## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More help and support for first home buyers/real estate investors seminars and multicultural friendly advice to help get everyone a house and help unemployed families out of the housing nz system

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

More support for the less fortunate not giving free money and benefits but helping them get out of the hole they are in, find jobs courses etc

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

The better the transport the less cars on road the less traffic there is keeping Auckland commute flowing at any time of day/night

### 2a. Is there anything you would spend more on?

Bigger roads/more lanes

### 2b. Is there anything you would spend less on?

Fancy architecture

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

For having this as a discussion is why

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

### Tell us why:

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Common sense for the current situation

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Change the name too

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Tell us why:

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>I don't know</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>I don't know</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. Papakura

## Papakura Local Board Priorities

**7b. What do you think of our proposed priorities for Papakura in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Very Important

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Road safety and public transport improvements.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Support increased investment in public transport and the weekly fare cap for regular users.

I Don't think that cycleway and road safety funding should be stopped since that is equally as important as network optimisation and public transport improvements.

### 2a. Is there anything you would spend more on?

Low cost improvements on road safety and public transport. Such as bus lanes, simple cycleways, low cost pedestrian crossings and traffic calming. Trying to get more usage out of a lot of the existing network instead of wasting time on gold plated mega projects.

### 2b. Is there anything you would spend less on?

Costly roads and projects.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

I am the principal of Opaheke School. Do not charge schools for recycling. Despite what you have said in the letter. Our school gets great value from learning about recycling. Our kids are very involved in rubbish collection and recycling. They share their understanding at home. It is valuable environmental learning and it is hands-on.

Also the annual cost for our school would be in excess of \$1100.00. This is a lot of money and is the sort of money we can get value when we reallocate towards student learning resources.

The stadium is important. Just needs a revamp..

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

The airport is a shambles. Needs new vision and public support.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Reduces Auckland Council bureaucracy and returns more to ratepayers.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

A fund for a 'rainy day' makes sense especially if cyclones come again.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Feel Auckland's port would be better elsewhere to save on trucking and motorway traffic.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Money returns from their sale or lease must appeal to ratepayers.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

## Papakura Local Board Priorities

7b. What do you think of our proposed priorities for Papakura in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

<p>We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.</p>	
<p>We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.</p>	
<p>We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.</p>	

<p>We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.</p>	
<p>Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.</p>

None of this feedback is probably taken into account, this was obvious with the sale of Auckland Airport shares and the fact so many councillors had money in it.

All you need to do is look after the parks, rubbish, footpaths, roads and stop wasting money on traffic management, speed humps, bike lanes and consultants.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

NO! I am not prepared or able to pay more!

Stop doing anything and stop with the rate increases. We are already paying too much for rates and i can not afford it as a solo working parent.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Everything! Stop doing everything and charging the rate payers! Stop doing anything and stop with the rate increases. We are already paying too much for rates and i can not afford it as a solo working parent.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

Because as a rate payer i can not pay anymore! I do not use public transport or cycleways.

**2a. Is there anything you would spend more on?**

Take a break and stop spending!

**2b. Is there anything you would spend less on?**

Transport and roading. Its getting a bit tiresome hearing that's where most of our rates go to and still transport is a \*\*\*\*\* show! Im sick of paying for it. Start listening to the rate payers.

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

Why should i have to contribute to the huge cost when i live in South Auckland and never use North Harbour Stadium.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Not needed.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Cut council services as nothing much is done for us anyway. Maybe get rid of the Mayor and his sidekicks as I'm sure that's costing us a big chunk of money.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Give rate payers a break and use it to REDUCE our rates..

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No we get things under control then in future look at enhancing changes

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less replacing things that do not need replacing e.g speed reduction .road markings and less cone lawns cycling lanes when we have so many unused foot paths reducing the work force ,less sub contracting of jobs we have to trim the council tax rate back to the rate of inflation each year you are paid for by council tax payers you work for us so you need to understand that

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

While we have been put in a tough situation by previous administrations we need to control the budget and only approve essential projects until we get the financial situation under control and then be prudent in the future,.

### 2a. Is there anything you would spend more on?

Making sure everyone is aware that there can be no overruns of budgets we seem to happily accept that .most projects end up costing a lot more than the quote price it has to end

### 2b. Is there anything you would spend less on?

Any projects that are not essential should be canned

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

33 million spent for better outcomes to the community

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Better outcome of a bad situation

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Once again it's the best outcome of a bad situation made by previous bad decisions

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

To bring council tax rises under control

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

We need a port close to exporters ,importers , and to keep as many trucks coming in to Auckland from outside off the roads

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Keep area as is but keep options open for future

### 7b. What do you think of our proposed priorities for Papakura in 2024/2025?

I do not support most priorities

#### More specifically, what do you think of each priority we've listed above?

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Not Important
We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.	Fairly Important
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	Not Important
We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	Fairly Important
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Not Important

#### Tell us why

You have been over spending for to long bring it u see control then chose which has priority

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

!like I said get spending u nder control then choose whichever priority

**8. Do you have any other comments?**

Bottom line like your rate payers get your spending under control rate payers can,t ask for more money if they overspend so get the increases down to an affordable even level that's what we vote you in for

I do not support most priorities

**More specifically, what do you think of each priority we've listed above?**

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Fairly Important
--	------------------

We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.	Not Important
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	Fairly Important
We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	Very Important
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Not Important

**Tell us why**

We need the equiv of the Takanini BID improvement inside Papakura township.

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

Terrible. I've lived in Papakura my whole life and have watched other small neighbouring townships overtake it whilst Papakura continues to slide down the ranks as it focuses on \*\*\*\*\*. Redevelop the township instead of wasting money on Maori wardens and stupid cultural \*\*\*\*\*. Great South Road down Takanini used to be a \*\*\*\*\* hole, now it's levels above Papakura township

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I am watching at the moment a few things happening in the sancturay in Papakura. I don't understand why a perfect footpath had to be ripped up and made new in some places. I don't understand why the cricket field was ripped up and now is being done new, when I never saw anyone actually using it on a daily base. A few of us who use

the facility quite often are frustrated to see our rates being just thrown out the window, when they could have been used better elsewhere.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

I watched recently a few gardeners using some machinery to cut down some grass that is usually covered by water at high tide thinking is that necessary?

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

I can't understand all of those cycles when what % of the population actually are using them compared to all the car users!? Bus lanes are also a waste of time and money. They cause more problems and jams than they do good for all of us.

**2a. Is there anything you would spend more on?**

Yes policing the rules for no cell phones and make higher fines and also give tickets out for people who don't follow the road code of stay left unless passing on the motorways.

**2b. Is there anything you would spend less on?**

CEOs who don't seem to have a clue and not coming up with decent solutions to our problems.

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

It doesn't make sense to me to keep it at all. Free up the land for housing and you get your 33 million back into our pockets. Far too many stadiums are not fit for purpose and hardly being used.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The council needs to have it's say somehow with the airport and should be able to gain some good intrests for the rate payers.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I don't see the point of another stadium down there and why change a good income with a risk of lesser earnings in the future. At the moment don't change too much as we can't afford it . Every process costs us rate payers more.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

There are not many councils things I can see them doing besides asking for higher rates every year. They have cut down on so many things over the years but keep asking for more money. Our infrastructure will soon have a big problem with all these houses and appartments being build and nobody seems to think about the storm water pipes that won't cope, or the fresh water we will need and how many cars will be on the road or parked anywhere around the place. Don't let me go at AT!

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Please invite me to one of your meetings! Thanks

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

It is a simple calculation. Why change something that will cost so much money for what and for who? It's working as it is.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Stop changing things that are not broken.,

**6a. What do you think of these proposals?**

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop wasting time and energy undoing things and not getting things done. Stop cancelling bus and trains.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

A surface lightrail and associated park&go is long overdue

### 2a. Is there anything you would spend more on?

Park & go, more frequent bus with less cancellations, Surface light rail, electric bike subsidy, safer bike lanes

### 2b. Is there anything you would spend less on?

<p>We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.</p>	<p>Fairly Important</p>
<p>We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. <p>We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.</p>	<p>Very Important</p>
<p>We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.</p>	<p>I don't know</p>
<p>Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.</p>	<p>Not Important</p>

**Tell us why**

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

Free events, Maori initiatives, etc. are fairly important but are just ongoing initiatives. Who is going to develop infrastructure if not the local board, nor the council?

**8. Do you have any other comments?**

A surface light rail is long overdue.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increase the road network to alleviate traffic congestion.

Airport rail link.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less cycleways and T2/T3 lanes where they clearly are not achieving their objective.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

The RFT withdrawal was justified due to the funds not being spent on the road infrastructure as intended. I believe that any project that assists with traffic decongestion without trying to force people to use a substandard public transport system or their bicycles should be supported.

### 2a. Is there anything you would spend more on?

Airport rail link and improving the airport access road network.

### 2b. Is there anything you would spend less on?

Less restricted lanes which cause added congestion. Stop dropping speed limits to compensate for poor infrastructure and road maintenance.

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

It requires an innovative approach to unlock its potential.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

**Tell us why:**

Airport operations are a specialized area that council is not equipped to manage. This could be privatised in an effort to improve the airport and its long term future.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Better long term results.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

If not used to fund services this will require higher rates.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

The port is a valuable asset.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

As above.

**6a. What do you think of these proposals?**

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	I don't know

Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	I don't know
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Not at this point in time.

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Currently I am a car driver but that can change, so it would be nice to know that there was an efficient public service available for me to use in the future.

No.

### 2b. Is there anything you would spend less on?

No.

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

I reside in Papakura and have no local knowledge to make informed decisions about this project.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

I used to live in Dunedin where a similar business plan was a successful operation for the city council.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

This scheme can keep our rates payments at a reasonable level whilst injecting a lump sum into the pot for the council's future plans.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Always a difficult decision but as a pensioner my rates bill has a significant effect on my personal budget.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

More public amenities around the wharf area could bring it into line with overseas city centres with waterfront amenities for the public.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Overseas cities with waterfronts have amazing facilities to encourage local and visitor participation.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

The development of this area would finally give Auckland the "destination city" status it needs to compete on the world stage for locals and tourists alike.

Yeah...but this is an example of yet another pointless exercise on behalf of a governing body. <p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. ### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

If the council was more efficient and lived within its means we wouldn't need to pay as much as we do

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1070**

STOP treating ratepayer's money as though it is a right.

STOP running empty bus services

STOP treating ratepayers like we work for you rather than the other way around.

## **2. What do you think of the transport proposal?**

Don't support any of the proposal

### **Tell us why:**

You're spending money that ratepayers don't have!

STOP paying for raised crossings, increase fines for offenders, make people responsible for their own actions.

### **2a. Is there anything you would spend more on?**

Yes, I would employ business people to run the council, rather than the failures we have running it now.

Council is a service industry, not just a tax collector, let's have some service from incompetent staff who probably couldn't get a job in the real world.

### **2b. Is there anything you would spend less on?**

Almost everything! We have to live within our means and so should council.

## **3. Which options do you support for the North Harbour Stadium?**

Other

### **Tell us why:**

User pays is the only way, if North Shore wants it let them pay for it. then we'll find out how much they want something that is no longer free.

**#1070**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Due to mismanagement council is currently trading whilst effectively insolvent.

Live within your means.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

Sell it, or lease it, and use the money to fix the need to constantly tax ratepayers more. Ratepayers can't afford your champagne tastes.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Because council needs the money now.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Please keep the rates as low as possible. I do feel you need to sort out the train system with urgency as the unreliability of this form of public transport is appalling.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1106**

Less investment in anything unnecessary at this stage, such as bi lingual road signs, cultural reports etc. Dont upgrade company cars, if anyone (such as the mayor) needs to fly anywhere, see if the meeting can be held over Zoom first, if not, travel in ECONOMY and pay for any extra trips themselves. No corporate lunches and coffees etc. Stop wardrobe allowances for staff (if that exists) as staff leave, dont replace them on huge salaries, see if the work can be delegated to others on huge salaries. Stop inflated pay rises that most other working people dont get. Just imagine you are trying to cut your own household budget, what could you do?

## **2. What do you think of the transport proposal?**

You absolutely need to do something about the disgraceful train systems, it is so unreliable. I feel that more cycle lanes and raised pedestrian crossings can be put on hold for now.

### Tell us why:

against crossings and un used cycleways. Train into the Airport via Puhinui road wolud be a great idea

### 2a. Is there anything you would spend more on?

trains into airport via Puhinui road on a single track like in Singapore

### 2b. Is there anything you would spend less on?

Maori culture, this has nothing tom do with running this city.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

we need to keep these assets

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

These shares belonged to the Manukau city ratepayers and the other cities sold theirs for short term gain Manukau kept them to help reduce ratepayer cost.

the port came first not the city

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

This is a working port and all the land from Custom Street to the water was reclaimed by the old Auckland Harbour board and was never part of the city it belongs to the port.

**5b. What option do you prefer for Bledisloe Terminal?**

<b>Economic and cultural development</b>

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

All roads should be a minimum of 10m wide. All major roads should be a minimum of 12m wide. When resealing, use hot mix asphalt, not bitumen with loose gravel on top, as this type of seal is most prone to stones lifting and pot holes being created in this type of surface !

**#1314**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Reduce big diesel burning buses, that run mostly near empty ! Only run them during peak times, ie 7am to 9am & 4pm to 6pm. Use Electric 10 seater vans every 30mins from 9am to 4pm

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

I have never been on a bus in NZ in 60 years. They never go where I want to go, when I want to go. Therefore much of my taxes and rates have been put towards public transportation. I have an electric car which costs only \$5.50/week to run.

Make public transport more expensive to the user & this society is based on user pays.

**2a. Is there anything you would spend more on?**

Replace diesel buses with Electric buses & vans. List publicly all proposed projects with costs. I'm sure if the public could see what was being proposed in some cases, would object to it being done & at that high exorbitant price ! Put all projects out to tender & list the 3 best ones publicly.

**2b. Is there anything you would spend less on?**

Today, down the road from me, 20 men are replacing 200m of a footpath. That will take weeks & cost heaps. I have often walked on that footpath & only a few meters in various sections need replacing. What a waste of rate-payers money.

**3. Which options do you support for the North Harbour Stadium?**

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Once the shares are sold to a Company, whose sole purpose is to make a profit for it's shareholders, then Auckland travelers will be over a barrel & forced to pay whatever amount they demand !

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Reduce the CEO's salary, and appoint another on a lesser salary. All council CEO's are paid far too much and need to be paid less, with a bonus payable for having no deaths on site and turning a 6monthly profit. The bonus is their desire to succeed. If over-paid, no incentive at all. Also 1 month's notice payable if council/shareholders terminate them.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

There needs to be a focused look at the disparities between Auckland city hospital and Middlemore hospital. It is not fair for south Auckland to suffer massive wait times and inabilities to be admitted into the hospital.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1456**

I don't see a lot of what Auckland council does in south Auckland so I don't think they should do any less

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

There needs to be an express train, reliable train services and plenty of parking at the station. At the moment I can't get a park at the train station, it has often been cancelled and it doesn't save me time.

### 2a. Is there anything you would spend more on?

Ring roads so the city doesn't pause for 8 hours when the motorway is closed. Better train services.

### 2b. Is there anything you would spend less on?

Cycle ways on the motorway in way down south Auckland - Drury and further south. The distance is too fr between centres for people to actually bike, having cycle lanes on the inside medium would be used more

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

I will literally never use this stadium.

Introduce legislation that council enforces that require new developments and renovations over \$10k to introduce onsite stormwater tanks and water tanks to the property.

Recycling food bins - drop that service.

Drop economic and cultural development.

Redeveloping the auckland cbd is a debacle that should be halted in its tracks. The cbd has never been more unsafe because now there is less traffic moving around the area and the homeless and other 'gangs' have taken over the streets.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

The issue isn't with the cost of public transport the issue is there is no reliability or safety. You need to think outside the square because we don't have the experience or skills here to get this job done in a timely or cost effective manner.

1) Hire a team from overseas that has experience laying train tracks in extreme weather conditions. Seems smart to look at Taiwan/Australia.

2) Commission a NZ company to build the machinery or buy the machinery that we need from overseas to do the literal heavy lifting to lay tracks at speed - like the chinese do with bridges. Put a caveat in that it has to be done by a date or there is a penalty clause. You can hire this machinery out later to other parts of NZ or sell it to them.

3) Hire in labour from overseas that has done this job before and put them up at a marae for 3-6 months to build each section. Call this a specific type of job that has a classification that allows them in asap.

**2a. Is there anything you would spend more on?**

Roads / Public Transport

Safety of CBD

**#1550**

**2b. Is there anything you would spend less on?**

Drop the speed bumps and pedestrian crossing and speed cameras - focus on engineering the roads to iron out the kinks.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

You don't have the money to do this redevelopment and while it may be a fun project and high profile - council should be focused on ensuring basic services like water, roads, safety and sewerage are upgraded. Show public responsibility and focus on these initiatives first.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Firstly it will cost money to make this change and that money should be spent elsewhere. This change falls into the nice but not urgent category. You have burning fires that need to be addressed first.

Second - you don't have the bandwidth to do all these initiatives and do them well - again - focus should be on basic infrastructure fixes. Not trying to sell off an asset that has never had to be sold before!

**4b. Which option do you prefer for the future of Port of Auckland?**

**#1550**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Auckland future fund is a sink hole - the priority should be on transport around the wider auckland area

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Don't sell off our assets - make more money by charging for services you already offer that are valued.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Any money council has should be spent on fixing existing infrastructure before new projects are implemented.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#1550

**Tell us why:**

Focus on fixing the existing problems

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Not Important

**Tell us why**

Traffic every morning backed up from Waiuku / Pukekohe out to the motorway highlights we have a major road infrastructure issue. Spend the money on the infrastructure to fix this by widening the roads as this problem will worsen because of the housing bei

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

I think having events is fun and an easy way to blow through cash and feel like you are doing a great job. But it most definitely shouldn't be the focus for the council in this area when the infrastructure is so abysmal.

**#1550**

**8. Do you have any other comments?**

If you could go to 10 events in a year or have a new lane added to linwood road out to waiuku which would give you more satisfaction? And which of these two options would give more satisfaction to future generations? Which option would reduce long term stress? Which option would make public transport faster?

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better public transportation including light rail, an airport connect and possibly high speed or higher speed rail connecting key parts of the city. Aboveground and underground rail to increase the capacity of Auckland's train network. More cycle lanes, footpaths and busways would also be projects I would support.

**#1557**

I also think the council should increase regulations on new houses to make them more carbon neutral and environmentally friendly. There should also be more investment into clean construction and infrastructure including roads, public buildings and more.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I agree with most of the plan but I do not agree with cutting pedestrian crossings and cycleways.

**2a. Is there anything you would spend more on?**

Transport, water, environmental planning.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#1557

**Tell us why:**

I believe more land should be used for recreational purposes.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	Do less
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport system, its the slowest moving transport system in the world. While there are trains, no options to get to train stations other than to drive and the parking around the train station is limited so need multi level car parks if that's the option or find other ways. AT wants people to drive less but no one can survive in Auckland without a car.

**#1743**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Bring in better workforce or tie up contractors to milestone based payments to avoid blow ups and getting things done on time or don't get paid. Its a joke how long the construction goes on in this country

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Need better options to get people moving. Forcing people out of their cars without any alternative isn't a viable option. Roads are not built to take the capacity we currently have so need better road network too. Also connect train network to Northshore

**2a. Is there anything you would spend more on?**

Train connections to Northshore. Building toll based roads

**2b. Is there anything you would spend less on?**

Public transport, senseless cycle lanes, cost for reducing speed limits

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**#1743**

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide

increased investment in paths in the Franklin Local Board area.

Less speed bumps on residential streets, Instead of warning the public a month before that their will be changes to the roads do a proper investigation with residents to see if road changes are necessary.

## 2. What do you think of the transport proposal?

I don't know

### Tell us why:

This transport plan is confusing considering the current government has cancelled public transport projects implemented by the previous government which would have supported transport plan above so that makes me feel uneasy about what will actually occur regarding transport in future plan,

### 2a. Is there anything you would spend more on?

More accessible power stations for electric cars. The amount of electric car sales isn't matching the public's access to power when away from their home. Funding for mechanics to subsidise costs to public for damage done to their car caused by speed bumps/cushions or errors in road design.

### 2b. Is there anything you would spend less on?

Reduce prices for fares on public transport.

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

I never go to this venue and probably never will. How about putting a new stadium in South Auckland, I just don't understand why land rate payers in South Auckland would help support the maintenance of a stadium in the north of Auckland region. The North Shore community is only a very small part of Auckland. If money was to be relocated why is it only going back to the North Shore community and not to Auckland rate payers,.

**#1752**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

It sounds like a big decision and not enough access to information about the transfer of council share shareholding to a trust. Less control by the public of where the trust will allocate funds.

Please keep the ports operational as they are. If it's leased out this could change operations at the port and sounds like the government are just wanting to make a quick dollar implementing this proposal and promoting as a way to save money, Not enough notice of this to all groups and communities who are involved,

5a. What option do you prefer for Captain Cook and Marsden wharves?

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Having music in the parks, I don't think are essential services of council. I have observed signs going up around our local area for the walkways. Local people don't need these signs & visitors already know the paths are there. It is an example of

**#1763**

unnecessary spending and this needs raining in. Selling off airport shares & leasing out the Port of Auckland are very short term fixes. What we need long term is for the council to live within their means, even if this includes a lot of belt tightening. Everyone is hitting the citizens with rises and households are falling over.

## **2. What do you think of the transport proposal?**

Support all of the proposal

### **Tell us why:**

We are absolutely sick of never having a reliable train service. Whenever we want to use it, it is never going for some reason. This is unacceptable!!! Older people rely on trains & buses to get to hospital appointments. Also during school holidays the trains stop running, so parents can't take their children out for the day. There also needs to be a connection between buses and train timetables. We have spent 3/4 hour sitting on a seat in freezing weather waiting for a bus after hopping off the train. If congestion charges are ever introduced, then a highly efficient and effective transport system needs to be in place.

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

### **Tell us why:**

For the huge population in the North Shore, this facility needs to be fully used. The charges for its use seem to prohibit smaller groups from using it. It should be a community centre, not a council money making building. The charges for this facility need to be graduated, so every group in the community can afford to use it.

**#1763**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Having a Fund manager would add another cost and another bureaucracy. There needs to be a long term strategic plan to pay off debt. After that, then look at what funds are available for all the services. Keep the services strictly essential like old councils used to have. Get rid of the advertising department and unnecessary magazines that you put out. There are a lot of things that can be trimmed and you just need to do it.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

By leasing the Ports of Auckland, there will be no improvement to the infrastructure of the Port and over time, the Port will deteriorate from lack of maintenance as the lessee will only be interested in profit. By retaining the Port, the profit seem to be increasing year by year which is going to take a little bit of pressure off the taxpayers.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Financial advisers always advise you to concentrate on paying off the debt. That is the first priority. Then focus on paying for essential services. The money from the Port needs to achieve payment of debt, along with providing essential services.

#1763

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

The Ports of Auckland need to be retained as a whole entity. Selling or leasing the land is only a short term fix and once that land is sold it will be lost to future generations who would probably be able to manage it better.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

The port is returning a profit. Why would you diminish this area for a short term fix? The result would be that the Port operation would become not viable.

**6a. What do you think of these proposals?**

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Why will we have to pay extra for Papakura refuse collection when we only use it roughly about 5 times a year. I recycle plastic bags and food and have very little waste. That will be a big increase to our rates and deter people that recycle well from continuing this practice.

Graffiti is a major problem around our area and it spoils our local area. There has been an initiative to paint over graffiti covered power boxes on the street with colourful designs. This needs to continue.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

climate change resilience and environmental protection and enhancement - plant more trees in urban areas, and protect existing ones!

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Leave large event organisation and delivery to the private sector

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

We need to continue building safe cycle lanes.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

Would love to stop paying road workers and security guards that visibly sit around playing on their phones and not fixing pot holes etc.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#1798**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Split it 50/50 between funding council services and the Future Fund

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

I don't like going to downtown Auckland anyway for events etc as parking is tricky and trains are unpredictable/take a long time to get there from where I am. I would not travel into the city and use the area for something like this.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

6a. What do you think of these proposals?

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Do not support</p>

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Making the roads more durable, long lasting

Road blockages to fix the same roads every year, is frustrating for everyone

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Creating better roads that don't need to be fixed every year/other year. Everyone would essentially pay less

This has nothing to do with anything on this survey - But, it is community/Council/AT related. The train track crossing at the end of our street (Tirornui East) is being removed. Despite receiving response by the residents to not remove it. PLEASE go around to the homes and ask directly our thoughts on the crossing removal. Our neighbourhood Heavily depended on thi crossing to safely and easily get to schools and shops. Especially for the children to get to Papakura Normal School. IT DID NOT MAKE SENSE to remove ir for "Safety" EVERYWHERE IN AUCKLAND IS A SAFETY ISSUE.

7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Very Important

#1837

Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Very Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Very Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Not Important

## Hibiscus and Bays Local Board Priorities

**7b. What do you think of our proposed priorities for Hibiscus and Bays in 2024/2025?**

**More specifically, what do you think of each priority we've listed above?**

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	

#1837

Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.	
Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

Not Important

**More specifically, what do you think of each priority we've listed above?**

Review and refresh the Howick Heritage Plan.	Fairly Important
Review and refresh the Howick Tourism Plan.	Fairly Important

#1837

Encourage community groups to adopt a reserve, park, or waterway etc, and provide for restoration and maintenance activities with council support.	I don't know
Rescope the Industrial Pollution Prevention Programme (which educates and informs industry about the impacts they may have on local waterways) to broaden its outreach and include all businesses.	Fairly Important
Develop a community-led climate action plan.	Not Important
Explore the development of a Howick Ward 'business collective', or other group, to provide support for small business owners outside of the established Business Improvement Districts. This work may lead to establishing a new business association and possible new Business Improvement District (BID) programme.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Rates funded refuse collection - having a pay per throw increases awareness of recycling and cost. My rubbish bin (small one) is emptied every 3-4 months. Whereas if I'm going to pay into a slush fund then I'll be less careful and put my bin out every couple of weeks. If I'm paying more then I'll use it.

Recycling charge for schools- this is where recycling should be encouraged and not penalised. This should be where Council grants should be focussed.

How about supporting the Papakura Business Association as well. I live in Papakura not Takanini and would like to see the business centre improved.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Mitigation of urban development and centralisation

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#1938**

Stop wasting money on infrastructure projects that do NOT support commuters, like bike lanes...great when the weathers nice and never used when it's cold and wet (like most of Auckland)

Stop messing with the speed limits - changing from a 60 to a 50 does NOT help anyone other than the city generating revenue tickets (eg, \$5.5M on Queen street changes)

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

This is a cold, wet city and many do not rely on trains who commute because they are NOT reliable, therefore putting money on bike lanes, pedestrian crossings or multi-languag signs is a waste of money. The money needs to meet the needs of the people. The people need ways of getting from South to CBD and North to CBD with ease.

### **2a. Is there anything you would spend more on?**

Finding a way to make it easier to get to Sylvia park without bottlenecks. Adding another lane at Sylvia park.

### **2b. Is there anything you would spend less on?**

Signs, bike lanes, painting of the speed limit on the road (what a waste of money)

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

We do not need to be spending frivolously in tough economic times. Tighten the belt and wait until the economy turns a bit before investing. More than likely \$33M is not the final number it will probably be more like \$50M at the end and not worth it.

**#1938**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Council should not be buying shares in the Airport full stop. Sell them.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Great way to generate revenue

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Again the economy is tight and people need key services and relief from additional taxes. Use the money to provide relief to the people.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. I've been paying land rates in this country for 60 years now. The rates never costed this much.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Pay less, Council doesn't follow through with their plans so they have lost my trust, I'd rather just pay less and leave things as they are,

**#2035**

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

They have cancelled initiatives with public transport but that would have helped the current public transport issues, So why would I support them when they want to cancel the very thing that will help us.

**2a. Is there anything you would spend more on?**

No, You have enough of my money,

**2b. Is there anything you would spend less on?**

Not sure. Don't really see any huge impact in the community of what the council actually does for the public.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

I think it's funny that this is a major plan and how the major is from North Shore, Just sounds like he's trying to get more money into his own community and has no interest in helping the rest of Auckland.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#2035**

**Tell us why:**

Who are you selling to the shares too? Just sounds like more money to be made but not to look after our community,. Just the rich people getting richer. Less control of Airport

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

If you lease it out to another organisation or person. How do we know you won't sell it to people overseas or it becomes a dumping ground.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Doesn't matter to me, Just make my land rates cheaper. Do more for the old people.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Just leave it as it is, Both options aren't appealing.

#2035

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>

Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Do not support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.

Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. 6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

## Māngere-Ōtāhuhu Local Board Priorities

7b. What do you think of our proposed priorities for Māngere-Ōtāhuhu in 2024/2025?

More specifically, what do you think of each priority we've listed above?

#2035

Strengthen partnerships with local mana whenua through project delivery, including Te Kete Rukuruku, completion of David Lange Park playground and improvements.	
Deliver community climate initiatives such as Low Carbon Lifestyles, and Māngere Bike Hub with our community partners.	
Deliver a community-driven safety action plan aimed at tackling anti-social behaviour and addressing local safety concerns enhancing the overall sense of safety within our local community.	
Improve employment and economic opportunities through our local economic broker programme.	
Support community-led activations at our parks and facilities through our community grants.	

**Tell us why**

**7c. What do you think of the Māngere-Ōtāhuhu proposed priorities for the 10-year budget 2024-2034?**

I support most priorities

**Manurewa Local Board Priorities**

**7b. What do you think of our proposed priorities for Manurewa in 2024/2025?**

Very Important

**More specifically, what do you think of each priority we've listed above?**

#2035

Continue to support, deliver and fund initiatives that contribute to positive youth development.	Fairly Important
Invest in evidence-based projects that focus on crime prevention, safer communities and injury prevention.	Very Important
Fund and support activities that include older people and foster their community participation with a specific focus on reaching older migrants.	Very Important
Invest in community led projects and initiatives that respond to social connection and cohesion, build climate resilience and contribute to climate action.	Not Important
Develop a masterplan for Mountfort Park to ensure our open space and sports field network meets the demands of our diverse communities.	Fairly Important
Identify options for recreational activities to support people of all ages and abilities being casually active.	Fairly Important
Investigate community lease options to support Ngāti Tamaoho aspirations for a cultural hub at Te Pua/Keith Park.	Fairly Important
Investigate the feasibility of an arts broker programme to nurture creative expression with a focus on supporting Māori and Pacific creative arts.	Please build public swimming pools for the elderly only as young people don't care and they have no respect to elders while we are in the pool. We are fragile and we have paid so much over the years we deserve our own facilities.

**Tell us why**

It's ok. I like that there is some focus for elderly. But I expect more. It's a good start if these plans are actually actioned.

7c. What do you think of the Manurewa proposed priorities for the 10-year budget 2024-2034?

## Papakura Local Board Priorities

7b. What do you think of our proposed priorities for Papakura in 2024/2025?

I do not support most priorities

More specifically, what do you think of each priority we've listed above?

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Fairly Important
We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. **Tell us why**

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

It's ok but don't see much being done for the elderly and pacific peoples.

**8. Do you have any other comments?**

I would like the council to build more facilities for the elderly only. e.g. free swimming pool, spa and sauna. cafes for elderly where we can socialise freely.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	
<b>Water</b>	Do more
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Sop building cycle lanes, stop making humps in pedestrian crossings on main well used roads (I.e. Great South Road). Stop reducing speed limits.

**#2151**

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

This finally makes sense. I am not keen on any congestion charges though as this will move traffic to smaller roads and also just change the time of congestion. It also makes it more difficult for people that have no choices in what time they have to be somewhere.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I do not utilise this part of Auckland offering and have no knowledge of it therefore feel its not in my life so do not want to add anything.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#2156**

Remove cycle lanes, remove cycle lane bolards, remove pot plants, carvings etc.. and put the vehicle lanes back...

## 2. What do you think of the transport proposal?

Support all of the proposal

### Tell us why:

Because Auckland is growing. We need more roads and motorways, Need alot better roading & traffic maintenance plan to seriously increase traffic flow.

### 2a. Is there anything you would spend more on?

More Roads, more vehicle lanes, better quality road material and maintenance.

### 2b. Is there anything you would spend less on?

Stop spending on cycle lanes. Stop spending on speed humps (unless at school crossings). Stop spending on plants, carvings etc and closing vehicle lanes.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Transport

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2177**

Focus on isolated pockets of the city that benefit the wider Auckland little, with no potential earning from tourism either. Examples such as considerations for the redevelopment of North Harbour Stadium.

Free and subsidised entries to programmes and events - arguably if the events are worthwhile attending, people wouldn't mind a small entry fee.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Fully behind the proposal - the city is not big enough and rich enough to keep expanding and building new roads, but the motorway traffic is getting worse.

I would also propose introduction of charges again for big companies such as quarries which operates heavy trucks on the roads - these have both impacts on road conditions as well as the prosperities along the route. It makes sense for them to be charged, as the council ends up footing the bills for lots of maintenance and repairs.

### **2a. Is there anything you would spend more on?**

More and safer parking near key train station hubs e.g. Papakura

### **2b. Is there anything you would spend less on?**

Bike lanes and initiatives.

## **3. Which options do you support for the North Harbour Stadium?**

Other

### **Tell us why:**

Consider selling as much land as possible to private developers for housing.

**#2177**

Does the North Harbour Stadium precinct benefit the wider Auckland? There's little incentive for people south of the Harbour bridge to pay more rates because of this project.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

#2177

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

Tell us why:

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. ## Albert-Eden Local Board Priorities

### 7b. What do you think of our proposed priorities for Albert-Eden in 2024/2025?

I support all priorities

#### More specifically, what do you think of each priority we've listed above?

Celebrating different people and cultures, bringing people together with fun and engaging activities, and reducing barriers for those who might struggle to connect with council or others in the community.	Very Important
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	Very Important
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	Fairly Important
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	Fairly Important
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	Not Important
Working with the community on activations in the Mt Albert Civic Square.	Fairly Important
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.	Very Important

7c. What do you think of the Albert-Eden proposed priorities for the 10-year budget 2024-2034?

## Papakura Local Board Priorities

7b. What do you think of our proposed priorities for Papakura in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Fairly Important
We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.	Fairly Important
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	Not Important
We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	Not Important
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Very Important

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

**Tell us why:**

Raised pedestrian crossings seem a waste of time and money. Hinder traffic flows etc.

**2a. Is there anything you would spend more on?**

Get the mill road extension done as there is no other bypass route for South Auckland other than SH1.

**2b. Is there anything you would spend less on?**

Reduce traffic management costs.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

A more modern stadium with extra seats and possibly a closing roof like Dunedin would allow for more events. Venue for concerts would be great.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

19% rate increase is ridiculous. Rate payers are not 'customers' who you can suck dry, this is coming from people who complain about food and other increases, it's time to look within, get proper people, streamline council operations cut staff, make them accountable to begin with and spend efficiently to make the biggest impact.

## Papakura Local Board Priorities

7b. What do you think of our proposed priorities for Papakura in 2024/2025?

I do not support any priorities

More specifically, what do you think of each priority we've listed above?

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Not Important
We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.	Not Important
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	Not Important

#2474

We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	Fairly Important
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Not Important

7b. What do you think of our proposed priorities for Franklin in 2024/2025?

I do not support any priorities

More specifically, what do you think of each priority we've listed above?

Develop fit for purpose facilities and respond to growth challenges through projects like the Clevedon Village Heart programme, 'Belmont' Sports Park development and the Unlock Pukekohe programme.	Not Important
Fund three-year Strategic Community Partnerships with local organisations that are willing to and capable of delivering social, environmental, cultural and economic outcomes in line with the local board plan and support to these organisations to deliver.	Not Important
Support environmental and cultural restoration programmes in partnership with Iwi including Te Kete Rukuruku (place naming) and Te Korowai Papatuuuanuku (environmental restoration).	Not Important

#2543

Develop “Franklin Community Occupancy Guidelines” to inform decisions on council-owned facility leases, including leasing charges.	Not Important
Find ways to reduce Franklin’s maintenance costs e.g. by replacing lawn with eco-sourced native trees and reducing or relocating public rubbish bins.	Not Important
Progress the development and delivery of the Franklin Paths Programme.	Not Important
Deliver a refreshed approach to enabling young people in Franklin to access services and participate in their communities.	Not Important
Progress a Pukekohe Cemetery memorial project that acknowledges the unmarked graves at the site.	Not Important

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	
Environment and regulation	
Parks and Community	
Economic and cultural development	
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

zero waste to landfill. EV subsidies. Encourage through rebates to EV owners who charge at home

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2632**

stop spending money on history. The past is the past. Indigenous groups needs to get in line with the current government (local and national)and status, Nobody is special, least of all them. The more you entertain them with hand-outs, the more they will demand. It is just a natural cycle. If i demand and you give me, i will keep on demanding and find reasons for you to give me. STOP GIVING IN TO INDIGENOUS DEMANDS.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

We need better public transport. When i travel overseas, i only use the fantastic public network. In NZ i only use my own vehicle and dream of the day we will have a great public network

### **2a. Is there anything you would spend more on?**

Speed control. No tolerance to speed. Its no good we say speed kills and allow people to speed.

### **2b. Is there anything you would spend less on?**

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct,Change the operational management

### **Tell us why:**

Stadium are good for the community. It encourages outlet through sport. The more sporting and outing (using the stadiums for other events) choices available the more the youth and the disenfranchised will engage.

**#2632**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Move with the times. Dont remain the stubborn dinosaur. Auckland needs cash and not shares in a dead weight

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Auc has been neglected and we need to catch up quickly

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

In this economic crisis right now, I would rather have less to pay for. It’s not financially wise to be doing changes in a downturn economy. Help the recovery of the economic finances first before proposing more costs.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#2875**

Do less of proposing more projects until the economic growth has stabilised.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

**2a. Is there anything you would spend more on?**

I would spend more on gas that is at a reasonable pricing (\$2.50 per litre on 91). In prior months, it has gone up to \$3.00 per litre on 91 which is unacceptable.

**2b. Is there anything you would spend less on?**

Public transport in Auckland. Its always delayed and not efficient.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#2875**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

When I 28 years ago moved into Wattle Downs we were promised a bridge across the Papakura stream connecting Wattle Downs with what is now Waita Shores. With no shops or health centre in W D we rely on Waita Shores. We could get to W S by bike and avoid the steep hill in Coxhead Rd and the busy and dangerous Mahia and Great South roads which don't have cycle lanes. When will we finally receive our promised bridge?

<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

the port is a major form of income that Auckland need shutting down the port would the most stupid thing the council could do.in fact the port should be allowed to expand.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	
Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and

Investing in better public transportation infrastructure is crucial for addressing Auckland's traffic congestion issues. Here's how increased funding for public transport could benefit the city:

1. Improved Efficiency: Additional funding could be allocated towards expanding and enhancing public transportation networks, including buses, trains, and ferries. This

**#3187**

expansion would provide residents with more convenient and efficient alternatives to driving, reducing congestion on Auckland's roads.

2. **Expanded Coverage:** Investing in public transport infrastructure allows for the expansion of service coverage to underserved areas of Auckland. This ensures that all residents have access to reliable transportation options, regardless of their location within the city.

3. **Enhanced Frequency and Reliability:** Increased funding can support efforts to increase the frequency and reliability of public transport services. More frequent service intervals and improved punctuality would encourage more people to choose public transport over driving, further alleviating traffic congestion.

4. **Integrated Transport Solutions:** Additional funding can facilitate the development of integrated transport solutions, such as integrated ticketing systems and improved connectivity between different modes of public transport. This seamless integration makes it easier for passengers to navigate the public transport network and encourages greater usage.

5. **Environmental Benefits:** Investing in public transport reduces the number of vehicles on the road, leading to lower emissions and improved air quality. This contributes to a healthier and more sustainable urban environment for Auckland residents.

By prioritizing funding for public transportation initiatives, the Auckland Council can make significant strides towards reducing traffic congestion, improving mobility, and creating a more livable city for all residents.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

As an Auckland resident, I'm alarmed by the proposed substantial rate increase from the Auckland Council. The inability to handle basic tasks like updating addresses highlights inefficiency and mismanagement of resources. Despite attempts to address concerns, departments operate in silos, leading to wasteful spending on redundant positions and lack of coordination.

Rather than burdening ratepayers with increased rates, the council should focus on streamlining operations and eliminating unnecessary expenditures. By fostering collaboration among departments and optimizing internal processes, the council can improve efficiency without resorting to raising rates.

Auckland Council must prioritize responsible spending and accountability to ratepayers. Instead of demanding more money, it should demonstrate effective management of existing resources. Ratepayers deserve better stewardship of their funds, and it's the council's responsibility to deliver on this promise.

**#3187**

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I advocate for a pragmatic approach to cycling infrastructure, favoring the adoption of the Australian model that permits cyclists to share footpaths with pedestrians. Instead of investing solely in cycleways, which may be costly and require extensive planning and construction, we should widen existing and/or future footpaths to accommodate both pedestrians and cyclists. This approach not only maximizes the use of existing infrastructure but also promotes safety and accessibility for all road users.

By allowing cyclists to use footpaths, we create a more inclusive and flexible environment where individuals of all ages and abilities can safely navigate urban areas. Widening footpaths also addresses the issue of limited space in densely populated areas, providing a practical solution to the challenges of urban mobility.

Furthermore, embracing the Australian model encourages a culture of shared responsibility and respect among road users. Cyclists and pedestrians can coexist harmoniously, fostering a sense of community and cooperation on our city streets.

In summary, I believe that adopting the Australian model and allowing cyclists to use footpaths offers a cost-effective, practical, and inclusive solution to improving cycling infrastructure in our city. It's time to prioritize safety, accessibility, and collaboration in our approach to urban transportation planning.

### 2a. Is there anything you would spend more on?

Widening footpaths would provide cyclists with designated space to ride, separate from vehicular traffic, enhancing their safety and confidence while navigating urban areas. Additionally, shared footpaths promote a sense of community and encourage interaction among pedestrians and cyclists, fostering a more connected and vibrant city environment.

### 2b. Is there anything you would spend less on?

Outsourcing and Contracting: Reviewing outsourcing agreements and contracts for services can help identify opportunities for cost savings. Negotiating better terms or bringing some services in-house where feasible could lead to reduced expenditure.

**#3187**

### 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

#### Tell us why:

Regarding the future investment plans for North Harbour Stadium, I'm hesitant about allocating significant funds to a project that may not benefit all Aucklanders. While the stadium may have its merits, it's essential to consider other pressing needs, such as roads and public transport, which impact a wider segment of the population. The proposed \$33 million maintenance cost over 10 years could potentially be redirected towards infrastructure projects that improve transportation accessibility for all Auckland residents. Investing in road maintenance and public transport upgrades would address critical mobility issues and benefit a broader cross-section of the community.

Additionally, enhancing public transport infrastructure aligns with sustainable urban development goals and can contribute to reducing traffic congestion and emissions. Before committing substantial funds to stadium maintenance, it's crucial to prioritize investments that have a more significant and equitable impact on the daily lives of Aucklanders. Therefore, I urge a reevaluation of the proposed spending priorities to ensure that taxpayer funds are allocated effectively and address the most pressing needs of the community.

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

#### Tell us why:

The proposed Auckland Future Fund offers potential benefits in terms of protecting investments, mitigating risks, and enhancing financial returns. However, it also presents challenges related to loss of control, potential asset sales, market volatility, governance, and opportunity costs that require careful consideration and management.

### 4b. Which option do you prefer for the future of Port of Auckland?

**#3187**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

The proposal to change Auckland Council's investment in POAL presents both opportunities and challenges. It's essential for the council to carefully evaluate the potential impacts and consider the long-term implications for financial sustainability, service delivery, and community well-being before making a decision. Input from stakeholders and thorough analysis of the options will be crucial in determining the best course of action for Auckland's future.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Ultimately, whether profits and dividends from the Port of Auckland should go to the Auckland Future Fund depends on the council's strategic priorities, risk appetite, and long-term financial objectives. It's essential for the council to carefully weigh the potential benefits and drawbacks of this approach and consider alternative uses of funds that best serve the interests of Auckland residents and the broader community.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

#3187

Voting against any changes to the operation of the Port of Auckland, I prioritize maintaining continuity and stability in Auckland's maritime infrastructure. The port plays a pivotal role in supporting local businesses, industries, and international trade

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Ultimately, the decision should be based on a comprehensive assessment of the trade-offs involved, considering factors such as the long-term benefits for Auckland's community, the financial implications for the council, and the potential impact on port operations and the broader economy. Engaging with stakeholders and conducting thorough feasibility studies can help inform the decision-making process and ensure that the chosen option aligns with Auckland's strategic goals and priorities.

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Opposing the proposed reduction in garbage collection by Auckland Council, I express deep concerns regarding the feasibility and potential consequences of such a move. In a society where consumables are extensively packaged in plastic and other materials, eliminating garbage collection altogether seems impractical and unrealistic. Supermarket purchases alone generate significant waste, leaving households with no viable disposal solution.

#3187

In areas like Papakura, where residents already face challenges affording rubbish tags, reducing collection services exacerbates existing issues. It's not uncommon to witness rubbish strewn across streets due to limited disposal options, leading to unsightly and unsanitary conditions. As a resident, I've personally experienced the frustration of having litter blown into my front yard, requiring costly disposal efforts.

Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Not Important

**Tell us why**

Papakura faces significant challenges with crime, drugs, and unemployment, demanding urgent attention. The pervasive presence of these issues not only undermines community safety but also hampers opportunities for economic growth and social well-being. Ad

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

I think we need to prioritise youth crime in the area more importantly.

Addressing youth crime in Papakura requires a multifaceted approach that addresses underlying social, economic, and systemic factors contributing to criminal behavior. Rampant issues like ram raids, drug-related offenses, and other criminal behaviors necessitate immediate and sustained intervention efforts.

Investing in youth outreach programs, recreational activities, and educational opportunities can provide at-risk youth with constructive alternatives to crime. By engaging young people in positive activities and mentorship, we can steer them away from criminal influences and help them develop essential life skills.

Collaboration between community organizations, law enforcement, schools, and government agencies is crucial for implementing effective crime prevention strategies. By fostering partnerships and coordinating efforts, we can better identify and address the root causes of youth crime, such as poverty, lack of access to education, and social marginalization.

Furthermore, providing support services for families and individuals struggling with substance abuse, mental health issues, and socioeconomic challenges is essential for creating a supportive environment that promotes positive youth development.

Support the development of community led resilience networks in our area, so our community and organisations will know who does what, where to get information and how to help, including in emergencies.	
Support and advocate for further protection of our sea, soil and fresh water from contamination and sedimentation through methods such as re-naturalisation, or daylighting.	
Engage with our community and key stakeholders, including mana whenua, on the future uses of our undeveloped reserves, and older established ones, including investigation of cost-effective options for other informal recreation and play in these areas.	

#3235

Continue to support activities that promote vibrancy, diversity and showcases creativity in our area, such as events, festivals, and other shared experiences in our public spaces for all.

Continue to renew and enhance the paths network (greenways) to create a safer, off road, well-connected networks for active modes of transport.

itis ahuge investment already spent, so just make it more usable to more activities. No sense in letting it go, population increases must require more such venues.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

As with all savings one has to be sure the interest being paid on our debt, isnt more than the savings we are holding, & I dont want any more assets eg Airport shares ,sold off. Surely they must be a good steady source of income.which we will desparately need if Our petrol tax has been ruled out. Just another poor decision by our new P&gt;M&gt;. If something is ticking along, users are coping with the tax,[or what ever the issue,] eg.the cancellation of the programme being followed to stop smoking, Leave it alone & take on some other pressing situation that needs attention NOW&gt;

## Franklin Local Board Priorities

7b. What do you think of our proposed priorities for Franklin in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

Develop fit for purpose facilities and respond to growth challenges through projects like the Clevedon Village Heart programme, 'Belmont' Sports Park development and the Unlock Pukekohe programme.	Fairly Important
Fund three-year Strategic Community Partnerships with local organisations that are willing to and capable of delivering social, environmental, cultural and economic outcomes in line with the local board plan and support to these organisations to deliver.	Not Important
Support environmental and cultural restoration programmes in partnership with Iwi including Te Kete Rukuruku (place naming) and Te Korowai Papatuuuanuku (environmental restoration).	Not Important

#3381

Develop “Franklin Community Occupancy Guidelines” to inform decisions on council-owned facility leases, including leasing charges.	Fairly Important
Find ways to reduce Franklin’s maintenance costs e.g. by replacing lawn with eco-sourced native trees and reducing or relocating public rubbish bins.	Very Important
Progress the development and delivery of the Franklin Paths Programme.	Very Important
Deliver a refreshed approach to enabling young people in Franklin to access services and participate in their communities.	Fairly Important
Progress a Pukekohe Cemetery memorial project that acknowledges the unmarked graves at the site.	Not Important

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

**#3387**

Support all of the proposal

**Tell us why:**

Instead of introducing fuel taxes introduce road tolls that'll reduce the traffic congestion. Auckland motorists aren't the only ones using the motorways. Introduce proper speed lanes, reduce heavy vehicles entry and exit times in the motorway. Trucks are the biggest obstacle in the motorway.

**2a. Is there anything you would spend more on?**

More HOV lanes high occupancy vehicles lanes

**2b. Is there anything you would spend less on?**

Playgrounds, and skate parks.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#3387

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Actually improving road ways and public transport because there’s been no improvement in the last decade. traffic jams are worse than ever, even off peak traffic

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3416**

Just stick to having rates pay for rubbish and recycling services. Bin tags were the worst idea in history and only create more rubbish. People steal bin tags all the time.

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

Because everytime you say you're going to improve public transport its still \*\*\*\*\*.  
Trains always getting cancelled, buses not having their own roads. Take a look at overseas cities like Brisbane where buses have their own network. Auckland will never be a world class city until then.

### 2a. Is there anything you would spend more on?

I though thats what taxes were for.

### 2b. Is there anything you would spend less on?

Rates. Because we buy bin tags but isn't that what rates are supposed to cover?

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

Nothing wrong with it

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

**#3416**

**Tell us why:**

Don't care

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Generate more revenue but please use the profits to actually improve Auckland and not go into the back pockets of your incompetent "council workers" sitting in their offices that never actually use the cities services such as railways and buses, public transport etc.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Train network needs to be improved, more stations, more accountability and finish of the light rail that was already invested in.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

All of the above focus until the public have interest rates at a manageable level that they can afford basic living. No more increases!

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

Train and light rail need to be invested in, we are worse off than a 3rd world country.

### 2a. Is there anything you would spend more on?

Light rail and train system

### 2b. Is there anything you would spend less on?

Everything in the proposal as it's unnecessary, with the current economy, people are struggling we can't afford the extra cost so best to just try to maintain rather than improve.

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Council needs to have clear accountability not hand over to company's that can charge what ever they want for the service

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

And invest in rail networks

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

We will protest if this goes ahead, the people are struggling, this lift in rates is unachievable with our curent interest rates.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

#3664

Keep Bledisloe Terminal as a Port of Auckland operational area

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Do not support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Do not support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Do not support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Do not support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	I don't know

#3664

Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Do not support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More police presence with means to deal with antisocial behaviours.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3683**

Invest in the city centre. Would rather see improvements to the developing outer suburbs

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Fuel is too expensive currently and public transportation is equally as expensive but horribly unreliable. Something has got to change

**2a. Is there anything you would spend more on?**

Policing of illegal drivers. The number of unlicensed drivers in South Auckland is problematic and extremely obvious with erratic and reckless driving.

**2b. Is there anything you would spend less on?**

Pointless new train lines that DO NOT help get the bulk of all commuters from south Auckland to central Auckland

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Less waste

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Seems like a good plan

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. Economic prudence and back-to-basics need to be the key drivers for the near future. Getting Auckland moving by easing motorway congestion and completing motorway and road maintenance sooner, rather than the years it takes now.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

---

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

The issue with public transport is that no matter how quick you can pay, the system will still be let down with breakdowns, delays, train line issues. The reliance on public transport to solve so many issues fails to address that the network isn't extensive, isn't reliable, and the AT HOP system is too authoritarian - one person-one card-non-transferable.

### 2a. Is there anything you would spend more on?

No. Google or a driving app will still give a traveller the best options for getting to a destination. And travelling the motorway is still the best way to do that. So no amount of public transport spending, except extending the rail network to cover more areas (please no, Auckland has missed that opportunity), will make it viable.

### 2b. Is there anything you would spend less on?

---

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

Have never visited or gone to an event at North Harbour Stadium. No opinion on it.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

**Tell us why:**

It is a strategy for council to fund council services.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

As with AIAL, this strategy will help council fund council services, and lessen reliance on rates increases.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

AIAL will help fund the Auckland Future Fund, this would be a different strategy. Why all the funding go to AFF?

**4d. Do you have any feedback on any other part of the proposal?**

**#3704**

Council should get independent quotes from contractors for their every project and try to pay fair cost. Recently in news sat that council paid 6 to 7 million for zebra crossing and then all demolished within couple of months, shame first this cost looks high and second bad planning. Hire couple of good project managers who can source fair quotes from market for every job which council doing. At least 4 to 8 quotes then project manager should present to 5 council senior approval team for approval of best quotes . Auckland council will get better job at good prices. Lot of unnecessary cost are being put on rate payers.

Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do more
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

What's the point of paying rates when your team does not even respond you ratepayers emails or request and all you want is more money.

I have been requesting action on trucks parked on Old Wairoa Road Papakura since last year. This is hazard to road users especially children and other vehicles driving. Will you only take action when someone gets killed on this road due this issue.

**#3709**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Pay less ,reduce staff where it's not required Mayor should lead by example and donate a portion of his salary to people in need like food pantries with food.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

You were doing things without the fuel tax before why do you need more money now. Try to run council like a business not think of it like a gravy train from rate payers.

**2a. Is there anything you would spend more on?**

First focus on reducing spending and stop water leaks so that the water waste worth millions stop.

**2b. Is there anything you would spend less on?**

Stationery entertainment and waste of rate payers money on promotional messages & campaigns.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

We need to plan for next 25-35 years not 3-5 years. Otherwise we will be stuck in this vicious cycle of catch up and plaster work like potholes on our roads fixed up(plaster work) rather than building good quality roads using tech to build roads that will not have potholes for years to come

I support most priorities

#3709

**More specifically, what do you think of each priority we've listed above?**

<p>We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.</p>	<p>Not Important</p>
<p>We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.</p>	<p>Fairly Important</p>
<p>We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.</p>	<p>Fairly Important</p>
<p>We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.</p>	<p>Very Important</p>
<p>Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.</p>	<p>Fairly Important</p>

Papakura zoning needs to be extended. People in high decency housing who can not use council rubbish bins need this removed from their rates. Eg: 74 -78 opaheke road. We already pay for rubbish services privately.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less events & arts. Less money spent on cycleways, less development of the city centre. Sell off North Shore stadium as it's a drain & costs too much to run.

**#3820**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Raised crossings cost far too much. Stop doing this. Don't spend on cycleways. Put this money into improvement to the trains & buses. Don't spend money on eco ferries. The current ones are fine.

**2a. Is there anything you would spend more on?**

Trains & buses.

**2b. Is there anything you would spend less on?**

Cycleways , raised crossings.

**3. Which options do you support for the North Harbour Stadium?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Sounds like the best option if it means less of a rates increase as more money to be generated.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Council core services are more necessary than putting more money into the CBD

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

This just sounds like more unnecessary money would be spent on developing the area for the public to use. This is NOT needed & would mean the council gets less of a return.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#3820

Council support	

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More focus on serving the ratepayers to satisfy the basic mandate for a city council

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#3881**

Stop hiring incompetent people into rolls that contribute nothing to the well being of the city.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

The transport plan for public transport is a disgrace. We have to contend with endless disruptions on the rail network and we see endless lines of large buses running with little or no patronage. The mess with the rail is in part due to 3 entities running the business and the buses need to be sized to suit the patronage.

### **2a. Is there anything you would spend more on?**

Finish the roading network so people can move round Auckland freely and quickly.

### **2b. Is there anything you would spend less on?**

The organisation of Auckland Transport. What a disgusting waste of ratepayers money.

## **3. Which options do you support for the North Harbour Stadium?**

I don't know

### **Tell us why:**

It is underutilized but I do not see why. Auckland Council carries most of the responsibly for that non performance.

Redevelop it to what - who wants this type of facility.

Change the management will only shift the deck chairs

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#3978

**Tell us here:**

Retain ownership and try to keep freight cost down. If you lease out the port the fees will be increased which will affect small business (and big). Give everyone time to recover economically.

I would like to see more logic based decisions that will benefit everyone. Unesessary costs like changing signs to duel language, speed humps everywhere - seem like wasting money that could be directed at more important projects. When we have more money, go ahead with the nice to have projects - concentrate on the must fix now projects I.e. water pipes, pot holes, public transport etc.

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

**8. Do you have any other comments?**

The rates are the last thing everyone wants to pay. I don't see any benefits for paying for them but I have to. Please if not reduce them, keep them the same.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do less
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No, as a home owner, I don't get any benefits from what you guys are charging for.

Amenities which you charge for like the park walk ways etc, is only used by us mortgage payers once in a blue moon. retired people who have already made their life or people jobless (because they don't want to work), use these space.

**#4021**

when we go in to book a venue or park for our time, IT IS NEVER AVAILABLE. I have an 84sqm dwelling and Im paying \*\*\*\*\* loads for it for the size similar to a 500sqm house totally bias. waste water is too high charged by Veolia. we pay orange tags on top of what we pay for in the rates for throwing rubbish in papakura, almost double to what you pay in mangere. Banks are killing young house owners like us with depends and on top, you guys are putting rates and other prices up. there will be a time in 20 to 30 years when everyone will sleep on the streets due to high demands from the government bodies. I can write a whole book on this but there's no use for writing that much when its going to get ignored anyways.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Yes, leave things how its going at the moment, the bigger YOUR (not the publics demands) demands are, the higher you guys will put the prices up for rates and all other fees. we don't want you to use money where no one goes like walk ways. Most of the current crimes happen in these place where people can reach to now a days. build motorways with 4 plus lanes to easy congestion. not by charging etc. to throw rubbish. costs are not going up but it is being put up and passed on to the public.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Yeah, they removed this regional tax and will charge \$50 extra on rego in 2 years, which calculates to be more than the regional tax. not really convinced of these plans. we can't even go on vacations to use these roads due to : Mortgage rates high, Insurance, fuel price, car maintenance, food prices, clothing, etc

**2a. Is there anything you would spend more on?**

please work on clearing the homeless people from the streets and

especially the window washers on the lights. they look scary when they don't have shower the whole month. Cops are not doing anything about it, but public believes that council has the power to move them away. they can get aggressive most of the time.

**2b. Is there anything you would spend less on?**

**#4021**

spend less on new walk way structure as people did walk on the same routes when there was no roads or walk ways.

### **3. Which options do you support for the North Harbour Stadium?**

Change the operational management

#### **Tell us why:**

man, use that \$33 million and develop a bigger stadium in a good place with much room. why are you trying to develop and make up an old lady who has done here time and you still wont be sure that its gonna hold people at its full capacity. be more creative and develop a good modern high tech stadium like in Drury where there's a lot of land available. this will give you more ideas plus good collection when a crowd of 20000 to 50000 come in there.

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#### **Tell us why:**

even if you go ahead with this project, its gonna get completed after our time on earth.

### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

#### **Tell us here:**

nothing to do with me on here.

#4021

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Let me elaborate on something. Your overhead cost is too high.

please who don't know how to speak proper English are employed by Auckland council and over \$80k based per year. we have no benefits or any idea on to what you guys would do with this money.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Just put the rates down. when rates go down, house prices (\*\*\*\*\* houses what its double worth now)will fall and inflation will go down.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

for those who might struggle to connect with council or others in the community.	
Continuing our environmental work through tree planting, parks restoration, supporting volunteer pest control and planting groups and helping community climate action through our Climate Activator.	
Planning for how our parks and open space can respond to growth, making the most of what we have, balancing different uses and connecting green spaces together.	
Supporting our community groups with funding, information, learning new skills and building their capability and networks.	
Settling in at the new, medium-term location for the Pt Chevalier library and continuing to investigate what the long-term library solution might be and how we will fund it.	
Working with the community on activations in the Mt Albert Civic Square.	
Making our parks rubbish-bin free to minimise waste and improve environmental and climate outcomes.

## Submitter details:

Organisation (if applicable):

Local Board: Papakura

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Nothing to pay more money we can’t afford anything else because we receive lower income and also not enough benefits for those who is unwell and have a disability health.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I want to pay less rates and the water. Thanks.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I agreed to add more roads because is to many car's vehicles and trucks and vehicles.

**2a. Is there anything you would spend more on?**

Spend more kids school, and the health of the people.

**2b. Is there anything you would spend less on?**

Spend less is the petrol and gas and rubbish bag and tag.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I'm not worry about that.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

Because I'm not sure.

**#4136**

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

I don't worry.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

Because the council is looking after our community.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

I'm not sure.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

#4136

I agreed to keep it in to the council because to cut down the payment for the ratepayers.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Do not support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Do not support</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>
<p>Re-introduce <b>recycling charges for schools.</b></p>	<p>Do not support</p>
<p>Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.</p>	<p>Do not support</p>

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

Support most of the proposal

**Tell us why:**

The government's management capacity is insufficient, and there are serious delays and waste. The government should consider improving its efficiency instead of asking the people for higher land taxes.

naming) and Te Korowai Papatuuaanuku (environmental restoration).	
Develop “Franklin Community Occupancy Guidelines” to inform decisions on council-owned facility leases, including leasing charges.	
Find ways to reduce Franklin’s maintenance costs e.g. by replacing lawn with eco-sourced native trees and reducing or relocating public rubbish bins.	
Progress the development and delivery of the Franklin Paths Programme.	
Deliver a refreshed approach to enabling young people in Franklin to access services and participate in their communities.	
Progress a Pukekohe Cemetery memorial project that acknowledges the unmarked graves at the site.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More family orientated community events. These have a huge impact on wellbeing and happiness as well as giving young people something to with their time and a reason to respect and look after their community. Encourage respect and community and everything else can be dealt with as it is.

**#4259**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Forget about public transport upgrade that only benefit the minority and stop spending so much time and resources on road upgrades that aren't necessary. Focus on the present and the future will be better in return. At the moment you are focusing too much on future proofing and the present is becoming unbearable to live in.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

As above. People should be trying to stay local and not travel so much. I don't know why the council are spending so much money on enabling the transport network to grow so much when it should be discouraging it. Spread out not up.

**2a. Is there anything you would spend more on?**

As previously said

**2b. Is there anything you would spend less on?**

As above

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

Not my area, never been there, I have no idea about it.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

Had enough of reading so didn't read this bit. To disappointing seeing the way the council is thinking.

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

As there is no box to put a suggestion in 1 A, I put it here.

**#4291**

Why not have a uniform rate increase of 5.6% which, over 4 years, comes out the same as your current proposal. It would be much easier for those of us on a fixed income in retirement to manage a more constant amount.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

There are massive saving available with some bus services, more than is proposed.

Also, part of the current general fuel tax, 66cents per liter is designated as "Local Authorities Fuel Tax". Why not make a real push to get some of that which is already designated for your use?

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

Yes, There is excessive use "Traffic Control" vehicles and cones for any particular job, and unnecessary staff for this as well. A portion of Great South Road South of Papakura has recently been worked on, and just last Sunday a control vehicle was parked at the end of a line of cones with a driver in the seat and 2 people leaning against the front of the vehicle; - probably getting double pay for Sunday work! On one side of the same stretch of road, the curb was replaced, as the new "black-top" surface would have meant the run-off water, would have had to trickle down about 50mm onto the old curbing! - A total waste of time, effort and money as far as I can see.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

This facility is being under-utilized and my 2 chosen choices working together make sense to me.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

One way to improve profitability of the Port company, is to make the port workers share-holders in the operation, - like Tauranga Port have with the result it is one of the best operating ports in the near north.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Why does it have to be one- or the other? why not split it 50/50 between the two, with both areas having a gain?

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No

**#4989**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I would support more pedestrian and cycling initiatives.

**2a. Is there anything you would spend more on?**

Pedestrian and cycling initiatives.

**2b. Is there anything you would spend less on?**

No.

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

I don't use North Harbour Stadium often (if ever), but I don't believe that the land around it should be sold if it can be used.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#4989**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

I think allowing the public use of these wharves is a good idea.

**5b. What option do you prefer for Bledisloe Terminal?**

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

**Tell us why:**

Same as above.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Do not support</p>

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

### 2. What do you think of the transport proposal?

Support most of the proposal

**Tell us why:**

Concentrate on continuing to improve public transport options to continue to help encourage use of the options for wider access and use.

**2a. Is there anything you would spend more on?**

Public transport. Smaller buses in suburbs reducing large buses where possible. Increase availability across the networks

**2b. Is there anything you would spend less on?**

Limit work on streets to what's necessary. Reduce the numbers or orange cones on works might save millions. Make the most of current parks & city open space to defer any new developments.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Until a solid alternative shipping solution is made there can be no change to port operations. Adding more heavy trucks to an already congested road network is not viable. Use more rail, night cargo trains & then truck from further out of the city centre.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

As above. A whole project/solution needs to be planned first.

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

Average. Needs more thought & support to improve vibrancy. Eg: develop the Village Green, make old plunket building a cafe with proper toilets; would be well supported as the park currently is. Redevelop Roselands, it is old tired and uninviting. Freshen the Cenotaph area so people can see pause & contemplate there.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	

#5273

Re-introduce <b>recycling charges for schools.</b>	
Continue the planned roll out <b>of rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	Support
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#5276**

Do not support most of the proposal

**Tell us why:**

we need more cyclelanes and public transport. This government has shown no sign of funding either and has already sought to cancel progress on some, like a harbour crossing, for the sake of saving money.

**2a. Is there anything you would spend more on?**

A dedicated rail line to the airport. Greater connection of all existing cycle lanes. A second harbour crossing. Better focus on parks as a patch of grass or a set of swings surely can be done better.

**2b. Is there anything you would spend less on?**

building more motorways or roading upgrades that only result in more lanes or dynamic lanes.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Option 2 results in the most fundamental change to north harbour stadium that clearly desperately needs a huge improvement. Also improving facilities for the community suits the area better with a potentially waterfront stadium on the cards.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

**#5276**

losing an eventual key stake in AIAL appears as a very risky move, it would result in the airport being entirely privately owned and I doubt services would improve as that would be of no benefit to the shareholders at that point.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

if a waterfront stadium goes ahead, this area should be included as part of that precinct in the case.

**5b. What option do you prefer for Bledisloe Terminal?**

#5276

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

the cost is too high, the impact on ports of auckland is too severe and potentially the cost to shift POAL facilities could exponentially increase.

6a. What do you think of these proposals?

We know you value the community being brought together through free events which	Fairly Important

we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	
We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.	Very Important
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	Very Important
We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	Very Important
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Fairly Important

**Tell us why**

These are all good but there are still parks that could be improved, with better playgrounds. It seems that these are fantastic events or improvements to a singular reserve but surely more reserves can be done.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Put speed limits back to what they were prior to the last Govt and NZTA pushing for reductions. Remove speed humps where there have been no major issues in the past.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#5325**

Stop building cycleways, especially in the outer suburbs where they are hardly used.

Stop building unnecessary speed humps unless proven they are needed and will help.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

Cut expenditure on cycleways and speed limit reductions except where absolutely needed.

### **2a. Is there anything you would spend more on?**

Improved traffic light control so that going straight on a road gets a continual series of green lights when travelling at the legal speed. It seems like AT has a policy of ensuring that doesn't happen to back up speed limit reductions.

### **2b. Is there anything you would spend less on?**

Dual language signage

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Keep the PAYG scheme going. The proposals for a flat rate/bin size are outrageous and will not promote recycling. With the intro of the waste food bins in Papakura, I now only put my general rubbish bin out every 2 months minimum, costing under \$40 a year at current price. This will be a 500% increase in my cost, so I will now put my bin out every week no matter how full as I am paying for it!

7b. What do you think of our proposed priorities for Papakura in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Fairly Important
We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.	Very Important
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	Not Important

#5387

We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	Very Important
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Fairly Important

### 2. What do you think of the transport proposal?

**#5434**

Support most of the proposal

**Tell us why:**

Public transport is atrocious and I don't see anything suggesting that it will improve. All focused on central Akl. Many don't live anywhere near town but if we use public transport it takes us via town often costing us excessive time and multiple bus trips to get to destination, like work

**2a. Is there anything you would spend more on?**

Increase road speeds again, what nonsense reducing. Just increased congestion , now even if you leave for work at 6:30am queues are ridiculous, especially when there is no direct, easily accessible public transport to work

**2b. Is there anything you would spend less on?**

Reducing speeds

Councils were formed to provide essential services to the ratepayers in their area, such as roading, footpaths, water, sewerage, parks etc. But in recent years have branched out into such things as funding entertainment, etc. These are nice to have but when everyone is making cut backs in their spending because of economic pressures the council needs to have a hard, hard look at their spending and ask if they are getting value for money.

Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I am prepared to pay more rates for more active and responsive environmental regulation and restoration. I would much rather that the council continue to invest in and support these initiatives now, rather than having to pay even more in future years when the problems that we are currently facing have gotten even worse. For me,

**#5635**

improving the quality of public transport connections is part of this as I believe that that is a key part of how we become more climate-friendly. Therefore, I am also prepared to pay more so that better, more climate resilient and climate friendly public transport options are developed, introduced, and maintained.

**Tell us why:**

I am in full support of the focus on improving the quality and reliability of public transport, and making it more usable for more people.

The only other thing that I would say, is that if park and rides begin to be paid, then the bus routes that connect communities to train stations and other key transport hubs should be a primary focus, ie. ensuring reliability of service times, and that these times match up, so that passengers can be more sure that their bus will get them to the train that they want to catch on time. The increases in train service times that should follow the rail improvement project should help with this, I am sure.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I live in Papakura and live on the opposite side of the city to the stadium. I'm generally in favour of projects that make spaces more versatile and community-friendly, but I as I am not part of the community that would be served by such projects, I don't have any strong opinions on the issue.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

It makes sense to me to create something like this! I approve of the focus on climate adaptability.

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

My final comment is that climate change is the biggest concern for me, and I think that sustainability and climate adaptability should be at the heart of every decision that the Council makes in regards to the development of the city over the next decade. There is

no point investing in infrastructure and communities if these things do not consider how climate change will alter the landscape of sociopolitical and economic relations, as well as the physical places that we live in, in the years to come.

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

**Tell us why:**

Fair and balanced approach, can't have everything

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

Raised pedestrian crossings and traffic management

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

If its underutilized then open it up to more people and groups to use it

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

Similar to the super fund where money can be used wisely and make a return

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**#5642**

**Tell us here:**

Own the asset but lease it out sounds fair, the port doesn't sound like its managed well so if its private it would have to answer to shareholders

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Build up a fund then the returns can be used

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Reducing the wharf size makes it a less profitable business. We need less truck movements into Auckland, not more

**5b. What option do you prefer for Bledisloe Terminal?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More money for the construction of playgrounds in South Auckland, and higher funding levels for our Libraries, Pools, Museums and other public goods.

Also, higher investment in public transport, with free public transport the goal.

**#5678**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Investment in roads and car parks.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Despite the cowardice and pettiness of the central government decision, it is important for Auckland to continue to invest in our transport network.

**2a. Is there anything you would spend more on?**

Public transport, especially rail.

**2b. Is there anything you would spend less on?**

Roads and services for cars.

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Usage of some land sales to upgrade specific council investments, like this, is wise

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#5678**

**Tell us why:**

A cash slush fund of this type will immediately be spent by a future council.

This is stupid beyond words, the people proposing it are ignoring history and human nature.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

A lease of the port will involve effective sale, because any acceptable lease will be extended at the convenience of the lessee. This is utterly unacceptable and the small benefits are massively outweighed by the disadvantages. Doing this to create a cash slush fund is idiotic.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The Auckland Future Fund is the most stupid proposal ever put forward by any local politician in my lifetime and should not be seriously considered for any funds

**4d. Do you have any feedback on any other part of the proposal?**

### Tell us why:

North Shore needs this stadium. But it needs to be affordable to those who want to use it

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### Tell us why:

**#5735**

airport shares are an asset for future Aucklanders to benefit from. I don't agree with a 'fund manager' having the authority to sell them.

i do agree with establishing an Auckland Fund.

these are 2 seperate issues and should be treated as such

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

I don't want to see yet more of NZ in private, possibly overseas hands.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

it is one way of funding the AFF

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

make better use of unused waterfront land.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

#5735

**Tell us why:**

Auckland is a harbour city. Previous development along the waterfront has improved the city, encourages people into this space to live and play.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

we need a port that has easy access to Auckland our biggest city.

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.	Support

**6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?**

Franklin targeted rate-agree

pool fees- lower socio economic areas need pools at low costs and these should be subsidized where necessary.

venue hire-lower socio economic areas should be charged less for venue hire. I do NOT agree with a baseline fee

## Papakura Local Board Priorities

### 7b. What do you think of our proposed priorities for Papakura in 2024/2025?

I support all priorities

#### More specifically, what do you think of each priority we've listed above?

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Very Important
We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.	Very Important
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	Very Important
We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	Very Important
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Very Important

#### Tell us why

we are a diverse community with a high Maori population, low socio economic areas and a growing business district. The local Board priorities cover all of these.

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

agree but would like to see more support given to the older established suburbs in the Local Board area. I would also like to see considerably more funding come to Papakura which has seen a rapid growth in the rate payer base for our our community..

**8. Do you have any other comments?**

I am concerned that the number of Councilors representing us may be reduced.

I do not want to be amalgamated with Manurewa Local Board. Papakura has a very distinct urban/rural population and very different needs to Manurewa.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Finishing Road works

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Silly spending on \*\*\*\*\* we don't need

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would love to have more money be put towards study spaces in libraries, and also better public transport.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6014**

I think increasing speed limits and building more roads is unnecessary especially if we get better public transport.

## 2. What do you think of the transport proposal?

Do not support most of the proposal

### Tell us why:

I really like the idea about public transport but I think stopping pedestrian crossings and cycle ways is a really bad idea. Putting in more cycle ways encourages people to use active transport and also both the pedestrian crossings and cycle ways make it much safer for people who prefer to walk/ride a bike. I think you could cut the spending for network optimisation for this to work.

### 2a. Is there anything you would spend more on?

Cycle ways and pedestrian crossings. Especially pedestrian crossings because it is so much safer to cross the road at a pedestrian crossing and for people with disabilities it is so important. I think stopping these is a really bad idea because they're both vital safety features of the roads.

### 2b. Is there anything you would spend less on?

the network optimisation point.

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

### Tell us why:

I think redeveloping it would be a waste of money - although I don't really know because I've never personally been to the stadium.

**#6014**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

I think you could make more money this way. Also selling the shares might be a good idea because Air NZ isn't a very sustainable or ethical company.

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

We need the money to fund public transport and safety things around Auckland.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

#6014

**Tell us why:**

We probably can't afford it.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

I think it is important for shipping things to and from Auckland.

**6a. What do you think of these proposals?**

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I am disappointed that there is no indication of providing more housing ie council flats at cheaper rents for out elderly. Are you able to allocate funding for that and/or a hostel for homeless to stay overnight safely? Please.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6051**

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

Public transport needs equipment to be maintained and serviced regularly so we do not have unplanned stoppages where public have to find other ways to get home.

### 2a. Is there anything you would spend more on?

Buses in areas that have higher incidence of elderly and solo parents. Sick of seeing woolworths trolleys around local streets. New world had cameras so their trolleys never get taken away.

### 2b. Is there anything you would spend less on?

Salaries for Auckland Transport. Lowering speed limits is no maintaining roads. We need shoulders on roads, road signs to be visible etc. Where is ratepayers money going?

## 3. Which options do you support for the North Harbour Stadium?

I don't know

### Tell us why:

I don't live in that region so have no thoughts on how residents there feel.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	As proposed
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Mandatory dog desexing and enforcing safe ownership of dogs, meaning no chaining, caging, abuse or neglect and enforcement of people who don't comply.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6054**

Less advisors and middle management so funds go to things like fixing pot holes and improving public transport.

## **2. What do you think of the transport proposal?**

Do not support most of the proposal

### **Tell us why:**

Improve the roads and support remote and flexible working so people aren't stuck in peak hour everyday. Bus lanes and public transport have proven to be ineffective and unreliable which is why people don't use them.

### **2a. Is there anything you would spend more on?**

Improving and expanding the roads for traffic.

### **2b. Is there anything you would spend less on?**

All these new projects that never go anywhere.

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

### **Tell us why:**

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### **Tell us why:**

**#6054**

We need to keep the airport as a kiwi owner enterprise. It does need upgrades.

**4b. Which option do you prefer for the future of Port of Auckland?**

I don't know

**Tell us here:**

Mandatory dog desexing and enforcing changes to the animal welfare act to support people looking after animals.

This is an ongoing and increasing issue that never seems to be addressed.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Increased resourcing and support for community organisations whose outcomes benefit the community in which they serve and the people can prosper and thrive across the core primary areas: financial literacy - education on how to manage your money; housing affordability - education on home ownership; food security - education

**#6116**

on how to grow your own kai as a community collective; meaningful employment opportunities - the living wage being the minimum.

Build conference facilities in the growing urban centres in North, South, East and West as most of the people live outside of CBD.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Less art installations, in my town there is an art sculpture of a whale's tail. What is the narrative or even purpose of this installation? No new conference centres in the CBD - if our rates pay for it, and most ratepayers do not live in CBD, and we can not access it because it is too far away, then why build it? Investment should be in those things that will benefit the ratepayer. Less development of central Auckland CBD area - we should be investing in facilities in our large urban centres in North, South, East and West Auckland.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

However, do not think it is necessary in the next 10 years to invest in rapid transport. I fully support continued investment in things like raised pedestrian crossings as this is a safety on our roads feature, in particular for our children who uses the crossings close to their schools. I also support that we lease the ports - we still own it, but just leasing it out to generate income.

**2a. Is there anything you would spend more on?**

Yes, raised pedestrian crossings as noted previously as these are a safety feature on our roads, widened roads in those high traffic areas where the roads are very narrow, more bus services to railway stations, more support for our significant cultural events such as Polyfest.

**2b. Is there anything you would spend less on?**

As mentioned earlier, spend less on art installations and building new conference centres in the CBD.

**#6116**

### **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

#### **Tell us why:**

If the stadium is being underutilised, attendance is low perhaps it could be because the community can not afford to go there. If you redeveloped it into a multi-functional space where there are lots of meeting areas, and change the operational management to target specific audiences for each new area, this will help increase local usage and attendance as most times we would not need to access the whole stadium.

### **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

#### **Tell us why:**

If there's one thing I have learned in life about assets, shareholdings - once you sell it, it's gone. Why can we not lease our AIAL shareholding and lease monies goes into the Auckland Future Fund?

### **4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

#### **Tell us here:**

As stated earlier, by leasing the operation of the port you still own it, but are generating income that can be transferred to the Auckland Future Fund.

**#6116**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Profits and dividends to be invested in the proposed Auckland Future Fund because we need to grow this fund to support our childrens' future.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Not sure on this one, suffice to say once you sell something, it is gone. However, when you lease it, the profits can be transferred to the Auckland Future Fund.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

Home owners are already faced with mortgage interest rate increases, and if you are in a development within a Residents Society you have to pay an annual fee. If the rates are increased, including water, power, phone, electricity, food, how can people afford to live if the wages/salary are not going up accordingly?

I agree to increased and fairer funding to local boards as our boards support local, on the ground, community initiatives, service providers. I support CCO Accountability Policy - to me accountability is the key word, and it should be a given. The difficulty I have is understanding who the CCO's are accountable to? Me as the resident/ratepayer, or Council as the owner?

Auckland council need to stop proposing that rates increases will take away all of there problems when there is a cost of living crises in nz. They need to utilise there other sources of income that they are \*\*\*\*\* bent on giving up on and selling. Talk to the people and ask them what they want ! We can't make ends meet yet imagination is at an all time high as well as housing developments, these are the areas that should be providing the extra money that the council thinks it needs as they are the areas that are creating these so called issues.

Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Absolutely NOT. I DONT WANT TO PAY MORE SO DONT EVEN BOTHER

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

DO NOT HIKE RATES !!!

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

BECAUSE I DONT WANT PAY MORE

**2a. Is there anything you would spend more on?**

Absolutely NOT SO DONT EVEN BOTHER.

**2b. Is there anything you would spend less on?**

COUNCIL RATES

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

UNNECESSARY SPENDING AND A COMPLETE WASTE OF TIME.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

UNNECESSARY AND POINTLESS !! JUST AN EXCUSE TO BLADY MILK MONEY AND INCREASE YOUR OWN WAGES

**#6430**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

<b>Economic and cultural development</b>	Do less
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Please ensure utility services are improved if not then maintained well.

Roads need to be improved and get rid of raised crossing/speed bumps. These damage vehicles and are not env friendly. But catch the culprits who speed.

**#6747**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Cultural events. These seem to be biased and not spread fairly. Plus times are tough and these are only extras that take up required infrastructure maintenance funds.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

These are well thought and necessary actions at this stage of our current situation.

Let us fix important things eg utility services and roading. Do not waste money on raised crossings, rather catch the speeding culprits.

**2a. Is there anything you would spend more on?**

Roading maintenance, cleaning berms and maintaining. Clean drains and cesspits to stop /minimise flooding.

**2b. Is there anything you would spend less on?**

Cultural events.

Raised crossings.

Street signs in other languages but English.

**3. Which options do you support for the North Harbour Stadium?**

Support the good existence of the Airport- it is an essential service to all.

Infact improve transport facility to airport.

**4b. Which option do you prefer for the future of Port of Auckland?**

Essential things must be prioritised- roading, berm mtce, rubbish control, better signages (signages can be in English only). Set recycling centres for glass bottles and plastic bottles that return cash.

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

Please review with better utilities being provided, roads and berms maintained, get rid of raised crossings, save on dual language signages and keep streets and roads clean and tidy.

**8. Do you have any other comments?**

People should not litter or damage our properties. Catch the culprits.

Increase Police presence and reduce criminal activities ( burglary and break-ins., etc)  
Protect our public.

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better waste management systems, to enable households to recycle more effectively.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#6918**

Not all regions receive the services they pay for (e.g. Waste, water, roads). I think where this is the case, those regions should qualify for refund similar to the tax refund - either to individuals or the community as a whole so that those in rural regions, as an example, are not paying for the city centre which we will never be able to afford to visit with the rising costs of doing so.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

I have never seen any improvements in public transport reliability or speed in all my years living in Auckland, so think that funding something different like cycle lanes might be a better approach. However, I do agree the cost of public transport should be kept low and support the network optimisation goals.

**2a. Is there anything you would spend more on?**

The train lines in particular need attention as they are so frequently impacted despite being so incredibly necessary and accessible.

I think it is more important to maintain control over council assets than to pawn them in for quick cash. I think a portion of the profits should be allocated to the Auckland Future Fund if possible.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	As proposed
<b>City and local development</b>	Do less
<b>Environment and regulation</b>	As proposed
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

- 1) literacy rate should be increased,
- 2) work with AT transport and avoid rash/ speed driving on all different speed zone areas.

**#7057**

3) Making sure cops are on the road especially where speeding happens, car noise pollution. (islanders area).

4) Stop modifying muffler (car exhaust silencer) which make too much noise and disturb people , pets, animals in our vicinity

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

1)Hunt those people and penalise.who draw/write nonsense using spray paints on the walls next to motorway. Does not look cool.

2)Avoid to many detours/ construction. People pay more money in fuel to cover the distance , people reach work late, and creates too much pollution to the environment.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

This will make people more reliable on public transport, start using it and reach the destination safely.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

We need to make some good money by using that stadium wisely.

Especially events, games which can generate money. People don't mind travelling to the statium no matter how far it is,

**#7057**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

#7057

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

Tell us why:

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

Not really interested in sports

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Keep as investment for the future

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Aucklanders should be able to have a say in their ports

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. ## Your feedback

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

**#7532**

Support most of the proposal

**Tell us why:**

If we want Auckland to be a liveable city we need to be able to get around it in a timely manner, that means investing in our public transport system. Cycleways are essential if we are going to get people out of cars, cycling on the current roads is not safe.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

The stadium needs to be more self-funded.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Other

**Tell us why:**

I don't believe Auckland council should sell all of it's interest in the airport, private ownership may lead to lack of investment or expansion which could negatively impact people living near to the airport. I believe establishing an Auckland Future Fund would be a good idea.

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7532**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

As I understand it the returns from the port is currently very low so retaining ownership but getting some financial gain from leasing the port seems to be the best option.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

The council's current financial position means it needs to funds to maintain existing services

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

As there would be no financial impact to the leasing of the port it would make sense to transfer them to the council to be used for something that would be beneficial to the public and would also, possibly, generate an income.

#7532

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Transferring it would seriously reduce the value of the lease and also increase traffic congestion if goods have to be brought in by road.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

I agree public transportation needs to be improved

**2a. Is there anything you would spend more on?**

no

**2b. Is there anything you would spend less on?**

no

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

its fine

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**Tell us why:**

its fine

**4b. Which option do you prefer for the future of Port of Auckland?**

**#7754**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

Transfer Bledisloe Terminal to council to be used for something else, that provides public benefit, within 15 years

#7754

**Tell us why:**

Should be used for public benefit

**6a. What do you think of these proposals?**

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Support</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Support</p>

### 2. What do you think of the transport proposal?

**#7863**

Support most of the proposal

**Tell us why:**

Cycleways are very important and should be kept on the transport proposal. We need to move away from car transport and move into more modern ways of commuting.

**2a. Is there anything you would spend more on?**

Cycleways, more rail lines

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I think the previously planned initiatives should continue, especially the raised pedx and cycle ways. If the media costs of a raised pedx are correct, there needs to be an investigation as to why, and a redesign done, not out-right cancellation.

Encouragement of public transportation use must continue.

If charging for Park and ride needs to happen, link it to tagging on at the station at the park and ride, and then tagging off at a distant station so users get a discount rate and people who just use it as a parking spot pay a very high rate.

Assist Kiwirail with track maintenance

### 2a. Is there anything you would spend more on?

Public transport in any form. Just getting 10% of vehicles off the roads will reduce congestion. Look at how easy traffic flows at certain times of the year

### 2b. Is there anything you would spend less on?

Adding lanes, that only works for a very short time

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

if population increases, or more events happen, it may well be needed

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

**#7969**

**Tell us why:**

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

While I support the leasing proposal, whoever leases it must have a large majority (eg 75%) of NZ ownership during the entirety of the lease period, even if this might reduce the amount gained. In this case, perhaps a lesser lump sum, followed by extra annual payments could be considered.

Consider a percentage of gross income from the leaser, especially if the port charges get jacked up past an agreed annual change.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

As population increases, extra port capacity may be necessary. Far more effective to deliver to Auckland, than to another port, then transport via road/rail to Auckland

Don't support any of the proposal

### Tell us why:

Its all wastage at tgis stage. People are not able to afford basic living thesecdays and you are talkjng about increased rates, taxes, etc. Not affordable.

### 2a. Is there anything you would spend more on?

Nothing at this stage.

### 2b. Is there anything you would spend less on?

Keep it as it is.

## 3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

### Tell us why:

This is not the need of an hour. Sounds like unnecessary spending when country is in recession already.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

### Tell us why:

This sounds like a viable option.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Get rid of services like AT Local, reduce performance events.

## 2. What do you think of the transport proposal?

Support most of the proposal

**Tell us why:**

### 2a. Is there anything you would spend more on?

Systems for targeted peak tolling for specific road user groups; i.e. heavy vehicles during peak times on heavily congested sections should be disincentivised

### 2b. Is there anything you would spend less on?

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

**Tell us why:**

### 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

AIAL is core infrastructure which Aucklanders' interests directly benefit from, through ownership.

### 4b. Which option do you prefer for the future of Port of Auckland?

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

waste collection; water infrastructure, buses, trainlines, cycling, maintenance of grounds, libraries, playgrounds.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Parades, business events, movie nights, festivals - they never go ahead anyway.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

More raised pedestrian crossings are needed - often I can't see people until they are already walking across the street. More cycleways are needed for people who can cycle. More dynamic lanes would be great.

### 2a. Is there anything you would spend more on?

Dynamic lanes, more connector services to the train. Trains with fewer stops (express to Newmarket).

### 2b. Is there anything you would spend less on?

reducing temporary traffic management.

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

I do not live in this area, but had hardly ever heard of it until now. Change of management could promote the facility and open for community use which would be good.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	As proposed
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

We would like council to remove rubbish tags . They are an additional cost in the current cost of living crisis. The rates are also going up so it’s not fair that some areas still have to buy tags

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	

#8583

Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	
Re-introduce <b>recycling charges for schools</b> .	
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We’re appreciative of Auckland Council playing a vital role s as the major provider of sport and recreation facilities. Our club is also well supported by Papakura Local Board which is wonderful. Without both of their support and investment, our community would not have opportunities to take part in sport and recreation in our area.

**#8898**

Football is rapidly growing.

- Growth: Football across the NRF region has seen considerable growth over the last 5 years. This includes an average of 4% per annum from 2019 to 2022 (during lockdowns) and 9% from 2022 to 2023.

- o Junior Growth 41% from 2019 to 2023

- o Girls and Women Growth 24% from 2019 to 2023

- After FIFA Women's World Cup 2023, early indications show this season's growth is similar to 2023.

- Pressure on current space: Demand and supply modelling as part of the NRF Regional Football Facilities Plan shows there is already a shortfall in allocated space, particularly for accommodating floodlit activity. This shortfall will only be exacerbated with the continuing growth. It is also providing some serious challenges in terms of the quality and sustainability of pitches.

- Pitch quality and sustainability: 2022 and 2023 saw a rapid rise in poor pitch quality restricting play and training across many sites. While NRF are working with Council teams to understand how adjustments can support better outcomes, without greater investment into this area communities will be limited in their ability to recreate through football.

Our club has been engaging Council & Local Board for over a decade regarding much needed additional lighting. Multiple times the lighting requirements have been agreed to in principle by all parties, only to be set aside due to lack of available funding. What is most frustrating is that the item doesn't stay on the agenda for the next round of consideration – it drops off and the onus is put back on our already overtaxed volunteers to push the case again, and again. Growth in Drury, Ramarama & Karaka is exploding, as is our club membership, but we'll have to start restricting membership & participation soon as we don't have enough space under lights to accommodate everyone. The additional requested lighting would see the lit space at Drury Sports Complex double, future-proofing us for decades to come.

The lights we do have constantly have blown bulbs, reducing light even further. Getting them repaired/replaced takes MONTHS. One field went unlit for three years before we replaced the lights ourselves. Lights that blow over winter are deferred for repair until summer when the ground is firm enough to support cherry pickers, then it doesn't get done because lights aren't used over summer, then suddenly it's winter again and we face another season with blown lights.

**#8898**

Turf was historically good quality, and the Citycare contractors are great for marking, moving & sanding, but nothing gets done about the uneven ground and rabbit holes which are causing injury to players.

#### Council Operations

- **Reviewing maintenance cost and contracts:** We fully support reviewing costs and contracts for sports field maintenance. Inconsistent quality and accountability need addressing to improve the usability of our existing facilities and to preserve these assets for as long as possible. In particular, Full Facility Contracts seem to have resulted in contractors maximising profit rather than quality leading to a poor return on investment for Council and community.

- **Support for Council Staff:** Councils five Maintenance Co-ordinators look after an average of 150 sports fields across 50 sports parks. This model is not sustainable and we are supportive of this team receiving more resource and more autonomy to make decisions that provide quality outcomes for pitches and sports parks. It is especially difficult in the far south of Auckland as parks are so spread out, Maintenance Co-ords don't have time to drive to them all, never mind time to walk the parks and identify issues.

Our specific challenges are rabbit holes, uneven ground and blown lights.

- **Better Systems:** Both the bookings and maintenance teams require investment into internal and public facing systems that help them function more effectively, reducing administrative burden and providing a better experience for clubs, community and field users. We are fully supportive of investment for these teams to see public facing renovation and maintenance information across parks as well as live bookings information and data.

- **Re-allocation of space:** We support the improvement in quality of the current sport park network to increase available use time however, footballs current growth trajectory means that we are likely to outgrow that space. We support a review to reallocate unused or underutilised sports fields to support the growth in football and to support our community in being active.

#### Key initiatives feedback:

- **Support for the LTP Funding Proposal:** We endorse retaining the Sport and Recreation Facilities Investment Fund, supporting an additional \$35m investment, and propose the additional funding be non-contestable and used to fund a range of community sport and recreation facilities including, but not limited to indoor sports facilities. This will be vital to developing the sports and recreation facilities Aucklanders want and need.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Events - nice to have but not necessary, especially in times of recession.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Finish all the motorway and main road works to get traffic flowing quickly again. Stop with the raised pedestrian crossings, they are expensive & pointless.

7b. What do you think of our proposed priorities for Papakura in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Fairly Important
We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the	Not Important

Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.	
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	Fairly Important
We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	Fairly Important
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Fairly Important

**Tell us why**

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

Good. We've had excellent support from Papakura Loal Board via Local Board grant funding. It has however been incredibly disappointing that our discussions about extra lighting have not progressed and that the approved suggestions in the Visitor Solutions proposal have been set aside & forgotten.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do more
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Encourage a late bird parking rate to stop people needing to drive to get early bird parking. With this then add the congestion charge.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less cycleways, less removal of carparking in the city.

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

#### 2a. Is there anything you would spend more on?

Ensuring the trains actually work at all times, have pick up points i.e for AT Local at the stations to take you home. At present in Takanini you need to drive to the station to catch the train - there are no buses close to my house in Addison and I do not feel safe / or close enough to the station to get there.

#### 2b. Is there anything you would spend less on?

Bike lanes.

## 3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

### Tell us why:

I would like us to be looking at more of an actual strategic approach to this - the idea of the waterfront stadium is much better and I can't think of any events I have ever gone to over there. Perhaps privatise it.

Across all of this I would like to see planning when urban growth goes in. One of the main issues out here in Takanini is that it has grown so much yet the roading infrastructure has not changed which has lead to massive traffic congestion.

for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools</b> .	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	Support
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. ## Papakura Local Board Priorities

7b. What do you think of our proposed priorities for Papakura in 2024/2025?

I support most priorities

More specifically, what do you think of each priority we've listed above?

<p>We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.</p>	
<p>We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.</p>	
<p>We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.</p>	
<p>We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.</p>	

**#9159**

Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.

from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Do not support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support
Introduce the <b>Franklin Local Board Paths Targeted Rate</b> of \$52 per SUIP (Separately Used or Inhabited Part) to provide increased investment in paths in the Franklin Local Board area.	
Change the <b>Rodney Drainage Districts Targeted Rate</b> to reflect public feedback and updated analysis of the benefits to properties and boundaries.	Support
Increase the <b>Waitākere Rural Sewerage Targeted Rate</b> from \$296.75 to \$336.80 (per year) for the 2024/2025, 2025/2026, and 2026/2027 years to maintain cost recovery in the three-year contract cycle, and avoid an annual subsidy of around \$117,000 from general rates, with the next cost review scheduled for the 2027/2028 year. 7b. What do you think of our proposed priorities for Papakura in 2024/2025?

I support all priorities

More specifically, what do you think of each priority we've listed above?

<p>We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.</p>	
<p>We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.</p>	
<p>We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.</p>	
<p>We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.</p>	
<p>Papakura has a talented and culturally rich community, and we will continue to</p>

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

<b>Transport</b>	Do more
<b>Water</b>	Do more
<b>City and local development</b>	As proposed
<b>Environment and regulation</b>	Do more
<b>Parks and Community</b>	As proposed
<b>Economic and cultural development</b>	As proposed
<b>Council support</b>	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

invest in revenue streams like keeping current assets, make better use of golf courses such as debt reduction and/or flood minimisation, allow more high density housing, look at congestion charging into CBD area, increase fines for bad parking, aim towards free public transport

**#9249**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

less Maurice Williamson

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

you need pedestrian crossing and cycleway investment, ridiculous thinking that we limit different modes of getting around, if i could get transported around quickly and cheaply I wouldn't use the car, and I use it all the time

**2a. Is there anything you would spend more on?**

better safer differing modes for getting around

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

#9249

considered that the shares are very good and you are dreaming if you think you going to get a 7% return, you can do that yourselves by investing in property/shares without paying truck loads of management fees

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

don't sell the ports, it's a winner when you have, and currently, great management and great staff, we are getting returns on it

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

and minimise debt

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

leave ports alone, very simple, alternative is \*\*\*\*\*

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Making public transport fit for purpose. I live in Papakura and can't take the train to the city for a show as the trains don't run back to Papakura late enough. I also work in Highbrook but can't get to my office on time using public transport after the school run because it would take 1.5 hours on 2 buses, whereas car takes 20-25mins.

#9256

My child goes to primary school in Papakura 2.4km away from home. Currently he would need to take 2 buses to get there and they would only cover 2/3 of the route. So it's impossible to function in Auckland without a car.

I would also like to see money spend on litter picking again. There used to be little vehicles that would sweep the roadside. Now all the litter gets washed to the road drains which are then getting blocked, causing flooding. As we can't seem to stop people from littering, then this seems like a reasonable preventative measure.

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

While I love the range of events supported by Auckland Council, this is where I feel we should cut back in favour of other services.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

Papakura is frequently gridlocked when there is an incident on the motorway. There needs to be better alternatives / contingencies for moving around the local and wider area without reliance on roads.

**2a. Is there anything you would spend more on?**

Getting people out of cars and onto bikes and public transport. It is great to see so many people using the Southern Path, though probably not enough to deliver the return on investment just yet.

**2b. Is there anything you would spend less on?**

Stop redesigning Queen Street! I've lived in Auckland for 16 years and every year there seems to be a new project to redevelop this area. Such a waste of money. I also dislike 'shared areas' for cars and pedestrians - it confuses everyone.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**#9256**

**Tell us why:**

I have no experience of the facility as it is far from where I live. If we are spending a large amount of money to maintain it, then it should provide return on investment somehow.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

The waterfront should be the main draw for Auckland CBD like it is in other successful cities like Sydney. Close to public transport links too - no brainer for entertainment development opportunities.

Through grants, support community-led events and initiatives that create safe neighbourhoods and promoting active living, sustainable practices.	
Support activities to increase social cohesion, neighbourly connections, better outreach to people from smaller ethnic groups and connect newer settlers to local services.	
Increase youth empowerment through supporting leadership and training programmes as well as prioritising youth engagement.	
Identify and promote 'Play advocacy' for local opportunities in projects that can provide spaces for play in places beyond playgrounds.	

#9288

Continue to support and look to increase environmental and sustainability projects to address climate change and environmental challenges through community-led projects and by working with mana whenua.	
Explore options for ways of delivering increased local economic outcomes for small to large businesses.

6a. What do you think of these proposals?

Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.	Support
Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.	Support
Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).	Support
Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.	Support
Re-introduce <b>recycling charges for schools.</b>	Support
Continue the planned roll out of <b>rates funded refuse collection</b> to the North Shore, Waitākere and Papakura in 2024/2025, and Franklin and Rodney in 2025/2026, replacing the current pay as you throw service, and consequent rates change.	Support

## Papakura Local Board Priorities

**7b. What do you think of our proposed priorities for Papakura in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.

We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of

Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.	
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	
We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	Do less
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

no

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

reduce wasteful spending. especially the wasteful spending at Auckland transport

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

I support most in theory. some of the current transport issues are from bad planning and implementing from the start. Major issues with cost Auckland transport pays for minor road works.

### 2a. Is there anything you would spend more on?

no

### 2b. Is there anything you would spend less on?

the actual cost of getting these works done

## 3. Which options do you support for the North Harbour Stadium?

Change the operational management

### Tell us why:

use the stadium for more international sports venues and concerts. have the stadium used to cover some of the operating costs.

## 4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**#9474**

**Tell us why:**

The shares belong to Auckland as a whole and covers some costs

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

port leased for 35 years, what happens after that? the company leasing the port land moves and the income is lost. the council currently got a \$20m dividend from the port. this covers a lot of council expenditure.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

should be used 50/50. half for current services and half for future.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

I don't know

**Tell us why:**

depends on what the council use for them would be. but these maybe required by POL in the future.

<p>Resume the <b>Natural Environment Targeted Rate (NETR)</b> and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species. This increases rates for the average value residential property by around \$20.04 and \$152.71 for the average value business property.</p>	<p>Other</p>
<p>Resume the <b>Water Quality Targeted Rate (WQTR)</b> and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs. This ensures that we can continue to fund the water quality improvements in harbours and streams across the region, at a lower amount for next year than previously planned. This reduces this rate from what was previously planned for the average value residential property by around \$6.53 and \$17.10 for the average value business property.</p>	<p>Other</p>
<p>Broaden the description of bus services funded by the <b>Climate Action Transport Targeted Rate (CATTR)</b> to reduce the need to consult each year for minor changes to the bus programme (any changes to the settings of the CATTR would still require consultation).</p>	<p>Other</p>
<p>Discontinue the <b>Long Term Differential Strategy</b> which gradually lowers the share of general rates paid by businesses and raises the share paid by other ratepayers. We also propose to raise the share businesses pay of the NETR, WQTR, and CATTR to align to the general rate.</p>	<p>Other</p>

## Long Term Plan 2024-2034 Auckland Council

Quote “focus on doing more with what we already have.”

- As we have all been doing exactly this, our local government needs to lead by example.

Quote “Let’s fix what is broken, finish what we started, and optimise what we have.”

- If it isn’t broken, don’t fix it.
  - Rather than fixing and spending multitudes of money on things that aren’t broken for example, some roads or infrastructure (council owned buildings with renovations), spend the budgets on things that actually need attention to such as stormwater/drainage issues.

Quote “we want Aucklanders to have their say”

- Please listen to all Aucklanders who have their say not only in this consultation document but also throughout this term of 2024-2034 where implementing changes and actioning them accordingly coinciding with quote “if what we are doing doesn’t fix those problems then we stop doing it.”

### Questions asked:

- 1) What makes a good Auckland and what is the role of the council?

The role of council is to deliver to the essential services Auckland needs to continue running safely and effectively. A good Auckland is where the people, Council and assets i.e. roads, parks are united and running smoothly or in harmony. This includes not rising prices or rates too much as this will affect the livelihoods of rate payers/owners considering what everyone is already going through with inflation, putting everyone into further debt and increasing further issues related to housing crisis (abandoned houses because they cannot afford to buy or continue to pay), poverty, welfare concerns (including mental health) and financial hardships.

- 2) What are the things you want to ensure that Auckland is beautiful, thriving and safe?

Everything that is happening now. More so cleanliness and activities. Maybe to continue delivering certain bigger events, a small koha can be implemented, for example, movies in the park could maybe be \$5 per family or something along those lines but nothing where the event with resources etc will be wasted but families will still be able to attend and not pulling too much out of their pockets.

- 3) How do we make council activities and services affordable and fit-for-purpose to meet the changing needs of our communities, both now and into the future?

Working with what we have, having our senior staff members continue the mahi they are doing. Continue delivering these services and activities as best as we can without too many high financial implications. There is possibility where you may find people whom may be happy to koha or donate their time or resources for certain services or activities rather than

spending thousands on bigger companies to fulfil said activity. Simply put the call out for expression of interests or SOS, maybe even offering a koha for their time and expertise however will still be greatly smaller than bigger companies.

- 4) What actions will ensure we have a thriving economy that supports growth and opportunities for all?

Using the council's significant assets more effectively and if assets or council owned buildings are not being used then to either sell or lease.

- 5) How do we improve Auckland's long-term financial and physical resilience, including recovering from and preparing for, severe weather events?

Using what council already has, pausing on non essential projects and focusing on the needs or essential projects and services that Auckland needs to stay afloat.

- 6) How will the council support Aucklanders and the region to reduce greenhouse gas emissions?

Love the vision and priorities! (page 18)

- a diverse and dynamic city, which honours the place of Māori and includes a rich array of cultural and sporting events, museums, galleries and built heritage.

**Potential motion** – more community days for staff in council to support LTP with environment and regulation proposal

Love the central proposal (page 22)

- Economic and cultural development – what is does this include for Māori in terms of programmes and events that are being subsidised or free

### **Pay more scenario**

- If there are projects that do not affect health and safety or our environmental goals, they can be placed on hold to further reduce spending and focus more on needs.
- If wanting to go to a park or community centre, people can travel to the one nearest to them rather than, for the time being, spending more money that we do not have or making that a targeted rate for that area.

### **Pay less scenario**

- It's funny how it is worded forming a scare tactic of choosing this although quoting using what we already have. You could pull funds or budgets from areas where they are not being used effectively or being wasted on and implement them in water or transport initiatives.
- Why can you not take full advantage of the governments co funding, it's there with proposal and can be used for priorities including initiatives with reducing deaths or

serious injuries and investing in support for response in growth challenges in housing areas or waste water overflows

## Transport

- (Referring to Central proposal) - Opposed to 'time of use' pricing scheme as we shouldn't be charged more for getting to our place of work (that is necessary to make some sort of living, pay for expenses we already have and still struggle), medical appointments (doctors, specialists or hospital) etc. We are already paying enough through gas, taxes, living expenses and is already hard enough to live. If this is implemented a lot more families would struggle even more and extends issues we are already facing with beneficiaries, housing crisis, homelessness/poverty, children working to help their parents and more. A third of our incomes are already going on taxes, how is this fair!!! Would be working for nothing!!
- Very opposed to toll! We would then be paying double including gas just to get to the place of work. Give more access to e-scooters or e-bikes and allow a bit more freedom of using public transport including in rural areas. This is very unaffordable for our communities particularly our lesser communities. What about for people who don't usually use the roads or would only use them once so often for health care etc, why should they have to pay when not only are they already going through a medical issue along with crisis after crisis but will have to worry about paying more on top of medical bills and gas to get to the place that help them stay alive/specialist appointments.
- Continue with City Rail, better public transport.
- (Referring to Central proposal) - If you are going to charge for Park and Rides ensure this does not pull hefty amounts out of the pocket. Could do the same as parking machines in the areas however also introduce monthly or yearly parking schemes to accommodate both casual and regular users.
- Preferred Central Proposal

## Water

- The Watercare proposal to increase water/wastewater services and growth charges by 25.8 per cent next year is absurd and I don't even live in that area however know if this comes to be, Veolia will follow suit and again puts further constraint on people struggling to pay bills that already exist.
- Stick to the important projects like stormwater and water quality which are essential for health and safety, others like extensions etc can either be placed on hold or delayed or gradually worked on for a longer period of time for cost savings and used in the other essential areas.
- Preferred Central proposal

## Parks and community

- Whatever can be reduced or limited however supporting our communities which is most important is essential.
- Local board funds can continue to be spread out equally to deliver services and funding

- Central proposal is favourable

### **City and local development**

- Central favourable

### **Environmental management and regulation**

- If ratepayers are using their own means of composting, food scraps bins should be removed and rates charges for food scraps bin should be removed also especially as they won't be using that service.
- Pause on recycling standardisation as this will implement cost savings and add increase in budget where could be used for essential services. The current standardisation isn't working and the recycling services provided previously is much more effective. If there the separating of dirty to clean recycling or removing caps or lids is needed, instead of disposing of the entirety of the affected recycling, this would create more job opportunities where more staff may be needed and reduce landfill further as at the moment if an entire truck load of recycling is contaminated, this is being dumped at landfill. Since this scheme, there is more waste going into bins therefore more into landfill creating more waste

### **Economic and cultural development**

- Māori cultural festivals or events should be automatically funded too such as Matatini, Matariki, Waitangi and educational events.

### **Council support**

- Selling properties or leasing them out of which aren't being used to cover costs will bring in revenue that can be used for things that require attention.

### **Major investments**

- Have the best interests at heart for our community not for profit.
- I think Auckland Future Plan us a great idea however don't have this impact ratepayers or our community of whom we are trying to protect, nurture and support. Our community who, pay for and essentially keep Auckland thriving.
- As long as the plan is used appropriately with precautionary actions, amongst helping our community, budgets/savings and reducing debt, it is a good plan.
- Selling all shares entirely won't work as council is needing and relies on these investments without affecting ratepayers and communities too much.
- Climate change

### **Climate change**

- The use of te reo Māori is already significantly important and imperative to leading the way. Fantastic.
- Council has been doing fantastic work so far with climate change and actioning them rather than just saying. Fleet cars being eco would be great if not already
- The risks mentioned are great starting points to manage/implement plans to counteract these risks
- Keeping the connection and conversations with mana whenua on how to manage and implement positive change is imperative not only protecting our land by having relationships with the essential owners of our land
- (probably more for central government) I think to help with climate change, it would be fantastic to see lower income whānau or communities have access to either discounted or gifted economic vehicles as the richer communities can clearly pay for these. Would also empower poorer communities to contribute to climate changes in a positive way and feel a sense of relief that they are doing this whilst fixing a majority of other issues they are and have been facing

### **Leading and influencing better outcomes for Māori**

- All are fantastic! Please continue to action/implement and support te ao Māori.
- Te reo Māori signage
- Walk the walk not just talk the talk.
- Thank you for including Māori relationships and initiatives in the plan. This will bring up the stigma of trust and confidence in local government that is currently lacking.
- If Auckland Council continues this way, you will definitely be a leading by example of what to do rather than who to follow.
- Do not reduce anything Māori or essential for living as this will diminish the trust that is left.
- Effective, participation, rangatahi, Kaitiakitanga, wellbeing and support, bilingual te reo Māori signage Papakāinga, brilliant
- Honouring Auckland Council's commitments and obligations under Te Tiriti o Waitangi!

### **Responding to housing and growth**

- Affordable, sustainable and inclusive of iwi/hapū whakaaro
- Recovery – essential repairing of stormwater assets including improving current stormwater systems and maintaining them to have a better or lesser outcome of another potential storm event
- Support for those whom were affected by property loss or damages affected by the previous storm events

### **Rates**

- I think the Central proposal for the rates is more reality. The lesser is great for ratepayers however not so great for services, investments etc and the more proposal although would be great for a lot of things assuming that's what it would be used for, it significantly would affect ratepayers contributing to living crisis and livelihoods.

- Businesses should be charged for waste services as they are affectively and more significantly contributing to the waste abroad. This would be great for council in gaining extra funds to use in essential services.
- I think there should be a cap for lower valued house and higher valued houses with rates increases as we don't want a lowered valued home rise to say 10% and a higher valued home to 7% rather a set amount for lower valued i.e. 7-8% (more often owned by lower income whānau) and higher valued property capped to 10-15% (more often owned by higher income whānau). NOTE: these figures are clearly an example.
- Businesses should be charged the same if not more on rates. Maybe I don't understand the 30.98 per cent of general rates as is implying that is the percentage of rates comparable to residential properties of 100% rates payments
- Businesses should be inclusive of targeted rates where their area relates to. Climate change being one to uphold climate risk prevention and thinking of safer ways to continue business whilst decreasing risks and climate impacts
- I think businesses do have direct impact on their surrounding areas including community services and parks as this could initially be the reason why they chose the location where they knew communities will be greater or be out more
- Effectively businesses should be charge more rates especially taking into affect of their tax return anyway where a normal household may not even get a decent tax return if any yet pay a third of what we earn for taxes, have little to survive and meet basic human rights/necessities
- Increasing residential rates and decreasing business rates is completely unfair and unethical
- Agree with the WQTR for the areas required being extended as water is a basic necessity with quality drinking water as well as keeping our waterways, rivers, lakes clear of pollution - not increase further but as long as this can be maintained and be effective
- Agree to NETR extension as a requirement for our environmental cleanliness and maintenance – same as above

### **Other changes to rates**

- Is there potential for implementation of rubbish collection for the Rodney and Franklin areas where there would be general waste targeted rates added and increase budgets for council rather than those areas depending on two or more different companies to supply waste services

### **Other matters**

- North harbour stadium precinct
  - No to redeveloping or demolishing the existing building as that alone cost millions that can be used elsewhere to invest in events gaining revenue there and better use
  - Could sell some parts of the land/ground or even lease or hired out (similar to halls or community centres or sports fields) and keep main stadium/grounds would potentially help with revenue
  - More external funding and advertisements would help including greater use by the community

- Could support local community/cultural groups or events that North Shore or other places around Auckland would like to hold there – put the word out
- Make improvements/renovations and revitalise on the essential needs or repairs the stadium needs rather than spending millions to demolish and millions to rebuild
- There is a potential that neither works either way try a plan with the existing main building/grounds first
- Keep mana whenua and local iwi involved/engaged in the plans and consultations

### **Tūpuna Maunga Authority**

- Very smart to bring in and establish Tūpuna Maunga o Tāmaki Makaurau Authority

### **Local boards**

- Fairer funding, absolutely to address inequities and move with the time.
- Some movement is better than nothing
- Greater moves is done in small doses and actioning these plans
- Central government should just give the funding as is essential for the operational (including everything else in the proposal) of a city rather than continuously charging people/everyone else in general. In my humble opinion, those in higher positions should sacrifice some things rather than make everyone else suffer
- Supporting Māori Kaupapa, mana whenua, aspirations, development, iwi, marae, whenua, should be in all local board priorities
- Budgets and local board proposals do look good so far assuming each communities have been listened to with what the community is needing rather than capital gains

### **My view on the proposed Long Term Plan**

- Instead of continuously trying to pull more money out of peoples pockets that are barely there in the first place, how about have cuts of less pay increase for people on higher pays, take it from expenses that aren't necessary like funding your meetings or travel for meetings, take it from projects that either aren't working or are not necessary, ask Central Government to pull their head out of their A and fund what is necessary for the largest city in Aotearoa instead of again taking/stealing from the poor. Instead of making the rich richer and the poor poorer, put your money where your mouth is, use the budget for good not your own good and help everyone live comfortably.
- Focus on health and safety, historical and sacred places/buildings/monuments, areas that need the essential services and critical assets.
- Where services are contracted, we want assurance from the council that contractors will be required to follow best practice employment requirements, health and safety best practice, and a commitment to workforce and career development and job security.
- Keeping employees, their institutional knowledge and their organisational loyalty is vital to ensure that local government organisations can meet their responsibilities and keep providing high levels of service to our communities. The council's financial planning

must allow for fair pay that makes the council an attractive place to work and keeps up with increases in the cost of living.

- The living wage should be a bare minimum that all workers – both employees and contractors – should be paid above. We want the LTP to ensure enough funding to pay workers at least a living wage.
- We recommend placing a priority in the LTP on working with the PSA to identify and close the gender pay gap.
- Safe workloads are critical for the health and wellbeing of workers, and the sustainable functioning of council services. Council decisions about workforce spending need to allow for sufficient staff numbers to meet the volume of work required without resorting to unsafe workloads.
- As part of an equitable approach to reducing emissions, PSA supports the Free Fares campaign coalition's call for free or subsidised public transport for some of our most vulnerable people. We encourage the council to consider its own public transport subsidies over and above what central government already provides.
- The positions we advocate for in this submission – around fair pay, adequate resourcing, and ambitious climate action – cost money. We believe these costs are justified, and that investing now is likely to be more affordable in the long run. We support raising rates to let the council fully fund its public and community services, pay its workers fairly and resource them adequately, do its fair share to mitigate climate change, and maintain essential infrastructure rather than making future generations pick up the bill.
- Where is the money the government already has, what is our tax being spent on?!

### **Keeping public services in-house**

I believe in public services for the public good, not private profit. While councils have a role in setting conditions that support local private businesses to thrive, this is not the same as passing on ratepayers' money to fund private profit through contracting out. Local public and community services should be delivered publicly, by organisations that are accountable to their community and not to shareholders. These services should be kept in-house rather than be outsourced or removed to a Council-Controlled Organisations. In our view:

- Core public and community services work should be done in-house.
- Work which increases capability and learning should be done in-house.
- Knowledge that is organisationally relevant should be conducted in-house.
- People with new knowledge and skills currently not integral to the organisation but relevant on an ongoing basis should not be contracted in but should be employed.
- If working conditions are undermined by the use of contractors and labour hire they should not be used.
- The focus should be on high-quality services and equitable outcomes.
- Councils should regularly scan the horizon and consider the skills mix they may need for new projects or government priorities to ensure they upskill people rather than contract out.
- Where the intention is to devolve services to genuine not-for-profit community/iwi provision this requires a just transition for workers that builds capability and delivers jobs with decent and equitable pay rates and good conditions.

The Australian Productivity Commission has found that outsourcing “can set in train powerful negative multiplier effects which induce displaced council workers to leave the area, thereby lowering population, reducing economic activity, and threatening the viability of other public and private services, like local public schools and banking facilities. In other words, the social costs attached to outsourcing can readily exceed any short-run cost savings to council service provision.”<sup>1</sup>

At the same time, outsourcing public services often results in worse outcomes for workers and communities, inadequate investment, and substandard outcomes for communities. A 2022 paper from the University of Glasgow and the European Research Council indicated that from around 700 identified cases of re-municipalisation since 2000, “overwhelmingly, in those cases where we have been able to identify motivations, the failings of privatisation are to the fore. A decrease or absence of improvements in the quality of service provision is the leading motivation for deprivatisation (45 per cent), followed by the desire for greater cost reductions (36 per cent).”<sup>2</sup>

### **Resourcing fair pay for council staff**

Keeping employees, their institutional knowledge, and their organisational loyalty is vital to ensure that local government organisations can meet their responsibilities and keep providing high levels of service to our communities

It’s important that the Long Term Plan accommodates fair pay and good working conditions for staff over time. That means allocating enough resources in budgets to increase staff pay to keep up with the cost of living.

### **Living Wage**

The PSA is active in the coalition for the living wage and has been instrumental in campaigning for the living wage in local government.

I am supportive of Auckland Council’s status as an accredited Living Wage Employer. We want to see the council retain this accreditation and to continue to make the living wage a bare minimum that all workers – both employees and contractors – should be paid above.

I support Auckland Council’s track record in paying the living wage. We encourage the council to seek accreditation as a Living Wage Employer, joining at least seven local government employers that are already accredited. Accreditation has an impact that goes beyond just the council in setting a benchmark for other local employers to follow.

In decisions about resourcing for Auckland Council, I believe the living wage should be a bare minimum that all workers – both employees and contractors – should be paid above.

Paying a living wage can reduce absenteeism and sick leave, increase staff retention, increase productivity and improve the quality of worker output.<sup>3</sup> MBIE’s impact analysis on public service living wage increases noted, “there are also likely to be benefits to the local

<sup>1</sup> [Outsourcing and Insourcing in Australian Local Government: Productivity Commission’s \(2014\) Public Infrastructure Report and Municipal Road Maintenance and Renewal](#), Australian Services Union

<sup>2</sup> [MAPPING REMUNICIPALISATION: EMERGENT TRENDS IN THE GLOBAL DE-PRIVATISATION PROCESS](#), University of Glasgow and the European Research Council

<sup>3</sup> [Why you should pay a living wage | Sustainable Business Network](#)

economy, as low-wage workers and households tend to spend a higher proportion of wage gains on immediate needs and tend to spend a higher proportion within their local region.”<sup>4</sup>

## **Equal Pay**

Achieving equal pay for our members is one of the PSA’s four strategic goals. Equal pay is a human right and legal obligation, and has been a longstanding concern of the PSA. Gender and ethnic pay gaps are strong indications that pay is discriminatory. All workers should be paid a fair and decent wage.

Auckland Council is one of six councils with which the PSA has an active pay equity claim to address gender-based pay undervaluation of library assistants. The parties are currently in the bargaining phase of the claim. Although the full cost to councils will not be known until a settlement is reached, we recommend that the Long Term Plan take into account the likely need to fund increased pay rates to library workers in the near future.

We also recommend placing a priority in the Plan on working with the PSA to identify and close the gender pay gap.

I have an active pay equity claim to address gender-based pay undervaluation of library assistants working in New Zealand’s six largest councils. The parties are currently in the bargaining phase of the claim. Once a settlement is reached with the current six councils, discussions will need to be had with other councils on how to address the undervaluation for their library workers. We encourage Auckland Council to ensure the Long Term Plan takes into consideration the potential need to fund pay increases for these workers in the future.

We also recommend placing a priority in the Plan on working with the PSA to identify and close the gender pay gap.

## **Workload**

Safe workloads are critical for the health and wellbeing of workers, and the sustainable functioning of council services. Councils need to set aside enough resources to maintain staffing levels that will meet the volume of work required without resorting to unsafe workloads.

## **Exemplar employment relations**

The PSA seeks exemplar employment relations. This includes the people doing the work participating in shaping services both directly and through their union. Workers will provide a unique perspective, and have valuable knowledge about where council systems, processes and practices can be improved. We Auckland Council to engage constructively with us and involve staff in operational decision-making, both generally and in particular when it comes to improving efficiency and effectiveness of services.

Centre for Urban Studies and Labour Studies Centre, College of Urban, Labour and Metropolitan Affairs, Wayne State University. Cited in Cabinet paper [‘Implementing a minimum living wage rate for cleaners, caterers and security guards working under Public Service contracts’](#)

## Responsible procurement

Where council takes a decision to outsource services, it needs to look beyond the price of the service and take a holistic view of what it offers to the community.

The council should incentivise contracts that:

- provide good wages and conditions for local workers
- provide training and career pathways
- ensure worker participation
- provide decent and secure work
- reduce unemployment
- provides “good work”, as described by the New Zealand Council of Trade Unions and the Future of Work Forum<sup>5</sup>
- use tools such as the Gender Pay Principles to improve equity in the workplace<sup>6</sup>
- keep profits circulating within the local community
- ensure adequate re-investment in infrastructure over the long term
- support local iwi and improve relationships between mana whenua and local councils.

We want assurance that the council will require contractors to follow ‘responsible contractor’ policies, including best practice employment requirements, health and safety best practice, and a commitment to workforce and career development and job security.

## A just transition to a low-emissions future

An intact, functioning environment is in the public interest and a public good of irreplaceable value. Climate change is a critical threat to the health of our environment, and therefore our communities. At a local, national and global level we have done too little for too long, and now we urgently need ambitious action to address the causes of climate change.

Auckland Council needs to take much more ambitious action to Auckland’s climate impact. This should include initiatives to improve public and active transport; increase tree planting; and provide compact, affordable and energy-efficient housing that is close to essential facilities and amenities. Such initiatives should be designed with careful consideration of distributional impacts, so reducing emissions can also contribute to reducing rather than exacerbating inequality.

We also support actions taken by Auckland Council to respond to other environmental issues such as water quality degradation and loss of biodiversity.

## Public transport

As part of an equitable approach to reducing emissions, PSA supports the Free Fares campaign call for free public transport for Community Service Card holders, tertiary students and under-25s, and Total Mobility Card holders and their support people.

<sup>6</sup> Te Kawa Mataaho Public Service Commission. [Kia Toipoto — Public Service Pay Gaps Action Plan 2021–24](#)

Central government's recent move to temporarily reduce public transport pricing shows that reducing fares can be affordable if we choose to prioritise it. We encourage Auckland Council to provide subsidies beyond those currently provided by central government to make free or lower-cost fares available to a wider range of people. Free fares would boost ridership and contribute to the shift that's essential to meeting Aotearoa's carbon zero 2050 goal and address structural disadvantages in the transport system.<sup>7</sup>

**Proposal:**

Instead of reducing all of these things in pay less get less or increasing rates substantially in pay more get more, why don't council go along the lines of the central proposal. Not necessarily adopting (although a lot are favourable) but meeting in the middle of the 2 proposals, have slight increase of rates, still being able to deliver existing services, events, projects and potentially reinstating/partially and adding additional services at an extended period than planned or to support existing services already being delivered. All the whilst not actively/willingly contributing to financial hardships, poverty and other major life struggles we depend on including cost of living with basic human rights of food costs.

I am in full support of everything to with te reo and te ao Māori to continue being a commitment with council including being within their charters/policies, honouring Te Tiriti o Waitangi, implementing and actioning positive changes in support of te reo/te ao Māori despite anything central government is trying to do, focusing on maintaining relations/working with and communicating with iwi and hapu. A better, brighter future for our people, communities, our children and mokopuna.

Please show leadership, not following just because someone said to, be the local government who actually listens to their community and Aotearoa, who leads by/sets the example and shows that we are a collective, loving and diverse community. This will be remembered. Anything's possible when you put your mind to it. We will run smoothly and gain trust as long as we are listening and not only implementing but actioning the right changes with our communities at heart/in mind.

In conclusion, I believe in public services for the public good, not private profit and honouring Te Tiriti o Waitangi. I appreciate the opportunity to submit on the Long Term Plan.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do more
Environment and regulation	Do less
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

streetlight in Glenbrook Waiuku Road because its an accident prone area

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less speed camera as its only income gathering.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

I don’t know

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do more
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No, actually anything that is more ideal for our environment like recycling or recycling stations where individuals can return (eligible) recyclables, ie cans, beer bottles, milk cartons, juice & water bottles, to encourage more people to recycle.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#9723**

Not that I can think of.

**2. What do you think of the transport proposal?**

I don't know

**Tell us why:**

I just moved here so I'm not really sure.

**2a. Is there anything you would spend more on?**

No.

**2b. Is there anything you would spend less on?**

No.

**3. Which options do you support for the North Harbour Stadium?**

Change the operational management

**Tell us why:**

It seems doing this is in the best interest of the local community so why not.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**4b. Which option do you prefer for the future of Port of Auckland?**

**#9723**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Don't lease the port.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

No.

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

**Tell us why:**

If it benefits the local community/Auckland public then yes, also moving it won't affect the overall value or operations of the port.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

#9723

**Tell us why:**

More reasonable than the other options/ports.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	As proposed
Water	Do more
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	Do less
Economic and cultural development	As proposed
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

- 1) Hold on pay increases to all arms of Auckland council.
- 2) Less reliance and payments to consultant firms.

**#9986**

- 3) Less renovations to Council owned assets than necessary for Health and Safety and Maintenance.
- 4) Less contracted firms for maintenance.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

I support the most of the proposal for the transport proposal other than the two area described in 2b

### **2a. Is there anything you would spend more on?**

### **2b. Is there anything you would spend less on?**

- Waste of tax payers money "expand enforcement activities, including the types of infringements for vehicles that incorrectly use bus and transit lanes".

Increase the Development Contributions (DC) by a substantial amount for this. Not rate payers funds for new housing development transport infrastructure.

"undertake limited work supporting investment in priority housing areas, including \$866 million of transport investment for the Auckland Housing Programme areas supported by the Housing Acceleration Fund"

## **3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is, Change the operational management

**#9986**

**Tell us why:**

- 1) We have a first class stadium as it is. Any further development would be unnecessary expenditure due to limited funds for needs of the greater Auckland. Place proposal on the wish list for future development and sale of excess land.
- 2) Review and change if necessary the operational management due to over expenditure.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

The further cost of establishing an Auckland Future Fund would outweigh the benefits of holding onto this nest egg. I agree in part to selling the shares but only when absolutely necessary.

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

You cant build more land. Port of Auckland is already established without the cost of setting up the Auckland future fund. Agree we need to implement the plan to deliver improved profitability. Such a large landmark in Auckland should have better returns than the 2%. Reviewing the Port of Auckland Ltd management is imperative to better profitability.

#9986

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

**Tell us here:**

I disagree with the cost of setting up the Auckland future fund. Yes it may be long term gains but the cost of setting this up is currently unviable.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

No change – leave Captain Cook and Marsden wharves to be managed as part of the port operations

**Tell us why:**

Yes long term I would agree to the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland council. Now is not the time. We need to consolidate. Another wish list item for the future.

**5b. What option do you prefer for Bledisloe Terminal?**

Keep Bledisloe Terminal as a Port of Auckland operational area

**Tell us why:**

Not the time to do this.

## Papakura Local Board Priorities

**7b. What do you think of our proposed priorities for Papakura in 2024/2025?**

I support most priorities

**More specifically, what do you think of each priority we've listed above?**

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Very Important
We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual	Fairly Important

naming and storytelling of our parks and reserves.	
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	Very Important
We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	Not Important
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Fairly Important

**Tell us why**

I agree with some but not all. Wants and needs. Beautification is important in a low socio economic area.

We would like our industrial areas to be improved and supported to improve these areas. I believe this is the responsibility of the businesses in th

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

- "investment into the community sport network including Papakura Tennis and Squash". Long term wish list not immediate need.

**8. Do you have any other comments?**

I agree that local boards know their communities. They know what will work in their area and what would not.

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	As proposed
Parks and Community	Do more
Economic and cultural development	As proposed
Council support	Do more

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Services that would assist the elderly and the physically disabled, to travel to appointments, have greater access to events happening in and around Auckland.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#10124**

Less bus only lanes, with confusing signage about when you can use and not use them, often resulting in traffic offense fines.

## **2. What do you think of the transport proposal?**

Support all of the proposal

### **Tell us why:**

Would like to see a better public transport system so we can spend less time in cars use public transport more, especially would love to see a train that goes direct to the airport like the majority of cities in Australia.

### **2a. Is there anything you would spend more on?**

Getting trains going to more of the city, regularly so people can get to work stress free. Upgrading railway lines, and stations that are user friendly to older and disabled passengers.

### **2b. Is there anything you would spend less on?**

Overseas entertainers and music events that don't add value to our people, or our culture and are costly to stage.

## **3. Which options do you support for the North Harbour Stadium?**

Consider redeveloping the stadium precinct, Change the operational management

### **Tell us why:**

If you are spending so much on this facility it should deliver more to the residents of North shore.

## **4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Cultural celebration such as Diwali, or lantern festival, which is discriminatory in nature as only relevant to a minority of the population.

**#10236**

## 2. What do you think of the transport proposal?

Support most of the proposal

### Tell us why:

cutting cycle ways is dumb; the fact that they are not use that much is due to security concerns, as there is no traffic separation (like on the great south road in takanini, enforcement for cars not to use them or interconnectivity of the existing paths. The design used on Lambie drive by Mitre 10 & bunnings is really good and should be used as an example

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

as demonstrated in other parts of the world where this has happened, leasing the port will lead to an uncontrolled sharp increase in fees, which will be passed on the already stretched public. We might as well get increases benefit the public purse if the port is not privatised.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Continue to use it to fund council services

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	Do less
Environment and regulation	Do more
Parks and Community	Do more
Economic and cultural development	Do less
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

If the spending is right and very transparent with the amount of what it is worth. Spending should be done wisely.

Even paying above minimum wage to a position for a job nobody wants to do, e.g. sewage unblocker, rubbish sorters. Encourage and award these people to do these jobs. Not to charge rates payer more for less jobs done.

**#10591**

**1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?**

Need to sort out your budget right, spending money on art sculptures that most people wouldn't see or even have no use for is a waste. When government says time to save water, save money, save electricity, save this and that. Don't waste money on useless things that cannot to one of these.

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Developing is way too slow, the problem is there's just too much cars and public transport are just not reliable. You can have as many cycle lane, bus lanes, but they're not being used 24/7 of time. Prices for public transports are just too expensive. There's not many interweb routes, and if taking a bus is count by per head not by per stations, then I would consider taking buses. But \$7 for a 4 stages (7years ago) was already to expensive, and way too inconvenient at where the bus stop I have to go to.

**2a. Is there anything you would spend more on?**

Back in the 90s when petrol scooters weren't allowed on the footpath, and said was dangerous, and needs a rego because it's got a motor in it.

What about the electric scooters now? I see quite a few of them going on the roads and followed a couple at 50-60kms. Why do they get the acception to be on the road and no penalty? They have a motor too.

**2b. Is there anything you would spend less on?**

Stupid cycle lane barriers curb and speed bumps at wrong places.

The amount of cycle lanes I have seen taken from cars on road have not been used 24/7. If it is not being used then don't spend money on that, you'll make more traffic jam.

**3. Which options do you support for the North Harbour Stadium?**

**#10591**

Change the operational management

**Tell us why:**

If a stadium is not making money, then you should change the boss of the stadium. You can redevelop refurbished all you like, but then you'll add that cost to the community to pay it off, and puts them off from hiring or even go there. The stadium management needs to look at some other ways of utilizing the facilities to gain more revenue.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less poor quality road repairs that dont need redoing within 6 months. Do it once for a higher price, do it right. Make roads narrower, like Europe to save costs if need be.

**#10624**

Dont continue with the whole "Growth" plans. Auckland doesnt actually need to grow, and no one already here actually wants that, except for a few property developers/land bankers.

## **2. What do you think of the transport proposal?**

Support most of the proposal

### **Tell us why:**

We have to accept that Auckland is not a good shape, and is already developed to the point it is not cost effective to create these amazing networks now.

The solution should be the redevelopment of areas over time to make suburbs a lot more self contained, a wider distribution of jobs needs to be created to breakup the seas of residential to reduce the need to travel.

### **2a. Is there anything you would spend more on?**

The initial quality of road building - so that the ongoing costs can be reduced.

### **2b. Is there anything you would spend less on?**

repairing roads that arent bad when there are still roads in auckland that have no plan for fixing that were heavily damaged in last years storms

We know you value the community being brought together through free events which we will continue to support including the Anzac day events. This is particularly special to our area given the strong military history in Papakura.	Fairly Important
We will continue to support Māori-led initiatives and aspirations with Mātauranga Māori (Māori knowledge), including the Māori Wardens. We also are pleased to partner with mana whenua in the delivery of Te Kete Rukuruku project which is the dual naming and storytelling of our parks and reserves.	Fairly Important
We have recently been working on enhancements to the Te Koiwi Reserve pond and are looking at further work that can be done in this area.	Very Important

#10764

We will continue to support the Takanini Business Association in their Business Improvement District (BID) establishment.	Fairly Important
Papakura has a talented and culturally rich community, and we will continue to showcase this through the community arts programme.	Fairly Important

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do more
Water	Do more
City and local development	As proposed
Environment and regulation	Do more
Parks and Community	As proposed
Economic and cultural development	Do more
Council support	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#10814**

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

Cycleway initiatives are an important part in achieving environmental/climate outcomes and resilience in the long term. The more people cycling, the less strain on public transport and roading networks.

**2a. Is there anything you would spend more on?**

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

Keep the stadium precinct as it is

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Keep underlying ownership of the port land and wharves and enter into a lease for the port operations but for a shorter period of time than 35 years.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Other

**Tell us here:**

Split the profits between the two options.

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

**5a. What option do you prefer for Captain Cook and Marsden wharves?**

Proceed with the proposal to transfer Captain Cook and Marsden wharves from the port to Auckland Council so they can be used for something else that provides public benefit.

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

In this economic climate, we should be focused on paying less, not more. There is nothing I want to pay more for.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#10858**

Spend less money and time on generating and processing bureaucratic red tape.

**2. What do you think of the transport proposal?**

Support most of the proposal

**Tell us why:**

The budgets to complete raised pedestrian crossings and cycle ways is absurd. And over spent. Look at options to do these activities in a more cost effective manner. We should 100% be investing in resolving the current joke that is our public transport system in Auckland. We need more people to be in public transport, to reduce road traffic

**2a. Is there anything you would spend more on?**

I would set up an Inner City toll for CBD drivers with single occupants.

**2b. Is there anything you would spend less on?**

**3. Which options do you support for the North Harbour Stadium?**

**Tell us why:**

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

Proceed with the proposal

**Tell us why:**

The Ports land offers a prime area and central location for improving and increasing culture, art and foot traffic in the city.

**#10858**

The ideal scenario would see the Ports moved to an alternate location, and this area improved (ie, how Wynyard Quarter & precinct was)

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and lease the operation of the port for a period of about 35 years and use the upfront payment from the lease to invest in the proposed Auckland Future Fund

**Tell us here:**

Use the money paid for the 35yr lease to support gettingt us out of the financial chasm.

It's a lot to go through, however, focusing on economic outcomes, community sports, road maintenance advocacy, fair funding for local boards, and enhancing cultural initiatives is beneficial for the community's development and improvement.

**8. Do you have any other comments?**

Wow, this is a lot to process! It definitely needs more time to look into and understand the perspectives of those who don't have translations. Maybe we should think about extending consultation times so everyone can participate, and community groups could help with language support for those who find English tricky. It's important not to leave out groups who have valuable input to share, just saying, this is interesting...

## Your feedback

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	Do less
City and local development	Do less
Environment and regulation	Do less
Parks and Community	Do less
Economic and cultural development	Do less
Council support	Do less

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No. I can't afford to pay more for anything other than pay my mortgage (which is ridiculously high) & feed my kids.

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#11299**

I would expect the council to do more for the amount of rates we are expected to pay. Not do less. I barely see any evidence of the Council spending wisely. It's a misuse of our hard earned working pay.

**2. What do you think of the transport proposal?**

Don't support any of the proposal

**Tell us why:**

I don't use public transport so I shouldn't be expected to support other people using public transport by paying for it out of my rates.

**2a. Is there anything you would spend more on?**

No

**2b. Is there anything you would spend less on?**

Yes. Everything.

**3. Which options do you support for the North Harbour Stadium?**

I don't know

**Tell us why:**

I don't live in the North Shore so I don't understand why my rates should pay for a facility that I don't use.

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

I don't know

**#11299**

**Tell us why:**

I have no idea what this means or how it affects me or my family.

**4b. Which option do you prefer for the future of Port of Auckland?**

Other

**Tell us here:**

At the moment I can't see how I can afford anything other than supporting my family & their future families. Because everything is so expensive in Auckland I am considering relocating to Australia where we are not expected to make such huge sacrifices & can live comfortably without worries & stresses & financial difficulties.

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

I don't know

**Tell us here:**

**4d. Do you have any feedback on any other part of the proposal?**

No. If the money could go back into supporting families in poverty rather than making it easier for the rich then I would happily support it.

I'm happy to live in a community that provides basic necessities. We don't need anything additional if it means we need to pay higher rates.

**7c. What do you think of the Papakura proposed priorities for the 10-year budget 2024-2034?**

I love Papakura. But there is so much poverty. Expecting everyone to pay rates is increasing financial struggles. As an person who receives a fortnightly wage I am expected to live within my means & to budget. If I can't afford it then I can't have it. The same should apply to government & council plans. If we can't afford it then the plans should cease rather than expecting rate payers to pay more.

**#11299**

**8. Do you have any other comments?**

Please consider the many families who are already struggling financially. You may think your plans are to help us in the future but you can't be certain they will benefit us. In fact, the only people it will benefit will be the rich. The middle class & poor will be left worse off than ever.

### 1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

### 1b. What would you like Auckland Council to do more or less of?

Transport	Do less
Water	As proposed
City and local development	Do less
Environment and regulation	As proposed
Parks and Community	As proposed
Economic and cultural development	As proposed
Council support	As proposed

### 1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Not at all it's already hard for some of us living in Auckland owning a house if not easy thing every things going up expenses are going up only our wages are at same place so no point think about us not only the Rich people they can afford heaps of us can't

### 1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

**#11429**

Wasting money on stupid buses service I can give your routes number of the buses which they don't need to run that frequently you guys just wasting the money hardly people take those buses doing the time even

**2. What do you think of the transport proposal?**

Do not support most of the proposal

**Tell us why:**

Most of them are waste of money get out and reaserch about it and see do we actually need this how many people use that service

**2a. Is there anything you would spend more on?**

Fix the \*\*\*\*\* roads first get the right people and right product to fix the problems don't get temp people to do temp job. Get the proper stuff and people for that job

**2b. Is there anything you would spend less on?**

Spending money on transportation people hardly use it most of the time they running late or not working

**3. Which options do you support for the North Harbour Stadium?**

Other

**Tell us why:**

Ask the local people to pay more house rates for that because they are the one getting more profit for that stadium most of the rich people live those ways they can afford to pay more

**4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?**

**#11429**

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

**Tell us why:**

Just creating more pressure and expenses on tax payers

**4b. Which option do you prefer for the future of Port of Auckland?**

Retain underlying council ownership of port land and wharves, and continue council group operation of the port (through Port of Auckland Limited), and implement the plan to deliver improved profitability and more dividends to council

**Tell us here:**

Let the local hold the authorities not the outsider ofcourse

**4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?**

Invest in the proposed Auckland Future Fund

**Tell us here:**

Whatever you making extra use in right place what's your team doing ? What's the research department doing ? Why they getting paid top dollar if we all local gonna do there job ?

**4d. Do you have any feedback on any other part of the proposal?**

**Tell us here:**

Before you realise any money or funds check do they actually need it ? Don't just give away and then start crying we have no money to spend where we should be spending.

Urban development.

**2. What do you think of the transport proposal?**

Support all of the proposal

**Tell us why:**

It's good to give extra benefits to cyclists and pedestrians, but lets address the congestion and transport consistency first. If raised crossings need to be done, it needs to be because of safety, not just nice to have.

**2a. Is there anything you would spend more on?**

Network optimization and public transport.

**2b. Is there anything you would spend less on?**
