Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the

Mayor's proposed Long-Term Plan (10-Year

Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

 A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the

salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland
Ratepayers' Alliance and back their vision of
'Reasonable Rates, Sensible Spending in our
Super City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

5a. What option do you prefer for Captain Cook and Marsden wharves?
Tell us why:
5b. What option do you prefer for Bledisloe Terminal?
Tell us why:
6a. What do you think of these proposals?
Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of	

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Dear Auckland Council,

I am writing to you because I live in Glen

Innes and I have heard that the ponies are

being kicked off the Pt. ENGLAND

Reserve. Many, many locals walk along the Kiano Place pathway and love having the ponies there so much. The people who have the ponies keep the land so tidy and have done so many good things whilst they have been there. They have re built and replaced broken fencing and lots of pasture work to keepithealthy. They also do quite a lot with the community and the homeless. One of the ladies runs Island Child Charitable Trust and the other lady works with special needs kids.

Thos is a fabulous green space. A little bit of country in the city and give us in the community so much joy. What do we need to do to help them keep the ponies there.

I would stand there and get 1000s of local signatures if I had to. Please hear our pleas.

Regards,

Sharon Budge.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its

cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much

higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above

inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to

address concerns of overstaffing and the salaries of council managers increasing much

higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming

measures" (such as unnecessary speed humps) by Auckland Transport. This money should

be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public

bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's

proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert

external operator while keeping the Port's land in ratepayers' hands and ringfencing that

money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council
- managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepavers' Alliance and back their vision of

'Reasonable Rates, Sensible Spending in our Super City!'

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

#24695

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and

the salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary

speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the

proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands

and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending

in our Super City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council.

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should

be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland

ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being

deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and

wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to

capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and

the salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary

speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the

proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands

and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending

in our Super City!'

Tell us why:

5a. What option do you prefer for Captain Cook and Marsden wharves?

5b. What option do you prefer for Bledisloe Terminal?
Tell us why:
Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

 A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing

and the salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending

in our Super City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-

Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

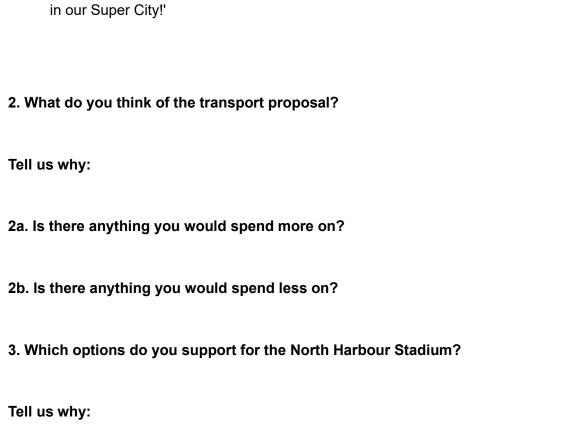

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator

while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?
Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund
Tell us here:
4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?
Other
Tell us here:
4d. Do you have any feedback on any other part of the proposal?
Tell us here:
5a. What option do you prefer for Captain Cook and Marsden wharves?
Tell us why:
5b. What option do you prefer for Bledisloe Terminal?
Tell us why:

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.
Re-introduce recycling charges for schools.
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

#25227

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council
- managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

Lendorse the submission of the Auckland Ratenavers' Alliance and back their vision of

'Reasonable Rates, Sensible Spending in our Super City!'

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

#25479

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should

be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being

deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and

wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to

capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and

the salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary

speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the

proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands

and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending

in our Super City!'

6a. What do you think of these proposals?		
Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in		
the protection of native ecosystems and species. This		
increases rates for the average value residential property by		
around \$20.04 and \$152.71 for the average value business		
property.		

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value

residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the

Mayor's proposed Long-Term Plan (10-

Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

 A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing

and the salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending

in our Super City!'

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

6a. What do you think of these proposals?	
Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to	

the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to undertake a serious and comprehensive review of infrastructure investment. I support the Mayor's proposed "Future Fund".

I endorse the submission of the Auckland Ratepayers' Alliance and their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I want to see redundantly at +\$100k salary levels. Not the \$30k frontline council like many businesses in2024.

-preventing rates increases over and above inflation by cutting +\$100k salary packages and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- hiring freeze on all council roles.like many businesses in 2024.
- pay increase freeze the reality of business in 2024.
- money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public

bins, and weekly rubbish collection.

Move the port and lease/ investment in entertainment venue at the waterfront

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland

Tell us why:
6a. What do you think of these proposals?
Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of	

around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the

Mayor's proposed Long-Term Plan (10-Year

Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

 A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the

salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland
Ratepayers' Alliance and back their vision of
'Reasonable Rates, Sensible Spending in
our Super City!'

This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.
Increase the Waitākere Rural Sewerage Targeted Rate
from \$296.75 to \$336.80 (per year) for the 2024/2025,
2025/2026, and 2026/2027 years to maintain cost recovery in
the three-year contract cycle, and avoid an annual subsidy of
around \$117,000 from general rates, with the next cost review
scheduled for the 2027/2028 year.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Your feedback

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the

Mayor's proposed Long-Term Plan (10-

Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years.

Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option — which is still much higher than inflation despite it being deceptively labelled the "pay less, get less" option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called "traffic calming measures" (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in

infrastructure so that rates and debt are kept down.

I endorse the submission of the
Auckland Ratepayers' Alliance and
back their vision of 'Reasonable Rates,
Sensible Spending in our Super City!'

More funding will enable more sport and recreation facilities to be built. There is clear evidence of the huge and wide-ranging benefits of sport and recreation - improved physical and mental health and wellbeing, social connectedness, economic and productivity gains, and educational outcomes. I urge investment in the sport and recreation sector under this Long-term Plan. Without this commitment from Council our current and future community sport and recreation spaces will be compromised. This means our growing, increasingly diverse population will not have access to fit-for-

purpose facilities to participate in physical activity to enable them to connect with their community and live active, healthy lives.

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

I am part of the sport and recreation sector in Auckland. I participate in the sport of table tennis.

Our sector is critical in making Auckland a great place to be. We rely on hard working volunteers and build strong communities - Council's support is critical to enable our sector to achieve what it does.

Auckland Council is the major provider of our city's sport and recreation facilities. We greatly appreciate this support and investment - without it much of what happens in our sector simply wouldn't be possible. Council's commitment to the sector has provided positive outcomes across the region for an inclusive range of codes, demographics, cultures, ages and abilities. I also wish to acknowledge the commitment of council staff in supporting the sector.

I submit that the proposed option to pay less and do less will detrimentally impact the play, active recreation and sport sector.

I submit that the Central proposal for the overall direction of Council's Long-term Plan appropriately balance rates rises with service delivery.

I submit that the Central proposal for Parks and Community will continue to provide a better outcome for the sport and recreation sector.

I support the following aspects of the consultation:

- I support retaining the Sport and Recreation Facilities Investment Fund and strongly support the proposal for \$35 million of additional funding being added to the Fund.
- I propose that Council refines the criteria of the Sport and Recreation Facilities Investment Fund to make the additional funding non-contestable.
- I propose that the additional \$35 million funding is used to fund a range of community sport and recreation facilities including indoor sports facilities.
- I advocate for the retention of the Sport and Recreation Facilities Operating Grant and ask consideration for an increase to the Grant.
- I support Council seeking changes to the law relating to development contributions to enable Council to adequately recover the costs of growth and to use development contributions to fund community sport and recreation facilities.
- I advocate for community use of schools and that consideration given to the co-development of schools with Auckland Council to include publicly accessible sport and recreation facilities.

I participate in the sport of table tennis. Auckland Council has identified there is a shortage of indoor court space across the Auckland region. This includes a lack of capacity to meet the demand for sports such as table tennis.

The Auckland table tennis stadium, 99A Gillies Avenue, Epsom is at capacity many nights of the week. This impacts my ability to participate.

The Auckland Table Tennis Association is involved in two Facilities Development Projects aimed at addressing the shortage of indoor court space in the Auckland region:

a) Lloyd Elsmore Community Hub: Lloyd Elsmore Park, 451 Pakuranga Road, Pakuranga Heights. In the Howick Local Board area. The purpose of the Hub is to construct a multi-club and code facility at Lloyd Elsmore Park to accommodate the four Founding Members

(Auckland Table Tennis Association, Howick Gymnastics Club, Pakuranga Bowling Club, and Pakuranga Tennis Club)

b) Gillies Avenue redevelopment project: Pascoe Quarry, 99 Gillies Avenue, Epsom. In the Albert-Eden Local Board area. Auckland Table Tennis Association, Auckland Badminton Association, and Olympic Weightlifting Auckland are collaborating to pursue redevelopment of the existing Gillies Avenue site
