 10-year budget 2024-2034?

I do not support most priorities

Maungakiekie-Tāmaki Local Board Priorities

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	Fairly Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Fairly Important
Empowering community groups and organisations to deliver community events through sustainable funding models.	Fairly Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Not Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	Not Important
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga	

Business Associations proposed BID expansion.

Tell us why

Don't waste rate payers money on the climate myth, focus on community groups and building relationships

7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?

Support

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

Tell us why

8. Do you have any other comments?

Replace the board and sack Executive team at AT, the worst under performing COO there is in Auckland. Go back to focusing on CORE infrastructure in Auckland, not shiny, gold plated solutions.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Need to look at more innovative funding sources using international funding mechanisms

2a. Is there anything you would spend more on?

Bringing a new dynamic to this city and inhibiting the decline of Auckland

2b. Is there anything you would spend less on?

Committees , reports and studies. Just have a plan and implement it with the top global team based on competitive bids

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

A stadium can exist in a fully developed urban setting in so doing can become more viable and felxible

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Redevelop the port land but retain ownership by offering say 40 year leasehold and earning continuing income exactly unlike giving it to another entity to earn the lease payments which was done in the viaduct

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

The Port needs to relocate out of the centre of Auckland to provide a new source of developable land and amenity similar to development in Singapore/ Sydney which is a mix of commercial and public amenity.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Our grandparents and parents built Auckland, its commerce, transport and social infrastructure. This generation has allowed it to deteriorate in almost every respect by amalgamating personal worth, shareholder profits and not actually implementing any stimulus to the city

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

This is vital to the city, a new life injection, getting rid of the transport from the heart of the city. Can you imagine Britomart extending out to this new waterfront and making Auckland truly a waterfront city

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Stage 2.....we need a future

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Tell us why

Encourage some mixed use and more urban development to bring back commercial activities and jobs to this area

7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?

Support

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

Tell us why

8. Do you have any other comments?

In essence, having a vision for the future allows a city to evolve, adapt, and thrive in an ever-changing world.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better cycling infrastructure in areas that have no safe options for commuters.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I do not support stopping funding for cycleways and raised pedestrian crossings. These issues are important for helping people switch to sustainable modes of travel and reducing car volume on roads.

2a. Is there anything you would spend more on?

Spend more adding on-road cycling infrastructure to link key routes together so that people can commute to work safely. Remove on-street parking on main arterial routes and use the space more effectively.

2b. Is there anything you would spend less on?

Spend less on traffic optimisation which just encourages more people to drive and creates further congestion.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less given to non rate payer responsibilities ie sports functions (Americas cup for example). Less focus on cultural events (pride parade, pacific and asian events etc

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

So much focus on speed from Central City to Airport has created issues for locals in the transport corridors. The focus should be on residents as they are the ones paying for it.

2a. Is there anything you would spend more on?

Roading repairs instead of speed bumps!!!!

2b. Is there anything you would spend less on?

So much money spent on bicycles etc, This is only of use to a limited number, but paid for by all. Maybe charge a licence fee for cyclists - user pays

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

Again - user pays. Most of Auckland does not go near North Harbour Stadium

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

This appears a more efficient way of managing the assets to maximise the returns - rate payers are hurting and relief is required

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

There are too many inefficiencies in the current management structure

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

I would rather they didnt

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

They need to be managed as a package to provide appropriate port services. Right now spending money on developing public spaces is a non-essential use of money. This may be built into a future plan

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

They need to be managed as a package to provide appropriate port services. Right now spending money on developing public spaces is a non-essential use of money. This may be built into a future plan

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Other

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support

Re-introduce recycling charges for schools.	Do not support

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improve the councils productivity.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I would like the council to reduce its wasteful spending by improving its tendering process and reduce non-productive staff.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Unfortunately Auckland Council don't have a very good track record of following through on many of its previous proposals, it's easy to say fast track rapid networks, it's the actual execution where the council continually fails its rate payers.

2a. Is there anything you would spend more on?

Roading & storm water facilities.

2b. Is there anything you would spend less on?

Widening roads & curbsides.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

North Harbour needs a good sports facility managed and marketed better.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

11% will assist the current challenges as they stand

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I suspect the operation would be better managed by another entity.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Council services in my opinion aren't managed well.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

We should explore insurance options, the focus should be on reducing risk to avoid or reduce future claims.

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Consider redeveloping the stadium precinct

Tell us why:

I support the redevelopment of the area and sale of SOME land surrounding but this should still be a viable and useful community amenity outside. Absolutely need to retain the current community fields.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I don't see a problem with the diversion of this into the 'trust' but I am unsure why you would then sell the shares, unless they are losing the council money? How will you continue to fund this future fund if you are selling the thing that makes money for it?

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

I believe that leasing the port to a private company in the long run would not benefit the people of Auckland or Aotearoa. While under council ownership any and all profits from the port will be invested into the city. Any profit made by a private company will be invested directly into the company's bank account. And we would see no benefit from that.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

I'm happy for it to be invested in either of those options.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Less investment in car dependency, more density, more streamlining of services.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

If it will not affect the operation of the port then I don't see why that area shouldn't be opened up for public space and usage that would benefit all Aucklanders who go to that area.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Because I don't want to see some pointless stadium that will sit empty 90% of the time be built costing hundreds of millions for no actual benefit to anyone but people who like rugby. We all know that's what the council wants to do with the area. I don't want to see the port taken and the operation of the port to be lessened for this when it is vital.

If we had comprehensive rail networks that were able to take the load of this loss then I could see an argument for it but I will never support an increase in trucks to 'fix' a problem that isn't there.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	<p>Support</p>

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

Very Important

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	Fairly Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Very Important
Empowering community groups and organisations to deliver community events through sustainable funding models.	Very Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Very Important

I think these priorities are good. I would only add more investment in cycle ways, and bus lanes through areas such as Mount Wellington highway, Penrose road and great south road. Increasing the walk-ability of areas such as mount Wellington, Sylvia park

7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?

I don't know

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

Don't know enough about this

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

poetry and meditation

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

carbon reducing ideas, have more ability to receive koha at events, both at the gate and circling around during performances or fireworks. Or at events receiving for proposed events or fireworks. Online ability to give and can act as advertising if donor wishes.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

Too much transport is work just to keep receiving payments. Those that really need it are not getting it. Too many road cones in recent years.

2a. Is there anything you would spend more on?

meditation

2b. Is there anything you would spend less on?

carbon or LBCT initiatives and general mind bending activities.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Turn the place into an asset. Have Lantern Festival there. Firework shows with charge or crowdfunding and have various pyros over days like a competition during lantern festival/

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

If it is a sound sale.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

if this is helpful financially

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

If the council needs funds and can use funds.

Why does anyone need to be asked?

Is there a problem with knowing what makes more money

?

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Why can't it be obvious what will cost less and provide more?

Why would the general public be privy to the finances?

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Do not muck around, especially if it will cost money.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Do not lead yourself into extra costs

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

AT has a job of mass transport, move as many people as safely and reliably as possible. No more cycle lanes, bicycles move one person at a time, so for a point where 1000 bicycles pass, 1000 people commute, 1000 cars pass that point, 1500+ people commute, 1000 buses pass, 20,000+ people commute. 1000 trains pass 200,000 people commute. Stop building cycle ways and roads, build mass transport.

AT is removing car lanes for cycleways then slowing traffic on those reduced lanes with raised pedestrian crossings, crazy!

2a. Is there anything you would spend more on?

Mass transport

2b. Is there anything you would spend less on?

Cycle ways. We should not spend so much money on a minority, cycleways should be removed and that space on the road used to enable bus lanes.

3. Which options do you support for the North Harbour Stadium?

Manurewa Local Board Priorities

7b. What do you think of our proposed priorities for Manurewa in 2024/2025?

#764

More specifically, what do you think of each priority we've listed above?

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

Very Important

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	Very Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Not Important
Empowering community groups and organisations to deliver community events through sustainable funding models.	Fairly Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Not Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	Not Important

Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

For a start the trains, ferrys & buses DO NOT communicate or work together well & is a direct result of ***** management at AT & kiwi rail. Public transport is better in 3rd world countries! The RFT was never meant for stupid cycleways. Let's face it, approximately how many cyclists were we catering for? 50, 100, 1000, 10k?? The population of AKL is 1.4mil & those numbers DO NOT justify such wastage of tax payers money. Speed bumps DO NOT save lives. Speed cameras have a better chance at that?! The city is so disjointed & broken up that we will NEVER have a functioning public transport system fit for purpose, if the ***** trains aren't running on a mild summer's day 🙄

2a. Is there anything you would spend more on?

A decent bus service. Onehunga resident here & you were wrong to cut the 312 bus. You essentially made the poorest part of this suburb suffer with inconsistent 298 or 295 service that don't cover all the same route/streets! I'm now driving my son to school most days, across the suburb to get to Onehunga Highschool because those 2 buses can't even do the job of 1 bus!

2b. Is there anything you would spend less on?

I actually DO spend less on my sons ATHOP card but more on gas because of the inconsistent bus service & it's 2024. Stop blaming covid already!

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

Never been to that stadium as too far away, can't justify spending gas to get there. I don't have any inclination of attending it now or in any future - unless you're planning to host Matatini or some massive cultural event? But wait, it's North Shore - predominantly migrant WHITE & RICH. Let them pay for their own ***** stadium

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

You're saying you want to sell the airport shares & put the money into a new trust & invent a new panel of experts & fat cat bureaucrats to basically get paid a fat salary to sit on said funds until you decide what to use it for?? Well excuse the French but fcuk me days! ***** NO!! keep your assets, charge more for parking, introduce a cat license, up the dog rego, Up the parking fines, take a fricken pay cut but DO NOT sell the shares & DO NOT add any more "management" to the gravy train! Stupidest idea, EVER! Where are these brainless ideas coming from? Is the aircon not working at the council office & someone's starved of O2? 🙄

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

Could, should, might?? Proposed, projected?? All I'm hearing is BIG SUMMER BLOW OUT ... who have you got there staring into her crystal ball or flipping tarot cards?! You have absolutely NO EVIDENCE that your proposal will generate the amount of money you're saying & no one can "forecast" the next 35yrs of returned dividends. Another bunch of consultants who held in their farts, that consequently traveled up their spine & entered their brain - that's where ***** ideas come from. Release those Consultants immediately!

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Obviously this "future fund " is dead to me. Dumb idea. We're needing sh1t done now & let our kids worry about the "future" Hopefully those consultants have moved to Aussie & ruining services for Sydney or Melbourne's rate payers ☹️

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

How about an amphitheater or coliseum & we could host our version of Auckland Hunger Games? Winner gets full council services with no impediment for their district?

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

You need some income generated to fund those consultants, so best to let the ports have a chunk & pay you the dividends 🤖

6a. What do you think of these proposals?

Not Important to support local business association's bid to expand as where they want to expand is further into residential area. There is also no evidence to support this would be beneficial to Onehunga. How about you close off the mall again, like the early 90s & encourage more pop up/food trucks & kiosks on a permanent basis with eating & seating areas with free wifi? Cutting funding for cycling and active movement is going to be a short term solution that costs more in the long run; I'd like to see that still funded and also funding for pedestrian safety, especially given the amount of misinformation around that latter in the media.

Free public transport and improved bike and public transport infrastructure

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less car focused development

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Raised pedestrian crossing and cycle ways should be prioritised. Why would you stop spending on cycleways when they are one of the more cost effective ways to spend money on infrastructure?

2a. Is there anything you would spend more on?

Cycleways. Look how much you can do in a short time in cities like Paris.

2b. Is there anything you would spend less on?

Dynamic lanes. No amount of dynamic lanes will help us spend less on the long run

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I am concerned that AIAL will make decisions that benefit them in the short term and will end up relying on the council to bail out.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

I want the council to maintain more control of the port. I fear private operators of the port will make decisions that negatively impact the community

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The Port generates revenue using the infrastructure of Auckland council so it makes sense to reinvest the profits back to maintain it

Auckland's population is growing and the port is running out of space - why on earth would you reduce it's size?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	I don't know
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	I don't know

#924

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	Do not support
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Pay the same - work smarter and do more. Make council officers accountable for their performance and results.

8. Do you have any other comments?

This "consultation" contains a massive amount of information. I'm sure well intentioned, have to say am concerned as to who (including me!) is able to read, fact check, and be in a position to produce a reasoned response.

To me, Auckland suffers from generations of poor management, and local government elections have decreasing voter turnout. Not sure anything here is going to change the situation - is the core problem "how do we fix local democracy and get competent governance"? Wish I had good ideas on this, but maybe it's the real issue we need to confront?

Auckland's growing population and infrastructure pressure seem to be triggered by Central Govt. Do they need more involvement and accountability?

Housing - we seem to be allowing good farm land to be turned into ne suburbs that need new roads and railway stations (paid for by who??). Why aren't we building up around existing transport infrastructure and encouraging less dependence on cars?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Review operating plane line by line and remove anything that is not core (and that could well be an interesting debate) - things like water, rubbish, roads etc

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

AT needs to dramatically reduce the cost of operations - there has been wide spread public commentary on cones, crossings etc. Get back to basics, implement repairs/fixes that last and ensure ne infrastructure is built to a standard of 50 years plus.

2a. Is there anything you would spend more on?

The entire budget should be reduced and reprioritised.

2b. Is there anything you would spend less on?

AT as an entity is simply too expensive and delivers too little. The various functions should be separated to provide transparancy EG supply of public transport, roading, Parking and infringements.

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

The stadium should aim to be financially independent other than CAPEX requests supported by an appropriate business case - If there is no commercial value then it should be divested - there are plenty of playing field throughout AKL but only a handful of stadia.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

The only justification for the council owning commercial businesses is to offset the cost of providing public services. As such the investment/return should be maximized and used to offset costs

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

In general I would support the idea however the provided alternatives are restrictive and there could well be other options but again it should maximize the return to ratepayers

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

As previously mentioned.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

As previously mentioned.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

Insufficient information - Does the port require this land given that Tauranga is unable to expand?

ports in general are moving from their prime positioning in city centers to mor transport access-based locations - however in AKL we do not have a clear alternative. Whilst Whangarei is a natural deep water harbor it adds time and substantial cost to upgrade the transport corridor.

5b. What option do you prefer for Bledisloe Terminal?

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Ratepayers who are only a proportion of the council service consumers, are not an endless source of funding. In addition it is difficult to equate increased charges with reduced services and in many cases, reduced capacity to pay. Ideally the council

would determine what it needs to provide core services and IF there was any surplus e could debate the endless list of potential extras.

There is a fundamental issue with AKL super city council structure and accountability. ALL CCO should be directly accountable to the mayor and council, AT in particular seems to be a law to itself.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I support faster and reliable transport for a better public transport experience. I do not support the stopping of cycle lanes across Auckland as it reduces people to only a few methods of travel.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

2b. Is there anything you would spend less on?

Trees in the city center taking up car park spaces. Purchase less road cones... If you sold them all you'll have funding for quite some time.

Raised pedestrian crossings area joke.

Cycle lanes - No one uses them and they have congested the roads more by narrowing the roads and the cyclists have less room on the roads which they still use.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

No train or decent access when games on - Will never go there again. Get rid of it.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Other

Tell us here:

POAL Have recently increased the rates to operate there to such an extent it is not sustainable for many operators to continue operating from the Port. Resulting in a loss of revenue, Auckland Council has already turned most of the working Harbour waterfront into cafes etc. There are enough..Don't need more cafes... What we need is more functional commercial water space made available to Maritime operators at a reasonable cost...Alas I believe its already gone too far and butchered the Maritime industry in Auckland.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>

Not Important

More specifically, what do you think of each priority we've listed above?

#1090

Support community groups and community-led activities by continuing to provide local community grants.	Not Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Not Important
Empowering community groups and organisations to deliver community events through sustainable funding models.	Not Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Not Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	Fairly Important
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Support housing projects and urban development projects

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Sell off under utilised Council buildings.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Public safety features, such as raised pedestrian crossings should not be stopped.

There should be more user pay options (particularly Development Contributions, and congestion charging).

2a. Is there anything you would spend more on?

Public safety options.

2b. Is there anything you would spend less on?

Subsidising new developments.

Road cones...

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It is under utilised. Create a smaller stadium and more public friendly environment around the stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#1101

Tell us why:

Auckland Airport should stay in the ownership of Auckland Council.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

A long-term solution to moving the port is needed. Focus on short term operational needs, but progress options to move the port and repurpose the land (including selling to private developers).

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The Auckland Future Fund is not a good idea.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The Auckland Future Fund is not a good idea. It will be operated on a profit maximisation scale, and not focus on the greater, long-term good of Auckland.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#1101

Tell us why:

Start the processes of moving Auckland Port out of Auckland and transferring land back to Auckland Council.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Start the processes of moving Auckland Port out of Auckland and transferring land back to Auckland Council.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>

#1101

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Manurewa Local Board Priorities

7b. What do you think of our proposed priorities for Manurewa in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

Stopping raised pedestrian tables and cycleway development is petty and stupid.

2a. Is there anything you would spend more on?

Making public transport more reliable.

2b. Is there anything you would spend less on?

Do not fully fund the unsealed roads programme. Auckland has extensive road network and it should not be expanded any further. It only encourages developmental sprawl. Cancel Lake Road improvements unless it comes with a massive intensification of Devonport and Takapuna

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would be prepared to pay more for more train services, which are faster and more reliable (e.g. double-tracking Onehunga, train to the airport, connect Onehunga to Avondale, train-line to East Auckland, train-line to Westgate/Kumeu).

#1114

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I would like some raised crossings on dangerous pedestrian-frequented intersections, particularly if it's not an arterial.

Grade-separated cycleways are fantastic when done right, and would bring in a lot of "casual" cyclists instead of the current risk-tolerant cyclists who are comfortable cycling in traffic.

It would be great to have buses that get priority at lights, to speed up our public transport without slowing down traffic (the cars going with the bus's direction get to flow more quickly too, so it's not slowing them down).

I'd like to see more rail infrastructure rather than busways, such as for the Northwestern rapid transit route. There's already rail in Kumeu and it would greatly extend our rail network, which is capable of handling more density and is internationally a clear preferable option to buses.

2a. Is there anything you would spend more on?

New railway lines!

2b. Is there anything you would spend less on?

Busways and new roads.

3. Which options do you support for the North Harbour Stadium?

from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. 4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

This is a community asset, ideas about relocation the port are fantasy. Getting private enterprise to run it is losing control of a CCO not getting control back.

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

we need to maintain an income generating assett

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

best practice is to use POA to generate a continuous income

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Council needs cash and income to invest in getting a move livable city which includes getting Auckland moving again

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

YES...i cant believe what was spent on upgrading a road of Seccombes road in Newmarket. Utter waste of money as it was in good cond. and a no exit hardly used road. The residents advised Council that it was just a money making effort for the contractor as there was no need...when other roads do need....I don't know who manages these things but he/she needs a serious talking to....I am a pensioner and

#1675

will soon have to sell up with all the rates rises in our area...and I see this waste and it really makes me wonder about your management skills

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Money spent on parks and recreation for the young is okay and sadly bike lanes were an excellent idea, but no one (or very few should I say) are using them....so anymore would be pointless if bike riders still ride on the roads and footpaths...I walk alot in central and only see riders in extra low numbers using lanes if at all

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Fuel tax is okay by me as it might get Aucklanders to get out of their cars and use what public transport we have...especially during middle of day etc.... but no tax on business vehicles

2a. Is there anything you would spend more on?

Parks in Whenuapai they have so few.....and let the big developers out there contribute to parksthey are making a bomb on mass housing

2b. Is there anything you would spend less on?

bike lanes, council consultations, working groups and administration lots of waste in those areas in my view....Too many free lunches so to speak...cull staff that are not needed like you did when you closed the offie downtown.....that was a strange move now there is nowhere to go to pay rates in person.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

#1675

Operational Management changes at least give a chance to make the concept more viable....If its not working now what is the point in redeveloping if the Management is not working properly as it is

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

It's a great asset for the future..... Better to think laterally or get staff that can think in a lateral cost saving wayNot people that keep spending unwisely and then want to sell assets to finance their lack of skill

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The rule of thumb is to sell nothing....well it is for an individual....never sell house or land unless you have a mind to buy something better...land and buildings etc etc go up in value...once you have the cash it melts away....I dont think Auckland Council should sell any solid assets...they should figure out another way to manage finance...or get someone that thinks laterally operate the budget

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

maybe some of the free events could have a koha system so some costs could be recouped. Funds spent in community where event is held.

More use of business to pay for large funding opportunities for volunteer groups to do pest control and ecological projects. a pool of donated budgets from business wanting to help.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Do not stop building cycle ways and non-car transport routes. we need safer more accessible routes that don't use cars.

sort the rail infrastructure out - failures and hold ups are causing lack of trust in the system.

cap or lower fares are vital. It should be a no brainer to take public transport over the car, but cost can a deterrent to easy use.

use of tolls for new roading so user pays, congestion tax is great idea but need immaculate public transport alternative to carry the load.

Manurewa Local Board Priorities

7b. What do you think of our proposed priorities for Manurewa in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	Fairly Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Fairly Important
Empowering community groups and organisations to deliver community events through sustainable funding models.	Very Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Very Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood	Very Important

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Long-term infrastructure repair and upgrades. For example replacement of water mains, stormwater and roads that continue to fail because of long-term underfunding

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1744

Less ridiculous road changes for bikes and busses. Taking away existing roadways to provide a bike lane is foolish. And we have seen massive wastage such as with the pedestrian crossings which cost a fortune and then a bunch were removed afterwards.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Anything to make it easier to move around Auckland is good. But be practical - the raised pedestrian crossings are unnecessary and slow everyone down.

2a. Is there anything you would spend more on?

Reduce the massive disruption that accompanies any work around the roads. The traffic management plans seem to be totally over the top. Sensible and practical traffic management should be the norm

2b. Is there anything you would spend less on?

Cycleways and raised pedestrian crossing!

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

No need for a massive stadium. Rather, make better use of what we have such as Eden Park

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#1744

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I strongly feel the council should retain a shareholding in the airport.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The port is integral to the heart of Auckland. I cannot imagine why the council would want to hand it over to another entity which does not have Aucklanders' best interest in mind. It is not always about money!

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The future fund does not seem to be a good proposal.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#1744

Tell us why:

More public access to wharves is good. The really great public ports around the world have activities that can be done in the port itself, right on the water. For example the Victoria & Alfred Waterfront in Cape Town. It remains a working port, but has a vibrant retail and recreational precinct right on it.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

The port needs to remain competitive and productive.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support

#1744

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

8. Do you have any other comments?

There are some basic services that I, as a ratepayer, absolutely expect the council to provide. Such as providing, and emptying, litter bins at public places. So hearing the council is removing litter bins just annoys me intensely. Only the council can provide these, and they SHOULD provide them. Not take them away.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Higher focus on OPEX renewals ensuring our current asset portfolio is of reasonable condition and not deteriorating further, this includes big items like Aquatic centers, Building, track networks sport parks and playgrounds. Less focus on Growth CAPEX,

#1776

the more assets we build the greater the total consequential OPEX. There will already be commitments for growth through development contributions, but this doesn't need to be further encouraged in the current climate. Growth can wait until debt is under control and the current asset portfolio is renewed

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Reduce planned cycle lane infrastructure development on feeder roads

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

There is a lack of sports fields region wide and sporting clubs are seeing an increase of 10% per year of member ship, this is a great place to start accommodating them. Additionally AC should charge the user for filed usage.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

We need to create revenue upfront, as AC has a cashflow problem.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Growth will lead to greater debt. focus on existing assets and revenue generators.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Climate change resilience action and adaption management

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

City and Local development - what is currently done is ineffective

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Congestion and climate change impacts can only be resolved through more multi-modal transport network investments, including walking, cycling and public transport - not more roads.

2a. Is there anything you would spend more on?

Public transport in the suburbs, particularly South Auckland suburbs

2b. Is there anything you would spend less on?

Any new major roading projects

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It is currently underutilized - there is a need for more community focused sports grounds throughout Auckland

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

#1844

We need to create a funding source for future projects - not rely on current funding streams as they are inadequate.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

The current management model is outdated and inefficient - we need a new approach to the port management

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

The waterfront location is Auckland - Aucklanders need quality access to the waterfront in the heart of the city

Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Build a transport system that caters towards peoples actual requirements

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1984

spending unnecessary money giving everything a dual name identity. It has just cost a Government its position of power in the last election. Take a leaf out of the book of things they did well, after all it would not be a very big one

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

At least you are trying but need to start thinking outside the box. What you are planning to do is more of the same which has not worked previously anywhere in the world except perhaps London with its congestion surcharge. However, they could introduce that as they already had an efficient transport system to offer as an alternative.

2a. Is there anything you would spend more on?

Bringing back rubbish bins. Pay for a recycling system that will take all peoples rubbish not be so selective.

2b. Is there anything you would spend less on?

Unnecessary road works, pedestrian crossings and giving everything an English and Māori name. After all our resident population is made up of New Zealanders. Europeans, Indians, Chinese and a varying smorgasbord of other nationalities

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

Auckland is always saying it needs a waterfront stadium. Why not develop the ones that are already there

#1984

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

You're just rearranging the deck chairs on the Titanic.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

It is an asset that will keep on providing revenue, just like Auckland Airport

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

It's what it is there for. Money into a slush fund disappears down the rabbit hole

It is an area that is close to the central city area and should be developed much along the lines of the old fishing port and fuel tank area. The public and tourists have got enough parks to wander around.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

As long as it is used productively, and not just set up as green area with bollards and benches with as much imagination as a caravan site put into it

Introduce some form of goods tax to raise revenue. This could be charged to all the population including tourists, and companies that produce goods within the region, using the infrastructure but not paying for using it. This would spread the load from it not being only ratepayers who foot the bill.

7c. What do you think of the Waitematā proposed priorities for the 10-year budget 2024-2034?

If the fairer funding model comes into play, There is not going to be enough funding to maintain the buildings the libraries occupy leaving the inability to library services across Waitemata and complete the Leys institute project. While the growth in Waitemata is low. There are facilities and spaces that people from all over the region and world come to visit e.g Auckland Domain and the Wintergardens, Western Springs Park. Lots of people work in the CBD too.

8. Do you have any other comments?

Fairer funding model is going to reduce Waitematas P+CF Area Teams budget by half if not more. They get enough heat from the public as it is, reducing the budgets means less \$ to deliver "a World class city"

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Frankly, there's not much I'm willing to pay more for considering the Council's dismal track record in project management. It's infuriating to see taxpayer dollars squandered on inefficiency and unnecessary expenditures. Auckland's costs for basic services far outweigh those of other major cities worldwide, and for what? Projects that routinely exceed budgets and deadlines. If there's any increase in fees, it must be accompanied

#2045

by a guarantee of efficiency and a commitment to reduce wasteful spending, particularly on bloated administrative staff. Until then, I refuse to contribute more to a system rife with mismanagement and excess.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Absolutely! The Council needs to drastically cut down on wasteful spending. It's exasperating to witness taxpayer funds being frittered away on bureaucratic inefficiencies. Every public department seems to revel in passing the buck, resulting in endless rounds of unnecessary consultations, bloated staffing, interminable processes, and redundant procedures. Not a single project seems to escape this vortex of waste. Aucklanders are tired of footing the bill for this bureaucratic circus. It's time for the Council to streamline operations, eliminate redundant positions, and implement leaner, more efficient processes. Until then, I see no reason to continue pouring money into a system that hemorrhages funds with reckless abandon.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

My support for most of the transport proposals stems from the dire need to improve Auckland's abysmal transport network. Most of these proposals focus on enhancing the existing infrastructure rather than mindlessly expanding it. It's imperative to stabilize the current level of public transport service before inundating the system with additional services. However, my support is tentative at best, given the Council's dismal track record in delivering tangible outcomes. The investment seldom justifies the purported benefits, leaving citizens skeptical and disillusioned. While I acknowledge the necessity for improvements, I remain deeply skeptical of the Council's ability to deliver meaningful results.

2a. Is there anything you would spend more on?

Not really but if anything, maybe allocating additional funds towards optimizing the transport network, particularly through the implementation of dynamic lanes to reduce congestion. However, this call for increased spending comes with a caveat: the Council must exhibit far better budgeting and cost management practices. Aucklanders are tired of seeing our hard-earned money squandered on poorly planned projects and

#2045

ballooning budgets. Any increase in expenditure must be accompanied by stringent oversight and a commitment to maximizing the value of every dollar spent. It's high time for the Council to prioritize efficiency and fiscal responsibility in all its endeavors.

2b. Is there anything you would spend less on?

The proposal to invest in cycling infrastructure is utterly nonsensical. Pouring more money into building cycleways is a misguided endeavor when the pressing need lies in stabilizing and improving public transport services. Cyclists aren't enthusiasts by choice; they're often compelled to cycle due to the lack of a reliable public transport alternative. Instead of funneling funds into building more cycleways, the Council should prioritize addressing the root cause of the issue: the inadequacy of public transportation. Aucklanders deserve better than superficial solutions that fail to address the crux of the problem. It's time for the Council to reevaluate its spending priorities and invest in initiatives that truly benefit the community as a whole.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

If it is the least utilised facility, there is no point to keep the whole stadium. Maintaining it won't increase utility rate. Better to sell part of the land to general funds. Don't charge more from the residents for benefit of nobody.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

I find the privatization of Auckland Airport confusing, and without a clear understanding of the implications, I'm hesitant to form an opinion.

#2045

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Long term income is better than one off upfront payment. We can't make sure that the council can well utilise the upfront payment anyways.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

I would advocate for the profits and dividends to be allocated towards more meaningful projects or existing improvements that directly benefit Aucklanders. Rather than funneling funds into ambiguous initiatives like the Auckland Future Fund, I believe these resources should be utilized to alleviate the burden on taxpayers. One way to achieve this is by reducing council rates, thus lightening the financial load on residents.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No but it's crucial that any changes are transparently communicated and thoroughly explained to ensure informed decision-making.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

#2045

Utilise the resources!

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Make sure the planning is transparently communicated. Very concerned about the costing.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	I don't know
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Do not support

#2045

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

It's challenging for taxpayers to grasp the implications of the proposed changes without clear explanations. Simplifying the figures and providing transparent information would enable better understanding and informed decision-making.

#2045

(environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.	The proposed priorities seem misguided, primarily focusing on community events rather than addressing more pressing concerns. Instead of organizing events, efforts should be directed towards creating a better business environment and enhancing security measures to attract residents naturally. Additionally, the plethora of ongoing roadworks is already disrupting the area, and it's essential to prioritize completing these projects before introducing further events. Safety and infrastructure should take precedence over superfluous community gatherings.

Tell us why

The proposed priorities raise concerns, particularly regarding the focus on "delivering local climate action programs" and the vague nature of "developing local plans and implementing when funding allows." I strongly disagree with prioritizing climate act

7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?

I don't know

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

I don't know what has Onehunga Business Improvement District done. What's the benefit of being part of it?

#2045

Tell us why

8. Do you have any other comments?

I have significant concerns. One glaring example of wasteful spending is the implementation of the food scrap bin project, which seems like a failure. The decision to roll out this initiative without seeking public opinion highlights a lack of consideration for community needs and preferences. Moreover, practical aspects like the bin size and susceptibility to weather conditions appear to have been overlooked, resulting in unhygienic and inefficient outcomes. The costs associated with using the food scrap bin likely outweigh any benefits it offers. It's imperative for the council to prioritize projects that are both cost-effective and aligned with the needs of the community. How do we know the council will achieve better with the other 'funding' policy.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Fix the infrastructure which needs an upgrade

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

no

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Auckland needs faster public transport to reduce the number of cars on the roads.

2a. Is there anything you would spend more on?

Reliable public transport - unacceptable that trains are cancelled or late

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

If there's greater use by the community, then there maybe grounds later to develop.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Auckland is still a growing city so there needs to be future funding in the pipeline to support the growth of the city and population.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More investment in public transport and active modes of transport so that services and experiences can improve. I think that optimising services and having the funding to then improve services further (i.e. add new services, electrify the fleet, complete

#2256

infrastructure projects) goes hand in hand. We don't want infrastructure improvements to be delayed further. The cut of the Regional Fuel Tax was not the right thing to do.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Continually upheaving public service organisations with restructures etc. It surely slows things down and people have had enough disruption over the last few years.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

It's a mistake to stop funding active modes of transport which help connect people to the public transport network and communities. This behaviour needs to be encouraged and is only working against the initiatives to drive public transport use. We should not be delaying the Kiwirail Track maintenance. This is essential to running services well.

2a. Is there anything you would spend more on?

More on enablers to entice people to use public transport. This could include, better footpaths, better bus shelters, more PIDs, or could be more marketing, community engagement etc.

2b. Is there anything you would spend less on?

A transport system is so essential to any world class city, we cannot cut funding to this if we want to move forward as a city and country. There are so many opportunities that we can work on, but we cannot do this if the funding is significantly cut.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

More use makes sense to me as the best option.

#2256

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I believe this would slow us down.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

We will lose control of our pricing.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#2256

Tell us why:

I don't want to slow port operations.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

As above.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Transport doesn't need to be faster. We need to work with what we have and align the different forms of transport available (as they do overseas). Time tables should be held. We pay so much to AT that they have all the power and can cancel buses/trains at any time for any reason and then put their hand out for more funds from council as they haven't kept up with their maintenance plan. Hold road workers accountable to their contracts and charge them non-completion fines. It's a joke they don't clean up their own equipment after and then bill us for more cones!

2a. Is there anything you would spend more on?

Police in the city. Speed cameras on all these new reduced speed zones. Public buses and trucks fly around the city 20km over the lower speed limits. Put up speed cameras and fines to pay for maintenance to the roads, cycle ways.

2b. Is there anything you would spend less on?

New parks and art display in parks (ie bridge under Myers park - what a joke, how long until that's damaged or stolen). Keep them clean and tidy, do not go above and beyond when we have other things we need to pay for. Again, hold the contracts for clean up/rubbish collection accountable.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

How many events are actually held there. Sell it! Shouldn't be council's problem to own every stadium. Let someone else turn it into a profit and council can get hire rates/tax and tourism from it.

Albert-Eden Local Board Priorities

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I do not support any priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Not Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Not Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important

#2451

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Not Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Fairly Important

More specifically, what do you think of each priority we've listed above?

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	

#2451

Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

If Auckland sorts out the Transport, Development, Environment, Parks and Governance, we won't need to spend money subsidising economic and cultural development. It'll happen because Auckland is a great place to be.

#2636

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Don't reduce rates, but improve operational efficiency. In other words waste LESS money!

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Transportation is the life blood of the city. Without good transportation systems, the efficiency of the city falls, causing all living costs to rise.

2a. Is there anything you would spend more on?

I'd spend more on every core council function. But increase the efficiency also,

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

North Shore is big enough to support its own stadium. But I'd not redevelop it until demand for its use grows: Don't get rid of it.

#2636

Tell us why:

Creating a future fund, makes no sense to me. Is it not council's role to consider the future of Auckland already? Why is a special fund required? Retaining the AIAL shares, as it does give us some influence over the airport governance.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

The job of the council is to run a city, not a port. The recent "automation" debacle shows how poor management and a weak board can cost ratepayers millions in lost profits.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

An Auckland future fund make no sense to me if the council is already visionary.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

The Council is in desperate need of a restructure. If you look across all commercial industries, we are seeing headcount reductions yet Council back office has continued to grow. I've had friends who have worked at the Council in the past who have

#2676

complained about the level of inefficiency, similar to other public sector companies, which you would never see in a commercial enterprise and which is now bred into the culture. Moderated rate increases have been promised before but never delivered because there seems to be a commercial mindset lacking which has allowed costs to grow out of control. A CFO is desperately needed who has experience in transformation and cost management and staff need to be measured against KPIs that need to be delivered.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

I support the proposal but have little faith in its delivery. Train lines have been down between 3 months to over a year to re-track and yet they still cannot handle temperatures over 25 degrees. Where was the oversight and planning on these so called improvements? Signaling failures are a daily occurrence. What country in the world shuts down its train system for a month over Christmas? It's troubling none of this elicits any action until it becomes a daily news story, however action seems to be largely limited to finger pointing at other agencies. If you can't deliver because of dependencies, isn't the solution to work together on these problems rather than deflect responsibility?

2a. Is there anything you would spend more on?

Can we fix our signalling system so trains aren't always cancelled delayed? I also find it troubling that perfectly fine footpaths in places like Remuera are removed and replaced whilst crumbling ones in areas like Onehunga are left to waste. Decisions should not be made by those with vested interests and with the loudest voices. Again, prioritisation decisions are being made for all the wrong reasons.

2b. Is there anything you would spend less on?

Community engagement is important but do we need to be running free concerts when the commercial returns barely cover the cost? I see commercial sponsorship/tie-ins with the Lantern Festival, Diwali, etc. but some of these events seem like black holes of spending.

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

There is a conflict of interest in having the Council own the airport. It will prevent decisions on e.g. creating a second airport in e.g. Whenuapai, as why would the council consent to this when it reduces the value of their existing investment. Auckland Airport needs to be run as an independent commercial enterprise.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

We need to retain ownership of the port but divest the operations. The waterfront and the associated carparks on it area blight on the city, yet the council can't make sound decisions on its future due to conflicts of interest. Let's reclaim the waterfront.

Auckland Council and Kainga Ora need to work together on city planning. The level of infill state housing relative to private development is likely to dramatically change areas like Onehunga. The council talks about improving communities but where is the

planning to ensure we are actually building cohesive communities. I've had cars burnt on empty Kainga ora sections next door, but when I contact the Council they refer me to Kainga ora and when I contact them they refer me to the Council. Central city development. Our roads and public transport are not capable of handling commutes to the central city. We should be encouraging businesses - especially those that simply need an office, and for whom location is not important - to use other urban centres. This will result in less traffic into the inner city, and reduce pollution and road costs.

#2797

Don't support any of the proposal

Tell us why:

Talking too much nonsense. No realistic plan. At the end will be many unfinished work and wasting our money. You didn't set a smart goal and will never achieve your goal. Currently, we need to save money and reduce the cost for the citizens and the government as well. And make our transportation more efficient. That's simple. Don't tell me it's tough because bla bla, just set a smart goal and achieve it. Don't make excuses, don't set barriers. If you need help I can help you, Everyone can help. Make miracles. Save money , improve transportation , make Auckland a role model in the world in the universe. You can do it, we can do it.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Again, it's not smart plan. Are you trying to waste our money or are you trying to put some money in your own pocket? There are lots of building companies got no jobs. Just run an auction and give this project to some big companies. They can find values on it and they pay you. You charge tax or Levi or rent whatever and forever. My god.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#2797

Again, not smart. You guys don't know how to make money and you are trying to waste money. You are wasting the resources. There should be a CEO or chairman whatever a leader who can run the whole resources. Every resource like the wharf should have a boss to run its economy. The core concept is development. For example I run the water front, I need to facilitate the economy development in my zone each year. I have to make amazing progress, do collaborations with local businesses and international businesses. I will try to run the economy 10 time better each year. We will have a competition and conference with the CEO. We all will make Auckland local resources well developed and renowned on the world and unique and advanced in the world. Think big and do big. Think out of the world and do 50 years advanced. I'm a dreamer but I have achieved 99% of my dreams. Be a dreamer and achieve your dream and don't be a scarer. Don't do what they do. A fund is a past way and whatever do you get money to make the fund? It's from our pocket. I'm happy to help you but I'm not happy to help you and lose my own money. That's why you are not smart.

4b. Which option do you prefer for the future of Port of Auckland?

Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Fire the current management and construction team who is 'in charge' of the roads. Stop spending absurd amounts of on consultations and spend more money on the fixing the road in ONE go. IF you can't provide DECENT public transport then we need cars. So fix the roads instead of providing third world standard which you are currently doing. Put your money into the future of Auckland instead of stalling it and making it a

#2851

dump which you currently are. Your ideology of getting people out of cars and into public transport or bikes is pathetic. You can't even provide trains that run on time and we live in one of the most spread out city in the world so majority of people can't use bikes. Put your money into fixing the roads FAST and EFFICIENTLY.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop the stupid amount of roadworks going on. Stop spending money on stupid amounts of cones, they are unnecessary and most of the time are blocking useable roads. Stop spending money on consultants and pointless contractors and getting on and fix the roads QUICKLY!

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Making public transport faster - something you've promised for years and never delivered. Public transport in Auckland is now the biggest joke ever. It really isn't hard to get right - the rest of the world does yet you lot seem to have no clue on how to even get one train to arrive on time or for the tracks to fit the trains after you've just installed new ones!!

2a. Is there anything you would spend more on?

Upgrading roads, and spending money on decent traffic management companies who do not take the ***** and take years to finish a job that should take a month. Invest in proper systems to force companies to complete projects on time so they do not disrupt the public.

Spend more on the resource consent act and bring back design rules. The terrace housing are some of the ugliest architecture ever and they ruin existing houses removing all sunlight, and privacy.

2b. Is there anything you would spend less on?

Raised crossings - stupidest idea ever.

#2851

Bike lanes - The design of these can be improved.

Remove half the budget for Cones, far too many and they are completely unnecessary.

Spend less on incompetent consultants.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

Why continue to spend \$33million over ten years when you can sell of land and fix it once and for all?

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Auckland Council take a dividend each year, it is income which increases each year. Otherwise you sell it never reap the rewards of future dividends.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Makes you more money.....

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

It is a waste of space and should be opened up to the public so they can enjoy the area.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support

Wrong priorities. Did you see the area after the floods? Maybe focus on fixing that because I have seen no action since then and its bound to happen again.

7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?

Support

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

If this is going to help local business of course

Tell us why

8. Do you have any other comments?

Stop increasing our rates astronomically, it's ridiculous. For the couple of \$100 increase this year I have seen no benefit to our family at all. A new compost bin, that's it.

2a. Is there anything you would spend more on?

Train network

2b. Is there anything you would spend less on?

Bus lanes, speed cameras, road safety features

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Would rather have a new world class stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

We should maximise our returns.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Why not sell it instead of lease. Private owners can probably do a better job.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The councils job should be to spend the money it is given, not stash it away to generate investment returns. Especially if there is debt to pay off. The money should go toward income generating infrastructure, attracting growth of Auckland, and our overall economic prosperity.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Taxes should be tied to the services people use. Not fair for some groups to be overrepresented (e.g. property owners paying rates). And why should I pay for services I will never use.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

The space should be a mixture of shops, stalls, events and recreation. Shipping should move away from this location. Build a new port away from the CBD.

The space should be a mixture of shops, stalls, events and recreation. Shipping should move away from this location. Build a new port away from the CBD.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support

My problem with the council is that you don't really seem to be aware of the global economy which is very infuriating. Auckland has not really improved much over the last 15 years and most of the real developments are from the government themselves. So stop pretending to be helpful, you aren't, get over yourselves. And I would advise you to do your research on people's wages and increases they get year on year and the fact that you keep pushing up rates yet there are barely wage increases it just shows me how incompetent you lot really are. People can’t afford as it is, think of the things that are urgent and necessities and no re doing the things that don’t need money spent on them it’s ridiculous how often you see the same thing over and over being fixed and for what reason.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3354

Yes reduce rates people can't afford things, we need the necessities not the desires.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Transport is only suitable for those that use it, we have gone over transport consistently and every year it's we can make it better but never do. It's the same proposal worded different every few years! It's only relevant to those who commute to and from the city basically and not for those in the suburbs who can't utilise it so why would I want to put more money into something I can't use.

2a. Is there anything you would spend more on?

Necessities! Fixed the roads that do need fixed not the ones we fix every year and don't need attention. Spend money on clearing our drains making them compliant to stop blockages which in return stop flooding! Spend money on cleaning up the streets from rubbish! It's the simple things!

2b. Is there anything you would spend less on?

Transport and Large infrastructure!!

Bus and rail routes are clunky and don’t connect well - rather that just be reliable, fast and affordable also add on sensible and useful routes. Drop routes that are not well

Connected or used and make others more connected and better.

#3364

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Agree with asset review and sales of low value low contribution assets - sell more assets, allow repurposing of low value high maintained cost green space - to help fund more operating costs and investment where needs. Sell artworks we don't need in storage. We pay less if the council has less of the things it does not need to look after and gets little from

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Seems to be pragmatic plan - agree.

2a. Is there anything you would spend more on?

Bus stops need shelter - stop having bus stops with have no cover - previous councils

Moved bus stops (with cover) sometimes only 50m away to new locations with no cover - just a pole. Ridiculous behaviour if we want people to choose to use bus network. Protect people using buses for everyday use.

2b. Is there anything you would spend less on?

Agree we need arts and such but spend less and get businesses and groups to own and lead events as there is commercial gain - food trucks etc

More specifically, what do you think of each priority we've listed above?

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

Reduce waste across council spending by removing parts of the organisation that are no longer needed such as the DPO and amalgamate works into community development team. There are far too many tiers of management that do not add value but they continue to try to justify the roles by making comments on anything and any subject as a form of justification

Cycle routes are a waste of money and provide a false sense of security for cyclists. What about a massive drive towards more informed training for motorised vehicle users and cyclists to ensure there is much more widespread consideration between riders on all modes. This would cost way less than the over priced and over designed cycle routes

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increased investment in improving public transport and moving towards world class public transport for the City.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3450

Too many staff on over \$200,000 a year and too many contractors and consultants who do busywork.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

We need to continue to invest and development t alternatives to car transport, cycle lanes and making spaces pedestrian friendly are nice but the primary focus needs to be on significant improvements to public transport facilities, the usability of public transport and increasing routes and its reliability.

2a. Is there anything you would spend more on?

Public transport, especially on bus lanes like northern and eastern in south Auckland. Improvement in train facilities and reliability. Cycle ways - like the Glen Innes to Tāmaki cycle path. These initiative increase mobility and save residents time and money in travelling.

2b. Is there anything you would spend less on?

New roading projects, more roads and lanes will not be able to solve our transport issues and are a waste of money.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

I am not a part of this community and do not use this stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#3450

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

We lose a solid investment for pay for upkeep on our current and future. The city will be poorer for this. My rates would increase by \$252 with a 7.5% rate increase, at 15% this would be \$504 per year, less than \$10 per week. If that what it cost to genuinely invest in Auckland had the money it needed to continue to improve the city I would have no issue paying for 15% rates increases. We need to pay what is needed to appropriately fund the city. Not Rob Peter to pay Paul.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Aucklanders will lose control of a strategic asset, it will reduce our optionality in the future and we will end up paying more over the long term for a minor short term gain. Health and safety has been a major issue at the port, a leasing operator will further exacerbate this situation.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

No problem with the profits being invested into the future fund.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#3450

No issue with the concept of a future fund, but it needs to be funded from a rates increase and not short term gain that will make the city poorer in 20 years. I intend to be living in Auckland for the rest of my life and I do not want to defund the city now so that we have a problem in ten years. I want to invest in our city appropriately now. There has been good work done and I want to see that work built on not abandoned.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Long term this makes sense. I understand the thinking and I think it just needs to be appropriately managed.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Same as above.

6a. What do you think of these proposals?

Feels underwhelming. I work in the city and travel here most days. It has significantly improved as a place to live and work in the last 10 years. #3471

Do not support most of the proposal

Tell us why:

Auckland is wide spread and is not designed to have a sustainable and reliable public transport network. The improvements in the current public transport system are not effective or well designed. Not many people use the public transport off pick hours and the new buss lanes, buss stops and buss roads slow down traffic and contribute to the traffic jams, increase carbon emissions and are very costly. It is expensive to use Auckland public transport even with the concessions . Furthermore it is very time consuming and unreliable!

Bike lanes are not used at all. I have spent some time deliberately counting the number of bikes in central Auckland, it is ridiculously low, most of the bikers will ride on the road regardless.

The heavy traffic lanes e.g. Great South road are extremely ineffective and slow down the traffic flow tremendously! Most of the heavy trucks do not use that lane anyway.

You need to get the whole road and public transport system audited and reviewed because it is not working right now.

2a. Is there anything you would spend more on?

Repair the roads!

The ridiculous in-lane concrete buss stops, unused bike lanes and the car-breakind speed bumps!

Review all expenditure - determine what the core services are (my suggestion would be things like water/wastewater (which is already a separate charge), Rubbish removal, road maintenance, Parks pools and libraries etc) and with a NIL rates rise, if there is anything left over, debate what to do with it.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

AT are generally delivering too little for too much cost. Public transport operations should be largely user pays with a minimal top up (CAPEX to be treated based on Business Case) Roding should prioritise maintenance of existing infrastructure and the profligate spending on "safety at any cost" should be removed.

2a. Is there anything you would spend more on?

Fixing the existing roads.

2b. Is there anything you would spend less on?

Realignments, Pedestrian crossings, Chicanes, Speed bumps, so-called beautification etc.

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

There are a plethora of playing fields throughout Auckland but only a handful of stadium. Ideally this should be a Venue that makes money or at least pays for itself. Perhaps it could be leased out to private enterprise or sold.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

It is an interesting idea but I do not have sufficient information. It is questionable whether the council should be investing in commercial businesses unless they are of benefit to the people/city AND are producing spectacular returns that justify the capital tied up..

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

As Above - although in general I agree that the council (or CCO) should probably not be running a commercial enterprise.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

As before - insufficient information - not convinced that increasing expense by removing the offset is sufficient balanced by a possible benefit in the future.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Self insurance might be worth considering. Should retain ownership of land where possible - could lease out to commercial operators

#3485

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

Ideally prime waterfront land could serve a multitude of uses, however the reality is that the port is important to Auckland and NZ. Heard on the Nes that Tauranga cannot expand (no more land) and Whangarei would cost a large amount to double track high speed freight trains so it seems a little odd to be discussing downsizing POAL just because it is in the wrong location.

5b. What option do you prefer for Bledisloe Terminal?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Restoration of the environment and stoping pollution of the environment via water, industrial waste and litter....Focus on essential services, parks, water, footpaths, some lighting.

Become a service provider of these essential services and get out of everything else.

#3488

Create a plan for how we want the city to be, design it “aspirational” and let the community develop to that....

Become people focused instead of policy or bylaw focus, work with people and not regulation, help people and regulations come together over forcing compliance (any one can do that, become a value add)

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop funding non essential services, go back to the very core and invest in that, sell all assets that arent directly related to those services (airport, port additional land etc)

Unless central government is going to fund the ability to 100% recycle all recyclable items we should stop telling people that we are recycling.

Until we have the basics right we should stop trying to be everything else, focus on the core which is to service our basic needs, water, rubbish, lighting, footpaths and the environment once that is on track then start to look at something one step up... but that should still be community led and not council led

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

The council has proven that it isn't able to understand what the people want - they listen to the louder people with agendas instead of the delivery of the basic, make everything easy to get to and easily accessible.....Transport isn't about bus and cycle lanes it is about us getting about our city, to our homes and our work and of course to shop (for food) until we can do these things within a short distance public transport isn't going to work... for example I cannot get public transport to work (isn't possible) and I live in a central suburb. My 5 min drive would turn into 20 minute walk, 15min bus trip and a final 15min walk..... add in trying to get groceries and its not feasible... this story is true of more people than you would think

2a. Is there anything you would spend more on?

Improve the flow of what we currently have - for all traffic, cars and buses, get rid of cyclist they are a danger of the road as our roads aren't designed for it and giving up raiding for cycle lanes or bus lanes causes further congestion

#3488

2b. Is there anything you would spend less on?

It's a good idea but will not work, getting people to use buses, trains and bikes....our city isnt designed for that it is to spread out and as a people we move around outside of public transport, thing of all the above and then include taking kids to sports on the weekend or after school... how does this happen with public transport... the models that have been used dont take these things into account

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

We should have an event centre, it should be a place for sports and conference, concerts etc, it should replace the port, ultising what we already have down there and more (it has the train station and arena although smaller) we need to add something to bring all of these things together and bring people into the city. To make the north harbour stadium work it will need the train going to the north shore (this is something where public transport can work for us)

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Sell all non essential assets and land, council should be managing or owning anything - governments dont make good choices - its a conflict of interest as they are currently unable to be service or people focused and see funding as a right and not something that is earned. Again focus on the very very simple stuff the basics that we as a people need, we need it to be clean, with good water, safe and with a focus on its people not special interest groups

4b. Which option do you prefer for the future of Port of Auckland?

#3488

Other

Tell us here:

Sell 100% of it and make it move from its current location, if selling isnt possible move it north and invest in a train/ freight system (no trucks but train) that way employment will be generated in the north and we would be taking trucks out of the city centre and not using them to transport the freight for the new port

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

It should be sold - however since that will take a while or will not happen profit should be used to downsize debt not to fund anything else... get rid of the debt

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Treat this budget and services as if it were your home, we cant afford the fancy wall paper so lets get the house insulated, with clean water etc first and then maybe we can look at a decoration, at the moment the focus appears to be on the decorations

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

All of this property should be made available to the public for use, not used for ports of Auckland activity.... Yes it can still generate revenue from events but it should be setup for the public to use and to have access to - it should be a draw card to the city centre and international the port and any other business like it should be somewhere that isnt prime realestate

#3488

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Move the port as above but not in 15 years, now o it straight away no more thinking and talking get it done.... Also sell the port business keep the land and give it back to the public to use... it belongs to the people of Auckland not the council or a council business ..give it back

Where i have said support, i support the initiate however it should be funded by current rate amounts (this can be achieved by not spending on non esentials). Where i have said dont support it is because I dont believe that these actions will achieve what is stated and we are paying for failure. Where I have said other, we need to treat everyone the same, rate everyone the same (unless they dont have access to that service)

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

Targeted rates aren't fair because of the communities that they gather from... poorer communities cannot afford these rates and therefore aren't able to develop as much.....everyone should be able to help and provide for everyone

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Building bike lanes is an extremely cost-effective initiative. More bike lanes and a proper, connected network mean more people cycling, fewer driving. Fewer people driving means less money spent on road maintenance, as well as fewer car-related accidents to clean up.

2a. Is there anything you would spend more on?

Bike lanes

2b. Is there anything you would spend less on?

Roads. Building roads simply encourages more people to drive, which traps us into high maintenance costs as well as pollution and congestion.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Get rid of the stupid small food recycling bins as most of Auckland do not use them yet we are paying \$71 per year for a service we do not require. We are being fleeced. For older people they are hard to manage due to no wheels so can be very heavy to hall down a long driveway. Whoever thought this up needs to re think as its a pipe dream.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The only more is for emergency items.

Sort the drainage, stormwater etc.

Have proper planning for disaster and Covid type emergencies

#3558

All of aucklands projects over the last 10years have made little to no difference, we do not need more of anything the council has been doing .

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Auckland council is a swamp of overpaid ineffectiveness.

People need money back in their pockets for the next few years, not more money into council for more capex projects that go overtime, overbudget, and end up offering little to no difference to the lives of Auckland residents.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Cycle ways are a waste.

Between weather and hills Auckland is not designed for cyclists, the investment is not worth the numbers who will use it.

Trains service the rich for the most part in Auckland. The best properties are within walking distance of train stations that don't have enough parking for people who really need the commuting option.

Trains should be cheaper, faster, and vastly more accessible to lower decile workers, that's how to clear the roads.

2a. Is there anything you would spend more on?

Divert funds into fast tracking projects already running.

Southern motorway expansion etc

2b. Is there anything you would spend less on?

Consultants.

They are a budget sucking waste.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

The stadium should be used as often as possible, and geared to provide numerous sports and activities opportunities to show their value to the community.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Find a middle ground.

Properly operated leases etc on the land should create the revenue needed.

Selling off assets gives little Room for options in the future.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Again, keep the assets. charge for use. And charge properly.

There are too many billionaire shipping magnates with more money than the port owners. Council should be harsh with negotiations and ensure the 35 year lease earns what it needs.

#3558

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Improving safety for pedestrians is important and the use of precast panels has shown to be cost effective for upgrading pedestrian crossings.

2a. Is there anything you would spend more on?

More proper pedestrian crossings and generally more public transport and active transport.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

North Harbour stadium is under utilized and expensive with plenty of land that could be developed.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The proposal seems to be overvaluing the port and limits our ability to reduce our control the port activity which seems foolish.

#3561

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The sale price seems and the loss of control of the port on its prime land does not seem like a good idea.

The bus system has gotten worse. I mean it is more complex to use. For example a simple bus running up the great south rd got cancelled. My sister who uses buses , lived in Papatoetoe and used to be able to catch one bus from Papatoetoe to Ellerslie.

This got changed so she would have to catch 2 buses to Ellerslie and I would have to pick her up from there

This change makes me hesitant about the councils ability to provide easy to use transport systems.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Do not support</p>

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Yes MORE IN PUBLIC TRANSPORT the CRL will be amazing for Auckland however we need to fully utilize connections within the network such as rapid transit to really bring out what the CRL is bringing to the table along with completely doing the rail network rebuild I understand it is expensive however i feel like we need to do the entire

#3597

network as leaving the fringes of the western line not to the same standard will not enable full optimization, again i am probably wrong in that regard but i hope you understand my general point. Also electric ferries and good airport link, plus everything else.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Not really

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Its investment into pubic infrastructure which is desperately needed

2a. Is there anything you would spend more on?

Yes I mean I understand I have already said this but anything really related to public transport and cycling with the CRL opening it is crucial that the right infrastructure is in place or coming into place to support the CRL otherwise we will never be able to truly unlock it's full potential, which is a lot and increasing cycleway capacity will also help boost this especially if we focus on cycleways to transport hubs

2b. Is there anything you would spend less on?

Nope especially with transport

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

Like I am 50/50 on the idea as I do understand the need for it however wouldn't that money be better spent reinvesting it into the network, again I have read the document in full and am trying to wrap my head around it

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I feel like leasing the port could conflict with the priorities of Auckland Council however while I am not too concerned about the rates increase and i personally see them as a benefit I think the extra cash to invest into Auckland infrastructure would be great

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

I understand that we need to have cash on standby encase of another disaster however I would rather we invest in infrastructure now so we are more capable at dealing with these disasters and also making sure that everything or as ready as it can be for the CRL granted the GPS isn't helping

4d. Do you have any feedback on any other part of the proposal?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Pedestrian crossings and cycle ways. Ripping up perfectly good curbing footpaths. Remove food scarp collection. Provide disposal points for those who want to use it. Mine go on the garden . as others should be doling as well.

#3611

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Should be providing park and ride car parks rather than discouraging park and ride.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Anything to do with smart cities and UN BS agendas.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Sell the Airport shares and pay of debt. High interest rates are here for a while due to international conflict. Look back in History. War always brings high inflation.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Lease it and use the money to pay off debt. any option should always result in paying off debt. that should be your top priority while interest rates are high. That is not temporary.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

pay off debt. Pay off debt. pay off debt. pay off debt. Do you not have anyone making these decisions with any financial sense?

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Do not go ahead with the future fund. pay off debt.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Pay off debt now. Look at those options down the track. Your immediate priority is to pay off debt.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	Fairly Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Fairly Important
Empowering community groups and organisations to deliver community events through sustainable funding models.	Very Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Not Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative). Submission on the Long-Term Plan (LTP) 2024-2034

To Auckland Council,

I am writing this submission to express my views and concerns regarding the Long-Term Plan (LTP) 2024-2034, with particular attention to the environmental management and conservation aspects of the plan. While I appreciate the Council's efforts in various environmental initiatives, I believe there are critical areas where the plan could be enhanced to better protect Auckland's natural environment, marine biodiversity, and cultural heritage.

Concerns and Recommendations:

- 1. Development Contributions Policy:** The LTP discusses the council's approach to recover infrastructure costs associated with growth through development contributions. However, it lacks clarity on whether these contributions are adequately calibrated to ensure developers bear a fair share of the environmental impacts of development, such as sedimentation and other forms of pollution.
- 2. Environmental Management and Regulation:** The plan emphasises the council's intent to use regulatory powers to achieve good neighbourhood and climate outcomes. However, the specifics on how regulations will be strengthened to hold polluters accountable, especially in the context of sediment impacts from development, are not detailed.
- 3. Asset Management and Infrastructure:** The plan includes significant investment in infrastructure renewal and resilience, especially concerning water and stormwater management. However, the emphasis appears more on mitigating current risks rather than a comprehensive long-term strategy to reduce environmental impacts and enhance ecological resilience.
- 4. Community Engagement and Stewardship:** The LTP acknowledges the role of community engagement in environmental conservation but may not sufficiently outline how this engagement will be scaled up or supported to address pressing issues like overfishing, sedimentation, and biodiversity loss more effectively.
- 5. Inadequate Addressing of Overfishing and Marine Protection:** The LTP lacks specific strategies to address overfishing and marine ecosystem protection. I urge the Council to consider the precedent set by the Motiti decision, which empowers local councils to create Resource Management Act (RMA) protection areas to safeguard marine biodiversity. Such measures are not only crucial for environmental reasons but also hold cultural and amenity value.
- 6. Economic Benefits of Marine Conservation:** The economic rationale for marine protection areas is compelling. The marine reserve at Leigh, despite its small size, generated over \$18.6 million a year for the local economy in 2008, against a modest conservation expenditure of around \$70,000 by the Department of Conservation

(DoC). This highlights the incredible Return On Investment (ROI) that well-managed marine conservation areas can offer. The LTP should, therefore, integrate marine protection areas as a strategic economic and environmental initiative.

7. **Pollution:** The scope of pollution control in the LTP should be broadened to confront not only sediment runoff from urban development and industrial sources but also pervasive plastic waste and less visible but equally damaging pollutants such as endocrine disruptors. These pollutants have a profound impact on both marine life and human health, necessitating a multifaceted strategy that includes robust waste management policies, public education, and stringent regulation of such pollutants to safeguard Auckland's precious freshwater and marine ecosystems.
8. **Freshwater Ecosystems:** While there is mention of water management and I fully support the Making Space for Water programme, more attention could be placed on the protection and restoration of freshwater ecosystems, which are vital for maintaining biodiversity and providing clean water.
9. **Air Quality:** The LTP does not explicitly address air quality issues. Measures to monitor and improve air quality, particularly in relation to traffic emissions and industrial activities, could be included.
10. **Although waste management is addressed:** The LTP could benefit from a more aggressive strategy towards zero waste, emphasising reduction, reuse, and recycling, and promoting circular economy principles.
11. **Ecosystem Services:** The plan could recognise the importance of ecosystem services more strongly and develop strategies to protect and enhance these services, which are critical for flood mitigation, carbon sequestration, and maintaining local climate regulation.
12. **Sustainable Agriculture and Urban Farming:** There is no mention of sustainable agriculture or urban farming initiatives, which can contribute to food security, community resilience, and local economic development.
13. **Natural Environment Targeted Rate (NETR):** The LTP proposes reinstating and increasing the NETR to fund environmental initiatives. However, the document suggests potential trade-offs and scaling back of other programs to accommodate new initiatives, which may indicate a need for more robust funding mechanisms to support comprehensive environmental protection and management efforts without compromising existing projects. I'm concerned about 'carbon tunnel vision' and want the Council to focus on its responsibilities to protect indigenous biodiversity which has everyday threats now.
14. **Protection of Threatened Species:** Auckland's region is home to numerous threatened species, both marine and terrestrial. The Council has an obligation to protect these species under national and international conservation mandates. The LTP should outline specific measures, including the establishment of protected areas

and stricter pollution and fishing controls, to ensure the survival and thriving of these species.

15. **Funding for Caulerpa Seaweed Problem:** The allocation of \$200,000 to combat the spread of Caulerpa seaweed in the Hauraki Gulf will be insufficient considering the potential ecological impact of this invasive species. This indicates a need for more substantial investment to effectively manage and mitigate this environmental threat.
16. **Urban Development and Green Spaces:** The LTP discusses infrastructure investment and growth, but there seems to be a lack of emphasis on integrating green spaces within urban development, which is essential for biodiversity, community well-being, and urban cooling.
17. **Strategic Vision and Prioritisation:** The document outlines various environmental initiatives but may lack a cohesive strategic vision that prioritises the most critical environmental challenges. This includes addressing the cumulative impacts of growth, climate change, and other pressures on Auckland's natural environment in a more integrated and comprehensive manner.

Auckland Council has a unique opportunity through the LTP to set a benchmark in environmental and marine conservation. By incorporating specific measures inspired by the Motiti decision, focusing on the economic and ecological benefits of marine reserves, and addressing pollution alongside overfishing, the LTP can achieve a sustainable balance that benefits Auckland's environment, economy, and communities.

I hope these concerns and recommendations are taken into consideration in the finalisation of the Long-Term Plan 2024-2034.

Sincerely,

██████████

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Reducing debt. Happy to pay higher rates than the central proposal if it is spent on paying down debt.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3619

- 1) Reduce bus services that are not performing that have low passenger numbers
- 2) reduce number of local boards and councillors to reduce overheads
- 3) less climate change related costs. No electrification of busses or ferries.
- 3)

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

There needs to be more focus on loss making public transport. It needs to be cost neutral

2a. Is there anything you would spend more on?

More transit and bus lanes. These are good for cyclists. More cycle only lanes that use existing rail or motorway corridors. The western motorway and airport motorway cycle lanes are great because they don't compromise car traffic. The southern train line has ample room for such a cycleway.

2b. Is there anything you would spend less on?

Raised pedestrian crossings

Shared paths. They are dangerous.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Not enough revenue to ratepayers in current format

#3619

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

We need a better managed investment

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

This is done successfully worldwide by large operators that can do this cheaper and more effectively than a small scale operator such as DP world. We will get a better return.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

We are spending beyond our means currently so invest the money

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Consenting fees should be reduced, not increased. It's very expensive to consent a build currently. Especially when the cost of building is so high.

Manurewa Local Board Priorities

7b. What do you think of our proposed priorities for Manurewa in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.	Most of the proposals are targeted at minorities and not resources that everyone uses, such as parks and recreation

There is too much focus on ethnicity. Such as focusing on developing young Maori leadership. Every kid should have the same opportunity no matter what ethnicity. It's not just Maori that pay rates.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Build a transport link to the North shore, either under the harbor via train, OR over the bridge with more car lanes, bus lanes/ emergency services and cycleway. This would dramatically increase the connection between the city and the North shore, reducing traffic and increasing economy.

#3638

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less random transportation plans that haven't been well thought out and planned with the consumer and future growth in mind.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Cycleways are good and have made a huge difference for my family on transportation costs so would be great to see them continued to be put in.....However, the way they have been done in many places is very stupid reducing space on the roads and slowing down traffic further. Examples of good cycleways is Glen Innes to Orakei. Examples of bad ones are ones where the Cycle way has raised sides and is on both sides of the road preventing car parking

2a. Is there anything you would spend more on?

Fixing the transportation over to the North Shore. Relying on Ferry's and cars is just not future thinking

2b. Is there anything you would spend less on?

The rail loop in the city. What a waste of time. Exclusive bus lanes

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

Spend as little money as possible on this. Not important.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Road tolls and some innovation to get these moving at reduced costs. e.g. how might we use existing infrastructure to enable this? E.g. Existing cameras and cell towers.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3724

You can't do everything and some are going to miss out.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

This will be the thing that breaks Auckland so it has to be addressed. But the long term plan is too near sighted and isn't exploring ways to generate revenue, e.g. road tolls. Not just on motorways but on highways and major arterial routes for peak travel. We need to do more here and look at innovation to enable this with reduced costs and faster to market solutions.

2a. Is there anything you would spend more on?

Strategies to make sure that planned works can be executed without holding the city hostage. Who is actually designing some of these things? E.g. putting pedestrian crossings right at a major intersection - what research shows this will be effective when most drivers are hyper focused on cars and getting through the intersections.

2b. Is there anything you would spend less on?

RAISED CROSSINGS.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Why are we investing in this? There is little to no major development south of Auckland which would make a lot more sense to consider.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#3724

Other

Tell us why:

Probably proceed. We need a future fund, but the management and success of this needs to be considered and the costs to govern and manage HEAVILY reduced so as to not be a burden to the fund itself.

This feedback is on the proviso that all owned assets are not SOLD or transferred out of the ownership of the council. We need to retain the learning from the sell off of SOEs and the sheer near sightedness of immediate return vs long term. Finding the right partner to lease the POAL is critical to address poor performance and health and safety issues.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Also there was no detail about the CSO or Sustainability requirements for the lease, surely the protection of the harbour must be on the list for consideration.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

#3724

Do both, split the difference over a series of years as you are doing with rates increases. Say 60% to the fund to increase it and generate returns in the first two years, and 40% to fund services. Then balance out over time.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Until you can effectively move the existing POAL operations to another location, there is no good that can come from putting additional pressure on roading infrastructure to support this. "Public benefit" is poorly defined, so without details of that, why spend money on doing this?

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

It seems to me that the Auckland Council wants to grab some prime real estate with no plan on what to do with it. I would suggest that either you come up with options of what to do with this, or you plan to sell it to private developers.

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>I don't know</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Consistent and coordinated approach to urban regeneration. Enforce off-street parking in new developments. Where parking is restricted, enforce no parking areas (IE. one side of the road is marked no parking) so the road is not blocked/forced to one-way traffic because of all the parked cars. Enforce green spaces (less housing squeezed in, more lawns) so our rainwaters have somewhere to drain to and not flood

#3854

out city. Better manage our parks and scenic pathways so that illegal dirt bikes and motorbikes stop using these as alternative routes to roads. Supply rubbish bins so people can dispose of rubbish. DO NOT go to bi-weekly rubbish collections unless you want to see Akld become a ghetto. Start building roads for the future instead of now, IE. build the road for the future growth, not today's capacity and then have to spend more money later redoing the road. Have public transport that WORKS! That turns up, is not cancelled, and is on time!

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

As much as the council/government tries to force us out of our cars by making car travel around the region more and more difficult and slower, people will always need cars as our city is not conducive to walking or public transport. Factor this into ALL proposals. Plan ahead, be proactive instead of reactive. By the time the council identifies an issue, it is already far, far too late. Urban intensification has only just started and already our roads are feeling the weight of the increased congestion. The council approves urban intensification, so be proactive about ensuring our roading network can sustain such growth.

2a. Is there anything you would spend more on?

PLAN AHEAD. Improve the roads in line with urban intensification. Do not wait for the intensification to clog the roads, before deciding to think about improvements.

Speed up planning and development. NZ takes far, far, far too long to build anything. We need to react faster.

Be realistic instead of idealistic. Allowing urban intensification without enforcing off-street parking is a disaster already in the making!

2b. Is there anything you would spend less on?

Our roads are already far too congested, stop narrowing them even further with in-lane bus stops and excessively wide cycle lanes.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

The stadium is not central enough to ever be a main stay in Auckland stadium events.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

I feel a more definitive proposal on the plans for the funds if the AIAL shares are sold is required.

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

I am not a financial or investment expert. I feel more information is required.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

#3854

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

An alternative needs to be more clearly outlined before I feel comfortable in agreeing in the release of these wharves for other use.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Unless an alternative port can be suggested, we need to retain Bledisloe. Auckland is a major trading port and the last thing we need is to put more trucks on the road just by closing the Bledisloe wharf.

6a. What do you think of these proposals?

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I've said no to the NETR because I have seen intensive urban regeneration in my area, but no apparent work to support or lessen impact on the natural environment. Hence I disagree with spending more money on something that seems ineffective already.

Empowering community groups and organisations to deliver community events through sustainable funding models.	Very Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Very Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	Fairly Important
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.	Not enough focus on safety (multiple gang related shootings in the past couple of years) and animal control (so many roaming dogs).

Yes proceed with the fund BUT do it by selling the golf courses to private concerns. These cost us money every year and are used by those with enough money to pay more. The airport and port bring in money. Its not rocket science! Then when the fund is established think about the possibility of some Port and airport shares being added to the fund.

8. Do you have any other comments?

I am disappointed while Auckland is dealing with crime, we are seeing increasing dog roaming on the street which is another type of crime by people who want to intimidate our community and also making money illegally. It seems council has too many cases to work on, we rarely get feedback or follow up calls after reporting. The dog owner who owns two dogs lets it out every day making it very unsafe for family to walk on our street. It should already meet 3 strike requirements, if not we should amend the law to make it tough for people to break. At the moment Auckland Council is dealing with 50-100 calls on this property from what I know, why spend so much time on one household? If you sort this out then you can save money on wages, times or any costs that you currently spend dealing with the same issue.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

money is already tight, use it wisely you don't need more money

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

You seem to waste a lot of money for Pacific culture, NZ is a multicultural country not only Pasifika, I don't want to fund from my taxes Pasifika events. No event should be funded with rate payer money. I am not interested in concerts or "artistic" events for the pacific or done by the government. They are not done well anyway.

2. What do you think of the transport proposal?

Do not support most of the proposal

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Cheap cycleway solutions so that my kids can safely bike to school. I waste hours each day driving them for the simple reason that it is not safe enough for cycling in Auckland.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3998

Arts and community events are a nice-to-have, but not justifiable when Council needs to reduce costs / increase rates by so much. Stick with your core business of providing infrastructure.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Cycleways are an essential part of reducing traffic congestion. More than 50% of trips in Auckland are short, easily cyclable trips and/or trips related to dropping other people off (like kids) who could cycle. But one of the key reasons these trips are not cycled is due to safety. Cycling has significantly positive benefits when evaluated against CBAs using Treasury guidance due to its significant public health improvements. Cycling matters.

2a. Is there anything you would spend more on?

(Cheap, cost effective) cycleways.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to

less money on pedestrian crossings

less money on bike lanes nobody uses that also slow down traffic flow

get rid of crazy raised pedestrian crossings

less money on questionable climate change projects

less money on cultural activities - concentrate on core council services

cancel all other non critical services until a sensible level of council debt is achieved

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#4093

Tell us why:

Akl Council is not in the airline or airport business. Sell all the shares now in Akl Airport.

Concentrate on core council services (water, transport, libraries, parks, sports facilities rubbish collection, pollution). Do not start a fund for climate change consequences that may not occur

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

If continuing to run the POAL business generates good financial returns to Akl Council keep status quo.

However if leasing the POAL operation for 35 years generates far superior financial returns to Akl Council than keeping the status quo then lease it.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Council rate should be stay as reasonable as possible. As many people lost their jobs, unemployed, and getting paid minimum wages but cost soooo much for groceries and living expenses. The wages in Auckland is bad but everything increases like crazy. You will push more and more skilled and knowledgeable people's lives unaffordable and moving overseas for better lives. Nz People have too much pressure and burden on their shoulders so far. Please don't make it worse for nz.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improve road surfaces with repairs that actually last.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less of the raised pedestrian crossings.

#4174

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

The proposals seem focused on efficiency and value.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Clearly this is underutilized. Investment and maintenance need to be supported by a change in how the stadium is managed so it is used more.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

We need to invest in Auckland so it can run efficiently and self fund. The initial investment requires fresh funds which will likely need to come from divestment of assets. This structure provides that flexibility.

4b. Which option do you prefer for the future of Port of Auckland?

#4174

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Keeping ownership of the land is essential. The 35 year lease provides certainty to ACC and to POAL.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

We need to prioritise the future goals of Auckland

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

This seems like the balanced approach.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#4174

Tell us why:

The impact on the value of the lease by removing Bledisloe Terminal is too significant and we need to keep the lease value high as the funds are essential for the council proposals.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support

This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. <p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improvements to cycle ways within the city to make it safer.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#4242

Fortnightly bin collection and less bins in public spaces (encourage people to take their rubbish home)

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Cycleways are important to me as that is my main mode of transport to work and home.

2a. Is there anything you would spend more on?

Cycleways and more reliable train services

2b. Is there anything you would spend less on?

better public transport and alternatives should mean less cars and less need for dynamic lanes in the future. Consider alternatives that have worked for other cities to reduce congestion.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

a diversified fund presents less risk in the long term

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Either option benefits the community

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

I think its very important to invest in our city to help build future economic growth and stability as well as maintaining/improving our city's natural beauty and resources

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

It would help Auckland center feel more vibrant attract additional tourism/improve the experience for all however that would depend on if we still need funding from the port for critical infrastructure in 5 years time.

#4242

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No - the focus should be on reducing the rates increase impost. Aucklanders are doing it tough.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#4295

Yes - cut opex and capex where possible. Sell surplus property. You could consider privatising Watercare or having a mixed ownership model (like they do in many international jurisdictions). Focus on reducing rates increase - Aucklanders are doing it tough.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

You can introduce private capital to fund a significant portion of the capex required. Look at Sydney's toll road operator Transurban - they charge users for the road, not a general rate on everyone.

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

See following (replicated): You can introduce private capital to fund a significant portion of the capex required. Look at Sydney's toll road operator Transurban - they charge users for the road, not a general rate on everyone.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Stadium is hardly used. If you can appropriately receive cash for the land for alternative use (e.g. housing development) then worth considering. If you are not getting fair market value, then wait until you are.

#4295

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Not a requirement for the council to hold a stake in the Airport.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Current operation of the port has been rubbish. Employees have died. There has been a lack of accountability. Put in an experienced operator and extract value from lease of the land. This is core real estate. \$2.1bn proceeds appears very light - you should drive for more.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

The Council simply should not continue to operate the Port. It is not a capable operator. Just look at Port of Tauranga and its success in private hands.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No.

#4295

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Maximise the proceeds from the Port lease. If no change for Captain Cook and Marsden achieves that, then so be it.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. <p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I am happy to pay the Regional Fuel Tax for improved public transport/traffic congestion reduction. An effective/efficient way of collecting tax, from a wide base, to raise the necessary funds. However, I'm totally opposed to any congestion charging or tolling of motorways as it will disproportionately effect a much smaller pool of drivers. It's also an inefficient way of collecting tax & will have unintended consequences such

#4376

as drivers using suburban streets to avoid charges. I don't drive during peak times or in the CBD so won't be affected by the charges but still favour the fuel tax. I would like the council to push to retain the RFT.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

More money needs to be allocated on projects/systems that will best solve Auckland's woeful transport issues. We are growing so quickly that we need to act now with bold (but sensible), long-term improvements that will help future proof our transport network.

2a. Is there anything you would spend more on?

An integrated, efficient, convenient, & cost effective public transport network.

2b. Is there anything you would spend less on?

Cycle ways to nowhere.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

#4376

Tell us why:

Agree with the fund but not too sure about whether to sell the remaining AIAL shares. I would also want to know the costs & calibre of those administering the fund.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I'm for the transfer of Bledisloe to the council so the land could be better utilised for the growth of the CBD. However, I'm against the lease proposal. Private operators are concerned about maximising their profit margins. They are notorious for underinvesting in capital projects & maintenance for relatively short lease operations. In 35 years, Auckland will have the port operation returned but will have to pay massive amounts to have the facilities brought back to a fit for purpose condition. It would be naïve to think otherwise.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Like any household, such money could be easily blown because it's available. Putting the dividends into the fund would ensure they were saved & not spent. We need to save for a rainy day & have those funds available for when we really need them. Some of the returns on the fund could be used to fund necessary services or debt repayment.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

The land could be better used to improve the CBD (commercially & for the public).

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

The land could be better used to improve the CBD (commercially & for the public)

Support community groups and community-led activities by continuing to provide local community grants.	Very Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Very Important
Empowering community groups and organisations to deliver community events through sustainable funding models.	Fairly Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Fairly Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and	Very Important

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

They do a good job & have made many improvements in Onehunga. I'm happy to pay my share. But I also expect improvements to be made in the new area.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less fancy lighting and expensive paving,

Trim the multiple management layers in Council and AT and pay the experts better so we retain them and don't need to pay so many consultants.

Don't waste money trying to relocate a port that has no other financially realistic options.

Rationalise money to multiple community organisations with overlapping functions - get them to combine resources.

What is the actual target to "increase Maori outcomes"? What is actually being achieved? Target poverty instead of promoting racial bias.

Support most of the proposal

Tell us why:

Transport is one of the most valuable items to get right. The cost to productivity of getting stuck in traffic, and to encourage equal opportunity for anyone who cannot live close to prospective workplaces and other opportunities has far reaching consequences. Therefore I support the Do More for this whole section.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Proceed with the AFF but not the transfer of AIAL shareholding. I think it's important the council (and therefore ratepayers) have at least some control over what happens at the Airport. We are an island in the middle of nowhere and this is our main point of initial transit.

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Stormwater/flood resilience & sport facilities

Better roading maintenance but less menial/trivial work like traffic lights everywhere unnecessarily, humped crossings, reduced speeds/signage

#4479

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less in free events, programmes in community facilities which should be contracted out, less social services which is central govt role, less in community galleries - focus on core business and the "fluffy" extras can wait until debt is down - reduce/rationalise number of libraries

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Makes the most sense to solve many of traffic issues - Sydney has rapid rail in city centre & capped daily spend - works a treat. We could do similarly. Organise roading projects better to stop repeat work in same areas/disruption

2a. Is there anything you would spend more on?

Better public transport with better/faster access/priority

2b. Is there anything you would spend less on?

The frivolous work on crossing/humps/traffic lights

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

North shore needs a stadium of some description and this one is already there - just needs investment to redevelop the spare land and open up to community for better use.

#4479

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

What protection is in place to ensure the fund is used for what it is intended? There is a danger future councils could raid it - it needs a law to safeguard it like the Super Fund & would a/the govt do that? No indication they would. it's described as an aggressive fund - this is high risk & what guarantees it would perform any better than managing our own shares in the airport - would return be any better? Probably not. This should not happen

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

We should not be leasing this asset - we should be making it work for us. What would a new operator want in order to think they could make more than a council run operation? And what new infrastructure like road/rail would a new owner want to support their operation - who pays?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Reinvest profits back into core business, not fluffy council services we should not be delivering

residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Consider redeveloping the stadium precinct

Tell us why:

I'm not a North Shore local or a stadium user so have no personal interest / connection to the stadium. From an outsider's point of view, it seems the logical response would be to redevelop to maximise its use and benefits to the community.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I don't understand what an Auckland Future Fund is and I think it's important that Auckland Council retains some shareholding in AIAL.

4b. Which option do you prefer for the future of Port of Auckland?

#4703

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I prefer the option that generates more money from POAL, but allows Council to retain some ownership and governance rights.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Improve it for those coming to Auckland on a cruise ship (as well as locals) - these and the Bledisloe Terminal could be decked out in high end hospitality and retail to generate excellent income for Auckland.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Fairly Important

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	Fairly Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Very Important
Empowering community groups and organisations to deliver community events through sustainable funding models.	Very Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Fairly Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	Very Important
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga	All are decent initiatives but how much money really needs to be thrown at each? That is, I agree for example that it is a nice idea to encourage people to become

leaders in climate action but how is this going to be implemented? Does a whole lot of money need to be spent to set up some sort of committee that has no real point to it, and at the end of the day it's just people getting paid for doing not much at all? I prefer the initiatives where you can see actual results, e.g. spend money to redevelop Onehunga Town Centre, get a lovely revitalised Town Centre as a result.

Manurewa Local Board Priorities

7b. What do you think of our proposed priorities for Manurewa in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	

#4812

Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

Maungakiekie-Tāmaki Local Board Priorities

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	Fairly Important
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	Very Important

#4812

Empowering community groups and organisations to deliver community events through sustainable funding models.	Fairly Important
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	Fairly Important
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	Fairly Important
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?

Do not support

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Sport and recreation is extremely important for communities and Aucklanders of all ages. Getting kids in to sport early teaches them a range of skills that enable them to become productive and content members of the community. Auckland Council should invest more into sporting and recreation facilities.

#4820

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Some of the traffic management around Auckland is simply over the top and costs individuals and businesses time and money. There seem to be some recognition that some health and safety and traffic management initiatives have over-reached - I am sceptical that some council staff will be so willing to pull back on some of these ideologically driven projects.

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

Unnecessary traffic management.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Any spending on stadia should focus on a new stadium in Central Auckland. The current North Harbour stadium is a useful asset that should be maintained as is.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#4820

Proceed with the proposal

Tell us why:

Council doesn't have the expertise to contribute to the running of the airport. It therefore doesn't make much sense for them to hold this investment and they would be better diversifying across a wider investment base.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Council doesn't have the expertise to contribute to the running of the port. It therefore doesn't make much sense for them to hold this investment and they would be better diversifying across a wider investment base.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

No comment

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No

5a. What option do you prefer for Captain Cook and Marsden wharves?

#4820

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

This is a distraction. The council should be focused on making core business more efficient at present.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

As above

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to</p>	<p>Support</p>

the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. There should be no reduction in investment in sports and recreation facilities. These facilities are critical to ensure Aucklanders are happy, content, and live a full and balanced life.
