harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

More roads around the busiest areas for short cuts.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Designing borders for the motorway when you can get the local artist to spray or paint colorful images for the communities and travelers to make it fun to see whilst driving.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

My teenagers use public transportation for schooling so I support mostly by it.

### 2a. Is there anything you would spend more on?

Bus routes so that my children don't have to catch more than 1 bus to get to school

### 2b. Is there anything you would spend less on?

No

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

### Tell us why:

Why spend so much on this when there's more needed places for funding that amount within the 10 years.

STOP with all the cycle ways that always look empty. STOP the ridiculous amount of Speed humps and raised pedestrian crossings, ENOUGH already.

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Great proposals with the stopping of cycle ways that always look empty and the ridiculous amount of Speed humps and raised pedestrian crossings, ENOUGH already. Also the reducing of temporary traffic management requirements

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

It NEVER makes economic sense to sell off investments such as shareholding. Especially one that is guaranteed to always stay relevant and will continue to grow.

## 4b. Which option do you prefer for the future of Port of Auckland?

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Rates can't continue to increase so much every year, it's crazy. As a soon to becoming pensioner I will struggle to pay me rates, which is already a struggle. Why should I have to pay for more and more people coming into our country?

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Protected cycleways, cycleway maintenance (I'm looking at your Buckland Road, Mangere), dynamic lanes, more efficient and frequent (AND RELIABLE) public transport, more traffic wardens to enforce parking rules

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1026**

Less roads, less cars, less on street parking, less car prioritisation

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Support making public transport better, but angry at the reduction/cancellation of cycleways and pedestrian crossings. We need to be supporting transport CHOICES, which includes ACTIVE transport. So we need to be producing environments that are safe for cyclists and pedestrians (that means protected cycleways and raised pedestrian crossings).

### **2a. Is there anything you would spend more on?**

Protected cycleways, raised pedestrian crossings, maintaining the current transport network to a high standard

### **2b. Is there anything you would spend less on?**

Expanding the road network, we don't need more roads. We need more transport options

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The port needs to grow to cope with increasing demand for import/export - there is nowhere for expansion to happen in Auckland. We're better to redevelop the waterfront land and slowly shift the port to an area with more land available for expansion to keep up with freight growth

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

More specifically, what do you think of each priority we've listed above?

#1026

Investing in the maintenance and renewal of our parks, playgrounds, recreation facilities, and other public spaces so they continue to meet our communities needs.	
Supporting a community-led approach for the delivery of relevant and diverse services that connect the community	
Supporting environmental groups, community volunteers, and our diverse communities to carry out environmental restoration projects, including stream clean-ups, habitat improvement, native riparian planting, and pest control.	
Begin implementing the Mini Shoreline Adaptation Plan for the Little Shoal Bay / Te Wai Manawa alongside our community to address the issues caused by flooding and seawater inundation.	
Supporting a community climate activation programme to support and amplify community initiatives identified in the Kaipātiki Climate Action Plan.	
Building relationships with local iwi and mataawaka groups so that Kaipātiki is rich with Māori identity and culture.

7b. What do you think of our proposed priorities for Māngere-Ōtāhuhu in 2024/2025?

Fairly Important

More specifically, what do you think of each priority we've listed above?

Strengthen partnerships with local mana whenua through project delivery, including Te Kete Rukuruku, completion of David Lange Park playground and improvements.	Very Important
Deliver community climate initiatives such as Low Carbon Lifestyles, and Māngere Bike Hub with our community partners.	Very Important
Deliver a community-driven safety action plan aimed at tackling anti-social behaviour and addressing local safety concerns enhancing the overall sense of safety within our local community.	Fairly Important
Improve employment and economic opportunities through our local economic broker programme.	Very Important
Support community-led activations at our parks and facilities through our community grants.	Strongly support more cycleways, the Mangere Bike Hub etc. ask that you PLEASE prioritise fixing Buckland Road between Mangere/Massey Road and Portage Road. It's absolutely wrecked and is unsafe for cyclists and drivers.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#1225**

Support all of the proposal

**Tell us why:**

Time lost in traffic / unreliable public transport is unrecoverable in terms of money for people (especially the poorer ones who can only afford to live further from the centre). Also sitting in traffic contributes to emissions without any tangible benefit.

**2a. Is there anything you would spend more on?**

Reliability of the rail network (track faults, power line faults, cancellations) etc. are really frustrating given this should be the fastest and cheapest transport option.

**2b. Is there anything you would spend less on?**

raised pedestrian crossings - they are executed poorly; they are created on artery roads (and should not be), lowering speed limits (car should move AS FAST as possible and conditions allow to ensure no congestions - we need to accept certain increase of rare crashes)

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Shares should bring income - like a Trust, not a fund and not to be sold. Council should not be in business of investing on the open market and keep its assets.

**#1225**

Absolutely no to financial deals (which may squander the assets and line the pockets of big consulting firms).

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Again, it is important for Council to retain as much control and income as possible. By leasing for 35 years, it appears that Council is thinking that it will invest the money received BETTER than the income it will be receiving by solo operating the ports. Council IS NOT in the financial/investing business and the decisions that it will make will not be financially solid. Therefore, do not transfer/lease assets unless they are totally unproductive or loss making.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Services of council should be affordable and quick to allow for the growth and development.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#1225

**Tell us why:**

Unless the whole Ports of Auckland are moved, we should not be reducing the operating area of the ports given that we have a rising population and trade.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less restrictions on rubbish bin collection (the bins are small as it is)

**#1817**

## 2. What do you think of the transport proposal?

Don't support any of the proposal

### Tell us why:

Doesn't make sense because some of the previous initiatives they are stopping would have improved the current public transport crisis.

### 2a. Is there anything you would spend more on?

Building more efficient Bus or train routes, Rather than faster transport get more frequent buses and trains.

### 2b. Is there anything you would spend less on?

Unnecessary roadworks e.g, when the council reinforce the road when it doesn't need fixing then the road ends up being uneven as they had to rush the job due to running out of time,

## 3. Which options do you support for the North Harbour Stadium?

Support most of the proposal

### Tell us why:

Auckland traffic is an issue and can only be fixed if there is reliable public transport that people could use without impacting their plans.

### 2a. Is there anything you would spend more on?

Upgrading roads to ensure potholes and well travelled roads are made to last and are not temporary fixes.

### 2b. Is there anything you would spend less on?

Installing speed bumps where it is becoming more of a hindrance to public especially if they have to pay for the upkeep of cars damaged from the numerous bumps installed on roads commonly used.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Youth development in all of Auckland especially South Auckland.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Pay the Mayor and management less because their pay doesn't match their output, .

**#2005**

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

There was no reason for them to cancel previously-planned initiatives. It just sounds like an indirect way of making bus and train fare more expensive. There's no breakdown of the budget, So where is our money actually going.

**2a. Is there anything you would spend more on?**

Not at all.

**2b. Is there anything you would spend less on?**

Please reduce public transport fares or keep the same,

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Plans don't seem transparent. Who are they selling their shares too, Where is the budget breakdown for the money they make from selling the shares

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

These are short term fixes, I don't think this plan is sustainable long term.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Public transport will be effected and I use this daily.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We should be implementing tolls on the harbour bridge to generate funds towards a new crossing and road improvements. I am prepared to pay to use our swimming pools. Why should the rate payers fund this?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2017**

Charging for the organic bins when you do not use them.

We have composted for years and continue to do so.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Ratepayers are happy to see the improvements where they make sense. What annoys everyone is the lack of cost control on projects. Just look at any photo in the paper, if more than 50% of the people are working you will be surprised.

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

Raised pedestrian crossing, what was the goal and what have they achieved. The excessive costs we are paying and the reduction in the traffic flow due to poor placement makes these detrimental to our suburb.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

### **Tell us why:**

We have enough stadium that are poorly utilised now.

Smaller multi use grounds make more sense.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I like the idea of getting a return on the investment to allow this to be invested makes good sense.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

I see no reason why we would want our council managing this, their records in controlling Costs is not good. Get the money and invest it to reinvest.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

This way we will have a greater visibility of the investments the council is getting and the returns from the fund.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

The development of the downtown area seems to be good as it is. We may be able to utilise it better if we resolve the issues we have in getting people into the city. I love the waterfront but rarely travel into the city as it is not an enjoyable experience.

If you look around the area we have too many shops empty and too many shops selling the same things. If we can install some pride back into the suburbs to tidy these areas up and improve safety in these areas more people might come back to these areas.

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

Cost controls should be the priority in our area, people are struggling to pay for rates now. User pay options need to be introduced to bring more money in from what we already have. I would hate to think how much money has been wasted on raised crossing in our board. Learn to do more with what we have, stop trying to do everything they can for everyone. Learn to spend the money as if it was your own money. Question do we really need this? if so, how can we do it with what we have already.

Yes, STOP taking our hard earned money from our pockets in terms of TAX, we already paying tax on our pay, and GST on everything. So whatever you doing Take money from government not put pressure on hard-earned individuals who do the jobs and hardly meet our ends everyday for our families. So whatever you want to do, do not look our pockets. Do YOURSELF.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would pay more for greater environmental regulation that protects the very limited green spaces in Auckland City. In places, tree coverage is as low as 6%.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2837**

Commercial business support, while these might provide employment, they generally are more focused on profit and less on community development.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Raised pedestrian crosses seem logical if you want people to safely walk to public transport.

### **2a. Is there anything you would spend more on?**

Public transport

### **2b. Is there anything you would spend less on?**

N/A

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

### **Tell us why:**

Evidence shows that most stadiums provide limited revenue and do not provide real community development.

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less arts and cultural funding. Less cycleways. No more wasteful spending eg. pedestrian crossings in silly places

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

We are experiencing a cost of living crisis of epic proportions and cannot afford to also have rate increases. The government should borrow and fund these projects. Council should only maintain these assets.

### 2a. Is there anything you would spend more on?

No

### 2b. Is there anything you would spend less on?

Auckland transport. Cycleways and buslanes

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

Selling some parts of the precinct will release capital for further development of the stadium.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#3151**

**Tell us why:**

Auckland Airport should partly belong to the residents of Auckland through shares held by my council. It's a valuable asset which will grow in value over time plus it's a strategic asset.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Leasing the Ports will give a better cashflow for council whilst still having ownership of this valuable asset.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Council needs to look at long term income generating assets and not rely on rates alone to pay for services it provides Aucklanders.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We can't survive now with higher cost of living plus mortgage rates. How will we survive if Council increases rate? Will council feed our family? Council should get more funds from National Government. Wayne Brown should make better decisions for kiwi's find a better way of living to survive in NZ not sucking their blood and make them skeleton.

**#3239**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

If there is NO funds, find alternative solutions for it rather than increasing rates or more people will be on the streets as they wont afford to pay extra on rates and would end in selling their houses.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

I can't afford to support proposal and make my family suffer due to no funds!

**2a. Is there anything you would spend more on?**

No, we are already paying so much. There is NO saving what else Auckland council wants from us. Get from National Govt as Luxon promised lot of things and now is time to fulfill his promises. Don't rely on people, rely on Govt to support Auckland council. Auckland Mayor should do better planning or give chair to a better person.

**2b. Is there anything you would spend less on?**

We already had cut our spending due to higher cost and there is nothing left to pay.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Management is not looking after the property hence, they want development.

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	Do more
<b>Environment and regulation</b>	Do less
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

While you have only allowed feedback on what we think the money should go to, you have not given the option of the council's soft saving by cutting the cream of the top, non business essential travels, expenses by top paying executives. Homeowners shouldn't be paying for non business critical expenses which the top execs happy do when our city is in the suits ime flood, storms.

**#3312**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop paying for non critical business expenses like top executive salaries. How about show us where the soft savings are turned into hard savings. And us them to pay for essential services like our public transport, safer street I.e gang activities in manukau, CBD

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

As outlined in previous comments

**2b. Is there anything you would spend less on?**

Council executive salaries needs to be capped for soft savings to become hard savings. We home owners are living pay cheques to pay cheques due to increased of living in Auckland, along with worries about the gbag activities in Manuaka area. My elderly mother takes the bus but only during certain times due to buses being a hang out space for young gangs.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Revenue from usage either during season or public usages should pay for the development.

**#3312**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

AIAL should remain govt asset! Why spend money on a new 'org' to manage something already in pace. Waste of my hard earned rate money.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Invest it into other area of greater auckland. Less rates for home owners.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do more

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**Tell us why:**

I fear that redeveloping the stadium precinct could result in a quick and cheap sell-off to a 'friendly' developer

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Why would we want to see just another huge slush-fund, just so rates can be held lower for a few years. Council does not have the expertise to operate such a fund, so serious fees would be incurred. We'd have no guarantees that a future council, would not 'do a Muldoon' and simply capitalise on the fund for political purposes

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

#3371

Be like Tauranga and sell shares in the port, and put in a commercial management, but start the process to move the port.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3382**

Too many council staff to be cut down, too many staff at Britomart standing there doing nothing.

The mayor to have a pay decrease, and their staff.

Sort out inflation, cost of living is too expensive

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

Creating more costs in reducing lanes, raised pedestrian cross and at traffic lights, more police to patrol the roads for non licensed dirt bikes.

### **2a. Is there anything you would spend more on?**

Every car should be insured and mandatory to be enforced by the police if they don't have it they get fined.

The council to get a % from all car insurances, motor bikes, bicycles, scooters and anything that has motors or electric motors.

Now there are bike and scooter lanes being funded by rate payers but not all rate payers use them

The companies that hires scooters or bikes should council levies.

### **2b. Is there anything you would spend less on?**

Parking infringement are too high. Parking facilities should pay council levies for all cars using this service.

Too many parking wardens as they should be less. They should use scooters instead of cars to cut costs down

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**#3382**

**Tell us why:**

There should be more activities to keep the stadium active everyweek to bring in revenues.

Leave the stadium where it is and complete building warrant of fitness every year like cars.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

The shares should be sold to ALL rate payers or ALL rate payers to buy them and not to be sold to any overseas investors but to invest to New Zealanders only who lives in NZ. If they leave the country, it is mandatory to sell the shares back to nz.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

It will create more revenue for the city. Must be leased out to nz companies not overseas

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

This way it may help to reduce rates for home owners

#3382

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Leave it as is but needs to complete yearly or so maintenance check. The council to benefit from levies

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Leave it as is but needs to complete yearly or so maintenance check. The council to benefit from levies

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Nope. Not willing to pay more. We struggle to get by already.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Yes! Stop paying road workers so much money to stand around and do nothing! Hire better workers, put the money tax payers pay to things we actually care about.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

The transport passes are unnecessary. Definitely need the bike lanes but don't need the raised pedestrians.

### 2a. Is there anything you would spend more on?

To clean our water ways.

### 2b. Is there anything you would spend less on?

Funding for parks that don't need to be done up. We have enough.

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

Don't waste anymore money on it. If it needs to be done, get private investors. The north shore people have more than enough money.

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#3426**

**Tell us why:**

Not supportive of the Auckland future fund

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Lease it out but don't put the funds to the future Auckland fund

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Public doesn't need it.

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

To build more roading infra structure for cars. Not spend money on changing roads to bus lanes, cycle lanes. We are getting more of EV Vehicles - they also need roads - because they are EV - doesn't mean that they can fly. They need roads. Please don't take away roads and convert them to bus lanes. Put separate bus lanes if you want to. This is causing major congestion in Auckland

**#3492**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

'Don't spend money on changing roads to bus lanes and cycle lanes. Please use your brains as there are very few people who use the Public Transport in Auckland.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

stopping some previously-planned initiatives, such as some raised pedestrian crossings and cycleways.

making public transport faster, more reliable and easier to use by investing in rapid transit network actions, such as making it easier to pay and introducing capped weekly public transport passes

**2a. Is there anything you would spend more on?**

Create another motor way from Albany to Wiri - it can be a Toll road - it will pay for itself. Give the project to some big companies from around the world who will invest in NZ and can returns by charging Tolls.

**2b. Is there anything you would spend less on?**

Stop creating new bus lanes and cycle lanes.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I want the council to stop teating it's ratepayers like Cash Cows.

I want to see the council exercising some fiscal responsibility by tightening up on costs.

**#3653**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

All this fluffy PR politically correct stuff.

Scale it right back.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

The amount of money invested in cycleways vs the return you get shouldn't pass a cost benefit analysis.

**2a. Is there anything you would spend more on?**

Speed cameras - you're having an issue with money, make some more by stinging speeders. People say it's a revenue gathering exercise - they shouldn't speed then.

**2b. Is there anything you would spend less on?**

As above, cycleways, raised pedestrian crossings and random pet projects that take away from core services.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Redevelopment of North Harbour stadium is hardly something that cannot wait until the fiscal situation is a bit better.

**#3653**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Sell it, put the money in a fund like the Mayor says.

Is actually a good idea, if there is a major disaster neither POA or AIAL will be bringing in much of the dosh required for arebuild.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Sell the port operation.

It's a debacle and yes, they are returning, but have historically been arrogant to the fact that they needed to give a return to the people of Auckland.

Who's to say this attitude does not rear it's head in future. POAL is a dog, get rid of it.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Because we need the money and every dollar the council can get from POAL then that is the less that you should be asking ratepayers for.

**4d. Do you have any feedback on any other part of the proposal?**

#3653

**Tell us here:**

Future Fund sounds good, but not sure that the numbers aren't overly optimistic.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Those wharves would be a great jewel in the crown for the city of Auckland.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Possibly use Bledisloe as a Cruise ship terminal.

POAL only uses Bledisloe for Cars anyways.

**6a. What do you think of these proposals?**

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

no

#3769

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

the Council could save considerable money by stopping the development of raised judder bars, more cycle lanes, more bus lanes. If public transport was more reliable it would be accessed by more people. I have given up at the moment catching the train to work as so unreliable. If more reliable then more people would use it which would then get the vehicles of the road.

I seldom see the cycle lanes near me used by the average person, they are used more in weekends by groups. I have nearly been hit several times on the new raised pedestrian crossings near me (when I was walking to the train) as they are too close to the intersection. These should have been built further back from intersections - so dangerous. I now cross before it as much safer (e.g. corner Puhinui Road and Wallace Road) - really stupid, unsafe intersection.

### 2a. Is there anything you would spend more on?

no

### 2b. Is there anything you would spend less on?

cycle lanes

judder bars

raised pedestrian crossing

express bus lanes

community events - although great, they are a huge expensive and possibly spreader events of flus, viruses, covid

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

**#3769**

**Tell us why:**

perhaps the Council could save money doing this.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

i feel the investment in the AIAL is a safe, good investment. we have already sold of some of this I believe.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Less speed bumps and bus lanes that in many cases the buses do not use. I would like also point out option 1 the increase will be 100% in 19 years option, 2 the increase will be 100% in 20 years and option 3 the increase will be 100% in 11 years. This does

**#3953**

not include increases in water and waist water. So none of the options are any good. As local government you need to reduce inflation not increase it. As the government is adding 22 cents to the cost of petrol all roading cost should be passed the them.

Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No as it is financial crisis for everyone.

Homeowners to take insurance out.

**#4562**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

1. Homeowners to take insurance out.
2. No new rebuilds of flood prone areas.
3. Be mindful of infrastructure when approving new plans and development as there is only so much that infrastructure can hold.
4. Learn to say no to unnecessary expenses.
5. Be mindful of how your department spends money and keep accountable for the money.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Too much bus lanes but people not using busses as it doesn't suit their needs. Eg dropping kids at daycare and having to pick them up during the day when get called.

Cycle lanes not been used as planned again due to inconvenience.

Has the council asked public why they prefer cars as their transport? Shouldn't have to spend 3 hours catching 3 busses to get to work as this is affecting people's wellbeing.

Rail to airport plan how many people will actually use this?

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Cycle and bus lanes.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**#4562**

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Support

#4562

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

we have bad time, income in low and crime and uneasy situation. prices are high for the basic need of food, difficult to get jobs. Mabs running around abd no law can stop them. Many people asking for help, at intersections, and others cleaning windshield for cars. This is not reflecting the life in New Zealand. Many families migrated to Australia for better living conditions. Especially young men. To do any project we have to balance everything and try to help older people which they done their job for this land. Helping kids and taking care of them is priority #1. ## Hibiscus and Bays Local Board Priorities

7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?

More specifically, what do you think of each priority we've listed above?

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Fix Auckland first and then think of the Auckland future. There needs to be a better contingency plan than relying on investments. In such events it is often community organisations lending the hand. Your investment needs to go into these community groups that work FOR the community. They are the future of Auckland.

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Do not support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

Network optimisation

**2b. Is there anything you would spend less on?**

Less raised crossings and speed bumps

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I don't visit there.

I don't live on the North Shore.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>I don't know</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>I don't know</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>

Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We need far better support for SME businesses that are LOCALLY owned and operated within Auckland.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#4851**

There needs to be further continuous improvement within Council staff and consolidation of roles and responsibilities rather than overlapping of existing functions and roles.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Roading and construction works takes far too long. Look at the Takanini and Papakura works which have taken years to complete. These crews needs to be working around the clock to get this done and minimalise disruption and delays. Other countries do projects three times the size in half the time - we need more action and more accountability on these roading contractors who are clearly "milking the cow".

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

Stop making stupid speed bumps in key residential thoroughfares. All it does is create more congestion.

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

Sell the Stadium to private investors / companies. Let them develop it and the community will still have the benefits without massive Council overheads.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I've been in this local board for nearly 10 years and I have seen very little action to help small business owners to achieve better economic outcomes. SME is the backbone of the community and needs to be given some priority.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like the council to take a more targeted approach to tidying up the areas we live in. Make people responsible & take control of their space, and not leaving their rubbish everywhere! You have taken away bin pick up, and yet you install a scraps bin pick up which hardly anyone uses and costly to pick up and transport to process.

Follow up on works started and not finished. It’s okay to install green spaces, but you need to maintain them. I.e. amenities, toilets etc

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

The city is getting harder to get around with all the cycle ways and speed bumps, costing millions. People need to use their heads and look at what would be safe for them, not just impose ridiculous extras. To ask the question 'IF THIS WAS BEING TAKEN OUT OF MY BANK ACCOUNT, WOULD I THINK IT VALUE FOR MONEY?' Let's get real and held the spender accountable for the spend!

#4856

Supporting a community-led approach for the delivery of relevant and diverse services that connect the community	
Supporting environmental groups, community volunteers, and our diverse communities to carry out environmental restoration projects, including stream clean-ups, habitat improvement, native riparian planting, and pest control.	
Begin implementing the Mini Shoreline Adaptation Plan for the Little Shoal Bay / Te Wai Manawa alongside our community to address the issues caused by flooding and seawater inundation.	
Supporting a community climate activation programme to support and amplify community initiatives identified in the Kaipātiki Climate Action Plan.	
Building relationships with local iwi and mataawaka groups so that Kaipātiki is rich with Māori identity and culture.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	Support
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	Support
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	Do not support
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	Support
<p>Re-introduce <b>recycling charges for schools.</b></p>	Do not support
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	Support
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	Support

#4894

Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. <p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>I don't know</p>
<p>Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Do not support</p>
<p>Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.</p>	<p></p>

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would pay for more children lunch and investment for helping the future generation, the kids.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#5719**

Too many road works and adding anymore of those four lanes.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Auckland transports is good as is, would be really nice to be faster and more reliable

**2a. Is there anything you would spend more on?**

Foot paths needs work, they fix the road but never fix the foot path and crossing for the kids.

**2b. Is there anything you would spend less on?**

Road fixes and those horrible speed bumps that should be rubber and not concrete!  
That would damage peoples cars!

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

Wouldn't do no difference if you redevelop it and pay more for maintenance further down the line, it was just be more wasted money. I guarantee you won't be doing any service for the majority of the North Harbour community.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I think it shouldn't be leased, remain 100% ownership under POAL.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

I guess the Auckland Future Fund, but would be good for more transparency for their expenditure to the public.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Does the proposed LTP properly address and account for Auckland’s rapid population growth? Do we need investment in ‘new’ infrastructure and assets to accommodate the increasing population?

What is the specific reason or legal requirement that Council proposes to set its debt-to-revenue ratio limit at 270%, and set the long-term target of 250% by 2034?

What central government legislation or revenue arrangements of local government could / need be changed to help Auckland Council properly address its financial challenges? What could the strategy be to achieve this?

What aspects of the LTP clearly provides for Just Transition for both Council and all kaimahi across the Auckland region as it reduces carbon emissions and adapts more to adverse climate-related weather events?

What parts of the LTP proposal deal with sufficient investment to ensure there will be fair pay and good working conditions for council kaimahi over the long-term? Does the proposed operating expenditure in this area allow for proper ‘growth’ over the next 10 years?

Is it possible it to ‘trade-off’ services or activities that Council provides against other services or activities despite being highly interdependent areas? How would ‘doing less’ in one area impact other connected areas? (for example – water and environment, transport and economic & cultural development).

#5765

How might selling off Auckland Airport shares and the Ports of Auckland operations impact future direct income streams for the council? Would or could the proposed Future Fund outperform the expected return from direct dividends? What degree of control does council expect or need to have in a possible Ports operation lease?

What are the long-term implications of relinquishing ownership of public assets and services particularly those deemed strategically important to the community's economic, environmental, cultural, and social well-being? What are the risks and costs involved in privatising the Ports operations?

If the Future Fund was to go ahead - what investments should the Fund have or not have? Are there areas or industries that the Fund should not invest in? How realistic is to expect a sufficient return if there are significant rules and restrictions on what the Fund can invest in?

What is Auckland Council's fundamental purpose?

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do more
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Keep Libraries as a community space that is accessible for the community.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#5779**

Stop building more infill housing that creates current and future ghettos in Auckland - especially South Auckland. Housing, lets work towards housing and employing people in smaller towns beyond "Auckland" as a way to expand our communities.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

If we are dealing with 'environmental issues' Auckland then, we need to see transport as an efficient and reliable service. Currently, it is not efficient, and the cost is getting higher.

### **2a. Is there anything you would spend more on?**

Spend more on sustainable infrastructure that can benefit both the statistical populations - youth and elderly. The roads to work and schools are often congested.

### **2b. Is there anything you would spend less on?**

Cycle lanes are not as user-friendly in reality as most people work beyond their living environments and it's not a very safe transport mode beyond Auckland inner-city.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

Who does the stadium serve? What was the last event at the stadium?? I am told there are other venues that can be utilized by Auckland. Also, could the costs budgeted for the Stadium be more successful in a 'privatization' situation? Where are most of the Auckland major events happening? Why?

**#5779**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

This is the only international airport in New Zealand that organisations and work revolve around in a physical space or locality. Who determines the rights of Aucklanders towards the use of their domestic and international airports?? Have we learnt nothing from holding onto our existing shares???

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Have we not learnt from history? The environmental factor of Auckland belongs to the Auckland Council.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Find other investments, for Auckland Future Fund - this is being sold as a future growing fund pool - but where is the responsibility to our current stakeholders and Aucklanders who have funded or invested into the Ports?

**4d. Do you have any feedback on any other part of the proposal?**

#5779

**Tell us here:**

Future Fund is a great idea - but with the climate of Auckland's financial state - would we best like to look abroad or external to Auckland with the wealth it does have to invest towards??

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Aucklanders' money and initially, the idea of having a "public" benefit vs port benefit seems more favourable. Is the income from the ports significant now? In the future - what would the likelihood be for this to be reconsidered as a foreseeable profit

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

"Public" Benefit - that is still Auckland Council responsibility.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ### 4b. Which option do you prefer for the future of Port of Auckland?

**#5933**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Manage costs and lessen rates in the climate of a volatile cost of living

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Auckland Future Fund plans need a kick start

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Ōtara-Papatoetoe

## Ōtara-Papatoetoe Local Board Priorities

**7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?**

I do not support most priorities

**More specifically, what do you think of each priority we've listed above?**

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	Not Important
--	---------------

#5933

Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	Not Important
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	Not Important
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	Fairly Important
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	Fairly Important
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	Very Important

**Tell us why**

There is a focus here on initiatives that will not be sustainable without the ongoing funding provided by local Boards. It also suggests that our community do not know how to activate themselves and is very deficit to think we need BBQ get togethers?

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

**#5933**

It is important to review all priorities so they improve infrastructure and amenities for our local people and any other community initiative is one that can be self sustaining.

We could look at utilising services and spaces we currently have instead of creating new and additional spaces ie we have a perfect recreation centre that we are not making the most of to maximise community connect and involvement

**8. Do you have any other comments?**

No Thank you

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Not prepared to pay more to fund an ineffective, costly local government body. Cut the inefficiencies, cut the waste of spends. Do more ? That's a joke. We will only be paying more towards you to receive absolutely no changes.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6113**

Just cut inefficiency. As an example, when there is a road work going on on a nearby street, at least 6 people will be just standing or three people to manage one way traffic. Just cut inefficiency. Do not impose rate increases where everyone are already struggling with interest increases. Also do NOT change the rubbish collection from weekly to fortnightly. Who are the stupid people propose these kind of changes?

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Just no inefficiency. Do not increase rates Just to fund idiotic proposals

**2a. Is there anything you would spend more on?**

Fix pot holes across the region instead of idiotic cycle lanes no one uses

**2b. Is there anything you would spend less on?**

Cycle lanes, scrapping on street parking

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us here:**

No changes to the rubbish collections please. Can't imagine who would make these idiotic suggestions

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

No more council assets while you are struggling to maintain the existing assets

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Dear Auckland City Council,

I am writing to you as a member of the Auckland Rugby League community to express my support for the proposed increase in funding through the Sport and Recreation Facilities Investment Fund (SRFIF) as outlined in Auckland Council's Long-term Plan 2024-2034. This initiative holds enormous importance for the future trajectory of our beloved sport and the well-being of our communities.

As someone deeply rooted in Auckland Rugby League, I have witnessed firsthand the pivotal role our sport plays in fostering resilience, and a sense of belonging. It is with great pride that I have observed the remarkable growth in participation, particularly within the girls and women's segments. The surge in female involvement underscores the demand for inclusive facilities for all members of our community to engage in Rugby League.

However, with this increase in participation comes an urgent need for facilities that can adequately accommodate our expanding community of players. Access to well-equipped community clubrooms, female-specific changing facilities, sand-carpeted fields, and floodlit lighting is crucial in ensuring the safety and enjoyment of our participants.

The proposed increase in capital funding for sport and recreation through the SRFIF is a commendable step towards addressing the infrastructure gap that our sport currently faces. By directing resources towards facilities that cater to the diverse needs of our growing participant base, we can continue uphold Rugby League as a dynamic and inclusive sport accessible to all Aucklanders.

I wish to offer my appreciation to Auckland Council for its ongoing support of Rugby League within Auckland and I am confident that with together we can continue to positively impact the lives of our participants and enrich the sporting landscape of our city. Thank you for considering my perspective on this matter.

Warm regards,

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

Dear Auckland City Council,

I am writing to you as a member of the Auckland Rugby League community to express my support for the proposed increase in funding through the Sport and Recreation Facilities Investment Fund (SRFIF) as outlined in Auckland Council's Long-term Plan 2024-2034. This initiative holds enormous importance for the future trajectory of our beloved sport and the well-being of our communities.

As someone deeply rooted in Auckland Rugby League, I have witnessed firsthand the pivotal role our sport plays in fostering resilience, and a sense of belonging. It is with great pride that I have observed the remarkable growth in participation, particularly within the girls and women's segments. The surge in female involvement underscores the demand for inclusive facilities for all members of our community to engage in Rugby League.

However, with this increase in participation comes an urgent need for facilities that can adequately accommodate our expanding community of players. Access to well-equipped community clubrooms, female-specific changing facilities, sand-carpeted fields, and floodlit lighting is crucial in ensuring the safety and enjoyment of our participants.

The proposed increase in capital funding for sport and recreation through the SRFIF is a commendable step towards addressing the infrastructure gap that our sport currently faces. By directing resources towards facilities that cater to the diverse needs of our growing participant base, we can continue uphold Rugby League as a dynamic and inclusive sport accessible to all Aucklanders.

I wish to offer my appreciation to Auckland Council for its ongoing support of Rugby League within Auckland and I am confident that with together we can continue to positively impact the lives of our participants and enrich the sporting landscape of our city. Thank you for considering my perspective on this matter.

Warm regards,  
[Your Name]

#6372

Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	

**Tell us why**

Increase community services for ethnic women and seniors

Continue to use it to fund council services

**Tell us here:**

Keeps the council more in control of it.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

We don't want to sell any business's or land to overseas, it belongs to the people of Aotearoa.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Big changes cost money and I don't think it is affordable now.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Dear Auckland City Council,

I am writing to you as a member of the Auckland Rugby League community to express my support for the proposed increase in funding through the Sport and Recreation Facilities Investment Fund (SRFIF) as outlined in Auckland Council's Long-term Plan 2024-2034. This initiative holds enormous importance for the future trajectory of our beloved sport and the well-being of our communities.

As someone deeply rooted in Auckland Rugby League, I have witnessed firsthand the pivotal role our sport plays in fostering resilience, and a sense of belonging. It is with great pride that I have observed the remarkable growth in participation, particularly within the girls and women's segments. The surge in female involvement underscores the demand for inclusive facilities for all members of our community to engage in Rugby League.

However, with this increase in participation comes an urgent need for facilities that can adequately accommodate our expanding community of players. Access to well-equipped community clubrooms, female-specific changing facilities, sand-carpeted fields, and floodlit lighting is crucial in ensuring the safety and enjoyment of our participants.

The proposed increase in capital funding for sport and recreation through the SRFIF is a commendable step towards addressing the infrastructure gap that our sport currently faces. By directing resources towards facilities that cater to the diverse needs of our growing participant base, we can continue uphold Rugby League as a dynamic and inclusive sport accessible to all Aucklanders.

I wish to offer my appreciation to Auckland Council for its ongoing support of Rugby League within Auckland and I am confident that with together we can continue to positively impact the lives of our participants and enrich the sporting landscape of our city. Thank you for considering my perspective on this matter.

Warm regards,  
[Your Name]

Dear Auckland City Council,

I am writing to you as a member of the Auckland Rugby League community to express my support for the proposed increase in funding through the Sport and Recreation Facilities Investment Fund (SRFIF) as outlined in Auckland Council’s Long-term Plan 2024-2034. This initiative holds enormous importance for the future trajectory of our beloved sport and the well-being of our communities.

It is with great pride that I have observed the remarkable growth in participation, particularly within the girls and women's segments. The surge in female involvement underscores the demand for inclusive facilities for all members of our community to engage in Rugby League.

However, with this increase in participation comes an urgent need for facilities that can adequately accommodate our expanding community of players. Access to well-equipped community clubrooms, female-specific changing facilities, sand-carpeted

By directing resources towards facilities that cater to the diverse needs of our growing participant base, we can continue uphold Rugby League as a dynamic and inclusive sport accessible to all Aucklanders.

I wish to offer my appreciation to Auckland Council for its ongoing support of Rugby League within Auckland and I am confident that with together we can continue to positively impact the lives of our participants and enrich the sporting landscape of our city. Thank you for considering my perspective on this matter.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like the council to put more effort towards putting extra lighting on streets, as our street only has lighting on one side, to help add security for our houses and vehicles.

People with large properties should be given a monetary incentive to build extra accomodation on the back of their sections. However, this cost needs to be cheaper as

**#6620**

the building consents are too expensive and they are less inclined to build at the back of their sections. This will help increase rental properties for the community.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less roadworks that seem to take years to complete.

Less street sweeps

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

The transport plan has constantly given us issues with the trains and busses being unreliable for those that use them everyday. We especially see how unreliable they are after major big events in Auckland, which these proposal doesn't highlight.

**2a. Is there anything you would spend more on?**

I would spend more on keeping public transport promoted for big major events so people feel more inclined to use it, putting less pressure on our roads and motorways

**2b. Is there anything you would spend less on?**

I would spend less on bus lanes.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

I would change the operational management because the current management is not making any profit because their costs are too high.

**#6620**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Proceed with this proposal as the different operations can bring in great investments.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

This option allows for more investments.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Investing in the proposed Auckland fund will be more beneficial because the council will have a more diversified portfolio with things like the Port as one of the main industries.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#6620

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

This will bring more public attraction to the port, as well as another area to be built into a residential site. Turning it into an area for the public will bring more attraction to Auckland city.

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

This will lessen the pressure of having to use truck or rail systems which are already very busy

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

Ōtara-Papatoetoe

## Ōtara-Papatoetoe Local Board Priorities

7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	Very Important
Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	Very Important
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	Very Important
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	Very Important

#6620

Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	Very Important
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	Very Important

**Tell us why**

I support these proposals as it all works towards building a safer community.

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

I think this will help to build a safer community, whilst supporting small businesses

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would definitely pay for better funding for teachers because not only is their pay insufficient but because students don’t need teachers who aren’t committed to doing their jobs properly. I would also pay for better mental health systems & better drug rehabilitations especially for minorities. They are constantly overlooked.

**#6667**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Stop raising gas prices & making groceries so expensive.. I know it's not that simple but that's what I would suggest doing less of. Everything is too expensive and they're worried about gang members & their patches. Of course, criminal activity is an issue but it goes hand in hand with poverty. When basic living necessities become unaffordable, people do anything to get by and that often includes breaking the law.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

I don't support the proposal at all because I think the RFT was already in the works, working towards an integrated transport plan for Auckland. Pulling the funding for the RFT and presenting that new proposal only wastes everyone's time and money.

**2a. Is there anything you would spend more on?**

Not for that proposal, no. I would in fact spend nothing on it if I could.

**2b. Is there anything you would spend less on?**

I would spend less on funding that proposal.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Ensuring greater use of the stadium by all communities sounds like the better option to me.

**#6667**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The proposal says "May be", "Might", "Almost certain"- So, it's not confirmed.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Investing into the Auckland Future Fund would require even higher rate increases and even more cuts to council services than continuing with council group operations of the port.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

To be honest, I do not know enough information to have any feedback.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#6667

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Transferring the wharves to the council sounds like a waste of time and money. There are more pressing matters that the council need to invest in for public benefit; Such as better public transport, climate change, housing issues, etc...

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Pretty much the same reason as the answer above.

**6a. What do you think of these proposals?**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less event, prioritise roadings, delay cycleway as it only create congestion.

**#7272**

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

It is a good plan, but will it happen? How's the efficiency of the funds? Every project's costs ballooning and none being held accountable. Problem is, will Council ever deliver on their promises?

### 2a. Is there anything you would spend more on?

Railway instead of bus.

### 2b. Is there anything you would spend less on?

Cycleways.

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

Make more money out of it.

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

It seems we are setting to shoot our own foot in the future.

**#7272**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Easy, either way rates will be increase every year. Poal may not deliver huge upfront fund, but at least it is giving it shares of profit every year. Something we can lean on every time.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I can only see the future fund will only go as far, who can guarrante next mayor or council will not willy nilly change the law and rules to access that fund.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

That part of the wharves can still be used by public eventhough any cruise ship docks.

#7272

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Bledisloe will be an easy money making machine for roll on roll off car shipment.

**6a. What do you think of these proposals?**

7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?

I support most priorities

#7272

More specifically, what do you think of each priority we've listed above?

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	Fairly Important
Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	Not Important
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	Fairly Important
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	Very Important
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	Not Important
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	Very Important

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

I don’t know

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Make transport around all of Auckland easier and cheaper. Currently NZ is very much a car country, you need to have a car to be able to travel north to south, east to west easily. Better more convenient transport options.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7335**

Cycle lanes are not fit for purpose here, it's a small minority that really use these lanes. It causes more anxiety that necessary for drivers, cyclists and pedestrians. It takes away from valuable road space..

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Public transport in NZ is very much in it's infancy compared to cities like Hong Kong who's MTR system is the lifeline for many and has great coverage of the city.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

NO MORE CYCLE LANES. .

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

It's not really a suitable stadium for many events.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Generate more funds so rate payers pay less, more money for living costs

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Support environmental and cultural restoration programmes in partnership with Iwi including Te Kete Rukuruku (place naming) and Te Korowai Papatuuuanuku (environmental restoration).	Fairly Important
Develop “Franklin Community Occupancy Guidelines” to inform decisions on council-owned facility leases, including leasing charges.	Very Important
Find ways to reduce Franklin’s maintenance costs e.g. by replacing lawn with eco-sourced native trees and reducing or relocating public rubbish bins.	Fairly Important
Progress the development and delivery of the Franklin Paths Programme.	Fairly Important
Deliver a refreshed approach to enabling young people in Franklin to access services and participate in their communities.	Fairly Important
Progress a Pukekohe Cemetery memorial project that acknowledges the unmarked graves at the site.	Fairly Important

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Water pipelines and transport network improvements.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7585**

Pool, recreation and gyms should be cut to the minimum. You should be making a profit from these recreational facilities. If they cannot sustain themselves with the profits, then close them down.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Auckland transport is the worse in the world considering it's in a developed country.

**2a. Is there anything you would spend more on?**

Water and transport.

**2b. Is there anything you would spend less on?**

Anything to do with recreation.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Big developments cost money and you have spent all your money on water and transportation. You don't have any more to spend. Where are you getting the money from?

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

There are too many vape shops and liquor stores around. In the Dawson shops area there are 5 alcohol outlets in the small block of shops including the supermarket. That is an open invitation for youth, alcoholics, and abusers (physical and mentally) easy

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

Sustainability for nature and the environment as we are now becoming a housing crisis with huge apartment blocks. Beginning to look a bit like Asia which is not so nice.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Bike lanes.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#7984**

Less advocacy, community groups, and roads that do not also deliver separate and protected bike lanes. Less buses where the demand is essentially very low, and where transport needs can be met by paying Uber or a taxi for less money.

## **2. What do you think of the transport proposal?**

Support all of the proposal

### **Tell us why:**

There is no way Auckland gets out of the transport mess without people having more real options. Buses need to be faster than cars.

### **2a. Is there anything you would spend more on?**

More on raised pedestrian crossings and cycleways.

Also Policing of dynamic lanes and bus lanes. They are widely ignored.

### **2b. Is there anything you would spend less on?**

Afraid these "easier to pay" transport passes will be very expensive IT projects, at the cost of more urgent things like separate bus lanes, cycle lanes and frequency.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

Selling scarce land can be a good option.

**Tell us here:**

Sell this thing off. It's unsafe, doesn't deliver, and being a political football doesn't help any entity.

Auckland needs a port. And a bigger one. There's no big city in this world without a port. But the port needs to be taken off Auckland Council's hands.

**Tell us why**

If we talk about council waste, this is the exact example. The typical left wing love fest spraying ratepayer money on groups that support them. Cancel everything. If people want this, these groups can go directly to the public for money.

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

**#7984**

I'm not stupid enough to read any of it, as no doubt it'll be an enormous waste of money. Are they going to build even one separate cycle lane? It's a car dominated place, and for good reasons, as the alternatives are just unsafe.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

The Council need to review some of the transport projects and see if goal can be achieved more cheaply. An example is the east busway to the Airport. I hope that the expensive option of putting an expensive overbridge over the Puhinui train Station

**#8109**

didn't get passed to allow electric buses to go over the tracks- there are bus lanes on Puhinui Road already except for a small section near Bridge street and for the small delays that may occur at peak hour doesn't justify the cost of the overbridge.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I am a user of the public transport system (trains and buses) however it is unreliable so there needs to be ways of improving the public transport network so its fast and reliable and also operates late at night so still an option to use if you go out in the evening

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

I would not necessarily spend less on however recommend that Kiwirail is kept to account not only on cost blowouts but also timeliness of delivery of the projects. They tend to go cheap but then end up having to redo the work all over again e.g. the tracks as used inferior product

## 3. Which options do you support for the North Harbour Stadium?

I don't know

Proceed with the proposal

**#8109**

**Tell us why:**

The council needs income ongoing to meet its obligations regarding projects, upkeep of services and anything that can be done to protect its income stream that doesn't rely just on ratepayers is necessary

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

If POAL can be leased as long as the leasee is responsible to keep upkeep of the Port Area with option that Council at end of lease can have it returned to Auckland Council if appropriate then its win/win

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

Generally good however one thing that concerns me is that Old Papapoetoe is losing its history with new builds(I understand that people need housing however there is too many infill high density housing being built on land that was once occupied by 1 dwelling and the services such as the water, sewer, electricity are having difficulty coping with the extra demand.) Its a shame when old buildings are pulled down for modern- surely as part of urban regeneration the character can be kept even if the buildings are repurposed

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I support further investment into a surface light rail rapid transit network starting with a route from the City Centre to Mt Roskill, and then further expansion to Onehunga, Māngere, Puhinui and other transport corridors such as the North-Western and Northern corridor. Any busway development along the North-Western corridor should

**#8277**

be future-proofed for surface light rail upgrades. Consistent work over the last decade, reflected in Auckland Transport's Auckland Rapid Transit Pathway 2023 report, has shown that to effectively address Auckland's congestion issues we cannot rely solely on a bus network. The busiest bus corridors in our city are already reaching capacity, and the long-term plan should reflect that reality.

Additionally, I support Auckland controlling its own transport priorities. An "Auckland Deal" provides the means for central government to support Auckland Council's priorities, rather than the other way around. A surface light rail network would provide opportunities for growth, development, and productivity in the city. I believe this should be included in the "Auckland Deal" with central government. I urge Auckland Council and the Mayor to make the development of a surface light rail network, starting with the City Centre to Mt Roskill line, a priority in such a deal.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Feedback guide

The long term plan covers a wide variety of topics and we encourage everyone to read it through and give feedback. For Surface Light Rail, there are only a few key questions we would like you to comment on to give support to a surface light rail network.

The following document shows parts of the wider consultation document that are related to Surface Light Rail including what is anticipated for each level of council services/investment (ie Do less pay less, Central proposal, Do more pay more).

We have examples that cover key points for what we are working for but feel free to add in additional information, or context about how transport issues affect you, and why you support surface light rail in Auckland. Feel free to copy and paste, or reword to suit your preferences.

## SLR's Key LTP Info

### Overall Direction for Long-Term Plan - Question 1

1a. Which option do you prefer for the overall direction for council's Long-term Plan

While this is primarily personal preference we would recommend putting "Do more" or "Other".

1b. What would you like Auckland Council to do more or less of?

We would recommend putting "Do more" for transport

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I support further investment into a surface light rail rapid transit network starting with a route from the City Centre to Mt Roskill, and then further expansion to Onehunga, Māngere and other transport corridors such as the North-Western and Northern corridor. Any busway development along the North-Western corridor should be future-proofed for surface light rail upgrades. Consistent work over the last decade, reflected in Auckland Transport's Auckland Rapid Transit Pathway 2023 report, has shown that to effectively address Auckland's congestion issues we cannot rely solely on a bus network. The busiest bus corridors in our city are already reaching capacity, and the long-term plan should reflect that reality.

Additionally, I support Auckland controlling its own transport priorities. An "Auckland Deal" provides the means for central government to support Auckland Council's priorities, rather than the other way around. A surface light rail network would provide opportunities for growth, development, and productivity in the city. I believe this should be included in the "Auckland Deal" with central government. I urge Auckland Council and the Mayor to make the development of a surface light rail network, starting with the City Centre to Mt Roskill line, a priority in such a deal.

(Feel free to add how congestion impacts you, as well as why you support surface light rail)

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

This question is personal preference.

### Transport - Question 2

2. What do you think of the transport proposal?

While this question is personal preference we would recommend only putting a maximum support level of "Support most of the proposals"

**#8277**

Tell us why:

I do not fully support this plan as it does not include investment and commitment to a surface light rail rapid transit network. Any work on a busway in the North-Western corridor should be future proofed for surface light rail and there should be commitment to surface light rail along the City Centre to Mangere corridor, starting with a City Centre to Mt Roskill line. I worry without this we will not be able to address Auckland's congestion issues as projected growth in these corridors would require higher capacity transport modes such as surface light rail.

### **2a. Is there anything you would spend more on?**

I want to see Auckland Council spending more to develop a surface light rail network, with a City Centre to Mt Roskill line constructed as a priority. There has been significant design work done by Auckland Transport and Waka Kotahi on surface light rail pre-2019. Adopting these plans will allow any work to be fast tracked with only minor updates and improvements needed. From this stage I would support expansion of surface light rail, such as what is proposed in Auckland Transport's Auckland Rapid Transit Pathway 2023 report. The line should be expanded to Onehunga and Mangere, Puhinui and eventually to other transport corridors such as the North-Western or Northern corridors, upgrading any busway infrastructure. Staging the development of the network in this way ensures it remains affordable for Aucklanders and is practical to build.

Congestion is a major issue in our city that costs Aucklanders time and money. It restricts our growth and potential. Consistent work done over the last decade has shown that we cannot only rely on our bus network in our busiest corridors in order to address our cities transport issues. Surface light rail provides a higher capacity solution that is affordable, deliverable, environmentally friendly, and will connect communities in Auckland. It provides a plethora of economic benefits that will create jobs and help businesses while improving our streetscapes to make our city a better place to live.

Surface rail can embark and disembark more passengers than busses in the same timeframe, carry more passengers and take up no more space on the roads. An eventual comprehensive surface rail network will move more people than buses, reduce traffic which then means value add transport can move unimpeded.

### **2b. Is there anything you would spend less on?**

**#8277**

No, We need more Rapid Transit and mode shift investment to build a comprehensive network that actually functions. We need to entice people away from cars, myself included, you wont entice me if you spend less on transport.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Better suited for the community.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

The council cannot continue to just hike rates for perpetuity, it needs its own income streams to do the brunt of the heavy lifting for capex and Public Transport costs.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

City and Local Development

I support a surface light rail network as it provides the opportunity to regenerate urban centres and enables development through a higher capacity transport system.

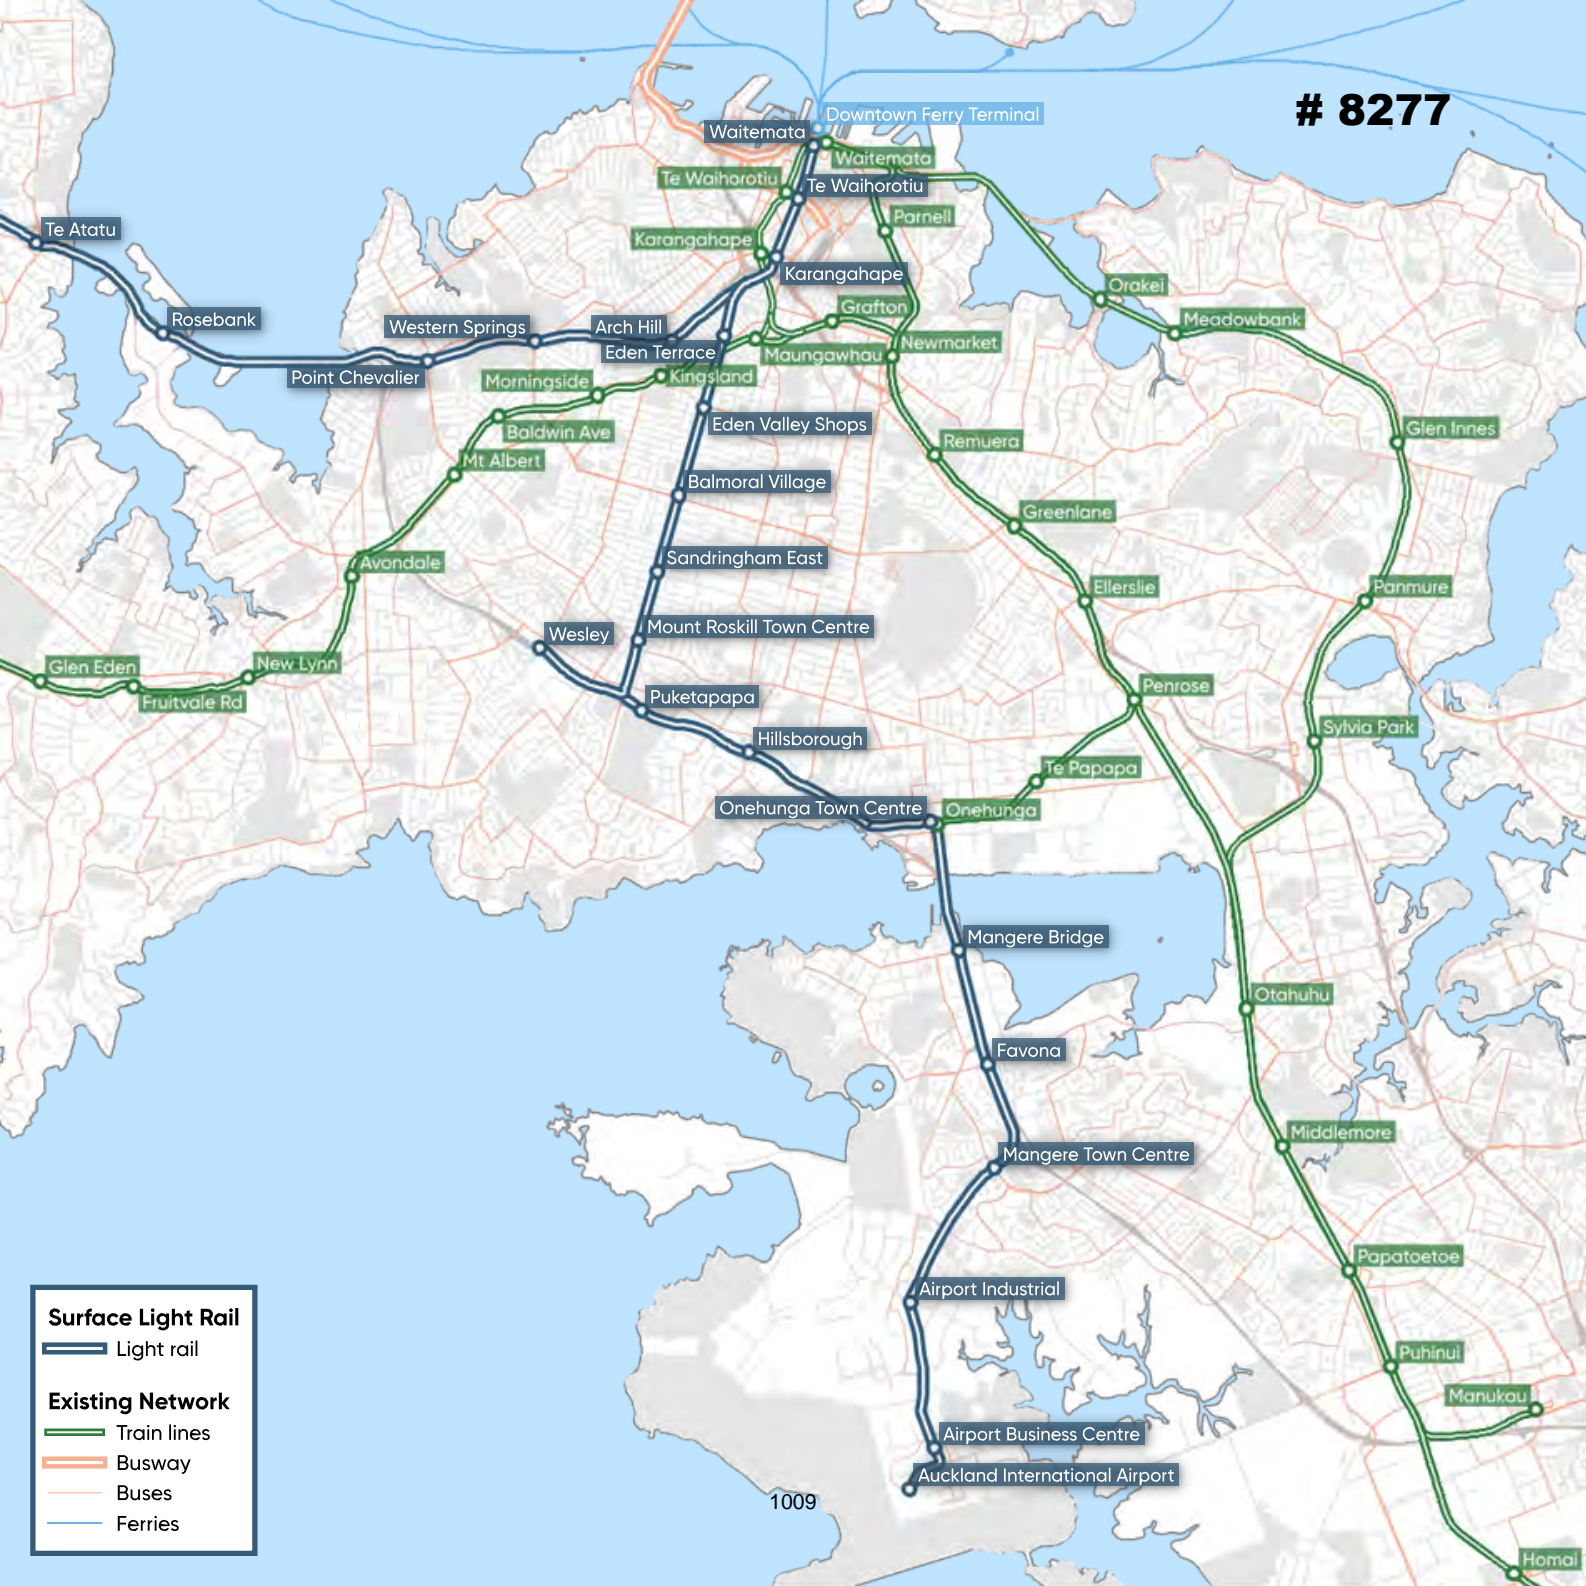

Environment and Regulation

I support a surface light rail network as it reduces transport emissions and pollution in Auckland, creating a cleaner city for all.

Economic and Cultural Development

I support a surface light rail network as it facilitates economic growth through an efficient and accessible transport system. This enables more people to reach businesses and commercial areas to support and grow Auckland's economy

### 2. What do you think of the transport proposal?

Support most of the proposal

**Tell us why:**

I do not support less spending on cycleways, which are critical to delivering safer ways to reduce congestion. They should be built more efficiently and more quickly, currently there is too much waste on landscaping.

**2a. Is there anything you would spend more on?**

Cycleways

**2b. Is there anything you would spend less on?**

Trains and bus networks are both very inefficient, and with lots more spending have only gotten worse. They could do a lot more with a lot less money.

Roadworks

**#8896**

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Public Transportation in New Zealand compared to other countries is very poor, I've come across many foreigners who have mentioned this yet we have a beautiful and most parts untouched and yet we cannot fully provide proper services to show everyone what makes New Zealand beautiful more public services available may reduce road accidents as a large percentage is caused by overseas visitors, also this can be less stressful for New Zealanders who use it on a daily basis to and from work.

### 2a. Is there anything you would spend more on?

Small businesses that help the communities.

### 2b. Is there anything you would spend less on?

Roadworks, how many times does it take to fix any one road when we can't get it right the first time.

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

Our country is a lot more diverse, with multiple cultures that now make New Zealand us as the community should be able to use the facility which will draw more crowds to events and also profits.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	

#9057

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>

businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

**7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?**

I support all priorities

**More specifically, what do you think of each priority we've listed above?**

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	
Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	
Increase youth empowerment through supporting leadership and training	

#9197

programmes as well as prioritising youth engagement.	
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	
Explore options for ways of delivering increased local economic outcomes for small to large businesses.

Refuse collection

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce bureaucracy

**#9202**

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

The contractors used by council do not do a good job, potholes for days especially in South Auckland. Public transport in Auckland is 3rd world and we don't have enough ratepayers to shoulder the cost to improve this.

### 2a. Is there anything you would spend more on?

### 2b. Is there anything you would spend less on?

Green practices that are not sustainable on the back pocket eg. Cycleways that a handful of commuters use each day.

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

Partial shares for sale is ok but once we privatise the majority of our assets we're doomed to lose control and future funding.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Keep our parks clean and more safe to walk our dogs, also help homeless people who need it the most, keep our water clean with no land waste contaminating/sewage lines, better water flow.

**#9303**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Lower the cost of land rates and water rates.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

There is still a lot of info needed for more understanding.

**2a. Is there anything you would spend more on?**

More funding on emergency lanes to get through traffic, in case of any accidents, transport vehicles, more parking spaces.

**2b. Is there anything you would spend less on?**

I would spend less on fuel.

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

North Shore is not only considered Auckland, if the stadium is going to hold future events, concerts etc. then communities from all around Auckland can come together and help where needed, more funding for sports events, also kids involvement.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Confused on the two, ports of Auckland and Auckland Airport, need more understanding..

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

leave it with the people in that community and not change anything.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

more funding into imports and exports, have more control over what comes in and out of Auckland.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

more public parking, less pay parking, less tow away areas.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

#9303

Leave it as it is for the operational/people who know and are experienced to operate, have people support them in more funding, for tourist attractions etc

**5b. What option do you prefer for Bledisloe Terminal?**

I don't know

**Tell us why:**

I don't know, have no knowledge of the terminal, but my opinion is best to leave with ports of Auckland.

## Ōtara-Papatoetoe Local Board Priorities

7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

<p>Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.</p>	
<p>Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.</p>	
<p>Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.</p>	

#9333

<p>Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.</p>	
<p>Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.</p>	
<p>Explore options for ways of delivering increased local economic outcomes for small to large businesses.</p>

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>

Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like Auckland Council to do more of keeping parks tidy and clean for younger kids to play on as well as families being able to feel safe letting their kids run around.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I would recommend that Auckland council does less on all road works around all areas of Auckland, that cause traffic and build ups.

## 2. What do you think of the transport proposal?

I don't know

### Tell us why:

I'm not sure.

### 2a. Is there anything you would spend more on?

I would spend more on transport fees for students and workers that work far from where they live.

### 2b. Is there anything you would spend less on?

I'm not sure.

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

Because I don't have a complete understanding of this.

I'm not sure how to answer this question.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

I'm a bit young to understand the options for the future of port of Auckland.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No feedback.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

I'd say leave the captain cook and Marsden wharves and focus on bigger needs, (such as water supply).

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#9669

**Tell us why:**

I'd recommend leaving Bledisloe terminal and again focus on bigger needs.

I do not support most priorities

**More specifically, what do you think of each priority we've listed above?**

#9669

<p>Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.</p>	
<p>Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.</p>	
<p>Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.</p>	
<p>Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.</p>	
<p>Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.</p>	
<p>Explore options for ways of delivering increased local economic outcomes for small to large businesses.</p>

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>

7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	Very Important
Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	Not Important
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	Fairly Important

#9814

Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	Fairly Important
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	Not Important
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	Fairly Important

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More services and funding to help our elderly and the homeless who really need it. Only some communities are doing more paying out of their own pockets to provide these services, but not other communities/suburbs do as they don't get much funding from Auckland council.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9841**

Less road works, some are necessary, but some aren't. Also, the increase of gas, not too sure if Auckland council controls that but yeah.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

I'm not to sure on the Auckland Transport Proposal as need more understanding on the proposal as I agree with some of the proposal but also question other parts of it.

### **2a. Is there anything you would spend more on?**

I would spend more on or to the council to build/create an emergency lane that helps all emergency service vehicles get to where they need to without being stuck in traffic especially on the motorway.

### **2b. Is there anything you would spend less on?**

Creating/build more road tolls now and in future.

## **3. Which options do you support for the North Harbour Stadium?**

Other

### **Tell us why:**

If you redevelop the stadium, will it also better the needs of all Auckland communities or just North Shore?

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**#9841**

**Tell us why:**

Confused about how the two relate. Ports of Auckland and Auckland Airport. I need more understanding.

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

Not too sure, need a better understanding of the port and future fund investment. BWEST PEOPLE ask are those who currently work in those fields.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

it's honestly best to use profits/dividends to help improve and better the services of ports of Auckland if that makes sense.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

not at this stage

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Other

**Tell us why:**

unsure to be honest as this question is better answered by people that work at the ports.

#9841

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Would keep it the same where ports use the space to bring more thing into and out of Auckland but the again this question is better to be answered by ports of Auckland workers as they will know what they need.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improved amenities for central south auckland. We don’t have natural amenities like beaches and the parks are quite poorly maintained so the areas could really do with improved amenities to keep people out of trouble.

**#9850**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Local wards giving all their money to random church groups and low value grants.

7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	Not Important
Support activities to increase social cohesion, neighbourly connections, better	Not Important

#9850

outreach to people from smaller ethnic groups and connect newer settlers to local services.	
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	Not Important
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	Not Important
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	Not Important
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	Fairly Important

**Tell us why**

Most citizens in the local board area especially the Papatoetoe & Old Papatoetoe area are not benefiting from this. There is a severe lack of amenities and things to do in our area and the limited ones we do have like Kohuora park has fallen into total di

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

There is no obligation from these priorities for the local ward to actually do anything.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#10542**

Support most of the proposal

**Tell us why:**

Definitely our public transport system needs an overhaul of some sort. That makes it reliable and not prone to breakdowns (trains) Auckland traffic is so bad and especially when crashes happen. Not sure about stopping those raised pedestrians especially on busy roads would be needed.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

redeveloping to hold more events for more potential income and overseas interest.  
make the stadium for the community as well to help garner more support

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

Still undecided as to auckland council losing shares of airport yet.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#10542**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Events such as music and movies in parks, lantern festival, etc (& all support functions in council organising these)

**#10715**

Stop all the speed bumps, traffic cones, and reduced speed limits

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

There is an over-supply of public transport - most buses and trains running less than 20% of capacity. No more is needed.

Support stopping initiatives listed to be stopped.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

Public transport

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Last thing we need is yet another poorly functioning, overstaffed council controlled organisation (that's out of control).0

**#10715**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

are willing to and capable of delivering social, environmental, cultural and economic outcomes in line with the local board plan and support to these organisations to deliver.	
Support environmental and cultural restoration programmes in partnership with Iwi including Te Kete Rukuruku (place naming) and Te Korowai Papatuaanuku (environmental restoration).	
Develop “Franklin Community Occupancy Guidelines” to inform decisions on council-owned facility leases, including leasing charges.	
Find ways to reduce Franklin’s maintenance costs e.g. by replacing lawn with eco-sourced native trees and reducing or relocating public rubbish bins.	
Progress the development and delivery of the Franklin Paths Programme.	
Deliver a refreshed approach to enabling young people in Franklin to access services and participate in their communities.	
Progress a Pukekohe Cemetery memorial project that acknowledges the unmarked graves at the site.

Do not support most of the proposal

**Tell us why:**

Do not proceed with more cycleways. Do not proceed with Airport to Botany rapid transport project stages 3 & 4.

Cease production of all raised Pedestrian crossings. Total waste of money.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management,Other

**Tell us why:**

Operational management change at Eden Park has already shown us that by thinking outside the square, it is making money. Council has too many control freaks with their own agenda spending all their time tightening Resource Management and consents process's, ultimately to strangle any progress.

**#11035**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

There will never be a "Auckland Future Fund". Council will syphon off or divert money by stealth, the same way they have diverted all the extra Auckland fuel tax, putting it into something that it was never intended for . I do not trust them as a whole.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Stop continual stripping of assets.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.	Support

#11035

We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. **6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

I live in a apartment complex in Papatoetoe, which is 10 yrs old. We contract a private contractor to access our property to pick up our rubbish. Auckland Council has for the 10 years charged we individual ratepayers, of which there are 42 owners paying rates. They have refused to deduct Waste and recycling collection services for our rates.

7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	Fairly Important
Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	Fairly Important
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	Very Important
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	Not Important
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	Not Important

#11035

Explore options for ways of delivering increased local economic outcomes for small to large businesses.	Very Important

**Tell us why**

Auckland Council has already spent large amounts of money on Playgrounds within the local board, we don't need any more, they just need to be maintained. South Auckland is definitely at the bottom of Auckland Council priorities.

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

I don't believe it for one moment. Since becoming the 'Super City Auckland council, it is very apparent to everyone that we are the poor cousins and being treated as such.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).

Discontinue the **Long Term Differential Strategy** which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.

Introduce the **Franklin Local Board Paths Targeted Rate** of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

Change the **Rodney Drainage Districts Targeted Rate** to reflect public feedback and updated analysis of the benefits to properties and boundaries.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I agree with stopping all previously planned raised pedestrian crossings and cycle ways.

**2a. Is there anything you would spend more on?**

Road maintenance (fixing pot holes properly)

**2b. Is there anything you would spend less on?**

Amount of traffic management people needed at a project, cycle lanes.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

**Tell us why:**

Adding a recreation that could be used by all and be used for lots of different sports codes.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Why would we sell something that is a major infrastructure in Mangere and Auckland.

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

We already have a space that can be used by the community down by the Port (The Cloud).

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

I agree with the proposed priorities.

**8. Do you have any other comments?**

I want to express my support for the proposed increase in funding through the Sport and Recreation Facilities Investment Fund (SRFIF) as outlined in Auckland Council's Long-term Plan 2024-2034. This initiative holds enormous importance for the future of our sport and the well-being of our communities.

I have seen firsthand the role sport plays in enhancing resilience, and a sense of belonging. The growth in female involvement shows the demand for inclusive facilities for all members of our community to engage in Rugby League.

However, with this increase in participation comes an urgent need for facilities that can adequately accommodate our expanding community of players. Access to well-equipped community clubrooms, female-specific changing facilities, sand-carpeted fields, and floodlit lighting is crucial in ensuring the safety and enjoyment of our participants.

The proposed increase in capital funding for sport and recreation through the SRFIF is a commendable step towards addressing the infrastructure gap that our sport currently faces. By directing resources towards facilities that cater to the diverse needs of our growing participant base, we can continue uphold Rugby League as a dynamic and inclusive sport accessible to all Aucklanders.

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

I would Council to fund Polyfest which is one of the greatest forms of art and cultural expression of our young people.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

**6a. What do you think of these proposals?**

## Local board priorities

**7a. Which local board area does your feedback relate to?**

Māngere-Ōtāhuhu, Ōtara-Papatoetoe

## Māngere-Ōtāhuhu Local Board Priorities

**7b. What do you think of our proposed priorities for Māngere-Ōtāhuhu in 2024/2025?**

Very Important

**More specifically, what do you think of each priority we've listed above?**

Strengthen partnerships with local mana whenua through project delivery, including Te Kete Rukuruku, completion of David Lange Park playground and improvements.	Fairly Important
Deliver community climate initiatives such as Low Carbon Lifestyles, and Māngere Bike Hub with our community partners.	Very Important
Deliver a community-driven safety action plan aimed at tackling anti-social behaviour	Very Important

**Ōtara-Papatoetoe Local Board Priorities**

**7b. What do you think of our proposed priorities for Ōtara-Papatoetoe in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	Very Important
Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	Not Important

#11502

Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	Very Important
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	Very Important
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	Fairly Important
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	Not Important

**Tell us why**

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

I don't think rubbish is being recycled in the south Auckland area via the rubbish collections. Where is the recycling plant that does the recycling out these ways.

#11705

Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	
Explore options for ways of delivering increased local economic outcomes for small to large businesses.	

**Tell us why**

**7c. What do you think of the Ōtara-Papatoetoe proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

To promote appropriate languages so every community will understand about the councils plan. To fund ethnic communities so they can preserve their cultural identity by doing different activities.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Take steps to ensure that those communities in greatest need are protected and prioritised

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#11743**

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

I hope the proposal can be realized – commuters need a more reliable, safe transport system

### 2a. Is there anything you would spend more on?

Driver training – update and monitor to maximise passenger safety - no mobile phones when driving and increased passenger safety

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

### Tell us why:

Stadium serves its purpose well as it is but would be improved by changing operational management

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

I believe greater benefit to Auckland Council and Communities will result from retaining Council ownership of AIAL shares

**#11743**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I believe greater benefit to Auckland Council and Communities will result from retaining Council ownership of port land and wharves and the continuation of council group operation

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Continuing to fund Council Services is the most practical option and would produce the greater benefit to all

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

It would be beneficial if the Port was not always so congested and greater care taken with care of the waterways

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

More effective management under Port Operations

#11743

5b. What option do you prefer for Bledisloe Terminal?

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

More effective management under Port Operations

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>

programmes as well as prioritising youth engagement.	
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	
Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	
Explore options for ways of delivering increased local economic outcomes for small to large businesses.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor’s proposed Long-Term Plan (10-Year Budget).

**#11900**

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

Address the madness in Auckland traffic. I enter the motorway ramp in opposite direction as you DON'T UNDERSTAND WHAT GOING ON. This waste of money in cones all over the place are not only a waste of taxpayer money but a major cause of accidents, and distress to everyone. Those waste of money needs to be used to fix roads not make our life difficult and cause more problems than it actually prevent.

Those bumpers, change of speed limit, proposal to introduce bilingual signage shows how little consideration Council have for tax payer money.

The people who improved and implemented bike lanes in places that was clearly a waste of money should be let go. This was clearly a waste of billions of dollars from tax payer money that you choose to go ahead regardless of public intervention. I kept on writing as I'm in Auckland traffic for ours in most parts of Auckland. I kept on trying to

**#11900**

get sense in the way Council waste our money, bad planning, lack of consideration for people's daily life and simply TOO MANY BAD CHOICES THAT OF COURSE WILL ADD EXTRA COST. YOU ARE NOT DOING WHAT NEED IT TO HELP AND BUILD THE CITY. BUT INSTEAD TO IMPLEMENT WITH TREMENDOUS AMOUNT OF MONEY FUTURISTIC PROJECTS THAT HAVE NO REAL BENEFIT TO OUR LIFE. MAKE IT EASIER TO MOVE IN Auckland, live in Auckland, or enjoy Auckland. Council plans have destroy city central area. You are doing so much harm that you can't justify your huge salaries. Look at the mess in this city.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Yes reduce All waste. Not salary increases for high earner. They have choose so poorly that Auckland is in a mess. NONE OF YOU SHOULD GIVE YOURSELF A RAISE FOR THE MESS YOU HAVE CREATED.

STOP THE ORANGE CONE MADNESS. NO MORE TAXI, LUNCHES. KEEP ONLY THE EFFICIENT, CAPABLE STAFF, AS YOU HAVE A LOT OF WASTE THERE TOO. STOP ADDING AND THEN TAKING BUMP OR ADDITIONAL BENCHES FROM THE ROAD. THATS THROWING OUR MONEY IN THE TOILET.

STOP BREAKING ROADS TO DO SOME WORK, FINISH IT THEN FEW MONTHS LATER DO IT AGAIN. WHO APPROVED INTERRUPTED BIKE LANES SHOULD LEAVE COUNCIL. AS SHOW POOR KNOWLEDGE, AND UNDERSTAND OF Auckland traffic reality and citizens behavior. If you want to change behavior, you need to do it in the way that you incorporate changes while we all can live before a major transformation to happen

Stop waste on changing speed limits, sign language, e bikes those futuristic, unrealistic, not practical projects should be implemented when you sort water issues, flood issues, old sewage system. Roads SHOULDNT NEVER GET SMALLER,. TO A WIDE ROAD YOU CAN ADD, TO A SMALLER ROAD YOU NEED LOTS OF WORK TO GET IT BETTER, WIDER. BIKE LANES COULD BE SLOWLY DONE ON PATH

**#11900**

WAYS, GRASS, WITHOUT TAKING SO MANY ROADS OUT. YOU SHOULDN'T RAISE YOUR SALARIES FOR CREATING SO MUCH MESS, FOR SUCH POOR PERFORMANCE, SO INCOMPETENCE. ITS BEYOND OUTRAGE. I KEPT ON WRITING TO Council for nearly 10 years, saying we will get here. With no roads and not proper public transport but Billions in bike lanes nobody uses them. Interrupted, with orange cones that cause more harm than good. And all of you don't take attitude on wrong government decisions. Like those know what to do either.

This safe and healthy madness NEEDS TO BE REVISIT AND CHANGE IN THE WAY THAT STOP MONEY FLASH ON THE TOILET AND CAUSE ACCIDENTS. CAN'T UNDERSTAND HOW ALL OF YOU ARE BLIND TO THIS. WHO IS PUTTING MONEY IN THEIR PRIVATE POCKETS FROM THIS LACK OF CARE, INCOMPETENCE AND LACK OF ACTION TO CHANGE THIS WRONG, DAMAGING APPROACH?

SO MANY WAYS TO REDUCE COST WITHOUT PASSING ALL YOUR WRONG DECISIONS, WRONG CHOICES, INCOMPETENCE AND UNWILLINGNESS TO CHALLENGE GOVERNMENT WRONG LEGISLATION.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

You keep on adding taxes, but you need to start cutting waste, and do what's needed without huge cost. Anything that government does cost more than any of us could do it. Which shows a leakage of money. If it's not corruption, it's a lack of care, incompetence, wrong people in those places, too much bureaucracy and.... look closely at why we are in such a mess. Despite rates going up every year.

### **2a. Is there anything you would spend more on?**

Yes, improve public transport, wider roads. Maintain public area, work on water, waste infrastructure. And stop everything else. Including changing signs again. Those are UNNECESSARILY COSTS CAN WAIT UNTIL WE DEAL WITH URGENT ISSUES. YOU ARE CHANGING SIGNS WHILE HAVING A BIG HOLE IN THE PANEL. IF THAT NOT STUPIDITY, WASTE OF TAXPAYERS MONEY. CORRUPTION INCOMPETENCE, LACK OF CARE, WRONG PEOPLE IN JOBS WHO CAN'T FIND SOLUTIONS, BUREAUCRACY. ... WHAT IS IT THEN?

**#11900**

PUBLIC MONEY SHOULD BE SHIFTED AND USE WHERE US NEEDED AS IS NOT THE GOVERNANCE OF ONE INSTITUTUIN OR ANOTHER. WE SPEND IRESPONSIBLE TO USE TYE BUGET NO MATTER IF ADD BENEFIT TO PEOPLE WHO PAY, WHILE OTHER PUBLIC INSTITUSIONS CAN'T ADDRESS URGENT ISSUES. THATS WHY WE DON'T NEED GOVERNMENTS AND GOVERNMENT INSTITUTIONS AS ARE CREATING MORE MESS THEN THEY SOLVE, AS IS NOT WORKING AS A WHOLE USING THE MONEY FOR WHATS NEEDED IT WHAT BENEFIT US ALL. LIKE NORDIC COUNTRY DO.

**2b. Is there anything you would spend less on?**

Lots . Orange cones, bumps on road, bike lanes, any project that don't address the mess we are in to correct it. Including lots if so called " experts", specialits, consultants , cut internal waste, office expences , rise in salaries, especially at the top, incompetence in your work place

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

Any option that can deliver better results, but definitely isn't time to invest and develop when you have wholes in parnel, no proper public transport, and water and waste water issues, flood and a destroy city center

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

Any assests NZ have should be sold ti citizens and only citizens should be allow to buy..we should keep those assests interna. Not allow outside investors to get possession of assests that later NZ buy them back with more money and invest as those investors only milk it over the period. This is common practice, world haven't

#11900

changed much despite all of us want to believe corporation are acting with integrity, ethics and consider all stakeholders. Those look good on your business talk to justify your endless meetings, waste of time and look like you are doing something. In reality those come, for what they want and leave as you will not follow them around to impose anything as are such people who don't respect anyone. The best you settle to some crumbs while you rise taxes, add rates again to get money from mid class to sort the mess and wrong decision you took. (the one who have to pay for everything, as the rest are free riders in a way or another).

Is NOT SUCH THING OF YOU CAN IMPOSE A CORPORATION TO DO WHAT YOU WANT. THEY DO WHAT THEY WANT. OR MOVE, LEAVE, LIQUIDATE, BANKRUPT AFTER THEY MOVE ASSETS AROUND LEAVING EVERYONE IN DEBT, EXCEPT THEM AND BANKS. TAKE PROFITS, BANKRUPT AFTER. SO STOP ACT IN SUCH NAIVE WAYS. SERIOUSLY START TO HAVE CLARITY AND REALITY CHECK REGULARLY NOW

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

As above, unless you can take it back if they don't do what they have too. This change of ownership, leave that will cost much more later, at the end as they milk everything but haven't invest back is not ok. You only delay inevitable and at higher cost at the end instead of getting it slowly better with the right people on board. You have too many incompetent, lack of realistic solutions, lack of vision, too much talk, incapable of action and efficiency in Council decision makers. You are afraid to take decisions, to take actions, hesitation and too many arguments and useless consultants that haven't improve much, but cost a lot. Look around at Auckland to see your level of professionalism, knowledge and how bad you handle it.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**#11900**

Make it available to citizens to invest in NZ infrastructure and get money from housing by creating shares and give dividends to people.

Raise money that way. Some money should be reinvest, some dividends pay out and be above inflation.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Raise funds from NZ citizens, make it appealing to invest internally in NZ assets and government assets, public assets. Selling and buying later was done not only in NZ but around the world. DON'T THINK ANYWAY CAN CLAIM THAT AFTER GOVERNMENT BUY BACK SOMETHING THEY SOLD AND WAS A PUBLIC IMPORTANCE, THINGS WAS BETTER. WAS ALWAYS WORSE, WITH HUGE COST TO BUY IT BACK, AND HUGE COST TO UPGRADE.

CLAUSE AS IMMEDIATE POSSESSION, OR AFTER FEW WARNING SHOULD BE IN PLACE, LIKE CHINA DOES. NOBODY MESS UP WITH THE GOVERNMENT AS THEY ARE GONE WITHOUT THE MONEY. NZ SHOULD START TO HAVE IR GROW SOME GUTS. IF THE INVESTOR DOESN'T WANT, IS PRETTY CLEAR WHY WOULD NOT ACCEPT SUCH CONDITIONS. IF ARE GENUINE, THEY WILL. AND THEN THE BACK UP PLAN IF RAISE FUNDS FROM CITIZENS OR..SHOULD EXIST

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

I haven't read all proposal, but all GOVERNMENT, public institutions should work to reduce waste, have competent decisions made, have problems solve employees in key positions, have efficient and train staff. 1 person can solve a lot of what 10 can't

I don't know

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Haven't read it. Clear is, cost should be accordingly to stop put business in liquidation, stop them polute, not contribute as they polute. No reduce polution. Should be tailor for specific business. Not all polute the same . NONE SHOULDN'T BE ALLOW "TO BUY RIGHTS" TO POLUTE . YOU WANT CLIMATE CHANGE, THEN ADDRESS THE ONE WHO ARE THE REAL POLUTERS, WITH MEASURES IN.PLACE TO IMPROVE THEIR ACTIVITY ON THAT ASPECT. YOU DON'T ADDRESS CLIMATE ISSUES BY TAXING PEOPLE, COMPAND THEY TRY TO USE THE MONEY TO DEAL WITH DAMAGES. THAT THE MOST DUMB IDEAS WAY TO MANY ARE PROMOTING AS THEY FOLLOW A FEW IDIOTS AT THE TOP. WHO HAVE NO IDEEA THAT RESUME, AND ACADEMIC PAPERS MOST TIMES HAVE NO REALITY IMPLEMENTATION.

PEOPLE CREATE TOO MANY PROBLEMS THEN COMPLICATE EVERYTHING TO SOLVE THEM. AND WE INLY CREATE MORE PROBLEMS WHEN SOLVE THEM. SO STOP CREATING PROBLEMS. THATS A WAY SEEMS NOBODY IS LOOKING TO CONSIDER. AGAIN EXEPT NORDIC COUNTRIES.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers.</p>

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>

Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.
