Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland needs a fit for purpose Cricket facility. Western springs only needs some relatively minor tweaking. Car racing I'm afraid is the loser. I am sure they can find a new home. We could make a beautiful little ground and its a great location.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

You have to make people use it. Journey ticket options with an 90 minute travel time. A 24 hour ticket. Monthly pass etc. Its got to be at an introductory good price so that motorists think twice before using the car. Subsidise travel by taxing motorists on weekdays. If

2a. Is there anything you would spend more on?

Just do what you have to do properly and dont cut corners.

2b. Is there anything you would spend less on?

That bike path that used to be a motorway off ramp has to go. Turn it into a food growing center etc.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Its losing money. Council has a great opportunity to put it to use for more of the community.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

I haven't studied the proposal in depth and do not feel able to comment.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

It's too good a location to use as a port. Maybe a limited rolo facility utilizing the existing rail infrastructure.

Ultimately it is fit for so much wonderful development. Why you didn't run a modern tram line out to Kohi etc blows my mind.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Council will dip into it every time you have a budget blowout That would definitely be the case I'm afraid.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#45

Tell us why:

If it's just about revenue move it to Howick, etc. Auckland is growing and we don't have the space for it now nevermind 15 years. Trucks etc have no place in the cbd. Have a look at the rest of the world.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

A rail net work from whangarei port right the way down to Wellington. Let Auckland port go.

Whatever we do let's give it a hundred percent. We have an opportunity to make Auckland a great city and not the pretender it presently is. How do other cities thrive and survive and that doesn't mean sending councilors on travel junkets.

7c. What do you think of the Ōrākei proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

It is critical that protection of Auckland's Environment does not go backwards. Maintain and increase NETR - the Council has legal obligations under the Biosecurity Act to control pests. The RPMP underwent extensive public consultation and is supported by the community - make sure it is delivered well. Managing pests effectively has huge benefits for Auckland's economy, environment, and the health and wellbeing of Aucklanders. The Council also has obligations under Te Tiriti/Treaty Principles to ensure taonga in Auckland are protected. Undermining the RPMP by removing funding will end up costing Aucklanders a great deal in the medium to long-term. Prevention is always more cost-effective.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Need to prioritise public/active transport over roads, since the future lies in micro-mobility cycling, walking and new roads simply increase demand and future infrastructure maintenance liabilities.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Road-related investments should focus on maintenance, efficiency, and user-pays mechanisms such as congestion charging. Micro-mobility and semi-autonomous vehicles will be game-changers for road user demand and efficiency, so AC should focus investment on future-ready operating state.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Do more of? Do better.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

Public transport is unreliable on the best days. How is this proposal suppose to make it better?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

That's a lot of money to relocate 1 stadium.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Why are you selling our shares? What is the real reason?

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Leasing the Port means we aucklanders will have to pay more.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

You could split it. Continue to fund council services as well as invest it in an auckland future fund

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

You're spending money on "improvements" that are really improving like public transport. It's unreliable

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Captain Cook and Marsden will be like Wynyard quarter. The benefit will be for the public.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

There will be a big impact change of operations if the Port loses Bledisloe. Which means council will lose money

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	I don't know
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce Auckland Transport budget to ensure no further spending of ratepayer's money on raised traffic calming devices. What a huge waste of money these have been for no measurable benefit.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Auckland Transport are a poor guardian of the ratepayer's money. The out-of-control spending of this organization has resulted in huge waste of funds..

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do more
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Install cameras across the city and help the police drive down crime.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Leave the private sector to get on with building Auckland aka cut the red tape and support projects that improve our city.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Way to much spent on new works when the city needs congestion charging and user pays to fix congestion

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Cycle ways

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	

Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Stop doing more looking for money in a recession. Pause and maintain, come back when times are good again and in the meantime work on making times good.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less is a word but a better one is just PAUSE plans such as cycle lanes, unneeded roadworks, park developments or anything that our city can hold off doing for circa 4-5 years while we get our entire country back on track.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

People want to rely on public transport, it will help them sell their cars and use PT. It needs it work full time however before they make the first step.

2a. Is there anything you would spend more on?

Possibly more on resources for AT staff to get the people required to assist us and stop being held back by constant restructuring which sadly let's experienced and knowledgeable employees out and inexperienced people in. It costs us more in the long run surely.

2b. Is there anything you would spend less on?

Less on kiwirails ransom demands. They need an audit. Something is not right there at all!!

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Do it in 4-5 years time when the country and its people are back on track.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Need more information here. This sounds like it's going to be managed by a funds management agency who could help or could not.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Terrible idea. Should be ashamed of this.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

This is a well oiled machine of an asset. Don't touch it, we will lose this if interfered with. All profits should be put back into the ports.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Stop looking for quick snatch and run methods. History will tell you what you should be doing, stop being reactive, slow down, get advice and stop pissing Aucklanders off.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Another terrible idea. Shame.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	

<p>Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).</p>	
<p>Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.</p>

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

These bus lanes and cycle lanes around the waterfront are an atrocity now the traffic is worse than ever and being able to park in these narrow lanes that aren’t standard

width cut it down to one lane it's absolutely ridiculous and has worsened the area and traffic flow

We're not Holland and cycling to work is a small percentage and won't change due to Auckland erratic weather conditions and you should know that

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Buses are empty

Cycle lanes are weekend users mostly

The light rail was ridiculous for our population

The eastern corridor byway/mway should have been built ten years ago

Fix Eden Park and Mt Smart Stadium infrastructure before building another one

2a. Is there anything you would spend more on?

Parking

Road markings

Traffic congestion

City drainage upgrades Parnell is shocking the bays is shocking any rain and we flood every time

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

Makes sense

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

A good business decision not emotional

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No - absolutely NOTHING

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No more cycle lanes, they are hardly ever used.

Its an absolute disgrace the way the roads have been sacrificed for these lanes and the buses especially have difficulty sticking to their tiny reduced bus lanes.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Good that they would stop some previously planned initiatives such as raised pedestrians crossings and cycleways.

I approve of the proposal regarding public transport being made more reliable and easier to use.

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and	

Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Public transport is a priority. Making sure the trains are running ALL THE TIME and ON TIME. No more cancelling. THE NETWORK SHOULD BE WORKING BETTER NOW, as it happens it is running worse than 5 years ago, before the upgrade... WHY????????

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

more double decker buses from 3.00pm onwards, because of schools finishing for the day

3. Which options do you support for the North Harbour Stadium?

Change the operational management

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Waterfront stadium to the envy of the world.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Pickup of food waste. Get people to compost it and give it to others who want it if they don't. Encourage people to set up give or swap pages.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

They make common sense. We have to address the chaos and address it now. People need to suck it up and get on with their lives with a slightly heavier burden for the long term gain.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Bus lanes. They are a waste of money. Jobs are not where buses go to. They are like Tina say about the internet. They are everywhere. You need a car to do what Tina says.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Sorry people of the shore. It's a white elephant. You might be able to do something with the grounds, but even that is unlikely.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Aucklanders need funds to get Auckland going. We can't ***** around, we need to do it no.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Again we need the money. Leasing to private enterprise will bring entrepreneurial skills to the port and these will be useful to have in 35 years. (for my kids).

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Gotta get going on improving Auckland.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Nah, exhausted just thinking about all of this.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Needs to be for public use and to be stuff we are all proud of as Aucklanders.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

free public transport

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

rates need to be cut by 50%. half the staff need to be fired and the rest that are left need a 50% pay cut. all the racist Maori policies need to be removed. all the gay propaganda needs to be stopped.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

rates need to be cuts by 50% and council spending needs to be cut by 50%. wasting money on gay pride and Maori new year rubbish is a perfect example of wasting rate payers money

2a. Is there anything you would spend more on?

nothing until all debt is paid off

2b. Is there anything you would spend less on?

council staff wages - 50% pay cut needed

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

too many stadiums. a stadium needs to be use from 6am to midnight 6 days generating income, if not it needs to be sold or knocked down and turned into a park.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

first all debt needs to be paid off. then you need an investment fund tat returns a minimum 20% per year with no risk in the portfolio.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

port needs to owned and operated by people who know what they are doing (not the clueless council) and needs to generating a minimum 20% return on investment after tax per year

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

pay off all debt first. never use the money on gay propaganda and racist Maori rubbish

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

rates need to be cut by 50%. council staff needs to be cut by 50%. council wages need to be cut by 50%.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

should be used for commercial purposes generating an income for the council so that it does not steal more money from ratepayers in the form of rates

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

sell it and pay off debt. never give it to racist maoris.

6a. What do you think of these proposals?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

I see so much waste. Unnecessary pavement replacements, park sign rebranding, over the top H&S cone use, upgraded pedestrian crossings, water leaks not fixed,

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

By changing roads to T3 users you have created GRIDLOCK. Use common sense and make them T2. This will penalise single car users. By stealing lanes and making them cycle paths you have created Gridlock. By slowing everything to 30Km and with pedestrian crossings, you have created gridlock. Public transport is unreliable. It also doesn't cater for school sport etc. You cannot survive or go anywhere without a car.

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value

residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I like the idea of not building cycleways, as no one uses these cycle lanes, and they don't pay anything towards the building of these cycleways. However I'm concerned of the proposal to cap weekly public transport passes.

2a. Is there anything you would spend more on?

Building stronger and better infrastructure and making public transport come on time.

2b. Is there anything you would spend less on?

Cycle Lanes, and Crossings such as pedestrian crossings, except where there is immediate danger.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

We can redevelop the stadium, as from my view it's not being used extensively by the major sports teams, on broadcast. I would also like to see the stadium ran by an external management, where the council owns the stadium but spends \$0 on the Stadium, but is operated by someone else.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I agree with the idea of needing another source of income, since we can't rely on rates increases to provide Council with enough money to pay from OPEX. So we need to sell the majority of shareholding and assets and look to invest in this investment fund, and maximise returns so we got an additional source of income.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I'm not happy with the idea of improved profitability and more dividends to council, as looking at a previous article just in 2018, a fund was created to solve at that time Auckland's 'deficit' in investment of infrastructure , but failed to solve any problems such as not enough infrastructure in current day in Auckland.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

Tell us here:

Since the returns from the Auckland Future Fund, will not generate quick returns, unless, if we got the profits and dividends and put into the fund, and get a better return that using it to fund council services.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No.

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

I don't know what would happen the council's future income, if anything if it improves the council's income and decrease a portion of the rates rise, I would be happy.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

This allows for the council to have a decrease in profit/dividends.

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More efficient building and resource consent processes. Including making it transparent for when a resource consent will always be required due to planning requirements versus notification at the end of the building consent process.

Peg rates increases to CPI and if rates need to be increased for projects by more than CPI plus 10% eg CPI is 3%, CPI plus 10% is 3.3%, then ratepayer approval is

required. Once the project(s) is finished, restore rates to the original CPI rate versus the increase being applied eternally.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less raised pedestrian crossings, they are an incredibly poor return on investment.
Less wasting rate payer money.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

RFT was not being used for appropriate transport services.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Projects that benefit less than 10% of the Auckland population.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

To better meet the needs of the North Shore community through reallocation of the \$33 million.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Sensible diversification of investments with a long term history of good returns versus investing in just a few areas with mixed returns.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Receive a payment which is invested in the Auckland Future Fund (AFF). This provides a significant portion of the (AFF) plus has the benefit of reducing the rates increase for year two of the long-term plan to 3.5 per cent.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

We need an emergency fund to pay for unexpected costs which also has the benefit of providing a return to be used for operating expenditure.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Sensible financial stewardship involves diversification while protecting the core asset (fund). Great to see some fresh thinking versus just doing it the same way as we've always done it!

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Better public benefits and likely to have a similar or better financial return.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

The Port needs to be a reasonable size to function efficiently and have some redundancy. This option seems a reasonable compromise.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

At the moment the Auckland Airport shares are a passive investment. They hold no strategic value. If we were starting again, would we invest all our money in Airport shares or would we adopt a future fund approach? The answer is we would not pick a single asset to invest in.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

It makes sense. At the moment council (ratepayers) are subsidising all imports through the Ports of Auckland. By putting this on a proper commercial basis, council can achieve a realistic return and retain ownership of the land.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Ports of Auckland need to run the business to give a good economic return. If council is to keep the operation, then they should pay a rent to the use of the land as well as a return on capital invested say 12%. This could then be invested into the future fund which would provide a dividend to council for funding council services.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Operations always take up all the space they have available. They will still be able to manage their business on a reduced footprint. It will just take a change in thinking.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

This option gives them plenty of notice to change their operation.

Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

keep cost down to a minimum.we only want basic services from our council.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

kpi salaries and use contractors to carry out essential work only.

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

as been shown in the last 5 years ATare not fit for purpose so before spending any council funds you need to put genuine KPIs and audit the salaries that are paid,

2a. Is there anything you would spend more on?

redundancies and budget for contractual staff

2b. Is there anything you would spend less on?

staff salaries.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

the operational management are not fit for purpose and an event stadium should fund itself, if it doesn't then like any other business lease the stadium and land to ones that can run an event business,these sort of things is not a council requirement,

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

we have to look at another way excluding rates to pay for the essential services the ratepayer demand.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

we need to take these luxuries away from council run and let business make the best use and pay royalties back to council.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

i not in favor of Auckland council running this type of venture,the reason why is the management don't care if it makes a profit or loss and no accountability.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

we need to concentrate on genuine council services and get out of these businesses that are run by council staff,they don't have the right attitude or aptitude just look at the mess with Auckland transport its a joke and no accountability,things need to change

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

run by council that will be the problem

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

as above

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>	<p>Do not support</p>

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

the council has to look across the board at council salaries and if that position can be done by contractors so these can have accountability,we all want the council to give value for money and stop these handouts to groups who only represent a minority,we should have a minimum limit off 100,000 rate payers before council support any organization events,

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

A reliable public transport system lies at the heart of any city's success for both residence and tourists. Stop temporary traffic management requirements which is costing us a fortune .Stop making cycle lanes and raised pedestrian crossing. They are costing us a fortune and are based on a ridiculous ideology which is not data based here .

2a. Is there anything you would spend more on?

improving the condition of our roads and completing much needed repairs to our roads.

2b. Is there anything you would spend less on?

cycle ways; raised pedestrian crossings; speed bumps;- anything that impedes drivers ' progress on their journey.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

It is a central and successful stadium of the right size for the immediate community and smaller/national / international events.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Auckland city should have some investment in our international and domestic terminals. A managed fund depends on the skills and agendas of the managers. We have learnt this is not to be trusted. Similarly we need to keep 100% of ownership of the ports and its facilities. We need to expect more efficiencies and financial return in the way the port is run rather than leasing it out to others. Once you have given something away it is hard to get it back.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Once you have given something away - (and for 35 years) it is hard to control the efficiencies, management and return from the Ports. It is better to keep it and find better, more efficient ways of operating it and have some accountability from the company.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The growth of our city has been very fast. Keep the money to improve the living standards, roads, activities and services of Aucklanders.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

There is no need to do anything else. If you want dividends generated by the port to give a healthy return to Council then leave all facilities alone.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

We want our port to be functional and successful- and to do so they need operational areas. What is needed is more oversight by the Council on how the port is managed and how efficient it is.

6a. What do you think of these proposals?

Please stop making cycleways and other roading changes such as more traffic lights, raised pedestrian crossings, speed bumps etc. The money wasted on these is eye watering. I live in Tamaki Drive and the number of people regularly using the waterfront cycleways is minimal. Auckland rains for nearly 5-6 months of the year!! All this money to comply with ideologies based around what has happened in other countries is ridiculous. All you are doing is ruining communities to live in and increasing

air pollution; visual pollution; and noise pollution in our communities and back logs of traffic.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Our economy and plans are not that Black and White! It is NOT pay more and we will do more. It is to do it smarter, different and better. Reallocate cycling development into roads, STOP re-doing road that only a few years old. Put a huge pressure on construction/developers re infrastructure development. Stop increasing Auckland's and Wellington's density and develop outskirts. Stop wasting our money on more plastic

bins for organic waste - this wasn't and isn't our real issue with waste. If Auckland Council stops wasting our money on small, inefficient, non-important things and starts focusing on the important, there won't be any need for "Pay More".

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

There shouldn't be any initiative to "Pay less" or reduce taxes, or anything "reduce" in this economy. Instead, it should be re-allocation of resources and focus (see some examples in the above).

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Glad to hear about cycleways. However, I would like to see more roads optimisation for private transport and introducing special infrastructure requirements or charges for all developers. Stop further increase in Auckland' density - we have reached our limits 5 years ago!

2a. Is there anything you would spend more on?

Innovative but SIMPLE waste management. Stop these organic collections, but rather find a better modern way to recycle waste like in some developed countries. Place plastic bottles collection machines (like in Germany) and you won't see them on your streets. People will collect them and utilise at a x4 cheaper rate than to do it centrally (read German's statistics). Just do things smarter, not more expensive.

2b. Is there anything you would spend less on?

Cycleways, organic waste, sponsorship of electric cars, T3 lines, etc.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Not enough information was provided. There are lots of questions on this matter - the sale is just an instrument, and we would like to understand how this is going to be used and what for.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Move Auckland Port to a cheaper, better location and obtain extra profits from the proper use of our Auckland Central and the most beautiful location - huge profits. Plus, what a relief on our central roads - so many issues can be resolved with one hard decision.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Proper Council Services should be reasonably funded; this is an excellent funding source.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

I would support the transfer if Auckland Council would make it a beautiful public place with some entertainment and food. However, we have very little trust in AC ability to make right decisions (just have a look at our new city architecture of approved b

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Support, but only if it is for public use, not residential. As a city full of tourists, we need some entertainment and attraction points for the community and tourism.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I am supportive of the protection of our ecosystems and native species, but not at that rate. The existing spending should be reviewed and restructured.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I don't mind Transport and Water going up a bit to improve roads and public transport. Not more than planned into cycleways. Also, higher Water investment to prevent stormwater overflowing into our waterways and harbour.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

We need to improve roads which are in poor state. Also invest into improved services for trains and bus services

2a. Is there anything you would spend more on?

Roads and train services

2b. Is there anything you would spend less on?

NO

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Not sure about leasing for 35years. This would limit the opportunity to move the Port elsewhere, or the council be able to restructure in a different way. 35yrs would lock options for a long time.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The profits could be used to repay debt, which may give a better return than investing at a lower rate of return. If my assumption is wrong, then happy to invest the profits.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Better serves people of Auckland for access. Hopefully a better return can be achieved by taking these out of the port and used more productively.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Not really The Council has destroyed the CBD and other areas with expensive and excessive speed reductions, too much spent on cultural and social items.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

See above. There is no support for Auckland Transport which doesn't know how to work with road users poor light sequencing, etc. no more cycle ways until affordable (I bike to work)

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

The RFT was wasted on speed reduction, AT destroyed Auckland. You don't see this in Melbourne

2a. Is there anything you would spend more on?

Traffic light sequencing, replacing excessive speed humps. Giving access to taxis to bus lanes

2b. Is there anything you would spend less on?

I think I have summarised above

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

I trust Council judgement

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Trust the Council

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

We need the money

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Keeps rates down

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Every year rates exceed CPI /inflation. Time to reduce increases by getting back to core

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Open the land up

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Open the land up

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>I don't know</p>

Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

The targeted rates need to go apart from water quality. They are becoming entrenched. There is a cost of living crisis.

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Takeover some of derelict central city properties and turn them into artisan studios, galleries, pop up cafes. They are a blight on the City Centre

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the admin costs eg remove the “communication” dept that reads every external facing document before release, this is 120 people. Complete waste of money. Centralise all admin functions and remove all of the satellite admin areas. Make the CCO “s accountable and follow Council Direction.

Apply parking fees to areas like Mission Bay, Kohimarama Beach and St Heliers Beach. Lobby central Govt to raise the parking fines eg disabled parking fine should be at least \$600.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Essential that this is a coordinated approach with a strong local input. Will probably require the complete removal of the existing at board and replacement with people qualified to run a transport organisation.

2a. Is there anything you would spend more on?

Parking enforcement.

2b. Is there anything you would spend less on?

Raised crossings and converting areas to 30kmh zones which do nothing for pedestrian safety, merely encouraging jaywalking.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Sell the shares and retire the debt. Giving this over to some investment group will simply make that organisation wealthy as the expense of ratepayers. Stupid to establish a fund, just more consultants.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Sell the land, retire the debt.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Future fund will just be another trough for the consultants to stick their snouts in.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Stop this Future Fund idea, focus on retiring debt ASAP. Use the existing funds more efficiently reduce the number of accounts to streamline management.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Every other city in the world has followed this approach with great success, Sydney, London, Vancouver etc etc.

5b. What option do you prefer for Bledisloe Terminal?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

A lot less wastage and to become efficient and productive and transparent. We have seen so much wastage out is hard to have confidence that with more money they would solve issues. From what we have seen so far they are more likely to just waste the money.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

They are obviously things that mostly are required

2a. Is there anything you would spend more on?

No.

2b. Is there anything you would spend less on?

No. But first the council needs to demonstrate it is competent. Currently it is very incompetent. More money will not solve this. The council needs to demonstrate it can do a lot more with it current budgets.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

The stadium is not that old and should buy now we'll and truly be paying for it's own running and capital costs. It's needs to demonstrate this first before receiving more money.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

The council should not be involved in commercial activities. This fund would become a lot more valuable over time than the airport shares or the port ownership. With a lot less risk. The main risk is some silly council spending there money on non core council functions and poor return on investment.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The answer is obvious if you have any understanding of how governments stuff things up, economics and business.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

To keep there money out of irresponsible councillors hands. This fund will need to be very transparent to stop councillors putting their hands in the till.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Self-insurance makes perfect sense. And having some of the ports of Auckland land available for commercial developers to develop would be great. Just don't want the same stuff up that council did with Britomart. Remember how all the land above was going to be sold to pay for the station. Ha ha.

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

I have no idea of what the port company requires to be financially viable.

5b. What option do you prefer for Bledisloe Terminal?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Greater focus on the safety of our roads.

Reduce congestion on our roads through (eg) congestion charging.

Improve air quality through the introduction of low emission zones.

Accelerate improvements for walking and cycling, including pressing for active modes access to the Auckland harbour bridge.

'Daylighting' of some of Auckland's former waterways to improve the urban environment.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Investigate less expensive solutions to safety features such as raised pedestrian crossings (use cheaper speed bumps) and separated cycleways (use plastic bollards instead of concrete separators. We don't need the 'gold standard' solution everywhere; it's better to install cheaper solutions in more places.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

There is far too little emphasis on safety and getting people out of cars. We need a network of connected cycleways for those of us who don't have cars and for whom public transport is too time consuming. (because Auckland lacks a proper rapid transit system). We also need busses which can carry bikes, as in Christchurch.

2a. Is there anything you would spend more on?

Walking and cycling.

Rapid transit (light rail).

Reliability of existing public transport.

2b. Is there anything you would spend less on?

Roads.

3. Which options do you support for the North Harbour Stadium?

I don't know

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

The capital invested in Auckland airport vld be far, far better utilised in providing better transport options WITHIN Auckland.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Auckland needs a significant capital injection to address historic under-investment in its infrastructure (especially public transport). Leasing the port will help achieve that.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

A mix of investment in current services and the future fund, on a case-by-case basis, based on the business cases for current and future projects.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Ownership of The land on which the port of Auckland operated MUST be retained by Auckland council.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

7b. What do you think of our proposed priorities for Ōrākei in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Complete the seismic strengthening of the Remuera Library	Fairly Important
Progress the Meadowbank Community Centre development.	I don't know

Assess the reactivation of facilities at Tagalad Reserve and work towards providing access for the community.	Very Important
Continue to work with our many community volunteers to eradicate plant and animal pests in our natural environment, including at Pourewa Valley and in our many beautiful parks and urban forests, and support other environmental activities, for example, the Environmental Forum.	Very Important
Continue local initiatives to enhance neighbourhood connections and increase safety.	Not Important
Fund and support local events to showcase our spaces and benefit local residents and businesses.	Very Important
Continue to engage and better support our diverse communities and organisations, such as Auckland East Community Network and Youth of Ōrākei.	Very Important
Maintain efforts to monitor and improve water quality in our local waterways.	Fairly Important
Develop options and projects for a community facilities targeted rate for the financial year 2025/2026.	I don't know
Investigate ways to enhance council facilities in Ellerslie to better meet the needs of the local community.	I believe we spend too much ratepayers money on events and not enough on facilities.

8. Do you have any other comments?

I cannot find the information about CCOs on page 19 of the document referred to in the covering email, so cannot comment on the specifics you refer to.

However, I would like to comment on Auckland Transport. The CCO model has failed with Auckland Transport. AT is unaccountable to ratepayers and has underperformed for at least the last 10 years. It requires a radical overhaul, and should be directly accountable to Council rather than through an unelected board which has consistently failed to govern AT properly.

no

2b. Is there anything you would spend less on?

as above , footpaths and unnecessary roadworks / reapiers

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

why change ?? encourage other groups to use as is

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

why have an investment not returning a good return when we are broke , repay debt , economics one o one

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Better income for Council

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

nope...

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

There needs to be a higher level of user pays, rather than mass funding by rate-payers for non-essential things many of us will never use, nor even want across the broad "arts, sports and recreation" and "major events" spectrum.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Why is making it easier to pay a priority over making the seamlessness of public transport a priority? I have so many examples of the system being broken and never being fixed, and I've travelled extensively overseas using public transport... why are we still not getting this right? Buses need to be diverted to train stations *every route*. I live on a long uphill (and downhill) road, with many side roads, there are no bus services linking that road to the three train stations in reasonably close proximity, for people who cannot walk (ne'er mind use a bicycle) distances. Two of those stations don't have any long-term car-parking at all, and the third is always full. You can't get people out of cars by providing more cycle ways, in a hilly city with a shocking climate throughout the year. For years and years and years this issue hasn't been addressed. Congestion style charging is not the answer either; but car park surcharging in the inner city is; and car parks at transport hubs need to be affordable... not the other way around. A combination parking fee/transport ticket for ten hours should surely be looked at as a viable option... but those carparks need to be built on the periphery of the city, preferable to running buses on the wrong routes.

2a. Is there anything you would spend more on?

^^ see above... short-term building projects to ensure all public transport hubs "have park and ride" facilities encouraging getting to and from public transport,, where buses are not adequately servicing the outlying areas.

2b. Is there anything you would spend less on?

Cycle lanes... (although having all AT staff, under the age of 65 issued with a rain jacket and helmet and told to use the existing ones, would be a great idea.)

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

I don't live on the North Shore, and I've never been to, or are ever likely to, use a stadium... anywhere.

I'm trying to figure out why anyone would pay an upfront lease payment in terms of billions of dollars, if they couldn't perceive there is untapped potential for greater profit going forward. Surely Ports of Auckland as an entity (regardless of who it's shareholders are) be maximising that potential now? This just doesn't make sense... to divest of something that has potential for higher returns, that must be under utilised at present. *shakes head*.

Reverse the scenario and have all uses of rubbish collection services "pay to throw", and invest in prosecuting anyone caught dumping rubbish otherwise (we know that could become a problem).

There needs to be more central government involvement in educating both businesses and consumers as to how to reduce waste.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improve public transport and more local events

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Public transport is essential for the future when it comes to population growth and climate change. Much more needs to be invested in this field to make it more efficient

2a. Is there anything you would spend more on?

Public transport

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Selling valuable assets that makes money over time is never a good idea in the long term.

4b. Which option do you prefer for the future of Port of Auckland?

#1003

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Selling valuable assets that makes money over time is never a good idea in the long term.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Use subcontractors more efficiently - eg. roadworks - too many staff standing around doing nothing playing on mobile phones, projects (repairs, construction, roadworks fixes etc) take too long eg Tamaki Drive bridge ... in China these are completed in weeks, here it is years. Stop wasting money on speed bumps & pedestrian crossings. Eliminate road cones altogether. No more bus lanes.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No -

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1022

yes- dial down the regeneration projects for a year or two until the economy and the Council financial situation is better. this is not an essential service at the moment

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

no

2b. Is there anything you would spend less on?

spend less on cycle lanes. The cycle lanes are good, but the design and cost are next level. they could be a lot simpler with less landscaping and just as effective

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

The stadium is not working well as it is and does not add a lot to the community. finding different ways to use it with careful consideration is a good thing to do

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

#1022

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

do not want more costs to already stretched ratepayers

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

there will need to be very robust safeguards and protocols set up for the Future Fund. there is no room for error in this proposal, failures would have disastrous consequences. So if it happens do it right and set it up properly

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce recycling charges for schools.</p>	
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>I don't know</p>

Do not support most of the proposal

Tell us why:

There's great evidence for raised crossings and cycleways, which are both quite cheap to produce and maintain in comparison to the good they do for communities.

2a. Is there anything you would spend more on?

Safe cycling infrastructure to/from local business districts

2b. Is there anything you would spend less on?

Don't spend money on new lanes but remove on street parking on arterials to clear more space.

3. Which options do you support for the North Harbour Stadium?

Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would say public transport, however that has now become a luxury item with the new fare increases. I can’t pay more for that.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1025

Unsure. Probably, but I don't keep track of things that don't interest me.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I'm concerned the price of public transport will go up again. It currently costs me \$9 a day to bus to and from work. \$45 a week is too costly for me already.

2a. Is there anything you would spend more on?

No, I can barely afford rates as they are.

2b. Is there anything you would spend less on?

Everything possible.

3. Which options do you support for the North Harbour Stadium?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

no

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1051

Abandon little green compost bins being compulsory. I already compost myself and do not use or want the little green bin Seeing the manpower involved in collecting them it seems to me to be very wasteful and not needed,

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Queen street is a monument to morons with little practical experience or knowledge. It is now an embarrassment and a perfect example of why the greens and failed town planners from overseas should never be let loose to wreck our city.

2a. Is there anything you would spend more on?

A truck to remove road cones It should be loading them up 24/7 and taking them to the tip or somewhere to be recycled.

2b. Is there anything you would spend less on?

All cycle lanes and narrowing of roads by removing lanes or parking. Completely stop speed humps being built and remove existing speed humps that slow traffic and emergency services.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. Rate-payer are struggling and rates just can't keep going up

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less involvement in large events. They need corporate and private sponsors instead

#1087

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We don't need rapid transport networks - we need regular services that don't cost as much

2a. Is there anything you would spend more on?

Bus fares should be subsidised. More par and ride options in outer commuter areas.

2b. Is there anything you would spend less on?

Stop raised pedestrian crossings and more cycle paths immediately

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

I don't believe the council should be putting so much money into this at all. Sports clubs and private investors could manage it

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Existing assets are a way to save-guard our future.. They should not be sold

#1087

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Actually - I don't believe that the port needs to be there at all - or maybe just a restricted port for certain goods only. Ports could operate from other areas and goods transported by road and rail

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Rate-payers are struggling now.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

Tell us why:

I don't know enough about it

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

It seems a fairer proposal for rate-payers

6a. What do you think of these proposals?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Transport systems must be efficient, reliable and fast. Streets and walkways must be maintained to a higher level.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No more city centre works until public transport systems are excellent.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

AT buses and trains are constantly late, cancelled, or pass stops too early because they are empty. The service is appalling. Maximum funding must go to creating excellent public transport that people can rely on and that will get them to their destination faster than a car. Thus MUST be a priority.

2a. Is there anything you would spend more on?

Public transport systems.

2b. Is there anything you would spend less on?

Cycleways.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

Tell us why:

Public needs more info on pros and cons of selling shares.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Shared between spending and investment to achieve both.

4d. Do you have any feedback on any other part of the proposal?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Climate resilience and protecting our waterways for future generations.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1193

I think fight harder for some causes and less for some but don't lose out altogether.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Making it easier to use public transport and keeping the costs low means more people will want to use the service and it reduces traffic and use of vehicles. Foreign cities' public transport systems are flawless makes it easy for a tourist to use the services, and when its an affordable and convenient option more people would want to use it.

2a. Is there anything you would spend more on?

Keeping public transport prices affordable for all, and connecting more of New Zealand through public transport. Especially building more networks from the airport to the city etc.

2b. Is there anything you would spend less on?

Parking tickets for entering bus lanes stop putting up cameras everywhere to try and catch people out people make mistakes you don't need to charge them ridiculous amounts for it.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

There aren't enough ways for people to travel to this stadium, you would need to build better transport options.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

"More shipments needing to be transported into Auckland by truck or rail" - utilising the port here instead of trucks/trains seems to be a better option. Eateries in the city are already struggling creating more competition could be a danger to the indus

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#1193

Invest time in cost cutting measures to save money down the line.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1207

Going overboard on planning, consulting, and overengineering things that no one needs. Case and point a new pedestrian crossing on Marua Rd has never been used (waste of time). On the other hand there are so many places where the council has built safety islands instead of painting white lines on the road. White lines simple cheap, building an entire crossing with traffic lights that isn't use is a waste of resources.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

It simply isn't logical to stop cycleways and pedestrian crossings. We want to reduce the number of people on the roads especially in the suburbs where the roads cannot be widened. First things first people need to feel safe getting to shops, school and public transport location by foot and bike. Case and point, try to get from Derby Downs in Ellerslie to Ellerslie Primary.

2a. Is there anything you would spend more on?

People who have common sense that can plan the right thing first time. How many times have cycle ways been rebuilt because they weren't built properly in the first place?

Bylaws to stem antisocial behaviour such as graffiti and littering. Deputise traffic wardens to enforce/report. Generated income can then be used to fund the programmes and/or there will be a free labour force to rectify. Pest plants/weeds can also fall into this.

Better IT integration with systems like Snap Send Solve as this is a quick and easy solution for residents to report issues and council can act up quickly. Although residents can use the call centre number most of us don't want to stay on hold.

Things with minimal cost but huge benefit such as supporting volunteers who trap pests.

Investigate the possibility of burning general waste in a sustainable manner to generate electricity in a similar manner to Singapore.

#1207

2b. Is there anything you would spend less on?

Wasteful spending across the board. Adopt simply solutions to problems without huge consulting bills or over engineered solutions. Is appears as though archeological surveys happen every few months on Mt Wellington. Perhaps every 5 years is enough unless there's evidence of potential movement (seismograph).

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

It sounds like something all councils in NZ would need so discuss with central government? Makes sense to sell the Auckland Airport shares which I understand are making a loss (interest) and get a return instead.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Currently profitable but I recall by how much and makes sense to become more profitable. Provides more flexibility in terms of future plans for waterfront development.

#1207

4c. If the council continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Both. Moving all profits/dividends from funding current services would create another budget hole. Any future profits can be invested.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

The viaduct is a vibrant area of the city and it would be nice to see this extended. Surely the council can find private companies willing to help develop the areas at a profit for the council.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop spending on public transport. Remove road speed humps and cancel any more planned. Fix the roads. Cut staff numbers. Stop pay increases. Stop spending on multicultural aspects

#1223

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Stop spending on public transport. The cost per passenger per kilometer has to be ludicrous. The CBD is not the hub it was. Business and shoppers have gone to the suburbs. Don't tax those bypassing the CBD in peak hour e.g. southern to western. Tradespeople etc can not choose another time. You were taking the fuel tax for other purposes. Time that you cut your spending. Cut staff and cut costs (including what the mayor is spending)

2a. Is there anything you would spend more on?

Stop selling Council assets e.g. airport shares. Also do not lease the port - the manager has to make money and that equates to the users paying more. If it is not being run efficiently, get it sorted. The port is not going anywhere anytime soon in spite of what the mayor says

2b. Is there anything you would spend less on?

Public transport. Staff number and pay rates. Grand Designs e.g. a mega sports/entertainment centre downtown. Get back to basics. Te Reo and other cultural matters.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

Stop selling off Council assets to fund Council debt or grand plans. Balance the books before embarking on more spending projects. How does a household operate??

#1223

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

This is just a mechanism for Council to sell the shares or a parcel of them. What is the cost/benefit of doing this otherwise? More money for lawyers and consultants and less control for ratepayers. Just like when you sold the Downtown carpark building. What transparency was there with that?

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Whoever leases the port operation has to make a profit. That profit is most likely going overseas just as for our major banks. Council is again looking to sell assets to reduce debt but also to increase spending. Keep our assets and cut your cloth and focus on core needs

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Council should be trying to reduce debt and get infrastructure up to scratch over a manageable timeframe. No grand plans or long term plans. Sort out today's issues with today's parameters

#1223

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

We need revenue for Council assets. How can those areas be more productive. Turning them over to public open space is going to cost big money, involve many stakeholders etc. Auckland is a big city so people do not gravitate to the CBD for recreation pu

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Support most of the proposal

Tell us why:

Glad to see you are not just focused on road. Light rail as previously proposed was a great idea as long as expenditure could be managed. I liked capped weekly public transport passes.

2a. Is there anything you would spend more on?

Would like to see something on cycle ways, walking possibilities - good for climate and good for health.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

If the facility is the least used, then something needs fixing. As long as the consultation process considers the needs of all potential users - it is a sports facility, so care needed to ensure sports gets a look in. And all potential users need to be prepared to compromise to get the best use for the City as well as for the North Shore.

As long as the Council retains the ability to manage the operators to ensure our port operations meet Auckland and NZ's needs and don't become excessively expensive.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

The waterfront is already congested, so bringing freight in means it needs to be transported out. Not having the wharves, means less transport out and more in - so not much difference?

It would be good to have a cleaner more attractive waterfront with les

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

7b. What do you think of our proposed priorities for Manurewa in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Continue to support, deliver and fund initiatives that contribute to positive youth development.	
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	

#1244

Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	
Identify options for recreational activities to support people of all ages and abilities being casually active.	
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Cycleways are a critical improvement for the city. Build them.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1285

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Reduced traffic management and dynamic lanes sounds like a recipe for more accidents, while stopping the introduction of cycleways is a recipe for more congestion and more risk to cyclists.

8. Do you have any other comments?

I'm very concerned about rates increases especially for the elderly. I know of a few people who have had to sell their homes of many years as they could not afford the rates anymore. Ours are currently \$90 per week, that is a huge chunk out of the pension, especially if you require insurance etc. There needs to be a plan to cap the pension on over 65s so they can remain in the homes for as long as possible. Get the shortfall off businesses (corporates) and tax tourists coming into Auckland.

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).

Discontinue the **Long Term Differential Strategy** which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Introduce the **Franklin Local Board Paths Targeted Rate** of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

Change the **Rodney Drainage Districts Targeted Rate** to reflect public feedback and updated analysis of the benefits to properties and boundaries.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of

I fully support the retention of the existing Sport & Recreation Facilities Investment Fund at its current level, plus adding the proposed additional \$35m investment. This will be vital in addressing the sport and recreation infrastructure deficit and upgrading the existing infrastructure.

To Auckland Council,

Re.: Submission on Parks & Community Component of Council's Long-Term Plan

This is a personal submission in support of the funding for sport and recreation facilities as part of the Auckland Council's Long-Term Plan.

As a reasonably new resident of Auckland, and someone who is an active sports and recreation participant, I appreciate the commitment and support that Auckland Council has made and continues to make to the sport and recreation landscape of the city. I also an very aware of pressures and challenges the Council is facing.

Personally, I have lived in a number of places around New Zealand and lived in other for close to 23 years in other countries. I have travelled extensively world-wide and lived in small provincial cities such as Limerick (Ireland) and Loughborough (UK) as well as the world-famous metropolises of Sydney, New York and London. From my personal and professional experience, it pains me to recognise and admit that Auckland sports and recreation infrastructure is fast becoming outdated, poor quality and in-sufficient to meet the demands of participants and to withstand the increasing extremes of climate change.

To address these issues, I fully support the retention of the existing Sport & Recreation Facilities Investment Fund at its current level, plus adding the proposed additional \$35m investment. This will be vital in addressing the sport and recreation infrastructure deficit and upgrading the existing infrastructure.

I hope that the changes to the LTP in the sports and recreation sector are adopted, and the Council can continue to assist in enhancing the infrastructure, to ensure the massive economic, societal, and health & well-being benefits of sport and recreation are maximised.

Yours sincerely,

Long-term Plan 2024-2034

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	

#1405

Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Get the traffic flowing again. Make it easier for motorists to get around and to park (especially in the CBD). Anti-Transport is killing our city and making Aucklanders' lives miserable.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1409

Cut the road cones. Get our infrastructure costs in line - at the moment Auckland has one of the most expensive and least efficient infrastructure builds in the world.

Cut back on the cycle lanes - used by very few entitled whiners at the expense of the many whose lives are disrupted and made more expensive by the privileged.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Priority is to enable private cars to travel more easily (including parking). Auckland Transport (aka Anti-Transport) is a sick and very expensive joke. Public transport (including the trains) is too unreliable and slow to be taken seriously for most journeys.

No more cycles lanes. Reverse the damaging pedestrianisation of the CBD.

Cutting the ridiculous amounts of overheads in the bloated, pencil pushing and self-serving bureaucracy.

Less road cones.

2a. Is there anything you would spend more on?

Better roads and parking for motorists.

Put the rubbish bins back - removing them may be the dumbest and most damaging thing Auckland Council has ever done. Calling the decision moronic is an insult to morons.

2b. Is there anything you would spend less on?

Cycle lanes.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

We can't afford it.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

I have zero confidence in Auckland Council's integrity to manage the fund for its intended purpose and every confidence they will abuse and waste the asset.

Just sell the AIA shares and return to money to ratepayers.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Sell the port to private enterprise and distribute the sale proceeds to ratepayers.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Pay to ratepayers. Rates are far too high.

4d. Do you have any feedback on any other part of the proposal?

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Auckland needs a functioning port exactly where it is. Endless proposals to move the port have failed utterly to suggest anything that is vaguely realistic. Better to expand the port operations - absolutely in Auckland's best interests.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Only an idiot would suggest reducing the scale of our port - unless, of course, the objective is to drive jobs out of Auckland.

Fairly Important

More specifically, what do you think of each priority we've listed above?

Complete the seismic strengthening of the Remuera Library	Fairly Important
Progress the Meadowbank Community Centre development.	Very Important
Assess the reactivation of facilities at Tagalad Reserve and work towards providing access for the community.	Very Important
Continue to work with our many community volunteers to eradicate plant and animal pests in our natural environment, including at Pourewa Valley and in our many beautiful parks and urban forests, and support other environmental activities, for example, the Environmental Forum.	Very Important
Continue local initiatives to enhance neighbourhood connections and increase safety.	Fairly Important
Fund and support local events to showcase our spaces and benefit local residents and businesses.	Fairly Important
Continue to engage and better support our diverse communities and organisations, such as Auckland East Community Network and Youth of Ōrākei.	Very Important
Maintain efforts to monitor and improve water quality in our local waterways.	Fairly Important
Develop options and projects for a community facilities targeted rate for the financial year 2025/2026.	Fairly Important

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Reduce cost of hiring halls Council owned as I know of groups and a dance class who cannot consider paying such prices

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1429

Less of Bands playing in parks that I don't believe get all that much attendance and I know of no-one who goes to those wasteful events

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Raised crossings and cycle lanes - they are everywhere and a huge waste of money. I hardly see anyone in cycle lanes and all these new raised crossings are totally a waste of money. there is a new one in Marua Rd, actually may even be two - what for I have no idea and a new one Glen Innes outside PN Save that I nearly ran in to as I drove right out of the PS entrance, cutting across to be in the left lane - good heavens right in my path. I am sure there are many more as I hear other people complaining about them. Why why are suddenly all these crossings being put there when for years we have managed without them and don't need them

2a. Is there anything you would spend more on?

Getting the buses to bus stops and on the times it should be and servicing St Johns Park with a bus service. We only had one an hour but at least there was a service. I now have to either drive 2.5km to a bus stop to use a bus to the city that I may miss or it doesn't turn up - or, walk out to Ngahue Drive to catch a bus to go backwards to Glen Innes to catch a train that I might miss, because the bus was a minute late - How crazy to think someone wants to take so long extra to get to where they want to go

More spending on parking for trains would be excellent as I cannot drive to Glen Innes to get the train as nowhere to park, I am 82 and don't wish to walk to get the train when I want to drive and park to get the train

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

#1429

Tell us why:

Don't live on the shore but things are clearly wrong as often read not being used enough

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Don't think the shares are likely to go up much so should be sold to do other necessary things

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

rather now needs rather than Future

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

#1429

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Because they are not doing much at present and never have

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>

Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. We still desperately need to built safe, separate cycle ways in order for people to move towards commuting by bicycle into the city.

2a. Is there anything you would spend more on?

Better and more bike and bus lanes. Remove more street parking to advantage more traffic flow. Higher frequency and reliability of public transport

2b. Is there anything you would spend less on?

no it is vital to this city to have a better infrastructure.

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

I think other things such as infrastructure are way more important / vital than a stadium. please consider spend less money here.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

I think the industrial Port does not belong anymore in the heart of a modern, large city like Auckland. Future proofing Auckland should see the port move to Tauranga, and the port land & wharves should be redeveloped for more suitable (and more profitable), CBD-worthy purposes.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

As said, Council should be focused on moving the port entirely, and redeveloping the port land instead of continuing something that is not future proofing Auckland..

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Yes - redevelop ALL PORT LAND urgently - see above. It will eventually be the more sustainable and profitable option.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

This is the only way to future proof our city in the long term

#1508

Roading has cost ratepayers unnecessarily eg Apirana Ave in Glen Innes, access to the route to Pakuranga are just a few people complain about . Those constructions disrupted traffic for a long time- and people wondered if it was necessary. My own street had the tarmac dug up and then replaced with a surface of poorer quality- and then- they dug up the kerbs and replaced the stones once again. What was the point of that? People also complain re the humping near pedestrian crossings. I am told that each cost a lot of money to construct. Pedestrians will have to learn, as I was told as a child, to look both ways before crossing. Instead pedestrians charge across with a feeling of entitlement, not looking or even hesitating to ensure that traffic can stop.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Auckland Transport has to buy small vans of buses which would be cheaper to run than large buses and double deckers. Double deckers need only be on the road to cope with extra passengers. Small vehicles are cheaper to run and the savings could be directed to an improved service. Cyclists should all be registered . That would help pay for the special lanes which I note are not always used. It would also be easier to identify a bike rider causing an accident

2a. Is there anything you would spend more on?

No.

2b. Is there anything you would spend less on?

See notes above.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

water and roads, but that does NOT include more go slow zones and raised PXs

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

cut down staff numbers,

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

#1565

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The land is the real value - sooner or later (when the port is forced to move) the land should be sold.

that should be sooner if the POAL operation does not give a market return on the value of the port land.

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	

#1565

Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

the basics- rubbish bins, mowing verges etc.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cut the comms PR staff down.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Raised crossings are dangerous. Bullying motorists is illogical and driven by ideology. I am not against bikes/ lanes etc. but not at all costs. The pendulum has swung to far.

2a. Is there anything you would spend more on?

Roads. More creative public transport solutions- uber style hop on hop off mini buses that can be texted and operate in geographic zones (say) i.e. can drive one home.

2b. Is there anything you would spend less on?

Cycleways , crossings and sack 75% of AT planners and 90% of comms/PR people.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

It's in nowheresville . It's like Eden Park- a relic of a bygone era. Taking it down to the water front , making it multi purpose within limits- sport, concerts etc. will help the central city and bring it closer to the entertainment precinct. Just not on leasehold land!

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

#1580

We need infrastructure. My only reservation is some future idiot counsellors will squander the funds on feel good programmes

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

sell it. Look at Tauranga V Auckland Port. The discipline of a private market operator free of political interference is a no brainer- though my preference is a public float .

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Council needs to trim its staff

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Lock in what the future fund can be used for to avoid wastage and political whims.

5a. What option do you prefer for Captain Cook and Marsden wharves?

I don't know

#1580

5b. What option do you prefer for Bledisloe Terminal?

same- but you deed need wharf space but maybe there can be a bit of creativity about transporting off the wharf - currently the monopoly is inefficient

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Become a leader in public transport and cycle ways

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1692

Less new roads/ road expansions. Evidence shows if you build them people will use them so stop building them.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Now is not the time to make life harder for pedestrians or cyclists. These transport modes are not only zero emissions, but they also reduce health spending by improving fitness. People won't use them until there's a certain level of saturation so please don't stop building these to build yet more roads instead

2a. Is there anything you would spend more on?

Better traffic management - we shouldn't have long queues of cars waiting for lights in one direction while in another there are not enough cars to fill a green cycle - surely there is technology available to manage this dynamically

2b. Is there anything you would spend less on?

More roads

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Public transport needs to be improved.

2a. Is there anything you would spend more on?

Bus/rail frequency

2b. Is there anything you would spend less on?

Cycle lanes. While I love the idea, Auckland is too widespread and weather too variable for the investment to be adequately utilised by the majority of residents, if we had heaps of excess money go for it, but we don't.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Airports/seaports are critical infrastructure assets for the nation, should be protected by local investment

4b. Which option do you prefer for the future of Port of Auckland?

#1701

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Cost of goods movement through the port if a new terminal operator was to take on the lease would increase dramatically. The profit would likely be transferred offshore and ultimately NZ Inc and Aucklanders would suffer. Other NZ owned ports don't have the capacity to take on AKLs volume and Northport is not a viable option for cost of goods or sustainability.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

It's a rates subsidy. If Aucklanders are so upset by the location of the port, they should at least benefit from the profit the organisation makes by way of rates relief and funding of public services. Right now, people are hurting financially, removing this source of funding for Auckland City would add unnecessary stress.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

Nothing substantial or useful will be done with the land, it is more productive under port control than it would be under Council ownership. Clearly there is little money to invest for public use at the moment, so why bother. Try again in 5-10yrs

#1701

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Employ less staff at inflated salaries and reduce wasteful costs such as festivals with a feel good factor that deliver nothing to most rate payers e.g. Lantern festival

Gay rights festivals and other woke matters

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Bring AT back under council control and stop excessive spending on pointless and costly issues like road management control issues such as the one I experienced in Glendowie where a private fence alteration needed road cones for 100,s of metres with costly traffic people standing doing nothing!!

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Reduce the entire PR department within council to 25./ of its current staffing

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

We do not need multiple stadiums in Auckland City while it is financially crippled

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

In these difficult economic times for people, the Council must stick to its core function of providing essential local services - water, drainage, roads, affordable public transport traffic management that allows the efficient movement of all traffic (private/public), efficient and environmentally sustainable refuse collection and disposable.

#1774

It is unfair and unreasonable for the Council to expect and ask ratepayers to fund social and economic projects that would be nice to have in good economic times but can be paused, held or deferred at this time. Where such projects would have a wider NZ benefit then central government can decide whether or not they are worth pursuing, and if so pay for them from taxation.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

see above

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

This would be in line with my overall approach, outlined above. For too long the Council's ideological approach has been to force people out of their cars without providing handy (7 - 10 minute walk) public transport.

Insufficient use is presently being made of the existing road network all of which - under used bus lanes that could be shared with all motorists, speed humps, raised and narrow pedestrian crossings serve to slow traffic at peak times.

Aucklanders have frustratingly watched the Council waste money on redoing perfectly serviceable footpaths, build little used cycle lanes that impinge on the safety and efficiency of private and public motor transport.

In brief, make better use of existing assets, and maintain them well.

2a. Is there anything you would spend more on?

no

2b. Is there anything you would spend less on?

As I have noted, the Council as the trustee of ratepayers' money must restrict its expenditure to the core functions needed for the city to function efficiently.

#1774

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

Any further expenditure on this asset at this time is not justifiable if that would add an increased burden on ratepayers.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

i am opposed to Council assets, paid for by ratepayers, being transferred to any entity over which the Council does not have direct control.

The Council could establish and manage such a fund itself, including engage any professional help as required, without interposing another layer of governance.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Because, in my view the Council for some years has not had sufficient regard to ratepayers' expectation the Council would provide and maintain the core services I have referred to, and as a trustee and custodian of ratepayers' money the Council has not been prudent with its expenditure, I am opposed to a change in the status quo at this time.

#1774

Until the economic outlook improves, and hopefully as a consequence the Council's financial position, when the proposals can be revisited, in the meantime the Council must work to optimise the use of and income from its assets.

As with the Council's AIAL shares or sale proceeds, the POAL shares must remain with the Council

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The Council must stick to its core services on which the ratepayers depend.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

As I have stated, I am opposed any change or transfer of the Council's ownership of POAL without a mandate from ratepayers.

Any such proposal accompanied by a full explanation and options, should be put to the ratepayers for a vote.

I am opposed to self-insurance.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

This can be revisited when the Council's economic outlook improves.

5b. What option do you prefer for Bledisloe Terminal?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1778

I have in the past attended a number of Auckland Conversation events where speakers just say stuff at us without any audience response provided for. Most of these events I considered a waste of time and money. One event was held in the ballroom of an Elliot Street Hotel, after Covid stays were over. Who paid for that?

And it goes without saying the huge cost of raised pedestrian crossings in unnecessary places a scandalous waste of money.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

It's a bit like how long is a piece of string when we don't really know which areas will benefit from the proposals and which will miss out.

2a. Is there anything you would spend more on?

Yes, diverting sewage overflows away from our beaches so they are safe to swim in.

2b. Is there anything you would spend less on?

Cultural events and free movies and concerts in parks that require Council funds to organize and clean up afterwards.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

I have been to exhibitions in the big hall area and thought it a great community asset to have in addition to hosting sporting events. If some redevelopment and upgrading required to improve what is there now so be it.

#1778

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Because I don't have any confidence or trust in such a fund being managed and returning the investment claimed as "the big sell" on the Auckland Port business or the remaining airport shares. From past observations such funds disappear along with the sold assets and rates continue to rise.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Again I repeat. No confidence or trust in the proposed AFF being managed properly. The port is an essential service facilitating the delivery of Auckland's imports by ship and letting any overseas owner have control over it for 35 years is privatization of an essential service. No control over costs and what about political implications if foreign interests become unfriendly? ADAMANTLY OPPOSE leasing the port business out.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

Because I believe the proposed Auckland future Fund will be too tempting to dip into and accountability difficult to monitor.

#1778

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

For as long as I can remember the push to privatize Port of Auckland has been on the agendas of many - mostly the self interested. Mayor Wayne Brown's mixed messages from moving the business to Northport, then opening up land for a swimming pool, to now the left over plan from (much criticized) Phil Goff to lease the port business to overseas management does not make any credible sense to me. In fact it seems downright DODGY! I hope many other submitters share their suspicions and oppose this proposal.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

I do not approve of any apartments and commercial buildings occupying the land which may be needed by the port in future. If there was anything to be done in an open space maritime type use the public could enjoy until the port required it back I coul

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

If it's an operational area for Port of Auckland currently don't mess with it.

privacy. The system would not be designed to identify the driver. Anyone who carries a mobile phone already gives up far more of the privacy of their movements

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less paper pushing by bureaucrats in the big building

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

This basis stuff is necessary but eventually the use of the roads at peak periods needs to be reduced to increase the efficiency and pleasure of people's lives. The transport policy is inadequate to meet the needs for developments in the way the roads are used and charged for.

2a. Is there anything you would spend more on?

We need to start the planning for a comprehensive road pricing system. For the city to work efficiently and pleasantly private car use at peak periods has to be reduced. Most of the roads can't be widened.

Also we need a complete review of speed limits with 60kph on arterial roads and 40 Kph on local roads to better match people's current driving speeds and to save lives by creating a clear distinction between roads where movement is the priority and roads where living is the priority

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

The role of the Council is to run the city and to provide the needed infrastructural resources such as, 3 water systems, recreational facilities, parks, movement systems such as roads, public transport services, and ship and air facilities.

The money is in the right place now.

The benefit of the proposed future fund is a chimera, created by local government impressarios whose ambitions exceed their abilities and their knowledge.

Councillors and staff are neither selected nor trained on the basis of running a wide-ranging investment portfolio. Neither do they have the ability to choose those who could do so competitively.

If it was decided that it would be good to divert the running of the port on a temporary basis to some other organisation money received should be invested at that time in other needed infrastructure needed now eg the three waters.

The shares in the airport have proved over decades to be an excellent investment, It is safe and it is in a key infrastructural asset.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

I have grave doubts about leasing out the port for 35 years. Whoever gets it will have incentive to maximise the use of this land for cargo movements which may not be in

#1864

the interest of the city in future years. The right move is to take steps to combine the operations of the North Port, the Auckland Port and the Tauranga port to provide the ability to shift activity to where it will best serve the interests of the over 60% of the NZ population who live in the relevant areas. It is likely that the interests of the Auckland citizens will be served best by having most of the increase of port activities in the next 35 years taking place in the other ports. This will not happen if the Auckland Port is leased out to an aggressive and able operator.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

It should be used in the same way as the proposed Auckland Fund - devoted to higher capital investment of the needed infrastructure

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The Council seems to have a blind spot as far as the efficiency of the city is concerned. Over a billion dollars a year is being lost in congestion, travelling to work at peak periods is a nightmare of frustration. Most roads cannot be widened. Better public transport can make a marginal difference but at the cost of a rating burden on those that are not contributing to the congestions. The Council and the Government must grasp the nettle and make the use of private travel at peak periods much more expensive to encourage a move to public transport, an increase in ride-sharing and long-term an encouragement to people to live closer to where they work.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

The ability of the Auckland Port to meet the transport needs will not be greatly affected and, even if so, a shift of most of the increase in needed port facilities to other ports is in the interests of the whole Auckland province

Business Rates

The increased rate for businesses was meant to be a temporary measure to iron out a sudden change in the comparative rateable valuations of business and residential.

What needs to happen (for a city in the 21st century) is a differential rate on car parking (excluding that for residential purposes) that is available for long term parking.

Carparks used by commuters have a significant cost to the city that is not shared by other business and residential activities. There should be a rate, based on their rating value which is charged in addition to the standard rate for the area.

Such a system would help to impose costs of running the city on an activity where those costs should fall

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Return park maintenance to previous levels

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less spent on bikeways and pathways.

Less funding on minority arts programmes.

Less funding for bi culturalism - more for our multi cultural society

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Public transport is good, payment an issue.

2a. Is there anything you would spend more on?

Subsidise weekend public transport to encourage people into the city

2b. Is there anything you would spend less on?

cycle lanes, complex roading where simple models will work

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

White elephant. Unused and not fit for any purpose.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

AIAL need some controls put in place and the council must be part of that.

4b. Which option do you prefer for the future of Port of Auckland?

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

The freight arriving into the port has to be shipping out of central auckland by road or rail anyway. Arriving elsewhere and being shipped elsewhere in AKL, as it is now, will decrease traffic in the city centre. Most of this area is used as storage rath

#1927

5b. What option do you prefer for Bledisloe Terminal?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. Over spending by AT on anti car projects has to stop. Roads and Public Transport need to be seperated. Cut council staff numbers.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#1933

Stop spending Rate Payers money on cultural and special interest groups that promote a tiny percentage of the population. Only spend money on core functions of the council.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

AT has wasted the RFT on the wrong things resulting in the loss of this fund.

2a. Is there anything you would spend more on?

No more. Reduce spending on gold plated pedestrian crossing and repair the roads.

2b. Is there anything you would spend less on?

Spend less on gold plated cycle ways and crossings. Stop removing car parks.

3. Which options do you support for the North Harbour Stadium?

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

POAL has been badly managed. Fix this first. Leasing will end up costing all of NZ more in freight costs with profits going offshore.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The Future Fund should not be an insurance policy. EQC and other central Govt processes should be there.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Tighten the purse strings. Reduce staff and kill fluffy projects. Hold a torch to AT and test them line by line. Consultant costs should be made public. Beca Group and others have been overcharging Auckland for years, this needs to stop.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

This area can be utilised and reclaimed when the 2nd crossing project happens.

independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Can Council change the LTP year to the year after election? As if there is a change in government after election, there will be a lot of changes in the LTP and there will be a waste of time, energy, and money for Council staff to be producing the LTP. E.g. the 3 waters and Regional Fuel Tax has been cancelled which incurred a lot of changes. There will be a lot of new laws changing in the first year of government, therefore, if LTP can be set a year later, this would have it to base on more stable/clear policies.

Wastful rework on roads. There appears to be poor communication between different service providers. 5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

This could open up more public access of the waterfront areas in the central city.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

As long as public benefit doesn't include a stadium which is likely to be a money loser forever

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. we need to cut back as Auckland rate payers can't keep up with these increase as wages/salaries haven't kept up with all the expenses

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2188

We need to save Auckland first with our rate payers money and when we are back in control with our expenses then we can help other regions. But the regions need to look how to generate more money. They need industries that will bring economic growth. They need to collaborate with Auckland and we need to share as we are one. When this happens we will be in a better position

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

We need to extend rail so we get more people on transport.

Cycle ways / Cycle lanes - no more stop!! We have so many along the water front and all we have a sports people racing in the morning in them. For the money spent not worth it. MissionBay is a disaster waiting to happen as the cycle lanes that were added have taken up space so that if a person opens there door parked and doesn't look the door will be taken off by the car coming. This has not been thought threw before proceeding and this is where our money gets wasted as people don't go thru a process of pros, cons and issues.

2a. Is there anything you would spend more on?

We need to fix traffic jams. We haven't looked at why we have these issues properly

Example on Akoranga Dr Northcote. If you come out of The Warehouse Way when you finish work you have to get in the long line as you can't go left at the lights until you get closer to it. A lot need to go left at lights to get on the motorway ramp. They are only looking at money revenue and not looking at moving traffic so Auckland is productive. This has cause issues right over Auckland and costing people to develop and renovate. You ask a concrete company how many loads they use to do and know with heavy blocked traffic how many they can do? This is why Auckland is expensive

2b. Is there anything you would spend less on?

raised pedestrian crossings, raised humps around Auckland like a disease.

This is causing issues for cars with wheel alignment another cost due to these humps.

#2188

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Do nothing. We have spent on a Stadium that we didn't complete fully.

We have Mt Smart Stadium x 2 stadiums there and we should complete this fully as we have trains and buses that go to this venue. Advantage its partly in industrial area and needs to be maximised. When this is done then complete North Harbour Stadium. This needs to be looked at as the structure at Mt Smart is there and should be cheaper to expand.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Why? What are the pros and cons. I don't see anything on this

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

This needs more investigating.

Where are we going to make more money in leasing? If so we might be able to move it but it needs to be funded so taxpayers are not paying anymore.

If not earn money leasing

5b. What option do you prefer for Bledisloe Terminal?

Other

Tell us why:

6a. What do you think of these proposals?

around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support

--

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Natural Environment target - can we get the cost to rate payer to \$10 as there are so many costs

Long term Differential Strategy - businesses need to pay their way and not dump on ratepayers that are working for them. This is WRONG.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Playing fields for all sports - we need to get more Aucklanders playing sports but we need more grounds to keep up with Population.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less car related transport spending - focus money in this area into public transport or alternative travel (like bikes for example).

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

there was some wasteful spending in the previous plan, such as the raised pedestrian crossings (in nonsensical locations)

2a. Is there anything you would spend more on?

Public Transport links and alternative transport methods

2b. Is there anything you would spend less on?

raised pedestrian crossings in silly locations

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Auckland can't support all these stadiums but relevant to my previous point we need more community sports fields - sell the main stadium at North Harbour (into apartments or something) develop the oval into a boutique stadium (6 to 8k capacity) and keep the football turfs and the rugby fields for community.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Proper, not piecemeal, provision of safe cycleways.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2203

Wrecking our once exemplary road surfaces by installing humps and obstacles at random locations. I'd vote to pay MORE to have these removed when commonsense ultimately prevails.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

You've lumped raised pedestrian crossings and cycleways together. The latter I favour, the former is sheer madness. I've seen raised pedestrian crossings slowing hundreds of rush-hour vehicles where there's nary a pedestrian.

2a. Is there anything you would spend more on?

Yes - removing raised pedestrian crossings.

2b. Is there anything you would spend less on?

Raised pedestrian crossings

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

Not much interested in organised sport / stadiums.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#2203

Tell us why:

Strategic assets should remain in public ownership, under democratic control, NOT sold off to make the rich richer and the poor poorer.

4b. Which option do you prefer for the future of Port of Auckland?

I don't know

Tell us here:

Not well informed on the economics of these choices, but I'd urge councillors to read Bruce Jesson's reports from when he blocked the port sell-off and act under his philosophy.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Just don't sell off publicly-owned strategic assets to private investors. Rich-poor polarisation is bad enough as things stand; don't make things worse.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

#2203

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Public benefit yes -- but NOT a stadium!

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	I don't know
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know
Re-introduce recycling charges for schools.	Do not support

#2203

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	I don't know

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

7c. What do you think of the Ōrākei proposed priorities for the 10-year budget 2024-2034?

8. Do you have any other comments?

Close monitoring of outsourced contracts. Downer were engaged to replace a stormwater grating on College Rd, St Johns. Two trucks came, 50 cones, and six men, of whom one did the work, one was perpetually on his phone, and four stood around. They were at it all morning. What did we pay for this????

For all public transport capture data and publish weekly statistics showing KPI's for reliability (arrives on time)and passenger utilization .

The council needs to maintain some public car parking rather than giving Wilson Parking a monopoly.

#2244

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

- 1) Bring in user pays for public libraries, swimming pools and facilities.
- 2) Reduce public transport schedules for off peak times where there is very low utilization by the traveling public.
- 3) No more speed humps
- 4) Stop wasting money on discretionary things like christmas in the park
- 5) Peoples incomes are not going up by 8% pa. The council rate increase needs to be pegged to the CPI increase.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

I see a lot of buses and trains in off peak times with very low usage. Why is the council funding these?

There has been a lot of wastage on cycle lanes which few people use.

There is a lot that can be done to reduce roading bottle necks. Many of these would be relatively inexpensive.

2a. Is there anything you would spend more on?

How about investing in better traffic lights management systems to optimize the through put of vehicles and reduce travel times.

Storm water, water pipes

2b. Is there anything you would spend less on?

- Public transport,
- Traffic management which is expensive and creates road blocks
- Changing sign posts to Māori.
- Replacing street kerbs when it is not necessary
- Ideology projects which provide little benefit

3. Which options do you support for the North Harbour Stadium?

- Consider redeveloping the stadium precinct

Tell us why:

- It is not used enough. Auckland has too many stadiums already

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Roading: do less building of raised crossings and do more filling of potholes.

#2313

Waste collection: Do not try to reduce frequency of waste collection, this is a basic service that council should not change.

Generally: Council is there to look after the people of the city, so stop trying to tell us how to live our lives. Instead, find a way to engage and encourage. We are tired of being told what we can and cannot do by people who know less than us about the subject. The council comes over as overbearing and arrogant.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Ports of Auckland needs to transition to using an inland port for all marshalling and storage with rail used to deliver containers just-in-time to the dockside cranes for loading. Similarly all containers removed from ships to go straight onto rail for transport to the inland port. 15 years gives time for an inland port to be built and established - then the Bledisloe warf land can be returned to public use.

Planning for the future needs of the city and its population is essential but it needs to be well thought out. It is great that feedback has been requested and hopefully many people will respond positively.

#2356

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Seems sensible that all of the Auckland waterfront infrastructure comes under the ownership and control of the council.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

As above.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

#2356

<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	<p>Support</p>
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>	<p>Support</p>

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Council should stop the building of unnecessary speed bumps all over and creating all the cycle ways. For example, a free left turn in the city, now has the speed bump. Why? Cyclists are not even monitored when they are not in their allocated lanes.

#2522

2. What do you think of the transport proposal?

Don't support any of the proposal

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Unsure at this time.

Keeping in mind my rates will be going up I realise not all things can be achieved. I i

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2608

I am a walker, cyclist , and car user but disagree with ridiculous amounts spent in cycle paths. This is not a major in scheme of things needed in auckland.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

You have pointed out money being wasted on speed humps etc.

Improve bus services in lower income areas.

2a. Is there anything you would spend more on?

Lots !!

Realise this cannot happen.

2b. Is there anything you would spend less on?

Doing up central auckkand.

It does need attention but not everyone would agree with too much money spent there.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Greater use by the community should be encouraged.

#2608

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

We need radical change with way council finances managed/ used/ funded.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Hopefully leasing the operation of the port will lead to more efficiency.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Good luck.!

At least someone is now trying to manage Auckland's appalling situation.

5a. What option do you prefer for Captain Cook and Marsden wharves?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	
<p>Re-introduce recycling charges for schools.</p>	

#2608

<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	
<p>Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.</p>	
<p>Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.</p>

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

#2608

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Ōrākei Local Board Priorities

7b. What do you think of our proposed priorities for Ōrākei in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Complete the seismic strengthening of the Remuera Library	Fairly Important
Progress the Meadowbank Community Centre development.	Not Important
Assess the reactivation of facilities at Tagalad Reserve and work towards providing access for the community.	Very Important
Continue to work with our many community volunteers to eradicate plant and animal pests in our natural environment, including at Pourewa Valley and in our many beautiful parks and urban forests, and support other environmental activities, for example, the Environmental Forum.	Fairly Important
Continue local initiatives to enhance neighbourhood connections and increase safety.	Not Important

#2608

Fund and support local events to showcase our spaces and benefit local residents and businesses.	Fairly Important
Continue to engage and better support our diverse communities and organisations, such as Auckland East Community Network and Youth of Ōrākei.	Very Important
Maintain efforts to monitor and improve water quality in our local waterways.	Not Important
Develop options and projects for a community facilities targeted rate for the financial year 2025/2026.	Not Important
Investigate ways to enhance council facilities in Ellerslie to better meet the needs of the local community.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No, the rates are crippling already, go back to core, water, drainage, and road repairs.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2612

Yes, go back to basics, water, drainage, road maintenance, no judder bars, no payment for arts, music, festivals, and any other unnecessary expenditure. Cut the infill housing especially stop 3-storey homes close to residential boundaries. Reinstat the 2-meter plus 45-degree limit. High rises only on main roads and commercial areas.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Raised pedestrian crossings, what a waste of money as bad as judder bars. Council needs to clean its act up and stop spending, you are destroying people with ever-rising rates. Just do the basics and maintain the status quo.

2a. Is there anything you would spend more on?

Absolutely NO

2b. Is there anything you would spend less on?

YES arts, Festivals, etc the libraries are fine as they are. Manage the bus timetable systematically, and maintain the existing roads. Stop restricting parking time in Parnell residential streets. Get on with resolving the flooding problems in our city. Don't cut back the rubbish collection, leave it be. No more three-story houses jammed in around the other residences. It is not good enough.

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Just sell the stadium and let private enterprises run a stadium if they choose to. STOP draining the ratepayers who are all unwilling victims of councils' lack of fiscal responsibility. You were only ever formed to manage the basics, get back to that. Furthermore, remove yourselves from being financially responsible for substandard and leaky buildings. The ratepayers should never foot the bill. Builders, developers etc

#2612

must by law carry indemnity insurance long-term to cover these issues. The council must step back out of it. Ratepayers must not be charged for the damaged properties of others; we all have freedom of choice with insurance. Do not dump costs onto other people; they have enough expense paying their own rates.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

The council should not invest ratepayers' money in anything risky or losing money. It should not be taking money for future costs off the ratepayers. Live within the annual means, reduce your spending to save for future upgrades, and stick to the basics. Let private enterprises run anything else at their own risk, not ours.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Because the council has proved itself to be a poor manager of money or business. Lease it out and then there will be a profit, just do NOT sell out port. You, The council do NOT own the port. We the people do.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

If Council uses the money to run the city it is less likely to raise rates.

#2612

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The council should not need self-insurance if it maintains the runoff and wastewater. More infrastructure will raise the flooding risk which would be disastrous. We need better drains and more green areas; just develop further out of the city with a fast rail public transport into the city.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Other

Tell us why:

The port may need more land in the future, if you sell it off, it may not function properly. Lease it for a good return with the option to increase the lease price at regular intervals. Thus keeping up with inflation.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

It is owned by the people, council will only turn it into a non-profit making option. Lease all the warf, we need the money.

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. 8. Do you have any other comments?

Replace the 2-meter plus 45-degree sun protection on residential boundaries. The more sun you cut out of properties the less quality of life plus higher heating costs and poor use of energy. It is a very, very bad lack of consideration and poor climate change decision.

Perform all the basic services that are best done by council - water and sewerage systems, clean streets, household and public rubbish collection, maintain council property, incl mowing burns, maintain basic services such as parks. Maintain and repair roads.

#2645

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Divest of all assets and lease/hire. Change libraries to online only and close facilities. Convert all swimming pools to commercial. Run museums and galleries as commercial. Public transport should be charged at cost, not subsidised, then users can make realistic choice. Reduce/eliminate all AT "solutions" that simply make private transport slower and less efficient.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Why should public transport be both faster and cheaper than the real cost. Either charge the actual cost and make it faster or subsidise and let public road transport be as efficient or inefficient as private transport.

2a. Is there anything you would spend more on?

Fixing unsynchronised traffic lights. Replacing traffic lights with roundabouts. Improving motorway network rather than making changes to current roads for bikes, buses, etc.

2b. Is there anything you would spend less on?

Pedestrian crossings. Traffic management systems which are currently cumbersome, over the top and inefficient.

Maungakiekie-Tāmaki Local Board Priorities

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga

Business Associations proposed BID expansion.

Tell us why

7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

8. Do you have any other comments?

Change all council controlled organisations to council management and under the Auckland elected councillors.

Set up Councillors role as a Board of Directors able to direct council operations and management via the CEO.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Not at present. They are doing the best they can.

#2654

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

As is.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Do not support raised pedestrian crossings. Unsure on cycleways

2a. Is there anything you would spend more on?

Availability of parking. A carpark in Clonbern Rd Remuera was demolished and never replaced!!!!Do not support the abolition of Downtown carpark.

More availability of sports grounds in Eastern suburbs. Improvement to Waiheke ferry services.

2b. Is there anything you would spend less on?

Stick to the basic requirements.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

We can not afford to lose venues like this. Organisation and usage needs to be upgraded.

#2654

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

We need to plan for the future which is what has not happened to date.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

We are getting cash back into the council fund to be used for urgent requirements.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

To be used as required.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No.

5a. What option do you prefer for Captain Cook and Marsden wharves?

#2654

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Planning for future developments is a much needed option.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

The growth of Auckland will need areas for future development but definitely not a stadium. Nothing wrong with our beautiful Eden Park.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Stop wasting money on cycle ways (and I'm a cyclist) and find cheaper options to the current ridiculously expensive speed bumps

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Public transport - currently there are different bus companies using different bus stops on some roads. Consolidate these. Introduce more one way streets throughout the central city. Public transport - would smaller mini buses be more economic to run in lesser used routes?

2a. Is there anything you would spend more on?

Converting to one way street system in the CBD. Improving the ability of tourists to pay for public transport.

2b. Is there anything you would spend less on?

Street cones - unnecessary health and safety requirements.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Basic infrastructure like water and sewage.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cycle lanes and stupid road changes.

2. What do you think of the transport proposal?

Support all of the proposal

Traffic management is just out of control.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Cycle ways and raised crossings.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Selling the stadium would be a mistake for future generations.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Sell the airport shares and repay debt.

4b. Which option do you prefer for the future of Port of Auckland?

#2727

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Better still move the port and free up our waterfront.

More cycling infrastructure. Even just paint on the ground helps us stay safe.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#2799

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

There have been cycling investments that have been removed however, cycling into the city is growing in some cases by 25% a year. Make it safer and easier.

Newmarket is very dangerous for cyclists currently.

2a. Is there anything you would spend more on?

Cycling

Dedicated bus lanes for newmarket and for the western motorway

2b. Is there anything you would spend less on?

Highways

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	

#2799

Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Absolutely nothing. It’s a very inefficient council.

There has never been a year with reduced rates

Not prepared to pay more for executives to get huge salaries to do less

#2820

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Yes reduce the management and executive staff. Have more Customer service. Remove the cycle lanes as there is no one using it. Remove the bus lanes as the transport service is inefficient. Let the public decide how they get about because they are already aware the council can't do much with inefficient management starting from the top. Listen to the public and not to the meetings the council conducts to listen to themselves.

Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less investment in cycle paths.

Less investment in "street-scaping" to make thing pretty

Less investment in "shared zones" for bikes, cars.

Shrink parks to what is being used, so we are not paying to maintain land that has limited benefit to residents.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

"Rapid transport" is not a good idea. It sounds expensive and it's not the speed which is the problem, it's the volume and frequency of public transport which is the problem.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I fully support "user-pays" concept. If that can be introduced for more public services I would support it. e.g. higher cost for water + wastewater, pay for rubbish collection, pay the Auckland regional fuel tax, motorway tolls. All of these things (and I'm sure more) could reduce the council rates and reduce individuals climate footprint.

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

#2846

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

NO ! Council needs to understand we ratepayers actually cannot afford any rates increase at this time. NOT FORGETTING the “Super City” promise highlighted this merger would result in rates reductions. That first council and all successive cancelled have hiked rates every year. Puyiing it bluntly: WE HAVE BEEN CONNED BY FALSE PROMISES, PATHETIC EXPENDITURES EACH YEAR, AND GROSSLH OVERPAID

STAFF. IF YOU WANT A VERY WELL PAID JOB FOR LITTLE WORK GET A JOB AT ACC !!!!!

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

HAVE DETAILED

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Even the Mayor is on record stating ratepayers are continuously ripped off

2a. Is there anything you would spend more on?

Definitely not

2b. Is there anything you would spend less on?

Yes, outlaw traffic cones, stop raised crossing, and for heavens sake get some fiscal conscience, spending has been an absolute disgrace - and for many years !

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

Very sad if North Harbour residents are inconvenienced. I believe that is their decision, let their responses determine !

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#2856

I don't know

Tell us why:

Anything to prevent ratepayer haemorrhaging would be good frankly

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

This ACC "Super City" council has squandered all of the silverware already, why does it need to retain port ownership, theyre not a shipping service !

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>	<p>Support</p>

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	

#3029

Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

The best investment is in becoming much more efficient in use of funds, and not simply using Council's unique position to get more money to spend without any imperative to improve levels of delivery.

The only other area where I would support more (and focussed) expenditure is in measures to REDUCE private motor vehicular usage - not least because that is a

#3045

responsible approach for future generations. More bike lanes, and provisions to improve adoption; better public transport options; more enforcement against those breaching measures aimed at achievement of this.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

New roads and expanded roads.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

See answer to 1c above. Emphasis must be on changing poor transport options - move from private motor vehicles to other options.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Need to see some return (which need not be financial) on any investment. This is not adequately considered or quantified in the consultation document, so proposals simply appear as throwing money at a problem.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#3045

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Much more work is needed before proceeding. The objectives are potentially inconsistent, such that some body removed from Council could make decisions that are suboptimal, and/or contrary to the best interests of Auckland ratepayers and residents.

4b. Which option do you prefer for the future of Port of Auckland?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Councils do not make good investors - it is not (and should not be) part of their core business. However, where there are historic investments, any change has long term implications and rushing into changes is anti-democratic and likely to be a response to issues other than the best long term benefit of residents and ratepayers. At the very least a 5-year pause should be in place to prevent short-term objectives overriding long-term benefits and sound analysis.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Many of the "targeted rates" simply appear to be a mechanism to give additional money to businesses for what they should be doing as a matter of course. I would far prefer much stricter standards being imposed on management of these activities such that they are incentivised to do their job better. As one example, paying more for water quality seems counterintuitive, as the counterfactual is that without such a targeted rate we seem to be content to have water quality that should be unacceptable in the long or short term.

As much as I understand the need for the proposal, increasing the rates by a significant amount right now is not the right time. around \$20.04 and \$152.71 for the average value business property.	
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	I don't know

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Control Auckland Transport and Watercare budgets. We need managers of these facilities to concentrate on core functions which means restoring the integrity of the infrastructure for which they are responsible.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3074

Less non-infrastructure spending. For the next five years, if it doesn't restore or build new infrastructure, don't do it.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

We need to maintain assets but also accept that development is important.

2a. Is there anything you would spend more on?

City planners but make them responsible (liable) when their planning is inadequate. Too much has been built in the last 20 years that is now inadequate. Narrow roads, limited parking facilities etc tell me that the planning was poor; they had the foresight of a six year old.

2b. Is there anything you would spend less on?

Stop all spending on raised crossing - there are bigger priorities.

Stop trying to make people leave their car at home - we just won't do it.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

It's a reasonable facility for the community on the North Shore. We do need a new stadium on the other side of the bridge.

Tell us why:

It seems sensible.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I don't think a council should be running a port. Leave it to experts and take whatever revenue is available through a long-term lease.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Just give the port to people who know what they're doing. The port operation will improve.

4d. Do you have any feedback on any other part of the proposal?

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More infrastructural development that encourages non-car transport at later hours in the day especially on weekends

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3079

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Making PT easier to pay does not seem to deal with the volume of personal vehicles and as long as we have so many personal vehicles on the road, transport density will suffer and transport will be inefficient for all road users. Also I'm unwilling to give up on pedestrian and cyclist options, as the long term benefits may outweigh short term conveniences of private motorists.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

#3079

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Other
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Other
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	

#3079

Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	

#3079

Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

You can’t keep putting up our rates to keep providing cashflow and wiping your council. Debt

Decrease the headcount in council, use overseas money and to build infrastructure and put tolls on them to pay for it

#3103

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

How many staff in Auckland Council are on \$150k plus, \$200k plus and so on, it's wrong!

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

The city needs an underground network supporting the north shore, west and east Auckland into ten city! Use international money and companies to build it, we have tolls to pay it off over several years

2a. Is there anything you would spend more on?

Water management, stopping overflow into the sea and capturing water storage for drought issues

2b. Is there anything you would spend less on?

People in council need to be paid far less, your living a very lavish life! We can't afford to pay for more dates

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It needs to be used and get overseas money to fund it

City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Focus on core delivery. Manage cost more effectively.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less consultants.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Stop the madness of AT. Keep the city moving.

2a. Is there anything you would spend more on?

Synchronous traffic lights.

2b. Is there anything you would spend less on?

Cycle ways and raised pedestrian crossings.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

It's an existing structure fit for purpose.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

You are selling off the silverware for a short term gain which will be lost to consultants and political parasites.

#3126

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Again, selling the family silverware for a short term gain. Foreign lease holders will have no interest in keeping profits in the community. Many jobs will be lost down stream of the Port. You will be locking in the port for the next 35 years with no Council Control. A functioning Port is essential for the economy of Auckland.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

A direct dividend to Auckland helps stabilise the City's economy.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The future fund will be mismanaged , just like previous miss-management. The only people who will benefit with be the lawyers and consultants.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

The City has done very little with the port land reclaimed. Queens and Princes are an example.

#3126

How many cafes and restaurants does Auckland need on the waterfront?

5b. What option do you prefer for Bledisloe Terminal?

Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Add on motorway lanes or build above original

My days can be based around a traffic jam on the motorway that back ups to my road

The worse part of Auckland is the traffic , EVERYONE says exactly the same thing

#3170

If you expect people to pick up dog poop then you should provide a bin in Mt Hobson- nothing

Actually go to the roads where congestion is a problem and see during the harder time- ie why build another medium island where the road Actually needs neither of them (st heliers rd, to Felton Mathew rd)

Stop doing road works during the DAY ,it causes an immense amount of congestion in the various routes,if I can actually get somewhere u would spend more money, enjoy a lifestyle, IT IS SO restricting to live in my hometown where I can not even go out! Also look at road signage bigger and earlier so cars are in their correct lane as well as painting some lanes as NO merging ie remuera rd and Greenlane where you an mo e lanes a d hold up the two lanes at the same time

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Auckland city centre. Spending alot of money on an area where it is not very interesting to ho too

Why would I when there is malls supplying what I need(that is if I want to sit in traffic)

2. What do you think of the transport proposal?

Do not support most of the proposal

Efficient rapid public transport built in stages - and have another look at T3 lane efficiency vs T2.

Try to rein in urban sprawl and encourage apartment style living in high density areas.

#3171

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Events and traffic safety management.

Force green fields developers to pay for infrastructure improvements required to integrate new subdivisions into the city.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Quality of life is important. People spend far too much time stuck in traffic. A decent nodal rapid transit system would help immensely. See Hong Kong or Singapore as examples. They can be built in stages whilst smaller sections are operating.

2a. Is there anything you would spend more on?

Rapid transit, wider motorways and ways to improve efficient use of existing infrastructure eg T3 lanes.

2b. Is there anything you would spend less on?

Speed bumps

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Proceed with the proposal

#3171

Tell us why:

A trust structure would help remove some of the political drama around asset ownership and sales. Dispassionate and efficient use of the capital would be a big plus.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Ports of Auckland appear to be in limbo. Ultimately it is in the wrong place - trucks damage the city roads and clog the motorways, however if it must stay in the current location then leasing the operation would bring financial advantages and de-risk the council.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

I support the AKL fund for long term borrowing ability and also it would allow targeted application of income from it.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Focus on Roothing, waste water, clean water, footpaths, and rubbish. Just undertake key fundamental council services

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3174

Events, Street Parties, Queen Street redevelopment, Wasting money on cycle ways, raised pedestrian crossings, empty buses at non peak times, etc

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Stop making things complicated or subsidised.

Have normal standard fares for public transport, further you go more it costs. Totally agree no more cycle ways or raised pedestrian crossings

2a. Is there anything you would spend more on?

The basics, simple and efficient road improvements. Stop reducing road lanes and making special lanes.

2b. Is there anything you would spend less on?

The public transport aspect / developments

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

The stadium has to break even, as in Revenue equal Costs. Run it like a normal business, charge for its use etc

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Have user pays specific levies for various areas. E.g. Those low lying properties pay for flood protection, those with unstable areas for stabilisation, etc

The council can't afford to pay for everything for everyone. Buyers and owners have to take responsibility

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Keep wharfs as commercial areas. Stop wasting money on planning to move the port. Many examples of ports in centre of big cities. We can't afford to make it a public park or stadium or anything. Run it like a proper business and stop wasting money

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

But use it on essential services not nice to have things. Get back to the basics. Stop trying to do everything to a gold standard

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#3174

Work on reducing Councils liability for private property and buildings. Focus on essentials and looking after public assets

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

We can't afford to develop or do anything

Leave it leased to POAL

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

We can't afford to develop or do anything

Leave it leased to POAL

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate</p>	<p>Do not support</p>

#3174

from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

More standard and targeted charges for properties based on relevance and area

#3174

Less focus on land or property values for rates

Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

with the rising cost of living including mortgage rates, we just want to keep our house and definitely do not want to pay more for anything! The council evaluation of the house is far above the market price, so it is already unfair on us as house owners.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

cultural events, put economy and practicality up front

2. What do you think of the transport proposal?

Tell us why:

All we see is more and more taxes!!! people in NZ are getting poorer every day

2a. Is there anything you would spend more on?

medicine and hospitals - this should be a priority

2b. Is there anything you would spend less on?

all the cultural event and cut all the related funding

3. Which options do you support for the North Harbour Stadium?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I believe that overall spending, but certainly the spending in the development of the CBD needs to be pulled back.

#3321

In an economic climate like this, where lots of first home buyers are struggling to be able to pay mortgages, increasing rates a proposed near 20% over three years is frankly an insult.

It's not an accurate reflection of rising property values at the same time and is really only going to suit the highly wealthy, or foreign investors with access to low interest rates.

2. What do you think of the transport proposal?

Support most of the proposal

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

There should be zero increase option. Council is inefficient and significant cost savings could be made. Staff are working for local government not businesses. So, pay should reflect this. A serious cost cutting exercise should be undertaken.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3339

Cut number of elected officials and pay. Slash marketing team by 80%

2. What do you think of the transport proposal?

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	

#3339

Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Continuing access for disabled , elderly and children

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3343

Consultants, council paid lunches etc - bring your own like I do, no visiting sister cities in places where water is undrinkable etc- these feel like trips for the boys!!

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Totally support no more raised pedestrian crossing etc and reducing the number. I am concerned about congestion tax because some of us can't do our jobs without a car and use business hours. Exemption should be given to those of us hard working. Just do that for students and school traffic - school holidays have a big impact on travel times and congestion. If you are not a working person they can pay but not people that are contributing to the economy

2a. Is there anything you would spend more on?

Keeping students off the roads at peak times. Provide them with cheap travel on public transport

Safe bike lanes

2b. Is there anything you would spend less on?

Stupid roading decisions . Weathered has 6 raised pedestrian places in about 500m and taniwha rd is a confusing mess that was fine beforehand. Ask these engineering consultants to think things through. Such a massive waste of money for little gain.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Needs better use - seems like a waste of resource'

#3343

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Safe guarding means spreading assets - having all the eggs in one basket doesn't make economic sense

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less cycle ways that don’t get used sufficiently, less road narrowing and speed bumps which are endangering people and slowing journeys and creating parking chaos in

#3353

residential areas. Stop pretending cars don't exist. Make it easier for residents to live the way that want not how disconnected Auckland Transport zealots believe.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Better public transport payment systems will increase use along with weekly cap.

We don't need more rapid transit routes which are expensive and have low utilisation of land they occupy. Transport corridors need high occupancy but with free flowing movement. Finally get the traffic lights to use SCATS properly to efficiently manage traffic flows.

2a. Is there anything you would spend more on?

East west link road that Labour govt cancelled

2b. Is there anything you would spend less on?

Cycle ways

Raised crossings

More crossings in general

Road narrowing removing street parking that is turning areas into ghettos with cars parked on footpaths and berms

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

North Shore needs a facility

But it has been poorly managed and optimised by council

#3353

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Just sell your airport shares and invest in key services, esp stormwater and flood protection

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Get commercial mgmt in place and separate from political football

But consider moving port to Marsden Point and having a decent freight and passenger railway in place

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less roads and motor ways

#3375

2. What do you think of the transport proposal?

Don't support any of the proposal

Tell us why:

Make the cycle ways- If i could cycle safely to work I would! There's no other option other to drive, make more options for people and they will use it.

2a. Is there anything you would spend more on?

Cycle ways- Benefits everyone, everyone becomes more healthy and this reduces cost in the health sector as well, exercise helps physical and mental health. Also good for the environment.

2b. Is there anything you would spend less on?

Roads, just make do with what we have, only repair them don't make new roads.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Focus on core delivery. Manage costs more effectively.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cut down on consultants

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

AT have too much power and not accountable. Stop this madness and money wastage.

2a. Is there anything you would spend more on?

Traffic lights seemed to be synchronised to slow traffic, introduce full use of red, amber and green like they have in Britain and also create the green wave similar to Christchurch. Both are proven to work well.

2b. Is there anything you would spend less on?

Cycleways and these blooming raised pedestrian crossings.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

It's fit for purpose, existing and works well

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

#3413

You would be selling the golden goose and once sold can never be reclaimed.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

Only a short term financial gain. Jobs will be lost and any profits taken immediately overseas. 35 years lease is a long time and no dividends will be paid. Very short sighted approach. A well functioning port is the life stream for the city.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The dividends supports the well being of Auckland City and the dividends are steadily increasing. Don't poke the bear, status quo please.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Danger of lawyers and consultants being the only ones to benefit.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

#3413

The city has still not developed queens and Princess wharves and these have been passed to council for many years. Auckland has enough cafes, hotels etc.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

This wharf is essential for port operations. Other wharves have been already transferred, develop those before trying to grab more.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Support

#3413

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Ratepayers need better value for money, stop the wastage. Need to run systems more effectively. Mr Fix It should not develop into Mr Sell It to balance the books as this is only a temporary solution.

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

Ultimately the port needs to move out of central city. Leasing it for 35 years isn't inline with achieving that. Building a fund is nice, paying down debt is better.

#3435

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Tell us here:

Part to pay down debt , part to go to services and part to build a resilience fund. No one part of hat is greater than the others so divide equally.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

The \$\$ going into festivals and fireworks is not warranted. Stop the fireworks (use laser light show instead as re-usable asset), reduce funding support for festivals and community events. These are nice to haves and not necessities and ratepayers have empty pockets already. You can't just increase rates ad infinitum

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Aucklanders deserve a better central city waterfront. Making some of this area public access while covering costs by making some of it commercial sounds preferable. What commercial activities are allowed is a sticking point - e.g. no carpark buildings! Lo

Get people out of their cars by sorting our public transport, triple the services, triple the parking fine fees. Bike lanes are good, but NOT what you did on Taniwha St, Glen Innes. They are a disaster, and such a waste of money! Introduce tolls on faster roads to fund other infrastructure under a user pays model.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

It makes sense, transport and public transport MUST be addressed if Auckland it to remain a globally attractive city and continue to retain kiwis and attract overseas immigration. A grid lock all day is not how to plan and run a city!

2a. Is there anything you would spend more on?

Public transport, public transport and public transport! Look at what Sydney has down with their infrastructure, public transport is so easy. More toll roads to fund infrastrucure.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Ensure greater community use always. Great venues build great communities.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Transport	As proposed
Water	Do more

Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More funding for the Emergency services. Identify wasteful spending..

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3477

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

People need to be encouraged to use public transport more. by making it cheap, reliable and safe..

2a. Is there anything you would spend more on?

Reduce traffic in the CBD

2b. Is there anything you would spend less on?

Cycle ways.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

By redeveloping part of the land it may provide an income to support the stadium. When putting on large events there should be better public transport as it is difficult to get to and park.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

The Council needs to be able to put money aside for the future. Management of the fund needs to be done professionally as it is taxpayers money. Adequate safeguards however need to be put in place.

#3477

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

It is important that the council retain a controlling interest as nearly all of our imports come by sea.. Having money in the fund would give the council the ability to improve public services that need it the most such as health, education, housing, police.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

As per my previous answer.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

No further comments.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

#3477

If the land is to be used for the public then it is important that everyone gets a chance to enjoy it. I don't agree with putting up apartments that only wealthy people can afford. Small commercial development is better to enable small businesses to set up.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

There has got to be some wharf to enable trade. If the rail network was better and the trains were electric then bringing freight into Auckland would be okay. However putting more trucks on the road in Auckland would cause problems.

6a. What do you think of these proposals?

7c. What do you think of the Ōrākei proposed priorities for the 10-year budget 2024-2034?

101

8. Do you have any other comments?

Running a council the size of Auckland is not easy. There will always be decisions made that people will disagree with. As a ratepayer I look for the common sense approach and financial astuteness in the decisions.

I want an investigation into spending in council in general. The promise of the supercity has failed - we're getting less for more money. 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3592

Get rid of the wasteful spending. Stop funding concerts and silly roading, pedestrian crossings and changing names of parks etc. Do what you were elected to do in a financially prudent manner. Core services - its unfair to keep hiking rates for stuff a small percentage of non rate payers use

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Enough with the cycle ways and slowing traffic on purpose. People just need to get places and on time. Absolutley we need to get rid of the ridiculous traffic management and planter boxes.

2a. Is there anything you would spend more on?

For heavens sake synchronise the traffic lights downtown so that we can get places. You need to make public transport paywawe from your phone. Everywhere is doing this

2b. Is there anything you would spend less on?

Changing road signs, cycle ways

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Tell us why:

We have no money and rates are too high. Any investment in stadiums needs to be for a large scale central stadium downtown - stop thinking small town and wasting money on inconsequential things. We could have had an amazing downtown stadium by now if the north shore council hadn't scuppered it, and now they want our rates to pay for it? Its impossible to get to the north shore anyway because of traffic so money spent on a stadium over there is wasteful

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improving water quality and environment should be a focus. Don't just perform water quality monitoring, that is pointless without real actions that make improvements.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3599

Just focus on core services. Stop trying to teach languages, stop creating fancy websites, stop holding opinion poles, stop holding community events, stop promotions. Stop putting signs everywhere. Remove the bloat.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

2a. Is there anything you would spend more on?

Letting common sense prevail.

2b. Is there anything you would spend less on?

Traffic management. Traffic management is far more expensive, disruptive, painful, pointless, and life threatening than its reason for being.

3. Which options do you support for the North Harbour Stadium?

I don't know

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Ok in principal, but ultimately what will stop the money from the sale of AIAL being squandered? That is the advantage of owning something that cant be easily sold.

#3599

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

The short term gains are not worth it. Keep the port as is. 35 years is far to long for such a short term gain.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Split between both INVEST and CONTINUE.

4d. Do you have any feedback on any other part of the proposal?

5a. What option do you prefer for Captain Cook and Marsden wharves?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support

Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

High Speed Rail to open up outlying areas north and south of Auckland...subdividing huge land masses thus creating housing and train to commute back to the city where the work is.

Relocation of existing wharf on Quay Street and utilise this area for residential, commercial mix,ed us plus green space.

#3605

Less money spent on replacing existing bus shelters rather than making do with what we have.

More underground services of power thus removing unsightly power poles from street.

More berms to enable angle parking in residential areas rather than huge green lawned areas (look nice but not practical with the increase in shared living arrangements which comes with cars.

Owners of property should have to park on their own property thus leaving street parking for visitors.

Removal of campervans from residential streets particularly smaller narrow streets as these monstrosities take up 3 carspaces.

Patrolled streets with wardens etc to eliminate and prevent inner city crime and some suburb crime. Police presence!

Any funds spend on events for economic development must be for the benefit of all New Zealanders!

Less social housing UNLESS its managed correctly and deters gettos!!

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

See answers above.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

IF we focused less on building multiple dwellings in areas that cannot support existing traffic arrangements WHY keep approving apartment dwellings and carving up of large blocks into multiple townhouses??

Concetrate focus on high speed rail north and south of auckland and subdivide all the land that is sitting there looking pretty instead of over populating Auckland as it is now!
Not hard....

2a. Is there anything you would spend more on?

#3605

See above including more police presence on foot patrol.

Bring back Wardens in suburbs town centres to discourage youth gatherings and what comes with that.

2b. Is there anything you would spend less on?

Band aiding rather than addressing core issues of overcrowding ,over development in land!!

Solution above ie high speed train north and south and subdivision of useable land. of which there is plenty outside of Auckland!!

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More efficient system on running on tax payers' money.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less of wasting tax payers' money

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Money has been spent to seek some of the proposals, unless they are super inefficient and not in line with the main goal, then you should not abandon the old plan.

2a. Is there anything you would spend more on?

Better system, more efficient way of public transportation, allow bikes/scooters/boards to go on bus/train/ferry; enable safety for bikers and people who choose the green way for gettin out and about.

2b. Is there anything you would spend less on?

AT card is a joke - in this electronic age, we still need to spend \$10 to get an AT card????

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#3802

Support most of the proposal

Tell us why:

I support making public transport faster and optimising our transport network, but I don't support stopping the development of cycleways (as I think these contribute to a significant reduction in traffic congestion, based on the large number of people who use them). I personally use several cycleways within Auckland on a regular basis (for commuting to work), but I might be changing jobs in the foreseeable future, so having more cycleways would improve the likelihood that I can continue to use them for commuting (rather than driving).

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

I have no interest in the North Harbour Stadium, and have never been there for any events. \$33 million is a large amount of funding that could potentially be used to fill funding shortfalls for more crucial areas of the council's portfolio (e.g. public transport, flood prevention). It also sounds like some value of the facility could be retained even if the some of the land was sold, and there are other stadiums in Auckland, so this sounds like a very ideal opportunity for optimising council spending.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

#3802

I don't think Auckland Council's current stake in Auckland Airport is large enough to provide substantial control over fees that Auckland Airport charges to airlines, which in turn means that Auckland Council has very little control over changes to the airfares paid by consumers. Similarly, Auckland Council's stake isn't large enough to provide substantial control over the airport's general operations, which means that the typical benefits of public ownership are minimal at this point, and would therefore be more valuable as liquidity.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I think this proposal strikes a good balance, by retaining full ownership of valuable assets (i.e. the land) while also providing a significant funding boost for Auckland Council's portfolio. I also think the financial/operational austerity that's likely to be incurred by the port's privatisation will be no worse than whatever Auckland Council plans to implement (as part of their profitability improvement plan).

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

The Auckland Future Fund is likely to incur some fees from the private organisation responsible for managing it (even if the management is directed by Auckland Council). Therefore, re-investing the dividends into Auckland Council's portfolio via the fund is likely to be less financially efficient than directly re-investing the dividends into council services.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#3802

I think the claimed benefits of the Ports of Auckland leasing proposal are misleading, because it's not clear which of the proposed rates plans include the year two reduction that would be provided by leasing the port operations. The leasing proposal has stated the following benefit:

"Lessen the rates increase for year two of the long-term plan to the proposed 3.5%"

However, only the 'Central' rates plan includes a year two increase of 3.5%, which means that:

- 1) It's not clear what the year two rates increase for the 'Central' plan would be WITHOUT the port leasing proposal.
- 2) It's not clear whether the year two rates increases for the 'Pay More Get More' and 'Pay Less Get Less' plans include the port leasing proposal (and if so, what the alternative would be WITHOUT the proposal).

Considering that the advertised year two rates increase for 'Pay Less Get Less' is already 3.5%, it seems likely that the rates benefit from this proposal has only been included for the 'Central' rates plan, which is misleading because that makes the 'Central' plan look better than the other two options.

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Tell us why:

I don't think this is a good investment, as there's a risk that the profitability of this newly-developed land will conflict with the profitability of similarly-purposed land within the CBD. It may also impact the port's profitability, as reducing the por

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

I don't think this is a good investment, as there's a risk that the profitability of this newly-developed land will conflict with the profitability of similarly-purposed land within

#3802

the CBD. It may also impact the port's profitability, as reducing the port's land would significantly reduce its operational capacity.

This proposal would also reduce the appeal of the port-leasing proposal (beyond the stated \$300 million reduction of the lease), as prospective purchasers would likely claim that it's impossible to accurately speculate on the port's profitability prior to make a significant land reduction (e.g. they might speculate that the port couldn't feasibly operate with such a large reduction).

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	Do not support

Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#3843

Do not support most of the proposal

Tell us why:

I think there is already excessive spending on the cycle network in the suburbs on roads that aren't that busy or it don't improve cyclist safety for example the new bridge on Tamaki drive opposite Ngapipi road (I shudder to think how much that is costing), the very short cycle path through in Mission Bay which puts pedestrians at risk, and Taniwha St where the cycle path is already full of glass and has cars parked in it. It is just making car drivers more aggressive towards cyclists putting them at greater risk.

I'd like to see more radical solutions such as free public transport. How many millions is spent on ticketing infrastructure, software, and management annually vs the revenue it generates. With more cost going in to the new national ticketing solution, I'd be surprised if Auckland Transport breaks even .

School traffic and roadworks seem to be the biggest contributors to travel time from my experience commuting. Will more school buses and better co-ordination of roadworks help?

2a. Is there anything you would spend more on?

Get on and build a bridge for pedestrians and cyclists next to the Harbour bridge. We don't need a to investigate the feasibility of a low-cost bike ferry

connecting Northcote and the city centre. Too much money is spend on consultants to investigate options. Invest in the future of the city!

2b. Is there anything you would spend less on?

Suburban cycle network on quiet roads in the name of safety but in reality are not usable or create more risks to cyclists and pedestrians

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is,Change the operational management,Other

Tell us why:

#3843

I've lived in Auckland for 7 years and I didn't know there was a Stadium on the North Shore. It sounds like it is under utilised and costly. Either use it more or sell it to improve the council's physical and financial resilience.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Given the projected financial returns in your consultation document suggest that transferring the shareholding to the fund makes economic sense

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

Sell / move the port. It adds to the city congestion issues takes up premium waterfront real estate and has an environmental impact of our inner city harbour area

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tell us here:

So that it has a direct impact on reducing council rates

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

#3843

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Make the Briomart area a destination for Aucklanders and tourists. Currently there is very little there.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

As above, I'd like to see the central waterfront area redeveloped as a destination for all.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. 7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less support of commercial events to attract business to city

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Would prefer continuation of separated cycle ways

2a. Is there anything you would spend more on?

Smaller electric buses on less busy routes and narrow suburban street routes

2b. Is there anything you would spend less on?

Raised pedestrian crossings

3. Which options do you support for the North Harbour Stadium?

Proceed with the proposal

Tell us why:

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#3849

Tell us here:

Because it reduces year 2 rates increase to 3.5 per cent. My rates are already 13.5 K pa. As a single retiree I will be rated out of my family property if rates increase at levels higher than this. Also think a private specialist company could run port operations better.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Tell us here:

Certain percentage to investment fund but balance to run council services.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

Cruise ships need to still access a very central wharf. Freight use could move elsewhere but in meantime Bledisloe efficient for that.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More input into the water protection (flooding and repairing leaks).

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop all the cycle input. We need to complete the repairs of what we have in place.

Less consulting and paying so called experts to state the obvious.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Although it is important to have modern and safe transport, many proposed projects are not a priority (raised crossings etc). Auckland City does not have a reliable transport system as yet and there is room for improvement, especially if we want less cars being used.

2a. Is there anything you would spend more on?

The HOP card system and the AT app must be 'Live' so customers can rely on the information. We cannot trust the information at the moment because the updates have a lag.

2b. Is there anything you would spend less on?

Less time and money on systems that only benefit part of the population i.e. bikes.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Any places, such as, stadiums and arenas should be developed to encourage full usage. Keeping a stadium for certain events, like matches, is underutilising it. The potential for more people to use them and for potential revenue cannot be underestimated.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

#3861

Proceed with the proposal

Tell us why:

A shared risk seems like a sound idea as long as the council establishes this with the help of a professional organisation.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

Leasing encourages the owners to make the best use of the land and resources.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

It is time for this country to think ahead in more depth instead of banking on things being 'right'.

4d. Do you have any feedback on any other part of the proposal?

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#3861

Tell us why:

Keeping things as they are does not help the city move forward and develop as a place to live and as a tourist destination.

5b. What option do you prefer for Bledisloe Terminal?

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

Whatever it selected for the site should be for Aucklanders and the visitors who arrive on cruise ships etc. As it stands the area is limited to a small percentage of the people. Generation of city income or businesses/commerce growth should be encouraged. The area at the moment does not enhance this.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#3863

Optimise the structure and performance of the council, it is traditional and slow, a transformation is required to make sure it is capable of operating a "do more, pay more" option.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Public transport improvement is a must for our city. Works have to be done faster to minimise traffic disruption. Focus on the key things not raised crossings or more cycle lanes.

2a. Is there anything you would spend more on?

Public transport improvement.

2b. Is there anything you would spend less on?

Cycle lanes.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

How could better use be made of this perfectly good facility.

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Cutting raised pedestrian crossings and cycle lanes will make these forms of transport less safe and therefore, less attractive, leading to more car congestion on our roads.

2a. Is there anything you would spend more on?

Initiatives to make walking and cycling safer

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Tell us why:

There's no point in an asset that doesn't meet the needs of the local community

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Diversification is a key component of sensible investing

4b. Which option do you prefer for the future of Port of Auckland?

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools .	Support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop doing "cheap" jobs (ie. average standard parks/walkways/refurbishments) that only last 5-10 years. Build to make it last and look good for the next 100 years.

#4038

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I've seen about 10-15 workers "managing" traffic/foot traffic around infrastructure projects. Complete waste of money and resource. They stand there scrolling through their phones most of the time.

2a. Is there anything you would spend more on?

Delivering reliable and frequent public transport that doesn't keep going up in price. If a return journey from Albany to the city costs as much as a day carpark, there will be very little uptake on public transport offering.

2b. Is there anything you would spend less on?

Spending money on consultations and proposals and having new government cancel it. OUR money was spent on this project and if the project WE paid for is no longer going ahead, I would like that money refunded to us.

3. Which options do you support for the North Harbour Stadium?

I don't know

4b. Which option do you prefer for the future of Port of Auckland?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Definitely DO not build a stadium, but parks and playground would make that area a lot more attractive (as it's ugly and unwelcoming to tourists and Aucklanders)

Local board priorities

7a. Which local board area does your feedback relate to?

8. Do you have any other comments?

For over 50 years, Auckland Citizens Advice Bureau (ACAB) has been providing advice and guidance to Aucklanders, thanks to the generous support of Auckland Council. Enabling Aucklanders to know and understand their rights so they can access the services they need is key to their well-being. The demand for our services continues to rise. By working together, we can accomplish even greater things and support thriving communities across the Auckland region. ACAB is planning to meet the changing needs of our communities and work in partnership with Council to help achieve the goals of the LTP.

ACAB supports the central proposal set out in the LTP. We support the objective of maintaining services where possible and focusing on investment where it is most needed. We want to acknowledge Auckland Council's support for our work and reaffirm our desire to work with the Council to deliver services where they are most needed.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Council rates are already high enough it shouldn't go up anymore even it means the council needs to do less, infact I believe the council should only focus on the core business and slash everything else. The rates can't continue rising.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#4078

Apart from core business the council needs to do less in every other areas to save money.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Auckland will never have a public transport they people would like to use, we need to cut the funding into public transport, bus lanes, cycle lanes and use the funding to improve the roads for cars. Stop putting in speed tables everything they just slows traffic and waste money.

2a. Is there anything you would spend more on?

improving the road for cars.

2b. Is there anything you would spend less on?

bus lanes, transit lanes, anything public transport related because Aucklanders don't like to use them and they will never work for Auckland.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Tell us why:

This is another area the council is wasting money on unnecessary spending.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Focus on effectiveness of core infrastructure - rubbish, recycling, water, transport and maintenance of public amenities. Deliver fit for purpose water system and prevent sewage polluting our beaches during storms. Ensure transport infrastructure is

#4099

demand-led, rather than being driven by green ideology. Build more roads rather than repurposing existing roads to cycleways.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop funding Maori outcomes. This aspect of the Council's vision does not align with its role. Funding a single racial group is not what I pay my rates for and is not the role of the Council. This is the central government's responsibility. This aspect of the Council's vision does not reflect its multicultural population and people of all races deserve outcomes.

Stop funding Eden Park. Eden Park is not owned by Auckland Council. This is a cash sinkhole and ratepayer money is better spent on facilities owned by Aucklanders that are fit for purpose and can be used for a range of activities, including concerts and sporting events.

Defund the Aotea Entertainment Precinct - that part of Auckland is dying anyway

2. What do you think of the transport proposal?

Support most of the proposal

Removing unproductive bus routes is a great idea. There are far too many buses in Auckland carrying fewer than 5 people. Do not implement a "time of use" system. Travellers in congestion already pay for their use with their time. Do not implement

2a. Is there anything you would spend more on?

Speed up delivery of transport projects. It is crazy how long projects take (e.g. Ngapipi Road & Tamaki Drive bridge). The works are progressing too slowly and it is holding up Aucklanders.

2b. Is there anything you would spend less on?

\$866m of transport investment for the Auckland Housing Programme should be funded by property developers that create dwellings under the Auckland Housing Programme, who pass it onto purchasers of their houses. This should not be funded by all Aucklanders.

#4099

Do not implement a "time of use" system. Travellers in congestion already pay for their use with their time.

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle to continue their lifesaving work effectively.

#4130

Without fit-for-purpose facilities that people enjoy visiting, the Auckland region risks losing the volunteers who provide the service, spelling the end of more than a hundred years of vigilance on our beaches.

We therefore request that Auckland Council allocates \$8.02 million in funding within the Long Term Plan specifically earmarked for the rebuilds and ongoing maintenance of surf lifesaving club facilities, as per SLSNR's Surf 10:20 Capital Development proposal.

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1- Wastewater treatment.

2- Street tree management is crucial. Many trees are unsuitable for urban environments; their leaves can clog cesspits, branches damage overhead cables, and roots harm pavement.

#4145

3- Auckland requires an Urban Research and Planning Institute, similar to the one in Curitiba, Brazil.

4- It's essential to review Auckland Transport's (AT) actions because numerous intersections lack logical design and pose significant safety risks.

5- Security is a concern; there is a notable increase in robberies, and urgent measures need to be taken.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Spending money on the food scraper's rubbish bin feels like a scam. Given the high cost of food, it's frustrating to invest in unnecessary delivery and the collection of the small bin, especially when there's minimal actual waste.

The no plastic bags campaign requires reconsideration. To genuinely address plastic concerns, focus on banning single-use pet bottles and encouraging the use of returnable ones. Additionally, reducing excessive packaging on food items would contribute more effectively to the cause.

There's a pressing need to tackle the influx of low-quality products into the country. For instance, it's disheartening to buy shoes that appear good but decompose within two months. Emphasizing the importation of more durable and sustainable products in the industry is crucial.

2. What do you think of the transport proposal?

Do not support most of the proposal

Tell us why:

Reiterating the point, Auckland Transport (AT) requires thorough oversight due to its poor design decisions. Furthermore, Auckland itself needs an Institute of Research and Planning, similar to the one in Curitiba, Brazil, to enhance urban planning and development.

#4145

2a. Is there anything you would spend more on?

Establishing an Institute of Research and Planning, modeled after the one in Curitiba, Brazil, could greatly benefit Auckland. Consider investing in bringing experts from Curitiba to assist in planning and development for Auckland. Their expertise and experience could contribute significantly to the city's urban planning initiatives.

2b. Is there anything you would spend less on?

Zebra pedestrian crossings are effective tools for road safety, but pedestrians must understand their proper usage. Pedestrians need to be aware that, even with the right of way, making eye contact with the driver before crossing is important for mutual safety. Education and awareness campaigns can play a significant role in ensuring pedestrians are well-informed about responsible crossing behavior.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

Missing the opportunity to have Taylor Swift here simply because we've exceeded the number of events seems impractical. Considering the revenue potential she brings, it was crucial to find a way to accommodate her. Swift's presence could significantly contribute to our financial success, and exploring alternatives to make this happen would be beneficial for all parties involved.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We need to invest as much as we can in our storm and waste water networks. We need to prioritise getting people out of cars and into PT or active transport.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

The Council is doing a great job with limited resources.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

Government must top up Auckland's transport funding: we are a central hub in the national network.

2a. Is there anything you would spend more on?

PT, cycleways and active transport options.

Tell us here:

Just leave the POAL operation as it is - we have spent too long fiddling around with this and we need a functioning port.

Until we have proper rail and road arrangements in place, Auckland cannot sustain more truck movements.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

#4154

Tell us why:

I would LOVE this to be transferred for public use but the impact of more trucks would be far more detrimental than the benefits of the public space use of the Wharf.

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do less
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

#4187

Support all of the proposal

Tell us why:

The city needs efficient, effective, and reliable transport options rather than niche options such as cycling. Also, raised pedestrian crossings are in my opinion not only a waste of money but a detrimental to transport movement efficiency and fuel usage. There are several raised crossings I have used regularly where I have never seen pedestrians whereas every vehicle is having to slow down, causing traffic to back log and presumably increasing fuel usage and emissions from the resulting acceleration once passing over them.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

Auckland has too many stadiums. All existing stadiums should be scrapped and a centrally located waterfront option developed that can link rail and ferry to it in support of all the region. North Shore residents may find it tougher given public transport options are limited to bus and ferry so some thinking around solutions there would be needed.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

The operation and management of the port is best left to business interests to manage whilst it retains an income stream to the council for the land.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Bike lane creation concerns me as these do not seem to be that heavily used and I don't see congestion coming down. With a limited budget the council should prioritise itself on providing the core needs for Auckland to function well as a city and enable it to

#4188

grow. It must also separate itself from the political agenda of the Govt as best as it can, regardless of who leads the council. In my view, that means good infrastructure including roads, water, etc, and a clean, vibrant CBD that is safe for all. I don't expect more from the council beyond that.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

See my point about bike lanes. I think the council has done enough here. It must focus on the majority of the community and not try and keep everyone happy.

I also support some limited road pricing - this would enable the council to get some more revenue from users who are accessing the infrastructure like certain roads more than others. And less on stuff like stadiums that the overwhelming majority of Aucklanders do not use, but end up paying for. - see below.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Tell us why:

This is a good example of where I don't think the council should be involved. The council is not responsible for the entertainment/sports enjoyment of its citizens. It's responsible for their fundamental access to roading, water, power, transport, safety. Not everyone uses the stadium and this feels like money badly prioritised.

#4188

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

Again, I think that the council should not be owning airports, or ports for that matter. This is a diversion from what the council must prioritise and probably used a lot of staff/resources. Look at other cities like say London. The councils there don't own Heathrow or any other airport, nor do they own stadiums.

4b. Which option do you prefer for the future of Port of Auckland?

Other

Tell us here:

sell all assets in Ports of Auckland - I think the port should be located elsewhere, possibly on the Manakau side, and the land freed up for a planned blend of low cost housing and commercial use. Opening up much-needed land for critical workers like nurses, carers, police workers, etc who are critical for our well-being and can't afford to live here. The correct covenants etc can be drawn up to ensure the land is used correctly and fairly. Plus I could never understand why any modern city would have a huge port taking up vast hectares right at its core. No other major city I think think of has this anymore.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Get better contractors that do a job once and properly and not constantly repairing e.g. potholes every few months.

Honest question here - how do you expect people to manage a 20% increase in rates let alone other utilities when their wages do not increase at the same rate?

#4197

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less frivolous spending, stop wasting money on pedestrian crossing speed bumps and replacing bus stops that are perfectly fine with brand new ones. I'm not saying pay less, just stop stupid spending so it can be redirected to other places.

Restructure Auckland Transport. As fabulous as they are, pull back on art, statues, free concerts for a few years to redirect \$.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

How about using the transport options we have and getting them regular and trustworthy rather than investing in other grand schemes?

2a. Is there anything you would spend more on?

Yes, work on major projects 24/7 and get it done instead of holding up traffic for years.

2b. Is there anything you would spend less on?

Definitely get rid of/cease the raised pedestrian crossings and cycle ways. Auckland isn't Amsterdam.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Tell us why:

It sounds like it needs better transport planning/access to the stadium so people are more interested in going there. Maybe it doesn't need redeveloping but just better access/planning shuttles buses to parking/suburbs etc/?

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Whilst I agree fundamentally with recycling I think its a sham if some do it properly and others don't - what actually gets recycled and at what cost. If it doesn't get recycled just hidden away somewhere then why are we doing it? And do kids really recycle? And if they do - great - why would we charge them? Or do they not pay rates so rubbish/recycling collection isn't included for them?

Rates funded refuse - have you asked those locals what they prefer? Increased rates or pay as you go? I'd vote for whatever they prefer.

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Rebuilding existing footpaths

Stop building raised pedestrian crossings

We all have to do better with what resources we have

2a. Is there anything you would spend more on?

Finish the CRL

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

An old legacy structure, which needs to change to reflect present day needs and available funding

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Tell us why:

I am unsure of the numbers, but we do not need to invest in the airport, or the port

4b. Which option do you prefer for the future of Port of Auckland?

#4359

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>
<p>Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Support</p>
<p>Re-introduce recycling charges for schools.</p>	<p>Do not support</p>
<p>Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less subsidising public transport. Users should pay - just as we all pay for our food.

#4388

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I support the second and third bullet points, but not the first. All rapid transport proposals have had minimal value for money, entailing huge subsidies; e.g. CRL was budgeted for 800% subsidy, I think (income \$25m, expenses \$22m.)

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

I believe very strongly that we should reduce debt aggressively. When you pay for things by debt, you commonly pay twice as much. Debt is justifiable when, for example, a couple are young and need a house, but Auckland has all the basics, and should eliminate its debt.

Support most of the proposal

Tell us why:

My biggest concern with AT is the focus on projects we do not need (at least to the extent proposed) and which the community has not requested. This explains the huge costs in the transport budget which are spinning out of control. Council needs to be able to exercise more control over AT.

It represents a sensible mechanism to help fund Council priorities. It sounds like it will be similar to the Government Superfund which has been very successful.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

It provides fiscal discipline on the Port and presumably a more commercial focus.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Fiscal discipline, but it all depends on how the Council can call upon funds from AFF. Hopefully there will be a disciplined process to draw funds from it otherwise there will be fiscal chaos (witness the last government).

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

Self insurance is an issue which everyone is grappling with. It is commendable, but is really the domain of an insurance professional.

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#4411

Tell us why:

Presuming this does not reduce the effective functioning of the Port, it seems a sensible to proceed.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

We need a modern, functioning port. My guess is this would require the flexibility of retaining Bledisloe Wharf in the Port. However, if it can be achieved whilst transferring Bledisloe Wharf, I would have a more flexible view on this.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Support</p>

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Fiscal discipline should be the focus. Remember that you are responsible for spending ratepayers money and very \$ of expenditure should be considered against the benchmark of value for ratepayers.

Anything which improves accountability of outcomes against budget has to be a focus. There is a perception that CCOs hide behind their ownership structure and spend too much time on fluff, at the expense of sound commercial decision making.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

In general, i agree that the council needs to do more in all these areas, but I think the council is failing to get the priorities right and there is a lot of wasteful spending like road bumps, city rail project, foods scraps collections, changing speed zones to 30 k.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#4491

stop building speed bumps at 500 k per bump - we get a ridiculous number of these across the city which does not help the traffic management or safety. Stop building bike lanes that no-one is using as roads are getting narrow and still used by the bikes.

2. What do you think of the transport proposal?

Support all of the proposal

Tell us why:

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

go back to the basics and review the spending, especially in the current economic environment when families and business are struggling to meet the ends

Maungakiekie-Tāmaki Local Board Priorities

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	

#4491

Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.	

Tell us why

7c. What do you think of the Maungakiekie-Tāmaki proposed priorities for the 10-year budget 2024-2034?

7d. Onehunga Business Association is seeking an expansion of its Business Improvement District programme boundary area. If it is successful, businesses ratepayers and owners located within the expansion area will become members of the Onehunga BID programme and pay the associated BID target rate.

Do you support the expansion of the Onehunga Business Improvement District (BID) programme and associated BID targeted rate?

Complete the seismic strengthening of the Remuera Library	Not Important
Progress the Meadowbank Community Centre development.	Not Important
Assess the reactivation of facilities at Tagalad Reserve and work towards providing access for the community.	Fairly Important
Continue to work with our many community volunteers to eradicate plant and animal pests in our natural environment, including at Pourewa Valley and in our many beautiful parks and urban forests, and support other environmental activities, for example, the Environmental Forum.	Very Important
Continue local initiatives to enhance neighbourhood connections and increase safety.	Fairly Important
Fund and support local events to showcase our spaces and benefit local residents and businesses.	Very Important
Continue to engage and better support our diverse communities and organisations, such as Auckland East Community Network and Youth of Ōrākei.	Very Important

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

If Auckland is going to be prepared to grow, traffic congestion needs to be resolved. We need significant and long term investment in public transport. It need to be regular, free (or very low cost) and reliable. This has to be Auckland’s top priority.

#4561

One major solution I support is multi level park and ride facilities at strategic locations on the edge of Auckland. This works so well in Seattle and allows people to use public transport while getting home quickly and safely.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

All of the public transport proposals that make it fast & more reliable are important. Improving cycle ways is helpful too.

2a. Is there anything you would spend more on?

I would invest heavily in public transport. That investment will allow Auckland to grow and for the economy to expand. If we don't address our transport issues, we will become an undesirable location to live and work.

2b. Is there anything you would spend less on?

I think we need to address the basics first, transport and infrastructure. Unfortunately other priorities will need to wait until those urgent issues are addressed.

3. Which options do you support for the North Harbour Stadium?

I don't live in this area but I think these local residents would be much better served by a functioning transport system than a new stadium.

By giving up the operation of the port, there will no longer be any direct control thus the new operator could deliver poor service and severely disrupt the supply chain, ie no berth windows and thus creates a ripple effect through the industry. Who will operate the tugs and who carries the liability in case of an accident? These issues need to be advised to the public

5b. What option do you prefer for Bledisloe Terminal?

#4584

Keep Bledisloe Terminal as a Port of Auckland operational area

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Get to net zero carbon emissions as quickly as possible - better recycling, more electric buses, helping events to be environmentally friendly, encouraging construction to minimise waste, fund initiatives to clean up the harbour and so on.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#4615

If we introduce the bed tax that would enable ratepayers to pay less for the same services.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

I support a congestion charge BUT it would need to be very carefully thought out - the current proposal of charging people to use the motorway around Greenlane is not fit for purpose: it would end up clogging the roads around the motorway as people get off before the congestion area and back on again later. A congestion charge in the centre of the city makes more sense - you want to stop people using cars to get into the city, rather than punish people for using the motorway to get to other places that are not served well by bus services.

I don't agree with removing bus services that are not well-used: often they are cross-town services (like the 650 or 751) and are vital for the few people who use them.

Railway track maintenance is vital, as people will stop using public transport if it keeps being delayed or cancelled due to track problems.

I fully support increasing fines.

2a. Is there anything you would spend more on?

Fast-tracking all environmental initiatives in the transport area, and connecting the airport to the centre of the city by train.

2b. Is there anything you would spend less on?

Perhaps some of the very large roading projects.

3. Which options do you support for the North Harbour Stadium?

Tell us why:

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Tell us why:

Having no stake in the Auckland Airport is a mistake given it is the gateway to Auckland.

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Tell us here:

If Aucklanders decide to move the port (I hope so) or decide to implement better environmental practices in the near future, we would be able to do it.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

7b. What do you think of our proposed priorities for Maungakiekie-Tāmaki in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support community groups and community-led activities by continuing to provide local community grants.	
Building the capacity and capability of local community and sporting groups towards long-term sustainable funding models and independence through our strategic partnerships programme.	
Empowering community groups and organisations to deliver community events through sustainable funding models.	
Collaborate with mana whenua and neighbouring local boards to protect and restore our waterways through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum.	
Encourage our rangatahi / youth and community to be leaders in climate action. For example, through programmes like Tiakina te taiao and Ope (biodiversity and climate action education programme in schools), Love Your Neighbourhood (environmental volunteer grants) and Songbird programmes (community pest control and biodiversity initiative).	
Support business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, including assisting Onehunga Business Associations proposed BID expansion.

6a. What do you think of these proposals?

<p>Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate</p>	<p>Do not support</p>

from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the Long Term Differential Strategy which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know
Introduce the Franklin Local Board Paths Targeted Rate of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the Rodney Drainage Districts Targeted Rate to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Ōrākei Local Board Priorities

7b. What do you think of our proposed priorities for Ōrākei in 2024/2025?

Not Important

More specifically, what do you think of each priority we've listed above?

Complete the seismic strengthening of the Remuera Library	Very Important
Progress the Meadowbank Community Centre development.	I don't know
Assess the reactivation of facilities at Tagalad Reserve and work towards providing access for the community.	Not Important
Continue to work with our many community volunteers to eradicate plant and animal pests in our natural environment, including at Pourewa Valley and in our many beautiful parks and urban forests, and support other environmental activities, for example, the Environmental Forum.	Very Important
Continue local initiatives to enhance neighbourhood connections and increase safety.	Not Important
Fund and support local events to showcase our spaces and benefit local residents and businesses.	Not Important
Continue to engage and better support our diverse communities and organisations,	Not Important

Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Investment in public transport. The train and bus service is great and I would love to see it expanded.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

#4766

Less focus on building big highways and don't overpay for work. Council projects shouldn't be a cash cow for contractors.

2. What do you think of the transport proposal?

Support most of the proposal

Tell us why:

Bike lanes are great and make car users pay for peak time travel.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Tell us why:

It is poorly placed as a fan stadium and under used. Make it fit for purpose and put games in the existing, well connected fit for purpose stadiums. Also approve the waterfront stadium with private money.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

Tell us why:

Support the fund but believe AC should retain some ownership in the airport.

#4766

4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Tell us here:

I would be wary though of having a bad operator running the port or a deal being put in place that doesn't deliver the value hoped. AC making big decisions like that makes me nervous because of their track record.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Tell us here:

Future fund is a great idea.

4d. Do you have any feedback on any other part of the proposal?

Tell us here:

5a. What option do you prefer for Captain Cook and Marsden wharves?

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

Waterfront stadium would be wonderful

5b. What option do you prefer for Bledisloe Terminal?

#4766

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years
